Wellman Writings

All the members of the Church of Christ of Wellman attended Lord's Day services at Seagraves Sunday.

The meeting at the Wellman Church of Christ will begin Friday evening. Elder Kerby Bentley is to do the preaching. Everyone is invited.

There was a union Sunday School organized at the school house Sunday with about thirty in attendance. Mr. J. D. Roberts was elected Supt., Mr. Hamm, assistant Supt., and Miss Inez Welcher, secretary and treasurer. They will meet at ten o'clock every Sunday morning. Everybody is invited.

Mr. and Mrs. W. F. Jackson and children and Mr. C. T. Jackson, Sr. visited Mr. and Mrs. Gould Winn, Sunday.

There was an old time ice cream supper at the home of Mr. W. F. Taylor Saturday evening. There was several gallons of ice cream made and served. All enjoyed the evening very much, especially the children playing out door games while the cream was being frozen. Those attending were Mr. and Mrs. W. L. Gardenhire and children, Mr. and Mrs. Garland Gardenhire, Mr. and Mrs. Dean Casey and children, Mr. and Mrs. B. F. Little and children, Mr. and Mrs. L. P. Adair and children.

Several of the neighbors gathered in last week and finished planting the crop of Mr. J. D. Roberts. Some of the men worked Monday, some Tuesday and some Wednesday. We understand it was a surprise for Mr. Roberts, we suppose it was a happy surprise though. Mr. Roberts said "Thanks."

Mr. and Mrs. Burnett Pruett had dinner with Mr. and Mrs. W. M. Schroeder Wednesday evening.

Mrs. C. T. Jackson of Lubbock has been visiting her daughter, Mrs. Gould Winn this week.

Miss Mollie Singletery visited Miss Roma Lewis one day last week.

Several of the ladies met at the home of Mrs. P. R. Cates Monday afternoon of last week and did some painting. They all reported a very pleasant afternoon. Those attending were Mrs. S. Z. Paul, Mrs. Bridges and daughter, Miss Viola, Miss Mollie Singletery, Mrs. Gilbreth, Mrs. W. L. Pace, Mrs. Wardeth, Mrs. Schroeder, Mrs. Winn and Mrs. Adair.

Mr. and Mrs. Dee Thompson and children of Colorado, Texas have been visiting Mrs. Thompson's parents, Mr. and Mrs. W. M. Lawrence.

Mr. and Mrs. Dean Casey of Monday has been visiting Mrs. Casey's parents, Mr. and Mrs. B. F. Little. Mr. Casey and Mr. Little and several others went to the Concho river to fish. They reported a very pleasant trip but never caught many fish. Mrs. S. Z. Paul was called one day last week to Anson because of the illness and death of her mother.

Mrs. J. D. Roberts, who is in the hospital at Lubbock is reported to be recovering fast. Mr. Roberts and Miss Nellie returned home Wednesday.

Guthrie Cook and family are here this week visiting relatives.

If some simple minded yokel would follow the advice of the public speakers for just one week he would be simpler than ever.

THE VAMPIRES

In current slang, as is well known, the term "vamp," a contraction of "vampire," is used to designate a seductive female.

In olden times, and even in recent years in parts of Eastern Europe, the vampire was considered a more sinister and fearsome entity.

In the original meaning, a vampire was supposed to be the soul of a dead person which leaves the buried body at night to suck the blood of living persons, usually causing their death. Hence, it was believed that upon opening the grave of a vampire the body would be found still fresh and rosy from the blood thus absorbed.

Dead persons most likely to become vampires were supposed to be those who had committed suicide or had come to their death by violent means, also wizards, witches and those who had been cursed by their parents or by church. A cat crossing a grave might transform the occupant into a vampire.

To stop the depredation of a supposed vampire, it was thought necessary to drive a stake through the corpse, sever the head, remove the heart, burn the body, or pour boiling water and vinegar on the grave.

Later the term vampire was applied to certain species of blood-sucking bats of Central and South America, concerning which many popular superstitions have also arisen.

Finally, we have the alluring vampire, or "vamp" of the movie screen and Main Street. But there isn't much superstition about her.—Ex.

THE VALUE OF SOUND DESIGN

New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy

THE good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

by producing turbulence within the cylinders during compression. The spark thus flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance. Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, the simplicity of the electrical, cooling, lubrication, and fuel systems and accuracy in manufacturing.

NEGRO SOLON GETS KU KLUX WARNING

WASHINGTON, June 24.—Representative Oscar De Priest, negro republican from Illinois, today made public a telegram from Birmingham, Alabama, signed "Klu Klux Klan" advising him that his presence was not desired in Alabama.

De Priest is scheduled to speak in Birmingham on July 17.

The telegram read: "Representative Oscar De Priest, house office building, Washington, D. C.

"Your presence is not desired in Alabama. Alabama is a white man's state. Signed Knights of the Klu Klux Klan."

De Priest said he had accepted the invitation to make a speech before a colored organization in Birmingham and that he planned to deliver the address as scheduled. De Priest is a native of Florence, Alabama.

"This is a prize hick town, alright," said the man who was compelled to stay over for the night.

"Mebbe, mister," said the hotel-keeper, "but we got something your big burg ain't got and would give a lot to have."

"Yeah? Sez you! And what's all that?" inquired the bored one.

"Parking space. Oodles of it," retorted the other.—Cincinnati Enquirer.

MEADOW BRIEFS

By Aesculapias

A few years ago Meadow had a clean-up day. The citizens would turn out en masse pick up the cans and other debris, cut weeds and cat claw, clean out and disinfect closets, burn paper and other waste.

Well they don't do that any more. Just why I am unable to say but they don't do it. The town begins to look like one of the waste places. Junk is visible every where and cans and waste paper along with the Russian Thistle has well nigh obscured the town. There isn't any civic pride left in us. The City Dads met and passed some stringent legislation with reference to loose stock and homeless, worthless curs, but—the cows and horses continue to commit nightly raids on unprotected trees or other property and nothing is done.

As the shadows grow long and the days get hotter odors of all kinds fill the air and the flies make life miserable for the town cow and the house that isn't screened and has a swatter for each member of the family.

The bill board which usually occupied spaces on the outskirts of the town is now very much in evidence in the business section which to me is just about as appropriate as a closet in the front yard.

What is the matter with the law enforcing part of our moral vinyard? If some fellow had made home brew or crushed a rotten apple the population would have turned out at midnight in pajamas, the sheriff would have been notified and some helpless creature would have been promptly landed in the county jail, to the glory of God and the Anti-Saloon League.

Of course no particular individual is responsible for this state of affairs. We have simply lost what ever civic pride we had and are content to live as negroes and Mexicans in any old way just so we are not disturbed in our day dreams.

Yes it has been more than warm the past week, in fact it seems the hottest June I have experienced since coming to the Plains.

Crops about Meadow look fine and promise a good turn out this fall.

The home of W. A. Hinson was burned Sunday at about eleven while the family were away at church. No one being at home at the time all household effects were destroyed. It is not known how the accident occurred. A subscription was being taken Monday for the benefit of the sufferers.

Many of our citizens went to Lubbock Friday night to the Ferguson speaking. Jim was in a happy mood whether real or assumed it would be difficult to say. One thing is certain however he, or rather She, is a thorn in the flesh to those who would like to be governor of Texas.

While the writer intends to support Sen. Small in the first primary, if he should not be in the run off, then I shall vote for Ma as second choice against any others. The things she stands for rather appeals to me. The balance of the candidates are just simply running against each other while Jim's platform is clear cut.

Effie May Moorhead, daughter of Doctor and Mrs. Moorhead, was married Saturday morning to Mr. Herschell Hinson, who until recently resided here.

The young couple left Monday morning for California where Mr. Hinson has been living the past few months. Effie May was the youngest of the Moorhead children, a family of ten.

Yes, she has come from us. We stood and watched the vanishing car until dust and distance obscured the way. Then with tear filled eyes we turned our faces to the vacant house where her cheery face and merry laughter brightened our lives for many years.

For more than quarter of a century we have bid them goodbye and much success as one by one they have left the home nest until this tenth and last has gone out into the world to meet its buffetings, its disappointments and its merciless demands, with youth and hope the only prophets of their future.

Adieu dear little girl and may the fond hopes you have for future happiness not disappoint you. May the castles you have builded in your day dreams reach fruition and may you always have in mind and feel that in the offing Dad and Mother are waiting for your return some sweet day.

Relief From Curse Of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. PROCESS CANNING

Heating products to kill bacteria is called processing. In a water bath, see that the level of the water comes over the tops. Count time as soon as water begins to boil vigorously.

In a pressure cooker, be sure that there is sufficient water to prevent boiling dry during processing. Fasten opposite clamps lightly, lastly tightening each pair. Allow the pet cock to remain open until steam escapes from it in a steady steam for seven minutes, indicating that no air is inside. Count time the moment the desired temperature is reached. Fluctuations in pressure are undesirable and to be avoided.

No steam should be released thru the safety valve or pet cock when glass jars are in the cooker. The safety valve ball should be cleaned often. The safety valve is set by either tightening or loosening it as the pressure rises. A pound above the desired temperature is satisfactory.

When the processing has continued the desired time, if tin cans are used, the pet cock may be opened wide. When the gauge indicates zero, the lid may be removed and the jars plunged in cold water. If the end of the can is bulged, the seal is complete. If not, test carefully in water for bubbles. Leakers may be opened when the cans are cold, but not before, the before, the contents heated and processed as at first.

For glass jars, when desired time has been reached, remove from fire and allow the gauge to indicate zero before the pet cock is open, even

then open cautiously, then remove the lid. Invert the jars, allowing to cool as quickly as possible at room temperature. Draughts are to be avoided, as there is danger of breakage. Jars should not be stacked or packed while hot.

Elder J. T. Stricklin and singer, Mr. Stagner, left early Monday morning for Fort Worth, where the former will make ready for six revival meetings in east Texas and Oklahoma.

We have been requested to announce that Elder J. K. Bentley will begin a series of revival meetings for the church of Christ at Wellman tonight, to go over two Sundays. People from other congregations are urged to attend. Elder Bentley will begin a revival for the local congregation here on Friday night before the first Sunday in August.

It is not at all improbable that old Texas will have a population of six million people this time, and if so will very likely go ahead of Ohio and become the 4th state in the union in the number of people liv-

ing within their bounds.

If you believe the good ladies of Terry county need to be assisted by a home demonstrator, see one of the many petitions left at the drug stores over the city and sign one of them. Do this at once, as the time of getting signatures is limited.

Well, we would kinder like to see a good shower now to cool the atmosphere, although crops are not suffering. But if it has to be accompanied by such a visitor as they got over in Cochran county, we'd as leave do without a while longer.

Lynch Davidson came out recently in a statement supporting Witt of Waco for Lieutenant governor, and John Davis for State Treasurer, but so far he has not gone on record for any governor. However, he has advised that it would not be to the best interest of Texas to elect Ferguson, Love, Sterling or Mayfield.

There is no advertising just as good as newspaper advertising and more and more merchants are finding this out. Recently during a big sale here the writer saw the big waste basket at the postoffice full and running over of circulars that had been taken out of boxes and put in the waste basket. A little later the same day we happened to be up at the depot and opened the stove in the waiting room, and it was crammed full of the same circulars that some boys were supposed to distribute. If they had been in the Herald, they would have gone into the homes they were intended to go into.

While there is not much talk going as to who the people of this section are lining up for as our next governor, from expressions we have heard which were voluntarily given, it would appear that a vast majority of them are for Senator Small. In fact all that we have heard express themselves save two were for Small. The exceptions were for Sterling, and one of them said he had rather have Small if he thought there was any chance for him. But the way to make a chance for him is for West Texas people to vote every vote they have for him in the first primary, then we will have an excellent chance to win in the second. If either Mayfield, Love or Ferguson are opposing him he will have a walk over, and an even break with Sterling or Miller if the latter runs like he usually does, which is rather doubtful in this race. We know two fellows here, a banker and a doctor, who as usual will likely support Ma. This without asking them how they stand.

Mr. Eldridge Shelton, of Bowie, Texas, visited with Claud Jones last week. Mr. Shelton is postmaster at Bowie. It is his desire to locate on the Plains, and after visiting several Plains towns, was more favorably impressed with Brownfield than any town he visited.

Pink Parrish Endorses Candidacy of Small

(AN EDITORIAL)

Upon his return the latter part of last week from the Dominion of Canada, where he had been several days on a vacation trip and to attend a Shrine Convention, Senator Pink L. Parrish announced that he would not be a candidate for governor of the State of Texas and would support his friend, Clint Small, of Wellington, Texas, in his campaign for the office. Senator Parrish's name had been certified to the State Executive Committee of the Democratic party by Crosby County friends as a candidate for governor.

The withdrawal of Parrish from the race leaves only one West Texan in the "battle royal" for the gubernatorial honors. Some ten or twelve other candidates are stirring up quite a "stink" while Clint Small, of Wellington, Texas, is going right on down the line preaching the gospel of sound business principles in governmental affairs, refrains from political alliances that entangle officials in the meshes of "governmental patronage" and political hatred. His preachment smirch of good old common sense and reports are that people all over the State who are tired of the old moss-back, pie-eating politicians bossing the government, are rallying to his support as one who is not besmirched with old political feuds and prejudices and who, if honored with the position, will be able to administer the affairs of state in an unbiased, unprejudiced and free-handed manner.

Texas democracy has been guided the past several years by a gang of old run-down political leeches who have steered it into the bottom of a "stink-barrel." Our politics are the laughing stock of the balance of the United States. And still these old pie-eaters are on the job, waving the red flag and shouting from the housetops their mushy jargon, seeking to arouse the old wave of prejudice that will cause the voters to sweep them back up to the political soup counter where they may bask in the sunlight and wax fat. They have lain in the political bed so long that bed sores are all over most of their backs and even their stomachs are, we imagine, laden with political ulcers. But they like it, and if they are able to soft-soap the voters, by flaunting the scarlet flag of prejudice in their faces, into voting for them, they consider it an accomplishment and an achievement, and no doubt "laugh up their sleeves" at the gullibility of the "DEER PEEPUL."

Clint Small is a West Texas man. He has never alligned himself with this old order of political buzzards who enjoy feasting on one another's carcasses and deal mostly in hatred and "get even" methods instead of governmental economy and constructive legislation. Mr. Small's record as a private citizen and public servant indicates that he is eminently qualified to make this State an excellent governor and give it an economical, business administration. To say the least of it, he will not have to issue patronage and give homage to the old political war-horses who are just about to drive the State of Texas off the traditional democratic band wagon so long revered by our ancestors and ourselves. Let's vote for Clint Small for governor, thereby showing these old political bosses that we are shaking off the coat of political corruption and banding ourselves together to rid Texas of all such prejudiced foolishness. We believe it will be a constructive vote.—Ralls Banner.

This plaintiff would allege that by reason of cruel treatment and criminal excesses, she was forced to leave, in said Defendant, that she has not lived with said defendant as his wife since the 12th day of March, 1930, that she was lawfully married to said defendant on the 1st day of October 1929. That said defendant would not support her, that he had been unbeknowing to this plaintiff convicted of a felony. That further living with said Defendant is unthinkable. Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Given under my hand and the seal of said Court, at office this the 30th day of June A. D. 1930. (SEAL) Rex Headstream, Clerk District Court, Terry County. 49c

Mrs. Lee Lyon was a Brownfield visitor Monday.

GOMEZ GO GETTERS

The Gomez Go Getters met in regular session Wednesday evening, June 25 with the president presiding.

Tommy Key was elected as our song and yell leader. As usual we sang several peppy club songs followed by some inspirational and instructive talks by some of our members. Dollie McLeRoy gave us an interesting talk on "Caring for Turkey's." Zella Whitley gave us some "Laugh Provokers" gathered from "Here, Thither and Yon."

Some outstanding reports were given by several members of their projects. Harvey Davis reported that his club sow farrowed twelve pigs but had the misfortune of losing three of them. Harvey said that he expected to realize \$100.00 from the sale of the litter.

Our community Club Leader gave us some splendid suggestions for our part in the Club Rally, also some suggestions on making preparations for our booth at the Fair this fall. Adjournment followed the singing of more club songs.

This will be our last report before the Rally—So let's have a hundred per cent of Terry's 4-H Club members on parade July 11th. We are going to try to put our part of the parade and program over better than we ever have before.

Right here we wish to extend our heartfelt thanks to Mr. Harris, man-

WORK STARTED ON OIL TEST

After consuming several days in preparation and in a fishing job, in which a bailer left in the hole was taken out piece at a time, drilling was resumed at 5 o'clock Tuesday afternoon on the McCamey well five miles west of Tahoka. Day and night shifts are being employed. The hole was 5,032 feet deep when drilling was resumed. Progress will necessarily be slow but it is hoped that operations may continue uninterrupted until the contract depth is reached, 5280 feet, or until pay oil is found. Jack Dempsey is the driller in charge of the operations.—Tahoka News.

John Bryant was here the past week visiting with his parents, Mr. and Mrs. Joe Bryant and other relatives.

A great hail storm passed through southern Lamb, northwest Hockley, Cohan and a corner of Yoakum county Monday night leaving destruction in its wake. Some hail fell as large as baseballs it was said, and was drifted in bar pits six feet deep. It was not only destructive to grass and crops, but killed many livestock and unroofed houses as a 90 mile gale accompanied the storm. It is estimated that the damage will be near a half million dollars. The strip was about 25 or 30 miles long and nine miles wide.

The Baptist people are planning the greatest encampment of their history at Leauders this year, which will start the 8th of July and run until the 20th. Some of the best speakers of Texas and adjoining states will be there. By cooperation and purchasing in wholesale quantities, it is said the food bill will be only about a dollar a day per person. Baptist people of Terry county are urged to attend.

**THE NEW
TEXACO MOTOR OIL**
LONGER-LASTING, "CRACK-PROOF"

THE Texas Company again demonstrates its leadership in the petroleum field with the introduction of a vastly superior, new product—a motor oil that lasts longer—that is crack-proof—a motor oil that meets exactly every requirement of the high speed automobile engine of today! This new oil revolutionizes lubrication values as completely as the new and better Texaco Gasoline, the original "dry" gas, revolutionized motor fuels in the Spring of 1926.

An Oil Without Precedent

There have been oils that gave remarkable mileage. There have been oils that flowed freely at zero. There have been oils that kept your engine completely free of wax and carbon troubles. But—never until now have all these advantages been

combined in any one single lubricant. That motor oil is ready for you today. It is the new Texaco—longer-lasting and crack-proof. Road tests—laboratory tests have proved it.

Available in all our 48 States

Fill your crankcase with this new crack-proof motor oil today. It will more than pay you, not only in greater value for your lubrication dollar but for your car dollar as well. It is manufactured in five grades: C, D, E, F, and G, corresponding in body to Society of Automotive Engineers (S. A. E.) viscosity ratings. 30¢ a quart everywhere (35¢ for grade G).

THE TEXAS COMPANY

Refiners of a complete line of Texaco Petroleum Products including Gasoline, Motor Oil, Industrial Lubricants, Railroad and Marine Lubricants, Farm Lubricants, Road Asphalts and Asphalt Roofing.

**Champion Cow of
Texas is Selected**

STEPHENVILLE.—In the recently completed 365-day production test held by the John Tarleton College dairy, Nobleman's Katy Lee 851863 won the senior yearling championship in milk production for Jerseys in Texas.

Starting at the age of one year and 11 months, Katy Lee produced 640.75 pounds of fat and 11,286 pounds of milk in the following 365 days. Her milk averaged 5.68 per cent fat for the year, and in maintaining this splendid record the young champion's yield of fat was above the 25-lb-per-month mark for 10 months of the test. This butterfat record is 140.75 pounds above the requirements for an American Jersey Cattle Club silver medal, but her failing to carry a calf the required 155 days of the test disqualified her.

The new champion Jersey of Texas was sired by Lucky Nobleman 247920

and out of Polly's Kate Lee 716136. In making her record the Tarleton cow consumed 4,380 pounds of grain feed, valued at \$98.55; 3,650 pounds of peanut hay, valued at \$21.84, and four tons of silage, valued at \$14.00, making a total feed cost for the 365 days of \$134.39. With whole milk selling for an average of 45 cents per pound of butterfat, her total milk yield was worth \$288.37, or a profit of \$153.98. Prof. H. N. Smith conducted the test.

In Connection With Above, County Agent, R. B. Davis, Adds: Mr. R. H. Timmons and Mr. T. L. Causseaux of this county have cows of the same blood-lines as the above champion heifer. I would also call your attention to the peanut hay and silage fed this cow during her record breaking year. Peanut hay is equivalent to alfalfa hay in milk production, so is field peas. Silage is the next thing to winter pasture.

We probably can not raise alfalfa for hay or have a winter pasture, but we can have the peanut, and pea hay and silage. When we provide this

choice hay and silage then Terry County will have State champion cows and they will show the one hundred and fifty or more profit per year.

Scudday News

Well the farmers out here have about all got planted over again, but we are in need of a light rain. Mr. and Mrs. Hail are the proud parents of a little son, but he is not doing so well.

Will Cunningham and family visited Jim Cunningham and family of Yoakum county Sunday. They reported a nice time, but still think Terry is the best.

Grandma and Miss Maggie Eastman are spending their vacation at Lamesa, Texas. They will be there about two or three weeks. We wish them a jolly good time.

Mr. Morris and Mr. Rainwater were business visitors to Brownfield Monday.

Fred Lowe of Brownfield spent

the week end with home folks. Archie and N. J. Rainwater spent Sunday with Vernon Townson.

Misses Eunice, Syble, Sarah Lou, and Mayme Ruth Ferris were dinner guests in the R. G. Nutt home Sunday.

Mr. Bowdin and family spent Sunday in the Roy Spearman home. Mr. and Mrs. Elbert Morris also spent Sunday evening with them.

Misses Claudine and Willie Cunningham spent Wednesday with Misses Eunice and Syble Norris.

Mr. Bernice Beck spent Sunday in the Union community.

Miss Shirley Nutt spent Saturday night with Miss Syble Morris.

Eunice Morris and Willie Cunningham were Wednesday evening callers in the home of Mrs. Rainwater.

Misses Louise and Mattie Mae Rainwater were callers in the Mrs. Brown Rainwater home Wednesday.

Mr. I. A. Moore and family were visitors to the Brownfield community Sunday.

We are having a big pie supper out here. Any one is invited. All

we ask is that the boys come with their pockets full of money. Boys, there sure are some good cooks in this community. If you don't believe it just come and buy a pie and see for yourself. We haven't set the date for it yet, we will tell you next week when it will be. Lets don't forget about the Sunday School every Sunday morning and everybody come.
