HOME BUILDERS OFFERED PLANS

United States Will Furnish Data for Five Cents.

BOOKLET IS WORTH \$1,000

The man who plans to buy or build a home has been said to need the expert advice of a real estate dealer, a builder, a carpenter, an architect, a banker, a building and loan association, a landscape gardener, a plumber, an electrician, and a city building inspector. To get all that in the ordinary course of commercial or professional service would cost him at least \$1,000.

He can get it from the government through the division of building and housing of the Department of Commerce at Washington, D. C., for five cents. That insignificant sum will secure him a compilation of the best expert opinion that the department has been able to command. It is one of the results of Secretary Hoover's program of co-operation between the government and all building interests to establish better and more uniform standards for house construction and to disseminate information as to housing facilities.

Order "Parts" for New Types. Numerous standards for building material have been fixed and accepted by the building trade. Standard plans for small homes have been prepared and are available to the public at a nominal cost, and the architects are now working out a series of unit houses which give promise that ultimately some owners may enlarge or repair their houses merely by ordering "parts" or "units."

The government experts will tell you how much to pay for a house and the percentage of your income to devote to monthly or annual payments. They will advise you as to the amount of savings required, how to take care of your savings, and as to all phases of the financial operations you must see through in the course of acquiring a home.

They have suggestions to offer as to the location of a home with reference to transportation facilities, land values, character of the neighborhood, proximity of schools, parks and playgrounds, and having the title examined.

As to the house itself they have ideas that you may make yours with regard to general arrangement, living room and fireplace, dining room, kitchen, bedrooms and closets, bathroom, stairways, basement, exterior and setting. And when it comes to the actual building they will tell you about getting a permit, choosing a contractor, paying him and checking him up on the things that cannot be seen.

First Big Question. The first big question, if not the most important, for the would-be owner to settle, is as to how much he should pay for his property. This does not mean the determination of the value of the real estate he is to acquire and the cost of building, but rather how much he can afford to invest on the basis of his income. The government specialists in that line

after making extensive researches, have come to the conclusion that the value of house and lot ordinarily should be between one-and-two-thirds and two-and-a-half times the family income. This makes the usual proportion twice the income.

Thus, the man with a \$2,000 income can afford to own a \$4,000 home, while the man with \$5,000 a year can pay for and maintain a \$10,000 establishment.

Of course this estimate is not a hard and fast one. Differing conditions make for fluctuations in it. For example, a family living in a small town and having a garden and small poultry yard can afford a more expensive home than a family with the same income living in a city or suburb with higher taxes and street car or railroad fares to add to the cost of living. No definite rule or recommendation is made as to the percentage of the income that can or should be devoted to paying for the house and meeting the other expenses incident to owning a home.

However, it is pointed out that a family that is paying a sixth of its income for rent should be able to devote at least a fourth to buying and maintaining a house, for the amount thus used may include both rent and savings. In addition to interest payments and installments on the principal of a loan, however, allowance must be made for renewals and repairs, taxes, special assessments, insurance, water tax, fuel and other items that families accustomed to living in apartments sometimes overlook when making their home-owning plans.

Income and Cost Table. The government experts have worked out a table that is of great interest to home builders. It shows the value of the house and lot that can be afforded on an income of a certain amount or range, the amount of the first cash payment that must be made as a minimum, the amount of the loan that will be carried on the property, the amount that must be paid as interest and amortization, the estimated taxes, insurance and upkeep, the total annual expenses, the amount of savings included in that item and the part of the expenses comparable with rent.

It is stated that the table does not attempt to set up arbitrary standards but is fairly typical and should be useful as a basis from which to figure. The table shows that a family with an income of from \$1,200 to \$1,800 should be able to handle a \$3,000 property. The first cash payment would be \$600, leaving a loan of \$2,400, on which the interest and amortization charge at 12 1/2 per cent would be \$300 or \$25 per month. Taxes, insurance and upkeep are estimated at \$120, making a total annual payment of \$420, or \$35 per month, of which \$150 may be regarded as savings, during the first year, and \$270 as expenses comparable with rent. If the payments are made regularly the property will be free of debt in about twelve years.

Incomes of \$1,600 to \$2,400, \$2,600 to \$3,600, \$3,200 to \$4,800, \$3,600 to \$5,400 and \$4,000 to \$6,000 are worked out similarly in the table. On a \$5,000 income, which is the average of the figures used in the final computation, a \$10,000 home could be acquired. The annual payment would be \$1,400, of which \$600 would be expenses comparable with rent.

The governmental guide to home building says that plans should be designed by some competent person or bought from some organization that provides a complete plan service, such as the Architects' Small House Service bureaus, which are non-profit-making organizations, indorsed by the Department of Commerce. National headquarters of this service are at 1230 Second Avenue, South, Minneapolis and regional bureaus are maintained in New York city, Denver, Milwaukee, Portland, Ore.; Indianapolis and Pittsburgh. Each regional bureau specializes in plans for small homes especially adapted to its local territory, but does not undertake to supply plans for houses of more than six rooms.

The handbook contains statistics on home ownership by states, regional groups of states and the principal cities of the country.

Holland's Way. In several places the rivers in Holland make their entrances to the sea over extensive sand-beds, the water being so shallow that large vessels cannot sail in it. Rather than remove the sand-beds, which were looked upon in olden times as a defense, since they then kept men-of-war at a distance, the Dutch adopt the plan of sending out two large flat-bottomed craft to the small trading vessels that wish to enter the harbor. Arrived on either side the ship, three pontoons, as they may be called are partially sunk by admitting water, and when their sloping sides are well under the hull of the ship to be carried, the water is pumped out, and they rise buoyantly with their burdens between them. Across the shallows they then bear it in triumph, and lower it gently into the deeper water of the harbor. With equal care the return journey is made when the merchantman is ready to sail away.

Open Bribery. Jane had just commenced school, and the teacher asked her a question in numbers which she was unable to answer. She walked up to the teacher and said in a low voice: "If you won't ask me that I'll give you some of my animal crackers."

BOY SCOUTS FIND LOST INDIAN CAMP AT YONKERS

Death of Woodchuck Reveals 280-Year-Old Secret

New York—Aretomys Monax was a forest woodchuck, lean and thin as the woodland law says one should be. Last July he mysteriously disappeared from Rocky Lonesome Forest, Yonkers, where he and his ancestors had been curators or keepers of the secret location of the lost Indian village site of Arneperahin.

The Museum of Natural History troop of boy scouts, with a cabin near, interested in archeology, never discovered the site. When any of them approached it was Mr. Monax's duty to scurry squealing from the knoll in the black dirt of which were the relics, arrowheads, worked stones, etc., noisily down through underbrush to a thicket and into his hole. He never failed to decoy invaders away from the secret.

For 280 years the Monax family had kept the secret. Even Bolton's history does not fix the location of Arneperahin, though it tells how Director Kieft of Fort Amsterdam sent Ensign Hendricks Van Dyck with soldiers in March, 1643, to wipe out the Weckquaeskeek at Dobbs Ferry. Deceived by an Indian guide he reached the vicinity of Arneperahin, lost his way in Rocky Lonesome, and returned to Manhattan without firing a shot. The Indians deserted Arneperahin, leaving the woodchuck in charge.

Aretomys, short legs, grizzily yellow-gray coat, and black gloves on four feet, was a faithful curator until he discovered that bread and other waste food purloined from the scout camp was good. Then like Adam in Eden he grew fat and slothful. He disappeared to the sorrow of the scouts to whom he represented the wild animals once in the Sprain woods. They hunted vainly, and broke camp.

Recently the Appalachian Mountain club's New York chapter, following Van Dyck's war trail in the rock fastnesses, solved the mystery by finding under sere brakes beside a rabbit path a pathetic little heap of bones, all that was left of Mr. Monax. Grown fat against wilderness law, apoplexy overtook him. The door of his hole closed with golden leaves, no scurrying decoy to lead them away, the Appalachian folk went up the knoll where a quick eye detected a stone-pecking implement, and the secret of 280 years was out. And now, maybe, the Museum of the American Indian, Heye Foundation, will excavate there, and all because Mr. Monax ate forbidden food.

Man Who Commands Success.

A man who is not enamored of his job, who lacks that resolute, determined purpose which knows no defeat, recognizes no failure, is never a success. The man who is victory organized will get up more determined than ever after he is knocked down. The harder the fall the greater the rebound. You can't keep such a man down, you can't discourage him any more than you could have discouraged a Napoleon, for his personality, his character, will remain although his home, his property, and every material thing he possessed be swept away—New Success.

"Blue Nose."

Blue Nose is a popular name for a native of Nova Scotia. Hallburton, in "Sam Slick" gives the following account of its origin: "Pray, sir, said one of my fellow passengers, 'can you tell me why the Nova Scotians are called Blue Noses?' 'It is the name of a potato,' said I, 'which they produce in the greatest perfection, and honest to be the best in the world. The Americans have in consequence given them the nickname 'Blue Noses.'"

BRITAIN MAKES FAST "SUB"

X-1 Nearing Completion is Largest and Speediest.
The submarine X-1, nearing completion at a Chatham dockyard, for the British navy, will be the longest as well as the fastest submersible craft in the world, according to the London Morning Post. She will have a surface speed of 33 knots, enabling her to accompany battleships when steaming at full speed.
The submarine will carry six 5-inch guns, an armament said to be unique for an undersea craft. Her displacement will be 3,500 tons.
It is recalled that the first British submarines, built in 1901, displace 120 tons, and had a surface speed of nine knots.
A trip over town reveals scores of new residences just started, under construction or just completed. More residences have already been constructed, or at least started in January this year, than was constructed during the entire year 1923, and we thought we were growing then.
W. J. Shepherd left this week for the St. Louis market where he goes with other buyers for the string of Jones Dry Goods Stores to lay in a large supply of spring and summer dry goods for the store here.
Pat Green and wife, accompanied by his sister-in-law, Mrs. Hunt, of Lubbock, and mother-in-law, Mrs. Ates, were visitors here Sunday at the home of his brother-in-law, O. L. Jones and family.

Gone to Market

Mr. Sheppard our Manager is in St. Louis purchasing spring Merchandise. We are showing a beautiful assortment of Spring Hats, also new Coats, Capes and Dresses of latest styles.

BAPTISTS REPORT \$48,172,806 IN CASH

FORWARD MOVEMENT BRINGS IN
LARGE SUM FOR MISSIONS,
EDUCATION AND BENEVO-
LENCES.

ASK FOR \$27,000,000 MORE

This Sum Needed to Complete Cam-
paign Quota by End of 1924—
People Are Called to Prayer.

DR. L. R. SCARBOROUGH
Who Will Lead Southern Baptists in
Raising \$27,000,000 in 1924.

Up to December, 1923, Southern Baptists had paid in on their subscriptions to their 75 Million Campaign the sum of \$48,172,806.72. It is announced by the Campaign headquarters in Nashville, four years of the five-year period have now expired, leaving approximately \$27,000,000 to be raised by December, 1924. If the original Campaign objective is to be reached in the hope of obtaining this amount of money for the further advancement of all the general missionary, educational and benevolent enterprises fostered by Southern Baptists, the Campaign Conservation Commission has inaugurated an intensive effort that it is expected will reach every state district association and local church in the territory of the Southern Baptist Convention during this year.

Dr. L. R. Scarborough, who was general director of the original Campaign organization, has been asked to return to the Nashville headquarters from his home at Fort Worth for this closing year of the forward movement and give his personal attention to the direction of the special effort that will be waged for collecting the full \$75,000,000 by the time the period for the program expires in December next. Dr. Scarborough, through the assistance of the various state and association workers, will seek to enlist every Baptist in the South in some definite share in this closing year of the Campaign.

Baptists Have Big Income
While the goal that has been set for 1924 is considerably larger than any that has yet been attained by Southern Baptists in a single year, Dr. O. E. Bryan, budget and stewardship director of the Campaign, announces that Southern Baptists have an annual income of at least \$1,500,000,000 and he and the various state stewardship directors will continue their effort in enlisting the local churches in the matter of systematic and proportionate giving, with a view to developing Southern Baptists to the point that they will give according to their means, and give regularly week by week. A tenth of the Southern Baptist income, if given to the denomination, would make available for religious work each year the sum of \$150,000,000.

Each State Has Had Share
Indicating the sources from which the money already collected on the Campaign has come, the following contributions by states are announced: Alabama, \$2,295,971.64; Arkansas, \$1,647,304.13; District of Columbia, \$235,327.81; Florida, \$784,732.73; Georgia, \$4,383,448.02; Illinois, \$2,644,424.52; Kentucky, \$5,091,191.73; Louisiana, \$1,197,577.19; Maryland, \$399,451.11; Mississippi, \$2,494,281.79; Missouri, \$2,020,075.48; New Mexico, \$199,325.22; North Carolina, \$4,043,721.45; Oklahoma, \$1,204,843.74; South Carolina, \$4,002,327.60; Tennessee, \$2,117,181.25; Texas, \$7,820,497.81; Virginia, \$5,124,002.74; and specials from all sources, \$1,697,605.74.

On the basis of distributing agreed upon by the various states the following amounts have gone to the various causes co-operating in the Campaign: State missions, \$4,471,300.17; home missions, \$7,212,521.01; foreign missions, \$11,561,471.51; Christian education, \$13,842,300.00; Baptist seminaries, training schools, colleges and academies, \$12,454,505.57; 15 Baptist hospitals, \$2,147,774.25; 15 Baptist orphanages, \$2,372,096.47; and ministerial relief, \$1,638,048.23.

After conference with the general missionary, educational and benevolent causes which are embraced in the Campaign, Dr. Scarborough announces that raising of \$27,000,000 in 1924 will not only enable all Southern Baptist enterprises to meet all their obligations but to make large advances at home and abroad as well.

It will be a pleasure to have you call and let us show you our splendid stock of trees, all in 1st class condition. Our Nursery is located 2 block south of the high school building.

J. B. KING, Prop.

SOUTHWESTERN DIVISION ORIGINATES SYSTEM

Red Cross in Seven States Has Traveling Nutrition Teachers.

The Southwestern Division, American Red Cross, has originated a new form of nutrition instruction which is being copied by other divisions throughout the United States. The Southwestern Division embraces the states of Arkansas, Colorado, Kansas, Missouri, New Mexico, Oklahoma and Texas.

This plan is that of the itinerant nutrition worker. Three years ago two such workers were put into the field by the division. Last year the number was increased to seven and now there are twenty, with a constantly growing demand for more.

The itinerant nutrition worker is the worker who goes from chapter to chapter instructing classes in nutrition, talking to schools on proper food values, addressing Mothers' Clubs and other organizations on the importance of proper diet to correct the results of malnutrition among American children.

Here is the way the itinerant worker organizes her work, according to the Director of Nutrition Service in St. Louis: Under the advice of local physicians who made a school examination, she plans a program for the children suffering from malnutrition. This program consists of instruction to all school children, with special instruction to underweights under the advice of physicians, to mothers of children of pre-school age where these mothers are made to realize the relation of food to growth, to health, to bone development, teeth development and the relation of food to blood, even to heart action. In this mothers are shown pictures of animal experimentation, where growth is stunted from the absence of enough milk in diet, where legs become paralyzed when certain foods containing essential vitamins are kept from diet. Mothers also are given pre-natal instruction in relation of food to the development of the unborn child.

Home visits play a large part in the reaching of mothers and children. The itinerant worker remains in a chapter from two to six months in order to reach the entire community with this instruction. She also instructs local teachers in elementary nutrition and plans with them on how to carry on the work after she has gone. The following year she returns for another short period, checking up on the results of her former visit and then opening new classes.

In the states of the Southwestern Division the itinerant workers serve eleven chapters in Arkansas, three in Kansas, twelve in Missouri, six in Oklahoma and twenty-two in Texas.

THE COMMERCE HOTEL

We are pleased to announce that we are located at Commerce Hotel for the year 1924 and for good eats and clean beds we solicit your patronage. Respectfully, Mrs. Padgett.

One year: In Terry county, \$1.00; rest of Texas, Oklahoma and New Mexico, \$1.25; all other states, \$1.50. The six month rate on the above will be 50c; 65c and 75c. The three month rate will be 25c; 35c and 40c.

Advertising Rates on Application

We note that Lubbock has imported a police chief from Oklahoma. Wonder what has become of all the "he-men" of the South Plains metropolis?

Denton, Texas, citizens seem to be grooming editor W. C. Edwards for the lieutenant governor's chair. Editor Edwards guides the destinies of the daily Record-Chronicle, and we hate to see a good editor and citizen ruined with a political bee.

The Ward County News announces that if the Republicans has a plank in their platform denouncing the K.K.K. and the democrats do not, he is going to vote the Republican ticket. While the Herald is not any K.K.K., it has been a democrat too long to let anything like that stop us now, and we aim to line right up with the K.K.K. Democrats this fall and vote 'er straight again. We have some mighty good friends, unless we are badly deceived, that belong to the Ku Klux Klan, as well as many that oppose it.

Our clean-up editorial got some attention last week we know, for we have heard some comment on it that was wholly agreeable, and none that was adverse. All agreed that the rear of most of our restaurants are little less filthy than an up to date pig sty. One citizen informed us that the city now had sufficient funds to start a clean up campaign that should spread to the residence section; that he thought the resident sections will then have pride enough to clean up their own premises. Let the work be started.

There is nearly five million dollars on deposit in the Lubbock county banks.

Rev. D. D. Johnson of Lubbock filled the pulpit Sunday at the Presbyterian church at both morning and evening services. He announced at the Sunday night service that he would preach for this congregation regularly the 4th Sunday in each month. Rev. Johnson is a man of culture and a fluent speaker, and the local Presbyterians are glad to get his services each month.

Honesty is a great thing. Now listen! Be honest with yourself and family and have their pictures made while you have them with you—Photographer.

HARRIS HAPPENINGS
By Sand Bur.

Mrs. E. H. Tandy is on the sick list this week.

Brit Clare is away this week helping to appraise the John W. Gordon possessions.

F. M. Ellington and S. T. Murphey each took a bale of bolls to the gin Thursday returning Friday.

Brit Clare was a grand juror last week.

Dewey Murphey and family visited S. T. Murphey and family one night last week.

We have a new organ at our school house and we hope the teacher and pupils will enjoy it, and make as much use of it as possible. It is a fact recognized by nearly all patrons and trustees that music is a necessity in the public schools. The school into which no music enters, must, to say the least, be a dreary place. Music breaks the monotony, cheers the pupil as well as the teacher, and also brings into the school some of the sunshine God meant for us to have, making the other work easier. It has been said that "music hath charms to sooth the savage beast." This has been proven to be true, and many times songs will remove all ill temper and ugly feelings, and replace them with peace and happiness. While the children can learn to sing without an organ or piano, they can learn much more easily, more quickly and more correctly with them.

L. D. RANKIN IS ACTING POSTMASTER OF LUBBOCK

L. D. Rankin, a citizen of Lubbock for the past 22 years, and who has lived in the city for the past 17 years, was today appointed temporary postmaster of the city of Lubbock by President Calvin Coolidge.

Rankin will continue to act as postmaster until the examination to be held shortly for all applicants for the position to fill the unexpired term of Dr. H. C. Duering, pioneer pharmacist, who died a victim of erysipilis. Prior to his appointment to the office of postmaster Rankin was engaged in the hardware business in this city. He will be an applicant for the permanent appointment following the calling of the examination to be staged by the national postal department.—Lubbock Avalanche.

Bernice Holgate, the 8 year old daughter of Bob Holgate died at the Lubbock Sanitarium Wednesday at 4:00 A. M., and her body was laid to rest in the Brownfield Cemetery at 4:30 P.M. same day. Her death followed complications after having the measles. The sympathy of the entire community goes out to Bob and children, as he has just recently lost his wife, and has had a lot of sickness and operations himself in the past two years. Other members of the family are and have been seriously ill recently.

O. M. Daniel, of Tatum, formerly of this place—in fact one of the old timers—was over this week on business.

ONE KILOWATT HOUR

A yard is not just a means of measuring yards. Rather, it is a means of measuring a certain amount of cloth or some other commodity spoken of in literal terms.

Likewise, a kilowatt hour is not just a means of measuring electricity but is a means of measuring the amount of a certain service electricity is capable of doing.

The French government, after exhaustive research and experiment, has drawn up a list of tasks that can be done by one kilowatt hour of electrical energy. It will:

- 1—Drive a sewing machine for 20 hours.
- 2—Save 1.05 gallons of kerosene.
- 3—Clean 15 steel table knives for a year.
- 4—Clips 5 horses or 25 sheep.
- 5—Heat water for shaving for one month.
- 6—Heat a flat iron for three hours
- 7—Heat a curling iron for twenty mornings.
- 8—Incubate 250 eggs.
- 9—Milk 20 cows.
- 10—Separate 350 gallons of milk.
- 11—Churn 400 pounds of butter.

Be Sure It Is His To Sell

The piece of land that you are considering buying may measure right up to your standards in soils, water supply and location. It may be selling at a reasonable price. But there is one thing more—BE SURE IT IS HIS TO SELL.

That is something that he cannot possibly know himself, unless an expert has dug up the past history of that particular piece of land and searched the title. A cloud on the title will make trouble for you later. Law suits are likely to cut into the income you are counting on from that property. And you will never feel easy in your mind. Insist upon an Abstract of Title—made by an expert. It is your only guaranty of security.

This Company makes Abstracts and does nothing else. We are specialists, with the training, experience, equipment, and facilities of specialists. Talk it over with us.

C. R. RAMBO, Abstracter
BROWNFIELD, (Terry County) TEXAS

Ford
THE UNIVERSAL CAR

Forecasting A Tremendous Spring Demand

739,626

more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

Ford Motor Company
Detroit, Michigan

A small deposit down, with easy payment of the balance arranged at your convenience under the Ford Weekly Purchase Plan, will put your order on the preferred list for spring delivery.

RED CROSS MET TEST IN JAPAN FUND DRIVE

Spirit of Service Demonstrated in Readiness for Nationwide Activity.

When President Coolidge by proclamation designated the American Red Cross as the medium through which contributions for relief of the Japanese earthquake sufferers should flow the President's desire came as an order to the Red Cross. Immediately the entire machinery of the organization was put in motion and within 24 hours the fund campaign was moving with vigor in every part of the country.

This emergency test demonstrated the peacetime readiness of the Red Cross to cope with stupendous tasks in behalf of humanity. Within a month it had collected upwards of \$10,250,000 in contributions, landed ten cargoes of supplies at Japanese ports and was keeping pace with relief requirements—all without a single dollar of the fund being spent for administration.

President Coolidge, in expressing his thanks to the people, said: "When the news of the tragedy in Japan first reached us, the American Red Cross pursuant to a proclamation, asked the country for \$5,000,000 to meet the great emergency. The answer to this appeal was prompt and generous; in less than two weeks a sum far in excess of the original goal was given."

The work of the Red Cross for Japan is expected to influence a very large enrollment of new recruits during the Roll Call, which starts Armistice Day.

Red Cross First Aid Standards Adopted In Great Industries

First aid in an emergency which assures the injured competent attention until the doctor arrives is making marked headway through the work of the Chapters of the American Red Cross. In populous centers 314 chapters conduct first aid classes and last year awarded 1,500 certificates to students. Eight big telephone companies have enlisted their workers in first aid classes, police and fire departments in large cities are making the course compulsory in their training schools and through colleges and high schools large groups of students receive instruction. The Red Cross also gives this course through Boy Scouts, Girl Scouts, Y. M. C. A. and similar organizations, and its standard methods have been adopted by railroads, electric and gas companies, mines and in the metal industries. The aim of this Red Cross service is to cut down radically the average of 60,000 accidental deaths per year in the United States.

Put Romance Before Truth. Inaccuracies in history and anecdotes with no foundation of fact may be blamed on some of the older historians. The men who first wrote of Colonial and Revolutionary times often

tried to make their accounts romantic and picturesque by revising history to suit themselves, because they did not see that the real facts were more romantic than their embellishments could make them. Our histories, paintings, poetry and traditions are still influenced by their work.

H. N. Taylor, prominent southside farmer was in on business this week.

L. Townsend, prominent farmer of old Yoakum, was in after supplies the first of the week.

A special came over the Santa Fe Tuesday with General Manager Lehman and Assistant Gen. Mgr. Meyers, both of Amarillo and Supt. J. E. Anton, of the Slatton division. They were on a tour of inspection of this branch.

One of the best citizens of Brownfield vicinity is leaving this week for Sweetwater. We mean W. E. Wilkinson, one of our best farmers. He says however, that he is not burning any bridges, and that if he was going to continue to farm, he would rather do that here than any place he knows of. J. C. Phillips and family are taking charge of the place he is leaving and we understand Mr. Phillips is a good citizen.

\$100,000 PEACE PLAN PRIZE AWARDED

Advocates Entering World Court and Cooperation With League Without Full Membership at Present—Suggests League Membership Be Opened to All Nations and Provides for Development of International Law.

The American Peace Award brought forth 22,165 plans and many thousands of letters. Since many of the plans were the composite work of organizations, universities, etc., a single plan often represented the views of hundreds or thousands of individuals. The content of these plans is therefore an index of the general feeling and judgment of hundreds of thousands of American citizens.

These plans come from every group in American life. Some are obviously from lifelong students of history and international law. Some are from persons who have studied little, but who have themselves seen and felt the horror of war—or who are even now living out its tragedy.

But among them all are these dominant currents: that, if war is honestly to be prevented, there must be a free-voiced opinion on the part of the nations in their attitude toward it; that by some progressive agreement the manufacture and purchase of the munitions of war must be limited or stopped; that while no political mechanism alone will insure cooperation among the nations, there must be some machinery of cooperation if the will to cooperate is to be made effective; that mutual counsel among the nations is the real hope for bringing about the disavowal of war by the open avowal of its real causes and open discussion of them; and finally that there must be some means of defining, recording, interpreting and developing the law of nations.

Statement of Jury of Award

The Jury of Award realizes that there is no one approach to world peace, and that it is necessary to recognize not merely political but also psychological and economic factors.

The only possible pathway to international agreement with reference to these complicated and difficult factors is through mutual counsel and cooperation which the plan selected contemplates. It is therefore the unanimous opinion of the Jury that of the 22,165 plans submitted, Plan Number 1469 is "the best practicable plan by which the United States may cooperate with other nations to achieve and preserve the peace of the world."

It is the unanimous hope of the Jury that the first fruit of the mutual counsel and cooperation among the nations which will result from the adoption of the plan selected will be a general prohibition of the manufacture and sale of all materials of war.

BRAND WHITLOCK

The Question to Be Voted Upon
The substantial provisions which constitute the plan selected by the Jury of Award, and upon which the vote of the American people is asked, are hereby submitted by the Policy Committee as follows:

I. ENTER THE PERMANENT COURT

That the United States adhere to the Permanent Court of International Justice for the reasons and under the conditions stated by Secretary Hughes and President Harding in February, 1923.

II. COOPERATE WITH THE LEAGUE OF NATIONS, WITHOUT FULL MEMBERSHIP AT PRESENT

That without becoming a member of the League of Nations as at present constituted, the United States Government should extend its present cooperation with the League and propose participation in the work of its Assembly and Council under the following conditions and reservations:

Safeguarding of Monroe Doctrine

1. The United States accepts the League of Nations as an instrument of mutual counsel, but it will assume no obligation to interfere with political questions of policy or internal administration of any foreign state.

In uniting its efforts with those of other States for the preservation of peace and the promotion of the common welfare, the United States insists upon the safeguarding of the Monroe Doctrine and does not abandon its traditional attitude concerning American independence of the Old World and does not consent to submit its long established policy concerning questions regarded by it as purely American to the recommendation or decision of other Powers.

No Military or Economic Force

2. That the only kind of compulsion which nations can freely engage to apply to each other in the name of Peace is that which arises from conference, from moral judgment, from full publicity, and from the power of public opinion.

The United States would assume no obligations under Article X in its present form, or under Article XVI in its present form in the Covenant, or in its amended form as now proposed, unless in any particular case Congress has authorized such action.

The United States proposes that Articles X and XVI be either dropped altogether or so amended and changed as to eliminate any suggestion of a general agreement to use coercion for obtaining conformity to the pledges of the Covenant.

No Obligations Under Versailles Treaty

3. That the United States will accept no responsibilities under the Treaty of Versailles unless in any particular case Congress has authorized such action.

League Open to All Nations

4. The United States Government proposes that Article I of the Covenant be construed and applied, or, if necessary, redrafted, so that admission to the League shall be assured to any self-governing State that wishes to join and that receives the favorable vote of two-thirds of the Assembly.

Development of International Law

5. As a condition of its participation in the work and councils of the League, the United States asks that the Assembly and Council consent—or obtain authority—to begin collaboration for the revision and development of international law, employing for this purpose the aid of a commission of jurists. This Commission would be directed to formulate anew existing rules of the law of nations, to reconcile divergent opinions, to consider points hitherto inadequately provided for but vital to the maintenance of international justice, and in general to define the social rights and duties of States. The recommendations of the Commission would be presented from time to time, in proper form for consideration, to the Assembly as to a recommending if not a law-making body.

Author's Name Not to Be Revealed Until After Referendum

In order that the vote may be taken solely upon the merits of the plan, the Policy Committee, with the acquiescence of Mr. Bok, has decided not to disclose the authorship of the plan until after the referendum. The identity is unknown to the members of the Jury of Award and the Policy Committee, except one delegated member.

FILIPINO, SON OF YANK, HEIR TO \$7,000,000

Halfbreed Lad May Get Royalties From Oil Wells.

Newkirk, Okla.—A Filipino boy of thirteen is believed to be heir to millions of dollars of oil royalties from local wells. Dugal Carmichael, who died after army service in the Philippines, did not get to enjoy sudden riches from the oil strike on his land here, but his son by a Filipino wife may get the wealth.

Gregorio Velasquez Carmichael is the boy's name and he now has a guardian and a formidable group of attorneys to fight for his share in his father's land. It is believed Gregorio's share is in excess of \$7,000,000. Royalties covering a two-weeks period recently aggregated \$58,000.

All the years of Gregorio's life have been spent in an inland town, remote from civilization, on one of the lesser of the Philippine group of islands. There, in the small city of Arayat, Province of Pampanga, he has played in the half wild, tropical foothills, on the streets of the little inland town.

Almost two years have been spent in searching and attempts to get in communication with the small son of Dugal Carmichael. Part of this time this search was carried on by Federico M. Unson, a young native lawyer of the island, who had been a classmate of a local attorney in a Northern university.

Scant trace had been left of Carmichael in the ranks of the United States army. The hunt was made the more difficult since the soldier's widow had remarried.

Whether Gregorio is the son of Dugal Carmichael will be determined either by concession of the interested oil companies or by a court battle. Another Filipino woman also is claiming her son is a son of Carmichael.

The Comar and Maryland Oil companies hold leases on the Carmichael property.

Dope Valued at \$250,000 Destroyed by Government

Washington.—Looks like a bunch of trash, but it happens to be dope valued at \$250,000, bootleg prices, seized by federal agents and collected at Washington for destruction in a furnace at the office of Col. L. G. Nutt of the narcotic division of the bureau of internal revenue. This picture was made shortly before the destruction of the dope. Col. L. G. Nutt is shown at the left and Col. O. G. Forrer on the right.

Wife's Spirit Blamed for Man's Sudden Death

Bayonne, N. J.—Detectives investigated the strange death of Max Micholek, found dead in his home, 88 East Twenty-sixth street, Bayonne, three weeks after his dying wife's threat that she "would come back for him." An autopsy was ordered.

George Micholek, eldest son, told the police his father was brutal, driving him from his home when he was a small boy. He said he had returned only when hearing of his mother's illness. The father, he asserted, had abused Mrs. Micholek just before her death, and she then made the threat she "would come back after him." A few minutes later she died. Relatives told the police they believe some mysterious influence caused his death.

Nice, Gentle Volcano Offered Rich Americans

Washington.—Certain Bolivian gentlemen want to sell Tattio, a nice, gentle volcano on the Chilean-Bolivian frontier, to some wealthy American. It was announced in the Commerce department's list of trade opportunities.

Tattio is guaranteed extinct. Instead of emitting the fire and smoke of its youth it is content now, in old age, with exuding clouds of superheated steam through the cracks of its ancient sides. This can be converted into electric power capable of producing 400,000,000 horsepower a year. It is maintained.

Man Gets Back Coin He Marked 17 Years Ago

Paducah, Ky.—Seventeen years ago. Oral Williams, a decorator residing at Booneville, Mo., stamped his name on a quarter of a dollar and spent it. Recently C. D. Williams, a brother, residing here, found the marked quarter in the cash register of his store and sent it to his brother, who still resides in Booneville.

VETERANS' HOSPITAL TO HAVE NEWSPAPER

Fort Lyon, Colorado, Veterans' Hospital has acquired a print shop. The newspaper has not been started yet but the first issue will appear shortly. A small hand press has been donated to the hospital by friends and the print shop has been opened in the Red Cross Headquarters. Patients in the hospital who are printers by trade have volunteered to set the type and make up and print the paper and other patients who have been newspaper writers and advertising copy writers will edit it. It is believed this is the first print shop to be run by the patients in any of the veterans' hospitals, and much enthusiasm already is manifested in the forthcoming initial issue of the paper.

Consolation.

From the agony column: "Young man, recently rejected, desires apartments adjoining those of young couple possessed of a baby that cries all night, causing father to promenade in pajamas; good loud sweater preferred."—Boston Transcript.

Source of Anecdote.

The word anecdote is derived from three Greek words, meaning "not given out." In other words, an anecdote meant something not to be told, instead of the opposite meaning now current.

 Purina Chows make layers out of hens. Purina Chows cost little or no more than ordinary feeds, and they produce more eggs than other feeds on the market. That's why we picked Purina, as the chows to sell. Pure, clean, honestly made, they are sold under the iron-bound guarantee of more eggs or money back, when fed according to the simple directions. Drop in if you want more eggs right now.

BOWERS BROTHERS
 Located on track east of depot.

ONE HUNDRED YEARS AGO

In 1824—Abraham Lincoln, a lad of 15 years was working on a ferry-boat on the Ohio, for \$6 per month. The Marquis de LaFayette visited America, and was received with tre-

mendous acclaim by crowds of cheering people wherever he went. Steam ferries were operated for the first time between New York and Brooklyn. An epidemic of yellow fever was raging in Louisiana.

The manufacture of flannel by water power was first started at Amesbury, Mass.

An English bricklayer named Joseph Aspdin, took a patent for a material he called "portland cement" naming it portland because when it hardened it resembled a grey stone found on the Isle of Portland off the coast of England.

The Erie canal, connecting Great Lakes with New York, was rapidly being completed. The first steamboat passed through the canal from Rochester to Albany.

Anthracite coal was used for the first time in New York.

The Colorado beetle, commonly known as the potato bug, made its first appearance in Wisconsin.

The first three story brick house had just been completed in Brooklyn, N. Y. The town had a population of 7,000. The houses had just been numbered and some of the streets paved.

There was much excitement in the country over the presidential election, due to the large number of candidates. John Quincy Adams represented the East; Crawford the South and Clay and Jackson the West.

Mr. J. O. Jones, of Lubbock, Vice-President of the Security State Bank of that city, was here and at Seagraves on business this week.

SCHOOL NOTES

The school continues to grow. The enrollment had grown to a total of 575 with the close of the week of January 18th.

Two teachers were added when the school reopened after the Christmas holidays to relieve the congestion. Miss Mary Griffith was employed to care for the overflow from the 3rd and fourth grades, and Miss Clara Bridges was employed to take care of the congested fifth and seventh grades. Miss Lone Wright was employed by the board to take the place of Mrs. Bowers, who resigned the English department.

The mid-term examinations are over and a high percentage of those enrolled both in the grades and the high school were promoted to higher divisions of the respective classes.

The following are entitled to have their names appear on the honor roll for the past six weeks:

Freshmen: James Harley Dallas, 97; Arthur Snodgrass, 94; Leta Mae French, 94; Mamie Sue Flache, 91; Day Young, 91.

Sophmores: Nina Burnett, 92; Laura Head, 91; Thelma McPherson, 88; Ruth Johnson, 90; Darrell Jackson, 88; Bessie Burnett, 88.

Juniors: Joel Enlish and Vallie Holt.

Seniors: John Rankin, 98; Edna Beard, 95; Margaret Bell, 93; Twinkie Burnett, 93; Good Harden, 91.

Fourth Grade: Pauline Hunter, 95; Ollie Brown, 94; H. H. Copeland, 95; Richard Holgate, 93; R. L. Lewis, 94; Alina Brown, 92; R. W. Rambo, 91; La Trelle Moore, 96; Janet Brown, 93; James Coker, 92; Lenore Brownfield, 95; Kathrin Holgate, 95; Don King, 93; Jake Covey, 93; Fayne Smith, 91; Murphey May, 91; Billie Plain, 91.

Fifth Grade: Terrell Miller, 90; Barney Holgate, 89; Velma McClish, 87; Doris Bandy, 87; Mary Corning, 87; Nonnie Lauderdale, 86; Norma Dell Welch, 86.

Sixth Grade: Julia Head, 95; Bertie Lee Daniel, 90; Edna Byers, 90; Christine Sawyer, 90.

Seventh Grade: Helen Jackson, 95; Fay Brown, 95; Vivian Winston, 93; Ada Snodgrass, 91; Lois Shaffer, 90; Lou Ellen Brown, 89; Vana Covey, 88; Billie Collins, 85; O. J. Daniels, 85.

MEADOW BRIEFS

By Anaculapias

The past week finds Meadow still adding to her already large building program. A new house is going up just south of the bank to be used by a firm from Floydada for general merchandise, thus adding another business to Meadow. We wish for them a successful business.

There is also projected a new building just west of the present Jones Hardware Co., to be used by a

YOUR BUSINESS

You can look on this business as yours, as your representative in buying the kind of quality material you ought to have at your calling. Our function is to serve YOU with our knowledge of material, providing what is right, and seeing that you get it as reasonable as possible.

HIGGINBOTHAM-BARTLETT CO.

Brownfield, Texas

grocery concern, at once.

The great demand for building material is taxing the ability of the lumber yards to keep in material; in fact the demand is greater than the supply.

We are to have in the near future a new bank in the place of the old Bank of Meadow. It is capitalized at \$25,000 and the amount has been subscribed. It will be the Guaranty State Bank of Meadow. The present officers will be the heads of the new bank.

The box supper at the school house was a great success, netting \$239.00, thus paying balance on the piano and leaving a balance for other purposes.

Measles are still rampant among our people and will probably continue until it uses up what material there is among us.

Mr. J. W. Peeler is out on crutches after a month's stay in bed with a fractured knee cap and a spell of plurecy. He says he is feeling fine and looks it, having grown quite a beard during confinement.

The country is still full of prospectors and many land transfers are being made. To the northwest of us large bodies of land are being put in cultivation and houses constructed, and the present outlook is that the population of the community will be more than doubled.

Two new comers made their appearance this week via the stork route. A girl at the home of Mr. Tichnor and a boy at the residence of P. T. Deckard. Perry is jubilant over the arrival of this boy, as four sisters has preceded him, and he had just about given up hope that the name Deckard would be perpetuated, when the unexpected happened, and there is a light in the window these

nights and the passer by can hear the tramp! tramp!! of the boy marching Perry about the room. The house of Deckhard is safe.

There was a representative of the Plains Journal in our midst the past week and he appears to have bagged quite a number of subscribers. He promised to write up the happenings of Meadow each week, which is alright, but it appears to me that the Herald should come and occupy its own territory.

UNDERESTIMATING THE DANGER OF MEASLES

"They'll have to have them sooner or later, so I suppose they just as well have them now when all the other children are staying in, too," is a well nigh homicidal attitude of many parents when their children have been exposed to measles, or when during slight attacks of measles, they want to join their playmates.

Perhaps if these parents knew that in the one year 1920, 10,000 children in the United States died from measles, that many more died from bronchopneumonia following measles, or later from tuberculosis, and that other thousands were left to suffer lifelong from weak eyes and running ears, they would regard measles with appropriate dread, instead of one of the lesser ills that every child is heir to.—Hygeia.

J. R. Hill was in Monday and informed us that if a deal he was now on to sell his place went through, he would again become a citizen of this city.

F. M. Ellington was in with his last remnant of cotton, Saturday.
