

## "BROWNFIELD HAS NO OCCASION TO TALK ANY DEPRESSION"

### Chamber of Commerce

By the Secretary  
Trade at Home

If you buy out of town and I buy out of town and we all buy out of town, what will happen to our town?

The above was taken from the bulletin of the Retail Merchants Association of Lubbock, and would indicate that they have a lot of people who don't think that the home town stores are entitled to any business or that the quality is not such as they think they are able to secure from the city owned store or mail order house.

Brownfield, is up against the same proposition, and the writer has never been able to figure the viewpoint of people whose prosperity is based upon the prosperity of the town and county and yet at the same time purchase the most of their supplies from stores that are located in other and maybe larger towns. However we don't claim to be "world fixers" and don't know that there is anything that we can do to remedy it.

#### Applications For Charity

The chamber of commerce has had several applications for charity during the last few days and in one instance in which it seemed to be an urgent necessity, we did render limited assistance, the others were advised to search for a cotton patch. And this is a mighty good time to advise the public in general that we do not have any charity organization in Brownfield and that the funds of the chamber of commerce are not sufficient for us to undertake to handle the charity cases and unless an association is organized and funds provided for its use, applications for assistance are just going to have to solicit the town.

#### No Rodeo For Shelton

The chamber of commerce had a chance to sponsor a Rodeo, to be pulled off on Thanksgiving Day, but passed it on to some of the other organizations to take over if they cared to do so. Our past experience with affairs of this kind, especially the last one, has not been such as would cause us to run any races in order to get in on the proceeds.

#### No More Pickers Wanted

Cotton pickers are a drug on the market and we are getting letters every day from people who want to come here and pull cotton but we take especial pains to get a letter to them on the first mail and advise them to stay away. Daily calls are also being made upon us for places, but we have no where to send them except out of the country and in fact we have placed several families in the Pecos Valley during the past week. They are still able to use a few families in that territory but will probably be over run within the next few days.

#### Spend Your Money At Home

When you plank down your cash at the store in some other town, you kiss it goodbye. You may think that you are saving money, but usually it is bait and you don't save in the long run. What good does such a transaction do your home town. The merchants in the other town do not pay any of the taxes of this town, neither do they contribute to your churches, your schools, your streets, your fire department or any other activity that is calculated to make a better town of your town.

Well we seem to have this trade at home idea on the brain this week and as a matter of fact have had it in my system and wanted to get it out for some time. Now maybe I will feel better from "a deed well done." Don't want to offend anyone, but do want them to get to thinking along the right line.

### Yoakum Co. Singers To Meet at Turner

We are requested by Mr. J. W. Raley, of Plains, to announce that the next meeting of the Yoakum county Singing Convention will be held the fourth Sunday in this month, November 22 at the Turner school house in that county.

All good singers from adjoining counties are invited to come and participate in the events of the day.

### YES—WE STILL HAVE MANY HONEST PEOPLE

Not All Honest People are Dead Ones By a Jug Full. The Old Timers Had No Use For Locks; Just Used a Latch and It Was on Outside. Stranger Wants Key to Door.

Sometimes we old timers love to get together and talk of the good old days in Terry county when we made our houses without a lock on them, and even if a lock was made on the doors we straightway forgot where we put the keys and thought no more about the matter. The same was true of our cribs, our meat houses and our coal bins. In those good old days one could leave their homes for weeks, months if they wanted to and come back and find everything just as we left it except perhaps we might have to sweep out a gom of sand that had collected in the meantime. But those old days are gone forever.

Last week one of our force brought the mail over from the postoffice and carelessly lost a letter containing a check for the rise of \$72.00, but it was found. Of course there are people here and there who will perhaps say that an editor never had a check that large, but this story is true for once. F. E. Walters found the letter. It looked so little and light—only the check in it—he started to throw it down again, but opened it instead, and brought the check to us. It was drawn on an out-of-town bank and could easily have been endorsed and no one would have been the wiser. But he didn't, for Frank

### Showers Friday—Also Rain Late Monday

Terry county has been having more than her share of moisture of late, it seems to us. In fact, we are very willing that it clear up now for awhile and stay that way till March if it wants to. Otherwise it can do as it pleases, which no doubt it will do—generally does. It seems however, that it is hard to fit the weather to all occasions, and we were hoping that it would give us about three more weeks of open weather in which the farmers would be able to get out most of their cotton, practically all of it with the present help before real cold weather hit us.

Up to late Friday night, we had three weeks of as pretty gathering weather as one could wish, and thousands of bales of cotton had been harvested by the farmers, but something like half of an inch of moisture fell last Friday late that put a crimp in the gathering Saturday, and as a consequence the crowds began rolling in Saturday morning. As a result, the merchants had a good morning's trade as well as a big afternoon business. But the clouds had cleared away, and it looked like we would have another pretty week before us.

By Sunday afternoon, however, the thunderheads and "mare's tails" begin to appear in the west, and everyone knows what that means when it gets in the habit of raining on the Plains. Just any old cloud can pour it down when conditions get just right. A bad looking cloud that bore appearance of considerable wind as well as hail arose in the west about five Monday afternoon, and reached from the extreme southwest to the extreme northwest, but did not prove as bad as it really looked. Some wind, a hard rain, and it was over, going eastward with some display of lightning and a few heavy claps of thunder.

The rain gauge showed .31 inch here Tuesday morning, and it was clear as a whistle, some cooler, and a brisk wind blowing from the west that will dry the fields mighty quick.

### State of Oklahoma Faces Bankruptcy

Bankruptcy is staring the State of Oklahoma in the face according to the State Auditor.

He points out that taxes collected other than ad valorem for the fiscal year of 1931 totaled \$5,900,000. The amount that must be collected for the fiscal year 1932 to meet appropriations to which must be added penalties, totals \$15,000,000. Experts estimate that not half this amount will be collected.

### Our Cotton Guess For Terry Co. Near Right

A week or two ago, we stated in these columns that the next ginners report would probably show that Terry had ginned about the same amount of cotton this year as last. We just missed our guess 121 bales, as we had ginned 10,878 by November 1, last year, and 10,757 this year, same date. The next report will show us way ahead of last year's ginnings. Most south plains counties shows much greater ginnings this year than last, but Terry county received more rain than most of them, and our cotton was larger and greener and opened slower the first part of the season than the hard land counties where the plant was smaller. Reports from other south plains counties follows:

County	1931	1930
Bailey	5,197	1,759
Crosby	15,303	3,803
Dawson	21,819	18,009
Dickens	12,394	5,680
Floyd	6,694	2,683
Gaines	1,521	1,432
Garza	7,678	3,268
Hale	13,539	7,138
Hockley	21,717	14,553
Howard	13,065	11,162
Lamb	25,723	15,864
Lubbock	34,551	20,292
Lynn	22,715	15,874

Nueces county slipped a cog this year and let the championship return to north Texas, with Ellis leading with 113,401 bales. Williamson in central Texas has passed the 100,000 bale mark, and Hill and Collins will probably do so before the end of the season.

### Much Cotton Over this Section to Be Pulled

The Senior and Junior editors drove out Sunday afternoon to Seagraves, and investigated the crops enroute and return. We believe that on an average more than 50 percent of the cotton is out, but there is lots of cotton in the fields yet in places. On our return, we cut in from a mile south of Lahey to come over a good cotton section, and found that while some fields are looking black, there are some that seemingly have not been touched. No corn has been gathered, but practically all the maize has been headed, the row crops cut and shocked in the field or hauled to the barns and ricked. But corn will stand for a long time yet.

At Seagraves, we ran into former Editor Rhea and present Editor Forgy in the Signal office and had a nice talk with them for quite awhile, talking shop. The Signal is now well equipped for any small town. They have recently installed an Intertype to the equipment, have good job presses, and we know they have a good newspaper press, for we used it some six years. We also visited in the home of E. C. Roberts for awhile, but he himself was out fixing a gasoline pump.

Seagraves is a nice little city, well built up with fine brick business structures, and all seemed to be occupied and doing a good business. They have most of the modern utilities, such as light, power and water works, with adequate fire protection. They have well equipped and plenty modern school plants, and most of the denominations are represented with church buildings. Seagraves is a hustling little city at the end of the Santa Fe line.

### Eudy To Get 35 Bales Off 50 Acres Cotton

Joe Eudy was in Tuesday afternoon and said that while he had no such cotton as some who had reported, he had already gathered 25 bales off 50 acres in cotton, all averaging more than 500 pounds of lint, and that he believed he would get at least 10 bales more if it opened up. He had a bunch of Mexicans that picked 15 bales in two days for him, or rather pulled that much. Mr. Eudy says that his corn and maize are about like last year.

The first year Joe farmed in Terry county, he made 11 bales off 50 acres, the second year 15 bales, and will get 35 this year. He believes he will learn to raise cotton here in a few more years. He reports that his neighbor, J. L. Hyman has some of the best cotton he ever saw anywhere, and wants us to come and see it before it is picked over. Mr. Hyman flat broke this land last fall.

### Three White Boys Held For Killing a Negro

Crosbyton, Nov. 16.—Three white youths were charged with murder Monday for the fatal shooting of a negro, T. C. Jackson, in what was purported to have been an attempt to rob a dice game at Fairview community Saturday night. Jackson died at a Lubbock hospital.

Officers said two of the youths, J. D. Boswell, 18, of Paris, and Earl Dyess, 19, who lived about eight miles north of Crosbyton, admitted they fired shotguns at Jackson when the negro appeared to recognize Boswell.

The youths were quoted as saying the negro refused to raise his hands and when he started toward them, they fired.

The third youth, Onnie Graham, 16, was also charged with the alleged murder. Officers were informed he did not fire the shotgun he was carrying. He lived 10 miles north of Crosbyton.

Another negro was wounded slightly. Jackson, about 33 years old, was a cotton picker and lived at Hillsboro. Fairview community is five miles northwest of Crosbyton.

### Forrester's Son Kills Man at Eastland

J. A. Forrester of the Forrester community south of the city, was in Saturday and called on the Herald for a copy of some paper giving an account of the killing by his son of a man or rather youth at Eastland last week. His son is a teacher in the schools of Eastland county. Very little explanation was given of the matter, but it is thought that the youth came to the Forrester home and provoked a quarrel, and refused to leave even after both Forrester and his wife asked him to do so. Forrester then shot the youth, which proved fatal.

In talking about the matter, Mr. Forrester said he didn't think his son would harm a chicken, but guessed he was provoked into doing so. According to the papers, Forrester was put under a light bond to await the action of the grand jury, and will likely come clear if it ever goes to trial. Mr. Forrester said he had received no direct word from his son since the incident. We saw a more detailed account of the sad affair in the Abilene daily, but as we supposed the parties were not connected with anyone we knew, we destroyed the paper.

## WE ARE EXPECTING YOU TO KICK IN NOW FOLKS

The Herald Has Been Very Patient, Carrying Your Paper Thru The Summer Month When You Had No Money. We Now Ask You to Come in and Pay Up Some.

The Herald has waited from one to several months on its friends until they were able to take care of their account with us for their subscription, and up to now we have not pressed the matter knowing that many of you, like others, were having a hard time getting food and clothing for the family. But we have had several weeks of right pretty weather now for you to get out some of your crop and to pay your bills. Do you think it is asking to much that you now remember us with a dollar or more if you like?

Many are already coming in and paying up from one to two years, if they happen to be a little behind, but we still have several hundred dollars out that needs to be collected. One dollar looks quite small perhaps to some of you, to be asking for, but when you consider that we have several hundred in arrears that amounts to a great deal to us. Will you not please remember us the first time you come to town? As we stated some time since, we will give you curb service, Or see us on the streets.

We believe that you will admit that the Herald is worth one dollar per year to Terry county people just to start fires with, and considerably more for the news and information it contains. Our heavy editorials are fairly reeking with good information, politically, financially and religiously. Our optimistic front page articles make the whole family feel better and love old Terry the more. What institution in Terry is doing more to build up the county and town?

Then why not say you are with us and helping to boost by handing in your dollar this week. We are going to be on the streets all Saturday afternoon with two check books. Don't try to dodge us.

Brownfield State Bank

### CHICAGO MAN HIGHLY PLEASED WITH BROWNFIELD

Service Man From Windy City Visits Lions Club Here. Finds Wide Awake Bunch of Men. Says Brownfield is the Busiest Little City He Ever Saw. Been in 32 States.

Mr. C. W. Webb, of Chicago, department of Activities of the Lions International, accompanied by Mr. John Tobin, past president of the Austin, Texas, Lions club, were visitors in our city the past week, having spent Friday night and Saturday here working with the local club. Mr. Tobin is now connected with the department of Health of the Lions club in the state of Texas. Both men were well pleased with the progress being made by the Lions in Brownfield, and were especially complimentary of the play put on Friday night in an effort to raise money to pay out the Boy Scout shack, and especially the way the play was handled.

As concerning the little city of Brownfield, it seemed that Mr. Webb could never get through complimenting the town, and he was joined heartily in this by Mr. Tobin. Mr. Webb informed us that in his work since he accepted the office he now has with the Lions, he has been in 23 states, and hundreds of towns in these states, but that he has never at any time seen as busy little city as Brownfield, "Man," says he, "I don't see what room you people here have to complain of hard times. Why, your stores are as crowded as they are in Chicago and other large centers, and they are doing business. I know, because I have been in a num-

ber of them, and your traffic both in the streets and on the sidewalks beats anything I ever saw in a town anywhere near your size. I am not saying this just to be quoted, but really mean ever word of it. And such a pretty, clean little city you have!"

With the help of Mr. Webb, the following committees and committee chairmen were appointed here to take charge of the activities to put on here:

- Committee Chairmen
- Blind—Rex Headstream.
- Boys and Girls—P. F. Lawlis.
- W. W. Price—Chairman.
- Civic Improvement and Community Betterment
- Education of Youth—W. W. Price.
- Health and Welfare—H. F. Heath.
- Safety—J. M. Telford.
- Attendance—Rex Headstream.
- Membership—H. F. Heath.
- Finance—Jake Hall.
- Progress—W. W. Price.
- Bulletin—W. G. Terry.
- Constitution and By-Laws—P. F. Lawlis.
- Lions Education—Eunice Jones.
- Boy Scouts—P. F. Lawlis.

Recently 50,000 copies of the Moral Code of Youth has been printed for the Lions International, and 20 copies were ordered by the local club to be put in the school rooms here.

### Shearer Film Contrasts Society, Underworld

Society and the underworld, the sorridness of Chinatown dens and the beauty of Yosemite Valley are contrasted in a spectacular series of dramatic happenings in "A Free Soul," Norma Shearer's newest starring picture, which will come Sunday to the Rialto Theatre.

The Metro-Goldwyn-Mayer production is based on the celebrated novel of Adela Rogers, St. Johns. Miss Shearer plays the daughter of a brilliant though drunken lawyer. The ultra-modern teachings of the father give her an idea of feminine "freedom" that in the ends sends the

structure of life crashing about her ears. Torn between the love of a gambler and a society man, her happiness is finally saved when, in a dramatic appearance before a jury, her father bares his own sins to save his child.

Leslie Howard, last seen in "Five and Ten," and Clark Gable, who will be remembered for his outstanding work opposite Joan Crawford in "Dance, Fools, Dance" and with Wallace Berry in "The Secret Six," share leading man honors in the supporting cast with the heavy character role going to Lionel Barrymore, who again appears before the camera after an interval of directing.

NOTICE COUNTY P. T. A.

The Terry County Parent-Teacher Association will meet at the High school at Monday on Friday, November 27, at 7:30. Each local association in the County is urged to be present at this meeting.

Glenn Whelan, of Seminole, who has been employed on the Big Spring Herald for some years, paid us a call Tuesday afternoon.

### Four Presiding Elders Changed in Conference

Vernon, Nov. 6.—Changes in four of the nine presiding elderships in the Northwest Texas conference, Methodist Episcopal church, south, has been ordered today.

The conference closed last night with the announcement by Bishop Hiram A. Boaz of pastoral appointments.

E. E. White, presiding elder in the Abilene district, was transferred to the Plainview district.

M. M. Beavers, presiding elder in the Plainview district, was sent to the Clarendon district.

B. M. Murrell, presiding elder in the Clarendon district, was shifted to the Abilene district and John E. Eldridge, formerly pastor at Tula, was named presiding elder in the Perryton district.

Four young preachers, O. F. Mason, E. M. Nowlin, Cecil Matthews and R. H. G. Albright, were given deacons' orders.

Pastoral appointments for the Lubbock district follows:

- Lubbock District
- Presiding elder, C. A. Bickley, Andrews, J. E. Peters, Becton, C. A. Norcross; Brownfield, Ed. A. Thorp; Crosbyton, W. Frazier Smith; Draw, J. N. Hester; Idalou, G. W. Montgomery; Lamesa, W. H. Wallace; Lamesa circuit, J. Berry Baker; Levelland, J. B. McReynolds; Lorenzo, J. B. Thompson; Lubbock, First Church, J. O. Haymes; Lubbock, Asbury, O. W. Carter; Lubbock circuit, east, A. O. Graydon; Lubbock circuit, west, Frank Beauchamp; Meadow, J. T. Howell; O'Donnell, W. B. Burnett; Plains, W. L. Porterfield, supply; Post, H. W. Hanks; Ralls, W. J. Mather; Robertson, Aubrey Ashley; Slaton, C. E. Fike; Seagraves, Preston Florence; Southland, Hamilton Wright; Shallowater, R. I. Hart; Tahoka, H. C. Smith; Wilson, H. L. Thurston; professor in Texas Tech college, John C. Granbery; executive secretary board of Christian Education, J. W. Watson; district secretary, Christian Education, C. E. Fike.

It will be noted that the Brownfield church gets a new pastor, and that their former pastor, Rev. Geo. E. Turrentine goes to Lockney in the Plainview district.

### COMP TICKET

Ruth came home from her visit to Sunday school eating a chocolate bar.

"Why, Ruth, where did you get the chocolate?" asked her mother. "I bought it with the nickel you gave me," she said. "The minister met me at the door and got me in free."—Rail Splitter.

### Forrester's Son Kills Man at Eastland

J. A. Forrester of the Forrester community south of the city, was in Saturday and called on the Herald for a copy of some paper giving an account of the killing by his son of a man or rather youth at Eastland last week. His son is a teacher in the schools of Eastland county. Very little explanation was given of the matter, but it is thought that the youth came to the Forrester home and provoked a quarrel, and refused to leave even after both Forrester and his wife asked him to do so. Forrester then shot the youth, which proved fatal.

In talking about the matter, Mr. Forrester said he didn't think his son would harm a chicken, but guessed he was provoked into doing so. According to the papers, Forrester was put under a light bond to await the action of the grand jury, and will likely come clear if it ever goes to trial. Mr. Forrester said he had received no direct word from his son since the incident. We saw a more detailed account of the sad affair in the Abilene daily, but as we supposed the parties were not connected with anyone we knew, we destroyed the paper.

**Gossip About Banks Cost People Millions**

Fully half of the closed banks in Texas are monuments to the malicious prattling of idle gossips; and it is remarkable that so many of these rumormongers are of the variety that identifies itself by wearing pants.

The figures are supported by the recent declaration of Commissioner of Banking, James Shaw, that 15 of 28 state banks closed in the past two months are reopened and transacting business as before. "A large per cent of the banks in Texas have closed," said Mr. Shaw, "because of unbelief and unfounded rumors rather than because they were unsound or unsafe."

Generally the man or woman who peddles gossip about "shaky banks" doesn't know what a bank is or how it operates. A bank has a function to perform other than the safekeeping of your money. Cash that lies in the bank is idle money, serving neither God nor Mammon. Cash that is loaned by the bank, upon sound securities is working money—money that seeps into the blood stream of commerce and fertilizes the fields where prosperity is sown and reaped.

If a bank kept all its deposits in the form of "cash on hand" it would be a pretty poor excuse for the thing a bank is supposed to be. It would have no money to loan upon good securities, it would contribute nothing to the expansion of trade and the creation of wealth by manufacturing and building. In fact it would be nothing more than a glorified strong box and eventually would lose its substance to the expense of operation.

Any bank no matter how large or small, that can immediately liquidate its deposits—obligations is no asset to the community it pretends to serve. Strange as it may seem, it would be a grossly mismanaged bank that could pay every depositor, the same day, the same week, or even the same month the demands were made. It is

**Woodmen to Dedicate Their Memorial Chapel**

The dedication of the William Alexander Fraser Chapel and Bird Sanctuary November 22 on the grounds of the Woodmen of the World War Memorial Hospital at San Antonio will be one of the most elaborate in the State of Texas in many years.

The dedication program is expected to attract many thousands of visitors from all parts of the country. A large barbecue will precede the program.

The program of the program will be addressed by U. S. Senator Morris Sheppard, national treasurer of the Woodmen of the World. Judge E. D. Henry will be chairman of the dedication program.

Mayor Joe McGowan is moving his law office to a ground floor office in the Hotel Brownfield building.

**PROTECTION FOR CHURCHES**

Churches of the country—great ones in the cities, smaller ones of the towns and at country cross roads are hereafter to have an opportunity to protect themselves from all manner of thieves and from erring treasurers and officials in one insurance policy. Beginning November 1, the National Bureau of Casualty and Surety Underwriters announces its member companies will offer to the 252,000 churches the broadest burglary contract ever issued in the United States. Heretofore religious congregations desiring such protection have been compelled to take out separate fidelity policies for their officials or financial committees, others for burglary, larceny and theft of church property and still others for burglary and robbery of church money and securities.

Now all these are combined in the one document which will, in addition, apply to the parish house, parsonage, rectory, and to any other building used by the church for conducting religious or educational activities. Protection is also granted on church property being transported outside the church proper when it is in the care of an authorized person. The new policy is the outcome of an extensive investigation into the situation by the Burglary Governing Committee and the Burglary Department staff of the Bureau. It was found that in the last two years, particularly when need has driven many to seek aid in crime, that the churches of the land suffered as well as the homes and business houses.

This is of particular interest to small cities and rural communities, as there is no minimum amount for which the new policy can be issued and the little church can take protection for any value it wishes. This is a good example of the progress the casualty insurance industry is making in giving the small risk the same advantage and service as the large one.

**A Big Iowa Man With A Mighty Good Car**

Decorah, Iowa, Nov.—This community claims the unusual distinction of being served by the largest rural mail carrier in the world, John L. Moore, who tips the scales around the 400 mark.

Despite his impressive girth, Postman Moore has used for years, and is still driving, a 1925 Chevrolet coach to cover his extensive route in and around Decorah. Commenting recently on the service given him by his faithful car, Mr. Moore said: "My Chevrolet has traveled 106,000 miles up to September 1st. It has stopped 399,960 times for deliveries, and has never refused to start. The operating expense and upkeep has been very small, and in spite of its age, I feel I can secure more miles on a gallon of gas than any other rural mail hauler in this territory, regardless of age or make of his car."

Mr. Moore says the combined weight of himself and his Chevrolet is 2,417 pounds.

Schoolland Community in Gonzales county has swung its 4000 acres of cotton land to one standard variety for 1932, with its centrally located gin handling this one variety exclusively. The standardization is in cooperation with the county agent and the U. S. Bureau of Plant Industry.

In Wise county there are 100 sows and litters on self-feeders in demonstrations supervised by the county agent to show how to sell grain crops to the best advantage.

**CURED OF ADENOIDs AND TONSILLITIS**

Our little son Jobbie Bryan, 14 years old had been troubled with Adenoids and enlarged Tonsils for several years. He was continually blowing and sniffing his nose. The adenoids had pressed his nose until it was enlarged and out of shape, he couldn't sleep at night, oftentimes jumping out of bed and calling that he couldn't breathe.

On learning of Drs. Hefner & Deen we decided to have our son treated by them. Now after twenty four treatments our boy is cured and without the dreaded knife. He looks and acts like a different child. He enjoys each meal and has more life, he feels like getting up and running about before breakfast, and isn't irritable like he was before taking treatments. We cannot say enough in praise of Drs. Hefner & Deen for what they have done for our child.

Yours very truly,  
Mr. and Mrs. John L. Bryan,  
Tax Assessor, Lincoln County,  
Carrizozo, N. M.

Ya asia 14 anos que podesia siendome imposible conseguir aliebro con ningun medico. Asto que fui Ricomendado por un amigo mio conel.

Gentes que bienen con mulitos aberlo de alli se bon completome buenos, y quisos este testimonio que day le sirba a alquen proximo que se encuentre como estoba yo. Gustavo Herrera, Asperment, Texas.

(Translation of the above)  
It was 14 years that it seemed impossible for me to get any relief from any doctor. I was recommended to Dr. A. Hefner, of Spur, Texas, and I am completely well now, after having taken ten treatments. Other doctors wanted me to have an operation.

Many people who come to see him on crutches leave in excellent health. Perhaps this testimonial might help some one who finds himself the same as I.

Gustavo Herrera.

I was in bed five weary weeks with gastritis, suffering the most excruciating pains that only those who have suffered them can realize their pangs. Unable to sit up or eat anything, could not rest only under the influence of morphine. Friends and relatives stood over my bed day and night, five long weeks, and no hope was entertained for my recovery. After taking treatment from Dr. A. Hefner four weeks I am sound and well and able to eat anything, never feel any pain or uneasiness, sleep sound at night, cured of complications of five years standing of ovarian trouble and falling of the womb.

Words are inadequate to ex-

**DR. A. HEFNER MAGNETIC MASSEUR**

is now located at Smith Hotel. He gives the same treatment that they give in Glen Rose and Mineral Wells, Texas. RATES: \$2.00 per treatment or Seven treatments for \$10.50. Read what people say who have taken his treatments. See him at the Smith Hotel, Brownfield, Texas.

El Paso Texas, June 29, 1930. To Whom This May Concern:

This is to certify that on May 5th, 1930, I had a stroke of Paralysis while holding Court in Midland, Texas. I was taken to a hospital in El Paso, Texas, where I was under the care of Doctors and Nurses for five weeks. I was then able to support myself on crutches but could not walk without the assistance of someone. The Medical Doctors under whose care I had been, told me to go to Hot Springs, New Mexico and take a course of baths. I went to Hot Springs, New Mexico with this intention, but when I arrived and saw the wonderful cures being made by Drs. Hefner & Deen Magnetic Masseurs I decided to take their treatments.

I can truthfully say that after I had taken the first treatment I walked and took care of myself without crutches or any other assistance. I have continued to walk unaided ever since and have grown stronger every day. Today June 29th, 1930 I leave for El Paso, Texas, able to walk where I please, my speech and my vision have both become normal after having been defective since I had this stroke of paralysis.

While taking treatment in Hot Springs from Drs. Hefner & Deen Magnetic Masseurs, I observed that their treatments were wonderfully successful in curing all manner of chronic diseases.

I am glad to recommend these Doctors and their method of treatment to all suffering humanity, and I will answer any personal inquiry addressed to me in regard to them.

J. F. Weeks, Attorney-at-Law,  
1022 East Nevada, El Paso, Texas.

Royston, Texas, May 17, 1930. To Whom It May Concern:

This is to say that I have known Dr. A. Hefner for 18 years and during this time I have had occasion to meet a number of his patients and know of some remarkable cures. I personally have taken treatments from him for rheumatism and stomach trouble and can truthfully say that I received more benefit from his treatment than I have from any other treatment which I have taken. His methods are new and his system different from others.

We take pleasure in recommending him to any who may need his service and in doing this we believe that we are doing a favor to those who have suffered long and without relief.

Yours very truly,  
S. D. Myres, Owner: S. D. Myres Saddle Co.

Spur, Texas, August 30, 1930. To Whom It May Concern:

This is to certify that I had suffered with double goiter, nervousness and indigestion for six years; had tried several different treatments but got worse all the time; would almost shake to death at times, but after taking six weeks treatments from Dr. A. Hefner, Magnetic Masseur last March and April, am glad to say I am well. What he did for me he can do for you if you will only go and take treatment. I will gladly answer any letter of inquiry.

Yours truly,  
Mrs. J. D. O'Neil, Lamesa, Texas  
Route A Box No. 269.

Spur, Texas, August 31, 1930. To Whom It May Concern:

During the year of 1913 I had falling of the womb and had been under treatment of two medical doctors from the first of January, 1913, to May of the same year and got no relief at all. I gradually got worse. I had been in bed for four weeks when my husband decided to take me to Dr. Hefner at the Hefner Drugless Sanatorium at Sweetwater, Texas. I was carried there on my bed and took two weeks treatment. I have been well ever since. My ladies, if you should have falling of the womb and want to be cured, take treatments from Dr. A. Hefner, Masseur.

Yours truly,  
MRS. M. DODDS.

**HIGH BLOOD PRESSURE REDUCED**

For several years I had been suffering with High Blood Pressure. I was highly nervous, could not sleep at night, and had an awful throbbing sensation through my chest, whenever I would eat a good meal this feeling was increased and life was made unbearable, my strength left and I was unable to do my work. I noticed a circular similar to the one I am now writing and went to Drs. Hefner & Deen to see if they really could do my case any good. I am glad to say that after three weeks treatment from them, my blood pressure was normal, and now two months after taking the treatment my blood pressure is still normal, and I am feeling stronger every day. I have been greatly benefited by these treatments and consider this method of treatment the only kind for high blood pressure.

Most sincerely,  
Mrs. J. D. Lee, Rt. No. 1, Box 161,  
Roswell, N. M.

Spur, Texas, May 17th, 1930. To Whom It May Concern:

This is to certify that I am and have been personally acquainted with the bearer, Dr. A. Hefner of Spur, Texas, for the past ten years, and that he is a gentleman of high standing and a Masseur of enviable reputation and honorable and whose transactions in his business and professional dealings can be depended upon to be executed always to the full extent of his ability.

J. H. GRACE, M. D.  
Alvarado, Texas.

This is to certify that I have been associated with Dr. A. Hefner in his practice for 14 months and I do not hesitate to say that his method of treatment is a scientific method, and has cured many cases which medicine would not benefit, and I do not hesitate to recommend his treatments to all suffering humanity.

Yours respectfully,  
W. J. CUMMINGS, M. D.

Spur, Texas, August 31, 1930. To WHOM IT MAN CONCERN:

This is to certify that in October of 1929 I took sick very suddenly, called our family physician. He said I had appendicitis and would have to be operated on at once. But as one of my brothers had taken sick just as I had and they told him if he wasn't operated on at once he would die. They operated on him and he died, so I decided I would take treatment from Dr. A. Hefner. I got Magnetic Masseur, and am glad to say I got well, and have been well and strong ever since I took his treatments. What he did for me he can do for others.

Yours truly,  
Arthur Lee Dunn.

W. O. Hart has taken a position with the hardware department of Hudgens & Knight through the winter months.

**Armistice Day Was Observed Quietly Here**

Armistice Day should be one of our most prominent holidays, and possibly will some time, but it is not far enough away from the event it memorialize yet to catch the general fancy of the people. About all that closed here was the banks and the barber shops. The other people went on with the daily grind as usual. All flags, however, were put out.

The ex-service men of the World War were out early in the morning firing anvils, they say. We failed to hear them. At about eight o'clock we woke up and rushed to the front with our automatic shotgun and shot off a salute of five guns. We don't know whether we woke up anyone except the four roomers or not, but we got them up. One fellow across the street from us got "sourkastic" and wanted to know why we didn't get up and celebrate when other folks did. We worked the afternoon.

In the afternoon, a great many of our people went with the Cubs to Tahoka and watched them smear it all over the Bulldogs in a football game. So to home, and wound up at the Rialto the end of a perfect day.

**THEY'LL BE WATCHING GRANDAD**

An old woman was on her deathbed and one of her grandchildren came in to bid her good-by.

"My child," the aged one said, "When I die, I want them to bury me in my black dress, and I want you to cut the black out of that dress before they dress me in it so you can use it in the lining of that coat you are making?"

"Why, grandma," the young lady said, "What will angels think when they see you marching into heaven with the back of your dress gone?"

"Don't worry about that," the grandmother said: "The angels will be busy looking at your grandfather, I buried him without his pants."—Ex.

### October Failures in Texas High Record

Austin, Texas, Nov. 20.—Commercial failures in Texas during October increased one-third over the total for September and 167 per cent over the corresponding month of last year, in line with the usual seasonal tendency for the two months, according to the University of Texas Bureau of Business Research.

"This number represents an all-time high for October," the Bureau's report said.

"Average liabilities per failure increased to \$19,120 as compared with \$16,821 in the corresponding month last year, resulting in an increase of 135 per cent in the total liabilities of the failing concerns. At \$2,218,000, total liabilities are the highest for any October since 1923.

"In the United States, 2,362 firms with total liabilities of \$70,660,000 went into bankruptcy, as compared with 2,124 firms with total indebtedness of \$56,300,000."

### Trailers and Wagons Should Carry Lights

Highway patrolmen in some sections are rounding up people for not carrying lights on trailers and wagons as required by law.

Wagons are required to have white lights in front and a red light on the rear, but for horse drawn vehicles it is satisfactory to have a red reflector on the rear, and we understand that the front lights are not regarded by patrolmen as so important.

Wagons can easily and cheaply be equipped with the rear reflector by getting an old glass from an auto light and attaching it to the rear of the wagon. The lights of a car overtaking the wagon will then cause the glass to reflect the red light.

Wagons without a rear light or reflector are dangerous. Many accidents have been caused by this neglect. When there is much dust or the view is in other ways obscured, a wagon without such light cannot be seen very far unless the car lights happen to be adjusted to throw the beam high, which is also a violation of law.

Eighteen Harrison county farmers have put 1142 tons of feed in trench silos and the county agent estimates that a total of 1500 tons will be stored in this way before the season ends.

### "Cisco Kid" Filmed In a Historic Region

Although the period of "The Cisco Kid," coming to the Rialto Theatre Friday and Saturday, is laid in the 'Nineties, much of the production was made in a locality visited and occupied by Europeans 80 years before the Pilgrims landed on Plymouth Rock.

The picturesque Santa Cruz desert and the rugged Catalina mountains of southern Arizona, was the region selected by Director Irving Cummings to make his exterior scenes—a region noted in Arizona history as the spot where Spanish missionaries settled in 1538 and where Coronado came two years later on his search

Warner Baxter as the Latin Luchino who trusted no woman until he found a girl like Conchita Montenegro in "The Cisco Kid," vivid Fox romance of old Arizona. 1P

for the mythical Seven Cities.

The pueblo of "Tuqueson," now the city of Tucson, was founded here shortly afterward, and through a rugged canyon in the Catalinas, which Cummings used as one of his settings, the raiding Apaches used to pour down in their attacks on the helpless village at a period when the Pilgrim Fathers were stalking their first Thanksgiving turkey.

Warner Baxter, Edmund Lowe, Conchita Montenegro and Nora Lane have the leading roles in "The Cisco Kid," gripping Fox romance of the stagecoach era in the Old Southwest. James Bradbury, Jr., Charlie Stevens and other favorites head the supporting cast.

### First Flying Wedge on Football Field, in 1869

As far as history goes, the first intercollegiate football game of all time was played November 6, 1869, at Brunswick, N. J., between Rutgers of that city and Princeton, from 25 miles away.

The New York World published the story of the game, as told by John W. Herbert—Rutgers, '72—a participant. The teams numbered 25 players each.

Rutgers, it appeared, was having a tough year. Princeton had won at baseball and had succeeded in obtaining the Revolutionary war cannon, which had been stolen back and forth, by burying it several inches deep in concrete. Football was becoming common as an intramural sport, and Rutgers challenged its rival to three games. The first was played at Brunswick.

"Receiving the ball," Mr. Herbert writes, "our men formed a perfect interference around it and with short, skilful kicks and dribbles drove it down the field. Taken by surprise, the Princeton men fought valiantly, but in five minutes we had gotten the ball through to our captain's of the enemy's goal, and S. G. Gano, '71 and G. R. Dixon, '73, neatly kicked it over. None thought of it, so far as I know, but we had without previous plan or thought evolved the play that became famous a few years later as 'the flying wedge.'"

Rutgers won, 6 to 4. Princeton won the second game, 8 to 0, on its home grounds. The faculty called off the third game because feeling was running so high between the student bodies.—Detroit News.

### Retort Something of a Reflection on Bishop

A geographer, at a geographers' banquet in Boston, told a story about Sir Richard Burton, the famous explorer, linguist, translator and what-not.

"Burton," he began, "made the acquaintance of a bishop on a voyage home from India, and the two men got on well together, notwithstanding the difference in their beliefs. The bishop, as they sat on deck one morning, pointed up towards half a dozen tame monkeys that were climbing in the rigging and said:

"There, Captain Burton—Burton was only a captain then—there are the folk you are descended from."

"Burton looked at the monkeys, then he looked at the bishop.

"Well, bishop," he said, "I at least have made some progress, but you, who are descended from the angels—how about you?"—Detroit Free Press.

**Unicorn Problem Solved?**  
Chinese scientists believe they have solved the problem of the unicorn. The fabulous animal actually existed, in the opinion of Oriental archeologists.

Dr. Li Chi, Harvard graduate, is the man principally responsible for this opinion. In ancient ruins he found a carving that strangely resembled the one-horned bull, an Asiatic press correspondent reports.

The characters were found to mean that the animal represented by the carving had been captured by hunters. The carving was apparently more than three thousand years old.

**Nicotine in Tobacco**  
The quantity of nicotine contained in tobacco varies from 2 to 8 per cent, the coarser kinds containing the larger quantity, while the best Havana cigars seldom contain more than 2 per cent, and often less. Nicotine does not appear in tobacco smoke. It is split into pyridine and cellulose. Of these the latter is said to be the less active, and to preponderate in cigar smoke, while the smoke from pipes contains a larger amount of pyridine. The percentage of nicotine varies with the kind of tobacco and with the district in which it is grown.

**Queen Fond of Snuff**  
Queen Charlotte Sophia, wife of King George III of England, was so fond of snuff that she was the principal cause of making it fashionable, wrote Rees Howell Gronow in "Recollections."

"I recollect having seen her majesty on the terrace at Windsor, walking with the king, when, to the great delight of the Eton boys, she applied her finger and thumb to her gold snuff-box, out of which her majesty appeared to have fished a considerable quantity, for the royal nose was covered with snuff."

**King's Speech Old Rite**  
The king's speech is in reality the declaration of the causes of the summons of the British parliament and forms the legal basis for the deliberations of the two houses. It gives in broad outline the legislative program of the session. Originally the king actually delivered his speech in person and parliament could not assemble until the king thought fit to summon it. The "king's speech" apparently dates back to the "model parliament" of Edward I, summoned in 1295.

**Worth Purchasing**  
A man reviving from an anesthetic was being very sentimental. The wife nearby said to the nurse:

"I have not heard him talk like that since our honeymoon; where do you buy the dope?"

Hogs in a Lubbock county demonstration made gains at a feed cost of less than two cents per pound when fed wheat and threshed milo in a self-feeder and skim milk to furnish the protein. The county agent reports 23 self-feeders in use now in the county.

Christoval—Survey to start soon for proposed \$70,000 bridge across South Concho near here.

POULTRY INCOME PAYS FOR HORSE MEDICINE AND OTHER THINGS

Lubbock—Partnership in poultry with their two daughters, Verma Lee and Velma, has worked well for Mr. and Mrs. Frank Brossland of McClung community in Lubbock county, according to the report of Miss Ruth Stockton, home demonstration agent. The girls are 4-H Club members and each keeps records on 20 hens separate from the family flock which they also help to care for and from which they share profits.

At the beginning of the poultry year there were 126 hens in the flock, but to provide cash for emergency many of the hens were sold. Mrs. Brossland says, "When every body's horses were dying and vaccine was all that would save them, we tried to sell a cow, but there was no sale for cows so we sold six hens. Many emergencies have come up where a little money had to be had at once. This has taken the hens until only nine are left." However, replacement of the flock was not forgotten and they raised 85 pullets which are now almost old enough to lay, and 75 young chickens which will be fryers for the late market. The income from these hens has amounted to \$138.70 and the feed cost has been \$15.21, mostly for skim milk valued at 3 1/4 cents per gallon. A green pasture has been furnished and grain that the horses wasted was salvaged by the flock. Beryl has kept the houses very clean at all time and Verma Lee has made sure that no parasites bothered the birds.

Stivers Lake to obtain gravel and sand for road construction work in this vicinity.

It will promote research into radio as an educational mode in regularly organized schools and for adult students; also when called upon by the various state departments of education and other educational agencies, the division will aid in evaluating and setting up educational material for broadcast programs.

Washington, D. C.—Plans are being formed by the radio division of the Office of Education to collect all broadcast material or information of an educational nature. The sources of such material will be matter sponsored by private commercial stations and publicly controlled educational stations, it was stated by Dr. C. M. Coon, specialist in this new division.

As an educational research and information center, the Office of Education will make the results of the work of the radio division available to all who can make use of it. As a center of such information it will attempt to prevent conflict and duplication of effort between various interests, thus avoiding unnecessary expenditures of money by interested persons.

U. S. RADIO DIVISION BROADENS SERVICE

At the present time millions of dollars are being subscribed in the cities of this country to be devoted to taking care of the unemployed and other cases of charity. It is a regular thing, these community chests, whether or not times are prosperous or just the reverse. There are always thousands of people in our cities who have to be fed and clothed at the expense of the more prosperous, and this year the demand is double that of previous years.

When we see the want and misery in our cities; when we see old women and cripples selling newspapers on the streets or peddling some little knick-knack in order to pick up a few pennies with which to purchase food; when we see the thin faces, ragged coats and know that we have not seen the half, we congratulate the farmers and their families who have had the foresight to lay by food for the winter months. Report from rural districts indicate a greater amount of food for the family and feed for the livestock than ever before in history. This does not mean that every farm family is thus provided for, but it does show that those who had the will to do, will eat even though some of them could not dig up a dollar in real coin if it were demanded of them.

Farm and Ranch realizes that farmers must have money with which to pay taxes and interest and to finance operations, but it also understands that every farm family fortified with plenty of food and feed is in a much better position than the poor in our cities who must depend entirely upon charity to keep body

and soul together. We also know that they are much better off than the farmer who neglected the opportunity to produce for himself, but who depended upon a cash market for his products—a market which has failed to materialize. From now on we predict that Southwestern farmers will give more consideration to the making of a home and a living on the farm and less to the production of crops that can be sold for cash. When one has made his living on the farm, or at least in a large measure, he is in a position to enjoy the money that comes from his other crops. At least he will not have to turn it over to some credit man who has run the risk of supplying him with groceries and other necessities during the months between harvest periods.—Farm and Ranch.

The beauty parlors are not suffering from the depression. Which may be one reason why there is a depression—Wasp Nest in Berger Daily Herald.

The Herald has been getting its Grandi and Gandhi badly mixed, but a friend told us this week that one was a Wap and the other an Indian Chief or something like that, maybe a Chink. Also that one wears britches and the other a britchcloth, whatever that is.

A Republican friend of Harry M. Wurzbach is trying for his seat in congress, but sometimes mere friends don't get very far following the footsteps of predecessors. There are three or four Democrats out for the office of congressman of the 14th district which includes San Antonio.

The Texas Weekly, a sprightly and well-edited publication, is authority for the statement that last year the people of the United States spent \$650,000,000 for half-pint bottles of soda water—just plain soda water. It would be far more interesting to know just how much they spent for pint bottles of ginger ale to kill the taste of bad liquor.—Jackson (Miss.) News.

At the bankers convention in Dallas last week a warning was voiced against the government going any further into business yet many bankers buy printed envelopes of the government in competition with their customer, the local printer. We cannot expect much relief from government competition in business until we stand together in refusing to patronize the government in business, whether it be banking or printing.—State Line Tribune.

And our old friend, Jimmy Greer of the Rochester Reporter still confines his editorials strictly to the moral or semi-religious uplift with the preachments left off. He is about the only editor whose paper we get that is sticking to this kind of editorial writing. Most of us are busy telling 'em how to run the government down at Austin and up at Washington, and advising Uncle Andy Mellon

how to end the "repression." It is kind of a relief to read Jimmy's moral code editorials.

J. Frank Norfleet, that wiry little straight thinking man who gained world wide fame when he ran to earth six swindlers who had defrauded him of his life savings, has associated himself with the State Law Enforcement Commission which has its headquarters in Dallas. In associating himself with this organization J. Frank Norfleet recognizes it as filling the need to handle just such cases as the case which brought him into world wide prominence as a detective of first rank.—Winters Enterprise.

It seems that there was an irate husband approached the theatre entrance and said, that his wife was in the theatre with another man, and that he was going to kill them both when they came out. The theatre man, not wishing to have anything like this happen, rushed into the building and announced, that a man was outside and was going to kill the man and woman when they emerged from the show, and this could be avoided if the man and woman would get up and quietly pass out the back door. Sixty-one couples left via the back door.—Exchange.

Over in Georgia the boys are said to be paying up their weekly paper subscriptions with hard cider and apple jack. We always did like Georgia folks, and should have staid at Atlanta when we were given the opportunity.—Clarendon Leader.

Say, listen, Bro. Estlack, what had YOU been trying to make last week? When the Leader reached us, there was either honey or lasses all over it. Better watch out or the revenue men will get you. However, the local postoffice force is trying to shield you, claiming that the lid of a bucket of honey came off in the mail sack. Anyway, the Leader was the sweetest and sickest paper we got last week, but we read it anyway.

We are indeed glad that we did not derive our estimate of Texas womanhood from the antics of the Texas Women's Democratic party. We are glad that we have been permitted to form an estimate of Texas womanhood by contract with a wife and mother who are as sincere in their democracy and politics as ever was Thomas Jefferson or Joseph W. Bailey. At a meeting of the so-called "Texas Women's Democratic Party" last week that body sent a vote of confidence to Bishop Cannon, under indictment for the misuse of Republican funds in a campaign in which he was engaged nominally as a Democrat to defeat the Democratic national party.—Robert Lee Observer.

Sam Braswell of the Clarendon News is a trained musician. He is not only a singer of note, but a good band master, and when they want some special music over at Clarendon, Sam is called in to put the matter over, or at least help. Being a trained musician, however, Sam seems to think that musical appreciation of all people run in the same channel. Last week, in an editorial he tells us that "we respond with the heart to the misery and woe of the great grand opera artists." Maybe Sam does, but we respond in another way.

We just turn the nob on our radio and get Amos 'n Andy or somebody singing "Carry Me Back to Old Virginny" or some melody like that we can understand. No, all great minds do not run in the same channel, Sam.

What's a bale of cotton, anyway? Does not seem to amount to much. A man can lose one off his wagon or truck and not be the wiser until he gets to his destination and checks up one short. Saturday night a trucker lost a bale of cotton right in the middle of one of the main streets of Lubbock and did not miss it. People in Texas do things in a big way, and a small item of a bale of cotton does not amount to anything.—Plains Progress.

No, they don't pay much attention to a bale of cotton now, but when it was bringing from \$100 to \$150 per bale, that was a different story. And if you didn't watch the fields at night, your pile of cotton was likely to disappear. But do you hear of any cotton thefts now?

Most of the black land countries are still bothering about what they will plant in place of cotton, as they have suddenly realized that the cut means more than they thought. Indeed, most of them have ruined the productivity of their land raising cotton, and are unwilling even now to give their land a rest with some other crop. But if we are to judge by articles written by Victor Schufelmeier of the Dallas News, as well as the Farm and Ranch writers, and the accompanying photographs, the most prosperous people and prosperous looking places in that section are those that have almost if not entirely abandoned cotton. They also tell us that the diversifying farmers of that section are the ones who are paying their store accounts and taxes. So why all the bellyaching? Terry county farmers can raise more cotton per acre and cultivate more acres than the black land farmer, yet they are not raising any rucus about the reduction.

We note that some of our exchanges have what they call a "colym" in which they inform readers of the interesting as well as curious happenings in their communities. Well, Brownfield might carry on such a column for several weeks without running out of soap. For instance in the local postoffice, we have a direct and glaring violation of another Federal Department, the 18th amendment, for don't we have Alewine in the postoffice. Some refers to him as "light wines and beer" but that is not his real name. Then we have a Greenfield in there, but his friends are as likely to dub him Bluepasture or Greenmeadow as anything else. In the postoffice, they also sport a good Carpenter, but he carries the mail on route one. Also, there is Jett, but he is no blacker than the rest of the bunch. Of course they need a Lane to carry the mails thru, but the one that works in the P. O. puts up the mail. He never carries it. He is sometimes called "Shady" Lane—no reflection on his character. There are other employees, but they have ordinary names. If there is another postoffice that can beat our lineup, we want to hear from it.

The Lovington (N. M.) Leader tells us that the common ordinary run of people are becoming tired of being solicited periodically for community chest funds to feed and clothe the unemployed, when they are in no way responsible for unemployment. The Leader suggests, and logically, that the unemployed is not the responsibility of the other wage earner who happens to have a job that is barely getting him or her by, but by the millionaires and billionaires who through wild speculation and subsequent closing of factories have thrown millions of people out of work. The Leader might add that this has indirectly thrown other millions out of work. The remedy offered by the Leader is that an offer be made to the big manufacturers to either offer work or voluntarily care for these they have thrown out on the streets, otherwise, make them do it by taxation. This sounds reasonable, but has the Leader ever given the fact: thought that big monied interests have a very cute way of throwing all the expense of taxation back on the people by hiking the cost of their manufactured goods? Maybe, though, the Leader has a plan to get around that dodge.

**NOTICE**

The Churches of The Brownfield Association

November is the month to send our offering (boxes, chickens, eggs) to Buckner's Orphans Home. We have but two more weeks to get our offering ready, so we must get busy.

Mrs. Edwin May  
Publicity Chairman.

Oscar Vinson, employee of the Lubbock Avalanche, was down last week visiting his parents, Rev. and Mrs. J. B. Vinson, and paid the Herald a short call.

**BANKERS DEVELOP NEW FINANCE AID**

**President of American Bankers Association Describes Plan and Services of National Credit Corporation**

**NEW YORK.**—The National Credit Corporation, a billion dollar cooperative institution, is the method worked out by bankers to put into practical effect the central point in President Hoover's plan for renewing the commercial and industrial activity of the nation as proposed in his statement to the nation of October 7, Harry J. Haas, president of the American Bankers Association stated in a recent interview.

The corporation is strictly cooperative in character, he said, to unite the entire banking system and increase the effectiveness of the financial services of banks to their communities in rural districts as well as the cities. The plan will marshal the banking resources of the country, he explained, by creating a national institution whose funds will be loaned when necessary to banks which have assets in their portfolios that are thoroughly sound but are not eligible for loans at federal reserve banks.

**To Benefit Everybody**  
"There is no citizen in the United States but will benefit in very practical ways from the results of the operation of this forward-looking plan of cooperation, which may be regarded as one of the most constructive steps that have been taken toward revival of sound business activity," Mr. Haas declared, adding:

"The National Credit Corporation represents an instrumentality that should have far-reaching effect in restoring the confidence of the public. The plan not only has been formulated by the country's leading banking authorities, but also will be carried out locally as well as nationally by banking representatives who have given their time and thought to this undertaking as a real public service."

"The American Bankers Association convention was in session at the time the plan was proposed and unanimously endorsed it in principle. I have examined the detailed formulation of the working plans as developed by the incessant labors of some of the Nation's leading bankers who have undertaken to put it into practical operation in single-minded devotion to the national welfare, and I am able to say without reservation that the National Credit Corporation as set up by them constitutes a practical, sound and efficient means for carrying out President Hoover's proposal."

**HARD TIMES RENEW BANKER'S OPTIMISM**

**Former Bankers' Chief Finds Much in Past Year to Inspire Confidence in Financial Reliability**

**ROME C. STEPHENSON**, retiring president of the American Bankers Association, declared in an address on the expiration of his term of office that, in travelling about among the banks from one end of the country to the other during the past year, he had "come out of it with a renewed faith in the strength of our banking structure and our banking situation, and a renewed faith particularly in the spirit and courage of the men in the banks that have enabled them to rise unscathed over difficulties such as men never had to face before, or to accept with fortitude misfortunes that were beyond human power to prevent."

When he reflected, he said, that "the entire human economic structure has been brought to the verge of ruin under our not only the nation but the entire world, and that the results of events of this kind react with particular directness upon the stability of our banks, and yet how few have succumbed, we may well renew our confidence in the banks of America; when we think also of how many of our bankers have stood up under the stress and storms of these times and how relatively few of them have been proved wanting in the series of crises that have assailed them, we may well feel a sincere pride in our fellow bankers." He added:

"So I come out of this year of sorber experiences not as a pessimist, but as an optimist—as one with a renewed faith and confidence in the spirit of his fellow men under overwhelming difficulties. And particularly do I come out of this year as a banker who is proud of his fellow bankers for the undaunted way in which they have met their part of the great test through which the times have put the nation. I believe that this year has brought new honor to our banking traditions and our banking profession and has won for the banker new title to the faith and trust of all classes of his fellow citizens."

**Wise Spending**  
Careful and wise spending will help solve our economic problems and will, he of untold benefit to the farmer. Our troubles are not caused by the spending of money, but because it was spent unwisely.

O. E. O'Neal and family, who moved from here to California, have returned and he has a position in his father's drug store at Seagraves. Says there are too many foreigners here for him.

A number of the local nimrod drove out this week in quest of bucks, but found none. Bean to warm. Mr. Duck seems to still be in the north.

**Union Make-ups**

Move over a bit please, and let us have room to gossip for awhile. No sir! you bet we're not dead, even though you haven't heard from us in a long time. We've been so busy that we just neglected our writing. Anyway, we're back now for awhile. Yes, school has been going on for a week, although we haven't very many on roll, but we expect more in a week or two. Boy Howdy! we couldn't get better teachers than we have.

Miss Inez Avirett went to Southland Sunday, to spend the day.

Mr. and Mrs. E. C. Groves and family had relatives from Lubbock visiting them Sunday.

Sunday school and B. Y. P. U. are progressing nicely. We invite you to come and be with us next Sunday. Sunday school at 10 A. M. B. Y. P. U., at 7:30 P. M.

Miss Ruth and Marie Shepherd visited Miss Margaret Chirsty Sunday.

Mr. and Mrs. E. C. Groves and family spent a few hours in the home of J. C. Bass and family Saturday night.

Mr. Ernest Shepherd, who is working for Arthur Sawyer at Lahey, spent Saturday with home folks.

Mr. L. C. Green Jr., and Tom Harrod rode horse back over to the Alkali Lakes Saturday.

Kodaking parties, did you say? Well, W. D. Christy and Lewis Bryant went on one Sunday afternoon.

Mr. Royce Christy returned to Big Spring last week, where he will work in a cafe.

Miss Hallie Harred spent the week end with her sister, Mrs. Otis Draper of Brownfield.

Mr. and Mrs. Otis Draper, Mr. and Mrs. N. G. Stewart and son, of Brownfield spent Sunday with Mr. and Mrs. J. C. Draper.

Misses Leta Mae and Ozella Bass, Ruth Groves, Mr. Nelson Groves, Rufus and Wilmer Crage went kodaking Sunday afternoon.

**Lame Back Cured**

I have often heard of what remarkable things Chiropractors could do but I have never had any experience with them until November the 9th of last week.

I was pulling holes on Mr. J. E. Eakin place at Gomez. About middle of the afternoon I started to get up and found that I could not and just fell to the ground with severe pains in my back. I could not move nor get up in any way. I lay there in the field for four hours until some of the boys came out and found me. They picked me up and put me in a car. Mr. Eakins suggested that we go up to Dr. Holder, Chiropractor office which we did. All the time I was in severe pains. Three men carried me up the steps to the doctor's office and laid me down on the table. The Dr. worked on me for fifteen minutes and then I got up off the table and walked out of the Office without any pains. Of course I appreciate Dr. Holder for for I thought I was a goner.

Yours a friend,  
Roy Blunt,  
Post Office, Gomez, Texas.

P. F. Bruce was in last week and informed us that he would get 15 bales of cotton off 25 acres this year.

# THE CUB REPORTER

## THE CUB REPORTER

Reporters—Pearl Landess, Theo Adams, Steve Brock.

### Athletic Club Gives Program

Thursday morning, Nov. 12, the student body of Brownfield High school was entertained by a very extraordinary chapel program put on by the athletic boys of the school and directed by coach Hayhurst.

The first thing on the program was two songs, "Stein Song" and "The Soldiers Chorus" sung by the Boy's High school Glee Club. This club is composed of the following: Manard Smith, Lee Brownfield, R. W. Rambo, Norman Parker, S. J. Dunn, Sawyer Garham, Steve Brock, Bill Gore, A. T. Fowler, Weldon Moore and Wayne Tipton.

The first thing on the program was a declaration entitled "Was Woodrow Wilson A Failure?"

Next was a solo on the Hawaiian guitar by Murphy May.

One of the most delightful numbers on the program was a cowboy song by O. D. Thomas, accompanied by Gilliam Graham with the French harp. The pair was encored and came back on the stage to sing a little ditty entitled "Alfalfa Hag."

Next on program was a tap dance by Charlie Taylor. The music for this dance was furnished by John L. Cruce, who is an expert on the French harp.

Then came a big three act football play. The first act gave a "look-in" on the hand, which was represented by Ray Brownfield. The second act was a meeting between the captains of Harvard and Yale colleges. The captains were B. F. Moore and Jim Neill. The meeting ended up in a row and B. F. was nearly smothered by the "heel dust" made by Jim's "number twelves." The last act was an invitation of the pep squad, which was made up of about fifteen boys dressed as girls. Their pep leader was the gallant Mr. O. D. Thomas. The program concluded with a guitar solo by Manard Smith and a joke by O. D. Thomas and A. C. Smith.

### Seniors and Freshmen Lead in Scholarship.

The percentage of failures in the classes for October is listed below:

Eight grade	5.504%
Ninth grade	7.407%
Tenth grade	9.166%
Eleventh grade	4.444%

According to Mr. Lawlis, it is usually true that the eight and eleventh grades are the one which contains the greatest number of failures. There are 8 students of the eleventh grade taking five subjects and none with more than four subjects in the eight, ninth and tenth.

### Brownfield Cubs Beats Tahoka

The football rivalry between the Brownfield Cubs and the Tahoka Bulldogs was again resumed Wednesday, November 11th on the Tahoka gridiron. Although the Bulldogs played a hard game in the last half they were over run by the fighting Cubs. In the first half the Cubs with Neill at half and Bell at full ran around the Tahoka ends and played their lines for three touch downs. Spears in the left half position played a spectacular blocking game. (Spears comes from a small town near Tahoka and is one boy who came home and showed the Bulldogs how to play ball. He also made the first touchdown.) Cecil Burnett also de-

serves credit for the winning of the game for he seems to have put into our boys the offensive that they have not had heretofore this season. The other players Graham, Burnett, Thomas, Smoot, Smith, Huckabee, Moore and Brownfield played spectacular games tacking and blocking for the faster and harder driving backs.

Tahoka deserves much credit for their wonderful comeback in the last half. They came back against odds of 26 points and held the Cubs scoreless in the last half. Not only this but they scored when the game ended. The score was Brownfield 26 and Tahoka 6.

Mr. Ledbetter in Math Class—"If I take a potato and cut it half in two and cut the halves in two again—and then cut these pieces into fourths—what would I have?" James Parker—"Potato salad."

### Basketball Girls Begin Work

The basketball girls met in the room of their coach, Mr. Lawlis, on November 10th, to discuss the prospects for the year and elect a captain. Evelyn Pippin was elected captain and Bob Carpenter, assistant captain. The girls are going to start practicing November 17.

There is plenty of good material in the high school for a good basketball team and the girls are going to work hard so that Meadow will not win the county championship this year. If the girls will win the first few games the people of the town will stand behind them more and support them.

### Debate Club Receives More Material

Bulletins were received the past week on "lobbying" from the University of Texas. The questions this year for the debate is: Resolved, That lobbying as practiced in this country is detrimental in the Best Interests of the People. This is a subject that will require much studying. There are some, five or six students who are studying the question. The club meets every Friday at the second period.

Mr. Hayhurst: (In civics class where they were studying courts)—Otis, we will let Orvalene sue you for breach of promise. Otis Spears—Never mind, we'll settle that out of court.

Eileen Ellington who is attending Tech made 96 in English Mid-term examination. This was the highest grade made in her particular section of Freshman English. Eileen graduated here last year with class honors.

Bernice Crossland from Coleman was a visitor in our school last Friday 13th.

Miss Mozell Treadaway was a visitor in High school last Friday.

Maurita Bell, who graduated from high school here last year is back with us for a while. She visited school November 17. Her home has been at Magdalena, New Mexico, since she moved from here last summer.

Corene Bartlet is a new freshman from Big Spring.

### Students Enjoy Holiday

Wednesday, November 11th was given to all schools of Brownfield as a holiday. High school enjoyed the day by defeating the Tahoka Bull-

dogs 26 to 6. The game was played at Tahoka. Brownfield was well represented on the side lines as well as on the field.

After the game some returned home, while others stayed in Tahoka to help celebrate the remaining part of the day.

### Girls Hike

Friday morning the girls P. T. went hiking instead taking their regular exercise. The morning was rather cool for hiking. Nevertheless the girls enjoyed it.

### DID YOU KNOW THAT:

Edison had approximately two-thousand inventions to his credit before he died. Also he left an estate of over fifty million dollars;

Blondie Lee has a permanent wave;

Texas has over one-hundred judicial districts;

An automobile driver who has never had an accident is a reckless driver?

### Science Club Studies Radio

The Science club met on November 10, 1931 in the science laboratory. The radio was discussed. Boyd Moore gave an interesting report on the principle of radio. We discussed the different types of arials and how to set them up properly. At the next meeting on November 17 we will continue the study of the radio.

### CARD OF THANKS

We take this means of expressing our most sincere thanks to our many friends and neighbors for the kindness shown during the short illness and death of our husband and father. Mrs. S. A. Banks and Billie.

Mr. and Mrs. Claude Hudgens were called to Lorenzo Wednesday to attend the burial of Mrs. Hudgens' uncle, Mr. Stewart, 81 years old, who died Tuesday, 6 P. M.

We had a letter last week stating that Rev. J. M. Fryar, the Methodist pastor here from 1915 to 1918, was moving from Yellville to Biggers, Ark.

A Mr. Young, friend of R. L. Cornelius, of Pampa, was down this week seeking a farm in the "Safe Farming Section."

Dr. A. Hefner, Masseur, of Spur, Texas, is here for the time being and is located at the Smith Hotel. Read his ad in this issue of the Herald.

Mr. and Mrs. Chas. McHaffey and son, Chas. Jr., of Blackwell, were here over the week-end visiting Mrs. McHaffey's mother, Mrs. J. E. Fitzgerald and family.

### How One Woman Lost 10 Pounds in a Week

Mrs. Betty Luedcke of Dayton, writes, "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

To take off fat easily, safely and quickly take one half teaspoonful of Kruschen in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—Get it at Alexander Drug Co. Inc., or any drug store in America. If this first bottle fails to convince you is the easiest, safest and surest way to lose fat—money back.

## INDUSTRY SEES HOPEFUL SIGNS, BANKERS TOLD

### Leading Automobile Unit Expects to Employ More Men This Winter Than Last

### MOTOR SUPPLY IN HANDS OF PUBLIC FALLING OFF

Twelve Million Years Less Transportation in Nation's Car Inventory Than Considered Normal, Manufacturer Tells Financiers

ESTIMATING that transportation in the form of automobiles now in the hands of the American public is twelve million "car-years" below normal, and that this deficit will eventually have to be made up, Richard H. Grant, vice president of the General Motors Corporation, recently told the American Bankers Association convention that employment in his company may be greater this winter than last year.

"Employment during the winter months is a very important thing," Mr. Grant said. "So far as our corporation is concerned, in November, December, January and February we will be employing at least as many and probably more men than we did this past year."

In order to gauge the outlook for next year's market his corporation, he said, attempts to set up sales indices based on intensive scientific studies in addition to observation and common sense. "We are in the habit of looking upon an automobile not merely as an automobile but as transportation," he said. "We figure each automobile produced as six years of transportation. Then by following up records of production yearly, we get a graph which indicates what ought to be a normal inventory of transportation in the hands of the American people, and whether there are more or less miles than might be expected. According to our figures, there are about twelve million years less transportation in this inventory at the present time than has been considered normal since 1925."

The Outlook for Business "Consequently, if we retain the same purchasing power in this country, it is quite evident that on the first upturn of business there will be a rush to replace that inventory. In developing this graph, it has come out very strongly that every third year is a big automobile year. The biggest automobile year was 1929 when 4,199,000 cars were produced for American consumption. This year the industry will produce somewhere between 1,800,000 and 1,900,000 cars. As 1932 is three years after 1929, if economic conditions were normal we could be sure we would do a tremendous business, because the third year is the time when the bulk of the replacing takes place."

He added that there are factors at work that make it uncertain how big the year will be, instancing that "money is being hoarded from lack of confidence and this takes away some purchasing power that we would otherwise have, while family budgets are being cut on account of changes in income conditions, which again means that purchasing power for the automobile, like a good many other things, will be knocked down." As a result, he said, it was necessary to measure what statistically would be a big year against a practical consideration of the curtailment of expenditures which is going on and determine how big the year will be under these circumstances.

"From a long haul standpoint, regardless of how many automobiles are sold in 1932, we are storing up a big business for the future," Mr. Grant said. "There will be fewer automobiles sold in 1931 than will go to the scrap heap. With 12,000,000 car-years out of the inventory, nine percent more gasoline was used up to August 1, 1931, than was used in 1930. With fewer automobiles, the people must have been running the faster and longer to consume the additional gasoline. This means that we have some 22,000,000 people working hard to make a fine business for our industry when there is an economic recovery."

### No False Optimism

"I am not attempting to create any false optimism—I am not speaking without a statistical background. Using the best sense we can, we have drawn conclusions from the figures we have, and I am willing to make the statement that as far as the conduct of our business for the first half of 1932 is concerned, we shall set the indices somewhat higher than the actualities of 1931. We are willing to set our advertising budgets and our selling expense on the kind of indices. With economic conditions as they are, and since the obsolescence is so great and we have sunk so low in this year's sales, we figure that the first half of 1932 must necessarily be better than was the first half of 1931."

### Bankers Help

Seven banks of Kennebec County, Maine, cooperated with the county frange, farm bureau, and local creamery, in financing the publication of a booklet, entitled, "The Agricultural Situation in Kennebec County." It presents in a concise manner the farm resources and practices of the county, with suggestions for improvement.

Horace Randal, of New Mexico, is here visiting his brother John and family, while John is recuperating from illness.

Neighborhood news is a little scarce lately, but we guess the correspondents are busy gathering their crops. Hope to have them back soon.

Uncle Ike Newberry and son, were in Monday after supplies.

## Renewals Rolling In To the Herald Now

The renewals have been rolling in quite nicely the last week, for which we thank those who did so. The following are some that have renewed:

Lee Schulz, A. H. Herring, J. M. Johnson, R. L. Alberding, 2 years; P. F. Bruce, 2 years, J. W. Bingham, J. B. Patton, H. C. Zorn, M. G. Ver-Plainfield, N. J., by Jim Miller, city; S. W. Welcher, Wellman; J. A. Forrester, Rt. 3; A. J. Loyd, Rt. 2; L. F. Locke, Rt. 2; J. G. Curry, Sea-graves; W. O. Hart, Rt. 1; Geo. Black, Rt. 2; J. M. Lemley, Mt. Morris, Pa.; R. S. Heartsill, Rt. 2; Joe Eudy Rt. 1; Chester Osgood, Long Beach, Calif.

### CONVICT IS FOUND AFTER NINETEEN YEARS

On information furnished by the Howard County sheriff's department Sam Grant, about 44, who escaped from a state prison farm 19 years ago after being sent up from East-land county on a life term for murder was being held Saturday night in Elk City, Okla., while Texas penitentiary agent was enroute to return him to Huntsville.

Grant's whereabouts were learned by Sheriff Slaughter and his force last week. They informed Elk City officers, who arrested him near there.

Andrew Merrick, local deputy, said the department here began hearing of Grant six or eight months ago, when he began coming here to visit his wife and daughter, who reside on East Sixteenth Street. He has one single daughter living with her mother, and two married daughters residing here, the other near Knott.

Sam Grant, among whose aliases was G. W. Granks, was convicted of murder at Eastland May 8, 1912 following a second trial before Thomas L. Blanton, now congressman, then district judge.—Big Spring News.

Lewis Whitaker, of Seminole, former employee of the Herald, was a visitor here last Friday.

A. J. Loyd was in Saturday after supplies for the farm.

### BILL FRITTS SENTENCED AT CLAIREMONT

Within an hour after he had heard pronouncement of the death sentence at Clairemont Tuesday Will Fritts started another journey—probably his last—to Huntsville to await execution on December 18, for the slaying of his neighbor, D. W. Hamilton in Haskell County in 1928.

The sentence was pronounced at 1:30 p. m. by Judge M. S. Long of Abilene, sitting in 39th district court of Kent County for Judge Clyde Grissom, disqualified because he conducted the prosecution in the trials of Fritts. The prisoners received the pronouncement calmly, with no show of emotion.

Shortly before 2:30 o'clock the condemned man, hand shackled and wearing leg irons was started on the return trip to Huntsville, in custody of Ranger Earl McWilliams and Sheriff Bob Goodall.—Jayton Chronicle.

The office of Representative from this district will be wide open next year. Judge G. E. Lockhart, the present Representative, has stated to friends that he will be a candidate for the state senate. The Judge is serving his first term as Representative. We have not agreed with him all the way through but it can be said of Judge Lockhart that he is able, courageous, and independent in thought and action. He would ably represent the district in the state senate. We have no information as to whether our present senator, Pink Parrish, will be a candidate next year or not. Since Judge Lockhart is not to run for the Lower House again, it is probable that there will be a number of candidates, possibly one or two from Lynn county. Politics is going to be interesting next year, folks.—Tahoka News.

The Herald received a third of the J. L. Randal pecan crop this week. Their tree in the yard started its first year as a bearing tree and had three nuts this year. We got one.

Mrs. A. E. McBroom of the south part of the county, is now a regular reader.

Dr. M. C. Bell, was here this week from the ranch in western New Mexico, looking after business matters.

## Dr. Hill May Head State Teachers Association

An effort is being put forth by teachers, especially in West Texas, to put over Dr. J. A. Hill, president of the State Teachers college at Canyon, as president of the State Teachers Association when they meet at Amarillo this month. We believe that most west Texas teachers are for him, as they either know him personally or know of his work. The Herald also understands that he is quite well known all over the state and is assured of strong support from every section, and as the meeting is to be held in Amarillo, he has an excellent chance for election.

We have never met Dr. Hill but once, and that was in 1924 when the State Press Association which met in Amarillo that year were invited over to the college one night for a picnic on the campus and an entertainment in the auditorium. Our remembrance of him was that he was a very gracious man, and did all in his power to entertain and make us feel at home, and with the help of the other members of the faculty and students, certainly succeeded. If we were a teacher, we know we would vote for Dr. Hill.

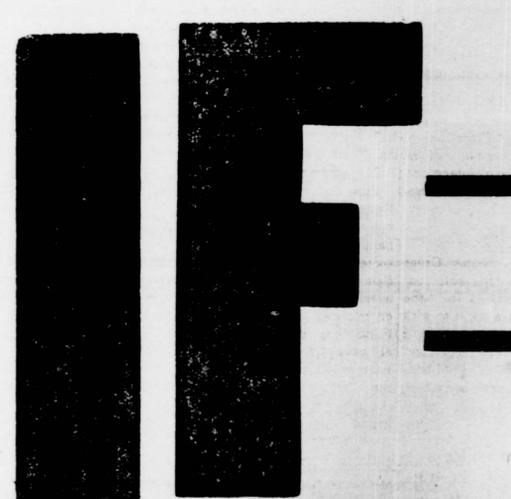

As a teacher, he has had experience in all kinds of school rooms from the one room rural school on up through the small town and city schools to the head of a great Texas educational institution. Dr. Hill is a brother of our neighboring editor, E. I. Hill of the Tahoka News, is another reason we would favor him.

### MONTGOMERY WARD CO. TO CLOSE 3 STORES

Abilene store of Montgomery Ward & Company is to be closed as soon as present stocks are liquidated, it was announced Wednesday by H. J. Barham, local manager. The store is to be closed Thursday and Friday in preparation for the liquidation sale, starting Saturday.

Montgomery Ward & Company is also closing out its Sweetwater and Wichita Falls stores.

The closing of these stores is a part of a readjustment program such as Montgomery Ward underwent in 1928 and 1929.—Abilene News.

# AMONG SOCIETY FOLKS

Mrs. Ike Bailey, Editor Phone 160

## PRESBYTERIAN SOCIETY

A lesson from the study book was given by the nine members of the Presbyterian Missionary Society who were present at their meeting Monday. Forty-five cans of fruits and vegetables were brought to be sent to their denominational Orphan's Home at Dallas. Plans were made at this meeting for a social to be held some night this week at the church for all church members. The Missionary Society will meet next Monday at three in the Sunday school room for their monthly social and business meeting. Mrs. H. W. McSpadden and Mrs. Ellington will be hostesses.

## CHRISTIAN SOCIETY

Four members of the First Christian Missionary Society met Monday at the Church. The lesson was from the Life of Christ, led by Mrs. Walters. The next meeting will be Monday at 1 o'clock at the home of Mrs. Ballard. A Thanksgiving dinner will be served and a missionary program will be rendered.

## BAPTIST W. M. U.

Six members of the Young Matrons Circle met at the church Monday. One visitor, Mrs. Hale was also present. They had a Mission study program before going into the General meeting. Mrs. Jack Benton and Mrs. Sexton delivered interesting talks on Mission Work in Uruguay and China. The next circle meeting will be Monday at Mrs. Hilyard's. It will be Industrial Monday.

The general meeting of all four circles was held at three o'clock Monday. Eighteen members were present. The subject of the program was Benevolence. The three phases of Baptist Benevolent Work: Hospitals, Orphan Homes and Old Ministers relief were discussed by Mrs. Hilyard, Mrs. Stewart and Mrs. Bandy. A duet was sung by Mrs. Mullins and Mrs. Alewine. Then the monthly reports of the circles were read and other business conducted.

Rev. Turrentine and family are moving to Lockney, his new charge assigned by the Methodist church conference which was recently in session. The pastorate here will be assumed by Rev. Thorp, formerly of Post.

## FLOWERS AND BIRDS

Make a desirable Christmas gift. I have a large assortment of Bulbs. Will appreciate your order for Pot Plants and Cut Flowers. Also have a few Birds.

Mrs. W. B. Downing, Phone—69

## JUBILEE AUXILIARY

The Jubilee Auxiliary devoted their Thursday afternoon meeting to quilting. Twelve members came to the church at one o'clock and completed two quilts by six o'clock when they adjourned.

## METHODIST SOCIETY

The first chapter of the study book Korea, land of the Dawn, was studied by both Methodist societies meeting together Monday. Fourteen members were present. Mrs. Webber and Mrs. Carpenter outlined the lesson. Both societies meet again Thursday for a study of the second chapter. Next Monday's meeting will be a social at the home of Mrs. Linville with Mrs. McDaniel as assistant hostess.

## BIBLE CLASS

Ten members of the church of Christ Bible Class met Monday for their lesson from the 6th and 7th Chapters of 2nd Corinthians. Mrs. Storey led the discussion. They will meet next Monday at the usual time with the next two Chapters for the lesson.

Mr. and Mrs. W. D. T. Storey are moving to Littlefield the latter part of the week. Mr. Storey will be head of the mathematic department in the high school there.

Mrs. Cruce, Mrs. Collins and Mrs. Downing were Lubbock visitors Tuesday.

## MRS. STOREY ENTERTAIN

The Ace High Club was entertained by Mrs. W. D. T. Storey Tuesday at 1:30 o'clock. Members and guests were Mesdames Bowers, A. M. Brownfield, Dallas, Harp, May, McGowan, Shelton and Wingerd. High prize, a medalion picture was won by Mrs. Brownfield. A salad course was served.

## 1930 BRIDGE CLUB

Mr. and Mrs. Ralph Carter were hosts to the 1930 Bridge Club Tuesday evening at 7:30 o'clock. Club members were Messrs. and Mesdames Bailey, Pyeatt, Sullivan, Jacobson, Telford and Mr. Lawlis. Other guests were Miss Taylor and Messrs. and Mesdames Briley, Endersen, Allen, McDuffie, McGuire and F. McSpadden. At the conclusion of the games refreshments of sandwiches, salad, fruit cake and tea were served. The ladies high score prize, a Dresden China figurine puff box, was won by Mrs. Endersen. The mens prize, a travelers kit went to Mr. Lee Allen.

## MAIDS AND MATRONS

The study of Russia this season in the Maids and Matrons Club is arousing much interest among the members. This club met Tuesday afternoon at four o'clock at the home of Mrs. Toone with Mrs. Tom Cobb as assistant hostess. Seventeen members were present with Mrs. A. D. Cobb of Dallas as a special guest. Mrs. Wingerd conducted the program. The phase for discussion at this meeting was the Communist Party and Mrs. Jackson, Mrs. W. E. Adams and Mrs. Holder contributed splendid papers on this subject. After the program and a short business session, Mrs. Brownfield gave an interesting report of the recent State Federation Convention held at Lubbock. Refreshments of spiced tea, cocoanut macaroons and sandwiches were served. The next meeting will be at four Tuesday December 1st, with Mrs. Telford and Mrs. Crews at the home of the former.

## BRIDGE PARTY

Mrs. Bailey entertained the Vogue Club with a bridge party Thursday afternoon. Those present were Mesdames Akers, Bowers, Endersen, Hudgens, McDuffie, McGuire, Pyeatt and Miss Taylor. High prize was won by Mrs. McDuffie.

## FRIDAY FORTY-TWO

Mrs. G. S. Webber was hostess to the Friday Forty-two Club Friday. Three tables of members and guests enjoyed the hospitality of her home. They were Mesdames Kendrick, H. W. McSpadden, Brothers, Longbrake, Ervin Rambo, Clint Rambo, Weir and Mrs. Gladys McSpadden. Prizes were given for high and low cut. Mrs. Hamilton received high, a box of stationery. Low prize an ornamental doll clothes brush was won by Mrs. Longbrake. The house was pretty decorated in chrysanthemums and other cut flowers. At the conclusion of the games a salad course was served.

## BAPTIST CHURCH

We had even 200 present in Sunday school and 98 at all our B. Y. P. U.'s last Sunday. We are very proud of those who were present, but we just know that there are others who need these services of the church. Next Sunday should be a big day with the First Baptist church. Come and let me tell you why.

9:45 A. M. Sunday school, C. K. Alewine Gen. Supt. Let us back him up with our presence and prayers.

11:00 A. M. An old fashioned song service, led by W. W. Price.

11:25 A. M. Sermon by the pastor. The subject will be "The Power of the Gospel in Human Life."

6:30 P. M. (Notice the change)—All B. Y. P. U.'s will meet Alfred Fry, Gen. Director. Remember we have a union for every member of the family. Come bring the little folks.

7:30 P. M. A rousing song service. The old gospel songs will be the chief feature. Come help us sing these old songs of the yesteryears.

8:00 P. M. Rev. B. H. Warren, field representative of Wayland College will bring the message of the hour. You will want to hear him. Visitors and strangers are especially urged to worship with us. Remember our motto: "A church with a glad hand and a Bible message."

J. M. Hale, Pastor.

## BAPTIST CONVENTION

Rev. V. A. Allen, Mrs. W. W. Price and Mrs. S. L. McDonald and J. M. Hale attended the Baptist Gen. Convention of Texas at Waco last week. There were 4,000 messengers present representing the 506,000 white Baptist of Texas. Reports of this trip were made by Rev. V. A. Allen, Mrs. W. W. Price and Mrs. S. L. McDonald at the Sunday night service. Last Sunday the spirit of the convention was never better.

J. M. Hale.

## CHURCH OF CHRIST

We are very much gratified at the splendid progress the church has made this year. There are just six more weeks left in this year to work for the Master. Let us make them the best yet.

Next Thursday is a day set aside by our President as a National holiday, Thanksgiving day. How our minds and hearts ought to turn to the bountiful giver for the blessings that has been ours to enjoy this year.

While things may not have been the best yet there are many things to be thankful for, especially to all living in good old Terry county.

Subjects for next Lord's day, "Gratitude" in A. M. and "Weighed and Found Wanting" P. M.

Come to the church where you are but once a stranger.

R. P. Drennon.

Mrs. A. D. Cobb of Dallas is visiting her children here, Mr. and Mrs. Tom Cobb and Mr. Joe Cobb.

Miss Eileen Ellington spent the weekend with home folks.

## PRESBYTERIAN AID SOCIETY

The Presbyterian Aid Society met Monday afternoon at the usual hour from three to four. After a short business session we took up our regular lesson in text.

Mrs. Wingerd brought to the meeting a large case of canned goods which she had collected among the Presbyterian ladies as a Thanksgiving offering to be sent to the Reynolds' Home in Dallas.

We are always glad to welcome visitors, to our meetings, and we urge our members to come.

## FIRST PRESBYTERIAN CHURCH

Rev. Eugene H. Surface, Minister

The First Presbyterian church announces a change in its schedule of activities. The pastor will be at Lamesa the first three Sundays of each month, and alternating every fifth Sunday, regular worship services will be held both morning and evening. The pastor will be in Brownfield either the week following or the week preceding his Sunday here. A mid-week service will be held on the Thursday of that week. Instruction, a song service and a good social time of fellowship will be enjoyed.

## Presbyterian Services

"Church Night" is to be held at the Presbyterian church, Thursday, November 19th, beginning at 7:30 o'clock. Instruction, discussion, singing, fellowship—will be enjoyed. Good "eats" are to be had.

There will be worship services, both morning and evening on Sunday, November 22 and Sunday, November 29th—the minister, Rev. Eugene H. Surface announces. A hearty cordial welcome is extended to all to worship with us.

Subjects for sermons on November 22nd are: Morning (11:00)—"The Temporal and the Eternal." Evening (7:30)—"Four Worst Sins."

## LIFE INSURANCE

A sentence in former President Calvin Coolidge's radio address on life insurance, expressed a truth which many policy holders have discovered for themselves. "When," he said, "the market value of most personal property and real estate has depreciated, the contract value of life insurance policies in the first class companies of the United States and Canada has been an outstanding exception of firmness and stability."

Fortunes have been swept away during the last two years, but those who have been able to keep up their life insurance policies find they have something which, unlike stocks and bonds, is worth as much as it ever was. While it is unwise to attempt to buy more insurance than one can, with reasonable thrift, carry, it is true that, as Mr. Coolidge said, "life insurance is probably the best property you have."—The Youngstown, Ohio, Vindicator.

## LIGHTS of NEW YORK

A girl, pretty and young, rented a room in Brooklyn. It was in one of those houses where lodgers are permitted to cook their own meals and the girl was particular to see that the little gas stove was in working order. She paid a week's room rent in advance, as is the custom in such cases, went out and bought a small bunch of flowers, came back and put them in a glass, plugged the keyhole and door cracks, lay down and turned on the gas.

When at last they opened the gas-filled room, the girl was asleep forever. Her purse held a little money, but neither there nor on her clothes could any identifying mark be found. The police finally discovered, in the waste-paper basket, a torn and crumpled sheet of paper with the names of some illustrators on it. They visited the first one on the list, told him he would have to go to the morgue and see if he could identify the girl.

This didn't make much of a hit with him, as he is naturally a highly-strung, nervous fellow, but he took a friend with him and accompanied the police. For purposes of this story, we will call the friend John Doe. It was night. As the party reached the street, the policeman saw a large automobile and evidently knew the chauffeur, because they asked him to drive them around to the morgue. He said he would, as he was on his way back to the garage and had nothing to do. They told him the story and the name of the artist and his friend.

It seemed to the artist that the morgue was a dark and mysterious place. They showed him the girl, and it was a bit of a relief to him to discover that he never had seen her before. When they came out and shut the door behind them, the automobile was still waiting. They started toward it, when suddenly from the dark doorway they had left, came a wailing voice, saying: "John Doe! John Doe!"

To say that the artist and his friend were startled would be to underestimate the case. Pale and trembling, they hung on to each other. A laugh came from the waiting car. "Don't be scared," called the chauffeur. "I just couldn't resist it. I once was a stage ventriloquist. I called 'John Doe' because I couldn't remember the other guy's name."

That is the end of the story, but I might say that the police never identified the girl. None of the artists whose names she had written down had ever seen her. Apparently she had thought of trying to get work as a model and had copied their names out of magazines or a telephone book. The car, by the way, was said to belong to a dignitary of the church.

Those who turn out articles under the name of some prominent person have become commonly known as "ghost writers." A new wave of interest in the collection of autographs, especially among schoolboys, has given this profession a new twist. There are now "ghost autographers." If some of those most in the public eye stopped to write their names for all who ask, they wouldn't have time for anything else and also would develop writer's cramp. So substitutes autograph practically everything except their checks.

Although he happens to go with a crowd who have their shirts made, a man I know, for reasons of economy and because he thinks they are just as good, buys his at the nearest furnishing store. Everything is all right except the sleeves, which are always too long. For a couple of years he has been trying to persuade his wife to shorten them. The other day she met him with a smile, saying: "Well, those shirts are all right now." "Great," said the man. "You certainly were sweet to fix those sleeves." "Yes," said the wife, "they'll be all right now. I bought you a pair of arm garters."

Some men went to a seaside resort to play golf and put up at a hotel. One of them, who takes his game very seriously, announced that he was going to bed early so that he would be fit to shoot the game of his life in the morning. The others gave him time to get to sleep and then called him on the telephone. One of them told the serious golfer he was sorry to disturb him, but that he was the trouble man of the telephone company and that a break in the circuit had been traced to his room. The man protested that he wanted to sleep but was told that the break had put the whole circuit out of order and that repairs must be made at once. Would he stand a foot from the telephone and speak? Would he stand three feet away and speak? Would he go to the middle of the room and speak? The victim each time did as requested. Coming back to the telephone, he asked: "Could you hear me then?" "Yes," came the reply. "Now, please stand on your head and speak, and then go back to bed, you big nutt."

The golfer lay awake most of the remainder of the night trying to figure out the most painful death for persons who needed killing.

## Prospect Favorable for Young Musical Geniuses

**RED NICHOLS**

A cat-in-or-out, I'll live on-y-where, - As long as it's home-ey, - As long as you're there

## Time Is Ripe for New Gershwin, Says Leader

New York City.—That the musician whose medium is modern American dance music has a great responsibility toward the development and progress of all modern music, is the contention of Red Nichols, well-known orchestra leader, who hails from the Southwest where the country still has lots of young ideas.

"Our modern dance music is bound to affect all American music because it is heard over the radio, in every hamlet and town," declares Nichols. "George Gershwin took the initiative in putting into our modern music something that even the great music critics abroad stood up and applauded. But this was only a beginning. What are we going to do next? I don't know. Will some youngster who has been contributing his talent to our national dance music come through with a real masterpiece, a composition that will live as symbolical of a music that is truly American? I think he will.

"It will be a music that will no longer be called jazz—but American—and the composer's name will be known wherever it is played as Wagner and others of the great master's names are known. "While our music may not speak often of the sad or seamy side of life, it's sincere and real music for all that. We are a carefree people, aren't we, and so our music is carefree.

"As Long As You're There," a modern fox trot song, which is the rage just now, expresses this in both words and music. Listen: "With life is sunny since love is my creed, While I have you, honey, you're all that I need."

Nichols believes that no country as vivid as America could fall eventually to contribute something that would affect the whole world of music.

# MURPHY BROS.

**LOVE THY NEIGHBOR**

This period through which the world is struggling is more than a study of strategic plans to ambuscade the dollars which fled. Humanity itself is on trial. The civilization which we have envolved is undergoing the supreme test. If there is such a thing as brotherhood among men, now is the time to show it. Drunk with wealth, we have strayed a long way from the fundamental and eternal truth. We have been living in a house stuck upon golden stilts. And it has crashed. In our agony and suffering we have discovered that Jesus Christ meant what he said. The Golden Rule was na a pleasant nomily intended for reward-of-merit cards with silk fringe on the edge and diamond dust shining on the snow scenes. It was a simple statement of the eternal law, the same that keeps the stars in the skies and the world turning on its axis. We speak of breaking the law and commandments. You can break them; but they break you. "Love one another" was more than an admonition to light the path of virtue. It was the statement of an eternal principle upon which all law, all philosophy, all business, all ethics, all civilization rests. Like all the doctrines left by the Christ. This was the sublimity of common sense—the finality of practicality—the only sure foundation upon which civilization can rest.

**COEDS SHOW LACK OF SENSE IN DIET**

During these money-glutted years we have tried each to go our own way alone. Years of greed and money lust have ended with this terrible lesson. That wealth evaporates and leaves men stark with naked hearts. It is for us to see that this terrible rebuke has not been in vain. For us to see that we rebuild the fallen structure on the rock of brotherhood. This winter will be a period that calls for all men to have fortitude, strength and sympathy. It is, for once, clear to the dullest mind that we can only help ourselves by helping others. Out of this period of re-adjustment we can regain our souls. It can be a better world because of this period of hunger and sorrow; a stronger America and a sounder civilization if it brings to us a realization we are given the privilege of being brother's keeper. The remedy for our financial crisis lies not in laws, federal commissions, in panacea or financial errors. The sound and practical answer was told two thousand years ago in a sermon spoken on a mountain in Palestine.—Los Angeles Times.

We had a letter from our old friend, E. E. Simms at Santa Anna, Calif., this week, wanted the old home county paper. Well, here she comes.

Cross Plains—New bank to open in this city.

**COEDS SHOW LACK OF SENSE IN DIET**

**Young Women Are Criticized in College Research.**

Columbia, Mo.—Smearing lipstick on too thickly, failure to manicure the finger nails properly, not eating fruit daily, being hungry too often between meals and contracting colds easily are just a few of the things which may be the tell-tale indications that a college girl is not overly intelligent—or, to be scientific about it, not very high in her "I. Q."

These facts and many other intimate glimpses into the life of college girls have been brought to light by the research of Mrs. Esther Stearns, professor of chemistry at Christian college, a girls' school here.

Many Are Dieting. The investigation showed that 36 per cent of all college girls are dieting to reduce their weight. In making the study, the twenty-five students ranking highest in the intelligence tests were compared to the lowest twenty-five. Two hundred and twenty-five other cases were considered.

Ninety per cent of the low "I. Q." group use lipstick, while only 70 per cent of the other group employ it, the report showed. Over 50 per cent of the high group give daily care to their finger nails, while only 25 per cent of the lower group do their daily manicure.

Seemingly the mentally bright get that way by practice, for they spent an average of fifteen hours each week at their studies, while the lower ranking students spent only 11.9 hours.

Fruit Aids Mind. It would also seem that being intelligent is another manner of keeping the doctor away, for 48 per cent of the high group never went to the infirmary, while only 28 per cent of the low group escape medical attention. While both groups use candy in about equal quantities, only 50 per cent of the low ranking students eat fruit each day, as compared to 75 per cent in the other group.

**COUNTY AGENT TO REMAIN ON JOB IN NOVEMBER**

Ray Shaver, county farm agent, will remain on the job here another month, receiving only the salary paid by the State for the month of November. His remuneration from the county ceased the first of the month. Mr. Shaver expects to do some good work here this month. He has been engaged in the work in Lynn county about a year and a half and has done a great service for the farmers of this county. It is to be regretted that conditions have become such that it is necessary for the County Judge and Commissioners to discontinue the work.—O'Donnell Index.

**Worthy Home Membership Taught in Schools**

Realizing that the home is the basic unit of all institutional endeavor and special progress the commission on the reorganization of secondary education set worthy home membership as one of the seven cardinal principles and aims of education. Therefore the secondary school that is meeting the demands of the people that support it is placing considerable stress on the matter of worthy home membership. This objective applies both to boys and girls. The social studies in the Brownfield schools deal with the home as the fundamental social unit and clarify its relation to the wider interest outside. Music and art are calculated to contribute to more beautiful homes and more joy therein. The interpretation of literature carries with it the human elements that are necessary in home making and membership. Throughout all the system the faculty, which consist of both men and women, seek to maintain a wholesome relationship, between boys and girls and young men and women. The extra curricula activities give opportunity for the exercise of this relationship.

**Boiler Blows Up in the American Tailor Shop**

About one o'clock Monday afternoon, the steam boiler at the American Tailor Shop became too hot and exploded, partially recking the roof, sagging the petition walls and breaking out the plate glass windows of the building. It is thought perhaps that the pop-off valve on the boiler failed to work was the cause of the accident.

As good luck would have it, no one was hurt, although Earl Hill and Crawford Burrus were sitting on a table three feet from the boiler. A little scalding was all the harm done to them. But a large piece of the boiler must have passed in a foot of their heads. Bill Youree, the owner, was at lunch, and Fred Youree, who was helping in the plant was in a clothes room at the time.

We understand that a new boiler will be ordered and that Bill will be going good in a few days, but he says he went out of business quicker than he ever went before. The clothing in the tailor shop were not badly damaged.

Everyone was highly pleased with the Lion Club Play last Friday night, and all actors were highly complimented. Although the admission fee was only 10 and 25c, more than \$65 was taken in, all of which will be applied to the Boy Scout Shack, or more properly, club house.

Baird—\$200,000 oil refinery under construction near here.

Canadian—L. E. Whitam and Co., contractors, leased gravel pit near cupation.

This training should not be confined to the girls alone but the boys should be provided with the opportunity to learn something of the qualities of a well appointed home. Further he should learn something of the skills required to maintain such a home. The woodwork shop and economics class are the only provisions made for this training for the boys in our school. These however will provide him with a workable bit of useful information.

Let us all work for the preservation of the home, as someone rightly said "the bulwark of our civilization."

**TREASURER'S QUARTERLY REPORT**

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF Mrs. J. L. Randal Treasurer of Terry County, Texas. COMMISSIONERS' COURT Terry County, Texas, Nov. Term 1931. In Regular Session

WE, THE UNDERSIGNED, as County Commissioners within and for said Terry County, and the Hon. Jay Barret, County Judge of said Terry County, constituting the entire Commissioners' Court of said County, and each one of us, do hereby certify that on this, the 9th day of November A. D. 1931, at a regular term of our said Court, we have compared and examined the report of Mrs. J. L. Randal Treasurer of said County, for the period beginning on the 1st day of August A. D. 1931 and ending on the 31st day of October A. D. 1931, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of said County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 31st day of October A. D. 1931, and have ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Articles 1636-1637, Chapter 1, Title 34 of the Revised Statutes of Texas, 1925.

W. A. Hinson, Commissioner Precinct No. 2  
J. W. Lasiter, Commissioner Precinct No. 3  
G. M. Thomason, Commissioner Precinct No. 4

SWORN TO AND SUBSCRIBED before me, by Jay Barret County Judge, and L. L. Brock and W. A. Hinson and J. W. Lasiter and G. M. Thomason County Commissioners of said Terry County, each respectively, in this, the 9th day of November A. D. 1931.

Rex Headstream, County Clerk, Terry County, Texas.

**Pershing Pre-Views Chicago Fair**

General John J. Pershing is shown inspecting the model of the "sky-hung" dome of the Travel and Transport Building in the Administration Building of A Century of Progress—Chicago's 1933 World's Fair. After viewing the five great exposition buildings either completed or under construction, he expressed his amazement at the progress being made.

**Dumb Man Talks by Aid of Scientific Device**

New Orleans.—Science has provided a new voice for Harry T. Maguire. He was equipped with an artificial larynx by A. P. Woody, an engineer. Maguire lost his voice six months ago when an operation on his throat necessitated the cutting away of his larynx to save his life. Woody has been using an artificial larynx for six years, speaking distinctly through it. He obtained the one which Mr. Maguire used from Dr. E. I. McKesson of Toledo, Ohio. Woody also had a special silver tube, which he has perfected, made for Maguire. This fits into the wind-pipe and attaches to the breathing valve. This breathing or check valve is fitted into a rubber hose through which the breath passes. The hose is held in the speaker's teeth while talking. A vocophone is fitted about an inch from the upper end of the hose.

**New Fabric May Cut Bills for Pressing**

Bradford, England.—The discovery of a process which may appreciably cut women's pressing bills and solve one of the greatest problems of the dress trade has just been made known here. It is a creaseless fabric which is to make its appearance for the spring fashions. The new material is made from a combination of artificial silk yarns with fine wools. It will have a "crepe" finish, and is expected to start a new fad. Dyers have been busy experimenting with the colors most suitable for the new fabric. They have decreed that "prune" shade dresses will be very popular next year. The new "prune" shade materials will be both in wool and silk, both for evening and afternoon wear. Electric blues and pearl grays also will be popular, they predict.

**Edison's Home Town Plans to "Light Up"**

West Orange, N. J.—The home town of Thomas A. Edison recently made plans to "light up" after it was charged the town was the "most poorly lighted." The board of trade agreed a committee should be named to "do something about it" after Terence A. Mulvey, president of the board, said strangers were "shocked" at the badly lighted streets in the inventor's home city.

**Inscription Reveals "Modesty" of Queen**

Calro.—The carved hieroglyphics covering the obelisk built to the order of Queen Hatshepsut have just been deciphered by a group of Anglo-Egyptian experts. The inscription concludes: "Queen Hatshepsut, have caused this obelisk to be erected here, that travelers from all over the earth may come to see—and seeing, say, 'what a wonderful woman she was.'"

**Cat Causes Crash**

West Newton, Pa.—A cat riding on the rear seat of an automobile was the innocent cause of a crash here. When the cat meowed, Jasper Yez, Collinsburg, driver of the car, turned to see what it was all about. The machine hit a telephone pole. The cat was uninjured.

Miss Rowena Hulse, who is teaching this year at Skellytown on the north Plains, wrote home last week for the old home paper to come to her address. She taught in the local schools for several years.

We are requested to announce that the Wellman public school will open next Monday 23.

**Hose Or Lead Pipe Risky Gas Connections**

Flexible connections for gas stoves are dangerous. They are likely at any time to become leaky or disconnected, with the danger of resultant injury to health and property.

This is true not only of rubber hose, but also of lead or copper-coated pipe, which, bent a time or two, may crack and leak. There is this additional objection to lead or copper-coated pipe; the aperture in the usual lead pipe connection is only one-eighth inch in diameter. A bend reduces even this small diameter. The result is that an insufficient amount of gas reaches the burners. A three eighths-inch iron pipe connection is the safest and most efficient for the ordinary room heater.

Natural gas, when properly used, not only is the cleanest, most convenient and efficient of fuels, but it is also one of the safest and most economical.

If you are in doubt regarding the safety or efficiency of your gas equipment, call our Service Department. It is maintained for the free use of our customers.

West Texas Gas Co.

**\$100 For Catchy Trade  
Mark For Texas Meats**

Stamford, November.—Citizens of Brownfield are invited to put their thinking caps on, maybe win one hundred dollars, and do a great service to Texas. The West Texas Chamber of Commerce has announced a contest to select a trade-mark for Texas fed meats.

To the man, woman, or child who suggests the best trade-mark for Texas fed meats, which will be used to identify such meats and popularize their use and demand at markets, cafes, and hotels, the West Texas Chamber of Commerce is offering a cash prize of one hundred dollars.

Complete details may be obtained from the local chamber of commerce secretary, but anybody may qualify. A trade-mark may be a mark, a device, a symbol, phrase, slogan or a combination of any two or more of these. The entries must be sent to the Stamford office of the West Texas Chamber not later than January 15, 1932. Any person may submit as many entries as he desires, but each must be on a separate piece of paper and bearing the contestants name and address.

Three judges yet to be named will pick the winner. The contest originated with the Livestock Committee of the West Texas Chamber, which is working for increased consumption of Texas meats in Texas, and the promoting of feeding Texas livestock in Texas. John M. Gist of Odessa is chairman of the committee and Paul T. Vickers, Midland, secretary.

**SOMETHING RADICALLY  
WRONG**

Alexander Paterson, His Majesty's Commissioner of Prisons, in England, spent several months investigating prisons in this country some time ago. His remarks comparing equal conditions here and in his country are hardly flattering to us, but they are well worth listening to.

Mr. Paterson was especially impressed, and unfavorably, by the size of prisons here and the number of inmates. Overcrowding is the rule in American institutions, rather than the exception. Much of this he blamed, not on "crime waves" but on our multitude of laws and severity of sentences. He says that at one institution he watched the checking-in of twenty new prisoners, nineteen of whom, in England, would have been dealt with under the probation act or been fined.

Here is expert testimony in support of the fact that the United States, through its zeal in passing laws, is manufacturing criminals on a wholesale scale. And it is certainly not a coincidence that this has been accomplished by a break-down in the processes of justice, so far as crime prevention is concerned. When we send twenty men to a penitentiary, nineteen of whom would have been kept outside in England—one of the most law-abiding of countries—there is something radically wrong with the system. It needs quick attention.

**MAKING THE GRADE**

No less an authority than Dr. Shirley W. Wayne, Health Commissioner of N. York City, in his outline of requirements for school children, says, "Keeping your youngsters in health is not an arduous proposition, but it requires a little care on your part. He should have a filling lunch-eon such as soup or salad, sandwiches macaroni and cheese, or some other easily prepared dish, and with whatever he eats he should always have a glass of milk. When he returns home from school in the afternoon, he should have a bite, such as a sandwich and a glass of milk, as well as an apple or some other fruit. For his evening meal he should be able to eat the same dishes as the rest of the family, plus a glass of milk. His diet as well as ours should include plenty of fresh vegetables, particularly of the leafy variety; such as cabbage, lettuce, kale and spinach. Tomatoes, too, are important.

"If this balance diet, plus the milk, is adhered to, the child will stay in health, providing the other cardinal rules of health are obeyed. These are: at least eight hours' sleep in a well-ventilated room; plenty of exercise and recreation in the open air and sunshine, and frequent bathing."

We expect top grades from our children. They have a right to expect carefully selected, adequate growth producing and protective food from us.

Lath tiles made from two-inch pine nailed together with three-penny nails at a cost of one cent per foot have been installed in eight Menard county ranch gardens with help from farm and home agents to swell the returns from fall gardens.

Burkburnett—W. S. Duvall plans operating new flour mill in near future.

Crowell—Additional pavement on Highway No. 28 west of town, to open soon.

TERRY COUNTY HERALD

**Froud Old Spanish City**  
Toledo, ancient capital of Spain, is her most crowded city. Physically crowded—with narrow streets and buildings squeezed inside the walls, leaving not an inch to spare. It is crowded, too, with associations and memories: of Spain in her glory under Ferdinand and Isabella; of the Moors who came before; of Cervantes and El Greco, Spain's great artists.

**Hydrogen Gas**  
The bureau of standards says that the atom of hydrogen has not been split into two different gases. What has been discovered is that hydrogen gas contains two different types of hydrogen molecules, and a partial separation of these two types has been effected.

**Plant's Peculiar Growth**  
The "slowest" crop in the world is the giant bamboo of India. It blossoms only when it reaches its thirtieth year, and then dies. In the meantime it bears an enormous quantity of seed, which is gathered and used as grain by natives.

**Broke, but Lucky**  
Most of us know from doleful experience what it means to be "broke." But did we profit by our experience? Often a man gains more wisdom from being "broke" than from years of handling large sums of money.—American Magazine.

**Make Use of the Present**  
Waiting for your ship to come in is a precarious occupation. Far better is it to be up and doing now than to be trusting in the future. Opportunity is not what may come to us tomorrow, but what we make out of today.—Grit.

**Tree Needs Tropical Climate**  
The Litchi or Lichi grows successfully only in southern China, Cochinchina and the Philippines. It has been grown experimentally in southern Florida and southern California, but will not thrive except in a tropical climate.

**First American Brick Paving**  
The first brick pavement constructed in this country dates back no farther than 1872, and to Charleston, W. Va., belongs the distinction of having been the first American city to employ brick for paving.

**Variable Timber Line**  
The timber line, above which trees will not grow, occurs at different heights, in the upper northwestern United States as low as 8,000 feet, while in New Mexico and Arizona between 11,500 and 12,000 feet.

**Solon's Wise Decree**  
Trial by jury was one of the reforms established in ancient Athens by Solon, one of his decrees providing that any man who lost a lawsuit could appeal the case to a jury of citizens.

**Something to Build On**  
We would all be surprised if we knew what people say behind our backs; and there is some foundation for the terrible talk about us.—Ed Howe in Howe's Monthly.

**Poor Housekeeper Fair Game**  
A peasant jury at Przemysl, Poland, acquitted Michael Szyblak of a charge of killing his wife, explaining that she was a poor housekeeper and it was no wonder he lost his temper.

**Jewish Atonement Day**  
"Yom" is Hebrew for "day" and Yom Kippur means day of atonement. It is the tenth day of October and is observed by the Jews by fasting and continuous prayer for 24 hours.

**Odd Par'amentary Rule**  
M. P.s may not lock any of the doors in the British house of commons, all the door keys being in the care of certain officials.

**Symbol of Plenty**  
The pineapple is so often employed in decoration because it is supposed to be the symbol of "Plenty in the Home."

**The Ground Floor**  
The first congress met March 4, 1790. And no doubt the first lobby went to work the next day.—Country Home.

**Heroes Unknown to Fame**  
There were in all 88 souls with Columbus on the trip when he discovered America.

**THE GOOD OLD DAYS**

We have great ideas in this age. Next to horseback riding, walking is the best exercise, but we won't walk and we won't allow our kids to walk very much. We used to walk to school, started early and fought and played on the way and got on the job about 8:30. When recess came both boys and girls played together.

We lived in a hearthenish age. Blackman, town ball, tops and marbles were the height of our knowledge, and if someone had suggested a game where they kick in ribs and break legs and arms, we would have taken that bird up for a crazy. Now a bunch hangs around the sidelines yelling like wild Comanches while a small portion that is left try to do each other all the damage possible. They call it playing, but it looks like suicide to me, and my boys have always taken a prominent part in these suicidal games just like the other boys.—The Apostle, in Donley County Leader.

**TAKE IT OUT FOR EVERYBODY**

There is much talk about taking Government out of business, and the most of it is directed against the Federal Farm Board. Chairman James C. Stone, having listened to this kind of talk for a long time, replies as follows:

"When we take the Government out of business, let's take it out for everybody. I am sure that the farmers are for that. The Government has been holding the hand of many of our ardent kickers for many years, no one raised much of a howl about taking the Government out of business.

"The farmers doesn't want anything but fair treatment. He is entitled to that and he is going to get it. When we talk about taking the Government out of business, let's treat everybody alike. The farmer will get along on that basis. One of his main troubles has been that the other fellow always had the edge on him."

Only recently a call was issued asking the people to give a greater patronage to the Parcel Post in order that that branch of our postal service could be made self-supporting. The express and other transportation companies would wish, in this case, to take the Government out of business, but we doubt that those who find it cheaper and more convenient to patronize the service would agree to it.

The Government is in business when it yields to the demand of manufacturers to place a protective tariff on imports; it is in business when it regulates the railroads, radio and telegraph and telephone services; it is in business when we send public officials to foreign lands to find new business for the manufacturer. It is in the banking business. In fact, industry has been the pet of the Government almost from the beginning of the history of this country, and only recently has any effort been made to give equal opportunity to those engaged in the production of food and fiber. Equal opportunity has been promised the farmer. He demands it, and we hope Chairman Stone is right when he says that he will get it.—Farm and Ranch.
