

The Terry County Herald

Printed in Terry County, on the South Plains; the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME 23

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, MARCH 23, 1928

NUMBER 31

Chamber of Commerce By the Secretary

The chamber of commerce has a letter from Captain Ed Kennedy, the promoter of our east and west railway, in which he advises that he will be here within ten days accompanied by representatives of the company who will be in a position to actually construct the system. They will probably arrive by the time that this article has reached the readers of the Herald.

A representative of one of the produce houses who has agents in Brownfield, was in the office this week and says that our people are feeding too much cotton seed and cotton seed meal to their milk cattle. From his explanation, it would seem that too much seed or meal in the dairy ration results in a very low grade of cream and consequently in a very low grade of butter. In fact the low grade of some of the cream marketed in Brownfield and other south plains towns results in a penalty being placed on the entire product and a lower price follows. He advises that if our milk producers would work out a dairy cow ration that would contain less seed or meal than his company and others would pay several cents more on the pound for butter fat than is now the case. In this connection we would advise that the chamber of commerce office has booklets on balanced ration for milk cows and the ingredients are mostly raised on the farms of the county. We would be glad to furnish them to any one free of charge. On top of the dairy ration, we have just received a circular from the poultry department of the A. & M. College, which says that we have been feeding too much sotton seed meal in the mash food of poultry, which has resulted in producing an egg that has a very low market value as it will not keep in storage. At the same time they give the proper proportion that should be in the mixture and say that it has its value, where not used in excess.

After this year our farmers will have the services of a County Agent, as the County Commissioners passed an order calling for the employment of one, but there is fifteen counties aside from ours on the waiting list and the officials of A. & M. College, who have charge of this department, have informed us that it will probably be ten months before we will be served.

It had been the intention of the chamber of commerce, to have a man who is skilled in seed selection and poultry production, come into the county and assist farmers in the selection of seed for this year's planting, but after talking with some of our leading farmers, it has been decided to delay this activity until the time that feed and corn begins to mature in order that practical demonstrations in the fields can be had. It is planned to hold meetings of this nature in each school district of the county.

Under the direction of a representative of the United States Department of Agriculture, Rodent Control, the county commissioners have had mixed over 6,000 pounds of grain to be used in killing prairie dogs. The County will be glad to supply any one in small or large quantities and the price is not high. It is very possible that a rat extermination campaign will be commenced within a short time, which will be under the direction of the same department and on which the commissioners and chamber of commerce will join forces.

We have a lot of bulletins on dairying and poultry raising that we would be glad to distribute to any one free of charge. Also bulletins on fruit growing, and canning of fruits and vegetables.

PLAN NEW POWER LINE FROM SLATON TO TAHOKA

Slaton.—The Texas Utilities Company will build a power line directly from Slaton to Tahoka, through Wilson, a distance of 24 miles, according to J. A. Elliott, Slaton manager. E. S. Billings, St. Louis, general manager made the announcement on a visit here. The line will cost about \$50,000, it is estimated, and will be finished this summer. Construction is to start as soon as materials can be assembled. The route is now being surveyed and the right of way is being secured.

Terry County Rural Schools Get \$4,250.

As stated in these columns last week, a rural school inspector was here from Austin, and was taken in charge by ex-officio superintendent, Judge H. R. Winston, and made the rounds of the schools of Terry county applying for State aid. Three days were spent among the schools, after which the inspector, Mr. William Eilers granted ten rural schools in Terry county the sum of \$4,250.00.

Some of those applying informed the Herald that they really got more money than they asked for after the inspector saw their buildings, equipment and what they were trying to do. This was especially true of the Johnson community, according to J. O. Wheatley, one of the trustees.

The following is the names of the schools and the amount each were granted:

Prairie View	\$200.00
Pleasant Valley	135.00
Johnson	515.00
Harmony	290.00
Wellman	1,000.00
Forrester	615.00
Lahey	250.00
Hunter	415.00
Tokio	335.00
Happy	495.00
Total	\$4250.00

Candidate for Congress Here this Week

Hon. J. Ross Bell, candidate for congress of this the 18th district, was a visitor here Monday, shaking hands with old friends from Paducah and that section, and meeting new friends. Mr. Bell is a very neat, presentable appearing man, and seems to be going after the office in a fashion to win.

Mr. Bell said very little to us about himself, but his old friends from Paducah seemed to be very willing to give us any and all information we wanted. To begin with they say that he is not only a good lawyer, but also a fine citizen and gentleman. That he is self-made, having come to West Texas years ago from the old states and began his career by teaching in the public school and studying law. As soon as he could he attended some university, completing his law course, and began practice. Since then he has had many offices of public trust in Cottle county, and is well liked by all who know him.

He will probably pay us a visit later on, at which time he may tell the voters in a public address about his platform.

Good Citizen Passes Away Sunday A. M.

Claude Jackson, 40, one of our most respected farmers passed away last Sunday morning about 6:20 after a lingering illness of some two or three years duration. His death, while expected for some time, cast a gloom over the community. He leaves a wife, now seriously ill, and four children besides numerous relatives to mourn his passing.

Funeral services were conducted Monday morning at ten o'clock by his pastor, Rev. John Chisholm, at the home of his brother, Jim Jackson, on account of the serious illness of deceased's wife, and the body carried to Lubbock by the Brownfield Undertaking Co. for burial.

Southland Life Installs New Agent Here

We are pleased to announce to the readers of the Herald that Will Alf Bell, Jr., has been appointed by district manager, Neill Wright, Lubbock, as local Southland Life Insurance agent in Brownfield.

Will Alf is a quiet young man, genteel in deportment, and courteous to his elders and friends. If you are in need of life insurance, we are sure that Will Alf will have a policy just to your suiting. Everybody ought to carry insurance, and the poorer or more in debt they are the worse they need it.

Mrs. Coy Abbott Shot Sunday Night

A local physician was called down in the Union community Sunday night to see Mrs. Coy Abbott who was reported to have shot herself while removing a revolver from a trunk. After an examination was made the physician decided to have her carried to Lubbock for examination and operation. The operation Monday morning disclosed the fact that she was not only shot through the stomach, but also through the liver and other vital organs. She died Monday afternoon without making a statement we understand.

It is alleged that the husband first said Mrs. Abbott shot herself accidentally, but later he is alleged to have said he shot her accidentally. He was arrested and is now in jail pending further investigation and probably the action of the next grand jury.

This is a very deplorable affair and we hope that further investigation reveals the fact that it was an accident, and that all parties may prove themselves clear of suspicion. The couple are said to be young people, barely past 20, and have one small child and were expecting the arrival of another.

Rotarians Entertain Tahoka Kiwanas Club

A large delegation representing the local Rotary Club left here at various times last Thursday afternoon for Tahoka at the invitation of the Tahoka Kiwanis Club, and despite the fact that a raging sandstorm was blowing, all but four of the local boys got away, accompanied by a number of musicians and other entertainers.

There was to have been a hot contest on the Tahoka golf links between champion Rotary and Kiwanis players, but we imagine the sandstorm blew all the golf out of them, for we heard nothing of the game. But the banquet and entertainment was different.

According to reports, at the appointed hour in the dining room of the First Baptist church, a banquet fit for the kings was spread, and the locals together with the hosts of the occasion were in prime need to partake to their heart's content.

At the conclusion, the visitors were welcomed by one of Tahoka's best after dinner speakers, and responded to by Morgan Copeland, president of the locals. Rev. John Chisholm and Judge Neill from here addressed the gathering, both in a rather humorous vane, both addresses being well received. The speaking was interspersed with some fine music by the Brownfield Light Opera Company or some such organization—maybe it was Moonshine Serenaders—we have forgotten, but it was said to have been excellent music, and the Tahoka bunch liked it.

The Tahoka Clubbers have agreed to set a date in the near future when they will come over and return the compliment.

ALL EVERGREEN CITY IS LAMESA'S SLOGAN

Lamesa—"Lamesa, a city of evergreens," is the slogan being sponsored by the civic department of the chamber of commerce. Not only is this being carried out in Lamesa, but in Dawson county as well.

The city commissioners are setting out 44 evergreens in the city courtyard and have agreed to do as much next year. They are using the Arboretum, English, Swedish and Chinese evergreens. Judge Gordon B. McGuire set out 18 evergreens around his home this week. The Parent-Teacher Association is putting out both evergreens and shade trees about the school buildings.

Many people are making special arrangements to get evergreens set out in their yards this spring. Dawson county farmers are putting out not only evergreens but shade trees, not to say many fruit trees.

THE FARMER FEDETH ALL

The boll weevil eats the farmer's cotton.

The bumblebee eats his honey;

The bedbug chews him up at night,

The humbug gets his money.—

Colorado Springs Telegraph

Experts Mix Prairie Dog Poison Monday

Brownfield was visited Monday by Messrs. O. L. Coleman and N. J. Rodgers, Federal and State poison experts, who were sent here to mix some 6,000 pounds of prairie dog poison for the county, which in turn will be issued out to the farmers at 6c per pound as long as it lasts. The poison grain which is mixed according to formula of the experts found to be best after years of experience, is now stored in the basement, and the price to farmers of Terry county represents exact cost of making as near as it could be figured. Some of the farmers are already obtaining the poison now before the grass gets greener and the prairie dogs quit grain for grass.

It is said that strychnine retails at something like \$1.25 per pound, but by taking a wholesale lot the county was able to obtain a price slightly over 45c, so you may see what a saving has been accomplished by cooperation as against the buying power of only one farmer.

It is poison too, for a portion of it was put out Monday afternoon around the courthouse for the benefit of the great congregation of English sparrows, and Tuesday morning some 250 dead ones had been picked up, and they were still turning their little feet to the lilies.

Now then Mr. Farmer, if you have got a bunch of barking purps near you that you wish to silence for all times, come in and get a bunch of this "good-bye powders" and feed 'em up on it.

Great Crowds Here For the Track Meet

Last Friday and Saturday were great days for Brownfield and Terry county folks, for they were county meet days, and they turned out fine and everybody had a huge time seemingly. Incidentally, the merchants felt the business of the extra crowd, for they not only came and saw the interesting races and other contests, but found time to do a wonderful lot of shopping on the side.

Friday was almost like the usual Saturday crowds here, and Saturday was almost like a Fourth of July picnic crowd—could not be stirred with a stick, but teachers, pupils and parents from various parts of the county had an opportunity to get acquainted and learn more of each other and the great work in which they are engaged.

Making the rounds Monday of the stores, all reported a brisk business both days, and that it was well worth the efforts of the town to bring any gathering like this to the city. R. A. Hoover, manager of the Jones Dry Goods, who had an extra special on gingham, reported that he sold three of his four stacks almost a yard high. Hoover says Herald advertising pays, and he don't mean maybe.

Reports from all merchants of all lines were just as glowing, and they were all in good humor and rearing to go again this week. The Herald is ready to do anything in its power to help our faithful advertising merchants to put over anything good for them or the town.

New Tailor Shop Opened for Business

John Markham and Ransie King have opened a tailor shop in the Bennett-Bynum Barber Shop, having purchased the machinery and location from Henry Alexander, who recently conducted a tailor shop in the building, and they would appreciate a share of your business.

These boys have both had considerable experience in the tailor business, and stand ready to prove to their customers that they can do work second to none, their work being fully guaranteed to please or your money refunded or the work redone. Read their ad elsewhere in these columns and give these young men some work.

We failed to mention last week that Eunice Jones, our utility superintendent was among the visitors to the Fat Stock Show.

Mrchant Buys Some Hen Fruit Saturday

G. W. Chisholm informed us Tuesday morning that the firm of Chisholm Bros. bought 1800 dozen eggs here Saturday, which is equivalent to some sixty cases, and paid the farmers of Terry county some \$350 for them. Now we call that some egg business. He informed us that they bought some 1500 dozen the Saturday before, and thought they had reached the maximum, but they were badly off.

Mr. Chisholm informed us also that they were all nice, clean eggs, and in fine shape every way. He said the farm folks were learning that it pays to market their produce in good shape and get the top price for it. There were no dirty, nasty eggs in the lot, and he said that some of them were so large they would hardly go into their partitions in the cases.

Now this is only what one merchant done last Saturday in Brownfield. There are perhaps a dozen other places here that purchase produce of this kind, and it would be wonderful if we just knew how much the total egg money amounted to here Saturday. Then add to that the poultry and cream and the sum total would look enormous.

Mr. Chisholm went on to say that the farmers are alright if let alone. He said he was selling very little meat and lard showing that most of the farmers, since they turged to poultry, egg and cream production, are also raising their own meat and lard. He believes that diversified farming should be encouraged every way possible that prosperity in Terry might continue.

Railroad Promoters To Be Here Soon

A letter was received in Brownfield this week from Col. Ed Kennedy saying that he would be here within the next ten days with men fully able and willing to build a railroad through here from Snyder to Roswell, and for our committee to be ready to deal with them.

Ed Dumas was over from Plains Tuesday and informed us that their railroad committee was active and rearing to do business when the opportunity presented itself.

There are still some people in Brownfield we understand are not in favor of an east-west railroad, but they have not to this day pointed out a plains or panhandle town a railroad has ruined. It looks to us like we are selfish, and are so afraid a railroad will injure us a bit that we are willing to deprive others who have been waiting years for one to come to their towns and counties.

It might just be possible that a railroad east and west through here would hurt us for a year or two more than it would benefit us, but in the long run it would make the town, and guarantee us a position among the future commercial centers of this section. We don't want to always be just a country trading point only.

Morning and Noon Mails Leave Earlier

The morning and noon mails are now leaving earlier on account of the change in the schedule of trains on the main line of the Santa Fe. The north bound train comes in now before eight o'clock instead of 8:30, and those who want to mail letters for this train should do so by seven A. M. or the night before in order to catch it that day.

The noon overland auto mail from Post now comes in at eleven in the morning instead of noon, and leaves here at noon instead of at one in the afternoon. Better keep this in mind when mailing letters.

Anton Hansen is another farmer after our own heart and a true friend to the Herald. He brought in his neighbor, Mr. Frank Swenson, recently, introduced him and he became a reader. Now both these fine Swedish-American farmers and their families will keep up with what is happening in old Terry.

Boy—Howday! That Son-of-a-Gun Dinner

All the old time westerners and cowpunchers were given warning in these columns last week that there would be a "Gentleman from Odessa" affair at the King Hotel last Saturday, and there was, but some forgot and others were away at the Fat Stock Show, but they promise to be on hand to answer the roll call over the old Cowboy Stew next Saturday.

Among others we noticed the sheriff, bankers, barbers, movie men, etc., on hand, but we also noticed that they were mostly raised at or near the frontier, and were familiar with this good old hash, known on the range as Son-of-a-Gun, but in more polite society as "The Gentleman from Odessa." The latter name was always used when the punchers women folks were present.

Say, feller, that stuff was certainly good, and we really expected a physician to be called in for some of the boys, but they say as how the stuff went make you sick. We'll admit we never saw a case of sickness following its eating—but how! Besides this excellent eating, the table was supplied with the usual good things to be found at this hostelry, set off with a lot of good old country ham fried a nice Brown. Get for home, Bruno.

These "Odessa" affairs are going to be weekly occasions, and we want to see the full delegation there Saturday. Will say however that the writer used to be silly about eating anything new, and especially anything that had a suggestion of "chittlings," but one night before we became mated, we came in rather late and the hotel dining room being rather dark, we tasted this dish by accident. If the good lady who prepared that table for us were living today, she could tell you whether or not we went on eating it or not—which we did.

Endersen Explains What Duco Really Is

It sometimes happens that a trade name secures such wide-spread popularity that it is accepted by many people as a general term for the article of the kind.

Mr. A. W. Endersen of Holgate-Endersen Company pointed to Duco as a typical example. Duco has become well known in the last few years as a finish on automobiles, furniture and other articles. Some people regard Duco as a general term for this type of finish. This is incorrect. Duco is a specific product made only by the Dupont Company.

Duco is now available for brush application by the home owner or the automobile owner. It is very easy to use, dries quickly and produces a smooth, hard, long-wearing surface which accounts for its rapid increase in popularity during the short time it has been on the market. Mr. Endersen said that his past year's business on Duco has been very satisfactory, in fact Duco had brought many people into the store and interested many in painting who had never used a paint brush before.

B. W. STINSON OUT FOR PUBLIC WEIGHER

We are authorized to announce B. W. Stinson of this city for the office of public weigher of No. 1, or the Brownfield precinct. Mr. Stinson has been a citizen of this city for the past ten years, and is well enough known to make an introductory speech unnecessary, but will say that he is a good citizen, a man of his word, honest and upright. He has bought cotton here for the past several years, and most of our farmers know him personally. He will try to see all voters before the primary and tell them how he stands on questions arising from the job of public weigher.

Miss Caroline Spencer of Lubbock spent the week end here with her grandparents, Mr. and Mrs. J. L. Bandal.

Sheriff F. M. Ellington mixed religion with politics long enough recently to renew for the Herald—which is a religious duty.

R. L. Hariss had for his guests his father and brother-in-law from Fort Worth Monday night and Tuesday.

Mr. and Mrs. Henry Franklin of Gomez lost their baby of a few months of age last week, of pneumonia.

L. R. Pounds left Tuesday on his way to Belfontaine, Miss., to visit his father who he has not seen in 38 years.

J. A. Forrester recently called and renewed for his paper and had it sent to his father in Anderson county.

SOCIETY

MAIDS AND MATRONS MEET WITH MRS. HARRIS.

The Maids and Matrons Club met Tuesday afternoon with Mrs. W. G. Harris. An important business was held in which the program for next year was discussed. The study was a roundup of Texas cities, a review of "Staff, Ferguson and Moody administrations" and "Where Texas Progress is to play." Delicious refreshments were served to the following members: Misses Adams, Bowers, Dallas, DuBois, Ellington, Fagala, Holmes, Miller, Randal, Stricklin, Wingeril and Miss Nancy Dumas.

F. T. A. PROGRAM UNUSUAL

The local chapter of the F. T. A. met Tuesday night in the Grade School Auditorium. The meeting was one week late on account of waiting for the program that was rendered. This program was one of much uniqueness to the people of Brownfield. The program was put on by the Extension Department of the Texas Technological College, of Lubbock. This department is under the management of Prof. J. F. McDonald. The program consisted of a very unusual discussion of Development of Education in Texas, by Mr. L. L. Martin of Meadow, and a series of pictures were thrown on the screen

by Dr. Smith, of the College, and explanation of the same was given by Mrs. Ivy Savage, of Brownfield. There were two other numbers on the program, but owing to the lack of time were postponed to some other time. The house was filled with people of Brownfield that are interested in school and in the progression of the school.

We were more than glad to have such a nice crowd, and invite all to be present next Tuesday night at 8 o'clock to hear the following program:

Our Knowledge of Education, and Our Educational Practice—Miss E. Dumas.

Changing the Objectives in American schools—Mr. Dick Heath.

Changing Course of Study—Mr. J. E. Jackson.

Special musical program to be given by the local high school orchestra.

Trusting you will be present—Let us all be "Brownfield for a better and bigger school."

President P. T. A.

A. C. Holcombe of the Gomez community was numbered among the big crowd here Saturday.

B. F. Moore of south route was a pleasant caller at the Herald office recently.

Mrs. Sam B. Johnson, of route one, paid the Herald a short call recently.

Mr. J. A. Carouth renewed recently for his Herald. Thanks, awfully.

MEADOW BRIEFS

By Aesculapias.

Our community is considerably exercised over the presence of, what to most of us, is a new disease among live stock. It is called Septicaemia Haemorrhagica. From its name one would suppose it to be a septic infection attended with hemorrhage into the tissues or organs or both.

I don't know anything about it, and no one about here seems to understand it. The drug store here has been busy ordering serum for the prophylactic treatment of the trouble. Whether or not it is curative also is not known. A number of farmers near here have lost from one to three horses and as cattle and hogs are also susceptible to the disease it promises to be a very serious matter unless the serum proves curative. The disease here has been rapidly fatal in all cases where it has developed. The state has heretofore busied itself in the matter of foot and mouth disease as well as hog cholera and anthrax, it seems it would get busy in the present instance. For a fellow to go out and find several of cattle and horses dead that he didn't know was sick is rather discouraging and calculated to get him a panic. This will kinder describe the feelings in this section.

If the disease has been in existence long enough to elaborate a serum for its prevention, undoubtedly it has existed elsewhere and something more is known of its etiology and management than seems to be here.

Very few men are able to replace several head of cattle or horses in these parts, coupled with the fact that those they might purchase elsewhere would also contract the disease and die.

It is a serious problem. Verily the entomologist that prophesied that man's next great enemy or antagonist in the battle for the supremacy on this earth, would be insects, is having his predictions verified. While the germ that produces disease could not probably be classed as insects, it belongs to that large body or class of parasites that multiply rapidly and are extremely hard to eradicate.

A large number of our people attended the athletic exercises at Brownfield last Friday and Saturday. The students of the school here who took part appear to have held their own in the many contests for first and second place. We congratulate them. Anything worth doing at all is worth doing well. "Whatever thy hands find to do, do it with all thy might."

The State Supervisor of Schools was with the school here last week. He commended the work of our teachers and pupils and made many recommendations looking forward to an affiliated school. Among others

a new building to house the immense increase of children additions to the library and an efficient P.T.A. The house is the most difficult proposition for this community. Just where the fund to build with could be obtained is beyond me.

The highway to Brownfield will have to be widened as it has been found too narrow for two of our young men to get past each other and as a consequence there was a collision and a couple of cars were dragged in Sunday morning considerably mutilated. The youngsters driving the cars escaped without injury.

Don't know the brand that kept these fellows from seeing each other traveling in opposite directions each near the middle of an eighty foot roadway.

Mr. J. D. Underwood, agent for the Santa Fe at this place is recovering from a very serious attack of pneumonia. His life was despaired of for several days last week. He is to be congratulated on his escape from the doctors and the disease.

It appears that modern dances can't be pulled off without a fight or disturbance of some kind. Isn't it high time that parents at least keep their daughters away from them until such time that young men, (I haven't heard of girls fighting yet) can and will respect themselves and the girls, as well as the home of which they are the guests. To give one of these shin-digs is to court trouble of some kind, almost invariably. The dance is one of the most enjoyable of the social entertainments and should not be made the occasion for settling disputes, or engaging in fist encounters.

GIVEN A SQUARE DEAL FARMERS NEED NO AID

By T. W. Moss in Dallas News.

It seems that no small amount of people are disappointed at our Congress so far to enact a farm relief measure. We as farmers should not want price fixing by either our state or national government. We should not ask the State for special legislation. But we should demand that the enemies of agriculture and, incidentally, the enemies of all legitimate business, be given no special legislative favors. All we should ask of our government is to give agriculture the same square deal, legislatively, the basic industry of a great commonwealth deserves.

Farming is the power behind world progress, and should not be throttled by hostile legislation, nor by laws for the special benefit of the cotton exchanges. Crime is no cure for criminals neither can our Government cure the ills of agriculture by legislation. Subsidies or bonuses from either State or Federal Government will only help keep the South blinded. In regard to our duty, both from a business and moral standpoint, in

that I refer to a plan of price fixing by the farmer and his business associates, who are joint partners in production and should be in marketing. They alone have the right of price fixing. If the farmers and business men of the South would get their heads together instead of their heels a fair price of our staple farm products could be obtained each year. In case of a large crop the temporary

surplus could be set aside as insurance against the short crop which is sure to come. T. W. MOSS, Box 621, Brownfield, Texas. Stinnett—Work is progressing rapidly on Hutchinson county's new courthouse. Perryton—Contract has been let for erection of a \$100,000 courthouse here.

NOTED EDITOR MAY ADDRESS TEXAS EDITORS Invitation to address the Texas Press Association at its annual convention in Texarkana in June, has been extended to Loring A. Schuler, editor of the Ladies Home Journal, by Sam P. Harben, Richardson, secretary of the association, and Homer D. Wade, manager of the West Texas

Chamber of Commerce, it was announced yesterday. Schuler was a visitor to West Texas last fall, when, as editor of Country Gentleman, he made an extensive tour of the section. An article on Texas appeared in the Country Gentleman as a result of his visit. Miss Florence Holt is reported to be ill with an attack of appendicitis.

The Herald has received its catalogue of the Panhandle Plains Dairy show to be held at Plainview, April 3-6. As our heifers are all "bull," we do not need the catalogue, but seriously we advise all our farmers interested in dairying to attend. It will be worth the trip and more.

A new hotel at San Antonio deposes and invites the Herald to make that place its home while in that city. Either they have been misinformed about us or some one played a huge joke on their credulity. Besides we never could feel at home there after we read their rate card just a bit further on in the invitation.

The Panhandle and West Texas swept both first and second prizes respectively at the Fat Stock Show. If this thing of winning about all the

prizes put up at any place, any time, some of those birds back east will some day come to the conclusion that people are not literally starving by droves in this section. However they are slow to learn.

The Herald had a letter this week thanking the editor and the advertising committee for the nice way they put over the advertising campaign for the recent short course held here by the International Harvester Co. The IHC writer stated that good advertising, judiciously used as in this case always brought the desired results.

The Lubbock Avalanche-Journal have recently changed the name of their weekly edition from the weekly Avalanche to The South Plains Farmer. The first issue was literally filled with information suitable to people of this section. A farm paper on the South Plains may fill a long felt want, and the Avalanche-Journal are in position to put out such a paper.

We note that Congress has virtually refused an investigation of the Dallas Reserve Bank, as there has been so many investigations to resolve on this session that the boys say they are fed up. The authorities may know just what they are doing, but small town bankers say they are almost afraid to apply to Lynn P. Talley for aid, for being a city banker by profession, he thinks when a country bank applies for aid they are in a fair way of failure, and refuses aid when they most need it, yet are fully solvent. The Federal Reserve System was created for the aid of the small bank, not the large city bank, and we in our humble opinion believe that when any officer of that institution fails and refuses to use it for the purpose it was created, when the small bank is solvent but needs aid to carry on in their communities, these officials should be speedily kicked out on their left ear, and men with both sympathy and brains be put in their stead.

It is reliably reported that a certain West Texas editor recently oiled up his old typewriter, and punching the keys a little fiercer than usual, everlastingly flayed the bootlegger and drinkers in general, winding up with a special lashing of people who concoct home brew in their homes. Good, but when the paper came out, there also appeared an ad in the paper, "The Kind that Louie Uses" and the folks who manufacture it are asking the editor to either leave off such editorials or their ads. Now which will it be.

A lot of folks object to Al Smith as the standard bearer of the Democratic party and the Plainsman is one of them. But the writer would rather go to the polls and cast a ballot for Al Smith for President than lend a single vote to the election of a man if he thought the party was apt to take advantage of political power to make public transactions which are not on the "up and up." Despite his connection with Tammany Hall, the liquor question and his religious views, Al Smith hasn't yet been accused of infidelity to a public trust—which is more than you can say of some Republican bosses who are nominally dry Protestants.—South Plains Farmer.

CITATION BY PUBLICATION

The State of Texas,
To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to summon, W. S. Maddux, and E. W. Maddux by making publication of this Citation, once in each week for four successive weeks, previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the Justice's Court of Precinct No. 1, in

A "MONUMENT" OF SERVICE!

Great cities today quite marvelously reveal what supreme efforts Man is making in the building of Monuments to Industry. Feats of engineering - - - from massive tunnels to still higher skyscrapers - - heretofore believed impossible, are now realities. Truly, they speak well for the resolution, patience and unity of their builders!

That same spirit prevails in this Bank. From the President down, all of our employes are working together—patiently, diligently, willingly—to make this Bank a "Monument of Financial Service" to every citizen in this community!

We cordially invite you to avail yourself of its facilities!

STATE TO POUNCE ON SHORT MEASURE SERVICE STATIONS

Weights and Measures inspectors from the State Department of Agriculture during the month of January proved that all sleight-of-hand artists better known as magicians, are not confined to the theatrical world—for quite a number are found operating gasoline pumps.

It was not known to what extent the magic art had invaded the sale of gasoline until the novel plan of equipping a car with a blind tank and making purchases, was devised.

Without introducing themselves, inspectors quietly visited 112 filling stations, made a purchase of five gallons of gasoline at each station, secured a receipt from the salesman on each purchase to the effect that five gallons were bought and paid for, and out of the 112 purchases, 85 were found to be short. In some instances the shortage amounted to as much as a gallon and a half to the purchase.

The gasoline purchasers of this state, no doubt, would like to know how the sleight-of-hand artists perform the trick of giving a gallon and a half short measure on a five gallon sale. Like all sleight-of-hand tricks, it is simple after once being revealed. The trick is performed by diverting the flow of the gasoline line to the underground storage tank at the same time the automobile is being served. This can be done in nine different types of gasoline pumps now in use in Texas.

It is not definitely known the amount lost each year in the sale of gasoline due to short measure, but a fair estimate may be had by taking the results of the purchase tests on 112 pumps. The total shortage in the purchase of 560 gallons from the 112 pumps was 3509 cubic inches or 2.71 per cent.

This percentage might be considered exceedingly small by some people, but, viewed in connection with the total annual sale of a few of the largest companies engaged in selling gasoline and it is not small.

For example, the records of the State Comptroller's Department show that six of the largest oil companies in Texas during the year 1927 sold 457,630,975 gallons of gasoline, and 2.71 per cent of this amount is more than 12 million gallons. Taking an average price, 15 cents per gallon, an annual loss amounts to \$1,860,269.86. Think of it, if this amount is lost on sales made by six companies, no doubt the loss will exceed two million dollars for all companies doing business in this state is considered.

Developing the fact that the people of Texas are losing millions each year in the purchase of gasoline because of short measure is valuable information, but the inquiry is made, and properly so; what is being done to prevent it? Answering the inquiry, reference is made to the court action taken against the "short measure artists" immediately following the purchase of the gasoline from the 112 pumps. In the first city worked 15 complaints were filed, 14 of which pleaded guilty and paid fines, in the second city 7 cases were tried and a fine of \$50 to \$100 was assessed in each case.

BUILDING A BATHING POOL NEAR TAHOKA

Hill Hibdon states that he has already let the contract for the construction of a concrete bathing pool at his place a few miles north of the city. The structure will be 24X80 feet and from 2 to 10 feet deep. It will be built entirely above the ground so that it may be drained easily and kept filled constantly with fresh water. Two wells with windmill and a gasoline engine will furnish the water.

Mr. Hibdon says the pool will be completed and ready for service by May 1st.—Tahoka News.

Nara Visa, N. M.—Nara Visa is one of the newest towns to affiliate with the West Texas Chamber of Commerce.

Mrs. Grady Brown was able to be brought home this week from Clovis, following her operation. She was accompanied home by her sister who will remain with her until she is stronger.

Aubrey Thomas and wife were down this week from Ropesville to get some baby chicks and to bring some more eggs to the hatchery.

Beautiful spring like weather has prevailed this week.

Among Brownfield's Tech students who spent the week end at home were Tom Herod, James H. Dallas, Darrell Jackson and Misses Naomi Newton, Louise Chisholm and Mamie Sue Flache and her friend Miss Francis Cooper, who also visited her aunt, Mrs. Randal while here.

Misses Ruth and Mary Lawlis visited their parents in Snyder over the week end.

Mr. and Mrs. Ame Flache and family visited in Big Spring Saturday and Sunday.

NOTICE

To voters for School Trustee Election to be held the first Saturday in April A. D. 1928.

All school districts with less than 500 scholars are allowed to petition the County Judge at least 10 days before the election to place certain names on the ballots for School Trustees, said petition must be signed by at least 5 qualified voters living in their respective School District, or any person that wants to run for Trustee may petition the County Judge, and his name will be placed thereon. Please give this your immediate attention.

Yours very truly,
H. R. Winston,
County Judge, Terry County, Texas.

Wellman Notes

The State Inspector, Mr. Eilers, was with us Tuesday afternoon, Mar. 13 and recommended our state aid to the amount of \$1,000. He passed several compliments on our school and its work. He also asked the pupils a number of questions on history and English and gave us a number of helpful hints. It was indeed a pleasure to have Mr. Eilers with us. Hon. H. R. Winston accompanied Mr. Eilers and we extend him an invitation to visit us in the future. We sincerely hope to show the Judge and the Inspector the coming year many added improvements, for while we are indeed pleased to report the liberal allowance in state aid and an "A" classification of our schools, as soon as a little minor improvement is done which our board of directors have generously agreed to have done. We are not the kind to sit down on the stool of "do-nothing." Watch Wellman!

The Forrester Senior girls basketball team came to our Wednesday afternoon and played us a clean game of ball. The final scores were 20-8 in favor of Wellman. We are going to return the game next Wednesday.

Wednesday and Thursday we were very busy preparing posters and other exhibits for the school fair held at Brownfield Friday.

Mrs. Roy Griffith entertained the members of the P. T. A. with a Forty-Two party Friday evening.

Mr. Bill Schroeder and Mr. Gould Winn returned home Friday evening from Ft. Worth, where they attended the Fat Stock Show.

Mr. and Mrs. J. L. Wimberly and son, Homer, left early Thursday morning for Knox City, Texas, where they are to make a short visit.

Miss Jocie Oliver spent Saturday night at Seagraves at the home of Miss Thyra Coffey.

Miss Thelma Trigg spent the week end with Miss Irene Welcher.

Emmett Currie spent Saturday night with Rubert Coffey.

Miss Roberfa Story spent Sunday with Miss Gracie Moon.

Miss Cora Kerby, Mr. Eugene Norton and Miss Lanna Lee Luty spent Sunday at the home of Mr. and Mrs. Oral Trotter.

Miss Thyra Coffey of Seagraves spent Sunday with Miss Irene Welcher.

Mr. and Mrs. Gould Winn spent Sunday at the home of Mr. and Mrs. H. E. Kerby.

Miss Lois Daniel spent the week end in Brownfield.

We are hoping that the county tournament for the girls basketball will be held next Saturday.

There was a singing at the Wellman school house Sunday evening.

Wade Headstream recently sent us a check putting up his subscription to 1930.

W. M. Adams presented the Herald with another dollar on renewal recently.

Farmer friend, don't forget that you can get ready mixed poison at the courthouse for wholesale cost.

Dr. and Mrs. DuBois spent the past week end in Coleman visiting the doctor's uncle.

FIGURES TEXAS POPULATION AT 5,487,000 NOW

Washington.—Texas will have a population July 1, 1928, of 5,487,000 as estimated by the Bureau of Census. The official census of 1920 gave the State 4,668,228.

For use of the House Apportionment Committee, the Bureau of Census estimated that the population of Texas in 1930, the year of the next official census, would be 5,662,000. Other interests have estimated that the Texas population two years hence would be six million or more.

The estimate for 1928 issued by the bureau in connection with figures for all states, would show Texas to have made an increase since 1920 of 823,772, or 17.6 per cent. The actual growth from 1910 to 1920 was 19.7 per cent, and based upon the bureau's calculations as of 1930, the State will show an increase of 998,772, or 21.4 per cent during the last given ten year period.

The estimated population of the United States as of July 1, 1928, is 120,013,000, compared with 105,710,620 official in 1920. The bureau's estimate of 1930 is 123,228,000. The estimates are arrived at by figuring the increase since 1920 upon basis of available data, regarding births and deaths, immigration and emigrations.

LEFORS LOSES COURT HOUSE IN ELECTION

Lefors lost the county site election last Friday, with a vote of 3,678 for Pampa and 1,337 for Lefors.

A petition was presented to the district judge asking that the records be not moved until a hearing in the matter of alleged irregularities in the election be had. This hearing has been set for Friday of this week.—McLean News.

Stamford—The West Texas Chamber of Commerce has written all its member towns asking their opinion on a suggested campaign for elimination or curtailment of tent shows and carnivals in West Texas.

Rocksprings—Twenty-seven new rooms have been added to the new Belentine Hotel of Rocksprings, making it ave forty-four guest rooms.

Lampasas—A total of 400,000 pounds of cream was shipped from here last year.

Fort Worth—A Panhandle-Plains and an All-West Texas exhibit are to be shown throughout the Fat Stock Show by B. M. Whiteker of the West Texas Chamber of Commerce.

Dublin—W. N. Blanton, manager of the East Texas Chamber of Commerce, will be a chief speaker at the Oil Belt District convention of the West Texas Chamber here March 28.

Lee Walker of the Needmore community, was in town Monday, shopping.

B. M. Wade was in from Tokio Saturday, milling around with the big crowds.

A. P. Moore, Gomez merchant, was a caller at the Herald office this week.

Big Spring—A \$150,000 addition to the local ice plant is nearing completion.

—NUFF SAID COWBOY—

TWO SCOUTS WILL BE SELECTED TO VISIT AFRICA

Somewhere in the United States there are two Boy Scouts who will make a wonderful trip this summer. They will leave in June for Europe where they will go by train across the European continent. A steamer will carry them over the blue Mediterranean through the Suez Canal, around the bend of Africa into the Indian Ocean, and along the East coast of Mombasa. From there they will go to Nairobi, the capitol of British East Africa. At Nairobi these two Scouts will be met by Mr. and Mrs. Martin Johnson, the most noted American hunters of big game with the camera, who are at present making pictures of wild animal life in Africa for the American Museum of Natural History. These scouts will spend a month with Mr. and Mrs. Johnson trekking across the high plateau of the Kenya country, the most healthful in the world and the last home of big game in its unspoiled wildness.

This trip is being made possible through the offer of Mr. George Palmer Putnam and his son, David. Mr. Putnam, because of his outdoor activities and his expeditions to Greenland and Baffin land, is an Honorary Scout of the Boy Scouts of America. He became interested in having two scouts make this wonderful trip through the work of his own boy, David, who although only fourteen years of age has made a number of expeditions with such famous men as William Beebe, Capt. Bob Bartlett, and has written several successful books of his adventures with these men.

The competition for this trip is open to the Boy Scouts of the United States. The Boy Scouts of the South Plains have an equal chance with the other scouts of America for making this trip. Dr. Paul W. Horn, President of the Texas Technological College, Judge Clark M. Mullican, of the 99th District Court, and Mr. Clifford B. Jones, of Spur, have been made a committee to select a candidate from the South Plains to make this wonderful trip, and will meet on March 31st for this purpose. Some boy scout here in Brownfield may be the one chosen for that trip. The qualifications are outlined in the March issue of the boy scout magazine, "Boy's Life." Any additional information can be secured from the members of the committee or Boy Scout Headquarters.

Following are the qualifications necessary for Scouts to go on Martin-Johnson Expedition reprinted from page 43, March issue of "Boy's Life."

1. The Scout must be between 13½ and 15 years of age on June 15, 1928.
2. Rank. He must be at least a first class Scout. Consideration must be given to higher ranks and Merit Badges that specially qualify applicant for selection.
3. Physical Qualifications. It must be shown that Scout applying has lived in such a manner as to keep himself as physically fit as possible during the past year. Each application must be accompanied by a physician's certificate attesting that the candidate is in good health and that he has no known ailment that might be aggravated by such a trip. Such a certificate must be issued only after a thorough physical examination by a competent physician.
4. General Education. The candidate must be attending school and show that for a period of one year his attendance and deportment have been above the average, and that he has made marked progress in his studies.
5. Literary Qualifications. Evidence of the candidate's journalistic ability.
 - (a) Certificate from his teacher showing his grades in English during the past school term.
 - (b) Either a diary kept for one year or more, or five English Compositions prepared at intervals during the previous school term or year; or five articles published at intervals during the past year in his Troop, school or church paper, or some other publication; or ten black and white sketches or other evidence showing his ability as an illustrator.
 - (c) An article of 500 to 1000 words accompanying his application telling why he wants to take the trip.
6. Personal Qualifications. Evidence must be submitted as to the candidate's courage, initiative, resourcefulness and general scout like conduct as manifested in his Troop and his school.
7. Scout Oath and Law. Local Courts of Honor and Examining Committees will be requested to satisfy themselves that the applicant has: First, actually put into practice in his daily life the ideals and principles of the Scout Oath and law, the motto, "Be Prepared" and the "Daily Good service relationship scouting; Third, Turn;" Second, maintained an active made an effort to develop and demonstrate leadership ability.

THE HOME PAPER FIRST—BY AUSTIN McLANE

("A. Mc L.")

There are not less than three good and sufficient reasons why the discerning reader will give first allegiance to his own home paper over all other current periodicals, to-wit:

1. Its the only one in the whole wide world that gives a darn for your own whome neighborhood.
2. It's clean, efficient and much needed.
3. Its, in all seriousness the local Literary Digest, Review of Reviews, and Who's Who.

In this day and time selective reading is not only a near approach to fine arts; its also a prime necessity. And hence the slogan, "Home Paper First!" Think it over.

Mr. and Mrs. Noah Bell attended the Fat Stock Show at Fort Worth, and visited relatives in Dallas last week.

There Is No Better House Paint Made

It goes farther, retains its luster longer and will outlast any ordinary paint two to one—that's paint economy and you get it in

CICERO SMITH LBR. CO
Brownfield, Texas

THE STATE OF TEXAS

To the Sheriff or any Constable of Terry County Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days, exclusive of the first day of publication before the return day thereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year preceeding the date of the notice in said Terry County, the following notice:

The State of Texas

To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to cite all persons interested in the estate of Mrs. C. K. (Edna) Auburg, deceased, and also all heirs at law, and unknown heirs at law, of Mrs. C. K. (Edna) Auburg, deceased, to appear at the next regular term of the County Court of Terry County, Texas, to be holden at the Courthouse thereof on the first Monday in April 1928, the same being the 2nd day of April, 1928, to contest, should they desire so to do, the application of Bebe Auburg, filed in the said court, and which will then and there be acted upon, for the probate of the last will and testament of the said Mrs. C. K. (Edna) Auburg, deceased, which cannot be produced in court, and which in said application is substantially stated to be as follows:

That on or about September 1927, by a written will executed by the deceased, Mrs. C. K. (Edna) Auburg, all the property of deceased, both real and personal, was devised to Bebe Auburg and Mrs. Lucile Huelster; that said will was executed in the presence of Berry Hobbs and Dan Berry, credible witnesses over the age of 21 years who subscribed their names thereto as witnesses in the presence of the testator, said Mrs. C. K. (Edna) Auburg.
