Important to Farmers

The following letter as received by the Chamber of Commerce sets out what the Extension Department of the A. & M. College is trying to do for the Agricultural interests of this community and territory in which it serves. The farmers who are interested in making these observations and can possibly attend this meeting on the 17th and 18th, we feel they would be amply repaid for doing so, and to the end that they may be fully advised the following letter is published:

Lubbock, Sep. 7, 1925.
Mr. Morgan L. Copeland,
Brownfield, Texas.

My dear sir:—The Extension Service of the A. & M. College and the Lubbock Experiment Station are planning an inspection of the crops grown and a study of the experiments being made at the station.

Our aim is to have you and a group of farmers come with you Sept. 17-18 for this purpose.

You will arrive about noon on the 17th and will begin the inspection, which will continue during the afternoon. This will be followed by a luncheon prepared by the Chamber of Commerce on the station grounds. After lunch, we will have a splendid program, addresses being made by such men as Mr. Leidich, Mr. Jones, Supt. of the Station, Dr. Horn and other snappy talks by County Agents.

On the following morning you will have an opportunity to visit the Tech and some farms where we are carrying out some of the work started by the station in a practical way. The object is to acquaint the various counties with the work of the station and encourage them to use the station.

You will be joined by farmers from all counties surrounding Lubbock and the South Plains area.

Please do your best to interest a group of farmers and let me know if you can just how many will come so that we can provide supper for them. They will bring their bedding and sleep at the Station.

Yours very cordially,
D. F. Eaton, County Agent

The Chamber of Commerce Directors in their meeting this week decided not to hold the annual Terry Co. Fair this year. This action was taken due to the fact of the late season and the unmarketable products, believing that even though a fair was held and products gathered to make up an exhibit to send from this county to the South Plains Fair and to Dallas at the State Fair, that it would not properly represent this county, inasmuch as the products exhibited would not be far enough advanced to make a creditable showing, and would result in unfavorable and adverse advertisement for this county, when as a matter of fact a little later our products would be up to the equal of any.

The Chamber of Commerce further decided to assume all the liability of unpaid premiums on the former Terry County Fair Association of last year, which has become merged into the Chamber of Commerce of this place, and will upon the presentation of an order from J. E. Shelton at the Court House who holds the premium list of last year's premiums pay such prizes as were awarded to winners. The Chamber desires to have a clean slate in all these matters and will next year have a county fair reflecting credit to the entire territory and have plenty of money on hand to pay in cash the day the fair opens.

Regarding the streets in and around the business section of Brownfield, we know they are bad and seriously in need of work. However, the city council has been doing everything in their power to rectify the situation, but are unable to obtain machines to do the work with, due to the fact that county machines are in use either in their own precincts or in conjunction with the state highway work, therefore the city council could not have access to them, but promise that soon these streets will be worked and they are even now to purchase city machines of their own with which to properly attend to our streets.

The combined merchants of Brownfield are making every effort to place Brownfield in the forefront this season as a trading center for this territory. The people will find here full

Coming Back to Earth

COUNTY TRUSTEES MET HERE WEDNESDAY

About 40 of the county trustees of both common and independent school districts of Terry county met in the district court room at the court house Wednesday, for the purpose of discussing the laws governing schools, the duties of trustees, affiliations and other matter in order to make the schools of Terry county the equal or superior of any in Texas.

The gathering was addressed by County Judge H. R. Winston, J. E. Shelton, Morgan L. Copeland and Prof. O. W. Fagala and Jackson of the Brownfield High school, and several of the visiting delegates. Much of the discussion pertained to the compulsory attendance law.

The Brownfield Chamber of Commerce tendered the trustees a luncheon at the American Cafe at noon.

It is thought that the meeting will result in much good, and that they will be frequently called together in the future.

BROWNFIELD RECEIVES FIRST BALE OF COTTON

The first bale of cotton of the season was brought in Wednesday by J. E. Liles, who lives just over the line in either Dawson or Gaines county. It was ginned by the Harrison-McSpadden Gin and purchased by Lewis Bros. & Co., at 25c, fully 3c above the market. It classed strict middling, weighed 432 pounds and he received a check for \$107.85.

As Mr. Liles lives out of the trade territory, doing his trading and his banking business in another town, he was debarred by the Chamber of Commerce from receiving a premium.

BAPTIST LADIES RECEIVE COOK BOOK MONDAY

The Herald job department turned over the consignment of cook books to the Womens Missionary Society, of the Baptist church, Monday afternoon, and the ladies seemed to be well pleased and passed many compliments on its good arrangement and neatly printed appearance.

The book contains around 80 pages and has hundreds of recipes that are modern and have been tried and found to be the very best, yet simple enough that any cook can use them by following directions closely.

These books are worth many times the price asked for them to any kitchen, and if they fail to see you phone either Mesdames K. W. Howel, L. R. Pounds or L. J. Dunn and they will see that you get one.

and complete stocks to satisfy their needs and at prices that compare more than favorably with other towns. The price of products, including cotton is always just a little better in Brownfield and it behooves the citizens of this territory to make Brownfield their business and trading point.

LEAF OR ARMY WORM POISON REMEDY

Many farmers from different sections of Terry county have called in recently to get remedies for the destruction of army or leaf worms, and as we had none, and the situation in some sections seems to be getting serious, we made several inquiries and obtained the following letter from Mr. D. F. Eaton, experiment agent of Lubbock, addressed to one of our business men, who also is a farmer:

Lubbock, Texas, Sep. 3, 1925
Mr. J. W. Chisholm,
Brownfield, Texas.

My Dear sir:—As I was out of town when your letter came I have been delayed in answering.

For leaf worm you may use Calcium Arsenate straight or lead Arsenate with 1-4 its weight of lime or Paris Green with five pounds of lime to 1 lb of the poison. Any of these should be applied by the dusting system and in absence of the regular dusting machines you can use the old bag and pole system.

Suspend the bag from a pole over the row using two or four rows with a bag over each. Use a muslin bag, a sugar sack is excellent. Be sure and get a good dust as more depends on being well distributed than in applying so much poison.

If properly and diligently applied you can with certainty kill the worms.

This pole may be carried on a horse or by hand, and the poison should be applied when the dew is on the cotton.

Yours, very truly,
D. F. Eaton, County Agent.

CHICKEN HUNTERS COME IN BY AIRPLANE ROUTE

About noon Saturday an airplane approached Brownfield, but not a great deal of attention was paid to it as it was thought it was some one who desired to take people "up" for so much per, and a few others expressed themselves that maybe it is a bootlegger.

They proved however to be army officers from San Antonio, Texas, whose names we failed to learn, but was said to be friends of Glenn Harris, local garage man, who had come up to hunt prairie chicken over Labor Day.

It is said that they came from San Antonio in less than five hours and flew from Sweetwater to Brownfield in one hour and fifteen minutes.

YE SINGERS OF LONG AGO TO MEET

The South Plains Sacred Harp and Christian Harmony Singers Convention convenes on Sunday Sept. 20th, 1925 at Tahoka, promptly at 2:00 P. M. There are many singers scattered over the South Plains, and about a year ago they met and organized a class and agreed to meet twice every year for a grand rehearsal of the old songs. Everybody invited to attend.

SEVERAL BURGLARIES IN THE COUNTY LAST WEEK

Last Friday night while the citizens of the little city of Meadow were soundly sleeping a filing station belonging to F. C. Jackson was entered by thieves some time just before day and took something like \$300 worth of tires, tubes and other auto supplies. So far as we know, no clue has been found of the perpetrators. It is said that Meadow will endeavor to put on a nightwatchman this fall and winter. To our notion, what they ought to do is to go on with their incorporation and elect an officer.

There was also a series of burglaries in Brownfield Saturday night, but as the business section is guarded, the thief or thieves confined their operations to the residential section. The homes of T. M. Flippin, W. B. Downing, R. M. Kendrick, Dr. W. H. Copeland and Carl Aker were entered.

So far all that has been missed was what small change they had in their pockets, two watches, and Mr. Aker is said to have lost a \$60 check. In a few instances the clothing was carried away if it suited the looks of the purloiners, but some of the clothing was left in the yard after the pockets were rifled.

So far as the Herald has been able to learn, the officers have no clue whatever to work on.

YOAKUM COUNTY PEOPLE DISAPPOINTED ABOUT ROADS

That the turn of affairs when all work on the western highway toward the Yoakum county line was recently suspended, is having a bad effect on our trade territory to the west is attested by the following letter received from the splendid County Clerk of Yoakum county, this week. The letter is self explanatory:

"We fellows here are very much disappointed because of the turn the good roads proposition has suddenly taken in your county. It had just gotten to look as though we were to have a straight road into Brownfield instead of a mile and a quarter jog north, a mile and a half jog south, and then a quarter of a mile back north again, and good prospects for a hard surfaced road via Brownfield to Fort Worth, Dallas and further when we were suddenly disillusioned by the report that all work on the Terry county end of the road had been abruptly terminated, and not an encouraging word as to when, if ever, the work would be resumed.

Hope the folks over there will decide to make that road straight, as proposed, giving us a road to Brownfield shorter by three or three and one-half miles than the present one, and at the same time heighten considerably our prospects of getting this road designated and constructed into a National Highway.

S. L. McDonald, local gin man is in Abilene attending the bedside of his father who is not expected to live.

NEW YORK EDITOR VISITS BROWNFIELD AND OLD TERRY

The editor of the Herald was not a little surprised late Friday afternoon when Wilbur F. Fauley, special writer on the New York Times and novelist of note walked in on us, but thank goodness he caught us at work. It had been some eight or ten years since Mr. Fauley had been here, and the change had been so great he could hardly believe his eyes, although a constant and close reader of the Herald all this time.

When he came to Brownfield before there was a railroad here, coming overland from Lubbock on a stage. There was perhaps a half dozen shack like store, and no electric lights, sewerage or water works, and the roads were not much more than cow trails. No wonder he could hardly conceive of the radical changes that had been made in these short years.

Judge Geo. W. Neill and the writer carried Mr. Fauley out to his splendid section of land lying just north of the Lee Walker home section, over a fine graded state highway, and the Essex made the jaunt in fifteen or twenty minutes. The car was stopped atop a gentle rise near the center of Mr. Fauley's land, where a few snapshots were made to carry back to his apartment home in New York. And here the New Yorker became reminiscient again:

He said: "Judge Neill, when I was here before, we hired a livery stable rig, and my remembrance was that we would around over various trails for almost a half day before reaching my place, and when we finally got here, there was only one house in sight, and that was Mr. Lee Walker's place. Now we run out here in fifteen or twenty minutes on the splendid highway, and find my place absolutely surrounded by thriving fields of grain and cotton. The change is simply wonderful; almost unbelievable.

After spending an hour on his place and a few minutes up at Mr. Walker's, talking with him and his family, we drove the four miles over to the thriving little city of Meadow, where we found many new buildings under construction, including two big new brick business house, and a grader at work putting up their streets and making them look real cityfied. Our town might take a cue from this.

After something like an hour spent in Meadow, we returned to Brownfield just in time for Mr. Fauley to catch the noon bus for Lubbock, as he had to get to Amarillo that night to resume his journey on the California limited. He started his vacation with his mother in a small Ohio town and after visiting a niece in San Diego, Calif. he will visit Los Angeles and other points of interest in that state before returning to New York by Oct. 1st.

The only mishap to Mr. Fauley while here was that he lost his hat Friday night, and after obtaining a "search warrant" rounded up his hat Saturday morning, hanging peacefully on a peg where he had hung it the night before. Judge Neill informed him that we used to lose our hats in Texas in pre Volstead days, but we had no trouble in keeping them pretty well headed these days.

Another thing that amused Judge Neill and the writer was that after being permitted to drive, saying that he had an Essex coach in New York, was he kept giving signals way out on the country road when perhaps there was not another car in a mile of us, when he decided to slow up or make a turn. Our remarks however had no other effect than a challenge that he would make us drive when we came to New York. If we do, we will only be a back seat driver and Mr. Fauley can just pin that in his notebook right now. Movie films of traffic scenes on Fifth Avenue and Broadway have done bluffed us off ever trying to guide a car down one of those thoroughfares.

WELLMAN SHIPS OUT THREE FIRST CARS OF MELONS

The Terry County Melon Growers Association loaded their three first cars of melons at the Wellman station Tuesday of this week, and many more will follow in the near future.

The melon industry is growing each year in Terry county, so much so that it was thought best to organize this year and to co-operate in loading out cars, and by planting the same kind of seed and in hunting markets. The Terry county melon is noted for its superb flavor and crisp meat, and the growers over the county do not anticipate any trouble finding a market.

PORTER A. WHALEY ADDRESS CITIZENS OF THIS CITY

A fair sized crowd was on hand last Thursday night, Sept. 3, at the First Baptist church auditorium, to hear Mr. Porter A. Whaley, Manager of the West Texas Chamber of Commerce address them on the importance of a chamber of commerce or a commercial club if you so chose to call it. A good sprinkling of ladies were on hand, while a lot of our most prominent business men were absent for reasons best known to themselves but we are going to tell them that they missed a lot of information and wholesome advice that every citizen and well wisher of the county and city should have heard. Not a few farmers were in the audience.

Mr. Whaley reviewed the commercial associations from the earliest known period of civilized man down to the present, told of their object and results. Not only that, but he probed into the future somewhat to predict what the future holds for the town or community who work together and think together and act together. All points of commercial bodies were stressed separately, but those we know as co-operation and publicity were especially emphasized.

Mr. Whaley was introduced in a few well chosen words by Morgan L. Copeland, secretary of the local C. of C. directly following an enjoyable concert by the Brownfield Band. Mr. Whaley is an orator of no mean ability, and his wealth of information in his line of endeavor hold his audiences in rapt attention. We are hoping he will pass our way again some of these days and that we will be able to get more of our citizens out to hear him.

BAD EGGS HEADED THIS WAY FROM CENTRAL TEXAS

Officers along the lines of the Santa Fe throughout the South Plains section are receiving notices from officers in the dromath stricken belt of Central Texas that every shade and stripe in the category of criminology are headed this way to be ready to rake in the coin from the prosperous citizens of this section by any means their long practice of living off the other fellow means to them.

Our officers are preparing to give these birds a cold reception with not a few "move on" signs in plain view, and our juries, should these guys be brought before them, should practice up on the art of being "Hard Hearted Hannahs."

We cannot always be too sure that the stranger is a dead beat or crook, therefore our citizenship should be prepared to treat the incoming stranger with courtesy, but this courtesy should be tempered with due caution.

BROWNFIELD SCHOOL OPENED MONDAY MORNING

The Brownfield public schools opened Monday morning with a full corps of teachers and lots of pupils, but as the editor got there a few minutes late he was unable to gain admittance or even stick his nose in the door, but from the looks of the cars lined up the full three blocks on the school grounds, it did not appear that the school was much in need of publicity. Anyway, we know nothing to tell of what transpired during the opening ceremony.

We understand the new high school building will soon be ready for occupancy.

LUBBOCK FAIR BOOSTERS COMING NEXT FRIDAY

The Chamber of Commerce as well as the Herald has been put on notice that a large delegation of South Plains Fair boosters will be in our city next Friday, Sept. 18th, and they also intimate that they will expect the usual annual valedictory treat.

Well, they will miss their expectations, for in our certain knowledge the Chamber of Commerce has already made arrangements to fill 'em up and send 'em home happy.

FIRST BALE OF COTTON SHIPPED AT RALLS

Ralls, Sept. 9.—Ralls received its first bale of cotton today, when J. D. Smith shipped a bale from the Bubbel gin, which is located 13 miles from town.

The bale weighed 480 pounds and brought \$107.85, which was sold to Bryson & Co. A good purse was given to the producer.

Dr. J. M. ... of Meadow, was a pleasant ... the Herald office Monday

**EXCERPTS FROM MITCHELL'S
 ATTACK ON WAR DEPARTMENT**

San Antonio, September 5th.—Excerpts from Colonel Mitchell's statement denouncing the war and navy departments "air policy" include:
 "The conduct of affairs by these two departments, as far as aviation is concerned has been so disgusting in the last few years as to make any self-respecting person ashamed of the cloth he wears."
 "Misleading or false information almost always has been given the war and navy departments."
 "The airmen themselves are bluffed and bulldozed so that they dare not tell the truth."
 "The whole Pacific fleet should have been employed there (along the air route to Hawaii) instead of joyriding around the antipodes."
 "The Shenandoah was going west on a propaganda mission for the navy."
 "To get publicity and make a noise about what it (the navy department) is doing with aircraft, this so called Hawaiian flight was arranged."
 "The bodies of former companions and buddies molder under the soil in America, Asia Europe and Africa, many, yes many, sent there directly by official stupidity."
 "As a patriotic American citizen, I can stand by no longer and see these disgusting performances by the war and navy departments at the expense of the lives of our people and the delusion of the American public."

J. E. Fite and family who live in the southwest part of Terry county recently went to Portales, N. M. to visit Mrs. Fite's father who is over 90 years of age. Mr. Fite stated that his sons came from Berkeley, Calif and Statesville, N. C. to be at the reunion.

SERVICE

The Texas Utilities Company is now a part and parcel of Brownfield, and stands ready to help promote everything for the city's advancement.

It is also our aim to give the very best service possible, and to give the citizens their money's worth for every pound of ice we make and sell.

Yours to serve,

**TEXAS
 UTILITIES
 COMPANY**

Misses Edna and Mary Criswell, of Plains, entered the Brownfield High school Monday morning. They are daughters of Mrs. Bettie Criswell, the County Treasurer of Yoakum county.

**BAPTISTS TO HOLD RALLY
 IN FORT WORTH**

Dallas, September 10.—A state-wide gathering of Baptist men and women at the Broadway Baptist Church, Fort Worth, September 14 and 15 has been arranged, it has been announced by Dr. F. S. Groner, general secretary of the executive board of the Baptist General Convention of Texas. The executive board of the September 14, at 2:00 o'clock, and this meeting will be followed by a rally in the interest of the denominational work.

Rates have been granted by all the railroads of the state and it is expected that large numbers of people from all sections of Texas, Dr. Groner said. An invitation has been extended to all the pastors in the state to attend the board meeting and bring at least one layman. They have also been requested to remain the following day for the denominational rally.

A discussion of the future program of Texas Baptists and the apportionment of funds will be held at the board meeting in addition to other important business which will be brought before the board meeting. The meeting on the following day will be devoted to a discussion of the needs of Texas Baptists and the methods to be used in closing the 1925 Program of the Baptists in this state.

The speakers will represent all parts of the state.

UNFAIR TO THE WOMEN

Within a decade, electric stoves, washing machines, ironing machines, water heaters, mixing devices, refrigerators and similar power appliances will be as much a part of a house as the modern bathroom, is the prediction of Earl E. Whitehorse, editor of Electrical World.

"While the modern office is filled with labor saving devices, only 18 percent of the homes are thus provided. The women are required to do the same kind of drudgery their grandmothers did, all because their home is a way behind the times."

"The development of the consumer-owner power companies, which is real public ownership, will bring about the further use of electricity in the home."

CITATION BY PUBLICATION

To the Sheriff or any Constable of Terry county—Greeting:

You are hereby commanded to summon Oscar Covey by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 106th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 106th Judicial District, to appear at the next regular term of the County Court of Terry County, Texas, to be held at the Court House thereof, in Brownfield, on the first Monday in October, A. D. 1925, the same being the 5th day of October, A. D. 1925, then and there to answer a petition filed in said Court on the 24th day of July, A. D. 1925 in a suit, numbered on the docket of said Court No. 233, wherein W. A. Bell is Plaintiff, and Oscar Covey is Defendant, and said petition alleging, that heretofore, to-wit, on the 12th day of April, 1924, defendant made, executed and delivered to plaintiff his certain promissory note bearing that date payable to the order of plaintiff at Brownfield, Texas, on demand, for the principal sum of \$525.00 and bearing interest from its date until paid at the rate of 10 per cent per annum, providing the usual 10 per cent attorney's fee clause if placed in the hands of an attorney for collection, whereby defendant became liable and bound to plaintiff and promised plaintiff to pay him the sums of money in said note specified, together with interest and attorney's fees.

That plaintiff has placed said note in the hands of Joe J. McGowan, an attorney, and promised to pay him the 10 per cent attorney's fees specified in said note, which is the usual and customary fee.

The said note is long past due and unpaid, and defendant, though often requested, has failed and refused to pay the same or any part thereof, to plaintiff's damage in the sum of \$675.00.

Wherefore plaintiff prays judgment for his debt, principal, interest and attorney's fees and costs of suit, for special and general relief, in law or in equity.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Brownfield, Texas, on this 2nd day of September, A. D. 1925.

784 MORE MILES OF U. S. HARD ROADS FOR TEXAS

Texas farmers and tourists now enjoy 784 miles more of the Federal Highways than they did a year ago, according to the Sears-Roebuck Agricultural Foundation. This mileage completed in the year ending June 30, cost a total of \$11,778,972.00, of which the Federal Government furnished \$4,867,315.00. Highway construction under this plan now underway in the state totals 1509 miles, while the total mileage completed previous to last year was 3122 miles.

This additional mileage, while a convenience to the tourist in the state, is a godsend to the farmer, according to the Foundation. It is estimated that each and every farmer in this part of the country averages 25 tons of farm products hauled to market, and 5 tons of feed, fuel, fertilizer, machinery, supplies, etc., from town. When good roads make truck feasible this is not very burdensome, but it represents a good many hours labor where horses and poor roads must be used. And so while the tourist finds the inter-city roads mighty comfortable, to the farmer a good serviceable road from his farm to the nearest market is a downright necessity.

The expansion of hard road systems, both in this and other states, in recent years has given the farmer an added inducement for going into business for himself, the Foundation states. That he has not been slow to take advantage of the opportunity is testified in the increasing number of roadside markets on the more frequented highways. Figures show that each of these markets take in from fifteen to thirty dollars up to several hundred dollars a day, varying with the locality, the preponderance of buyers being tourists driving through the country. Some of these are nothing more than stands of simple board construction while the more pretentious are housed in buildings which may be locked after the day's or the season's business. The most successful of the markets are so placed as to have convenient parking facilities where prospective buyers may examine the articles of goods, which should be of good quality yet moderate in price and attractively displayed.

J. R. Carver was in one day this week and said he felt very optimistic over his crop outlook. He said most anything might happen in the shape of worms, storms or early freeze to hurt the cotton crop, but there was no denying that prospects are fine.

J. W. R. Bachman, prominent Terry county farmer of the Seagraves country, was a visitor in Brownfield, Saturday.

Editor Luke Roberts, of the Lovington, N. M. Leader, accompanied by the good wife, were milling around with the crowd here Saturday. While here they paid the Herald a short call.

W. H. Key and Loyd Moore opened up a school supply establishment near the school grounds Monday morning. They will not only carry a nice line of school supplies in the way of pencils, tablets, etc., but a small stock of select groceries, and prepare hamburgers and sandwiches.

Miss Ann Hamilton, accompanied by Mrs. Stricklin, were Lubbock visitors Sunday.

The old Confederate soldiers, sailors or their widows received a check for \$38.00 for the past quarter from Comptroller Terrell, recently, which is the largest pension this state has ever paid. He wrote each of them a nice letter with a letterhead showing the old Confederate flag in its natural colors. The letter, as well as the raise, was highly appreciated by the recipients. The quarterly payment is expected to reach \$40 in the near future.

Amarillo succeeded in getting the next convention of the American Legion, and promised the boys they would meet next year in the finest Legion convention hall in Texas. Dr. W. T. Dunning, of Gonzales was elected commander, and his promises are to present the Texas organization with 25,000 paid up members.

Pecos.—Recent rains in the Pecos river section has made the grazing range of the southwest part of Texas one of the most attractive in years, and the only regret is that there is not at this time sufficient livestock to take care of the splendid crop of luxurious grass that is covering all the mountains and valleys as well as the water holes and tanks are overflowing with water. Cotton prospects for the Pecos valley are at this time far above the average for cotton production.

Stamford.—Porter A. Whaley, Manager of the West Texas Chamber of Commerce attended the Southern N. M. Association at Ruidoso. He reports as fine meeting and states that many things of importance were discussed concerning both Texas and New Mexico.

KEEP AWAY FROM WILDCATS

Buying bluesky and wildcat shares of stock is not the popular indoor sport it was a few years ago. People are learning more and more the wisdom of consulting a bank with a good reputation before making investments and handing out their hard-earned money.

National distribution of the better class of investments has become a modern science, and in a great nation like ours with enormous accessions of newly created wealth, it is very important that those who buy securities know what they are getting.

Our harvest season is here. Farmers are blest with normal crops and in some cases better than normal. They will find themselves with plenty of money this fall and the slicker stock salesman will be on hand to take it away from them.

There are many good investments in all lines of activity, and all that a buyer need do is use ordinary prudence and consult with responsible banking or investment concerns, and million of dollars will be saved from loss.

A SURPRISE PARTY

Mrs. Satch Green and Mrs. C. A. Lord decided to play a surprise on Mrs. J. C. Green, Thursday, September 3rd, as it was her 49th birthday. So they invited a few friends in after the W.M.S. The ladies met at the home of Mrs. Satch Green and filled a basket with lovely presents, and Messrs. Dr. Copeland and Weathersby carried the basket and made a presentation speech, which took Mrs. Green by surprise, but a joyous one.

The guests were served cream and cake.

BAPTIST LADIES will serve a full dinner Monday, Sept. 14 at the old Theatre building. Come and be filled one more time for 50c. Itc

Charley Parks, of Weatherford, was here last week visiting his cousin, Jim Parks, of Tokio. Mr. Parks expressed himself as being pleased with the looks of our country and crops.

P. G. Stanford, prominent lawyer and ranchman of Plains, was a visitor in our city one day last week, and remained for the address of Porter A. Whaley.

R. W. Smith, contractor, begin the erection of a nice cottage on east Hardin street Monday morning for J. E. Michie, local groceryman. The residence is to contain 6 rooms and bath, and will be modern in design and finish. It is situated on the same block and west of Homer Winston's residence.

SHERIFF'S SALE

The State of Texas, County of Terry: Whereas, by virtue of an order of sale issued out of the District Court of Terry County, Texas, on a judgment rendered in said Court on the 28th day of July, A.D. 1925, in favor of R. I. Cook and against T. H. Hargus, No. 820 on the docket of said Court, and to me, as Sheriff, directed and delivered, I did, on the 9th day of September, A.D. 1925, at 10 o'clock A. M., levy upon the following described tracts and parcels of land situated in Terry County, Texas, and belonging to T. H. Hargus, to-wit: All of the west half of Section Number 75 in Block D-11 in said Terry County, Texas, and on the 6th day of October A.D. 1925, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P.M., on said day, at the Court House door of Terry County, Texas, in the town of Brownfield, I will offer for sale and sell at public auction, for cash, all the

Last week's issue of the Plains Journal announced that it would issue an evening daily beginning Tuesday of this week to be known as the Lubbock Evening Journal. It kindly looks like crowding the monkey to an outsider, but we have never failed to see them put over anything they started in Lubbock. Therefore we would be the last person on earth, knowing Lubbock folks like we do to say two dailies cannot exist in that city.

Volume 1, No. 1, of the Anton Progress came to our exchange table this week, and we found it to be a healthy youngster despite the fact that the editor, J. O. Nash explained that it was not as large as he intended to make it as he failed to get a shipment of news print. It was however very well supported by Anton merchants, and was found to be real newsy. The South Plains section is growing so fast, towns are springing up so frequently and with them the indispensable weekly newspaper, that it is hard even for one almost located on the ground to keep up with them.

At least one of our farmers and perhaps more of them visited nearby counties last week who have county agents to get poison remedies for the army worms. Why not have a county agent here in old Terry? Why don't you farmers ask the Commissioners Court to employ one? The U. S. government pays most of their salaries, and you are paying for them in other counties just the same, but perhaps don't realize it. It won't do any good for the town people to request the Court to appoint one—the initial move must come from the farmers themselves.

The mail order houses are now delivering their huge fall and winter catalogues which are in appearance fairly brimming with bargains, if the highly colored pictures and still higher colored descriptive matter is to be taken seriously. To say the least, they are out after business, and will get more than they deserve. Now Mr. Merchant let's beat 'em to it by showing that it is better and cheaper to trade at home where you see the goods before buying them. You know the Herald is with you heart and soul or it would have accepted their advertising amounting to some \$500 per

year. A long time ago we saw a pet monkey bit a boy who was aggravating it as it sat upon a fakir's wagon. The man turned around when he heard the money growl and the boy howl and remarked: "Boys, never monkey with a monkey." That admonition made a lasting impression on us, and we were forcibly reminded of that incident this week when we read where a boy in a west Texas county tried to make a pet of a rattlesnake in a field, which finally sprang into a coil and bit the boy in the face. The youth lived only five hours after being bitten. Moral: There are some things that people cannot afford to compromise with without endangering their lives or even their souls.

What has become of the proposition to create a golf club? This to our notion was a very worthy movement and should be carried to completion by our leading sportsmen and citizens. Brownfield is growing fast, and the country surrounding it is becoming divested of game so that hunting can no longer be resorted to by our townsmen for recreation. Games then must take the place of field sport, or our citizenship will become so obsessed of avoidpoups that tractors and trucks will have to be brought into play to transport them to their various places of business. There are to be sure several tennis courts and a few croquet grounds, but a golf course gives the player more walking exercise, and that is exactly what the middle aged and old man needs. Base and foot ball, of course, are entirely out of the question for them. Let's have the golf links.

Despite the precautions taken by officials, it seems that crime is becoming more rampant each day. This is somewhat to be expected, for we have been notified by the officers of Central Texas that every manner of criminal is decamping from the drought stricken section, and are now trekking to greener fields of the prosperous South Plains section. We are already feeling the effect of their invasion with the burglaries at Meadow Friday night and a series of them in the residential section here Saturday night. Law enforcement must have a tightening up if we are to go on in the usual peaceful manner of former years. The officials to our notion are not so much to blame, for they do their duty by making arrests and the court gives instructions, but our juries are too prone to listen to the sob stuff of lawyers who are defending these criminals instead of following the law and evidence. This breeds contempt of courts and law and order, and that in turn brings on mobs—citizens who tire of rape of the law, and take matters into their own hands to meet out justice. No burglar ever entered a house at night without being prepared with either a gun or club to lay low any man or woman who interferes with their thievery, and therefore is a murderer at heart and should have no sympathizers. Then, too, there is always a

few "good citizens" with sympathetic hearts and eyes, ready to reform the criminal, never ready to go bond, when the law breaker needs to languish in a steel cell. Crime waves should be met by cold steel and a united citizenship determined to put it down. It is right and heartening of officers to lose sleep and risk their lives and health to run down criminals only to have a jury free them or put on a light suspended sentence. The suspended sentence was made for boys and youths who commit their first crime and was never intended by the author of the bill to shield hardened criminals.

A RELIGIOUS DEBATE

We have been requested to announce that a debate will be held at Tokio, Texas, beginning on Monday night, Sept. 14, to run four days and nights, between A. S. Bradley, of the Christian church, or that branch of them sometimes termed "soul sleepers," of Mullins, Texas, and Alva Johnson, of Tullia, Texas, of the Church of Christ.

The subjects under discussion will be the "Kingdom," "the Nature or State of Man," and "instrumental music in Christian worship."

Everybody has a cordial invitation to attend.

CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any Constable of Terry County—Greeting:

You are hereby commanded to summon Mathew Truman by making publication of this Citation for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 106th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to the said 106th Judicial District to appear at the next regular term of the District Court of Terry County, to be holden at the Courthouse thereof, in Brownfield, Texas, on the 3rd Monday in January, A. D. 1926, the same being the 18th day of Jan. 1926, then and there to answer a petition filed in said Court on the 20th day of August, A. D. 1925, in a suit numbered on the docket of said Court number 837, where in Alberta Truman is Plaintiff and Mathew Truman is Defendant, said petition alleging: That heretofore to-wit, on the 28th day of February, A. D. 1910, plaintiff was lawfully married to the defendant as Clarksville in Red River county, Texas. That she, the plaintiff herein continued to live with this defendant as his lawfully wedded wife until the 1st day of November, 1912, when she was forced by studied vexations and abuse and non-support forced to leave said defendant, that she has not lived with this defendant for 10 years, and has never seen him, and does not at this time know his whereabouts. That she is and has been a resident citizen of the State of Texas all her life, and for the past six months a resident of Terry County, Texas. Wherefore she prays that the bonds of matrimony heretofore existing be severed, for which in duty bound she will ever pray. Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the

'Service' is Our Motto

Just One Little Omission

Just one note and unsatisfied judgement or an unpaid tax; of the superficial searcher.

Or lien not clear on the surface, and escaping the attention and many other things of like nature—the omission of just one of them make your abstract worthless, and worse than worthless a traitor to your purse, leading you to calamity by its false assurance of safety.

Don't take chances when you need an abstract of land title. Go to people who make abstracting of land titles a specialty, and stake their whole reputation on furnishing the infallible record you need.

Come in and learn the details of my service.

C. R. RAMBO

BROWNFIELD, (Terry County) TEXAS
Abstracter of Terry County Land Titles.
We guarantee our work.

For All The Family

"We use Black-Draught in our family of six children and find it a good liver and bowel regulator," says Mrs. C. E. Nutt, of Mineral Springs, Ark. "I have taken it myself in the last two or three years for indigestion. I would feel dizzy, have gas and sour stomach, also feel a tightness in my chest. I'd take a good dose of

BLACK-DRAUGHT

Liver Medicine

when I felt that way, and it would relieve me, and I would feel better for days. "My husband takes it for biliousness. He says he has never found its equal. When he has the tired, heavy feeling, he takes Black-Draught night and morning for a few days and he doesn't complain any more. "I sure do recommend Theford's Black-Draught." Your liver is the largest organ in your body. When out of order, it causes many complaints. Put your liver in shape by taking Black-Draught. Purely vegetable. Sold Everywhere

Don't Wait

CREAM!

We wish to announce to the farmers of Brownfield and the surrounding territory that we have secured the buying agency for the Mistletoe Creameries. We will be located across from the Quality Filling Station in the old McAdams Lumber building.

We wish to call your attention to the fact that the price of cream in Brownfield went up four cents per lb. when we opened up. The market has been up the past ten days but the Brownfield farmers haven't received any benefit from it. We will always pay top market price with honest weights and tests.

It will pay you to see us before you sell your cream. Don't forget the location.

MEADOW CORRESPONDENT DISCUSSES TOLERANCE

By Aesculapias.

Editor of the Herald:

There has recently appeared in the Meadow Review and also in the current issue of the Herald a number of whereases and five resolutions, signed by two well known and excellent gentlemen of Meadow. Whether as officers of the body passing them or as co-authors I do not know. Nor does it make any particular difference.

The articles purport to have the approval of the First Baptist Church of Meadow, and are directed in part by the commonly accepted theory of evolution. Had the criticisms ended by expressing their opposition to such theory, and the position of this particular body, and its relation to the church, there could be no reason for anyone to interpose objections.

The resolutions are directed to the public as two secular newspapers carried them, and there can be no good reason why one disagreeing with their tenor may not answer them without being considered an interloper.

The whereases and resolutions are rather long to include in this rejoinder, and only such portions as will make them clear will be quoted.

The first whereasis asserts there is now being taught a "thing called evolution," as an explanation of creation in "direct contradiction to Genesis."

No evolution has ever been put forward as an explanation of creation no is it a working hypothesis to contradict Genesis or any part of the Bible. Evolution is not a substitute for nature or God; nor is it a substitute for creation. Evolution is merely nature's tool; God's methods in other words, and in no way takes the place of either. Evolution is not the act of creation, but the means by which creation is effected. Its facts have been adduced by the physical sciences: Geology, paleontology, biology, embryology, comparative anatomy, astronomy. It may be true in whole we know it is true in part. If it should prove inadequate, the scientific method will be readier than any other to repudiate it.

Whereas: "It undermines the faith of the people, destroys reverence for God and the Bible, is conducive to crime, lowers morals, promotes immorality among the youth." The should have added as has been done "brought on the world war, produced the insurrection in China; is at the bottom of wide-spread divorce; caused the Leob and Leopold murder, etc."

In fact the charges could be extended indefinitely and they could have been just as easily passed.

Now, as a matter of fact the statement is overdrawn. The faith that can be undermined by evolution is indeed a poor staff on which to lean. These possessors of little faith should increase it by adding to it knowledge and may I add justice, as well as the other christian virtues.

I have never met an irreverent evolutionist. He bares his head in the presence of his God. He does not scoff and scorn at religion. Most of them are religious men and women in the very essence of that term. He is rarely sectarian. There are many of them in the field of medicine, some know filling high places in the church and in every field of endeavor. It would be impossible to catalog even a few in this article.

The Baptist and other churches are full of them, and they have no better members. Some are preachers and are filling the most notable pulpits in the Baptist church and other churches. Then away with such drivel as: "lowering the morals of the people and promoting immorality among the youths." Scat! likewise Rats! Get the behind me satan.

Resolution No. 1: I heartily agree with them that it was the direct act of God in creating all life from its lowest to its highest forms. I know of no teacher of evolution who have declared to the contrary.

Resolution No. 3: It appears to be properly registered and I find no fault with the protest. But the tax-supported schools are the property of the whole people and not private property.

When we reach the point that the various religious bodies can interfere with the curriculum of the public schools, God help us. The narrowness of some people and the egotism that makes them blossom all over, would then equal the foolishness of the past. When church dignitaries in solemn conclave declared the world flat, when geometry and all mathematics were called works of the devil; to relieve the pains of child-birth with chloroform was interference with the curse of God, "In pain shalt thou be delivered." King David said, "purge me with hyssop and I will be clean," but it too has passed into innocuous desuetude.

They should have also should have demanded that Parson Jasper of the "Sun do Move" fame should be made superintendent of schools.

Resolution No. 4: In the Baptist schools where evolution is taught, to

"immediately and without ceremony or delay to dismiss from the teaching force any and all instructors teaching evolution." This of course is the business of the Baptist church. They may properly eject any person for any offense or for no offense, and it is no concern of the outsider.

It can do no harm however, if we shall say a few words on this score. Up to the present good moment, biology and the other physical sciences are taught. These teachers have not been told to desist. In fact have been forced to teach them. Some of them are graduates of these same schools. Among them may be widows, old men and young men and women who have not felt conscious of committing any offense against the church. Get out of that P.D.Q. If I had been one of those who voted for that resolution I would never again repeat the words of Christ: "Whatsoever ye will that men should do to you, do ye even so to them."

Again, if not eligible in the schools on grounds stated, if members of the church, and most of them are, what will be the attitude of the church. Each Baptist church is an entity; it is a law unto itself. In most of the churches throughout the U. S. they would be received without question, but not in Meadow.

The church opens wide its doors to all other kinds of transgressors; the murderer red with the blood of his fellows, the thief and the burglar is given sanctuary, the adulterer and his paramour find a City of Refuge and all others have their sins hid with Christ in God if they only confess, but the biologist is given the mark of Cain.

Verily the provinder of Bryan, Norris and Co. is bearing fruit. Fundamentalism is a fake and Modernism a misnomer. We can never return to the past without facing barbarism. We have after a great struggle gotten beyond strained interpretations of Genesis and the fulminations of the Hebrew prophets. There is no relation whatever between the cosmogony of Moses and the sermon on the Mount. Christ is at once the end of the old and the beginning of the new. He came in the fullness of time and "old things have passed away, behold all things have become new."

The Baptist are a great and historic body of religious people. As an organization they came into being in the troublous and turbulent times of the early part of the sixteenth century. Along with other religious bodies opposed to Rome they suffered every persecution. "On the Plains of the Netherlands; in higher Germany; among the Alpine valleys and raigs of Switzerland, and in the cities of England the ashes of her martyrs have been the sport of fitful winds and brutal men." (Armitage) Seeking to America for freedom, they gain met persecution in many of the colonies. Regardless of this, their hurches to a man joined the Revolutionary forces and earned the right to worship God as conscience dictates. When the conflict ended they helped to write into the Constitution of our country the "Bill of Rights." Remembering such an honored and glorious past, it is unthinkable that they should swap places with Rome in an effort to suppress any knowledge that has even the appearance of act. But enough of this.

As I close this article the great orb of day, fit symbol of Deity has long sunk to rest. The curtain of night has fallen about us. Looking toward the great vault of heaven is studded with the constellations of amiliar stars—hoon companions of many lonely drives. Overhead, and stretching from the northeast to the outhwest, just past the meridian, is the great belt of star groups, resembling flecks of clouds, via Laceta or Milky Way. In the interspaces and apparently much further away, is theucid stars. Silent sentinels, still keeping virgil of the ages. With powerful glasses can still be seen other telliar orbs, invisible to the unaided eye. With increased power more of hem come into sight, all moving with our own orb and his satellites toward he same goal. I am lost, bewildered in the contemplation. What of the Power back of it all? The finite cannot fathom the infinite, and I am made to exclaim with others of the past, "What is man that thou art mindful of him?"

Nor can I with due reverence for the Author of the Cosmos regard Him as just an enlarged image of my appreciated but overzealous friends who passed these resolutions.

"COUNTY GOVERNMENT IN TEXAS" NAME OF BULLETIN

Austin, Texas, Aug. 10—"County Government in Texas" is the title of the University of Texas press in a revised edition. According to Dr. Herman James, formerly professor of government in the University, and Irving Stewart, instructor in government who revised it, the object of the bulletin is to give a brief yet complete description of this division of the state government, pointing out its defects and suggesting means of remedying them.

SOME MIGHTY GOOD COTTON FIELDS IN OLD TERRY

A man don't have to drive around very much these days till he comes to the conclusion that we are going to have a mighty good cotton crop this year despite the fact that a big acreage was blown out in the sandiest soil by the seven day storm in May, and an enormous feed and corn crop will be harvested.

We understand that a prominent farmer six miles north of town offered to bet a Stetson hat Saturday with a local banker that he could pick out

an acre in his field that will make a bale and a half. It is said that his entire field will average more than half a bale per acre. We are not calling names as an officer might read this. Another man informed us that a farmer living near Wellman would get 300 bales off 200 acres. We have heard of other fields all over the county that have produced heavy yields of cotton staple, but these are among the best we have heard of. We have seen some however that look like they might turn off cotton long after the other wanted to quit picking and get another crop

MEADOW BRIEFS

By Aesculapian

Our old friend Luther Herrington who sold his drug interests here some two months ago, is back among us bringing with him his son Gail. Rumor has it that he will perhaps buy an interest in his old business and remain here. The people generally will welcome him back. His wife, on account of her health, will remain in southwest Texas for the present. He knows a good thing when he sees and compares localities.

The Chautauqua has been with us most of the week giving its last program Thursday night. Most of the numbers were seemingly enjoyed by our people. The lecture by Mr. Beasley Thursday night was not encored in its entirety by all.

The attack on the modern dress of the women, especially the wearing of men's attire was strongly condemned. Personally I can't see anything wrong in their putting on the outward signs of masculinity, for indeed in fact they are all boss at home anyway. The old gentleman really looked like he had snagged a rolling pin or some other feminine weapon. Perhaps the memory. I really can't see any reason for covering at other places when if you frequent the bathing pools, beauty contests and the various theatres and picture shows, you really know which has the best underpinning anyway.

Let them enjoy and display their physical beauty if they wish. Adam and Eve were both nude and were not ashamed. The Hotentots natives of the South Sea islands all dress in a seraphic smile and a string of beads, without causing any comment. God bless the women. They are just as sweet and chaste as at any period of the world history, but when they kiss they must get that artificial red off their lips.

The road grader is still with us putting some of our principle streets in order. They have finished the public highway.

Mrs. Bobby Terry, her mother, Mrs. Schuler with the children, are visiting in the home of Mr. and Mrs. A. L. Moorhead. They say crops are not so good around Stephenville as here.

Mrs. Dr. Moorhead is on a visit to her sister at Abilene, and J. L. Moorhead's family at Tuscola.

The garage and filling station of Mr. Jackson was burglarized Friday night, casings and tubes being the principles things taken. We don't know nor does he the loss he has sustained.

The work on buildings and residences is progressing rapidly.

We were visited by several showers Sunday evening, but they were very light in most places.

Mr. and Mrs. Aut Graham left this week for Corpus Christi where they will reside for the next few months to see if that climate will benefit Mr. Graham's health.

Max Winkler, of the Winkler Dry Goods Co., returned this week from Dallas, where he laid in a large stock of fall and winter goods for his store.

Mrs. J. A. Walker and her daughter Mary left Wednesday for Mineral Wells, where they will probably stay until Christmas.

SAVE with SAFETY at your Rexall DRUG STORE

When the bell rings for school to open, be sure your children are ready to resume the class work

Here you can buy pencils, fountain pens, steel pens, memo. paste, albums, pencil sharpeners and school tablets. Every item is of good quality and at a big saving.

The children are our friends and know that school supplies purchased from here will give them service.

Come in and see our assortment of needs for school. It will make you wish you were a kid again.

MESDAMES WEATHERSBY AND COLLIER ENTERTAIN

The W.M.U. was delightfully entertained at the home of Mrs. Weathersby, assisted by Mrs. Roy Collier, Thursday afternoon, Sept. 3rd. After the arrival of each guest, they were lead to a delightful bowl of punch, then to the bed room where she received her "blue bonnet." After some chatter of tongues, the house was called to order, and Mrs. McDonald played a lovely piano solo, then Miss Maurine Weathersby sang Holy City. Miss Lorena Copeland gave a lovely reading, after which the Little Adams children in their usual sweet way sang a duet. Mrs. R. W. Rambo concluded the program with the life of Paul.

Sides were chosen and we were given a Bible test, after which Shirley Bond told us a Bible story. Each guest was then served cream and cake. All departed, declaring it the loveliest time of the season.

Baptist ladies you cannot realize what you are missing. Come and see what we are doing.—Reporter.

G. W. Webber and Clyde Bond, of the Palace Drug Store, are attending to their fall and holiday marketing at Dallas.

J. P. Turner and family, of Wichita Falls, were here this week on business.

PARTITION NOTICE

The State of Texas, To the Sheriff or any Constable of Terry County, Greeting:

Whereas on the 28th day of August, 1925, Joe Boyd, Executor of the estate of Jno. W. Gordon, deceased, filed in the County Court of Terry County his application for partition and distribution of said estate, alleging that Mary S. Givan, Arlie Coons and M. G. Gordon are entitled to a share of said estate:

Therefore, you are hereby commanded to summon and require that M. G. Gordon, Mary S. Givan, Arlie Coons and all other persons interested in said estate to be and appear before said court, at the next regular term thereof, to be held at the court house in said Terry County, at Brownfield, Texas, on the first Monday in October, 1925, the same being the 5th day of said month, then and there to show cause why such partition and distribution should not be made.

Herein fail not but have you then and there before said County Court on the first day of the next said term thereof this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said court at office in Brownfield, Terry County, Texas, this 28th day of August, 1925. Jay Barret, Clerk County Court, Terry County, Texas.

EXECUTOR'S NOTICE

The State of Texas: To the Sheriff or any Constable of

Terry County, Texas, Greeting:

You are hereby commanded to have posted for twenty (20) days, exclusive of the date of posting, before the return day hereof at three of the most public places in your county, one of which shall be at the court house door of said county, a copy of the following notice: also you will cause to be published once each week for 20 days in some newspaper of general circulation which has been regularly published within your county for more than twelve months before this date, a copy of the following notice to wit:

"The State of Texas,

"To all persons interested in the estate of Jno. W. Gordon, deceased:

"Joe Boyd, executor of said estate, has filed in the County Court of Terry County, Texas, his final exhibit

and report of said estate up to and including the 26th day of August, 1925, which will be heard by said County Court on the first Monday in October, 1925, the same being the 5th day of said month, at the Court House of said Terry County, at Brownfield, Texas, at which time all persons interested in said estate may appear and contest said exhibit and report should they desire to do so.

"Herein fail not but have you before said court on the first day of the said next term thereof this writ with your return thereon showing how you have executed the same."

Given under my hand and seal of said court at office in Brownfield, Texas, on this 28th day of August, 1925.

(9-18) Jay Barret, County Clerk, Terry County, Texas

Concrete Streets in TEXAS

When you go to Galveston again, take time to look at the concrete pavement on Broadway and Twenty-fifth Streets—the Treasure Island's famous residential streets.

Thousands of motorists have admired the concrete on Broadway which was laid in 1914. Its pleasing salmon pink color was obtained by adding red oxide to the concrete mixture. No one who has tested out its riding qualities will forget the pleasure of driving over this firm, rigid, unyielding surface.

It is even because it was built that way; and once in place concrete remains as built—firm, rigid, unyielding, unaffected by traffic and changing seasons. Concrete streets are also safe streets because they are skidproof. You know what that means.

The Portland Cement Association has a personal service to offer individuals or communities who want to get the most from money invested in public or private construction enterprises. Let us help you with your paving problems.

OFFICES IN 30 CITIES

Ten Santa Fe Years

How the Santa Fe has grown in ten years and what that growth means to Santa Fe patrons. Better service at reasonable rates, due to efficiency of operation and millions spent for improvements.

That Santa Fe freight moves promptly, that Santa Fe journeys are enjoyable—doesn't just happen.

Wise economies, 284 million dollars spent between 1914 and 1924 on track and equipment, and the co-operation of patrons and employes—these have helped to build up a great transportation machine which is at your instant service for a most reasonable charge. And this in the face of heavy increase in costs of operation without corresponding increase in rates.

In these ten years the Santa Fe and the Southwest have grown together. The Santa Fe's growth has been not only in mileage and facilities, but also in ability to serve patrons better.

This decade has been a period of expansion. In it the Santa Fe's operated mileage has increased 922 miles. Each locomotive now hauls 54 per cent more. Nearly 14,000 more Santa Fe freight cars are available. There has been an increase of 15 per cent in passengers carried one mile and 79 per cent in revenue tons carried one mile.

Other important items have grown, too. Such as expense of maintenance of the railroad, which increased 121 per cent, or \$1,700 a mile. Maintenance of locomotives showed an upward trend of 137 per cent, or \$6,141 each. Passenger cars 85 per cent, or \$999 a car. Freight cars 155 per cent, or \$161 per car. All operating expenses combined jumped 114 per cent. Taxes advanced for each mile of track 196 per cent, or \$993. Total taxes in 1924 were \$17,730,961 or \$1,499 per mile.

Yet Santa Fe freight rates have gone up only 28 per cent and passenger fares only 47 per cent.

Freight loading carried by each car has increased 3.12 tons, or 14 per cent. Freight loading carried by each freight train has increased 226 tons, or 54 per cent. These are gratifying marks of progress.

The Santa Fe hopes to keep on growing and to keep on being satisfactory service.

W. B. ... President The Atchison, Topeka and Santa Fe Railway System

PACKING HOUSE AT AMARILLO SERVES LARGE TERRITORY

With the opening of the Western Packing Company, of Amarillo, Texas, on May 1st, there is no doubt but that the territory embraced in the Panhandle of Texas will be greatly benefited thereby.

The packing company now employs approximately seventy people, with the following directors and officers: W. H. Bachelor, president, T. R. Emmett, vice-president and sales manager, C. L. Wood, office manager. Three traveling salesmen now cover the territory. Messrs. Floyd Wallfolk, W. V. Lowrey, and Elgar F. Lard. The packing house is now marketing daily seventy hogs, approximately twenty-five head of cattle and besides this, a large ice-plant has been constructed with a daily capacity of 30 tons. In the sales department the E.R.D. Bacon (Every Bite Delicious),

boiled trims, baked hams, veal loaf, link sausage, frankfurters, Texas minced lunch, lunch special, are being sold to the public, besides numerous other specialties which will be placed on the market from time to time.

The E. R. D. lard manufactured is receiving quite a bit of comment over the territory because of its high food values. Coney Island is also being manufactured, which is a pork shoulder, dry sugar cured and made into a roll.

The directors of the Western Packing company have assured the tri-state Exposition that car-load lots of beef cattle, and herd of various character which will be shown at the said exposition will be offered the highest market price at the packing house immediately after the close of the exposition.

Mr. and Mrs. Arthur Sawyer are spending the week in Roswell, N. M.

COST OF LIVING HAS INCREASED SINCE 1913

Compared with 1913 the average cost of living in the United States is just 150 per cent, or just 50 per cent higher at this time than in 1913, says the Texas Public Service Information Bureau.

The only item in the cost of living that is not greatly in excess of the 1913 prices are the several public utility services. Most of these are just about the same as before the war.

The following statement shows the average distribution of the average family income percentage.

Food	25.8
Rent fuel	22.9
Clothing	15.5
Insurance	4.4
Electricity	6.7
Street car	2.9
Gas	6.9
Telephone	6.8
Miscellaneous	25.3

SOUTH PLAINS FAIR CATALOGUE BIGGER THIS YEAR

Three thousand copies of the 1925 Panhandle and South Plains Fair catalogues have been printed and are now ready for circulation over the territory, and although the catalogues are the largest ever published here, they were gotten out by the Plains Journal press in record time and turned over to the Fair Association on exactly the same day they were designed.

The catalogue consists of 141 pages, a gain of five pages per book over 1924. All information pertaining to the fair is contained in it, inclusive of the facts on the largest premium list ever offered here.

THE W. M. U.

The W. M. U. met Thursday, Aug. 27th in a business meeting, in which the following officers were elected:

Mrs. Dr. Copeland, Pres.; Mrs. Dunn, Vice-President; Mrs. Bond, Recording and Corresponding Secretary and Treasurer. The following were made chairmen of committees: Educational, Mrs. R. W. Rambo; Benevolent, Mrs. C. E. Ball; Enlistment, Mrs. Oehler; Social, Mrs. Ellen Collier; Personal Service, Mrs. Swindle; Sec. Mission Study, Mrs. Greenfield; Mission, Mrs. Weathersby; Finance, Mrs. Pounds; Publicity, Mrs. Satch Green; White Cross, Mrs. Bruce Hancock; Sunbeam Leader, Mrs. Will Adams; Personal Service, Mrs. K.W. Howell.

Each officer is expected to do her "Best."—Reporter.

AND APPRECIATIVE

CALIFORNIA READER APPRECIATES THE HERALD

Los Angeles, Sept. 3, 1925.

My Dear Mr. Editor:—For another year the Herald has come regularly to us as a fresh breeze from the Plains, always encouraging, always hopeful. Many and thrilling must be the happenings in so vast an area as your Empire State in the course of a year. The storms may run riot at pleasure; the clouds may be emptied of water long before all of her broad acres are satisfied, harvest may fall here and gloriously ripen there to the joy or sorrow of the multiplying peoples; yea all of these and many other thrilling experiences may come to that land of boundless vistas within the course of a 12 months, but time will continue its rapid whirl and the surprising things of life will come to us every morning. Such changes are going on in your city and county that I fear I will need a guide—a pilot to lead me in my bewildered meander-

ings. But I will do my best to keep up with the procession even at this remote distance, but persuading the Herald to continue coming for another year. So here is the persuasive word, my check for \$1.50.

I would appreciate any propaganda literature that the Chamber of Commerce is sending out pertaining to Terry county. There are a good many

Texas folks about here, and we often talk of the Plains country—the future garden of the world.

Faithfully,
D. D. DeLong.

The Herald job department is turning out a supply of cotton tickets for weaver Richard Crews of the Wellman yard this week.

Economical Transportation

Now
2,000,000
CHEVROLETS
Why?

QUALITY AT LOW COST

Chevrolet has now built 2,000,000 cars—the first manufacturer of automobiles with modern sliding gear transmission to reach this tremendous production.

This achievement has been made possible because Chevrolet has met the great public demand for a quality car at low cost.

Chevrolet has a construction typical of the highest priced cars—

Touring \$525	Roadster \$525	Coupe \$675	Coach \$675
Sedan \$775	Commercial Chassis \$425	Express Truck Chassis \$550	

ALL PRICES F. O. B. FLINT, MICHIGAN

powerful economical motor and disc clutch, bodies of beautiful design, closed models by Fisher, Duco finish, interior of cars beautifully and substantially upholstered and fully appointed.

Be sure to see these cars that have achieved so great a degree of public favor—and learn why so much automobile you can get for little money.

AFTER THE QUACKS

Every citizen of Snyder has been told by his family physician at some time or another that the medical fraternity does not believe in advertising. In fact, the medical profession has held out against newspaper advertising longer than any other class. But, the break has come. Texas medical men have endorsed clean, dignified newspaper publicity—in fact they have expressed the belief that it must be resorted to if the growing army of quacks is eliminated and the health of the American people more carefully preserved. They know that almost every man and woman in this country are newspaper readers—and they generally believe what they read. So they are going to talk to them, instead of staying closed up like a lot of clams in an effort to offset the growing sale of "quack preparations." And the step to be taken in Texas will soon, we venture to say, be followed by every state in the union.—Scurry County Times.

THE EXTRAVAGANCE OF MUD

It would be interesting to know what mud costs us. Whatever the figure might be, it is more than we can afford. How many extra hours of hard labor with the mop and dust cloth do our housekeepers put in, because of muddy and dusty streets? How many visitors looking for a place to live reject our town because it doesn't appeal to them? Lack of pavement hurts us—costs us money. Mud is an extravagance we can ill afford. It is an extravagance that is unpleasant. Since pavements are cheaper and more pleasant than muddy streets, it would seem that some permanent pavements ought to be seriously considered. W. C. Smith and family returned last week from Phoenix, Ariz., where they have been visiting the son, Mumford and family. They seem to like that country very well.

ENTERTAINS S. S. CLASS

Miss Bernice Weldon entertained with a party last Monday evening at her home, the Philathea class, of which she is teacher, and the young men's class of the Baptist Sunday School. Additional guests were Rev. and Mrs. C. E. Ball, Mr. and Mrs. Lloyd, Messrs. Red Castleberry, Brogan Dodd, and Etheridge of Tahoka, Misses Brazle, Crawford and Castleberry.—Reporter.

Mrs. C. A. Lord and daughter, of Beaumont, are here this week the guests of Mrs. Lord's brother, J. C. Green and family.

Mrs. H. W. McSpadden Sr. and daughter-in-law, Mrs. H. W. Jr. motored to Lubbock Wednesday and spent the day.

Mr. and Mrs. H. G. Lees and children, who have been visiting Mrs. Lees parents, Mr. and Mrs. W. H. Dallas the past week, returned home Sept 1st to Dexter, N. M.

Rev. and Mrs. J. Wood Parker will arrive Friday to attend a special meeting of the Presbyterian Woman's Society at 4 o'clock. A social meeting will be held at the church at 8 o'clock. All are invited to hear these splendid christian workers.

Mrs. J. Hayden Griffin, Mrs. Jno. B. King, Miss King, Miss Christensen, Mrs. W. H. Dallas and son, James Harley, were members from Brownfield church attending the Presbyterian church meet and barbecue at Lamesa last week.

C. SEARS RETURNS FROM TRIP TO EAST TEXAS

Brownfield, Sept. 6, 1925
Editor Jack, friends and neighbors: I want to tell about my trip up to date. My family and I bid farewell to Brownfield on the 18th of August at 11 o'clock, and took dinner in Tahoka on two Rhode Island reds, and although we had six flats made it to Sweetwater at 8 o'clock, taking supper at a cafe at which we ate the long side of a white faced steer. We spent the night with two old people that I have known since I was a boy, and slept on the porch on old Jim Jackson's cot and dreamed about him. That night about 3 p.m. a big bug came singing around me with his long bill, and when he located me he left but soon returned with the entire family and kin folks. I fought them with my shirt until I popped the tail off; got in my jitney and left them at Abilene. I spent next night at Brownwood with a former neighbor I borrowed meat from in 1907, and on to Comanche county. Say, Dalt Lewis, I liked to have lost my wife in that county. We ran into a big pile of stovewood already cut. She ordered the car stopped, saying she would camp right there. The children commenced crying. Finally she said if I would cut wood for her she would go on with us. I promised if Jim Jackson would sharpen the ax I would. The next stop was at Belton, where we spent the night with a cousin of mine

on the Lampasses river where I took my baths 23 years ago. I saw some good crops in Lynn and Garza, and some good cotton at Tuscola, good cotton and feed in Coleman county, but nothing from there to Belton. We made our way on to Cameron and stopped again at little river at a gin and saw they had just nine bales on the night of the 21st. When we got to Milam county we fell among about 150 angels and I thought I had reached heaven. But next morning I found they had no wings but were merely my wife's kin folks. We visited there five days and nights. From Milam county we made our way to the piney woods. We spent the night in San Jacinto county, camping at cold springs near the camp of the County Judge of that county. He visited our camp next morning and when he found we were from the South Plains, he wanted to try me for insanity. He grabbed me and wife began to cry and told him I was only a poor cotton farmer from Terry county. Upon entering Polk county we saw the first good cotton in that section, lots of it making more than a bale per acre. I sure wanted to pick, but didn't have a sack. We crossed the Trinity on a ferry, and wife held me for fear I'd drown. The next stop was Lewiston, county seat of Polk. It sure was a busy little town, the two gins cutting from 45 to 50 bales each. One gin had about 40 bales on the yard. I took a sample from the press and returning to

my car met a buyer who offered me 22 1/2¢ for it but I told him I was holding. We next hit Tyler county and struck some of the toughest roads I ever saw. I clucked to our Henry and shot the gas to it and went on. The next stop was at my mother's home, whom I had not seen in 35 years. We sure had a happy meeting and a good time eating and drinking cool water from the spring. I took my family through the targets sawmill in that section at Donceit. I saw a cotton field of 37 acres that they had picked 55 bales from and would get two more. Attended a big squirrel dinner last Monday. Left Tyler county the 4th and went to Greenville where we saw some good cotton. It was bringing 22.80 in Emory. Old Terry still looks good to me and our lizzy still stays on her feet, and I will tell the rest of the trip when I get there. Your friend, C. Sears.

Rev. Julian, Christian minister, was stricken with something like acute indigestion just after delivering a sermon at the Christian church at Plains last Sunday. A physician was called from Brownfield, who recommended that he be taken to a sanitarium at Lubbock. H. A. Sawyer, of Dallas, representing the National Portland Cement Association was a business visitor in Brownfield last week, and paid the Herald a short call.

HENRY'S
The Young Man's Store

Alamogorda, N. M.—One of the most interesting district meets of the West Texas Chamber of Commerce was held here recently and after a most bountiful feast at the noon hour the executive session was held. The meeting for next year will be held at Artesia, N.M.

Haskell.—Dirt was broken for the new hotel here recently and it is hoped that the structure will be completed by Jan. 1. The hotel will be very modern and the foundation will be sufficient for the third floor when the demand is sufficient to require that addition.

Brownwood.—This city will be able to truthfully boast of the most attractive as well as modern tourist camp. The landscape gardener will lay out the grounds and new camp houses will be constructed and trees will be given special attention during the fall and winter and next year Brownwood will have a beautiful tourist camp.

Cisco.—R. O. Lee, President of the West Texas Chamber of Commerce, has just returned from the second tour of the Plains country. Mr. Lee was received with much courtesies at all points and the business men and farmers were well pleased with his diversified talks. Mr. Lee was accompanied on the last tour by B. M. Whitaker, Agricultural Manager of the West Texas Chamber of Commerce; also Olin F. Hardy of the Amarillo News and Henry Ainsley of the Amarillo Globe.

Childress.—A farmer near here has reported his cotton matured and opening in 91 days. This is a good record and wonder who can beat it.

Ruidoso, N.M.—According to statements made by J. D. Jones of New Mexico at the meeting of the Southern N.M. Association held at Eagle Creek Lodge Aug. 27-29, New Mexico has 1-5 per acreage covered with pine forests and around Cloudercroft as much as 50,000 feet of lumber can easily be cut per acre; more than 100,000 horses and cattle graze in the National Forests and 200,000 sheep roam over these forest lands. The revenues derived from the grazing under the National Forest control amounts to hundreds of thousands of dollars and about one-fourth this applicable to building National Forest roads.

It makes a difference---
