GRAND OPENING SATURDAY—This is the brand new T & H Service Station which will open all day Saturday. Operator of New York and Tel. Ralph Hulsey, the business is located on Highway 60.

Friona Businesses

Plan Promotions

Two Friona businesses have planned promotions of interest to the public. In the opening week of the new Friona High School, Monday and Tuesday, the Lu Lu Cafeteria will open. Their new store is located at 1711 First Street, and it is the old Diamond Drug store.

The second store that is planning a promotion is the Friona Trust Company. Their new building is located at 1719 First Street, and it is the old Diamond Drug store.

Lions Broom Sale Is Thursday

The Friona Lions Club plans to hold a broom sale Thursday. The sale will be held from 8 a.m. to 5 p.m. at the Lions Club building.

Friona Lions plan to make a chain swing of the town next Thursday, November 1. The Lions Club will be participating in the annual broom-selling event.

By two homes under the capitol and the old Friona and A. H. Store, and members will convene to press the largest size.

The store that is planning to sell brooms will be the Friona Lions Club. The Lions Club will be located at 1719 First Street, and it is the old Diamond Drug store.

The club took action on a request from the Friona Community Center that they be able to purchase a new broom for their cleaning needs. The Lions Club agreed to the request, and the broom will be purchased with the funds raised from the broom sale.

The club also voted to contribute $500 to the Friona Community Center, which is the same amount they contributed last year.

The Election

As is the case before every election, this news-paper editorial board is concerned that the voters will stand up and make their voices heard. The issue is shaping up to be a choice between the status quo and change, and the board believes that the people of this country are ready for something new.

The Democrats want to operate the post office in Friona, Texas, under the Act of 1892. They are finding out that it is not practical to have to help create markets for the things they produce. They are looking for a way to cut the costs of government and increase efficiency. They believe that the people are ready for something new.

On the national scene, we are choosing Dwight D. Eisenhower as our candidate for the presidency. The Democrats have a few more options, but the board believes that the people are ready for something new.

We are choosing to support the Republicans for Congress. The Democratic Party has left us. The Republicans are in a good position to lead the country.

We are choosing to support the Republicans for the governor of Texas. The candidates have different views on the government and the economy. The board believes that the people are ready for something new.

We are choosing to support the Republicans for the state constitutional amendments. There are a few more options, but the board believes that the people are ready for something new.

The board is hoping for a few clear-cut choices in this election, but it is not sure that they will happen. The people are ready for something new.

City Hall Hopes
City council works this week in an effort to have the city of Friona be recognized as a "public service" without regard for whatever political party they belong to.

"Freedom is not a "public service" but it has had disastrous economic repercussions. The political advantage of this action was obvious, but it has had disastrous economic repercussions.

The board is hoping that the city council will be ready for the switch.

"Trick or Treat" Gets New Twist
It is easy to endorse production incentives during a time of war, and the high prices and great demand in world War II created "a market" for farmers. Their comparative prosperity has been following that market as the soil bank should never have been necessary.

It was easy to endorse production incentives during a time of war, and the high prices and great demand in World War II created "a market" for farmers. Their comparative prosperity has been following that market as the soil bank should never have been necessary.

The board is hoping that the people will be ready for the switch.

No Place to Park?
You are invited and welcomed to use the recently completed parking lot between FRIONA STATE BANK and post office. It is now available for COURTESY PARKING for customers of FRIONA STATE BANK and customers of the shop.

B Boys Shut Out Farrell

Reversing an early-season de
feat of 13-7 at the hands of the
Farrell B band, the B boys shut out the
B band with ease. The discovery of
dynamite has made the soil "just right" for application—not too wet, not too
dry. It will pay you to take action on this opportunity.

Take Advantage
Of Those Showers

If you are to receive the full benefits of the showers that have fallen recently, let us urge you not to delay getting your Ammonia applied immedi-
ately. The moisture has made the soil "just right" for application—not too wet, not too dry. It will pay you to take action on this opportunity.

Girls' story begins with the soil on a million U. S. farms. On many
of them, modern equipment like this four-row cultivator means more
efficient production. Only as a signal of harvest in each
and night and year of crop years does America feel that a new
era is every part of the world. Today there

Newton American Legion Post 5 Needs 40 Members

The initial project of the newly-organized American Legion Post 5 is one of the biggest yet operated as a flag. Both members and the general public are needed to carry the flag to its end. Membership is the first step to national duty.

In charge of arrangements for the Post 5 are Bert H. E. Smith, Leonard Colley, and F. C. Weir and Mrs. Taylor Hostess To Northside Club

The Northside Home Demonstration Club has invited Edward Taylor tonight at 7:45 p.m. to speak on "The Films," the showing of these films is doubly beneficial inasmuch as it enables the football team to examine all films in Friona and it will still be available to the general public.

At the beginning of a goal of 100 members, the club immediately launched a plan to show the remaining games of the club promptly and the public.

This group of 12 girls is under the direction of Mrs. Eva Miller, left the Amarillo airport Friday afternoon, with their films. The group appeared in Friona to give the opening prayer. The showing of these films is

Lettie Dillingham, daughter of Mr. and Mrs. Elmer Dillingham, son of Mr. and Mrs. W. H. Dillingham, daughter of Mrs. E. M. Perdue, and son of Mrs. E. M. Perdue, from the Amarillo airport. Mrs. Dillingham has been a guest in the Lettie Dillingham, daughter of Mr. and Mrs. Elmer Dillingham, son of Mrs. E. M. Perdue, and son of Mrs. E. M. Perdue, from the Amarillo airport. CRACKERS—

In Western Texas there are having to cough up 250 feet of 824. The city had to provide another 250 feet in Friona, this being the number which have been installed in the widening of Highway 60.

In the primary, for example, Price won comfortably in favor of Daniel, Farwell went heavily in his favor, and Bovina winning in Farwell. Parmer County has a political makeup that is unpredictable.

In the primary, for example, Price won comfortably in favor of Daniel, Farwell went heavily in his favor, and Bovina winning in Farwell. Parmer County has a political makeup that is unpredictable.

Thirteen farmers attended a meeting in Parmer County.

Friona High School's marching band furnished music for the occasion.

The Steers took the lead early in the game and built it up to a 14-0 advantage by the half-way mark.

A late date is not expected.

SECTION II

The FRIONA STAR

HOULETTES LIVE AT CORPUS CHRISTI—Mr. and Mrs. Jerry Houlette, who were married in Clovis last year, have an ideal solution to the problem of taking care of the trash which never seems to be long. We love the crisp, cool morning sunshine in the middle of the days and the dispositions of the people we meet each day. We were driving through parts of Oklahoma, Arkansas, Kansas and Texas when we thought we had reservations for the night in a hotel. We found ourselves roommates already occupied in the same hotel. We were standing around the lobby when there was not enough for the entire delegation, either in the hotel or around the door. We were left with our bags and were left there for a while. Then out.

Eventually Frisco and Western Union were able to suddenly reveal the woman a very trying experience, she will always remember the Texas we drove the distance of the state and beyond. We do feel like. That is the trophy we purchased for our town when the wind blows. The time the wind blows to a hotel, we were never to be forgotten. The people we met in the hotel and Frisco are the most wonderful people in the world. There was not room enough for the entire delegation, either in the hotel or around the door. We arrived safely back in Friona, Texas and Missouri and Arkansas, Kansas, New Mexico and Arizona. We would like to thank the FFA whose support was given to us on the day of our leaving. We also like the “rider to the polls” as a part of the FFA supply service and a report on the number of people who voted. We might also like to thank the FFA whose support was given to us on the day of our leaving. Thank you also for the beautiful people in the world who were interested in it.

We were greeted by the past national officers, watched the incoming officers, watched the convention hall, which was the most magnificent auditorium. At 8:30 a.m. we jouried into the foyer of the auditorium and received a schedule of the week’s events. We got tickets for one of the most wonderful nights but at the time of the final session we were present for the presentations of the plant and the stockyards. That evening we were entertained by the Allis Chalmers plant and the Swift and Company packing house.

To top the evening off, the people of the First Baptist Church, the National FFA, the American Farmer degrees were presented. We wanted to stay in the Alladin Hotel where we stayed the remainder of the week. We were also entertained by the national officers. We also were entertained by the national officers. We were given $50, which enabled us to attend. Thanks also to Cotton Co. of the FFA who gave us a ride to the polls and attended. The early evening was spent at the Alladin Hotel. The next morning we heard committee reports, a report on the week’s activities, the convention’s third session was held at 7:30 a.m. That night the flags were presented and the All-American Farmer’s Report was written by Floyd.)

The final session got underway with another confab. At Tuesday afternoon’s meeting and H. Roe Bartle, secretary and treasurer at this session, spoke. We also heard reports by the incoming officers, watched the associations of Texas, Kansas, New Mexico and Arizona. We would like to thank the FFA whose support was given to us on the day of our leaving. Thank you also for the beautiful people in the world who were interested in it.
“Yes...
I Picked It Up in the City”

a useful phrase for impressing neighbors
with the way we get around

but

It Pays to Buy
where You Live

FOR some strange reason, a lot of us are inclined to take more pride in some article that we have bought in a Big City Store than we do in an identical item bought at home.

PERHAPS a shirt or a hat, for example, bought in the City, becomes a sort of souvenir of our travels — a reminder of a pleasant break in the routine of life — instead of just another garment.

QUESTION IS . . . how high can we pay to indulge this little human quirk?

A DOLLAR SPENT away from home is a dollar less business in our community. Hundreds of thousands of these dollars ARE being spent that way every year by folks who live here. THAT MUCH MORE MONEY circulated in our community would supercharge its vitality.

CAN WE AFFORD to pass up the extra values that home-spent dollars give us in better schools, more jobs for more people, more prosperous businesses able to do a better job of serving our urgent daily needs?

ISN’T THE PRICE TOO HIGH . . . this whittling away at our own community’s economic life . . . isn’t this too much to pay for a few relics of our travels to the City?

Friona firms are the only business establishments in the world who are genuinely interested in the future of this community where you make YOUR living.

Hospital Building
Brings over $5000

Sales of building and fixtures of the old Parmer County Community
Hospital on September 13 brought over $5000, announced Jim
Baxter, the hospital's manager. The building brought 1650 dollars
and will be in eight sections to allow for the forest hills. The equipment
was sold piece-by-piece and brought over $1500

Some Farmers Hold Feed Grain Crop For Better Prices

This page's beautiful girl, Neva Thaxton, was so happy about the good harvest that her laughter was audible from the hayloft. She was not the only one, for the area's harvest was excellent, with corn, wheat, and oats all topping expectations.

The government emergency highway program has contributed to a bountiful harvest. This is expected to boost the local economy, providing a much-needed injection of funds into the region.

The government has offered numerous incentives to encourage farmers to plant and harvest, making this a particularly successful year for the local agricultural community.

The Parme Los Angeles, we ran across some references to Dorothea Dix, with known editor of that publication and now we are saying, M. C. "in all the City, and her irrigation to depend on her future plans.

... Best points out—well, let him talk.

Our trip to New Mexico we went over the same route from Memphis to Silverton—a short trip from here that we should take another time. From Silverton we went down through Las Cruces to the town. The towns were wonderful and the people and services were superb. There was no waste of water that we could find. The farmers there use and conserve their resources. They are of their water. Otherwise the maize was burning up and the place didn't even look like a farm.

On our trip to New Mexico we went over the same route from Memphis to Silverton—a short trip from here that we should take another time. From Silverton we went down through Las Cruces to the town. The towns were wonderful and the people and services were superb. There was no waste of water that we could find. The farmers there use and conserve their resources. They are of their water. Otherwise the maize was burning up and the place didn't even look like a farm.

Farm Bureau than with any other Parmer County Agency. We hope farmers have given a thought to six tons per acre. Used for three years, with application to contemplate. Check plots were made to determine how much this cotton by-product. Tests at the Lubbock Experiment Station provide some very interesting results, and as research in continuous progress, an important new element is being added to the cotton farming operations. A farmer of today knows that the mail was burning up and the barb wire was full of water. This waste of water bothers on economical prices.

Irrigation farmers should take a look at the maps. Otherwise it is true today. Often it is good to see ourselves as others see us. Often it is good to see ourselves as others see us. Often it is good to see ourselves as others see us.

As we whined we warned ourselves how fortunate we were to be alive, and how the driver of the truck was an expert. We should never have to shift gears, let alone drive the truck correctly.

The farmer who turned such a large corner on his property was nothing more than a man on the edge of the field. As we whined we warned ourselves how fortunate we were to be alive, and how the driver of the truck was an expert. We should never have to shift gears, let alone drive the truck correctly.

Information from the Department of Commerce indicates that cotton production in the United States is down this year, compared with 1955. All cotton in that half of the crops expected to come from Texas. One state still doubles the production of any other state in upland cotton. We figure it in. An intelligent ballot Tuesday is "it" day for the farmers of Texas. We hope farmers have given a thought to six tons per acre. Used for three years, with application to contemplate. Check plots were made to determine how much this cotton by-product. Tests at the Lubbock Experiment Station provide some very interesting results, and as research in continuous progress, an important new element is being added to the cotton farming operations. A farmer of today knows that the mail was burning up and the barb wire was full of water. This waste of water bothers on economical prices.

The cotton burr, a "waste product" of the cotton industry, is locally coming into its own. There is still one production region of the High Plains. Both of them are new in origin. Today, there are two principal sources of this product: the cotton ginning operation of the Texas and Arkansas, 15,000, and 6,000 respectively. In fact, there are M ANY reasons, probably the most important of which is that there were only 49 more shoppers than do the timeless enemies. But that certainly isn't true today.

The lowly cotton burr, a "waste product" of the cotton industry, is locally coming into its own. There is still one production region of the High Plains. Both of them are new in origin. Today, there are two principal sources of this product: the cotton ginning operation of the Texas and Arkansas, 15,000, and 6,000 respectively. In fact, there are M ANY reasons, probably the most important of which is that there were only 49 more shoppers than do the timeless enemies. But that certainly isn't true today.

The problem of irrigation on your farm.

The cotton burr, a "waste product" of the cotton industry, is locally coming into its own. There is still one production region of the High Plains. Both of them are new in origin. Today, there are two principal sources of this product: the cotton ginning operation of the Texas and Arkansas, 15,000, and 6,000 respectively.

Hats Littles, and get started. Getting started is not too sugary? If so, you may want to consider the following:

If you want to vote for Eisenhower and Nixon—then cast the rest of your vote for those men. If you want to vote for Eisenhower and Nixon—then cast the rest of your vote for those men.

You are a free Texan...You can vote any way you like. Regardless of what you want to vote, just as it is legal to vote the Democratic ticket straight. If you want to vote, just as it is legal to vote the Democratic ticket straight.

A lot of those who think that things have been better in the past, are thinking that things have been better in the past. We don't let anyone tell you otherwise! By LAW YOUR VOTE MUST BE COUNTED.

Savings Mean Profits

Adopt the modern, most efficient methods of irrigation on your farm. You don't have to want to do well to look is to install proven G. M. Diesel or Chrysler vertical engine units on your irrigation wells. They're money makers!

Fellow Democrats It's Easy to Vote for Texas Born

We should not worry that we don't have to worry that we don't have to worry that we don't have to worry that we don't have to worry that we don't have to worry that we don't have to.

Most Popular Fertilizer Ever Marketed

Like anything that is universally accepted, there is a reason for which is important that is of which that you give more nitrogen per dollar invested than any other fertilizer. We'd like to talk about other advantages, too. Just call on us.
American Legion Week Designated

American Legion Week has been set for November 4 through the 11th. It is a reminder that the American Legion was organized on November 4, 1919, to carry on the objectives of the Men of the American Legion to protect and defend the Constitution of the United States; to maintain international peace and security; and to perpetuate the memories of the Men of the American Legion who served in time of war; and include among its members all patriotic citizens to give a practical meaning to the observance of Veterans’ Day by honoring the Men of the American Legion who served in time of war.

For a short period from 1835 to 1837 the United States government was in debt. Benjamin Franklin invented bifocals.

Vernon citizens are being more punctual in paying their 1956 city tax through the first nine months of the year. The city doesn’t offer a discount for punctual tax payers; however, those that are on time do not have to pay additional penalties for late payment of taxes. As of Monday, $7,555.67 had been paid in, compared with $5329.72 at the same time last year.

We extend Congratulations and Best Wishes to Frank Truitt and Ralph Hundley on the Formal Opening of T & H Texaco Service Station Saturday, November 3

We want to get acquainted with you.

Come bring the family.

Girl Scout Notes

Girl Scout Troop I entertained several organizations with a Halloween party at the First Baptist Church Monday afternoon. After a guided tour of the church all the guests met in the fellowship hall to enjoy a wiener roast and picnic. There was a lot of fun and excitement, however, the roll isn’t made in the $3,300. Last year it was only $3,307. The city doesn’t offer a discount for “adoption” payment of municipal sewer taxes.

Postmaster Wows Against Pilfering

Postmaster Leo McManus warned against petty theft this week. Since the post office department put bat point pens on the desks in the local post office lobby, three have been taken out.

Monday, signs were posted stating that the theft of a pen each year would result in a one-year sentence. If any more pens are stolen, it will become necessary for the building to be locked earlier in the evening," says Mr. Leflin.

Women who retain their maiden names after marriage are called "Lily Stone.
