VOLUME 23

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, APRIL 13, 1928

NUMBER 34

Chamber of Commerce By the Secretary

Captain Ed Kennedy, accompanied by his engineers, was in Brownfield a few days ago, and his plans have been somewhat altered since his last visit here, in that Brownfield will receive two eastern connections instead of one. Our Railroad Committee was informed that a line would connect with the Roscoe, Snyder & Pacific at Fluvanna and come to Brownfield via Tahoka. The other line would commence at Rotan and reach Brownfield via Snyder and either O'Donnell or Lamesa. For all of this we are expected to furnish right-of-way, depot grounds, 150 acres adjoining the corporation limits and \$35,000 in cash. This last item hit the committee right between the eyes, but he was advised that an effort would be made to meet his conditions. The committees from O'Donnell and Plains met the Capt. here and received his proposition, and the promoters departed for Roswell and other points in company with the Plains delegation. Mr. M. G. Evans, Secretary of the Snyder Chamber of Commerce, was with the party here and accompanied them to Roswell. We haven't got a railroad yet, but it always takes a lot of promotion, work and imagination to get things of this kind started. Had it not been for the advance work of Col. Powell of the Panhandle & Gulf, which is yet on paper, neither the Denver nor Frisco would be completing extensions on the South Plains.

At different times during the last two years, this office has tried to find a market for castor beans, which grow so freely and produce so abundantly in this section. Our efforts have been rewarded in the last few days in that we have the address of a manufacturing concern in Texas who are very anxious to have growers become interested in large acreage production in order that adequate quantity can be purchased within the state. At present it has been necessary for this consumer to import all seed that has been used by them. It would surprise anyone to know the number of manufactured articles in which the castor bean forms an essential portion.

Russian Sunflowers are proving to be a profitable crop, and while they, nor nothing else will ever take the place of cotton as our principal crop, they are pretty good to grow and are marketable at a time when ready money becomes a rather scarce article with the majority of our citizens. Dawson county production last year, which was grown under rather adverse conditions, produced an average of 900 pounds to the acre and sold readily at five cents per pound. Of course Dawson and other counties in which the growing of cotton is regulated, is very likely to specialize on other crops, but the demand for sunflower seed is steadily growing and the price is likely to be satisfactory. Specializing can become too great an art and we don't want to forget either corn or cotton. Indications are that each of them will bring a good price this year.

Agricultural bulletins are being rapidly distributed at this time, but we keep a supply on hand and reorder each few days. Right at this time we are supplied with most of the bulletins on poultry, cows and hogs and several covering on fruits and berries of different kinds. Come and get them; they are free.

The directors of the chamber of commerce met Tuesday and passed upon several important projects. You may find in another column activities planned for the next several weeks.

A New Discovery on A Terry County Farm

While plowing on the L. E. Bryant farm in the Union community I unearthed some evidence of an old ancient oil field. A number of oak barrels buried in the earth. Which I supposed to have been used for an oil storage but have not discovered the wells yet. However the barrels did not contain oil.

If any of the stockholders or the employees see this would like to hear from them.

Claude Bryant.

Sheriff Walter Moreman, of Plains, was a visitor here Saturday.

C. of C. Directors Hold Monthly Session

The directors of the Brownfield Chamber of Commerce met in their regular monthly meeting at the dining room of the Hotel Brownfield at noon Tuesday, and after a fine luncheon, they repaired to the office of John B. King Land Co. in the same building for the business session. Dr. George Graves, president of the C. of C. presided. Secretary Shelton outlined considerable business to come before the body, as follows.

As to whether or not the chamber would promote a county fair this fall came first, and it was unanimously decided to have one, and steps are to be taken at once with the aim in view of making it a real fair.

A County wide rat killing campaign is to be undertaken sponsored by the chamber of commerce and with the co-operation of the U. S. Dept. of Agriculture. An effort will be made to get the county commissioners to furnish the poison. Prizes will be offered to county schools according to their rating for the largest number of rat tails; also prizes are to go to the highest individual rat killers.

The body also favored a fire prevention campaign, and a committee was appointed to work out a program for this. If this is carried out according to a schedule provided by the State Fire Marshall's department, it will mean a saving on insurance rates for the city.

It was also decided to start a luncheon club of the members of the chamber of commerce in order that they may more fully keep up with what is going on in the club, and what their officers and directors are trying to put over. A committee was appointed to work with the secretary in providing for such a club and to set the day or days per month for meetings.

The idea of a Fourth of July celebration was brought up but deferred until the next meeting.

Making a better road to the Harmony community was brought up but no definite action was taken at this time in the matter.

In the matter of sending a delegation to Fort Worth for the West Texas Chamber of Commerce Convention, it was decided to leave that up to individuals and all were advised to go who could and wanted to make the convention at their own expense. As we have only one vote in the convention, the secretary will very likely be delegated to cast that vote, provided he wishes to attend.

The secretary was instructed to have some 6,000 pamphlets with a description of Brownfield and Terry Co. printed for the purpose of handing out at the convention.

It was unanimously agreed to have a big delegation at Lamesa for the West Texas Chamber of Commerce district convention the first part of May, with appropriately decorated cars, and to ask for the 1929 district convention to come to Brownfield.

Frost Man Likes Terry —To Locate Later

Mr. Jess H. Rivers of Frost, Navarro county in Central Texas, spent the afternoon and night Saturday with Mr. and Mrs. C. H. Hester and family. Mr. Rivers was Mr. Hester's nearest neighbor when they lived at Frost. Mr. Rivers came prospecting and was carried away with this country. He could easily see the business in making a change.

He stated that he believed this section done more business two-to-one than where he came from. He could not understand just how all the feed he saw on his way was raised here, and thinks the land here much prettier than back there. He means to come back in the summer and locate. Another man who lives near Mr. Rivers came with him also prospecting, but stopped at Tahoka.

MARRIED

Mr. Roy Alexander and Mrs. Nora Lee Black, both of this city were married Sunday last, Rev. D. D. Johnson officiating. They will make their home in Brownfield.

Mrs. L. J. Dunn is visiting friends at Abilene this week and L. J. is doing the bachelor act.

South Plains Section Has Real Easter Spell

Talking about your Easter spells, but the South Plains and Panhandle section had something approaching nearer to Santa Claus weather than any resemblance to either Easter or the so-called Blackberry winter. But according to the dailies, other sections of Texas and indeed the entire Southwest were in the same boat.

Saturday was a blustery day with the thermometer hanging around the freezing point, and when our citizens awoke Sunday morning there was a lot of sleet on the ground to almost cover it, and one could easily tell that it had rained during the night before the freeze started. Sleet and snow kept up all day, and during Sunday night some time, another snow fell that had the ground good and white Monday morning. It was cold enough for exposed hydrants to be frozen, and it is feared that the fruit crop, which was promising, is a goner. A little snow also fell about mid-day on Monday.

The condition of the weather here Sunday was a Jonah for the ladies who had purchased Easter gowns and bonnets, but not a few braved the elements and wore their new togs anyway, with heavy wraps to protect them while outdoors. But there was little or no parading up and down the sidewalks in the afternoon. Of course the men folks are not so vain, and the dears will be satisfied to be seen next Sunday in the new frocks.

Anyway, most of our men are hard to look at when at their very best.

4 Brownfield Students on Tech Honor Roll

The Herald had four type-written sheets from the Texas Technological College this week, which read like this: Misses Naomi Newton, Louise Chisholm, Hallie Harred and James Harley Dallas, of Brownfield are reported on the honor roll of Texas Technological College during the last term, having carried 5 courses with an average grade of "B."

These were all high ranking students of the Brownfield High School of the class of 1927 with the exception of Miss Harred, whom we believe finished high school at Union, and we are glad to see them still climbing the ladder to fame in college. We are of the opinion that at least two of them made the honor roll during the fall term.

Some of us are in the habit of knocking the Brownfield school because it is not fully affiliated school, which we ought to have perhaps, but the Herald has always noticed that kids that don't know their okra in high school, and make poor grades, whether affiliated or unaffiliated, also do poor work in college.

About the only advantage we see in the affiliated school is that the student leaving them for college do not have the formality of an examination, and being passed by the skin of their teeth in the affiliated high, they go to college perhaps handicapped by not really knowing what they have already passed over.

We may be wrong about this, and if so we wish to be corrected, but we have noticed for years that our students who ranked high in graduating from the Brownfield schools, also are ranking with the best affiliated high school students at college. They are. They do.

Abbott Gets Bond—is Released From Jail

Coy Abbott of the Union community, was released from jail here Saturday upon making bond in the sum of \$2500 according to authorities, and will be free until the next session of the Terry county grand jury.

It will be remembered that Mrs. Coy Abbott was recently shot through the stomach at their home and died next day at the Lubbock Sanitarium without making a statement, it is said. As there were no witnesses Mr. Abbott was arrested on circumstantial evidence, and it remains for the grand jury in July to decide whether or not her death was caused by accident.

Is Golfing Good Exercise For the Insane?

There has been considerable discussion of late concerning whether or not the sport of golfing is good or bad for insane people. In fact we have noticed column after column in our exchanges about the matter, both of the daily and weekly variety of papers, and all because some of the insane at Wichita Falls demanded a golf course at the Sate Insane Asylum. Not only that but the discussion has been taken up on our streets, and most any street crowd may be heard giving their opinions of the matter.

At first we decided that some of the pessimists were just doing this in a round about way to hand local golfers a package, but we later learned that it had almost become a statewide issue if it does not reach national proportions. In the meantime, according to some local people, it has set the local golfers to wondering if their mental facilities have improved to any extent since they have been pushing the game, and our friend Dalt Lewis reports that T. I. Brown has recently took up golf in earnest and will personally see if there is any virtue in the game.

K. W. Howell says he is confident upon evidence coming from Wichita Falls that this aggritation for golf grounds did not start until the citizen we recently had in jail here that could always see snakes about, reached that city, and he is also almost positive that the above gentleman, while a resident of Brownfield had opportunity to witness some games and observed that the players were entirely relaxed while busied with the game.

We hope the theory will be fully investigated by the medical and mental specialists, and if there is really virtue in the game unknown to the old Scots who started in on their heather we want to know it, and if so—give us more golf courses. It will prove much cheaper to the taxpayers in the long run.

Fire Alarm Here Early Sunday Morning

About the time the bulk of the people of Brownfield arose from the late Sunday morning snooze, the fire siren was turned on at the power plant and the fire truck was on its way to the east part of town where the residence of C. F. Holt was reported to be on fire.

As luck would have it the fire was under control when the truck arrived and water was not turned on, but the firemen helped the family to get the fire entirely out before they left.

Just another instance in which the fire boys have proven themselves on the job in the protection of the property of the citizens. Every day, if we the citizens of the town would but open our eyes we could see what these boys without money and without price are doing for us and we as a whole seem to take it all for granted. They may soil their clothing and skin and bruise their bodies, but who cares. They even have to pay for their own luncheon once a month when they meet for business to discuss how best to handle fires, etc.

The writer had a forceful reminder of the good work of the boys just a few days ago, when in paying just a small policy, he found there had been a reduction of nearly five dollars on it from last year. These figures will mount high if the whole town be considered. Hurrah for the Brownfield fire boys!

FREE GATE AT AMARILLO TRI-STATE EXPOSITION

The Amarillo Tri-State exposition will be a free fair this fall, according to a vote of directors at a special meeting at the Amarillo hotel. More than 25 directors were present from all parts of the Panhandle.

The decision to stage the free fair came after several weeks of work by the audit committee and fair officials. It was found that based on conservative figures the fair will save more than \$3,000 in expenses and should have an income of more than \$12,000 more than in 1927. A dozen merchants called fair officials yesterday morning asking for reservations for exhibit space as a result of the decision to hold a fair without the admission charge at the gate.

Brownfield a Junction on Proposed Railroad

Col. Ed Kennedy and his party were here last Thursday in the interest of the new rail line to be built from Snyder, Texas to Roswell, N. M. He was accompanied by two men who were said to be a chief engineer and high freight official of the Katy railroad on leave of absence, and a gentleman who is said to have promoted several townsites in the Rio Grande valley section of Texas.

In his talk before the railroad committee of Brownfield and a few directors of the chamber of commerce, Mr. Kennedy informed them that he was no railroad builder but a railroad promoter, but that he had found a construction company who would construct the road and turn it over to some company to operate.

The proposal as outlined here would be for one line to run from Snyder to Lamesa, and thence to this city. The other to come via Tahoka or O'Donnell and make a junction point and perhaps a division with railroad shops at Brownfield. Capt. Kennedy was of the opinion that the one from Fluvanna via Lamesa would be purchased and operated by the T. & P. and the other, which would be extended back to Rotan and from Snyder here via Tahoka or O'Donnell, would be taken over by the M. K. & T., and use a joint track from here to Roswell, N. M.

The proposition put up to Brownfield was right-of-way thru the county, 160 acres adjoining the town for terminals and other purposes, and a bonus of \$35,000. The party left here for Plains, Tatum and Roswell, and later phoned back that everything connected with the promotion of the road was coming on nicely, and the towns were signing up with them.

Of course this railroad or railroads are only in the initial stage. They may never be built. They may be built in the next few years. But in the meantime, Brownfield had better keep its best ear to the ground, and at least the publicity derived from this promotion talk will not hurt us in the least.

PANHANDLE-PLAINS DAIRY SHOW GREAT SUCCESS

PLAINVIEW, Texas, April 9, 1928 —The Panhandle-Plains Dairy Show which closed a successful four-day series of events Friday was generally considered to be a decided success. Many thought that it will result in more constructive benefit to the dairy industry in this section than any single event in the history of the marked development of dairying during the past few years.

At the close of the show, directors and officers met and voted to hold the show annually in Plainview and to make an effort to increase its size and value each year. Eastern New Mexico was added to the Panhandle Plains counties from which the dairy animals were entered.

Many prominent dairymen, breeders and feature newspaper and magazine men attended the show and spoke highly of the quality of animals shown and the number of entries. J. W. Ridgeway, manager of Mistletoe Creameries of Fort Worth, and a leading Jersey Judge of America, judges the Jersey cattle and declared the show was three times what the most optimistic expected.

Three classes of dairy cattle were shown; Jerseys, Holsteins and Guernseys with some excellent animals in each class.

In addition to the display of cattle there was an auction sale at which 30 animals were sold Thursday and brought a total price of approximately \$5,000. A production contest of twenty-four hours ended Friday and on that day the boys stock judging teams from 13 Panhandle schools entered a contest. The Tulia High School boys carried away premium honors in this event.

Little Freddy was preparing to go out calling with his mother. Suddenly he called to her in a rather startled voice:

"Mamma, is this bay rum in the brown bottle?"

"Gracious, no, dear! That's mucilage."

"Oh," said Freddy, after a pause. "Maybe that's why I can't get my hat off."—B. P.

Big Oil Well Machinery Shipped in For Tatum

For the past week some of the heaviest and most modern well machinery and ready made derrick timbers that we have ever seen have been unloaded in the local freight yards for an oil well to be drilled in the vicinity of Tatum, N. M., which are being freighted out of here overland in some huge Federal Trucks. Thousands of dollars alone are represented in the derricks not to mention the other machinery and tools.

The territory in eastern New Mexico, next to the Texas line, now seems to be considered proven territory by the big driller and promoters, and the big fellows are spending money to get on the ground floor and have a go at this rich new field. Every well so far that has been drilled in Lea county, N. M., has either been found to have oil or gas, and with this knowledge in hand, it is not a hard proposition to get capital to finance their drilling.

The people who are preparing to drill in the Tatum section, and who are unloading machinery here is a big Oklahoma company, and from the appearance of the machinery and stuff they have unloaded here, they not only have the nerve but the spondulix to bring in a real gusher. Any oil development in that section is bound to make a second Midland of Brownfield.

School Trustee Election Very Quiet Affair

Most people here seemed to be not unlike the writer, so enthused over the school trustee election that they forgot to vote. Perhaps a number like the write actually forgot it, and then, too, it was a very disagreeable day to stay away from the fire. So the lightest vote in years was registered Saturday, although there were 4 new trustees to be elected.

If there was any campaign issue involved, we either did not hear of it, or they figured we might be on the opposition side, but we rather think there was none. The worse thing that could possibly happen to a school is for it to become mixed in either politics or religion, and we had rather see the people take little interest in school elections than to see them get the school mixed in either.

There were as stated above four to be elected, and Fred Smith was re-elected together with G. W. Chisholm, K. W. Howell and Earl Alexander as new ones, who will fill the places of S. H. Holgate, Oscar Jones and A. A. Sawyer.

We understand that the new board will meet in the near future and organize and will take up the proposition of electing a superintendent, as we understand that a superintendent has not up to this time been elected, and transact other business that may come before the board.

FALLING STAR SEEN BY A RALLS CITIZEN

C. E. Burkeen, of the League Four community, was in Ralls Monday afternoon and reported a very unusual occurrence. About 7:30 o'clock Sunday evening he saw a great string of light descending from the heavens. It proved to be a "falling star" or meteor which hit the earth in the pasture in front of his place, setting fire to the grass, which burned the pasture off. The grass caught fire in two places, he states, and he presumes that the object either bounded after hitting the ground or there were two of the fiery balls. The light occasioned by the meteor was very glaring and was seen by many people other than Mr. Burkeen.

This is very unusual, especially setting fire to the grass.—Ralls Banner.

RECOVERING STOLEN GOODS

One morning Jorkings looked over his garden fence and said to his neighbor:

"What are you burying in that hole?"

"Just replanting some of my seeds, that's all, was the reply."

"Seeds?" exclaimed Jorkings angrily. "Looks more like one of my chickens."

"That's all right," said the other. "The seeds are inside."—J. J. F.

Opportunity Knocks

It has been said that opportunity knocks at each man's door once in life—

—DOOR IS OPENING—

The door of successful buying is through the 'M' System of merchandising.

"Saves For The Nation"

TO TERRY COUNTY HERALD

Plains, Texas
April 4th, 1928

Dear Jack:—

Now comes The Cow-Puncher, with a friendly fellow-feeling and sympathetic solace to offer instead of free advice as from others of your correspondents; and also to ask for information, very much desired. Knowing you to be an Editor of long standing and wide reading, as well as generous-hearted, tolerant and charitable toward all, hence, we approach you with the problem of the hour, requesting to know, touching a recent complaint of your own which somewhat contradicts our conditions and experiences these warm but windy days on top of "Llano Estacado"—honestly now, which one of us do you deem to have been born under the wrong star?

We note in a recent issue of the Herald that you complain of "the tired feeling, a sleepiness, and unwillingness to have to work, while the more favored 'gentlemen of leisure' of your daily comrades, do nothing, but lounge and enjoy life, etc."

While with us, altho past the poll tax age, these warm, welcome, surprising mornings, we prefer to rise up "William Henry" before the cock quits crowing and play golf with a grubbing hoe an hour or two among the catclaw and other foreign thistles in our field, till we've won an appetite sufficient to warm us up to a sympathetic forbearance of the failings of the less fortunate or our fellows in the flesh, some of whom prefer to repose at least 12 hours a day, while another wants to, or threatens to go have some modern surgeon, take the surplus tallow out of his tummy, and we didn't even tell him that if he would keep up with us till the latter part of August he would have no need of such an operation, however he might deem the plan worse than the surgeons knife—anyway of the question doesn't lead you

too deeply into the Modern-Maise of Psychoanalysis, we will appreciate a reply to the foregoing query and docily take our medicine, much as the Matrons of the Republican-women-voters-League had to take theirs for vouchsafing you, just how you should vote in the coming Presidential election.

Yours for entire freedom of prep. thought, action and inquiry, so long as neither of them interferes with other peoples rights.

"COW-PUNCHER"

From Llano Estacado.

P. S. We just had a wire from Capt. Ed Kennedy to meet him in your city to confer concerning the on coming railroad from Rotan to Roswell. Also there is daily passing through Plains all manner of material for oil wells to be drilled just across the line in New Mexico. And tourists are also beginning to warm up the roads for California and other western scenes, which should demand a rushing up of the work on our Ft. Worth to Roswell Air Line, and pointer to be posted thereon, for which a collection was taken more than a year ago, with no signs in sight so far. For this lack, this route lost thousands of tourists last season and will again this if we lag or leave this task unfinished. Please Jack'em up about this delay. C. P.

W. C. Cheak of this city is a new reader of the Herald. Said he had been thinking of subscribing for some time but kept neglecting it. Well, we will remind him of it from this on.

Uncle Isaac Newberry and son Ed, of the Union community were in Monday after supplies. Uncle Isaac is improving in health some now.

Postmaster Schroeder, of Wellman, is helping matters out by sending in new readers from his vicinity.

The Levelland Herald reports that 12 new brick buildings are soon to be started in that city.

Hunter School Notes

Oh My! Old man Winter certainly paid us a freezy visit on his return trip to the north pole, didn't he? But we should worry; it won't be long now until summer.

Mr. and Mrs. Lee Fulton motored to Lubbock Friday afternoon, and returned Sunday.

Mr. Woodall visited Lee Smith the past Sunday.

Mr. and Mrs. E. S. Williams visited Mr. and Mrs. J. L. Woodall Sunday. Mr. Deward Williams and Lonnie Reatherford motored to Ackerly, Texas, Saturday night and returned Monday. They report a real freezy trip and rough roads.

Mr. and Mrs. Ray Woodall, visited his parents, Mr. and Mrs. J. E. Woodall, Sunday.

Mr. Deward Williams and Lonnie Reatherford attended church at Ackerly, Texas, Sunday.

FUTURE OWNERS MAY GO AFTER CARS

Will the future see all purchasers of automobiles go to the factories to accept delivery?

This question was raised in South Bend, Ind., home of The Studebaker Corporation of America, last week, following an owner "driveaway" of 105 new Studebaker and Erskine automobiles, valued at \$165,000, by purchasers from Nebraska and Iowa. The "driveaway" was one of the largest in the history of Studebaker. Never before had so many owners come from such great distances.

The party of 105 Nebraskans and Iowans was taken to South Bend from Omaha, Nebr., by special train as guests of the DeBrown Auto Sales Company, Studebaker-Erskine distributors in Omaha and Lincoln and vicinity. All expenses were paid to the Hoosier city.

After two days of entertainment

by Studebaker officials and South Bend business men and inspection tours of Studebaker's extensive factories, each of the 105 visitors was given the wheel of his new car and the caravan started westward on March 31.

It was estimated that each owner saved from \$60 to \$75 in freight charges. "Buster" DeBrown of the firm that bears his name stated that there would be more and larger owner driveaways in the future.

"It not only saves the new owner money, but it gives him an excellent opportunity to see how the car was made," said Mr. DeBrown.

KEEP MONEY IN CIRCULATION HERE

This is an age of competition, an age where the things that survive in the business world are the things that must prove their merit. Anything that is useless or inefficient soon loses out in the strenuous race for supremacy. So when you view your successful business establishments in your home community you are viewing those who have proven their merit and a right to your patronage and consideration.

The business field in the small town especially, is not exclusive to anybody. The game is open to anybody who desires to enter and cares

to risk the necessary capital. Nobody faces fiercer competition on every hand than the country merchant. A dissatisfied customer does not have to trade with him and he knows it. There are the competing stores across the street or next door. Or if those do not suit there are usually towns within a very short distance that invite his patronage. So the country merchant must find a way to meet these conditions, and he can only meet them by giving the service, the goods and prices that do satisfy the customers.

Most people expect and receive accommodations from the home merchant which they would never receive in a thousand years from the mail order concern. Just this feature of accommodation should be a strong point in favor of the home merchant, but that is not all. There are the churches, the schools, the various public activities that are only possible because the home merchant and business man is doing a successful business. All of these things are inseparable and if everybody would trade out of town, the town would decay and public activities would soon cease. There is no way that a prosperous town can be maintained and at the same time have a large part of the business of the town sent elsewhere.

Many people do not realize what it means to send money out of the town. Of course a few would not matter, but when it begins to mount up to thousands of dollars per month then one can see the vast damage to the town caused by the loss of this liquid capital. The banks find their business curtailed, the merchants cannot carry the stock they should, money becomes "tight" and everybody finds it scarce because it has been sent away to the everlasting benefit of some big, overgrown metropolis.—Rusk News.

RECOLLECT!

Lawyer (to opponent)—You're the biggest boob in the city.

Judge (raping for order)—Gentlemen, you forget I am here.—M. Z.

Young Man—Mother, what does dad mean—"Keep a stiff upper lip"?
His Mother—Well, don't you try it; his new mustache just looks terrible.

N. R. Marchbanks shipped in while we were out recently and renewed for his Herald. However, we do not take it as an insult.

Hundreds of towns and cities were connected to gas pipe lines in Texas during 1927 and gas development was counted one of the greatest advancements of the state.

CHISHOLM'S

TO PHYLLIS

(As I Dictated It.)

Phyllis, up in the morning,
Spirit of love and spring;
Phyllis, light as the willow,
Voice like the birds that sing.
Phyllis, full of the sunshine,
Sparkling like drops of dew—
Phyllis, Phyllis, O Phyllis,
This is a song for you!

Phyllis, why do you linger?
Why do your feet remain?
Phyllis, we wait your coming
Over the bloom-decked plain.

Phyllis, a brimming beaker
Now your health we quaff,
Setting our hearts all leaping
Lighter than wind blown chaff!

TO FILL US

(As My Stenographer Took It.)
Fill us up in the morning,
Spirits of loving spring!
Fill us tight as a pillow
Boys like the birds that sing.
Fill us full of moonshine,
Sparkling like drowsy dew—
Fill us, fill us, O fill us!
This is too strong for you.

Fill us! Why do you linger?
Why are your feet in pain?
Fill us! We wait your cunning
Over the gloom-necked plain.
Fill us a brimming beaker
Now to your healthy graft—
Send our hartshorne leaping
Light as a ringboned calf!

LUBBOCK EXPECTS 500 VISITING ROTARIANS

Lubbock, Texas.—Lubbock Rotarians and other Lubbock citizens are waiting with open arms for the coming here April 19-29 of some 500 visiting Rotarians and "Rotary-Anns" when the 41st district convention of Rotary International will be held.

"It is to be Ellis H. Boyd's party," Jed A. Rix, of Lubbock, general chairman of the Lubbock Committees says in speaking of the District Governor and over 50 towns and cities of West Texas will have a delegation here. Fort Worth and other towns are to run special trains to Lubbock for the convention.

A trip to the Carlsbad Caverns near Carlsbad, N. M., is being planned as a feature of the convention. Homer D. Grant is chairman of the transportation committee and is making arrangements for the trip. The cave is the eighth wonder of the world and it is necessary to see it to comprehend its immensity and wondrous beauty, so the Lubbock Rotarians

plan to give their brother Rotarians a treat while they are in this section. A special train is being signed up to make the jaunt to Carlsbad. The train leaves Lubbock Friday evening April 20th, and will return Sunday morning early, April 22.

A number of officials of the international organization will be here for the two days session, including Ellis H. Boyd, Fort Worth, district governor; Raymond J. Knoepfel, New York, Rotary director; Walter Cline, Wichita Falls, vice-president of Rotary International and others.

Texas has inexhaustible and widely distributed sand and gravel resources and the great increase in all kinds of construction work in the last six or eight years has brought about great increase in production.

Scientists claim that sunlight gives health. In Texas the sunlight is not obscured by smoking chimneys.

The value of mineral waters produced in Texas ranges between \$50,000 and \$200,000 annually.

TEXAS TO STAGE GREATEST AMERICAN LEGION MEET

San Antonio.—The national convention of the American Legion and its auxiliary, to be held Oct. 8-12, will surpass in wealth of entertainment, in interest and notable events the great convention held by the organization in Paris last year, according to National Adjutant James F. Barton. Barton here to check over plans for the convention, expressed himself as especially well pleased with the convention entertainment program.

Entertainment features include a world's championship rodeo with the biggest prize money of the year and the leading cowboy and cowgirl contenders; a decision prize fight at Fort Sam Houston with two principal contenders for the world's welterweight title, spectacular battle exercises by the Second Division using tanks, airplanes, liquid fire and all the latest methods of warfare, the greatest air circus ever staged in America.

Other entertainment specialties will be a Broadway show, a Mexican revue with the best actors, singers and dancers from the City of Mexico, the famous City of Mexico Police Band.

More than 100 Legion bands and drum corps from all parts of the United States are expected to be in attendance at the convention, according to Phillip B. Stapp, general convention director. Distinguished visitors from abroad and leaders in many fields of American life will be on hand.

To the convention parade, always a spectacular affair with its thousands of marching men and women, the entire day of Thursday, October 9, will be devoted, Mr. Barton decided. The marching columns will be reviewed on historic Alamo Plaza, where stands the Alamo, cradle of

Texas liberty.

In addition to the convention entertainment planned at San Antonio, side trips will be conducted to various points on the border. One will cover Corpus Christi and the principal cities of the Magic Valley of the lower Rio Grande, ending with a Spanish celebration at Matamoros. Others will go to Nuevo Laredo and Piedras Negras, where bull fights will be staged and a Spanish fiesta held. Elaborate preparations are being made for all these entertainments.

A telephone message from Mrs. Lena Maude Bridges, of Hobart, Okla. was received by her parents, Mr. and Mrs. John A. King, Tuesday to the effect that she had lost her twelve months old baby boy of diphtheria at three o'clock that day after but a few hours illness of the disease. This was the twin to the little girl she lost in infancy. Lena Maude has had her share of sorrow, and her many friends here will deeply sympathize with her.

SANITARY BARBER SHOP & BEAUTY PARLOR

The Herald is For Brownfield and Terry County

to be secured by a junior and inferior lien to that of the plaintiff, Mrs. Mary Barron, upon all of the right, title, property, equity, interest, and estate which the defendant, E. W. Maddux, had on the 8th day of February, A. D. 1926, in the premises herein after described (such undivided interest of the said E. W. Maddux being twelve and 2-10 per cent (12.2%) of the total acreage described in said order of sale), in the undersigned, Sheriff of Terry County, Texas, on the 12th day of March, A. D. 1928, at 10 o'clock A. M., levied upon and will upon the first Tuesday in May, A. D. 1928, being the first day of said month, at the court house door of Terry County, in Brownfield, Texas, within the legal hours between 10 o'clock A. M. and 4 o'clock P. M. proffer to sell, for cash, to the highest bidder, all of the right, title, interest, and claim which the said Sabelia C. Maddux, S. C. Maddux, Nannie W. Tanner, B. O. Tanner, E. W. Maddux, Florence Maddux, R. A. Baldwin, S. G. Hightower, W. S. Maddux, the unknown heirs of S. C. Maddux, deceased, and the unknown heirs of W. S. Maddux, deceased, if he be dead, or either of said persons, or any person claiming by, through or under said defendants, or either of them, had on the 26th day of January, A. D. 1923, at any time thereafter, and still have or claim in and to the following described land and premises, to-wit, situated in Terry County, Texas, about two and one-half (2 1/2) miles west of the City of Brownfield, known as the Maddux farm and described as all of Section No. One Hundred and Fifty-four (154), in Block "T", surveyed by virtue of Certificate No. Eighty-six (86), issued to D. & W. R. R. Co., and containing six hundred and forty (640) acres of land, and all of the southeast quarter of Section No. One Hundred and Sixty-five (165) in Block "T", surveyed by virtue of Certificate No. Sixty-one (61), issued to E. L. & R. R. Co., containing one hundred and sixty (160) acres of land, said Section No. One Hundred and Sixty-five (165) having been patented to Edwards Whitaker on January 11, 1881, by Patent No. Thirty (30), Vol. Sixty (60).

The above sale will be made by me to satisfy the above described judgment in favor of plaintiff, Mrs. Mary Barron, as secured by a first lien upon all of the property above described, and the judgment in favor of defendant, S. G. Hightower, upon his cross action over against defendant, E. W. Maddux, as secured by an inferior lien on the undivided interest of the said E. W. Maddux in said property, together with costs of suit, and the proceeds of such sale will be applied in satisfaction thereof, and the balance, if any remaining, will be paid to the defendants, Sabelia C. Maddux, Nannie W. Tanner, B. O. Tanner, E. W. Maddux, Florence Maddux, W. S. Maddux, if living, and if he be dead, then to the unknown heirs of W. S. Maddux, deceased, and to the unknown heirs of S. C. Maddux, deceased, in accordance with the terms of said order of sale.

Witness my hand at Brownfield, in Terry County, Texas, this 12th day of March, A. D. 1928.

F. M. ELLINGTON,
Sheriff, Terry County, Texas.

CARL ROUNDTREE IN LEGISLATIVE RACE

LAMESA, Dawson Co., Texas.—Carl Roundtree of this city has announced his candidacy for Representative from the 119th District.

Roundtree said he would support the educational institutions now located in West Texas, including Texas Tech, the public schools and all State institutions, in such measures needed to further their causes.

If elected he said he would also introduce a bill in the Legislature compelling the State to pay all expenses incurred in enforcing the recent pink boll worm commission's regulations.

Roundtree is a lawyer, is president of the Lamesa Independent School Board, president of the Lamesa Chamber of Commerce, steward in the Methodist Church, a Mason and a member of the American Legion.

She—If you had a whole mind you would have done so a week ago when we first met.—L. B.

A FIRE MARSHAL ORDINANCE

(Advisory) Recommended by State Fire Insurance Commission Austin, Texas, 1927. An ordinance creating the office of Fire Marshal, prescribing the duties thereof, providing for its maintenance, and prescribing penalties for violations.

Be it ordained by the City Commission or Council of the City of Brownfield:

Section 1. The office of Fire Marshal is hereby created. Such office shall be independent of other city departments, the Fire Marshal reporting directly to the Mayor and City Commission or Council. Such office shall be filled by appointment by the Mayor, by and with the consent of the City Commission or Council, within 10 days after this ordinance shall take effect. The said Fire Marshal shall be properly qualified for the duties of his office, and shall be removed only for cause. He shall receive an annual salary of fifty dollars, payable in monthly installments, as full compensation for his services.

Sec. 2. The Fire Marshal shall investigate the cause, origin and circumstances of every fire occurring within this city by which property has been destroyed or damaged, and shall especially make investigation as to whether such fire was the result of carelessness or design. Such investigation shall be begun within twenty-four hours, not including Sunday, of the occurrence of such fire. The Fire Marshal shall keep in his office a record of all fires, together with all facts and circumstances, including the origin of the fires and the amount of the loss, which may be determined by the investigation required by this ordinance.

Sec. 3. The Fire Marshal, when in his opinion further investigation is necessary, shall take or cause to be taken the testimony, on oath, of all

persons supposed to be cognizant of any facts or to have means of knowledge in relation to the matter under investigation, and shall cause the same to be reduced to writing; and if he shall be of the opinion that there is evidence sufficient to charge any person with the crime of arson, or with the attempt to commit the crime of arson, or of conspiracy to defraud, or criminal conduct in connection with such fire, he shall cause such person to be lawfully arrested and charged with such offense or either of them, and shall furnish to the proper prosecuting attorney all such evidence, together with the names of witnesses and all of the information obtained by him, including a copy of all pertinent and material testimony taken in the case.

Sec. 4. The Fire Marshal shall have the power to summon witnesses before him to testify in relation to any matter which is by the provisions of this ordinance a subject of inquiry and investigation, and may require the production of any book, paper or document deemed pertinent thereto. The said Fire Marshal is hereby authorized and empowered to administer oaths and affirmations to any persons appearing as witnesses before him.

Sec. 5. Any witness who refuses to be sworn, or who refuses to appear or testify, or who disobeys any lawful order of said Fire Marshal, or who fails or refuses to produce any book, paper or document touching any matter under examination, or who is guilty of any contemptuous conduct during any of the proceedings of the Fire Marshal in the matter of said investigation or inquiry, after being summoned to give testimony in relation to any matter under investigation as aforesaid, shall be deemed guilty of a misdemeanor; and it shall be the duty of the Fire Marshal to cause all such offenders to be prosecuted. Any person being convicted of any such misdemeanor shall be fined in a sum not exceeding twenty-five dollars (\$25.00). Provided, however, that any person so convicted shall have the right of appeal.

Sec. 6. All investigations held by or under the direction of the Fire Marshal may, in his discretion, be private, and persons other than those required to be present may be excluded from the place where such investigation is held, and witnesses may be kept separate and apart from each other and not allowed to communicate with each other until they have been examined.

Sec. 7. The Fire Marshal shall have the authority at all times of day or night, when necessary, in the performance of the duties imposed upon him by the provisions of this ordinance, to enter upon and examine any building or premises where any fire has occurred, and other buildings and premises adjoining or near the same, which authority shall be exercised only with reason and good discretion.

Sec. 8. The Fire Marshal, upon complaint of any person having an interest in any building or property adjacent and without any complaint, shall have a right at all reasonable hours, for the purpose of examination to enter into and upon all buildings and premises within the city, and it shall be his duty, monthly or more often, to enter upon and make or

cause to be entered and made, a thorough examination of all mercantile, manufacturing and public buildings, together with the premises belonging thereto. Whenever he shall find any building or other structure which, for want of repair, or by reason of age or dilapidated condition, or for any cause, is especially liable to fire, and which is so situated as to endanger other buildings or property, or so occupied that fire would endanger persons or property therein, and whenever he shall find an improper or dangerous arrangement of stoves, ranges, furnaces or other heating appliances of any kind whatsoever, including chimneys, flues, and pipes with which the same may be connected, or a dangerous arrangement of lighting devices or systems, or a dangerous or unlawful storage of explosives, compounds, petroleum, gasoline, kerosene, dangerous chemicals, vegetable products, ashes, combustible, inflammable and refuse materials, or other conditions which may be dangerous in character or liable to cause or promote fire or create conditions dangerous to the firemen or occupants, he shall order the same to be removed or remedied, and such order shall be forthwith complied with by the owner or occupant of said building or premises. Provided, however,

that if said owner or occupant deems himself aggrieved by such order, he may, within five (5) days, appeal to the Mayor, who shall investigate the cause of the complaint and unless by his authority the order is revoked, such order shall remain in force and be forthwith complied with by said owner or occupant. At the end of each month the Fire Marshal shall report to the State Fire Marshal all existing hazardous conditions, together with separate report on each fire in the city during the month.

Sec. 9. Any owner or occupant of a building or other structure or premises, who shall keep or maintain the same when, for want of repair, or by reason of age or dilapidated condition to fire, and which is so situated as to or for any cause, it is especially liable to endanger buildings or property of others, or is especially liable to fire and which is so occupied that fire would endanger other persons or their property therein, shall be punished by a fine of not less than ten dollars (\$10.00) nor more than fifty (\$50.00)

Sec. 10. Any owner or occupant of any building or other structure, or premises, who shall keep or maintain the same with an improper arrangement of a stove, range, furnace, or other heating appliance of any kind whatever, including chimneys, flues,

connected, so as to be dangerous in the matter of fire, or health, or safety of persons or property of others; or who shall keep or maintain any building, other structure or premises with an improper arrangement of a lighting device or system, or with a storage of explosives, petroleum, gasoline, kerosene, chemicals, vegetable products, ashes, combustibles, inflammable materials, refuse, or with any other condition which shall be dangerous in character to the persons, health or property of others; or which shall be dangerous in the matter of promoting, augmenting or causing fires; or occupants of such building, structure or premises other than the maintainer thereof, shall be punished by a fine of not less than ten dollars (\$10.00) nor more than fifty (\$50.00).

Sec. 11. No prosecution shall be brought under Sections 9 and 10 of this ordinance until the order provided for in Section 8 be given, and the party notified shall fail or refuse to comply with the same.

Sec. 12. The penalties provided for herein shall be recovered by the city in the same manner as provided by law for the enforcement of fines, forfeitures, and punishments for offenses against the city.

Sec. 13. Every day's maintenance of any of the conditions prohibited in any of the foregoing sections shall be a distinct and separate offense.

Sec. 14. All misdemeanors herein provided for shall be prosecuted, and all fines and forfeitures herein provided for shall be recovered and enforced, in the same manner as provided by law for the enforcement of fines, forfeitures, penalties and punishments for offenses generally against the city.

Sec. 15. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Sec. 16. Whereas, public safety demands the immediate passage of this ordinance, creating the office of Fire Marshal and empowering the said officer to discharge the duties herein set out, therefore an emergency exists demanding a suspension of the rules requiring ordinances to be read on three several days, said rule is hereby suspended, and this ordinance is placed on its first reading and final passage, and shall be effective and in full force from and after its passage and approval.

Approved this 12th day of March 1928.

Joe J. McGowan, Mayor.

Attest: Roy Herod, City Secretary.

A supreme effort should be made to get our highways all marked before the tourist season starts in earnest. We should share more than ever this year in the tourist business.

Notwithstanding its great oil production and its steadily growing tendency toward smaller farms and diversification, the Panhandle-Plains area of Texas undoubtedly will be essentially, a cattle country always.—Amarillo News-Globe.

Yep, it was about the shortest summer we have experienced in some time. While Miss Spring had to back off until Old Man Winter had his final encore, we hope Miss Spring takes a run-and-go at the old guy next time and pushes in his face for

all time.

That harmony meeting at Dallas last Saturday seemed to be anything else but what its promoters intended it and after the discharge of all the big guns and the smoke cleared away, everybody and every principle seemed to be "sottin" right where it was left. Democrats must be Democrats, and they will fight it out among themselves, if it takes all summer.

The rains, snow and sleet have put quite a bit of moisture in the ground, but not as much as might be desired. However, the ice is broken and other rains will likely follow in the near future. Most of the fruit is gone, if not all of it; leaves on most of the trees must bud again, but such is life, and no need to cry over spilled milk.

Operators in Wall Street have been developing high blood pressure the past two weeks trading in stocks, inflating them to the bursting point, and, sure enough, they "busted." It reminds one of a little boy with a toy balloon—he wants to see how big it will get before it explodes. The bulls of Wall Street had a great time for almost two weeks, but when the bears got organized the little stock-boasting bubble burst with such a roar that many of the purchasers of high-priced stock will now have to open up filling stations or take up some other popular means of support. The moral is: "Don't gamble."—Colorado Record.

CAN'T AFFORD GRADE BULLS.

Only 25 per cent of the bulls at the head of dairy herds in the United States are purebred, yet thousands of purebred dairy bull calves are slaughtered for veal every year because there is no demand for them as breeders. Undoubtedly some of these calves are inferior and ought to be slaughtered, says W. E. Wintermeyer, dairy husbandman of the United States Department of Agriculture, but most of them are far superior to the grade and scrub sires that are now being used in many dairy herds.

Many dairymen with small and medium size herds, which often contain poor cows, say they cannot afford to own a purebred dairy bull because of the high original cost. In reality, says Mr. Wintermeyer, these men can least afford to own an inferior bull.

In a new publication just issued by the Bureau of Dairy Industry, as Leaflet No. 16-L, "Pure Dairy Sires," Mr. Wintermeyer quotes figures obtained from the records of dairy-herd improvement associations in all parts of the United States that show how rapidly a good dairy sire can increase the production of a herd of average cows. Cows in these herds having an average yearly production of 4,695 pounds of milk and 179 pounds of butterfat a year and mated to purebred sires, produced daughters that averaged 7,607 pounds of milk and 300 pounds of butterfat, a gain in one generation of 2,912 pounds of milk and 121 pounds of butterfat per cow.

This increase in butterfat production at 50 cents a pound, is worth about \$60. Allowing about 25 per cent for the extra feed required for the higher production, the value of the net gain per daughter due to the purebred sire would be \$45. A purebred bull would need to sire only a few such daughters to pay for himself and the yearly income would be increased by an amount equal to \$45 multiplied by the number of his producing daughters.

A copy of the leaflet may be obtained by writing to the United States Department of Agriculture, Washington, D. C.

Send the Herald to your friends.

WAY BACK IN THE YEAR 1890—

The world's most famous automobile manufacturer was working in a bicycle shop:—

A millionaire hotel owner was answering room calls.

America's steel king was stoking a furnace.

An international banker was firing a locomotive.

A president of the U. S. was running a printing press.

A great merchant was carrying a pack on his back.

A railroad president was pounding a telegraph key.

There is always room up the ladder and opportunity is ahead, not behind.

SAVE with this bank, watch for your chance and let us help you climb.

MANY SOUTH PLAINS TOWNS GETTING GAS

LUBBOCK, Texas, April 7.—John W. Moore's construction crews are working on 150 miles of pipe line construction out of Lubbock to Midland for the West Texas Gas Company, which will give natural gas to a number of South Plains and West Texas towns.

Beginning last Monday, the crews of more than 150 men began laying the line, which they expect to complete in seventy-five working days.

Sixteen carloads of pipe arrived last week. Several miles of the ditch have been completed and the telephone line is past Lamesa.

Wilson will be the first point to be reached by the new extension. Next in order is Tahoka, O'Donnell, Lamesa, Stanton and Midland.

The extension will be completed in time for all homes, business houses and industrial plants in these towns to be piped and receive natural gas before cold weather.

The supply of gas comes from the Panhandle oil fields, north of Amarillo. The West Texas Gas Company entered the South Plains last spring when the franchises at Lubbock and a number of South Plains towns were purchased. Work on the line started early in the summer and was completed, giving gas to Lubbock and a number of other South Plains towns, before Oct. 1, 1927.

When the line was completed into Lubbock the West Texas Gas Company officials announced that a num-

ber of extensions would be made, and the line to Midland was one of the proposed extensions. A line to Crosbyton and other towns east was announced at that time.

The line to Crosbyton was the first constructed, and natural gas has been used in Idalou, Lorenzo, Ralls and Crosbyton for several months.

Other proposed extensions will give service to Brownfield, Littlefield, Levelland, Amherst and other South Plains towns. Work on these lines, however, has not yet been started.

A CLEAN-UP

Clara cleans the kitchen,
Dotty cleans the stairs,
Pa, he cleans the knives
And Helen cleans the chairs;
Ma, she cleans my face and hands,
Well as she is able,
But when it comes to dinner time
The boarders—clean the table! —P. R.

LITERARY CLUB ENTERTAINED

The Literary Club members were guests of Miss Lenore Brownfield Tuesday afternoon, April 3rd. After several games of bridge, sandwiches, salad, tea, icecream and cake were served. Miss Eileen Ellington received high score prize, a dainty imitation Easter egg with pink handkerchief; consolation went to Miss Kathryn Holgate, also an imitation Easter egg with blue handkerchief. Those playing were Misses Alma Brown, Kathryn Holgate, Francis Brownfield, Eileen Ellington, Mesdames Brownfield, Bailey, Wingerd and the hostess.

LUBBOCK C. E. VISITS LOCAL C. E.

The Intermediate Christian Endeavor of Lubbock met with the local Endeavor, Sunday afternoon, April 1st. A splendid program was given under the leadership of Mrs. Peters. The Brownfield Endeavor is planning to visit the Lubbock Society in the near future.

MRS. HAMILTON HOSTESS TO 1927 BRIDGE CLUB.

Mrs. Chas Hamilton was hostess to the 1927 Bridge Club, Wednesday afternoon at three o'clock at the home of Mrs. Baldwin. The cut prizes went to Mrs. Gracey, a pretty cut glass vase, and to Mrs. Holt, a bottle of perfume. Ice cream and cake were served. The plate favors were dainty Easter rabbits. The guests were Mesdames Chester Gore, Baldwin, Walter Gracey, McBurnett, Holt, W. C. Smith and Miss Irene Ditto.

FRIDAY FORTY-TWO CLUB GUESTS OF MRS. WEBBER.

The Friday Forty-Two Club members were guests of Mrs. G. S. Webber Friday afternoon at three thirty o'clock.

Mrs. Flem McSpadden cut high and received a five pound box of candy and Mrs. McBurnett cut low receiving a two and half pound box of candy.

The Easter motif of pink and white was prettily carried out in the tallies and refreshments which consisted of ice cream moulded in the shape of a rabbit and angel food cake. The plate favors were small baskets of eggs.

The guests were Mesdames Kendrick, Hamilton, Cruce, Michie, McBurnett, Flem McSpadden, Holgate, Baldwin, Downing, Griffin, Claude Hudgens, H. W. McSpadden, Collins, W. C. Smith, Clint Rambo and Harry Longbrake.

Mrs. Elmore Carver of Amarillo is visiting her sister, Mrs. Cecil Smith. Their mother is sick in the Lubbock Sanitarium.

Mr. and Mrs. Leo Holmes and Mr. and Mrs. O. W. Fagala and children visited Mr. Holmes' parents in Seminole Sunday.

LEAP YEAR CLUB MEET WITH MISS SHEPHERD.

Miss Cordie Mae Shepherd entertained the Leap Year Club Friday evening with a forty-two party. The high cut prize for the girls was a hand painted handkerchief and went to Miss Lucile Jones; a linen handkerchief for the boys went to Lolin Flip-pin. The low cuts went to Miss Blanche Williamson, also a hand painted handkerchief and Adolphus Smith, a pair of silk Sox. A salad course was served to the following: Misses Lucile Jones, Doris Bandy, Vivian Eubank, Blanche Williamson, Ruth Gore, Jeanette Stice and Messrs Adolphus Smith, Bill Collins, Lolin Flip-pin, W. T. Karr, W. E. Williams and E. G. Nance.

THE SEVENTY SOCIAL CLUB ORGANIZED.

A new club among the ladies has been organized. The qualifications are rather interesting and rather unique. Before one can become a member of this club, she has to be over seventy and a grandmother.

They first met with Mrs. Daughtery at eleven o'clock and dinner was served by her daughter, Mrs. Smith. They have already had several meetings and may they all enjoy many of these socials. The present members are Mesdames Daughtery, Hulse, Hunter, Adams, Barrett, Southerland, Spears and Lovelace.

PARTY AT DELL SMITH'S

Saturday night Mr. Dell Smith entertained some of his friends with a party. Indoor games were enjoyed after which sandwiches, potato chips, cake and hot chocolate were served to Misses Eileen Ellington, Kathryn Holgate, Francis Brownfield, Lenore Brownfield, Pauline Hunter, Alma Brown, Lataine Eickie, Martha McClish, Martha Graves, Pat Shelton, Marion Hill, Nettie Thompson, Kathaleen Hardin and Messrs Murphy May, Sawyer Graham, R. L. Lewis, Don King, John L. Cruce, Penny Ballard, Fain Smith, Pete Marchbanks, John Chisholm and Lee Brownfield and Mrs. Elmore Carver.

EPWORTH LEAGUES TO SEAGRAVES.

The Senior and Junior Leagues went to Seagraves Friday evening and gave a very interesting program. This was followed by a social which was enjoyed by all. Refreshments were served.

Mrs. H. W. McSpadden and daughter, Miss Gladys of Lubbock left Saturday morning for Anaheim, California to visit Mrs. McSpadden's sister. Mr. McSpadden accompanied them as far as Hot Springs, N. M.

Mr. and Mrs. Joe J. McGowan have been visiting relatives in Paducah and Quana.

Mrs. W. H. Collins left Sunday for Hamlin, Texas to visit her parents.

Mr. and Mrs. Vernal Renfro and baby of Amarillo visited relatives here this week. They had been to Lubbock to visit Mr. Renfro's mother, Mrs. Ross Renfro, who is in the Lubbock Sanitarium.

EASTER EGG HUNT

The four year old was not the only one this year that shared in the joy of the Easter hunting and finding the rabbits. In spite of the cold, disagreeable weather there were many parties and hunts for the young folks Saturday.

Saturday morning from eleven to twelve, Miss Mary Lawlis entertained some of the little folks at the home of Mr. and Mrs. J. L. Randal. The eggs were hunted out-doors, after which indoor games were enjoyed. Present were little Misses Irma Jane Smith, Jane Brownfield, Elizabeth Ann Smith, Virgela Mann and Wilma Frank Dunn, Mary Nell Adams and Bobbie Virginia Bowers.

The small children of the Church of Christ Sunday School enjoyed an Easter party and egg hunt Saturday afternoon at the home of Mrs. Roy Collier. As the weather was so bad,

the eggs were hid in the house and indoor games were played. Present were Sammie Legg, Winona Pace, Claude Hudgens Jr., Lavern and Carroll Collier, L. C. and Jack Kenney, Mary Lena Winston, Bobbie Virginia Bowers, Jerry Ben Cook, Christine Hamilton, Caroline Jones, Doris Lee and Claud Gore, Earline and Evelyn Jones, Marie MacLamore, Harold Jones, Jenna V and Junior Murphy.

Mr. and Mrs. McCord and baby of Tahoka spent the week end with her parents, Mr. and Mrs. W. D. Smith.

Mr. and Mrs. Ray Brownfield and Ray Jr. returned Monday from a four weeks visit to Florida and Cuba. They report a splendid trip.

THE LOTTIE MOON CIRCLE

The Lottie Moon Circle met with Mrs. J. B. Jackson Monday afternoon at three o'clock. A very interesting program in Royal Service was taught by the chairman. Sandwiches, pickles, tea and cake were served to the following members: Mesdames Scud-day, Adams, McBurnett, McPherson and W. M. Adams.

M. E. SOCIETY

The Methodist Missionary Society met at the church at three o'clock, Monday afternoon. The lesson "The Unfinished Task in Japan" was led by Mrs. Webber. Ten members were present. The society will not meet next Monday as several of the members are going to Slaton to attend District Conference.

Mrs. F. W. McCracken and little daughter of Pampa spent the week with her parents, Dr. and Mrs. Tread-

away. Mrs. McCracken was formerly Miss Stella Treadaway and is well known here.

EASTER DINNER PARTY

Miss Marie Brown entertained some of the friends Sunday with a dinner. The table was prettily decorated with Easter Lilies and the favors were pretty Easter greetings. A delicious two-course dinner was served at twelve. Those enjoying this hospitality were Misses Lois Daniels, Lena Mae Ballard, Lillie Mae Bailey, Gladys Kendrick, Annie Bell Scud-day, Madeline Elliott and Lou Ellen Brown.

PLAY CLUB ENTERTAINED BY SALLIE T. STRICKLIN.

This week the Play Club was entertained by little Miss Sallie Truman Stricklin. After having a good time playing, sherbet and cake were served to the little Misses Maxine Hill, Kathleen Perry, Geraldine Jones, Jimmie and Virginia Brown and Wanda Graham.

SMART SET SORORITY

The Smart Set Sorority met with Miss Lillie Mae Bailey Tuesday afternoon at four o'clock. Forty-Two was played after which cherry ice cream and angel food cake were served. The guests were Misses Kathaleen Alexander, Mary Kathryn Anthony, Lena Mae Ballard, Gladys Kendrick, Lou Ellen Brown, Bessie Thompson and Annie Bell Scud-day.

IDLE WIVES CLUB

The Idle Wives Club met Tuesday afternoon at three thirty with Mrs.

Hudgens & Knight

R. L. Bowers. In bridge Mrs. Wingerd scored high receiving an amber necklace and Mrs. May, next to high, a card table cover. Refreshments were served after which a short business meeting for the election of new officers. Mrs. John King was elected president and Mrs. Bowers secretary and treasurer.

The guests were Mesdames A. M. Brownfield, Fred Smith, McGowan, King, Tom May, Dallas, Wingerd, Shelton, Morgan Copeland, Michie, Claude Hudgens, Holmes, Fagala, McBurnett, Miller and Flem McSpadden.

Music lovers are looking forward to the concert to be given Friday night at the Central School Auditorium by the Ladies' Saxophone Band of the Tech, directed by Prof. LaMaire.

SENIOR CHUCK BOX

Standard Rings Adopted

Last Wednesday the High School was visited by a representative of a jewelry firm which advocates the standardization of high school rings, and the student body voted unanimously to adopt these rings for three years. As the school emblem is a "cub" the rings will bear the likeness of a cub with the date of the student's graduation on either side. This standardizing of class rings is becoming more popular all the time in the more prominent schools and colleges and is rapidly replacing the changing of rings each year. It lends individuality to our school and also lowers the price of the rings by virtue of our having signed the contract.

In addition to the rings the com-

pany agree to present to the high school a mahogany and bronze plaque with places for the names of honor graduates for six years. This will be somewhat of a goal to look forward to, for it would be quite an honor to have one's name before the student body as an example of good scholarship.

Quite an interest has been created by the King Candy Company' Mothers Day Contest that is being conducted in high schools all over the State.

Another six weeks has passed away and a strenuous week has been spent by the Sophs, but most every one made at least 50.

Mary Ann: "Oh! I've a thought!"
Kathleen: "You don't have many—better keep it."

Mr. Heath: "Minnie you must write your papers so the most ignorant can understand."

Minnie: (absent mindedly) "What part did you say you didn't understand?"

Clovis: "Say, Jim, there was once a deep, deep river, on the side of the river was a hungry donkey, and on the other side was a load of hay. The donkey wished for the hay, but he could not swim, the river was too wide to jump and there were no boats or bridges. How did he get the hay?"

Jim: (after a minute of thought) "I give up."

Clovis: "So did the other donkey."
It is certainly hoped that Mable Garrison and Florence Holt may soon

be well enough to return to school again.

Spring—By a Freshman

How sweet salubrious, savage, sagacious, saliferous, sanctimonious, and scrumptious and sandy is the beautiful springtime. There is a faint breath of perfume in the air, emanating from the tender tenderilled flowers, and if I'm not mistaken, there is also onions on someone's breath.

There was a young freshman named Stewman,
Whose hair everything did illumini,
Before going to bed,
He'd cover his head
To keep the fire bells from boomin'.

The student body was favored with an address by Rev. E. V. May, Monday morning, April 2, and Monday Morning the 9th Rev. Liff Sanders delivered an inspirational address. Mrs. Roy Wingerd sang very beautifully, "Make Believe."

W. C. Parish, of route one, Seagraves, is a new reader.

Prof. J. C. Hardy of Baylor College will be here and speak at the High School next Wednesday morning and at the Baptist church in the evening in the place of prayer meeting.

RESOLUTIONS OF SYMPATHY

Be it resolved by the members of Brownfield Chapter Eastern Star, No. 587, that we do hereby tender our sympathy to our sister, Mrs. Glenn Harris in her late bereavement. May God's richest blessings rest upon her.
Respectfully submitted,
Brownfield Chapter of Eastern Star.

TOO MUCH EATS

The Newburg (Ore.) Graphic is responsible for the following as copied from the King's Business: "Behold! The lodge lodgeth together—and they eat. The club club-church has a social—and they eat.

eth together—and they eat. The Young People elect officers—and they eat, and even when the Missionary society meeteth together—they eat. But this latter is in a good cause, because they eat in remembrance of the poor heathen who have not much to eat. Behold! hath man's brains gone to his stomach, and doth he no longer regard intellectual dainties that thou canst no longer call an assembly or get together a quorum or even a "baker's dozen" except that thou hold up the baker's dainties as a bait? Be it true, that the day cometh when to get a crowd at prayer meeting the preacher must hold up the biscuit.

"Yea, verily, thou hast heard the child races of the world. But, behold, it is nigh thee, even at the door. For as one calleth unto the child and sayeth, "Come hither sweet one, and I will give thee a stick of candy," even so thou say to the grown up papa and mama, "assemble ye together and we will serve refreshments!" And lo! they come like sheep to a pen."

Fur Not Highly Prized

The fur-bearing animal, the fisher, is found in forested and uncivilized parts of Canada, and the northern United States, where it formerly ranged southward to Tennessee. Its fur in winter is good and is much caught in Europe. These animals are caught without difficulty in large traps baited with meat. The biological survey says that very few people raise the fisher. The demand for the fur is rather steady, but not great.

Tribute to Teachers

H. G. Wells says: "No conqueror can make the multitude different from what it is; no statesman can carry the world's affairs beyond the ideas and capabilities of the generation of adults with which he deals; but teachers—I use the word in the wisest sense—can do more than either conqueror or statesman—they can create a new vision and liberate the latent powers of our kind."

Named for Inventor

Hero's fountain is a pneumatic apparatus, named for its inventor, Hero of Alexandria, in which a vertical jet of water is produced by the pressure of condensed air.

Electric Fish

The electric eel, the African catfish and the torpedo are known as electric fish because they can discharge electricity at will, according to Liberty.

Keep Out of Court

To go to law is for two persons to kindle a fire at their own cost to warm others and singe themselves to cinders.—Gwen Feltham.

Power in Order

Order means light and peace. In word liberty and free command over one's self; order is power.—Amiel.

Immortal Song

The song "Annie Lull Syne," by Burns, was written about 1789.

CHEVROLET
USED CARS
 "with an OK that counts"

Because we are delivering more new Chevrolets than at any other time in our history, we are offering a number of exceptional values in reconditioned used cars.

Our used cars carry an official O. K. tag which is reproduced on this page. Attached to a used car by a Chevrolet dealer it signifies that every vital part of the car has been inspected, properly reconditioned

and where worn, replaced by a new part. This plan enables anyone to select a used car with absolute confidence as to its satisfactory operation, and the price is absolutely fair and right.

Reasons why you should buy your used car from a Chevrolet dealer

- 1—Chevrolet dealers have been selected by the Chevrolet Motor Company on the basis of their financial responsibility and dependability.
- 2—Chevrolet dealers offer used cars on a plan originated and endorsed by the Chevrolet Motor Company.
- 3—Chevrolet dealers have the necessary modern tools and equipment to properly recondition used cars.
- 4—Chevrolet dealers desire the good will of used car buyers the same as they enjoy from new car buyers.

A few of our exceptional Used Car values "with an OK that counts"

CHEVROLET COUPE 1927—A very late model. Good balloon tires, disc wheels, bumpers, complete rebuild motor job. \$150.00 down, balance monthly. This car guaranteed with an O. K. that counts.

FORD TOURING 1926—Balloon tires are good; everything working and a good buy at \$160.00 with an O. K. that counts.

FORD COUPE 1926 model—New Duco paint job, good balloon tires, motor starter, generator, battery etc. A No. 1 and carries our Red Tag with an O. K. that counts.

CHEVROLET ROADSTER 1926—Reconditioned to give you service. New Duco paint. \$200.00 buys this one, with an O. K. that counts.

FORD SEDAN 1926—Number One mechanically, good balloon tires, repainted and is an unusual bargain for \$250.00 cash or \$100.00 down and terms. With an O. K. that counts.

FORD TOURING 1924—This car is good for many miles yet. Good rubber, starter, new battery, only \$60.00. —"With An O. K. That Counts"—

Dependability, Satisfaction and Honest Value

"But It Doesn't Hurt"

Six-year-old Anna had never seen anyone's nose bleed. One day, while she was playing her nose started to bleed. She ran to her mother, saying, "Oh, mother, my nose is broken, but it doesn't hurt."

Bright Colors

According to the London Opinion, a tailor says that life would be easier for most men if they wore brighter neckties. It would, people would shudder and get out of their way in the streets.

Originated in "Spindie"

The origin of the word "spinster" probably is derived from the "spindle side" of a house, where the unmarried women of a family did their spinning, according to an answered question in Liberty.

Saved by Right Thought

Much misconception and bitterness are spared to him who thinks naturally upon what he owes to others rather than what he ought to expect from them.—Madame Guizot.

ENTERPRISE FOOD PALACE

Every Inch a Real Home Is This Colonial Type

A LIVING-ROOM forty feet long—that is practically what one has in this exceptionally well planned Colonial house. The living-room extends on one side into the dining-room, set off only by two small china closets, and on the other into the sunroom. The whole effect is one of spaciousness and hospitality.

Another outstanding feature is the down-stairs bed-room, which can be used as sick-room, guest chamber, playroom or sewing room, as occasion arises. The stairways are compactly arranged and well out of sight. There are closets and storage space enough to please the most acquisitive housekeeper.

White, cream or grey paint may be used on the siding with shutters, trim and roof in harmonizing colors. The walls and roof are made to resist heat and cold by insulating with celotex. The cost of building may be kept down by excavating only half of the house, taking care to insulate the unexcavated half with a layer of celotex in order to heat the house easily in the coldest weather. A further saving may be effected by finishing off the walls of the second floor rooms with celotex instead of lath and plaster. Left either plain painted, stained or finished with a dainty stencil such walls are extremely effective and durable.

©, Celotechnig Institute, Chicago, 1926.

All but Writes a Letter

A novel letter box has been developed in Germany. The letter is placed in an opening and then coins corresponding in value to the stamps required are dropped in slots provided for them. Thereupon the envelope is automatically stamped and the letter falls into the box.

Immortal Architect

Letinus, the chief architect of the age of Pericles, designed the Parthenon at Athens, the great hall for the mysteries (Telesterion) at Eleusis, and the temple of Apollo Epicurius at Phigalia. He is said to have written an architectural treatise on the Parthenon.

Distinguished Audience

The first law school in America, the University of Pennsylvania, listened to its first law lecture December 15, 1790. President Washington and his cabinet, members of both houses of congress and the Pennsylvania legislature attended.

Odd Church Custom

A bottle of sherry is always presented to the clergyman preaching the Sunday morning sermon in St. Paul's cathedral London. The custom is centuries old, and the wine is the gift of the city corporation.

Oratorical Resourcefulness

When the great orator pauses for an outburst of spontaneous applause and nothing happens, he usually manages to fill the hiatus by reaching for the water pitcher.—Terre Haute Tribune

Homeopathy

Of when a chap is feeling blue, a girl's sweet smile can pull him through—of course the girl, we must assume, is the same one that caused the gloom.—Boston Transcript.

Hard to Understand

I always scorn fashionable twaddle but a riddle that's bothered my life is how a gown looks on a model and later on somebody's wife.—Buffalo Courier-Express.

Birds and Colors

A peacock is unable to distinguish one color from another. Birds that fly by day see everything a bright reddish orange; night birds see blue and violet.

Unique Portrait

A portrait of King James I, carved on a plum stone, encased in a crystal and framed in gold has been presented to the chapter of Southwark cathedral.

Human Mind at Its Best

In the same degree in which a man's mind is nearer to freedom from all passion, in the same degree, also, is it nearer to strength.—Marcus Antonius

Asylums for Mad Dogs

The city council of a town in India has prohibited the killing of mad dogs, holding that they are the same as lunatics and must be put into asylums.

Early Lamp Filaments

Cotton batting burned down to carbon was used as filament in early electric lamps. Bamboo, paper and silk served the same purpose.

Golf is said to be good treatment for the insane, and the State Board of Control of the Insane Asylum at Wichita Falls has just ordered \$40 worth of clubs for their patients. We have often wondered why some Littlefield citizens were so interested in golf.—Littlefield Leader.

CHEVROLET STILL SHATTERING PRODUCTION RECORDS

Detroit.—With March production increasing fourteen percent ahead of any previous month in history and the organizations operating at a record-shattering pace, the Chevrolet Motor Company for the first quarter of 1928 built a total of 342,184 cars and trucks, W. S. Knudsen, president and general manager recently announced.

This record output is 70,000 units more than the turnout during the corresponding period last year, and gives substantial backing to the statement made a week ago by Chevrolet executives that the country is in the midst of an unusual era of prosperity that is destined to hold throughout the greater part of the year.

In March Chevrolet built 133,657 cars and trucks. This is 17,000 units better than February, 1928, which previously was the largest month's out-

put in the sixteen years existence of the company.

The remarkable showing of the company was interpreted here as a sweeping endorsement of the refinements embodied in the Bigger and Better Chevrolet as well as a tribute to the far-seeing policy of Chevrolet officials in arranging their production facilities so that cars might be instantly available to the public.

W. M. Phillips one of our new subscribers recently brought in a perfectly formed hen egg measuring 9X 7 1/2 inches in circumference, and inside contained a perfectly formed egg with hard shell of ordinary size. Are the Terry county hens trying to do double duty this year?

L. D. Chambliss dropped in Saturday to renew. Here is another good friend of the Herald that we can't remember his name five minutes at a time.

Specially Designed Equipment for Chevrolet Service

The service equipment in our shops was designed especially for Chevrolet service work—under the supervision of Chevrolet engineers. These machines and tools were built for this special purpose—to do some one thing perfectly and with the greatest efficiency.

Working with this special equipment, our trained mechanics are able to per-

form every Chevrolet service operation with scientific accuracy and in the minimum time—saving the customer time and money. Drive in today. We will gladly check your car over and give you a complete report of its condition. If it doesn't need servicing, we'll tell you so frankly. And if it does—you'll like our work and our prices!

We use genuine Chevrolet parts in all our repair work—parts made by the Chevrolet Motor Company, and subjected to the regular factory tests for quality and precision.

Practical Four-Room Plan for That "Castle in Spain"

FLAGSTONE terracing. Iron grille bal conies and a quaint wrought iron lantern give distinction to this little old world one-story house. Rough plaster walls and a colorful tile roof make an attractive exterior that will find a welcome in any neighborhood.

But a carefully designed floor plan is its greatest appeal. One enters from the covered loggia directly into the large story and a half living-room, with its triple-arched windows reaching from the floor almost to the ceiling. The dining room above is conveniently located and well lighted. The kitchen has been deftly

planned to give the housewife the greatest comfort and step-saving. Everything about the house has been planned to give the utmost in stability and real home comfort. The walls and ceilings are insulated throughout with celotex to cut down the coal bills in winter and keep the house cool in the summer. Who could wish for a more beautiful little home.

©, Celotechnig Institute, Chicago, 1926.

Higginbotham Bartlett Company

WHEN PROMOTERS USE "CHARITY" TO DECOY TRUSTFUL CONTRIBUTORS

Investigations of Various Schemes for Defrauding Public
Out of Money Disclosed by Bankers Association—
Many Kinds of Fake Industrial Promo-
tions Used as Bait.

By W. R. MOREHOUSE

Public Relations Commission, American Bankers Association

MILLIONS of dollars raised under the disguise of charity go to line the pockets of promoters. Ticket sales on raffles are commonly used, and while the loss to any one person who buys a ticket is small the aggregate loss for the United States runs into millions of dollars. Usually the promoters of these schemes first make a contract with some charitable institution to conduct a campaign for funds on behalf of the institution. They are to run the campaign in the name of the institution and share the proceeds. The whole scheme is often one of deception. To those who have been led to believe that their contributions go practically 100 per cent to charity, the following case we investigated should prove illuminating.

W. R. MOREHOUSE

A number of promoters recently contracted with a charitable institution to put on a campaign to raise funds by the raffle of a new automobile. So far as the public could tell from the banners used in displaying the automobile, the full amount of the sale price of the tickets went to the institution. There was nothing to convey any other impression. Apparently it was open and above board and was being conducted by men who were contributing their time gratuitously.

For several days a new automobile, mounted on a truck, was driven up and down the streets, with banners telling about the drive for funds for the charitable institution. One day the truck would go by displaying one of the popular makes of automobiles. A few days later it would parade by displaying some other popular make. Periodically the truck would pull into the curb where it would park for several hours while the promoters pleaded with passers-by to take tickets on the raffle and thereby help a deserving charitable institution to meet its bills.

Thousands "Touched"

Thousands of people, touched by the appeal for help, bought tickets, the total sale running into the thousands of dollars. Contrary to the belief of the ticket buyers their contributions did not go 100 per cent to charity. Instead the charitable institution received but 26 cents on the dollar, the promoters getting 52 cents on the dollar as their net profit, or twice the amount received by charity, while the remainder of 22 cents on each dollar represented the amount charged against gross sales by the promoters as expenses.

In other words, every person who bought a 50 cent ticket for the sake of charity, contributed but 13 cents to charity and 37 cents to those promoting the scheme. Whether you give to charity or make an investment it will pay you to get the facts!

Unfortunately there is a general impression abroad that wildcat promotions are confined to oil, mining and new inventions. The truth is, many stock selling promotions are operated under the name of other industries.

False Claims

A certain group of promoters investigated offered for sale stock in a proposed woolen mill. In order to sell the stock they resorted to the use of misrepresentation and false claims. After renting space on the ground floor of an office building fronting on a busy street they began their campaign. Orally and by printed advertisements extravagant claims were made for the proposed corporation which were grossly false.

It was claimed that the promoters had the support of the Chamber of Commerce, but it did not have any such endorsement. It was claimed that the corporation had a signed contract for the sale of millions of dollars worth of its products—orders enough to keep the mills running day and night for many years and accordingly insure its success, but all that it had was a valueless fake agreement.

It was claimed by two of the principal promoters that they had had many years of experience in the manufacture of woollens,—in fact had organized and financed a woolen mill which is the largest in the United States. The facts were these two pro-

The "Charity" Drive

motors had not been connected with any mills for over twenty years and they had attempted at different times to promote mills, all of which had failed. One of the promoters represented that formerly he was president and general manager of one of the largest woolen mills in Canada. The fact was the mill referred to had gone into bankruptcy and he had been caretaker of the plant.

This story of misrepresentation can be duplicated in practically the whole industrial field, and because our industries are being exploited with intent to defraud, it behooves every investor to investigate carefully. He should consult his banker before drawing his savings out and losing them on some wildcat investment.

Tokio School Notes

Good morning! Here we are feeling fine. Aand all proud of their report cards. We have our honor roll this week for Mrs. Knoll's pupils, they are as follows:

Boys: Arlie Day, 6th grade, 93 4-7; Jesse Hugh Snodgrass, 6th, 92 4-7; V. G. Latham, 6th, 93 4-7; Grady Hobbs, 5th, 91 1-2; Arvel Snodgrass, 4th, 92 5-6; Clyde Trout, 4th, 91 6-7; Willard Norris, 4th, 92 5-6.

Girls: Flora Mae Proctor, 6th, 92 5-7; Cora Dye, 6th, 91 2-7; Marguerite Anderson, 5th, 95 3-7; Isabel Pfrimmer, 5th, 96 1-7.

Mr. Howard killed two rattlesnakes at Tokio Saturday.

Mr. and Mrs. Farris lost a darling baby girl Sunday. It was only a few weeks old. School was turned out Monday so the children could see the baby.

We were sorry that we didn't have our Easter program Sunday, but we didn't want to have it in such weather. We will have it Wednesday night if nothing happens.

We regret very much that Flora Mae Proctor has missed school some on account of the toothache.

V. G. Latham is still out of school. We regret his absence very much.

Mr. Sappenfield had bad luck about 8:00 Sunday night his oil brooder exploded and burned the oil brooder and about 150 little chickens and about 100 grown hens. The building cost

\$100.00 and if his feed hadn't been wet it would have burned.

Mr. Pippin has a new Overland-Whippet and he is very proud of it.

The sixth of Tokio are very busy with more exams. They are to take a history exam today.

Say Hunter, you said in your notes a while back that you were going to give us some of Wellman's medicine only yours would be castor oil. But thanks, no one needs it at Tokio, go ahead and give it to Wellman.

Doris Snodgrass and Cora Dye.

Enjoy the Spring Roads Comfortably!

SPRING, the motoring season, is here. Everyone wants to be out taking advantage of the weather. Week-end trips, after-dinner drives, long rides on Sundays—everything is just great—except the roads.

Many roads are still bad—wet, muddy and cut up by the frost.

To enjoy the pleasant weather, there is one absolute necessity—good, dependable tires.

That's why we suggest that you look over your tires now and replace the doubtful ones with United States Tires. They will carry you smoothly and safely over the worst of roads. They will allow you to enjoy every minute of the spring season.

Come in and let us show you how we can help you with Royal and USCO Cords.

A DUTCHMAN'S LETTER

Killeen, Texas, Mar. 8, 1928.
Dear Alex:

As I haf nodding to do, and vish to do nodding, I tout I vould took my pen and boddle of ink in my hand and typewrite you a ladders. Blease oxeuse dis lead pencil.

Be are all vell at bresence except my brudder, he was kicked in the sub-urbans last night by a mule—de mule is not expected to lif.

Your rich antie who died from pal-pitation of the heart ven you vas here is still deadt and doing nicely. Hope dis will findt you de same. After she diedt dey foundt fifteen thous-and dollars sewed up in an old bussell that she left behindt, so you are therefore no longer a poor man but a rich Dutchman.

Buziness has been dull since you leftt—especially the saloon business. Your wife was tooken to dey insandy asilum yesterday—she is crazy to see.

I saw your liddle poy dis morning for the first time. I dink he looks just like you, but he is all right other wise, so I vould not vorry aboutt dat it if I vas you.

I am sending you py Adams ex-press your overcoat, and as dey charge so much de pounds to sendt it, I cut from de coat de buttont off Hoping dis will prove satsfactment. You will findt de buttont in the inside pocket.

I almost forgot to tell you I got married last veek. I godt a purty goot vife. She is from Milo, but I dink I couldt haf godt a bedder vun at Naturville, as dey haf a much larg-est stock to select from.

And diss iss all vat I got to say, I vill klose my face and expect you to do the same. Hoping dat dis vill reach you before you gedt it, and dat you vill answer before dat, I remain your confectionary second to the last kousin.

—Bob.

P. S. In case you do not get dis letter write me und ledt me know und I vill sendt it to at vunce.

The above communication was found on the streets of Hearne, hav-ing evidently been lost by the writer before mailing. We are publishing it in hope that the writer will call for it, pay for this notice and send it on its journey.—Hearne Democrat.

A GREAT HUNTER

A certain Hebrew gentleman once went to Africa on a hunting trip. When he came back the home folks gave him a testimonial dinner, and somebody asked him to tell about his most terrifying experience.

"Vel," he said, "vun night I vas walking out from the kemp, and I heppened to think I had forgotten my gun. But I don't care. I am a brafe man; I walk on. Purty soon I hear a noise, and I look to my right, and there is a lion! And I look to my left, and there is a tigair. I look behing me, and it was a elephant. I look in front of me, and it is a rhin-ocross. I say, vell, I must climb a tree, and there is a leopard!"

He paused. His audience vas breathless. One quavered, "My! Vot heppened to you?" The hunter swell-ed his chest:

"Vot heppened to me?" he de-manded. "Vot could heppen to me? I was killed!" —O. M.

HUNGRY LOVERS

"It's a shame!" cried the young wife. "Not a thing in the house fit to eat! I'm going home to papa."

"If you don't mind, dear," said the husband, "I'll go with you." —O. M.

N. F. Emerson was in from the Harmony neighborhood last week and reports that some of their roads to

Brownfield are getting fierce and he clayed before they are of any satis- sure they are going to have to be faction to the people of that section.

BROWNFIELD, TEXAS

To avoid the possibility of waiting, phone us for ap- pointment.

Millions of Model T Fords are still in active service

FOR nearly twenty years, the Model T Ford led the motor industry and it still is used by more people than any other automobile. More than eight million Model T Fords are in active service today—an indication of their sturdy worth, reliability and economy.

Because of the tremendous investment which people have in these cars and because so many of them will be driven for two, three, and even five more years, the Ford Motor Company will continue to make replacement parts until, as Henry Ford himself says, "the last Model T is off the road."

For the Ford Motor Company has always believed that its full duty consists not only in making a good automobile at a low price, but also in keeping it running efficiently for you as long as possible at a minimum of expense.

No matter where you live, therefore, you can still buy Model T Ford parts with the same assurance as formerly, knowing that they will give you the kind of service you have a right to expect, and at the same time protect the money you have invested in your car.

All Ford replacement parts, as you may know, are made of the same materials and in the same way as those from which your car was originally assembled, and are low in price because of the established Ford policy.

So that you may get the greatest use from your Model T Ford over the longest period of time, we suggest that you take the car to the nearest Ford dealer and have him estimate on the cost of any replacement parts which may be necessary. You may find that a very small expenditure will maintain the value of your car and will be the means of giving you thousands of miles of additional service.

FORD MOTOR COMPANY

Detroit, Michigan
