VOLUME 24

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JANUARY 4, 1929

NUMBER 29

## County Agent Loosed Of Work In Gaines

At the time of securing the services of R. B. Davis as county agent in cooperation with Gaines county the local authorities recognized the liaison is being only temporary and visioned the full time employment of Mr. Davis or other capable leadership as soon as possible. With the coming of the new year those plans have materialized and Mr. Davis now is allowed full time in Terry county while Mr. McFatrige of Waco becomes county agent of Gaines.

With the responsibility of steering the work in two counties Mr. Davis has been quite busy. Now, that he has been given twice the time for his labors in Terry county he will be able to make his admirable showing of the past year small in comparison with the work of the next year. Records of accomplishment will be broadened. Other work, necessary to the advancement of agricultural conditions, can be carried to successful completion.

Mr. Davis intimated Tuesday that his program for 1929 was in only a formative state but it is known to include further tests in deep plowing, additional club activities among the young farmers, gardeners and poultry raisers, creation of one or more pure bred Jersey bull circles, and a better fair at the end of the growing season.

Praise of the work done within the clubs of the county this year is not amiss when one thinks of the wonderful showing made by some of the members. Mr. Davis states that he expects to have several next year reaching the standard set this year by Herbert Chessir of Meadow. The fair, Commencement Day, for the farmer, will show the results of carefully planned methods and work among the ruralists.

Reiterating that one of the greatest needs of the county at the present time is the forming of a few Jersey bull circles Mr. Davis stated that he was going to work harder toward securing some blooded stock for this county and in doing so believes that the dairy standard can be raised to more profitable proportions.

Strenuous tests will be made in deep plowing when the deep grub plow ordered by Seagraves parties arrives. Mr. Davis is of the opinion that these tests mean a great deal to Terry County and the future agricultural cut put as well as successful combatment of sandies. He will assist in the tests at Seagraves begun under his instructions and will bring the tests over into Terry county as promise of success reaches higher stages.

Rev. Z. T. Pirtle, Methodist minister recently moved from Levelland to Draw, Texas was a Brownfield visitor Monday of this week looking after business interests in connection with his half section farm near Harmony.

Mrs. Bob Williams left Wednesday for Madison, Kansas, where she will reside with her daughter who is ill.

## New Chevrolet Viewed By Brownfield Crowds

Appearing quite different to the "490" of the war period the "Outstanding Chevrolet of Chevrolet History" came into Brownfield Friday night and has made a tremendous hit with the admiring citizenship.

The car, a coach, was driven from Littlefield by Messrs. Ralph Carter and Clyde Gross, local dealers. It will be used by the Carter Chevrolet Company solely for demonstration purposes. Mr. Carter states that orders have been taken for several cars to be delivered here as soon as they can be secured. February deliveries is the most hopeful promise, however, despite the daily Chevrolet production of well over five thousand.

A constant stream of admirers reviewed the Chevrolet at the local company show rooms Saturday. No strict account was kept but the estimate has been placed at over five hundred individuals. Since Saturday more than that number have inspected the car. Most of Monday the car was used for purposes of free demonstration rides.

Out of the large numbers inspecting the new six many words of commendation and amazement have been heard but not one word of adverse criticism has been audible.

## CHAMBER OF COMMERCE

By The Secretary  
An effort is being made to establish an experiment station in the sandier sections of the South Plains and the college authorities are inclined to favor the proposal, but the real job will be, to convince the Legislature that it is needed. In the event that we are successful in getting an appropriation for it, we feel that this county has a mighty good chance to get it located in or near Brownfield as we are about in the center of five or six counties that are to be effected. A meeting was had at Brownfield on the 21st and was attended by representatives from several of the surrounding counties. The writer and county agent Davis, were selected to assemble data and put it up to its friends in Austin.

It has been decided to postpone the questionnaire that we expected to mail out to farmers concerning number of acres under plow and number  
(Continued on page 2)

## Grocery Firm Moving Closer Business Center

The stock of the White and Murphy grocery has been moved from the building east of the Rialto theatre to the Brownfield building immediately west of the post office. Occupying a part of the eastern portion of the building, formerly housing the Holgate-Enderser Hardware the new place of business is two doors west of the post office, with the space between the hamburger stand as the only intervening opening.

Officials of the firm state that the move was desirous through a wish to get nearer the more popular trading district. Room is provided to carry a large and complete stock of goods, including the meat market and fish.

Stating that business through the past year had been exceptionally fine the spokesman intimated that the firm was preparing for a better business year in 1929 and preparations are in a state of formation for getting started that business.

## Rotarians In Banquet On New Year's Night

In keeping with the spirit of the day the members of the Rotary Club met Monday night at the Brownfield Hotel Cafe for a New Year's program. The members were joined in the festivities by the Rotarians, wives of the Rotarians. All wore Rotary caps and were decorated out in proud colors for the occasion. About seventy were in attendance.

A sumptuous turkey dinner preceded the following program: First, Dr. B. W. Dodson, pastor of the Methodist church, gave a very able address on The Purposes of Rotary.

Second, several of the ladies were called upon to extemporaneously speak on What I Would Like or Not Like for My Husband to Do During The New Year. After the ladies had expressed their wishes for the future conduct for the "henpecked" the men were called upon to express their desires along the same line in regard to the actions of "friend wife."

Third, a splendid quartette composed of the following rendered several highly appreciated vocal numbers: Mesdames Joe McGowan, J. L. Cruce, Homer Winston and E. V. May.

Fourth; The hilarity and joy of the evening was further enhanced with a burlesque sermon by Mrs. E. V. May to the delight of the entire audience.

Upon the close of the program the Clubmen and their ladies voted the old year completed and dispersed without waiting to officially witness the inauguration of the New Year.

Mrs. J. A. King and Ransom King of Midland are visiting their parents, Mr. and Mrs. Dee Elliott, and Mr. and Mrs. J. B. King.

## Commissioner Stewart Dead After Operation

(By Geo. W. Neill)  
William F. Stewart, for four years Commissioner of Precinct No. 2 this county, died at a Lubbock Sanitarium Sunday afternoon and was buried in the Brownfield Cemetery last Monday afternoon.

Mr. Stewart took ill Friday morning, and upon the advice of local physicians was taken to a sanitarium Friday night where he was operated on Saturday morning, the surgeon stating cause of death to be a tumor in the pancreas, a vital organ in upper stomach.

He is survived by his wife, and two daughters, Mrs. Alton Green and Mrs. Arnold Healer, who reside here, and six sons, Jesse who lives at Crane, Romie C. of Dallas, and Fletcher J. who resides in California and three small sons, Adrian, Travis and Chester, who reside with their mother. All were present, except the son residing in California. He also left a mother, two brothers and several sisters who reside in Arkansas.

Funeral services were conducted at the Presbyterian church by Pastor Dodson of the Methodist church, and interment at the cemetery conducted by the Woodmen of the World, of which order he was an ardent member.

Mr. Stewart was a good man and neighbor, and those closely acquainted with him speak in glowing terms of his citizenship and official work. His going is indeed a loss to the county. He was nearly 55 years of age, and on the next day after his funeral was to have begun his third term in the Commissioner's office.

We join with the family and his many friends in their bereavement.

## New Model Whippets Arrive As Year Closes

Ben Lee, Ed Spear and Marion Craig went to Amarillo Monday and returned two minutes before the closing of the old year with three new Whippets. Unable to secure additional cars a '28 model six and two new models, one a six and the other a four, were secured. The four will not be placed on display for it has already been sold and delivered.

With additional attractive features the new four carries out many of the advantages of the earlier four and sells at approximately \$30 less. The stream line is more pleasing and the front is raised to provide a high radiator and hood. The Overland tendency of the firm is noticed and stressed in some of the features.

The six follows largely the outline of the former model in contour. With a massive engine ponderous production is generated with the touch of a button. Only one control is located on the steering wheel but that one control serves, with all innocence in appearance, as horn control, light switch and starter button. A pull on the knob puts the starter in operation with the slightest effort. On first appearance one might imagine that the controls have become complicated but operation from one location and a scarcity of protrusions may have its advantages.

To say the least of the matter, the new Whippets are pleasing to the eye and bring hope of admirable performance on the road to reward the energy of the makers in their desire to give the motoring public a better car at a lower price.

## Summary Of 4-H Records Show That The Young Farmers Are Making Good

Written Especially for The Herald by R. B. Davis, County Agent  
By their records you shall know them. The following figures are compiled from the club records of Gaines and Terry counties 4-H Club members.

Members Enrolled	Completing Records	Gross Returns	Profits	
Pigs	111	82	\$4151.08	\$2007.26
Calf	13	6	510.00	167.08
Poultry	55	22	443.18	282.62
Corn	16	3	191.25	104.25
Cotton	24	6	903.70	563.33
Grain Sorghum	19	3	241.40	171.85
Others	4	4	115.56	92.92
TOTALS	242	126	\$6526.17	\$3388.31

Dollie McLeroy showed the highest profit having made \$130.25 on turkeys. Herbert Chesshir was second with a profit of \$106.50 on his registered Duroc pig.

## County Administration Changes Are Made

(By Geo. W. Neill)  
The first day of the new year was a scene of several changes in county officials at the Court House, the newly elected officers gracefully assuming their places and the old ones as gracefully retiring.

J. M. (Mun) Telford is taking over the Sheriff and Tax Collector office, assisted by his sister, Miss Veda Headstream, and J. C. Green, a former clerk.

Re: Headstream takes the County and District Clerks office, and will be assisted by his sister, Miss Veda Headstream, and J. C. Green, a former clerk.

W. W. Price takes the county attorney office.

L. L. Brock assumes the commissioners office from Precinct No. 1, succeeding W. H. Harred, and G. M. Thomason, Precinct 4, succeeding W. H. Black. J. W. Lassiter, Precinct 3 holds over by election for another term. W. F. Stewart who was re-elected for the ensuing term died Tuesday before the day for qualification, caused a vacancy in Precinct 2, and the county judge has appointed his wife, Mrs. Tennie Stewart, to fill out his unexpired term.

Judge H. R. Winston, and Assessor Sam L. Pyeatt, and Treasurer Wilbur Pippin hold over another term by re-election.

Jay Barrett, retiring county clerk goes with C. D. Shamburger Lumber Company. F. M. Ellington, retiring sheriff, and Geo. W. Neill, retiring county attorney, have not announced their immediate future activities.

## The Cow And The Hen Salvation Of Farmer

The secretary of the local chamber of commerce, J. E. Shelton, coincides with the belief that the dangers of a short cotton crop have been allayed this year by the abundance of cream and poultry produced in the county. He says that the short cotton crop of this year would have meant calamity a couple of years ago. Yet, this year the cotton crop has dwindled before our eyes, yet, prosperity seems not to have entirely vanished.

The corn and grain crop over the county has put the farmers on a firm footing this year. It is reported that over forty cars of corn have already been shipped from Seagraves. A good deal more has found the markets from Brownfield. The feed grinders have shown the farmers that raising feed for home consumption may now be far more profitable than formerly anticipated and the dairy herds increase to create a home need for that which can be produced here.

W. R. McDuffie, cashier of the First National Bank is the authority for the estimate that \$10,000 per month has gone to farmers in the county for poultry and cream during the past year. An annual poultry and cream business of 120,000 is not to be sneezed at. And, this business here is yet in its infancy. A greater production is expected during 1929.

T. L. Mullican, Oklahoma City, factory representative of the Chevrolet Motor Company, spent Monday in Brownfield while on a trip over his territory in reference to the showing of the new Chevrolet sixes.

## NEW YEAR FULLY INAUGURATED

Product of a Minor

The old year has passed away and the new has come to us in token that all things change and that for every decay there is growth. Just as someone is already in training to take our places in the world's arena a new year is born annually to take its place left vacant by the abdication of the one who were time-bearers.

In Brownfield the passing of the one and the forthcoming of the other was very quiet and the whole procession created not half so much excitement as a testimonial of Special Grace would in a Quaker meeting house.

Considerable moving is in evidence here as adjustment to new positions and new work is made by individuals whose activity will be different during the new year and others seeking a place in town for the winter in order to send their children to the city schools.

As a result of the queer quirks of the Christmas weather that at first  
(Continued on page 2)

## Davis Assumes Charge Of Local 'M' System

After several years in business in Brownfield J. E. Michie began invoicing the local store Wednesday for delivery to Davis, Humphries and Davis of Lubbock who have become the new owners. They had previously purchased the Piggly Wiggly franchise for Brownfield but decided to purchase the 'M' System rather than start another store.

The new owners took charge of the store immediately and by the time this paper reaches the press they will be in a fair way to receive customers.

J. L. Davis, one of the new owners, has already moved to Brownfield and will take active management of the store.

M. Michie sells the 'M' after having operated it for something like a year and a third. His plans for the future are unknown.

Paul McDermott has sold the market located in the 'M' System to the McDonald Packing Company of Lubbock and the new owners are now in charge.

## Beloved Resident Dies After Lingered Illness

As a release from physical sufferings lasting for sometime death called Mrs. Mary Francis Adams early on Thursday morning of last week. She had survived several attacks in recent months and it was with no great sorrow that she passed on to be with her husband, who has been dead since April 17th, 1925.

Funeral services were conducted at the Baptist church Friday afternoon by Rev. E. V. May and interment was made in the local cemetery immediately following. Despite a raging sandstorm a large concourse of friends followed to the cemetery in witness to their esteem of one who has devotedly lived an exemplary life among us for these years.

Grandma Adams was born in Illinois or Indiana on January 6th, 1853, making her seventy-five years of age at the time of her decease. She has lived in Texas for seventy-three years having come into the state at the age of two. For a number of years her home was at the present location of Dallas, though there was not even the "vision" of a town there at that time. Her maiden name was Mary Francis Hull. On October 26th, 1871 she was married to H. F. Adams.

Arriving in Terry county in 1903, Mr. and Mrs. Adams lived at Gomez until they removed to Brownfield about eighteen years ago. Of the seven living children five live in Terry county at the present date. Their names are O. E. W. M., Mrs. C. E. Hunter, Mrs. Lester McPherson, Mrs. C. F. Hamilton. Oscar and Bluford are residing at Brownwood. Two children have preceded her in death. Grandma leaves a living monument in the hearts of friends and acquaintances who join the bereaved family in their sorrow.

## Pecans Thrive In The South Plains Territory

In parts of the state the pecan industry has reached magnitudinous proportions. Much of the prosperity of the country from Brownwood to Fort Worth is attributed to the success of the pecan growth.

During the past year it has been found that the pecan is not limited to the creeks and rainy sections of the state but thrives in the drier climates and portions. Gradually the industry moves west and north.

Successful groves are found as close to Brownfield as Plainview and Lubbock as well as in the Peecos Valley from Carlsbad to Roswell. Lack of interest has prevented the industry from reaching more encouraging proportions in the territory next to Terry county, yet with each passing year the industry finds itself closer and closer to our doors.

According to Robert L. Erwin, writing in the December West Texas Today, eight twenty year old trees in Roswell, New Mexico brought the owner \$700.00 in 1927 and at the writing of the article showed promise of as much on the 1928 crop, \$100.00 per tree after twenty years of growth seems profitable. We are led to believe there is profit in the industry somewhere when the price is obtained from retailers near the Christmas season each year.

Wonder is expressed at the paucity of the pecan trees around Brownfield. Some have tried the pecan tree in Terry county and have succeeded with them. Although no one in the county has gone into the industry on a commercial scale there are trees in the county that will soon produce pecans each year for their individual owners.

As the county battles with people from points east who have to rack "the upper story" for new ways of making a living more people will look beyond the first five to ten years of non-productivity to the \$100-per-tree-a-year net and get into the swim.

With pecans to the left of us; pecans to the right of us and pecans to the north of us; all making astonishing profits for their owners, there is no reason in the world why Terry county can not profitably raise pecans. Their cultivation has become of vast importance in Texas.

John B. King states that some of his trees have not done very well but he explains that they were placed where cottonwood trees had already sapped the soil of its vitality. He related instances of trees having done well in other places here. Even though pecans may never be grown in commercial quantities in Terry county they are recognized as being worth while on the farm and around the tanks where they can be watered some during the driest years. Growing them for home consumption will be of considerable benefit to the farmers of the community and will help to make many young people better satisfied with rural conditions.

## Lubbock To Vote Again On Paving Bond Issue

Following on the heels of the defeat a few weeks ago of a proposed bond issue of around four million dollars to pave highway and lateral roads of the county, an election for one million dollars worth of bonds with which to pave the sixty-five miles of state and national highway through the county on highways Nos. 7, 9 and 53 has been called by the commissioner's court of Lubbock county for January 12, in response to a petition signed by one thousand tax payers.

The former issue was defeated mainly because of its reaching out to include the lateral roads of the county. Word from Lubbock indicates that sentiment in highly in favor of the forthcoming election covering only the main highways.

Good roads are a product of the Twentieth Century, yea, verily, of the period since the World War. Soon the entire route from El Paso across Texas to Texarkana will be hard surfaced. Much of the route north and south from Brownwood to Amarillo is already paved. Paved roads mean more to a town and to a county now in the hearts of friends and acquaintances who join the bereaved family in their sorrow.

## Demand In Southland For Davey Tree Dctors

Kent, Ohio—Ailing trees of the Southland can look toward the future with renewed hope.

Four hundred expert tree surgeons, just as well qualified to feel the pulse of a tree and treat its ailments as a doctor is qualified to treat a sick patient, are practicing their profession in the southern states.

They are employed by and under the direction of the Davey Tree Expert Company of Kent, Ohio, which conducts the only school in the world for instruction in tree surgery.

The large number of tree surgeons sent South this winter reflects the great economic strides taken by the South, according to Congressman Martin L. Davey, president of the Davey Company. "We have been sending part of our tree surgeons South for the past fifteen winters," said Mr. Davey, "but there has never been such a demand for them as during the past five years. We find that this is a pretty good barometer of increasing southern prosperity."

Many of the trees treated are of historical value. Because of the care which has been given them they have been saved for future generations. One of the most noted of these is the horse chestnut tree at Fredericksburg, Virginia, the only one remaining alive of thirteen planted by George Washington to commemorate the original states of the union.

The Lubbock City Commission has indicated that it will have Senator Pink L. Parrish introduce a petition in the 41st Legislature and to the Highway Commission asking that the state pave College Avenue of Lubbock running along the east side of the Tech campus north and south for one mile.

## NEW YEAR COMES IN

(Continued from front page)

promised to be nice and tame, many are found at home with colds and attacks of the flue. Reports indicate that the flue has made inroads this year in the populace here and elsewhere not unlike the epidemic of war days. However, the weather is dry and hope for no appreciable degree of seriousness is anticipated.

Business conditions have been excellent during the passed year, one member of a well advertised local firm scarcely hoping that 1929 could be as good as that of last year. A local banker asserts that Terry county would have been in fine shape even without the million dollars of oil money distributed among the realty holders who have leased lands for oil.

Monday, the first day of ginning service offered after suspension for the Christmas holidays found the gins busy in the rush to finish the last year's crop, estimated at ninety per cent harvested. The surplus of the corn crop is now coming to town in a hurry. The amount of corn and grains raised on Terry farms this year will go a long way towards balancing for the short cotton crop. The county agent states that \$16 and more per acre is being realized from the corn yield. Yes, we remain staunch in our attitude that diversification pays.

Several of the local business firms are contemplating changes of location within the next few weeks and there is promise of three new substantial firms to open for business within the next few days. Verily, others have been made to know that business in Terry is good and that the territory contingent to Brownfield is dependable.

The newly elected officers of the county have been installed and the official life will soon settle back for a two year grind of justice and record. Rex Headstream states that by

two o'clock of Tuesday he had issued the first marriage license under his administration as county clerk, the couple had been married and were on their way rejoicing. Mr. Frank Anderson and Mrs. Effie Elliott, both of Stanton, were the contracting individuals. They were married in the office of county judge H. R. Winston immediately after securing the license.

All in all, we are all set and are off on the race to seek out what 1929 may bring forth. And, the race is to the strong.

## CHAMBER OF COMMERCE

(Continued from front page)

of chickens and cows, among other information. The reason for postponement was that our information secured from other localities, was that we would not receive a sufficient number of replies to enable us to arrive anywhere our objective and we are now trying to work out something wherein personal calls will be made and believe that we have the solution but are not quite ready to publish the plan.

The rat killing campaign will be commenced in February and organization begun during the last weeks of January. Numerous prizes will be awarded to winners in each division and we think that the drive will be successful.

It is very probable that all arrangements will be completed for advertising the Fort Worth Roswell Highway, before tourist travel commences again. Also a meeting of the Oklahoma City-El Paso route will be had within the next few weeks. Our tourist travel was much greater this year than ever before, but the 1929 travel is going to be a world beater and is calculated to commence earlier. Work on the Challis cut off is progressing nicely and will be completed

within the next sixty days and when completed it will be as good as our western section.

Most of the readers know that the Lubbock Chamber of Commerce is spending several thousand dollars advertising the advantages of the South Plains as a farming country, and as answers are received by them, they are being compiled and mailed to other towns in the section. Circulars are going out of this office to a list of several hundred inquirers that have been furnished to us. We are also going to undertake to mail out several hundred numbers of the Terry County Herald.

Mr. Martin Line, an employee of the Cicero Smith Lbr. Co., visited homefolks in O'Donnell Christmas.

## GOTHAM POLICEMAN FINDS HE WON FAMOUS FIDDLE

Stradivarius Lay in Coal Bin for Thirty Years Until Daughter Decided to Learn to Play.

New York.—A Stradivarius violin which for 30 years lay in the dust in a grimy coal bin in Port Chester has just been discovered. The instrument is the property of John Dyer, who, though he lives in Port Chester, does duty as a patrolman in Rye. Recently Patrolman Dyer went into a Port Chester music shop with a brown paper parcel under his arm. He had an old fiddle, he said, and wanted the coal dust cleaned out of it, because his daughter desired to learn to play the violin.

The dealer picked up the instrument, blew some of the coal grime off, and squinted inside. Right then and there he offered the policeman \$1,500 for his fiddle. Afterward Dyer said that if the offer had been \$5 he would have accepted it gladly. The size of the offer interested him to such an extent that, though dealers from all Westchester bargained with him, he took the violin to New York. Experts found that the instrument was a No. 5 Stradivarius, made in 1736. The policeman promptly had it insured for \$50,000.

Back in Rye, Robert Kalin, a musician, played on the fiddle—by then it was quite free from coal dust—and offered Dyer \$22,000 for it. Dyer received \$75 from Kalin, who used the instrument a week in concerts in Philadelphia. When he returned it the policeman placed the fiddle in the vault of the Port Chester National bank.

Beyond the fact that his father gave him the instrument to play with Patrolman Dyer knows little about the violin. It is believed, however, that his grandfather possessed it. It reached the coal bin because Dyer doesn't care for musical instruments of any kind.

## Greenhouses

On the south coast of England, growing fruit and vegetables under glass has become a great industry; there are about 41 miles of greenhouses in the Worthing district, in which are figs, peaches, tomatoes, beans, cucumbers, etc.

## Catchy Line

Jones is an angler who uses only the higher and more expensive paraphernalia of his art. One day he was standing on the shore of a lake casting his flies without success, when along came a native with a good string of trout. After watching Jones' vain efforts for a few minutes the newcomer ventured: "Why don't you try worms?"

"Worms?" said Jones disgustedly. "My good fellow, you and I don't use the same language."

"Mebbe not, mister," said the other quietly, as he held up his catch, "but I reckon the fish understand me better when I drop 'em a line."—Van-conver Province.

## Prehistoric Medicine

Tubes of soft soapstone used by a prehistoric Indian shaman, or medicine man, to heal the sick have been unearthed near San Diego, Calif., says Science. First blowing clouds of smoke through these tubes over the body of a patient, the medicine man pretended he could see into the body. The patient was told he had been bewitched by an enemy who had injected into his body a magical substance which changed into a toad, snake, rock or other object. Having located the object, the shaman pretended to pluck it out, producing as evidence, by sleight-of-hand, the offending substance.

## Excusable Error

The story described its heroine as a dumpling sort of woman. The teacher paused and asked for a description of a woman of that kind.

"She would be rather tall and thin," suggested a pupil. "No," the teacher explained, "the lady would be short and plump—like a dumpling."

"Oh, yes," said the youngster. "I was thinking of a noodle."

## We're Poets at Heart

Though we may believe ourselves to be intensely practical, we think in terms of poetry. The efficiency expert and the statistician in us will, at unguarded moments, make way for the poet.—American Magazine.

## CARD OF THANKS

We wish to thank our neighbors and friends for the many kindnesses and sympathies, and floral offerings given us during the illness and death of our husband and father, and especially the Woodmen for their prompt and efficient response in our sad hours. We again wish to thank the people of Precinct No. 2 for their past favors.

Very gratefully,  
Mrs. W. F. Stewart  
and children.

## For 9 Years Gas Ruined Her Sleep

"Due to stomach gas I was restless and nervous for 9 years. Adlerika has helped me so that now I eat and sleep good."—Mrs. E. Touchstone.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Alexander Drug Store.

# TO SERVE YOU BETTER

Keeping in view the convenience of the great amount of our customers, we have moved our stock of groceries to the second door west of the post office and are ready to serve you from our new location.

Your convenience may find it advantageous to make your grocery purchases from us at the same time you go for your mail.

## \$67.51 Tomatoes Raised on One-Seventh Acre

Written Especially for the Herald By R. B. Davis, County Agent

Some good data on tomato growing is given in the club report of Anna Mae Sawyer of the Learn and Earn Club in Gaines county. Anna had one-seventh of an acre of tomatoes and made more clear money than ten acres of cotton this year. Her record and story is as follows: Total number lbs. produced (1-7 acre) 1344

Total value of tomatoes at market price \$73.26  
Total cost of production 6.51  
Profit \$67.51

"This tomato crop was planted on new ground that was grubbed the latter part of April. The ground was not broke but was listed and relisted. Then after the grass came up it was plowed with knives. One half the patch was planted near May 15th. The other half the 27th of May. Hail beat off some of the plants June 3rd. I replanted 60 plants June 4th. "The crop was hoed a few days after the plants were set out, and several times after. During the dry weather of July the rabbits cut off about one-third of tomatoes. The tomatoes began to get ripe August 20th and lasted until the freeze November 14th. There were about 100 lbs of green tomatoes when it froze. The tomatoes sold for a price that varied from 10 to 6c per pound but a large part of them were canned for home use."

After a stay of something like two months in old Terry, S. White came by the Herald office Monday morning and placed his name on the list for one year. Mr. White is from Parker county. We welcome him to Terry county and to the lists of the Herald subscribers. In his talk to the employees of the Herald he intimated that he was afraid of sandstorms but there is hope that he will be an old timer in the country before the sand begins to blow in quantities again. He lives on the Cox farm four miles south of Brownfield.

Mr. and Mrs. Frank Turner of Snyder, Oklahoma were visiting relatives in Brownfield this week.

## MOTHER OF LOCAL DRUGGIST DIES IN OKLAHOMA

Mrs. S. L. Hunter died last week at Lawton, Oklahoma at the home of her daughter, following a fall near Floydada that broke her hip last summer while on her way to Oklahoma from Brownfield.

Funeral services were held Sunday and interment was made in the Lawton cemetery.

Born in Gonzales county sixty years ago, Mrs. Hunter is a native Texan and for twenty-one years was a resident of Terry county. Her husband rests in the local cemetery where he was buried five years ago.

She is survived by three sons and one daughter. The boys are: Lee, Dee and Boone. The daughter is Mrs. Blanche Kinney.

In her death Terry county loses another beloved and respected resident. She and Mrs. Adams died on the same day. Both had been Terry residents for years.

## TURKEY HENS FOR SALE Mrs. I. H. Hudson, Route 1, Box 84. 21p.

## JOE HERZEY BURIED AT LUBBOCK SATURDAY

Joe Herzey, 59, a Belgium by birth and a resident of the South Plains for a number of years, died Dec. 27th of Bright's disease at his residence on the Windham ranch south of town.

The body was carried to Lubbock, where deceased had lived for twenty years before coming to Brownfield, and was interred in the Lubbock cemetery after funeral services in the Bynum Brother's funeral chapel at ten o'clock Saturday morning.

He is survived by his wife and four sons, Gus, Earl, V. L., and P. H., who live at the family home; two brothers, Robert and August Herzey, are both residents of Kansas.

Will Cunningham of Lou was in Brownfield Wednesday and had his date upon the Herald pushed up for another year.

W. E. Winn of Star route took a new lease on the daily and Sunday Star-Telegram Monday through the Herald office.

Mrs. L. A. Townsend has been spending the Christmas holidays with relatives at Lampasas.

## TURNIPS GROWN PROFITABLY WHEN PLANT LICE IS KILLED

Jefferson, Texas—The control of aphids or plant lice on turnip greens as demonstrated by the county agent, R. R. Morrison, in Orange county is a big factor in farmers getting returns of \$100 to \$200 per acre from this crop which has become one of the leaders in Orange county. One crop is produced in the spring and one in the fall, and it is this one that the aphids have seriously attacked.

The use of two percent nicotine dust sprayed or dusted on the plants gives excellent control, Mr. Morrison says. One pound of nicotine sulphate mixed up in an old ice cream freezer with

twenty pounds of hydrated lime makes an effective dust for all kinds of plant lice. The mixture may be placed in a sugar sack for shaking over the plants where the crop or garden is small, but for larger acreage a small dusting machine is recommended.

## HOME CANNING CUTS HIGH COST OF LIVING OVER HALF

String beans worth \$37.30 on store shelves were canned in tin by two San Patricio county women at a total cost of \$10.13, including the growing of the beans, cost of cans and fuel and labor. The work was supervised by Miss Sarah A. Walker, home dem-

onstration agent, who also reports the canning in tin of three hogs weighing 766 pounds on foot. Besides the hams and bacon there were 66 two-pound cans of roast and chili worth \$39.00. The owner of one hog figured his saving at \$19.50 which is the most he ever saved in one day before, he says.

## WILSON GAS LINE UNDER CONSTRUCTION

The West Texas Gas Company pipe line, four miles west of Wilson on the main pipe line to that place, is under construction. It is expected that gas will be turned into the mains at Wilson within a very few days.

## TAHOKA COMMERCIAL BODY BANQUETS ON JANUARY 8

The membership of the Tahoka Chamber of Commerce will hold its annual election of officers and banquet on January 8, 1929, according to Prof. Taylor White, secretary. Prof. White announced that the program for the new year would be discussed in detail and a report of the work of the past year will be made. Several new officials will be named for the body.—Lubbock News.

A \$30,000 bridge age two years was burned on the Santa Fe railroad just east of Lubbock last week.

# BEST PRICES for 1929

You will find them at Chisholm's. People who trade with us get more for their money due to a lower overhead expense and economical buying. This same policy will be carried out in the future.

## The utilities of a city are combined in your motor car

YOUR automobile is something like a miniature city. There is an electric light and power system, a water system, a fuel system.

In the new Ford, you will find each of these systems of the latest design and best materials. Every part has been made to serve you faithfully and well at a minimum of trouble and expense.

Take, for example, the generator—one of the most important parts of the electrical system which supplies the current for lighting and for engine ignition.

In the new Ford, the generator is of the power-house type and is distinctive in many features. It has been specially designed to prevent most forms of trouble. Oiling is necessary only once a year. About the only thing you need do is to have the charging rate changed as the seasons change.

Closely allied to the electrical system is the ignition system. It, too, is of new mechanical design in the new Ford. There is but one high tension cable and that connects the coil with the distributor. Even cables from the distributor to the spark plugs have been eliminated. Special care has also

been taken to make the distributor water-proof, thus preventing short circuits from rain, etc.

The entire electrical and ignition systems of the new Ford are so simple in design and so carefully made that they will give you surprisingly little trouble. Yet that doesn't mean they should be neglected. Certain little attentions are needed from time to time.

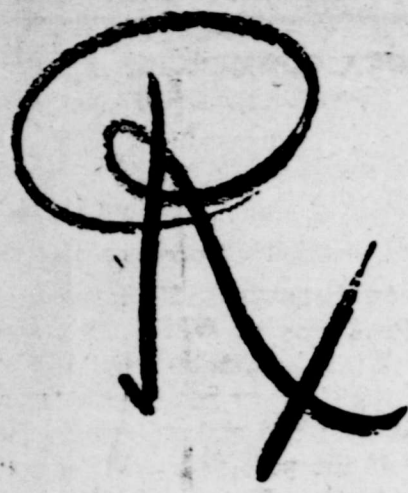

The storage battery should be given water and the connections kept clean. The generator charging rate should be changed as indicated. Spark plugs should be cleaned at regular intervals. Distributor points should also be kept clean and the distributor cam given a light film of vaseline every 2000 miles.

These are just little things, but they mean a great deal to your car. You can have them looked after at very small cost by the Ford dealer when you take the car in for oiling and greasing.

A thorough checking-up at regular intervals will lengthen the life of your car and give you many thousands of miles of carefree, economical motoring.

### Newly Elected Officers Pilot American Legion

At a recent meeting of the American Legion the following officers were elected for the year of 1929, and have begun their term of office:

Commander, C. B. Quante; 1st vice commander, Cliff Fitzgerald; 2nd vice commander, L. L. Martin; 3rd vice commander, E. C. Roberts; 4th vice commander, Historian and Publicity Officer, Jack Holt; adjutant, T. O. Kinney; Sergeant at arms, R. J. Simmons; Finance officer, L. A. Greenfield; Chaplin, Malcom Thomason; Service officer, Clyde Lewis.

The Legion includes both Meadow and Seagraves in its post and has vice commanders in each city for the purpose of being able to keep closer tabs on operations in each place and be in better position to call out the entire membership upon desirous occasions.

Commander Quante states that several prize fights of local interest are being arranged for the benefit of those who appreciate that type of sport. The contests in the past have had appreciable backing of the local populace. Notice their ad elsewhere in this issue of an early entertainment of this nature.

### MISS LANDESS OF PORTALES N.M., DIES AT HOME OF AUNT

Miss Ovalo Landess, daughter of Mr. and Mrs. J. G. Landess of Portales, New Mexico, died December 31st at the home of her aunt, Mrs. Ed Crossland, of pneumonia arising from a cold contracted while she was visiting friends and relatives at Lamesa.

Funeral services were held in the Brownfield cemetery Tuesday after funeral services conducted at the Baptist church by Rev. E. V. May.

Miss Landess is a niece of Mrs. Ernie Greenfield, Mrs. Ed Crossland, Mrs. Paul McDermott, and a sister of Mrs. Rowland Brown and Mrs. Grady Brown, and having visited here several times had numbered many friends here.

Owing to the sickness of employees here Homer St. Clair a former employee of Cicero Smith Lumber Co., at O'Donnell, is helping in Cicero Smith Lbr. Co. here for awhile.

### NOTICE TO ALL FORRESTER SCHOOL TAX-PAYERS

The tax-collector, Roy Ragsdill of the above district will be at the Hotel Brownfield. You can find me there at any part of the day. The trustees informed me that they were short of money, therefore pay as soon as possible. Remember at the Hotel Brownfield.

Yours Respt.,  
Roy Ragsdill, Collector  
19c Forrester School District

### CITATION BY PUBLICATION

A. M. Brownfield vs. W. H. Kelley, et al. In the District Court of Terry County, Texas.

The State of Texas to the Sheriff or any Constable of Yoakum County—Greeting:

You are hereby commanded, that by making publication of this citation in some newspaper published in the county of Yoakum, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, you summon T. E. Trunick, Robert W. Russell, Ed O'Dell and G. W. Guinn, whose residences are unknown, to be and appear at the next regular term of the District Court of Terry county, to be holden at the courthouse thereof in the city of Brownfield, on the 3rd Monday in January, A. D. 1929, the same being the 21st day of January, A. D. 1929, then and there to answer a petition filed in said Court on the 5th day of December, A. D. 1928, in a suit numbered on the docket of said Court, No. 1112, wherein A. M. Brownfield is plaintiff and W. H. Kelley, J. W. Moore, S. D. Hinkle, T. E. Trunick, Robert W. Russell, Ed O'Dell and G. W. Guinn are defendants; the nature of plaintiff's demand being substantially as follows, to-wit:

Suit to foreclose vendor's lien on Section 320 in block D, John H. Gibson survey in Yoakum county, Texas, to satisfy principal, interest and attorney's fees due on notes Nos. 1, and 2 of a series of 6 notes for \$695.00 each, described in agreement executed by J. W. Moore, and W. H. Kelley of date of July 15, 1925, recorded in Deed Records of Yoakum county, Texas, which two notes were due and payable November 20, 1928 and 1929, and gave the holder the option to declare all of said notes due when default be made in payment of principal and interest, and to have the lien securing said two notes adjudged a first and superior lien to that held by defendants, for order of sale, etc.

Herein fail not, but have you before said court on the first day of the next term thereof this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in the city of Brownfield, Texas, this 17th day of December, A. D. 1928.

Witness, Jay Barret, Clerk,  
21 District Court, Terry Co. Texas.

### Ford Ignition Devised To Prevent Car Theft

One of the features of the new Model A Ford car which is typical of the care that has been devoted to details of design, is the theft-proof ignition lock with which it is equipped.

Many automobile ignition locks, designed to lock the switch against theft of the car, have been little or no safeguard against the clever thief with some knowledge of automobile ignition systems. The thief could simply reach behind the instrument board, cut the wires back of the switch and make a new circuit on which the ignition system would operate perfectly.

This cannot be done on the new Ford, because the wires run direct from the switch into an armored conduit which is integral with the dash. In order to tamper with the switch the thief would either have to take the instrument board to pieces or cut the steel dash or armored conduit.

Except under the most extraordinary circumstances, no thief would have the tools, the time or the freedom from possible interruption necessary to the completion of such a difficult and tedious task.

This new Ford lock performs two operations at once. It opens the ignition circuit and grounds the distributor at the same time. Another advantage is that, being concerned entirely with the ignition system, it provides protection against theft without in any manner interfering with the mechanical car controls, as transmission or steering.

### PAGE SANTA!

Brownfield, Texas  
December 26, 1928

Dear Santa Claus:

I thank you for everything you gave me for Christmas. I love everything you gave me too. It was certainly nice of you to bring me just what I wanted for Christmas.

Your friend  
Lucille McSpadden.

### CITATION BY PUBLICATION

J. L. Costley No. 1105, vs. J. T. Williams, et al. In the District Court of Terry County, Texas.

The State of Texas to the Sheriff or any Constable of Terry County—Greeting:

You are hereby commanded, that by making publication of this Citation in some newspaper published in the County of Terry once in each week for four consecutive weeks previous to the return day hereof, you summon Warren B. Dillard and P. J. Murray whose residences are unknown, to be and appear at the next regular term of the District Court of Terry County, to be holden at the Courthouse thereof, in the city of Brownfield, Texas, on the 3rd Monday in January, A. D. 1929, the same being the 21st day of January, A. D. 1929, then and there to answer a petition filed in said court on the 20th day of September, A. D. 1928, in a suit, numbered on the docket of said court No. 1105, wherein J. L. Costley is plaintiff and J. T. Williams, C. O. Adkins, R. P. Burks, Warren B. Dillard and P. J. Murray are defendants, the nature of plaintiff's demand being substantially as follows, to-wit:

That heretofore, to-wit, on the 22 day of December 1925, plaintiff was lawfully seized and possessed of the following described land and premises, situated in Terry county, Texas, holding and claiming the same in fee simple, to-wit: The N. 1-2 of Section 29 Block D-14, C. & M. Ry Co. land in Terry, county, Texas. That on the day and year last aforesaid, defendants unlawfully entered upon the said premises and ejected plaintiff therefrom, and unlawfully withholds from him the possession thereof to his damage in the sum of \$6,000.00. The second count, in plaintiff's petition set out that these defendants bought the land hereinabove described, and as a part consideration of said purchase, became liable for the payment of two series of nine notes each, the first seven numbering from two both numbers inclusive for the sum of \$200.00 each. That in said deed of purchase, said defendants herein assumed as their own obligation the payment of said notes, as well as all taxes due, no part of which has been paid. And plaintiff has exercised his rights under the law as provided in said notes and declared the same due, and has placed the same in the hands of an attorney for collection, and has agreed to pay the attorney's fees provided for in said notes.

Herein fail not, but have you before said Court on the first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said Court, at office in the city of Brownfield, Texas, this 19th day of December, A. D. 1928.

Witness: Jay Barret, Clerk,  
21 District Court, Terry Co., Tex.

# Now on Display in our Showroom!

Today you can see the most sensational automobile ever introduced—The Outstanding Chevrolet of Chevrolet History, a Six in the price range of the four!

This amazing new automobile is now on display in our showrooms and we cordially invite you to come in for a personal inspection!

Judging by the tremendous interest which it has excited wherever shown—

—judging by the unqualified approval it has won from everybody, everywhere—

—the Outstanding Chevrolet will instantly impress you as the greatest dollar-for-dollar value ever offered in any automobile!

## New 6-Cylinder Valve-in-Head Engine

When you lift the hood and see the new six-cylinder valve-in-head engine you will realize that a new era has dawned for the buyers of low-priced automobiles. Representing four years' development and testing by Chevrolet and General Motors engineers, embodying the discoveries of General Motors Research Staff, this new power plant is a marvel of advanced design. At every speed it operates with that delightful smoothness which everyone demands today in a modern automobile. It develops approximately 32% more power than any previous Chevrolet engine. It displays sensationally greater speed and faster acceleration. And yet, despite this brilliantly improved performance, it maintains Chevrolet's worldwide reputation for economical transportation by delivering better than an average of twenty miles to the gallon of gasoline!

## Great Array of New Features

Matching this spectacular advance in performance is the greatest array of new features Chevrolet has ever announced—and the most outstanding appearance ever achieved in any car of comparable price!

The new four-wheel brakes not only assure positive safety, but are exceedingly quiet in operation. The new heavier, finer quality transmission and rear axle gears contribute to longer life and greater stamina. The new two-beam headlamps with foot control dimming device were never before available in Chevrolet's price class. The new AC gasoline pump with filter assures constant fuel supply no matter how steep the hill. And so on throughout the entire chassis, you will find feature after feature previously demanded in the finest of automobiles and now offered on the Outstanding Chevrolet in keeping with Chevrolet's policy of constant progress!

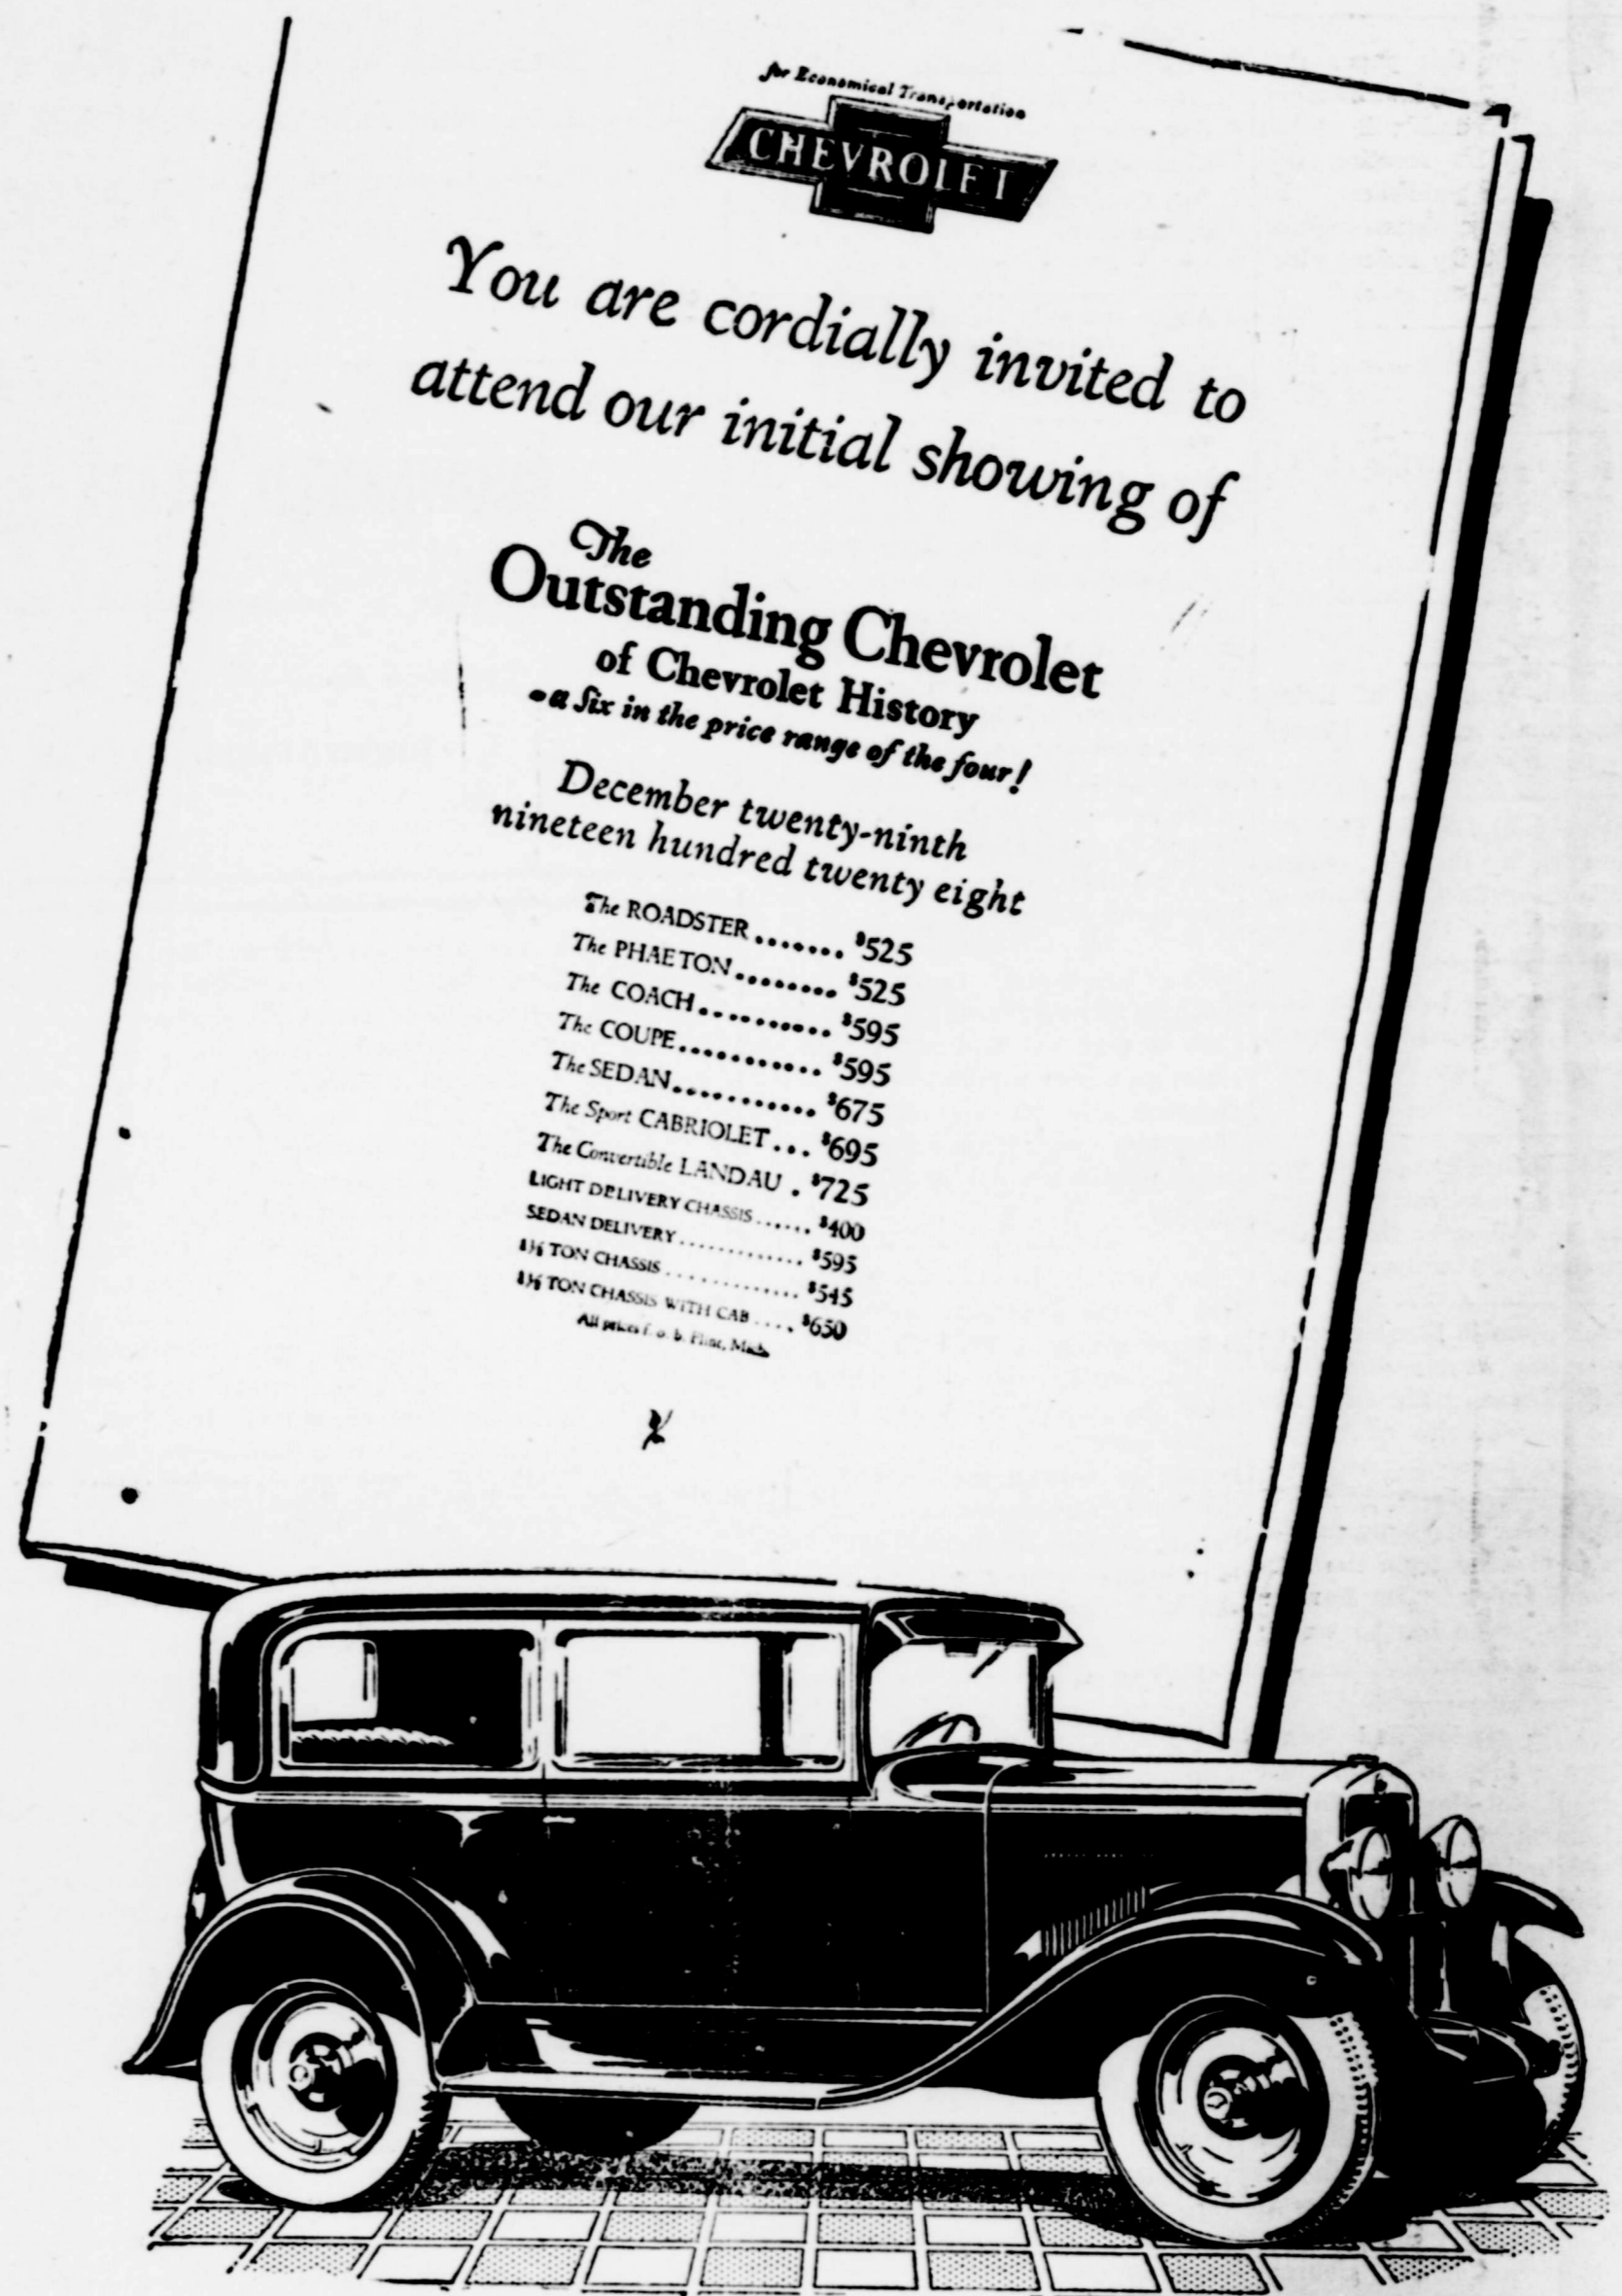

## Distinctive New Beauty

But, however impressed you may be by the mechanical superiority of the Outstanding Chevrolet, your admiration will reach even greater heights when you study the car's distinctive beauty.

Here the whole effect is one of ultra-smartness, luxury and style. Introducing modish, concave front pillars and divided moulding, embodying the comfort advantages of greater width and length, finished in smart new lustrous colors— the marvelous new Fisher bodies represent a masterful example of artistic coachwork. Never in Fisher's long and illustrious service to the automotive industry has Fisher style supremacy been more clearly revealed! Never have beauty, comfort, convenience and staunch construction been more skillfully combined in the bodies of any automobile!

## Come In and See For Yourself

So we urge you to come in today and inspect the Outstanding Chevrolet! See for yourself what distinctive beauty and thrilling performance are now available at prices so amazingly low! Learn how Chevrolet has again established an entirely new standard of motor car value!

## A Complete Array of Outstanding Features

### New Smoothness— 32% More Power

1. Smooth 6-cylinder valve-in-head motor
2. Motor fully enclosed
3. Rugged balanced crankshaft
4. Fabric camshaft gear

### New Beauty

1. Beautiful new Fisher bodies
2. Beautiful new colors
3. Chromium plated radiator
4. Headlamps with chromium plated rims
5. Chromium plated headlamp standards
6. New hood with narrow louvres
7. One-piece full-crown beaded fenders
8. Rubber covered steel running boards

### New Economy and Dependability

1. Better than 20 miles per gallon
2. AC gasoline pump and filter
3. Positive lubrication to all motor bearings
4. Automatic lubrication to valves
5. Self-adjusting dry-disc clutch
6. Stronger rear axle gears

### Faster Getaway— Greater Speed

1. Advanced combustion chamber design
2. High speed gear ratio, 3.8 to 1
3. Accelerating pump on carburetor
4. Hot-spot intake manifold
5. Smooth sliding gear transmission

### New Comfort and Convenience

1. Longer, roomier Fisher bodies

2. Adjustable driver's seat in all closed bodies
3. Cadet type sun visor
4. Fisher VV windshield
5. Deep comfortable cushions
6. Indirectly lighted instrument panel
7. Water temperature indicator on dash
8. Semi-elliptic shock-absorbing springs
9. 107-inch wheelbase

### New Safety

1. Separate emergency brakes
2. Foot control two-beam type headlamps
3. Theft proof Electrolock
4. Ball bearing worm-and-gear steering
5. Safety gasoline tank in rear
6. New 4-wheel brakes, safe—positive—quiet

Come in and see these Beautiful New Cars on display in our showrooms

Official paper of Terry County.

The editorials on this paper this week were written by a minor member of the Herald staff and will please not be considered as meeting the full approval of the publisher. In points of controversy please inquire concerning the authority before placing blame for the "dirty work."

More push and less talk is our idea of making progress.

Conviction guides intelligent approach to righteousness.

We may not think much of art, yet art catches our eye, and incidentally our money.

The American standard of living seems to be from ten to twenty gallons of gas each week.

To be alone and frozen, and extremely hungry, is terrible unless you are waiting on ducks, rabbits or some other game.

We may not be able to do any better next year but at least we can try and if we don't try we surely can't succeed.

To succeed above a competitor you must be able to visualize the future further than he and meet that vision with the product of courage.

In 1716 the Spanish became active in building a line of missions from East Texas to Mexico. The first was built on the present site of Nacogdoches.

A good New Year remembrance for the farmers is plucked from the ears of the o'Donnell Index "The Farmer who Diversifies never has to worry about his bank account."

Congress is in session and State Legislatures are soon to begin their bi-annual grind, but the fact still remains that farm relief must come from the farm and the farmer. Benjamin Franklin ascribed to the Divine law that help comes to those who try to help themselves. Salvation begins with the action and the faith of the sinner.

A box in the Wall Street Consultant projects; "Courage Is An Essential To Success. Indeed, in the age of keen competition courage to go forward is necessary and essential for even existence itself. Courage to face the issues of life are necessary to a character producing the backbone. Courage to do right is necessary for admission to a place of fellowship in the activities of commerce. Courage to plunge is paramount to the individual having to pioneer. Courage in taking a chance is essential in the game of life as on the football field. May the New Year find us developing a courage that makes a victorious people.

**RESOLUTIONS OF RESPECT ON THE PASSING YEAR**  
Well, we are glad the old year is gone. It wasn't anything extra anyway, it had hard luck coming in at a time when our attentions were turned to Hoover and Smith rather than to the weather.  
It ought not to kick at all for it was on the boards a long time, 366 days.  
Now that the old is gone we can hail the New Year with the zest of a young lover.  
May our program for this year include:  
An additional list of better buildings.  
Green lawn at the courthouse.  
Paved streets.  
More and better cows and chickens.  
Up-to-date creamery.  
Crop prospects are fine. If the new year will send Santa Claus with the things above asked for, we shall rejoice in continued contentment.

About the only college that doesn't have a basketball team is the electoral college.

The Clerk of Lubbock county reports that marriages during the year have out numbered the divorces five to one. This is especially interesting when we read the report that marriages are on the decrease in Kansas and a few other states.

It is reported that the Chevrolet motor company refused 115 motors on test in favor of the six now used in the new car. Were as as willing to discard that which does not measure up to standard, success would be more universally attained.

The substantial "gifts of cheer" sent out this past year by the Rotary Club to destitute and needy children might go a long way in proving to the skeptical that business men are not "heartless" and in proving that human interest has not passed into antiquity.

Business in Brownfield has been fine for the year just passed. May it be as well in 1929. Then it won't be long until people will begin to believe the "fictional" things told of Terry county. Truth is sometimes harder to believe than fiction. But the truth will eventually win out. People are fast finding out that Terry is a place worthy of recommendation and trust.

Feeling that sterilization requirements are as beneficial to the eastern growers as to those in the quarantined counties the legislative committee of the Western Cotton Growers Protective Association has determined to ask the next Legislature to remunerate the farmers of the restricted district for the cost of fumigation.

It is urged that the altitude of the quarantined counties is of such height that it is practically impossible for insects to survive through the winter.

Further information to be set before the Legislature showing the cost and losses to the farmers is being prepared and will be presented at the proper time.

Prize fighting may be brutal and undesirable, even, perhaps, hurtful to the morale of the youngsters yet the fact remains that boxing will prove the worth of an individual quicker and with greater certainty than the mastery of many things formerly thought necessary to our mental acquisition. The man who refuses to meet his equal with gloves

**NEW YEARS GREETINGS**

1-9-2-9

With another mile post in sight and another year beckoning us with its hopes and opportunities for service, we stop a moment to reflect upon our pleasant relations of the year about to close and to take note of the many good friends about us.

Thus doing, we wish you a New Year filled with happiness and success and may it be our privilege to serve you more extensively than ever before.

**BROWNFIELD STATE BANK**

Conservative Accomodative Appreciative

"A Good Bank—Soundly Managed"

BROWNFIELD, TEXAS

is the one who needs the watching in the game of life. The man who will take defeat on the mat or in the ring with good grace is the one whose fairness in commercial life may be accepted at par. In this one thing the American Legion is keeping awake that sentry of the individualized nation that enables the moral fibre of the citizenship to hold high the torch of liberty.

Two cotton picking machines, manufactured by two different farm implement factories, were being tested out in the cotton fields near Lubbock two weeks ago. The purpose of the test according to those in charge, was not primarily to show that a practical cotton picking machine had been perfected but rather to find the defects in these machines to remedy them and to perfect a machine that would gather cotton satisfactorily under all ordinary conditions. These machines are doubtless much more nearly perfect than any that have been exhibited heretofore, and it is almost a certainty that within the next few years a satisfactory machine will be placed on the market. Such a machine will revolutionize the harvesting of the cotton crop. School children in the rural districts will then be taken out of the cotton fields and sent to school, while the cotton crop is harvested by machinery. This will enable our rural schools to have as long school terms as we have in town. What a boon that will be to our rural neighbors!—Lynn County News.

Drunken drivers of high powered automobiles are becoming a menace to the traveling public. Some of these days there is going to be a lot of low class funerals and then it will be safe again for women and children to get out on the highways. Then again the general public might appreciate it greatly if the enforcement officers would be just a little more active in the discharge of their duties. As a friend of ours once remarked: "If you don't want to work you should not have hired out." If the officers don't want to do their duty they should not apply for the job. The highways are established for the use of the sober public and not for the benefit of a bunch of drunker idiots to chase up and down like wild heathens, destroying property, crippling and killing respectable folks and its going to have to be topped one way or another. It's almost got to where it is a case of kill them or be killed.

The above paragraph appeared in the last issue of the Jayton Chronicle and expresses our sentiments exactly. Having witnessed in a personal way the effects of one such a ride a week or two ago during which the liberty for the pursuit of life and happiness receded in its glow and fatal consequences were averted by Divine providence we feel that the "menace" might arise to more serious proportions without movement for dispensing of its presence.

Liberty for unrestrained personal indulgence is OK in its place but its

place reaches not beyond the beginning of another individuals liberty. Safety of others may necessitate the curbing of antics of those who regard not the sanctity of a neighbor's safety.

**HAIL! THE NEW YEAR**

Goodbye old 1928. You have been a wonderful year. You have showered millions with prosperity, millions with happiness, millions with health. You have given more to the progress and peace of the world than any other year in all the years that have past and gone.

But you must go as all other years that have past and gone. But in the going you can well say, "I have not been selfish toward mankind."

All Hail to 1929! You give us a chance to rectify any mistakes we have made in the past. You give us a chance to build anew, build better, build stronger, build more lasting and more beautiful. A chance, a new chance. What more can we ask. A chance to do more for our home town our home county, our state and nation.

New Year you have come at a time when the world is flushed with prosperity. You have come, we hope, to help solve many perplexing problems, that if solved rightly will make you the outstanding year of all history and we believe you will see them solved. Therefore we welcome your coming with extended arms and pray that you will not disappoint us, nor any of the worthy hopes of the children of the King.—Jayton Chronicle.

Geo. W. Neill struck us on the street the other day, and after telling us that he had noticed in our last issue, that several towns were having contests as to who was their outstanding citizen, said, "Since going out of office on the first and having no place to sit, why ain't I the 'Outstanding Citizen' now?"

San Antonio was founded in 1718 by the construction of the Mission Alamo.

**RADIO HELPS NEWSPAPERS**

Perhaps the greatest agency in defense of the fairness of the press is the radio. It had become the popular thing for campaign orators and demagogues to cast aspersions on the press, to sneeringly assure their audiences that press reports were biased and unreliable, until the rank and file who were prejudiced had actually convinced themselves that newspaper stories were distorted to meet the views of the editor. Confirmation of press reports, whether of matters political or even the ordinary news by radio, has inspired a new confidence in the fairness of the press, because millions of listeners are hearing from sources they rely upon confirmation of the statements contained in the news columns of the press. And more than that, the radio as an educator has taught millions to be as discriminating in distinguishing the real from the imaginary in the radio talks as they have come to be in separating the artistic from the trash in music. Thanks to the aid given the press by the radio, the day of the political mountebank is fast disappearing.—Mandan (N.D.) Pioneer.

Holiday guests of Mrs. J. E. Moore were Miss Nell Lowry, Bronte and Miss Marie Brown of Abilene, and Mr. Coyt Abbott of California. Miss Brown is Mrs. Moore's niece.

**Chessir Continues Tale  
Of His Trip To Chicago**

Meadow, Texas  
December 20, 1928

Dear Friends:—

I am going to tell you of my trip to Chicago. I left home November 30th. Mr. Davis took me to Lubbock and saw that I got off all right. I left Lubbock on the 4:25 train and as I boarded the train I met W. C. Wright of Lamesa and Spence Hall of Post. We arrived at Amarillo at 10:30 that night. We got off and ate our supper and went down in town awhile.

When we got back on the train we were ready to go to bed, so we traveled all that night. When we woke up the next morning we were in Oklahoma. The train stopped at Wynoka, 30 minutes for breakfast.

Traveling along I saw many towns and rivers. We reached Wichita, Kansas at twelve o'clock; then on to Newton, Kansas, where we met our other Texas bunch. We changed trains at Newton and boarded the train with the other bunch. When we got on the train Mr. Eudaly gave us our white hats and Texas Santa Fe badge to wear to let them know where we were from. Us West Texas boys had it around with the East Texas boys for awhile, but when we reached Chicago we were all together.

We arrived Kansas City at 10:30 that night, where we got off and run around a little and took a little exercise. We crossed the Missouri river at 11 o'clock and it is a good sized river. We crossed the Mississippi the next morning at 4:30.

We arrived at Chicago at 9:30 A. M. Sunday, December 2nd. We went to the La Salle Hotel and registered. We carried our bunk up to our rooms, then we went down and got our breakfast. We laid around all day until 4 o'clock, then we all went out to the Model Farm, 40 miles north of Chicago. This model farm is a place fixed up like all the farmers should build his home and barns. The first thing we went through was the chicken house and brooder house. Next was the hog house, showing the way you should arrange and build your hog house and pens. We then went to the farm implements, showing the way you should take care of the plow tools. Whenever you get through plowing the plow tools should be put in a shed and painted, they will last longer if you do so. We then went through the dairy barn, showing the way the stalls and feeding troughs should be made. It showed how they grind their own feed for the cows. They showed us the way the electric milking machine operated. They had milk cooler where they cooled their milk for sale. We then went to the farm house and were showed the way the house should be arranged on the inside. A woman took us through the house and explained everything to us.

Monday we went to the International Live Stock Show. As we entered the Stock Show the man that attends the yards made us a talk. The stock that were being shown were from all over the United States. This stock was all fine stuff. You have seen good stock at the fairs around here, but it is nothing like they had

up there. We watched the judging of most of the stock that morning.

That evening we went to the headquarters of Thomas E. Wilson Packing House. Mr. Wilson gave the boys and girls a big program and picture show, and then Mr. Wilson made us a big talk which was broadcasted over the radio. Then they served us a large supper.

Tuesday we went out to the corn refinery at Argo, Illinois. In this refinery I saw where the corn started in through the mill. It is unloaded from the car they start it through. It is first carried through, they get the juice out of it and then make different kinds of syrup, then they make oils from the corn. It is carried on through, it shows how they make the cornstarch. After they have all of the elements out of the corn they make cow feed out of the hulls. In this plant I saw the men and women at work making the products.

After we had gone through all of this mill, which covers 50 acres, we got on the train and went back to the hotel.

I will write and tell you the rest of the story of my trip in next week's paper.

Herbert Chessir.

**BUSH SAYS PROSPERITY  
TO INCREASE ANNUALLY**

New York, Dec. 19.—America, rich and prosperous as it is today, is only at the beginning of a period which will go down in history as the "Golden Age," in the opinion of Irving T. Bush, international industrialist and builder of the great Bush Terminals system here.

"Within the next ten years we are destined to achieve a standard of comfort and luxury never before known, and Americans of all classes will participate," predicts Mr. Bush in his new book, "Working With the World," in which he forecasts that the coming generation will see this country gain world leadership in the arts, literatures and sciences as a logical outgrowth of its dominant No previous civilization has ever flourished on such a foundation of general public well-being.

But the accumulation of wealth, he points out, is a means and not an end in the evolution of America.

"We are going into a wider culture and to more happiness," he says. "We are passing through the shirt-sleeve stage of our civilization into the period of artistic expression. There stretches before us great highway to better and more beautiful things. There has come a new phase in our natural life to make our place in art, literature, music and all the kindred methods of self-expression in beauty. Our democracy is being built upon the education of all the people, and this is the one huge, outstanding difference between the civilization we are achieving and those that have failed in the past."

The current increase of prosperity, is not a passing phenomenon, he asserts, but a vital, growing force "founded upon the most efficient industrial organization any nation has ever achieved."

Cites: Factors That Brighten Future

Science, engineering and machinery have done much to accelerate indus-

trial life, and the broadening viewpoint of labor and capital on their common problems is proving a cornerstone of the new prosperity, Mr. Bush declares.

"Little by little, we have come to the conclusion that a few cannot succeed unless all prosper," he points out. "The present farsightedness of American industrial leaders encouraging high wages and a wide distribution of wealth is one of the leading factors in the general stability of the country. The present activity of the stock market is evidence of this widening distribution of national wealth.

**"FEW CAN AFFORD U. S. JOBS"**

In his book, Bush has advocated increased salaries for government executives because, he points out, only the exceptionally wealthy and successful men can afford government jobs today.

"Fifty-thousand dollar a year men should command positions as department heads. Seniority should not be made the basis of promotion," he asserts in "Working With The World." "A great fault is that every executive is bound with red-tape. So minute are the regulations that only

second class men can be happy in government service. Also the pay is so low that the skilled man is drawn away by private business.

"Congress would talk a week about paying a man \$20,000 a year; but it thinks nothing of hiring 20 men at \$1,000 a year. When we compare the salary lists of the government with that of a corporation the wonder is that the government is managed at all."

The first permanent settlement in Texas was established by the Spanish conquistadores who made expeditions to the north through El Paso del Norte. The settlement is today

the town of Ysleta near El Paso. It was founded in 1682.

**NOTICE TO BIDDERS**

Sealed bids will be received for the purchase of one elevating grader by the Commissioners Court of Terry County at the Court House on January 14th 1929, all bids to be accompanied by Certified check for 5% of bid.

Dated at Brownfield, Texas, December 15th, 1928.

H. R. Winston,  
County Judge, Terry County, Texas.

## Effort Being Made To Revive Old Trades Day

Under the instigation of W. E. Legg, the merchants of Brownfield are behind the efforts to revive a First Monday Trades and Auction Day.

Beginning Monday, January 7th, a trade and auction day will be observed each first Monday of the month with special bargains being offered by the merchants and by special efforts to reach the rural populations of the county on that date. Grounds on the east side of the court house, now famous as former sites for "The Big Brown Tent Evangelist" and for the Ray Howell Show, has been drug and prepared for utilization upon these occasions.

The day is especially provided for the farmers to get together and exchange fellowship as well as having a market day among themselves for the exchange of articles they need or a surplus that some may have. An auctioneer will be provided to dispose or lead in the exchange of articles that farmers may have for barter.

For purpose of increased interest in the first trades day, \$39.00 has been offered as prizes on next Monday. \$5.00 has been offered for each of the following: Best stallion; best jack; best span mules; best span horses; best milch cow; best Jersey bull. \$3.00 is offered as a prize to the largest family in attendance that day and \$2.00 is offered to each of the following: Largest man, tallest man and shortest man.

### FROM CORNSTALKS TO NEWSPAPERS IN 6 HOURS

Danville, Ill.—From cornstalks to newspaper in six hours was an epitome of the achievement of modern science here recently in the publication of the Danville Commercial News.

A special edition of 100 pages printed on cornstalk paper was issued by the Commercial News, it being the first time such paper has been used by a newspaper.

This unique edition actually was printed on paper made from stalks grown on farms surrounding Danville.

The cornstalk pulp was manufactured by a Danville company and made into paper by a manufacturing company at Kalamazoo, the entire process requiring only six hours of actual operation.

### FIRST BAPTIST CHURCH

E. V. May, Pastor  
You are cordially invited to each of the following regular services: Sunday School each Sunday at 10:00. Preaching Services at 11:00 A. M. and 7:30 P. M.

The B. Y. P. U.'s meet each Sunday evening at 6:00 with a place for you.

Prayer meeting services each Wednesday night at 7:30.

You are cordially invited to come.

### B. Y. P. U. PARTY

The Intermediate Union of the local B. Y. P. U.'s were responsible for a pop corn party at the home of

Rev. and Mrs. E. V. May on Thursday night before Christmas.

The fourteen present were entertained with pop corn games and at the close were served punch and coughnuts.

### LEON C. RANSON AND EDITH RENEAU WIN 4-H CONTEST

College Station, Texas, Dec. 28.—Leon C. Ranson and Edith Reneau, 4-H Club members of Lamesa, Dawson county, and Shamrock Wheeler, respectively, are among the winners of this year's 4-H Leadership Contest conducted by the National Farm Journal of Philadelphia, Extension Service officials of the A. & M. College of Texas, have announced. This annual national contest is open to the more than 600,000 4-H Club members of the United States. The Texas entries finished among the highest ten, being just below the first, second and third winners.

Both these 4-H Club leaders of Texas represented their state at the National 4-H Club Encampment in Washington last June. Ranson has made an outstanding record in Dawson County for his work with pure line maize seed, having made an average net profit of \$81.27 an acre from seed sales in three years. Edith Reneau has gained distinction in Wheeler county for her poultry, canning, gardening and clothing work from which she cleared \$346.60 in 1927.

First honors in the National 4-H Club competition were won in 1926 by a Texas boy, Homer Sheffield, of Harris County, who is now a student at the North Texas Agricultural College at Arlington.

### IF INFLUENZA COMES

"If you get influenza, you gain a great deal by early recognition of the act," a prominent middlewestern doctor declares in the January 1 Oklahoma Farmer-Stockman. "The person who suffers most from influenza is he who persists in treating the trouble as a bad cold and 'won't give up.'"

"The reason a person who has the flu' should go to bed is not that he should 'give up' but in order that he may prepare to fight.

"In standing or sitting there is much more strain upon the heart than when lying comfortably in bed. Even in normal health the heart that beats 80 or 90 to the minute when doing moderate work will quickly drop to 60 beats when the person lies down. When fever attacks a person, the difference is still more marked. It is therefore obvious that in going to bed when ill, a person is fighting disease in the best way. The poison of influenza is very disturbing to heart action, which makes it all the more important that the heart be saved from the burden of overwork."

### SOUNDED SUSPICIOUS

"Why do you think that Fanny doesn't like you?"

"I told her there was a fool in every family."

"What did she say?"

"She asked me if I was an only son."—Stray Stories.

France claimed Texas because of LaSalle's expedition, but in 1762 it was ceded to Spain.

### LAMESA TO HAVE NEW TELEPHONE SYSTEM

Lamesa, Dec. 16.—The State Telephone Company has begun the remodeling of its local system. The first load of poles was received last week. The estimated cost of the remodeling is \$60,000.

According to the officials of the company the system will be made new throughout, and a common battery service will be given to the patrons of Lamesa.

The present telephone building will be remodeled. It is said the new system will be ready for use by March 1, 1929.

C. B. Quante recently renewed his subscription to the daily and Sunday Star-Telegram through the Herald.

### NO PLACE TO GO

An Irishman, who was an eligible bachelor, visited a widow in his district every evening and had tea with her. A friend suggested that he should marry the lady.

"I have often thought about it," he said, "but where should I spend my evenings then?"

### NOTICE TO LAND OWNERS

Notice is hereby given that the Commissioners Court, upon investigation has determined and found that numerous land owners in Terry county has failed to exterminate the prairie dogs on their land, as required by law, and that all owners on whose lands prairie dogs are found on February 1st 1929, the Court will demand of the Sheriff to exterminate said dogs, and the cost and charge for same will be taxed against the land,

and proceeding authorized by law will be instigated to enforce collection thereof, by judgement and execution. Done by order of the Court.

Jay Barret H. R. Winston  
County Clerk. County Judge.

### NOTICE OF INTENTION TO INCORPORATE

Notice is hereby given that an application for Charter to become incorporated under the laws of the State of Texas will be filed by E. G. Alexander, G. M. Green and H. W. Nelson to incorporate what is known as Alexander Drug Store in the city of Brownfield, Texas, to be known as Alexander Drug Store.

E. G. Alexander  
G. M. Green  
H. W. Nelson.

### NEW LOCATION

Sometime during the next week we will open up in our new place of business first door west of the Post Office ready to serve you hamburgers until the world looks level. Come in and buy them by two's and three's between meals. Boy! but they are good! Cooked right with the 'fixings' that make Ernie's hamburgers the best you ever ate!

**Ernie's Hamburger Shop**

Word came from Mesa, Arizona that the condition of Mrs. Clyde Alexander of this place who had been seriously ill for some days had improved and is able to be up again.

Plug Sparkman and John Eidson were business visitors in Littlefield Tuesday.

Letz feed grinders were demonstrated west of the Craig and McClish Filling Station Wednesday and Thursday by J. V. Morton of the John Deere Plow Company and R. L. Little, factory representative. They were demonstrating in behalf of the Brownfield Hardware Co., who handle the Letz.

### P. W. PHILLIPS OF HAPPY DIES AFTER SHORT ILLNESS

M. W. Phillips, 43, of the Happy community died this week at a sanitarium in Lubbock following an operation ten days ago for appendicitis. The appendix had burst before the operation and Mr. Phillips lingered between life and death until the end.

His body was brought to Brownfield Tuesday for interment in the local cemetery after funeral services conducted at the Baptist church by Rev. E. V. May.

Deceased leaves a wife and five children to mourn his going. Other relatives reside at Floydada.

Mr. Jones, owner of the chain stores of Jones Dry Goods, Inc., and W. A. Dawson have been here a portion of this week on business. They will go from Brownfield to other locations of their stores for the purpose of taking stock. The local manager, R. A. Hoover, reports that the store has enjoyed a fine business during the past year.

Mr. and Mrs. H. H. Hames and brother Jno. W. Hames were visiting their parents Mr. and Mrs. J. T. Hames here Christmas and returned to their home in Truscott, Texas, Saturday.

### TOKIO NEWS

Mr. Maroney is quite ill at this time. We hope that he will recover soon.

Mr. John A. Parrish and Miss Madeline Glasgow were married last Sunday. Mrs. Wade, pastor of the local Nazarine church, officiating. The couple will make their home at Willow Wells.

The churches of Tokio put on a cooperative Watch Night Service Monday night. Many good things were said. Those present expressed themselves as being indeed thankful for the blessings of the past year. The musical numbers were fine.

J. E. Bryson's cream house caught on fire Monday. While Guy Mormon was trying to extinguish the flames Mr. Bryson threw a bucket of ice water on him. There was so much smoke that they could not see each other.

Homer Hollis and family are to leave for Big Spring soon. We are sure that he will be successful in his new location but very sad to have him leave us.

The B. Y. P. U. is still making great progress and at the present has very bright future.

Bro. Claude Allen, pastor of the local Baptist church, has been ill and will not fill his appointment here next Sunday.

### MRS. WAINSCOTT BURIED AT TATUM FRIDAY

Mrs. C. C. Wainscott died December 27th in Brownfield at the home of daughter, Mrs. J. D. Bailey and was carried to Tatum, New Mexico the next day for interment in the Tatum cemetery, where her husband was buried some time ago.

Grandma Wainscott has a daughter and son living at Tatum. One son, D. C., lives at Chatanooga, Okla., and was here for the funeral.

### CARD OF THANKS

Wellman, Texas  
December 27, 1928

To our many kind friends who so sweetly remembered us through Christmas we wish to send our thanks and wish you God's greatest blessings, health and happiness. Again thanking each and everyone we are

Sincerely yours,  
Mr. and Mrs. J. F. Singletary and family.

Wm. F. St. John, former citizen and county attorney of this county, but for past few years an independent oil operator of Cisco, with Mr. Marshall McRea also of Cisco are here this week inspecting our oil activities.

Guy Peterson has been absent from his shoe shop on the east side of the square for a few days due to his taking treatment in a Lubbock sanitarium following the breaking of several ribs while spending Christmas at points near Fort Worth. He is expected to be back at his work in a few days. In the meantime he hopes to have his work carried on by an assistant.

COTTON RAGS are wanted at the Herald office. No strings or socks.

## FOR OIL LEASE

SECTION 77, BLOCK 4X, TERRY COUNTY

I want to lease to a responsible company who will pay off on a prove title. Also want to represent some reliable lease company as I am requested by some of my friends to secure such company as they want to lease their land for oil.

## If the Farmall Tractor Could Talk This Would Be Its Story

**"FARM WITH FARMALLS"**

The Farmall at fall work. Then comes belt work, and next spring planting and cultivating, haying, etc.

I AM built different from any other tractor and am ready to take over your complete power job—corn, and other row crops, and all, from plowing to harvesting, and the year 'round. The fewer horses on the place, the better you and I will get along. That's why my name is FARMALL.

"Here is a big point I want to hammer home: I have introduced real horseless farming on many farms. Another point is that, on most any job, I am a one-man outfit. Look at my photo above: my peculiar style of beauty is what makes me the humdinger I am when it comes to planting, cultivating, haying, plowing, belt work, or what have you got? You may say I talk strong but it's because I've got the goods. Modesty must go by the board to help revolutionize row-crop production, and that's what FARMALL, the one real general-purpose tractor, is doing in every section where its efficiency is known."

"I aim to replace an average of six to eight animals wherever I go to work and I've got

my own special crew of machines that you can take or leave—such as planters (2 and 4-row), cultivators (2 and 4-row), mowers (7-ft. and a 7 ft. trailer mower besides), middle busters, lister cultivators (4-row), sweep rakes, beet tools, potato tools, etc. There's an outfit to get things done! Or, I'll work with any machine you've got, from Jan. 1 to Christmas. At plowing, two furrows is my habit and they can't beat me at the job.

"In every section where I am demonstrated they put me to work in good numbers, and you can find farmers everywhere who will back up every statement made by me or by my designers and builders. The dealer is here to help out on any servicing I may ask for in years to come.

"My headquarters here is the store of the McCormick-Deering dealer whose name is below. I am the only square-turn tractor; come in and see what I can do in a very small patch of ground. We will be glad to give you a demonstration, here or on your own land."

**HOLGATE-ENDERSEN HARDWARE**

We sincerely wish you all a Happy New Year!

### Progress of Brownfield Told In WTCC Paper

The December issue of the official organ of the West Texas Chamber of Commerce, West Texas Today, carried an extensive article written by Secretary J. E. Shelton of the local chamber, telling of the development of Brownfield in the past eight years. With four cuts of scenes in the county the publication allows nearly

two pages to chronicle the progress and present condition of the city and county. After stating the supply of business firms in the city Secretary Shelton states that other than the agitation and program for a grain elevator, creamery and cotton oil mill, no move is being made for additional professional and business men. However, substantial farmers are being sought for the purpose of further opening the territory to the pursuit of agriculture.

### Lubbock C. of C. Now Advertising Territory

To better sell the South Plains to the farmers east and north of the plains region, the Lubbock Chamber of Commerce recently appropriated \$12,000.00 to the South Plains, Incorporated, to be used to advertise the South Plains during the months of December, January and February in leading Farm Journals of the Southwest.

An especial appeal has been made to the farmers who might be interested in making a change of location. Booklets and literature descriptive of the territory has been promised to all who inquire. Each chamber of commerce in this territory is to be handed the names of all inquiries and are expected to add their own barrage of appeal to the individuals.

During the first three weeks of this campaign 487 inquiries were registered at the Lubbock office. Each of these names have been forwarded and the different chambers have and are sending the call to "come over and see us."

J. E. Shelton of the local chamber states that he is sending out copies of the booklet, "Terry County, the Egypt of West Texas" and hopes to follow with a special edition of the Herald in which the merchants of the city will add their invitation to the prospective citizens.

Mr. Shelton says that an especial appeal is made for the purpose of securing some of the better dairying and poultry interests of the east.

### NEW JURY SYSTEM CRY OF CRIME COMMISSION

In New York State the Baumes Crime Commission is expected to endeavor to amend the jury law at the 1929 session of the Legislature.

One of the chief difficulties is in securing intelligent jurors. Inconveniences met with; time lost by talesmen from business; "old-fashioned, obsolete" statutes covering jury duty; low pay of jurymen and the many exemptions that have been made by law make "one wonder that any intelligent jury is ever obtained," says the commission.

Those who are urging a change say that the present body of the jury duty law is in many respects archaic and does not serve a useful purpose today. Similar conditions will be found in all states and it has been suggested that a study of all state laws relating to jury duty be made for the purpose of eliminating parts which have become obsolete.

The intelligence of jurymen and quick selection of a jury has a marked effect upon the proper expeditious administration of the law. Courts become confused and interest is often lost in cases where proceedings are slowed up by out-of-date technicalities of law which are applied to selecting juries and trying criminals.

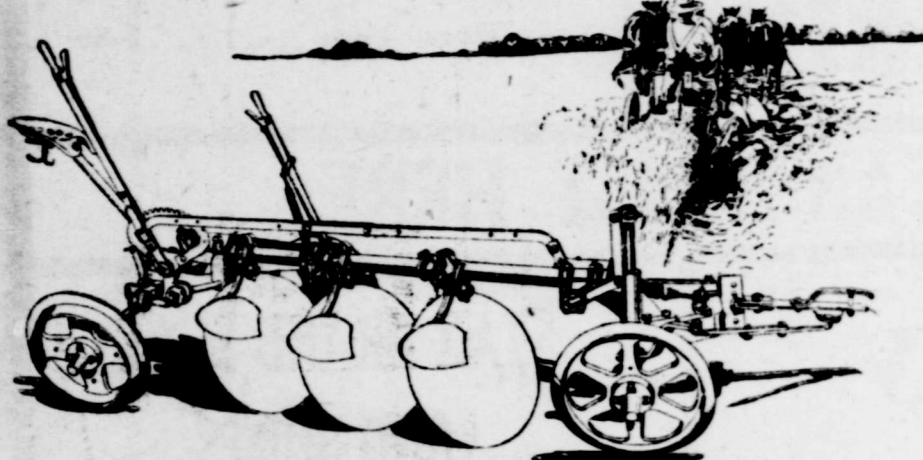

Improvements in the means of apprehending, trying and punishing criminals, in a speedy manner, will do more to reduce crime than all the anti-revolver laws, which affect only law-abiding citizens, that can be proposed or passed. Let the heavy hand

of the law rest on the law-breaker and not on the individual who minds his own business and respects the rights of others.

### MARTIN COUNTY INCREASES YIELD WITH PURE SEED

Stanton, Texas—Increased yields of one-fifth to one-fourth more grain per acre from the use of pure line

maize seed are reported by J. V. Bush, county agent of Martin county, after checking up the results of 22 pure seed demonstrations conducted this year by farmers and 4-H club members. The demonstration and check plots were on the same kind of land in each case and the cultivation of the plots the same, leaving no doubt as to the value of superior seed.

### Stronger Bearings Give Longer Life

Exceptionally strong, wear-resisting disk bearings, that will last long and give satisfactory service in all kinds of soil—they're the kind of bearings you get in the

### John Deere No. 63-A Disk Plow

The bearings are of heavy-duty, two-piece type—selected for their simplicity and greater strength. They run smoothly and easily, without adjustments.

You will like the 63-A for its quick convertibility. Change from three to two disks or from 8-inch to 9-inch cut per disk can be made in a few minutes.

You will appreciate the sturdy, non-sagging beam—set above instead of at the side of the disks, which gives greater clearance for trash.

You will be sure to like

the way the keen-edged disks bite down and revolve freely even in hard ground or difficult gumbo. The weight of the frame being above, forces the disks to penetrate readily. An additional aid to penetration is the setting back of the seat and rear wheel.

Quickly-adjustable scrapers—either universal, hoe or rotary type—are furnished.

Remember, the 63-A is designed to meet the severest soil conditions of this region and is an exceptionally strong and rugged, lighter draft John Deere disk plow.

See the 63-A at our store.

### NEW HOME FARMER TO PLANT 840 ACRES FEED

A. L. Lockwood, farmer of New Home, is placing some 800 acres in cultivation at the present time and expects to plant the entire acreage in hegari for the next year. He will harvest the crop with a combine, as the hegari grows straight and heads are usually almost even and a combine harvests with a great degree of success. Mr. Lockwood declares that it is his opinion that the feed crop when gathered at low cost will no doubt be the most profitable of his farm products.—Lubbock News.

### CORN AND BARLEY RATION GROWS 7.6 CENT PORK

The ration used by A. T. Quicksall of Ames, the Coryell county farmer who has broken the world's record for highest average weight of a 180-day-old litter of pigs, consisted of protein supplement as recommended by the A. and M. College Extension Service, combined with four parts corn meal and one part finely ground barley. This was mixed with enough milk to wet the feed. The grain feed was supplemented by a Sudan grass pasture to which the litter of seven pigs had access at all times.

This litter of registered Poland Chinas fed by Mr. Quicksall under the direction of county agent, E. T. Aagle weighed an average of 390 and four-sevenths pounds at six months of age, smashing completely the former record of 360 pounds held by a Kentuckian. The cost of production per pound of pork was 7.6 cents.

Misses Viola and Josephine Lee and Mr. and Mrs. B. R. Westbrook and two children made a trip Sunday to Frisco, Texas in Knox county, where they were visitors of the J. H. Westbrook family and other relatives there.

J. N. Heflin is spending Christmas and the holidays at Fort Sumner, New Mexico.

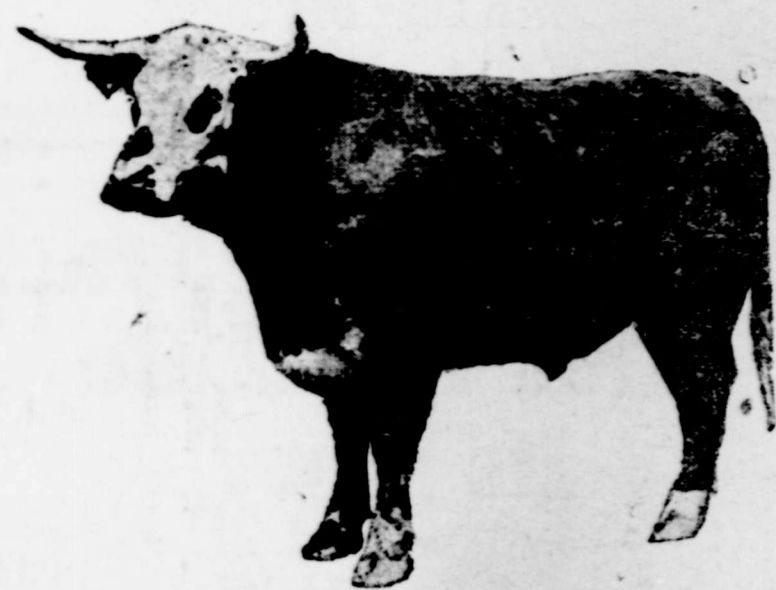

Mrs. Lee Fulton of south route came in Monday to have us send the Star-Telegram both daily and Sunday.

### —An Aim of A Friendly Bank—

A purpose of The First National Bank is to combine old-fashioned courtesy and modern banking methods—to make courtesy quite as prominent a feature of its service as the stability of its resources and the skill of its management. By courtesy we mean something more than mere civility—something that will impress the customer with the dignified, friendly confidential relations that subsist between the depositor and the bank.

### THE FIRST NATIONAL BANK of BROWNFIELD

## The New Year of 1929

The New Year was greeted by quite a few—the Rotarians entertaining; the Anns with a banquet on New Year's eve that lasted till a late hour and then a midnight matinee was given at the Rialto to welcome in the New Year; a watch party or two was given for the younger folks. New Year's resolutions are very much in order again and have featured at several occasions.

Christmas week was very quite socially, as everyone was enjoying their house guests or was resting for a brief period before the clubs begin their regular meetings again. Lots of sickness has also caused a lull in parties and meetings. Society's activities really revolved about the college students who were at home for the holidays.

The heartiest wishes for a Happy and Prosperous New Year are extended to all of the readers of the Herald.

## New Year's Eve Banquet

Merriment reigned supreme New Year's Eve when the Rotarians, according to their usual custom, entertained their wives or friends with a banquet at the Hotel Brownfield.

The guests were seated at one long table which was attractive with vases of flowers as centerpieces. Christmas decorations also were used. Beside each plate was a bright paper Rotary cap to be worn and a horn on which to play and plenty of rolls of ribbon confetti. After these were thrown over the table it gave a gay festival appearance.

A string band of four musicians entertained with gay, popular music while the guests ate. A delicious turkey dinner was served in two courses after which a delightful program was given with Mr. W. R. McPherson as toastmaster. Several Rotary songs were sung by the crowd, and a reading was given by Mrs. E. V. May. New Year's resolutions were given by several ladies—wishes about things they want their husbands to do or not to do during the new year. Some of the men then responded by making resolutions concerning their wives. A quartet composed of Mrs. McGowan, Mrs. Cruce, Mrs. Homer Winston and Mrs. E. V. May then sang "Among My Souvenirs" and "Ramona." They were accompanied on the piano by Mrs. Dallas.

The following members and guests were present: Messrs and Mesdames Tom May, J. F. Winston, Ray Brown-

field, E. V. May, R. L. Bowers, Arnett Bynum, W. B. Tudor, Luther Cruce, H. W. McSpadden, Homer Winston, Dodson, McGowan, Dallas, W. G. Harris, Michie, Shelton, Miss Vivian Winston, Mrs. Sanders, Dr. Schofield, Miss Lillie Mae Warren, Mr. Will Alf Bell, Mrs. Endersen, Mr. Roy Davis and Miss Cobb.

## Younger Folks Party New Year's Eve

On New Year's eve Miss Nettie Thompson entertained with a birthday and a watch party, the birthday being her fourteenth celebration.

The hours swiftly flew by in playing jolly games after which cherries with whipped cream, fruit cake and hot chocolate were served. Then all the guests went to the Rialto to enjoy the midnight matinee.

The guests were Misses Ruth Hensen, Mary Lee Bony, Katherine Holgate, Roselee Goodpasture, Latane Eickie, Bernice and Francis Carpenter, Mary Handley Endersen, Johnnie Corning, Lucille Burnett, Viola Cotton, Lenore Brownfield, and Barney Holgate, Grady and Adolphus Goodpasture, Don King, R. L. Lewis, Sawyer Graham, Tight Graham, Otis Longbrake, J. W. McPherson, Emory Longbrake, Spencer Kendrick and Maurice Thompson.

## College Students Honored

The college boys and girls who are now at home for the holidays were the honorees Friday evening when the ladies of the Baptist Women's Missionary Union entertained with a dinner at the home of Reverend and Mrs. E. V. May.

All were seated at one long table that was beautifully decorated with cut flowers. The guests found their places by means of dainty Christmas place cards. An attractive menu in four courses was served. Before the last course was served each guest was required to read his New Year's resolutions in rhyme. Much fun and humor were manifested in these readings.

Mrs. May was assisted in serving by Misses Lucille Flache and Emma Jean Alexander.

The guest list included Misses Robbie Marion Hardin of Abilene Christian College, Louise Holgate and Mabel Garrison of West Texas State Teachers College at Canyon, Bessie Thompson of East Texas State Teachers College at Commerce, Mamie Sue Flache and Madeline Elliott of the Tech; and Weldon Howel of Canyon, Ulysses Graham of the Military

Institute of Roswell and Adolphus Smith, Glenn Webber, Otis Longbrake, A. J. Burnett and Bill Collins of the Tech.

Virgil Burnett who is attending John Tarlton at Stephenville had already returned to his school work; James Harley Dallas of the Tech was sick with the flu.

Mrs. Paul Stevens who spent Christmas week with her parents, Mr. and Mrs. J. E. Shelton, has returned to her home at Post.

Mr. and Mrs. Horace Rambo and Mrs. Tipton spent Christmas with Mrs. Tipton's brother at Levelland.

Mrs. Lois Wright of Palmer, Texas and her son who is attending the Tech visited her brother, Earl Anthony and family.

## Christmas Party For El Paso Visitor

Miss Francis Brownfield and Ray Brownfield Jr. entertained with a bunco party for Miss Martha D. Brownfield of El Paso, Saturday night, at the home of Mr. and Mrs. Ray Brownfield. Five tables were arranged and after a jolly evening playing bunco hot chocolate and cake were served.

The guests were the honoree Miss Martha D. Brownfield and Misses Pauline Hunter, Mary Handley Endersen, Alma Brown, Martha McClish, Viola Cotton of Amarillo, Kathaleen Hardin, Marion Hill, Lenore and Jane Brownfield, Francis Rickles and Francis Brownfield, and the boys were Lee Brownfield, Murphy May, Sawyer Graham, Vernon Bell, Don King, R. L. Lewis and James Cotton.

Mrs. C. A. Ridgeway has returned from a visit to Ft. Worth to visit her daughter, Mrs. B. L. Thompson.

## Attends Funeral In Kansas

Mr. Roy Wingerd was called to Lincoln, Kansas Thursday, December 20th because of the death of his sister's husband, Mr. Chris Nelson. Mr. Wingerd also went to Salina, Kansas to visit her grandfather.

## Carlsbad Cavern Visitors

Miss Long, the Spanish teacher in the high school and Miss Martha Spencer went to Roaring Springs Christmas morning for a short visit and on Thursday Miss Long and John Bill Spencer and James Harris left for Carlsbad, New Mexico where they will visit the Caverns.

Mr. and Mrs. Joe J. McGowan and Billie left Sunday week for Paducah and Quanaah to spend the holidays with their parents.

Mr. and Mrs. R. B. Holmes of Seminole were the guests of their son, Leo Holmes and wife for Christmas.

Miss Bessie Thompson who is attending school at Commerce visited her parents during the holidays. Miss Thompson was one of the local teachers last year.

Mrs. Dalton Lewis and sons, Lee Orval and R. L. left Christmas morning for Stephenville to visit relatives.

Miss Margaret Bell who spent the holidays with her parents, Mr. and Mrs. Will Alf Bell, has returned to her school work at Lubbock. She was one of our local teachers for last year.

Mr. and Mrs. Guthrie Cook of San Angelo visited relatives here during the holidays. Mr. and Mrs. Cook formerly lived here and are well known.

Mr. and Mrs. W. B. Toone had as guests for Christmas their son and his wife, Mr. and Mrs. Jack Toone of Wichita Falls, Texas.

Mr. and Mrs. E. B. McBurnett spent the holidays with their parents, Mr. and Mrs. A. M. McBurnett and Mr. and Mrs. L. R. Pounds.

Mr. and Mrs. Norris Myatt and children of Slaton were guests of her parents, Mr. and Mrs. L. R. Pounds.

Mr. and Mrs. J. C. Green and Mrs. Ivey Savage and children went to Clovis, New Mexico Tuesday to visit their daughter and sister, Mrs. Jessie May and family.

Mr. and Mrs. R. B. Wrinkle of Childress visited his sister, Mrs. A. L. Burnett and family.

Mr. and Mrs. W. B. Downing spent Christmas Day in Lubbock with Mrs. Downing's parents, Mr. and Mrs. J. T. May.

Mr. and Mrs. Ray Smith of Lone

Wolf, Oklahoma spent Christmas with her parents, Mr. and Mrs. H. W. McSpadden. Miss Gladys McSpadden of Lubbock spent Tuesday at home also.

Mr. and Mrs. Hubert Thompson have returned from Ft. Worth where they spent the holidays with her mother.

Dr. G. W. Graves has returned home after visiting his father who is eighty-one years old and who lives near Dardenell, Arkansas.

Mrs. E. Bain Smith of Crane, Texas spent the week end with Mrs. J. T. Auburg. Mrs. Smith brought her two daughters who are teachers at Gomez and Levelland.

Misses Bebe Auburg and Bernice Lane spent the week end in Lubbock.

The telephone company has a new district manager, Mr. Singer to succeed his brother who died last fall at Littlefield.

## Nashville Guests Return

Mr. and Mrs. Benard Thompson have returned to their home in Nashville, Tennessee after spending the holidays with his parents, Mr. and Mrs. B. L. Thompson.

## Church News

### W. M. U. DID NOT ENTERTAIN CHURCH SOCIETIES

The Baptist Women's Missionary Union had planned to entertain the Federated church societies Monday afternoon, but on account of so much sickness they decided to wait till a later date.

### CHURCH OF CHRIST BIBLE CLASS

The Bible Class of the Church of Christ met Monday afternoon at the church, but due to sickness only five members were present. The lesson was led by Mrs. Ditto.

### Students Return To Schools

Misses Vivian Winston and Fay Brown left Tuesday for Abilene Christian College. Miss Robbie Marion Hardin left later for A. C. C.

Ulysses Graham has gone back to the Military Institute at Roswell.

Bill Collins, A. J. Burnett, Glenn Webber, James Harley Dallas, Adolphus Smith and Misses Madeline Elliott and Mamie Sue Flache left Wednesday for the Tech.

Don Leach and John Willis of Mineola, Texas visited the Tech boys during the week.

Mr. and Mrs. M. B. Cotton and children have returned to their home at Amarillo after spending Christmas with her parents, Mr. and Mrs. M. B. Sawyer and other relatives.

### Christmas Bunco Party

Miss Louise Chisholm entertained with four tables of bunco Thursday evening. In the games Miss Christova Sawyer got a dainty linen handkerchief for the girl's prize and Ulysses Graham, a pongee handkerchief for the boy's prize.

The hostess served pimiento and ham sandwiches, fruit cake and hot chocolate with marshmallows.

The guests were Misses Christova Sawyer, Willie Mae Jacob, Vivian Winston, Robbie Marion Hardin and Winnie Clare, and Messrs. Adolphus Smith, James King, Ulysses Graham, Harlan Howell, Gillum Graham and Spencer Kendrick.

### 'IF YOU KNEW YOU'D DIE IN 1929—THEN WHAT?'

Next Sunday at 7:30 P. M., the sermon subject at the Methodist church will be, "If You Knew You'd Die in 1929, Then What?" A real new year message, don't fail to hear it.

At 11 A. M. the subject will be "The Program of the Lubbock District for 1929." A short talk followed by the sacrament of the Lord's Supper.

Start the New Year right, by attending church and Sunday School the first Sunday of the year. You are cordially invited to attend the Methodist church next Sunday.

Rev. B. W. Dodson, D. D., Pastor.

Lost—Black suede purse; 1928 Seminole high school class ring. Reward. Return to Lois Daniel or Herald office.

400 ACRES good tight land with two sets of improvements for rent on 3rd and 4th. 1 mile east of Wellman gin. See A. M. Crews.

## CARD OF THANKS

We take this means to thank our friends and neighbors for their kindness during the illness and death of our wife and mother and also for the beautiful floral offerings.

W. I. Lovelace and children.

**AGED RESIDENT OF COUNTY BURIED HERE**

Survived by eleven children, eight of whom are living, and eleven grand children all living in Terry county, Mrs. W. I. Lovelace of Tokio died shortly after midnight December 24th at her home and was buried in the Brownfield cemetery the same afternoon after services conducted at the local Baptist church by Pastor E. V. May.

Mrs. Lovelace, aged 53, had lived at Tokio since 1913 at which time her husband became the first man to sell merchandise at Tokio. One of her sons, N. H., lives at Mobetie. Her only sister Mrs. W. A. Leonard, lives at the same place.

Her death was caused from typhoid fever contracted while nursing a sick son. A faithful christian worker since the age of twelve she was loved and honored by the entire community where she lived.

**Tree Big Enough to Build Nine Cottages**

Twin, Wash.—They grow big in Northwest states—these giant fir trees.

And one of the biggest yet discovered went crashing to earth when a crew near here dethroned a monarch that not only provided a large amount of lumber but some large statistics as well.

It was, foresters say, about 2,000 years old. Length, 250 feet; weight, 200 tons; diameter, 12 feet. Its logs filled eight flat cars. The tree scaled 62,500 board feet, sufficient to build nine five-room cottages.

Hidden away in the depths of Northwest forests, foresters believe there are even bigger trees.

**RED RIVER FARM METHODS ARE AT TRANSITORY STAGE**

Introduction of Wire Fences Marks Change From One Crop to Diversified Products.

Grand Forks, N. D.—Farm methods in the Red river valley are at a transitory stage, and a token of the new era is the introduction of wire fences.

A decade or two ago wheat was the only crop produced, and a solid sea of rain stretched from North Dakota to Minnesota. Yields averaged 20 to 40 bushels to the acre, and the valley went down in history as the "bread basket of the world," a space unenclosed, where farms were broad and unimproved.

In the last eight years a tremendous change has taken place. An avary, lions plant, the sow thistle, has swept the wheat fields, forcing average yield down to seven or eight bushels to the acre.

There was but one remedy, diversified farming and the production of live stock. That brought the wire fences into prominence. Farms were reduced in size and fenced to control the stock.

The change now is at its height, with experimental farms throughout the valley, proving that a system including the raising of live stock and production of feed, together with diversification and rotation of field crops, will bring back the vitality of the soil and eradicate the thistle.

All other effects are attributed to fencing. Gardens have been planted where tin cans once were piled, and farmers are producing their own meat and milk and butter.

More than a score of creameries have been started in the valley, and a sugar beet factory is operating, using beets from 15,000 acres. Negotiations have been started for at least two canning factories, and each year brings the constant addition of miles and miles of fences.

**Find Primitive Ideas of Medicine Sound**

Washington.—Any custom that has held its own for generations usually has something back of it, no matter how little it appears to be supported by modern science, in the opinion of Hugh S. Cumming, surgeon general of the United States public health service.

"For a thousand years," he says, "the Chinese have prescribed the heads of a powdered toad fish as a remedy for heart trouble, and now adrenin, the most up-to-date drug for the treatment of heart disease, has been found to exist in the head glands of that fish.

"For generations the fact that American Indian hunters always chose the liver and the white men the meat when the animals they had trapped or killed were divided, was quoted as proof of their ignorance and primitive development.

"Yet in the last five years the great nutritive value of liver has come to be recognized and it is prescribed in cases of anemia."

**Moose Unafraid of Man on Lake Superior Isle**

Winnipeg.—Isle Royale, in Lake Superior, off Port Arthur, Ont., is of interest not only to the naturalist and advocate of conservation of wild life in North America, but to students of ancient civilizations on the continent as well, Frank M. Warren, vice president of the Minneapolis chapter of the Izaak Walton league, said at a reunion of the Veteran Scouts' association in Fort William.

Isle Royale lies in northern Lake Superior, 16 miles off the Canadian mainland. It teems with wild animal and bird life, the speaker said, and also was the scene of copper mining of ancient Americans. Ruined shaft houses and shallow pits there are to be excavated this summer by scientists from American universities studying these ancient people.

Mr. Warren said that several thousand moose live on the island without fear of man. Naturalists have been able to go there and carry on studies of moose and other wild life as in no other part of the country.

**Glad He Shot Himself**

New York.—Elias Body, Hungarian artist, is glad he shot himself. It happened a year ago in the Paris apartment of Vera Leightner of Cleveland. He recovered and now Vera, his bride, is here with him.

**Corn Stalk Paper Used In Plains Advertising**

"You will be interested to know that the December 15, issue of the Prairie Farmer, in which the South Plains advertisement will appear, will be printed on paper stock made from cornstalks and it will attract a great deal of extra attention to this particular issue," states a letter to the Chamber of Commerce from H. E. Hendrick, space buyer of the Tracy Locke Dawson, advertising agency.

"Many people will save this issue as it of course has a historic interest in being the first paper to be published on such paper. We have seen a sample of this paper stock and it looks better than the average stock on which farm papers are printed.

"Needless to say, we are sure you appreciate the tremendous step forward this is in utilizing what was a waste product on the farm."

With the successful introduction of the "cornstalk" paper, it is natural to presume that grain sorghum stalks may also be used to make paper, as the stalks are similar.—The Hub.

The above article clipped from "The Hub," official publication of the Lubbock Chamber of Commerce, lends hope that one of the anticipations of former years is near at hand. Those who have cried that forests were diminishing at such a rate as to foreclose in the near future on the amount of wood pulp used in the manufacture of news print made us to look for another source for stock.

Hope has been expressed by different scientists in the past that news print stock would eventually be made from grain, alfalfa, corn or cotton stalks. With the announcement that tests had proved successful and that some papers were already using paper made from corn stalks it appears that the vision has proved other than a mirage.

The South Plains has been unable to furnish a great deal of the news print of the world in the past on account of its shortage of forest timber but when the bulk of the news print comes from corn stalks the South Plains may be able to furnish a portion of this material for the manifold publications of the "Fourth Estate."

Carrying the idea a bit further we reach the conclusion that the possibility of a paper mill in Brownfield is not as remote as some might think. Terry county furnishes plenty of the raw material. Publications other than the Terry County Herald will need the finished product.

Such action as this will bring more relief to the farmer in one year than Congress can devise in fifty years. Verily, when the products of the forest are gone the products of the field will take their place.
