SCHOOL OPENED MONDAY WITH 470 ENROLLED

Quite a good crowd of parents were at the opening of the public school Monday morning, more in fact than could get into the small auditorium. The local school may have plenty class-rooms for awhile at least, but is badly in need of a large auditorium for assembly purposes.

A total of 470 pupils were on hand for classes Monday, 15 students applying for Senior standing, 28 for Junior, 26 for Sophomore, and 55 for Freshman. The grade school opened with 364 students, and they have been coming in fast since. A kindergarten department will be opened Monday with Mrs. Greenfield in charge which will greatly augment the enrollment. Some 20 teachers are employed to care for these students.

The school machinery seemed to be well oiled early in the week and everything was moving along nicely. Let's all cooperate to the best of our ability.

BOY SCOUTS TAKE POSSESSION OF CAMP

September, 13.—Well the first session of camp on the C. W. Post Camp site is now history. As we look over the individual record of each Scout that attended camp and are reminded of the many experiences we had together during our ten day stay there, we can hardly help but come to the decision that its worth while. The Boys ranch has been established. They yelled out at every opportunity, when they were asked whose camp is this? "Ours," and they caught the vision of what that 400 A. track of land can mean to the South Plains boy in the course of a few years. They were satisfied with the effort already put forward for this year. But of course expect further improvement each year. Most of all a swimming place on the camp site, and as we add a feature or two each year made possible by our big hearted men; we can see there a beautiful park with scenic drive ways, animals, a beautiful little lake bordered with trees, nut and fruit bearing trees and grape vines on every canyon. Adobe Adirondack lean cabins in the nooks and many things that will help to make more and better Scouts.

TO OPEN NEW BUSINESS IN BROWNFIELD

Mesdames Harris, of Moran and Hamby of Baird, have leased the Dock Powell business house on the southwest corner of the square and are opening up a variety store. They will also carry a line of ladies' ready to wear. The store will be open in the next few days, possibly tomorrow.

Mrs. Hamby is a daughter of Mrs. Harris. Mrs. Harris informed us that she would have been here sooner but one of her sons lost his wife after a considerable illness, and was buried last week. She aimed to have opened in August.

Mrs. Harris has a store at Moran, but after seeing the Plains country, and especially this part of it she was determined to move out here and put in a new business house.

BOOSTERS MAY INVADE CENTRAL WEST TEXAS

The Brownfield Boosters at the time this is being written are just about decided on making one of the longest advertising and good will trips in its existence, which will include a trip with the Chamber of Commerce to Abilene to attend the Central West Texas Fair which opens there Monday.

Enroute, concerts are to be given at Lamesa, Big Spring, Colorado City, Sweetwater and perhaps Merkel. A nice exhibit will be put on at the Fair and the boosters will devote their time to handing out advertising matter and band concerts.

The exhibits will then be left in charge of a good man, and the band and boosters will then go to Anson and Stamford, returning home via Hamlin, Roby, Rotan, and Snyder, where concerts will be given and advertising matter handed out.

The writer was called up to the residence of A. L. Burnett on Tuesday morning where he and Secretary J. E. Shelton are preparing an exhibit for this occasion, and we want to say right here that some one has got to go some to head it. Terry will also exhibit at Lubbock and Dallas Fairs.

Colleen Moore in 'We Moderns'

JAZZ WEDDING BELLS FOR HER

"We Moderns," story of the younger British generation, with the ever ebullient Colleen Moore as the star, will prove a surprise to the patrons of the Rialto Theatre where it will have an engagement next Monday and Tuesday nights.

Pitched against a canvas that fairly palpitates with the din and bustle of London life, photographed in the actuality, Miss Moore is seen not only in an entirely new frame, but presents a distinctly British after-the-war development, in her characterization of Mary Sundale.

FARM LABOR UNION HAS BONDED CLASSIFIER

The Farm Labor Union of Terry county has employed R. I. Cook as cotton classifier for Terry county, and he has made a good bond to render faithful service.

State President Johnson of this order is now in Terry county, speaking at every community center in order to re-establish the order on a sound basis again in the county.

Mr. Roy Clark, of Commerce, is here this week visiting his uncle, Mr. Thompson of the Smith-Williams Gin. Mr. Clark is a practical printer and is seeking a location in this section.

DISTRICT COURT FINISHES WORK OF TERM

District Court adjourned this week for the term, and will not likely be in session any more until the January term, 1927. A number of civil cases were tried or disposed of.

The Rose murder case was continued until the next term by the State on account of the main state witness being absent. This witness, we understand was rather hard to find before, and the officers now seem to have another job looking him up before the next term of court.

Cotton is now beginning to roll in. Thirteen bales that we learned of were ginned here Wednesday by noon.

FOOTBALL BOYS ORGANIZE MONDAY AFTERNOON

Monday afternoon a large number of the high school boys reported for football training under Coach Lewis. Coach Lewis comes to Brownfield from Hubbard, Texas, but was made a member of the Texas Longhorns last year. We are expecting a prosperous year in athletics under Mr. Lewis.

After some 18 or more men were issued uniforms they went directly to the baseball ground where they were directed through a light work out. Most of the men are light, but promise to be a real fast team. Most of the boys seem to have gone into their school work and football training with renewed interest and determination to win in both. With this spirit prevailing we hope to be able to bring to Brownfield some well matched and played football games.

We wish to ask for the full support of Brownfield fans in making our team a real clean bunch of gentleman like sports in time of victory and defeat.

Among the boys that have been signed suits are a number of the old stars from last year, James Harley Dallas, Eddie Ballard, Loren Castleberry, Kerney Scudday, David Perry, Joe Shelton, Earl Ball and Clovis Kendrick. To add to this force we have, Luther Tannery, star of Bellevue High last year, Loyd Sears, Bill Collins, Roy Ballard, Dick Burson, Uyles Graham, and Adolphus Goodpasture and a number of others that have not been given suits.

Several other boys have been out to practice who contemplate signing up soon.—Reporter.

COUNTY COMMISSIONERS OFF FOR AUSTIN

Three members of the Commissioners Court, Messrs. W. F. Stewart of No. 2; T. O. Hooker of No. 3; and W. H. Black of No. 4, together with County Judge H. R. Winston, left Monday afternoon for Austin where they have an audience with the State Highway Commission. W. E. Harred, of No. 1 did not get away.

At Austin the Terry county officials will be joined by county officials and other interested parties to Lamesa Levelland and Littlefield in a concerted effort to get the road from Lamesa to Littlefield via Brownfield and Levelland designated and taken over by the State Highway department. The Terry county delegation will also work on getting the road from Brownfield to Seagraves taken over by the highway department, we understand.

These roads are vital not only to Brownfield, but to the other interested counties alike, and with this concerted effort, the Highway department should be prevailed upon to designate them.

J. W. Fitzgerald and mother are in Dallas, this week.

OLD COURT HOUSE AND FIXTURES SOLD MONDAY

Quite a crowd of interested and otherwise were on hand Monday to bid on the old court house, coal house, toilet house, fixtures and furniture, etc., belonging thereto, that was advertised by the Commissioners Court to sell Monday, and everyone is of the opinion that they brought more than was expected.

W. M. Adams purchased the old courthouse for a consideration of \$611.00, and the old coal house for \$17.50. Workmen are now wrecking them and material will be carried to Mr. Adams' farms near Meadow and Gomez, and three homes will be built for renters.

The Brownfield Hardware Company bought the old toilet house and the fixtures for a consideration of \$117.50.

A. C. Whisenant bought the old brick vault for \$27.00, and the furniture and fixtures sold to various citizens, mostly second hand dealers or the total sum of \$111.35. Total of 11 purchases amounted to \$884.35, or perhaps \$200.00 better than anyone expected.

The Commissioners retained the old jail house and fixtures, which includes two steel cages. These will be removed to the basement of the new courthouse and used to store common drunks and such that are hard to carry up the steps to the jail proper which is on the third floor. The building will then be moved to a lot somewhere in the city for the storage of tools belonging to the county.

LOCAL GIN MEN REARING TO DEMONSTRATE

The Herald man made the round of the six gin plants of the city last week, and found all of them have undergone extensive repairs and improvements during the summer months, most of them being through with the repairing and cleaning process, and ready for their first bale.

Thousands of dollars have been spent for new and better cleaning processes for some of them, as well as other accessories for the better handling of the cotton and producing better staples. There is no town or city better able to efficiently handle the 1926 cotton crop than Brownfield, and its six gins are rearing to demonstrate.

In the years past Brownfield has gained a wide reputation as a cotton market, the farmers receiving as much and in most instances more than is paid in adjoining towns and counties. Let us state that it has practically the same buyers as heretofore, and that means the farmers of this section will get all the market allows for their cotton crop this year.

Gin and sell your cotton in Brownfield.

M & M CLUB MOVE LIBRARY TO COURTHOUSE

The Maids and Matrons Club Library, which has been housed in the Herald building for the past two years, has found a permanent home in the courthouse, and was moved Wednesday of this week. The ladies have been just as welcome as the flowers in May to the use of the Herald office, but with constant expansion, we can now utilize the additional space to advantage, and we are glad that in moving, they are probably moving for their last time.

To make the opening in the new place of real interest, two hours will be devoted Saturday afternoon to story telling to the children by experts in this line, and we urge mothers who have small children to be on hand at the opening on the second floor of the courthouse Saturday afternoon.

MORE SHOWERS THIS WEEK

Showers have again visited the county on Monday night of this week, that scarcely laid the dust in Brownfield, but was perhaps heavier north and west. Tuesday opened up fair and with a promise of at least a few days clear weather.

Clear weather is certainly what the county needs just now above most everything else.

Mr. and Mrs. E. Logan Auburg left Sunday for their home in California after spending the summer in various parts of Texas and with his parents the past week.

BUILDING OPERATIONS MOVING ALONG NICELY

With the sunshine and warm weather of the past week the many building operations here are moving along at a satisfactory rate, which includes several residences as well as two business houses.

Mr. Jack Head, owner of the building in which is located the Ideal Bakery, is giving that building an overhauling this week. It recently suffered a small fire and was badly smoked up, and the walls are being treated to a new coat of paint, and the furniture is being re-stained and varnished, giving it the appearance of a new building and new furniture and fixtures.

The A. M. Brownfield building occupied by the Murphy Grocery, that suffered a fire about a month ago, has recently been treated to a new coat of plaster, and a new metal ceiling added and painted, and when Mr. Murphy occupies the building again with a brand new stock, he is going to have a very attractive place.

The brick work on the Hankins building is about complete, and will be complete when this issue reaches its readers, and the roof is being put on this week, followed by the ceiling. This is a very nice building and well located for many things. We have not learned just who will occupy the building or what line they will carry.

The new A. M. Brownfield concrete and tile building just across the street from the Rialto Theatre is now going up nicely. The concrete re-enforcements were complete last week, and masons are now busy laying tile. The front will contain a very nice drive in section finished in white-grey brick, and will be a handsome building when complete. The size is 50x100 feet, and we understand it will be occupied by the Brownfield Chevrolet Company.

PRESBYTERIAN CHURCH SET CIVIC EXAMPLE

The membership of the local Presbyterian church have cut the weeds on their church property, and everything cleaned up thereabout, and is looking neat and attractive.

This is a move in the right direction, and might be followed to advantage not only by other churches, but by the property owners in general. Weeds and trash are not only unsightly and unsanitary, but when they dry are positively dangerous from fire hazard standpoint.

DIED

The death angel visited the home of Mr. and Mrs. A. L. Husky, Saturday, September 4th and took their little babe which was only permitted to live with them one week. God calls away when He sees best.

Funeral services were conducted at the home by Mrs. Alice Wade. The remains were laid to rest in the Brownfield cemetery Sunday afternoon.

HOCKLEY COUNTY HERALD CHANGES HANDS

LEVELLAND, Sept. 14.—W. J. Baldwin formerly of Harlington, Texas, has purchased the Hockley County Herald and has assumed duties of carrying on the newspaper business. Mr. Baldwin is an old newspaper man.

CROSBYTON CHILD CRUSHED TO DEATH

CROSBYTON, Sept. 10.—The life of the three year old daughter of W. W. Parker of the Joe Bailey community was crushed out by a forge which overturned on her yesterday. The child was playing in the yard and apparently pulled the shop forge over and it fell across her body. A physician was rushed to the scene of the accident but the child died before he arrived.

FIRST BALE COTTON FOR LEVELLAND

LEVELLAND, Sept. 10.—The first bale of cotton for 1926 was on the streets of Levelland on September 9, raised by J. B. Chandler, 12 miles northwest from the city and brought 18-5. J. B. Chandler bought the cotton, and the bale was being circulated for a premium and \$63 was contributed by the business men. The bale weighed 480 pounds.

GOOD STAPLE

In addition to the splendid cleaning and burr extracting system we operated last year, we have installed several thousand dollars worth of new modern machinery in order to give more capacity without lowering the grade. Under our present system, rough cotton will go through five sets of cleaners before reaching the gin stands.

Our motto is to raise the grade by better ginning. We will appreciate your business the coming season.

CHEVROLET CLIMBS A VERY LONG HILL

Climbing a hill one thousand miles long is one of the tests which General Motors engineers believe no car can withstand unless it has rugged strength and stamina built into it to meet such a continuous strain.

In effect, this is the test which the Chevrolet car is meeting at the General Motors Corporation's extensive testing grounds, 1,146 acres in area, located in the rolling country 4 miles west of Detroit.

A "towing dynamometer" is the machine used to duplicate the terrific drag encountered by an automobile motor in ascending steep hills. It is said to reproduce almost exactly the stress of an up-hill climb.

The dynamometer is mounted on a chassis to be towed behind the Chevrolet car under going the test. Weights on a scale beam control two huge brake drums on the chassis through a hydraulic valve exerting pressure on the drums through a set of gears. The scale can be set to reproduce a grade of almost any degree through pressure on the drums.

Today the prospective car owner does not have to play the role of an experimenter in trying out products of General Motors. Experienced engineers on the proving grounds have every modern facility at their disposal to test all devices or methods suggested for the improvement of Chevrolet cars. Other American and foreign cars are also 'put through the grind' there. Any changes contemplated for the Chevrolet are tested for months or years before final adoption.

BOUGHT PAPER TO GET THE ADS

During our long career with a newspaper we have heard men put up all kinds of excuses as to why they subscribed for the local newspaper. Sometimes they say they want it just because the wife torments them for it. Sometimes they say they buy it because the children want to look at the pictures. Sometimes they say they take it just to help the editor out. Most usually, however, they say they take it just "because they want it and think it a good paper."

But we have one variation from this experience, and that happened last week. Mr. C. W. Averitt of Roaring Springs came into the office last Tuesday and subscribed for The Post, making the statement that he wanted it for the advertisements. He stated that he had received a number of copies of this paper and that he had saved quite a bit of money through the advertisements that he found. Especially did he mention some of the sales that the merchants have put on, running the ads in the paper. "I figure," said Mr. Averitt, "that I will save many times the price of the paper perhaps just on one sale advertisement that appears in it."

This leads us back to the old question, "Does advertising pay?"

Evidently it does when people like Mr. Averitt will subscribe for a paper in order that he may keep posted on the merchants and other business firms of the city through the advertising they do.—Paducah Post.

Sheriff J. C. Keller, of Plains, was a visitor here Monday.

M. B. SAWYER GIVEN BIRTHDAY SURPRISE PARTY

Mr. M. B. Sawyer, one of the most prominent citizens of the county was given a thrilling surprise party last Sunday in honor of his birthday, in which we are not able to state accurately, but it is somewhere in the sixties. The party was gotten up by Mrs. Sawyer and her daughters, Misses Larue and Christova, and all the sons and other daughters, as well as the in-laws responded heartily.

Among those attending were R. R. Barrier and family, Clyde Lewis and family, Clarence Lewis and wife, U. D. Sawyer and family, Oscar Sawyer and family, A. A. Sawyer and family, E. A. Graham and family, Jot Akers and family, Tom May and family. One daughter, Mrs. Cotton was unable to attend.

The day was spent in games of various nature and in conversation. At an early hour in the forenoon, the table was spread and laden with choice eatables, and remained that way until far into the night, and the party of merry children and grandchildren had open house. Melons and fruits were also handy to the guests all day long.

Mr. Sawyer was the recipient of numerous valuable and highly appreciated presents. It is said that the only thing that marred the day with Mr. Sawyer was when he would get "stuck."

MRS. MOODY "BORN GOVERNOR'S WIFE"

AUSTIN, Texas, Sept. 13.—"A born governor's wife" is the tribute being paid to Mrs. Dan Moody, formerly Mildred Paxton of Abilene, who on January 18th will become "first lady of the land" in Texas with the inauguration of her husband, Dan Moody as Governor of Texas.

Mrs. Moody was formerly a newspaper woman and according to close observers of the political campaign in which her husband won the democratic nomination she has the indefinable "political intuition."

It is believed that she will be the youngest woman to ever preside in the gubernatorial mansion although there are no official statistics on the matter. Anyway she and "Dan" will be the newlyweds of the State capital. They will have been married eight months when Moody is inaugurated.

It was our intention of giving the official vote of the county in the second primary last week, but somehow we over looked it after making notes on it. However, about the only change was in the county treasurer's race. The unofficial majority of Mr. Wilburn Pippin over Mrs. Ivy Savage, was reduced from 48 to 40 votes.

M. W. Souter, of Eliasville, Texas, is here visiting his sister, Mrs. T. J. Price. Mr. Souter reports fine crops from here to Eliasville.

Mr. Raymond Barrier and family, of Dallas, have moved to Brownfield for a few months at least. This is a fine family, having resided here before, and we are proud to have them with us again.

Mrs. Drew, of Plainview, district deputy of the Order of the Eastern Star, the female organization of the Masonic lodge, was here last week giving the work, and helping the local Stars in many ways.

Mr. Farmer

We have spent the better part of the summer in cleaning up and making the necessary repairs to our gin plant in order that we will be able to make the season run with the minimum stops. Better than Ever-

Following their traditional policy of constant improvement with no yearly models, Dodge Brothers, during the past eight months, have vastly bettered their motor cars in many vital respects.

Indeed, there has never been an equal period in Dodge Brothers history when so many refinements of a popular and fundamental nature have been made.

The public is registering its appreciation of this progressive industrial service by purchasing every motor car Dodge Brothers can build—in spite of the fact that Dodge Brothers production, during these months, has broken all previous records by an impressive margin.

THE STARS IN THE FLAG

On the blue field of the United States flag there are 48 white stars. These stars are arranged in a rectangle of six horizontal rows of eight stars in a row. Each star in the field represents a particular state in the American union in the chronological order in which it was admitted. Delaware has the place of honor—the upper left hand corner—being the first state admitted to the Union. New Mexico is the baby state, being represented by the last star in the lower right-hand corner.

The eight states in the first row, in order, are: Delaware, Pennsylvania, New Jersey, Georgia, Connecticut, Massachusetts, Maryland, South Carolina.

The eight states in the second row of stars, in order, are: New Hampshire, Virginia, New York, North Carolina, Rhode Island, Vermont, Kentucky, Tennessee.

The eight states in the third row of stars, in order, are: Ohio, Louisiana, Indiana, Mississippi, Illinois, Alabama, Maine, Missouri.

The eight states in the fourth row of stars in order are: Arkansas, Michigan, Florida, Texas, Iowa, Wisconsin, California, Minnesota.

The eight states in the fifth row of stars, in order are: Oregon, Kansas, West Virginia, Nevada, Nebraska, Colorado, North Dakota, South Dakota.

The eight states in the sixth row of stars, in order, are: Montana, Washington, Idaho, Wyoming, Utah, Oklahoma, Arizona, New Mexico.

Pupils in school as well as adults should be able to point to the star on the flag that represents their state in the American union.—The National Tribune. *Henry A. Uselson.

MAY RE-ESTABLISH SCHOOL OF JOURNALISM

TWO VIOLENT DEATHS AT LUBBOCK RECENTLY

LUBBOCK, Sept. 13.—The second violent death of two days for Lubbock occurred yesterday about noon, when a charge of six-B shot from a sawed-off twelve gauge shot gun, practically decapitated 13-year old Mildred Tiner, daughter of John Tiner, farmer, at the latter's home, eight miles south of this city.

County Judge Charles Nordyke after hearing testimony from Virginia Tiner, sister of the dead girl and from Hall Hilton, 15, neighbor of the Tiners, gave his verdict that Miss Tiner was accidentally killed by young Hilton.

The three young people had been hunting during the morning, returning to the Tiner house to eat. They in the living room, after dinner while handling the supposedly unloaded shot gun, the gun was discharged, the muzzle, according to examining physicians, apparently being close to the back of the girl's head. The entire charge struck her head, blowing it nearly off.

The Tiners came to Lubbock from Cleburne, a year ago. In addition to her father, Miss Tiner is survived by her mother and three brothers and sisters.

The body of Bowden Lacy, book-keeper of the Whaley Lumber Co., who was found shot through the heart in his room at 1613 15th Street Saturday afternoon, was yesterday taken to Ardmore, Oklahoma, the home of Lacy's parents, for burial.

A quarter million majority of Texas Democrats say "Dan's the Man." While we have no hate for the Republicans, let's go to the polls in November in such force as to make the G. O. P. of Texas lose its right to primaries again? It can be done if we support the ticket.

Hundreds of South Plains farmers are gathered this week at Lubbock to attend the second annual Field Day, where farmers are being instructed by experts in the latest methods of agriculture, including seed breeding. Such courses, we believe are worth thousands of dollars to the farmers of this section.

Germany is now a full pledged member of the League of Nations, and for some reason or other Spain has at the same time kicked out Spain was one of the European nations that did not go to war with Germany. This seems strange after the hatred for the central powers that was engendered during the war, in just a few brief years of peace.

In her message to the legislature, Governor Ferguson asked for bond validation, and also courted a full investigation of every department if the legislature felt inclined. It was all Dan Moody could do to keep the recent convention from condemning her administration, and now he may have to hold a tight reign over the legislature to keep it from making a lust with some kind of a foolish demand.

While there are no cases of theft recently that amounted to very much, there are many complaints of minor or petty thievery of one kind and another, such as car parts, and in some cases little things are missed in the homes. It is hard to catch such puselanimous pups, for they are near relatives to Bre'r Coyote, and keep well in the shadow. About the best thing to do for such gentry if you do happen to catch them is to fill their wolfish hide with a good charge of buckshot, or cut their head off right behind their foreshoulders.

R. B. Haynes, the newspaper syndicator of the South Plains is at his tricks again, having recently bought the Miami Chief, of Miami, Texas. His family have already moved to the north Plains city, and he will move as soon as he secures some one to edit and publish the Seagraves Signal. Mr. Jas. Greer, who has been employed to edit and publish the

Meadow review for Mr. Haynes for the past several months, has leased that paper we understand. The Herald regrets to see the Haynes family leave the South Plains, but Bob says he's cutting no bridges.

We are always prone to accuse officers of being everywhere but the right place when a crime is committed. We can now somewhat revise our figures, for Captain Tom Hickman, Fort Worth, of the State Ranger force a constable and a former ranger happened to be "Johnny on the spot," at Clarksville during and just following the robbery of a bank. Both bandits were instantly killed, and have heard of no regrets being expressed anywhere except from the immediate families of deceased. Give us more officers with a keen eye and steady arm, and bank bandits will seek more congenial climes.

Announcement was made in the Wednesday morning edition of the Lubbock Morning Avalanche of a consolidation of that paper with the Lubbock Evening Journal, and both papers will now be issued from the plant of the Avalanche, which with the consolidation will give them one of the best plants in West Texas. Mr. Jas. L. Dow of the Avalanche, and Messrs. Roderick and Guy of the Journal will make a strong editorial team, and with the organization of both papers command good financial backing. The two papers with both the United News and the Associated Press wires, together with a strong local reportorial staff, are bound to be recognized among Texas Journalism as the very best. The Avalanche will continue to be issued of mornings, and the Journal evenings.

HONORS THAT ARE FLEETING

Rudolph Valentino is dead. Dr. Charles Eliot is dead. Both passed from this life on the same day. The former was a young man, an Italian immigrant, who flashed across the horizon of the amusement world much as a meteor crosses the sky and disappears to be forgotten while other meteors come and go much in the same manner. The latter died at a ripe age of ninety-two after a life of service. The news of his death was flashed to all parts of the world, as was Valentino's, but judged from the standpoint of newspaper publicity and the visible effect upon the people of the country, Dr. Eliot was of less importance than was the hero of the screen. Thousands besieged the hospital where Valentino lay stricken and many more thousands struggled to view his body after it had been prepared for burial. On the other hand, the body of Dr. Eliot lay in state while sorrowing friends passed by to view for the last time the face of the man who had worked diligently throughout a long life in an effort to serve his fellow men.

Valentino received the applause of the amusement-loving masses for a brief period of time and passed on to be forgotten. Dr. Eliot earned the love, admiration and respect of millions of thoughtful people, including many admirers of Valentino, and lives on in history until the end of time. Both were successful men. Both were honored, but Valentino's

honors were fleeting. His popularity would have waned—his star would have risen to attract attention. Not so with Dr. Eliot. Men of his character, ability and breadth of vision are the product of a century and they live on and on in the minds of succeeding generations as examples worthy of emulation by all those who would unselfishly contribute in a large measure to the advancement of civilization.

Valentino filled his niche in the world. He earned applause by reaching the topmost round in the ladder of success in his chosen line. He amused the masses in a much less harmful way than were the people amused in the days of ancient Rome. He appealed to popular fancy as do the newspapers of the day, and for that reason newspapers should not be too severely condemned for capitalizing his spectacular popularity even in death. The newspapers will soon forget Valentino, while the editors and copy readers will continue to value Dr. Eliot's five-foot shelf of books.—Farm and Ranch.

Run-Down gave out easily

"MY health wasn't any account at all," says Mrs. H. L. Cayton, of Washington, N. C. "I would start to do my housework and I would give out before I had done anything at all. I did not have any strength, and if I did the least thing it seemed to tax me so I could not finish. I was run-down sure enough. Several of my friends had taken Cardui and they said to me, 'Why don't you try it?' I knew I needed something to build up my general health and to increase my strength. Finally one day when I was recovering from a spell of sickness, I decided to try Cardui. I got a bottle and began to take it. I could notice that I was improving as my appetite got better and I did not give out nearly so quick. I took several bottles and I felt lots better. Two years ago I decided to take it again. It built me up and made me feel like a different person. It is the greatest medicine for women that I know anything about."

LEGISLATURE WILL GIVE PRECEDENCE TO CREDIT

AUSTIN, Sept. 13.—With introduction of investigation resolutions both senate and house adjourned this afternoon until Tuesday at 10 a. m. and the first day of the special legislative session had passed with no irregular incidents.

Adjournment was taken after reading of the governor's message.

Speaker Lee Satterwhite, addressed the house, recommended that road bond validation bills be disposed of at the earliest possible time and any emergency bill submitted be passed and that the legislature then adjourn.

His remarks were loudly applauded.

The senate and the house of representatives was called to order at noon by Lieutenant Governor Barry Miller and Speaker Lee Satterwhite, respectively. After organizations were completed, both sides adjourned until 2:30.

House leaders reached an agreement before the session convened that first attention would be given to validating the \$100,000,000 road bonds and that a joint committee would be favored to investigate state departments and report to the next regular session of the legislature.

No definite plans had been made in the senate. It is known that there are some senators who would have the special session make the investigations.

Plans were being made for the introduction of all 555 district validating bills. Senator John S. Bailey will introduce the general bill.

Both branches had quorums, thirty of the thirty-one senators answering roll call, and 135 responding in the house. Senator J. Roy Hardin of Kaufman was the only senate absentee. House absentees numbered fifteen.

IS THE BOY TO BLAME

Said the son to the father, "I would like a new aluminum finished roadster. I need three new suits of clothes, a new set of golf clubs, some new sport shoes, a couple of hats and a new fishing outfit to go on my vacation."

"Sure," said the father, "Go down town and buy these things and charge them to me."

The following month the bills came in together with a "few" others, which were necessary to round out the boy's equipment for his holiday. The father raised the roof with complaints. Naturally he got no sympathy as the wise ones said it was his own fault for encouraging his family in such extravagance.

Along comes an election and candidates for office or proponents of special measures tell us, as taxpayers, that they would like a few thousand dollars for this office, a million or two for a new commission, ten million or 100 million for some state enterprise, a few more motor cars for that bureau and dozens of extra jobs to pay political debts, not to mention several hundred new laws to be passed by the state legislature.

We say, "Sure, that's alright," and vote for the program. A year later the tax bill comes in and then we raise the roof about the increasing cost of government.

But do we deserve any sympathy? Are we any different from the indulgent father?

Don't blame the boy, and don't blame the office holder too much, for the father is responsible for the actions of his children and his family expense, while we, as taxpayers, are responsible for the men we elect to office and our public expense.

John is a fine fellow, and is well equipped to care for the passenger traffic between the two cities, and we are sure he will do well. Note his ad elsewhere in this and future issues.

HIGH POWERED LOBOES BATTLE FT. WORTH 'CATS'

Baseball fans of West Texas will have the biggest series of the year offered them at Lamesa, Saturday and Sunday this week as the closing time for the baseball season approaches.

The hard-hitting, colorful Lamesa Lobos, under the leadership of J. H. (Hosea) Lee, who has been a sensation in independent baseball circles of the southwest this season, will play a two game series with the Fort Worth Panthers of the Texas League.

The Lamesa Club has just returned from Denver, Colo., where they won second place in the Post Tournament in which there were fifteen clubs entered from seven different states. The Lobos went into the finals of the tournament with a record of five wins and no losses and lost out to Tony La Salle's team from Phoenix, Arizona, which was made up of many class A ball players.

The Fort Worth team has won third place this year in the Texas League race. This is the first time in six years that the Panthers have failed to cop first in Texas League battles.

Manager Lee of the Lamesa club says his boys were against just as strong competition at Denver as the "Cats" will offer them and he is expecting to show the fans of this section some real games.

Arrangements are being made to care for the largest crowd ever present at any baseball games in West Texas. Lamesa hotels are adequate to care for out of town visitors who desire to come for both games.

WHY IS BROADWAY CALLED 'THE GREAT WHITE WAY'?

One often wonders how Broadway received the name of "The Great White Way."

The answer is in the long line of electric signs that tell their story to the thousands of people who are walking or driving along Broadway daily.

There are 1,095,841 incandescent lamps in electric signs along Broadway, it has been reported. Keeping the "Great White Way" white is an enormous task. More than 200 workers are kept busy on these great signs; fifty men make 16 rounds nightly to replace lamps.

The first electric sign along Broadway that attracted wide attention was the chariot race placed on top of the Normandie Hotel; and was for several years one of the sights of the city.

The development of electric signs in the past five years has been miraculous. A few years back who would have thought that figures and forms such as are now seen, could be made possible by the use of electric signs or that one could stand and read a story told on an electric multigraph. In spite of all this recent development, experts claim that the climate in the use of electric signs has not been reached as yet, and promise more stupendous development for the future.

CARLSBAD, N. M.—August, 1926, was the banner month for visitors to New Mexico's world-famous Cavern at Carlsbad. 4,303 paid admissions were recorded by the custodian. This record attendance exceeds the total number of visitors for the months of April, when the National Park Service assured management, to July, inclusive. Visitors by months were as follows: April, 374; May, 685; June, 998; July, 2,006 and August, 4,303, or a total of 8,366 for five months. September will furnish visitors from the tourists returning from the west coast and the October register will reflect a large number of delegates at two conventions to be held at Carlsbad during that month, namely: Federated Woman's Clubs, and the Pecos Valley Medical Association.

WIDE-SPREAD PROSPERITY MEANS A GOOD FAIR

LUBBOCK, Sept. 13.—Prosperity is beginning to reign supreme over the Panhandle Plains section and the Panhandle South Plains Fair directors expect the annual "Show Window of the Plains" to be complete with each community and county cooperating and with prosperity products in agriculture, live stock, swine, poultry filling the buildings at the Fair Park to overflowing. Practically every county on the Plains has signed to send an exhibit and reports coming in from those gathering the exhibit declare that wonderful products are being prepared for the fair.

Fair visitors will see four big high school football games and a college game. This is the biggest football card ever witnessed on the Plains. The card includes the following games: Floydada, vs. Tahoka, Wednesday; Plainview vs Slaton, Thursday; Lubock vs Post, Friday; Ralls vs Littlefield, Saturday morning; and Texas Tech vs Schreiner's Institute, Saturday afternoon.

There will be plenty of fun for all who come, according to the directors. The Bill H. Haines Shows will be pitched on the Fair Park grounds with all kinds of rides and good carnival attractions and shows. A mammoth fireworks display will be witnessed each night of the fair. Entries in every department are coming in to A. B. Davis, Manager of the fair from every part of the Southwest.

The fair catalogs have been off the press the past several days and are being mailed out to everyone asking for a copy. The Fair gates will swing back September 29, 30, October 1 and 2, and everything will be ready then according to Walter A. Myrick, Jr., president of the Fair Board.

THE CHILD AT SCHOOL

With the opening of another school year, the problem of encouraging the child to make the most of the opportunities which the school offers again presents itself. It is a problem in which parents as well as teachers should take a keen interest.

Perhaps the most important objective to be sought is to awaken in the child a real desire for knowledge. It should be pointed out that it is possible to derive enjoyment from the pursuit of school studies if one approaches them with a genuine ambition to learn. The child should not be led to feel that going to school is an unpleasant duty. He should be impressed with the fact that it is a privilege to be appreciated, not only as a preparation for after life, but as a means of present happiness and satisfaction as well.

Some children appear to realize this without much urging, but others seem to be naturally averse to mental effort, and require patient handling in order to arouse their interest in school work.

Parents should not place the entire responsibility upon the teachers, but should cooperate with them, not only in insisting upon punctual attendance but also in leading the child to adopt a proper attitude toward his studies.

The fifth annual "peddlers" convention will be pulled off at Lubbock tomorrow. The "Knights of the Grip" are expected from all over the southwest, and Lubbock promises them a big time. Some 300 men travel out of Lubbock alone.

Mr. K. Goodman, with headquarters in Fort Worth, traveling organizer for the West Texas Chamber of Commerce, was here this week renewing memberships in that organization, and we hope he increased the number very much over the previous year when the solicitor had to go out among them by himself. Local Secretary J. E. Shelton took Mr. Goodman in tow this time, and we hope for more than six members here.

TEACHERS WANT PER CAPITA RAISED TO \$15.00

LUBBOCK, Sept. 10.—In their regular meeting yesterday the resolutions committee of the South Plains Teachers' Institute went on record as favoring some important policies and changes in the schools and systems of this section.

Chief in their resolution was the ever-present thought of the welfare of the schools of west Texas. Especially did the Tech receive mention in their meeting. In the legislation resolutions an increase of a sufficient amount to bring the present per capita to \$15 per year, passing of a law making a minimum salary and special professional training for teachers, adoption of a strict county unit system, appropriation for additional buildings for the Tech placing city and county superintendent on the same basis, and one or two other minor matters were included.

Recommendations that the legislature give attention to the survey commission's report and recommendations and that the institute be held at the Tech with the same conductor was handled in the meeting also.

The teachers also commended President Arthur P. Duggan of the West Texas Chamber of Commerce for his work in fighting for the equalization of taxes in Texas.

MOTHER'S CLUB

Mrs. Eunice Jones was hostess to the Mother's Club, Friday evening in a social and call meeting from five to seven o'clock. Mrs. W. A. Bynum our new president presided over the meeting. Many interesting plans and suggestions for a successful club year were discussed. One of the most important questions brought before the club was the question of Federation. Was decided by the club to go into the immediate plans of federating the club. Many civic improvements were discussed.

The Mother's Club intends to stand by other clubs of the town in any plans whereby they can help our schools or city. Plans were laid for a story hour for the children to be carried on at some central place some two or three evenings in the week.

Refreshments consisting of osgoopic, pickles and ice tea were served to the following members: Mesdames H. H. Hughes, Joe J. McGowan, Arnett Bynum, J. E. Shelton Homer Winston, F. M. Ellington Glenn Harris and Fred Smith.

Next meeting will be with Mrs. W. A. Bynum, Wednesday, September 22 at four o'clock.—Reporter.

and newest at home. The gentlemen having this enterprise in charge believe in a clean show and are home men.

The Methodist Meeting here is still in progress, with nine conversions to date. Services have been announced for tonight, (Monday.)

The petition left here before the Primary asking the Commissioners to appoint a county agent, has been signed by most of the farmers of this community to whom it was presented. I don't know the fate of the other petitions but unless someone took interest enough to present it there will be very few.

If this had been a petition to turn some criminal loose or to build a park, or open a jack pot it would have plenty to interest everyone.

MEADOW BRIEFS

By Aesculapius.

To late for publication last week. Services at the Methodist Church and the Church of Christ have continued through the week. There have been ten additions to the Church of Christ up to the present writing, none at the Methodist church.

It is a singular and regrettable also that so much preaching should be done without any visible effect. Most people admit its importance, in fact all agree as to the necessity of a compliance with the requirements of christian teaching, still the most of the appeals for acceptance of the gospel fall on deaf ears, and most of those who accept it and connect themselves with the church lend it half hearted support, if any at all. This lukewarm attention to promised duty reacts on those outside in a way to deter many men and women from joining.

The need for an old time revival in religion is sorely needed to rouse men and women to a better moral sense, a greater respect for law and a genuine respect for the rights and liberties of others.

Advantage has been taken of those attending church by unprincipled chicken thieves and many of the homes have suffered the loss of all their poultry. This is indeed a great loss to those who depend on the eggs and chickens in a measure to buy supplies.

If dealers could be forced to keep a record of the names, location, quantity purchased, and the breed of chickens it would assist in running down those dirty robbers of many over-worked women.

Much has been said and written—is still being said and written about simplifying court procedure, reforming our laws so that trials could be had in reasonable time, that technicalities should not set aside a fact, and other things too numerous to mention that allow criminals go free; but will it ever come? Not soon I fear.

Lawyers fill most of the places, from governor, down through our legislatures and courts. We had just as well expect criminals to reform as look to lawyers for relief. Most lawyers are not bad men but the system has grown and it is to their advantage that things remain as they are.

Mr. A. W. Edwards, his wife and two children were the victims of an auto accident Wednesday night on their return from Lubbock, where they had attended the show. Two young men returning from a hunt either asleep or for pure cussedness ran into their car, spite of the fact, that Mr. Edwards took to the bar-pit to escape them. Both cars were almost demolished and all parties more or less bruised and cut with

grade. Our people should assist the trustees in every way possible to give our school affiliation.

Prof. Zorns and wife, G. C. Tiner and wife, Mrs. J. M. Bursleson, Misses, Goodner, Bearden, Hinson, and Mathews will make up the teaching corps for Meadow. Five of the nine taught in the school the past year. Miss Ruth Dowlin of Fannin county will teach music. We wish for teachers and pupils a prosperous year.

In the twelve hour period from 6 P. M. Thursday to 6 A. M. Friday, four youngsters put in appearance in Meadow. Two boys at the Ed Bragg home, a girl at Perry Hardins and a little "cullid" gentleman at McCallisters on S. W. White's farm. There is certainly a swarm of Storks visiting this region.

We are to have a moving picture theatre in Meadow. Messrs. Herrington and Gafford are putting the finishing touches on the interior of the building and it will not be many days before "Fans" can see all that is best

MEADOW BRIEFS

By Aesculapius.

The annual opening of the public schools Monday has put the folks to shuffling about making the needed preparation for the children, in the matter of clothes, and hurrying those of it who will enter at other places than the home town.

Some eight or ten from Meadow will enter High School at Lubbock. They are not dissatisfied with our own teachers—don't think there are any better anywhere—but our school lacks affiliation and as many of the children in high school grades intend entering the Tech when they have completed their course in the primary school; they deem it best to finish at Lubbock.

This leaving home to get the high school grade is considerable trouble and expense, and I trust this will be the last year Meadow will be compelled to allow her children leave until they have completed the eleventh

glass. None however were seriously injured. It seems that we will never be free of such accidents. One takes his life in hand when he ventures on the road at night.

Meadow had her first bale of cotton Monday evening. The cotton was grown by Mr. Gibson living northwest of town.

Farmers are continuing to poison the worms and on many of the farms they have them killed.

John B. Reed, an old resident of Meadow has moved his family to Lubbock to have the advantages of the higher schools there. John says he intends to remain in Meadow. The family will be greatly missed as they have always took a leading part in the social and religious life of the town.

Mr. R. T. Bertram has returned to Meadow from his farm west of town. He will occupy the house vacated by John B. Reed.

The little son of Mr. W. D. Moore, living in the Lake View community, east of town, had his foot seriously injured by a go-devil disk being dropped on it from the roof of a shack. The outside toes of the right foot were entirely severed from the foot. Enough tissue however remained intact to preserve the circulation. Barring accidents it will get all right.

A. F. Lucas and wife are off on a visit to Mrs. Lucas' parents near Ennis.

Our old friend F. L. Paige, the doctor of lame boots and shoes, has found himself a job more to his liking, in carrying the mail for Uncle Sam down near Moneyhans. His house now becomes the City Meat Market.

John Cadenhead is the proud father of a bouncing baby boy. The little gentleman was the source of much joy to his mother and father and a couple of grandmas who were present to welcome his advent. Thus the Cadenhead line is assured. He arrived at 12:30 P. M. Saturday, September 4th.

Miss Ola Bell Brown left Tuesday in Company with her mother, Mrs. E. Brown, for the Blind Institute at Austin for her second term there.

Mrs. Belton Howell was over from Tahoka, Tuesday visiting her parents, Mr. and Mrs. F. E. Walters.

BURBANK PLANNED TO LIVE IN TEXAS

Luther Burbank, the great plant wizard, declared shortly before his death that he would move to Texas and spend his life in working with the pecan. Burbank declared that the pecan opportunities of west Texas were literally neglected gold mines that awaited but a little effort to develop. The West Texas Chamber of Commerce hopes to set forces to work which will bring about this needed development. The opening gun will be fired at Llano upon the occasion of the Hills Country district convention on September 10.

AS THE BILLBOARDS SAY

A group of Chinese boys were discussing the relative merits of the two billboards, one advertising Carnation Milk and the other advertising Bull Durham. One of the Chinese boys was explaining the signs to the others in this way. "In America they have he cow and she cow. The she cow give milk and the he cow give tobacco."

FAITH AFTER DEATH

Old Bill Horner was having his will made and among other provisions asked to have his Ford car buried with him.

"What's the idea of that, Bill?" asked his lawyer.

No Pellagra After Three Treatments

Dr. W. C. Rountree, Vanhook, Texas.
Dear Doctor:—I had Pellagra five years. I was nervous, had stomach trouble, rash on hands and arms, skin cracked and turned brown, sore mouth, could not eat or sleep, lost weight and felt weak. I tried many treatments. Took Hypodermics six months, but no relief. I took 3 of your treatment and was well of Pellagra. I think I could influence every one who has this terrible disease to write you.
