

## GREATEST ARMISTICE PARADE HERE TUESDAY

Soldiers, Boy Scouts and Schools Form Line Some Six Blocks in Length, Headed by the High School Band. Weather Anything But Ideal for the Occasion.

As usual Armistice Day as started early Tuesday morning long before daylight with the firing of anvils. But the misty rain that kept falling seemed to have interfered with their cannonading, as it did not sound as loud as some former years. About sunup, if that planet could have been seen, the former service boys, their families and friends had their usual breakfast of scrambled eggs, bacon, coffee and bread cooked over a fire near the Legion Hall.

By far the most extensive as well as the most colorful parade was put on at ten o'clock, headed by the exercise men and the band, followed by schools. It is a great pity that there was no sunshine to set off this parade to the best advantage. Sunshine, we are sure would have also augmented both the crowd on the sidewalks as well as the number in the parade. Two or three of the floats especially caught our attention, that of the grave of the unknown Soldier, the Red Cross float, and the miniature of the little Flanders cemetery of American dead. It might also be stated that there were more exercise men in the parade than ever seen in one here before. The program at the flag raising was necessarily

cut short by inclement weather. At noon most of the people here either had lunch at home, at cafes or with friends, and the rest of the time until the football game with Lubbock at 3:30 was spent in various ways. Some, we understand, loaded in their guns for an afternoon hunting ducks.

The football game with Lubbock was another smashing victory for the Fighting Cubs. While the Lubbock bunch was made up mostly they claim, of their second string, they had four or five of their first string men, and the Cubs waltzed over them at the tune of 27 to 0. Local fans say it was a real game, and the Lubbock boys put up a good but losing battle. Slaton trimmed Lamesa 12 to 0, and the boys here are out for Slaton meat, which they say they are going to get either cooked or raw.

But back to Armistice Day, we have no idea how any of the folks spent the evening, for the writer was at home all evening where a few friends called to play bridge, and as we don't indulge in that past time, we enjoyed the last issue of The Saturday Evening Post by a good fire. But it is reported as a great day. It was the first rainy 11th however, that we remember.

(Copyright, W. N. U.)

## TURKEY POOLING MOVE- MENT TO HELP FARMERS

An Advance in Price of Only a Few Cents Means Much to the County as a Whole. Like the Cotton Grower, Must Produce Better Birds for the Top Market.

Turkey Pooling like wool pooling, cotton pooling or wheat pooling is just an aim of two or more farmers in a county or community to get just a bit more for their stuff than if they sold alone. The advance in price offered for a large consignment may not mean but just a few cents, but that few cents means a great deal in the aggregate, and farmers should avail themselves of every opportunity to help themselves just a bit as well as to help their community to a great deal in the aggregate. This our notion is the answer to "why pool our turkeys?"

In doing so, farmers are not fighting local buyers, for last year if our recollection serves us right, local produce houses bought the pooled turkey crop, and gave some advance in price, because they know that they can handle a large consignment themselves than they can a small one. Also, they know just about the amount they can depend on the pool delivering them at one time and can make their arrangements accordingly. In other words, the handling of pooled birds in one day costs them less money than to handle the same amount of birds bought from individual farmers over say a weeks time. Also, they know just about the amount of birds in each class, Nos. 1 and 2 that they will receive on a given day, and they know whether or not that day will be soon enough for them to catch the holiday market.

The farmers who are entering the pool in Terry county say they realize they are too late for the Thanksgiving market now, but they hope to

have their organization swinging like a barn door by the Christmas market opening, and many believe the market may have time to recuperate some by that time, as there are supposed not to be as many turkeys as last year, and perhaps will not be any carry overs left from the Thanksgiving market.

There is, it is said, another thing the breeders must learn, which correspond with what the cotton farmers are already learning, and that is, they must breed better and heavier birds to command the top of the market. Cotton buyers, banks and exchanges all over the nation has been telling farmers for the past several years that the time would come when they would have to produce a better staple of cotton. That time is here. Short staple cotton is a drug on the market now, and it is depressing the price just that much of the better staples. Just so with turkeys. The market demand a good heavy, wide breasted bird, and that market will pay more for the birds they want.

With the drop in the price of turkeys last year and this from the high price of two years ago, has discouraged many breeders and they have quit the game. Of course everything else is going to slowly follow cotton, corn, wheat and other farm products, and we may see many years pass before they are as high as in 1928, but the stayer will learn to breed better birds and will always have a reasonable market for their products.

## Corn and Maize Prices Hit the Bottom Here

When we wrote the article last week concerning high priced feed in Terry county, we were under the impression that corn was bringing something like 65c per bushel, what little there was on the market, and that maize was bringing from \$15 to \$18 per ton, but we had not inquired as to the market for several days. We must admit that we were kinder taken aback Saturday when our article had appeared on the streets in the Herald, and we were informed by business men and farmers that corn and maize had taken a decided tumble, and the former was bringing around 40c per bushel and maize about \$8 to \$10 per ton.

But this is just the more an argument to feed the corn and maize right here on the ground to meat animals. The cheaper feed is the more can be made in feeding it into the bellies of dumb brutes, and all the meat animals you want can be found in a radius of 100 miles from here, a lot of them almost at your own price. It seems to us there is no better opportunity in the world than is offered right now to Terry county farmers and ranchmen to feed out a lot of cheap feed into cheap animals and make a good rake off in the bargain. About the only expense would be a good crusher and most farmers and ranchmen have that utility already.

Will Pool was in from the ranch Saturday and says he aims to feed out some 600 steers with the cheap Terry county feed, and he hopes others will join the move. Lots of the feed he will use is produced on the Pool & Goodman farms and ranches, so he will be at very little expense, but he hopes to have a fine bunch of finished steers to show for his efforts in a little while. When they are ready, the writer aims to go out and have a look at these steers, and at the same time will find out approximately how much the original weight was, what the feed cost and how much the finished weight was, what the feed cost and how much they gained on the feed. We are also going to find what the value of these steers was before being fed, and what they bring on the market as finished stuff. Watch Will Pool's smoke.

## Rail Hearing Will Be Held in Lubbock

An Interstate Commerce commission hearing on the proposal of the Texas & Pacific Northern railroad to construct a 332-mile line in West Texas will be held in Lubbock, December 8, according to an Associated Press dispatch received Wednesday from Washington, D. C.

The hearing probably will be held in a hotel, although the place has not been determined definitely. A. B. Davis, manager of the Lubbock Chamber of Commerce, said Wednesday. The chamber was asked by the Interstate Commerce commission to arrange for space for the hearing.

Towns File Pleas

A score of towns and organizations have filed pleas of intervention in the hearing, which is expected to be held before Examiner Davis, of the commerce commission.

The Santa Fe, Rock Island, and Fort Worth and Denver City railroads have indicated that they will fight the case and a formidable array of legal talent is expected at the hearing to oppose granting of a certificate of convenience to the Texas & Pacific Northern, a part of the Texas & Pacific organization.

Matters of selecting quarters for the hearing and other details relative to the case will be considered soon at a meeting of the Chamber of Commerce board of directors. Several hundred persons are expected to be here in connection with the hearing.

The proposed line would include Lubbock and Amarillo, stretching from Big Spring to Vega. Estimated cost of the proposed railway recently was reported at \$13,000,000.

## Will Compile West Texas Census Data

Washington, Nov.—The Bureau of the Census will place a special force at work compiling the data asked by Lubbock, Big Spring, Hereford and other West Texas towns regarding the growth of that section of the State for use at the Interstate Commerce Commission's hearing on the application to construct the Texas & Pacific Northern. It is doubtful, however, if any of the material will be available when the case is called before Examiner Davis of the commission at Lubbock, Dec. 8.

The bureau has been besieged by the members of the Texas delegation in Congress, the West Texas cities and their attorneys to compile the material to be used in evidence to show the prospective future transportation needs of the area based upon past growth. The data would cover the last thirty years for thirty counties, an area as large as the State of Massachusetts. The bureau is required by the law to furnish certain information to Congress when it meets in December, to say nothing of producing general census data for the country. For this reason, Director Stewart of the Census Bureau advised all interest that the special work could not be done.

## Famous Magician at Brownfield High Tues.

Spooks, elves gnomes and spirits will range rampant one night during the large two-hour entertainment of S. S. Henry famous Artist-Magician, which is to be held in Brownfield High School Auditorium on Tuesday evening, November 18, at 8:00 P. M. under the auspices of Senior Class and Athletic Association.

Silks, water fountains, bowls of goldfish and many other things will appear and disappear in the twinkling of an eye. Countless mysterious things will happen, and the closer you watch, the less you will see. For the benefit of these youngsters who always like to "know how it is done," Mr. Henry has many tricks which he will thoroughly explain to his audience, and then all that will be necessary is for the youngsters to go home and try it for themselves. "Fairland" is always a favorite with the little girls, and a fantastic series of tricks are prepared specially for the little boys. The ancient Chinese Checker Cabinet is for the lovers of Oriental Studies, and puzzling presentation of weird psychic phenomena for those who love effects bordering upon the spiritualistic world, and "Jackie," the goat, whose strutting vanish while suspended in mid-air and in full view of everyone, will climax this wonderful presentation of magic and mystery.

The second part of this "Show of Wonders" will consist of lightning cartoons and beautifully colored chalk sketches, together with Mr. Henry's original compositions in sand, known as "Sand Paintings" and in which line of art the world has no equal. Regardless as to whether you understand or appreciate art, you will certainly enjoy Henry's art program.

Tons of apparatus are carried to bring to you this truly metropolitan production in the realm of mystery, and beautiful stage draperies, striking costumes, and special lighting effects are used in Mr. Henry's entertainment.

Popular prices will prevail, and the curtain goes up promptly at 8:00 o'clock. The entertainment is being sponsored here by the Senior Class and the Athletic Association.

## Terry County Cows Again on Honor Roll

Two Terry county cows on the official test under the direction of Prof. A. L. Darnell, State Supervisor of Testing, have honorary mention, and at least one of them stands above everything else in this section of the state at least. There two cows belong to T. L. Causeaux, of Meadow, and we give the following as the test of the Meadow cows:

Masterson's Pearl S.; milk, 1587 pounds, butter fat 78.9.

Tormentor's Fernette S., a junior two year old, 786 pounds of milk, and 48 pounds butter fat. This test was for September.

Another good record in this section was of Golden Polly's Lucinda, belonging to N. P. Tate of the Lou community, just over in Dawson county. Her record was 939 pounds milk, and 54.3 pounds butter fat. Lucinda is a four year old.

There was only one cow in the Panhandle section of Texas that stood above Pearl S's record for milk, a Holstein belonging to H. B. Hales, of Amarillo. She produced 1710 pounds of milk, but fell short of Pearl S. in butter fat, producing only 63.6 pounds.

There were 356 cows in this test in Texas, and the Terry county and other Plains cows stood well in the lead, we understand. To make the test, a three year old and under must make 40 pounds of butter fat or better during the test. Old Pearl S. lead the entire state during September, according to a communication from Roy Davis to Mr. Causeaux. Mr. Davis was formerly county agent of this county, and is wishing that we may get another one soon.

## Called Meeting of Turkey Growers Ass'n

A meeting of the Terry County Turkey Growers Association is called for the District Court Room at Brownfield on Saturday, November 22nd at 3:00 P. M. All persons who are interested in forming a turkey pool are invited to be present whether they are members of the association or not. The pool of last year was a very profitable venture and it is believed that as good results can be had this year.

Those wanting to sign the contract before that date, will find forms at J. E. Shelton's office. J. A. Johnson, President.

## All Chevrolet Cars Get Reduced Prices

Detroit, Mich.—Prices on the new Chevrolet line for 1931, as announced here today by President W. S. Knudsen, range from \$475 to \$650 as against \$495 to \$685 for the 1930 car.

Price reductions range from \$20 to as much as \$40. A comparison of old and new prices follows:

Model	Old Prices	New Prices
Roadster	\$495	\$475
Sport Roadster	515	495
Standard Coupe	565	535
5-window Coupe New Model	545	
Sport Coupe	615	575
Coach	565	545
Standard Sedan	675	635
Special Sedan	685	650

In addition to the price changes in the passenger car line, Mr. Knudsen also announced reductions in the Chevrolet commercial car line. The commercial chassis has been reduced \$10 to a new price of \$355, and the Sedan Delivery \$20 to a new price of \$575.

"Well," said the visitor to the little son of the famous motorist, "and how are you getting on at school?"

"Fine," said the little chap. "I'm now learning words of five cylinders."

—London Chronicle.

## Lucey at Capital

Capt. J. F. Lucey of Dallas, regional director of the Presidents emergency committee on employment, conferred with officials of the Department of Commerce, stressing the amount of employment building of the railroad would furnish, and the bureau was directed to tackle the job without delay. A special force is being organized to gather the desired information, but the best the bureau could promise was to have much of the material by Feb. 15.

## Fathers Rail Feud.

The building of the Texas & Pacific Northern is of importance in the Southwestern railroad situation, and marks a furtherance of the feud between the Missouri Pacific and Santa Fe system over prospective traffic from the western part of the State. Not only does the proposed line touch the Santa Fe at numerous points, but the long-time plan of the Texas & Pacific, is said to be extension of its program to a connection with its Western lines.

The fight involves also the handling of transcontinental traffic, and furthering competition of New Orleans with the Texas gulf ports. With the Texas & Pacific ending at El Paso, and through routes operated by both the Southern Pacific and Santa Fe from the West coast, and Missouri Pacific is said to realize the necessity of expansion into a new route to the gulf. It is recalled that several years

## INSTRUCTIONS NEEDED

"I never knew until I got a car," said the bishop, "that profanity was so prevalent."

"Do you hear much of it on the road?"

"Why," replied the bishop, "nearly everybody I bump into swears dreadfully."

Britain's output of coal last year was about 8,000,000 tons more than in 1925.

ago, before the Van Sweringens were interested in the Missouri Pacific, their organization regarded West Texas as furnishing the best possibilities for railroad construction.

Later: So great was the pressure brought to bear on the Census Bureau by the Texas delegation in Congress, that the Bureau has definitely agreed to have the needed data ready for the hearing at Lubbock December 8th.

## Two Big Sales Going On in Brownfield

A big sale is now going on at the Baldwin Store on the north side of the square. He had a full page in the Herald last week and followed this by a goodly number of circulars from the ad. Mr. Baldwin is a firm believer in the Herald reaching readers, for he has been here long enough to test its power to reach readers. He knows that ever Herald goes into some home and is read by the entire family in more than 900 homes in Terry and adjoining counties, many of which cannot be reached by a circular. The sale started last Friday before he got much effect from his advertising matter, but things picked up Saturday, and they report having a fine sale all this week.

The Head Dry Goods Co., also has a fine sale, which was reported in these columns last week, and will go on at least the rest of this month. They are closing out their store here, we understand. All their advertising matter was purchased from the Herald.

## About the Band and Charity Organization

The American Legion Armistice Day parade was by far the most colorful of any that has heretofore been staged in Brownfield by any organization and more people were in the line of march than in any other that we have had. But what would it have been without a "band." And one of the purposes of this article is just meant to call attention of citizens in general concerning the real importance of a band to any community and the duty of every citizen to support it in both a moral and financial manner. The High School Band is "not" being supported as it should be, as several people have withdrawn their monthly payments and the band is right on the ragged edge of disbanding for this very reason. So lets get together and see if we cannot manage to hold the organization intact in order that it may be used on just such occasions as was the case today and also the parade that was held during the County Fair. Brownfield is large enough to support a band and should not sleep on the job.

Further attention as directed to the need of a charity organization for Brownfield, as not a day passes that the chamber of commerce is not requested to assist people who appear to be in dire need, but upon account of the fact that the organization has reached its limit in caring for charity cases, we are compelled to refuse all applications and let them shift for themselves or starve. Some duplications in calls for assistance have been brought to light. One in particular being a woman who claims to be attempting to reach a certain Sanitarium, in order that her husband may be taken care of. We assisted her a few months ago, but she came in with the same tale of woe and the same recommendations a few days ago but was recognized as a professional and was turned down flat. There is other cases however that are entitled to assistance and they must meet the same fate unless a charity organization is created. What are we going to do about it?—J. E. Shelton.

## Chiropractor Now Calls Brownfield Home

Perhaps many of you have already met Dr. Joe W. Holder, chiropractor and masseur, who with his wife have located at the Wines hotel and opened up offices for the practice of his profession. He came here from Oklahoma, and liked so well that he decided to make this his permanent abode and wrote for Mrs. Holder to come.

Dr. Holder informed the Herald that he was doing a nice business here already, which was growing rapidly all the time as he became better acquainted and advertised. If in need of any work in his line, be sure to call on him.

## National Book Week To Be Observed Here

In keeping with National Book Week, November 16 to 22, and in an effort to create interest in good books the Brownfield schools will give a play at the High School Auditorium, Thursday night, November 20, at 7:30.

No charges will be made but a donation of books by standard authors suitable for high school Junior High or Primary grades will be highly appreciated. If you haven't a suitable book a gift of silver to buy books for the school library will be very acceptable.

Everyone is cordially invited to attend.

## MEXICO BUYS HEAVILY

The American-made goods shipped through the port at Laredo during September were valued at \$2,600,000. This is but one of many ports through which Mexico imports merchandise, and the figures show that, whatever may be our opinion of Mexican prosperity that country is buying heavily from other nations and especially from the United States.—Pyote Signal.

An egg was fried on the sun heated pavement in a New Jersey town last Summer.

## Big Space Buyer Likes Newspaper Advert'g

Ponca City, Okla.—Striking testimony to the effectiveness of well-directed advertising in American newspapers was given by another American industrial leader here today.

D. J. Moran, president of the Continental Oil Company, one of the nation's major petroleum producing, refining and marketing units, announced that the management of the company has just approved an advertising budget for 1931 running into seven figures.

The appropriation, which will be largely spent in newspapers, equal the largest previous advertising budget in the company's fifty-six year history—that of 1920 when the company used space in more than 1200 newspapers, in addition to farm papers, magazines and national radio network advertising. This year 1544 newspapers will carry Continental advertising.

"The management of the Continental Oil Company believe that advertising is a vitally necessary third arm of business, designed for use continuously, in good times and bad," said Mr. Morgan.

"We believe that during 1931 people will be born and die, work and play, marry and make homes, eat, sleep, ride in their motor cars—in fact, do all of the things that people normally do in the United States. If they do, they will need certain products and commodities. As far as we are concerned, the Continental Oil Company expects to tell them of the merits of its products through advertising, and thereby create the desire to use our products. The executives of this company know that our advertising will accomplish this result, and that is why advertising is with us an indispensable business function, instead of a gambling game to be indulged in when times are good, and abandoned when they are not so good."

## HOW LUBBOCK FEELS ABOUT THE T. P. PROJECT?

While considerable has been said about the 333 miles of railroad trackage the Texas and Pacific railway announces as a proposed project in extending their line from Big Spring to Vega, there seems to exist some doubt—on the part of quite a number of Lubbock citizens at least—as to the proposal being of benefit to the city of Lubbock, should the line be constructed.

Arguments heard from proponents and opponents of the T. P. plan simmer down to about the following:

Proponents contend the line will be a great addition to Lubbock as another main line railroad artery in and out of this growing distributing center. They say it will lower freight rates for all towns touched by the road.

Opponents contend the Texas and Pacific do not intend to build to Lubbock; that if they do it will be merely as a branch. They say the same of the Amarillo project.

An unbiased look upon the present aspect, from the Lubbock angle, reveals a divided citizenship—some claim they must pretend to be for the proposal in order to remain on the good side of citizens in other South Plains cities to be touched by the road. Others contend they will do nothing about helping to provide rights of way.

There is no marked degree of enthusiasm to be found in Lubbock for the project, even among members of the chamber of commerce.

It would seem that officials of the Texas and Pacific are faced with the task of "selling" Lubbock on the idea that this new line will be beneficial.—Lubbock Plains Progress.

Nearly 3,000 miles of canals are in use in this earth.

Leaders can't make Prosperity—alone. It's the people, united in opinion and purpose and courage, who determine Prosperity. They can elect it—none other.

Ballots that will be validly counted for PROSPERITY are of many kinds. Some one of them every man and woman can cast. For example:

Help a deserving man or a woman to get a little paying work—or, better, a regular job.

Spend wisely and not too timidly, and anticipate scheduled expenditures so far as is practicable.

Turn the deaf ear to false, mischievous rumors; and don't repeat them, if you do hear them.

Be willing to pay a fair price. Don't take advantage of the other man's necessity. Recognize that he has a good claim to a fair profit as you.

When a vampire that fattens on the miseries of others shows up, help to make him unpopular.

Discourage calamity howlers. Keep business moving evenly, and remember that, to the average man, his job is his particular business. When possible, reassure him against his fear of losing it.

Save, but save wisely, not in fright. Invest for the profit that sound enterprise pays and for the added profit that will come after the hysteria of pessimism has passed.—A. P. A.

Stagnation of circulation is what's the matter with agriculture and with Business. Everyone can help to get that circulation moving again. Government can't make Prosperity—alone. Bankers and other business

## UNION MAKE-UPS

There is one thing to bear in mind, you can never tell what the weather is going to do in West Texas.

Mr. Royce Christy of Big Spring, visited in his parents home, W. F. Christy a few days last week.

Misses Gene and Claudia Lewis and Rosabell Averitt, Mr. Johnnie Estill, Lowell Weaver and Ray Loe-horn visited Mr. and Mrs. C. D. Hamm Saturday evening.

Bro. Allen filled his regular appointment here Sunday and Sunday night.

There are quite a few new pupils in school this morning.

Bro. Turrentine filled his appointment here Sunday afternoon, at 3:00 o'clock.

Cleve Warren and family of O'Donnell visited J. C. Bass and family over this week-end.

Mr. Ernest Shepherd of Sunday visited in Union community Sunday. Miss Ozella Bass who has been attending high school at Brownfield is now attending school here.

In spite of the bad weather, a large crowd attended Sunday school and church Sunday morning.

## TOKIO TALKINGS

Mr. P. W. Smith and son Heywood of Sweetwater, Texas are visiting Mrs. J. Logan Green.

Mr. and Mrs. B. M. Wade and Mrs. B. Smith went to Hedley Texas Wednesday, to attend the Nazarine assembly.

Johnnie Henderson and Miss Ida Mae Stuart were in a wreck west of Plains on the highway. The car driven by Mr. Henderson ran into the rear of a truck which was stopped but had no light. Miss Stuart suffered several cuts on the face.

Mr. C. Casey and Mr. Wilkerson of Flaydada spent the day with Mr. J. C. Casey Sunday. They made the trip in an airplane. Pilot Wilkerson carried up several passengers in the afternoon. When Jim Casey landed from his trip he was shaking. By way of explanation he said that he was cold.

There has been a variety show at Tokio for two or three days. Not many seemed to attend and it is not so much that they can't but that they have learned to save now for closer times.

Quite a few of the farmers were beginning to talk, that they were up with their gathering. They might as well be up for the weather has put on the brakes for a few days.

We need dry weather to dry and open the bolls since we've had a frost.

Mr. L. C. Porter, general attorney of the T. & P. Northern was here one day last week hastening the work of gathering data for the I. C. C. hearing at Lubbock the 8th of December.

Sheriff Men Telford and Deputy Arch Fowler arrested a number of local crap shooters Armistice day. Mon says however, that he still has standing room in the jail.

Wade Headstream, manager of the Harrison-McSpadden gin at Wellman was up Wednesday, on business. He figures he is not half done ginning and that Terry will get 30,000 bales.

Southland Life Insurance Company

## Let's Elect Prosperity

PROSPERITY is up for election, running to overthrow DEPRESSION. It's for the people to decide which will be chosen. Every man and every woman is privileged to ballot—every day.

DEPRESSION has no rightful place with a hundred and twenty million people, exchanging goods and services—capable—accustomed and willing to work—more highly skilled

than other peoples—leaders in efficiency and progressiveness—backed by the vast natural resources of the United States. When we make it possible for the man who works to have a job we make it possible for him to buy food for his family and so help all business, including that of the farmer.

The rest of the world is of small importance compared with that free market of 120,000,000 people—homogeneous—of like tastes, habits and aspirations—living under the

same law—free of trade barriers. Foreign trade may be troubled by tariffs and revolutions, but at their peak our exports represented only five and a half billions of dollars of gross business in a year out of a total American income of ninety billions.

Stagnation of circulation is what's the matter with agriculture and with Business. Everyone can help to get that circulation moving again.

Government can't make Prosperity—alone. Bankers and other business

BUY NOW FOR CHRISTMAS

The slogan "Do your Christmas Shopping early" has a genuine importance this year. Usually it is merely a reminder that if you delay too long in selecting the things you intend to give at Christmas you run the risk of finding the thing you want are "out of stock." This year means that putting money into circulation now will hasten the return of "good times."

Money passes from one person to another in exchange for commodities. Everybody, of course, must decide for himself what sort of commodities, is willing to take in exchange for his money. There are some things, the value of which is beyond question, which can be bought cheaper now than for several years. There are other commodities which only a few can afford in the best of times. In urging our readers to spend their money now we do not want to be understood as advocating foolishly spending. But there are some things which everybody needs, and recognizes the need of, and if those are bought now by all who can by any possibility afford to buy anything at all, the fact that that money has been put into circulation again will hasten the day when more of us can afford to buy luxuries.

The first question that has come from President Hoover's Commission on Unemployment is the proposal by Col. Arthur Woods, as its head, that a great national campaign of repairing and painting be begun. There are few houses or other buildings that are not in need of either repairs or painting. The money spent on such things is money well invested. If everybody who has been thinking of adding a bathroom, or reshingling a roof or putting a couple of coats of fresh paint on the house, or doing any of the other necessary things which must be done sometime, would do it now, that would help a lot toward making general business better. Such a program would give immediate employment to workers in the building trades, it would mean added business for lumber and hardware merchants, and by putting more money into circulation would enable those who received it to buy more liberally from merchants in other lines.

"Buy Now," is not an invitation to reckless spending, but we believe it is sound advice to all who can spend anything at all.—State Line Tribune.

BUSINESS FAILURE SAME—  
BANK BUSINESS MORE

Austin, Texas, Nov.—Although the seasonal increase in commercial failures from September to October is 27 per cent, this year the number increased by only one, according to the Bureau of Business Research at the University of Texas. Total liabilities decreased as compared to the previous month.

Comparison with September is not an entirely accurate index, however, since defaults during that month through normally the smallest of the year were much greater this year in both number and total indebtedness than in the preceding thirty days. Total liabilities of defaulting companies during October showed approximately a normal increase over August, but the number was 47 per

cent greater. August failures were unusually small in number with high average liabilities.

Commercial failures through 1930 have frequently been out of line with normal seasonal developments. As compared to 1929, October defaults were somewhat greater in number and 50 per cent greater in total indebtedness. The ratio of listed assets to liabilities was higher in 1930, however. One bank failure brings the total for this year up to eight, compared to only two during the same period of 1929.

The average daily consumption of milk in England and Wales is less than one-third of a pint per person.

Forecasting political races is like forecasting the weather; when it happens, it's an accident.

A TIMELY BIT OF VERSE WITH REFERENCE TO THE HARD TIMES WAIL

Said the little old red rooster,  
"Gosh almighty, things are tough;  
Seems that worms are gettin' scarcer  
And I cannot find enough.  
"What's become of all those fat ones  
Is a mystery to me;  
There was plenty in that wet spell;  
But now where can they be?"

The old black hen who heard him  
Didn't grumble or complain—  
She had been thru many dry spells  
And had weathered floods of rain.  
So she flew upon the grind stone  
And gave her claws a whet  
And said "I've never seen the time  
There were no worms to get."

She chose a new and undug spot,  
The ground was hard and firm.  
The little rooster sneered, "New ground—  
That's no place for a worm."  
The little rooster spent his day,  
Through habit, in the ways  
Where fat worms had passed in  
Squads,  
Back in rainy days.

When night fall found him supperless  
He growled in accents rough,  
"I'm hungry as a fowl could be—  
Conditions sure are tough."  
He then said to the old black hen,  
"Well how are things with you?  
You are not only hungry,  
You must be tired too."  
"I rested while I looked for worms  
So I feel fairly perk;  
But how are you without worms too,  
And after all that work?"

The old black hen hopped on a perch  
And closed her eyes in sleep,  
And murmured in a drowsy tone,  
Young man hear this and weep,  
I'm full of worms and happy too,  
I have dined both long and well,  
The worms were there as always—  
But I had to scratch like hell."  
—Hunt and Peck.

C. J. McLeroy and Rev. J. E. Patterson were in Monday and paid the Herald a call. Both are prosperous farmers.

Leo Allen was in Saturday night from Tokio, where he is manager of the Tokio gin. He says we can tell the world he has ginned 900 bales, and he is ready to give figures any time we want them.

Well, the sunshine came out bright and gay Wednesday morning, much to the pleasure of everyone.

STORM WARNINGS

Mrs. Newbride—When you discovered you couldn't accept why didn't you send your regrets?  
Miss Rival—Oh, I thought you would have enough of your own before long.—Exchange.

DO'S AND DON'TS AND CHILD'S MEAL

A very real problem for many mothers is teaching the baby to eat—indeed in many homes this problem becomes a domestic tragedy repeated three times a day. Every growing child requires a well-balanced diet of meat, milk, eggs, green leafy vegetables and fruit, but how to get him to accept all of these foods is the despairing cry of many a mother.

"These simple rules presented in a bulletin from the Massachusetts Department of Mental Diseases should be learned by heart by every mother of a growing family," says Inez S. Wilson, home economist.

Teaching The Baby To Eat

Things to do:  
Let the child see that you eat what is put before you. Have meals at regular times. Make them pleasant parts of the daily program and nothing more.

Make food attractive and serve only a little at a time. Expect the child to eat it. Give him thirty minutes for his meal. If it is not eaten then take it away.

Have him understood that eating is his business.

Try new foods a little at a time and try them more than once.

Things to avoid:

Don't give him anything between meals.

Don't talk of his likes and dislikes before him.

Don't allow others to talk of their likes and dislikes.

Don't talk about the child's poor appetite.

Don't compare his appetite with other children's.

Don't let him see that you worry about his eating.

Don't feed the child when he is old enough to feed himself.

Don't coax or threaten or force him to eat.

HIS GOOD TURN

That human kindness is still abundant and sometimes manifests itself under unexpected circumstances is illustrated by a little story in a Paris Figaro:

A Paris "young man about town" being driven in a handsome closed car was halted at a street intersection to let a hearse pass. The hearse was followed only by a woman and two small children on foot. It was raining hard and she was trying to protect them with a shabby umbrella as they sorrowfully followed the father's corpse to the cemetery.

The young man stepped from his car, asked the widow and children to get in and instructed his chauffeur to take them to the cemetery and then to their home. Then he bowed to the bereaved group and hailed a taxi for his own use.  
And the Recording Angel wrote that on that day a hearse boulevardier had done a good turn.

THE TALE OF A TEN DOLLAR CHECK

One morning after arriving at the office the lady of the house phoned down like this: "Send up some groceries or there will be no meals served at this house today." So we hustled down to the first grocery and selected a bill of groceries and in payment of them gave the Grocer a check for ten dollars. As we were passing out the door, he remarked, "I have just got to get me a tire for my Ford and I am going in next door and see if I can trade this check for one." After talking with the tire man about hard times and other things he finally closed the trade leaving the check and taking away the tire. The tire dealer immediately stepped across the street and turned the check over to the radio dealer as payment on his radio. The radio dealer was stopped on the way to the cash drawer by his wife who asked for money to purchase a pair of shoes and some hose for herself as she was intending to attend a social that afternoon. The check was given her and she went in next door and supplied her wants. The shoe dealer took the check at once and walking down the street bought two gallons of anti-freeze for his automobiles. The garage man walked across the street and traded a coal dealer for some coal. The coal dealer who also handled produce in turn paid the check out for

a coop of chickens, and the man with the chickens took the check to the lumber yard and traded it for some shingles to repair the roof on his house. The lumber yard man came over to the printing shop and ordered a supply of letter heads and envelopes and paid for them with same check. The printer turned the check over and from the endorsements on the back saw where all the check had been and saw wherein the check had done better than \$100.00 worth of business in a few short hours, and then he happened to think the check was cold, but it was back in his hands, no harm had been done, and he wondered who if anyone had lost on the deal.—Exchange.

PULL BIG FIGHT AT PUBLIC DANCE

A big fight in which several persons became involved was staged on the floor of the building in which a public dance was being held on the west side of the square here last Thursday night. Several complaints have been filed against alleged combatants and some of them have already paid fines.

Little blame attaches possibly to some of those involved, since the difficulty was apparently forced upon them. Some of the parties involved lived in other places than Tahoka. It is said that some of them were apparently under the influence

of liquor. Quite a disturbance was created at the time and officers had to be called in to quell the fray.—Tahoka News.

A pharmacist is not necessarily good as a farm assistant.

## Relief From Curse Of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store, Alexander Drug Co.

**Non-skid Power--Permanence  
—A Revelation!**

**I**N THIS fast-moving age, no single feature of tire service is more important than absolute non-skid safety. Guarantees that mean running out much of the promised mileage on smooth rubber are poor safety insurance.

**I**n the Dual-Balloon, General introduced for the first time greater mileage coupled with greater permanence of non-skid. Its powerful tread—the slowest-wearing ever developed—does away with the hazard of running on "bald-headed" tires. It guarantees more than big mileage—safer, surer mileage season after season.

*{With tire prices still the lowest in history why worry along with anything less than the General?}*

**Yoakum Co. Singing  
Convention 4th Sun.**

J. W. Raley, vice-president of the Yoakum County Singing Convention was in to see us the past week, and asked for some publicity concerning their next convention, which we gladly supply. It will be held at Plains, in the high school auditorium on the 4th Sunday in this month, which is the 23rd.

Mr. Raley says they are looking for a good crowd on that date and every endeavor will be made to take care of all who come, as dinner will be furnished to all. He and the president are now in correspondence with a number of singing organizations in nearby counties to be on hand on that date and help out at entertaining the crowds.

Oscar Adams who has been helping his brother Will, with the Texas Company station at Hobbs, dropped a 56 gallon barrel of oil on his leg last week, and is now here on crutches.

John Dumas handed in the coin this week to keep his Herald headed toward his hearthstone.

The height standard of infantry soldiers is now five feet two inches.

**Finds Relief; Gives  
Konjola all the Credit**

San Antonio Man Searched For Five years For Relief—New Medicine Does The Work

MR. J. B. WICKS

"I was troubled with stomach ailments for five years," said Mr. J. B. Wicks, 913 Avenue B., San Antonio. "Nervousness was also an ailment that worried me. I took a lot of medicines over this period of time but Konjola was the only one to help. I was very careful what I ate because of gas pains. Back pains, too, were troublesome. I did not always sleep well at night and was losing my appetite. I lost weight steadily.

"My appetite began to improve almost from the beginning of the Konjola treatment. I ate heartily without the dreaded gas pains and back pains were leaving. My nervous condition, also, was greatly relieved. Now after a two weeks treatment, I feel better than I have in years. I have gained three pounds in the last eight days and I give Konjola all the credit."

And so it goes—the same glad story whenever this great medicine is given a chance to make good. Konjola is recommended for ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis and nervousness.

Konjola is sold in Brownfield, Texas at the Alexander Drug Co. and by all the best druggists in all towns throughout this entire section.

**West Texas Rallies to  
T. & P. Northern**

West Texans in that section to be traversed by the projected Texas and Pacific Northern from Big Spring to Amarillo and Vega are rallying to the support of the road's application with all of the energy and co-operative spirit that have so long characterized West Texas.

Already the list of intervenors filed with the State Railroad Commission exceeds 50 and with the exception of the few railroads, who naturally are opposing it for fear that its construction may result in loss of tonnage to them, all wish to be heard in support of its application. The list not only includes the Chambers of Commerce of the towns through which the road will pass, the leading landowners and citizens of the counties to be served, but towns and cities that will benefit only indirectly.

The meeting held at Amarillo Friday night is indicative of the support the projected road has aroused and the enthusiasm with which these West Texans have got behind it. More than 500 representative citizens from 13 counties attended that meeting, cited the benefits that would accrue to their individual localities and West Texas generally through its being built and pledged their support. And these West Texans, we believe, will get results, for they will be able to show the marvelous strides their section has made in spite of inadequate transportation; the need that exists for the line; the great agricultural development that is certain to follow its construction and that rather than injuring existing lines the new road, for the most part will open to outside markets an entirely new and wonderfully rich country. Every sound argument is upon their side and since the Texas and Pacific Railroad is ready to build the line and will start construction immediately upon the granting of the permit by the Interstate Commerce Commission, the necessary hearings and investigations should be speeded up as much as possible.

The project answers both of the Interstate Commission's requirements of convenience and necessity. The road is a necessity to a great country and with the Government, the States and the municipalities endeavoring to relieve unemployment and speed business there is no time when the spending of \$13,000,000 would be more "convenient."—Star Telegram.

**CHAIN GANG SYSTEM  
FAVORED BY OFFICERS**

Sweetwater, Texas.—West Texas peace officers in session here Thursday agreed that the only practicable means of stemming the tide of hoboes would be widespread adoption of the chain gang system. They also agreed to urge motorists to "let hitchhikers walk."

This was the unanimous decision of fifty representatives of more than twenty towns in an area between Ranger and El Paso and from Plainview to Coleman.

Under the plan approved, all "way travelers" would be arrested on vagrancy complaints and forced to work out fines. Officers said this system would be the only means of protecting their communities without excessive expense. Only the larger towns would be asked to put chain gangs to work and smaller towns would continue to hurry transients through the larger points.

The merchants here all did a good business Monday. Looked almost like Saturday.

**PIONEER TERRYITE PASSES**

The entire county as well as Dawson and Lynn counties bordering the Lou and Pride communities in the southeast part of this county, among the old timers especially, were grieved to learn of the passing of J. W. French last Saturday afternoon about 5 o'clock, although his passing had been expected for some time. About a year ago he was stricken with paralysis, and has been growing worse since. Burial was had in the Pride cemetery following services conducted by Rev. J. B. Vinson, where some of the relatives already been laid to rest. Hundreds of old friends from all over the county attended.

Mr. French was about 73 years of age, and was always possessed of that pioneering spirit, and helped to settle many new places in west Texas, but to him Terry was his last frontier. He was a noble citizen, a kind and affectionate husband and father and a true friend to everybody who wished his friendship. He leaves a wife, three sons and a daughter to mourn his passing. We understand that he belonged to the Presbyterian church.

**Lo, the Poor Indian**

The whites stole the land of the Indian, the colleges his yell, the flapper his paint, but three Indian girls were prize winners in a 4-H club contest at the Colorado state fair at Pueblo last week.

The girls, Helen Eyetoo, 18; Jeanette Aheps, 15; Fannie Bega, 13, won many prizes for their skill in making clothing of the modern patterns. The girls are of the Ute Mountain Indian school at Towaoc on the reservation near Cortez, Colorado.—Clarendon Leader.

W. E. Henson announced that he was good and well during the two weeks pretty weather for ginning following so much bad weather in October. We hope he had no relapse over this week-end rains.

Among the world's saddest, best known, expressions is "returned; insufficient funds."

**TEXAS TO HAVE BUILDING AT WORLD'S FAIR**

In addition to Texas, nine states announced this week that plans for their representation at the Chicago World's Fair with state buildings and extensive exhibits were rapidly maturing. These include Louisiana, Iowa, Oklahoma, Illinois, Indiana, Rhode Island, Minnesota, Wisconsin and Ohio.

The Texas Worlds Fair commission appointed by the Governor to insure Texas participation in the Fair, will hold a special meeting at Austin November 7th., when definite plans for exhibits and for financing will be made.

Other great national Fairs in which has been represented include the New Orleans Exposition in 1884;

Columbia World's Fair at Chicago, 1893; Transmississippi Exposition at Omaha, 1898; and World's Fair at St. Louis in 1904. The Texas exhibit at New Orleans was small but very creditable. Unfortunately the state exhibit at the first World's Fair at Chicago in 1893 was never completed and was disappointing. At Omaha in 1898, however, the State had a wonderful exhibit and won first prize for the best state display. Texas had a fine building at St. Louis in 1904. John H. Kirby of Houston was president of the state commission and L. J. Wortham general manager.

There are nearly 1,000 agricultural laborers employed in London.

Time is still money, provided it is not idle time.

### REGULAR PRISCILLA CLUB MEETING

The Priscilla club met Wednesday afternoon in regular meeting with Mrs. Walter Gracey. After a pleasant afternoon of needle work, hot tea and cookies were served to Mesdames McClish, Keller, S. H. Holgate, Cap Jones, Kendrick, Guthrie Cook and Falk.

### CONTRACT BRIDGE CLUB MET WITH MRS. DUBOIS

Mrs. DuBois was hostess Friday afternoon to the Contract Bridge club. Four games of bridge were played, after which the hostess served creamed chicken in patty shells, buttered sandwiches, tomato salad, pickled peach, individual nut caramel pie with marshmallow and hot tea. Yellow chrysanthemums were given as plate favors.

High score was made by Mrs. Bowers and next high by Mrs. Cobb. The first prize was a pretty foot stool in green velvet, the second was a beautiful silk handkerchief.

### KILL-CARE CLUB PARTY AT MRS. LEWIS

Chrysanthemums in red, white and yellow made a pretty autumn motif at the home of Mrs. Dalton Lewis, Wednesday afternoon when she entertained the Kill-Care club.

guest prize which was a three-cornered cut-glass bowl in rose design. Mrs. Ray Brownfield won the club prize which was an oblong cut-glass bowl in rose design. Mrs. Collins won the second prize for club members which was a water bottle filled with bath salts.

The guests included: Mesdames Bailey, Collins, Fred Smith, Dick Brownfield, W. C. Smith, Ray Brownfield, Wingerd, Claude Hudgens, McBurnett, McDuffie, H. M. Pyeatt, Mon Telford, Jack Stricklin, Clyde Briley, Endersen and DuBois. Meat sandwiches, vegetable salad, individual fresh fruit pit with whipped cream and a cherry, olives and hot tea were served.

### MAID AND MATRONS CLUB HAVE ARMISTICE PROGRAM

The Maids and Matrons club observed an Armistice Day program, Thursday at the home of Mrs. Walter Gracey with Mrs. Gracey and Miss Olga Fitzgerald hostesses.

### PHETA BETA CLUB ENTERTAINED WITH PATRIOTIC PARTY

Miss Ina Patterson entertained the Pheta Beta Bridge club Wednesday evening at the home of Mrs. Flem McSpadden. The guest prize, a hand painted vase, was given to Mrs. Homer Nelson and the club prize, a hand painted sugar and creamer, was given to Miss Fay Martin.

Pear salad, wafers, stuffed olives, ice cream, cake and coffee were served to Misses Norma Hulme, O'Brien, Gertrude Rasco, Polly Taylor,

Pippin and Martin and Mesdames Homer Nelson, Dalton Lewis, Ralph Carter, Flem McSpadden, Arthur Sawyer and Paul Lawlis.

A red, white and blue color scheme was prettily carried out in the tallies, nut cups, score pads and linen.

### JUBILEE AUXILIARY

The Methodist Jubilee Auxiliary met Thursday afternoon at the church for a study lesson in the Mission book. Mrs. Knight led the lesson. The ladies having parts on the program were Mrs. J. C. Hunter, Mrs. Clyde Coleman and Mrs. V. A. Bynum. A short business meeting followed after which Mrs. Boone Hunter closed with prayer.

The members present were Mesdames J. C. Junter, Coleman, V. A. Bynum, Boone Hunter, Finney, McClish, Heath, Rickels, Loyd Bennett, and Leo Holmes.

### CHURCH OF CHRIST BIBLE CLASS

Mrs. L. F. Hudgens led the study on the "Definition and mother Church" Thursday afternoon when the Bible class met at the church.

The next lesson will be led by Mrs. Jack Johnson.

The members present were Mesdames Hudgens, Jackson, Travis, Roy Collier, Dewey Murphy, Haddock, Ditto, Drennon, Graves, Williamson, Legg and Miss Johnson.

### BAPTIST WOMEN'S MISSIONARY UNION

Mrs. J. C. Bond was hostess to Circle one of the Baptist Women's Missionary Union Monday afternoon. Mrs. Bond led the lesson on Acts 19, 20 and 21. Sandwiches, fruit salad, cake and hot chocolate were served to Mesdames Alexander, W. W. Price, George Neill, Collins and Oral Adams.

### WEEK OF PRAYER OBSERVED BY METHODIST LADIES

Both of the ladies' Societies of the Methodist church, the Missionary Society and the Jubilee Auxiliary, are observing this week of prayer.

Monday's program was in charge of Mrs. Terry Nobles, other ladies on the program were Mrs. Turrentine, Mrs. Cleve Williams, Mrs. Lloyd Bennett and Mrs. McDaniels. The topic theme discussed was "Home Missions." A business meeting followed in which the next study book, "The Turn Toward Peace," was decided upon. An all day meeting for study was planned for the near future. A financial report for the year's work was given.

The ladies present for Monday's program were Mesdames Lloyd Bennett, Turrentine, Cleve Williams, McDaniels, Coleman, Cecil Smith, H. O. Longbrake, Linville, Arnett Bynum, Nobles, Webber, B. L. Thompson, Moore, Wheeler, Heath, Leo Holmes, J. C. Hunter, Boone Hunter and Downing.

Mrs. Clyde Coleman was in charge of Thursday's program with Mrs. Perkins, Mrs. Wheeler, Mrs. Longbrake and Mrs. Roy Herod taking parts. The subject was "Foreign Missions."

Mrs. W. B. Downing will be in charge of Sunday's program which will be given at eleven instead of the regular service as the Reverend Turrentine has gone to Conference. The program is as follows: Congregational singing; prayer, Barbara Henson; Response reading, Mrs. V. A. Bynum; Special song; Practical value of prayer for us to-day, Mrs. Longbrake and Mrs. Arnett Bynum; round table discussion led by Mrs. Turrentine; a word about Eliza Bowman's School at Ciesnegas, Cuba, Mrs. Webber; Congregational song. Playlet with Mrs. Heath in charge; benediction.

### CHURCH OF CHRIST

Services last Lord's day was well attended considering the damp weather. We are gratified at the number of visitors present of late.

Next Lord's day morning the theme will be "How To Make Friends." The evening sermons are of an evangelistic nature.

We are delighted at the splendid response the young people are giving in their meeting, which will be at 6 P. M. instead of 7.

A welcome awaits you at the Friendly church.

R. P. Drennon

### HARD LUCK STORIES

A lady recently made the remark that she was going to quit trading at a certain store in Turkey for the reason that every time she went in there they were fussing and fuming, talking about hard times.

Nuff sed. Are you guilty? To say the least, we do not believe that it is an attraction to any business and conditions of the country. We have never seen people flock to any store to hear the merchants' hard luck stories. Have you? Of course business is not what any of us want it to be, but does howling our heads off to everybody help any?—Turkey Enterprise.

The rains the first of the week put another crimp into cotton gathering, but maybe it will have some effect on the price.

### WHY NOT A 50,000,000 BALE CROP OF COTTON

For twenty years or more the leaders of the south have been advocating a reduction in the cotton acreage in an effort to reduce cotton production to where the grower would have a corner on the crop and be able to realize a price for the same that would net him a profit. Evidently this move has been a mistake as it had no apparent result.

After thinking the matter over from every angle we have decided that the thing to do, is just do opposite of what has been attempted. Instead of reducing the acreage, the acreage should be increased to the limit. We are from this date on going to advocate the planting of every available acre in the Southland to cotton.

We want to see the south make a 50,000,000 bale crop.

To accomplish this it will be necessary to eliminate all feed crops all garden spaces, all pasturage, all small grain crops and plant every acre to cotton. But when we think the matter over earnestly, we must conclude that its the only thing to do. By planting every every available foot of land in the South to cotton it will be easy to make a fifty million bale crop or enough to last the world five years. After doing this we could stop and do nothing for the five years but fish and frolic and visit our wife's relations providing they were not visiting us. Then think of the glory and honor that would be ours should we make such a crop! All records would be broken. The world would be stupefied. We would get millions of dollars worth of free publicity. The entire world would sit up and take notice of the South.

We could sell cotton so cheap that foreign countries that are attempting to grow cotton would be forced out of the business. The only thing to do it to grow if possible, more cotton than it will take to fully supply the worlds demand and make the price as low as none would dare to attempt to compete with us.

Some will ask "What would we do for something to eat?" That's easy, eat cotton, wear cotton feed cotton, ride on cotton sleep on cotton drink cotton, pay our taxes with cotton, pay the doctor with cotton the teacher, the preacher and everything and all things with cotton. Lets start now and everybody resolve and resolve to plant every acre of land of the South from the Rocky Mountains to the Atlantic ocean and from the Rio Grande to the Door of the White House. Let our fighting slogan be "Fifty Million Bales for the year of 1931."—Jayton Chronicle.

### MISS WATSON MARRIES IN AMARILLO

Word has been received here of the marriage of Miss Ona Maude Watson formerly of Lubbock, and Alfred Nelson of Amarillo which took place last Sunday afternoon at the home of Mr. and Mrs. J. W. Witt in Amarillo. H. A. Shaw assistant pastor of the First Christian church, officiated with the ring ceremony.

Mrs. Nelson is the daughter of W. T. Watson, of Plainview. She is a graduate of St. Mary's academy.

The couple is to live in Amarillo where the groom is employed in the general manager's office of the Santa Fe.—Lubbock Avalanche.

### GASOLINE TRUCKS CONVEY WATER TO THIRSTY FARMERS

Bowling Green, Ky.—The drought of 1930 long will be remembered here as the time when people got their water supply from gasoline tank trucks.

Residents of the community had a plentiful supply from the municipal system, but people who lived in the surrounding country soon began to suffer. Local managers of several oil companies cleaned the gasoline from the tanks of their motor trucks, loaded them with fresh water and drove out to relieve the thirsty population. The costs were paid by the companies.

"This is another evidence of the long since exploded idea that was so prevalent so many years ago that corporations were heartless," the Bowling Green TIMES commented. "Certainly the action of these large oil companies has been a wonderful feature to bringing relief to suffering humanity, and this is only one of the many instances that such corporations and companies are managed by men with big hearts."

### Mules Wanted!

If you want to sell your Mules telephone, write or come to see me at Tahoka, Texas.

DAN LaROE

### WHO "SWALLOWED THE WHALE"

R. H. Ratliff, Colorado attorney, was arguing a case before the jury in 32nd district court here Tuesday afternoon. The attorney suddenly became impelled with an urge for solemnity and carried his auditors back to considerable examples set by some of the old Bible characters.

"Consider the fate of Job, the man who was ordered to journey to Ninevah and there preach," the attorney led out in an exultation of oratory. "But Job failed to comply with that commission and soon found himself on the menu of a whale."

Later, Ratliff admitted that he evidently got his "wires crossed" when a minister who happened to be on that jury suggested that it was Jonah and not Job who was swallowed by the whale.—Colorado Record.

### REQUEST FOR PERFORMANCE

Singer: "And for Bonnie Annie Laurie I'd lay me down and die!" Listener (rising): "Is Miss Laurie in the audience?"

L. L. Cobb, of Lubbock, stopped over a few minutes Monday on his way to his old home at Seminole, where he had business.

The PTA play last week was fine and well attended. Thursday night the big auditorium was well filled, and perhaps half filled Friday night.

This is to certify that we have made an audit of the receipts and disbursements of the Brownfield Independent School District covering the period September 1, 1926 up to and including August 31, 1930, and that the above statement is true and correct.

Respectfully submitted,  
**THE AMERICAN AUDIT CO.**  
By W. A. CRAWFORD.

The Texas Cotton Co-operative Association passed the half million mark last week, and lead all other states. The 4500 mark was passed in this county Monday.

As an advertising feature, the Clyde Lewis Dry Goods Co., is going to have some person's name in their

ad each week, and the lucky person whose name appears in their ad will receive a useful gift by calling on them or phoning by noon the following Monday. Watch for their announcement ad.

Dr. T. P. Miles is here from Waco looking after his ranch interests.

**Harley Sadler Once Aimed at Law Practice**

By Archibald

Harley Sadler, the man who gets more laughs in one night than Will Rogers does in a week, is as interesting off stage as he is in the make-up of "Dad" or "Toby."

The famous showman is known all over West Texas, since his theatre is a "West Texas Institution." Sadler's company touches nearly every city west of Fort Worth each year. He is always as welcome everywhere he goes as the rains that fall before spring.

His cast is composed of union actors entirely who have played and have ability to appear in Metropolitan productions. Some of his actors have been with him for six to eleven years. They appear in three-act comedies every night except Sunday in some West Texas city in one of the finest and largest tent theatres ever made for a traveling company similar to Harley's.

**Life Is Interesting**

Sadler's life history is an interesting one. His first jaunt into the entertainment world was when he joined a carnival in 1909 as a musician when it passed through his home in Stamford, Texas. From that job he jumped to advertising a play that was traveling from the East to the Pacific coast. The play was "Girl of the Golden West." He traveled with that play for two seasons and saw a good portion of the Western states.

He returned home after this jaunt and began studying law, preparatory to following that as a life vocation.

"I found law was dry and not sensational enough," he said.

Some of the men in his class of law are known all over Texas. Among them was District Judge Milburn Long of Abilene.

From school he re-entered the dramatic field in all phases, including comedies, vaudeville and drama.

**Has One Goal**

"I have always had one goal. I wanted to have a show in West Texas that would gain the patronage and good will of the section," Harley added. This writer believes he has accomplished that much, if not more.

Sadler has had big offers in other fields but he has declined to stay with his "Toby" plays. He is a West Texas booster and says he wouldn't live anywhere else. He ought to know, since he has been in 35 states.

"Even though I have had flattering offers to go into some other position, I wanted to stick with my theatre in West Texas just to give the people what they want. To give them something that meets with West Texans' approval is my chief happiness."

The first venture he made into owning a company was in 1919 when he and a druggist, L. D. Brunk of Nowata, Okla., were partners in a show called "Brunk's Comedians." They covered territory that Harley's show does now.

**Named Changed**

In 1921 the name was changed to Harley Sadler's Own Company and has been that for nine years. He has just completed his tenth annual week's showing in Lamesa.

Harley is respected in his profession. He is past president of the Tent Theatre Owners association of America, which has a membership of some 150 companies, and he is now active vice-president of the Actors Equity association. Harley owns property in Lamesa and in several West Texas counties.

"Occasionally I have been accused of having several million dollars up my sleeve that I have supposed to have made from my theatre. That's not so. Most of my money has been used for charitable causes. Several business ventures I have made haven't proven so successful, either. Expenses of a large company like mine are unusually heavy, also."

Some of the actors that have been with him from six to eleven years include Ethel Snow, A. C. Hefner, Billie Sadler, Charlie Myers, Bart Couch, Cleo Neslar, Bud Narvin Paul Thardo and Ed Thardo.

**Equipment Increases**

"The equipment we have now is four times larger than it was in 1919. Out tent, seats and stage furniture are moved in two railroad cars and three auto trucks with trailers. We have a company of forty-four people. A large percentage of them take part in our plays. Heating equipment for our tent is modern and effective, and our stage lights and lighting equipment are as good as you will find in any city theatre."

Clean plays and vaudeville are Harley's products.

"Ministers, newspapermen and traveling men are responsible for a great deal of the good will our theatre has", Sadler said.

Sadler experiences a lot of effort and labor in securing new programs each year. He presents only plays that appeals to the masses, he said.  
Member of WTCC  
Harley is a Rotarian and his company is a member of the West Texas Chamber of Commerce. His home is in Sweetwater. His little daughter Gloria, is attending school there. Gloria lives with his wife's mother.

### DENTISTS EXPLODES THEORIES ABOUT TEETH

Twelve current fallacies concerning the teeth are listed in Hygiene by Dr. W. M. Gardner, a dentist. Dentists have found by experience and experimentation that the following common beliefs are not true:

1. That dental work should not be done during pregnancy.
2. That every child costs the mother a tooth.
3. That if there is not enough calcium to form the bones and teeth of the unborn child, the teeth of the mother are decalcified to make up the deficiency.
4. That diet during pregnancy can have little to do with the teeth of the child, because it does not get teeth until it is six months old.
5. That baby teeth need no attention, because they will be lost anyway.
6. That baby teeth have very short roots.
7. That the tongue must be kept out of newly-extracted baby teeth sockets so that the permanent teeth will not come in "crooked."
8. That the front teeth are the first permanent teeth to erupt.
9. That thumb-sucking is a bad habit, but that there is really no harm in it.
10. That the habit of thumb-sucking will correct itself as the child grows older.
11. That some teeth are so soft that they will not hold fillings.
12. That the wisdom teeth decay readily because it is softer than the other teeth.

### MANY RADIO SETS

Every other family in the United States has a radio, according to an estimate made by the Department of Commerce. The total number of sets in use July the first was placed at 13,478,600, whereas the number of families is supposed to be about 25,500,000.

The largest number in New York, about 1,750,000, with California coming next with 1,470,000. Illinois, with a few more than a million, and Pennsylvania, with some less than a million, follow. The number of radios varies closely with the number of people, although not exactly in proportion.

In all probability, the number of families having radio sets is increasing, which shows the importance of the proper control over broadcasting stations. These are limited in number by the wave lengths available and the openings are being rapidly acquired by private individuals or companies. It would probably be in the interest of the people for the Federal Government and some of the state governments to maintain such broadcasting stations.

### TUBERCULOSIS CHRISTMAS SEALS IS RIGHT NAME

Austin, Texas—The phrase "Red Cross Seals" is a misnomer, according to a joint statement issued by the National Tuberculosis Association and the American Red Cross, a copy of which has been received by the Texas Tuberculosis Association.

The proper term is Tuberculosis Christmas Seals. The seal is no longer sold by the Red Cross and has not had any connection with the Red Cross since 1919. It is manufactured by the National Tuberculosis Association and distributed by the state association and their affiliated chairmen.

The proceed of the sale in Texas are used to carry on the health work of the tuberculosis societies in this state. There have been sold each year since 1911, in Texas, The Texas Tuberculosis Association, which was formerly known as the Texas Public Health Association, is planning an increased sale of the little seals this year in order that they can adequately support an increased program of activity.

The Red Cross raises its money through the annual roll call and through special contributions in time of disaster. By agreement between its national headquarters and the National Tuberculosis Association the Roll Call is limited to the time between Armistice Day and Thanksgiving and the public sale of Tuberculosis Christmas Seals begins the day after Thanksgiving. At that time thirty two million seals will be offered to the citizens of Texas and it is expected that they will find a ready sale.

### MOST UNPOPULAR TARIFF EVER ENACTED

The tariff bill enacted by the last Congress is being attacked from every point of the compass except the East. Even some industries in the East are feeling the effects of retaliatory measures enacted by foreign Governments, and as time goes on, it is possible that those who hoped to profit most will learn that the bill which they forced through Congress has boomerang qualities. The present tariff schedule is easily the most unpopular measure of its kind ever enacted.

According to H. E. Miles, chairman of the Fair Tariff League, five billion dollars have been given six States at the expense of the West and the South. As a matter of fact, not only those engaged in farming, but all those are dependent upon agriculture either directly or indirectly, are suffering because of the tariff's inequalities.

Protecting American labor is the excuse for a high tariff against foreign goods. There was a time in the early history of this country when that argument had some foundation. Foreign manufacturers were then even more inefficient and experienced than our own. Today, when a tariff advocate tells you that American labor receives five times the amount of compensation of the laborer in Europe, he neglects to tell you that in our system of mass production, an American will turn out five times the amount of products. He also avoids making other comparisons, such as the difference in the difference in the amount of taxes paid and other incidentals which add to the cost of production.

No one objects to a tariff schedule for the protection of American labor and American ideals, but the American people are beginning to understand that the present rates of duty are increasing the cost of living beyond all reason. Not only is it the basic reason for depression in agriculture, but the greed displayed by industry is slowing down business, which in turn creates unemployment and reduces the buying power of the people. Canada is preparing to enact a tariff bill which will favor the various units of the British Empire, taking a business valued at \$600,000,000 from the United States. European powers as well as South American countries are enacting tariff laws with favored Nation clauses, and the United States is not in that list. It may end in our industries having to do what Chairman Legge has advised the wheat farmers to do—produce for domestic consumption only. Farm and Ranch.

### MISTAKES

Mistakes are so many and so varied that it may be wise for us to profit by some "Mistakes of a Life" that we found not long ago in an old scrap book. Here they are:

- It is a great mistake to set up your own standard of right and wrong and judge people accordingly.
- It is a mistake to measure the enjoyment of others by your own.
- It is a mistake to expect conformity of opinion in the world.
- It is a mistake to yield to trifles of no consequence.
- It is a mistake to worry ourselves and others with that which cannot be remedied.
- It is a mistake not to make allowance for the infirmities of others, to consider everything impossible that we cannot perform, to believe only what our own finite minds can grasp, or to expect to be able to understand everything.—Selected.

### FORT WORTH PROFESSOR SEES MEXICO AS HOBO

Fort Worth, Oct.—Attired as a hobo, Prof. W. J. Hammond of the history department of Texas Christian University, tramps in Old Mexico during the summers in order to gather material for a course in "History of Our Southern Borderlands."

On a recent tramp through the hill country northern Mexico, Prof. Hammond and an American traveling companion made a special trip into territory that was said to be infested with hostile bandits. The professor wanted to test his contention that Mexico is now a safe place in which to travel.

"We did not have to look long for the bandits," Prof. Hammond relates. "In fact, they saw us first. However, instead of being shot at, we were given food and sent on our way by the 'bad men.' We merely sang some of their folks songs," the professor explained.

"I believe that President Rubio is doing much to ward the betterment of the Mexican people," Prof. Hammond says. The casual visitor to Mexico thinks, from looking at some of the unfinished and abandoned public buildings, that progress is not being made. But many of these projects were begun by other presidents, and were designed more for ornamentation than for practical use. President Rubio is devoting much time to the rebuilding of Mexican commerce by improving roads and canals."

### SLANDERING MOTHERHOOD

Checkedmat at every turn in their campaign to establish any startling immortality in modern youth, the habitual alarmists and professional reformers have turned their slanderous artillery upon modern motherhood. If they honestly interpret their personal observations, it must be admitted that these "wolf-cryers" travel in a fast, wild crowd; but most of us object when they seek to impute similar immortality to the young mothers of our own acquaintance. This attitude was aptly expressed by Frank Williford, Jr., professor in Harris county, when in a recent speech, he said:

"The mother of your children and the mother of my children wear becomingly and worthily that name which was hallowed by your mother and mine." It is to be regretted that the sacred institution of motherhood is not secure against the vile implications of these self-appointed guardians of the public morals.—Siegler Signal.

### NO HARM DONE

Two Irishmen, who had not seen each other for a long time, met at a fair.

O'Brien—"Sure, it's married I am, and I have got a fine healthy boy, which the neighbors say is the very picture of me."

Malone—"Och! Well, what's the harm as long as the child is healthy?"

### Reverend Strength

A woman entered a grocer's shop and asked for some good cheese. The grocer showed her some which did not please her. She wanted some particularly "lively" cheese. He showed her the remainder of his stock, but she wasn't satisfied. She wanted it still more "lively."

At last the grocer, losing patience, called sarcastically to his assistant: "John, fetch number seven and let it walk in."

In the Viedetta salt mines at Genow there are altars, shrines and statues made of salt.

The insured man is sure of his family's affectionate regard.

## "I'm marrying for MONEY... not for love"

—but on her wedding day...

FROM childhood she had been brought up to be a marriage maker. All her actions had been planned to please men. Love had been forced out of her life.

And now it was her wedding day. She thought of Bob, so sweet to her husband. "I have managed well," she mused. She had allowed Alan, of course. But Alan was poor... while Bob would give her everything...

The door opened suddenly and her father stood before her. She saw at once that something had happened.

"What is wrong?" she cried. Without a word he handed her a letter, and as she read it her cheeks

pinked. For a thing like this to happen — at the very hour of her wedding.

That was the beginning of the end! "What were you doing?" she asked. "I was in the marriage market," she said. "I was in the marriage market, now on sale. It is the only way of a girl who has been forced to the marriage market. Don't you see?"
