BROWNFIELD, TERRY COUNTY, TEXAS, AUGUST 1, 1924

NUMBER 51

HOW TERRY COUNTY VOTED LAST SATURDAY

Owing to the fact that no records were made in the state race here Saturday, we are only able to give the vote in the county race (unofficial) but the entire vote will be counted Saturday by the County Executive Committee, and we will give our readers the official vote next week from U. S. Senator to Constable.

While there was no concealing the fact that there was a fight on over the ku klux question, the election went off as quietly and peaceably and as good humorably as any we ever saw, until Sunday morning when the regrettable killing took place and which all good citizens sincerely regret. The so-called Farm Labor Union-Anti Klan faction won most of the offices that were finally decided. However, there were lots of people who seemingly paid no attention to that issue and voted independently. The following was the result:

For County Judge	
H. R. Winston	757
Raymond Simms	638
No contest in County Attorney race and Judge Geo. W. Neill re-elected.	
For Sheriff and Tax Collector	
R. E. Burnett	247
Wood E. Johnson	486
F. M. Ellington	681
There will be a run off in this race between Johnson and Ellington.	
For County and District Clerk	
Rex L. Headstream	245
Jay Barrett	600
Miss Lillian Webb	558
There will be a run off in this race between Barrett and Miss Webb.	
For County Tax Assessor	
J. C. Green	771
J. C. Scudday Jr.	610
For County Treasurer	
Bob Holgate	678
Mrs. Lula Smith	728
For Public Weigher Pre. No. 1	
W. A. Bynum	357
J. S. Smith	438
Commissioner Pre. No. 1	
D. S. Cunningham	147
W. E. Harred	166
Commissioner Pre. No. 2	
W. F. Stewart	249
J. J. Nettles	227
Commissioner Precinct No. 3	
T. O. Hooker	109
W. C. Brown	100
Commissioner Pre. No. 4	
W. H. Black	132
R. E. Thomas	64
For County Chairman	
R. M. Kendrick	196

Yoakum County

There will be no run offs in Yoakum county as Sheriff Keller defeated both his opponents combined and Mr. Been got more votes than both of his opponents in the race for Commissioner of Pre. No. 3.

The next set of county officials of Yoakum county will be:
R. P. Mooreland, County Judge
W. H. Hague, County Clerk
J. C. Keller, Sheriff and Tax Col.
Press McGinty, Tax Assessor.
Mrs. Betty Criswell, Treasurer.
Pat McHugh, Com. Pre. No. 1.
T. F. Fullingim, Com. Pre. No. 2.
Vergil Been, Com. Pre. No. 3.
P. M. Williams, Com. Pre. No. 4.

TO THE VOTERS AND CITIZENS OF TERRY COUNTY

I take this means of thanking the good people of Terry County for their vote and influence as shown by the returns of the election held last Saturday, July 26th, and will try to show my appreciation by service rendered in the next two years.

Sincerely,
H. R. Winston

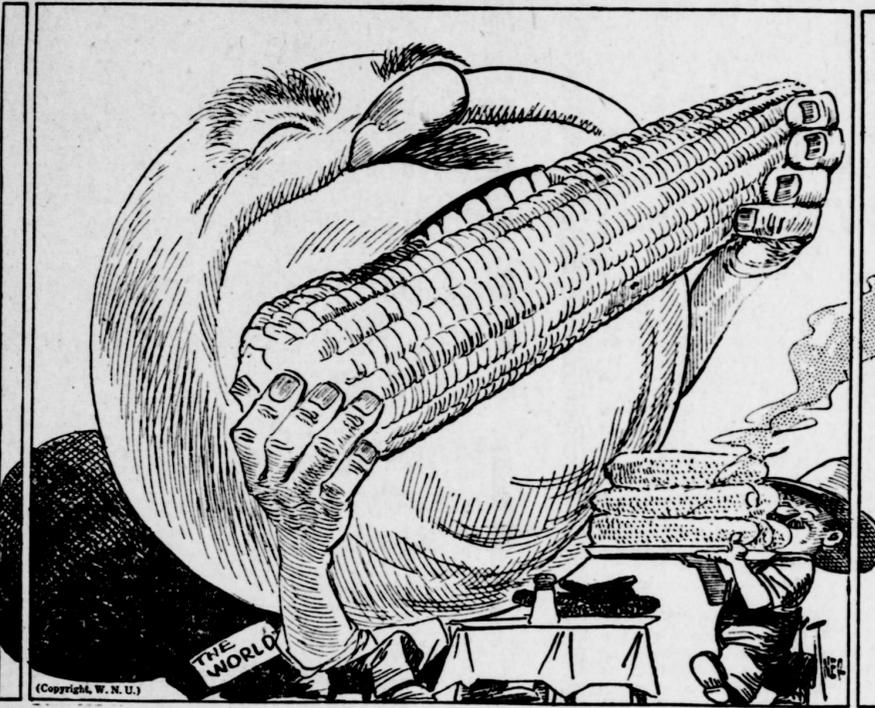

THE VOTERS OF TERRY COUNTY

I take this method of thanking my friends for their support in the primary election July 26th. I want each and every one of my supporters to know that I appreciate what they did for me, and I appreciate the fact that the people still have confidence enough in me to re-elect me for Tax Assessor, and I am going to show my appreciation by trying to make them the very best Assessor possible. I will assure the people that I am still as loyal to them as ever and will treat every man the same and show no partiality to any one. Thanking you again for your vote and influence, I beg to remain,

Your friend,
J. C. Green

Roy Collier and family are visiting his parents at Vernon, Texas.

His Dish

REGRETABLE KILLING HERE SUNDAY MORNING

The second killing in the past few months in this county, took place last Sunday morning about 1:30 o'clock on the streets in front of the Palace Drug Store, when Perry Crowley is alleged to have stabbed to death Alexander Hock. It is said that Mr. Hock had two stabs in or near the heart, either of which would have proven fatal. Bystanders seemed to think it was a fair fight and not much if any effort was made to separate them. Hock died before medical aid could be rendered.

Both men were prominent in the Harmony community and neighbors informed us that up to that time they had been good friends. Hock was said to be an anti-klan and Crowley a klansman, but whether or not the trouble started about this issue or not we cannot say.

Crowley was immediately arrested and is thought to be in jail at Lamesa at this time.

A large crowd was still on the streets at that time, and trouble was feared for a time, and cooler heads persuaded the people to go home in order to give them time to cool off some. Next morning found them somewhat more peaceable, and about a dozen good solid men representing both factions got together in the district court room to take measures to secure peace among our people. We are glad to say they succeeded, and once more our citizenship seemingly are going about their business in the usual way.

Mr. Hock being an ex-soldier, the body was turned over to the American Legion, after being embalmed and prepared for burial, and lay in state in the Legion hall Sunday afternoon and Monday, and the flag was half masted in his honor.

A large crowd gathered at the city tabernacle Monday afternoon at 3:00 o'clock, where Rev. C. E. Ball, pastor of the Baptist church spoke comforting words to the bereaved and admonished his audience to be prepared for death.

The body was then carried to Meadow for burial, where the largest crowd in the history of the town attended the burial.

Alexander Hock was 27 years of age and leaves a father, mother and three brothers and two sisters to mourn his departure.

The Herald only hopes this will serve as a warning to our people and that they will now settle down as friends and neighbors as they were a few brief months ago, and that strife and discord will vanish.

BAPTIST CROP WORKING

The Baptist people will meet Tuesday, August 5th to plow the church crop. Bring your cultivators. There will be plenty of horse feed on the ground. Ladies will serve dinner to all who come.

Jess Smith, Crop Manager.

DISTRICT COURT IN SESSION HERE THIS WEEK

District Judge Clark M. Mullican, of Lubbock, came down Monday and opened District Court directly after the noon hour, immediately swearing in the grand jury and set them to work. His charge to the grand jury was a usual masterpiece and full of wholesome advice to these twelve citizens to uphold the majesty of the law.

The balance of the district officers were also on hand, including District Attorney Gordon B. McGuire, of Lamesa.

A few civil cases were tried before the court the first of the week, the petit jury being dismissed. The case of the State of Texas vs Will Word, alleged slayer of Dr. Windham may come to trial next week.

A fuller court report will appear in these columns next week.

MEADOW ITEMS

From the Messenger.

A. W. Edwards of Martha, Okla., who was here about three weeks ago has leased the Moorhead building and will at once move a first class stock of dry goods and shoes to this place from Oklahoma. The Messenger extends a hearty welcome in behalf of our community to Mr. Edwards and family to become citizens of the best town. Watch Meadow grow.

Mr. and Mrs. Bill Bryant spent Saturday night and Sunday at the home of Mr. Bryant's father, Mr. and Mrs. J. E. Bryant, where they enjoyed a family reunion, all of the children being at home for the occasion except one. There were present 19 children and in-laws and grand-children. Bill says his mother gave them a good feed and lots of ice cream, and we are sure this was a most enjoyable day for all those present.

R. M. Henson and family, of Cleburne, is here visiting his brother, W. A. Henson, and taking a look at the country with a view of locating here. Mr. Henson stated to a representative of the Messenger this week that he would hand it to the people of the South Plains as they were the largest bunch of boosters for the country he had ever seen, and that this is undoubtedly the best country in the world or the people here are badly wrong, as they are unanimous in speaking for the good of the country.

COOK & SON HAVE ON BIG REDUCTION SALE

A big mid-summer reduction Sale was put on Saturday by Cook & Son to run until August 11th.

A large crowd of buyers visited their store on opening day and seemed to be making good use of the opportunity to purchase good at the prices they quoted. Mr. Cook informed us that the sale was fine considering the time of year and the scarcity of money just now.

CLINT RAMBO BUILDING HOME FOR ABSTRACTING

Foundation was laid last week and the brick work is now well under way for a 25X50 brick building on the east side of the square for C. R. Rambo for his abstracting and insurance business. Johnson Brothers received the contract.

The building will be fitted up in the latest style and convenience for his particular work, and when complete will be one of the best businesses of its kind on the South Plains.

Clint is one of these hang and rattle sort of men. He started here on a small scale several years ago, he and wife doing most of the work, but he now employs several stenographers and other help, and devotes his entire time to this business.

Many men, handicapped as he is would have quit long ago, but Clint fought the battle and won. Here is our hand old top. May your good business continue to grow as the years go by.

RAYMOND SIMMS THANKS FRIENDS FOR SUPPORT

I wish to thank my good friends for your support and influence in the past election, and also for your kindness which was shown in many ways. I trust that all will be willing to submit to the results of the election, without holding anything in your hearts that would hinder you in uniting with the choice made by the majority of the voters of Terry county, even though we were on the losing side, for I am sure we have an excellent young man elected in my stead, who shall be fair to all and efficient in his duties.

Yours respectively,
Raymond Simms

AMARILLO ENTERTAINS FARMERS CONGRESS AUG 21

Amarillo, July 28.—All railways entering Amarillo have recognized the importance of the Farmers Congress to be held here Aug. 21 by granting reduced rates of fare and one-half for the round trip. The territory in which these rates are effective includes portions of Kansas and New Mexico, as well as Texas points.

"We believe that such an organization as this deserves our encouragement," said one railroad official in announcing the rate. A strong program is being outlined for the congress and it is expected a state governor will be one of the speakers. Sponsors of the movement declare there are many farm problems peculiar to the Plains region, which may be solved through discussion and the adoption of general policies. Every farmer of the Southwest is invited to attend.

Houston Shepherd came in home one day last week to vote. He is now making temporary headquarters at Plainview.

A NEW GIN BUILDING AT SEAGRAVES

Work was begun last Wednesday on the new gin for Seagraves. Mr. Allen, the proprietor, is said to be a first class gin man and is putting up machinery of that character.

This will be a great addition and help, as we hear there is much better prospects for a big cotton crop than there was last year. In fact from what we have been told personally by the farmers themselves and others, who have been traveling about over the country, there is going to be gathered one of the best and largest cotton crops as yet in this country, and if so, two or three gins will not be too many.

It is rumored that the third gin is to go up here, but we have not heard definitely whether it is a fact or a mere rumor. If not now, it will be demanded, for beyond a ghost of a doubt this is the coming country for the production of cotton. It is a recognized fact that the cotton area in Texas is shifting to the Plains district, and most especially to the sandy regions of it. The sand retains moisture long after the hard lands have dried up and the crop lost. We have seen fairly good corn made on sandy lands with very little rain.—Seagraves Progress.

RESOLUTIONS

To the Worshipful Master, Wardens and Brethren of Brownfield Lodge No. 903, A. F. & A. M.

Saturday, July 19th, at 6:25 o'clock, as the sun was in the west at the close of day, our worthy Brother D. W. Smith was called from Labor to Rest.

Brother Smith was born and reared in Fannin county, Texas. He first saw the light on February 14, 1859, and had lived the greater part of his sixty five years in that county, moving to Meadow, Terry county in 1921. He brought with him a good name, which is rather to be chosen than great riches. Since his stay among us he has done nothing to detract from the good character he brought with him.

He was a good, a true and a generous man, and he died as he lived. Like a great and peaceful river with green and shady banks, without a murmur, without a ripple, he flowed into the waveless ocean of eternal peace.

"He went not like the quarry-slave at night, Scouraged to his dungeon; but sustained and soothed, By an unflinching trust, approached his grave Like one who wraps the drapery of his couch About him and lies down to pleasant dreams."

Resolved: That this lodge extend to the bereaved wife and broken hearted children in their hour of sorrow, their heartfelt sympathy and commend them to the Father above, who gives and taketh away.

Resolved: That a copy of these resolutions be furnished the family of our deceased brother, and a copy to the local paper for publication, and a copy be spread on the Minutes of this lodge.

J. D. Miller—Committee
B. W. Hurst

MRS. SMITH THANKS SUPPORTERS IN PRIMARY

I wish to thank my many friends who so loyally supported me in the primary election. I shall endeavor to prove my appreciation by performing the duties of the office of County Treasurer in a conscientious and impartial manner.

Mrs. Lula L. Smith.

ZANE GREY STORY COMING

The Irvin Willat Paramount production, "The Heritage of the Desert," a picturization of the novel of the same name by Zane Grey, who personally supervised the screen version of his story, will be the feature at the Pastime Theatre next Saturday, August 2nd. Bebe Daniels, Ernest Torrence, Noah Beery and Lloyd Hughes are the featured players, and James Mason, Richard R. Neill and Leonard Clapham are among the more prominent in the support.

Judge W. W. Price received a wire Monday from Fort Worth stating that the wife of his uncle, Dr. Price, had died the night before in a sanitarium following an operation.

BOYS JUDGING CONTEST TO BE FAIR FEATURE

A live stock and grain judging contest which will be open for boys of Texas, New Mexico and Oklahoma is the latest feature planned for the Tri-State Exposition, and may prove one of its big attractions.

Harmon Benton, county agricultural agent, who is head of the boys department for the fair, is in charge of arrangements, and is sending the following letter out to county agents of the district which will be covered by the fair:

"Some of the county agents have suggested that we have a boys stock and grain judging contest, of club teams from Texas, New Mexico and Oklahoma at the Tri-State Fair, that is to be held in Amarillo, Texas, September 22 to 28th inclusive. Personally I think this is an important step in the right direction.

"The Fair theatre management has agreed to furnish sleeping quarters and give a three day's pass to each boy in the contest, and a three day's pass to each team manager. Also to provide suitable prizes for the different contests, provided there is seemingly enough interest manifested in judging work to justify the time and expense. It is up to us county agents if we are to have the contest. What do you say?"

"Will you coach and bring a team to Amarillo for two or three days during the above dates?"

THE BATTLE OF PALO DURO CANYON

One of the most decisive battles in Texas, was the battle of Palo Duro Canyon, fought September 28, 1874, by General McKenzie and six troops of U. S. cavalry, numbering about 600 men, against Lone Wolf and some 1500 Indian warriors, made up of Kiowas, Comanches, Arapahoes and Cheyennes, who had left the government reservation and gone on the war path, accompanied by their squaws and papooses. They had located in Palo Duro Canyon, on the Plains of Northwest Texas, and there had built an Indian village three miles in length and well fortified by the rocky defiles and hidden chasms characteristic of this Canyon.

General McKenzie and his troops signally defeated the Indians in a pitched battle, and destroyed the Indian village, which was a blow to the Indians from which they never fully recovered, and this was a formidable Indian stronghold and was used by the Indians as a base in their raids on white settlements in North and Central Texas.—Exchange.

BAPTIST TO START REVIVAL AT MEADOW

A general co-operative revival meeting will begin at the Baptist church at Meadow, at 8:00 P. M. on August 8th. The preaching will be done by the able and lovable man, Rev. Harlan J. Mathews, who is now pastor at Plainview, Texas.

The song service will be in charge of Deacon O. S. Sullivan, of Meadow, Texas. If you want to hear some good gospel singing, come to the meeting. You are wanted. Your prayers are coveted.

Charles Burnett, Pastor.

IDLE WIVES CLUB

Mrs. Fred Smith entertained the Idle Wives club, Friday, July 25th. Her home was beautifully decorated with garden flowers of different kinds.

After several enjoyable games of 42, the hostess served lovely refreshments to the following club members and guests: Meses. Ray Brownfield, May, King, Miller, McGowan, Alexander, McKinney, Shelton, Michie, O'Quin, Dallas and Lemmon.

Mrs. Smith gave as cut prizes, a beautiful cut glass violet basket, that went to Mrs. Michie for high, and a box of correspondent cards which went to Mrs. Brownfield for low. The club will meet with Mrs. Shelton at the next regular meeting time.—Reporter.

Mr. and Mrs. R. H. Banowsky are here this week from Wichita Falls on business and visiting friends. Mr. Banowsky was once a prominent merchant of this city, being engaged in business with Dock Powell in the

present. Brothers stand. Jim Banowsky pleased the Herald with a summer renewal recently. W. Banowsky returned recently off a trip to Texas.

Subscription Rates

One year: In Terry county, \$1.00; rest of Texas, Oklahoma and New Mexico, \$1.25; all other states, \$1.50.

The six month rate on the above will be 50c; 65c and 75c.

The three month rate will be 25c; 35c and 40c.

Advertising Rates on Application.

The Herald believes in leaving it up to its advertisers just how they want to advertise. If they want to use the columns of the Herald, we appreciate it. If they wish to use dodgers and circular letters, and some of them do—that also, is alright and perfectly legitimate advertising. But advertise some way.

Boys never forget that you stand as a protector of every girl whose society you may be thrown in. Remember as you treat her, so may your nearest and dearest be treated. Hold her as sacred in your thoughts as you would have others hold your mother and sister. Remember, too, that reason and right make incumbent on you to bring as clean a record of your life to the girl you would make your wife as you demand of her.—Melrose (N.M.) Messenger.

That Brownfield citizen who told around Meadow that Brownfield sure needed another paper, probably would have come nearer the truth if he had said that Brownfield needed

a better paper. Brownfield, or for that matter any city or town under 5000 has no business trying to support two papers. We, however, admit that Brownfield deserves at least one good paper. Also, we imagine this thoughtful citizen might also improve his own business—if he has any.

The newspaper man is blamed for a whole lot of things he can't help, such as using partiality in mentioning visitors, giving news about some folks and leaving others out, etc. He simply prints all the news he can find. Some people inform him of such things and others too. An editor should not be expected to know the names and residences of all your uncles, aunts, cousins, even if he should see them get off or on the trains. Tell us about it: it's news and makes the newspaper, and every man, woman and child can be associate editor if they only will. Never apologize when you give this bit of information to the editor, for if there lives one so dead that he has lost his appreciation of such favors, he is dead indeed to every virtue that imparts value to the paper.—Elk City, (Okla.) News-Democrat.

Remember people, in spite of our differences over elections, over our lodges, over our churches, we are still neighbors. We must live together, for none are going to move to get rid of any difficulty we may have here. First, because our differences are not serious enough for anything like that. But both sides of the clan question should learn that the other is to be respected and have a right to their belief and we should not be too hasty to jump at conclusions. In talking about the late regrettable affair, let us remember that all good citizens deplore the fact that such was visited upon our community and we further believe that the big

majority of our citizens on both anti and ku klux believe in letting the law take its course and that justice be meted out in the court room. We should also remember that there is an innocent family on both sides that are bowed down in grief over this affair, and considering them, we as good citizens should guard our words and actions. We are thankful that we still have some good level headed leaders like those who came together Sunday to stir our bark clear of mob rule or riots. There may be people in Texas who believe in creek bottom justice, but we do not believe any such live in Terry county, yet. Let us go about our own business as usual, permitting the other fellow to vote as he pleases while we are doing the same, and Brownfield will soon emerge from this trying tragedy as a bright shining star behind a dark cloud. Let justice and discretion be our guiding star.

Something to Think About
By F. A. WALKER

HITTING THE MARK
If the first arrow misses the target do not lose patience or become dismayed. Keep on shooting though you may empty your quiver and be compelled to refill it.

Nothing in this world is gained except by persistent effort, good nature and good will toward others, combined with willingness to listen to kindly counsel. However gifted we may be, we cannot go at one leap to the top.

Many of the failures in schools and universities, in business ventures and in the professions come from impatience and the inability to master one's self.

How to hope and labor is a lesson that but exceedingly small numbers of peoples of the world have yet learned, having been swept from the true course by yielding at a crucial moment in their lives to some silly impulse.

Physical passions, mental contentions, egotisms, are the imbecile offsprings of incapable minds, whose eyes are so dull and hands so unsteady that their inefficient owners never succeed in hitting the mark, except by accident.

Instead of smiling, stepping lightly along the way and scattering pleasant words as they go, these hapless souls drag their feet, scold their dearest friends and apparently do their utmost to bankrupt their fellow creatures.

It is often impossible to encourage such souls or brighten their surroundings, for unfortunately they are made of the roughest clay which neither pity nor kindness can smoothen.

Pity them when they are in more trouble than usual, or do them a favor when they are in dire need, perhaps distress, and the likelihood is that they will turn from you without a sign of gratitude on their stoical faces.

And yet these enigmatic souls wonder why they fail to win in the battle where smiling faces, pleasant manners, soft words and laughing eyes are the chief weapons of success.

Not even in love are they moonstruck, and before they hit the mark some cheerful, sunny and hopeful swain who could laugh and tell delightful fairy tales has been blessed by the bishop and gone a honeymooning!

RICH BENNET, Prop. Brownfield, Texas

Do you know for certain that the Title
is clear on the property you are planning to leave your wife or children for their support if you should be taken away?

Many a time clouds on the title to a piece of property do not appear until the widow or the orphan tries to turn it into money. Then even if the property is finally sold, a big chunk comes off the price to offset the cloud. You know that—it is as sure as taxes. If you have never had an abstract of title made on your property by specialists, it will be worth the price in PEACE OF MIND to you to know that your loved ones will surely inherit a clear title to the property you intend them to have.

We do not do abstracting "on the side" as one small feature of a miscellaneous business. We specialize. Your abstract, if made here, will be made by experts, working with complete, accurate, systematized records.

We will explain in detail if you will call.

1,2,3,4,5 Years— Still a Young Car

The Willys-Knight is a car you can keep and enjoy for years. A touring car with all the thrill of 42 horsepower—a car you can drive 50 miles and more an hour, *hour after hour*—without over-heating—without loss of power—without engine trouble—without carbon cleaning—without ever needing valve grinding.

The Willys-Knight sleeve-valve engine is the most powerful engine of its size ever built—and the quietest—and the only type of engine in the world that actually *improves with use*. It is common for Willys-Knight owners to report 50,000 miles and more without spending a cent for repairs on the engine.

HARRIS HAPPENINGS

By Sand Bur.

Mrs. M. S. Dumas from Brownfield, is visiting her daughter, Mrs. Clare, Miss Elsie Lucile takes up most of her time, however.

Mr. Murphy, from Knox county, who has been visiting his sons Sam and Dewey and families, returned to his home this week.

Mrs. Cheek and children who have been visiting in Jones county, returned this week.

Charley Jones and family spent last Sunday with Mr. Ham and family.

Several from this community took in the singing convention at Gomez, Sunday. The singing was fine and enjoyed by all who could get in to hear it. The dinner of barbecue and bread and pickles was good, too, and enjoyed by all present.

J. M. Cheek is helping F. M. Ellington lay by his crop this week, while the later is out on an election-carrying tour.

Dewey Murphy and family started to Knox county Tuesday for several days visit with friends and relatives.

Wayne Ellington is suffering this

week from an old fashioned malady known as whooping cough.

THE WRONG DIAGNOSIS

A small boy carrying a covered basket got on the train at Lamesa the other morning bound for Lubbock. He found the car full and stood in the aisle as if uncertain what to do. An Iowa real estate agent who was occupying a seat with his grip beside him, put the grip on the floor and the boy's basket in the rack above his head. Presently the gentleman felt something trickling down on his head from the basket above. "My boy," he said, "your pickles are leaking."

"Them ain't pickles," replied the boy, "Them's Puppies."

George Bragg and family returned last week from their vacation trip to Brownwood, where they visited relatives and old friends. A fish finned George while away and he is now suffering blood poison in the hand from it.

J. P. Perkins, successful Needmore farmer, famored us with a renewal

MEADOW BRIEFS

By Asenclaps

The Masonic brethren at this place have had a school of instruction the past two weeks, with Mr. Gee of Estelline as instructor. Application has been made for a dispensation from the Grand Master for authority to open a lodge here. This grand old order continues to be among the most popular among all the fraternal. We wish success for it in the years to come. If there ever was a time when brotherly love should be taught and practiced it is certainly now.

The Methodist people have had a meeting under way the past week. Rev. Watson of Brownfield is doing the preaching, and several conversions have been reported.

Saturday's primary passed off quietly and leaves nothing but a few run offs. So far the victory appears for the people as against the isms. There is no room in our system for secret politics. Let's have open fields and a free for all, and the best man have it.

The victim of the unfortunate difficulty at Brownfield Sunday morning was laid to rest in the Meadow cemetery late Monday evening. The largest funeral attendance it has been my fortune to attend followed his remains to its last resting place. What a solemn protest against the cause of his untimely death.

Those who connect themselves with secret organizations should keep in mind the admonition of one of the oldest fraternal: "You are not to suffer your zeal for the institution to lead you into argument with those who through ignorance may ridicule it."

Nothing in this American Republic is above criticism—just or unjust. If it cannot stand the light it don't deserve to exist. No cause is great enough that truth should be sacrificed, and truth is only brought out by discussion and investigation.

To this writer, this particular order is the "abomination of desolation" set up against the liberties of the people. I may be wrong, but killings will not convince me.

W. G. Swain and Hersell Timmons will run off the race in the Meadow precinct for public weigher.

Quite a crowd of our klansmen attended the big parade at Lamesa last Thursday night.

Mrs. C. E. Ball and children returned Monday from a visit with her parents at Gordon. The preacher intimated to us that he sure was glad for the look to get home.

Prof. J. L. Bonner and two daughters are visitors from Haskell with the M. E. Jones family.

Mrs. I. L. Ellison of Lubbock, sister to Mrs. J. P. Watson, was the recent guest of her sister.

Miss Mona Watson left Wednesday for Lubbock for a week's visit with her aunt, Mrs. I. L. Ellison.

H. H. Longbrake and family returned last week from their vacation in New Mexico.

Luther Moore, popular tailor at the American Tailor Shop, is now a regular reader of the Herald.

J. M. Miller and family, of Abilene, and a brother of our esteemed citizen, S. T. Miller, have moved here, and Mr. Miller has formed a partnership in the abstract business with C. R. Rambo, we understand.

Lee L. Johnson, of Canyon, came in last week to cast his vote. Lee is connected with the Canyon Normal as librarian, and has worked himself up in the esteem and confidence of the normal management.

Dr. Moorhead, our talented writer from Meadow, was a pleasant caller here Tuesday.

Honors in Store

The dignities that confront the elder brother are usually appalling to the small sister, and there is a little girl in Baltimore who has been giving the subject much careful attention. She electrified the family at breakfast on one occasion by announcing:

"Next year Samuel will be a lawn-mower. I wonder why they call him that."

"A lawn-mower?" echoed the astonished mother. "What do you mean?" "That is what you told me," replied the little maid, gravely. "This year he was a freshman. Next year he'll be a lawn-mower, and then a janitor and then a senior. And then he'll graduate."—Baltimore Sun.

Letter From the Sea

A letter which had been tossed about in the Atlantic for three weeks was recently received by a Plymouth resident. His son, an engineer on a steamer bound for Vancouver, placed the letter in a sealed tin with a flag attached, and dropped it overboard. Three weeks later the tin was washed ashore on the Azores islands, where it was found by fishermen, who forwarded the letter by post.—London Tit-Bits.

INSURANCE OBTAINED AFTER YEARS' DELAY

TUBERCULOSIS SUFFERER GETS
OVERDUE HEALTH POLICY.

Through Efforts of Red Cross Technicalities Are Overcome and Money Is Sent to Beneficiary.

A check for \$999 drawn by the North American Accident Insurance Company in favor of Robert L. Elder of Florence, Colorado, has just closed an unusual case in which the American Red Cross succeeded in overcoming many technical difficulties and obtaining for Elder the amount of a health insurance policy to which he was entitled.

The case extends over a period of four years. Elder was insured for health and accident in 1919, was taken ill with influenza the next year, the policy still being in force. A short time later the representative of the insurance company to whom Elder had given his notification of illness, became involved in an affair with another insurance man which resulted in the death of one and the imprisonment for manslaughter of the other. Elder made several attempts to have the case reopened but the company would not do this, standing on the technicality of lack of proper notification. The policy provided that claims must be made within twenty days following sickness and as the affair between the two insurance agents had suspended the business of the company in that town, Elder's notification was not passed on to the company. Elder's illness continued and eventually developed into pulmonary tuberculosis.

Being unable to get any satisfaction himself, Elder finally turned his policy over to the Secretary of the Fremont County Chapter of the American Red Cross and the case was reopened in the name of the Red Cross with successful results. A great amount of effort and much painstaking investigation was necessary to establish the facts required by the insurance company, but this was done at last to the complete satisfaction of the company and the money now has been paid to Elder.

The American Red Cross has many similar cases not only of ex-service men who have not received their compensation or insurance but of civilians as well and there is not a time when some such case is not on the docket in every one of the 3,600 Chapters of the Red Cross in the United States. Home Service is one of the 12 services under which the American Red Cross lives up to the International Red Cross motto, "I Serve."

His Choice

"Who is your favorite poet, Mr. Gloom?" asked Tomnyson J. Daft, the versatile versificationist.

"Any of the dead ones!" snapped J. Fuller Gloom, the human hyena.—Kansas City Star.

To Climb Canadian Peaks

Bob Lovelace just could not stay out of the grocery business for that is his old stand by. He has sold his interest in the Palace Drug Store and purchased the Cash Grocery of Messrs. Hull and Copeland, as we understand it.

A letter this week from Mrs. A.

W. Endersen, who is visiting relatives in Temple, reported that her husband sailed from New York for Sweden on July 2nd.

Elder L.H. Sanders will fill his regular appointment at the Church of Christ Sunday at 11 a.m. and 8:30 p.m. You have a cordial invitation to hear him.

Mrs. J. L. Randal returned Sunday from Semour, where she visited her sister, Mrs. Crarley Randal.

W. H. Hare brought in two of the biggest hen eggs recently we have ever seen. While probably not fertile or perfect eggs, being rather light, one measured 6 7-16 inches one way around and 7 9-16 inches the other way. The other egg was slightly smaller and were laid by an ordinary Rhode Island Red hen.

The Christian meeting closed last Sunday night and Rev. Marler left Monday morning for his next appointment. We did not learn whether there were any additions or not, or how many, but we understand the church was well pleased with the meeting.

Mrs. Ruby Powers, of Alumbra, Calif. is here the guest of her parents, Mr. and Mrs. Jno. A. King.

Wade Headstream informed us last week that he would keep books this fall for the Harrison & McSpadden Gin. Wade recently completed a business course in a business college at Abilene.

Have You An OIL COMPANYS PUMP

Below is a copy of a letter written by the Attorney General of Texas in regard to oil pumps that have been put out by some of the Oil Companies.

"Beg to say that this department has heretofore held that the leasing of gasoline pumps coupled with a contract to use the same exclusively for the handling and selling gasoline produced by the owner of the pump, is a violation of the Anti-Trust Law of Texas, and a suit is pending to test this law in the state of Texas now. And the Penalties provided by the law of Texas against those violating the Anti-Trust law apply to all parties, both the man who is using the pumps and the parties who furnished them and both are liable to a penalty of from \$50.00 to \$1500.00 for each and every day you use same or that the contract is in force, and as for the criminal offence the Attorney General refers you to your County or District Attorney as he has jurisdiction in the enforcement of the Criminal Law.

Old Romany Patteran

Thing of the Past

Romany patteran is a gypsy phrase that is seen only occasionally in print. Kipling, Jack London and a few other writers have used it to describe the signs or trails left by gypsies. While the phrase is used only occasionally, it is used probably more in the United States where gypsies are abandoning their red wardos for speedier though less romantic automobiles.

Patteran, patrin, and patten are three words in Romanes, or the gypsy language, which signify the signs which one gypsy leaves in the road to show the route he has taken to friends who are following. The sign, or patteran, is usually found at the forks of a road. It may be a handful of grass or leaves thrown down at the head of a road, a bit of colored cloth tied to a fence, a cross mark on the ground, or a branch of a tree stuck in the ground by the roadside. However, the true patteran is a handful of leaves; for the word in the gypsy language means the leaf of a tree.

Made Students Laugh

A description of how football is played in America provoked mirth in an assembly of Danish students, according to a letter received at Columbia university from John Dineley Prince, American minister to Denmark. He lectured to the Copenhagen University Students' association on "Student Life in America."

"I went into the subject of hazing," says Professor Prince, "and gave them a view of some freshmen newly painted, and I also endeavored to describe a cane rush, for which there is of course, no expression in Danish. All this caused much laughter, and one of the professors expressed the hope that it might not set a bad example!"

Solid Bridges

In building highways through the mountainous regions of Colorado a queer bridge is being used in spanning the arroyos—the dry creeks that carry water only after rains, which often overflow on short notice. The ordinary type of concrete-and-steel bridge poorly withstands these floods. To do away with this the highway engineers, instead of bridging the creek in the usual way, are building a solid base of concrete to the bottom of the arroyo and laying the grade on top of it. Culverts are built through the concrete of a sufficient capacity to carry off ordinary drainage.

At flood periods the water, as it rages down the arroyos and meets one of these concrete walls, simply goes over the top of it, the solid concrete base offering so firm a resistance that the risk of its being carried away is hardly to be considered. After the flood has subsided the debris is cleared off the bridge and the crossing is as good as ever.

BILL WISE SEZ:

Things don't turn up in this world. Its up to you to do the turning.

Neither do things just 'happen.' When a tire or tube outlasts its guarantee, it is merely the built-in desire of a great organization to give the most tire value for the least money possible.

JNO. A. KING

Jealousy Proved Fatal to English Musician

Certainly the most destructive of human emotions is that of jealousy. With the exception of love and war nothing seems to be so provocative to the green-eyed monster, who seems to have the faculty of consuming all those who admit him to their souls, as music. A list of the famous musical jealousies would be interesting. It would run into the hundreds. Opera companies are usually nests of jealousy.

Possibly one of the most famous cases of musical jealousy is that of Henry Cooke, deceased (1872). Cooke was a fighter who gloried in the term of captain. He joined the king's army and fought bravely, it is said, but when the commonwealth came into existence he was obliged to make his living teaching music. Eventually he became gentleman and master of the children when the chapel royal was established again in 1669. There he had as his pupils no less than Purcell, John Blow and Pelham Humphrey.

Humphrey so closely imitated the work of his master that after some time he was able to supplant him in his state position. Captain Cooke flew into a rage of jealousy, and this continued until in his death notice there appeared the significant line, "died of jealousy."

Great Statesman Had Genius of Invention

Thomas Jefferson, signer of the Declaration of Independence and third President of the United States, was of an inventive turn of mind as well as being a fairly good violinist and something of a scientist, remarks the Detroit News. On one of his tours of Europe he was struck by the bad construction of the plows in use by the peasants of France.

The moldboard, a device above the share to turn over the earth, he decided, required redesigning. He spent the greater part of his leisure time for two years evolving a moldboard that would be most effective.

Satisfied, at length, that he had succeeded, Jefferson sent a plow equipped with his new device to the Royal Agriculture Society of the Seine. A medal which the society awarded him—for the plow proved to be all he had hoped for—followed him to New York, and 18 years later, the society sent him a specially made plow containing his improvement as a token of appreciation for what he had done for agriculture in France.

"Cates" Word Little Used

The word "cates," meaning dainty foods, is probably never used except in poetry, and seldom there, yet we call the person who caters for our food a caterer, and in that form the word is of everyday occurrence.

It has come into some prominence lately in connection with the fifth centenary celebrations of the famous Dick Whittington, whose fame rests more solidly on his possession of a cat than upon any municipal honors which came to him, observes London Tit-Bits.

There have been all manner of learned discussions as to Whittington's cat, one of which pointed to the probability that this city merchant had a ship called the Cat. But the late Professor Rowley of Bristol was perfectly sure that "cat" was an abbreviation of this old English word "cate," meaning provisions, which survives, even in our geography, in the Cate river at Plymouth.

The Century Plant

The belief that the century plant blooms every 100 years is a myth, according to Pathfinder Magazine. The flowering of this interesting plant depends upon the climate and rapidity of growth. In warm climates such as Mexico and Central America, the original home of the century plants, they grow rapidly and usually bloom about the seventh or eighth year, seldom later than the twelfth. In colder climates the period before bloom is much longer. Some authorities say that in hot houses 80 to 100 years may elapse before the plant flowers, a fact which probably gave rise to the century myth from which the plant gets its popular name. After flowering the century plant dies down to the ground. However, new plants arise from lateral buds.

FIND CHILDREN GROW FASTER IN THE FALL

Maximum Gain Between
August and September.

New York.—Children between the ages of four and thirteen, both girls and boys, grow faster and better during August and the three following months than at any other period of the year, according to results of careful study into the question of child nutrition by the New York Association for Improving the Condition of the Poor.

Boys make 55.3 per cent and girls 59.8 per cent of the total yearly growth between August 1 and December 1. The period of maximum gain is in the late summer and early fall, and the period of minimum advancement falls in the late spring and early summer.

While the same tendency holds for both boys and girls, it is most marked among the girls.

The following table gives the average gain in pounds by months and the percentage of the annual gain made in each of the months of the year:

Months	Boys		Girls	
	Avg. gain in lbs.	Pct. of annual gain	Avg. gain in lbs.	Pct. of annual gain
January	.57	9.9	.53	8.3
February	.51	7.6	.43	6.7
March	.43	6.4	.34	5.6
April	.43	6.4	.34	5.6
May	.25	3.7	-.05	-.8
June	.06	.9	-.08	-1.3
July	.26	3.9	-.35	-5.4
August	.59	8.3	.79	12.3
September	1.01	15.9	1.06	15.9
October	1.09	14.8	1.09	15.9
November	.84	12.2	.99	13.2
December	.51	7.6	.53	8.3
Total yearly	6.74	100.0	6.41	100.0
Aver. monthly	.56	8.3	.53	8.3

xin May the girls showed an average loss of .65 pound. This is equivalent to 0.8 per cent of the total gain.

The report says:

"The rate of growth in both height and weight over a given period of time is quite as important, in judging a child's state of development as his attained stature and weight at any given period. Physicians, teachers, school nurses and nutrition workers must rely on the gains made during short periods of from three to six months to determine whether the child is doing well, for obviously all healthy children must be expected to gain steadily in both height and weight."

Winning Glider Built of Scrapped Wire and Tin

Koenigsberg, Germany.—Old broomsticks, balling wire and scraps of tin salvaged from milk and bully beef cans were chiefly used in constructing the glider in which Ferdinand Schulz, in an experimental flight remained in the air eight hours forty-two minutes and eight seconds and thereby established a world's record for heavier than air machines without motors.

The plane was constructed by Schulz during odd moments when he was not busy teaching a school class here in east Prussia, which is his home. The flight took place at Rossitten.

Schulz appeared last year with a glider made of hop poles and scrap tin, but his machine was rejected by the technical committee and he was not allowed to compete in the meet on the theory that it was unsafe.

Schulz says he could have remained in the air much longer had he made proper preparations for an extended flight. He had neglected to take along gloves, and was in his shirt sleeves; toward afternoon he felt the cold keenly. Finally, he says, he became so hungry that he decided to land and as he did not have a watch with him, he was most surprised when informed he had established a record.

Flowers of the Desert

Arizona deserts have their own flowers. In places the supply is abundant, the growth large, the flowers when in bloom of marked beauty, the big yucca and the sotol, both members of the lily family, showing beautiful bloom on tall and stately stalks.

One of the interesting desert growths is the water cactus, so named because of its great stalk, from five to ten feet high and as large in circumference as a barrel. It has a heavy pulpy covering from which it is possible to squeeze good amounts of water, and Indians and travelers are quick to turn to the cactus when water supplies are short, says the Detroit News.

Simply Couldn't

Dorothy, aged five, had been given a pretty blue-silk sash and the first day she wore it she was constantly running to her mother to have it tied. "Why, Dorothy," said her mother, "This makes the fifth time I've tied your sash this morning. You must learn to tie it yourself."

"But how can I, mamma," replied the little miss, "when I'm standing around in the front all the time?"

crowd here Saturday.

TO THE FARMERS OF TERRY COUNTY

Written for the Herald

If you will kindly allow me space in your splendid paper, I will address the farmers of Terry county upon a subject that is of vital importance to them.

You have fine prospects for a good cotton crop in the county and I know you are interested in securing the best price for it you possibly can. The Farm Labor Union has for its object getting better prices for our products. In order to accomplish this, it first becomes necessary to organize. The speculators and gamblers in the prices of farm products, and especially that of cotton, are all compactly organized. There is no way to successfully meet an organized force, except with an organized force. In this I am sure there is not a farmer in Terry county who will not agree with me. Then the question is, why do we not organize? In answer to this I would say there are several reasons why the farmers do not all come into one solid organized body for their protection. They have become discouraged from the fact that so many efforts to organize have apparently been failures. Another reason is that they have been preyed upon by many fakes, and have lost confidence in the human race to a very great extent. Still, why falter and hesitate and remain in an unorganized state, while our economic enemies are effecting us out of our hard earnings? Would it not be wiser to risk a few more dollars and take a chance in the proposition that looks as good as the Farm Labor Union promises? Any intelligent man knows that we will have to make an effort and take a risk before we get anywhere. No doubt there are hundreds of farmers in Terry county that have mortgaged all they have and all they expect to make this year, in order to get supplies to make this crop. Not only this, but you have worked hard and your wives and children have toiled through the long hot days. Also your children have toiled many days they ought to have been in school, and when the cotton speculators get through taking their "pound of flesh" this fall, you will not be able to supply that wife and children even the necessities of life, to say nothing of luxuries. While you and your family have been going through these privations and hardships, the "price fixers" and cotton speculators have spent the summer in ease and luxury, not producing one single thing. They have sat in their palatial offices, in swivel chairs, on Brussels carpets and smoking their Havana cigars. Farmers, listen to me; you can change this ungodly system of allowing these gamblers in that which you own, if you will only come together and act as intelligently as they do. You should not blame them. You would no doubt do the same thing if you had it in your power. The farmers alone are to blame for this condition. Just as long as you remain unorganized trying to fight your battles single handed and alone, you will never be able to get away from this class of vultures. This class does not want you to organize and they are throwing every obstacle in your way that they can possibly to keep you from organizing. The bankers and merchants and every other class of business and professional men are organized for their mutual protection, and that is very necessary that they should do so. We have not one word of condemnation for their doing so. Where we farmers fall down is not acting with the same degree of intelligence that they do. I cannot understand why any of the small business men of any town should not want to see the farmers organize, yet in many places they are doing so. If the farmers are prosperous, every other business will prosper accordingly. It looks to me like every business man in Brownfield and every other town should urge the farmers to join the Farm Labor Union or some other farm organization that promises better prices and conditions. If the F. L. U. succeeds in its marketing program, it is true that it will put some of the cotton speculators out of business. There is plenty of room for that class to go out and help produce, thus making the burdens on all lighter. We farmers are under no obligations whatever to allow our hard earnings to be filched by a class that are in a useless occupation. We must learn to attend to our own business and when we have taken over our own business for the protection of ourselves and families, no one can justly complain.

The Farm Labor Union has all the plans and details worked out to sell our cotton direct to the mills this season. We are going to eliminate that long string of middlemen that have been reaping profits all along from the farm to the factory. We realize that the street scalpers are going to make a strong fight. Not only that class, but the brokers and

the cotton merchants as well.
How the Farm Labor Union Cotton Will Be Sold.

Our county agents in each of the seventy five organized counties we have in Texas will report each day to our State Agency in Dallas just how many bales of cotton of each grade he has on hand that is for sale, sending the samples of each of the same to the State office. As these reports are received daily they will be compiled as received, and each night our State Agent will know just how many bales of each grade that are for sale by the Farm Labor Union in the State. The mill buyers will be there to buy the cotton and it will be sold in from one hundred to ten thousand bale lots. In selling this way we have gotten rid of the middlemen and saved the profits that have been going to them. Mill buyers will pay from 75 to 150 points profit for cotton when they can buy it in even running grades and staples, and get it in large lots. A mill just wants one certain kind of cotton. Different mills are built to spin different length staples, and one built for short staple does not want long staple at all—cannot use it.

As soon as our State agent makes a sale he will wire the County agents giving them shipping instructions and as soon as the cotton is placed on the railroad platform, and a bill of lading received, the County Agent will draw a draft for the money and will pay the members off for their cotton. So you see you do not have to ship your cotton off and wait an indefinite length of time for your money, but get it "right on the barrel head." When our members get their cotton ginned, if they want to sell at once they go and turn their ticket over to their County Agent; he reports that bale that night and it is sold next day, so no member need have to wait over two or three days at the outside to get his money for his cotton. Not a bale of Union cotton will be offered on the streets for sale. There possibly may be a few members that have their names enrolled that will violate their obligation and "boot-leg" some cotton, but they will not be real Union men. If they continue to do this way, they will not be allowed to remain in the Farm Labor Union. We shall demand of every member that he live up to his obligation and the constitution, and if he just will not do that, the Union will be better off without him.

It does not look to me like that every farmer would be making a strong effort to get into the Farm Labor Union. That which is good for one farmer is good for all farmers.

Now my brother farmer, union and non-union, as well let me plead with you to lay aside all differences that may hinder you from coming together in a common cause for justice. Many things have been done and said during this political campaign that should not have been done and said. Can't we all lay aside such and come together for our economic good? You may belong to all the churches and all the organizations that come along, but unless you are organized for your economic good, they are not going to help you get more for your products. If we fall out, "squabble" and say hard things about each other and stay out of the Farm Labor Union be cause some Ku Klux, Baptist, Methodist or some other organization you might mention, have members in the Union, just that long are you "cutting off your nose to spite your face." The cotton gamblers are laughing in their sleeves at your silly acts. They are saying: "Go to it, boys, and scrap them to a finish, and we poor boobies are just silly enough to take them at their word, and tear up our organization, while our children are being driven on down the road, to peonage and slavery."

In conclusion, my brother farmer, I plead that you stop and give this matter some serious consideration. Do not let your petty prejudices swear you from the path of duty. I cannot help but believe that you will lay all this foolishness aside, if you will just stop and think seriously over these matters. If we should persist in these other things and win out in every contention of ours, and find our selves going right on down the road to industrial slavery, what have we gained? With that question driven home to you I close.

Yours for a real Co-operative Farmers' Organization.

T. W. Moss
County Grader Salesman for Terry County Farm Labor Union.

U. G. Randall, of Amarillo, representing the Farm Bureau Cotton Association, was in Brownfield one day recently and called on the Herald. Mr. Randall informed us that he was thinking seriously on making this city headquarters and work this and Lynn counties.

A. R. Hoover and family of Phoenix, Ariz., were here last week on a visit to his sister, Mrs. E. F. Hodgens six miles south of town.

QUALITY

We give you part of your dollar in quality merchandise. The reason for our success in Brownfield can be readily answered in one word--VALUE. In every department of our store is to be seen high quality materials that is feeling the slash of cut prices on summer merchandise.

You and your friends will find our store a most pleasant place to spend your idle moments when in town. Comfortable chairs, cool, plenty of ice water, and clerks who take pleasure in showing our merchandise whether you buy or not.

TOKIO TALKINGS

By Reporter.

Crops are needing rain out in this community, but are not suffering. We hope for rain before crops begin to suffer.

Rev. Johnson will begin a meeting here next Saturday night, which will continue through the coming week.

Mr. Johnson and family left Monday for a visit to the home folks near Turkey, Texas.

Mr. A. V. Taylor and wife, also Mrs. Weaver Lovelace, returned Sunday from a visit with relatives at Fluvanna, Texas.

Mr. and Mrs. Nolan Lovelace spent Saturday night with Mr. and Mrs. Roy Taylor.

Wilburn Pippin, who is taking treatment at Tahoka, spent the week end with home folks.

Mr. J. A. Parks and Mr. Bill Clark, made a business trip to Tahoka on Monday.

Several of the men from here are attending court at Brownfield, this week.

Mr. Herbert Stewart is here on a visit with home folks, and to attend the funeral of his sister, Miss Della Stewart, the daughter of Mr. and Mrs. A. P. Stewart who has been sick in a sanitarium at Sanatorium, and who died July 22, and was shipped home for burial. The remains were laid to rest in the Brownfield cemetery Sunday afternoon. The loved ones have the sympathy of the entire community, for she is only at rest.

Dr. and Mrs. M. H. Woodriddle and children, of Altus, Okla., visited a few days last week with Mr. and Mrs. C. O. Newlin. Mrs. Woodriddle is a niece of Mrs. Newlin. They motored from here to the mountains in New Mexico for a month's vacation trip.
