

The Terry County Herald

Printed in Terry County, on the South Plains; the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME 23

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, SEPTEMBER 23, 1927

NUMBER 5

Chamber of Commerce C-U-R-R-E-N-T-S

By the Secretary

I have been out over a goodly portion of the county this last week, especially in the dryer portions and believe that the yield in general will be very much better than any of us thought possible a few weeks ago. Fellows, the crop has been produced mostly from the bottom season as we all know that rainfall has been far below minimum. There is not another section on the face of the globe that can equal us when it comes to producing dry land crops, without rain. Another good thing about it is that for the first time in the history of the county, our farmers put it over without going into debt and if this was practiced for the next five years, most of the farms would be paid for and would have neat improvements on them. County Bank loans are nearly \$200,000.00 less than at the same period last year and if it was not for the credit of two years ago, no one would have to sell on a market unless it pleased them.

The secretary has secured the consent of the Directors of the chamber of commerce to allow him to place an exhibit at the Panhandle & South Plains Fair, as we were the only county on the South Plains that had a railway connection that was going to be absent. A guarantee is made that the Chamber of Commerce will not be called upon for a thin dime, nor will any merchant or other citizen be solicited for a contribution toward the expense of putting it over. In other words I am going to gamble on my ability to win one of the county prizes in amount sufficient to cover the cost of staging the exhibit. Of course I will get a little stuff from our farmers and others who have good garden stuff, but no single one will be called upon to contribute any large amount of products, and what he gives will not hurt him.

This will require day and night work for the remainder of the week and if any person gets the idea in his head that we are going to win first prize, he has another guess coming, as a jumped up exhibit, even though it be good, cannot win out over one that has been in preparation for several months. We can make a good showing however and the average spectator or visitor to fairs, does not pay much attention to premium winners anyway and has forgotten high man within a few days.

Exhibits at fairs are the best means of interesting people of other sections in our county and I personally know of several who have been induced to locate here on account of exhibits that were staged either at Lubbock or Dallas.

The Dallas Fair opens within a few days after the close of the South Plains Fair and if the citizens of the town feel enough interest in the matter to raise \$150,000, it can be covered also as the exhibit will already be prepared and with a prize that is sure to be won at that place, the expense can be taken care of. At any rate I will bet on putting it over if that amount is raised, but I won't have time to assist in raising it as has been the case in past years. You won't be ashamed of our exhibit at Lubbock, so arrange to be there for at least one day.

The West Texas Gas Company, has made application for a franchise and it has been granted. Our connection will come direct from the Amarillo fields by way of Hereford and a huge pipeline will be laid as it is the intention to supply all of the principal towns of the Pecos Valley of New Mexico as well as Lovington and Tatum. Officials of the line say that the Lubbock line will connect with their line at Midland and the Brownfield line at about Odessa, thus making a loop. It was stated at the meeting that the entire south plains country was receiving a great deal of attention from "Wall Street" at this time and was the general belief that the entire section could be placed under irrigation and that the principal reason for covering the section with a network of gas lines, was to enable them to be in readiness to furnish power for pumping purposes.

The number of resident hunting licenses issued in Texas last year was 71,745 bringing \$132,727 in fees.

Lubbock Fair Boosters Visit Brownfield

A delegation of some 100 people from Lubbock invaded Brownfield about three or four o'clock Friday afternoon, and remained for about an hour, during which time they used every means possible to advertise the Panhandle and South Plains Fair, which opens in that city next Tuesday, and runs for five days.

The address of welcome, by Judge Geo. W. Neill, followed a short band concert by the Lubbock High School band, who are musicians of rare ability considering their age, and the concert was highly appreciated by the people of our city. Judge Neill, as usual, extolled the virtues of Brownfield and Terry county, citing the fact that Brownfield people never had to hold a called meeting to see whether or not they would welcome visitors, and especially visitors from Lubbock, who in many instances were not only neighbors, but personal friends. Lubbock and Brownfield he said, held many things in common, and what benefitted one, benefitted both.

The response came from the Tech College business manager, who paid a tribute to Brownfield by saying he had been wondering all day why they did not put him up to speak, but after arriving in Brownfield and seeing our beautiful women and handsome men, he found they were saving him for the best. He made affine talk on the fair, and closed by giving our people a pressing invitation, not to only visit the fair, but come to Lubbock often.

After another selection or two from the band, Secretary Shelton of the Chamber of Commerce told the visitors that a large supply of watermelons were awaiting them near the curb of the courthouse park, and to take to them, which they did—as Little Bennie's Note Book says.

Eighteenth District Largest in Nation

Congressman Marvin Jones foresees better representation of this portion of Texas in congress due to the increased population here. Based on poll tax payments the population of this district is now estimated at 400,000, more than twice what it was when the 1920 census was taken. The 18th Congressional District of Texas is one of the largest single districts. No member of congress represents a larger territory than Mr. Jones, save congressman at large from states larger than this district. The 18th district is exceeded in area by only 28 of the 48 states of the union. It is larger than New York, Louisiana, Mississippi, Pennsylvania, Virginia, Tennessee, Ohio, Kentucky, Indiana, Maine, and ten other states.

The district is composed of fifty-three counties, containing 32,397,440 acres of land, 50,621 square miles.

The fifty-three counties are Armstrong, Bailey, Borden, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Fisher, Floyd, Foard, Gaines, Garza, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Hutchinson, Kent, King, Lynn, Moore, Motley, Ochiltree, Oldham, Farmer, Potter, Randall, Roberts, Scurry, Sherman, Stonewall, Swisher, Terry, Wheeler, and Yoakum.—Canyon News.

BIG OIL CO. HAS FORCE AT SEMINOLE

The Roxana Petroleum Company is now on the ground with a force of thirteen men, having arrived last Saturday, and have already started the work of giving Gaines County a thorough geologizing. They are using the torsion balance or other similar machines.

This company has a 90 day lease on the entire 2nd floor of the First State Bank building, also the old cafe building and are furnishing their men with room and board.—Seminole Sentinel.

ALL HAVE GOOD POINTS

"Well, sah," said Sambo after being asked what kind of chickens he preferred, "all kinds has dere merits. De white ones is de easiest to find in de dark, but de black ones is de easiest to hide after you gets'em."

Methodist Begin Revi- val Campaign Sunday

While it is getting rather late in the season for revivals according to the old way of thinking, yet the Methodist people led by their pastor, Rev. John W. Chisholm, are preparing to put on a good revival, and are doing some extensive advertising. And why shouldn't a reviva be held in fall and winter the same as in spring or summer? Are people supposed to be more religiously inclined in summer? A Chicago pastor informed us a few years ago that some of the best meetings they had was in dead winter, when the countryside was often almost blocked by snow.

Rev. John W. Chisholm

Rev. Chisholm has chosen a unique way to advertise his meeting. He has sent each member a typewritten letter, in which he asked them for their cooperations and prayers, and to work for the meeting, and will therefore have personal work in advertising and in helping the meeting to get under way. He also enclosed a post card for the recipient of the letter to answer as to whether or not they would lend their assistance, and in what manner. He will do the preaching and a local singer will have charge of the song services.

Remember that the meeting starts Sunday morning at the eleven o'clock hour, and will continue as long as conditions justify. We understand that everyone is cordially invited to come and lend whatever assistance they can toward making the meeting a decided success.

THE FIRST METHODIST CHURCH

The revival meeting will begin at the First Methodist church next Sunday morning. The pastor will open the meeting with a sermon on "Building The Temple." Members of the Methodist Church are urged to be present and friends are invited to worship with us at this first service of the series that will be preached during the revival meeting. The pastor believes the entire Bible to be the Word of God and preaches it in the old way with added light thrown upon the interpretation of the Scriptures by modern research and study of the original language in which the Word of God was written. In addition to the message of instruction and inspiration there will be special music at all these services and the public is cordially invited to come and worship at these services. Sunday services as follows:

Sunday School at 9:45.
Preaching service at 11:00.
Junior folks at 4:00 P. M.
Evening preaching service at 8:00.
—Church Reporter.

FIRST ARC LAMP TO BE MADE INTO MONUMENT

The first electric arc lamp ever used for street lighting was set up in Wabash, Indiana, in 1880, forty-seven years ago. Of an original group of four, one lamp remains, and this is to be placed on the lawn of the Wabash court-house as a memorial to the event of which it is the sole relic.

Electric arc lamps had been used earlier than 1880, but not in public service.

Two years later, in 1882, the world's first electric central station was opened in New York City by Thomas Edison. At this time there were in the entire country 21,998 electric lamps in use, a total less than the number required to light a modern electric sign.

Lockney—Lockney plans installing a sewer system and expects to issue \$40,000 in bonds.

Officers Find Man Seeing Things Sunday

Awhile before dark Sunday afternoon, people of the Union community phoned in to the county officers stating that a demented man was laying in the bar pits near the Couchman home. Sheriff Frosty Ellington and deputy Jim Lewis left at once to investigate, and found—not a crazy man according to generally accepted meaning—but really crazy on some kind of alcoholic liquors.

They brought him to town and lodged him in the cooler and called a physician, who pronounced him under the influence of wood alcohol, as his lips and mouth were badly burned. Physicians believed he would recover Monday morning, but were fearful that he would lose his sight.

Questioned Sunday evening concerning his name, the man asked the officers how "Jones" suited them. He prefixed "Jones" with Charley Brown, Monday morning, and that is about all that they have been able to get out of him, but it is believed here that he lives over in New Mexico, and seemed to be on his way to Lamesa when he got down. He spent the night before at a local hotel, but failed to register.

It is presumed that about all they can do is turn him loose as soon as he has recovered sufficiently to travel. He was almost a nervous wreck Monday morning. Why will they do it?

Commission Man Says Cattle Looking Up

C. I. Bedford, of Plains, senior member of the Livestock Commission firm of C. I. Bedford & Sons, was over last week, and while here called in to renew his paper and pay for a bill of stationery for the firm. In conversation with Mr. Bedford, he said that it was his opinion that the cattle industry was fast coming into its own again, and that it was attracting men with some capital to invest more than for years past. In fact he says, the cattleman is just now getting his head above the ground from the depression of 1920. Mr. Bedford sold 2 cars of heifer yearlings and delivered them at Seagraves, last Saturday. He also has 800 head of steers for November 1st delivery to northern buyers.

With the rains of the past week, and cooler weather on hand, there is no doubt but good pasture will provide well for the stock in this section through the winter, with little feed to purchase, and the profits to the cattleman next spring will be large.

Church of Christ Meet- ing Closed Sunday

The meeting being held at the City tabernacle by G. A. Dunn, of Dallas, for the past few weeks, came to a close Sunday night with two additions by primary obedience and some restorations, and with the church much strengthened and encouraged to go forward.

Elder Dunn left Monday morning on his way to Fulton, Ky., where he is to hold his next revival.

We understand that the Church of God folks are to begin a revival this week at the city tabernacle.

FOUND THE REMEDY

A doctor who left his patient on his deathbed at night ordered the man's wife to take his temperature every hour. In the morning the physician arrived to find the bed empty.

"Yes," said the wife. "We didn't have no thermometer. So I gave him the barometer. That pointed 'very dry,' so I gave him two pints of ale, and now he's gone to work."

DIRTY DIG

Clyde Reed announced that his Parsons Sun will be equipped this week with a press that will print 12,000 16-page papers an hour. When Henry Allen ran the Parsons Sun and boasted that his new press would print 4,000 8-page papers an hour, a political enemy asked how he was going to stop it soon enough.—George Marble in the Fort Scott (Kan.) Tribune.

Brownfield To Have Gas in 14 Months

The city council in regular session on Friday the 16th, granted the West Texas Gas Co., a 20 year franchise to supply this city with natural gas from their fields on the north plains. We understand that they will go on south from here and connect up with the gas fields in Ector and Winkler counties south of here.

They have until December 1st next year to complete their job in Brownfield and to the following month to turn on gas here for the consumer. Thus, this city is soon to add another of the modern conveniences, which is said to be the best, cleanest, and most economical fuel that has ever been tried.

The maximum charge will be 67¢ per 1000 cubic feet of gas used. But if you care to go over the entire matter, you will find it in full in the form of a city ordinance printed in this issue of the Herald.

School Opens With More Than Last Year

If we had been guessing at the matter, we would have said that the schools of Brownfield opened with more pupils last year than this, in view of the fact that we have heard of several families leaving during the year for various reasons, most of which was dry weather here, but Prof. Fagala, Supt. of our schools informed us that there were more enrolled the first week this year than last, and he says such will most always prove to be true of dry years, for generally the crops are late dry years, or not enough to keep the children all on the farms to help gather the crops.

However, the far greater percent of our scholastics are town children, due to the fact that the Brownfield district is only about five miles square which goes to show that there are about as many people living in town as this time last year.

According to a report given us by the principals of both the grade and high school this week, the high school department had 114 enrolled and the grades schools 345, making a total of 459 altogether, which is considerably higher than the first week last year.

Bennett & Lewis Buy Sanitary Barber Shop

A deal was consummated this week in which Rich Bennett, of Pecos, but formerly of this city, and Clarence Lewis of this city, became the owners of the Sanitary Barber Shop, which has been owned for some time by a Lubbock party.

Mr. Bennett will move back here next week, and personally take charge of the shop, we understand. We are also informed that his wife will open up a beauty parlor in connection with the barber shop.

Mr. Lewis has lived here for years, and is engaged in the mercantile business.

NO CHOICE

Booth Tarkington, brilliant Hoosier author, creator of Penrod and his little colored accomplice, Sam, may or may not have created this tale—but it's about a Sam who has grown up—and landed in court. The judge was explaining the oath: "You understand, you swear to tell the truth, the whole truth, and nothing but the truth?" "Yassah." "You know what happens if you lie?" asked the court. "Yassah! Ah'll burn in hell fo'evah," replied Sam. "And if you tell the truth, what happens?" "Ah'll lose the case, jedge!"

GOOD DIPLOMACY

A guest of a small Southern hotel was awakened early one morning by a knock on his door. "What is it?" he called drowsily without getting up. "A telegram, Boss," responded a negro's voice. "Well, can't you shove it under the door without waking me up so early?" "No, Suh," the darky answered, with his mind on a tip, "it's on a tray."

The Herald, \$1.00 per year.

Harrell Hansen Shows Worm Eaten Corn

Our good Swedish-American friend Harrel Hansen, who lives south of Brownfield, had a sample of his corn here one day last week, and although it was good looking corn, and good stalks, both were more or less eaten by worm, which he was afraid was the borers that are giving so much trouble now in the corn belt of the north, and which seemed to have invaded us from Europe in the past years. The shucks and grain not only badly eaten, but the worms had eaten into almost if not all the joints of the stalk he had with him, and had practically eaten all the pith out of the stalk. Not only that, but they had absolutely killed off the possibility of a second ear by eating the pith out of the shoot.

The worms looked very much like the common cotton boll worm, being a greenish and grey striped worm, whereas, some who claim to know what the borer looks like informed Mr. Hansen that they were a blackish looking worm. We certainly hope we have not got the borer with us, for if he is half as bad as he is painted by experts, and he gets here in any quantities, goodbye corn for Terry county.

Speaking of corn, F. E. Walters was showing some very fine samples of well filled corn grown on his place south of Brownfield. They were all good average ears, about nine inches long, and Mr. Walters informed us that the samples were a fair average of a large field. However, Mr. Walters told us the weeds were waist high in the field, and that if his tenants had worked the corn liked it should have been worked, he would have gotten a thousand dollars to his part of the rent.

Showers Last Week and Also This Week

Rains amounting to probably more than a quarter inch fell in Terry county last week, and in some portions more rain was reported, which helped considerably to revive late feed and the cotton.

Sunday night another good shower amounting to about one-third inch fell here, and continued to drizzle during the forepart of the day, and was pretty cloudy all day. This was accompanied by a real norther that ran mercury down just about as fast as it takes to tell it, and Sunday afternoon and Monday, overcoats were much in evidence.

It is thought that the two rains will be more beneficial than detrimental, especially with late feed, and will also make the late corn fill out better. It will also have a good effect on providing winter pastures for the livestock.

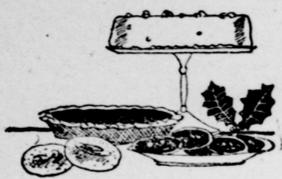

NOT CURED

It happened in Pre-Volstead Days. Two rather well-fixed Detroiters engaged in the same pursuit, namely an endeavor to drink up at least three-quarters of the liquor in the city. It also happened that both were afflicted with what is commonly known as the D. T.'s and that while recovering from these attacks they were in the habit of frequenting the same Gold Cure established in the northern part of the city on one of the principal thoroughfares.

Threatened with the usual symptoms, one of the men, whom we will call Brown, betook himself to the sanitarium. As he approached he met his friend coming down the steps. "Whash the matter?" he said, slushily. "Same old things?" "Yes," was the reply. "I just got through a terrible siege, but I'm all right now. I'm done. Never again! You may think I'm in bad shape, now but you should have seen me a few days ago. Why, for a solid week little purple lizards with green eyes and pink tails were crawling all over me."

Shrinking back in alarm with his eyes starting out of his head, Brown pointed a finger at his friend's coat lapel. "My God, man," he shouted. "You ain't well yet. There's one on you now."

The annual lumber cut of Texas is about 1,500,000,000 board feet in addition to 400,000,000 feet cut for ties, poles, etc.

QUESTION BOX

ON HEALTH Subjects Edited by
STATE DEPARTMENT of
HEALTH

J C Anderson MD State H.O

THIS column will be given to discussion of matters pertaining to public health. Any questions regarding public health administration, prevention of diseases, child care, sanitation, etc., will be answered in succeeding issues of this paper. Questions in regard to cure of diseases will not be answered, as the scope of this Department includes only disease prevention. Address Question Box, State Department of Health, Austin.

QUESTION

1. What is "spotted" fever? (M. E. L. Comfort)
2. What is the proper manner for walking? (J. A., Mission)
3. Does posture have any important bearing upon health?
4. What are the duties of a county health officer? (Inquirer)
5. Is it possible for my husband and I to have our births recorded? (Mrs. J. W., Honey Grove)
6. Does the state law require the reporting of births of still-born children? (A. J.)
7. Who are required to sign the death certificate of a person dying, and with whom is this certificate filed? (J. J. L. Celina)
8. Why is it that urban districts are now said to be more healthful than rural districts, when in years back, it was the other way? (Rural)

ANSWERS

1. What is known as Rocky Mountain "spotted" fever, is commonly called "tick" fever, and is transmitted by the wood tick, *Dermacentor venustus*. It is a dangerous disease, but is prevalent only in Northwestern states.
2. One's manner of walking will produce good or ill effects. "Toes out" is no longer the command to children, as it is the improper way of walking. Toes straight ahead will get one along faster and allow proper operation of the muscles of the legs. The Indian could walk all day and never tire. It is through the misuse of the foot, lack of exercise of the leg muscle, or the wearing of ill-fitting shoes that cause so much foot discomfort in the present day.
3. Yes. Holding the body erect with the chest thrown forward not only makes possible better breathing with more oxygen available to purify the blood, but also gives a constant mild exercise for all muscles of the trunk.
4. County health officers are required to see after health conditions in the county jails, poor farm, hospitals, discharge duties of required county quarantine, and perform such duties as prescribed for him under the regulations of the state department of health.
5. A number of parents are having their births recorded at the same time as that of their children. In an instance of this kind recently, a father and mother with their 13 children were all registered at the same time. Blank certificates with necessary instructions will be sent by this department to anyone upon request.
6. All still-born children of as much as 7 months gestation, must be reported as both births and deaths. A certificate of both birth and death must be filed with the local registrar in the usual form and manner.
7. A death certificate must be signed by the physician or official making the medical certificate; the informant; and the undertaker or

person acting as such.
8. The installation of modern water filtration and sewage plants in cities, the supervision of milk supplies, hospitalization, and other health facilities provided in our larger cities has given the urban districts, which as a whole, have not made much advancement in matters of sanitation.

OLD RECORDS THAT TELL OF AIRPLANE

Revelations in Ancient Irish Manuscript.

Some of the most thrilling results which have been brought to light in the deciphering of ancient manuscripts in the various libraries of Europe, Great Britain, and Ireland are those which contain romantic stories which indicate a foreshadowing of discoveries which we look upon as altogether the result of material development pertaining to the present era, says a writer in the Christian Science Monitor.

One of the most curious of these is the tale of the appearance of an airplane, the account of which was written between the years 944 and 956 A. D. in the reign of an Irish king named Congalach. The authenticity of the date of the manuscript is beyond question, and the description is as follows:

Congalach reigned in Meath, and was evidently given to farming pursuits, for the story goes on to tell of his one day attending a fair at a place now called Telltown, on the Meath blackwater, midway between the towns of Navan and Kells. While he was inspecting horses, for which that county is famous, a sound in the sky caused him, and all the people, to look up, and they beheld a large ship floating far above them.

It appeared to be fully equipped with a numerous, and evidently intelligent crew. After a time, in which the people in the fair gazed in silent wonder at the phenomenon, the hazy vessel gradually floated toward some clouds into which it entered, and the awe-struck crowds saw it no more. This same story is told with slight variations by the Norse documents named *Kongs Skugglo*.

Yet another tale is told in one of these Irish legends, in which the writer prophesies that a time would come when carriages without horses would run through the streets of Jerusalem.

These stories are, of course, mere legends of imagination but it is interesting to find them noted in documents of undoubted antiquity, and in local as well as in ancient runes and sagas; also that such shadows of the actualities of the Twentieth century should have emanated from the thoughts of people in the Tenth.

It would be interesting to understand the mental capacities, and the outlook of the persons who inspired such tales; and who thought them of sufficient importance to have them recorded on vellum.

Ancient Spelling

"Always wear a napron when eating a norange," may not meet with the approval of a modern proofreader, but two centuries ago "napron" and "norange" were correct. The change in spelling of these words is attributed to an error made by some one, who being unfamiliar with them, guessed at the proper place to put the letter "n"—and, guessed wrong. "Napron" had its derivation from "napkin" or "nap," while "norange" was the English spelling given the Spanish word, "naranja."

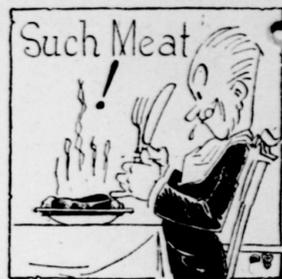

Immortal "Serenade"

Schubert wrote the "Serenade" to suit the words of a poem by Ludwig Rellstab. A number of Rellstab's poems were originally sent by their author to Beethoven, who declined to do anything with them because of the state of his health, but who recommended that they be turned over to Schubert. This was done after Beethoven's death. In 1828 Schubert wrote a number of fine songs, which were brought out after his death under the title of "Swan Songs." "Serenade" is No. 4 of the Swan Songs, which include six others written to Rellstab's words. Schubert was born January 31, 1797, and died November 19, 1828.

C. P. HARBEN PASSES AWAY

Carson P. Harben, 23, of Richardson, assistant secretary of the Texas Press Association, died at 10 o'clock Tuesday night at a Dallas hospital, after an illness of two years. Mr. Harben is survived by his parents, Mr. and Mrs. Sam P. Harben, of Richardson, and his grandparents, Dr. and Mrs. R. P. Harben, of Dallas. He attended the University of Texas, where he was a member of the Delta Tau Delta fraternity. He also was a member of the Masonic Lodge at Richardson and of the Dallas University Club. He was born in Richardson, May 21, 1904.

Funeral services will be held at 10 o'clock Thursday morning at the First Presbyterian Church of Richardson, with burial in Richardson Cemetery.

His father is secretary of the Texas Press Association and an executive committeeman of the Texas Pharmaceutical Association.

Jack Benton had the misfortune of having some hot steam shot into his eye out at the Kingsland well this week, which resulted in his having to wear a bandage over it for a few weeks.

Jessie D. Cox and family have moved to Lubbock in order that Miss Gadya may enter Tech College. This is a splendid family and Brownfield people will miss them.

Franklin Saw Day of Woman in Business

Although desiring a quiet life in his older years, Franklin could not retire. One political office after another sought him out. He tried his best to avert the Revolution, and his examination before the house of commons in February, 1766, marks the zenith of his intellectual powers.

In September, 1776, Franklin was appointed envoy to France and sailed soon afterward. Despite his seventy years, no other American could have accomplished the things he did. His reputation had preceded him to France. Great ladies sought his company; shopkeepers hung his portrait on their walls and the rabble worshipped him. Under Franklin's influence, money was loaned the struggling colonies. He won from France recognition of the United States and then the treaty of alliance. This was his last and most important work.

Biographers maintain that Franklin more than any other great American possessed the woman's viewpoint. Some even maintain that his great successes were achieved because of this quality; that the great French treaty might not have been brought about were it not for the homage paid the first civilized American by the great dames of Paris.

Certain it is that he was the means of starting the first American woman in business, and he was first in a movement that has changed the present-day life of 110,000,000 Americans.

Beauty in Distraction

A peculiarity of the Siamese dancing girls is the position of their fingers which are held at all times turned upward as much as possible. Not turned up to heaven, but turned the way opposite to the normal bend of the knuckles. This is considered very beautiful, and dancing girls spend long hours pressing their fingers against their knees to the point almost of dislocation in order to induce the desired back curve.—Adventure Magazine.

Usage Makes Difference

Some men fall where others are successful. The former regard as obstacles what the latter see as opportunities. This suggests that the real difference between stumbling blocks and stepping stones is in the way one may use them.—Get.

Soft Bed Saves Sleep

If you earn your living mainly by brain work, you can save at least two hours of rest every night by sleeping on a good, soft bed. Such is the conclusion reached by Dr. Donald A. Laird of the department of psychology, Colgate university, following a series of experiments with students. By measurements of mental reactions in terms of calories, says Popular Science Monthly, he found that a soft bed will build as much mental energy in six hours as a hard bed will build in eight.

China's Olympic Games

More than 3,000 years ago China had gladiators who met in a contest somewhat like the modern Olympic games. These gladiators amused and thrilled the crowds not only with fancy juggling, but with real encounters between champions, one defending himself with a scimitar while the challenger tried to plunge a long spear into his body. Their skill would hold the audience breathless. There is an effort on to revive these feats of skill and strength.

GAS SPOILED SLEEP.

MADE HER DIZZY

"For years I suffered from gas and constipation. Used to get headaches and dizzy spells. The first dose of Adlerika gave me relief. Now I rest well."—Mrs. B. Brinkley. Just ONE spoonful of Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowels and removes old waste matter you never thought was there. No matter what you have tried for your stomach, Adlerika will surprise you.—Alexander Drug Store

New Zealander Proud

of His Native Land

As soon as you arrive in Auckland, New Zealand, you feel the peculiar character of this most original of dominions: a blissful land where the 1,500,000 British settlers—for the other nationalities form only small and transient groups—are producing and exporting precious raw materials and engaging in sports of every conceivable kind, which they pursue with incredible verve and enthusiasm.

They are also fully convinced of their superiority to the rest of mankind and of the unique privilege they enjoy in living in these islands. They have their reasons down pat.

We must not smile at the questionaire to be filled before disembarking in New Zealand. In it you must promise before the Almighty to be good, to observe strictly the wise laws of the land, and, finally, to remember that the experience of spending even a brief period of your existence in these islands is something to be proud of for the rest of your life.

On making inquiries I learned that there is a little unemployment not, so be sure, because there is no work, but because the English inhabitants prefer to leave hard labor to people of other nationalities. The several hundred Italians here all find good employment in building railroads.—Armando Cipolla in La Stampa, Turin (Living Age).

Men Sought Means of

Flying Centuries Ago

Flying in motor-driven airplanes had its birth December 17, 1903, on the sand hills near Kitty Hawk, N. C., when Wilbur and Orville Wright achieved the first authenticated flight in a heavier-than-air machine, but flying was in the minds of men centuries before that.

The story of man's longing to fly comes down in hundreds of legends, mixed with fact, about individuals who flew and those who tried it and died. Probably the original flying legend is the Greek story about Daedalus, who made a pair of wings with which he flew, and his son, Icarus, who took them out one day and came to grief when he got so near the sun that the wax wings melted.

Giovanni Battista Danti, late in 1400, is said to have flown across the Piazza of Perugia, Italy, in what seems to have been an authentic glider. It was about this time that Leonardo da Vinci began to study the possibilities of flight from the scientific angle and made a helicopter of paper, wire and springs that really lifted itself. Following this there were numerous experiments with gliders, some of them successful, but not until 1903 did the motor-driven plane conquer the air.—Milwaukee Journal.

Big Feet Caused Downfall

Difficulty in obtaining a pair of boots large enough for his feet led to the downfall of Rocky Whelan, once notorious bushranger of Tasmania. Rocky worked alone and had a nasty habit of shooting wayfarers in the back. He acquired his wardrobe by the simple process of taking whatever articles of clothing he needed from his victims. But he had very large feet and was unable to get a fit in his usual manner. So he went into a bootmaker's shop to buy a pair. A constable who had seen him in another part of the country spotted him as he entered the shop and followed, effecting a capture just as the outlaw was trying on a pair of boots. Whelan was executed a few days later on the gallows.—Sydney Bulletin.

Old Man in Picture

Rather Out of Place

A landscape artist sold a picture to a wealthy woman. The latter soon became tired of it, because, she declared, it lacked animation. So she sent for another artist and asked him to paint a man or woman on the road that ran through the middle of the painting.

"The artist did so, and when he met the man who had painted the original work he told him what he had done.

"I had the temerity to alter a landscape of yours the other day," he said. "It was one you sold to Mrs. Jones. She wanted a figure painted in, so I added an old man walking down the road."

"Road? What road? There's no road in that picture!"

"Why, yes, there is," said the other. "A road runs through the middle of the canvas."

"Why," cried the first artist, indignantly, "that's not a road! That's a river!"

BUICK

for 1928

One Glance tells the story

In Buick for 1928, everything you want to know about your car's performance—every indicator and dial—is before you, indirectly lighted under glass.

Buick today offers greater beauty, luxury, and comfort than ever before—greater speed and power with quicker getaway. See the car that surpasses all others in popularity—and in value.

McKINNEY MAN RULES

BATTLESHIP TEXAS

Admiral H. A. Wiley, United States Navy, hoisted his four-star flag of Commander in Chief of the United States fleet at the mainmast of the newly modernized Battleship Texas last Thursday. He is a Texas man, having been born and reared in McKinney, going through the elementary schools there. He succeeds Admiral Charles F. Hughes both as commander-in-chief and has the rehabilitated Texas as flagship.

The Battleship Texas recently underwent an extensive overhauling, during which she was converted from a coal to an oil-burning ship. Additional deck protection against aerial attack, bilges against underwater bomb and torpedo attack and new masts and fire control systems were some of the changes made, the cost totaling \$2,000,000.

This marks the passing of the last coal-burning ship in the combative forces of the American Navy.

The Cruiser Seattle, the late flagship, is to relieve the Pueblo as receiving ship at New York, the Pueblo to be placed out of commission.

A Texas man, now commander in

chief of the United States fleet, will sail from New York Oct. 6 on the flagship bearing the name of the State of his nativity. The Texas will go through the Panama Canal and join the Pacific fleet in its maneuvers.

Dr. H. H. Hughes, dentist, has recently returned from Kansas City, where he took a post graduate course on the very latest methods of dental surgery.

B. F. Knoll left a few days ago with his aged mother to visit his only brother, who resides at Wellington, Texas.

Bonnie Knoll, who has been ill for some time has recovered sufficiently to assume his duties as superintendent of the Tokio schools. His wife will also teach in the Tokio schools.

Mr. and Mrs. W. E. Parnell, of Santa Anna, Calif., who have been here visiting their parents, Mr. and Mrs. J. B. Parnell and Mr. and Mrs. J. J. Whitley, paid the Herald a short call Saturday, as they are regular readers of the Herald in their California home. Mrs. Parnell's maiden name was Essie Lee Whitley.

FOR SALE—Ford truck in good shape; good tires all around; good steel cab and body. B. S. Westbrook, 4 miles north and 4 west. 9-30p.

FOR RENT:—Two improved places, one of 200 acres, other of 320, situated 15 miles southeast Brownfield. For information apply at First National Bank, city, or owner Gus Pollard.

Official paper of Terry County.

Sombody (not an enemy, if we have any) left a sack of fine roasting ears and two half gallon jars of good old thick buttermilk at the editors home while the family were away recently. Wonder who knows so much about what this family likes? We have our suspicions. They are welcome any time.

A local speaker told the Lubbock visitors ast Friday that Lubbock was principally noted in Brownfield as the place where the Tech is, and also the place where we go to have our appendages cut out. He might have added that it is also the place where we get parts to our off brand automobiles.

We are no longer gassing about that natural gas business. The real stuff is now on the way to Brownfield. Then, just let those Catinanni sounding miners strike if they want to. Who'll care, so far as the town people are concerned, and most of the farmers have mesquite grubs and cow chips a plenty.

We wish to see our merchants advertise not alone from a selfish viewpoint, but also because it will pay them, and because it will help to keep just that much money at home and in circulation that goes to mail order houses. We hope they make dollars for each penny they spend with us.

We are glad to welcome school news from the pupils, and hope they will continue them throughout the term, for even a school or church can be helped by publicity. Publicity never hurt any legitimate firm or institution. We have often heard of pitiless publicity, but don't exactly like the term as it verges on something near revenge, it seems to us. But regular and well directed publicity is a modern essential to individuals as well as institutions.

Did you ever see a fellow whose life motto seemed to be "Get all you can and keep all you get?" His species is gradually becoming less numerous, and, in the providence of God, may some day become extinct. He is usually a self satisfied wiseacre, who admits, by influence at least, that he is the wisest and best man in his community. He is in favor of only such progress as originates with himself. If he differs

from you, the chances are that he hates you. There will be no book written on how to preserve his kind. —Merkel Mail.

Mr. J. C. Barton, Supt. Slaton Division of the Santa Fe, was down this week, and paid the business men a call. Mr. Barton is proving to be a very popular superintendent with our people.

NOTICE OF BIDS WANTED

The State of Texas, County of Terry.

Notice is hereby given, that the Union Independent School District at its October meeting, A. D. 1927, the same being the 12th day of October A. D. 1927 will receive proposals from any Banking Corporation, Association or Individual Banker, in said Terry County, that may desire to be selected as the Depository of the Funds of said Union Independent School District.

Any banking corporation, Association or Individual Banker in Terry County, desiring to bid shall deliver to T. C. Garner, President of said Board of Trustees on or before 2 o'clock P. M. on the 12th day of October A. D. 1927, a sealed proposal stating the rate of interest that said banking corporation, association, or individual banker offers to pay on the daily balances of the funds of said Union Independent School District payable every 30 days, for the term between the date of such bid and the next regular time for the selection of a Depository.

Said proposal shall be accompanied by a certified check for not less than \$100.00 as a guarantee of the good faith on the part of the bidder, and that if his or its bid should be accepted he will enter into a bond as provided by Article 2771 of the revised Civil Statutes of the State of Texas for 1925; and upon the failure of the Banking Corporation, Association or Individual Banker that may be selected as such depository, to give bond as required by law, the amount of such certified check shall go to the Union Independent School District as liquidated damages, and the said Board of Trustees shall readvertise for bids. Said Board of Trustees reserves the right to reject any and all bids.

Given under our hands at Brownfield, Texas, this the 22nd day of September A. D. 1927.

T. C. Garner, President of Union Independent School District Trustees.

Attest: J. A. Drennan, Secretary of said Board. (10-7.)

SHERIFF'S SALE

The State of Texas, County of Terry.

T. E. L. CLUB ENTERTAINED

Thursday, September 8, Mrs. Arthur Sawyer entertained the T. E. L. Club with a Forty Two and slumber party. Luncheon consisting of fried chicken, creamed potatoes and English peas, pickles, sweet potatoes, fruit salad, hot rolls, Perkin's pie, ice cream and cake was served at six-thirty. The guests stayed awake the entire night, playing Forty Two and eating watermelons. High score prize, a beautiful vase went to Miss Lela Mae McPherson; low, a dainty apron to Miss Cordia Mae Shepherd. The guests enjoying this hospitality were Misses Mae Holgate, Pauline Hancock, Cordia Mae Shepherd, Rebecca May, Lucile Jones, Lela Mae McPherson, Doris Bandy and Queenelle Sawyer.

DINNER PARTY AT MRS. KRUEGER'S.

Mrs. Krueger entertained a number of Brownfield people at her country home, Tuesday with a six o'clock dinner and Forty Two party. A sumptuous dinner was spread on the lawn, picnic style. After dinner Forty Two was played and again ice cream and cake was served. Mrs. H. W. McSpadden won ladies high score prize, a hand embroidered linen buffet set; Mrs. Collins, low, hand-embroidered pongee handkerchief. Mr. Collins won gentleman's high score, silk hose and Bill Collins won low, handkerchief.

MRS. FAGALA HOSTESS TO I-DEAL KLUB.

Mrs. O. W. Fagala was hostess to the Idea Klub Wednesday afternoon at four o'clock. Bridge was played with Mrs. Leo Homes getting high score. Mrs. Sawyer, Mrs. Endersen and Mrs. Holmes received small vases as table favors. Cherry pie a la mode and punch was served to Mes. W. C. Smith, Leo Holmes, Ike Bailey, Michie, Collins, Arthur Sawyer, DuBois, R. L. Hariss, Henry Alexander, Endersen, Flem McSpadden and Miss Violet McBurnett.

1927 BRIDGE CLUB ENTERTAINED BY MRS. BALDWIN.

Friday afternoon at four o'clock, the 1927 Bridge Club was graciously entertained by Mrs. Baldwin. Mrs. Homer Winston received the high cut prize, a linen luncheon set and Mrs. Chester Gore received low, a georgette handkerchief. Frozen fruit with whipped cream and Angel Food cake was served to the following club members and guests: Mes. Jack Holt, Fred Smith, McBurnett, Dalton Lewis, Gore, Winston, Coleman, Michie, Miller, King, Fem McSpadden, Hurst, Hamilton and W. C. Smith.

Miss Aline Philips who taught expression in Brownfield schools last year has gone to Slaton to teach. We regret very much to give up Miss Philips.

Mr. and Mrs. Wayne Rutherford and children of Ralis spent Sunday in the home of Mr. and Mrs. A. W. Endersen.

Miss Sallie Mae Markham is leaving for Lubbock where she will enter the Tech.

Miss Anna Belle Scuddy is leaving this week for a visit in Alpine.

BIRTHDAY PARTY FOR LUCILLE McSPADDEN.

Mrs. Flem McSpadden entertained Saturday morning from nine to eleven with a birthday party, celebrating the seventh birthday of her daughter, Lucile. Sandwiches, potato chips, punch and stick candy were served. The young folks had a thoroughly good time and wished Miss Lucile many more birthdays. Those present were Thelda and Virginia May, Queenelle Sawyer, Eunice Michie, Margaret and Kathaleene Alexander, Wanda Graham, Mattie Jo Gracey, Von D and Elray Lewis, Ora D. Eiche, Ima George Warren and Masters Lucian Greenfield and Bud Endersen.

The Presbyterian Missionary Society met Monday afternoon at four thirty, with Mrs. Flem McSpadden. The topic of discussion was "Why We Need to Study the Bible." Members present were Mes. Ellington, Earl Alexander, Tom May, Griffin, Miller, John King and J. E. Shelton.

S. S. S. CLUB MEET WITH MRS. MARKHAM.

Mrs. John Markham was hostess to the S. S. S. Club, Monday afternoon at four o'clock. Forty Two was played. Each member brought a "Sunshine Gift." These gifts were numbered and drawn. The colors of red and white were carried out in the refreshments of sandwiches, hot chocolate, jello with whipped cream and cake. The guests were Misses Lillie Mae Bailey, Lena Mae Ballard, Lois Adams, Lou Ellen Brown, Mary Kathryn Anthony, Ruth Hill, Voncile Hogate, Sallie Mae Markham, Anna Belle Scuddy and Gladys Kendrick.

BRIDGE PARTY HONORS MRS. NOBLES.

Mrs. Nobles, of Hamlin, was honored with a bridge party. Tuesday afternoon by her sister, Mrs. W. H. Collins. The high score prize, a pair of silk hose, was won by Mrs. W. A. Bell and Mrs. Michie who awarded the consolation, towels. The honoree was presented with silk underwear. A delicious one plate luncheon was served to the following ladies, Meses: Shelton, A. M. Brownfield, W. A. Bell, McBurnett, Miller, Earl Alexander, Endersen, Michie Sawyer, Flem McSpadden, Bowers Holmes, Fagala, Self, W. C. Smith, Fred Smith, May, McDuffie, King Bailey, Gracey, Hudgens, Knight, Henry Alexander, DuBois, Kendrick and the honoree.

Mrs. H. W. McSpadden is visiting her sister in Jacksboro.

NIGHT CLUB ENTERTAINED

The Night Club was entertained Tuesday evening at eight, by Mr. and Mrs. W. A. Bell. Bridge was played with high score going to Mrs. Endersen and Mr. McBurnett. Mrs. Endersen received a box of Armond's Bath Powder and Mr. McBurnett, a pen wiper, a souvenir from Cloudcroft. Ice cream with pineapple and Angel Food cake was served. The members and guests present were Mr. and Mrs. Joe McGowan, Mr. and Mrs. Toom May, Mr. and Mrs. Jim Miller, Mr. and Mrs. A. W. Endersen, Dr. and Mrs. DuBois, Mr. and Mrs. R. L. Bowers, Mr. and Mrs. Leo Homes, Mr. and Mrs. A. M. Brownfield, Mr. and Mrs. Ray Brownfield, Mr. and Mrs. Michie, Mr. and Mrs. McBurnett and Mrs. W. H. Collins and Mrs. Nobles of Hamlin.

Baby Clyde Dallas, who was real sick Tuesday is feeling better.

S. S. CLASS ENJOYS PICNIC

Mrs. Dalton Lewis' Sunday School class enjoyed a delightful afternoon at the Sand Hills, Tuesday. The class left for the Sand Hills immediately after school. A camp fire supper of bacon, eggs and potatoes followed by ice cream and cake was heartily participated in by all. The class stayed 'till dark and said they had had the best time of their lives. Class members enjoying this picnic were Emory Longbrake, Melba Cornelius, Velma McClish, Lataine Eiche, Mary Handley Endersen, Opal Redding, Denison Cook, Dell Smith, John Chisholm, Maurice Thompson, Nettie Thompson and R. L. Lewis. Special guests were Mrs. McClish, Martha McClish, Dora Dean Neil and Otis Longbrake.

SOPHOMORE CLASS ORGANIZES

The Sophomore class met Tuesday afternoon and elected their sponsor and the following class officers for the school term 1927-28.

Sponsor, Mr. Taylor; President, Blanche Williamson; Vice-Pres., Doris Bandy; Sec.-Treas., Ollie Hancock, Reporter, Vivien Eubank.

Miss Lucy Drury, employee at the Santa Fe station has returned from her two weeks vacation, spent in Houston and Galveston.

Mr. and Mrs. E. B. Carter of Anton, are here visiting their son and family, Ralph Carter, manager of the Chevrolet Co.

Mrs. Ed Spear was a Lubbock visitor Sunday afternoon to hear Gov. Dan Moody speak at the Tech. Mrs. Eula Emith and E. B. Smith of Gomez were also among those from this county who went to hear the Governor that day.

We are sorry to report Mrs. J. C. Green on the sick list this week.

the church's progress.

E. V. May, Acting Pastor.

TO THE MEMBERS OF THE GOMEZ BAPTIST CHURCH

There will be preaching at the Baptist church, Gomez, next Sunday afternoon at 4 o'clock. Every member of the church is urged to be present. After the service, there is to be an important conference meeting, to discuss some matters pertaining to

A. P. Moore, popular Gomez merchant, had business in Brownfield, Monday.

Miss Olga Fitzgerald, of this city, underwent an operation for appendicitis at Amarillo last week, and is reported by her brother, J. W. who attended the operation to be doing nicely.

Standards Vary as to Man's Hours of Sleep

An older school of moralists, and possibly an older school of doctors, would have been gravely shocked by the suggestion, just made by an expert in mental diseases, that even eight hours' sleep a day is not necessarily enough for a man.

"Eight for a man, nine for a woman and ten for a fool," was given by Sir Robert Armstrong Jones in his lecture to the Medical society of London as the old standard, but he added that he would reverse the order and give ten to the men.

Even the lecturer's version of the old standard seems more generous than the facts; not eight hours' sleep but seven was definitely laid down in the famous health rules of Salerno, and enough for either a young man or an old one, and some ancient authorities were ready to brand as sluggard the man who slept for longer than six hours out of twenty-four. Indeed, to judge by its proverbs and precepts the world of three or four hundred years ago was constantly at war with the sluggards, and forever maintaining a stiff fight against the undue claims of sleep.

Here and there an isolated hero like Sancho Panza stands up to praise sleep and its inventor, or the Venetians produce a proverb which recommends slumber as a sort of medicine, but in general both doctors of medicine and divinity seem to have agreed that sleep was the enemy of their age. Like the Dormouse at the Mad Hatter's tea party, the public at large was always being well shaken and told to cast off dull sloth and joyful rise.

The picture is the more curious because so little is heard of such rebukes today; though we are fiercely warned by our medical advisers not to do many things, from overeating to underexercising, we are hardly ever expected to refrain from oversleeping. It is the one possible excess which no one bothers to rebuke; and here one eminent authority boldly declares that five-twelfths of the whole day may be spent in sleeping without reproach. Are we, then, so active that we need urging to slumber? And were our forefathers so sleepy that only the constant thunder of the sages could keep them awake? Strange as these conclusions seem, the facts appear to justify them.

Early "Sunday Closing"

The Sunday closing of saloons got its first impetus from Peter Stuyvesant, governor of New Amsterdam, about the middle of the Seventeenth century, when he forbade the sale of intoxicants on the Sabbath day until after preaching.

In those days the town was dotted with taverns. It has been estimated that a fourth of the buildings were devoted to the sale of brandy, tobacco and beer. Some of the places had become nothing more than fight clubs, with a brawl every night. Stuyvesant bent on cleaning up the town, ordered that no new taverns should be licensed except by the unanimous consent of the town's officials. He also ordered the proprietors to occupy decent houses, report all brawls, and stop selling liquor to the savages, who were given to getting full of "firewater" and testing their lung power and their tomahawks in the public streets.

Jewels in Watches

Watches do not have even numbers of jewels. If a watch has 23 jewels, then the going band or center wheel and third wheel, the fourth wheel the escape wheel, the lever and the balance have a whole jewel at each arbor, which make 14. The balance, the lever and the escape wheel have end stones as well, which make 6 more. Then there are 3 jewels in the escapement, which make 23. If the movement has 21 jewels, then the hole jewels of the going barrel have been omitted. If 19, the end stones of the escapement wheel have been omitted also. If the watch has only 7 jewels, they usually consist of the 3 escapement jewels and 2 end stones for the balance arbor.

WHY SHOULD WE EAT MORE HONEY?

Eugene Holloway writing in a prominent agricultural journal says: "My son eat thou honey, because it is good; and the honey-comb, which is sweet to thy taste." Proverbs, 24-13.

Formerly honey was the principal sweet, and it was one of the items sent as a propitiatory offering by Jacob to his unrecognized son, the chief ruler of Egypt, 3,000 years before the first sugar refinery was built.

Any good physician will tell you that honey is much easier on the digestive system than is granulated sugar, but Dr. G. N. W. Thomas, M. B., Ch. B., of Edinburgh, Scotland, goes still farther and states that honey is of great aid in the treating of heart disease. Below is an extract from an article by the doctor, which appeared in a recent issue of *Pharmaceutical Advance*, a magazine going to 228,000 druggists and physicians of this country.

It has been said that the main role of carbohydrates in metabolism is to provide fuel for muscular energy. I desire to call attention to the great value, which I believe it to have, of honey as a restorative in health and

sickness.

"When muscular energy is required and particularly after emotional stimulation of the sympathetic nervous system, there is found to be an increase of sugar in the blood. The various sugars found in the body may be classified among the mono or the poly-sacchariides: Glycogen belong to the latter group, and is apparently a storage product in muscles as well as in the liver. The energizing effect of sugar on muscular effort has been proved by Schumberg's experiments with the Ergograph. Muscles in action, it has been computed, can consume three-and-a-half times as much sugar as muscle at rest. Startling found that the normal heart used up sugar at the rate of about four milligrams per grams of heart per hour. Nectar, which bees collect from various flowers, contains a special sugar which undergoes some change to honey.

"The question is whether honey does contain some special vitamins and if boiling destroys certain vitamins, then presuming honey contains vitamins, there is an advantage in honey over commercial sugar. If sugar, and pre-eminently sugar, be the most potent fuel to provide energy for the muscles, should we not remember to give it for that all-important and most vital muscle—the heart—which gets no complete physical rest until 'the tale is told'?"

"In severe cases of malnutrition with heart weakness, I have found honey to have had a marked effect in reviving the heart action, and keeping the patient alive, and I had further evidence of this in a recent case of pneumonia.

"The patient consumed two pounds of honey during the illness; there was an early crisis with no subsequent rise of temperature, and, an exceptionally good pulse. Instead of depending on milk and beef extracts, as is done in so many cases of fever when the storage of sugar in the body is rapidly being used up, I suggest that honey should be given for general physical repair, and above all, for heart failure."

In a book "The Lazy Colon," published by the Educational Press, and written by Charles M. Campbell, associated with Albert R. Detwiller, M. D., of New York, the following statement:

"Grape sugar, such as that of honey, raisins, figs, fruit, and malt sugar, is wholesome. Comb honey is laxative. Some persons well known to Weber (Sir Herman Weber) ascribed their good health to the regular use of honey at breakfast. Comb honey was largely used by the ancients. Many people who eat large quantities of cane sugar especially with cereals, where it often develops fermentation, will be surprised to know that if grape sugar

and fruit sugar are introduced into the blood they can be directly utilized by the body, whereas cane sugar when so injected is useless. When eaten it may be changed into grape sugar before it can be utilized by the body.

"Genuine honey is a food like none other; the sugars in it are directly assimilable. It imparts to the human anatomy more full value than meat or eggs. The energy or fuel value of an egg is eighty-three calories, while an ounce of honey furnishes ninety-five calories. An analysis shows that while cane sugar contains no lime or iron, honey has 6.70 per cent of lime and 1.20 per cent of iron.

Why we sell the DUNLOP TIRE

FOR 39 YEARS Dunlop has been building the world's supreme tire. Dunlops wear longer because Dunlop knows how to build better at each vital point.

Take the hidden carcass beneath the tread. Dunlop owns its own cotton mills for no other purpose than to spin the best long-fibre cotton into the famous cable-twist cord that goes into this carcass.

The extra strength in these cords means an added factor of safety against constant load and pounding of roads—longer life and greater mileage.

The extra "stretch" enables the carcass to give under severe blows, and to come back into its original position without internal injury.

The Dunlop tread—the toughest rubber development known—wears slowly and smoothly, making sure that you get out of your Dunlops, all the extra mileage that added care and longer experience have built into them. We recommend that you put Dunlops on your car.

DUNLOP

FOUNDERS OF THE PNEUMATIC TIRE INDUSTRY

Bernard Thompson and wife, of Nashville, Tenn., are here visiting Harris Variety Store, left this week his parents, Mr. and Mrs. B. L. Thompson, for Dallas and Fort Worth markets to purchase holiday goods.

C. H. Hester and two sons, Heard and Virgil, left last week for Frost and Corsicana for several weeks stay, that being their old home before moving here. They report hot weather down there.

Miss Nelle Flache has accepted a position with the Copeland Dry Goods Co., as clerk.

We wish to thank G. N. Couchman for renewal to the Herald recently.

Elmer Swan came down this week to visit with his brother and old friends. Elmer spent the greater part of this year in California and Colorado, in the shipping departments of vegetable concerns.

Mr. and Mrs. Raleigh Martin, of Lubbock, spent Sunday night here on their way to Roswell, and took in the Dunn meeting.

Mr. and Mrs. Banks, of Meadow, accompanied by Mr. and Mrs. Renfro, were here Sunday attending the Dunn revival, and spent the time in the home of Mrs. W. W. Ditto and family, as Mrs. Banks and Mrs. Ditto are old school mates.

The city council of Crosbyton have let the contract for a sewerage system.

A. L. Turner, formerly of Brownfield, but now of Seagraves, was here Wednesday and informed the Herald that he was opening up his wagon yard just west of the Santa Fe depot for the fall and winter.

Mrs. C. R. Baldwin received a wire from Clarendon, Texas, Tuesday morning, stating that her mother was dead. Her mother has been ill for some time, and Mrs. Baldwin has spent several weeks with her lately. Mr. and Mrs. Baldwin left at once to attend the funeral. They have the sincere sympathy of their many friends in Brownfield.

Cecil Smith, local manager of the Higginbotham-Bartlett Co., here attended the funeral of the district manager of the firm, Mr. L. C. Tatum, 45, of Lubbock, last week. He died Friday following an operation and was buried Sunday afternoon in the Lubbock cemetery following funeral services at the Lubbock Methodist church.

Lloyd Greathouse brought in a bowl this week that did not belong to him, that was put in their box at the dinner at the tabernacle Sunday. He also says some one accidentally got their large platter. Who has it, and who owns the bowl. Call at Herald.

Rotan—Rotan is planning a sewer system to cost \$75,000.

Cherish Happy Thoughts

That which we allow our minds to dwell upon determines largely our reaction of progress as well as character and extent of that progress. If you would be happy, turn away from your ill feelings to happy thoughts.—Clayton C. Cooper.

Fearsome African Curse

Priestesses who are credited with the power of destroying their enemies by cursing at them are regarded with great awe by one of the native tribes in central Africa.

ORDINANCE NO. 310

Be it ordained by the City Council of the City of Brownfield, Texas,

An ordinance granting a franchise and certain privileges to the WEST TEXAS GAS COMPANY (a corporation), with its principal offices in the City of Amarillo, Potter County, Texas, and establishing rules and regulations for the use of natural gas for light, heat and power, and establishing a maximum limit for price to be charged for such gas.

Whereas, the West Texas Gas Company (a corporation) has applied to the Mayor and City Council of the City of Brownfield, Texas, to grant said company the right to lay and maintain and operate a gas plant for the distribution of natural gas for light, heat and power within the City of Brownfield, Texas, upon the following terms and conditions and reservations, such rights and franchises to be as follows, to-wit:

Section 1. That the right to furnish, distribute and sell natural gas for light, heat and power, for all such purposes for which gas may be used within the City of Brownfield, Texas, for a period of twenty years from the date of the passage and approval of this ordinance is hereby granted to the West Texas Gas Company (a corporation) its successors and assigns, hereinafter called the grantee, subject however, to the provisions hereinafter incorporated in this ordinance and for such additional period or extensions of time as may at the expiration of said term of years, and upon conditions then found to be satisfactory to the officials of the City of Brownfield, and to this grantee, and provided that this ordinance and franchise is to be in effect and run from and after the day and date of its passage and approval.

Section 2. That the said grantee is to have the right to lay mains, pipes and equipment, and to construct such building and install such machinery and equipment and to sell or lease such equipment to the citizens of Brownfield, Texas, as may be necessary or advisable in their judgement for the proper performance of the service to be rendered to the City of Brownfield, and to its inhabitants and citizens to the best interest of the gas consumers and to have, at all times, access to the streets and alleys

of said city for the purpose of laying such mains, pipes and equipment as may be needed from time to time during the term of this franchise, or any extension thereof, provided, that at no time shall the grantee obstruct the streets or alleys so as to interfere with the public use thereof for a period longer than twenty-four (24) hours, and that immediately such mains, pipes or equipment is laid and tested same shall be covered and such streets or alleys shall be replaced in the same or as good condition as before such work was done.

All excavations to be properly guarded by barriers by day and by red lights by night, and the said grantee shall hold the said City of Brownfield harmless from any and all damages to persons or property resulting from their negligence in the manner of constructing such distributing plant or system; guarding the same while under construction, by good and sufficient bond executed by the grantee and some reputable surety company permitted to do business in the state of Texas, in the penal sum of Twenty-five Thousand Dollars (\$25,000.00).

The work done in connection with the construction, maintenance and operation of said plant and transmission, transportation and distributing system, and the location of regulating stations, vent pipes, gate valves, gauges, stock boxes, manholes, low, intermediate and high pressure mains, pipes, feeders, service pipes and conduits, and service pipe extensions, and all appurtenances in the streets, highways, alleys and other public places in the City shall be subject to and governed by the regulations, rules and ordinances now in force or that may be hereafter lawfully adopted.

Section 3. That all mains shall be laid at least eighteen (18) inches below the surface of the ground, and so laid as not to interfere in any manner with water mains or pipes or sewer line of said City, or pipes or conduits of other utilities already installed; and that connections with the gas mains and pipes shall be placed and laid to the property line of the consumer at the expense of grantee. That the grantee shall not be required to extend main lines more than one hundred and fifty (150) feet to any one consumer.

Section 4. That said grantee shall at all times after said gas distribution system has been established and placed in operation, be prepared to furnish said city and its inhabitants with a good quality of gas for light, heat and power, and other purposes, and said grantee shall furnish said gas for all purposes for which same may be used in sufficient quantities to supply the needs of the said city and its citizens.

The said gas shall be furnished to said City and its inhabitants for domestic use at a net price not to exceed sixty-seven and one-half (67 1/2) cents per thousand cubic feet for all gas used; provided, however, that gas used for heating public buildings, churches, hotels and apartments shall be sold at the following rates:

For the first 50,000 cubic feet used per month, 67 1/2 cents per M.

For the next 150,000 cubic feet used per month 50 cents per M.

For all used in excess of 150,000 cubic feet per month 40 cents per M.

That the maximum rate for industrial gas shall not exceed the rate set out in the following schedule:

For the first 50,000 cubic feet used per month 45 cents per M.

For the next 150,000 cubic feet used per month 35 cents per M.

For the next 300,000 cubic feet used per month 30 cents per M.

For the next 500,000 cubic feet used per month 25 cents per M.

For the next 10,000,000 cubic feet used per month 22 1/2 cents per M.

For the next 20,000,000 cubic feet used per month 20 cents per M.

For the next 29,000,000 cubic feet used per month 18 cents per M.

For the next 60,000,000 cubic feet used per month 16 1/2 cents per M.

For all above 120,000,000 cubic feet used per month 15 cents per M.

That the above rates are to be charged for gas used through one meter only.

That all bills shall be due and payable monthly, and within ten days from date rendered, and in case of default or non-payment within said time, the grantee shall have the right to discontinue service to said consumer, and to make an additional charge for the gas used for any purpose equal to one-ninth (1/9) of the bill rendered. And in case said consumer shall make application to have service re-established and gas reconnected with his premises, he shall be required to pay all delinquent bills, together with the penalty thereon, and to pay a cut-on charge not to exceed \$1.50 for domestic use and heating purposes, and \$2.50 for industrial use. It is further provided that the grantee shall be allowed to make a minimum charge of \$1.50 per month for gas for domestic and heating service and \$2.50 per month for industrial gas service.

All gas furnished or supplied by grantee shall be metered, and for this purpose the grantee shall, at its own cost and expense, provide and install for each consumer a good and accurate meter of standard make. Grantee shall also provide and maintain at its proper cost and expense facilities for testing gas meters, and said grantee shall also provide and maintain, at its own expense a standard meter prover of not less than five cubic feet capacity, equipped with suitable thermometers and other necessary accessories which shall be maintained to the accepted standard of accuracy, all to be to the satisfaction and approved by the City Council.

Such meters shall be and remain the property of said grantee, and the grantee shall have the right to require the customer or consumer to deposit with it a sum equal to the minimum monthly bill to the consumer, provided, however, that no deposit shall be in a less sum than \$10.00 for domestic meter, and \$15.00 for industrial meter.

Section 5. The natural gas to be furnished hereunder shall be at all times kept to a standard of eight hundred British thermal heat units or higher per cubic foot at the point of

consumption, at a temperature of thirty-two degrees Fahrenheit, or zero Centigrade; and to determine whether the gas supplied is of heating value above specified the City of Brownfield may have tests made by a competent analyst under recognized and scientific processes, according to the approved method of making such tests, and said tests shall be from samples of gas collected from the grantee's mains at any point or points within the City. If the result of such tests show that during a month the daily average of gas supplied was below eight hundred British thermal heat units, then there shall be deducted from the customer's bills for gas during such month a proportionate amount, based upon the deficiency below said eight hundred British thermal heat units. In any month when such tests are being made, the City shall advise the grantee of the results of each test within a reasonable time after it is made, and the official report of such analyst, of which said grantee is so advised, shall be taken and accepted as the agreed prima facie correct test of the heating value of the gas furnished during such month and thereafter until a different result is determined or ascertained in a similar manner; said grantee shall furnish gas to consumers at a pressure of not less than four ounces, nor greater than eight ounces, measured at the consumer's meter outlet.

Said grantee shall supply and install not less than one and as many as may be needed approved self-registering pressure and gas gauge, capable of recording the pressure of the gas, in the mains at points in the city designated by the City Council and said self-registering pressure gauge shall be placed at a station which in the opinion of the City Council fairly represents the pressure on adjacent territory; and said station shall be securely enclosed under lock and duplicate keys to said station shall be retained by the City Manager, or some officer authorized by the City Council; and such self-registering pressure gauge shall be equipped with removable recording dials to record the pressure, and the said City Manager, or some representative authorized by the City Council, shall remove or cause to be removed from said pressure gauge the pressure records of the preceding period, and provide the gauge with recording blanks for the next period during which such record is desired by the city; and each record taken from such pressure gauge shall be filed in the office of the City Secretary of the City of Brownfield, and a record thereafter to be entered upon the books of the City by the City Secretary; and the said City Manager, or some representative authorized by said City Council shall keep self-registering dials in said pressure gauge continuously for a month, or as often as is required by the City Council and the said gauge record and the said book record shall each be competent and prima facie proof of the pressure at the point at which such record was made at the time as shown by said gauge record.

Each consumer of gas shall install and maintain suitable piping within his property lines and suitable appliances and fixtures, except meters, subject to the approval of the City Council or such supervisor, inspector or other representative as may be authorized by said City Council to pass upon the same.

Section 6. The City reserves the right to lay and permit to be laid electric conduits, water and other pipe lines or cables, and to do and permit to be done any underground work that may be deemed necessary or proper by the City Council, in, across, along or under any street, alley, highway, or other public place occupied by the grantee; and whenever, by reason of change in the grade of any street, or in the location or manner of constructing any water pipes, electric conduits, sewer or any other underground structure, it may be deemed necessary by the City Council to alter, change, adapt or conform gas mains and service pipes of grantee, such alterations or changes shall be made by the grantee when ordered in writing by the City Council or any supervisor or other representative of the City Council so authorized to act, without any claim for re-imbursements for damages against the city; said grantee shall indemnify and save harmless the City of Brownfield, from any and all claims for injury or damage to persons or property occasioned by or arising out of the construction, maintenance, operation or repair of said grantee's transmission, transportation and distributing system, and by the conduct of the business in the City.

Section 7. The right to use the streets, alleys, highways and public ways or places of the City of Brownfield by the grantee, as provided in section two above, shall be and is subject to the following restrictions, limitations and conditions, viz: that in building additional mains or lines of pipe, said grantee shall build and construct the same along and under the alleys, where alleys exist, rather than along and under streets, and shall only use the streets for same insofar as may be necessary in connecting from one alley to another; and said mains and pipe line shall be placed below the surface of the street or alley and so as to protect all paving, wire, cables, water pipes, underground wires or sewer laterals, and shall be so constructed and located with reference to water lines and sewer mains as not to interfere therewith, and under the direction and to the satisfaction of the City Council or the City Engineer.

Section 8. That the City Council hereby reserves the right to install at the point where said grantee receives its gas for distribution in the City a meter through which all gas for distribution to the City and its inhabitants shall be passed an adequate self-registering pressure gauge adequate to record the amount of gas distributed to the City and its inhabitants and the pressure at which the same was received by the grantee.

Said grantee shall also supply and install one distant pressure gauge under direction of the City Council and at the place designated by the City Council which will indicate the pressure at such designated point, said gauge to be placed in the City Hall in the office of the City Engineer.

Section 9. That after the said gas distribution system shall have been fully constructed, equipped, and in operation as herein provided in the City of Brownfield, if the said grantee shall then fail to substantially comply with the conditions of this franchise, the City of Brownfield shall have the right by ordinance duly passed therefor to forfeit all the rights and franchises herein granted to the said grantee, provided that the City of Brownfield shall give the said grantee, its successors and assigns, sixty (60) days notice in writing, specifying the conditions claimed to have been violated and giving full and fair opportunity to be heard thereon before declaring such forfeiture which notice shall fairly and fully set out all the conditions claimed and complained of and shall be given by the said City and shall be signed by the City Secretary under the seal of the said City after having been properly authorized by the Mayor and City Council of the said City; provided, however, that the said grantee shall have sixty (60) days after receiving such notice in which to rectify and correct such violations and to substantially comply with the terms and conditions of the ordinance; should the violations of this ordinance so complained of not have been rectified and corrected and the terms and conditions of this ordinance fully complied with at the end of said sixty (60) days, then and in the event the City shall have the power to forfeit this franchise on account of the violations specified in said notice. That in case of forfeiture as herein provided, the City of Brownfield reserves the right to purchase the distributing plant of the grantee at its fair appraised value or to allow the grantee to remove same within one year from the date of such forfeiture, provided that before any of said property may be removed, the grantee shall be required to give the city a good and sufficient bond that the streets and alleys will be placed and left in as good condition as found.

For each and every breach or violation of any of the provisions of this ordinance by the grantee, it shall be liable to a penalty of Twenty-five Dollars to be recovered in any court of competent jurisdiction by suit, of any person, firm or corporation injured or damaged by such breach or violation; and if the breach or violation shall be a continuous one, each day during which such breach or violation continues shall be deemed a separate breach or violation and separate ground for recovery against the grantee.

Section 10. That in further consideration of the privileges and franchise granted to the West Texas Gas Company, it shall adopt and use all and any reasonable safeguard to provide for the protection of persons or property against injury or damage growing out of the use of gas and that they shall construct and maintain in good order all mains, pipes and equipment used in said city for the distributing of gas, and shall always be prepared to furnish said City and its inhabitants a sufficient quantity of gas for all purposes; provided, however, that in case of explosions or accident of any character or nature beyond the control of said grantee, to the main lines or to the distributing system provided herein, or shortage of gas supply in the fields from which grantee secures the gas and the grantee is not able to furnish on account of such unavoidable conditions gas for all purposes, that preference shall be given to domestic consumers, schools and hospitals in the use of gas until such time as the supply may prove adequate for all purposes. Provided further that grantee shall not be liable for any damages resulting from such accidents either to the line of the grantee or to the lines on property of consumers.

Section 11. It is provided that the grantee shall in good faith begin the construction of its main lines and distributing systems by May 1st, 1928, and shall complete such main lines by Dec. 1, 1928, and shall be prepared to serve gas to consumers on or before Jan. 1st, 1929, provided, however, that grantee shall not be liable for time consumed out of such period by strikes, acts of providence, acts of constituted legal authorities, or acts beyond the control of grantee.

Section 12. That grantee herein shall have the right and privilege of assigning this franchise and all the rights and privileges granted herein, and wherever the word "grantee" appears herein it shall be construed as applying to its successors and assigns.

Section 13. This ordinance shall take effect and be in force from and after its passage and approval and publication as provided by law.

Passed and approved this 16th day of Sept., A. D. 1927.

Joe J. McGowan,
Mayor, City of Brownfield, Texas.

Attest: Roy Herod,
City Secretary of Brownfield, Texas.

STATE OF TEXAS,
County of Terry, ss:—We, the undersigned Mayor and City Secretary of the City of Brownfield, in Terry County Texas, do hereby certify that the within and foregoing is a true and correct copy of the ordinance and franchise approved and passed granting to the WEST TEXAS GAS COMPANY the right and privilege to use the streets and alleys and public grounds of the City of Brownfield for the purpose of laying and maintaining gas lines for distribution of natural gas to the City of Brownfield and its inhabitants thereof for a period of twenty (20) years, and that such ordinance was duly read, approved and passed as required by the City Charter of said City, and duly signed by the undersigned Mayor and attested by the undersigned City Secretary this 16th day of Sept., A. D. 1927.

Joe J. McGowan,
Mayor, City of Brownfield, Texas.
Attest: Roy Herod,
City Secretary, City of Brownfield, Texas.

SATURDAY

TOM MIX —IN— "Outlaws of Red River"

It is one of Tom's Best.

COMEDY and NEWS

NOTE: Our regular admission now is 10c and 35c except Saturday afternoon matinee.

"Bigger and Better Shows"

MEADOW BRIEFS

By Aesculapias.

The canning season in Meadow and vicinity is now in full blast, and it is probable that very few families will be without corn, tomatoes, peas, beans and other garden truck, along with meats of various kinds, the coming season. There has been something like a carload of cans sold here and people are waiting for more to arrive. In fact I have been reliably informed that some of the wholesalers of Lubbock state that more cans have come to Meadow than to any of the territory contiguous to Lubbock.

We hear that many have lost considerable that they canned due doubtless to inexperience in such work. This will be remedied and the folks have entered upon a campaign that will materially assist in making the farm self-supporting.

Had the people been provided with a capable demonstrator, as they should have been, much of this loss would have been prevented.

Something over a year ago this scribe got a petition with most of the residents of Meadow and its environs asking for an instructor, but failure on part of other sections of the county to do likewise kept the County Commissioners from going further with the matter.

Interest in this matter and the failure of holding a fair has helped to put Terry County on the back benches of the really progressive counties of the state.

Terry is among the few counties of the state that have no Demonstration Agent, either male or female. There is a better day coming.

There was quite a change in the weather Saturday night. We had some rain with considerable wind and it was cool enough to make an overcoat comfortable. As usual some got one or two inches while others got little or none at all. Around and in Meadow we perhaps had be-

tween a quarter and a half inch.

The eight months old baby of W. D. Pressly got hold of a slice of cheese that had been spread with arsenic and put out for rats. The rats failed to eat it and the baby found and ate it. Fortunately its Mother discovered it as it was finishing the bait and at once gave an emetic. She continued her efforts until it had disgorged the contents of the stomach and doubtless saved its life. A physician was summoned and administered the proper antidote but it was doubtless the emetic that did the work. It is a serious matter to scatter poison without gathering up all baits not eaten. I can recall a few children and some valuable animals that have fallen victims to this kind of criminal negligence.

Since last report the following families have had additions to the family: P. T. Deckard, Sept. 13, a boy; Leslie Brooks, Sept. 13, a boy; A. L. Curtis, Sept. 19, a girl; T. H. Price, Sept. 20, a boy.

"Be fruitful, multiply and replenish the earth." "For this is the whole duty of man." Don't know whether they go together or not but they can be found in the Bible.

The ten year old son of B. C. Horton while trying to kill a rat was bitten on the finger by the rat. He developed a very high fever, his arm was swollen and painful with glandular enlargement under the arm. The second day of the fever he developed a red rash over the body and extremities with painful joints. The family are very much concerned about him. However at this writing his fever and the rash have subsided but still has painful joints without swelling.

Bites of animals should always be promptly looked after. The rat was found wandering about the yard apparently sick.

The Lubbock Fair Boosters stopped at Meadow Saturday evening on their way home and rendered some music, made a speech, scattered some circars and left. The right kind of fairs—those that assist in making known the possibilities of the soil and climate, exhibits of livestock and poultry, the display of machinery and fixtures, or other things that tend to the advancement of the communities in which they are held—are commendable and should be patronized. Around most of them lurk all kinds of disreputable dives and devices for separating the unwary from his money. A great deal of this kind is provided by the management of fairs under the plea of providing amusement. Let us hope that Lubbock will provide nothing but the cleanest and best.

All Knowledge Not Possessed by Youth

Dear me, with all their superior knowledge, how ignorant the younger generation, one might say the younger generation, is about some things. A new story came into the house and mother essayed to read it aloud. It was about "gypsies." Hardly had she begun when a chorus of small voices asked, "What's a 'gypsy'?" And it was hard explaining about a covered wagon, for the next question was, "What's a 'wagon'?" And some didn't even understand what a "pair of horses" was. Never did mother have it brought home to her so keenly that this was an automobile age.

And there is nothing that makes a high-school pupil feel that her mother is more ancient than to have that same mother say, "There were no automobiles in my high-school days; we always went buggy riding." Instantly the high-school maiden thinks of her mother, as dated some time before the Civil war, and one high school child had the nerve to question her mother as to her experiences during the Revolutionary war.

Mother came back at daughter a bit, though. She said casually, "There was no such thing as a radio in your life until you reached high-school age, was there?" Daughter tried to prove that radio only happened the other day, as it were, but mother emphasized her point that inventions are coming along faster than people are.

Fete Days Dependent on Church Sun Dial

In 1743 a meridian column was set up in the old Church of St. Sulpice, Paris, for determining the date on which Easter and other church fetes would fall. The column bears a long vertical mark extending down its center; this mark is prolonged on the floor. Together these two lines determine a vertical plane in space, which if sufficiently produced would include the earth's axis and through which the sun would pass at noon time as the earth rotated.

In order to make this event visible a small slit was cut through the roof of the church in the same meridian plane. Through it the sunlight penetrated, slanting downward toward the line below, and swept across it at noon time. As Easter approached, the sun's altitude in the heavens increased until the spot of sunlight finally crossed the line at the marked point. Since the other fetes followed Easter by an arbitrary lapse of time, the old meridian column, installed by Maurice de Sully, determined them all.—Scientific American.

\$ DOLLAR SALE \$

SATURDAY AND MONDAY SEPTEMBER 24-26

OUR REGULAR MONTHLY DOLLAR SALE

Everyday prices at our store are always low, but on these special events they are even lower. We could not quote these extremely low prices every day. These goods were produced from cotton at a very much lower figure than today's prevailing prices. Such prices will not be available long. Every department full of NEW FALL merchandise. Many more specials than the ones listed.

School Notes

SENIOR CHUCK BOX

Fay Brown Editor
Voncile Holgate Social Editor
Virgil Burnett Athletic Editor

Senior Class Organizes
In a meeting of the Seniors, Monday afternoon, Miss Ruth Lawlis was elected unanimously as Class Sponsor. Mr. Bill Collins became the President; Miss "Chicken" Copeland, vice-Pres.; Miss Vivian Winston Secretary-Treas.; and Robbie Hardin Reporter.

The Senior list includes: Bill Collins, Robbie Hardin, Luke Pace, Vivian Winston, Virgil Burnett, Voncile Holgate, Otis Longbrake, Ola Franklin, Adolphus Smith, Helen Jackson and Fay Brown.

We are very sorry to report Miss Helen Jackson is still ill and unable to attend school as yet. She is missed very much by everyone and it is the sincere wish of all of her classmates and friends that her recovery will be in the near future.

Mr. Taylor, our new Manual Training instructor reported for work this morning. We are very glad indeed to welcome Mr. Taylor into a long-suffering but ever faithful faculty.

We wish to thank Mr. Stricklin for the column he has given us in his weekly.

The Freshmen lately arriving in E. H. S. look as if they were lost. For information please see the Sophs.

Foot-Ball Prospects

Foot Ball prospects for the 1927 high school team are the best at this time of the year than they have been for several years. The chief problem at this time however, is to develop a passer and punter to fill the gap left open by James Harley Dallas who graduated last year. Eighteen men are working daily in preparation for the first game of the season with O'Donnell, Sept. 30, at O'Donnell.

Bill "The Secret of good health is onion eating."
Robbie: But how can onion eat-

ing be kept a secret?"

"Blue" ordered a root beer. The clerk said, "Shall you take it out, or drink it here?"

"Blue" replied, "Both, I guess."

Adolphus S.: "Do you dance?"

Hazel Stafford: "Oh yes I love to."

Adolphus: "Good, that beats dancing any time."

Mr. Heath: "Alright, why didn't Columbus' sailors play cards on the way over?"

Alma: "Betwase he was on the deck."

Miss Lawlis: "Describe the manners and customs of the people of India."

H. H. Jr.: "They ain't got no manners and they don't wear no customs."

Eddie: "Wonder why the angels don't wear beards in heaven?"

Lois: "Oh, they had too close a shave getting there."

There was once two negroes who were talking when all of a sudden Sambo said: "Rastus you'd better stay away from dat Buty Paler."

"Why, Ah c'n go ef Ah wants to."

"Well ef'n ya don't want yer hair cut off ya betta' stay way from tha."

"Why?"

"Becuz it said on that ar' sign, 'All black-heads removed.'"

JUNIOR CLASS ORGANIZES

Friday, September 15th, the Juniors met and organized. Officers for the following term were elected. Miss Christova Sawyer by a big majority was elected president, and Clovis Kendrick, vice-Pres.; Mary Ann Bell, secretary-treasurer.

Mr. Dick Heath is fortunate or unfortunate enough to have the honor of being our Sponsor.

The Junior as an organization as well as in their school work intend to make this an out standing term.

—Class Reporter.

Beaumont—The E. L. Wilson Hardware company is erecting a \$55,000 addition to their warehouse.

Extractions (full set)	10.00
Painless methods employed. All Work Guaranteed	

Dr. J. W. Phillips

Room 12, Conley Bldg. LUBBOCK, TEXAS

Elder Liff Sanders spoke the words Wednesday afternoon about 4 o'clock that united for life Mr. Bryan Gallo-way and Miss Edith Grice, both of the Lou community.

The relation between the original forest area in Texas and the area today shows that the Texas forests are dwindling rapidly, according to the Texas Almanac. Just how long large scale lumber production can continue is a matter of speculation, but it is usually placed at about 10 years.

The Texas State Library and Historical Commission at Austin has more than 71,000 volumes in addition to 25,000 pamphlets and 80,000 manuscripts.

San Angelo—First work on the new Tom Green Court House is to start about October 1, according to Judge J. T. Mathison. The cost is to be about \$300,000.

Noah Bell and wife are in California visiting their daughter, Mrs. Brock Gist and family. Reports are that Noah is cutting some capers in that capering commonwealth.

Brownwood—Dr. L. P. Allison, Dr. H. B. Allen and others have let a contract for construction of a \$100,000 medical arts building here.

Brownsville—J. M. Mix has let a contract for construction of a three story, Spanish type theatre building here to cost \$44,000.

Hamilton—The City of Hamilton has let a contract for 60 blocks of sledge stone base, rock asphalt top paving to cost \$85,000.

Beaumont—Mayor Austin Barnes has reported plans for expending \$315,000 on sewer and paving improvements.

James Harley Dallas returned last week from Trinity University at Wauahatchie, where he intended to attend school this term, but did not find conditions exactly too his liking. We understand he will enter Tech College, as most of his classmates are attending Tech.

J. A. Parks and family were in Saturday attending the church of Christ meeting and shopping with our merchants.
