These figures were compared with the 1943 total of $10,000,000 in sales. The increase in sales was attributed to the construction of the new highway which opened up new markets for local producers. The figures also indicate that the county's economy is on the upswing, and that people are spending more money in the local community.

There's a Problem:

Yesterday morning we had quite a number of letters and phone calls from citizens of various communities asking if our furnaces were working. They said the temperature was very low and they wanted to know if there was a problem. We checked with the local utility company and they told us that there were no problems with the furnaces. It seems that some people are not paying their bills on time, which is causing a problem. We urge all customers to pay their bills promptly to avoid any inconvenience.
