

## TRADES DAY PROGRAM NOW ON FIRM FOOTING

A Real Organization With a Real Means of Financing It Will Give it a Go that No Private Parties Working Independently Could Never Accomplish.

Elsewhere in this paper, the Herald is taking the liberty of printing a statement of the Lions Club made to the merchants here in Brownfield, who are cooperating with them to put over a real First Monday Trades Day. We are printing this for two purposes. One is to show the absolute impartiality of the Lions Club in the matter of money making. That their only incentive in the matter is to make Brownfield one of the leading trade centers of this section. We already have one of the best Saturday trades established here that is in this entire section. Now it is up to us to make this a great monthly trading point. The second is to show the readers of the Herald who come here to do their trading that the First Monday Trades Day is absolutely on a business basis for the first time in its history. That a strong organization is behind it this time instead of just a few individuals who have heretofore undertaken the matter, each perhaps working without consulting the other with their mix-ups and misunderstandings.

There will be no chance for any misunderstandings in this plan. Business men who are members of the Lions Club have spent long hours going over every part of the program, and everything that may now or in future tend to produce the least bit of friction has been eliminated. No one merchant or one class of merchants or dealers have been given one spark of advantage in anything connected with the Trades

Day. Every detail has been so worked out that it will not conflict with another. Each financial detail has been worked out in advance also, and there will be no delays and waits to see about and arrangement. No farmer or other person who trade here will have to wait a week or two weeks to get his prize money when he wins. It will be waiting for him when his name is called out. Indeed, the merchants for weeks before the day approaches will have put the money in the treasury of the Lions Club for that purpose, by purchasing the tickets.

And although the financial end of the matter has been figured to the smallest detail, there is absolutely no loophole for anyone to make any money out of the matter, for the tickets will be sold at a price that will barely pay the running expenses and with a small sum added to take care of extra expenses when business becomes slower in the summer months as everyone must expect it to do. No money will go into any other treasury other than that which will be used exclusively to put over the Trades Day in a big way. The Herald is of the opinion that the very first Trades day which will be on the 7th day of March this time is going to be a real whizzer—way ahead of anything like it every attempted here before. In the meantime, there will be two more issues of the Herald before that time. Keep your eyes open for further announcements about the matter.

## Much Adoing Around The Jail These Days

Mon Telford, our sheriff and Dee Elliott got in the latter part of last week from Ardmore, Okla., with two of the men who stole the Patton car here about two weeks ago. After leaving here, they were said to have hi-jacked a filling station at Lubbock, and performed a series of hi-jacking operation on stranded tourists in Crosby and other counties east of Lubbock. In fact they are reported to be had men. Saturday night, the officers captured two local men with some 20 gallons of liquor. The third man made his escape in the dark and has not been apprehended to this time. So Sunday morning our little jail had some ten men in for various charges, more than perhaps it ever contained before.

## Several Hundred Sub- scription Notices Out

The writer had a little time this week to make out a few subscription statements. We had paid little attention to it for the past few months as people had been coming in rather regularly and paying up, and we had no idea that we had as many expirations as we found. Instead of a hundred or two, we found that we had several hundred. Most of them had expired in the last three months, beginning about November, as we had sent out no notices since October. We found, however, that a dozen or two expired back the first of 1931, and we had two or three who are more than a year in arrears. The Herald does not wish to make it hard on any one at this time, but it takes cash to get paper and other supplies. We do not say that we will cut off those in arrears without further ado, but if these several hundred readers, somewhere near 400 will come in promptly and pay what they owe us, it will save us much embarrassment, and help us take care of some accounts that must be met at once. A dollar may not look large to some of our readers, but several hundred of them amount to a great deal after tax paying time is over and other things begin to bob up like payments and interest on paving contracts, etc.

## Class C Basketball Tournament March 5

According to Supt. Hooten of the Needmore schools, who was in the Herald office Saturday, the Class C (rural) basketball tournament will be held in the Brownfield gym on Saturday, March 5th. A large crowd from all over the county is expected here that day to see the boys and girls do their stuff, and each team is sure to have plenty of rooters. The games will begin at nine A. M., and the following is the schedule:

Boys—Needmore vs. Prairieview; Harmony vs. Scudday; Hunter a by. Girls—Hunter vs. Scudday; Needmore vs. Prairieview. The boys games will be played first, with the girls games following alternately.

## Crawford and Gable A Romantic Team

The romantic team of Joan Crawford and Clark Gable in a dramatic story of a factory girl who becomes the toast of Park Avenue makes an engrossing talkie of "Possessed," which will come to the Rialto Theatre Sunday for three days.

The picture was adapted from the Edgar Selwyn stage hit, "The Mirage," and was directed by Clarence Brown, who last filmed the Norma Shearer success, "A Free Soul."

Miss Crawford's role as the girl who turns down the man she loves, in order to leave him free to become the governor of his state, gives her every opportunity for a display of her dramatic prowess.

Costumes Changes  
The transformation from a plain factory worker to a member of the leisure class entails sixteen costume changes. The story also entails a number of spectacular scenic backgrounds.

The star sings a new song in this picture, "How Long Will It Last," which title in itself gives away much of the plot.

Gable is seen as the candidate for governor. Wallace Ford, popular New York stage leading man, makes his screen debut in this picture as Gable's rival for the affections of the heroine. The supporting cast also includes the amusing Skeets Gallagher, Frank Conroy, Marjorie White, John Mijan and Clara Blandick.

A card was received from Rev. J. M. Hale Wednesday, stating that he was attending the Bible Conference at Plainview this week, but would be at home in time for all services at the Baptist church Sunday.

## Cashes All the Checks But Fails to Return

Bill Crawford, who formerly operated an electric shop in connection with the Brannon-McGranahan Hardware Company, went to Lovington Tuesday morning with checks for Hobbs merchants—some to cash, others to deposit. He is alleged to have cashed all checks entrusted to him and so far has failed to report back to the local firms. J. L. Jones of the Coney Island cafe gave Crawford \$42 to deposit for him; Siler's garage gave him \$39 in checks for him to cash and a local drug store is said to have given him about \$24 in checks to cash for them. Crawford has a wife and child residing in Hobbs.—Hobbs News.

## VOTE! VOTE! VOTE!

It was our intention to close the ballot on the MOST USEFUL CITIZEN last week, but we have not gotten as good cross section vote yet as we would like. So will run it until we do.

To help some who do not seem to know what qualifies a man or woman for MOST USEFUL CITIZEN, we give the following things to consider:

- (1) Personal Helpfulness (charity.)
- (2) Aggressiveness
- (3) Enterprise.
- (4) Constructive Leadership.

We have gotten votes in as far away as Marshall, Texas, but we want more home votes, and mark your letter (ballots.) WHY DON'T YOU FARMERS AND YOUR WIVES VOTE?

## BALLOT

I hereby cast my vote for:

(Mr. Mrs. or Miss) \_\_\_\_\_

as Brownfield's Most Useful Citizen During 1931.

(Signed) \_\_\_\_\_

## A Trades Day Program For Brownfield

A short time ago the "Lions Club" of Brownfield, Texas, conceived the idea of a trades day program for Brownfield similar to other such days as are being put over in our neighboring towns and cities. The following is a concise presentation of the plans as have been outlined up to date and will give you a fair explanation of the end to which they are working.

### The Plan

The Lions Club working in conjunction with the merchants of Brownfield propose to sponsor and advertise the FIRST MONDAY in each month, beginning with the first Monday in March and each month thereafter so long as seems feasible, as a "TRADES DAY" for Brownfield. On that day they will give to the holder of the lucky tickets, cash prizes in the total amount of \$50.00, being divided into six prizes as follows: The first or major prize to be a \$20.00 bill; second prize a \$10.00 bill, and four prizes of \$5.00 each. No merchant or employee nor any member of the Lions Club nor their families will be eligible for one of these prizes.

### The Purpose

The purpose of this plan is to bring to Brownfield merchants and the people who trade at Brownfield one special day in each month when the people within the trade territory of our city may come to town and meet their neighbors and trade and swap to their hearts content and the Lions Club are offering the above mentioned prizes as an incentive to the people of this community to be present on that day. Heretofore the merchants of Brownfield have enjoyed on each Saturday a special business day when they have offered to their trade special and bargains and this plan should give us one other day in each month for the same purpose without interfering with the regular Saturday business which they now enjoy.

### Finance

In order to finance the above plan on an equitable basis for all concerned the Lions Club is offering for sale to the merchants of Brownfield tickets with stubs numbered consecutively, and are asking the merchants to co-operate with them to the extent that they give with each cash purchase in their place of business, one ticket for each one dollar worth of merchandise purchased, no ticket to be given on purchase of less than one dollar. It will be left to the discretion of the merchant as to whether he will give these tickets on payment of accounts at the end of the month, but we anticipate that most of them will want to do this as it will be an added incentive for their customers to pay their bills promptly in order to get their tickets for that month's drawing.

These tickets are being offered at this time on the basis of one half of one percent on cash sales or fifty cents per one hundred dollars worth. If the co-operation of the merchants is as great as they expect then this price will probably provide more funds than are necessary to conduct this program and in that event the price of the tickets will be reduced to a figure just great enough to bear the expenses of this program plus a reasonable margin for contingencies.

The Lions Club of Brownfield is taking the entire responsibility of this program and guaranteeing the prizes as mentioned before. The income to the club under the plan outlined here will of course fluctuate as the volume of business in the community fluctuates. In that way it takes on the aspect of any other business and we expect to make a small profit out of the transactions as we go along. There will be unexpected expenses to meet and some advertising to do in order to give this day the publicity that it will need in order to make it a success. We will need to build up a surplus in the good months to tide us over the leaner ones to come and we ask that the merchants of Brownfield bear this in mind. At the end of each month after the trades day for that month has passed, there will be given to each contributing merchant a statement of the income to the club and the disbursement for that month and the balance on hand in the fund. This money will be kept separate from the regular funds of the club and will be used only in the furtherance of this program and in other community work which will be of benefit to the community at large. In other words none of your money will be used by this club for the payment of any luncheon fees or other individual expenses of the members of the club.

Snyder, Texas, Feb. 14. (AP).—Fritz R. Smith, 57, Judge of the Thirty-Second Judicial District, died here after an illness of three weeks. He was County Attorney in Scurry County at one time, Mayor of Snyder, a member of the Legislature and chairman of the State Board of Pardons under Governor Hobby. He is survived by his wife, four sons, three sisters and a brother.

J. L. Cruce dropped in to pay up on his Herald, this week.

## GREAT POULTRY SHOW HELD HERE PAST FRI.-SAT.

Nice Crowds Here Both Friday and Saturday to See Very Fine Lot of Poultry. Not the Best Show Birds, But Some of Best Utility Birds are Found in Terry.

One of the greatest little poultry shows we ever attended was pulled here last Friday and Saturday in the Dee Brownfield building on the south side of the square. We have seen a number of shows where more birds were on display, but we never saw a better quality. We heard remark after remark to this effect. It is said that Terry county has no great show birds as that term is now used, but some of the best utility chickens to be found on the plains, and they were evidently on display at this show.

Making the rounds of the pens one found that not many of the novelty breeds were on display, but it was found that the birds represented were those that have proved best for this section. This was also true of the turkeys. The mammoth bronze seems to do best in this section, and they are the turkeys that breeders seem to be concentrating on at this time. The favorite chickens seem to be the Reds, the Barred Rocks and White Leghorns, although there were a few Minarcas, white Rocks and white Wyandottes. It seems that the yellow Leghorn has almost disappeared. One reason, we suppose is that the color is hard to hold.

We were informed that there were some 106 chickens on display at the show and perhaps 12 to 15 turkeys and two dozen rabbits. The rabbits represented more colors or breeds perhaps than did the chickens, as it seemed that near ever color was represented. Mr. H. B. Lansben, of Florida, but who is now with the Economy Feed Mills at Lubbock, did the judging, which seemed to meet with the approval of the exhibitors. He also offered many good suggestions to the breeders on how to handle and feed poultry for best laying results.

Next week, Mr. Shelton informed us that he would have the prizes all worked out, and that they would be printed in these columns. Some interesting sidelights were. John Chisholm did not enter the show as he was playing host to the show, but had some good birds on display. E. Brown took first prize on his cock, the eggs of which he obtained from Pappy John Powell. Pappy John was whipped for the first time here, but it was his own breed that did it. A banty capon caring for some baby chicks in the show windows attracted a great deal of attention.

## Lamb to Vote on Co. Seat Move March 19

Littlefield, Texas, Feb. 9.—County Judge Simon D. Hay ordered an election for March 19 to determine whether or not the county seat of Lamb County shall be moved from Olton to either Littlefield or Amherst. Littlefield presented petitions signed by 681 voters of the county asking that the election be called for Littlefield. Amherst also presented a petition asking that Amherst be placed on the ticket. Both towns will be placed on the ticket, making a three-cornered fight between Olton, the present county seat, and the other two towns.

Roll taxes paid in Lamb County for 1931 totaled 4,653. Of these, 2,130 were from the Littlefield precinct, 378 from Amherst and 800 from Olton, the others being scattered over the county with 502 from Sudan.

At the same time that the above petitions were presented to the County Judge, there was presented to the Commissioners' Court a lease contract executed by the Mayor and Commissioners of Littlefield, tendering to Lamb County the use of the new \$60,000 city hall in Littlefield for courthouse purposes for ten years at a rental of \$1 per year. This tender was accepted by the Commissioners' Court, provided the county seat is moved to Littlefield, and signed and recorded.

Olton, the present county seat, was so named when the county was organized in 1908. It is located two and one-half miles from the east line of the county, near the northeast corner. Amherst claims to be within the five-mile radius of the center of the county, and Littlefield is the largest city in the county, with 3,218 population in 1930, on the Santa Fe Railway, in the center of the county east and west and some eight miles south from the geographical center of the county. A lively fight is expected.

## District Judge Dies At Home in Snyder

Snyder, Texas, Feb. 14. (AP).—Fritz R. Smith, 57, Judge of the Thirty-Second Judicial District, died here after an illness of three weeks. He was County Attorney in Scurry County at one time, Mayor of Snyder, a member of the Legislature and chairman of the State Board of Pardons under Governor Hobby. He is survived by his wife, four sons, three sisters and a brother.

J. L. Cruce dropped in to pay up on his Herald, this week.

## BANK CLOSING NOTICE

This will be due notice to our customers that the undersigned banks will be closed next Monday, February 22nd, account of Washington's Birthday. All necessary business should be transacted before that time.

## CORN BY THE TON BEGINS MOVEMENT TO MARKET

Have Seen Corn Sold Most Every Way But By the Ton. Many Tons Now Moving to Market. Great Bulk of Crop Being Held or to Be Fed to Live Stock.

We have lived on this old globe several years—over 50 of them—but we continue to learn. We have always lived in a country that produces and sells more or less corn, more here than any other place, however. We have seen it sell by the barrel (5 bushels) we have seen it sell by the 100 pounds, we have seen it sell by the bushel (72 pounds), we have seen it sell by the quart, pint, gallon and half gallon, but this is the first time in our sweet young life that we ever heard of corn selling by the ton. But that is the way it is being sold here in the ear now. It is bringing some \$3.50 to \$4.00 per ton, we understand or about 16c figured in bushels at 80 pounds to the bushel.

But some is rolling in at that rate even, as some claim that hogs and cattle and sheep are also not worth shipping to market even after fattening. Many others, however, are preparing to feed the bulk of their crop to some animals risking the possibility that they may be higher later on. It is believed that conditions are now on the upward trend. Cotton,

good cotton is now bringing over 6c. Stocks and bonds and shares are looking up, and it may be that a period of two or three months might make a great deal of difference in prices on not only corn but animals that it is fed too. So if one does not absolutely need the money, it might be better to wait awhile to sell the bulk of the crop.

A. A. Green was in Wednesday morning and informed us that although he had rather had luck by getting his barn with all his feed and harness burned in the spring, he had come out pretty well with his crop. He produced 105 bales of cotton, all of which he sold, and made 5000 bushels of corn, most of which he still has. Most farmers are like Mr. Green, still have their corn and feed crop on the farms.

The farmer will just have to use his best judgment in the matter just like the merchants or editor has to do, and then like the printer or merchant do the wrong thing. But to say the least it is a long sight better to have feed and corn to sell than to have it to buy.

## Comes Now Urge to Buy New Hat

By **CHERIE NICHOLAS**

AS HAS been and always will be in midseason, the first gesture which a winter-weary woman makes toward spring is to buy a new hat. Seeking signs of spring, fashion's followers will find their fondest hopes realized in the realm of new millinery where milady's chapeau has blossomed forth ere snaws have melted from the ground, in full regalia of flowers, ribbons and refreshing straws. Which may be taken literally for more flowers are being used than is usual for this time of the year, and straws of every description are flourishing at such a rate as to lead those who watch "which way the wind blows" to prophesy that it is to be a "straw season."

The new shapes are thrilling. So different! So far as the beret, the sailor and the cloche are concerned, they are staging a sort of all-star performance. All three are in the limelight with, however, startling variations.

High spots on the millinery program are, first of all, the tendency of brims to turn up at the back. Even the familiar cloche makes itself look new by turning its brim up flat to its crown at the back (see the cloche pictured in lower right corner of the illustration).

Then, too, hats must be worn at an angle. As to the jaunty beret, it simply clings to one side of the head, and how it stays on is often a mystery, yet not such a mystery, for, believe it or not, hatpins are "in" again. That is, some of the smartest berets made of black satin (ever so good looking for midseason) are held in place on the head with two pearl-knobbed pins thrust through the crown. Then, again, the popular quill trimming, as the first model in the picture shows, is preferred. So flat are many of these little hats, they are called pancake berets. Many of them are made of satin ribbon, others of fabric, especially black satin, while those of hand-sewed

straw braid will be very fashionable. The toque or beret with a peak is also exploited. In fact, the peaked crown is a favorite topic among designers.

Brimms are taken for granted this season. They excite interest in that their contours are so unusual. A favorite among youthful fashions is what is called the "baby brim," which turns up all around in an even cuff. The hat at the top, to the right in this group, is a version of this new mode. This style is very smart in felt, either in pastel coloring or in street shades. Note the upright positioning of the feather trim. High effects like this express a trend which is being greatly emphasized.

The straw sailor worn with a tilt and a tilt is outstanding for spring. The model centered in the picture is of black straw. Paris hats declare a vogue for rough shaggy straws and for lustrous cellophane effects. Of the sailor here illustrated, it may be said that it has a very conservative pose. In some instances the brim is worn at such an angle that it would seem that only a hatpin would save it from falling off.

As a "last word" hat fashion, we call attention to the pert little shape shown in the lower left corner of the picture. It is one of the Louis Seize models which you will be hearing much about the coming season. Its characteristics are its shallow crown, the narrowness of its brim and, most important of all, the upturn of its brim at the back. Imagine this model in straw or in felt, for it is shown in both. Sometimes it is banded in at the back with flowers, then again ribbon bows are massed in a way to fill in the space over the coilure. Smart Parisiennes are wearing these little coquettish shapes at a daring angle. It remains to be seen how popular the very shallow crowns will become with American women. Watteau bandeaux hats are very much in fashion.

(© 1932, Western Newspaper Union.)

## NOTICE

For some time past I have been having trouble with electric light meters, and on several occasions have found the meter seal broken after I had sealed the same. This matter has been reported to the City Council, and I have been instructed to again seal all meters, and when seals is found broken again to discontinue service.

We have also had considerable trouble with children in various parts of town breaking street lights, and have had the names of several children turned in who had been seen shooting and throwing at the street lights. This is a very expensive matter for your city to bear, and while we dislike to fuss with the children, yet it is a practice that must stop, and in future when names are turned in the matter will be handled as provided by law.

This is your town and your electric light plant, and is operated for the benefit of all.

Respectfully,  
E. D. Jones. 28c.

Mrs. Bulan Page succeeded in adding some twelve or fourteen new readers to the Herald list last Saturday.

## Chamber of Commerce

By the Secretary

The Poultry and Rabbit Show that was held on Friday and Saturday of last week, was far superior to any exhibition of that nature heretofore held in this county and in fact represented the first good showing of rabbits ever made. The affair was first advertised as a poultry show but it was afterward decided to add rabbits to it and every one was surprised at the number of different breeds being raised by citizens. The judge of the show, who is a member of the American Poultry Association advised the writer that we had some of as fine poultry and turkeys as had been judged by him since his arrival in this section and the number shown, compared favorably with any of the other county shows that had been previously held. He also stated that the rabbit exhibition was above anything that he had seen. The attendance the first day was very good and on the second day, crowds were to be seen at all hours, viewing the exhibits. The affair was pulled off under direction of the chamber of commerce and those in charge was very pleased at the interest shown. In fact the whole affair was far above expectations and has caused the writer to undertake to work up more interest of poultry raisers and to make the affair an annual one.

The meeting of the Board of Directors of the chamber of commerce has been delayed upon account of the fact that a few of them were confined to their homes with the flu but they have about all recovered and the meeting will be held within the next day or two. Indications are, that this is going to be an active year for the organization and the directors except to arrange accordingly.

To day (Wednesday) is a BIG day for us in Washington, as the Interstate Commerce Commission will hold its hearing for oral arguments on the application of the Texas & Pacific Northern for authority to build

## MEADOW BRIEFS

The seat of war has been removed. It is no longer Manchuria, nor Shanghai, nor Lubbock, Texas.

There is no longer the sound of double shotted guns, nor the zooming of airplanes over the field of conflict, but rather the familiar squawking of the cats on the backyard fence.

Tech College the great institution of the South Plains is the field of activities and sectarianism is the causus belli, and plum sought by those who would transform the institution from one where the liberal arts and sciences could be taught, where one could, undisturbed pursue any line of thought without molestation, to a denominationalism, where the youth can be indoctrinated in the special religious views of those in authority.

The gentleman who precipitated this wrangle is a recent recruit to the pastorate of Lubbock and excellent gentleman no doubt but he represents an ism and whencefore all those who teach in this school to believe certain doctrines which many churches and many of our best men and women do not believe, in fact the most of the human race do not believe.

Being an ardent churchman, I would not wish to turn out state institutions over to the teachings of Atheism, and I would just as seriously object to making it subservient to the machinations of any church in existence.

This mornings paper—Sunday, contains a questionnaire submitted to the President of Tech by a noted Pastor of Ft. Worth which contains the Milk in the coconut and indicates that He and his fellow churchmen are in cahoots, that the institution is to be made subservient to the wiles and beliefs of a brace of iron-cladists.

Those of our readers who have followed this controversy can see at once that Doctor Horn is the man they are after. His place is the one wanted! Five thousand dollars per ann and five thousand more for outfit and these fellows to represent the man the place would just about fit."

The cry of Atheism is a blooming farce, a straw man, a fable. If such teachers should be among the faculty—that attempt to teach it to students—they could be easily weeded out, without such trumpeting from the house tops. These gentlemen thoroughly understand that the workings of the average churchmans brain, that an accusation is sufficient evidence that something is wrong and whether or not the parties are ever proved guilty it might induce those in charge to demand a change.

The Fort Worth Pastor and his cohorts were after the scalp of the late President of Baylor for a number of years but failed to carry out their plot to oust him. The present

plot to oust Dr. Horn should meet with equally prompt rebuke.

In the resolutions prepared by the Student Body of Tech we find this: That we formally and vigorously protest the attempts being made to make their views conform to a doctrinal dictatorship in denial of their inalienable rights to freedom of conscience, thought, speech, and research.

There is no reason under the sun that should keep an Atheist or any other who may not share the peculiar religious views of the dominant part of our population from teaching in our public schools, always provided he keeps his belief out of his recitations. A man is a man, for all that, and all that! On the other hand in his or her inter-course with their fellow belief should not be abridged, nor be used to their hurt in the practice of the art or profession that constitutes their livelihood.

"Shall I ask the brave soldier who fights by my side, In the cause of mankind if our creeds agree? Shall I give up the friend, I have trusted and tried, Because he kneels not at the same altar with me, From the heretic girl of my soul should I flee, To seek some where else a more Orthodox kiss? No perish the laws of the creeds that would try, Truth, valor or love, by a standard like this.

Apologies to Moore. I would not and have not in my own family attempted to choose for my children the particular church or ism they should accept. I have always left them free to choose after arriving at maturity, to act on their own judgment.

We are living in a Materialistic age. The church has taught us that the end justifies the means. Praying for your enemies is just a joke. The meek are often malicious. The man you have befriended to day may be your worst enemy tomorrow.

Let those outside the pale of this interloper and who really desires the education of the youth who come to this institution for help in the battle of life, rally to its support and the support of those in charge, who have builded it thus far on the road to success, free from interference of creeds, and place hunters.

"God give us men and women," worthy of the traditions of our Fathers who were largely outside church influence. Most denominations have their church schools where the peculiar tenets can be inculcated and churchmen made to order. The Public schools are the property of the nation.

Hands Off. Aesculapias.

## Is Anyone "Hog Wild" About Tournaments?

Basket ball tournaments seem to be all the rage now. Almost every school with a gym and a good team puts on a tournament. Lamesa, Brownfield, Ralls, Meadow, Odessa, Big Spring, in fact the roll could be extended indefinitely.

These tournaments are purely commercial affairs. The idea is to bring a big crowd to town and also make some money for the local athletic fund. Frequently teams play three and four games in one day and are utterly exhausted at the end of the tournament. Wise parents will absolutely forbid their growing children participating in such tournaments. The danger of permanent injury to the health of the boy or girl is too great. School boards and parents should put a stop to this tournament folly. Unfortunately the school heads and chambers of commerce seem to

through this section. We are well represented, as we have a firm of Washington attorneys, legal talent from the Railway Commission and Attorney General's and several of the towns agreed to pay the expenses of Garland Woodard in order that he might be present. Fact is Mr. Woodard is more familiar with the situation that any of the others and it was considered really necessary for him to be on hand to assist.

Charity calls seem to be on the increase as we have had three this week and it develops that they are coming from other sections expecting to secure work. We are not able to assist to any extent and advise them that there is not any work to be had here and are advising them to seek places where road construction is under way as that is about the best chance to secure employment of any that we know of.

A meeting of towns who oppose the plans of the highway commission to construct the Weatherford-Strawn Cutoff at the entire expense of the state, will be held at Stamford this week and we have an invitation to be present. Opinion among our citizens seems to be divided upon the advisability of our taking an active stand either for or against the proposal and at this time the writer is not able to say whether we will be represented at the meeting or not.

have gone "hog wild" about it in too many instances.—Seminole Sentinel.

The above article was clipped from last week's issue of the Seminole Sentinel and was found in the school Section of that valuable paper, so we are supposing that it must have been written by the superintendent of the Seminole school, or some other member of the faculty. Just about this article appeared another which stated that neighboring schools would hardly come there to play with them as they did not have an indoor court. Reading between the lines, one might at first be inclined, after reading the copied article, that some jealousy might have prompted the attack on "tournaments," but after a second reading, such a conclusion was abandoned, and we are still wondering why the attack.

The Herald does not for a moment deny that basketball tournaments are good things commercially, but so far as the Chamber of Commerce here having anything to do with the one held here, nothing could be further from it. It was originated, promoted and carried out by the high school department. But the Herald heard many merchants say they did a good business and probably didn't know anything about it until it was about ready to start. To say the least of it, none of the leading business houses here are "hog wild" about basketball. Some of them attended, and some did not. The writer can also truthfully say that he has never saw either the president or the president or the secretary of the chamber of commerce here at a basketball game, any time.

But even if they did, what matter that? Don't chambers of commerce in practically all cities seek out and obtain all conventions of every nature that they can? Why? They know that convention delegates always spend more or less money in their towns. Is that a crime? Not in the least, and no one that we ever heard of before thought it a crime to bring crowds to their cities.

Now as to the argument about the impairment of the health of the students. Our understanding is that no student is allowed to participate on the regular team of any football, baseball or basketball team here that has not first obtained a health certificate to the effect that they have a good strong heart and good lung capacity. We imagine this will hold good in most other schools. We understand that our athletic department has a regular physician who is

supposed to pass on such things. But aside from this, we have watched several basketball matches in the local gym this year, and we have never seen one student that gave much evidence of exhaustion. They can have "time out" most any time they want it for a short breathing spell. If we are any judge of physical ability, we would not hesitate to say that the healthiest boys and girls in the Brownfield schools are the ones that are making the teams.

## Sanctuary

A "moral zone" extending four blocks in each direction now exists around this downtown Y. M. C. A. building in Dallas, Texas. Judge Cavin, Justice of the Peace of the Corporation Court has warned all "street women" that if they are found soliciting within four blocks of the building, they will be jailed. Y.M.C.A. officials complained of activities of women around the building.

## How One Woman Lost 10 Pounds in a Week

Mrs. Betty Luedeke of Dayton writes: I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

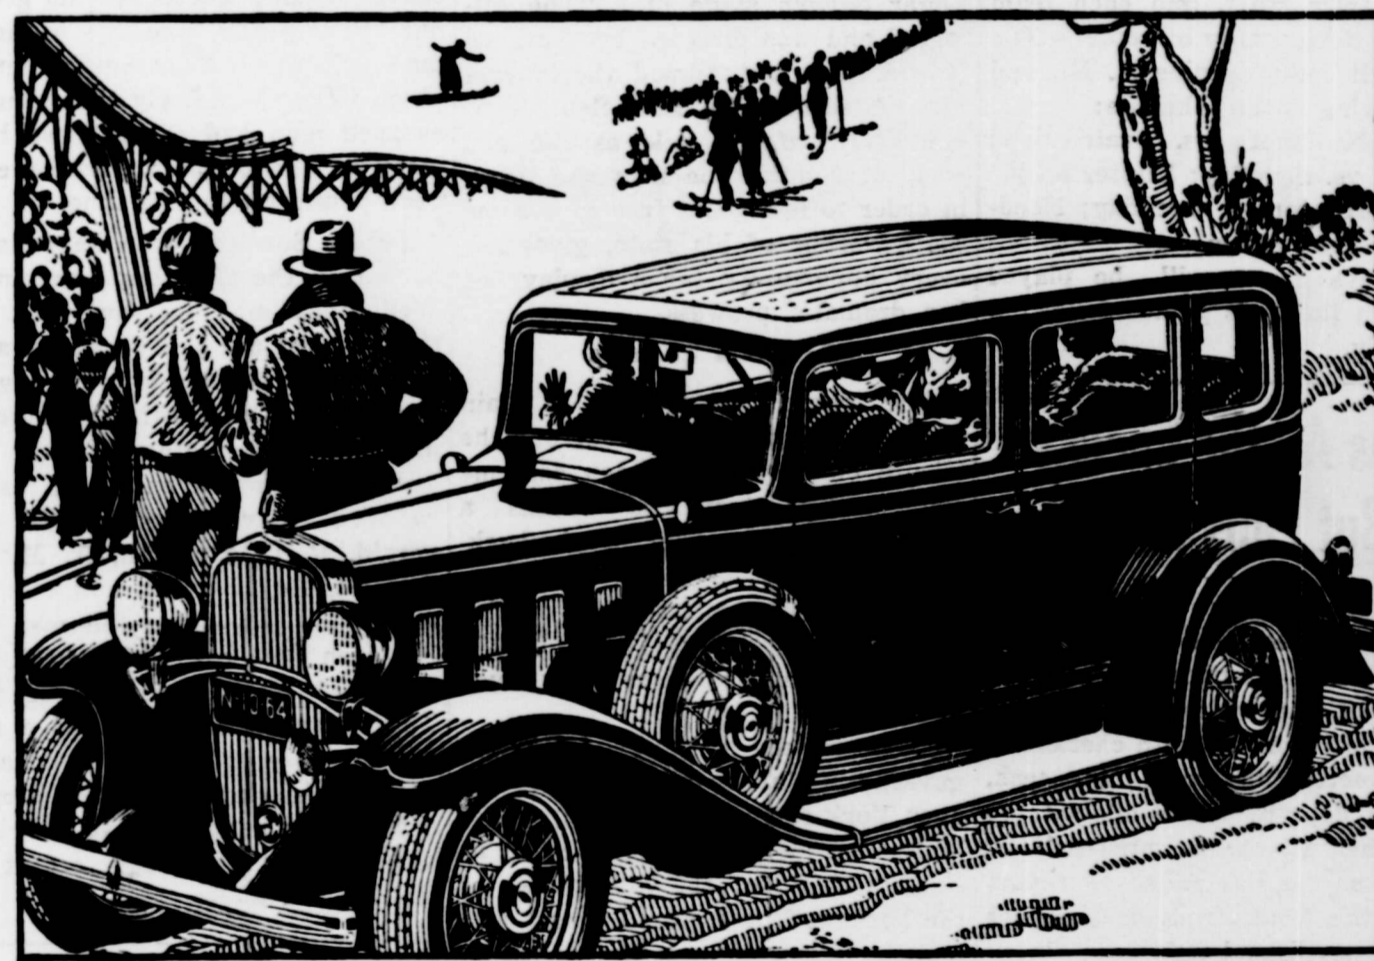

To take off fat easily, SAFELY and HARMLESSLY—take one half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—it is the safe way to lose unsightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at Alexander Drug Co. Inc., or any drugstore in America. If this first bottle fails to convince you this is the safest way to lose fat—money back.

But be sure and get Kruschen Salts—imitations are numerous and you must safeguard your health.

## Fisher Bodies are exclusive to Chevrolet in the lowest price field

All that is new and fine in modern coachwork is found in bodies by Fisher. And today, the only car of lowest price with Fisher coachwork is the new Chevrolet Six.

Examine this car carefully and you'll discover one evidence after another of Fisher style, comfort, convenience and safety. In the long, clean, ultra-modern streamlines, the gracefully sloping front pillars, the seamless one-piece design of cowl and windshield frame, and the solid, substantial, composite wood-and-steel construction... in the finger-touch adjustable driver's seat, interior sun visor,

broad "lounge type" seats, and wide-vision windows... and in the massive, well-fitted doors, easily opened by the new automatic door ejector.

The truth is—Chevrolet and Fisher have achieved in these bodies the best-looking, best-built, most completely equipped line ever to appear in the low-price field.

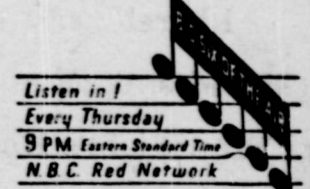

PRICED AS LOW AS \$475 f.o.b. Flint, Michigan  
Special equipment extra. Low delivered prices and easy G.M.A.C. terms. Chevrolet Motor Co., Detroit, Michigan. Division of General Motors.

### Schools Outstanding Defender of Democ'y

When the great old Texas statesman, Mirabeau B. Lamar, in his quest for liberty said "The cultivated mind is the guardian genius of democracy—it is the only dictator that freemen acknowledge and the only security that freemen desire," he made an indelible impression on the minds and hearts of the people of Texas. His people were not slow to recognize the truth of his statement nor did they hesitate to carry forward the work necessary to bring this added privilege to their posterity. They readily recognized that if a democratic form of government is to be a success all its subjects and citizens must be participating citizens and able to intelligently exercise the privileges of freeman. Exercising this liberty they builded and provided for schools in which their children might receive the training necessary to safeguard their Liberty.

Sam Houston once said "The benefits of education and of useful knowledge diffused through the community, are essential to the preservation of a free government." If these things were true in the days of those old Texas heroes are they not more true today. Are they not more true today with the added complications of civilization? At this stage in the world's history when all forms of government are being tested, will democracy be able to weather the storm without the continued aid of the "Public School?" At this critical time when the clutches of socialism, red propaganda and other disturbing

factors are closing in on our country and threaten to weaken the fiber of Democracy, can we well afford to leave down a gap or reduce our training in citizenship that the schools of the country afford?

The proper consideration of the above questions will lead one to the inevitable conclusion that the nation is only a collection of individual citizens and that as the man so is the nation. Each and every community is producing some type of citizenship for the future. Each and every community is providing some type of training for their youth. The type of training determines to a great extent the type of citizens our government will have to depend on in the future. The training largely fixes the type of community we will enjoy tomorrow.

A state paper carried a news item last Sunday to the effect that there was a town in Austria that had reached the point where horse meat was a delicacy and the less privileged people were eating dogs and that only recently had they been forced to close their schools. These people exercised a high type of loyalty to their schools. To what extent should we be willing to sacrifice for the training of the youth of the community? We feel that most of us would be willing to go the full length. Let us think on these things before we decide to reduce the citizenship training for the youth of the community. —Contributed.

#### GROUND GIVES UP MONEY; HOARDER BANKS OLD BILLS

Pine Bluff, Ark., Feb. 8.—A stack of dusty bills—\$2,900 worth—came out of an underground hiding place and went back into circulation here today.

The currency—five, ten and twenty dollar notes of the old sizes—was placed in a bank by a depositor. Charles A. Gordon, cashier, said the dusty condition of the money indicated it had been buried in the ground a long time.

Cash is the password of many secret organizations.

### FORRESTER ITEMS

In the basket ball tournament held in Brownfield on the 4, 5 and 6 of February. The boys and girls both won first places. The girls had to play Tokio and Lahey twice. The boys had to play Gomez, Wellman, Brownfield and Union. They had to play Union three times. We wish to voice our appreciation for the interest which Mr. Hayhurst has shown in sponsoring this tournament. The trophies are exactly similar to the one that was won by Slaton girls in the invitation tournament.

The high school pupils were the guests of the Forrester teachers at a Valentine party given in honor of the basket ball players at the home of Mr. and Mrs. Lee Fulton, Saturday evening, February 13th. After many Valentine games were played, refreshments of fruit punch and wafers were served to the thirty-four present.

Mr. Crone returned home Saturday night, after a visit to Fort Stockton, Texas.

We are sorry we are not having the school trucks any more, but we are glad to say that the attendance is still practically as good as before.

The Woman's Missionary Society met in the home of Mrs. C. C. Nettles Monday afternoon. Nine members and one visitor were present and enjoyed the splendid lesson treating the growth of Missionary Work in Korea. The society meets with Mrs. D. L. Maness next week.

Mrs. T. C. Ragsdill visited her parents at Seagraves this last weekend.

The Parent Teachers Association met last Friday night. A health program was furnished by the pupils of this school. The association agreed to plant trees upon the school campus. Each teacher agreed to buy a tree for his and her room. The county council is to meet here next Friday evening. A program about Washington is to be furnished by the pupils. There will be speakers from Brownfield also. We cordially invite the members of other Associations to meet with us.

### WELLMAN

We thought spring was here until the norther struck, but maybe this is what we need to clear out the flu. Several were absent from church services Sunday.

Mrs. Burnett has been ill for several days.

Mrs. Adair and the boys have had the flu.

Mr. Orvil Garrison was ill with flu Sunday.

The Bible Study Class held the regular meeting Friday evening at the church of Christ. The meeting is to be on Thursday evening of this week in order that those who wish, may attend the County Council Meeting of the Parent Teacher Association at Forrester, Friday the 19th.

Rev. Mitchell filled his regular appointment at the church of Christ Sunday.

The Sunday school services were well attended at the Methodist church.

Rev. Shumake brought a message at the eleven o'clock hour to those assembled at the Baptist church.

Baptist Training school classes are held every Sunday evening 7:30 and 8:30. Everyone is invited to attend. A study course week is to be observed February 8, and March 4. The Modern Methods, Intermediate Manual and the Junior Manual are to be taught. Rev. D. D. Johnson will assist with the school.

Wellman Missionary Baptist church is to meet in call Conference Sunday after Sunday school to arrange for the ordination services which were to be held 4th Sunday afternoon, will probably be the first Sunday in March.

Mrs. E. R. Norton assisted by Mrs. U. L. Hudson entertained the Sunshine Scatterers class with a picnic after Sunday school Sunday.

Corn worth 20 cents per bushel on the local Medina county market brought 70 cents per bushel fed to 345 hots in 15 demonstrations supervised by the county agent last fall. Medina county farmers have sold \$350 worth of brood sows, gilts and pigs to farmers in other counties for re-stocking purposes.

Thinning, pruning, and deadening of scrub trees is part of the work reported by 130 farm boys in Angelina county engaged in forestry demonstrations.

She's just a newspaper headline writer's daughter—that's why she was such a bold type.

#### Sleepy Feeling After Meals Due To Poison

A dopey, tired feeling is ALWAYS a sign that waste food matter stays too long in the bowels. It ferments and forms gas. It breeds germs. It is sure to poison heart, kidney, brain.

Adlerka washes out BOTH upper and lower bowel. It brings out poisons which cause gas, nervousness and a dopey, sleepy feeling. It contains no harmful drugs. Get Adlerka today; by tomorrow you feel the wonderful cleansing effect of this German doctor's simple remedy. — Alexander Drug Co. Inc.

### DURN FOOLISHNESS

The government has issued bonds to the amount of two billion dollars announced for the alleged purpose of bring back prosperity by relieving banks of frozen assets along with a bunch of loan associations of that class of financial giants that don't mean a blamed thing to our country banks or the producers way out here in the Panhandle.

When those bonds were issued, it placed a mortgage of \$15 per capita on every citizen of the nation.

Every citizen will soon begin an indirect interest payment on these bonds which were readily gobbled up by the financial trust more commonly referred to us as the "Wall street gang."

The reader may wonder just why the government did not coin an extra two billion dollars and avoid an interest payment. There is but one answer—the big boys always manage to make the government pay them interest any old time there is any attempt to bolster up a financial system that is rapidly taking the farms and ranches from the owners as is being done in the Panhandle.

If, as has been proven many times, a \$10 bill passes through ten hands every month, the government by issuing two billions in new money, would at the end of the four months, owe no one, would have \$15,000 per capita in circulation, and would be paying twenty billions of dollars worth of debts every month.

Any fool can see that the government is paying money for the privilege of putting out money into circulation under the present scheme.

Our Congress feeds us up on the gold standard and prohibition in an effort to befog the minds of the voters who furnish them a job. The gold standard is a failure except for the very wealthy, and prohibition is a dead issue.

The people are not concerned about what kind of metal is used so long as it comes through the U. S. mint with Uncle Sam's o. k. on it. Copper looks just as good to us out here as gold, and we have plenty of the basic mineral for a coinage of several billions without in any way causing a shortage.—Clarendon Leader.

### A Gomez Girl Saved From An Operation

We are sending this letter to the Herald hoping that it will save some one the agony of operation.

A short time ago our daughter fifteen years was struck with what the Doctors called Acute Appendicitis and it looked as it would be necessary for an operation right then but decided to call Doctor Holder, Chiropractor, and see what he could do with the case with out an operation. And we can gladly say without the use of drugs, Dr. Holder relieved her of the appendicitis in six days and she was up and going to school, and that was after swelling and hardening of the muscles over the appendix had taken place.

We are glad that we have a man of Dr. Holder's profession in our community and we can highly recommend him.

Mr. and Mrs. H. N. "Wes" Key Gomez community.

COMMON SENSE

The American Legion is asking for the conscription of wealth as well as men in the event of war. In that event, there will not likely be any war.

In the event we do get mixed up in a war, the government should immediately take over every railroad, supply plant and munition plant and every American dollar necessary to prosecute the war. Forget all about tax exempt interest bearing bonds and make war something besides a paradise for profiteers.

And by golly don't forget that those who declare war should be put on the front lines first. Then we know blamed well there will be no war.—Clarendon Leader.

Seventy-six farm analysis made last year in the Mesquite Community by the county agent of Dallas county revealed, among other things, a shocking lack of hogs. As a result 75 bred gilts were placed on farms there.

Help the actor along by giving him the glad hand.

### FOR WINTER SPORTS GO TO BUTTERFLIES FOR SPRING COLORS

Here is a practical winter sports suit in blue corduroy. The long fitted russian blouse, buttoned chin high, is being featured among fashions at the Lake Placid Olympics. The practical zipper fastening means labor saving for cold fingers. A lambs-wool lining defies zero weather.

**Flag Scarfs**

Very new indeed and very smart are the huge square scarfs of chiffon wool made of different colored squares put together so that they resemble signal flags. There are belts to match. They are grand to wear with fur coats.

If you would like to know what some of the colors are that will find themselves in conspicuous seats of approval for the spring style shows, take your little net and chase a few butterflies. If it is too cold now then go to the nearest museum, or library, and study the gorgeous colored plates and specimens.

They carry many future fashion secrets on their delicate wings, not alone for colors, but for the graceful lines of their slender bodies, and the exquisite combinations of shades and nuances that they seem to have captured while hovering over myriads of brilliant flowers.

Watch the blues carefully and note the delicacy of change in the tones that you find. These same elusive shades will be found in your spring frocks. There will be hints of periwinkle, of dusty sapphires, and of amethysts behind blue mists.

**Pick Winter Additions**  
With Thought of Spring

Styles are all set for spring. Winter is not over, however, and certain reparations and additions to the winter wardrobe may be necessary before real spring clothes can be worn without menace of pneumonia and other evils. By taking the first spring fashions into account, however, it is possible to choose anything new in your winter outfit so it can be worn into spring as well.

If you just must have a new frock to wear under your winter coat, then select something you can wear later without that coat. A dress that has the earmarks of a coat dress is the thing to choose, and see to it that this dress is in a springlike color and fabric. Silk serge that looks like wool, or wool serge that looks more like satin would be the smartest choice for such a frock.

For Commissioner Pre. No. 3: R. L. Cook, J. W. Lasiter, re-election, W. H. Kelly
For Commissioner Pre. No. 4: J. L. Lyon, M. H. Ballew, G. M. Thomason, re-election
For Public Weigher Pre. No. 4: Lowell C. Terry, T. A. Wartes

CITY OFFICES

- For Mayor: Joe J. McGowan
For City Marshall: C. E. Fitzgerald, E. Brown, re-election, Dalt Lewis, Geo. E. Tiernan

Mrs. M. A. Ferguson has again announced for the office of governor of Texas. That means that Old Man Politics and all the little Politics will warm up about June or July.

There are 26 mountains in Colorado higher than Pike's Peak. Can

you name them? Neither can we, but we all know about Pike's Peak because it is advertised while the other mountains sit around, or whatever they do, and complained about poor business.—Clarendon Leader.

Congressman Patman of East Texas, has decided to let up on Uncle Andy Mellon, as that gentleman has resigned from the post of Treasury Secretary to become Ambassador to the Court of St. James. Patman don't seem to have much sympathy for the English in wishing Mellon off on them.

The reason that car load of whisky labeled "cabbage," from the border of old Mexico was confiscated by Fort Worth and Federal officers, was that it was being watched too close by its owners. In other words, the crowd that was hanging around that railroad car down at the dock in Fort Worth, didn't look like a pollicker crowd to the officers.

One of the greatest events the Brownfield section has to look forward to in the near future is the Santa Fe and A. & M. College demonstration train which will be here about the first of April. Two former occasions, the train has made this section, including Brownfield, and it has always made a great impression on the farming interests. It has been worth much to the country.

There are entirely too many congressmen-at-large candidates out from this section. There are two from the upper Panhandle and one from Lubbock. This week another announced from just under the cap. If all but one had stayed out of the race, the Panhandle-Plains could have put in a man, otherwise, it is out of the question. Amarillo already is the home of Marvin Jones, our regular representative, and they should have been satisfied with that.

We have read several Lincoln stories the past week or two in various exchanges. We have heard several good radio programs put on. But about the best thing we have seen is a short autobiography that his partner persuaded him to write of his life about the time when it became apparent that he was to go to the White House. The simple truths Abe expressed of his simple life and lowly birth invisions the life of the martyred president. The Herald has always held to the fact that the over-riden south, struggling to recuperate from a devastating invasion, lost the best friend it had at Washington when the assassin layed low the life of Lincoln.

A preacher at the close of one of his sermons said: "Let all in the house who are paying their debts stand up." Presently every man, woman and child, with one exception rose to their feet. The preacher seated them and said: "Now let every man who is not paying his debts stand up." The exception, a careworn, hungry looking individual clothed in last summer's suit, slowly assumed perpendicular position. "How is it, my friend," asked the minister, "that you are the only one not able to meet his obligations?" "I run a newspaper," he answered meekly, "and the brethren who stood up are my subscribers, and—" "Let us pray," exclaimed the minister.

The Herald nor any of the Terry county people wish anything but the greatest success for Tech college. Brownfield and Terry county worked hard to help land the institution for this section. And after landing it, they begin to send students to it, some of which have already graduated with honor, and are now making marks in the world. There are many others there now preparing themselves for the battles of life. We hope we have many more in the future, but we have none to spare to go there and have their faith and hope

of the future blasted by atheism or radicalism. We understand a committee has been appointed to make a thorough investigation, and if there are those at fault, we hope they get their walking papers, for what are such professors to a community. The Herald is not willing that the school ever be controlled by denomination-alism, but we had much rather it was than to be controlled by the atheist. The great majority of the moral, worth while people of this section believe that Jesus Christ was part of the Godhead and is yet. Let those who wish to teach otherwise get out of the Bible Belt.

Announcements

JOE MCGOWAN DECIDES TO ASK FOR RE-ELECTION

Mayor Joe J. McGowan asked us this week to announce him as a candidate for re-election to the office of Mayor of the City of Brownfield. "That is all I wish to say. Just let the people know I am running for re-election and let them decide the matter." "Does this bind the Herald too," we asked. "No, you can say what you like."

Well, in the first place, Joe is a good manager of his own affairs. His business is in good condition, and his accounts are welcomed at any store here. In the same way, he has conducted the city matters. They are in fine shape. Joe never has been out to make a big show. He gets out of every speech he can. No flourish-ing about that man. He's just Joe McGowan in Brownfield or in Dallas, or wherever you meet him. He don't pull big stunts with the city's money to make a show either.

Therefore, Brownfield city is said to be in the best condition financially of any town in West Texas. It is taking care of all its debts and interest as well as cash accounts, and the taxes have been cut 50 percent. It is said that he has saved the city a thousand dollars or more for legal ad-vices that he has furnished together with necessary papers and transcripts free of charge.

So what's the use in firing a man like this.

HON. G. H. NELSON
Candidate for District Attorney, 106th District

Watch for the announcement in the next issue, of Boone Hunter, for County Attorney.

Hunter News

Mr. and Mrs. Riley Bryan from Andrews visited his parents Sunday, but returned Sunday evening.

Our old reporter returned the other day with him a new wife. Before her marriage she was Miss Artis Simmons of Olton. He will make his home at Olton. We wish the young couple happiness.

Proctor Webb visited Mr. and Mrs. Scott and Miss Greer Sunday.

Mr. and Mrs. Andrews of Hollis, Okla., has been visiting his daughter, Mrs. Montgomery. Mr. and Mrs. Montgomery made a visit there and left Virile Montgomery and brought her parents back with them.

Mr. and Mrs. Clyde Owens moved over on Mr. Jack Bryan's place.

Miss Lucille Smith visited Miss Viola Hight last Sunday.

We had notice to the effect this week that our old friend, G. M. Cosby, of Lubbock, had been appointed on a position with the oil section of the Railroad Commission, and will be sent to the East Texas fields. We were notified of the appointment by Hon. C. V. Terrell, railroad commissioner, to whom we wrote a recommendation for Mr. Cosby. Marion, as he is better known here, married a Brownfield girl, Miss Irene Copeland, daughter of the late Judge Copeland, first county judge of Terry county.

Drawing is the art of marking down one's thoughts.

Don't think it is disgraceful to tumble to your faults.

NOTICE

A new \$35.00 portable phonograph. Will trade for cow or chickens.
JETER (Sign Painter)
216 N. 12th St. Brownfield.

THE HISTORY AND CAUSE OF THE MORATORIUM

Beginning back in the prosperous days of 1927, the big banking interests of New York put on an intensive campaign for selling German securities in this country. These bankers have always assumed for themselves all the wisdom of the world in financial matters and have through the press insisted that no individual should make any investment without first consulting them and obtaining their expert advice. The investors of this country listened to their recommendations and purchased through these New York banks alone German securities amounting to more than six billion dollars. They were bought at above 90 per cent and now the best of them are worth less than 30 per cent and some of them are absolutely worthless.

A congressional investigation has disclosed the fact that these big bankers wholly lost sight of the welfare of their customers in this sale and had only one object in view—their commission on the sale of these transactions. This amounted to nearly one hundred and fifty million dollars. This investigation shows that these "gold brick" peddlers, these multi-millionaire bankers, did not confine their activities to the sale of German securities, but that also large blocks of other European and South American securities were unloaded upon an unsuspecting public. It also shows that the federal reserve banks, instead of using their vast resources for the assistance of legitimate business in this country, assisted these questionable deals. Probably as much as ten billion dollars of this country's wealth was taken into foreign countries, thus very materially aiding in making the present financial depression the greatest ever before known.

The skimming of the cream from the investing public and sending it into foreign countries had well nigh exhausted the resources of this country. Then, when these foreign securities began to go down and down and down, many of the smaller investors and some of the larger were forced into bankruptcy. Then it was that these same big bankers with their large resources and with the assistance of the federal reserve, began to buy up these foreign securities at a pitifully small per cent of the price they had sold them only a short time before. Their vaults are now loaded with this character of paper upon which the German government was unable to make full payment. The only hope for making collections was to secure for Germany an extension of the payment of the debts it owes to other nations.

At this juncture the president of the United States came to the rescue of these big bankers. He made the proposition to the European creditors of Germany that if they would suspend the collection of their claims upon Germany, this country would also suspend the collection of the debts owing to us by these nations. This arrangement would allow Germany to make prompt payment to the New York banks. When the European nations hesitated to assent to the plan, Mr. Hoover offered as an additional inducement the implied promise of a still further reduction of the debts due this country, and some of them were led to believe that all our foreign debts would be cancelled. So confident were they of this fact that English officials have informed their people that the moratorium means that none of their debts will ever be collected.

Thus it was that Mr. Hoover's moratorium came into existence, and good thing it was for these New York bankers. But what about the other people of this country?—Lovington, (N. M.) Leader.

ANNIE LAURIE

It is Annie Laurie to whom tourists pay reverence when they visit, in Forest Lawn Memorial park, Glendale, Calif., the reproduction of the "Wee Kirk in the Heather," the church the heroine of this oldest and sweetest of love songs is said to have attended at Glencairn, near her Scottish home. But 'tis William Douglass, her devoted lover and author of the original versions of the poem, to whom honors are due.

Annie Laurie, stripped of Douglas' adoring poetry and the lilting music which we all know, was but a brash Scotch lassie after all, with a "rolling eye" and but little sense of duty. Born in 1682 at Maxwellton house, Glencairn, she grew up to be the most charming and provocative young lady in all Dumfriesshire. How William Douglass felt about her he wrote down for all the world to sing. In spite, however, of her promise true" of which he boasted in his song, Annie married one Alexander Ferguson while William was off to the wars. As the wicked often do, she flourished, even to be eighty-two year!

Douglass has been as unlucky as a poet as he was in love. Bereft of his Annie Laurie, he was eventually bereft also of his song. The original version had but two verses. The version familiar today is a modern adaptation by Lady John Scott.

A man spends one-third of his life in bed, but it's the other two-thirds that usually cause all the trouble.

WOOL IS FAVORITE FOR EARLY SPRING

Bright Green or Red Will Be Popular Colors.

If you think that wool is all wound up, now that early spring things are in the air, you are very much mistaken. For the wool frock is more popular than ever, with houses showing them and women buying them quite as a matter of course.

There's nothing more useful than a wool dress, however it be made, that's entirely simple or else with a wealth of unobtrusive yet very smart detail. The latest type is favored here and one sees such frocks at lunch time at the very smartest places, worn by the very smartest women. As wool sheds its heavy weight and texture, it also sheds its somber outlook and so we enjoy wool frocks done in bright, even vivid colors.

The bright green or red frock in woolen, will be all the go for early spring wear. Color is a grand thing and we certainly all do need cheerful notes right now.

STYLE NOTES

Hats should be worn at a jaunty angle.
Resort wear emphatically endorses white with color.
Fashion highlights crepe frocks with brief velvet jackets.
Frocks of "chalky" lace, also Irish crochet, are in evidence.
Greige, which is between gray and beige, is a much talked-of color.
Diagonal woollens are smartest for the spring coat.
Accents of Irish lace appear on the newer afternoon frocks.

Bias Trim Offers Easy Way to Make Fagoting

If you want a quick and easy way to do fagoting, as in making collar and cuff sets, yokes or aprons for your own or your children's clothes, use the bias trim, which comes all turned under, and cut on a perfect bias, ready to apply. For the fagoting use trim stitch thread, which has a firm twist with a glossy surface similar to silk, and is much easier to handle, as well as boldest as to color. You can choose a transfer pattern as any well-equipped pattern counter. All you have then to do is to baste your bias trim on the transfer paper, and fagot between the edges.

Dress-Like Coats Are Appearing for Spring

Spring coats that resemble dresses are making their appearance. Little fur is being used for trimming except perhaps on the sleeves and in rare cases in detachable collars of single small pelts. Most of the collars are scarf-like. In one instance the wide-scarf crosses in front and joins in the back just above the waistline. Diagonal weaves—new ones wide-ribbed with a lace or nubby mesh between the lines—are best. They are in two tones or three, usually different shades in the same color.

Button Trimmings

Buttons are increasing in importance on frocks this winter. Some of the newest morning models are trimmed with a row of buttons from belt to hemline.

LEADERSHIP

American Community Life provides this somewhat strange contradiction, that while different sections of people are a good deal alike in character, yet there is an enormous difference in communities. Some cities and towns are hustling and progressive, some are slow and sleepy.

Yet if a group of energetic and confident people went into one of these slow and sleepy places, the chances are strong that they would transform it in a few years. They would find difficulty in rousing the people from their ancient indifference. There would be much croaking and knocking at first.

Yet there is in most people some desire to see their communities go ahead. If a group of people in a disorderly village, should go about that place asking people to have a Clean-Up day and get rid of the rubbish that disfigured their homes, the chances are that two-thirds of the people who were thus solicited would join the movement. They would hate to fall behind and fail to keep up with their neighbors.

People hate to take the lead in things, they hate to feel that things are depending on them. But if someone else will lead, the rest will generally follow.

What most communities need then, to obtain business progress and community improvement, is leadership. They need a group of people who will take the lead, start things, and organize movements and carry them on. After such movements are started, and are pushed steadily, they are apt to be successful.

How can our towns obtain more leadership? Well, one way to get it, is to encourage the people who do start things. Give them some appreciation and recognition, and avoid needless knocking—Record, Bristow, Oklahoma.

The only thing that would cause some women to give up their careers for marriage would be the opportunity.

Fortune is the man who is a hero to his wife.

Needmore News

There isn't much news this week except "flu" news. The Valentine party at school was highly enjoyed by all the pupils. Each pupil seemed to have a true Valentine spirit. Since one of our characters in the play has returned we are going to stage the play pretty soon at another school. Some of the people in this community who did not get to see the play here at home will be given an opportunity according to their wishes to see the play.

Tokio Talkings

The flu has been on a rampage for the last two weeks in this vicinity. Mr. J. C. Casey has been very sick for the past ten days but is reported resting very well at the present. Cleburne Upton has been in bed with pneumonia for several days. He is better but still delirious. Mrs. Carl Rushing of Plains visited Mr. and Mrs. J. A. Rushing Sunday.

Jim Casey moved to the Gomez community last week. We hated to see Jim leave as he is a splendid citizen.

Mr. and Mrs. J. L. Allbritton of Sweetwater visited Mrs. Allbritton's parents, Mr. and Mrs. P. W. Smith, last Wednesday.

Quite a few are preparing their land for another year. Norwood and Erbin Stanford returned Tuesday from Oklahoma City. J. Logan Green was called to Hedley, Texas last Tuesday to attend the funeral services of a niece.

T. C. Garner, one of our valued readers of the Union community, was in to see us Saturday.

Mr. J. A. Miller is reported to be confined to his bed and very ill. Mr. Miller is considerably up in years.

It's an ill wind that escapes and leaves a flat tire.

WANT ADS

HIGH GRADE Jersey bull, 2 years old, for sale or trade. See Ed Thompson, 4 miles north on cemetery road.

FOR SALE—Lot 1 in block 1, Hamilton add., Brownfield, Texas. This is a choice south front lot 50x 140 feet. Price \$50.00 cash. Address Grady Berry, Texhoma, Okla. 27p.

GOOD Buff Orpington cockerels for sale. J. F. Thomason, Labeys, Texas. 27p.

FOR TRADE a Jersey cow for a good work animal, good sized and gentle. J. C. Draper, 9 miles south of city. 11p.

FOR SALE, Masten ever bearing strawberry platts, 1c each. Flem M. Spadden. 11c.

### A Scary Minute in The Woods

We have entered the woods, where the trees were scattered to gather some nuts and have a picnic. After we had been picking nuts for awhile we spread lunch and ate. We then played games awhile.

When we had tired of the sports we began to wander father into the woods looking for nuts. It seemed as if we had traveled miles but the scenery didn't change much as we were going in circles which we found out afterwards. Although I had never been in the woods the place began to look familiar.

After awhile the sky began to darken and the sun became invisible. It began to sprinkle rain; the lightning flashed and the thunder roared. The rain began to pour down in blinding torrents and frightened us so that we began to run. We became scattered as we ran but no one thought of the other fellow in his haste. Bumping into trees stumbling over roots, and straining my eyes, I ran as hard as I could, but not making the desired progress, I thought of giving up and waiting until the storm was over but I kept on trying.

Soon the wind began to blow a gale and I ran the harder or rather I thought I did. I thought I saw a light ahead and went for it. As I thought it was a long ways off, I was running when I hit a wall. I was somewhat dazed by the blow but began to hunt the door as soon as I regained my feet. Soon I was sitting by the fire and the remainder of the party came staggering in. Thus bruised and soaked, we were rescued by an old woodsman and trapper.—Freshman Theme.

### Senior Class to Present Play

On Thursday night, February 25, the senior class will present the play, Aaron Boggs, Freshman. A college comedy in three acts. If you are not too old to enjoy the wit, humor, and terrible seriousness of young America come and give your face a rest, for the whole thing is punctuated with hearty laughs.

Though a definite decision has not been reached yet, the class plans to use the proceeds of this entertainment to make some needed contribution to the school; possibly the work of beautifying the campus with shrubbery and flowers will be undertaken.

Plan to come yourself; and encourage your friends to do so.

### The Chapel Program

Last Thursday, February 11th, the student body was entertained in chapel by a program of readings and musical numbers. Some of Mrs. Penns

students, Doris Lee Gore, Shirley Bond, Lavern Harris, John Jr., and Odell McLeod, read for us. The girls high school quartet sang "Lies," "When the Gold of the Day Meets the Blue of the Night," and "Down the River of Golden Dreams." The girls, accompanied by Mrs. Herod and her accordion, sang "Lazy River" and being encored they sang "Washington's and Lee's Swing." The program was enjoyed by everyone that was present.

Mr. Hayhurst: I think I will go to New Mexico and teach school.  
 Miss Long—Why?  
 Mr. Hayhurst—Well, out there the teachers can go to the dances.  
 Miss Long—I think I will go out there, too.

Mr. Hayhurst—Say Polly, there is one thing about your sister that I don't like.  
 Miss Taylor—Really, only one?  
 Mr. Hayhurst—Yes, just one thing. She should have been the only girl in the family.

### Spanish Club Meets

The Spanish club met on Tuesday, February 9th, in the regular meeting place and had an interesting program.

The roll call was answered by naming the seasons of the year in Spanish.

Robert Drennon asked some questions in English for the club to translate into Spanish.

Louise Goza read an interesting account of Old Mexico.

Miss Long, Dorothy McGlothlin, Lynn Nelson and Margaret Murray practiced a short dialogue in Spanish.

The members then lined up against the wall and spelled Spanish words until the meeting adjourned.

Mr. Penn: (after Dora Dean had fainted for the third time in a basketball game) Say, are you hurt?  
 Bob—Wait a minute. Let her smell this.

Dora Dean choked and coughed, and when she opened her eyes she gave Bob a dirty look.

Dora Dean: (after the game in the dressing room)—That was a dirty trick you pulled out there.

Bob—Well, it revived you.  
 Dora Dean: It almost killed me.  
 Bob—Well, amonia is my motto when anyone plays faint.

### Believe It Or Not

Saturday, February 13th, the Brownfield basketball girls went to Lamesa to a tournament. There were about twenty hard fighting teams that entered, but as luck hit us, we played only five of them. Our first game was at 10:30 Saturday morning when we played Weaver. The score was 5-31 in Brownfield's favor. Lamesa being very hospitable to the Brownfield girls, gave them a room in a hotel so they might rest between games. At 12:30 Saturday afternoon we played Elbow; the score was 15-13 in Brownfield's favor. After this game our coach took us out for lunch. At 2:30 we played Ackerly with a score of 33-7 in Brownfield's favor. After this game the Brownfield coach scared the girls with a big surprise by telling them if they would win the next game they

would win second place. All the girls went in fighting. At 5:30 we played Mongard with a score of 20-11 in Brownfield's favor. After the game each girl was so eager to win the next game that all went to their room to rest so they would be in good condition to play the final game which was played at 9:00 Saturday night with Ira. The score was 24-18 in Ira's favor.

The Brownfield girls played five games and by fighting hard they won four of them.

Ira won first trophy. Brownfield girls returned home with second trophy of which they are very proud. Every one is very proud—as it is the first trophy our basketball team has ever won.

A gang of girls in the office were looking at the trophy, the basketball girls had won.

Martha McClish—Gee! I'm just crazy about that.  
 Mr. Sanders: (raising his eyebrows)—Honest?

Mr. Lawlis: (studying carbon dioxide which was discovered by John Baptist Von Helmont)—Steve, who discovered carbon dioxide?

Steve—Wasn't that discovered by John Baptist.

Bill Gore and his girl in his strip-down.

Romantic Pat Shelton: "Oh, Bill, dear," I could go on like this forever with you."

Bill, The Brute: "Don't kid yourself woman; I only got one gallon of gas in this car."

Graham—Facing work started on Young County's new \$297,000 courthouse.

Eldorado—J. A. Parsons purchased Eldorado Cash Grocery from O. F. Priest.

### SHORTER SKIRTS IS DESIGNERS' EDICT

#### Answers Milady's Demand for Practical Clothes.

A return to short skirts this spring has been decided on by the London dress designers and manufacturers, following similar reports from Paris. Dresses and skirts for morning and afternoon wear are to be 13, 14, or 15 inches from the ground according to the stature of the woman. Skirts in sports wear will be the merest fraction below the knee. Evening dresses will be 3 inches above the ground in front, graduating to a floor-sweeping length at the back. Coats will be a length to conform to the shorter dresses.

Eve's movement for revealing more of her lower limbs is not made from a desire to soften the heart of the dodging bachelor, preparatory to springing a leap-year proposal, but from her insistence on more practical clothes.

Designers declare that there has been an increasing demand for some time for shorter dresses on account of the inconvenience of shopping and traveling on buses, taxis, and subways experienced by those wearing the longer styles.

### FLASHES FROM PARIS

Gay-colored waist-length jackets accent black gowns.

Evening gowns favor covered shoulders.

Smart Parisiennes are wearing sheer, lay wool scarfs.

French milliners sponsor exceedingly shallow crowns.

Frills and flowers give shoulder height to formal gowns.

Of lace and with a novel jacket is leading formula for afternoon costumes.

Although 85 of them live on tenant farms, 106 farm women in Wilbarger county improved their yards last year with the help of the home demonstration agent. It was found that simply clearing away rubbish and planting a few native shrubs helped a lot.

Crosbyton—Wake Store resumed business opening cream station in connection with grocery department.

Dumas—New three-unit cereal mill being installed in Dumas Ice

### ON CONSUMER-SATISFACTION

It was 5:20 and the bookstore closed at 5:30. The young lady clerk approached the man scanning a new book.

"Do you intend buying or are you just looking around?" she inquired in such a way as to give the impression that she preferred not to bother with a sale.

The result of this brusque salesmanship caused the prospective buyer to put back on the table the book he had intended to buy and to hurry away—perhaps to a more hospitable counter.

That and similar experiences, reported first hand in the January Rotarian magazine, by a man who signs himself "A Customer with Money to Spend," led him to inquire among his friends as to their impressions of store-customer relations. To his astonishment each of them also had recently repelled by discourteous or inefficient clerks.

"Presumably," he comments, "we are supposed to be suffering from a dose of under-consumption. I wonder. Experiences in trying to satisfy my normal needs has led me to ask myself as I meet business, 'Is it awake to the regulative importance of CONSUMER-SATISFACTION as a factor in ending the depression?'"

Pointing out that savings banks are bulging with money, that the larger fraction of the population is still receiving uncut wages, he suggests that retailers should mean less about the depression and devote more thought and effort to gearing their businesses to the needs of the small buyer.

"When his normal wants are satisfied," the author adds, "the indices will tell a story of coming prosperity. While we are depending on advertising cleverness (much of it of the heus-pocus variety) to stimulate unfelt wants and thus increase willingness to buy, let us grow a little more attentive to the inevitable wants that are entirely normal and that must be satisfied in bad times as well as good.

"It is worth speculating on what would happen if every retail merchant in the country would suddenly decide to grow customers-conscious and charge himself with the privilege of caring for the expressed needs of those who have not only the power to buy but the will, as well."

### Lynn Rural Schools To Average 7 1/2 Mo.

The rural school of Lynn county this scholastic year will average seven and a half months of school, says H. P. Cravens, county superintendent.

"A few will have but six and a half months of school work," he pointed out. "More will have seven and a half and a number eight months.

"I think now that there will be four schools that will have a full nine months term. The average will be seven and a half, I think."

Lynn county has 21 rural schools and three city schools. The latter are Tahoka, O'Donnell and Wilson.

Collection of taxes and payment of state aid will be factors in the length of terms for a number of schools.—Lynn County News.

The value of home demonstration work in Motley county increased steadily from \$21,396.32 in 1928, to \$60,624.20 in 1931.

She's just a dentist's daughter—that's why she had so much pull.

# SOCIETY NEWS

Mrs. Ike Bailey, Editor

Phone 160

Mrs. I. M. Bailey, our society editor became air-minded on Tuesday and accompanied her father, Dick Brownfield, via plane, to Big Spring and Sterling City, and while she left her notes and magic pencil with this pro-tem, it just won't work is the reason the society items are not up to par this week.

### FRIDAY FORTY-TWO

The Friday Forty-two club met with Mrs. R. M. Kendrick with a Valentine party.

Guest enjoying this were: Mesdames Brothers, Longbrake, Ellington, Downing, McSpadden, Gore, Rambo, McPherson, Holgate, Adams, M. V. Brownfield and Crews. The refreshments consisted of chicken salad, mince meat pie, and hot tea.

### KILL KARE KLUB

The red colors symbolical of Valentine furnished the color note used in refreshments and prizes at the Kill Kare Klub party Wednesday afternoon at the home of Mrs. A. M. Brownfield. A pretty refreshment course consisting of tomato aspic salad, potato chips, individual cherry pies and tea were served. Tallies were heart shaped and prizes were heart shaped boxes of candy. These were won by Mrs. Cave and Mrs. Wingerd. Other guests were Mesdames I. M. Bailey, A. R. Brownfield, McGowan, Lewis, Treadaway, F. Smith, C. J. Smith, W. C. Smith, A. Sawyer and Collins.

### VALENTINE PARTY

A delightful party in the Valentine motif was given Thursday afternoon by Mrs. Clyde Cave and Mrs. Lewellyn at the home of Mrs. Lewellyn. Seven tables were placed for bridge. Each table was decorated with heart shaped table markers and barrels of candy hearts and Valentine tallies were used. Mrs. Endersen and Mrs. Hilyard received a silver bowl and two decks of cards as their respective prizes. Another prize, a linen guest towel was given to Mrs. Warnick for being the holder of a lucky tally card.

The refreshments were salad, hot butter rolls, individual cherry pies, topped with molded ice-cream hearts, coffee, cheese and crackers.

Guest enjoying this lovely affair were: Mesdames Allen, Bailey, A. M. Brownfield, Carter, Collins, Endersen, Ackers, Hilyard, Hudgens, Lewis, McDuffie, McGowan, Flem McSpadden, Sawyer, Pyeat, C. J. Smith, W. C. Smith, McGuire, Wingerd, Warnick, Self, Treadaway, Sullivan, Telford, Heath and Earl Jones.

### SEWING SOCIETY

The Sewing club met with Mrs. Cruce Wednesday and pieced quilts. Sandwiches and congealed salad and tea was served to the guest. Mesdames Holgate, Gracey, Dunn, Kendrick, Thomas, McClish and Fowler.

### JUBILEE AUXILIARY

The Jubilee Auxiliary met Thursday. Miss Mozelle Treadaway led the devotional and the program. "The Courage of Jesus." Woman Citizenship Responsibilities, was discussed by Mesdames Coleman and Boone Hunter and Fred Smith. Miss Long gave a very interesting talk on conditions of women in Mexico. Seven were present.

Mrs. J. E. Shelton is in Roswell with her daughter, Mrs. Paul Stevens and enjoying her new grand-daughter.

Mr. Will Edd Harris of Carrizo, N. M., was here this week visiting relatives and friends.

The County P. T. A. meets at Forrester Friday night and all who are interested in this worthy organization are invited to attend. The program has been especially arranged to commemorate Washington's birthday and also to bring Texas school laws to the notice of the public.

Mrs. Joe Bailey and little daughter, Joe Ann, of Lubbock spent the week-end with her parents, Mr. and Mrs. A. M. Brownfield.

Miss Lenore Brownfield, Tech student spent the week-end with her parents, Mr. and Mrs. A. M. Brownfield.

The Maids and Matrons club held a very interesting meeting at the home of Mrs. Stricklin. This concluded the lesson on Soviet Russia and the club will not study Safaris book on Africa.

The following were present: Mesdames Weir, Lewellyn, Ellington, Brownfield, Wingerd, Bell, Toone, Holder, Moore and Mrs. Quinlan of Plainview.

Rolled cheese sandwiches and individual cherry pies and coffee was served.

Mrs. Orb Stice of Lovington N. M. spent the week-end here with her parents, Mr. and Mrs. R. M. Kendrick.

Mrs. Regis Quinlan of Plainview spent several days here this week, guest of her parents, Mr. and Mrs. W. A. Bell.

### PROGRAM

County Council Parent Teachers will meet at Forrester February 19. Singing—by Audience; Devotional; Business Meeting, County Council; Two Minute Report from Local Organizations; Song—Forrester School pupils; Drill—Forrester school pupils; Music; Important School Laws—H. R. Winston; Talks about Washington—by Forrester High school pupils; Song—by Forrester Primary Room; Health Talk—by Mrs. W. A. Bell; Question Box; Exercise Drill—by Forrester school pupil.

### SHOWER FOR MR. AND MRS. LOYD DAWSON

Mr. and Mrs. Curtis Huckabee entertained Wednesday evening in honor of Mr. and Mrs. Loyd Dawson.

Mrs. Dawson was formerly Miss Louise Forbes. Guests brought gifts for this young married couple, and all present enjoyed the evening by playing games and contests.

Those present were: Messrs. and Mesdames Troy Wright, Cecil Shaw, Fred Dawson, Cecil O'Neal, Lazelle Huckabee, the guest of honor and Mr. and Mrs. Curtis Huckabee. Hot chocolate and cake were served.

### AUXILIARY MEETING

The Auxiliary met at the Legion Hall February 10. Not many present because of so much sickness. We did not have a business meeting, but all enjoyed an interesting and instructive talk on colds and flu by Miss Bernice Weldon. The meeting adjourned to meet March 9th.

### METHODIST CHURCH

We were very much delighted on last Sunday to see such large attendance at morning worship, and we are extending a cordial invitation to you to come again and bring with you a friend, for we will be glad to have you worship with us, and then your presence will help us to make the service of the church to be what they should be. We are trying to make each service profitable to all and with your attendance we can. If you are not a member of the Sunday school you should be I believe you would enjoy the class work of the school, and I know the Lord would have you to be.

Morning worship, pastor preaching Subject, "The One Thing Needed." Evening Worship, 7:30, pastor preaching, Subject, "Excuses."

Cullen Forbes, splendid young farmer of the Valley section, is a new reader.

J. C. McAtter is a new reader through Dr. Moorhead at Meadow. He also sent in renewal for J. C. Castleberry.

Dawson county's voting strength is put at about 2500 this year.

### MUSIC NOTES

The Crescendo Dunning Club had its regular meeting at the piano studio of Gertrude Rasco last Saturday.

The pupils practiced their solos and ensembles for the Festival which is only a month off. Several interesting games were played after which Valentines were given to each one present.

Refreshments of pink heart-shaped cream were served the following persons:

Mary Nell and Mildred Adams, Kathryn and Marjorie Sue Bynum, La Rue and Mary Barrier, Jane Brownfield, Ila May, Joe Pete, Ethelda and Virginia May, Bobbie Virginia Bowens, Lucille McSpadden and Betty Jo Savage of Brownfield, Billy Jo, Margaret and Mrs. Schroeder, Bonnie, Jimmie and Mrs. Wilkins, and Pauline Lindley of Wellman.

### WEDDING

Mr. L. A. Greenfield and Miss Veda Headstream drove up to the residence of Rev. J. B. Vinson last Saturday night at about 7:30, where he said the words that made them as one. Mr. Greenfield is one of the popular window men at the post-office, and is well known here. Miss Headstream is the daughter of Mrs. F. J. Headstream, and has been assisting her brother, Rex, in the county clerk's office ever since he has been in there, and is well known to Terry county people. They will make their home in the Greenfield residence on east Broadway.

### MARRIED

About a month ago, Mr. J. W. Thompson and Mrs. Amanda Story, who sells apples and other fruit on the east side of the square, drove over to Lovington, N. M., where they were quietly married. The fact did not become generally known till very recently. They seem to be as foolish over each other as a real young couple. And why not? Congratulations.

### PAT NEFF IS RIGHT

From a very interesting little book by former Governor Pat M. Neff, entitled "Making Texans," which has just come from the press, and which contains thirty-six pithy chapters on as many live subjects, we take the following:

"On nearly everything we eat or wear we pay freight from our fields to the factories, and from the factories back to our homes. Why not turn this raw material into the finished products within our own borders? Our people have lost all their wisdom if they continue the indifferent policy of permitting this stream of gold to flow out of Texas, to enrich the people of other States and nations. Let us build our factories by the side of our fields. We have the fuel, the climate, and the labor conducive to successful manufacturing. We have the market at our door for all

our productions." Right! And yet is it not possible to discover evidence that a great many of our people are far from having the will to such progress? Really have it, we mean. For example: We have built our oil refineries by the side of our oil fields, and have converted the raw material into dozens of finished products to be shipped to every corner of the earth, after providing for our own needs. But some of our people seem to regard this as inimicable to the public interest instead of otherwise. Can such an attitude be regarded as wise? In any event, it is not calculated to help industrial development.—Texas Weekly.

Deep fall breaking and good cultural methods enabled 20 Washington county 4-H club boys to make an average of 54 bushels of corn per acre last year on 23 acres for a net profit of \$262.20.

In cooperation with the State Department of Health 42 Garza county club boys last year helped to build or re-model 81 sanitary out-door toilets.

### POT PLANTS

I have pretty blooming pot plants in my home, ranging from 50c to \$2.00. Can get you any kind of flowers any time.

## Sheer Wool Frock Midseason Choice

By CHERIE NICHOLAS

IT'S TIME for a new frock, one which seems to say a not too sudden good-bye to winter, yet in its happy bright coloring and lightness carries a hint of approaching spring. Rather a paradoxical ... of the mode we'll agree, but one which finds a timely and logical answer in the fascinating new sheer woolsens which are so proudly flaunting their high, likewise pastel, colorings and their novel weaves throughout advance fabric displays.

The sheerness of the new woolsens is perfectly amazing. They take one by surprise for often they have a sturdy look, while in reality they are as airy-fairy as the most fastidious may desire. The tomato-red worsted and dune tweed which fashions the chic dress which the seated figure here pictured is wearing is that sort. This attractive material which exploits the now-so-smart honeycomb patterning is so thin and sheer as to be almost transparent when the light shines through it. The fact that the worsted is interwoven with dune, that is to say, mercerized threads gives a sparkle and glint to this tweed which is one of its charms.

Added to the beauty of the fabric of which this dress is made are two interesting style features which are especially news-worthy. One is the papulet sleeve, which is so often mentioned this season. In this instance the papulet effect is achieved in tiny caplets of self-material. The other important message of the mode is the skirt of many gors which is manipulated so as to give a snug hip-line with a gentle flare at the hem.

The dress to the left is made of a very charming novelty wool which is checked and invisibly striped with artificial silk. This material presents innumerable smart possibilities for town and campus wear, for it is sheer, soft and supple, and tailors exceptionally well. Notice the embroidered lin-

erie touches on this frock. It is characteristic of most of the new spring daytime dresses that they have accents either of alencon lace, or Irish crochet, or some equally as effective note of lingerie. It should also be taken into account that patent leather shoes and a patent leather belt is worn with this youthful street frock. The outlook for patent leather accessories is very promising. One of the most popular items for spring is the wide soft belt made of supple patent leather in several of the season's new bright colors.

While in the picture the dress shown in the center panel above presents a very simple appearance, it is really a very stunning model. Its chic and its charms are due to a great extent to the material of which it is made, which is a very sheer wool crepe in the fashionable rust shade. By the way, fashion's latest wrinkle is thin woolsens of this genre in lovely pastel shades (between a gray and a beige) and a soft green being among colors heralded for spring.

As to the styling of this dress its chief claim to distinction is its bodice front which fastens in a criss-cross manner. These crossed effects have been generally adopted by designers and are being featured throughout the spring mode. Brown kid shoes and a brown kid belt make an effective color blend with the rust tone of the fabric which fashions the dress.

Among the new woolen weaves shown for spring and summer, for the latest types are that sheer and delicate they can be comfortably worn during the warm weather, are many open-work patterns worked with drop stitch in stripes, crossbars and plaids—Swazer wool crepes, which are entirely new, have an overworking in reinforced threads in indefinite scrolls and other patterning, the entire effect being in monotone.

(© 1932 Western Newspaper Union.)

**WITH PRINT BLOUSE**  
By **CHERIE MICHOLAS**

The monotone suit with the printed blouse is a favorite theme on the mid-season and spring program. The smart jacket suit pictured is in natural shantung with blouse of persian print.

**Beige for Spring**  
Champagne beige is already forecast as one of the smartest colors for spring wear. Some of the newest blouses and frocks now being shown in fashion houses are of a soft creamy beige.

**NEWEST ENSEMBLE HAS SUBTLE CHARM**

A subtle relationship marks the frock and coat of the newest ensemble. Nothing so banal any more as both garments in the same fabric and marked by the same trimming and treatment. No, the new ensemble owes its charm to far more interesting accents than those.

Usually the coat and frock are of two different materials, of the same coloring, of course. Very often the color of the fur on the coat is repeated in different trimming on the frock. And even if the coat and frock do not subscribe absolutely to the same treatment and detail, some note such as tucking or emplacements announces to the world that the coat and frock were just made for one another and for you.

**Toenails Make Entry Into Fashion Picture**

Paris decrees that, just as lips, cheeks and fingernails must match, so must the toenail polish be included to produce the perfect ensemble.

Katharan McCommon, explaining in *Aromatics Magazine* the vogue of coloring the toenail, says that the mode originated on the beach and has now penetrated even to the drawing room. European women, it appears, have gone quite mad over this mode for evening. Fashions in evening sandals follow closely the pattern of beach sandals, either leaving the seductive carmine toenails practically exposed or veiling them ever so slightly with gossamer stockings. Whichever one does, the intent is there, aided and abetted by the shoemaker, to project toenails into the fashion picture.

W. W. Waddell, of route four, was in Saturday to get a shave. Probably invited out to get something to eat somewhere Sunday.

**Scouting a Character Builder For Boys**

When we begin to talk about character training we are dealing in abstractions, more or less. However the people of the world have long since discovered that there must be some form of character training given in a definite sort of way in order to produce the proper type of citizenship. If a boy or girl is to develop that traits of character that we admire they are to know what those traits are and must have an

opportunity to practice these action patterns that are calculated to help them build their character. In the search for a method and means to train youngsters along this line we have been inclined to "pass the buck." The school has been prone to say that the church ought to do that. The church has been of the opinion that the home ought to do that, etc.

Growing out of felt need for a definite type of training in character the Boy Scout movement came into being with just that thing as its major objective. Not that the boys are to be preached to when they come to a meeting but that they are

going to be provided with a program that will appeal to them. This program will stress such activities that make a constrained occasion for the boy to practice the right sort of thing. The laws of the scouting organization, to which each and every scout subscribes when he becomes a scout are well defined character traits that the fondest parent would be glad for his or her boy to possess and exercise. Just what are those traits of character that make a person useful to society, acceptable socially, and elevating spiritually? When this question is raised you think of all the admirable qualities that the best citizen you know possesses. That is what you should do. Now after you have thought about all these qualities can you figure out a set of better ones than the Scout Laws: "A scout is Trustworthy, Loyal, Helpful, Friendly, Courteous, Kind, Cheerful, Thrifty, Brave, Clean and Reverent." These really cover the whole territory very well. We are not saying that the individual scout in every instance is doing exactly the thing that will portray the possession of these qualities but we are saying that they are held up constantly before him as a guide to his actions in his relation to scouting. We all believe in the carry over effect of early training. How many mothers and fathers would be willing for their boys and girls to practice such virtues through out life?

Lets investigate this scouting game and see if it really is worthy. If it is lets bring more boys into the game. If it wont stand the test lets junk the whole system.

**TREASURER'S QUARTERLY REPORT**

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF Mrs. J. L. Randal, Treasurer of Terry County, Texas, COMMISSIONERS' COURT, Terry County, Texas, In Regular Session, February Term, 1932.

WE, THE UNDERSIGNED, as County Commissioners within and for said Terry County, and the Hon. Jay Barret, County Judge of said Terry County, constituting the entire Commissioners' Court of said County, and each one of us, do hereby certify that on this, the 10th day of February, A. D. 1932, at a regular term of our said Court, we have compared and examined the report of Mrs. J. L. Randal Treasurer of said County, for the period beginning on the 1st day of November A. D. 1931 and ending on the 31st day of January A. D. 1932, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of said County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 31st day of January A. D. 1932, and have ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Articles 1636-1637, Chapter 1, Title 34 of the Revised Statutes of Texas, 1925.

Rex Headstream,  
County Clerk, Terry County, Texas.

**DEATHS**

Walter Wilson, aged 24, son of Mrs. Dameron, died about 10:30 Monday morning of flu-pneumonia. The body was carried to Meadow Monday afternoon, where after funeral services at the church of Christ, conducted by Elder Robt. Drennon, of this city, the body was laid to rest in the Meadow cemetery. It had just been nine days since his half sister was buried. He leaves a mother and two sisters and a brother to mourn his passing.

Miss Winona Smith, 15 year old daughter of Mr. and Mrs. W. C. Smith of the White Rose Dairy, died Tuesday morning at 10 o'clock, following flu-pneumonia. Miss Smith was one of the brightest seniors in high school, and was making fine grades. She was a member of the church of Christ which meets Sunday afternoon at the First Christian church. Funeral arrangements had not been completed when this was written, but it was thought that Elder Freeman of Littlefield would conduct the funeral services, followed by burial in the Brownfield cemetery.

The Vegetable TONIC  
**HERBINE**  
CORRECTS CONSTIPATION

**CHALLIS CHATS**

The Challis P. T. A. met last Friday P. M. at eight o'clock and after a business meeting Miss Hardin gave a very interesting talk on Founders day. Then Mr. Huckleberry gave a talk on the problem school child, which was very interesting and every parent should have heard.

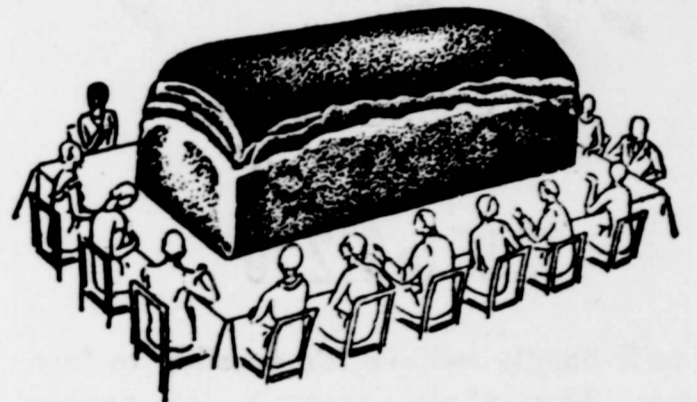

Mrs. Burn of Brownfield spent the week end with her daughter, Mrs. Money Price.

Mr. and Mrs. O. Winfrey of Lubbock visited in the home of his sister, Mrs. W. J. George Sunday.

Mr. and Mrs. J. H. Howell and children visited Mr. J. L. Weldon and family of Johnston last Sunday.

Mr. Tob Howze made a business trip to Lubbock Monday.

Mr. and Mrs. C. L. Fry left last Friday for Boswell, Oklahoma to make their future home.

**HAVE YOU TRIED OUR BREAD?**  
If Not, Do So At Once—

You'll like our bread—everyone does! It has that crust and fluffy "innards" that make bread good. And it is baked fresh every day in our Modern Bakery by bakers who have made this loaf the pride of our town. Your meals will taste better if you serve this tasty bread. Eat more good, health building bread.

**BON TON BAKERY**

**THE GASOLINE RACKETEER IS ROBBING YOU As Well As Your State**

An enormous new racket has grown up in the past few years—the bootlegging of gasoline to escape payment of the state tax. Now an alarming amount of gasoline is being sold without payment of lawful tax.

Most motorists who buy bootleg gasoline buy it unknowingly. But know it or not, they are being robbed by the gasoline racketeers every time they buy from them!

The gasoline tax you pay belongs to you, and you should get it back from your state in the form of good roads. When you buy bootleg gasoline, you pay all or a part of the tax, too—but the racketeer pockets the money. You never get it back! And remember—if your state received all the money paid as a gasoline tax, it could well afford to lower the gasoline tax!

Knowing this, you naturally don't want to buy any bootleg gasoline. To be sure the money you pay as tax goes to your state, buy only gasolines sold under dependable, familiar brand names, backed up by reliable companies who make sure the state gets the tax. By sticking to familiar, reliable brands, you'll help banish racketeers.

CONOCO Gasoline is a branded gasoline you can buy with safety at the sign of the CONOCO Red Triangle.

**My Gas Bills Are Too High**

VERY OFTEN THEY ARE. We will tell you so and tell you why.

YOU ARE PAYING FOR NO MORE GAS THAN YOU BURN, but you are burning more than you need.

Long, yellow, wavering flames that flit along the bottom of the utensils indicate the use of too much gas.

The United States Bureau of Mines, in a bulletin on the correct use of natural gas in the home, describes fifteen different ways this fuel is wasted.

All of these are due to faulty apparatus, faulty knowledge of how to burn gas, or to carelessness on the part of the consumer.

**WATCH YOUR STABLES**

After the horse gets out, closing the gate doesn't do much good.

And after the petty thieves that have been working Snyder so regularly steal your car or your money or your valuables, it won't do much good to put a lock on your garage or your home.

It is natural that people should sink to stealing when they find it hard to make ends meet. No matter how helpful our officials might be, there will be more burglaries and petty thievery. The things left for us to do is to take precautions before more cold weather makes thievery easier for people who wish to take a short cut to successful living.

Another thing we can do is to back out officers 100 per cent. Arrests and convictions cannot be possible unless Mr. Average Citizen is willing to sacrifice a little time and energy. An officer without public support is much like a rescue boat without oars. Give our petty criminals to understand that the severest penalty of the law awaits them, and they will, in most cases, be willing to earn their living by the sweat of their brows.—Snyder Time.

A yield of 301 bushels of sweet potatoes on one acre is reported by Ruben Guin, 4-H club boy of Wood county. A ton of barnyard manure and 500 pounds of 4-8-6 fertilizer helped.

Most of us can fool ourselves easier than we can fool others.

A fool is often a wise man who guessed wrong.

One way to insure success is to be prepared for failure.

**National Legion Aux. Pres. to Visit Texas**

Perryton, Texas, Feb. 19.—The Panhandle of Texas will be honored this month by the visit of Mrs. Louise W. Williams, Tuckahoe, New York, National President of the American Legion Auxiliary, the largest women's organization in the United States. This is the first time that a National President of this organization has visited the Panhandle.

Mrs. Williams will arrive in Texas on February 17. Mr. Van W. Stewart, Perryton, Texas, State President of the Auxiliary, will meet Mrs. Williams in the Rio Grande Valley, going from there to Austin and Fort Worth and arriving in Amarillo on Friday, February 19.

The National President will be the principal speaker at a meeting to be held in the Crystal ballroom of the Herring Hotel, Amarillo, at eight o'clock on Friday evening. This meeting is for all Legion and Auxiliary members and their families and the general public. This program will be followed by a reception and dance, with an admission charge.

At noon on Saturday, February 20, Mrs. Williams will be guest of honor at a luncheon at the Herring Hotel, tendered her by the Auxiliary women of the Panhandle. Every member in the Panhandle is urged to attend this luncheon. Make reservations through Mrs. Will Benton, Box 186, Amarillo.

**Neckline Is Important in the Spring Lineup**

Collars on many of the dresses for early spring wear are all puffed up about their charm and importance in the sartorial scheme. More and more does the neckline command interest and so unique and original collars are here in full force, the collar very often being the style center of the frock.

All sorts of cowl necklines, with various modifications, will be used.

So much can be done with the neckline, and the frock that boasts a neckline that the wearer can manipulate and arrange to suit individually that they will always score. And so that means that scarf-necklines will be back in the spring lineup.

**Blue in Varied Tones Leading Spring Color**

Blue in a variety of tones is a leading spring color. Beige, warm reds, grays and browns also are popular. Black is being used for late winter.

Stripes will lead for early spring, but the old-fashioned checks, bright plaids and flowered and designed prints are being shown.

J. W. Raley of Plains, was in one day last week to renew for his Herald and informed us that Youkum County Singing Convention would meet on the 4th Sunday this time, at the high school auditorium in Plains. They are expecting a great crowd of good singers from both Texas and New Mexico. All Terry county people have a pressing invitation, he said.

W. A. Tittle was in to see us Monday and reported that his family was improving some from flu.

Atty. R. L. Graves handed in two but hides this week to keep the Herald in his family.

Gaines county has 667 qualified voters this year compared to 663 last year, a gain of four.

**Peanuts Profitable Says Lynn Co. Farmer**

P. H. Renfro, early day rancher here and now a large landowner, reports one of his tenants named McWilliams, has had splendid yield of peanuts from 50 acres and that he plans to have McWilliams increase the acreage to 100. The two men live in the New Home community.

"Mc has not threshed the crop, yet, but he has about 1,500 bushels," Mr. Renfro said. "They are the small kind, those used by people who make peanut butter, oil and those things."

"I am told this year the price is 60 cents a bushel. That will bring more money than cotton per acre. Besides there is the peanut hay. I am going to get some sows and gilts and try feeding them the hay."—O'Donnell Index.

Those who ask questions must stand and listen.

**DON'T MISS**

This Special Ford Service Offer

An unusual opportunity to have your car tuned-up at low cost

ALL OF THIS FOR ONLY **4.95**

- Valves ground Carbon cleaned
- Motor tuned-up
