VOLUME TWENTY-SEVEN

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, OCTOBER 9, 1931

NUMBER EIGHT

YOU CAN'T STARVE A PEOPLE WITH ABUNDANCE ABOUT THEM

Chamber of Commerce

By the Secretary
Letter Received From U. S. Dept.

Well, we should have a good supply of cotton pickers available within the next week or two, as this office has a letter from the United States Department of Labor, at Fort Worth, that there will be a heavy release from Central Texas, within this week and that men have been stationed at key points for the purpose of directing people into the South Plains section. It would be appreciated if all farmers who have heretofore asked us to supply them, and who have not yet secured the required number, that they come in and re-list for their needs. Also others who have not visited us, are invited to use our services. That is one of the things we are here for.

No Fair in Brownfield This Year

The Fair at Lubbock is over, and from present indications we will not have one in Brownfield this year. Our exhibit was a good one and the quality was better than any remembered year. Thousands of people viewed the exhibit and pronounced it to be the best one of all. We were not exhibiting by score card, but showed variety and quantity and this is what seems to please the people who view the showings. Of course we could not cover very many farms in securing our products and the writer is going to undertake a different plan if he has anything to do with exhibits next year, in order that all sections of the county may have a chance to show their stuff. Good prizes are going to be offered for whatever may be needed, which should act as an incentive to grow the best exhibition stuff.

Up And Down

Cotton still continues to change its price in the wrong direction regardless of the restricted acreage laws that have been passed, but indications and prognostications point to a favorable upturn within the next few weeks. As unfilled orders of cotton mills were 43 per cent greater on August 1st, than they were the same period last year and mills that have been closed down are getting ready to resume. They want to have cotton and when they want it had enough the price may rise.

At Last

Well the Long Expected Event has happened. The Legislature has passed a bill, setting aside One Cent of the present gasoline tax toward the retirement of highway bonds that were voted by the various counties prior to January 1st this year. It is not certain that Governor Sterling, will sign it, as it does not fit in with his plan, but strong pressure is being brought to bear on him and he may do so. In the event of this occurring, Terry county, will see one cent of the tax payed by us going to pay for the nice paved highways of Fisher, Nolan, Taylor and other bonded counties and will continue to ride on dirt roads. It is a cinch and certainty, that if the bill is signed, that we will never put over a bond issue in this county. So far as was possible, without jeopardizing his position, the writer undertook to create sentiment favorable to a road bond issue, he believed to be reliable information that legislation for the cancellation of county road bonds would be passed and he wanted his county in on it. Now the Governor may not sign the Bill and if he should not do so, we still have a chance. But in that event, IF WE DO NOT HAVE ROAD BONDS VOTED BY THE TIME THAT THE NEXT REGULAR SESSION OF THE LEGISLATURE IS CONVENED, WE WILL BE PAYING ON THE HIGHWAY BONDS OF OTHER COUNTIES AND BE COMPELLED TO DRIVE OVER DIRT ROADS FOR THE NEXT FIFTEEN YEARS. Because a Bill will be passed and the Governor will sign it.

FIRST QUARREL

"I'm going to mother," said the bride.
"I'll go along," said the young husband. "Then we can both get a square meal."
"You'll do nothing of the kind," sniffed the bride, wiping away her tears. "Just for that I'll stay here and make you suffer if I have to wear out a dozen can openers."

YES—THERE ARE PLENTY ACRES WITH A BALE

The Writer Believes He Can Pick 1000 Acres Northeast of This City that Will Produce 1000 Bales. Many, Many of Them that Will Go Three-Quarters of a Bale.

It seems that Uncle Sam's estimates have already found out that we are going to make plenty cotton in the south. So there is no good reason why we should not tell just how well Terry county has helped in producing a big crop this year. The cat is out of the bag anyway, and we don't mind telling you of some of the cotton fields in Terry County. At the Rotary luncheon last week, Dr. George Washington Graves remarked that he thought this bale to the acre stuff was all hokey for awhile, but when the cotton opened up so he could see just how much there was on it, he saw that what he had considered wild-eyed friends were right. Why not, the stalks are lapping in the middle, waist high in places, and litterally loaded from top to bottom. There never was a more favorable year for cotton. Plenty showers in most sections of the county, but mostly too hot for any kind of insects.

Some of our cotton raisers have gone far enough with the harvest now to tell us something of their expectations. Take first, John Burnett, who is considered reasonably truthful. He told us Saturday that he had just gone over 19 acres of the sorriest cotton he had on the place, and got eight bales. A few hundred pounds had to be picked in another field to make out the eighth bale.

Brownfield Acknowledged the Corn Center

Estimates have been made of the probable cotton crop for the Santa Fe territory on the South Plains by officials of that company. They show the estimated yield to be 409,000 bales.

At the same time nearly 7,000 cars of grain sorghums are the expectations for that crop to be moved out of the territory. This does not include local sales or sales to truck men.

There will be 390 cars of corn shipped, mostly from the Brownfield area and 564 cars of sudan seed. This will come from the Sudan-Muleshoe area, Littlefield, Levelland and other points.

Twenty-five per cent of the grain sorghum crop will be fed to livestock, it is estimated.

In handling the 1931 wheat crop the Santa Fe has handled in excess of 22,000 car loads, of which 6,000 has been off the Slaton division. Approximately 25 per cent is believed still on the farms or stores.

By towns, the cotton and grain sorghum probable shipments are:

	Cotton	Sorghum
	Bales	Cars
Amherst	20,000	400
Abernathy	9,000	100
Anton	9,000	300
Brownfield	20,000	65
Bledsoe	1,500	50
Crosbyton	10,000	50
Floydada	6,500	10
Hale Center	15,000	125
Happy		100
Idalou	8,000	100
Kress	2,000	100
Lamesa	50,000	500
Lorenzo	9,000	100
Littlefield	30,000	300
Lubbock	15,000	100
Lehman	5,000	100
Levelland	20,000	100
Lockney	1,500	25
Muleshoe	4,000	700
Meadow	10,000	50
O'Donnell	13,000	250
Post	15,000	
Plainview	16,000	500
Ralls	13,000	70
Ropesville	6,000	100
Snyder	25,000	
Slaton	10,000	250
Shallowater	12,000	50
Sudan	20,000	2,000
Seagraves	3,000	
Tahoka	15,000	150
Tulia	250	200
Wilson	1,150	50

To Feed Much Livestock

With an estimate of 25 per cent of the record breaking grain sorghum crop of the South Plains expected to be fed to livestock of all kinds, it is believed that easily 100,000 animals will be on full feed on the Plains this year, local railroad men state. The Santa Fe has placed the esti-

Cream Moves Upward —Maize in Demand

Cream and poultry products are just about the payigest things that the farmer has these days. In fact, cream at the price paid here now, is better than 35c a year ago. Indeed, cream now will buy more than it would a year ago. And we mean by that, good heavy butter fat. We called up the Brownfield Produce Co. this week and find they are paying 25c for cream now, and said they paid 26c awhile Saturday. Other quotations given us were as follows:

Heavy hens 10c
Light hens 8c
Fryers 11c
Eggs 15c

This company finds, they informed us that they were having more trouble with marked eggs than others, as some had tried to get most any kind of an egg by that was marked. But at least they found who was putting the bad ones off on them.

There was some misunderstanding about maize a week or two ago, when the price quoted was f.o.b. Fort Worth instead of here, and when it was found the price was much less f.o.b. Brownfield, it didn't look so good. But, says the buyers, it is just about the highest prices grain anywhere, considering its little trouble and its big acre production. However, it is believed that most of it will have to be threshed before it will command the highest market price. Buyers here don't think corn will be over 25c, and some are placing it as low as 20c.

Jones Dry Goods Co. Report a Good Sale

The big sale at the Jones store opened with a bang Friday morning, and has been going good since, according to Manager Paul Robertson. Hundreds of people flocked in their store Friday and Saturday, and several additional sales people were kept busy. The sales have been unusually good so far this week.

Mr. Robertson says on would think there was little money in the country, but when you offer the people some real dry good bargains, they are ready to buy, as winter is approaching and the people must be clothed. But, says he, you must give real dollar values.

TERRY COUNTY FIELDS WHITE UNTO HARVEST

No Hands in Sight Yet, But They Are Moving West Slowly. Some Argue That We Should Be in No Great Hurry About Harvesting - Others Say We Should.

Well folks, we hate to expose our position. We would like for all the cotton buyers to believe that we had a small crop, but it seems that the world already knows as much about the matter as we, and so we will keep mum on the matter no longer, but will broadcast to the capacity of the circulation of the Herald just what we are producing in old Terry this year. Boy we have the cotton out here, and we don't mean maybe. And no hands to speak of, which to some is a calamity, and on the other hand to others is thought to be the right thing for us.

Meeting Here Advises Not to Market Cotton

A meeting was held here Tuesday night in the District Court room that while it was under the auspices of the Coops, all farmers and business men were invited and took part. Owing to the fact that short notice was given, there was not the representation that was desired, but really more than was expected.

Chas. M. Davis of Lubbock and G. S. Burgess of Dallas were the main speakers, although several local speakers including farmers and bankers spoke. All advised that the best thing the farmers can do now is to hold just as much of their cotton off the market as possible. Resolutions were passed calling on Texas senators and representatives to support the Federal Farm Board.

mate at conservatively 100,000; last year it is said, there were between 60,000 and 70,000 animals.

Liberty Party Speaker At Loop Sat. Night

Mr. Westbrook of the Loop country was in this week and asked us to announce that Monroe Jones of that community would speak on the merits of this new third party at the Loop school house, Saturday night at about 7:30. Everyone has a cordial invitation to be present.

We had to acknowledge that we had never heard of the party before, which created quite a bit of surprise in Mr. Westbrook. He said they had their own papers, and that the Dallas News had given them some publicity. He says it was organized with more than 700 delegates present, at Dallas, we believe, and that a man by the name of Harvey of Arkansas had been nominated for president, with a full set of other officers.

South Plains Counties Have Many Swine

The sixteen South Plains counties have in excess of 55,000 hogs or an average of more than 3,400 to the county, a late report on the hog population of Texas shows.

Lamb county, with 8,000 hogs according to latest information, leads the South Plains. Hale county has 6,000 hogs and there are four others, Lubbock, Crosby, Floyd and Lynn with 5,000 animals each.

Other counties rank as follows: Dawson, Terry, 4,000 each; Bailey, Hockley, 3,000 each; Motley, Dickens, 2,000 each; Gaines, Garza, 1,000 each and Cochran and Yoakum between 500 and 950 each.

Borden county does not have as many as 500 and Scurry county reports 2,000 animals.

Petit Jury List For The County Court

Drawn for the Third week of the November term, 1931, County Court. J. L. Beauchamp, Luther Jones, D. J. Franks, N. A. Lindsey, S. H. Hollgate, L. D. Hamm, W. M. Flint, J. R. Garrison, H. L. Holleman, O. O. Miller, John W. Chisholm, T. M. Dobbs, W. E. Patton, Crede Gore, L. J. Hollers, E. F. Drury, J. C. Bass and C. D. Hart.

Chesir Hens at Meadow Make High Mark

The man who lives in town and who has a small pen of chickens and feeds them on schedule with a well balanced ration, can do as well if not better than a good many farmers and others with less well regulated schedules.

Herman Chesher, Meadow, employed at a gin there, has just completed the feeding of a pen of 20 white leghorns for a year. In this he gathered 4,940 eggs or an average of 247 per hen.

The test began on September 1, 1930, at Meadow and closed on August 31, this year.

Fed Them Regularly
Mr. Chesher did not have specially built equipment, but used a garage for his chicken coop. He fed the birds regularly, kept them in a clean place and provided plenty of water and always kept food before them.

A mineralized egg mash, prepared by the Economy Mills of Lubbock, was the only commercial feed used. This was given daily, according to directions as a supplement to milo maize and wheat.

J. R. Newman, of the Economy Mills secured the pen and the past week used it for exhibition purposes at the Panhandle-South Plains fair.

"I do not know of very many better records than Mr. Chesher's, said the feed man. "In fact, the only higher average production we could find was one with 250 eggs. That, I understand, is the world's record for a pen."

Some Laid 300 Eggs
"Judging from the high average, I believe some of these pullets must have laid as many as 300 eggs. There must have been to have had this high average."

"This shows what can be done in the way of feeding and care. It is possible for man in town to keep chickens and get good results. Both Mr. Chesher and his wife worked all day. They did not have much time to devote to the chickens."—Lubbock Avalanche.

Sweet Land of Caanan Spied Out Sunday P. M.

If What We Saw Sunday Afternoon is Any Indication of Hunger that Confronts the People of Terry County, a Hog Will Starve in the Midst of a Corn Field.

Sunday afternoon, we took a spin out in the country hereabouts, along with our madam and accompanied by K. B. McWilliams and wife. Leaving town, we traveled one mile north on the Lubbock road, thence east by the Bynum and Pyeatt places and on by the old Proctor and Burnett places; north then to the main Pleasant Valley road; east to the Valley school house and north to a quarter mile north of the W. O. Hart farm; thence west to the Curtis Huckabee farm and north to Meadow. West to the old Lee Walker farm and south to Brownfield. In that section, we are confident there is now ten thousand bales of cotton open, maybe more. We saw perhaps a thousand acres that we can pick out that will make a thousand bales of cotton, and perhaps in that section of the county there are 5000 acres that will make three quarter bales per acre.

Taking to Wagons To Haul in Cotton

We had noted that a lot of the farmers of this section were hauling their cotton on wagons this year instead of on trailers and trucks as heretofore, but had taken no thought of the matter other than that the farmers figured to save on gas and some repairs on their cars, but it is having its effect just the same. One tire dealer informed us this week that last year he helped to rig up between one and two hundred trailers, and had sold some three hundred tires, new and second hand. This business is still this year he says.

Singing Convention To Meet at Meadow

O. L. Chapmon, president of the Terry county singing convention will meet the third Sunday in this month with the good people of Meadow, and we are sure that the Meadow people will be nice to them as heretofore. Everybody is expected to come and bring their dinner. Some good singers from this section have promised to be on hand.

Bob Locker has treated the front of his cafe to a new coat of paint.

WELLMAN

Since school dismissed Monday for cotton picking the bales are being quickly brought in to the gin. We know the farmers are appreciating this fine weather.

Those who were too tired to attend prayer meeting Wednesday evening missed a blessing. Mrs. Wilkins will lead this Wednesday night and the subject is "Following Jesus." The illness of her son, Howard, who has been ill but is much better now, kept her from attending last Wednesday night. There is some talk of carrying the prayer meeting to the home of some one who is absent so don't be surprised if you have the prayer meeting at your house unexpectedly some evening.

Mrs. W. M. Schroeder and Mrs. V. L. Hudson and others from Wellman enjoyed the social hour in Mrs. Hunter's home in Brownfield Friday afternoon when Mrs. Hunter's pupils entertained the mothers with reading they have learned this past year.

Mrs. Norton and children accompanied Mrs. Ray of Seagraves to

Stanton and Lubbock Saturday. They enjoyed the fair very much they reported.

Mrs. Jacobs and children from Plainview spent the week-end with her daughter, Mrs. J. D. Moon.

Mr. and Mrs. Wilhite left Friday for Lubbock, where they will visit her sister.

Mr. and Mrs. Culvier entertained the young people Saturday evening with a fruit supper.

The church services were well attended Sunday, considering the busy times.

B. Y. P. U. was well attended and the new associational year started off with new live officers. The Zone meeting meets with Wellman B. Y. P. U. fourth Sunday afternoon at 3:20. Everyone invited to come.

The Wellman P. T. A. meets Friday October 9. Be there, if you are interested. It is for your community's good and for your boy and girl. The report of this year's work will be finished.

Elder Robt. Drennon is treating the church of Christ paragonage to a new coat of paint this week.

Hunter News

Every thing is pretty quite down our way this week. Most everyone is snapping high price cotton. Though several are still canning.

H. H. Butler was a business visitor at Odessa Saturday.

Mr. Arvie Snow has been on the sick list the past ten days, but is now able to be up and around.

Mrs. Montgomery and children who are staying at Post during the cotton season spent the week end with home folks. They report good cotton down in that section.

The B. Y. P. U. social given by Mr. and Mrs. N. A. Lindsey was enjoyed by a good size crowd.

We have two new girls in our community now. They are the daughters of Mr. and Mrs. G. S. Snow and Mr. and Mrs. Roy Smith. They arrived last week and seem to be pleased with Hunter.

Mr. and Mrs. J. H. Fitzgerald of Wellman spent Sunday with Mr. and Mrs. E. L. Williams.

Health Education in Brownfield Schools

The State of Texas now requires that each and every school child shall be instructed in health. In the grades there shall be at least 150 minutes per week given to that time. In the high school there shall be at least 120 minutes per week given to organized instruction and health exercises. These requirements are being fully met by the local schools. Each teacher in the elementary grades is held responsible for the work in her room. In the high school the girls are given organized instruction in health one period per week by Miss Mary Perkins. They are given exercises two periods per week by Misses Long and Taylor. The boys are cared for in a similar manner by Mr. Hayhurst and Mr. Ledbetter.

This part of the school program is enjoyed by every pupils who participates. They do things they like to do in these classes. The natural response in organized form is had in these health activities.

An additional reason for the health program is seen in the report of "The commission on the Reorganization of Secondary Education, Appointed by the National Education Association." This Commission was to look into the aims of education and seek to influence the reorganization of the school systems of the U. S., on the basis of the needs of a modern citizen. After making a general statement to the effect that "Education in a democracy, both within and without the school, should develop in each individual the knowledge, interests, ideals, habits and powers whereby he will find his place and use that place to shape both himself and society toward ever nobler ends," they set out health as one of the seven aims or objectives of education. A sound mind in a sound body is essential to permanent success. The mind can be ever so vigorous and active but without a healthy body to carry out its plans it is helpless and often times useless. Without health the child would be no better by having gone to school. With health he can well hope for success if he is trained to meet the competition of a modern world.

Needmore News

A large crowd attended singing at Needmore Sunday night.

M. H. Bennett and A. J. Jordan made a business trip to Brownfield last Monday.

Several from this community attended the Fair at Lubbock last week.

Miss Lois Watkins is back at home from the Lubbock sanitarium. She is getting along fine.

Hazel, Ida Bell and Christine Jordan spent Sunday afternoon with Daisy and Odeen Bennett.

Mr. and Mrs. Corral are the proud parents of a baby boy.

Dub Sims went to Bryant, Texas last week.

Mr. and Mrs. John Chisholm visited Mr. and Mrs. A. J. Jordan Sunday afternoon.

Mr. Lloyd Bennett and family of Brownfield took supper with C. C. Bennett and family Sunday night.

CHURCH OF CHRIST

Attendance last Lord's Day was up to par, especially at the morning hour.

Let us not give down in our work for God and His cause, because of the depressing condition. God still lives and rules in the affairs of men. If there ever was a time when we need God and His help it is now.

We are hoping to establish our second new congregation in Terry county this year at Union school next Sunday afternoon.

Subject for Sunday night, "Almost Persuaded."

Come with us and we will do you good.

R. P. Drennon.

WHAT! NO BABIES?

Mrs. Margaret Sanger says that there should be a two year holiday on babies. She would have the stork driven from the home of the rich and poor alike for the year 1932 and 1933. It is her idea of meeting the crisis before the world. Mrs. Sanger, who, by the way, is now Mrs. J. Noah H. Slee, has said all along that we needed fewer babies. And now that we haven't mouths enough to eat up our wheat or backs enough to wear our cotton, Mrs. Sanger-Slee is convinced that it is all because of a surplus of babies.—Dallas News.

Page, Long, Sterling, Murray, Bilbo, Parnell and all the governors of all the States and the islands of the sea, Page Hoover, call the legislatures and the United States Congress in special session extraordinary. Give us a law, or a hundred laws if necessary. Stop, Look, Listen!!!! There is an overproduction of babies, and their wee smiles and their dimples have ruined the cotton market, the oil market, the wheat market and the stock market. They are bankrupting the country. Come on ye Governors and legislators you congressmen, senators and presidents, do your duty. Pass a law—a thousand laws. No more babies for two years. Truly the fools are still with us even as Mrs. Sanger-Slee.—Jayton Chronicle.

Miss Dumleigh—(buying golf outfit) "And I shall want a small rifle." Clerk—"A rifle?"

Miss Dumleigh—"Yes, heard my cousin say recently that he shot two birdies and an eagle on the course where I am going to play."

A. M. Brownfield went to Sterling City in his plane last week and took up his aunt aged 75, who flew for the first time.

How One Woman Lost 10 Pounds in a Week

Mrs. Betty Luedeke of Dayton, writes, "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

To take off fat easily, safely and quickly take one half teaspoonful of Kruschen in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—Get it at Alexander Drug Co. Inc., or any drug store in America. If this first bottle fails to convince you it is the easiest, safest and surest way to lose fat—money back.

thanks--

We have tried to get out in the country and see as many farmers as possible before starting our new gin, but this has been only partially done. So we take this means of thanking those who have patronized us in the past, and invite them to try our new plant. We will treat you so nice and give you such a good sample and turn out that we believe one trial will make you a regular customer throughout the cotton season. We are expecting you.

We are arranging to carry meal and hulls in line with the low price of cottonseed. Get our prices before buying.

W. E. HENSON, Mgr.

STATE MISSION REPORT

We understand State Missions to mean the carrying out of the Commission of our Lord in Texas. This work was successfully undertaken by a Host of Consecrated sacrificing Loyal Baptist, nearly 100 years ago. They enlisted others, till a glorious work has been accomplished. We now have churches established all over Texas, with one of the greatest orphanages on the face of the earth. Many sanitariums and schools to take care of the sick and educate and train our boys and girls. With our Sunday Schools, B. Y. P. U. and W. M. S., organizations to help take care of every phase of our work. (1) Yet we find our Texas Baptist facing a 5-million dollar debt. (2) With the worst financial condition that has ever existed in Texas. The question with every Texas Baptist should be: (3) can we carry on, our work without suffering the loss of any more of our institutions. (4) Or without neglecting our mission work. The answer should be yes. (5) The next question is, can it be done? Your committee believes it can be done; (6) provided a majority of Texas Baptist will pray and give themselves to God, and His work until they are brought together in love, fellowship and confidence. By the leadership of the Holy Spirit. (7) And that our State Board and Trustees of our institutions will lay out a program in harmony with the financial conditions, and business concerns of our state. And Acts 2:44 "All together had all things common."

(8) We do not believe that the majority of Texas Baptist can ever be enlisted in supporting a program that pays \$6000.00 salary to any person. (9) Therefore perhaps if our State board could cut down expenses and office rent and office force, by using less help at a reasonable salary, and our Sunday School, B. Y. P. U's, and W. M. S., Secretaries and trustees of institutions would do likewise, and salaries in keeping with the salaries of the average pastor; (10) and state definitely what per cent of all monies given would be applied to and then give regular reports showing that each object got their percentage. We believe our debts would be taken care of, and the work go forward, to the Glory of God. And our hearts would rejoice.

Committee: J. B. Vinson, L. B. Hobbs, N. F. Lovelace.

P. S. This report was submitted to Brownfield Association September 23, and was rejected, the vote being 30 for and 32 against.

(Published at Request of J. B. Vinson.)

America's most economical truck
is now available in 25 different models
priced as low as \$440—complete with body

NOTE: The model priced at \$440 is the open cab pick-up.

1 1/2-ton 157-inch Stake Truck
\$810*
(Dual wheels standard)

CHEVROLET By actual road performance, week after week, month after month—the six-cylinder Chevrolet has proved its right to be called *America's most economical truck*. Owners have found that on a ton-mile basis Chevrolet costs less for gas and oil, less for upkeep and less for service than any other truck—regardless of the number of cylinders. And price-comparison will show that this big, sturdy Chevrolet Six is one of the lowest-priced trucks you can buy.

Today, any truck user can apply this economy to his own particular work. The current Chevrolet commercial car line covers practically every delivery and hauling need. Twenty-five different models. Half-ton and 1 1/2-ton pay-load capacities. Three wheelbase lengths. A wide variety of Chevrolet-designed and Chevrolet-built bodies. Just name the type of truck you need—and you will very likely find it in Chevrolet's all-inclusive line.

Each Chevrolet truck has a 50-h.p. six-cylinder engine—25% more powerful than any other engine in a truck priced so low. Maximum load-capacity is assured by unusually large bodies, supported by long rigid frames and long parallel-mounted springs. And Chevrolet truck prices are among the lowest in the commercial car market.

Half-ton 109-inch wheelbase chassis **\$355** 1 1/2-ton 131-inch wheelbase chassis **\$520** 1 1/2-ton 157-inch wheelbase chassis **\$590**

WHEN THE GOING IS TOUGH

A recent remark regarding newspaper advertising is interesting because it is made by a buyer and not a seller of printer's ink. It was made by Oscar Webber, general manager of one of Detroit's biggest stores, who told a Michigan merchants' convention: "When the going is tough, our experience shows that nothing sells goods like newspaper advertising."—*Florence (Ala.) Herald.*

J. J. Whitley, Gomez merchant, is on the right side of our subscription ledger again.

This Years Fair the Best in Its History

The writer missed the Panhandle South Plains Fair at Lubbock this year, although the wife and children attended Friday of last week. They have hardly missed a year since the fair started, and they say this year's fair was by far the best they have ever attended, although the attendance on the day they were there was off considerably. They report that the carnival attractions was some of the best they had ever seen. This has been the general verdict of all we have talked with that have attended this year in former years. Indeed, we have the first man or woman to tell us without the slightest hesitation that this years fair far exceeded any other they had attended. This is also agreed to by Ed Shelton, who has had charge of our exhibits there every year back to 1917. We believe. The agricultural and live stock departments were complete and worth going hundreds of miles to see, they say, and the other attractions were hard to beat.

It was not known when the fair closed Saturday night whether or not it was a financial success, but whether it was or not, it will go down in history as the best fair in the history of the South Plains, despite the depression.

The average cow is being milked at a loss while those producing 400 pounds or more of butterfat are making profits, cow testing records in the Randall County Herd Improvement Association show. Forty-six cows in the Association averaged 450.94 pounds of butterfat last year.

Bob Owens of Rotan was up this week looking after business matters connected with his store. Note his ad this week.

Salesman Puts Over Advertising (?) Deal

Some three or four weeks ago we warned the business men that the time was at hand for the slick salesman to come in to reap a few dollars on some advertising scheme, and he landed here good and hard Thursday—be and his pretty young wife, and as usual stung the town for thirty iron men in a day and left for the next town and victim. Thirty dollars is more than most of us make in a month now days. In fact the Herald took the job at about a third of what the salesman got clear and we have been working on it most of the time since.

This salesman, however, was not like most of them. He appeared to be a nice fellow, and we are almost sure he is. In most things, he likely is honest. He had none of the braggadocio airs that most of them assume. He was just a good mixer, and never assumed an air of "better than thou." But he informed the Herald that he had the hardest job of putting the deal over here he had struck this year. And we'll admit that we took some pride in thinking we had in some measure been instrumental in educating our merchants up to where they would turn down such propositions.

We know that there are some people that actually believe that such propositions are of some advertising value, and is, but it is not worth what they generally have to pay for it, and the bad feature is that three fourths of the cost leaves the town forever. We also know that some of our good friends take part in them because they think we will benefit from the deal. But we get so little out of it that we had much rather they would spend a like amount in the Herald and reach more people for much less money.

But we had much rather take the job than see it leave the town and all the money be carried some place else. Next time a man approaches you on an advertising deal turn it down, and when he leaves town, come see us, and if we can see anything to the proposition we can get together and put it over for less than half the money he wants, and keep all of it in Brownfield. Boy! we have already learned to say no without any trouble. A sock peddler was in Tuesday to see us. He read our sign on the door and got our oral ok besides and departed.

FARMERS WILL MEET THE ISSUE

Thus far in the history of this country, farmers have met every emergency with courage. They have displayed resources of such a character as command the admiration of every thoughtful citizen. From necessity, farmers of the Southwest must face a change of program. That change in most cases will be made, but it will require careful thought on the part of each individual. Perhaps he will find it to his advantage to consult his neighbor, his county agent or his banker. It may be that he can also help some other farmer in planning 1932 operation. The situation calls for individual initiative as well as co-operation. It will be as easy to over-produce some other commodity as cotton.

Out of the hundreds of thousands of farmers in the Southwest there are naturally a few who have an inclination to lie down on the job and ask the Government to take care of them. This attitude is encouraged by politicians and a certain class of business men who are much more panicky than the farmers themselves. The chronic office holder, or the citizen who is anxious to serve in some office where the pay is sure and certain, and for that reason only, are of the opinion that the farmers' votes can best be secured if they get out and make a lot of noise about the pitiable condition of agriculture. Everybody knows that the industry is not flourishing. It is hard to find any kind of industry or profession in a prosperous condition, but it has been our observation that the farmers of this country, taken as a whole, are "facing the music" more courageously than their alleged friends who are seeking their favor. There is one thing certain, and this is, agriculture must come back before other industry can expect to show improvement. For that reason, Congress and the Legislatures are more willing to listen to what farmers have to say than ever before. The only danger in the situation lies in the fact that the steady going, thoughtful and hard-working farmer says nothing and a few radicals give the impression that they represent the sentiment of the entire industry. The editor attended a meeting a few years ago. There were sixty-two present. A question came up for a vote. Five voted against the proposition and ten voted for it. Forty-seven did not vote at all. The newspapers reported that the farmers in a certain community were "two to one for the proposition." As a matter of fact, the vote did not represent the opinion of those present, but only that of fifteen out of sixty-two.

Texas has half a million farmers.

Any man who claims to know what the majority of these farmers are thinking about is just making a wild guess. Sometimes a small but well-organized mob with a good leader makes enough noise to give the impression that a large army has mutinied.—*Farm and Ranch.*

ANENT DESIGNS

The information that the treasurer of the State of Texas, who was instructed to devise an appropriate stamp for cigarette packages in view of the new cigarette revenue law, has chosen a blue bonnet design, has aroused in some quarters roars of sinister laughter, in others bellows of indignant rage, and squeaks of righteous rath. A good many ladies have expressed themselves to the effect that to place the famed state flower of Texas on a package of the noxious weed is nothing short of sacrilege. We ourselves can see no real reason for mixing up one of our beautiful traditions with one of our most uncalled for legal errors.

One vehement democrat urges the treasurer to use an elephant as the insignia on the package to commemorate the instigators of the law. If this could only be true it would not be amiss, but sad to say, Mr. Hoover didn't have a thing to do with the Texas cigarette tax. It was written and passed by some of our good old-fashioned democrats, whose campaign speeches represented them as bent on bringing us prosperity and freedom from taxation. Maybe a donkey wouldn't be a bad design.—*The Southern Pharmaceutical Journal, courtesy Arthur Erwin.*

A large crowd attended the "murder trial" at the Methodist church Tuesday night of this week, and report a lot of good entertainment.

B. Smith was here last Saturday from Tokio and called in to renew for the Herald and get in on our bargain rates on the Herald.

FARMER BROADCASTS TO THE MULE HE PLOWS

J. H. Sharbet found the following in a South Texas newspaper this week that tickled him. It was reprinted from the Haynesville, La., News. It is one-sided conversation that was overheard while a Claiborne Parish farmer was trailing a mule to a plow. The farmer was broadcasting.

"Bill, you are a mule, the son of a jackass, and I am a man made in the image of God. Yet here we work hitched together year in and year out. I often wonder if you work for me or I work for you. Sometimes I think it is a partnership between a mule and a fool. For surely I work harder than you do. Plowing here we cover the same distance, but you do it on four legs and I do it in two. So mathematically speaking I do twice as much per leg as you do.

"Soon we will be preparing for a corn crop. When the crop is harvested, I give one-third to the landlord, for being kind enough to let me use this corner of God's universe. The other goes to you, and what is left is my share. But I divide mine among seven children, six hens, two ducks, and a banker. Bill, you are getting the best of me; it ain't fair for a mule, the son of a jackass, to rob a man, the lord of creation, of his substance. And come to think of it, you only help me cultivate the ground. After that I cut, shock, and huck it, while you look over the pasture fence and 'he-haw' at me.

"All fall and part of the winter the whole family, from granny down to the baby, pick cotton to help raise money to buy a new set of harness, and pay interest on the mortgage for you; and by the way, what do you care about a mortgage? It doesn't worry you any. Not a darn bit. You leave that to me, you ungrateful cuss.

"About the only time I'm your better is on election day, for I can vote and you can't. But if I ever get any more out of politics than you do, I

YOU HAVE TWO CHANCES

Cheer up!
You have two chances—
One of getting the germ
And one for not.
And if you get the germ,
You have two chances—
One of getting the disease
And one of not.
And if you get the disease
Your have two chances—
One of dying
And one of not.
And if you die—
Well, you still have two chances.

Encouraged by raising 102 bushels of corn to the acre last year, Fred Winklemann, Washington county 4-H club boy, has increased his crop this year to seven acres and the

county agent says he stands a good chance to make a big yield in spite of dry weather.

W. C. Fancher, of San Antonio, Texas, was here this week as representative of the Western Newspaper Union. Mr. Fancher was profuse in his praise of our little city. Why, says he, I didn't have any idea you had any such town as you have here, and so clean and nicely paved.

We note that the Seagraves Signal has added a typesetting machine to its equipment, which enhances the appearance of that journal very much.

Farmers are certainly getting their cotton in fast considering the fact that they are short of hands, and in most cases are using the home forces only.

A Hockley grand jury is investigating rumors that led to a run on a Levelland bank recently. Few people understand that it is a criminal offense to repeat wild rumors of this sort, which leads to runs on and sometimes the closing of an otherwise good bank.

Although Brownfield is what might be termed a municipally owned town, as privately owned utility concerns are rather scarce here, Brownfield took no part in the utility gathering at Fort Worth recently, in which representatives of a number of west Texas cities met to force public service utility concerns to lower rates.

Have you tuned in on the goat gland specialist's new radio station which has been lately established in old Mexico just across the border from Del Rio, Texas? Well, you will find it about 50 on your dial, and it comes in here stronger than WFAA at Dallas.

Most of us are prone to tell the kids that we always led a very exemplary life in or childhood or young manhood, and if we happen to be living a far flung distance from the scenes of our childhood and fond recollections, we can usually make it stick unless some loud mouthed rascal comes along to disillusion the

Foreign Cotton Competition Over Emphasized

Austin, Texas, Oct.—Texas farmers need have little fear that foreign countries will increase acreage and nullify their attempt at reducing cotton acreage, in the opinion of J. E. McDonald, commissioner of agriculture.

Foreign cotton producers are NOT in a favorable position to increase production to the extent that it would seriously affect this country's production, he said.

India, he pointed out, is the chief competitor of the United States, growing close to 5,000,000 bales a year, while the rest of the world outside the United States grows slightly over 6,000,000 bales.

First of all, the per acre yield in India is an average of 100 pounds to acre—when southern cotton farmers have a hard time making a living with an average of 150 pounds to the acre.

When cotton went to thirty cents a pound, India's acreage increased by only 20 cent, and dropped by 15 percent when cotton fell to seventeen cents a pound.

Russia plans to increase her production regardless, with a goal, under the five-year plan, of 3,500,000 bales a year—so an increase may be expected there no matter what the south does. China's 2,000,000

kids. But little did we think last week that we were pulling any skeletons out of any family closet when we accidentally mentioned an incident that happened here some 22 years ago which involved a mighty good citizen. It seems that his two daughters who have been born and reared since that time found a very sweet morsel in that article to tease their old dad and have been making it hot for him ever since.

Editors are the most accommodating fellows there are. Last week we asked Editor Baldwin of the Levelland Herald who was the Bill Crawford whose likeness he said would decorate one side of the new one million dollar bills.

Have you tuned in on the goat gland specialist's new radio station which has been lately established in old Mexico just across the border from Del Rio, Texas? Well, you will find it about 50 on your dial, and it comes in here stronger than WFAA at Dallas.

Most of us are prone to tell the kids that we always led a very exemplary life in or childhood or young manhood, and if we happen to be living a far flung distance from the scenes of our childhood and fond recollections, we can usually make it stick unless some loud mouthed rascal comes along to disillusion the

bales is less than she grew before the war, and as much as she is likely to plant next year because of famine, flood and political trouble.

Egypt is as sick as the south of over-planting. Legal restrictions have been passed, limiting the planting of the long staple variety for which the country is famous.

India, he pointed out, is the chief competitor of the United States, growing close to 5,000,000 bales a year, while the rest of the world outside the United States grows slightly over 6,000,000 bales.

HOW TO END UNEMPLOYMENT

Eddie Cantor has a real scheme for relieving unemployment. He advocates doubling up. For instance; put eighteen players on every baseball team, 22 players on every football team, two teachers in every school room, two judges on every bench, two engineers, two firemen, two conductors and four brakemen on every train, two cooks in every kitchen, two barbers on every chair, two nurses for every patient and two bill collectors instead of one for every account.

We are glad to see our old friend Pappy John Powell on the streets again following his operation and rather slow convalescence.

STATEMENT OF OWNERSHIP

Of the Terry County Herald, published weekly at Brownfield, Texas, for October, 1931.

Before me, a notary public in and for Terry County, Texas, appeared A. J. Stricklin, who states under oath that he is the owner, editor and manager of the Terry County Herald, and that there are no nonholders or mortgages.

(Signed) A. J. Stricklin. Sworn to and subscribed before me this 1st day of October, 1931. Martin Line, Notary Public.

NOTICE TO CREDITORS

THE STATE OF TEXAS COUNTY OF TERRY YOU ARE HEREBY NOTIFIED, that Olie E. O'Neal, of the County of Terry, State of Texas, did on the 24th day of September, A. D. 1931, execute a deed of assignment conveying to the undersigned all his property for the benefit of such of his creditors as will consent to accept their proportional share of his estate and discharge him from their respective claims and that the undersigned accepted said trust, and has duly qualified as required by law.

All creditors consenting to said assignment must within four months after the publication of this notice make known to the assignee their consent in writing and within six months from the date of this notice file their claim as prescribed by law, with the undersigned who resides at Brownfield, Texas, which is also his post office address. Witness my hand this 29th day of September, 1931. W. W. PRICE. 10c.

NOTICE

Notice is hereby given that after the 31st day of October, 1931 a penalty of 10 percent will be added to all unpaid taxes owing to the CITY OF BROWNFIELD, TEXAS, appearing on the roll for the year 1930.

And this notice is given in compliance with ordinance passed by the City Council of the city of Brownfield, Texas, passed on September 22nd, 1931. Roy M. Herod, City Secretary. 11c.

NOTICE OF SHERIFF'S SALE

STATE OF TEXAS COUNTY OF TERRY By virtue of an alias execution issued out of the District Court of Terry County, Texas, on September 2nd, 1931, on a judgment rendered in said Court on August 26th, 1930, in Cause No. 1505 in favor of First National Bank of Meadow against J. J. Nettles, for the sum of \$2203.37, with interest at 10 percent on \$2003.06 of said amount, and 6 percent on \$200.31 of said amount, from date of judgment until paid, which execution has been directed and delivered to me as Sheriff, I did on the 7th day of September 1931, at 3 o'clock, P. M., levy upon the following described property situated in Terry County, Texas, belonging to the defendant, J. J. Nettles:

1. All of the undivided interest of the defendant, J. J. Nettles in Lots Nos. 1 and 2 in Block No. 6 in the North Addition to the Original Town of Meadow in Terry County, Texas, as shown by map or plat of said town, recorded in the Deed Records of Terry County, Texas.

2. All interest of the said J. J. Nettles in the Bank of Meadow, consisting of his interest in said real estate hereinbefore described, and all notes and accounts and other assets now in the hands of Earl Cadenhead.

3. Stock Certificate No. 14 for

ten (10) shares of capital stock of the Bank of Meadow, and Stock Certificate No. 27 for five (5) shares of capital stock of said Bank; No. 14 having been originally issued to J. L. Brabham, and transferred to the defendant, J. J. Nettles on February 3, 1921, and No. 27 having been originally issued to the defendant, J. J. Nettles; said certificates having been levied upon in the hands of the First National Bank of Meadow, Texas.

And on the 3rd day of November, 1931, same being the first Tuesday in said month, between the hours of ten o'clock A. M. and four o'clock P. M., at the Court House Door of Terry County, Texas, in the city of Brownfield, I will offer for sale, and sell at public auction, for cash, all the right, title and interest of the said J. J. Nettles in and to said property.

WITNESS my hand, this 18th day of September, 1931. J. M. Telford, Sheriff, Terry County, Texas.

SHERIFF'S SALE

THE STATE OF TEXAS COUNTY OF TERRY NOTICE IS HEREBY GIVEN That by virtue of a certain order of sale issued out of the Honorable District Court of Brazos County, on the 26th day of September, 1931, by J. L. Cobb, Clerk of the District Court of said Brazos County, Texas, for the sum of Thirty-One Thousand Nine Hundred Fifty-Five & 86/100 Dollars and costs of suit, under a judgment, in favor of J. Webb Howell in a certain cause in said Court, No. 11958 and styled J. Webb Howell vs. W. E. Henson, placed in my hands for service, I, J. M. Telford as Sheriff of Terry County, Texas, did, on the 30th day of September 1931, levy on certain Real Estate, situated in Terry County, Texas, described, to-wit:

Being all of Block No. Fourteen (14) in the Santa Fe Addition to the City of Brownfield, Texas, and being fully described in deed from W. B. English and wife, to J. Webb Howell, dated February of 1928, and recorded in Volume 31, page 91, of the Terry County Deed Records, to which reference is here made for all purposes, and levied upon as the property of W. E. Henson and that on the first Tuesday in November, 1931, the same being the 3rd day of said month, at the Court House door of Terry County, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said W. E. Henson.

An in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Terry County Herald, a newspaper published in Terry County.

THE STATE OF TEXAS COUNTY OF TERRY NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Terry County, on the 6th day of October, 1931, by H. R. Winston, Clerk of said District Court for the sum of Two Thousand Four and 22/100 Dollars and costs of suit, under a foreclosure of Vendor's Lien, in favor of A. M. Brownfield in a certain cause in said Court, No. 1549 and styled A. M. Brownfield vs Robert Holgate et al, placed in my hands for service, I, J. M. Telford, as Sheriff of Terry County, Texas, did, on the 6th day of October, 1931, levy on certain Real Estate, situated in Terry County, Texas, described as follows, to-wit: A part of Section Number 12, in Block "C" in Terry County, Texas, described as ten acres lying just North of Small Street and East of "D" Street, being 300 yards in length east and west by approximately 162 yards wide north and south and bounded on the North by a ten acre tract that was heretofore sold by A. M. Brownfield and wife to Chas. C. Triplett, less, however, a tract beginning at the Northwest Corner of this 10 acres tract; thence East 65 feet; thence south 150 feet; thence west 65 feet; thence north 150 feet to the place of beginning, and levied upon as the property of Robert Holgate, Louise Holgate, Phillip Holgate, Shelby Holgate and Zellica Holgate, and that on the first Tuesday in November, 1931, the same being the 3rd day of said month, at the Court House door of Terry County, in the town of Brownfield, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Robert Holgate, Louise Holgate, Phillip Holgate, May Holgate, Richard Holgate, Shelby Holgate and Zellica Holgate.

JOE J. MCGOWAN Attorney-at-law Office in Courthouse.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Terry County Herald, a newspaper published in Terry County.

We Can. Will We?

Last year for the first time in two or three years Brownfield defeated Meadow in the Interscholastic League meet. This year Meadow will come back at us strong and hard. Are we going to let them beat us? If we win, each student must do his part in helping to do so. To win such a contest the school spirit must be the driving force. If every one is pepped up and loyal to his school we are bound to accomplish something. Why has Meadow come out victorious in the preceding years? Their school is smaller and there are fewer students to participate in activities, yet they have been winning. Meadow won, not because their material was better, but because they began to make preparation early in the year for the various events, and because they had their hearts set on victory.

We have defeated them once, and we can do it again. You might hear a student say, "I can't debate" or "I can't declaim." I wonder if such a student has ever tried? Do your best and no more is expected. Let's put this over big. We can, will we?

Our New Test Plan

This year we have adopted a new plan for taking our monthly tests. The first Wednesday in each month is test day for those who have classes the first and fifth periods, the second Wednesday is test day for those who have classes the second and sixth periods; the third Wednesday is test day for those who have classes the third and seventh periods; the fourth Wednesday is test day for those who have classes the fourth and eighth periods.

In this way instead of having all the tests in one week, you can't have over two tests a week. This gives you more time to study for the tests and also gives you time to make up your daily grade before the end of the month if you have failed on a test that you took the first or second week. This way you have one test in each subject once a month. The test is shorter and you are able to make better grades in test than before, for you have more time to study. This new plan benefits each person in several ways.

The sad part is, after all of this trouble, paper and time spent in studying and taking the test. The monthly test grade only counts one third of your monthly grade.

The Sounds I Like To Hear At Night

Among the sounds I like to hear at night are the lonesome sounds of nature, such as the hooting of the owl, the howling of the coyote, or the low moaning of a far-off train.

The hooting of an owl in the distance gives me a weird feeling, especially if I am alone, and I seem to feel that I am the only human being alive. Then if the owl is accompanied by the howling of a coyote or two, the lonesome creepiness almost overpowers me and I wish I were a small child again so I might huddle between my parents as they sit around the fire. But the sound that appeals to me most is the long moaning of a mid-night locomotive. I lazily open my eyes turn over, lie in lonesome brooding, wondering about the thing of power, and who controls it and if he enjoys sending forth the lonesome tones to other ears like mine.—Student Theme.

Boy P. T. Class Meets

The boys physical training class had another one of those football games last Wednesday, September 30. Although hardly any of the class is coming out for football, they seem to be making considerable progress toward learning to play the game. If they continue to have these games instead of the ordinary calisthenics, they may even be able to compete with the regular team. In fact a team with the regular team. In fact a team class that would hold them tight in a game now.

In this game Wednesday the sides seemed to be rather unevenly divided probably due to the fact that some of the best players were at the fair at Lubbock. It was some help though for the side having the least number to have the heaviest and best players. In spite of this fact though, the game ended with a score of eighteen to six in favor of the side with the most players. The side beaten intends to stage a comeback next Monday and

even up the scores if all their players are present and feeling fit.

School Midget Improves Beauty

Miss Venus Casin, a very obliging young lady of our school, as a favor to our up and coming young sophomore B. F. Moore; dyed his hair red. This was a surprise to all the members of our school as we had not suspected him of trying to improve his looks by hennaing his hair. It is agreed by all that this is very becoming to him as he is freckled and red hair goes very nicely with freckles. B. F. always little and as red as a screaming color; we will call him little but loud. As for Miss Casin we think she has the makings of a great beauty parlor expert.

Cubs Suffer Another Defeat

The Cubs played Floydada Whirl Winds at the Lubbock Fair Thursday, October 1st. Although the cubs were defeated they made Floydada fight hard for what they got. The score was 13 to 6 in favor of Floydada. All of the boys did their best. We had a new man on team, Woodrow Scuddy, who was knocked out the second quarter of the first half. He was the only man that got knocked completely out though several got hurt, but not seriously.

The Pep Squad all went to the game. This was the first game of this season that the Pep Squad has been able to attend. The girls did their best to make the boys feel that they were backing the team.

Girls P. T. Class Meets

The girls P. T. met October 2nd at the second period. The basket ball had no air in it; so we took exercises and played several games. Everyone seemed to enjoy the games, as it was somewhat different from what we had been used to. We played one new game which was unusually funny to us because we had never played it before. The name of it was croquet. A freshman, Texia Schawater taught us how to play it. When Martha McClish, Ethel Pippin, Wilma Frank Dunn, and Anna Leatha Hamilton finished the game they had decided it was a real game. At least their knees were really skinned. Just as we had decided to quit our interesting game the bell rang.

Freshman Class Organizes

Wednesday, September 23rd, the Freshman class organized. The officers elected were: President, Bill Savage; Vice-President, Bonnie Dale Gross; Secretary, Wilma Frank Dunn; Reporter, Queenelle Sawyer.

Can You Imagine

Mary Dee Price trying to reduce? Marion Chisholm failing in her studies? George B. Hancock with black curly hair? Johnnie Corning tall and slender? James Parker Davis silent for two minutes? A. C. Smoot without a wise crack? Kyle Adams, "Our Ladies Man"? R. W. Rambo and B. F. Moore working double in a donkey cart?

Why I Should like to be a Millionaire

There are many reasons why I should like to be a millionaire. I should like to be a millionaire because I could have a big car to ride in when the days are pretty and the nights are moonlight and warm. I could have pretty clothes to wear, and when I would go anywhere I could buy all the new clothes I wanted I could have a fine home to live in where I could have my friends and have parties and entertainments. I could travel all over the world if I wanted to. I could go to all the different resorts in America, and her possessions in the different oceans, the Hawaiian Island, Cuba and Porto Rico. Then I could travel in the foreign countries till I should be ready to come back to America.

For all these different reasons I would like to be a millionaire, but there is still another and more different reason. I would like to be a millionaire so that I could help the poor, donate money to charities, churches and different worthy causes. I would like to help build churches and schools. I would like to give money to many poor boys and girls, who are unable but willing to educate themselves.—Student Theme.

Cubs Down Seminole Indians Again

The Cubs played Seminole Indians here Friday, October 2nd. The scores were 13 to 6 in favor of the Cubs. Most all of the boys got to play in this game. The Cubs have defeated the Seminole Indians twice. Everyone are proud to see the boys win.

Local Pastor Addresses High School

The High school students were fortunate on Thursday October first in hearing a helpful message from our Methodist minister, Rev. Geo. E. Turrentine.

He spoke to us on "The essential

factors of true success," naming as these elements: having a purpose goal, self confidence, self control, courage, enthusiasm, concentration, hard work, cheerfulness, honesty and perseverance.

James M.—I was sent to the office this morning.

Martha M.—Now what did you do? James M.—Mrs. Roundtree sent me down with the absentees.

Girls Health Class Meets

The girls met in the auditorium Tuesday morning, October 5th at the usual health period. Ruth Henson gave a talk which related to Cleanliness in the Kitchen. Margene Griffin also gave an interesting talk, her subject was "Methods of Cleaning." Following this talk Miss Perkins read an article from Dr. C. M. Carrick on "Just A Headache," which was very interesting. The health program is a great benefit to the girls.

Miss Long: (To A. C. who was entertaining a group of girls) A. C. will you carry my books upstairs?

A. C.: (Ready to oblige) oh, yes Mom, with pleasure.

Girls: (To Miss Long) Aw, Miss Long, give us a break.

Kathleen Hardin: I want "a certain rich man."

Librarian: Why be so particular? Wouldn't just any rich man do?

One Boy's Idea Of An Ideal Teacher

If I were a teacher I would want to teach the second or third grade, because teachers of those grades don't have to plan as much, or work as hard and they don't have to grade themes, papers, or notebooks. If I should happen to get a high school position I would not want to teach general science, chemistry or English, because teachers of these subjects have too many notebooks, papers, or themes to grade.

No matter what grade I should teach, I would not have the children to keep a notebook, write themes or bring their lessons up on paper. I

would give them good grades and the class would not bore them almost to death for we would have a little fun sometimes during class time. I would exempt most of the pupils, but if any of them had to take an examination I would give them the most common questions or I would give them true and false questions.

The main reason I would do all of this is that I should remember when I was in school how I hated to write themes and take examinations. Another reason is that I would remember how dry our class was sometimes.—Student Theme.

Mr. Lawlis: (In chemistry class) Vernon, is there ever water in the air?

Vernon: Yes sir, when it rains.

Miss Perkins: (Explaining the benefit of staying out of doors at noon) You really don't need to come in. Stay out there and enjoy the fresh air and talk to your fellow—

Bob—(interrupting) What if your "fellow" isn't out there?

Miss Perkins—Then talk to your fellow students.

Mr. Hayhurst—(after reading from the declaration of Texas Independence) Someone please tell me who the Supreme Arbiter of the destinies of nations is.

A period of silence followed during which you could almost hear the wheels go round.

Carmon Anderson: Herbert Hoover, I guess.

Where Accuracy Counts

In the struggle against illness the physician must be aided by medicines of quality. He writes prescriptions and depends upon the druggist to compound them with care when we fill your prescription every detail of the process is carefully studied, and in addition we use only the highest quality of drugs and chemicals.

A Pound of Butter

Takes a Ride!

OFTEN a pound of butter takes a ride of a thousand miles to find its dinner table!

In more than a hundred produce plants, Swift & Company is taking the butterfat, eggs and poultry of its 200,000 farm patrons daily, paying cash for them and sending them into national channels of distribution.

Thousands of miles of leased telegraph wires keep Swift & Company executives informed where these products command the best prices. To the best markets are rushed the surpluses of over-supplied districts. Lacking a national market like this one, many a pound of butter—and many an egg, too—would grow useless right at home, or else be sold at much less than present prices.

To distribute produce as well as quality meats, Swift & Company uses all the facilities of its over 400 branch houses and its 600 refrigerator car routes. Its great organization has 55,000 employees living in hundreds of towns where their pay checks help support community interests and trade. They are local men doing a national job, relieving producers of all selling worries and minimizing local gluts and shortages.

A nation-wide marketing system for poultry, eggs and butterfat must render a complete service, covering purchasing, grading, refrigeration, transportation, selling and delivery. The system functions smoothly when one concern undertakes all these steps. Swift & Company performs all these services at the lowest possible cost. Swift & Company profits from all sources, over a long term of years, have averaged less than a half cent a pound.

AMONG SOCIETY FOLKS

Mrs. Ike Bailey, Editor

Phone 160

BAPTIST CIRCLES

Circle No. 1 met at the home of Mrs. Alexander Monday. Six members were present and enjoyed the study of the first three chapters of 2nd Corinthians, led by Mrs. Thomas. Sandwiches, butter Scotch pie and ice tea were served. Next Monday's meeting will be at the home of Mrs. Bond.

Mrs. J. C. Green was the hostess to No. 2 Circle. Their Bible lesson was a review of the book of Esther. Next Monday this circle will meet at the home of Mrs. McDonald.

Circle 3 met Monday with seven members present. The 13th to 20th Chapter of Exodus were studied and discussed. Officers were elected for the year. Mrs. McBurnett, chairman; Mrs. Dunn, Co. Chmn.; Mrs. Pounds, Secretary Treasurer; Mrs. Howell, Benevolent Chairman; Mrs. Alewine, Mission Chairman; Mrs. Hale, Mission Study Chairman; Mrs. Frye, Wayland Endowment Chairman; Mrs. Simmons, Educational Chairman. It was voted to send \$3 to state missions. This circle will meet at the church next Monday.

NEW OFFICERS ELECTED

The young Matron's Circle of the Baptist W. M. U. met Monday at the home of Mrs. Wayne Brown. Bible

study was conducted by Miss Long. The following officers were elected for the ensuing year: Chairman, Mrs. Green; Co-Chairman, Mrs. Stewart; Secretary, Mrs. Wayne Brown; Treasurer, Mrs. J. Benton; Personal Service Chairman, Mrs. Bailey; Mission Chairman, Mrs. Cave; Benevolent Chairman, Mrs. Nelson; Educational Chairman, Mrs. Hilyard; Publicity Mrs. Hill; Stewardship Chairman, Miss Long. Next circle will meet at the home of Mrs. Jack Benton. This circle has completed a Dutch Girl quilt which they intend to sell, the proceeds to go to the Orphan's Home. Anyone interested in such a quilt should see the chairman, Mrs. Green.

HOME MISSION LESSON

The Missionary Society of the first Christian church met Monday for a lesson on Home Missions, led by Mrs. Holder. Seven members were present. The lesson for next time will be the Restoration of the Jews.

METHODIST SOCIETY

Eight members of the Senior Missionary Society met at the Methodist church Monday. The last Chapters of the book, Methodism and Kingdom Extension, were discussed. The Society will meet next Monday for a lesson on the Missionary Voice and a business session.

NEW WORK DETAILED FOR PRESBYTERIAN MIS. SOCIETY

At a meeting of the Presbyterian Missionary Society Monday, officers were elected and plans outlined to make this society a standard organization, to be federated with other Presbyterian Societies of Texas. Mrs. Weir was elected president; Mrs. Dallas, ice-president; Mrs. David Perry, Secretary and Mrs. H. W. McSpadden, Treasurer. Several committees were appointed. Mrs. Surface gave a very interesting talk with blackboard illustrations of Presbyterian Mission work in home and foreign fields.

BIBLE CLASS

The church of Christ Monday Bible Class had for its lesson last Monday the 15th Chapter of First Corinthians. Fifteen members were present. The lesson next Monday will be the 16th Chapter and a review of the book.

FORTY-TWO CLUB MEETS

Mesdames McSpadden, Brothers, Hamilton, Glenn Harris, Kendrick, A. Sawyer, Murphy, Robertson and Weir, Miss Perkins, Mr. F. M. Ellington and Mr. C. F. Hamilton enjoyed the play of several games of Forty-two Friday afternoon when Mrs. Ellington entertained the Friday Forty-Two Club. Prizes were given for high table cuts and for high and low cut. Ice cream and cake were served.

Mr. H. W. McSpadden Jr. of Amarillo has been visiting his parents, Mr. and Mrs. H. W. McSpadden.

I-DEAL CLUB ENTERTAINED

The approach of Halloween was heralded in the decoration tallies etc., used when Mrs. Leo Holmes entertained the I-Deal club at her home Wednesday afternoon. Goblin salad and sandwiches were part of the refreshments. Those enjoying the occasion were Mesdames Bowers, Carter, Collins, Endersen, McDuffie, Mc-

Gowan, F. McSpadden, Harris, Hilyard, Pyeatt and Sawyer and Miss Taylor. Table cuts were given to Mrs. Bowers, Mrs. McGowan and Mrs. Harris while Mrs. Pyeatt won the high score.

Mr. and Mrs. Gillum Graham, accompanied by Mrs. E. A. Graham and Twilla drove to Blackwell, Friday to bring Mrs. M. V. Brownfield home. Mrs. Brownfield has been visiting relatives there and at Sweetwater.

Miss Eileen Ellington is attending Tech this year.

Mrs. Roy Wingerd and Miss Marie Bell drove to Odessa Friday. Miss Bell will stay there with her sister, Mrs. Peques. Mrs. Wingerd returned home Monday.

All Circles will have Royal Service programs Monday.

Miss Elizabeth Dumas and Mrs. C. A. Quiet are visiting in Sweetwater and Nolan this week.

Mrs. Orb Stice returned to her home in Lovington, Sunday after spending about a week here visiting her parents, Mr. and Mrs. Kendrick.

CONTESTANTS LEAVE FOR STATE AUDITION TUESDAY

Mrs. W. H. Dallas, chairman of the local contest of the Atwater Kent Radio Foundation, with winners from Brownfield, Miss Velma McClish contralto singer, and Mr. Girlie Chapman, tenor, left Tuesday morning for Dallas, Texas where they appeared in Radio Concert Wednesday and Thursday, singing over W. F. A. A. The Brownfield and Tahoka delegations, made the trip together, by cars. Mrs. Rubie D. Suddareth, Tahoka chairman was one of the six judges in the local contest here in our city.

11TH BIRTHDAY

A number of the friends of D. A. Thompson gathered at his home to join with him in the celebration of

his 11th birthday, Wednesday afternoon. After playing a variety of games the guests were served ice-cream and cake. D. A. is the son of Mr. and Mrs. B. L. Thompson.

Donald King and Dell Smith spent the week end at home.

Mr. and Mrs. S. A. Treadaway and baby, of Athens, spent several days this week in Brownfield visiting relatives.

Mr. and Mrs. Jno. S. Powell enjoyed a week-end visit from their daughter, Mrs. Rufus Rush of Lubbock.

Mrs. Rance King and little son, Robert Jay of Lubbock are visiting her sister, Mrs. Arthur Sawyer.

Mesdames Collins, Downing, Hilyard and Herod made a trip to Lubbock Thursday, visiting there with relatives and friends.

Mesdames Cave, Kendrick, Lewis, Endersen, McDuffie, McGuire, Wingerd, Mrs. Rance King of Lubbock and Miss Rotlie Hardin were the guests of Mrs. Ike Bailey Tuesday afternoon at an informal bridge party. High score was won by Mrs. McGuire.

Mrs. J. E. Shelton's mother, Mrs. Lyle, who has spent most of the summer here left this week for her home in Waco.

CLUB MEMBERS AND FAMILIES PICNIC

A new contract Bridge club was inaugurated Monday night with a picnic of the membership and their families at the sandhills. A complete chicken supper was enjoyed by Messrs. and Mesdames A. M. Brownfield, Tom May, Shelton, F. Smith, Storey, Wingerd, McGowan and their families. Other members who were unable to attend, are Mesdames Bell, Bowers, A. R. Brownfield, Copeland and Dallas.

1930 BRIDGE CLUB

Mr. and Mrs. Claude Hudgens were hosts to the 1930 Bridge club Tuesday evening. Club members present were Messrs. and Mesdames Bailey, Jacobson, Lawlis, Pyeatt and Mrs. Carter. Other guests were Messrs. and Mesdames Endersen, McDuffie, Bowers, McGuire, Wingerd and Miss Taylor. A tie for man's prize was won by Mr. McGuire. The ladies prize a set of fancy clothes hangers went to Miss Taylor. Halloween decorations, tallies and refreshments were appropriately used.

Mrs. P. F. Lawlis returned this week from Mineral Wells where she spent the summer.

MAIDS AND MATRONS RESUME WORK

The first meeting of the year was held by the Maids and Matrons club at the home of their President, Mrs. A. M. Brownfield. Current business was discussed. Mrs. Crews gave a prospect of the club work for the new year. Punch and cakes were served to the following members: Mesdames Bell, Crews, Gracey, Hamilton, Jacobson, Randal, Stricklin, Toone, Weir, Wingerd and Miss Fitzgerald and to Mrs. Terrell Toone, guest.

Mr. and Mrs. Terrell Toone and baby are visiting his parents, Mr. and Mrs. W. B. Toone.

DEATH... entered the room with her

go on? I was frantic—at any cost I'd save my precious child. And so, on that fatal afternoon, I went to Paul-Louis' apartment to beg—to plead—even to kill—when—"

"SHOULD a woman accept the moral code of the man she marries," this confessing woman writes, "even though it drags her through the suffering silence of hell?"

"I loved my husband, Paul-Louis—loved him with all the yielding devotion of a country girl from Illinois. But he was French, a foreign gentleman with a foreign code of morals. He fouled my lips with faithless kisses—and threatened to rear my baby boy to worship his wayward attitude toward young womanhood. "How could I—how could any woman endure such torture and still

Here, into this thundering climax, Fate hurled a bolt that shook the very depths of this suffering woman's soul. If you love all that is clean and fine in life—if ever you have been tortured with the helpless thought of a loved one's selflessness, here is a tremendous true-life story that will grip you through every starkly-told detail. The story is called HER LORD AND MASTER. You will find it complete in November TRUE STORY MAGAZINE—just as it flowed from the pulsing pen of the brave woman who fought for the Right. Get your copy of True Story—get it today—read it today! True Story Hour is now broadcast every Monday night over WEAZ and N B C Red Network. 10 o'clock New York time.

Bob Owens

Southwest Corner Square

Brownfield, Texas

Mr. "Lucky" Pace and Miss Helen Graves, the later of this city and the former of Wellman, were married Saturday, 26th, but we learned it only this week. They are making Brownfield their home.

Mr. S. P. Bass, manager of the Washington Gin in the Union community reports that he has ginned around 200 bales, but has been broken down twice. He believes he is all set now however, for a steady run.

Virgil Bynum is on the sick list

Contract For Hot Top On Seagraves Road

Gaines County Commissioners closed a contract with Thompson and Simpson, road building contractors, of San Angelo, on Wednesday of this week, for a one-course hot top on the 10 miles of county road from Seagraves east to Loop, the contract price being 12.8 cents per yard.

The contractors are to furnish all gravel, asphalt and labor in completing the road. And as has been the policy in the past on this work nothing but Gaines county labor and trucks are to be used.

Gravel to be used on the job, about 50 carloads, has been ordered out and some of it is supposed to reach Seagraves the latter part of this week, as well as other materials to be used in this work.—Seminole Sentinel.

THE MACHINE AGE HAS JUST STARTED

Chester T. Crowell, in The Rotarian Magazine

The machine age is popularly supposed to have been ushered in when the great cotton-spinning industry began to flourish in England a century or so ago. Actually, the age of the machine is just arriving, and only dimly do we appreciate that fact's significance for business and the art of living.

The age of automatic, semi-automatic and one-third automatic machinery driven at high speed for mass production on tremendously large scales is, except for certain spots on the globe, not over ten years old!

Nearly all such machinery is driven by electric motors drawing electricity from large central generating stations. In the United States, alone, since 1919 there has been an increase of 6,500,000 horse-power of energy used through electrical motors in factories. The capacity of electrical public-utilities generating-plants has more than doubled since 1920. In 1920 all of the primary power in the United States, no matter whether generated in manufacturing plants, public-utilities power stations, mines or quarries, totalled only 45,201,000 horse-power; in 1929 this total had moved up to 66,000,000.

So, when we talk of "Modern industry," we are indeed dealing with something very new. And it is vitally important that we remember that fact when we give the demagogue and class-conscious revolutionist a hearing on the causes and cures of the present depression.

It is true that we can produce more goods than we can consume. More than that, with a little organized effort it would probably be possible within three or four years to mobilize industry so that we could produce an annual average of three to five times the amount of goods that the world has ever thus far consumed in a year of good times. What a vastly different problem this is from the historical struggle against famine. We are inclined to forget, when soup kitchens are feeding thousands of unemployed and tales of food shortages come out of China, that for uncounted centuries man's great struggle has been against no food at all.

FUNERAL HELD AT PLAINVIEW FOR R. E. (BOB) MYERS

Funeral services were held at Plainview last Monday week for R. E. (Bob) Myers, 58, Plainview groceryman and former traveling salesman, who died Sunday morning at his home in Plainview following a prolonged illness.

For more than 20 years Mr. Myers was associated with the Noble Bros. wholesale grocery in the capacity of traveling salesman and credit manager. He was well known throughout the South Plains section and had many friends in Crosbyton and Crosby county. He was probably more widely known than any other salesman making this territory, being known to old timers and new comers alike.

After the sale of the Noble Grocery Company a little more than a year ago, Mr. Myers entered the retail grocery business in Plainview. He had been in ill health for the past six months.—Crosbyton Review.

Felix Dennis, formerly of Brownfield, but for the past several years a citizen of Roswell, was in last week after supplies, as he is now operating a farm in Lea county, southwest of Broncho, Texas. Felix is also raising some sheep on his section of land and says he is doing nicely stock farming.

EVERYTHING HAS BEEN ATTENDED TO

Where you use Natural Gas for a fuel, and your stove or furnace is connected, you find all your requirements, whether for heating or for kitchen range, have been attended to, far in advance of your need. This is a species of preparedness that we would like you to consider.

Your use of gas may probably be trifling, during the warmer months, but all the resources of a great company, to give you 100 percent service 365 days in the year, are maintained in full efficiency, in order that you may be fully protected throughout the winter. We like you to know this; we like to tell you, otherwise you might not know it.

WEST TEXAS GAS CO.

The Pick of the Crop FOR CANNING

The finest, most perfect fruits and vegetables are gathered here, ready for you to can them for future use. When bought by the basket you save considerably more than when buying by the pound or dozen. Leave us your order for quantity amounts.

Why It Pays to Buy Foods at This Quality FIRST STORE

It is always wise to buy where quality is best, but when that best quality is obtainable at inferior quality prices, then you have the doubly sound reason for buying at a quality first store.

MURPHY BROS.

LOST — \$500,000,000

Fire Prevention Week—Oct. 4th to 11th. Do you know that fire alone kills over 10,000 people and destroys almost \$500,000,000 in property annually?

Did you know that four out of five of all the fires we have are preventable?

Do your share to prevent fires—make it a fire prevention year in place of a week.

THE "HIDDEN QUART"

That Stays up in the Motor and Never Drains Away

— is Worth its Weight in Gold to Any Motorist!

It's not the mileage your speedometer shows that makes your car wear out quickly, lose power and need costly repairs. It's motor wear, caused by friction, that does it! And almost half of all this motor wear occurs while you're starting. Cut down starting wear and you'll give your motor longer life.

That's just what the "hidden quart" of Conoco Germ Processed Motor Oil does! It stays up in your motor and never drains away and thus cuts down starting wear! Ordinary oils drain away, leaving working parts unprotected until oil is pumped from the crankcase through the motor, which takes several minutes. Conoco Germ Processed Motor Oil penetrates and combines with metal surfaces of working parts, stays there and never drains away. The "hidden quart" safely lubricates every cylinder, piston and bearing the instant you touch the starter.

The "hidden quart" is worth its weight in gold to you! From the first fill with Conoco Germ Processed Motor Oil, you'll have this "hidden quart" up in your motor, giving safe lubrication at all times, lengthening your motor's life. Drain your crankcase now — fill with Germ Processed Oil at any station displaying the Conoco Red Triangle.

**ERA OF MILLION DOLLAR
CHURCH BUILDINGS IS HERE**

New York, Sept.—If Christ came to earth again, would he worship in a million dollar church? Some big city pastors think so. They also have the notion that he would approve of clustering club-rooms and bowling alleys around the Church sanctuary.
Million-dollar churches devoted to recreations as well as worship are no longer unusual, says Wayne G. Miller in the American Architect; the recently dedicated Riverside Church in New York City is said to have cost more than five millions; the East Liberty Presbyterian Church of Pittsburgh is being planned to cost that much or more. Nearly every large city points with pride to from one to half a dozen churches costing in the neighborhood of a million.

GENE TUNNEY DISILLUSIONED

That observant young man, Gene Tunney, has been disillusioned. He went to Russia, hoping to find there a solution of some of the problems that seemed to be going rather badly in the United States. The idealism of Communism and the pat political phrases of the Soviets had captured him.

A month in Russia was enough to convince him that Bolshevism is no magic password to civic happiness. The idealism he had looked for was not there.

Nevertheless, Gene has added conspicuously to his mental stature by his observations in Russia, which he is recounting in Collier's Weekly. He shows himself a thoughtful person, alert and articulate.

Russia's atheism shocks him even more than its communism. He protests vigorously against the desecration of churches and the denial of God.

"I don't believe organized religion can be kept suppressed," he insists. "Humanity must have it. When calm comes to Russia, they'll need some form of church. In Moscow today you hear only on moral code—atheism. You hear it in arbitrary places, community houses and through radio. When speeches are made, they're made by ladies and gentlemen designated by the Soviet. And lest they fall into human error and depart from the rigid pattern, every word they utter is submitted first to the proper authorities, who long ago let it be understood that it would be unwell for the professional orators not to depart so much as a syllable from the authorized version.

"The government takes no chances at all. At important public squares are a number of loud speakers, well-built, enduring, dependable. At six in the morning they open up. Through their huge mouths, until one o'clock in the morning, pours propaganda by which the worker is informed of the terrors, the evils, the menace and the mission of Christianity—of any and all organized religions. Religion is the drug manufactured by the slavery while he sleeps."

Tunney learned more in his trip through Russia than most American tourists. His mental attitude is an example to all travelers.—National Business.

EAT SURPLUS WHEAT

(Kate T. Cory)

They don't raise much wheat out in Arizona, but they evidently know how to use it. Come the following from the desert:

Get from your grocer "in bulk" good fat grains of wheat; five pounds at first, but you'll want more soon. Soak it, (hot water hastens) Cook it,—well

Salt it. And you have the best cereal ever served on a breakfast table.

Little drops of water, Little grains of WHEAT.

You wash and soak and boil them And then you salt and eat.

Oh, yes you've got to chew them; You chew and chew and chew! Ha! ha! says Dr. Meryface,

"I've begged them that to do!"

And thus our crushing surplus Disposed, man's needs to meet; With little drops of water,

And little grains of wheat.

HOW THE BULLETINS READ

Down in a Virginia town the aged colored pastor of one of the churches fell ill not long ago. He was beloved by all the members of his church, and a constant stream of anxious friends rang the bell to make inquiries. The nurse in charge was an intelligent negro woman and she decided to issue bulletins at frequent intervals. She wrote them herself and pinned them to the front door; this is the way they read as they appeared successively:

"Rev. Blank am very sick."

"Later—Rev. Blank am worse."

"Night—Rev. Blank am sinking."

"Morning—Rev. Blank have sunk."

Note the nice ad of Collins Dry Goods in this issue. Not a sale says they—just their regular low prices.

Marathon—Chisos Mining Co., shipped 375 flasks of mercury during late week.

**DOUBLE FENCE AROUND
LOUISIANA**

While Governor Long of Louisiana has kept busy telling the governors of other States what to do to cure the ills that beset cotton, States bordering on his domain are busy constructing double fences along the Louisiana boundary lines to keep out the Louisiana cattle ticks. The State of Mississippi, on the East, is entirely free from ticks, and a double fence of wire has been constructed the entire length of the boundary line for protection. The State of Arkansas is cleaning up the few remaining counties under quarantine and is constructing a double fence to protect them from Louisiana infested territory. The State of Texas, owing to its immense territory, has considerable work to do in the Southeast section, but fair progress is being made. Practically all the Northeast section is clear, and it has been suggested that the border counties of Bowie, Cass, Marion, Harrison and Panola be protected from Louisiana ticks in the same manner as Arkansas and Mississippi. The rest of the boundary line is formed by the Sabine river, which will prove ample protection, especially in its lower reaches.

Louisiana has a fairly good law for the eradication of ticks, but it is made inoperative by lack of money to enforce it. We understand that Governor Long has never approved of appropriating money for this purpose.

As Andy would say, Louisiana farmers are getting into a pickle. Forbidden to grow cotton, they cannot expect to produce feed-stuffs and market them profitably through tick-ridden beef and dairy cattle. Governor Long has other problems to solve after he finds an answer to the problem of overproduction of cotton.—Farm and Ranch.

Bill Allmon, of Floydada came in last week and will help his brother-in-law, Curtis Huckabee gather his crop.

Mrs. Luther Cruce carried her mother to Lubbock this week to be examined by a specialist.

Mr. Carter of Floydada came in this week on a visit with his son, Ralph and family.

Boy! it sure has been some hot this week for October.

(Leaders in Quality Merchandise at Popular Prices)

MARS, BILL-COLLECTOR

There is one chap who is riding the depression high, wide, 'n' handsome, as the cowboy say. He is Mars.

Mars' business is wars. But when warring is a bit slack, Mars varies his vocation with bill-collecting. Right now Mars is bill-collecting. And if President Hoover has his figures aright, Mars this year is going to collect from nations of the world the rather tidy total of almost five billion dollars for arms. Five billion dollars for arms in a year of comparative peace.

Whether the five billion in Mars' looks for 1931 is for the "war to end war"—past, lo! these twelve years— is rather hard to say. Mars is crafty. Perhaps he is collecting in advance for wars yet to be fought. Anyway, he gets his money. He always has. He never is loath to demand his pound of flesh. Nations may not be able to

pay their school teachers more than pittance, may let cobwebs hide gaping library shelves, may abandon public improvements. Mars doesn't worry. He gets his money.—Rotarian Magazine.

GANDHI IS "BONE DRY"

According to an Associated Press dispatch from Bombay, June 25, Mahatma Gandhi declared:

"If I were appointed dictator for one hour over all India, the first thing I would do would be to close without compensation all liquor shops, destroy all toddy palms from which liquor is locally extracted, compel factory owners to produce humane conditions for workmen and open refreshment and recreation rooms where workmen could get innocent drinks and equally innocent amusement.
"Exceptions would be made in

the cases of Europeans and diseased persons, for whom a supply of liquor was medically necessary."

QUICK THINKING

A darky and his "yaller" girl were walking along together.

"I see skeered mos' to def, Rastus."

"What am yo' skeered ob, woman?"

"I see skeered yo'se gwine to kiss me."

"How kin I kiss yo' when I see got

a bucket on ma haid, a wash pot in one han' an' a turkey gobbler in de udder?"

"Oh, well, I wuz thinkin' yo' could set de bucket of watah on de groun', put de turkey down an' turn de wash pot ovah him, den set me on de wash pot, frow yo, ahms around me an' des hep yo' sef."
