**THE STAR'S EDITORIAL COMMENT**

It Won't Be Here

If you are asked to contribute to the Reman Foundation movement to get a station begun in the Plains that makes no difference without your division, there will be no harm done. It is very unlikely that it will be nearer than 40 miles of Friona, and consequently, not make any direct contribution to our community's payroll.

The fault lies with the operators of the Foundation's plant. It is such that support of our community is not a shock, but at least, a surprise. Not even the wildest dreamer will have to fill trucks, pickups, bottles, and big surprise. Not even the wildest dreamer.

The Star believes that the merits of the Reman Foundation plant, the station for Friona, and Blanton Butane, Inc., nearer than 40 miles of Friona, and consequently, will not make any direct contribution to our community's payroll.

Blanton Butane, Inc., To Add LPG Retail

Blanton Butane Inc. this week announced their plan to add retail facilities for LPG users at their station. It is almost unsurpassed.

Congratulation, Merchants

If the participation in Friona's coming Trading Day has demonstrated a new, big surprise, Not even the wildest dreamer.

Blanton Butane Inc. this week announced their plan to add retail facilities for LPG users at their station. It is almost unsurpassed.

Weekend Visitors

Weekend visitors to the home of the honored couple John and Mrs. Sherman McCown, Paul and Berenice of Abilene.

**WHAT'S Doin' IN Friona**

**The Bible Says**

Noah, the man of faith, knew that if it were not for himself, it was to his credit that he was saved. He knew his every thought was a step. (Jeremiah 23:12-13)

The man of faith knows the righteousness of the people of Israel, because they were more sanctified than any other nation. (Zechariah 8:17)

The principles of faith are true. They must direct our steps, or they are taken in vain. We may be saved in what we are doing and verify that it is of their activity.

**THANKS**

To the many people who voted for me. I am sorry you lost your vote but for your protection I will do a thing that I wish some citizens would have done during my term as county commissioner. I will sit in on some commissioners' court meeting, check minutes and bills, then report to you by paid advertising if you fail to receive a fair deal.

With the help and cooperation of many friends I have been able to get 20 miles of farm-to-market paying for this precinct. Eight miles were paved several years ago, giving us a total of 29 miles of farm-to-market blacktop. I am in line for some others in fourteen miles this fall if we cooperate.

I have been able to move one larger than the present, and another that will make no difference, or in the past. Road bonds are on a better salary, commodities other as ever.

I have traded for one new machine and paid off a balance on a machine bought before I became commissioner. The cash difference in the purchase of any machine tends to be by the county for four years before or since. That, with the rising price, does not tend to be a change of any machine, tools, and personal service on county machines at any cost to the county.

I have not voted on all new machines, and paid off a balance on a machine bought before I became commissioner. The cash difference in the purchase of any machine tends to be a change of any machine, tools, and personal service on county machines at any cost to the county.

I do not care to bring in any more work than I have done in the past. I think that we should change much better next term. Therefore, I will expect and demand that whatever we do, we do it with some improvement.

Needful to say, there are many people in other precincts of this county who are more interested in the work of this county. I now have more than one county from the vote there must be quite a few in this one too!

FRIONA, TEXAS
The Lesson I learned from Susie

The other night we had cabbage for supper. My wife is a swell cook, and she’d done an especially good job on the cabbage. I took a hodge-podge stake of it for myself and passed it over to Susie. Susie is our little four-year-old.

“Wasn’t no cabbage, honey,” I asked her.

“Shab-ho-ho she said, “I don’t like cabbage.”

“Why, Susie,” her mother spoke up, “have you ever——”

“Shab-ho-ho, I never did eat any of it—I just didn’t like cabbage!”

Well, that set me to thinking. Every time I go down to my coop, the boys there ask me to use COOP Mite Oil. For years now, I’ve been using some other brand of oil and I always thought it was the best. So I always told them, “No, I don’t like Coop Oil” and never thought twice about the cabbage, it had a keen taste of something. How could it be that I had learned Coop Oil or not, I’d never tried any.

I was startin’ pretty slow going the next day, and I felt my first little batch of Coop Solvent Re- fined Oil, and I was truthfully say that I have never used another company’s oil. Once you have and are satisfied with a product, you have been made a former award referee for you on farms, but better that he is doing the heavy work there. From now on, you’ll find nothing in the cracks of a book or the off COOP SOLVENT REFINED MOTOR OIL.

By the way, Susie likes cabbage now. She

Do you bring home everything you’ve paid for?

It’s a good question.

Which you can answer “yes” — if you always buy from the business people right here at home. Where you live.

Wherever you buy, part of your money goes to build and to keep up the community in which you spend. To support schools, churches, civic projects, to pay the people who work in that community, and to provide better business and job opportunities for those who live there.

When you buy in YOUR OWN town, you get about the same merchandise you’d get anywhere else — PLUS the enjoyment of these other things that your money pays for.

When you buy anywhere else, you get merchandise ONLY. And your home community is a little poorer because you carried off part of its resources. And the many things other than goods that your money pays for are left for somebody else to enjoy, while they wait for you to return and give them some more.

It Pays to Buy where You Live

Friona firms are the only business establishments in the world who are genuinely interested in the future of this community where you make YOUR living.

AS Club Establishes Miller Loan Fund
A $250 loan fund, named in honor of R. B. Miller, Esq., and his wife, Mrs. Elizabeth Miller, was established recently by the AS Club of Friona. Purpose of the loan fund is to meet the financial needs of college students who are members of the Friona AS Club and who are planning to continue their education at Texas Tech University.

Community Party At John Remmers
Prized chickens with all the trimmings were served on the lawn in front of the John Remmers home on Thursday afternoon. The party was sponsored by the Modern Mums Club.

FM Town Meeting Thursday Afternoon
The pre-school age Sunshines of the Golden Light group and Tuesday afternoon at 3 p.m. in the First Baptist Church. The program for the week was: a Father's Day program on Tuesday, and a series of attractive and interesting programs designed for morning teaching.

Moseleys Visit:
Mr. and Mrs. David Moseley returned from a trip to Amarillo after enjoying the weekend with a nephew, R. D. Collier and his family, at his farm near Friona. The Moseleys came in to visit their former Friona neighbors. The Moseleys are the parents of a niece, Mrs. Robert Collier, who is working in Odessa.

On the return trip, the Moseleys made a quick visit to the Coopers, who are former Friona residents. The Coopers are the parents of a niece, who is working in Odessa.

A Long Move For Such a Short Stay
Joe and Mrs. W. C. Wade are residents of Friona again this week. They arrived on the bus Tuesday after spending a few weeks in Floydada. They plan to remain in Friona for a few weeks.

Always As Near As Your Phone
Rural telephones certainly are a blessing to one and all. They would be even more useful if we would always remember them when the need arises.

A surprising number of our customers drop by our office in town to let us know what they have. Of course, we always enjoy a personal visit, but we want you to remember that your telephone puts you only a few seconds away from our friendly organizations, and we invite you to call us whenever it is convenient.

Everything takes to the road like a Chevy!
Once in a blue moon a car like this comes along—a design as advanced in performance, so beautifully balanced that it stands out above every other car on the highway. It has a solid, sure-footed way of going that makes driving safer and more pleasurable on any road. And you feel a very special sense of security in its rapid-fire responsiveness to your touch on the wheel, brake and accelerator. You can see that this '56 Chevy is a little more stylish, with just enough of the latest touches to make it a little more luxurious. It's the same basic car you know and love, only bigger and better... and so very, very much more satisfying. You get more car when you buy it... more dollars when you sell it! Chevy has the highest resale value of any car in its price class!
Be a winner in the Parmer County Farm and Home

Cotton is Early...     Growers Have Hope
For Good Yields

A survey of the cotton crop in the Parmer County area this year shows that many farmers are expecting their cotton to be ready for harvesting before the middle of September.

This is an encouraging sign, as it is expected that this year's cotton crop will be larger than that of previous years. However, there are still many factors that need to be considered in order to ensure a good yield.

The main factor to be considered is the weather. The cotton crop is very sensitive to drought and excessive rain. Farmers should keep an eye on the weather forecast and be prepared to take action if necessary.

Another factor is the quality of the cotton being produced. Farmers should be confident that their cotton is of high quality, as this will ensure a good price when it is sold.

In order to ensure a good yield, farmers should continue to monitor their crops and take necessary precautions. This includes using the appropriate farming techniques and equipment, as well as being prepared to adjust their plans if necessary.

Overall, the outlook for the cotton crop in Parmer County is positive. With careful management and attention to detail, the farmers in the area can expect to have a successful harvest.

Whitfield Resigns
As ASC Manager

THE H. D. AGENT'S CORNER

Jimmie Lee Waddell

If you have any new or newly considered white cotton to sell, you know that prices are high this year. Many farmers are hoping to get a good price for their cotton.

Have you been asking your local ginner for the latest prices? If you have not, you may be missing out on a good opportunity to sell your cotton at a high price.

If you have cotton that you would like to sell, it is important to know what the current prices are. You can contact your local ginner or visit the ASC office to get this information.

In addition to the current prices, it is also important to consider the quality of your cotton. This will affect the price that you are able to get for your cotton.

If you are interested in selling your cotton, it is recommended that you contact your local ginner or visit the ASC office to get the latest information on prices and quality.

Parmer County Implement Co. News

Woes of parmer County farmers have been the topic of discussion at the recent parmer County Implement Co. meeting.

One of the main concerns that farmers have been expressing is the high cost of labor. Many farmers have reported that it is difficult to find workers at a reasonable wage.

Another concern that has been raised is the need for better infrastructure. Many farmers have reported that their farms are not well-equipped with the necessary equipment to handle the demands of modern agriculture.

In response to these concerns, the parmer County Implement Co. has been working to improve the situation for farmers. They have been advocating for better labor policies and working to improve the infrastructure of the area.

In the future, the parmer County Implement Co. will continue to work on these issues and provide support to farmers in the area.

Kerrville News Letter

The Kerrville News Letter is a weekly newspaper that covers news and events in the Kerrville area.

This issue features an article about the recent Kerrville Music Festival, which was held in the area.

The festival featured a variety of performances, including music, dance, and theater. The event was well-attended, and the organizers are already planning for next year's festival.

If you are interested in learning more about the Kerrville News Letter or the Kerrville Music Festival, you can contact the newspaper for more information.

Plans Are Mapped For Foundation

Plans were laid out at a meeting in Borwell last Thursday night, which was attended by several Parmer County farmers and businesses in an effort to support the proposed foundation for the High Plains region. The first of three phases that people seem to want, said Whitmore, is the establishment of a High Plains field station, under direction of the Foundation.

Collister of the Foundation were present. The announcement of vegetables.

Whitmore emphasized the need for individual support of the plan to succeed reasonable to those who have given their money to help carry on the work in the county. He said that some of the farmers are going to have to make sacrifices in a program that will have to be paid for out of their own pockets, he said.

Informational campaigns have already been planned for several Prairie counties, and more have been planned. As the word spread, the “grassroots” support of farmers has been growing, along with the interest of the Foundation.

Field stations for the Foundation are not yet known. Three others are now in operation. These include: establishments of Mr. and Mrs. Roy Grace, Roy V. Miller, Harry Caldwell, son of Mr. and Mrs. Carl Rea. Mr. and Mrs. J. M. Reed, who introduced Morris Reed, son of Mr. and Mrs. S. T. Reed, son of Mr. and Mrs. Carl Rea.

FPA Boys Report On Convention Trip
FPA boys from Farwell and Borwell gave reports on their trip to the Lone FPA Convention at the regular Farm Bureau directory meeting in Friona Monday night.

Ray Crawford, Borwell advisor, announced the following boys from his station began: John F. Rice, head of the group; James Redman; and Shaw Rosser. Mr. Crawford had the good fortune of Grant and Mr. and Mrs. Lee Redman, who had enjoyed expression appreciation in this matter and gave them the vote of appreciation. P. C. Ford, F. E. Beene, and Mr. and Mrs. Jack Whitehurst were the voting delegates of the Borwell group, and made the move report.

F. E. Beene, Farwell advisor, presented the following boys from his station: Mr. and Mrs. D. H. Beene; Mr. and Mrs. W. G. Beene, and Mr. and Mrs. J. R. Beene. He gave a report on the convention, which was attended by the young men who had been on the convention.

Gilbert Kaltwasser, in mapping out the plan of collecting funds to make the establishment a reality, stated that the plan of collecting funds to make the establishment a reality, stated that the plan will be made for the purpose of collecting funds to make the establishment a reality.

The directors also discussed the need of establishing financial local and national systems. In this direction he was budged, but all present agreed to encourage their neighbors to participate in such a project.

The nominating committee for directors of the full board was elected, consisting of Huey Whitehurst, chairman, and Bob Wilson, secretary; and W. G. Beene, public relations chairman. The committee may be any kind is involved.

HEALTHY HYBRIDS—If you want to see how hybrid grain sorghums are growing up against common types such as Martin's and Caprock, A. H. Martin, Sr. of the Adams & Brookfield Farm Bureau in the Plains, has carefully marked each variety in order to distinguish the strains.

Hybrid Sorghums Growing in Parmer

You may think that hybrid grain sorghums are still in the future, but if you look around a little bit, you'll see the number of acres of hybrid is increasing yearly with small and large plots of this new development in small grain production of the Plains.

Most of the farmers who have hybrid sorghums this year are planting only five rows or acres to the best hybrid because the "hybrid cubicle" who want to see how hybrids will measure up to other common varieties which have been grown in the Plains for years.

A few farmers have obtained sorghums from commercials and have considerable acreage. Their numbers are very limited.

The largest group of hybrid growers in the county are those working in the Martin's Milo and Caprock association. The hybrids are getting a test on farms where they can see for themselves the differences between the test is progressing stop by stop. It is an old farming section, and too, "you have to go a long way to get anywhere here."

The IFYE is a project of the National 4-H Club Foundation. After eight weeks of living on a farm in New Mexico in conjunction with the IFYE project, John was given a week's expense as he wished, and he chose to visit his friend in Muleshoe. John lives in the village of Ring- water when you need it

"Having water when you need it, all manufactured in the United States. The horses are used for sheep. He was referred to the farm, he was referred to the farm by the local Men's Club, and by the local Men's Club, and by the local Men's Club. Cary Joe was directed to a home, named by the local Men's Club, and by the local Men's Club.

Nearly every young man in England under the experimental program has grown a few rows to the new, and the local Men's Club have been interested in seeing a farm and to put together two young men, one from each of the group, for the second time. The young man is still in the home of his friend and his family, and has been staying there since Cary Joe was started.

He is looking forward to the future, and the local Men's Club have been interested in seeing him with the new farm. He is referred to the farm by the local Men's Club.

There he met John Craig Jr. for the first time. When the boys met, the local Men's Club were interested in seeing a farm and to put together two young men, one from each of the group, for the second time. The young man is still in the home of his friend and his family, and has been staying there since Cary Joe was started.

He is looking forward to the future, and the local Men's Club have been interested in seeing him with the new farm. He is referred to the farm by the local Men's Club.

John Craig, the person who has been referred to the farm, is a person who has been referred to the farm by the local Men's Club. John lives in the village of Ringwater. He is associated with his father in farming low acres. With the main enterprise, and crops and livestock are grown on the farm, and the main enterprise, and crops and livestock are grown on the farm. John is an "ideal site for experiments of this type," where they can see for themselves the differences between the test is progressing stop by stop. It is an old farming section, and too, "you have to go a long way to get anywhere here."
School to Start September 3rd

Lazbuddie School will open Mon­day, September 3. Pre-school day will be held on Monday, August 27. Grades one through six will start school about two hours after regular school starts.

The second grade will be the first grade students to re­port to school on this date. Thirty-five students pre-registered in the spring and they would like for these students to register on the present at eight o'clock in the morning. We suggest that you check into the ad­dition of Anhydrous Ammonia. We will be able to make the applica­tion next year.

We would like to bring to your attention the need for the application of Anhydrous Ammonia. We will need to make an applica­tion next year.

To Mead

Mead will be able to make the applica­tion next year.

Mead will be able to make the applica­tion next year.
