#### WHAT CO-OPERATION WILL DO

CENTRAL BAPTIST CHURCH

This church was formed by the consolidation of Grassland and Magnolia churches, two school house churches just four miles apart. For the benefit of other school house churches we will relate briefly the circumstances leading up to the organization of this Church.

During the early part of last year, the Missionary, Bro. Curry, was acting as supply pastor for both of these churches. At the suggestion of Brother Curry, each of them planted a 50 acre cotton crop in order to start a building fund. Eoth of these crops yielded well and netted, after all expenses were paid, around \$1700.00 each. As the crops were gathered and it became evident that a nice sum would be realized from each of them, the question of the two churches consolidating and building on half-way-ground began to be agitated. As a result, Central Church to-day has a building of her own valued at \$6000.00, pactically paid for, which stands as a monument to the work of Brother Curry as Missionary in the Brownfield Association.

There is one SURE WAY to know that you are getting a flawless title or leaving one of that kind for others-engage abstract specialists to draw up the abstract of title.

If there is anything against the property we will tell you; if everything is in its favor, you will be so informed. In short, you can pin your faith absolutely to what we report.
