VOLUME 24

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, AUG. 31, 1928

NUMBER 2

## Ft. Worth-Roswell Highway Assn Formed

A meeting of the Fort Worth-Roswell Grand Canyon Highway Association was held at the Onstott Hotel in Rotan Tuesday afternoon, when the title of the association was ratified and officers for the ensuing year elected.

Claude Simpson, of the Roswell, N. M., chamber of commerce president, having been named president at the last meeting of the association. J. E. Shelton of Brownfield, secretary in office read the minutes of the last meeting, and, following an address by President Simpson, started into the business of the day.

A committee of constitution retired to draft the document, and while they were out, several enthusiastic talks were made. The report of the committee was accepted and the constitution adopted.

A nominating committee brought in the following list which was by acclamation quickly declared the choice of officers for the ensuing year:

W. T. Patterson, Rotan, President.  
W. G. Swenson, Stamford, Vice-President.

J. E. Shelton, Brownfield, Secretary.

Tate May, Hamlin, Treasurer.

After some further discussion of road problems and some booster talks, the meeting adjourned to meet in accordance with the provision of the constitution which provides for an annual meeting sometime in June, the place and date to be named by the president.

Out of town delegates present were: H. W. Davis and Perry T. Brown, Clairmont; P. G. Stanford, Plains; Glenn Harris and J. E. Shelton, Brownfield; Homer Massey and Tate May, Hamlin; J. D. Langford, Jr. and F. W. Alexander, Albany; W. G. Swenson, Wanen B. Tayman, and F. M. Locke, Stamford; Claude Simpson and B. F. Kelly, Roswell, N. M., Ed McRae, Fort Worth.

A number of Rotan citizens attended the meeting.—Rotan Advance.

## Methodist Close A Great Revival Sunday

The Methodist denomination closed one of the best revivals from every angle that denomination has held in a number of years last Sunday night with something like 42 additions to the church. Not only were the local pastor and members pleased, but Evangelist Michael and singer, Rev. Ed R. Phillips were highly pleased with the effort.

Rev. Phillips held a meeting for men only at the Rialto Theatre last Sunday afternoon at 3 at which there was a large crowd, and some conversions, we understand.

Throughout the meeting the singing was led by Rev. Ed R. Phillips, a veteran of forty years experience who gives every service the benefit of his years. He bears the wishes of the people of Brownfield for many more years that he may continue in the work to the blessing of many more thousands of souls. He has been in meetings with such celebrities as W. A. (Billy) Sunday, Lovic Pierce Law, and Dr. Chapman. He has seen nearly a hundred thousand people "hit the saw-dust trail."

The preaching was of the old fashioned holy-ghost type seasoned with common sense, earnestness and conviction; free of culpable advantages of emotion or psychology. His fearless gospel preaching will long be remembered. No frivolity was indulged at any time.

The last word was that the meeting was a success in every particular and the evangelist left Monday morning for Abernathy to be at home with his four children and home church as Bro. Phillips left for Siloam Springs, Arkansas to be at home with his family. Just before leaving Rev. Michael called at the Herald office and stated that one other person had made known his decision to immediately unite with the membership of the church.

Miss Ola Belle Brown was brought home from Lubbock Sunday and seems to be slowly improving.

## CHAMBER OF COMMERCE

The writer was out of town last week attending a highway meeting and did not get in his column last week. The highway meeting concerned our east and west route and was held in Rotan and was attended by most of the large towns between Fort Worth and Roswell and all were very enthusiastic concerning its future possibilities as a transcontinental route. The eighty mile section through Kent county has only two right angle turns and is graded and drained according to federal specifications with concrete culverts and guard rails on turns. It is a dry weather road and a little shorter than the one by way of Snyder but would be rather hard to negotiate after a heavy rain. Kent county has the funds with to hard surface through their county but will not proceed with it until after the grade has time to settle. Fisher county is undertaking to vote bonds for the purpose of improving this as well as other roads in their county and the election has been called for the latter part of September, with indications that it will carry by a good majority.

If Fisher county would vote the bonds, then the only dirt section between Fort Worth and the Grand Canyon would be the four Plains counties of Garza, Lynn, Terry and Yoakum. Hon. Cone Johnson, member of the State Highway Commission, was in town Saturday on his way home from a vacation in New Mexico, and remarked that we needed hard surfaced roads, but stated that he thought that he could build them out of Calche and if he is correct, our bond issue for hard surfaced roads would be much less than some of us have had occasion to believe.

Work on the county fair is coming along nicely and it is expected to pull off the most complete one ever had in this section. The premium list is expected to be off the press this week and will be ready for distribution soon after September 1st.

A number of ladies and men, met with the commissioners court, Monday and requested the employment of a home demonstration agent, but it is very likely that a petition carrying several hundred names will have to be presented before any official action will be taken.

This office has a supply of booklets on hand, which are descriptive of the county and would be glad to mail them out to any person. Just give us the name and we will do the rest or come and get the booklets yourself.

The Chamber of Commerce, working with the United States Labor Bureau, will undertake to secure cotton pickers for the county as soon as the need for them arises, but our efforts will be hampered and the demand hard to fill, unless farmers over the trade territory advise us of the number of pickers required. Information wanted is number of pickers each will need. Whether families can be housed. Whether board can be given to single men and whether Mexican or white labor is preferred. Distance from town; number of acres and price that will be paid both with and without board. The above information is desired as far in advance as possible of the date that the pickers will be needed. The following varieties of forage will be needed to assist in filling the score card at the Lubbock and Dallas Fairs and if any one knows who is growing any one of them, it would be appreciated if they will advise this office. Red top; Orange; Amber; Mortgage Lifter; Darso. The above preferred but any other varieties will do.

Flem McSpadden has recently installed a lot of new and up-to-date machinery and tools in his shop, bringing it right up to shops to be found in larger places.

Mrs. Lester McPherson came in Tuesday from San Angelo where she visited her husband and daughter, Miss Thelma, who has a position in a telephone office there.

John Scott, mechanic at the Hardin-Burne agency went to Plainview Tuesday.

## Work Started on Underwood Compress

We were informed at one of the local hardware stores this week that actual construction work was started this week on the large cotton compress of the Underwood interest, and that work on the same will be rushed to completion in order to have the plant ready to handle this year's crop of cotton. Besides installing the machinery, large sheds will be built for storing cotton out of bad weather. This will mean a good additional payroll for the community.

There continues to be many improvements started in the way of residences in either making them more comfortable for the long winter months, or enlarging and beautifying them. This shows that our people are behind none in trying to make home a more pleasant place to dwell.

Among those making improvements is Harry Longbrake, who is putting a large addition to their home. Mr. Longbrake and family have but recently returned from a visit to their old home in Illinois, and as he stated, now being perfectly satisfied with old Terry, and making real preparations to live here. "What is it about this country that makes one want to return in a week after going elsewhere?" asked Harry to the writer. "Why it was so hot up there that I was almost afraid to go to sleep sometimes for fear I would smother, and the wife asked me the first night we were up there what I would give for a real breath of air like we get here on the Plains."

C. L. Wines has had the front of his hotel closed up that has been heretofore used as a veranda, and is converting that part into the lobby making it much more spacious and the place more attractive. Other alterations will also be made to this popular hotel. We understand this hotel will be under new management in the near future, but they are not at present ready for any definite announcements.

Work is progressing nicely on the Clarence Lewis home. This is to be a six room and bath stucco, instead of five as stated last week.

There are now five brick masons working on the Holgate-Enderson building and the work is moving along entirely satisfactory to the contractor, and architect, Roy Wingerd.

Foundation is being laid this week for the nice six room and bath stucco being built for John Burnett by Whisenant & Sons, contractors. He is also building a neat stucco garage in the rear.

Mr. Brown has recently wrecked the old two room building on east Broadway known as the old Methodist parsonage, and is moving it. This was one of our old land mark residences that housed the early proclaimers of Methodism in Brownfield. No regrets, for a nice home will adorn its site some of these days.

## New Dentist Buys Office and Equipment

Dr. Ed Dood, of Dallas has recently purchased the office, furniture and fixtures, together with the practice of Dr. H. H. Hughes, dentist and the latter, we understand will leave for school in the next few days to further equip himself in a professional way.

Dr. Wood comes to us highly recommended as a dentist, having recently had offices in the Medical Arts building at Dallas where he practiced his profession for some time. In securing the Dr. Hughes offices and equipment, he has one of the best equipped offices with instruments for dental surgery in this section of the state. Everything including X-ray for dental diagnosis is of the newest known to dental science.

Dr. Wood announces that he comes to Brownfield to make this his home and grow with this fast developing section of the state, and he will not only be pleased to meet Dr. Hughes old customers, but new ones as well, whether you have immediate need for his services or not.

Mr. Hargraves of Ralls was over the first of the week looking after his interests here.

## 4-H Club Officers Have Interesting Meet

Twenty-five officers of eleven 4-H clubs of the county met in the county agents office Tuesday and planned the club work for the month of September which is going to be the busiest of the year for 4-H boys and girls.

The first thing that was decided upon was to take proper steps toward becoming affiliated with the Texas 4-H Club organization. Terry county has rightly earned a place in the 4-H club work of Texas and could have her representatives in the club congress. Allene Tapp was instructed to get in touch with the President of Texas clubs and determine what is to be done in order to gain recognition by the State organization.

The next question that was discussed was that of the County Fair. The Fair management has given the task of community exhibits to the 4-H clubs, that is where the community has a club and the way the clubs have taken hold of it there is going to be some strong competition among clubs and their communities. All eleven clubs represented which were Pleasant Valley, Forrester, Brownfield, Lahey, Needmore, Challis, Johnson, Union, Gomez, Wellman, and Meadow declared that they would be the first to get their names on that beautiful silver loving cup. That is going to be a race and will bring the best products of the county to the fair. There were three clubs that were not represented namely Tokio, Harmony, and Prairie View. These clubs have strong organizations and will doubtless fall in line and make it the merrier for the winner.

Judging from the representation every boy is going to have his pig at the fair and some have already started using a little hair oil and manicuring their toes. I tell you the judge that judges the hog show in Brownfield is going to have some hard time. These club boys and girls have been talking all year but now they are going to show that all their time has not been spent in talking.

September club meetings were discussed and it was agreed that a poultry culling demonstration would be given by the county agent assisted by the club members. Most of the rural schools are going on and it was thought best to have most of the meeting at the school houses immediately after school unless otherwise designated. Proper notices will be sent out and all people of community are invited to attend these meetings.

The meeting was closed with a watermelon feast on the court lawn. Every officer went away feeling that he had been helped and that he was going to make his club a little better.

These county officers' meetings are very important and the next one will be held before the Fair and every 4-H club officer must be present or get behind times.

## Poultry Culling and Dipping Demonstrations Will Be Given at the Following Places at the Designated Time. All Club Members Should Be Present. Every One is Invited.

Prairie View at 2 p. m. Sept. 3rd, at schoolhouse.  
Meadow, at 4 p. m. Sept 5th at the S. W. White's home.  
Challis at 10 a. m. Sept 6th at the school house.  
Pleasant Valley at 4 p. m. Sept. 6th, at the school house.  
Harmony at 10 a. m. Sept. 7th, at the school house.  
Needmore, at 4 p. m. Sept. 7th, at the school house.  
Tokio to be arranged later.  
Johnson, at 4 p. m. Sept. 11, at the school house.  
Gomez, at 4 p. m. Sept. 12 at the school house.  
Wellman, at 3 p. m. Sept. 13, at Mrs. L. P. Adair's.  
Lahey, at 3 p. m. Sept. 14 at Lee Hulse.  
Forrester, at 3 p. m. Sept. 17 at Mr. Forrester's.  
Union at 4 p. m. Sept. 18 at the school house.

R. B. DAVIS  
County Agent

Mr. Vernon Davis of Tahoka, was a visitor in Brownfield a while Sunday afternoon.

## COUNTY AGENT'S COLUMN

Every pin club member of Terry county should sow a small patch of wheat or barley for winter pasture. It will only be a few months now until your gilts will be old enough to breed and you should, if at all possible have some green stuff to feed all winter. Green feed with plenty of exercise makes big litters of strong healthy pigs.

It will be of interest to pig club members to know that Lillard's hogs are cleaning up in the big shows of the north. At the Ill. Tri-State Fair they won 30 firsts, and champions and grand champions on both Duroc and Poland Chinas and at the Missouri State Fair with 1525 hogs in the show the hogs shown by the Lillard stock farms were the heaviest winners of any breeder. We can feel proud of the winnings made by Mr. Lillard and should take a pride in the fact that Terry county has seventy one pigs which carry the same blood that these champions of the pig shows have. Mr. Lillard has promised to attend our county Fair September 28-29 if his health permits and we must show him some gilts and boars that will cause his hogs trouble at the Lubbock Fair.

The boar pig of Robert Luker's is now weighing around 150 pounds, and is not carrying any flesh at all. This is one of the best Poland young boars I have ever seen, and promises to develop into a herd boar that will rival its sire, Forever an Ace, which is now showing at weight of more than 1000 pounds. With a continuation of plenty of green stuff, exercise and skin milk Robert is going to make some hustle in the John Poland Boar Class at the Fairs this year.

Again let me remind you pig and poultry club members that you should sow a small patch of wheat or barley for winter feed. It will make your ration much cheaper and is very necessary your pig is going to depend upon cessary for a brood sow. The profit the number of pigs and quality of those pigs next spring that you can raise. Harrow in about 2 bushels of wheat or barley to the acre. It won't take much to supply the needs of your pig or poultry. You can put it in any patch where the sand will hurt it as little as possible. It should be sowed as soon as you can get the seed and may be put in cotton or feed that does not share the ground completely.

Lets start working towards the County Fair now and show the county what we have accomplished this year in our crop and poultry, garden and livestock work. Something tells me ember odoradwofaw dordidol idoroo that we are going to have a real Fair this September 28-29.

## Miss Bernice Weldon Takes Up Her Practice

Miss Bernice Weldon, who has been taking a special course at the Texas Technological College for the past year, including the summer term, has returned to her home in Brownfield and has again taken up her profession as chiropractor at the home of her mother one block north of the brick garage, and will be found there from now on.

Miss Weldon needs no introduction from us, as she is well known here both socially and professionally. For the past few years she has successfully carried on this work here, and has given entire satisfaction to a host of patients who have come under her treatment.

The Herald pines a host of other friends of Miss Weldon in welcoming her back home for resumption of her practice.

Mr. and Mrs. J. A. King of Midland are here, the guests of her parents, Mr. and Mrs. Dee Elliott.

Mr. and Mrs. E. C. Roberts of Seagraves spent Sunday night at the Stricklin home.

## Little Interest Took in Election Saturday

We had an unusually quiet election here last Saturday owing to the fact that only two offices were to be filled in the county and only four in the state. As to the sheriff's race in the county, we heard men express themselves that they did not care which got the office, as both were good men and would fill the office entirely to their satisfaction.

Indeed, with the cloudy weather on hand, and the heavy rains for two days before hand, some of the more venturesome were willing to lay wagers that less than eleven hundred votes would be cast, but there was about 1400 votes cast. But the sun came out in the afternoon, and the polling places were crowded at times during the afternoon.

The following is the unofficial count as given the Herald of the vote in Terry county:

For Lieutenant Governor:  
Barry Miller..... 713  
Tom Love..... 189  
For U. S. Senator:  
Tom Connally..... 542  
Earle B. Mayfield..... 657  
For Superintendent Public Inst.:  
Garner..... 360  
Marrs..... 712  
For Land Commissioner:  
J. T. Robinson..... 770  
Terrell..... 271  
For Sheriff and Tax Collector:  
J. M. Telford..... 743  
Jesse Smith..... 645

## Firing Up the Brownfield Gin Plants Again

The six big gin plants of Brownfield are undergoing repairs and being cleaned in preparation for one of the largest season runs in a good many years. We noted that the Farmers Gin was fired up one day last week in order to test out the flues and other parts of the power department and we presume others will test out in a few days.

The English gin which has recently been purchased is undergoing extensive repairs and is receiving much new machinery in order to put it in shape to do all kinds of ginning required in this county. All the other gins have already been equipped to successfully handle the bollie cotton. Some of them have received new coats of paint, the West Texas for instance, and all have been given a thorough overhauling.

The McCord Gin has also been given a nice coat of red paint that adds much to its looks.

These gins, as has been the custom for years, will have an announcement in these columns in the next few weeks, and will more fully tell the readers and their customers just what has been done to them, as they are better prepared to give this information than we are.

Anyway, when the season opens, our six big gin plants are going to be prepared to care for the crop here without unnecessary delays and in prime shape.

Gin at Brownfield!

## TO THE VOTERS OF TERRY CO.

Just to recall the promises I made during the campaign that I will be the sheriff of all the people of Terry county, and try to make a record that I will not be ashamed of.

I want to thank the people of the county for the splendid support and vote they gave me, and wish to assure them that I will not betray the trust they have placed in me.

I hope to convince those who voted against me that I can run the sheriff's office as it should be, and I wish to make those who voted for me to believe in me the stronger.

Respectfully,  
J. M. Telford

Earl Williams and wife got in this week from a visit with his parents at Grandview, Texas, and brought the editor a fine bucket of home made sorghum, a present from our brother who lives near Earl's parents, and made on the Stricklin farm. Earl has accepted a position with the Spur bakery, and will make that their home

# C. L. Williams

LIKE a great many women, Mrs. Alden was inclined to resent the interference of any outsider into her kitchen affairs. Her kitchen was her own; and while she attended the meetings of the Kitchen Club, and was glad to give suggestions, she decided to make her improvements without calling the Club in.

However, when the job was done, Mrs. Alden invited the Club in to see it; for, after all, she had been inspired to dress up her kitchen by seeing what was done for other women.

"Girls," she said to the Kitchen Clubbers before they went in to look at it, "My kitchen might not suit anybody else in the world but me. But I have made it remind me of the thing I love most—the sea—and now it makes me happier just to go into it. I was born on the coast of Maine, as you may know, and I never got over missing the water with its marvelous blue and green and white. Come and see how I have reproduced it in my kitchen!"

"O a life on the ocean wave—"

### LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

Mrs. Alden's kitchen is a dream! It has all the cool, restful effect of the sea itself! Washable paint walls of the palest blue-green; dark blue and white "marbled" linoleum; jade green chairs and kitchen cabinet; white shelves lined with jade green; white porcelain enamel oil range; jade green table with white porcelain enamel top. Dark blue woodwork. A beautiful print of the ocean, hung right above the sink! It's surprising to see pictures in the kitchen; but, after all, why not? And why shouldn't a woman make her kitchen a picture of the thing she loves best, if it will make her happier?

### Refinishing Furniture

Mrs. Alden did all her furniture herself, and it looks like a professional's job. She gave us these directions for using lacquer on old pieces: Clean the surface. Sandpaper, if furniture has had glossy finish. Wipe off with cloth saturated in benzine, gasoline or alcohol. Wait until surface dries. Brush lacquer on lightly; for a heavy stroke will soften any remaining varnish on the piece, and make it "bleed through". Three coats of lacquer should be used, and more if you wish a more satiny surface than the three coats give. Do your painting in a room away from the fire, or outdoors if the weather permits. Lacquer dries almost instantly, but should be aired before using.

"Wet Paint. Come back in half an hour."

### New Heat Indicator

Mrs. Alden's new range has a heat indicator which she says is the most accurate she has ever seen for an oil stove. It is built into the side of the oven.

We got some recipes for excellent imitation sea dishes this afternoon. Here they are:

### Beef Oysters

Beat one pound of round steak. Cut it into pieces the size of an oyster. Soak for ten minutes in water with a teaspoon of baking soda in it. Take out, dry, salt and pepper. Dip in meal. Fry in hot fat until very brown. This process makes the steak taste very much like oysters, and it can be eaten at any time of year.

### Tomato Oysters

Slice half-ripe tomatoes. Salt, pepper, and dip into cracker crumbs. Fry in deep fat. This dish also tastes like oysters, and many like it better.

Curtis Gasaway, employee of the Collins store had the painful experience of badly spraining his ankle recently when he stepped off a high sidewalk with several big bundles. His foot struck a rock, and turned his ankle. He is now doing nicely, although his ankle is still swollen and painful.

Mr. and Mrs. H. M. Aytes of Los Angeles, are here the guests of their great aunt, Mrs. Aytes, and aunts, Mesdames Oscar Jones and John Dumas.

Mrs. W. H. Collins has as her guest her mother, of Hamlin, Texas.

### Father's Quip

Joshlin' Joe Jopples' grandson is astudyin' to be an attorney and every time the boy picks up one of his textbooks the old wag accuses him of takin' the law in his own hands.—Farm and Fireside.

### Why Worry?

"A reader of Woman's Home Companion writes for a recipe for a one-egg cake," says a caustic editor, "But it isn't worth looking for. Why not get another hen and make it a two-egg cake?"

### Vast Difference

Strength and endurance are two different things. Strength depends upon the size of the muscle, but endurance depends upon the state of the blood.—American Magazine.

### Westminster Abbey

The proper official title of Westminster abbey, that by which it is described in all legal documents, is "The Collegiate Church of St. Peter in Westminster."

### The Young Ace

Little Willy's notion of making the world air-minded is to sail a half a dozen pasteboard planes across the living room into papa's ear.—Detroit News.

### The Spoilers

A philosophical observer in the Woman's Home Companion declares that most everyone has spoiled, is spoiling or helping to spoil somebody.

### One Trouble

One thing that tends to make child-training difficult is the possession of less sense than the child has.—San Francisco Chronicle.

### The World and Its People

Some one has said that the two most important things in life are the world and the people in it.—American Magazine.

### Airy About It

"This suits me down to the ground," said the parachute jumper as he comfortably descended.—Boston Transcript.

### No Depth

Many a man thinks he's tolerant when he is just too shallow to develop a conviction.—Birmingham News.

### It's Nice to Have It

Culture and education and wealth do not create happiness, but a few more shekels.—American Magazine.

### COTTON LEAF WORM SITUATION NOT SERIOUS YET

COLLEGE STATION, Texas, Aug. 27th.—That North and West Texas is free of the cotton leaf worm at present and that no extensive damage need be feared there before August 25 at the earliest, is the opinion of R. R. Reppert, Entomologist of the A. and M. College Extension Service, who has just completed an inspection trip many West Texas counties.

The inspection was made in numerous counties where leaf worm has been reported, but Mr. Reppert found in all cases that the worm reported was another species and he failed to find any individual cotton leaf worms or the moths that produce them. He believes that no widespread damage need be expected for three or four weeks. "The only authentic reports of the presence of this insect are from Nueces county and from the Brazos Bottoms close to College Station, although it is probable that small numbers of worms may be found in many South Texas counties," he said.

"On the other hand, cotton boll worms are serious in some sections," Mr. Reppert reports. "From past experience we cannot encourage farmers to look for control of this insect by the application of poison, and the damage inflicted will depend largely on natural factors over which farmers have no control."

### FOR SALE OR TRADE

One three quarter acre land, good five room house, 2 porches, cistern, good well in yard, good garden, out buildings, store house 24x42 good building, gas station, soda fountain stock and fixtures invoice about \$1500.00 on highway from Ft. Worth to San Antonio in Lampasas county 18 miles to Railroad. See or write H. M. TOWNSEN Adamsville, Texas 2-1tp.

Mrs. Dalton Lewis received a message of her sister's death at Fort Worth Wednesday morning and left immediately, accompanied by her sister of Falls, who was a guest in the Lewis home at the time.

**PIPPIN FAMILY VISIT HOME OF 36 YEARS AGO**

After a visit of the family of J. G. Pippin and six children, including Wilburn, Treasurer of Terry county, to places in Oklahoma and Arkansas Mr. Pippin gives the following account of the trip and sends out four "Heralds" each week for the next six months to keep relatives informed of Terry county progress. We visited our old homestead, which now stands a thriving little village, which is by name Fomaso, Arkansas,

Many of the relatives are still living around and in the town, some are in business, and all are contented and happy. The sad part to us, we found our old uncle and aunt was dead. Crop conditions was fairly good in this part. Nothing looked natural to me as it had been thirty six years since I had been there. However, we all were anxious to return to dear old Terry county. The garden of Eden, Mrs. Kelton of Henrietta, Okla., one of my sister-in-laws, returned with us for a visit. We also visited

near Mount Vernon, Ark. and Dustin, Okla. On our way back we had a near serious accident in which one of the cars backed off into a ditch about ten feet deep, and turned over on its top. We had a wrecker from Chickasha, Okla. and put the car on the road. Except from some scratches and the car battered a little everything was alright. We came on our way rejoicing and paid my nephew of Chillicothe, Texas a visit, also seen my niece and her family there, visiting from Memphis, Tenn.

**WHAT THE HOME FOLK THINK**

In Mayfield's home voting box in the city of Austin, the vote for United States Senator on July 28th was as follows:  
Mayfield 236.  
Connally 320.  
In Connally's home voting box at Marlin the vote in the Senatorial race in the First Primary was as follows:  
Mayfield 20.  
Connally 423.

**CHEVROLET DUST REMOVER  
A HEALTH MEASURE**

Do you know that the air cleaner on automobiles removes the dust from the air making it purer than that which you yourself breathe? For instance the air cleaner on a Chevrolet reduces the wear on certain moving parts to 17 times less than on cars not equipped with an air cleaner.

Were it not for the air cleaner dust would enter the engine, from on the cylinder walls and soon become thoroughly mixed with the lubricating oil.

Without an air cleaner the inevitable result would be formation of a grinding compound which, besides the pistons, rings and cylinder walls, would be driven remorselessly into the bearing and other working parts.

Quite often the dust on a good road cannot be seen, but it is there just the same. Motor car wheels constantly grind off fine particles of road material which are dispersed through the air. These particles viewed under a microscope bear a striking resemblance to a valve grinding compound.

If it were not for the air cleaner,

dust and sand would enter the carburetor—even in city driving—causing wear on cylinders, rings and pistons.

Analysis of almost any carbon deposit taken from the average engine not air cleaner equipped shows that it contains a considerable amount of hard foreign matter that must have been drawn in through the carburetor. This causes damage throughout the engine, lowering its performance, shortening its life and causing unnecessary repair costs.

The Chevrolet air cleaner is made entirely of metal—has no moving parts—requires no attention. It will last for the lifetime of the car.

**Rural Education**

AUSTIN, Texas, August 27—That the need for special training for the work of rural education is felt has been evidenced by the steady increase in numbers enrolling in Rural Education courses at the University of Texas, according to Dr. Annie Webb Blanton, associate professor of Rural Education and former State superintendent of public instruction.

"The department of rural education was established by the University one year ago," she said in a recent statement regarding the growing demand for rural education. "The State of Texas has more rural territory, more rural schools, and more pupils in rural districts than any other state in the union. Yet those desiring to take special training in Rural Education for advanced degrees have in the past usually been compelled to go for such work beyond the borders of the state.

"In the last ten years, state support of schools in Texas has been increased to twice, and local support of schools to three times, the amounts raised for education from these sources at the beginning of the decade. With increased resources for schools, there has been intensified of late the realization of the need of trained supervisors and superintendents for rural schools.

"During the past year, a total of five classes in Rural Education have been enrolled in the University. Rural Education is ranked as advanced work, and the enrollment figures compare favorably with enrollment in advanced classes of other courses of long standing."

**Leather-Stocking**  
Leather-Stocking is the nickname of Natty Bumppo, one of the favorite characters drawn by the American writer of Indian and sea tales, James Fenimore Cooper. The bearer of the nickname is a half-savage, half-Christian cavalier of American wild life of almost a century and a quarter ago. Leather-Stocking reappears and closes his career in Cooper's story, "The Prairie."

**Badger Great Burrower**  
The badger, Taxidea taxus, formerly ranged from Ohio to the Pacific and from the Saskatchewan to Mexico, says Nature Magazine. Its good offices in destroying harmful rodents is little appreciated, and it is fast disappearing in most parts of its range. Its skill as a burrower, which explains its prowess as a rodent hunter, is extraordinary.

**Doing Away With Fear**  
The cure of fear will have begun when realization comes that worry is, economically and otherwise non-profitable. Many a neurosthenic has been cured by learning to drive an automobile, to ride a horse, to swim, or by accustoming himself to great heights. In such ways sustaining courage for fear.

**Nation's Family Budget**  
The annual family budget of this country includes the following items: Tobacco, \$1,847,000,000; theaters, movies and similar places of entertainment, \$934,000,000; soft drinks and ice cream, \$820,000,000; candy, \$683,000,000, and jewelry, \$450,000,000, or an average of \$28.30 per home in the United States.

**Sun's Long Life**  
The sun will continue to supply us with heat and light for 150,000,000,000 years, says a French astronomer. Until now it has been thought that the sun would burn out in 10,000,000 years' time at the most. This new calculation is based on the latest discoveries of the atom's construction.

**Amber**  
Amber, a fossilized vegetable resin, hard, brittle, translucent and yellow-brown in color, is easily electrified by friction. This is regarded as the first electrical phenomenon to have been observed and was remarked by the early Greeks.

**Negro Superstition**  
A wood superstition not well known except among the southern negroes is that evil will follow if you touch the large patches of brown froth, frequently seen on stumps and rotten logs, known generally as snake spit.

**A WRONG LETTER PLAYS HECK**  
Did you ever stop to think of what a difference it makes in a name to change one letter? Last week the Herald made mention of a young 'beauty specialist,' as a part of the co-operative advertising of the Waggoner Drug Co. We desired to please

but lo and behold the Herald had used the wrong letter making the young woman's name "Barrell" when it should have been Bor-rell. Think of calling a beauty artist a barrel, a crime, unpardonable, may heaven forgive us—she will not.—Hamlin Herald.

### Form Lucky Man Into Limited Liability Company.

London.—Tales of those who lose at gambling are seldom heard unless they take to crime or commit suicide as a result of their losses. Big winners at gambling flash across the newspaper horizon for a day or two and are soon forgotten, but the newspaper reader often wonders what the big winners do with their easily-gained fortunes. Do they blow them in quickly in riotous living, or do they save and usefully invest the money?

Now that the season is at hand when every true born Briton has a ticket in some sweepstake the London Daily Mail has looked up some of the men and women who struck it luckily in recent years. The investigation has revealed that so far as can be found, the past winners have not become wild spendthrifts by their good luck, but have thoughtfully used their money where it would do the most good.

#### Keeps Off Sharks.

William Kilpatrick, the Capetown dental mechanic, formerly of Leeds, who won \$300,000 in the Calcutta sweep last year, has just returned to Milnthorpe, Westmoreland, where his mother and sweetheart live. He is to be married in July. He visited Milnthorpe soon after his success, but returned to Capetown in the autumn.

Immediately it was known that he was the winner last year friends in Capetown formed him into a limited liability company, so that his good nature could not be worked upon by sharks or anybody else. He settled on his mother and sisters at Milnthorpe a sum sufficient to bring them in a comfortable income. He also bought them a house and a motor car.

He established and endowed a soup kitchen in Capetown, where he intends to make his home.

James Strang of Pollok street, Glasgow, who won \$36,000 with a \$25 treble at last year's Derby, told a reporter that he had invested the money very profitably. He has continued in his occupation as a traveler for a firm of wholesale drapers in Glasgow.

#### Part Owner of Ticket.

Mrs. Ford, part owner of a ticket which won a little over \$150,000 in the Derby sweepstake organized at Otley in 1923, still lives in her modest home in Pembroke street, Skipton, Yorkshire. Mrs. Ford had a quarter-share of a \$2.50 ticket, half a share was owned by her mother, Mrs. Hodgson, who has since died, and the other quarter was in the name of a Mrs. Griffin, who was engaged as a cook in a Skipton coffee house. Mrs. Hodgson distributed most of her \$75,000 among seven relatives.

### Castor Oil Bean Drives

#### Insects From Its Vicinity

Austin, Texas.—All kinds of insects have such a dislike for castor oil bean plants that they will not come near them, and this fact has caused experiments to be made of planting the beans in cotton fields as a means of keeping the boll weevil and other pests away.

It is stated that by planting a row of castor oil beans to every four or five rows of cotton, protection against insect invasion may be obtained. The castor oil beans themselves are a profitable crop, although it is admitted that should they be grown with cotton upon all the farms of the South there probably would result an over-production of the beans.

Clumps of castor oil bean plants are grown around the homes of many families to ward off flies and mosquitoes, and it is regarded as strange that the idea that this plan might be adopted for keeping insect pests out of cotton fields was so long delayed in being put into practice.

### Escapes With Five Kisses,

#### Jailed for Taking Sixth

New York.—If Michael Gallagher had not been homesick for the Greenpoint section of Brooklyn, it might never have happened, he explained in police court. He was homesick and so he visited the section.

It was as wonderful as ever—and so were the Greenpoint girls. He kissed five he passed on the street. All seemed to get the idea that he meant well and to believe a watched kiss never boils, anyway, so they shooed him on his way forgivingly.

Then he met Miss Mae Hiryak, a stenographer who screamed and fought, and three Greenpoint young men who happened to be passing leaped upon Gallagher.

"Your honor," Gallagher said the next morning, "I believe Greenpoint has the prettiest girls in the world. I just couldn't help it."

"But Greenpoint can't stand for this. Five dollars and three days in jail," replied the court.

#### "Dead" Man Talks

Tokyo.—Although he was pronounced dead of cancer, Kibashiro Okura, ninety-one, of this city, refused to accept the doctor's verdict and later sat up and talked with friends who came to view the "re-mains."

#### Bar Sad Hymns

Doncaster, England.—Sir Henry Hadow, vice chancellor of Sheffield university, is active in an effort to eliminate from hymn books all hymns which would have the people believe the world is a place of misery.

## "FLEA MARKET" OF PARIS IS DOOMED

### Famous Institution Receives Its Death Blow.

Paris.—The French capital's world famous "flea market," venerable hunting ground for collectors of antiques, curios, Paisley shawls, possible Rembrandts, and low-priced and unclassifiable objects of every possible description, has finally received its death blow after seven centuries of business. Disapproved by the city officials and ignominiously shifted from one to another of the city's outposts, the ancient mart succeeded in fighting every move to end its days until the passage of the new Sunday closing law, which automatically deprives it of its principal source of income.

For years American visitors and other foreigners have visited the Marchaux-Puces every Sabbath to prow among the curious displays of rusty nails, stovepipes, oily rags, and assorted junk for overlooked treasures until the wily merchants have become clever enough to conceal imitation antiques among worthless trinkets in the hope that ambitious amateurs would "discover" them and pay several times their value. In this manner the fair gradually lost its prestige until it reached a precarious state. With the weekly arrest of dozens of its merchants and the Sunday closing edict its doom is now sealed and its merchants are seeking other means of making a living.

### Her Portrait Too Fat,

#### Offers It for Sale

New York.—Picture gazers were grouped in front of the Milch galleries, confused between pleasure and surprise by a portrait in the window, of a woman of the patrician type, painted in the style and finish of the Florentine master of the Fifteenth century.

The portrait was that of Mrs. Florence Brooks-Aten, who engaged George De Forest Brush to paint it. His retainer was \$10,000 plus \$500 for a special frame.

When the work was done, Mrs. Brooks-Aten said the artist had given her too much weight. On her refusal to accept it he painted another portrait that equally displeased her. Then he sued for \$7,000 and won a judgment for \$4,000. The gallery understands she thus parted with \$14,500 for a picture she would not keep and she ordered the sale to get back what she could.

### Beauty Handicap to

#### Women Seeking Work

London.—If a Ziegfeld Follies girl and a "blue stocking" both went after the same job, the Follies girl's good looks would lose it for her.

That was the general opinion voiced at a recent conference on new careers for women, held by the National Union of Women Voters. The meeting was debating whether good looks are a drawback to a girl taking up certain professions.

"We put forward a woman for a drawing office appointment," said Miss Haslett, organizer of the Women's Engineering society and Women's Electrical association, "and her qualifications were excellent, but the director said quite frankly that she was too good looking for the job, and would probably upset the men in their work."

Another director, expressing the technical qualifications required of a girl, added, "and she must not jump if the foreman says 'Damn!'"

### Woman Sleuth Traps

#### Pair With \$5,000 Loot

Pittsburgh.—Betty Moran, alias "Dealie," alleged shoplifter with a record in many cities, and one of her pals were victims of strategy by city detectives. Detective Robert Best and William Cryster arrested Betty and her partner, Dorothy Hurd, and recovered goods valued at over \$5,000.

When the Hurd woman displayed her merchandise to a woman detective who had been "planted" in the place both women were placed under arrest. They were released on bail of \$5,000 each after hearings in Morals court.

"Jack" Moran, who drove the car and was also arrested, was exonerated by the Moran woman at the hearing and was discharged.

#### Mummies Now Safe

Cairo.—Royal mummies are safe from idle curiosity now. They are to be kept in a special room of a museum accessible only to notables and scientists.

### Three Horns to a Car

#### Is Rule in Venezuela

Caracas.—Venezuela's laws require every automobile to have two horns, but the really well equipped cars carry three, making the country a good market for such accessories. The law demands a hand horn for city driving and an electrically-operated signal for use on country roads. Drivers in mountainous territory add a third, operated by a button placed conveniently near the left knee, to permit quick or constant operation on steep grades and sharp curves.

### Naughty Birds

Animals swear, according to the findings of an Edinburgh university naturalist. It's only natural. Why shouldn't chickens, for instance, use fowl language?—Farm and Fireside.

### Motor's Supremacy

Another difference between the automobile and the horse is that the automobile can be made to go just as fast away from the home stable as toward it.—Cincinnati Inquirer.

### Our Insect Enemies

Insects are man's rivals for this planet. They are damaging us infinitely more today than at any other time since civilization began.—American Magazine.

### Chef Takes the Cake

"The aviator," says a magazine article, "has the most stirring job of all." We dunno. What about cooks?—Farm and Fireside.

### At Life's Evening

For some the evening of life steals on unawares and the sky is afire with the colors of sunset.—Woman's Home Companion.

### Camouflage

Poverty may be a blessing, but most people familiar with it believe that it is too well disguised.—Ashville Times.

### Withered

We can't understand why anybody should boast of a family tree that has quit blooming.—Toledo Blade.

### About Ourselves

The manner of giving shows the character of the giver more than the gift itself.

## WHAT'S DOING IN WETS TEXAS

STEPHENVILLE—Residence streets of Stephenville are to get fifty new street lights.

MARBLE FALLS—Burnet county was the first in Texas to hold a district fair this year. Attendance was estimated at from 4000 to 6000.

CLEBURNE—Thirty-five cars composed a "courtesy caravan" which made a good will trip to Coverton recently.

LITTLEFIELD—A local orck hill a mile long and thirty feet deep will be utilized in paving streets here.

LEFORS—A new Gray County pipe line to cost \$60,000 will be constructed 153 miles to Electra.

De Leon—A sweet cream station has been installed here with the standard price for sweet cream butterfat at 50c per pound.

ELECTRA—The Electra whiteway will have forty-five new lights installed immediately.

OLNEY—A sample of the proposed new light standard has been erected for public approval.

COLEMAN—The first two bales of cotton for the season came to the gins at the same time here last week.

LAREDO—The opening of a twelve story, 300 room hotel will be formally opened here September 1st.

PERRYTON—A new two-story stucco fifteen room hotel has recently been constructed in Perryton.

## "13" His Lucky Number

John C. Hicks, President of the St. Johns National Bank, St. Johns, Michigan, and his Thirteenth Buick, a five-passenger coupe.

today's  
newest kitchen creation  
a really modern oil range

new Full porcelain enamel, snow-white. Compact design. Grouped burners Built-in live heat oven. Accurate heat indicator. Swift, clean heat. One of 24 new models. \$17.50 to \$154

LEAVE your work long enough to come down

town and look at a wonderful new stove! Perfection's new oil range is here in town, a swift-cooking model in snow-white porcelain enamel, with an entirely new design and new conveniences.

Even if you don't want to buy just now you ought to see it. For it is the first kitchen stove to offer beauty and speed with the safety and economy of oil.

This beautiful Perfection is one of 24 splendid new models—all light-colored, swift-cooking, convenient. All finished either in porcelain enamel or in Perfectolac, a new, durable lacquer never before used on stoves.

If you're interested in the best-looking, best-cooking oil stoves ever made, come and examine these new models. And don't miss seeing the new range!

EASY WAY TO BUY. Your dealer will demonstrate these new models for you. And, if you wish it, he will no doubt be glad to tell you how you can take any one of them home and use it as you pay for it.

London.—If a Ziegfeld Follies girl and a "blue stocking" both went after the same job, the Follies girl's good looks would lose it for her.

That was the general opinion voiced at a recent conference on new careers for women, held by the National Union of Women Voters. The meeting was debating whether good looks are a drawback to a girl taking up certain professions.

"We put forward a woman for a drawing office appointment," said Miss Haslett, organizer of the Women's Engineering society and the Women's Electrical association, "and her qualifications were excellent, but the director said quite frankly that she was too good looking for the job, and would probably upset the men in their work."

Another director, expressing the technical qualifications required of a girl, added, "and she must not jump if the foreman says 'Damn!'"

### Woman Sleuth Traps Pair With \$5,000 Loot

Pittsburgh.—Betty Moran, alias "Deafie," alleged shoplifter with a record in many cities, and one of her pals were victims of strategy by city detectives. Detective Robert Best and William Cryster arrested Betty and her partner, Dorothy Hurd, and recovered goods valued at over \$5,000.

When the Hurd woman displayed her merchandise to a woman detective who had been "planted" in the place both women were placed under arrest. They were released on bail of \$5,000 each after hearings in Morals court.

"Jack" Moran, who drove the car and was also arrested, was exonerated by the Moran woman at the hearing and was discharged.

#### Mummies Now Safe

Cairo.—Royal mummies are safe from idle curiosity now. They are to be kept in a special room of a museum accessible only to notables and scientists.

### Three Horns to a Car Is Rule in Venezuela

Caracas.—Venezuela's laws require every automobile to have two horns, but the really well equipped cars carry three, making the country a good market for such accessories. The law demands a hand horn for city driving and an electrically-operated signal for use on country roads. Drivers in mountainous territory add a third, operated by a button placed conveniently near the left knee, to permit quick or constant operation on steep grades and sharp curves.

#### Naughty Birds

Animals swear, according to the findings of an Edinburgh university naturalist. It's only natural. Why shouldn't chickens, for instance, use fowl language?—Farm and Fireside.

#### Motor's Supremacy

Another difference between the automobile and the horse is that the automobile can be made to go just as fast away from the home stable as toward it.—Cincinnati Inquirer.

#### Our Insect Enemies

Insects are man's rivals for this planet. They are damaging us infinitely more today than at any other time since civilization began.—American Magazine.

#### Chef Takes the Cake

"The aviator," says a magazine article, "has the most stirring job of all." We dunno. What about cooks?—Farm and Fireside.

#### At Life's Evening

For some the evening of life steals on unawares and the sky is afire with the colors of sunset.—Woman's Home Companion.

#### Camouflage

Poverty may be a blessing, but most people familiar with it believe that it is too well disguised.—Asheville Times.

#### Withered

We can't understand why anybody should boast of a family tree that has quit blooming.—Toledo Blade.

#### About Ourselves

The manner of giving shows the character of the giver more than the gift itself.

#### WHAT'S DOING IN WETS TEXAS

STEPHENVILLE—Residence streets of Stephenville are to get fifty new street lights.

MARBLE FALLS—Burnet county was the first in Texas to hold a district fair this year. Attendance was estimated at from 4000 to 6000.

CLEBURNE—Thirty-five cars composed a "courtesy caravan" which made a good will trip to Coverton recently.

LITTLEFIELD—A local creek hill a mile long and thirty feet deep will be utilized in paving streets here.

LEFORS—A new Gray County pipe line to cost \$60,000 will be constructed 153 miles to Electra.

De Leon—A sweet cream station has been installed here with the standard price for sweet cream butterfat at 50c per pound.

ELECTRA—The Electra whiteway will have forty-five new lights installed immediately.

OLNEY—A sample of the proposed new light standard has been erected for public approval.

COLEMAN—The first two bales of cotton for the season came to the gins at the same time here last week.

LAREDO—The opening of a twelve story, 300 room hotel will be formally opened here September 1st.

PERRYTON—A new two-story stucco fifteen room hotel has recently been constructed in Perryton.

## "13" His Lucky Number

John C. Hicks, President of the St. Johns National Bank, St. Johns, Michigan, and his Thirteenth Buick, a five-passenger coupe.

today's  
newest kitchen creation  
a really modern oil range

Full porcelain enamel, snow-white. Compact design. . . Grouped burners Built-in "live heat" oven. Accurate heat indicator. . . Swift, clean heat. . . One of 24 new models. \$17.50 to \$154

LEAVE your work long enough to come down town and look at a wonderful new stove! Perfection's new oil range is here in town, a swift-cooking model in snow-white porcelain enamel, with an entirely new design and new conveniences.

Even if you don't want to buy just now you ought to see it. For it is the first kitchen stove to offer beauty and speed with the safety and economy of oil.

This beautiful Perfection is one of 24 splendid new models—all light-colored, swift-cooking, convenient. All finished either in porcelain enamel or in Perfectolac, a new, durable lacquer never before used on stoves.

If you're interested in the best-looking, best-cooking oil stoves ever made, come and examine these new models. And don't miss seeing the new range!

EASY WAY TO BUY. Your dealer will demonstrate these new models for you. And, if you wish it, he will no doubt be glad to tell you how you can take any one of them home and use it as you pay for it.

## RADIO PLAYS STELLAR ROLE IN MODERN BALLOON RACING

Special Receiving Equipment Built for Use in a Balloon

At least four of the fifteen contestants in the last Gordon Bennett International Balloon Race were equipped with radio receivers. These pilots deliberately sacrificed precious weight in the small basket suspended from the huge gas bags in return for the advantages to be gained through the use of radio.

The skill required in piloting a big gas bag is not generally appreciated by the laity, hence the need for radio may not be altogether clear. A balloon having no motive power of its own, must drift along with the winds, somewhat after the fashion of a sailing ship. However, the balloon has one decided advantage over the sailing ship, in that it moves in the vertical as well as the horizontal plane. By throwing out ballast, the pilot can rise; and by valving the gas, the pilot can descend. Skill in piloting the balloon is necessary to take full advantage of the favorable winds that exist at various levels, and to avoid adverse winds and serious storms. Hence a knowledge of meteorological conditions is an invaluable aid to successful ballooning.

There is still another human element that enters into consideration. A balloon in flight does not have the noise, the dash and the vibration of the swiftly moving airplane or airship. Instead, the big gas bag floats along with the wind, and, at night, the balloonist is completely enveloped in a black isolation unbroken by any human contact. This monotony is a serious factor in competition and must weigh in the ultimate result.

With this foregoing picture in mind, it can be understood what radio

means to the balloon pilot. During the annual races, the National Broadcasting Company undertook to broadcast regular bulletins giving weather reports and news of the other contestants.

Aside from the invaluable weather and news bulletins thus flashed to them, the fortunate radio-equipped balloons were enabled to listen to the entertainment as broadcast far below in their lonely vigil throughout the night.

Ernest Demuyter, pilot of the Belgian entry, equipped the Belgica with a special adaptation of a radiola super-heterodyne, supplied by the Radio Corporation of America, which was mounted in a weather-proof cabinet including the batteries and a loop antenna. The Loudspeaker was of the cone type, also mounted in a special weather-proof cabinet with a leather carrying strap. The receiver was suspended from the ring of the gas bag by means of leather straps, so that the entire cabinet, with its enclosed loop, could be orientated to take direction bearings by means of intercepted broadcast signals. Prior to the flight, the receiver was tested on the roof of the tallest building in Detroit, and signals 250 miles distant were brought in clear and loud. Although this receiver is not primarily intended as a radio direction finder or radio compass equipment, accurate bearings were taken and compared with a map.

Thus in free ballooning, as well as in airplane and airship flight, and on the high seas, radio has taken its place as an indispensable aid to the navigator.

MEMPHIS—Ten thousand dollars was paid farmers here for cream brought to the market this year.

ALPINE—A new lumber company has incorporated for \$35,000 and opened business here.

GORMAN—One mile of the main street here south from the lumber yard to the city limits will be paved.

Mr. and Mrs. C. W. Tankersley left this week on their vacation.

Mrs. Pat Brothers was a Lubbock visitor Monday.

Mr. and Mrs. Redford Smith accompanied by Misses Robbie Marion, Kathleen, and Master Bill Hardin, returned Sunday from points on the coast. They report a wonderful trip.

Mrs. Roberts and daughter of Clovis, N. M. and Mrs. Marshall and son of Lubbock and Mr. Clyde Harris of Big Springs were visitors in the Ditto home Sunday.

Mr. and Mrs. Roscoe Wilson and Mrs. Percy Spencer of Lubbock spent Tuesday visiting Mrs. Wilson's aunt, and parents, Mr. and Mrs. M. V. Brownfield and Mrs. Spencer's parents, Mr. and Mrs. J. L. Randal.

Mrs. A. L. Burnett has as her guest her mother, Mrs. Biddy of Childress, and her niece and nephew, Edna and Charlie Wrinkle of Lubbock.

Mr. and Mrs. Earle Williams who have been visiting his parents at Grandview and other relatives at Ft. Worth and Dallas are here visiting her parents, Mr. and Mrs. S. H. Holgate. From here they will go to their home at Spur.

Mr. and Mrs. George Warren are spending their vacation in New Mexico, the guest of Mrs. Warren's sister Mrs. Uyless Sawyer.

D. C. Abney of Tokio, was in to see us a few minutes Tuesday. Mr. Abney says he likes to live in Terry county, but the winters hurt him badly here.

G. W. Chisholm and family left this week for Carlsbad, where they will take a short vacation at Carlsbad, N. M.

A. D. Brownfield and children of El Paso are here visiting his parents, Mr. and Mrs. M. V. Brownfield, and his brothers, Dick and Ray and families.

Mr. and Mrs. G. G. Gore and sons, Crede and Alfred left last week for Nashville, Tenn. where Mr. Gore was notified that he had inherited property from an uncle. He had not been back to Tennessee for 50 years, we understand.

Born to Mr. and Mrs. Buster Key, of Oklahoma, at the home of Mrs. Key's parents, Mr. and Mrs. George Black of Gomez, little Miss Wanda on the 24th of this month.

Dr. A. F. Schofield, local dentist is installing an X-ray and other machinery and accessories in his office, of which he is very proud.

Judge C. E. Lynn, county judge elect, of Yoakum county and Mr. Bennett, ranchman of that county, were here Tuesday.

D. H. Gore, head appraiser of the Interstate Fidelity Loan Association of Salt Lake City, was here this week going over their loans with their local agent, W. W. Price. Mr. Gore was very much pleased with Brownfield and their loans here, and indicated that he would recommend a substantial increase here when he returned on individual loans. Their limit present is \$3,000.00.

Mrs. H. L. Mitchell and daughter of Seagraves, were in Tuesday.

Mrs. Roy Moreman of near Plains was in trading Saturday.

## An Investment with an EXTRA DIVIDEND

THERE'S a big difference between an investment and a speculation. You can speculate in any old gasoline and hope it will deliver a satisfactory number of miles per gallon. You can invest in Summer Conoco and be sure of an extra dividend—a bonus of extra miles.

Your purchases of gasoline during the touring season represent a substantial investment. Make sure that the returns from that investment are the highest you can get.

Fill at the Conoco pump.

### WILL C. BROWN HAS FINE ALL ROUND CROP

Will C. Brown, of the Johnson community informed us this week that he had one of the best prospects for an all around crop in his life, and up to that time the worms or other insects were not bothering to any precipitable degree. He had just returned from a journey to central and east

Texas, and said that while their cotton stalks were larger, there were several inches between the bolls, form and blooms, and was not half as closely jointed as the Terry county crop. After spending a week or two there, he could see a vast difference in farming in that section and this. He reports that his cotton is bunched and lapping in the middles, while the cot-

ton further east looks spindly and uncertain.

He also reports that his corn was looking as black as a cloud, and the cars were hanging off like a cave-man's club. He informed us that he had never seen better corn in the Gaudeloupe river bottoms than we have right here in Terry county on our sandy soils. He also remarked that our best cotton was on the sandier soils, and the only question for the future was holding these soils, and he thinks deep plowing and keeping the knives out of it till it gets a good start will partially solve this disadvantage anyway.

While it is not too late for worms, by any means, not a great portion of our territory is affected yet, but a close watch should be kept on the crop, for it would be a huge crime for our present prospects to be wiped out in a few days. Both the farmer and the business man are now praying as never before for continued dry weather in order that the worms may better be held in check.

Tom Bingham has just returned from a visit to relatives at Rule in Haskell county and reports that the boll worms are working havoc in that section and it could be just possible that they will also make their appearance in this section.

### TO MY MANY FRIENDS AND VOTERS OF THE COUNTY

I wish to express my sincere thanks and appreciation to you who so loyally stood by me in the past election although I did not receive a sufficient number of votes to be elected, I hold no ill-will toward anyone. I am willing to abide by the verdict of the people, to the ones who supported me in this election I will ask that every one co-operate with Mr. Telford and help him to make the best sheriff Terry county has even had.

Respectfully Yours,  
J. S. SMITH

Mr. and Mrs. A. L. Pitts of Roosevelt, Oklahoma, accompanied by their daughters, Pauline and Tursa, and Rev. Horton Speed, arrived Wednesday afternoon for a visit with their daughter and son-in-law, Mr. and Mrs. E. L. Whitaker.

Roland Brown and wife came in this week from Kansas and Nebraska where he has been cooking through the summer, for a short visit with his parents, Mr. and Mrs. E. Brown.

# STUDEBAKER 30,000 MILES in 26,326 MINUTES (total elapsed time)

At Atlantic City Speedway, between July 21 and August 9, four regular factory production Studebaker President Eights again proved

the supremacy of Studebaker in the automotive world.

Under strict supervision of the American Automobile Association, two President Eight roadsters traveled 30,000 miles in less than 27,000 consecutive minutes—19 days and 18 nights of driving at better than 68 miles per hour! Two President sedans averaged 63.99 and 61.15 miles per hour for the same distance! All four cars were strictly stock—not specially prepared nor even selected by Studebaker, but chosen at random from Studebaker's assembly line by A. A. A. officials.

Even before this great achievement, Studebaker held more official speed and stamina records than all other makes of cars combined—The Commander with 25,000 miles in less than 23,000 minutes; The Dictator with 5,000 miles in less than 4800 minutes; and The Erskine Six, holder of 11 official records in its class, 1000 miles in 984 minutes!

Whatever Studebaker-built car you buy, you are assured superlative performance and supreme One-Profit value. See and drive a Studebaker today!

### STUDEBAKER'S FOUR NEW LINES

The Erskine . . . \$ 835 to \$1045    The Commander . . . \$1435 to \$1665  
The Dictator . . . 1185 to 1395    The President Eight 1685 to 2485

All prices f. o. b. factory

## We Sell Genuine International Repairs

Made For

By the

### INTERNATIONAL HARVESTER COMPANY

REPAIRS made for International implements and other farm equipment by the Harvester Company are the only repairs made from the original patterns. All others are copied from copies, and in this roundabout reproduction they may lose in correctness of shape, sharpness of detail, closeness in fitting, and quality of material. These repairs are made for Deering, McCormick, Milwaukee, Titan and other International-made machines.

### Genuine IHC Repairs

Are Better in Quality  
Fit Better and Wear Longer

The Harvester Company stands back of its machines. Be fair in the matter. Do not substitute imitation repairs for the genuine and expect best service. Repairs made by other concerns and marked "Made for" or "Will fit", are not genuine IHC repairs. They often lack weight, are not always correct in shape, are imperfectly finished, do not fit properly, or are made of inferior material. Buy Genuine International Repairs for your International Farm Equipment.

Beware of Any Other Kind!

Holgate-Endersen Hdwe Co.

NEWS . . . COMEDY

Demand half of the road—the middle half. Insist on your rights.

Always speed; it shows people you are a man of pep even though an amateur driver.

Never stop, look or listen at railway crossings. It consumes time.

Drive confidently, just as though there were eighteen million other cars in service.

Always lock your brakes when skidding. It makes the job more artistic.

Always pass cars on hills. It shows you have more power; and you can turn out if you meet a car at the top.

In sloppy weather drive close to pedestrians. Dry cleaners appreciate it.

Never look around when you back up. There is never anything behind you.—Exchange.

### FACULTY NAMED FOR TEACHERS' INSTITUTE

Lubbock, August 27.—At least 1,000 teachers are expected to attend the South Plains Teachers Institute which is to be held at Texas Technological College, September 3, 4, and 5. President Paul W. Horn will be the conductor assisted by Dr. A. W. Evans, head of the department of education, and superintendent C. L. Sone of Slaton.

The counties cooperating in the institute are Crosby, Dickens, Garza, Lubbock, Yoakum, Hale, Hockley, Lamb, and Cochran. Independent school districts included are Lubbock, Slaton, Littlefield, Ralls, Spur, Crosbyton, Dickens, Lamesa, Brownfield, Bledsoe, Idalou, Morton, Olton, Lorenzo, Southland, Hale Center, Sudan, Amherst, Post and Levelland.

Following is the faculty:

P. W. Horn, Conductor.

A. W. Evans, associate conductor, in charge of the high school section.

M. E. Witt, Lubbock high school, secretary-treasurer.

G. N. Atkinson, Lubbock high school, chairman committee on homes.

Miss Florence Parker, director of primary section A, first and second grades, Mississippi State College for Women.

Mrs. J. T. Shaver, Primary Section B, third and fourth grades, primary supervisor, Lubbock city schools.

W. A. Stigler, intermediate grade section, assistant superintendent of city schools, El Paso.

A. H. Leidigh, director of rural school section, dean of Agriculture, Texas Technological College.

Miss Lillian Peek, state director of home economics, Austin.

H. M. Duncan, director of school administration, superintendent of city schools, Lubbock.

Dr. J. B. Edmondson, department of education, University of Michigan, lecturer to general session.

Dr. J. B. Edmondson, professor of Education, University of Michigan, will speak twice daily to the general assembly. He will speak in the forenoon each day at 9:20 and in the afternoon at 1:30. He will speak Tuesday evening at the Methodist church to the teachers and to the general public.

There will be present during the week a representative of the Texas State Teachers Association of the state department of education and of the Inter-scholastic League.

To assist in meeting the expenses of the Institute, each teacher will be expected to pay a sum equivalent to one per cent of one month's salary.

### GAS IS TURNED ON IN THE LAMESA MAINS

Gas was turned into the mains here this week and Lamesa is now burning natural gas from the Amarillo fields. This is one of the most forward steps in Lamesa's progress. We wish to congratulate the West Texas Gas Company on giving this cheap fuel to our city. Quite a few have already tied in while others are waiting on the colder weather before tying on. Cooking schools have been the order of the day here for the past two weeks and many cook stoves have been placed in homes in the city.—Lamesa Reporter.

### Jim Ferguson's Forum now joins the Ku Klux Klan to support Mayfield.

Something rotten in Denmark, when two enemies such as Ferguson and the K. K. K. join hands, Mayfield already had the backing of the railroads and the oil interests. And now a gang of Methodist ministers endorse Mayfield in spite of the fact that his drinking and gambling has on numerous occasions been notorious. A combination like that is hard to beat and even harder to figure out.—Wheeler News-Review.

Maybe Jim's object was to defeat Mayfield by supporting him. At least that is the way it turned out.

Send the Herald back home. \$1.50

### THE JOHNSON NEWS

Our school started Monday and there were fifty three pupils enrolled. There were quite a few parents out Monday morning. The three teachers are taking much interest in the schools, and the pupils seem to be interested. The teachers are as follows:

Mr. Daye, the principal, Miss McCurrie, the immediate teacher, and Mrs. Martin, the primary teacher.

Several men of this community went on a wolf hunt one day last week and caught a coyote near Mr. Miss Kattie Mae Winn left Monday for Amarillo where she is visiting her sister.

Mr. E. O. Petomey came home Monday from Seagraves, where he has been visiting his sister, Mrs. Berry.

Misses Dolly Lea Cook, and Alice Lee spent a happy evening with Miss Golda Malcolm Sunday.

Mr. and Mrs. Gore and two sons are visiting relatives in Tennessee.

Mr. and Mrs. Owens and children are visiting their son and daughter-in-law, Mr. and Mrs. Orvel Owens this week.

There will be league Sunday night and every one is welcome.

Mr. and Mrs. Alexander of Brownfield visited Mr. and Mrs. O. A. Young

Mr. Wilson of Monday, Texas has been here improving his place last week. They are now visiting Carlsbay Cavern.

The editor as well as the Herald had a birthday last week. The family presented us with a nice pair of easy shoes, and the American Cafe gave us a fine cake which was just right in every way except that it was shy on candles.

Miss Josephine Lee has been visiting Miss May Crowley of Post, Texas. Miss Crowley accompanied Miss Lee home. She returned home Thursday.

W. W. Price returned Saturday from a trip to Juarez, Mexico.

### Delightful Tea in Honor of Mrs. Toone and Mrs. Jenkins.

Mrs. Will M. Bell graciously received a large number of friends in an informal gathering Friday afternoon from four until six o'clock to meet her aunt, Mrs. Toone, wife of the new superintendent, and her sister Mrs. Jenkins of Marshall. Assisting the hostess was Mrs. A. M. Brownfield and Mrs. A. M. McBurnett.

The house was prettily decorated with cut flowers.

Bachelor buttons were floral contributions and a plate of spiced tea, sandwiches and confections was served. Tea was poured at the tables by Mrs. Roy Wingerd and Miss Margaret Bell. They were assisted by Misses Francis Brownfield, Martha D. Brownfield of El Paso, Katholeen Alexander and Lois Adams. The tables were covered with a beautiful linen cloth brought from China and was centered with a basket of pretty roses. An attractive silver urn was used.

About seventy-five women called during the afternoon.

### Mrs. Miller Hostess to Luncheon Club.

The Luncheon club was delightfully entertained Tuesday afternoon from three to five at the home of Mrs. J. D. Miller.

High score prize, a beautiful linen Vanity set, was given Mrs. Bowers and table cut prizes, bridge pads went to Mrs. Brownfield and Mrs. Bowers.

A delicious salad course was served to Mesdames Fred Smith, McGowan, King, Roy Brownfield, Collins, Du Bois, Arthur Sawyer and Bowers.

Mr. and Mrs. Leo Holmes went to Seminole Friday to spend a week with his parents.

### Returns from Family Re-Union.

Dr. and Mrs. Bell and daughter and children, Mr. and Mrs. Calvin Pegues of Odessa returned Wednesday from a family reunion at Dr. Bell's sister's home at Waller, Texas. From there they went on to Houston and Galveston and back by the way of Austin.

Mr. and Mrs. Earle Anthony, Jr. and sister, Miss Mary Kathryn left Thursday for mineral Wells, Dallas and Palmer. At Palmer they will visit their grandparents.

Mrs. W. D. Eakin of Hamlin, Texas is the guest of her daughter, Mrs. W. H. Collins.

Mrs. B. D. Du Bois returned Tuesday from a visit with her sister in San Antonio and at Pearsoll. She went home with her parents, Mr. and Mrs. Berry, who had been visiting her.

### Midland Guests Entertained.

Miss Wilma Dunn entertained Tuesday afternoon from four to six in the home of her cousins, Misses Needa Jean and Ira Bess Hicks of Midland. The guests were school mates when they formerly lived here.

The time was spent playing outside games after which sandwiches and soda pop were served to Misses Queenelle Sawyer, Margene Guffere, Mallie Joe Grocroy, El Roy Lewis, Virginia May, Sallie Truman Stricklin, Caroline Spencer of Lubbock, Ima George Warren, Kathy Hunter, Francis Harris, Wanda Graham, Virgilla Nave Dunn and the hostesses.

### Ena Jo May Celebrates Birthday.

Miss Ena Jo May celebrated her fifth birthday Saturday with a party, good time on the lawn playing games the children were called into the dining room to see the pretty birthday with its five candles. Mary Nell Adams got the dime, Christine McDuffin, the button and Ethelda May the ring. Besides the cakes ice cream cones were served.

Those present were little Misses Christine McDuffin, Bobbie Virginia Bowers, Wanda Graham, Jackie Holt, Irene and Emma Jean Frizgerald, Mary Nell Adams, Elsie Clark, Geroline Pyeatt, Deverelle

and El Roy Lewis, Dorothy Nell and Ora D. Eickie and Larry Miller and Herman Cloud Gore.

Misses Willie and Claudine Cunningham of Loop were week end visitors of their aunt, Mrs. R. M. Kendrick.

Mrs. Dalton Lewis received a message early Wednesday morning that her sister who lives in Stephenville was dead. She and Mr. Lewis left immediately.

### Idle Wives Club Entertain.

The Idle Wives club was entertained Tuesday afternoon at four at the home of Mrs. J. D. Miller. A dainty colonial lady pin cushion was given Mrs. McDuffin for high and a pretty hand painted card table cover to Mrs. Bowers for second high.

Sandwiches, stuffed tomatoes, olives, fruit salad with whipped coconut macaroones and iced tea were served.

The guests were Mesdames Copeland, Roy Brownfield, Dallas, McDuffin, A. M. Brownfield, King, McGowan, Fred Smith, Collins, R. L. Harris, Arthur Sawyer, Michie, W. B. Toone, Terrell Toone, Du Bois and Bowers.

Mrs. Earl Alexander and children have returned from Cloudcraft where they have been for Miss Margaret's health.

### Gordon Visitors Entertained.

Barney Holgate entertained Friday evening in honor of his cousin, John Knox and Kenneth Cooper and his friend Herbert Jones all of Gordon. Twenty guests were present. Indoor games were played.

### Former Brownfield Girl Hear over Radio.

Miss Gladys May, daughter of Dr. and Mrs. John R. May of Roland, Ark. sang over radio Tuesday evening at eight o'clock from station K. G. H. I. at Little Rock.

Miss May formerly lived here for a short time and is well known. She is a niece of Mrs. Downing and Mr. Tom May.

### Methodist Missionary Society

The Missionary Society of the Methodist church met at the church at three o'clock for a lesson in social service which was led by Mrs. Webb.

### CHURCH NEWS

### Church of Christ Bible Class

The church of Christ met Monday afternoon at four o'clock at the church for Bible study with nine members present. The new books on "Outline of the Short Epistles" will be here for next lesson.

It was decided to send on Wednesday, September 12, a box of shets and pillows to the Tiptom Orphan Home. The box will be at Hudgens-Knight's store and all who care to send any may leave them there.

### Baptist Women's Missionary Union

All of the circles of the Baptist Women's Missionary Union met in general session at the church at four o'clock. Mrs. J. C. Green was leader of the program on South America.

Mrs. McDonald told of the Women's Missionary Union, Mrs. Auburg the Baptist Life in Brazil, Argentine and Chili. Mrs. Green, standing by the cross. This was followed by a short business meeting.

### Presbyterian Missionary Society

The Presbyterian Missionary Society met Monday afternoon at the church for a business meeting. It was decided to sponsor a Tom Thumb wedding for Friday night. Six members were present.

### Christian Missionary Society

Monday afternoon at three o'clock at the church, the Christian Missionary Society met for the regular Bible study. The Life of Christ by periods is being studied with Mrs. Walters as leader. Five members were present.

**ITS BETTER WORK  
MAKES IT FAMOUS**

Famous for its better work under difficult field and crop conditions; a harvesting machine that is a real profit-maker, because it enables you to make a big reduction in your labor costs and save valuable time—that's the

**JOHN DEERE CORN BINDER**

You harvest seven or more acres of corn a day when you use the John Deere Corn Binder. You do the work better and easier, eliminating entirely the muscle-tiring labor of hand-cutting.

Your corn is in prime condition for the silo; no need of cutting the crop days in advance—the corn can be cut fresh with no loss of feeding value.

And when you are through with your own fields you can increase your income by putting your binder to work in the fields of your neighbors.

You will appreciate the easy operation of the John Deere.

No hard-working, old-style carrier to operate—simply press the handy foot release, and the power carrier dumps the bundles out of the way of the horses—no bundles scattered—less waste.

The quick-turn tongue truck relieves the horses of neck weight and keeps the binder running straight. Hot-riveted steel frame insures rigidity and perfect alignment. Roller and ball bearings at all main points reduce friction, lessen wear, and insure lighter draft.

Binders can be equipped with the new John Deere Bundle Elevator.

See the John Deere Corn Binder at our store.

**Brownfield Hardware Co.**  
Furniture and Undertaking

At this Store You Get **QUALITY AND SERVICE**

Mrs. L. Sharp furnished the Herald family with a nice mess of turnip greens this week off her son-in-law's farm in Yoakum county. It is said these greens have grown in about four weeks, and were very tender.

The people of Ralls defeated a bond issue for more school buildings last week by quite a strong vote, although no more than one-third the qualified voters took the trouble to express themselves.

**MEADOW BREEFS**

Last week all my kin folks came to see me and kept me busy trying to keep something to eat, which accounts for my absence from the back page of the Herald.

In the meantime it has continued to rain and keep the roads almost impassible. We also have some new worked road east of town that is very soft and makes very unsatisfactory driving, especially at night when you get stuck.

Crops continue to look good, in fact the most promising since I came to the Plains. Cotton is making plenty of stalk but not fruiting as well as one could wish. Worms have made their appearance in some places in sufficient numbers to give alarm and preparations are being made to distribute poison. It is also affected with lice on most farms and hinders the growth considerably. In spite of all apparently injurious conditions there will be more cotton grown than people can gather without help.

Since my last communication Gov. Al Smith has been notified of his nomination. His acceptance address is one of the ablest it has been my pleasure to read. It is free from abuse of his opponents and the republican party is very mildly reminded of their shortcomings. His solution of the Prohibition problem is worthy of trial and promises a better disposition of the bootlegger than the republicans have offered or that appears possible under the Volstead Act. I miss my guess, however, if it isn't many years before there will be men with the courage of their convictions, to take the lead in Congress on this very important problem. It will never be even partially attended by the Republicans party. If Hoover is elected, Melon the distiller will be again the chief enforcement officer.

Smith leaves no doubt as to what he will do in the matter of our relations with the South American Republics and Mexico. Nor does he mince words as to how his appointments will be made. "I will not be influenced in appointments by the question of a persons wet or dry attitude, by whether he is rich or poor,

whether he comes from the north or South, East, or West, or by what church he attends in the worship of God." Does this leave any room for doubt as to his attitude with reference to the church affiliations? Ought not this statement silence criticism on this score? Yes but it will not. The meek are often malicious.

The irrepresible J. Frank Norris begins his speaking tour on the 27 at Cleburne and I presume he will put in good time. What he will say about Smith will be every thing he can drag in. But like the unfortunat maiden that was given power to prophesy, it was also provided that no one would believe her.

The vote in the recent Primary will return our present Senator Mayfield. His defeat is due solely to his having affiliated with the K. K. K. in the past, and it will continue to defeat any man for office in the future when it is known.

The Methodists began a meeting here Sunday night and will continue during the week. The Rev. Doak of Lubbock is doing the preaching.

There is a new girl at the home of Mr. and Mrs. P. H. Hardin and a brand new boy at Tom Collins'. All interested parties appear well pleased. Aesculapias.

**District Court Grinding  
Away This Week**

The August term of the District court of Terry county met Monday and the grand jury was immediately empanelled and set to work by District Judge Gordon B. McGuire, under the direction of District Attorney T. L. Price. The Grand Jury was given one of those splendid charges of Judge Price, this will be faithfully followed with no precious time and money wasted on little matters where there is no possibility of conviction after the bill is returned.

There will be three weeks of court duty this time, as there are three separate petit jurors called, and we understand that the docket is reasonably full this time, although most of the cases are of civil nature, many of them being mere cases for the court to decide. The county officials are all as usual giving the district offic-

**BANKS  
WILL OBSERVE  
LABOR DAY**

Monday, September 3rd, being a legal Holiday the banks of Brownfield will not be open for the transaction of business on that date.

**Brownfield State Bank  
First National Bank**

ials the fullest co-operation, as well as the law abiding citizens of the county.

The District officers vhae many fast friends in Brownfield and Terry county who always welcome them to our community, and are ready at all itmes to assist them to find entertainmt while away from their homes and loved ones, which is most of the year. Their mission is not to either prosecute or persecute, but to protect the law abiding in their home and property rights. We will not give any cases this week, as very few important cases will have been tried when we go to press, but will give next week all which has been disposed of any way up to the time we go to press.

Mrs. W. B. Bowning and Virginia May left Wednesday for Lubbock and will go on to Plainville to visit relatives.

Mrs. Edgar Self and Bruce Knight were Lamesa last Thursday.

Joe Shelton left Monday for Siloam, Ark., where he will enter John Brown's school for boys. He went by east Texas where he will visit for a few days.

**Salsify (Oyster Plant)**

Scrape the salsify. Boil it tender. Remove from fire; mash well and mix with cracker crumbs, butter, salt, pepper and a beaten egg. Make into patties the size of an oyster, roll in cracker dust and fry in hot fat.

**"Treasure Chest" Salad**

"Ye ho ho and a plate of salad!"

Take curved leaves of lettuce. Wash and arrange on plate. Halves of fresh or canned peaches. Scoop out center of both halves. Set one half on lettuce leaf. Fill with grated pineapple. Cover with other half. French dressing and paprika over the top. Makes a beautiful salad, as curved lettuce leaf resembles a sea shell; and the peach, of course, is the treasure chest.
