

Candidates Express Appreciation to Voters

HEADSTREAM THANKS VOTERS

I wish to take this means of thanking the voters of Terry County for the loyal support given me in the July 28th Primary and earnestly solicit your support in the Runoff Primary August 25th.

I have studied to know my duties as your County Clerk, have done my best to do them and know that it takes some time for one to learn all the points of service that can be rendered through the County Clerk's office, and feel that through my experience I can save you time and perhaps money in the handling of such matters that you have in this office. The duties of the County Clerk's office have been a pleasure to me and I have done my best to perform them.

If you do not know me and the way I try to look after the interest and try to treat everybody, ask someone who does know me. Then if you can support me I will appreciate your very best efforts, in my behalf, beyond expression, and in return I will, at all times, do my very best for you. I need the job and will be glad for you to call on me at any time for any assistance I might be to you.

Yours very truly,
Rex Headstream.

STATEMENT FROM GEORGE MAHON

I feel under everlasting obligation to all the people of the 19th Congressional District on account of the results of last Saturday's primary. I want the people to know that I appreciate their wonderful consideration of my candidacy for Congress. With the continued assistance of my friends and the people generally in every county I feel we can approach the run-off campaign with confidence. The voters gave me a lead over all 7 opponents in 16 counties and a lead over my nearest opponent in 19 out of the 25 counties. I am incapable of fully expressing my gratitude for such an endorsement.

SHELTON THANKS VOTERS

I take this method of thanking all of the citizens of Justice Precinct No. One, who cast their vote for me in the election of last Saturday and assure them that I shall appreciate a continuation of their support and influence for the Second Primary, to be held on August 25th, in which I am opposed by "Dutch" Burnett.

I would also ask for the earnest consideration and support of those who favored the candidacy of Jim Burnett, who was eliminated in the First Primary and promise them, as well as those who supported me that I will do my very best to merit their confidence.

As was the case in the First Primary, I will not be able to make an extended canvas, for the reason that I do not have any office help and my duties are such as compel my presence at all times, and in addition to my regular work I am performing the Notary portion of the Drouth Loan applications and am needed each day for it.

Again assuring you that your efforts in my behalf, have been, and will be appreciated, I remain,
Very sincerely yours,
J. E. SHELTON.

THANKS VOTERS

I want to thank the citizens of Terry County for the support that I received in the race for County Clerk, and I wish my honorable opponents a pleasant and successful race.

Respt. Yours,
BRUCE WHITE.

J. E. EAKIN THANKS VOTERS

I wish to thank all my friends for the loyal support you gave me in my race for Commissioner of your precinct. I shall never fail you, nor give you cause to regret having supported me. I ask a continuation of your

support during the "run off." I wish to say to those who did not vote for me in the first primary, that there lurks not within me an unkind feeling towards you, and ask your consideration and support in the election on Aug. 25. I wish to thank my opponents, and all the candidates for the various offices, for making the nice time we have had, possible.

Respectfully,
J. E. EAKIN.

VOTERS OF PRECINCT NO. 4

I hereby take this means of expressing my thanks to those who supported me in the first Primary, and am making a personal appeal to all voters in Precinct No. 4 for your support in the coming election.

Thanking you again,
I am yours truly,
J. L. LYON.

TO THE VOTERS OF PRE. NO 1

I wish to express my appreciation and gratitude for the courtesy you have shown me in my race for Commissioner, and those of you that cast your vote in my behalf I especially thank you.

I understand there was some few men in the city of Brownfield in the last few remaining days before the primary made a canvass for one of my opponents, but at that I was defeated by a very small majority. I wish to state however that I hold no ill will towards any one, and those of you that cast your vote for me I shall not try to influence you to support either one of these men that went in the runoff. For there is no difference in either one so far as factionalism is concerned. So make your own decision and support the one of your choice on August 25th.

Will say again I thank you for the support you have given me.
Yours Respt.,
T. D. WARREN.

SIMMS THANKS VOTERS

I am very grateful for the splendid vote and confidence given to me in the recent primary election, which placed me as your nominee for county Judge of the Democratic party. It is my hope and desire that I may measure up to your expectation and be able to share in a large way your full cooperation throughout my expected tenure in office. I sincerely appreciate the kindly feeling which prevailed throughout the recent campaign between my two opponents and myself, as well as those who did not support me, and I earnestly seek the friendship of every one living within the bounds of our county to the end that the most possible may be done for the betterment of all the people of Terry county.

RAYMOND SIMMS.

CARD OF THANKS

I want to express my thanks to those who honored me with their vote in my race for Justice of the Peace. By reason of your confidence, you placed me in the run off. I am also taking this means of soliciting your continued support in the run off on the 25th day of August. I am soliciting every voter in Justice Precinct No. 1 to their vote, for which I want to thank you in advance.

F. M. (Dutch) Burnett.

TO THE VOTERS OF PRE. 1

I wish to thank my friends and the voters for their loyal support given me in the first primary and am asking continuance of same. Also wish to say to the supporters of the other candidates that I ask your earnest consideration in the second primary on August 25th.

Again thanking you,
I remain,
L. C. (Leslie) Green.

SMITH THANKS VOTERS

I take this method to thank the voters who supported me in the recent election. I trust that I may prove the faith you have placed in me by performing my duties of the office without fear or favor. I have no ill will toward any one, I am here to serve One and All.

J. S. Smith.
CARD OF THANKS

I take this means of thanking the voters of Terry county for their endorsement of me as their next County Treasurer. I also wish to thank all those who worked or said a word for me. I will try my best to make you an officer that you will be proud of. Again, thanking each

Another Jail Delivery Here Monday Night

Sheriff Jess Smith informed us Tuesday morning that the three or four young men whom he had in jail for stealing chickens and for burglarizing Chisholm Bros. store, escaped some time after midnight Tuesday morning. At that time they had not been located, but he had notified officers in all nearby counties.

This is the second jail break in the past few months, and it has begun to worry Sheriff Smith, yet it cannot be helped. Anyone with almost any cutting instrument can cut through the softbars of maleable steel. One deputy informed us once that one can take a case or table knife filed like a saw and cut the bars in a little while.

Sooner or later, a new jail will have to be built of real case hardened steel, and it as well be done now as later. Yes, we know that it will cost money—so does the escape of prisoners. The present commissioners court will go out except one January first, and they may decide to pass the buck to their successors, but a new jail must be put in soon, and the county may as well prepare for it whether it pleases them or not.

Another thing that greatly handicaps officers is the fact that the state has taken all traveling fees from them, and if they drive their cars all over several counties hunting criminals, it is at their own cost.

Tradesday Here Again—Huge Crowd Satur'y

Man, they were here from the forks of the creek Saturday, whether there was any creek or not, and they not only cast a vote for their favorites, but the merchants did a thriving business, as the people were here to kill two birds with one stone; to trade and vote.

Few people have seen more cars and people on the streets of Brownfield than were here Saturday afternoon, and until far into the night. Main street reminded one of Dallas during the fair. The city marshal and other officers had their hands full keeping a small lane open on Main for three blocks.

This week the merchants are offering the buyers some special bargains for Saturday and first Monday. Read them, and be here both days. Besides the special bargains offered by the merchants, remember that the \$50 in cash will be given to some one as usual.

Another son of Mr. and Mrs. J. H. O'Conner and wife came in from California last week; also a daughter from Amarillo, and are visiting them.

No Beer Sales Here All Day Saturday

According to law, the beer dispensaries could have opened here Saturday night at 8 o'clock, but they chose to remain closed all night Saturday night. A survey was made by them, and it was found that there was some drinking of perhaps hard liquor, extracts or what have you, and the men who run the beer dispensaries decided that if they opened, a lot of fellows would tee off a drunk with beer on top of what they had already drank.

Besides, the streets were blocked and jammed with humanity, and if a few wildeyed fools had got drunk, no telling, some one might have been run over by a car and hurt. The officers had their hands full as it was keeping traffic open on Main street. If there were any drunks here, 3.2 beer was not responsible.

CARD OF THANKS

I wish to take this means of expressing my thanks and appreciation for the support given me in my campaign for the office of County Treasurer. I appreciate your help more than I can express.

Sincerely your friend,
Mrs. J. L. Randal.

THANKS

I take this means of expressing my thanks and appreciation for your vote and influence given me in the first primary, and to ask your continued support and influence.

To the friends and supporters of the eliminated candidate I wish to ask for your earnest consideration and vote.

E. L. Redford,
Candidate for Commissioner Pre. 2

PRICE THANKS VOTERS

Through the columns of the Terry County Herald, I want to express my heart felt thanks to those who honored me with their vote, and for every kind word spoken in my behalf. And I commend those who did not so honor me, if they voted under convictions that they were voting for the best interest of our country. I trust as a Citizen I can be of continued service to every one. Again I thank you.

Five Terry Farmers Visit World's Fair

By Robt. H. Wood
Chicago Correspondent

W. P. Beard, Clyde Briley, Anton Hansen, W. M. Hill and Frank Swenson—visitors to A Century of Progress Exposition in Chicago will find the names of these Brownfield farmers on a plaque hanging on the south wall of the International Harvester's Farm Machinery Hall.

The list, headed "McCormick-Deering Horseless Farmers," includes the names of those American farmers who were pioneers in the field of complete farm motorization. The acreage of each model farm is listed also.

Farm Machinery Hall occupies the extreme north portion of the Agriculture and Foods Building, which extends along the shore of the north lagoon for 658 feet, one of the largest structures on Northernly Island.

Outside, on a plot of ground, the visitors are amazed to see an orchard tractor, equipped with rubber tires, moseying all about, turning here and there—without a visible human driver. The secret is radio. Inside a tiny bungalow garage nearby sits a radio operator who controls the machine. Perhaps the day is not distant, the visitor thinks, when we farmers will sit on the front porch during hot summer days and control our tractor and trailers with one hand while holding a cool glass of lemonade in the other.

Inside Farm Machinery Hall are tractors, trucks, a mower, cultivator, harvester-thresher, a corn picker, a replica of the first McCormick reaper invented in 1831 (surrounded by models of the grain cutting machines that succeeded it), a complete twine manufacturing unit, and five motion pictures.

But the star of the show is Susie (known socially as Lady Alken Ina Ormsby), a mechanical pure bred Holstein cow that "breathes", belows, swishes her tail nervously, flicks her ears and turns her head, blinks her eyes at city children who stare at her in wonder, and, most realistic of all, she chews a cud! When alive, Susie led a busy life in New York state, producing in her fourth year 18,460 pounds of milk in 305 days. Then a sculptor in search of a perfect cow, entered Susie's life, and she was never the same again, for after he made a clay model her exact size, Susie died very mysteriously. Though obviously grieved, the artist managed somehow to fit Susie's hide over the model. Now Lady Ormsby, properly immortalized, has nothing to do but await her daily ration of oil, and give "milk" hour after hour to demonstrate her automatic milking machine for exposition visitors.

Corner Drug Installs Own Cream Freezer

The Corner Drug Store has installed its own cream freezing system, the work having been completed last week-end, and is now in full operation. Five gallons of cream can be made at a time in the freezer, taking only three minutes to freeze it, but takes a while longer to harden it.

We understand that the temperature of the storage part of the refrigerator, where the cream is hardened, is at or below zero. This system gives the druggist or confectioner the choice of making his own flavors that best suits his customers, and too, he can buy his fruits or nuts from his home groceryman.

Clyde Gross of Lubbock, who helped to install the machine and storage, informed us that there was only two of them in Lubbock, and that Brownfield was the first of the other towns on the south plains to install one. The district engineer also informed us that Brownfield was the largest buyer on modern refrigeration this year on the south Plains.

New Dry Goods Store Coming to Brownfield

The Stephens Dry Goods store of Lubbock, has leased the Alexander building on the north side of the square, and will move a stock of goods into the building some time this month. Mr. Stephens says that he will put in a brand new stock here that will be full enough that they will be able to supply the trade generally.

Mr. Stephens is well known to most people in this city, as he lived here a number of years several years ago, and was in the dry goods business with Tom Cobb, now of the Cobb Dept. Store. While here he made many friends who will be pleased to know that he is returning here, not a person, but with a stock of goods. He will send another gentleman as manager, but we understand that all other employees will be local people.

The extensive manufacture of news print paper from southern pine will be undertaken in the near future.

Church of Christ Revival Under Way Here

Good crowds are attending the church of Christ revival being held under the City Tabernacle. Fair audiences are attending the day services. The preaching is being done by Jas. A. Fry, who will be located with the church permanently. The song services are under the direction of Dick Chisholm, and he is doing a good job of it.

Election Quiet But a Heavy Vote is Cast

While the primary election Saturday went off in a very quiet manner, there was a heavy vote cast, more than a hundred more than there was poll tax receipts issued, showing that many too old or young men on the "free list" took advantage of the occasion to cast their votes.

Senator Tom Connally stood way out from his two opponents. Tom Hunter carried the county for governor, Meadow giving him part of the big lead over Allred. Shepherd for comptroller and Lockhart for treasurer ran good in this county. In the much talked of congressional, J. A. (Sweede) Johnson carried Terry, the only county in the district that he carried. Sweede lives just over the line in Dawson, but trades at Brownfield. Mahon was the next high man. Judge Price carried this county for district judge by a big majority, but was defeated in the district.

In the county races, there will only be one runoff, in the County Clerk's race between W. A. Tittle and Rex Headstream, the present incumbent. R. A. Simms received a clear majority over his two opponents, and Sheriff Jess Smith running for his second term, beat his opponent, Arch Fowler almost two to one.

In the precinct races, apparently J. E. Shelton and Dutch Burnett will be in the runoff for Justice of Peace, and Leslie Green and R. G. Nutt for commissioner Precinct No. 1; E. L. Redford and G. W. Hanson were the two high men in No. 2; R. I. Cook was running for second term in No. 3, and had no opponent; the runoff in No. 4 will be between J. E. Eakin and Lee Lyon. In the four way race in No. 1, there was only 15 votes between the high and low man.

Here are the complete returns:
Governor: Hunter 689; Hughes 25; Russell 10; Small 315; McDonald 463 Allred 54; Witt 74.
Senator: Connally 1,231 Bailey 630; Fisher 95.

County chairman: R. M. Kendrick 1925.

Weigher, pre. 2: Carleton White, 196.

According to the latest vote we have in the congressional race Mahon had 19,248; Mullican 10,865; Duggan 9,983. We learn that Judge Mullican has decided to run it off with Mahon.

Grandma Lewis celebrated her 83 birthday Tuesday. She received many nice presents, and a great feed was provided by the children.

Remodeling Building For Hudgens Grocery

Carpenters began this week removing the petition under the Treadaway-Daniell Hospital for the new location of the Hudgens Grocer Co. The petition between the former Dee Elliott Barber Shop, and what used to be the Brownfield Cafe, is being removed, and modern plate glass front for the show windows will be installed. In fact, the whole building will be remodeled and brought up to date, and repainted. Plaster will be replaced where needed.

To Be Occupied By Grocery

Upon completion of the remodeling process, the building will be occupied by the Hudgens Grocery Co. The building will give them several hundred more feet of floor space and show windows will be greatly increased. They expect to be able to occupy the new quarters about the first of September. The second hand store and machine agency that has been in the building for the past several months, have moved to the Hankins building just east of the theatre.

Hardware To Spread Out

Hudgens & Knight, Hardware and Furniture department, will at that time occupy the building being vacated by the Hudgens Grocery Co., as well as the building they now occupy. This will give this growing firm a front footage of 50 feet instead of 25, and will permit them to give a much better display of their furniture department. The petition will be removed from these buildings also.

The Herald congratulates these firms in their progressive move and hopes that the time will soon come when they will have to enlarge their quarters again.

Sweede Johnson should move across the road into Terry county even if he has but an acre or two to put his house on. He was listed as a Dawson county man; they snowed him under. Terry gave him a majority.

From the way the people of Terry county who supported McDonald are lining up for Tom Hunter, we believe that they will do that throughout the state. We have so far failed to find one McDonald man that was for Allred.

West Texans can no longer say that east Texans will not vote for a west Texas candidate. Four west Texas candidates for governor, three of them living in the same town, just about got all the votes, and the north and central Texas candidates were snowed under. Then look what a vote Shepherd and Lockhart both got for Comptroller and Treasurer.

In a straw vote before the primary taken by the Snyder Times-Signal for governor, Jimmie Allred led the field with Tom Hunter second. But that paper asked the voters to give second choice, and Tom Hunter carried an almost two to one vote over Allred as second choice. Hunter will get 80 percent of McDonald votes, perhaps half of the Small votes and a big percent of the Witt and Hughes votes.

Ben Hurst sent us a copy of the Wellington Leader of recent date that contained 92 pages, being their silver anniversary edition. Ben asked us why we didn't get up one. Why Ben, you should know better? You know about half the firms here would faint or kick us out if we asked them for a quart page ad, much less a page. Yet, most Brownfield merchants are as good or better average small town merchant advertisers.

Everyone should be nice to the defeated candidates. All of them have a rather raw spot anyway from defeat and to rub in the salt on the raw spot, makes it worse. The defeated candidate has already lost some confidence in humanity, and is inclined to think about half the population are rather big liars, and he does not feel like being rayhided. Personally, we always feel sorry for the defeated candidate, and as soon rawhide a

child that has been whipped as to guy a defeated candidate.

The proposal of President Roosevelt to plant a weather break of trees through the plateau states sounds like something to us. Properly cared for trees would break the bitter winds of winter and the sandstorms of spring. We would have a different climate in the Panhandle. It might cause different distribution of rainfall, but that is all a guess. The last few years have shown that the chinese elms can thrive on the rainfall that we receive here, if the turf is kept down around them. Another reason for keeping the turf down is that the danger of fire is thereby obviated. We don't know what other trees would be suitable, but the dream of a great protective belt of trees from North to South in the Panhandle is a great and worthy one.—Ralls Banner.

In 1931 and 1932 some twenty million bales of cotton were raised in the United States. Most of that was a surplus and was piled up in warehouses as a heart-breaking burden for cotton farmers. In 1933, an able and far-seeing government saw ruin approaching for the cotton farmer, and the Cotton Reduction Campaign was instituted. The government said, "Anybody using that cotton that the farmer had to give up for half what it was worth can do so by paying four cents a pound. People are using the cotton and paying four cents a pound tax. The tax is being brought back to the cotton raisers and paid to them. They are not being given money raised from any other sources. Can you think of any reasonable way for a producer to get what his product is worth but for the consumer to pay it? Wheat reduction is being done the same way. The consumer pays the bill. But who else in the name of common sense should pay us for wheat but those who eat bread?—Ralls Banner.

IF WE HAD A HITLER

Nobody has ever questioned that a one-man government is much more efficient than a democratic one, in which the rule is spread among a large number. Think how much easier it would be right now if we had a Hitler in control at Washington. Instead of letting those old Republicans get together at Jackson, Mich., and have a love-feast and start making trouble again, an airplane could have dropped a bomb over the meeting—and the chief offenders could all have been destroyed in a single puff.

In a nation like ours even the minorities are supposed to have some rights—but minorities can be awfully troublesome. How simple it would be to send government agents around everywhere and put the question to everybody: "Are you on our side, or not?" If they were on the other side, they could be wiped out by some newly discovered death-ray, or transported to Death Valley and gassed.

General Johnson, instead of allowing the "dead cats" to clog up his NRA works might have converted them into fertilizer, to be distributed free to the tobacco or cotton planters and others. Thus at least they could have been turned to some account. "Rugged individuals," "Old Dealers," "chiselers," "10 per centers," and other obstructors could be gathered together and done away with, by some cheap and painless method. Hated bankers and financiers could be turned out on arid land somewhere and give the privilege of making his own living if they wanted to live, and their banks, etc., could be turned over to government men.

The Hitler method has many things to commend it. If it was applied in this country along the lines here suggested, it could get rid of that half of the people who are always making trouble, thus make the way clear for real reforms.

Bismarck, the "Iron man" who got Germany ready for the World War, once said: "Not by speeches and reso-

TEN REASONS WHY
There is usually only one reason why a man buys, but with a woman it might be any one of ten (so they say)—
1. Because her husband says she can't have it.
2. Because it will make her look thin.
3. Because it's on sale.
4. Because it comes from Paris.
5. Because her neighbors can't afford it.
6. Because she can't afford it.
7. Because nobody has one.
8. Because everybody has one.
9. Because it's different.
10. Because.
Dad: "Look here, my dear. I don't mind your sitting up late with that young man of yours, but I do object to him walking off with my morning papers!"

Tom's mother-in-law came to pay the family a short visit and she liked it so well that she stayed a whole year. She talked without let up from morning to night. At first Tom tried to get in a word edgewise, but finally he gave it up. After she had gone away, little Tommy said to his father: "Dad, what was it you started to say last spring?"

Indiscretion has ruined many a reputation.

A Kansas woman wanted a set of false teeth and wrote to a Topeka dentist thus: "My mouth is three inches across, five-eighths thru the jaw. Some hummocky on the aige, shaped somethin like a hoss shoe, toe forward. If you want me to be more particular, I'll have to come up thar."

MORE "AMOS" LESS "ANDY" NEEDED IN GOVERNMENT
One of the laugh-making gags of the famous "Amos 'n' Andy" radio team has been Andy's habit of going in for vast imaginative financial flights, in which he mutters, "One million, two million, five million," and so on in figuring impossible profits on some fantastic scheme.
Many present-day plans presented to long-suffering citizens and taxpayers by high-pressure politicians, are reminiscent of Andy. The public officials talk of one billion, five billion, or ten billion dollars without regard for the sources from which the money is to come. They issue bonds and hope that the public treasuries will be able to meet them when they fall due. Like Andy, they look forward to a rosy future in which dollars will grow on trees, and budget difficulties will be a thing of the past.
It is easy for those who hold comfortable governmental jobs, and are spending money that belongs to someone else, to figure in millions and billions. But the people, like Andy's creditors, are becoming skeptical. They know that political extravagance means that taxes must soar in the future—they are beginning to realize that means that business and individuals will have less money with which to build factories and homes and employ labor, and buy the articles commerce and agriculture must sell if they are to survive. They begin to understand that money is diverted from productive business when investors are afraid of extortionate taxes and hide their money in tax-free government bonds where it does nothing to keep the machinery of trade in motion.
Too many of us think of those billions as we think of the far planets—they seem to have nothing to do with us. We should think of them as barriers to employment, to industrial expansion, to recovery. It is a historical fact that excessively expensive government is the best ally of depression.—Ex.

taking applications for bale tags.

Mr. and Mrs. J. A. Bass of Dumas community were Sunday School visitors at Wellman last Sunday.

Mr. and Mrs. Maner and children were week-end visitors to the C. A. Wilhites. The Maners live in Lubbock. Little Lareta Joyce Maner remained to spend a week with them.

The work on our community gin is progressing nicely.

Remember there is singing every Sunday night at the Baptist church.

Forrester Items

Rev. A. D. Moore began a revival here Sunday night.

Mr. and Mrs. Charley Warren and family left Sunday for Wichita Falls, Texas and Duke, Okla., to visit relatives.

A good rain would certainly be appreciated. Crops are holding up very well, but if it doesn't rain soon, they won't stand much longer.

Several from here are attending the singing school at Lahey. Messers. Clyde Burleson and M. M. Meek are teaching the school.

Miss Sibyl Thomason is attending the Stamps-Baxter Normal at Lubbock.

Mr. and Mrs. M. C. Chambers and family, Mr. and Mrs. G. M. Thomason and daughter Sibyl, Mrs. A. C. Ragsdill and daughters, Hazel and Eulah Belle attended the Lubbock County Singing Convention at Slaton, Sunday.

WILD-EYED SCHEME

A few months of drouth and a wide area of the Middle West is burnt to a crisp. Grass dries up and blows away, cattle die off or are shipped out; humankind suffers and wonders what next.

A government official visits the area—the Dakotas, to be exact—gets an eyeful, and forthwith announces that these once-prosperous farming areas must be abandoned, the people moved en masse to other regions. Later, perhaps, this barren land can be seeded to grass and become in time suitable for grazing purposes.

Perhaps this official knows what he is talking about. Probably he has not exaggerated the severity of the drouth in the least. Drouths can do terrible things to land and peoples. But we should have to know how much experience he has had with drouth before we could accept his dictum that the whole population must be moved—at government expense, after selling their land to the government—to other regions. You can't fool us West Texans about a drouth. We have seen barren ground spring into full bloom almost overnight, following reviving rains. If some one should come along and suggest permanent abandonment of our rich and fertile acres just because a drouth had ruined crops, we'd probably ride him out of West Texas on a rail. We know the country will come back. It never fails.

This official's wild-eyed scheme to relieve a temporary condition by creating a permanent public debt is a sample of the sort of thinking we have been doing. It has just about come to the point where we can't take a good long breath without government aid.—Abilene News.

NEXT MONDAY IS TRADES DAY

Sam Davison of Meadow was in this week and informed us that he and some neighbors were at Kingville when the recent gulf storm hit the Texas coast. He says that many fields were covered with water and all the cotton destroyed. No use to go there to pick cotton he says.

Two of Mr. and Mrs. B. L. Thompson's sons were operated on at the local sanitarium last week; one for rupture and the other had his tonsils removed.

Mr. and Mrs. N. Johnson of Jarrell, and Mr. and Mrs. J. F. Dabbs, met at the home of their parents, Mr. and Mrs. W. F. Banks, for a reunion last Sunday.

Cas. Baldwin, of Lamesa, was over this week. He has a dry goods store in that city, and formerly ran one here.

Romie Stewart and family are here from Dallas, visiting his mother, Mrs. Tennie Stewart and family.

Mr. and Mrs. Joe Roberts Sr., and daughter, Miss Letha Nell of Coahoma, are visiting Mrs. Roberts' sister, Mrs. Stricklin Sr., and family.

Screw-worms normally live in the carcasses of dead animals. One of the most important steps in the elimination of this pest is to burn all dead animals.

CARD OF THANKS

We wish to express our heartfelt gratitude and thanks for the wonderful kindness and sympathy shown by our many friends and neighbors in our sadness and grief for our beloved son and brother, Barney. May God bless you all.

Mr. and Mrs. George Andrews.

J. H. Carpenter and family got in last week from a trip to Fannin county. He says that all the feed has burned up, and lots of them have about fed their burned corn to cattle that are starving. Water, too, is scarce, he says.

Rev. J. A. Gibson was through this week and reported that he had a wonderful revival at Andrews.

First Sailfish

Fishermen on the Texas Gulf coast for years have hunted for the elusive sailfish, which has made Florida's waters famous. It remained for a 15-year-old boy, Charles LaTurno of Harlingen, to bring in the first one. Charles landed this big denizen of the deep five miles off the coast from Port Isabel, 25 miles from Brownsville, Texas. (Texas News Photos.)

Plum Jelly in Three Steps

10:00 o'clock Squeeze juice, after simmering 10 min. ... 10:08 o'clock Add pectin and stir ... 10:10 o'clock Pour jelly quickly, paraffin hot jelly.

PLUM jelly, from fully ripe Damson plums, is one of the most delicious that can be made. Champion jelly makers, who win blue ribbons year after year at State Fairs, follow this recipe:

Ripe Plum Jelly
4 cups (2 lbs.) juice
7/8 cups (3/4 lbs.) sugar
1/2 bottle fruit pectin

To prepare juice, crush thoroughly 4 pounds fully ripe fruit. Do not peel or pit. Add 1 cup water. Bring to a boil, cover, and simmer 10 minutes. Place in jelly cloth or bag; squeeze out juice. Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1/2 minute. Remove from fire, skim, pour quickly. Paraffin hot jelly. Makes about 11 glasses (6 fluid ounces each.)

MARIE DRESSLER LOSES LONG BATTLE FOR LIFE

SANTA BARBARA, Calif., July 28.—Marie Dressler, veteran actress of the stage and screen, died today. She was 62 years old.

She succumbed to a long affliction with cancer, heart trouble and uremia.

Death came at 3:25 p. m. for the self styled "ugly duckling" who became a swan of laughter during a career replete with both hardships and glory. Under care of two physicians and several nurses, she died at the C. K. G. Billings estate where she went from Hollywood three months ago because of a physical breakdown. Hope for her recovery was abandoned some three weeks ago despite a store of vitality that surprised her physicians.

Diplomacy often arises from lack of courage.

GET'S 'EM TOLD

Stirred by growing tendency of his fellow townsmen to use the newspaper for everything but advertising, a South Dakota editor recently asked them pertinently in a page one box: "If a member of your family died, would you send out the obituary in a circular letter? If your wife en-

tertained, would you run a slide on the screen of the movie show? If you were to enlarge your store would you tell folks in a hotel register? If you were to have a wedding at your house would you tack the news on a telephone post? "Then why in heck don't you put your advertising in the newspaper, too?"—Minnesota Press.

RED GOOSE—THE OJIBWA INDIAN BOY

An Indian Story for Boys and Girls
By Carlyle Emery

Red Eagle, Red Goose, and Little Beaver put a hundred cowardly Blackfeet Indians to route by the simple trick of fighting twenty small bonfires. "They thought the whole Ojibwa Tribe surrounded them," said Red Eagle, "and we were but three." Now go on with the story.

"Will the Blackfeet come back?" asked Little Beaver. "No, Little Beaver," said Red Goose, "Blackfeet are cowards. They will not come back. They run—run—run—all the way home to Montana."

"Come! We will get horses." As Red Eagle spoke, he led the two children toward the Ojibwa horses, which were now huddled together again not far distant.

And so, very late that night, Red Eagle rode into his own camp and told his braves how three Ojibwas—one of them a girl—had outwitted a whole tribe of Blackfeet warriors.

But peace was not to remain long in the Ojibwa camp, for the very next day a scout warned Red Eagle that the Sioux were again on the war path, determined this time to drive the Ojibwas out of the territory, or to steal their hunting grounds, burn their teepees, and kill as many as possible.

When Red Eagle received this

New Comers Cannot Get Relief Work Here

Brownfield, Texas, July 25, 1934

To Whom It May Concern: The Terry County Board passed a resolution not to give any one work moving into Terry County in the past thirty days. There has been a number of people coming into the Administrators office making application for highway work. This is strictly against the rules and regulations of the Texas Relief Commission for any one to move from one county to another anticipating on work supplied by the relief office.

There is no two in the same family eligible for work or Direct Relief. We have had a number of single boys making applications for highway work. Any single boy who is supporting or helping support his family is eligible for the work, and I would appreciate it very much if those that are able financially to take care of their immediate needs at home, if they would not let their boys come down and make application.

We have made a few exceptions to the above, but have been criticized severely for doing so, therefore, I am not making any exceptions in the future. Those only eligible for relief will be given work, unless it is in the case of trucks.

From an ad in last week's paper, I noticed possibly some criticism on account of the work being shut down in Terry county. I would like to see the work continue without any shut downs, and I want the public to know that I am not responsible directly or indirectly for these shut downs. For instance, they stated the work was continued in Yoakum county, that is true enough, they had more funds than we did and continued three days longer than Terry county road work. In fact, 75 per cent of the counties in the west were shut down the past week on account of funds.

I would be glad for any one where there is a question in their mind as to why the work is shut down or discontinued, would take it up with Austin and not criticize the Administration at this place. I think we have had criticism enough, in fact, this is partly the cause of Terry county not getting any better cooperation than it has because numerous complaints have gone into the Commission.

We have a Grievance Committee in Terry county whom I would be glad when any one has a complaint to make would take it up with this committee; W. R. McDuffie, Charlie Moore, Roy Wingerd, Sam Murphy and F. M. Ellington.

I will be glad a all times to correct any mistake or error I might make, as I realize I am capable of making these mistakes, but not intentionally. If I have the cooperation of every one at large I want to assure you that I will do everything in my power to get all the funds that I possibly can for Terry county, but realizing with some knocking on the outside it is impossible sometimes to put everything over in an efficient way. Again soliciting every one's cooperation and assuring you that I have no ill feelings toward any one.

Yours very truly,
P. R. Cates,
Administrator, Terry County.

Prof. Lee Johnson, one of the teachers in the West Texas Teachers College at Canyon, was down last week visiting his parents, Mr. and Mrs. Sam B. Johnson of this city, and his brother. Wood and family of Johnson community.

Grandmoe Loe of Spur, is here visiting her daughter, Mrs. J. D. Williamson of this city, and her son, T. A. Loe of the Johnson community.

news, he frowned silently and then sent for his son.

"Red Goose," he said, "Bad Indians—called Nadowayasioox, which means poison snake, are again on the war path. They must not get near Ojibwa village without Ojibwa being warned. You are the true blade of your father, Red Eagle. Go now to mouth of lake many miles from here and watch for coming of Nadowayasioox. If they come, fly like deer back to Ojibwa village and warn your father."

Little Beaver was very much excited, too, when she learned Red Goose was going on such an important mission, and she begged to go along with him.

"No," said Red Goose, "Little Beaver is girl—not brave. Besides, only one can go in canoe. If more go, Sioux can catch us. If only one, I can bring word in time."

"I shall sing a song to Mainitou to keep you safe," answered Little Beaver soberly. "Good-bye, Red Goose."

"Good-bye, Little Beaver. Tell my father I have gone. Say Red Goose will not come back if he fails. Say Red Goose left in canoe singing war song."

And with this parting message, the brave Ojibwa boy pushed his canoe in the water and soon disappeared heading in the direction of the lake many miles away.

22 Million Fords Have Been Made

Dearborn, Mich., July.—Almost unnoted in the tide of production, the 22,000,000th Ford car rolled from the assembly line at the River Rouge plant of the Ford Motor Company on July 18.

Unlike some of its historic millionth-mark predecessors, the 22,000,000

Ford unit was not put on display or started on a country-wide tour, but went quietly along into the hands of some dealer for sale to the public.

The 10,000,000th and the 15,000,000 Ford cars were both Model T's. They left the assembly line respectively on June 4, 1924 and May 25, 1927. Of this model Ford built more than 15,000,000. The 20,000,000th car, a Model A, left the line April 14 1931. The 1,000,000th V-8 was turned out on June 20 this year and is now on display in the Drama of Transportation in the Ford Exhibition Building at the Century of Progress Exposition, Chicago.

More than half a million of the 22-

000,000 cars and trucks were produced in the first six months of this year, the total for that period being 536,637 cars and trucks, against 228,117 for the same period last year.

Loses His Bet

R. S. Brashears, publisher of the Childress Daily Index, Childress, Texas, issued the world's first "No-rain, No-pay" edition on July 17. The provisions were that if it did not rain by July 24, the advertisers owed nothing. If it rained half an inch, they paid the full advertising rate. The paper carried 1,300 inches of advertising, but it didn't rain, and Publisher Brashears didn't collect. The loser is pictured above. The paper also carried an ad from the postoffice. GEORGE MAHON FOR CONGRESS

We wish to thank the people of Terry county for the nice vote given George Mahon last Saturday in his race for Congress in this district and ask for their continued good will and support throughout August. Also wish to ask of those who did not support Mr. Mahon that they seriously consider his candidacy and give him their support and influence in the runoff.

We need a man to represent us in Congress who is not only honest, capable and courageous, but one who is close to the people and will at all times be a personal representative of the average man. We know George Mahon to be this kind of a man.

Vote for him, and work for him.

OUR 23 YEAR COLUMN

Preparations were well under way for the big free barbecue and old soldier's reunion on the 12th of August 1911. All old soldiers were to be taken care of free in the homes while attending the reunion. There was to be goat roping, trap shooting, dancing, talks by veterans, baseball games, etc.

Miss Gaster Randal was spending a week with her cousin, Miss Clara Randal on the farm in Lynn county. Lee Walker had returned from Fort Worth. W. D. Winn came in from Lubbock with a load of freight. The Brownfield Hardware Co. had installed a new cafe. Bob Ware and Temp Skinner were over from Tahoka. Tom May and the Hargett boys had been riding broncs. Edwin Groves was in with grapes for sale. Dr. Lewis and J. D. Woods, were down from Lubbock, hunting. Joe Beall was down from Meadow with melons. Wiley Bridges was showing some very fine Japanese millet. Earl Hill had been off pitching ball for the Emma team. Miss Montgomery of Midland was visiting Mrs. Murrell Adams. J. M. Caudle was tried for insanity, but was found not guilty.

Dee Brownfield and sister, Miss Effie, had returned from Georgetown where they had been attending Southwestern U. John Walker and family of Sheffield, Texas were visiting relatives here. Joe George Lubbock barber, was home with a case of typhoid fever. Will Arnett and family from Gaines county, were through here. J. D. Lindsey and L. Hardy, of Lubbock, were down to look at a herd of cattle. J. E. Glenn and A. S. Alexander, of Lubbock, passed through to look after their property in Gaines county. The church of Christ meeting was in progress at the Baptist church building. P. Smith, C. E. Barr, Dr. S. P. Rumph and J. E. Spencer of Cross Plains, were up prospecting.

A ten-day meeting by the Holliness was to start at Meadow on the 4th Sunday. Madie Brooks entertained her friends with a party on her third birthday. A party from Snyder were here prospecting. Aunt Lou DeShazo undoubtedly had one of the best if not the best gardens in Terry county, according to a column writup. Mrs. R. E. Cleveland of Wink, was up visiting her mother, Mrs. L. T. Brooks. Chas. Copeland and family were visiting in the Meadow country. Mrs. L. T. Brooks went to Lubbock to get some dental work done. All for this week.

A doctor was called to the bedside of a boy whose ailment completely baffled him. "Oh, do do something for him," exclaimed the mother, in anguish.

"Well," said the doctor. "I don't know exactly what it is he has, but I will give him some medicine that'll give him fits, and when it comes to curing fits, I'm the best doctor in the state."

Aid Promised Sod Farmers By Officials

By J. Sam Lewis
Avalanche-Journal Staff Writer

Definite assurance that new sod land farmers on the South Plains will receive consideration at the hands of the recently named Texas Allotment board to handle allocation of Texas' 10 per cent cotton acreage under the Bankhead bill, has come from members of the board.

A. M. Bourland, Vernon, farmer-business man and a member of the board, in a letter to the Avalanche-Journal gave his promise of aid. He said:

To Aid Problem
"It is my desire to be of the most possible service to Texas and especially to West Texas, and when we get our organization perfected I will be more than glad to help you people in any way that I can, as I realize that you have a peculiar situation and it will require a great deal of time and thought to work out your problem."
"It is the purpose of our setup to see that all get as near as possible their part of the tax-free cotton."
Former W. T. C. C. Leader

Mr. Bourland was for many years identified with the West Texas Chamber of Commerce. He was at one time president and for some months in 1929 and 1930 acted both as manager and president, following the resignation of Homer D. Wade as manager. He is an extensive landowner and actual farmer, as well as a business man.

E. R. Eudaley, College Station, an expert for the board and right-hand man to O. B. Martin, in charge of all extension work in Texas and the agent of the U. S. secretary of agriculture, also assured farmers of his desire to help. "I am sure that we will give these fellows every consideration," he said in a letter to the farm edition.

All Applications Must Be In
"You probably know that farmers who have cotton this year for the first time, or last year, for the first time, get their allotment from the state's 10 per cent reserve," he added. "This allotment cannot be made, however, until all applications are in from the entire state of Texas. Therefore, we will have plenty of time to consider your suggestions."

Besides Mr. Bourland, R. M. Hubbard, New Boston, and John Gorham, Waco, comprise the board with Mr. Eudaley and J. A. Osborn, a county agent from DeWitt county.

It is expected that within a few weeks one or more members of the board will visit this section to personally inspect conditions in the sod

land area.

Figures Presented
Figures were presented the board showing that between 1,000 and 1,200 or more sod land farms were sold or contracted to be sold from July 1 last year to March 1, and that over 150,000 acres of sod was, to be turned under this year. Between 35 and 40 percent of this area was to be planted to cotton.

As far as is known here, this is the largest acreage of new land to be placed in cultivation in Texas or the Southwest, this year. Most of the acreage is in Bailey, Cochran, Hockley, Lamb, Terry, Gaines, Lynn and Lubbock counties. In no other section of Texas with the exception of the Corpus Christi area has any appreciable acreage of the new and been sold or placed in cultivation.
O. B. Martin, designated by Secretary Wallace to handle all government programs in Texas relating to agriculture, placed the South Plains situation before H. H. Williamson, vice-director. The latter also gave assurance that every consideration would be given this section.

"QUALITY MERCHANDISE"

INFANTILE PARALYSIS BAD IN SUMMER

Austin, Texas.—Dr. John W. Brown, State Health Officer, states that infantile paralysis, like typhoid fever and bowel disturbance of infants, is largely a summer disease. Although many cases may occur during any month of the year, over half the total number come in July, August, September and October. To date, 41 cases of poliomyelitis have been reported to the Texas State Department of Health in 1934.

Direct contact between persons is regarded as being the chief factor in the spread of infantile paralysis. Because of the seasonal prevalence of the disease, flies and other insects have been suspected of conveying the virus or germ. Insect transmission has not, however, been demonstrated. Although animals are subject to paralysis, they are seemingly not susceptible to the human type of this paralytic disease. Carriers are difficult to determine; this fact makes advisable the reduction to a minimum, of human contact during an outbreak.

Early symptoms of infantile paralysis comprise headache, fever, vomiting, bowel disorder, drowsiness and irritability, followed by back or neck stiffness. Prompt medical care, early recognition and reporting of cases,

make possible the use of valuable preventative and control measures.

After the acute state of the disease has passed and walking is finally permitted the patient, under no circumstances must the affected part be fatigued. It is thus observed that the secret of a successful rehabilitation lies in continuance of professional guidance and large doses of patience.

Mr. and Mrs. Arthur Sawyer write in that they are having a wonderful time on their trip. The Dakotas, Colorado, Utah, Oregon, California and Arizona will be visited on the trip.

Hugh Hulse and J. E. Eakin were in this week looking for lights for the Lahey school house as they are having a singing school there this week.

SOME POETRY

Pierce Egan, who does "Static Rimes" for the San Diego, California Progress-Journal, is responsible for this:

Again the roar of the noisy press, the click of the linotype, the lingering smell of printer's ink, the smoke from the trusty pipe, as I hunt and peck on the old machine to type the daily news, some of it good, some of it bad, some not fit to use—a picture of life on its great parade of time as it marches by, sometimes gay, sometimes sad, even as you and I; this newspaper life creeps in the blood, I feel it in every vein; I tried a hundred times to quit—and always come back again; I hope when the last edition is out for me, and my day is done I still may write my "Static Rimes" and cover the same old run; then, may I ask if it please the court to banish all distress, let me hear the click of the linotype and the roar of the noisy press.—American Press.
