"Printed in Terry County, on the South Plains; the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States."

VOLUME 21

BROWNFIELD, TERRY COUNTY, TEXAS, DECEMBER 4, 1925

NUMBER 15

## Chamber of Commerce CURRENTS By the Secretary

In the earlier part of the year the local Chamber of Commerce solicited the aid of the Lamesa Chamber of Commerce and submitted the matter to the Highway Department at Austin for the designation of the Brownfield-Lamesa road as an extension of the Highway that ends at Lamesa from Snyder, which has state aid. At that time the Highway Department had no more available funds for appropriations for the fiscal year but we were advised that if this matter would be submitted after the first of Jan. 1926, that it would in all probability be passed. Our Commissioners Court recently went to Lamesa to meet the county officers there, and it is to be hoped that soon we will have a main highway through from Brownfield to Lamesa, which will serve all our territory southeast with a splendid road to market produce here besides bringing more people through our town and county.

We believe and know that some of the business men of our city think that there should be an ordinance against the use of fire crackers and various other noise devices around the square and in the business district of our town. This annoyance is more particularly felt in the holidays, and while no one means anything except to derive enjoyment therefrom. Yet it is extremely unpleasant for our women and others to have these things thrown around their feet on the sidewalks and besides it has a tendency to make the boss nervous and make them hard on the clerks for them to be cracking in and around the front door. Then, too, there is the element of fire danger always present when they are permitted to be used around the business district.

### A Community Chest

While Brownfield has never tried such a thing, yet it is an important work and there are many seriously needed cases that are deserving and would offer a splendid opportunity to do such work. We have felt that our town was not large enough to enter into a movement of this kind like the larger cities, but we are glad to learn that one of the progressive and always wide-awake clubs of our city, the Maids and Matrons, are contemplating raising a community chest to dispense to the unfortunate ones in a holiday spirit. Our hats are off to these ladies and we bespeak for them the cooperation of our town if called on.

It is stated that Terry County has more feed this year than any county on the Plains for the number of acres in cultivation

### WINKLER AND HAMILTON HAVE ON SALES

Following close on each others heels, two of our popular dry goods stores are putting on sales this week. They are the Winkler and the Hamilton Dry Goods Store, and each of them are promising and will deliver some real bargains.

A large two page spread circular was finished for Winkler Monday, and a page of bargains are being put out by us for Hamilton Dry Goods.

The merchants of Brownfield all bough heavy this fall in anticipation of a heavy business, and the unexpected freeze came and put a nip into their expectations, and they must unload in order to prepare for spring purchases. Therefore, they are passing these bargains on to their customers at rock bottom prices. Collins Jones, Cruce, Lewis Bros., and Fandy have on sales that are still running.

If you are in need of dry goods be sure to come to Brownfield for them, for our merchants are well stocked and the goods are going at or near wholesale cost.

### ELDER WRYE'S SERMONS WELL RECEIVED SUNDAY

A large crowd at both the morning and evening hours heard Elder W.H. Wrye, of Killeen, Texas, deliver two fine sermons at the local Church of Christ, Sunday, and all seemed to be pleased with both his discourses and with the man personally.

Negotiations are now in progress looking toward calling him to the work here.

## Back on the Job

### CAR TURNS OVER HERE SUNDAY AFTERNOON

A car belonging to Andrew Castleberry, and occupied by him and two of our local teachers, Misses Jeffries and Crawford, turned over Sunday afternoon about one and one-half miles west of town on the Gomez road. It is reported that the young ladies, while badly bruised and cut about the hands and arms, were not apparently seriously hurt, and will probably not be out of school more than a few days at the outside. From what the Herald could learn about the accident, one of the young ladies were driving along at a reasonable rate, and for some cause suddenly swerved toward the barpit, and Andrew, hoping to avoid going into the ditch, grabbed the steering wheel, but gave it too much and sudden turn which caused the car to overturn.

### THEY SHOWER DOWN ON THE METHODISE PASTOR

Rev. J. G. Thomas had hardly reached Brownfield when a large crowd of Methodists and their invited friends swooped down on he and his wife and bough enough 'grub' to stake them for many days to come. Not only did they go to carry vitals to sustain the fleshy man, but they went to say 'howdy' and tell them just how welcome they were to Brownfield, which is food for the spiritual man.

The pounding was held in the church building, and after all had arrived quite a nice program of speech-making and songs were enjoyed by those assembled. So the new preacher is now thoroughly initiated into his work in Brownfield.

### PRISONERS BREAK JAIL AT TAHOKA LAST WEEK

We learned this week that some four or five prisoners, two of which were held for this county on booze making charges, sawed out of the Lynn County jail last week, while Sheriff Simpson was out of town. They were reported to have been in the run around.

We understand that one of the men held for Terry County made no effort to escape but tried to attend the picture show at Tahoka, but did not have enough money and went down to the Sheriff's home to borrow. It seems that Mrs. Simpson informed him that the Sheriff was away and then he informed her of the escape, and tried to get her to phone her husband, but she seemed to be afraid of the prisoner, and would not permit him to come in and phone. He then went back to town and got in touch with Sheriff Simpson.

The other prisoner was seen at Meadow next day and claimed he was out on bond, and was given little attention. We have not learned whether any of them have been caught or not.

### COMMISSIONERS GET CO- OPERATION AT LAMESA

In conversation with W. H. Black, Commissioner of precinct No. 4, Saturday after the Commissioners had returned from Lamesa, he informed us that the Commissioners of Dawson county were right in the saddle with them for a State Highway connecting the two cities, and even to go on north to Levelland from here, and South to Stanton from Lamesa, connecting with the Bankhead highway there.

Mr. Black informed us that when the time came, which would be in the near future, the representatives of the Terry and Dawson County Commissioners would go to Austin, and that they would ask the Commissioners of Martin, Hockley and possibly Lamb county to join them in the request of the Highway Commission at Austin, and he believed that if they went to Austin determined to get the road through, no trouble would be encountered.

Good roads used to be considered a luxury, and any talk of building them usually received little notice, but times have changed with the coming of the gas wagon, and now bad roads are the luxuries and good roads are the actual necessities. We want to state right here, too, that the Terry County Commissioners are willing to expend every legitimate and conservative way to make the highways of the county better. Good roads cost money and they realize it, but bad roads cost even more money on wear and tear of high priced motor vehicles, and require two or three times the amount of gas and oil for the same mileage, and are much harder on tires. Then, too, one has to take into consideration how much more a given horsepower motor or a team can pull over good roads in less time.

Time figures into money fast these days.

### DAILIES GET HERE IN WHOP NOW DAYS

Brownfield feels that it almost joins the cities now. In fact the few hours between us has been reduced again with the change in schedule of the Santa Fe, we feel real neighborly to Fort Worth and Dallas, and we read dailies all through the day now.

First to arrive is the Morning Avalanche, which is served with our breakfast; then along about noon we receive the Star-Telegram and Abilene Reporter same day they are published; upon the arrival of the train we get the Amarillo papers; the four o'clock stage from Lubbock brings the Evening Journal, hot off the press, and the six o'clock stage from Post brings the Dallas News of same date published.

No, Brownfield is not longer a small isolated town, but is a stirring little city, well situated.

Subscribe for the Herald. \$1.00.

### NO QUESTION BUT WE'LL GET BY ALRIGHT

The continued cry of hard times, freeze, drought, worms etc, do no one any good, but, on the other hand positively injures legitimate business and brings everything to a standstill. The merchant who continually harps on the matter in the presence of farmers is simply cutting down his own business, because the farmer takes the cue and tightens his own purse strings unnecessarily.

Of course the Herald does not want it understood that it believes the farmer, who is probably already in debt for his home, should splurge and blow himself for luxuries, no more than we would advocate our merchants stocking up with a lot of stuff that would be unsaleable at any time, but we do advocate business going on as usual in all reasonable channels.

That we are hurt some no one can deny, but fortunately also, we are far from being ruined. In fact times are not so very hard for the big majority of folks. There have been oodles of harder times even in the memory of our middle aged folks. The balance of the country, except a scope of our own state, in in the best shape it ever was in. There is abundance of products and money and money is easy to borrow on security at a reasonable rate.

While our own people, at least some of them, made a failure in cotton, some made good crops even of this staple, and all practically, who are real farmers, have made abundance of feed, and with this advantage we cannot see but that we are in just about as good shape as this time as year.

Turn your old hat up in front and ace the world with a smile, and be thankful it is as well as it is with us. Let business go on as usual.

### TRAIN SERVICE TO BLEDSOE NOW A REALITY

The inauguration of freight and passenger service over the new Doud to Bledsoe, and return, was greeted with great demonstrations in all of the towns along the lines and by the groups of citizens who rode the first train into Lubbock, arriving here at 11:50 o'clock yesterday morning. The joyous band boarded the return train to Bledsoe at 12:20, the spirit of celebration being evidenced at all the stations on the round trip, according to occupants of the train.

R. F. Bayless, local agent for the Santa Fe, stated last night that in connection with the operation of trains on the new line, the change in schedules that were made Sunday and Monday along the lines in this the most marked degree of enthusiasm by Santa Fe patrons, and that all trains are now being operated on the new schedule with all employees of the road as well as the regular patrons in line with the new program.—Lubbock Avalanche.

### SANTA CLAUS LETTERS High Second Grade Pupils

Dear Santa Claus:  
Brownfield, Nov. 30, 1925.  
I want a big doll and a little car, and some Balle dishes. I want a doll buggy and a little cedar chest, and a story book. I also want a pair of skates. Love to Santa Claus.  
Fern Sawyer.

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a pair of skates, a baby doll, two story books, and a new coat. I am eight years old and wish you a Merry Christmas. Your true friend,  
Bobbie N. H. Stokes unto the end.

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a wagon, a bicycle, a tool chest, a train and a ball. I will try my best to be nice if you will bring me these things. Merry Christmas.  
Hoyt Fisher

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a doll baby and a story book and some fruit and candies. Merry Christmas Santa Claus.  
Mary Lee Graves

Dear Santa Claus:  
I want a steel erector set and some candy and a story book. I will be at my grandmother's at Littlefield. I am eight years old. Thank you Santa Claus.  
Floyd Yondell

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a ball, a bicycle, a steel erector, some candy and apples and a story book. I wish you a Merry Christmas.  
Harvey Hyman

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a tool chest and a wagon some candy and a steel erector set. I have been a good boy. Merry Christmas.  
Jack Milburn

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a bicycle, a tool chest and an airgun. Merry Christmas.  
Buster Brown

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a bicycle and a Shetland pony. I wish you a Merry Christmas.  
G. C. Shaffer

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a train, some skates, a wagon, a bicycle, a pedal car and a box of tools. With love to Santa Claus.  
Boyd Moore

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I have been a good girl, and I want a set of dishes, a doll and a doll buggy, and a story book. Much love to you and a Merry Christmas.  
Dorothy Chapman

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a sack of marbles, a bicycle a racer, some fire crackers, and some apples and oranges. I will do my best to be a good boy.  
Brownfield, Nov. 30, 1925.

Brownfield, Nov. 30, 1925.  
Dear Santa Claus:  
I want a pair of roller skates and a cedar chest. I am in the low first grade. Your little friend,  
Sallie Truman Stricklin  
Brownfield, Texas, Nov. 29th  
Santa Claus, North Pole.

Dear Good Old Santa:—I am a little girl seven years old last Thursday. I help dry the dishes, read my little story book and play dolls, and I try to be good. I know you are good and will bring me a doll bed, a telephone and a little doll train.  
Kathrine Copeland

Brownfield, Texas, Nov. 29th  
Santa Claus, in the Skies.

Dear Sweet Santa:—I am good at times—like to laugh and play and have a good time. Some people call me "Bobbie Sunshine," and you can too if you will bring me a drum, doll bed and a little piano. I sho' will be good if you will.

Bobbie Copeland  
P.S.—Don't forget my little baby brother.

Brownfield, Texas, 1925

### HI-JACKERS CAUGHT AT PLAINS SUNDAY MORNING

A young man working for a Mr. Johnson out in the Tokio country, brought in a bale of cotton Saturday, and failed to get started for home until well into the night, and while passing near the bottling works, was held up by three young men, who threatened him with a club. According to his story, the hi-jackers got \$1.00 and a gold watch. He immediately got in touch with local officers and gave them a good description of the men who held him up.

It seems that a man and woman had been traveling through from O'Donnel where they had been picking cotton, to their home in New Mexico, and picked up one of the boys over there, and upon arriving here the other two were picked up, and the three proposed to the man to pay all the gas and oil bills if he would carry them. The car was filled at a local station and headed west. Sheriff Keller was notified to watch for a car with four men and a woman, and nabbed them when they arrived in Plains.

The man and his wife are believed to be innocent of the holdup, and were permitted to proceed, and the three young men were brought back here and questioned and then carried to Tahoka for safe keeping, as our present jail is about as safe as a mud fence. Local officers report that the three men maintain that they won the watch and the dollar from the young man in a game. Their trial will likely come during the January term of District Court.

### ROSS AND GOOD ESCAPE HUNTSVILLE PENITENTIARY

Tom Ross and Mill Good, convicted of the slaying of W. D. Allison and W. L. Robinson, Inspectors for the Texas and Southwestern Cattle-raisers Association, in 1923, escaped from the State Penitentiary at Huntsville at 8:00 o'clock Sunday night after overpowering guards and cutting chains on the east gate of the prison, according to reports to the Star-Telegram from Huntsville.

Two other prisoners, Clarence Whalen and George Arlington, escaped with them.

After leaving the prison the quartet is reported to have jumped into a waiting automobile. The car is said to have been parked within 150 yards of the east gate two hours before the break for freedom by a woman who called on Good during the afternoon. Bloodhounds were put on the trail but lost the scent when they arrived at the spot where the automobile had been parked.

Good, a semi-trusty at the prison, is said to have knocked Guard Caumeiter in the head with a stick of stove wood, after which he took his pistol away from him and called to the other men to follow him. The attack took place in the prison hospital, where Good was a steward. Only one guard is on duty at the hospital at night, it is said.

Telephone wires into the prison were cut by the men before they left the grounds, delaying efforts of the officials to spread word of their escape.—Star-Telegram.

### UNION THANKSGIVING SERVICES AT BAPTIST CHURCH

A good crowd of the citizens of Brownfield gathered at the auditorium of the First Baptist Church on Thanksgiving day to listen to a splendid sermon fitting the occasion, delivered by Rev. G. J. Thomas, recently appointed pastor of the Methodist congregation in this city. All who were able to attend report a splendid sermon and a good program.

The program consisted of several readings and songs given by citizens and children of the city.

### FIRE DESTROYS COTTON AT MEADOW COTTON YARD

A big destroying 133 bales of cotton occurred at the cotton yard here Thursday night. The origin of the fire was unknown but it is supposed that it started in a bale at the gin.

Most of the cotton was insured but about 43 bales belonging to farmers did not have insurance, it was reported.—Meadow Review.

December 2nd.

A doll buggy, a negro doll, candy, oranges, a doll house, a train, bath tub, a set of dishes, a bed, table, chairs and a stove.

Earnest Goeth, traveling representative of the E. C. Palmer Co., paper house and printers supplies, was here Monday, this being his last trip on the road, which when ended he will retire to his home in San Antonio for a long needed rest with his wife. Mr. Goeth has been making this territory regularly for several years, and by his kind, affable disposition, and his readiness to always give a square deal, he has built up an immense business for his company, among the printing establishments, as well as make a host of friends for himself, who will miss his monthly visits very much.

**WILL THE PINEY  
 WOODS COME BACK?**

New Orleans, La., Dec. 1st.—When the southern lumberman cuts his forest land clean, instead of taking only the cream of the timber crop, he has a far-reaching effect on the next generation's lumber supply, according to the observations of the Southern Forests Experiment Station of the Forest Service, United States Department of Agriculture. R. D. Forbes, director of the station says clean cutting of the forests in recent years has left land in much poorer shape, because of the lack of good seed trees, than did the lighter cuttings of the earlier days.

This is apparent over wide areas, but even clearer is the evidence that, where fire has run through cut-over land any advantage that light cutting has over heavy cutting is obliterated. Save for a few fire protected spots, much of South Mississippi is reported to be devoid of extensive forest growth because of the annual fires and close cutting of timber. Eastern Texas, on the contrary, has profited from a steady campaign against fires, and in many sections now has growing on cut-over lands a second crop of timber that will soon be merchantable.

The Forrest Experiment Station will this year conduct a broad survey of cut-over lands in Alabama, North Carolina, and Virginia, and later in Arkansas, Louisiana, Georgia, Florida and South Carolina. This survey is expected to give valuable information on the growth of the southern pines and the extent to which the cut-over lands are "coming back."

**LAMESA DEFEATS INCREASED  
 TAX FOR MUNICIPAL BAND**

Lamesa, November 28.—Lamesa voted down, by a vote of 196 to 88 a two mill tax for the support of a municipal band. It is rumored that the issue will be again presented including a provision for a Board of City Development.

Tom May returned last Thursday from Memphis, Tenn. and other points in the east.

**P. M. ASKS COOPERATION IN  
 HANDLING CHRISTMAS MAIL**

Association with the gold in autumn leaves, chill in morning air, and bountiful harvests, come thoughts of the approaching holiday season.

Christmas is looked forward to as a time to promote happiness. Through out our country this spirit is manifested by sending gifts, greeting cards and other remembrances. As a result of this custom the volume of mail during the month of December will be greatly augmented. Each postmaster should rejoice in the spirit of that glad time and be pleased to assist in making many people happy when Christmas comes.

To give to Christmas mail its sentimental value it should reach the addressee in ample time to be in keeping with the spirit for which it is sent, giving its full measure of happiness and cheer. The cooperation of patrons in the preparation and presentation of Christmas mail and other matter to be mailed just prior to the holiday season, is, therefore, necessary in order that the large volume can be satisfactorily handled.

In connection with the arrangement for handling mail during the holiday season attention is renewed to the cooperation of mailers and patrons should be asked to observe the conditions enumerated below and the fact emphasized that compliance therewith will not only be helpful to the Postal Service in facilitating the prompt handling, dispatch and delivery of their mail but result in more satisfactory service to the advantage of all concerned.

Prepay postage fully on all mail matter.

Address all mail matter plainly and completely in ink, giving street address or box number, whenever possible. Place sender's return card in upper left corner of address side.

Pack articles carefully in strong durable containers.

Wrap parcels securely, but do not seal them except when bearing a printed label or indorsement reading: "Contents: Merchandise. Postmaster: This parcel may be opened for postal inspection if necessary," together with name and address of sender, as sealed parcels not so labeled or indorsed in printing are subject to postage at the letter rate.

Parcels may be marked "Do not open til Christmas," this being permitted in order to encourage early mailing.

Insure valuable parcels. Do not enclose letters in parcels, as doing so would subject entire parcel to letter postage.

Written greetings, such as "Merry Christmas," "Happy New Year," "With Best Wishes and names, numbers or symbols for the purpose of description may be inclosed with third or fourth class (parcel post) mail. Books may bear simple dedicatory inscriptions not of a personal nature. Other written additions subject parcels to letter postage. Communications prepared at the first class rate may be sent with parcels prepared at the third or fourth class rate by securely attaching the envelopes containing the letters or other written matter to inside of parcels. (See art 55, p. 14, July, 1925, Postal Guide.)

Christmas seals or stickers should not be placed on the address side of package.

**POWER LINE IS MOVED  
 WITH CURRENT ON**

It was on the property of the West Texas Utilities Company that a record was recently made in the maintenance of electric service during the removal of the entire transmission line that carried the service, says the Texas Public Service Information Bureau.

A transmission line ran beside a highway that was to be made wider and the line had to be moved back 10 feet. It was operated at 13,800 volts. New holes were dug in advance and a heavy crane mounted on a truck picked up the poles one at a time, carried them back and planted them. The entire task was accomplished in twelve days, sixteen poles being transplanted each day without accident or break in the service.

Attorney G. E. Lockhart, of Lubbock, had legal business in our city Tuesday.

Attorney Henry L. Ford and J. Levy, of Amarillo, were in our city Tuesday of this week looking after legal matters.

**WEST TEXAS GETS BIG  
 TELEPHONE DEVELOPMENT**

Extension of direct telephone long lines or toll circuits in West Texas has been making rapid progress during the past few months to keep up with the increased business in that section of the state, says the Texas Public Service Information Bureau.

Announcement has been made by the Bell Telephone Company of completion of the following direct toll lines:

- Dallas to Los Angeles.
  - Dallas to El Paso.
  - Dallas to Abilene.
  - Fort Worth to Lubbock.
  - Lubbock to Sweetwater.
  - Lubbock to Plainview.
  - Plainview to Amarillo.
  - Amarillo to Panhandle.
  - Amarillo to Pampa.
  - Lubbock to Stalon.
  - Abilene to Brownwood.
  - Stamford to Fort Worth.
  - Big Lake to Rankin.
- Direct toll lines now under construction are to be built at once include:
- Big Lake to Lamesa.
  - Wichita Falls to Archer City.
  - Pecos to Fort Stockton.

Rev. Chas. Burnett, former pastor of the Meadow Baptist Church but now doing work in Plainview, was here last Thursday on business.

## The SQUIRREL Has the Right Idea!

Hurrying, scurrying, busy little squirrel-working through the summer and fall months to lay by its provisions for the winter. How wonderful to think that Nature has provided him with the Saving instinct.

Would that many "humans" had it. For, it stands to reason that, unless man stores up a supply of ready dollars for the season of need in his life—he can't expect to enjoy unchecked Happiness.

### HISTORIC CHRIST CHURCH IN PHILADELPHIA

Old Christ Church, on Second street between Arch Street, Philadelphia, has heard the prayers of America's first patriots beseeching freedom from tyranny. Visitors to the Sesquicentennial Exposition next year will scarcely find a landmark of more historical significance.

Construction of the ancient sanctuary, which is pure colonial architecture, which was begun in 1727. Discussion regarding an environment conducive to worship must have abounded, for many alterations were made, and it was only after the pulpit was moved twice, the gallery enlarged, the seats altered, and the twenty-four branch chandelier hung, that the body of the church was completed in 1744. The pillars alone seemed to have been made of adamant.

Funds for a steeple and bells were raised by means of a lottery. The latter would indicate a more broad-minded attitude on the part of our forefathers toward funding expenses than is the custom of the 20th century vestryman. There can be no doubt that it was oversubscribed since Benjamin Franklin was one of its managers. The tower and steeple were completed in 1753-54, and the chime of eight bells, costing 500 pounds, was imported.

The old pulpit of 1770, the prayer desks made from the original high desk, and the old communion table below the altar, remain until this day. The font, at which Bishop White, Francis Hopkinson and a long list of worthies were baptized, was replaced in 1879 by one which was the gift of Jonathan Gostelowe. The beautiful silver bowl, weighing about 63 ounces presented by Colonel Robert Quarry of the British army in 1712, is still used.

It is the general impression that Washington, during his sojourn in Philadelphia, was a regular attendant at Christ Church. However, it appears from the correspondence of Bishop White with Colonel Mercer that the General was at one time a worshipper at St. Peter's. Says Bishop White: "He was an antipode to those who are in the habit of changing their place of attendance."

Many distinguished men were buried under the floors of Christ church including Bishop White and his brother-in-law, Robert Morris. At the burying ground at the southeast corner of Fifth and Arch streets, were buried Franklin and his wife, Deborah; General James Irvine, Major William Jackson, the Rev. Bird Wilson, Peyton Randolph, president of the first Continental Congress, and Francis Hopkinson.

The Rev. Jacob Duché, a gentleman with ardent proclivities shepherded the illustrious Christ Church flock during the stirring period of 1776. On the Fourth of July, after the reading of the Declaration, he permitted the bells of the church to chime merrily, becoming for the moment, a patriot. Later he wrote his famous letter to Washington, in which he states that he insisted upon using the prayer for the royal family till the last moment, though threatened with violence; but that on the Declaration of Independence, not being able to consult his spiritual superior, he called his vestry together and solemnly put the question, whether they thought it best for the congregation to close the churches or to continue the services without using the petition for the royal family. The vestry promptly decided: "The Honorable Continental Congress, having resolved to declare the American Colonies to be free and independent States: it will be proper to omit these petitions."

Verily, the clerical conscience was salvaged with opportunism.

#### MARRIAGES

Mr. Howard Wirts and Miss Eula Crone, popular young people of this city were united in the holy bonds of wedlock at the home of the bride's parents, on Thanksgiving afternoon at 2:30 o'clock, by Elder A. L. Burnett. Relatives of the two contracting parties attended the marriage. They will make their home in Brownfield.

Mr. Chester McCutcheon and Miss Bell Perkins, popular young people of Meadow, appeared at the residence of Elder A. L. Burnett last Friday afternoon at 4:00 o'clock and were united in marriage by the later. They were accompanied by S. B. McCutcheon and family, parents of the groom. They will make their home in the Meadow country.

#### MAIDS AND MATRONS CLUB

Mrs. Morgan Copeland delightfully entertained the M. & M. Club Tuesday Dec. 1st. Mrs. McBurnett was cader for the afternoon. Mrs. Ellington read a very interesting paper on "Immigration from the Viewpoint of Profit and Investment."

It was decided that the M. & M. Club sponsor a community chest for Christmas, for the needy of the county, and anyone knowing of an family in need will please see one of the following ladies: Mesdames Jno. Randal, Dalton Lewis, H. R. Winston and F. M. Ellington.

The hostess served sandwiches and coffee to the following club members: Mmes. Winston, Sawyer, Win-

red, McBurnett, Bowers, Lewis, Randal, Stricklin, Ellington, Alexander, Dallas, Enderesen, Adams; Misses Elizabeth and Nancy Dumas, and Treadaway.—Reporter.

Prof. Casey, principal of the grade schools, reports that nearly 150 pupils were on the honor rolls last period. We consider this an excellent record and shows that the pupils are being pushed by their instructor and encouraged to go forward.

Judge Winston is frequently seen on the streets these days, yet is aided somewhat in his navigation by a cane. He reports that he does not seem to mending as fast as he should.

#### SWASTIKA CLUB

The Swastika Club met Nov. 30th with Misses Lorena and Gladys Copeland. The afternoon was delightfully spent in needle work and music.

Refreshments consisting of sandwiches, hot chocolate, potato chips and cake were served, and enjoyed by Misses Warren, Rentfro, Blanche and Geneva Brothers, Hahn, Holt, Brown, McPherson, Lorena and Gladys Copeland, Miller and Graves.

Adjourned to meet Dec. 7th with Miss Odel Rentfro.—Reporter.

F. H. Canyon was here from Young county last week visiting his nephew, E. H. Tandy and wife.

Let business proceed as usual.  
 Don't make things worse by continually grouching.

Go on and buy what you need to eat and wear and serve the Lord and he will prosper you. He promised to do so.

Some of the towns and cities are cutting out the sale of jake. Lubbock joining the ranks lately. If all kinds of dopes on which it is possible to become crazy drunk were prohibited from sale in Brownfield, the town as well as the drinkers of the stuff would be better off.

Terry county had ginned 5,368 bales of cotton up to November 14th compared with 7,600 at the same date last year. Of course that was not so badly behind the same date last year. But it must be remembered that the gins ran last year two or three months into 1925.

The severe blizzard due here Saturday as reported from somewhere as already being in Amarillo failed to materialize. Maybe that city, so famous with Central Texas dailies for its severe blizzards, absorbed all the Saturday norther. Anyway, while a bit cooler Sunday morning than it had been for several days, it was scarcely freezing here.

Lubbock is a good advertiser as a general thing, but she put out some dope last week that we did not consider the very best of boosting stuff, when she reported that she had a citizen of four brief years in her borders who puffed and seemed to thoroughly enjoy his Havana perfecto. We call this a case of rushing the Lady Nicotine.

"On with the fight," as the late Dr. Rankin would express it, seems to be the order of the day down Austin way. First its Moody and the Highway Commission, then Moody and Ma and Jim; then Satterwhite and Ma and Jim, and now it is Ma and Amon G. Carter, publisher of the Star-Telegram—and they seem to have a real nasty tangle, and the fur promises to fly. Strange things are happening on the banks of the Colorado. Wonder what the harvest will be?

Dr. Sappington, State Health Officer came out recently in an article warning the public not to neglect a cold, as they might lead to influenza. A cold is usually easily broken up in its early stages, but to neglect them, and weaken the system, is to invite something much worse.

In a conversation with a superintendent of schools in a nearby town, it was stated that girls are much more energetic than boys, both in their studies and on the athletic field. The school man attributed this to the fact that so many boys are addicted to the cigarette habit. It is one of the crimes of our age that so many of our young folks are helpless in the chains of the tobacco habit.—McLean News.

The old saying that women are continually changing their minds was again brought out forcefully this past week. Some two weeks ago if our memory runs true to form, Miss Edith Williams of Dallas, candidate for governor of Texas, everlastingly lambasted Sister Ferguson for pardoning so many criminals, and took her to task on some other vital measure in which their opinions ran counter, in her platform planks. This week the same good lady came out squarely in an encouraging manner for Ma, and wired the latter to stay in the box till the last batter is fanned; to fight to the last trench, as it were. It may be just a case of mutual feminine sympathies.

**CLEAN JOURNALISM**

American journalism shows a constantly increasing tendency to cast off sensationalism and morbidity in favor of higher ideals and clean morals.

William McAndrews, superintendent of schools in Chicago, under the caption, "Can Morality be taught Directly?" urged that "When we see the opposite of Morality directly taught by nasty dramas, salacious literature, disorderly moving pictures and daily details of crime and lawlessness, \* \* \* there comes to every man and woman in this education business the dreadful realization that vice is teachable."

If the world's moral progress is to keep up with its progress along lines of material advancement, a decided and world wide change of front must be obtained as a result of journalistic efforts.

We had some advertising matter last week from T. O. Shelton, one of the early real estate dealers of Brownfield, way back when this town was a frontier burg. Mr. Shelton and his partner, it seems, have just closed a deal for property in West Oak Cliff, Dallas, at the sum of \$500,000.00, and are cutting it up into town property as an addition to Dallas.

W. A. Wagen, of Levelland, was down last week and while here called on his old friend J. W. Casey, principal of the grade schools.

**PULLMAN SERVICE TO FORT WORTH FROM LUBBOCK**

Beginning Sunday the Santa Fe will give through pullman service from Lubbock to Fort Worth over the Santa Fe to Sweetwater, thence over the T. & P. into the Panther city, local agent R. F. Bayless announced yesterday.

The pullman will arrive here at 11:15 as part of train No. 93 out of Sweetwater, and will be parked conveniently to the local Santa Fe station. The coach is a 12 section, one drawing room, standard pullman, Bayless said, and will be open to patrons after 9:30 P.M., leaving here as part of train No. 96, east bound at 11:45 p.m., arriving at Sweetwater at 5:05 a.m., where it will be transferred to the T. & P. and carried on to Fort Worth on the Sunshine Special, leaving Sweetwater at 8:45 A.M., and arriving in Fort Worth at 3:40 P.M.

Travel will be made indeed more comfortable through this increased service on the part of the Santa Fe.—Lubbock Avalanche.

**LUBBOCK COUNTY YOUTH DOES REAL FARMING**

The record of I. J. Thornton, 15 years of age, as made in his club work the past two years is a challenge to every South Plains farmer, in the opinion of D. F. Eaton, county Agricultural Agent for Lubbock county.

Making a net profit of \$311.31 on three acres or \$103.77 per acre, Thornton has hung up a record that has not been equaled it is believed by a record which can be obtained by employing the latest methods of diversified and intensified farming on the South Plains.

Thornton lives in the Posey community between Slaton and Lubbock and has just left for Chicago, having won a free trip there to the annual Boys and Girls Congress offered by the Santa Fe to winning Club boys along the Santa Fe lines.

Last year Thornton entered club work growing five acres of grain sorghum, from which he harvested 19,600 pounds of grain. During the year he made the grain judging team which represented Lubbock county at the annual Short Course at College Station and took fourth place in state competition in the individual class and was a member of a team which won eighth place.

This year Thornton grew three acres of milo maize, averaging 5,250 pounds per acre. He harvested 7 1/2 tons of grain from three acres and has already sold one ton of pure seed which brought him \$57.00 and has the remaining 6 1/2 tons under contract to sell for \$23.44 per ton. He won a fifty dollar county prize and \$7.85 in premiums at the Slaton Fair which brings his receipts to \$38.29. His records show that the total expense of growing the crop was \$26.98 including teams, rent, labor and his own and other expenses. This leaves him a net profit of \$111.31. The trip to Chicago which will be of a great educational value to him is figured by the Santa Fe railway system at about \$125 per boy which would bring the total benefit received from his three acres of land up to \$430.31.

This shows what can be done with South Plains and is a mark for every farmer to "shoot at."

The total value of tangible property in Texas in 1922 according to the United States census was almost ten billions of dollars. It has since gone far past that sum.

Harvey Blackstone, editor of the 1924 Review, had business in the county capital Wednesday.

Albert Curry, editor of the Sea-graves Signal, was a visitor in our city Wednesday of this week.

Texas is led by only two states in the average annual production of peaches. California and Georgia each grow more of them.

Texas has about eight million pecan trees and ships about 400 car loads of pecans a year.

Texas has more than fifty per cent of all the angora goats in the United States and produces more than one half of the country's total supply of mohair.

Texas produces more turkeys than any other state. At the height of the summer season this state has about 125,000,000 chickens and 10,000,000 turkeys.

**Opinion**

"Why do you want to excuse that juror? He says he will give your client a fair trial."

"And I believe he would do it, too," whispered the lawyer with some agitation.—Louisville Courier-Journal.

**Reasons**

"Mrs. Jones and Mrs. Smith feel so sorry for each other."  
 "Why?"  
 "One has a baby and the other has not."—Life.

Mr. C. V. Wrinkler and family, and Mr. Otis Wrinkler, of Lubbock, brothers of Mr. A. L. Burnett, took Thanksgiving dinner with the latter, returning home in the afternoon.

Travis Bynum is now in Fort Worth taking a business course. He reports that he is making rapid headway.

Jeff Dunn was in Tuesday from the Lou country and called around to pay for his Herald another year. He was in too much of a hurry to tell the editor how he came out on his crop this year.

Mr. and Mrs. H. M. Ochler spent Thanksgiving day in Snyder visiting friends and relatives.

Thomas Jay, of Idalou, who formerly resided here, passed through this week on his way to New Mexico.

Mr. Jones, of Abilene, interested in a string of dry goods stores throughout this section, was here the past week on business.

County Clerk Gus Farrar, of Sweetwater, accompanied by his family, are here this week visiting his uncle and aunt, Mr. and Mrs. J. L. Randal.

Prof. G. L. Farrar, superintendent of the Seminole public schools, accompanied by his family, visited friends here during the Thanksgiving period.

Mr. E. B. Harison, of Stamford, interested with Mr. H. W. McSpadden in the Brownfield and Wellman gins, as well as many other gins throughout West Texas, was up this week looking after his business interests. Mr. Harison is an optimist, and believes the silver lining will appear in full force next season. He is regarded as one of the leading business men of Central West Texas.

**IT DOES NOT APPLY TO ABSTRACTS OF TITLE**  
 We mean the popular saying "What you don't know won't hurt You."  
 It won't hurt you as long as you don't know it, but if it's a cloud on the title, "There'll come a time some day" in the words of the song, when you want to sell your property, and the other fellow (if he takes it at all)—will want a big chunk off the price to offset the cloud.  
 At that time you will bitterly appreciate the value of an abstract which shows the truth, the whole truth and nothing but the truth, about your title.  
 And you want to be sure that the clouds you know, about are All there are.  
 No one in this country is so well equipped to furnish the complete, unassailable, unshakable truth about a title as we are. If you buy and sell property, you ought to know us, and we ought to know you.  
 You are cordially invited to call at my office.  
**C. R. RAMBO**  
 BROWNFIELD, (Terry County) TEXAS

W. W. PRICE, Manager and Attorney-At-Law.

Office: State Bank Bldg. Phone 91

Texas has thirty cities of more than ten thousand population. Only seven other states have as many such cities.

**INFORMATION REGARDING  
HEADLIGHT LAW**

The Texas Automobile Headlight Law requires that every motorist, at the time of registration, present to the Tax Collector a headlight certificate which has been issued by a test station within thirty days of the date of registration. If the car or truck to be registered is not equipped with headlamps, the registrant will be permitted to make affidavit to that effect and this affidavit will take the place of a headlight certificate. Early testing and registration will help the test stations and the Tax Collector, and will save time for the motorist.

Motorists cannot obtain a headlight certificate for registration purposes on a re-test. The re-test provision of the law permits a re-test at any time during the year, but the certificate presented for registration must be a "test" certificate and must be paid for. In other words headlamps are "tested" at the beginning of each year for registration purposes, and at this time the regular yearly fee of 25 cents must be paid. At any time during the year following, a re-test may be had free of charge until the next registration period begins.

After the coming pre-registration tests there will not be another set test until the 1927 registration period begins. Throughout the year, however, a constant check will be made on the headlighting conditions in the various parts of the state. Enforcement work is in the hands of local officers, and motorists are urged to co-operate with them in reporting bad headlight conditions. There is no doubt that compliance with the headlight law will mean a great saving of property and human lives.

**HIGH LINE TO BE BUILT TO  
MEADOW IS REPORT**

The editor received a telephone call Wednesday morning from Mr. Allen, Lubbock manager of the Texas Utilities Company, stating that he had just been informed by telegram from the main office in St. Louis that preparations were being made to construct the line through to Brownfield in a short time. We were informed two weeks ago that the line would not come through unless the municipal plant at Brownfield could be secured and it is supposed that the deal has gone through.

The new report states that the material has already been ordered for the line and that construction will begin as early as possible. When asked how soon we could expect it to be put through, the Lubbock manager said that he was unable to say as several new lines were being constructed over the country but we were assured that they would be through in a short time.—Meadow Review.

We understand that the line will only be built to Meadow for the present time.

**O'DONNELL MAN LOSES ARM  
IN ACCIDENT AT GIN**

While working at the Henderson-Boone Gin Thursday night, A. B. Payne got his hand caught in the saws. The hand was horribly mangled and his arm was broken in three places. He was rescued by his fellow workmen and taken to the local hospital where first aid was administered. Dr. Krueger was summoned from Lubbock and upon his arrival amputated his arm from the elbow. At last reports Mr. Payne is getting along as well as could be expected. He has a family and lives near town.—O'Donnell Index.

**WHICH ARE YOU?**

A lecturer, riding down one of the rough mountain roads of Kentucky, observed a farmer plowing the rugged hillside with four oxen to which he was shouting vociferously: "Hi thar! you 'Methodist,' 'Baptist,' 'Cambelite,' 'Presbyterian, g'lang thar!" Much astonished, he called the mountaineer to the fence and inquired: "Why do you call the oxen by such peculiar names?" "Why stranger," said the mountaineer, "them was the fittest names I could get. This yer Methodist, now, is a good critter, and a willing worker, but every once in a while he has to jump up and bawl. That ar' Baptist is a powerful strong beast but whenever he comes to a pool of water he always wants to lay down in it. That ar' Cambelite is an A-number one fellow, does an honest days work but he's the stubbornest and contrariest critter that ever lived. And this Presbyterian, he's the stiddest one in the whole lot. I can depend on him altogether, but he's so stuck on himself that all the rest of them just naturally despise him."—The Pineville Sun.

Mr. and Mrs. Dick Harbin left on Tuesday morning for San Angelo to attend the State Road Maintenance Meeting. They will return home Sunday or Monday.

**TUBERCULOSIS CHRISTMAS  
SEALS TO BE SOLD THIS YEAR**

Austin, Texas, Dec. 2nd.—According to D. E. Breed, executive secretary of the Texas Public Health Association, that organization has received 30,000,000 Tuberculosis Christmas Seals, which will be sold throughout Texas from Thanksgiving day until Christmas.

These tiny seals, no bigger than postage stamps, would, if placed end to end, extend from Longview nearly to Laredo, or a distance of 483 miles. The design on the seals this year printed in green, red and yellow, shows twin candles lighted in candelabra, with a background of holly, while the double barred cross, insignia of the tuberculosis movement, hangs between the candles.

Mr. Breed also stated that these penny seals financed almost entirely the Work of the The Texas Public Health Association. During the past year over 170,000 persons were reached personally with a message of health, exclusive of all the large cities, nearly 8,000 school children were given complete physical examinations, and 45,000 children were taught health habits through the Modern Health Crusade. This is but a part of the work that is made possible by the sale of Tuberculosis seals.

**W. B. AUSTIN PASSED  
AWAY MONDAY MORNING**

On Monday morning, November 23, 1925 at 6:00 o'clock, W. B. Austin, one of the most widely known citizens of Seminole and Gaines County, passed away.

This was indeed a great shock to his many friends. Mr. Austin had been ill for the past two or three weeks, but had been getting up and was able to walk around home, and the night before he had rested exceptionally well. Upon arising for the day, he was in the act of dressing himself when those about the place heard him fall, and upon investigation saw that he had suffered a stroke of apoplexy, he was placed upon a bed and died instantly.

In the death of W. B. Austin, Seminole, Gaines County and Texas, has lost one of their most loyal and valuable citizens—there was never one who worked, donated and boosted our country, according to his means, more than did this man, and it is the opinion of a majority that his place in our community will be hard to fill. He is missed and will be for some time to come.—Seminole Sentinel.

**NEWSPAPER ETHICS  
PEOPLE SHOULD READ**

Seldom a week goes by but some one asks regarding a news story they happen to know about, but which is not generally known to the public at large, and that person wants to know why it is not published. There is always a reason for it, and that reason is generally the simple fact, that the story is not ready for publication. If anyone knows about it, it is generally because of a lack in some one's confidence.

Of course it is the business of the newspaper to publish the news, rather than suppress it, and every newspaper wants news while it is news. On the other hand there are times when it is proper to withhold certain news items for later issues. Sometimes the giving publicity to news items may hamper certain business deals, embarrass parties interested in them, or perhaps interfere with the deal entirely. On such occasions if the editor is advised, he will generally respect the wishes of the participating parties and withhold the story until the proper time for publication. This is done as matter of good business, and not for any reason of partiality. Every newspaper editor has the

#### COUNTY TREASURER'S QUARTERLY REPORT

In the matter of County Finances, in the hands of Mrs. Lula Smith, Treasurer of Terry County, Texas.

Commissioners' Court of Terry County, Texas, in regular session, of the November term 1925.

We, the undersigned, as County Commissioners within and for said Terry County, and the Hon. H. R. Winston, County Judge, Terry County, constituting the entire Commissioners Court of said County, and each of us, do hereby certify that on this, the 10th day of Nov., A. D. 1925, at a regular term of our said Court, we have compared and examined the report of Mrs. Lula Smith, Treasurer of said Terry County, Texas, for the period beginning on the 31st day of Aug., A. D. 1925, and ending on the 31 day of Oct., A. D. 1925, and after finding that her report was correct have caused an order to be entered upon the minutes of the Commissioners' Court of said County, stating the approval of said Treasurer's Report by our said court, which said order recites separately the amount received and paid out of each fund by said Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 31st day of Oct., A. D. 1925, and have ordered the proper credits to be made in the accounts of said County Treasurer, in accordance with said order as required by Articles 1448-14-9-1450 and 1451, Chapter 1, Title 29 of the Revised Statutes of Texas.

And we, and each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in the hands of said Treasurer belonging to Terry County at the close of the examination of said Treasurer's Report, on this, the 10th day of Nov., A. D. 1925, and find the same to be as follows, to-wit:

JURY FUND	Dr.	Cr.
Balance on hand as shown by Treasurer's Report on the 1st day of Aug. 1925.	3,214.46

Russell Grader Mfg. Co., of Texas	555.00
Total	\$103,789.00

Witness our hands officially, this 10th day of Nov., A. D. 1925.

W. E. Harred, Com. Pre. No. 1.  
W. F. Stewart, Com. Pre. No. 2.  
T. O. Hooker, Com. Pre. No. 3.  
W. H. Black, Com. Pre. No. 4.

Sworn to and subscribed before me by H. R. Winston, County Judge, and W. E. Harred and W. F. Stewart and T. O. Hooker and W. H. Black, County Commissioners of Terry County, each respectively, on this the 9th day of Nov., A. D. 1925.

(SEAL) Jay Barret, Clerk,  
County Court, Terry County, Texas

#### LITTLEFIELD TO HAVE SEWERAGE PLANT

Littlefield, Nov. 27.—At an election just held the city of Littlefield has voted to issue bonds in the amount of \$75,000 for the installation of a modern sewerage system in this city. This bond election carried with only one dissenting vote, and work will be carried on as rapidly as possible.

Electric wires are being put in underground for a "white way" along Phelps Avenue, which is the main street of Littlefield. Lights are also being installed over the residence part of the city, and as soon as the high line is completed, which will be the next two or three weeks, Littlefield will be one of the best lighted cities on the Plains.

The building of brick business houses continues. Work has just been started by S. Replin on two bricks,

which makes eleven brick houses under course of construction. A very large concrete two-story wholesale produce house is being built by W. H. Heinen in addition to the above.

The telephone company is increasing its long distance service and has quite a waiting list of local phones in the town of Littlefield. They are having a hard time keeping up with the demand for phones.

Miss Belle Williamson, employee of the Herald received a box of ripe persimmons from her old home at Minco, Okla., last week, and of course divided with the Herald force, some of which had never tasted this delicious fruit before. But the editor had caught lots of 'possums up these east of the Mississippi in his boyhood days, and the taste brought back pleasant memories of his youth.

# STOP!

Drive In--

Give It A Trial!

—Maybe you're skeptical; maybe you've got to be shown. That's all we want—just the chance to prove that MOTOPOWER will win you for life, once you have given it a fair trial.

For years automotive engineers have tried to formulate an idea whereby the working parts in the combustion chamber of an internal combustion engine would receive lubrication. MOTOPOWER is the answer to this crying need. MOTOPOWER lubricates the upper cylinder, valves, valve stems, pistons and piston rings; and gives you a smooth running motor.

**FRIDAY 42 CLUB**

The Friday 42 Club met with Mrs. Glenn Harris at her beautiful home, Friday, Nov. 20. Everyone expressed themselves as having a delightful afternoon, all during the entertainment hours.

The hostess assisted by her mother served delicious refreshments to the following: Mesdames Brothers, W. C. Smith, Tiernan, Scudday, D. Lewis, Holgate, McBurnett, Collier, Henderson, Harris, Virgil Bynum, Downing, McDuffie, Henry Alexander.—Reporter.

Jno. C. Scudday was in from the ranch near Tokio last week. He had his Herald changed to that place.

**WHY SHY AT THIRTEEN?**

Why look askance at the figure "thirteen?" There were originally thirteen colonies. That fact didn't hoodoo us. There are thirteen stripes in our flag and its a mighty good flag at that. Our Declaration of Independence was signed by thirteen patriots. In our national coat of arms the eagle holds an olive branch of thirteen leaves in his right talon and in his left talon a sheaf of thirteen arrows. In the field above the eagles head there are thirteen stars. Our National Motto, "E Pluribus Unum," contains thirteen letters. If you have a silver dollar or half dollar, explain this to your neighbor—Also how you got it.—Facts and Fiction.

**KILLING THE FARMER'S FRIEND**

A rural mail carrier shot a hawk on the road the other day, and when he went to pick it up the supposed dead bird took a peck that put out his eye—for which no one can blame the hawk, says the Salem, Oregon Capitol Journal.

This federal employee broke several rules and regulations. It is against rules to carry a gun on duty while delivering mail. It is a violation of a state law to shoot on a public highway. A hawk is one of the most beneficial of birds and one of the farmer's best friends, daily destroying its weight in vermin, and as it is useless as food there is no justification in its slaughter.

As a result of similar wanton slaughter of eagles, hawks and owls, all birds that justify their existence, the balance of nature has been destroyed and a great increase in rabbits, diggers, gophers and mice is causing an economic loss to every farmer in the land. All of these birds should be protected by law to prevent their extermination, which is now threatened.

**SIX MILLION PEOPLE WILL BE TEXAS IN 1930**

"Westward the Star of Empire Makes Its Way," exclaimed an orator in the last century. If that orator could be alive today and could be told that within a few years there will be six million people making their homes in Texas, he would know his statement was correct for when that speech was made the greater part of Texas was still an unexplored wilderness.

By the time the 1930 count is made there will be six millions of people in the Lone Star State, according to a recent estimate of the bureau of the Census. Texas is already fifth in point of population among the 48 states.

**MEADOW GIN CLOSED FOR THE SEASON**

The Meadow Gin was closed down last week for the season in order to condense the ginning business to two gins since it was discovered that three gins would be operating at an expense whereas on the other hand there would be enough business to justify two to continue operation.

This gin had been unfortunate in getting in repairs for the first of the season and it was decided by Mr. Snell, proprietor of the gin, to discontinue operation, however, remuneration from the other two gins being received.—Meadow Review.

**MEADOW BAND HAS TWENTY MEMBERS**

The Meadow Band is now a well organized institution of the town having brought the membership up to twenty at a recent meeting. The organization has been meeting regularly on Friday nights to decide on instrumentation and to line up all the available talent. At the next meeting the members that have not already secured their instruments will make arrangements to get them in in time to start rehearsals in ten or fifteen days. About seven members already have instruments and are experienced musicians and eleven more are getting their instruments in a few days.

J. A. Greer, associate editor of the Meadow Review, will instruct and direct the band and band practice will be held regularly two nights a week, the time of meeting to be decided on later.—Meadow Review.

**MAD DOG RUNS AMUCK IN O'DONNELL**

Quite a little excitement was caused Monday when it was reported that a mad dog was on the rampage in the residential part of town. City Marshal was called and when he arrived he unlimbered his forty something and opened fire on the brute which seemed to make him all the madder. It had been so long since the law had had any target practice that all the bullets all went wild. Finally the dog was cornered in a box at the residence of J. N. Schooler and while Mr. Wimberly held him down with a hoe, he was beaten to death with a club, and everybody went back to town and told his mad dog story that happened back in the seventies.—O'Donnell.

**RALLS HUNTER LOSES FOOT IN AN ACCIDENT**

W. E. Reese, farmer, whose home is one and one-half miles west of Ralls, suffered the loss of his right foot as the result of the accidental discharge of a shotgun with which he was hunting Thursday afternoon.

In an effort to dislodge a shell from the gun, Reese placed the muzzle on his foot and was attempting to remove the shell when the accident occurred.

He was rushed to the Lubbock sanitarium where Dr. Krueger amputated the injured foot Friday morning.—Lubbock Avalanche.

**Concrete Streets in TEXAS**

Lumbering, rice growing, oil wells and truck gardening have combined to make Orange County one of the richest ones in Texas and the City of Orange a busy growing town of now some 10,000 people.

Shell surfacing on the city's streets served very well until the oil boom of 1921. Streets that were once smooth and beautiful soon became rutted and rough under the heavy traffic. Property values in Orange took a decided rise. The citizens were prosperous. They recognized the need for better paved streets and fortunately were able to pay for even the most expensive pavement. They were not so much concerned with first cost as they were in last cost. That's why they chose portland cement concrete for paving 22,861 square yards in the business district. Orange citizens had learned the value of concrete from the splendid performance of concrete pavement on the Orange-Beaumont Road.

Since 1921 Orange has added 52,000 square yards to her system of concrete paved streets. Since that night in the Fall of 1921 when the concrete pavement on Fifth Street was opened with a dance on its true, even surface, Orange has been a 100 per cent concrete town.

Our booklet R-4 tells many interesting things about concrete streets. We have a free copy awaiting your request.

**"no car built will do what this car does, for \$595!"**

J. G. Tolson

*John G. Willys*  
President, Willys-Overland, Inc.

... The commander-in-chief of one of the three largest builders in the world of first quality automobiles is responsible for that statement. No one knows better what is back of this extraordinary car value. Certainly no one knows better what man-power, and money power, have been put into the building of this remarkable car.

A better car for less money. That is the net of it. Big car quality—big car appearance—big car service.

... a full size, five-passengers sedan, with plenty of room for five full-grown people.

... for the first time in history a car of this size, of this character, with sliding gear transmission, for less than \$600!

... extra big doors, extra wide, provide easy entrance and exit to both front and rear seats. Like getting in and out of a limousine.

... wider seats—the widest of any light car built. Such comfort was never given in any other light car.

... the very latest type one-piece windshield—especially valuable in night-driving. Clear unobstructed vision. Windshield easily adjusted and very easy to clean and keep clean. Adds a distinctive note to the car's beauty.

... a 27-horse-power engine, sturdy and noted for power. Remarkable power on hills. Hundreds of owners report as high as 15,000 miles without a dollar spent for engine repairs.

... a chassis that is strong and durable. Springs of Chrome Vanadium steel, the finest and strongest spring steel known to engineering.

... altogether, a car value that is without precedent, and at a price that is the marvel of the automotive industry.

Easy terms. Small down payment, 52 weeks or longer for the balance. Apply your present car as part payment.
