VOLUME 23

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JANUARY 20, 1928

NUMBER 22

## Chamber of Commerce

By the Secretary

The annual meeting of the Chamber of Commerce will include a banquet to be held in the new dining rooms of the Hotel Brownfield on Tuesday night, Feb. 7 at 7 P.M. This date has been selected for the reason that there is not going to be a high-powered picture at the Rialto on that night, and the management has also consented to put on a new show for those who desire to attend. Last year we got the socks knocked off us on account of having the annual meeting on a night that an unusual picture was to be shown, and there was just about one-third of the membership at the annual meeting. It is desired that a big meeting be staged this time and all citizens of the town, whether members of the chamber of commerce or not are going to be urged to attend. Eight new directors are to be elected and naturally this calls for new officials. Don't stay away and assist in electing your directors and then ache about their actions later. No long-winded speeches will be indulged in, in fact music and eats will be the biggest part of the meeting. Also, the president will have something to say and the secretary will report on activities both accomplished and in process and will follow these with a few remarks that he hopes will be for the benefit of the organization.

Don't forget the Santa Fe Demonstration Train on Feb. 15 at 1:30 P.M. The time spent in attending the lectures and demonstrations will not be a loss to anyone.

## National Bank Has Annual Directory Meet

The directors of the First National Bank met Jan. 10 and declared the annual dividend, and transacted such other business as came before them at this time, including the election of officers of the institution.

The directorate found that after all that despite the fact that a very light rain had fallen during the year and loans had to necessarily be kept in small limits, the institution had enjoyed a good business and was in fine shape and fully solvent. Customers had liquidated their papers much better than was expected even early in the fall.

The board of directors remains the same as last year. R. M. Kendrick was re-elected President; W. A. Bell was made Active Vice-President instead of Vice-President and Cashier; W. R. McDuffie was elevated from Assistant-Cashier to Cashier, and Jake Hall was promoted from bookkeeper to Assistant-Cashier.

## Brownfield School Becoming Crowded

The Brownfield School opened the second term Monday morning by spending the day in reorganization, promotion, checking in and out books, and enrolling new pupils.

The school started off with the heaviest enrollment that it has ever had. Every grade is filled. There were 350 enrollment at the Grade building, only just a few vacant seats left in the rooms. There are about 125 in High School.

It begins to look very much like this school is to return to the crowded condition of just a few years ago. Should you have the idea that folks are moving from Terry county just visit the schools and you will soon be convinced that some are coming also. Our enrollment has been increasing for the past two months. The present auditorium will not seat the grade school pupils.

## 183 NEW PUPILS ENTER TECH COLLEGE

LUBBOCK, Texas, January 16.—One hundred and eighty-three new students have enrolled at Texas Technological college this term, making a total enrollment for the long term of 1927-28 of more than sixteen hundred students. This is a substantial increase over the number of students in Tech at this time last year.

Reports here are to the effect that a girl was recently born to Mr. and Mrs. Floyd Fry, of Loraine.

## ANNOUNCEMENTS

### JUDGE PRICE ANNOUNCES FOR RE-ELECTION

To the Citizenship of the 106th Judicial District:

It being impossible for me to see and personally talk with each voter of the 106th Judicial District, and explain to them my appreciation of their support of me during the one year I have been permitted to hold the office of District Attorney, and to have an opportunity to state personally to each my desires for the future, I take this method of thanking the Citizenship of this District for the Honor which has been mine in serving you as an officer for the past year, and I hereby announce to you that I will be a candidate for re-election to the office of District Attorney of the 106th Judicial District of Texas, for a second term, subject to the action of the Democratic Primary in July 1928.

During the one year you have honored me with this office, I have striven with all my might, working constantly on the job day and night, to enforce, fairly, all the laws on our Statute Books, a like to all the people, without fear or favor to any one. With no idea of boasting of the record I have made during the past year yet feeling that it will compare favorably with the average record made in this character of office, I am perfectly willing to be judged by my record and upon such record I am submitting my candidacy for re-election to this office. Having tried some 50 or more cases during the past year and having lost only two of these, makes me feel that with all fair minded people this report will receive their absolute approval without a word of complaint. I have tried to be fair to those charged with crime, yet not in any way compromising with crime, but instead prosecuting it with all my power. As stated above having only served you for one year, I am just now sufficiently well acquainted with the Dockets of the six different counties comprising this District, and therefore in a position to render real service to the tax payers if allowed to retain this office for a second term, and if I am allowed to hold this office for another term, I hereby re-dedicate my ever effort to the Citizenship of this district to the end that our homes may be better protected and this district made a safer place for our property, our lives, and our children.

Respectfully submitted,  
T. L. PRICE.

### TO THE VOTERS OF PRECINCT NUMBER 1

I am announcing for re-election to the office of County Commissioner Precinct No. 1, which embraces the Southeast quarter of the county. I believe I am well acquainted with the many duties and responsibilities of this office, and that with my experience in same, and in road building which is an important feature of the office I can serve you better in the future than in the past. I ask your favorable consideration, and will greatly appreciate your support, and pledge you my best efforts, in your behalf in all matters coming before us.

W. E. Harred.

### MACK THOMASON ASKS FOR OFFICE OF COM. PRE. NO. 4

In asking for the office of Commissioner of Precinct No. 4 of Terry county, I have no long introductory remarks to make, as I feel that after 8 years of residence among you, I am acquainted with most of you and one may obtain information about me from most of their neighbors. Will say however, that I have had considerable experience in road building, as well as business matters, and if I am your next commissioner will perform the duties of the office to the very best of my ability. Will try to see and talk with each voter in the precinct personally before the primaries in July. I will appreciate your vote and influence.

Respectfully,  
G. M. (Mack) Thomason

### THERE ARE MANY

"Your wife doesn't seem to make much of a success with her reducing. "No; Margaret is one of those poor losers."—Boston Transcript.

## Some More O'Donnell Index Sky Juice Here

To use the favorite expression of the O'Donnell Index, we have had another nice fall of "sky juice" otherwise rain, this week, although what we received seemed to have come from some low hanging clouds instead of the sky. The fall began during the night Monday, and continued up to noon Tuesday, and probably in all amounted to nearly half an inch. This on top of a nice rain about a week before Christmas and a big snow during Christmas, puts the ground in fine shape for spring plowing and will also insure early grass and weeds for range cattle. If any country every did start out under favorable auspices for a good-crop year, the south plains this year is that section.

About the only uneasiness that is felt here is for a fruit crop, for it has been unusually warm here the past two weeks for the time of year, and the buds are swelling fast, and if we do not have some more cooler weather to retard their development, we are likely to have our desire for a fruit-crop blasted by a late freeze. We had an unusually long winter spell for this section around the holidays, the longest continuous spell that most of the old timers ever saw here, but everything has been in reverse since and we have had the longest continuous spell of spring weather for winter ever known here. Even the shower mentioned above would have fitted in much better in appearance had it been April than January.

But some say our climate is changing anyway. Mabeso.

## "What Price Glory" Light Side of Conflict

Every soldier will tell you that he had a lot of fun out of the war. Ask any veteran of the A. E. F. or some erstwhile gob of the U. S. N. and they will smile and say, "betcha." But ask a leatherneck, a soldier of the seven seas, what he thinks about it, and your answer will be "hot dog." That's why the Captain Flagg in the picture, "What Price Glory" remarks after a leave of absence and the hilarious visit of Barle-Duc—"This is the best war I ever attended."

The comedy end of war was what impressed Winfield R. Sheehan, general manager of Fox Films, when the job of making a screen story of the Stallings-Anderson play was undertaken at Hollywood—and Sheehan knew because he was a Sergeant in the U. S. A. and saw active service in Cuba in the Spanish-American war.

Then, Director Raoul Walsh took battle as a background, gave it plenty of clash and conflict, tragic touches and pathetic pulses but he let his soldier man overseas just have the time of his life—in which Director Walsh was right and followed form. So laughter of the uproarious, deep-down kind is promised when the picture, "What Price Glory," has its premiere at the Rialto Theatre, Monday and Tuesday, Jan. 23-24.

Victor McLaglen, soldier of fortune, captain in the world war, and a captain actor, is the Captain Flagg of the story; Edmund Lowe is Sergeant Quirt, and lovely Dolores Del Rio will be seen as Charmaine. These head a great cast and a host of auxiliaries in the big scenes.

### MILLION FOR STUDEBAKERS PAID IN ONE CHECK

SOUTH BEND, Indiana.—A million dollars worth of automobiles in one order and paid for by one check! That was the sale recently made by The Studebaker Corporation of America to Henry R. Levy, president of the Studebaker Sales Company of Chicago. The order—the check for which is the largest ever received by Studebaker—is for 1013 Studebaker and Erskine cars. The exact amount of Mr. Levy's check was \$1,014,650.05.

Some idea of the size of this order may be gained by the fact that 1013 automobiles, packed three in a car, would require 338 freight cars. And 338 freight cars are equal to five freight trains.

L. F. Hudgens and Mr. Alexander made a business trip to Bomarton this week on business.

## Sees Our Lights Bet-ter By Moonlight

Uncle Jack Blankenship is not only a good road builder, but he is regarded as one of the best citizens of old Yoakum county, but he got careless with his talk here recently, and now many citizens here are wondering "what kind and where he gets it."

But to get to the bottom of the story, Uncle Jack was merely telling a party of what he considered his friends here recently that he could see the rows of street lights in Brownfield just as plain as he wanted to of moonlight nights, and they seemed to be strung out for miles, but of dark nights he could not see them at all. This information seemed to be awful funny to his listeners and of course they began to accuse him of using moonshine instead of regular prescription stuff. Then he went on to say that he lived exactly 44 miles from Brownfield, and could not see the rows of street lights now in the foreground of the night, but could get up before day after the moon arose and see them plain as day. To verify matters, he had a friend along who lived ten miles further (54) miles, which is over in New Mexico, who said he could also see them by moonlight, but not of dark nights. The funny boys then laughed the more and said both were getting the stuff over in our neighboring state.

But the Herald is for Uncle Jack. It's bet he hardly ever touches anything stronger than well water and coffee, and being somewhat of a scientific nature anyway, it looks deeper than "kawn" whiskey into the phenomena. Knowing as we do that the moon has the power of moving the tides of the ocean—Webster's old Blue Back Speller gave us that information way back yander—why couldn't this same lunar orbit move all the dust, sand, hills and other obstructions that might hide our white way from Uncle Jack on dark nights? Why? we ask you laughing hyenas who try to make Uncle Jack out an habitual toper? When you are able to answer these questions satisfactorily to the Herald and Uncle Jack, you will be permitted to finish your big laugh.

As for the Herald it is tickled that Uncle Jack and his friend are able even of moonlight nights can step out on their premises 44 and 54 miles west of here and see our bright lights. It reminds them that they have in their reach a trading place "set upon a high hill, whose lights cannot be hid." Why, Uncle Jack even has the Bible on his side.

## District Court in Session This Week

The winter term of District Court went in session here Monday morning with Judge Gordon B. McGuire of Lamesa presiding. There was not a petit jury called for this week, but the grand jury was empaneled and set to work under the direction of Judge T. L. Price, our district attorney. The grand jury was in session until Wednesday noon, at which time it reported eleven indictments, eight criminal and three misdemeanors. The criminal cases were mostly whiskey cases we understand.

The court only tried one case this week, but set several civil and criminal cases for future dates to be tried by jury.

The Collins murder case, which was sent back for re-trial on account of a technical error, is set for Feb. 6th, and the combined second and third week juries will be used to get a trial jury if possible.

The Boyd theft case is set for Monday next.

### THIS GOES FOR THE GIRLS TOO!

Dig a deep grave  
For Herman McNighty.  
He's the guy  
That says "All righty."—California Pellican.

### IT JUST CAN'T BE!

A Scotchman was leaving on a business trip, and he called back as he was leaving.  
"Goodbye all, and dinna forget to tak' little Donal's glasses off when he isna lookin' at anything."—North western Purple Parrot.

## Officiated at Five Births—All Flappers

In conversation with one of the local physicians recently he informed us that out of five births at which he officiated last week, each and all of them were girls. This in a way pleased us, as we had always heard that the birth of lots of girls indicated an era of peace, and that the birth of a surplus of boys indicated war, and we so expressed ourselves. But the man of medicine informed us that we could not force what might happen by the time these five girls are grown to womanhood. It might by then be an era of feminine domination, and that they might then be the sterner sex. It looked that way to him, he said. We read a joke recently which said that man no longer objected to being called feminine, as woman was about the "hardest boiled" of the two now days.

But this medical man then let us down rather hard from the elevation he had raised us, when he announced that if our women folks didn't quit wearing French heels the hospitals could not accommodate them in the very near future. He said he was treating three cases right now of girls and young married women who could hardly walk that from what he knew and had read in medical journals was directly caused by high heels, which resulted in sprained tendons, broken arches, and misplaced spinal columns. He wanted the Herald to warn women and girls of this foolish fashion, but said he felt sure it would do no good and they would continue to follow "style" health or no health, but if even one took the advice, he felt the effort would not be in vain.

To illustrate his point, he asked the writer to rare upon his toes for some five minutes and see how we felt, and to note how unnatural our spinal column felt in that position. After a short trial, we told him we would not walk or try to walk on high heels for \$25 a day, and we wouldn't no matter what these style producing frogs over in Paris might say.

## Terry May Gin Over 15,000 Bales this Year

He that thought the ginning season would be over by the holidays has another think coming, for all last week and this week up to the rain Tuesday our gins were crowded and ran far into the night. Also he that thought Terry would only get ten thousand bales of cotton this year has another estimate coming, for its going to be nearer one-third more than that figure.

This section can promise less in the summer and deliver more in the fall than in section in the world. Some folks during the summer predicted this would be one year that no corn would be shipped out of Terry, and while the corn crop is lighter than it was last year by many car loads, it, like the cotton is going to fool us and fool us badly in the wind up.

The following report of the amount ginned over the county was obtained late Tuesday afternoon:

The five Brownfield gins	9,241
Wellman gin	860
Two Meadow gins	2,500
Total	12,601

### EMBARRASSING TO TELL! LIQUOR LEFT IN PLACE OF MILK

LITTLE ROCK, Jan. 12.—One of Little Rock's citizenry, an ardent prohibitionist, has poured into the ears of the police a tale of woe that is a tale of woe, to wit:

Every morning for a week some sinister individual removed the customary pint of milk from his doorstep and in its place left one pint of what the police aver is "alleged" liquor.

But here did not end the tale—since the story got out, the victim has had 13 offers to sell his home and more than 50 offers to rent. This with many offers to aid him in a search for the "sinister individual" has caused his "undue embarrassment," the victim, whose name was withheld by the police, declared.

A compliment always passes for more than its face value.

Before giving advice a wise man prepares to dodge the consequences.

## Another Promoter Visits O'Donnell

Since O'Donnell has been assured another railroad which will run from Roswell, N. M., to Fort Worth, Texas, giving the south plains a direct and shorter route to the east, it seems it has caused other promoters to sit up and take notice. The shorter route to points east from the south plains was promoted by Capt. Ed Kennedy of Houston, who has secured the right of way and all necessary grounds for depot facilities and railroad shops throughout the course the new route is to run, together with about one million dollars as bonus. The above is all that Capt. Kennedy has asked the people for along the proposed route, which, in the opinion of the writer, practically assures the construction of the new road in the very near future. All doubt as to the extend of the people of Lynn county and O'Donnell would aid in the building of the new road was dispensed with a few days ago when Capt. Kennedy wired the committee in charge of affairs in O'Donnell for their answer. The committee promptly wired Capt. Kennedy that "everything asked for had been guaranteed," and also added in case anything else was needed the people of Lynn county and O'Donnell in particular would meet the demands.

Now comes more good news! The latest development in railroad circles took place last of the week when a Capt. W. D. Jameson, capitalist and railroad builder of St. Louis made his appearance in O'Donnell with another proposition which looks good to the people of O'Donnell and this section of the South Plains. Capt. Jameson's proposition was similar to that of Capt. Kennedy, except that the proposed route he and his company were to take varied from that of Capt. Kennedy. Capt. Jameson's proposition was to build a direct route from the South Plains to Fort Worth and points east, beginning at Roswell, N. M., via Brownfield, O'Donnell, Tredway, Gail, Fluvanna and Rotan, covering some of the richest lands in Texas, all of which are rapidly developing. Capt. Jameson spent a part of two days in and around O'Donnell, gathering data relative to the construction of the new and shorter route. He was assisted in the work here by our fellow townsman, C. H. Doak, who believes that no trouble will be experienced in securing the right-of-way and other necessary guarantees. Mr. Doak stated to the Index man first of the week that he expected Capt. Jameson and associates to begin construction of the new road at an early date. Mr. Jameson stated that he and associates were not representing any trunk line railroad, but in all probability the new road would be taken over by some trunk line when completed.

According to present prospects the coming year will see much railroad building thruout the south plains and west Texas.—O'Donnell Index.

## Rotary Club Entertain Prominent Visitors

President Morgan Copeland has for the past several weeks been passing around the gavel of the club, and last Friday at luncheon, Will Bell had full charge of that wood instrument and wielded it like an old rail splitter—which he may be but didn't say.

The club was pleased to have as its guest Warren Knox, new Boy Scout executive of this region, with headquarters at Lubbock, who was accompanied by Neill Wright, who is generally called the daddy of the Brownfield club, as he was instrumental in its organization.

Mr. Knox made a fine address on training boys for future citizenship and showed the club the part it could play along this line. e predicated his remarks with a very funny story on candidates for the special benefit of Rotarian Homer Winston. It began to tickle fellows like Tom May and such ilk way before the climax was reached, which when reached simply brought the house down.

Short address were made by Neil Wright and other visitors, but the biggest ovation was given Rotarian Glen Harris when it was announced that he was entertaining a new son which had just taken up his abode at the Harris home.

# SATISFACTION

This is a long story told in one word. 'M' System customers are satisfied and know they are buying their groceries just as cheap and much cheaper in many cases. We do not sacrifice Quality for Price. Price buying does not always pay, unless you know that merchandise is up to standard. There is not an item that comes in our store that is not of the highest quality. It is our aim to hold the quality up and the price Down, consistent with good business. The store will be found full of Bargains Saturday, January 21st. Do not fail to visit us. VISITORS ARE WELCOME.

### HOUSTON GETS NATIONAL MEET OF DEMOCRATS

WASHINGTON, Jan. 12 (UP).—The Democratic National Committee chose Houston today as its 1928 convention site.

The unofficial tabulation shows Houston 54, San Francisco 47.

On the first ballot taken by the National Democratic Committee to select the 1928 convention city, Houston led with 30 votes, while San Francisco was second with 25. Detroit was third with 23 votes. Cleveland received 11, Miami, Fla., 6 and Chicago 5.

Since 51 votes are needed for a majority to select a convention city, a second ballot was ordered.

The second ballot showed: Houston 37, San Francisco 25, Detroit 24 and Cleveland 13.

After the second ballot, an effort was made to adjourn the committee for one hour, but committee members

demanding that the roll calls continue. Third ballot: Houston 44, San Francisco 36, Detroit 19, Cleveland 6. Fourth ballot: Houston 48, San Francisco 42, Detroit 10 and Cleveland 3.

### DOFFING THE HIGH HAT

You answer the telephone. A sweet young voice says, "Just a moment please, Mr. Schlitz wants to speak with you." You snort loudly, but to no avail. For the next few minutes you draw cubes on your desk pad. When Mr. Schlitz does come, you are probably not very cordial to him.

High hats are out of place in telephoning. The few seconds saved are more than discounted by the irritation caused to the recipient of the call.

Some men are so busy beginning things that they have no time to finish anything.

### Usual Sequence

A primary teacher had been trying to teach little Bertha to say "ate" instead of "et." She resolved to give it her personal attention. So when she arrived at school one morning the teacher asked her: "What did you do after you washed your face this morning, Bertha?" thinking she would say, "I ate my breakfast." But she received this very natural reply: "I dried it."—Indianapolis News.

### Kangaroo Distanced Horse

One of the fastest Australian race horses, ridden by an expert jockey, was badly beaten by a kangaroo in what was described as a procession with the horse pounding away and losing with every bound of the big kangaroo. But what chance has a horse in a race with a contestant that covers more than 30 feet at one jump?—Capper's Weekly.

### Not Lady on Your Left

The apparent odor of garlic so frequently sensed in the subways and other electric trains is most apt to arise from the car's electric brakes, rather than from the dietary vagaries of the passengers, says Science and Invention. Sparking, which occurs in most such brakes, creates ozone with a garlic smell.

### What Air Plant Is

The term air plant is applied to plants of a great many different groups, says Nature Magazine. Properly speaking, they are those that grow on the bark of trees or other objects, but do not derive any nourishment from their host.

### Nation's Stability

There can be no national stability except in a righteous and just government; and a righteous and just government can exist only with a righteous and just people.—Uncle Henry's Sayings.

### Grandfather's Discovery

"No wonder everybody is running to the dentist all the time," says Grandfather. "These days people simply brush their teeth into dust and powder."—American Magazine.

### Conversion Not Easy

All conversions are not in religion. Many of us have to be converted to new and better thoughts and ways. Ofttimes these conversions are the hardest kind to make.

### Professional Caution

The daring parachute jumper is often the first man in the party to show alarm when he discovers he has been sitting in a draft.—American Magazine.

### Yet He Sees It Often

If a man knows what kind of a

face he's got and lives up to it, he may make a great success; but only the movies seem able to infallibly tell him.—Exchange.

### One Stumbling Block

Be sure you're right and then go ahead; oh, yes; but often you have to convince a lot of others you're right before they'll let you.

### Land-Scrape Artists

Doubtless the barber who calls himself a tonsorial artist does so because, like other artists, he works with a brush.—Farm and Fireside.

### Look for the "Mocker"

For identification, catbirds should be seen and not heard, as mocking birds may be responsible for the "cat-bird" notes heard.

### Novelist's Error

Sometimes we hate realism in novels. The author delineates the hero's character in such a way that we cannot like him.

### Washington on Thrift

Keep an account book and enter therein every farthing of your receipts and expenditures.—George Washington.

### Horse of Another Color

Some people who are too nervous to endure any noise, never wince at the unceasing sound of their own voices.

### Look to Today's Task

One today is worth two tomorrows, and further, if you have somewhat to do tomorrow, do it today.—Franklin

### Chips Off the Blocks

Trades and professions run in families. That's why so many families run in ruts.—American Magazine.

### Extremes in Foolishness

Planting corn and expecting beans isn't half as foolish as sowing selfishness and expecting happiness.

### Has Brief Life

A \$2 bill lasts about six months; then it goes back to the treasury soiled and defaced.

### Japanese Proverb

Buy land that slopes toward the center, and marry a girl whose mother is good.

### Keep Smiling

A laugh is worth a hundred groans in any market.—Charles Lamb.

### Eyes in Odd Place

A fish known as the stargazer has eyes on top of its head.

## JAMES CRUZE

Director of Feature Photoplays, writes:

"During the filming of *The Covered Wagon*, the constant use of my voice demanded that I find a cigarette which I could smoke without any chance of throat irritation or cough. After trying them all, I decided on Luckies. They are mild and mellow." James Cruze

## The Cream of the Tobacco Crop

"The growth of LUCKY STRIKE Cigarettes is a wonderful thing but there is a reason. I know, because I buy the Tobacco for LUCKY STRIKE. I buy 'The Cream of the Crop,' that mellow, sweet smoking Tobacco that the Farmer justly describes as I have described it above. The quality of LUCKY STRIKE Cigarettes is telling. It is natural that the brand should show the tremendous growth that it is showing today."

Buyer of Tobacco  
Louisville, Ky.

## NO SUBSTITUTING

—says W. E. Harred—

I wish to let my friends know that I have purchased the Spear Filling Station and am ready to serve them with the best gas, oils, tires, tubes, accessories, etc., that money can buy. If I do not have what you want, I will not substitute something else. Let's go! What do you say?

## Legion Boys Enjoy Big Entertainment

One of the best and liveliest meetings was held at the Legion Hall last Thursday night that has been held in some time. The boys seemed to have new vigor and visions and are pushing forward to make this Post one of the biggest and best Posts in the district. Some new resolutions were adopted for the benefit of the Post and the town as well. A big get-together program was mapped out for next Thursday night, January 26th. Every ex-soldier whether a member of the Legion or not is not only invit-

ed to come but requested or commanded to come and bring his wife, mother, sister or sweetheart and all the ex-soldiers he knows.

There will be some good music, singing, sparring matches between Kid Daid and Battling Golite and a few snappy rounds between Mutt and Jeff. Hot chocolate, coffee and sandwiches will be served along with plenty of good entertainment.

Say Buddy don't you be A. W. O. L. from this meeting or it will be worse than a G. C. M. under G. O. 45.

The Legion has gone over the top in its membership campaign as 75 was their quota, and we now have about ninety with several more yet to come in. C. B. Quante, Vice-Commander & Publicity Off.

Fay Brown - Editor  
Voncile Holgate - Social Editor  
Virgil Burnett - Athletic Editor

There has been considerable excitement in B. H. S. succeeding such trying times. It seems that exam grades have been issued.

The classes are being rearranged and new ones formed for the "flunkies." The "regs" and "irregs" have heated arguments but wind up by doing as they are told.

A few fresh Freshmen have been installed in High School and have about learned through which door to enter and exit. They are Don King, Fayne Smith, Lucille Oliver, R. L. Lewis, Del Smith, Billie Bursleson and Bryan Lane. They were initiated by the boys Monday noon and seem to be in no excruciating pain at present.

Editor Brown accompanied Miss Sue Crawford and Boone Hunter to Lubbock on last Wednesday evening. They returned the same night.

It is rumored that Lou Ellen and Lois conflict on certain claims. (For full information see the interested parties.)

Some people who always have their minds in the gutter, someday will get water on the brain.

Misses Helen Jackson and Fay Brown spent last week end in the country. They report an enjoyable time milking cows, etc. (Mostly etc.)

Mr. Nance: "Richard, can you tell me the connecting link between the animal and the vegetable kingdoms?"  
Richard: "Yes, its hash."

Miss Lawlis: "Correct this sentence, 'It was me that spilt the ink.'"  
James Michie: "It wasn't me that spilt the ink."

Jim Graves: "Say these scales are wrong."

Innocent Bystander: "Well, because they make me weigh the same when I stand on one foot as they do when I stand on two feet."

Miss Kathleen Alexander is expected to return today (Tuesday) from her visit to Benjamin.

Mr. Uyless Graham, it is reported will leave Saturday for the Roswell Military Institute. "Blue" is an old timer and will be missed greatly among his many classmates and friends, but we hope that he won't like the Institute too well, so as not to come home once in a while.

The standing of Brownfield High School is being raised day by day, exam by exam. The greatest majority passed on mid-term than ever before in the last four years. Also, there was less cheating and dishonesty than in quite a while. We are greatly enthused over the reports and are going to strive to raise the standards higher.

Many a man who gave marriage serious thought is still in the bachelor class.

Sympathy is all right in its place, but there are times when a kick would be far more effective.

**WELLMAN CAN PLAY BALL.**

Seagraves basketball teams played the Wellman boys and girls Friday afternoon, January 13, at Wellman. The Wellman girls defeated the Seagraves girls by a score of 3 to 2. The Wellman and Seagraves boy tied by a score of 10-10. The Wellman boys and girls motored to Seminole Saturday morning, Jan. 14. Wellman girls won by a score of 21-18. The Wellman boys won by a score of 15-10. The Meadow boys and girls played the Wellman boys and girls Monday, January 16, at Wellman. The Wellman girls won by a score of 13-8. The Wellman boys won by a score of 26-21. The Wellman girls have won every game this season with the exception of two. Their greatest victory was December 16. The score was 22-2.

**JAYTON BOY SCOUT HONORED BY COURT**

Commemorating the heroic service of their son, William Earl Lowrance, Mr. and Mrs. O. C. Lowrance were presented with a letter of commendation by the National Court of Honor of the Boy Scouts of America. The presentation was made in behalf of the National Court of Honor by W. P. Knox, Scout Executive, of the South Plains Area Council, Boy Scouts of America, at Jayton, Sunday, January 15th.

William Earl Lowrance lost his life in saving that of Harold Wade, of his home town. Young Lowrance had been a member of the Boy Scout organization for a number of years. He was 11 years old at the time he lost his life and was an outstanding young man in his community. He had a high scholastic record and was a member of the athletic teams and high school band.

The National Court of Honor is

made up of outstanding men of the United States meets annually to consider the vocational guidance of the Boy Scouts of America and to consider outstanding acts of heroism that have been performed by Boy Scouts during the year. The letter of commendation to Scout Lowrance's parents is in recognition and appreciation of Scout Lowrance's manliness, efficiency, quick thought and heroism in saving the life of Harold Wade, from drowning. The letter is signed by Daniel Carter Beard, National Commissioner of the Boy Scouts of America. Uncle Dan, as he is affectionately known to millions of boys in this country, is an outdoor man, author and artist of distinction.

County and District Clerk W. H. Hague, and wife, of Plains, were visitors here Monday. They were accompanied by Mr. W. K. Calahan and Mrs. B. F. Dutton, of that city, who were also shopping with our merchants.

T. E. (Tom) Verner.

**For Com. Pre. No. 3:**  
J. W. Lasiter.

**For Commissioner Pre. No. 4:**  
G. M. (Mack) Thomason.

**For Weigher, Pre. No. 1:**  
George D. Cardwell.  
S. A. Lauderdale.  
T. W. Moss.

More rain this week, and a better season to start farming operations are thereby assured. It is seldom we get even a mist in January, but as it is taking the lead over the average January, we hope each month gives us a full quota of moisture this year and our farmers will do the rest. We seem to be "settin' Jake" with the old weatherman this year.

The Dallas News is generally a very conservative paper in its estimates on anything. In fact it is generally dotted on by the public as the "conservative paper," but recently it let out an estimate on the number who attended a banquet at Lamesa that we "not altogether accept until we see what the two Lamesa papers say about the matter. Of course we know that Lamesa generally goes big on everything it undertakes, but 100,000 banquets "besides many rural people," is a whole lot of folks.

The United States suffered the greatest fire loss in 1927 in its history, more than 50 per cent of which were said to be preventive. If the United States would pass laws like the countries of Europe, making all fires inspectable by bodies created for

that purpose, and when it is found that the fire originated from carelessness on the part of the owner, make him dig up for damages to neighbors, we believe it would have a wholesome effect in reducing unnecessary fires. We may regard Europe as too old to learn us any new tricks, but this we believe is one thing we could follow with much money saved. It would have the effect of learning people to have their buildings inspected periodically for defective flues, etc.

We are too prone to think the whole tribe of humanity is going to the eternal bow wows until there is no more honesty and virtue in the world. We had hardly written up a Terry county man who was gradually repaying his creditors last week until we read a dispatch from Chicago to the effect that a citizen of that generally accepted modern Tire and Sidon had written checks of more than \$600,000 to repay creditors he owed when he went into bankruptcy more than a score years ago, paying up all back interest. This man was rated as a publisher, which might solve the reason of his honesty, but that isn't where he got the money. He surely had some side line. Henry Ford is a publisher, but he has a side line 'too.

Houston getting the national democratic convention came as a great surprise not only to Texans, but to the entire South, and the wealthy of other Texas cities are preparing to offer Houston any help it might need in entertaining the big men of the old party from over the entire nation. It may be that national democracy just wanted to honor the banner democratic state with the convention. It no doubt was partly the pluck and determination of Hon. Jessie Jones that led the rally of votes for the Texas city, but we have a notion that the sentiment is deeper than that. Since the Spanish-American war, we have been talkin' of a reunited nation, but the move did not take deep significance until the world war. We now read of the exchange of war flags that had been jealously held since the Civil War, most of them going to Confederate States, and now comes a national reunion of the opposing armies at Denver this year. Fast transportation with automobiles has annihilated distances until the two sections of our country have mixed and mingled, traded and intermarried until the feeling of hate has been removed from the younger generation. A few years ago it was not only impossible to get a southern man on the ticket, but even the conventions that nominated the northern candidates for all federal offices strenuously avoided the south as convention places. Sentiment in the past few years has not only so switched that Texas and the south are now to entertain the Democracy of the whole nation, but the Herald is of the opinion that either Dan Moody or Jessie Jones will be the choice of the convention as vice-president. It took more than three generations to wipe out the prejudice between the north and south, but it is gone.

### NOTICE.

I have been requested to give notice that on and after the 1st day of February A. D. 1928, all traffic ordinances will be strictly enforced, and those who have been negligent in operating vehicles are earnestly requested to strictly obey all traffic ordinances that as little trouble as possible may be encountered in enforcing these ordinances.

Roy Herod, City Secretary.  
1-27-28.

Roscoe Wilson, of Lubbock, was down this week attending court as he had some cases on docket here.

## ENTERPRISE FOOD PALACE

We guarantee you satisfaction with both weights and value when you trade here.

### FASCISM ASSAILED BY LABOR LEADER

New York, N. Y.—Fascism is "just as autocratic in its operation as is Communism in Russia," it was declared by William Green, president of the American Federation of Labor, in refusing an invitation to visit Italy. The invitation was extended by Count Ignazio Thaon di Reval, of this city, president of the Fascist League of North America. Mr. Green, in refusing the invitation, declared that "we do not concede that there is any necessity for Fascist organizations in the United States. Such organizations can serve no good purpose in a free land and a free country. It cannot fit in with our ideas of liberty, freedom and democracy."

Mr. Green's letter, as carried in the Trade Unionist, follows in part:

"All information we are able to obtain regarding Fascism in Italy leads to the inevitable conclusion that it is just as autocratic in its operation as is Communism in Russia. Each of these organizations extols the superiority of the state over the lives and liberties of the individual.

"Each of the organizations has abolished free assemblage, free speech and free press within its respective jurisdiction. Is not this autocracy in its most offensive form? In Russia it is the dictatorship of the proletariat. In Italy it is the dictatorship of Fascism. The dictatorship practiced by each of these organizations is offensive to the American working man's conception of freedom and liberty.

"In opposing this sort of an autocracy we are not attempting to interfere in the political affairs of Italy. We cannot, however, close our eyes to the situation as it exists among the working people of the Italian nation nor can we countenance or tolerate the influence and work of the Fascist organizations in the United States."

In 1928 every resident of Texas should study the possibilities of this great state and pull together for a greater Texas.

### AN ORDINANCE.

Hereafter it shall be unlawful for any person, firm or corporation to unload corn within the corporate limits of City of Brownfield, Texas, unless the same is securely housed, without a permit from the City Council of said City of Brownfield.

Any person violating this ordinance shall be fined in any sum not over Two Hundred Dollars.

Hereafter it shall be unlawful to offer for sale or sell to the general public within the corporate limits of the City of Brownfield, Texas, any milk or cream produced from cows which have not been tested by a qualified veterinarian with tuberculin for tuberculosis.

Any person violating this ordinance shall be fined in any sum not over two hundred dollars.

Passed and approved at regular meeting of the City Council of the City of Brownfield, Texas, on January, 9th, A. D. 1928.

Joe J. McGowan, Mayor.

ATTEST:

Roy Herod, Secretary.

### 'DEAF AND DUMB' BEGGARS HAVE MUCH MONEY.

COLORADO, Jan. 14.—Two "deaf and dumb" beggars suddenly found their power of speech when they were arrested late Wednesday afternoon in Colorado by Chief of Police Hickman. They were traveling through the country and begging promiscuously by holding up a petition in front of every one they met. They were arrested on a charge of vagrancy and pleaded guilty, giving their names as Celmon Scott and Robert Brown.

About \$1,000 was found on the two, and the older man exhibited a bank book from an Oklahoma City bank which showed he had a balance of about \$18,000. The men stated that they had collected \$480 coming from Fort Worth to Colorado.

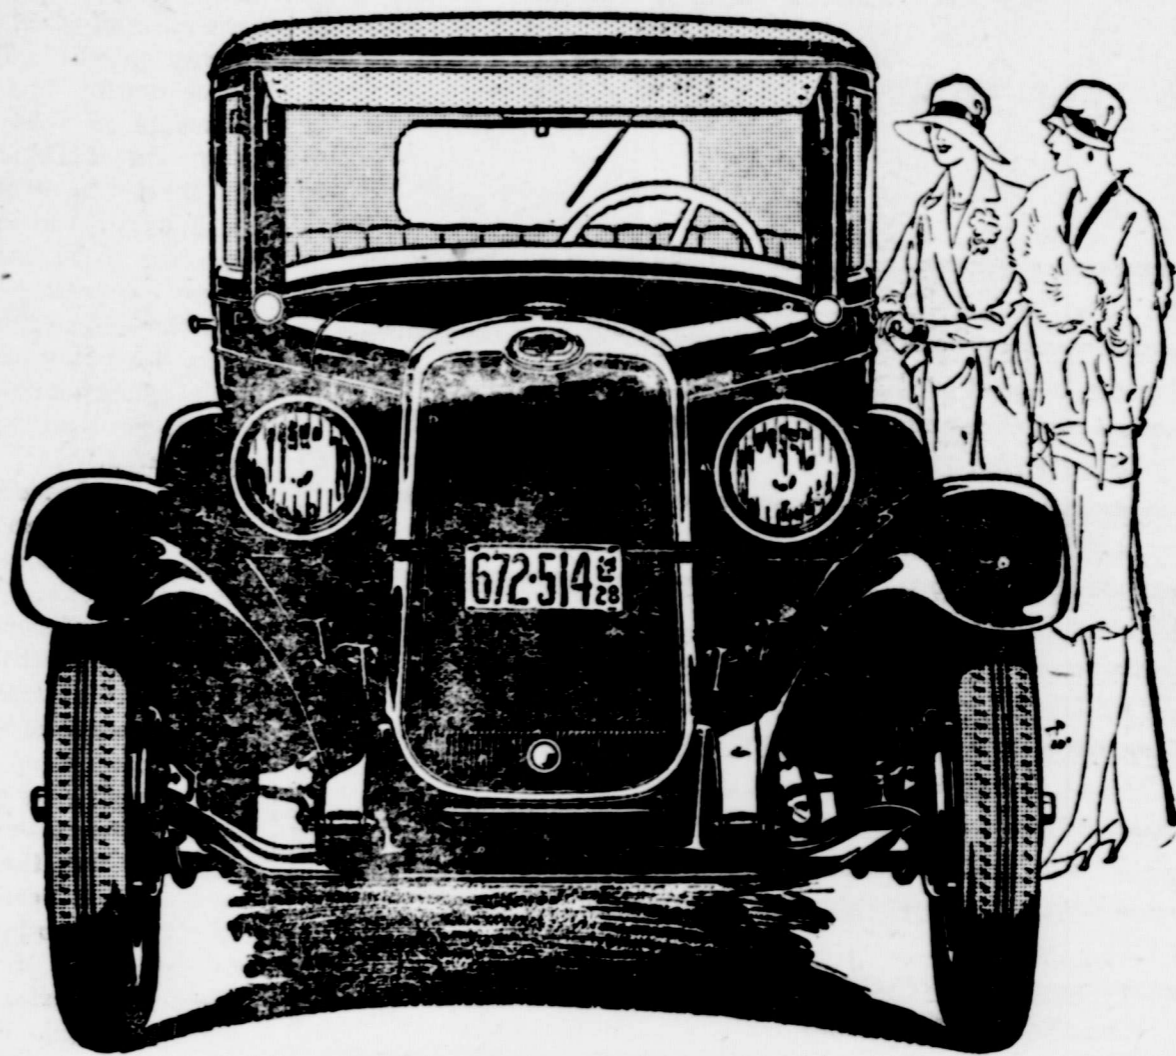

Texas ranked first in cotton, grain sorghums, sweet potatoes and pecans.

## Chevrolet Electrifies America with a Great New Motor Car

A new automobile so sensational as to electrify the nation!

With marvelous new Fisher bodies offering all the distinction, beauty and luxury for which Fisher craftsmen are famous! With performance that is a revelation to owners of even higher priced cars! With 107-inch wheelbase—four inches longer than before! With four-wheel brakes—and many additional mechanical achievements!

And... prices that demonstrate again Chevrolet's ability to provide the utmost in modern motoring luxury at the lowest possible cost!

The engine of this great new car is of the improved valve-in-head design. With alloy "invar strut" pistons... specially designed hydro-laminated camshaft gears... mushroom type valve tappets... and a complete new steel motor enclosure—it provides a type of motor operation so thrilling that it must be experienced to be appreciated!

Coupled with this thrilling acceleration and speed is a

type of riding and driving comfort almost unbelievable in a low-priced car. Four inches longer than the previous Chevrolet chassis... swung low to the road... and with four semi-elliptic shock absorber springs—the Bigger and Better Chevrolet holds the road with a surety that is simply amazing, and rides in perfect comfort at high speeds over the roughest stretches of highway.

And never before was a low-priced car so easy to drive—for the worm and gear steering mechanism is fitted with ball bearings throughout... even at the front axle knuckles.

All these spectacular new mechanical advancements are, of course, in addition to the host of notable features that Chevrolet has previously pioneered in the low-price field.

Come in and see this latest and greatest General Motors achievement! Learn why it is everywhere the subject of enthusiastic comment—why everywhere it is hailed as the world's most luxurious low-priced automobile.

## CARTER CHEVROLET COMPANY BROWNFIELD, TEXAS

QUALITY AT LOW COST

### EXTENSION CLASSES REPORT GOOD ATTENDANCE

The Extension Classes, Education No. 432 and No. 331, that Mr. McDonald from the Tech came down to organize were started off Saturday with a good enrollment, there being 19 enrolled in the first and 15 in the second. We are anxious for others to join us this coming Saturday if they wish to get in on this work as that is the last day for enrollment.

This work means much to Terry County Schools for it is the College coming to the schools, instead of the pupils going to the College. There is no reason why we should not be able to have classes in several different departments of the College held here in Brownfield. Get in and help make the work go.

A press agent says of a lecturer that he never visits the same city twice. Maybe he doesn't dare to.

Guss Ratcliff was in Monday to see court get started for the term.

### NOTICE TO EX-SOLDIERS

On the 26th, being the fourth and last Thursday night in the month, there will be one of the biggest if not the very biggest meetings ever held at the Legion Hall in Brownfield. Hot coffee and chocolate, sandwiches, will be served, and among the entertainment features will be singing, music, sparring matches, and lots of other entertainment.

Don't miss this meeting. Bring your

wife, sister, mother or sweetheart and all the ex-soldiers you know. They will all enjoy it!

By order of—  
Howard Post, American Legion  
Brownfield, Texas

Samson was one of the earliest big advertisers, and got amazing results by using two columns.

Being old-fashioned, we still feel that a girl should not propose to a man except as a last resort.

### NOT A BAD IDEA!

Boring Young Man (holding forth to pretty girl): You know, I'm funny like that—always throw myself into anything I undertake.

Pretty Girl (sweetly): How splendid! Why don't you dig a well?—Missouri Outlaw.

A doctor gets paid according to his knowledge of the patient's physical and financial condition.

OLD SMITH & WILLIAMS STAND

McCORD GIN CO.

I. M. Smith is now fast recovering from an attack on him by his herd bull recently. I. M. says he don't believe he will ever become a bull fighter. Had the bull had good horns, we might have had to write I. M.'s

obituary instead of this semi-humorous article.

A. C. Copeland of Yoakum county, accompanied by his son Charley and his little son, were here Wednesday after supplies.

### THE IMPROVEMENT OF TOKIO

In the year of 1927 I lived at a very small village by the name of Tokio. It consisted of two grocery stores, three filling stations, one garage, one gin, and one church. In the winter of 1927 they moved the highway on which Tokio was located farther south. In a very short while the people of Tokio began to watch the growth of Tokio.

In the spring of 1930 the last rail was laid for the railway on which Tokio was to be located. There was a great celebration that day to celebrate the completion of the railway. By the beginning of another year the people of the place where Tokio used to be located moved to where it was now located.

Tokio was indeed growing to be a real town. I then decided to leave Tokio, so I went north to New York City in the world. Tokio was dead to me except information I received through friends there.

One day I chanced to pick up a paper and saw the headline was something about Tokio. I looked at it for a while trying to think where I had heard the name before. At last I thought it was the old place way down in West Texas where I used to live. I began to buy and read all the articles I could find on Tokio. I learned that during the time I had been gone Tokio had been enjoying paved streets and stop lights. Also I learned about the great schools, Colleges and Public Libraries that had been erected there.

I gave it very little thought until I noticed that Tokio was the largest city in Texas. I began to want to see the large city although I remained on in New York City until I heard Tokio was the largest city in the world. I was getting old and wanted to see my old home once more. On December 5th, 1930, I left New York City in an aeroplane for Tokio. I reached Tokio to spend Christmas. It was really a shock to me to see how Tokio had grown from a very small village to the largest city in the world.

As I was accustomed to a large city I knew what to do. I went to a hotel which was the largest hotel in the United States. I met an old friend whom I had gone to school with at Tokio in 1927. He was overjoyed to see me as also I was to see him. He had a large motor car so we drove around over the city for me to see it. There were skyscrapers on all sides of the streets and many buildings of which New York City could not boast.

We were driving around one day when he said, "Let's drive down this way." I said, "All right." So he gave the chauffeur orders and we stopped at a large marble building. I asked him what it was. We went inside and it was the largest college in the world. Standing by it was the old school building in which I had gone to school 53 years ago and had many good times.

Mr. Knoll was long since forgotten at Tokio, as he remained there for only a short time, going to N. T. S. T. C., then to Columbia for his M. S. Degree and to London for his P. H. D. degree.

### SALT WATER HIT IN GAINES COUNTY TEST WELL

Current reports regarding the Westheimer & Daube test, southeast of Seminole, are that they hit salt water, which rose to a depth of 4000 feet, one day last week.

We understand that they are filling the bale and pulling the casing preparatory to abandoning the well.

As to future operations of Westheimer and Daube in this territory, nothing has been given out. It is said they will move materials and machinery to other locations.—Seminole Sentinel.

We are glad to see our subscription list growing so fast. Indeed it has hardly made such a record as now in its history under the present management at least, yet we have made no special effort; just trying to give the people a good paper and the readers are telling their neighbors about it. While our outside of county list is growing rapidly, most of the new ones are home readers, which makes it a better advertising medium for home merchants all the time.

Mrs. A. J. Akers has moved back to Memphis, Texas for the time being but as most of her property interests are centered here, she will return here frequently.

Floyd Pyeatt, of Quitaqua, was over the past week visiting his brother, W. A. Pyeatt and family. Floyd was among the early settlers of Terry but left here ten or twelve years ago.

J. O. Hobbs of the Harmony community was in Monday and became a regular reader of the Herald, saying he wanted to keep track of the sheriff's race.

"When the roll is called up yonder" the size of a man's roll will not count for so much.

### TECH COW PRODUCING TEN GALLONS PER DAY

LUBBOCK, Texas, Jan. 16.—Prof. W. L. Stangel of the school of agriculture of Texas Technological college has had seven of the college Holstein cows on test for the past several months by representatives of the Advanced Registry Association. One of the cows has produced more than 5,000 pounds of milk in the last two months, this being a little more than ten gallons per day average.

### INTENSIVE FARMING

"Why are you running a steam roller over that field?" asked the stranger.

"I'm trying to raise mashed potatoes," explained the farmer.—Lehigh Burr.

### THE BOSS GIVES ORDERS

Professor: "See here, my man, who in the devil told you to plant all that new shrubbery in my front yard?"

Gardener: "Why, your wife, of course."

Professor: "Mighty pretty, isn't it?" —Wabash Caveman.

California wants to annex Nevada, but that would simply ruin Reno's leading industry.

If a man feels it in his bones it is apt to be rheumatism.

Misses Mary Ann Bell and Lois Adams are becoming very popular since they have become fully acquainted—with (?).

Miss Mamie Sue Flache accompanied by Miss Mary Frances Cooper, came down from Tech to spend the week-end with Miss Flache's parents.

W. F. Snitker, one of our prominent young farmers was in recently looking after business matters and handed in another dollar on Herald subscription.

Texas again leads the nation in value of crops, the federal crop reporting bureau states. The valuation of crops for 1927 is placed at \$750,000,000, a gain of \$103,000,000 over 1926.

This is \$250,000,000 more than the next state, which is Iowa with a crop valuation of \$502,000,000.

Most people wouldn't want their own way if they could have it.

If a penniless man has nowhere else to go he should go to work.

A patent medicine testimonial occasionally thrusts greatness upon a small man.

Wm. Butcher of the Pleasant Valley section came in this week to have his Herald changed to Wildcherry, Ark. But he informed us that he'd be back some of these days.

F. M. Cornebie was in Wednesday after supplies.

### Ready for Spring

The eggs of the orb weaver spider usually hatch in autumn, says Nature Magazine, and the young remain in the cocoon through the winter.

### Most Widely-Used Letters

The letter "e" occurs more often than any other in ordinary writing, according to Liberty. The letter "a" is next in frequency.

### Small-Minded

Jealousy is compounded of selfishness, egotism and vanity. It is a pitifully small nature that cannot bear to hear another praised.

### Watch Your Step

The Scripture says truly that "evil communications corrupt good manners," and there are many kinds of evil communications at work all the time. They glance off right-minded persons, while they penetrate into the character and make-up of unstable-minded persons.

## 1927 BRIDGE CLUB WITH MRS. LEWIS.

The 1927 Bridge Club members were guests of Mrs. Dalton Lewis, Wednesday afternoon at three o'clock. The members cut for prizes and Mrs. Jack Holt cut high, a pretty imported flower bowl. Mrs. A. M. McBurnett cut next to high and received a pretty ornamental hanging basket. The hostess served sausage, muffets, stuffed tomatoes, pineapple pie with whipped cream and hot tea. Club members playing were Mesdames Chester Gore, Hamilton, Jack Holt, Earl Jones, McBurnett, Stricklin, W. C. Smith and the hostess.

## NIGHT BRIDGE CLUB WITH MR. AND MRS. MAY.

Mr. and Mrs. Tom May entertained the Night Bridge Club, Thursday evening at seven-thirty. Mrs. J. D. Miller received high score prize for the ladies, a beautiful embroidered luncheon cloth. Mr. J. J. McGowan won high for the men and received a cunning smoking stand of Jiggs holding an ash tray with "Maggie" on it. Sandwiches, caramel pie with whipped cream and coffee were served. The guests were Mr. and Mrs. McGowan, Mr. and Mrs. King, Mr. and Mrs. J. D. Miller, Mr. and Mrs. Roy Wingerd, Mr. and Mrs. Enderesen, Holmes, Bowers, Michie and A. M. Brownfield.

## MRS. SHELTON HOSTESS TO LUNCHEON CLUB.

Mrs. J. E. Shelton was hostess to the Luncheon Club, Friday. A delicious luncheon was served at one o'clock after which four games of bridge were played with Mrs. Lyle getting high score. As this was Mrs. Shelton's birthday the club members each brought her a beautiful handkerchief. The club members and guests were Mesdames Will Alf Bell, McGowan, King, Miller, Enderesen, Earl Alexander; Mrs. Paul Stephens and Mrs. H. N. Lyle were guests from Post, Texas.

Mrs. Paul Stevens is remembered as Miss Mary Shelton and Mrs. Lyle is a sister-in-law of Mrs. Shelton.

## FRIDAY FORTY TWO CLUB ENTERTAIN HUSBANDS.

The Friday Forty Two Club members and their husbands were entertained Friday evening at eight o'clock at the home of Mr. and Mrs. J. H. Griffin. Mrs. Claude Hudgins got high cut, a pretty flower bowl which she presented to Mrs. Griffin who was so nice to have the club party at her home, and Mr. Flem McSpadden received high cut for men, a leather purse. Chicken sandwiches, olives, potato chips, refrigerator cake with whipped cream and hot tea were served. The guests were Messrs. and Mesdames J. L. Cruce, S. H. Holgate, R. M. Kendrick, Townsend, Claude Hudgins, Pat Brothers, Flem McSpadden, Baldwin, Hamilton, Tom May, Dallas, Downing, McBurnett, Homer Winston, W. C. Smith and Mrs. Clint Rambo and Mrs. Ben Hurst.

## GIRLS ENTERTAINED WITH A SLUMBER PARTY.

Miss Voncile Holgate entertained a number of her girl friends recently with a slumber party. Some young men came up for two or three hours and a general good time was had by all. A midnight luncheon of sandwiches and fruit was served. The young ladies enjoying this occasion were Misses Florence Holt, Mary Ann Bell, Gladys Kendrick, Annie Bell Scudday, Hazel Stafford, Lou Ellen Brown, Lillie Mae Bailey, Lena Mae Ballard, Cathleen Alexander and Lois Adams.

Among the Tech students who were home for the week end were Miss Mamie Sue Flache with a friend Miss Mary Frances Cooper, Miss Larue Sawyer and Messrs. James Harley Dallas, Darrell Jackson and James King, and Miss Louise Chisholm.

Miss Caroline Spencer of Lubbock spent the week end with her grandparents, Mr. and Mrs. J. L. Randal and attending the birthday party of Miss Sallie Truman Stricklin.

Bobbie, the young son of Mr. and Mrs. Earl Jones drank some gasoline at the home of his grandparents last Thursday and was real sick for a while, but seems to be all right now.

## SALLIE T. STRICKLIN AND SAMMIE CHISHOLM CELEBRATE.

Miss Sallie Truman Stricklin and Master Sammie Chisholm were joint hostesses to about forty of their friends Saturday afternoon when they celebrated their ninth birthdays. At one thirty o'clock all went to the Rialto Theatre, after which they went to the Hunter Drug Store, where in the rear of the store, a long table was placed beautifully decorated with candles and cut flowers. Each child was given a tiny hat and nose glasses to wear. The girls also received small boxes of powder as favors. A nice program was given in which Miss Evelyn Morgan danced and sang followed by readings from Misses Billie Groves and Caroline Spencer. The immense birthday cake was topped with nine pink candles and nine white ones, a different color for each honoree. The guests present were Herbert Hoover, Joe Hardin, Arthur Jackson, Virginia May, Quenelle Sawyer, Ora Dee Eiche, Woodrow Coe, Claude Hudgins Jr., Lavois Scudday, Jim Shelton, Helen Green, Marie Robbin, Loretta Carr, Lois Bennett, Howell Carpenter, Joe Bob Burnett, Alvin Lee Smith, Bill Hardin, Charles Michie, Sylvia Stone, T. I. Brown Jr., Billie Joe McGowan, Wendel Rowe Smith, Billie Joe Jacobs, Vermal Brothers, Marion and Dorothy Chisholm, Kathleen Hardin, El Ray Lewis, Cathleen Alexander, Evelyn Morgan, Margene Griffin, Mattie Joe Gracey, Billie Groves, T. W. White, Beatrice Perry, Velmois Burnett and Lorena White. Miss Sue Crawford assisted in the entertainment.

Mrs. Paul Goetze and daughters, Mrs. Joe Lee Smith and Miss Maud Ellen and Miss Mary Tom Lismon, all of Vernon, were visiting Mrs. Goetze's son, George, who is here working for the oil company.

Miss Annie Lois Easley who is now nursing in the Lubbock Sanitarium and Miss Aileen Phillips, who is teaching expression at Slaton were house guests of Mrs. Leo Holmes and Mrs. Randal for the week end. Both young ladies were in Brownfield last year and are well known.

## CHRISTIAN ENDEAVOR PARTY

The Christian Endeavor Society was entertained Saturday evening at the home of Mrs. Earl Alexander. A merry evening was spent playing "Hearts" and other games and listening to a good radio program. Refreshments consisting of sandwiches, cake and hot chocolate were served. Those present were Misses Mary Perkins, Rosalee Goodpasture, Juanita Perkins, Laula, Carrie and Julia Head Christova Sawyer, Cordie Mae Shepherd, Lena Mae McPherson, Doris Bandy, and Messrs. Leorval Lewis, Adolphus Smith, Spencer Kendrick, Jim Graves, Kerney Scudday, Bill Collins, Clovis Kendrick, Curtis Gasaway, Grady Goodpasture and James Harley Dallas.

Mr. and Mrs. Joel Fain of Childress spent Sunday with Mrs. Fain's sister, Mrs. W. J. Harris.

Mrs. B. W. Hahn who was taken to the Lubbock Sanitarium Saturday and was operated on Sunday is now doing nicely.

Mr. and Mrs. Bob Snodgrass have been isiting Mrs. Snodgrass' mother and sisters. Mr. and Mrs. Snodgrass formerly lived here and are well known.

Mr. and Mrs. Berry of San Angelo are visiting their daughter, Mrs. B. D. DuBois.

## BAPTIST MISSIONARY SOCIETY.

The Viola Humphries Circle met Monday with Mrs. Geo. Neill with nine members present. The following program was given: Song: Jesus Calls Us. Devotional led by Mrs. W. W. Price. Special Song by Mrs. Price and Mrs. Fagala. Missionary Lesson. Prayer for the Missionaries at home—Mrs. W. M. Copeland. This was followed by a business session in which it was voted to release Mesdames Murphy and English so that they might join Circle A which would be more convenient. It was also voted to meet with the members alphabetically, meeting with Mrs. Nabors next week. Refreshments were served by the hostess.

The Ookey Club was entertained Tuesday afternoon at four thirty by Miss Alma Brown. Bridge was

Brownfield - - - Texas

## Better Begin Practicing The Traffic Rules

One or two citizens having been badly hurt by carelessness on the part of motorists recently, not to say anything about several wrecks on the streets from collisions, the city council have instructed the city officers to get next to those who are violating the traffic laws of the city. But in order to play fair, they have decided to give notice by publication for two weeks in order that local motorists be given a square deal before being hauled up before the mayor in answer to violations and to pay fines.

So if you have been turning around in the middle of blocks of late, cutting corners, etc., better begin right now to do the right thing, as the traffic laws will strictly be enforced on and after Feb. 1st. We understand also, that there will be some stop signs placed on the main streets, and you had as well learn what they are put there for before being reminded with a good heavy fine.

While they were at their good task, the city council added two mighty ordinances, one relating to piling up corn all over the city for the shucks to blow here and yon. The store man and the housewife are supposed to burn all old papers and not pour them out on the streets to blow around and mess up the town. But what is the use of all this if corn is to be piled up all over town and the shucks permitted to bank up around every yard? Who can keep their premises looking like anything under such conditions? Of course we are all glad that Brownfield is a corn market and has corn to sell less fortunate sections out there is a right way and a wrong way to do anything. Being that we are still without elevators, we must to the next best thing and respect our neighbors by keeping trash of every description from blowing all over adjoining premises.

The other ordinance relates to the sale of milk. After this ordinance goes into effect, no one who has not had their cows tested for tuberculosis

will be allowed to sell their milk within the city limits of Brownfield. This is a mighty good health safe guard.

## Tokio School Notes

We started school Monday morning with everyone feeling fine over the singing convention. It was what I call a success. The children didn't have their lessons so well Monday on account of it, but we all fell like that we were profited by the good singing.

Little Glen Martin happened to the painful accident of getting his collar bone broken Sunday evening when he jumped off a car while it was going. He is getting along nicely now and we hope he will continue to do so.

Mrs. Clark started to teaching her music class Monday. There are going to be several to take we understand, and we are expecting to have several musicians before long.

There were five new pupils started to school Monday morning. We were very proud to have them. We understand that we are going to have several more new pupils later on. We will welcome each one for I don't think we could have too many.

We understand that Mr. Knoll will get his glasses this afternoon of which we are all very proud. He has been without them now for almost two weeks.

Mr. Dan Blair spent the week end at the home of Miss Maggie Jowers. Look out Tokio boys! These Snyder guys are getting mighty popular around here.

The following are the ones that averaged above 90 this month:

Vivian Maroney, 9th grade..... 97%  
Edith Norris, 10th grade..... 94%  
Ora Pippin, 10th grade..... 92%  
Doris Snodgrass, 6th grade..... 96%

Come on folks lets not let algebra knock us off. We can do just as good.

Ida Mae Pippin.

Mr. Paul Alexander informed us this week that he had obtained a job on a ranch near Plains, and was moving to that place, and wished the Herald to follow him.

## The Sandman Story Martha Martin

### DISCOVERED AMERICA

OCTOBER TWELTH is not celebrated as a holiday because it was the day upon which Christopher Columbus was born, but because it was supposed to be the date upon which Columbus first stood upon the ground which forms a part of the continent of America.

The exact date of his birth is not known, nor the exact place.

His birthplace is supposed to be near Genoa, in Italy, and some time about 1492.

The date which we all know, is 1492. That was the year in which he discovered

route to Asia by going west. The roundness of the earth meant something very real to Columbus. He puzzled over it, thought of it, saw in his mind the round, round earth and of himself traveled into Asia by another door as it were!

So at last he started on this venture. Partly with royal assistance, and partly with the help of the Zinzons, merchants of Palos, they started.

There were only three small vessels, the Santa Maria, which was the flagship, manned by Columbus; the Nina, commanded by Vincente Yanez Pinzon, and the Pinta, commanded by Martin Alonzo Pinzon, and in all there were no more than 120 men.

It was August 3, 1492, that they left Palos; or, as we have always said in the little rhyme which makes us keep the date of the discovery of America in our minds:

Columbus sailed the ocean blue,  
In fourteen hundred and ninety-two.

Whatever dates we may forget, that will somehow always stay in our minds, I think, for not only is there the rhyme, but there is that little picture we can see of Columbus standing in the bow of his small vessel, followed by the two others, and of the water so blue and sparkling and beautiful and smooth.

Columbus took many voyages in his lifetime; he discovered many islands, made for himself a great and lasting name in history, but he never knew he had discovered a new continent.

Always he thought that those places he had touched had been parts of Asia.

And it seems quite sad to think of the times we've been applauded (and often, very justly, too) when we've recited well or played the piano well, or something of that sort, that Christopher Columbus, who discovered America, did not even know of the great deed that he had done.

Never had he any realization that in a new continent would they erect monuments to him, nor that in schools they would give pageants about his trip, his discouragements, his successes.

And his little son, Diego, whom Queen Isabella made a page at the Spanish court, could not boast to the others and say:

"My father has discovered a new continent, which is more than can be said for most fathers, and most people, for that matter!"

For neither did little Diego know, and it has always seemed such a pity.

It would have been a splendid thing for any little boy to have been able to say!

(Copyright.)

So at Last He Started on This Venture.

ered America, and for a discovery of that sort it seems only fair and right that we should do him the honor of celebrating a special day for him.

For Columbus was the one who made so many things possible. Perhaps others may have discovered what he did—doubtless in time to come they would have done so—but that is all guesswork on our part. The fact is Columbus did make the discovery, so that since his time the countries upon this continent have accomplished so much that is splendid and amazing.

The parents of Columbus were wood-combers, but they saw to it that Columbus was quite well educated. At an early age he began his life upon the sea.

We all know of his desires and his struggles to obtain aid to discover a

## INDIANS OF BOLIVIA RELATED TO INCAS

Aymaras Conquered by a Once Powerful Race.

Washington.—The Indian revolt in Bolivia, South America, is being carried on by a people closely related to the ancient Incas of the Andean highlands, whose civilization, before the coming of the Spanish conquerors, was one of the most highly developed in the New world. A bulletin from the National Geographic society tells of these highlanders and their past glories.

The Indians of Bolivia are Aymaras," says the bulletin, "while the direct descendants of the Incas, in Peru, are known as Quichuas. The old Incas, at the height of their power, conquered the Aymaras of their day, but the Aymara land around Lake Titicaca was the holy land of the Incas, because they looked upon it as the origin of both their civilization and their blood. Because of this relationship the Aymaras received special privileges over the vassals of the Incas. The full-blood Bolivian Indians of today therefore may be looked upon as representatives of the race from which the great Inca civilization sprang.

### Have Little to Do With Whites.

"The Bolivian Aymaras and the Peruvian Quichuas are much alike in appearance and characteristics. Those of the highlands of both countries have developed huge chests in the rarefied air. Their active life of climbing has given them extra strong leg muscles. Both have dark reddish complexions, broad faces and black eyes. They are a sullen people, having little to do with the whites and apparently resenting their intrusion.

"More than 50 per cent of the inhabitants of Bolivia are full-blood Aymaras, while nearly 30 per cent are of mixed blood, the so-called 'Cholas.' The Cholas and the whites live for the most part in La Paz, the capital of Bolivia, and the other sizeable towns. The village populations are almost wholly Indian, and large numbers of Indians also live on the agricultural estates and the grazing lands, working usually for white owners.

### Wear Few Clothes.

"Although it is bitterly cold on the wind-swept, bleak upland plains of Bolivia, the natives wear little clothes, most of them going bare-legged. They seem intent, however, on keeping their heads warm, and beneath their hats men wear woolen skull caps. They live chiefly on frozen potatoes and dried goat meat.

"The great mass of the Indian population of Bolivia is illiterate. Many of the Indians cannot speak Spanish, and some who understand the language pretend ignorance to avoid contacts with the whites.

"Yet the ancestors of these people produced great cities which give evidence of a high degree of culture. One of the most remarkable of the Inca cities was Machu Picchu, a city of refuge where Inca civilization was kept alive during many centuries. The ruins of this city, hidden in almost inaccessible mountain fastnesses, were discovered by a National Geographic society expedition in 1912.

"The most famous pre-Inca ruins are those of Tiwanaco in Bolivia, not far from Lake Titicaca. These are believed to be the remains of buildings constructed by the ancestors of the Aymaras. The walls, still standing, are composed of huge stones set without mortar. The stones were dressed so well by their ancient makers that they are in perfect contact and have remained as placed hundreds of years ago."

### Official Listening in Approved in France

Paris.—Government employees listen in on presumably private telephone conversations in France, but not from curiosity. They merely want to be sure that the telephone is working all right. They seldom sit in on an entire conversation, contenting themselves with sufficient snatches to show whether the communication is clear. From the many complaints one hears it may be assumed they are more easily satisfied with the clarity of the line than the ordinary subscriber.

When the royalist leader, Leon Daudet, was released from prison by a trick telephone call, it was explained by the embarrassed government that the inspectors who listen in on telephone conversations were at luncheon at the time.

This aroused the League of the Rights of Man. They wrote to the minister of commerce to inquire whether telephone conversations were no longer secret. The minister explained that they were, but that in each exchange was an "observation table," whose occupants cut into conversations to test the quality of the service.

### Find Rubber Tree Growing in His Yard

Orange, Texas.—The only rubber tree in Texas has been discovered here. The owner started to cut it down, but observed that it was of unusual type. Neighbors recalled that a late owner of the place set out the plant many years ago. The tree now is a foot in diameter and in a thriving condition.

## STILL GET THRILL AT PENNY ARCADES

New York Sticks to Ancient Amusement.

New York.—Eight o'clock in the morning is the zero hour for entertainment in New York. Nothing remains, apparently, but to crawl into a taxi and give the driver your home address.

That is, of course, if you do not belong to that class of New Yorkers who know all the little intimate things about their home town. For instance, that when it's eight o'clock in the morning, when you've dissipated the best part of your bank roll, when you still prefer any place to home, you can turn toward Sixth avenue and find the bacchanal spirit running riot to the strains of a mechanical piano in a penny arcade.

The early morning recreation problem has been solved by this thoughtful amusement resort that flings wide its doors at 7:30 and within half an hour has collected a swarming throng of customers.

The silken and the seamy citizenry of New York is there. Don't be surprised to see the former in tuxedos and spangles debark noisily from an open victoria at the curb.

### Gold Mine to Arcade.

These rich once-in-a-whilers are a gold mine, for they "do" the works at an outlay of \$1.50 each—the tariff on the entire 150 machines designed for the public's enjoyment. They may even give another dollar to be photographed before the canvas scenery of a bar painted with such sentiments as "Drink Here and Die at Home."

The average customer, however, is good for only about three cents, the change from a breakfast of cold slaw, an ice cream sandwich and orangeade at a cheap restaurant next door.

Tim, the florid faced manager, is probably the worst cynic on Sixth avenue. It beats his Irish understanding how crooked a guy can be in the matter of a cent.

"You'd never believe it, but there are people that will swear falsely they put in the money and the machinery wouldn't go," he deplures.

Tim asserts that his employers get gyped out of plenty of money a year this way. He's been changing nickels for pennies during two decades of service for the single corporation which monopolizes ownership of the few remaining peep palaces in New York.

Tim says that about 1,100 people come in every day. And at least 1,007 are out on the pretext of visiting the Sixth avenue employment agencies that cluster around the district at the rate of ten to a block. Although the arcade keeps open till midnight, business falls off perceptibly as soon as the job exchanges close.

The arcade offers a diversity of amusements. The athletic, the superstitious, the musically bent, the practical, and, of course, the seeker for thrills, have all been remembered.

### Fortunes Told.

Visitors come first to fifteen or sixteen fortune telling devices. The Little Gypsy, for the small consideration of a copper, will answer briefly, "Can I trust my love?" "Am I a liar?" "Is there any hope for me?" or "Is my salary going to be raised?" She won't give you any particulars, except registering "Yes," "No" or "Maybe." But who would say that it isn't worth the price?

The mystic wheel also assures you that you can have a preview of your bridegroom. While the wheel actually comes across with his photograph, there's a futility in it at that. The man looks ready to leap on a bicycle built for two. If he is still alive somewhere he probably wants a wife who can run a wheel chair.

The surprising artistic allurement is the crank driven mutoscope or peep show that gives you two eye-fuls for the same reasonable price asked in 1897. The shapely ladies have stood the strain remarkably well.

"The Death Chair at Sing Sing" has exhausted its melodramatic horrors and works no longer. The attraction called "What Girls do When They Are Alone" gives the educational information that they skip rope clad in flannel night dresses. Another well worn one is the caption, "For Men Only." Here you have a whimsical little piece about an artist who falls asleep while drawing a skeleton. In his dreams his model assumes the well rounded lines of a 1900 chorus girl, whom his modest subconscious mind discreetly covers with tights of a heavy woolen texture.

On your way out treat yourself to a penny squirt of perfume and stop to listen to Edison's first conception of a gramophone. If you've never heard "Valencia" or "The Prisoner's Song" stick rubber tubes in your ears and turn on the current.

### Comes to Life in Coffin

Buenos Aires.—Coming to life in her coffin three days after a doctor had pronounced her dead, a five-year-old girl started the mourners by opening her eyes and beginning to cry. At the time she was pronounced dead her distraught parents refused to be convinced.

### Some Spinner

London.—Mme. Vera Nemchinova, a ballet dancer, unassisted, spun around 40 times on one toe without touching the other foot on the floor. No other ballerina has ever spun more than 32 times, she claims.

### ONE CHILD DIES IN FIRE, 2 ARE BURNED

RALLS, Jan 12.—One child was burned to death and two other children were severely burned, one probably fatally, in a fire which early Thursday destroyed the home of H. L. Gregory, tenant on the Conner Parrish place, 15 miles south of Ralls. The fire started when a kerosene stove exploded. The mother of the children was in the barn milking at

the time of the explosion and the father was some distance from the house. The residence was a mass of flames before the fire was discovered.

### NURSERY RHYME FOR GROWN-UPS

Mary had a little lamb,  
Given by a friend to keep.  
It followed her around until  
It died from want of sleep.

—Exchange.

## Art Exhibit Dates

Are February 2-3-4

On Wednesday, Thursday and Friday, Feb. 2-3-4, there will be on display at the high school building an exhibition of picture of more than ordinary interest. It consists of some 200 carbon photographs, photogravures, prints in full colors, etc., loaned by the Elson Art Publication Co., Inc. of Belmont, Mass., and contains only the very best representations of the masterpieces of art of different countries and different periods.

A small admission fee will be charged for each of the three evenings entertainments and after the program has been given the various rooms containing the picture will be thrown open so everyone can pass thru and view these masterpieces of art. Nearly every gallery in the world as well as many of the private art galleries would have to be visited in order to see the originals of these pictures.

After deducting the expenses of the exhibit the proceeds will be used to purchase pictures for the schools, each school sharing equally in the proceeds. The purpose of the exhibit is to give the people an opportunity to see a collection of the world's famous masterpieces of painting, sculpture and architecture, to encourage and foster the study of art in the schools as well as the teaching of art appreciation, and to raise funds to place pictures on the walls of the various school rooms.

A program will be put on each evening by the school. The sale of tickets will be handled by the various grades, and in order to facilitate the sale of tickets the Elson Art Publishing Co. have given to be used as a prize one large photogravure. The school turning in the largest amount of money from the sale of tickets based on per capita enrollment will be given this picture.

On account of a few conflicts the Senior Economics class has been given to Professor Nance. He told them a few secrets the first morning, so now watch their smoke.

Mrs. A. A. Sawyer dropped in recently and had the Herald sent to her sister-in-law, Mrs. R. Barrier, of Lubbock, and also to her sister, Miss Queenelle Speigle, of Chicago.

## NO OIL FAMINE SEEN SAYS MARLAND

The worry about our "vanishing oil supply" appears to be unnecessary, according to the report of the Marland Committee on Conservation appointed by the American Petroleum Institute. Not only are improved methods of manufacture and use possible, but a hitherto unknown source of supply of huge extent may lie beneath the strata from which oil is now obtained. Geological investigation leads to this conclusion, and painstaking development is expected to reveal the new sources of supply.

"There is no imminent danger of the exhaustion of the petroleum reserves of the United States. It is reasonable to assume that a sufficient supply of oil will be available for national defense and for essential uses in the United States beyond the time when science will limit the demand by developing more efficient use of, or substitutes for, oil—or will displace its use as a source of power by harnessing a natural energy."

The above words from the Marland report should allay any fears that are current about the danger of exhaustion. Refinements in machines, said to be impossible by automotive experts, will more than double the mileage now obtained when prices justify changes, and improved mechanics will also result in smaller consumption of lubricants.

People once—some still do—feared the time when our coal deposits would disappear. This fear is practically gone. Thus far science and the discovery of new sources have allayed any doubts that may have existed concerning the disappearance of any resources.

The powers of science are great and when necessity appears there is nearly always—so far as we know, always—a substitute for the material once regarded as irreplaceable. Unused power lies about us in profusion. All that is needed is discovery of how to release it. Fiction writers have imagined these possibilities, and now, hard-headed experts are persuaded of the eventful solution of the difficulties. Science is nearly always in advance of man's needs, and there is no reason to expect that it will fail now. —Argus-Leader, Sioux Falls, South Dakota.

Our ideas of a modest man is one who can keep his opinion of himself to himself.

## SHIPS PESTERED BY STOWAWAYS

Youth Finds Thrills in Trying to Beat Way to Honolulu.

Honolulu, T. H.—One of the chief diversions of the usual ocean voyage between Honolulu and mainland ports of the United States is the uncovering of stowaways and their transfer to passing ships in mid-Pacific. Scarcely a trip is made without the passengers being entertained by stirring incidents connected with stowaways.

As the City of Honolulu was passing out of the harbor at Honolulu on her last trip to Wilmington, the Los Angeles port, she met the Calawit of the same line coming into port. Both ships stopped and the Calawit let down a lifeboat to transfer two stowaways to the City of Honolulu. While the transfer was being made one of the stowaways, Edward J. O'Hara, twenty-two years old, of New Orleans, jumped overboard and started to swim ashore, two miles.

### Unaware of Sharks.

Either O'Hara was ignorant of the fact that the waters outside the reef here are infested with sharks, or he was willing to take a desperate chance to reach the islands of his dreams. At any rate, he started out with strong swimming strokes for the distant palm-lined shore, while the passengers of both the Calawit and the City of Honolulu lined the decks to watch the outcome of the dangerous exploit. They shouted their encouragement to the young man.

The small boat delivered the other stowaway to the City of Honolulu, and in the meanwhile the one who had taken to the water was making fast progress toward the reef where the white breakers piled a flood of water into the more quiet inner harbor.

It happened that the officer of a submarine which was cruising nearby saw the stowaway jump overboard and strike out for shore. The submarine started in pursuit of the daring swimmer. It came alongside the stowaway in the course of 20 or 30 minutes and a life preserver to which a rope was attached was thrown to him. O'Hara was hauled on board and was delivered to port officers. He was permitted to remain here, as the law of deportation applies only to aliens. The other stowaway was made to work his way back to Wilmington on the City of Honolulu.

Most of these stowaways, both on the ships plying between San Francisco and Honolulu and between Los Angeles and Honolulu, are youths of seventeen to the early twenties in years of age. They are much more numerous during the college vacation period, and this is explained by the statement that many of them are students who are merely seeking adventure. They know that the worst thing that can happen to them is to be put to work, once they are discovered, or to be returned to their port of embarkation. Once Honolulu or the mainland ports are reached, they are permitted to go ashore and go about their own business.

Searching the ships for stowaways is a daily performance on these boats.

### Many Methods Adopted.

Many ingenious methods are adopted by stowaways to gain free passage across the Pacific. It is not a difficult matter for them to get aboard while the ships are in port and once aboard they are able to select whatever hiding place may best suit them. One of the most unusual instances of a successful voyage of this kind was that of a young college student who, by some means not known to the ship's officers, gained access to one of the best and highest-priced first-class cabins which had not been sold and was therefore unoccupied.

This young man was well dressed, a good conversationalist and no suspicion was aroused among the stewards and passengers whom he met that he was not a paid passenger. He evidently had gotten aboard before the regular passengers began to arrive, as he escaped being asked for his ticket. He was careful to go in and out of the stateroom when the room steward for that section was not looking and he kept his door locked at all times.

After the first day or two out of the port of Wilmington, however, he took his meals in the first class dining room and his table companions enjoyed his conversation very much, they afterward declared. This stowaway reached Honolulu and then wrote a letter to the steamship company thanking its officials for the splendid treatment he had received and promising to patronize the line again when he got ready to return to the mainland.

## German Envoy's Name a Series of Initials

Berlin. — Ambassador von Maltzan has admitted to friends that his real name isn't Ago at all. He was christened Adolf Georg Otto, but his father, finding the succession of names troublesome, made a new name of the initials A. G. O. The ambassador to Washington is now so generally known as Baron Ago von Maltzan that few persons know his real name.

## MEADOW BRIEFS

By Aesculapias.

The past week has been one of delightful spring weather and the farmers have made good use of it in gathering the remnant of cotton, which continues to decline.

We are also pleased to note that a number have begun preparation for another crop, by putting up their land which is to be commended. The earlier the better. I also notice that the wheat sown is beginning to look better since the freeze.

So far it seems our section has had more moisture than the plains north of us and that what small grain we have sown is in better shape.

Considerable maize and other feed stuff is being hauled here for market. Maize is bringing a good price and it is very probable that most of that being marketed will be needed here before crops are made. In fact the feed stuff being sold will in the near future bring very much more than the farmers are now receiving.

The writer has received for circulation, a petition asking the Commissioners to employ a county demonstration agent. It is being numerously signed and Meadow will bring up her quota of signatures. So far but one has refused to sign it and he was not a farmer. It is to be hoped that those who have the petition in hand in the other parts of the county will push the work through. That some few will refuse to sign is to be expected. In every department of human endeavor there are men and women that know it all, but I am inclined to think most farmers know that after years of study and application to farm problems, there is much to learn.

Doctors, teachers, mechanics and industrialists everywhere find it to their interests to take post-graduate work often if they are to keep up with the procession. It is equally true of farming. Let every one sign it and if we get a capable man—and we should—they will be materially benefited.

Mr. and Mrs. Edwin McAteer have a bran new man at their house. Edwin is extremely proud of it—it is his first.

To the man or woman who wrote me from Brownfield about some things I have written, I will answer soon if the spirit moves me. I am inclined to think however, that you have not given your real name.

## DESTROYING NATION'S RESERVE PROTECTION

From the standpoint of national defense, an intelligent knowledge of and skill in the use of small arms is vital in upholding our American system of government which depends almost wholly upon the nonprofessional soldier in times of emergency. In time of a crisis the regular army is unable to supply the necessary instructors to train a national army.

Had it not been for the fact that thousands and hundreds of thousands of American citizens have always been familiar with the use of firearms, revolvers and rifles since the establishment of our government, and were able to impart their knowledge to others, it would have been impossible for this nation to have protected itself in emergencies as they have arisen from time to time.

Legislation which would place the law-abiding citizen on the same basis as a criminal, in that it would deny him the right to purchase and use revolvers and pistols for lawful purposes, would in time actually destroy the reserve strength which has protected this nation and gained for it the respect of the whole world.

## EXECUTOR'S FINAL REPORT

The State of Texas. To the Sheriff or any Constable of Terry County, Texas—Greeting:

You are hereby commanded to be published once each week, for twenty days, exclusive of the date of the first publication, before the return date hereof, in a newspaper of general circulation, which has been regularly published in your county for more than twelve months before this date, a copy of the following notice: The State of Texas:

To All Persons Interested In The Estate Of R. H. Coons, Deceased: Artie Coons, Executor of said estate, has filed in the County Court of Terry County, Texas, his final exhibit and report of said estate, which will be heard by our County Court on the 1st Monday in February, 1928, same being the 6th day of said month, at the courthouse of said Terry County, in Brownfield, Texas, at which time all persons interested in said estate may appear and contest said exhibit and report should they desire to do so.

Herein Fail Not, but have you before said court on the first day of said term of court, this writ with your return thereon showing how you have executed the same.

Given under my hand and seal of said court, at office in Brownfield, Texas, this 15th day of November A. D. 1927.

Jay Barret, County Clerk, Terry, County Texas. 1-27-28.

## McCORMICK-DEERING P & O SUCCESS SULKY

—H-A-N-D C-O-N-T-R-O-L—

SIMPLE—STURDY—EFFICIENT

The McCormick-Deering P & O Success Sulky is one of the strongest riding plows built, not because it is a heavy plow, for it isn't, but because it is so simple, making it possible to use heavy material where strength is necessary.

It has every feature, and every adjustment essential to the doing of good work easily, both for man and horses. It is equipped with one of those famous P & O bottoms, with quick-detachable share.

One feature you will like especially is the hand control lever—it enables you to guide the plow quickly to or from the land, making it easy to keep the furrows straight and even. There is a cushion spring on the land axle that absorbs the shocks and jolts when the plow is traveling on rough ground, strikes a stone or hard clod. We know you will like the McCormick-Deering P & O Success Sulky. Come in and let us tell you all about it and the other McCormick-Deering farm machines on our floor.
