Land of Wooden Shoes at New Fair

Windmills, dikes and canals of the Netherlands will be reproduced in this Dutch village of the new World's Fair which opens in Chicago May 26. It is one of fifteen "foreign villages" which will offer the visitor a "tour of the world" in a single day. The new Fair will have 84 miles of free exhibits. Music, fireworks, free public spectacles and free entertainment will be attractive features. Cost to visitors will be less than last year, when the average visitor spent only \$1.17 a day inside the grounds. Chicago's beautiful June weather makes that month an opportune time to visit the entirely completed Fair and see it while it is fresh.

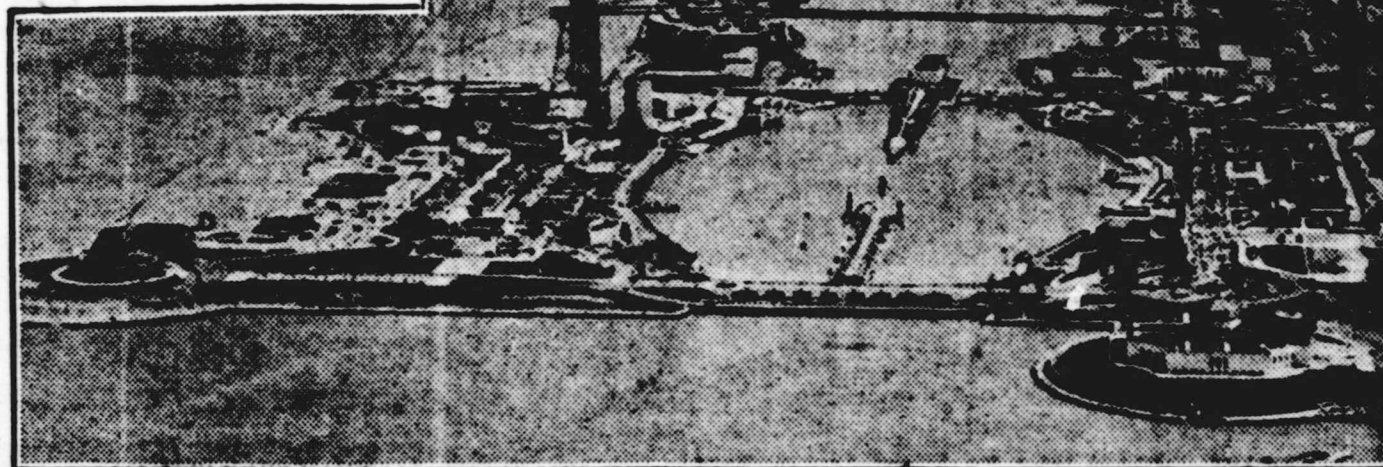

Midgets Hobnob With Lofty Towers at Fair

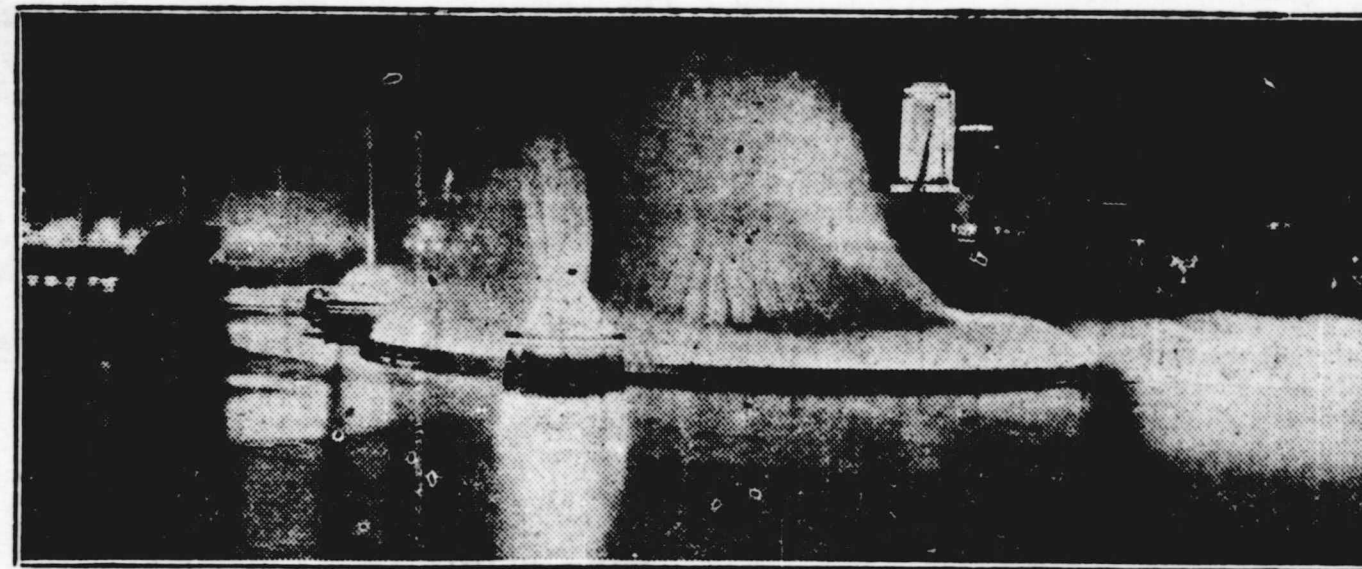

Dancing on the green is a daily feature of Merrie England, one of the 15 foreign villages in Chicago World's Fair which offer visitors a "tour of the world." Inset: Some of the world's tiniest people, on view at the Fair's Midget City.

A Century of Progress Closes Forever Oct. 31

This is the airman's view of the World's Fair in Chicago which, having broken all attendance records for international expositions in America, will close its gates for all time at midnight Oct. 31. The striking buildings, gay theaters and cafes, quaint foreign villages, lively Midway and miraculous exhibits will fall under the blows of the wrecker's axe and the most spectacular of all Fairs will live only in memory. The Fair will remain intact until closing day.

World's Largest Fountain Will End With World's Fair

A gleaming centerpiece for the millions of sparkling jewels that fill the night of A Century of Progress in Chicago is the circle of the great fountain, shown here. This spectacle, which has provided a thrill for millions of visitors from every corner of the earth, will be destroyed along with the rest of the exposition when the Fair closes its gates forever at midnight Oct. 31. Spectacular events, more colorful than any yet seen at the Fair, will fill the calendar for the final weeks, when America rushes for one last look at the nation's most successful international exposition. The Fair will remain intact until closing day.

Control Plans Favored By Nation's Farmers

KANSAS CITY, Sept. 14—Uncle Sam had the assurance today of farm leaders that the agricultural middle and southwest favor the continuance of a program to control corn and hog production.

A group of about 300 corn-hog farmers, extension agents and county farm agents from Missouri, Kansas, Iowa, Nebraska, Oklahoma, Arkansas and Texas adopted a resolution at regional Meeting here yesterday calling on the government to continue the program.

Subjects To Approval
The resolution was made subject

to the approval of farmers who are to be polled in a referendum in October. It was felt, however, the resolution expressed the sentiments of most of the farmers, leaders said.

If recommending a decrease in hog benefits and an increase in those for corn, the resolution placed emphasis on corn reduction.

The resolution also asked that farmers be permitted to raise 80 to 85 percent of their hog base, established on the basis of 1932-33 production, instead of 75 per cent as last year, and that they be allowed to raise their corn base from 75 to 90 per cent.

Dennis Rentfro left this week for Cross Roads, N. M., where he will work on the ranch for Mr. and Mrs. Ulyess Sawyer.

HOTEL TO BE CONSTRUCTED AT LEHMAN

Construction of a hotel at Lehman will be started at once the project to be completed within 30 days.

The hostelry will be built and managed by Mr. and Mrs. W. E. Cox of that city. It will afford quarters for oil workers in extension of oil test for production underway in that section—Littlefield Leader.

Corn Being Harvested —Tech Buying Some

Hundreds of acres of corn that will not produce a large crop, but which have good stands of stalks are being harvested and the stalks banded and sold for fodder.

The corn is being cut green and is bringing about eight cents a bundle. Many trucks are coming from other counties and the bundles are being bought and trucked back to farms.

The department of animal husbandry of Texas Tech at Lubbock is purchasing a considerable tonnage here for use in filling the silo at the college. The corn for Tech is coming from around Meadow and is bringing \$7 a ton. A total of 120 tons is expected to be purchased for the college.

While in and out of the various stores this week, we noticed Mr. and Mrs. Clarence Lewis were greeting their friends at Stephens-Latham dry goods.

OUR 23 YEAR COLUMN

Gomez News in the issue of Sept. 22, 1911: Protracted meeting season seemed to be over. Four were held during the summer. Merlin Adams, Will Snodgrass and Gene Webber had moved their families in for school purposes. Gene Webber had gone to Kansas City with cattle. Rev. J. C. Lewis and Mr. Whisenant had attended the Primitive Baptist association at Tulia. Presiding Elder Terry visited in the home of Dr. Maddux. Jessie Caudle and family moved to Lovington, N. M. The youngsters were picking cotton for Will Black. Ben Hurst was moving the cattle back to his ranch. Geo. Bragg was on his bonus in Yoakum county. Miss Bertie Shepherd had entered school at Belton. Mrs. George and son and daughter, Joe and Miss Addie were visiting in Spur and Anson. Mrs. Melcher of Jewett, who had been visiting her brother, W. A. Fulton, had returned home.

Primrose: Some additional good showers had fallen. Fourteen pupils were attending school. Methodist meeting at Meadow closed with seven additions. Carrol Ware was taking charge of the Meadow postoffice as Henry Pulliam had resigned to return to Mississippi. Arch Fowler had received the sad message that his mother was dying. Mr. and Mrs. Farris were moving to Lubbock for school benefits.

Percy Spencer had moved his law office to the Brownfield State Bank, and had carried with him Phone No. 1. The Herald got the number back when Percy moved to Lubbock. M. V. Brownfield had business in Austin. Judge Spencer was holding court at Tahoka. Dee Brownfield was bookkeeper at the Merc. J. A. (Polly) Perrot, lightning rod man of Plainview, was in town. Geo. and Will Black and W. A. Fulton were in for dental work. C. A. McDaniel had returned from Roswell where he had been to help move W. R. Harris, with a load of apples and honey. Dr. Ellis was called to the A. C. Copeland farm to set a broken arm of one of

the boys that had been thrown from a horse. Miss Nettie Sawyer and brother Arthur, went to Albuquerque, N. M., where they entered school Sam C. Wilks and Sons had delivered 700 head of cattle at the Wolfarth ranch in Terry county from the Wilks ranch in Garza county. J. A. O'Neal, T. C. Greenhill and W. T. Cox, business men of Lubbock, were here on business. Dock Powell was visiting relatives in Shreveport, La. Miss Gaster Randal had re-entered school at Seymour, Tex. The South Plains Baptist Association was officially changed to Brownfield Baptist Association, and included six counties. Dr. J. B. Hall of Plainview, was here doing dental work.

Judge H. A. Spencer of Lubbock, and J. Q. Hanna, importer of Galveston, came in on their way to Sligo, to look at a 30 section ranch. Yoakum county was to hold a fair at Plains, Oct. 3-4th. The Methodist meeting was to start the 1st Sunday in October with Rev. J. B. Cadwell of Baylor county doing the preaching. The Brownfield school faculty consisted of Tom F. Hunter, principal, 9th and 10th grades; W. G. Hardin, 7th and 8th; Miss Clara Randal, 4th, 5th and 6th; Miss Deane Lowe, 1st, 2nd and 3rd grades; Mrs. Elmer Spurgeon, music; Miss Ponder Hutcheson, elocution. H. T. Brooks, J. F. Winston and J. C. Green were the trustees. All for this week.

SOMEBODY BLUNDERED

Study of the statistics reveals that a majority of the 756,500 automobile accidents in the United States in 1933 occurred on straight, dry roads in clear weather, and involved cars in good condition driven by persons with a year or more of experience. Over 75 per cent of these drivers were persons of mature age—from 25 to 64. The majority of the 30,000 deaths and 850,000 injuries must be attributed to blunders.

A recent analysis by the National Bureau of Casualty and Surety Underwriters shows what the blunders were. There are eight in all.

- 1. Drove too fast for conditions—this accounted for approximately three-fourths of all mishaps in 1933 assigned to driving blunders.
 - 2. Failed to slow down at intersections.
 - 3. Failed to keep to the right.
 - 4. Tried to pass another car going in the same direction when view was obstructed.
 - 5. Failed to slow down on approaching pedestrians.
 - 6. Passed on the right of a preceding vehicle.
 - 7. Ignored important traffic control devices.
 - 8. Parked at dangerous spots.
- If drivers will obey the eight common sense rules suggested by these violations, the annual accident record can be reduced to a negligible figure.—Clarendon News.

Bill Crowder says he disagrees with the estimate of 20,000 bales for Terry county in last week's Herald. So do we, but T. I. Brown, local cotton buyer, who has always got very close to it early in the season, says we will get over 15,000 bales. He says the crop is turning out better than was first expected. Something like 100 bales a day are being ginned at Meadow and Brownfield each. The Meadow gins are running nights.

J. C. Bond, we are sorry to report, is down with pneumonia at his home in Post. Bill Ingram is running the Post-Brownfield bus and mail line in his stead.

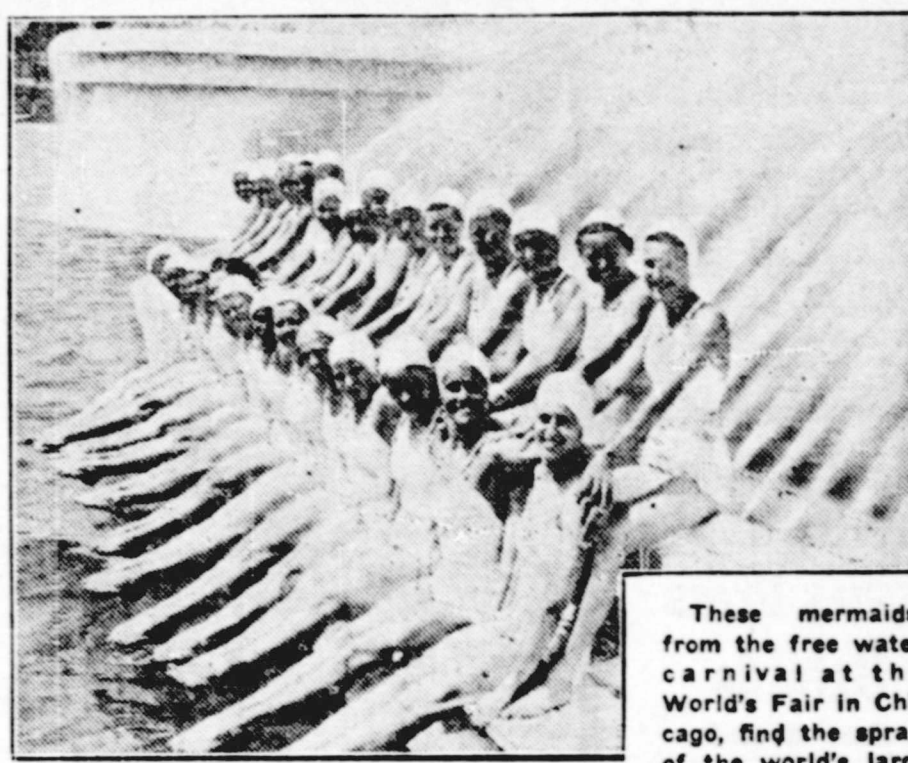

We understand that Grover McMakin is endeavoring to get a permit to extend his bus lines on from Seminole to Odessa.

Children Like Their "Private Fair"

It took a wash-tub of spaghetti to feed Mr. and Mrs. Mike Latorra and their nineteen children, who, after a nation-wide search, were selected as the largest and healthiest Italian family in the United States and were given a trip to the Fair by the Italian Village. The Fair closes forever October 31.

Lily Pad Raft at World's Fair

Nature provided this raft, a water platter known as the Amazon lily in the Horticulture gardens of the World's Fair in Chicago. It provides more than ample support for six-year-old Jane Haslip. Even these beautiful gardens will be torn up when the Fair closes forever Oct. 31.

Author, Mimic Ridiculous

"To imitate another is a flattery," said Hi Ho, the sage of Chinatown, "save when so badly done that both author and mimic become ridiculous."

Mrs. Ed Tracy, wife of Lieut. Tracy, formerly stationed at Honolulu, is here visiting her mother, Mrs. G. W. Hicks. Mrs. Tracy informed us that Miss Venus Cason, who attended high school here and went home with her last summer, had recently married a Mr. Al Pegar, of Vallejo, Calif. Mrs. Hicks will return to California with her daughter for a visit.

Atty. and Mrs. G. E. Lockhart were down Wed., from Lubbock, as he had a case in court. While here Mrs. Lockhart called to renew for her Herald and informed us that they had just returned from a trip down in old Mexico.

One can always make money in a city where the population is very dense.

Tom Connally Plans To Sail For Europe

WASHINGTON, Sept. 14.—Senator Connally (D-Tex.) stopped here briefly today enroute to New York, where he will sail for Istanbul, Turkey, as a delegate to the inter-parliamentary union opening there September 24.

Connally and Senator Robinson of Arkansas the Democratic leader, will represent that body in the union, to which delegates from the parliaments of the world come to discuss international matters. House members invited to attend are Representatives Oliver (D-Ala.) and Cochran (R-Pa.)

The Texan, a member of the senate foreign relations committee, attended the union's 1930 conference in London.

The government does not sponsor or pay delegates expenses to the union.

Connally, here for the first time since the adjournment of congress, surveyed the political scene hurriedly and said the outlook was "fine for the Democrats."

"We may lose a few house seats but we're going to pick strength in the senate," he told reporters.

The Texan referred to former President Hoover's recently published criticism of some of the New Deal's functions as "hoary platitudes."

A Short Biography of Jesse H. Jones

Penniless in youth Jesse H. Jones, chairman of the Reconstruction Finance Corporation, now a gray-haired man is a millionaire many times over. Born in Tennessee he accumulated his fortune principally in Texas in banking, lumber, hotel and other real estate ventures. The son of a farmer he left home after the death of his father and by shrewd financial means became a partner in a Texas lumber company which was the first rung on his sensational ladder of success. At the outbreak of the World war he was known as a man of affluence and was appointed director general of the Department of Military Relief of the Red Cross, also a member of the Red Cross War Council and in 1919 went abroad to organize the League of Red Cross Societies. He is best known for having taken off his shoes at Buckingham Palace and fallen asleep, only to be awakened by President Wilson and King George. Legend has it he didn't even blush. Six feet tall, solid and heavy he maintains a calm attitude through the bustle of his office where billions of dollars are handled. He came to Washington to fill the post in 1932 and was re-appointed President Roosevelt. Chairman Jones holds degrees from Southern Methodist and Southwestern Universities, is married, childless, and a member of numerous clubs in New York, Washington and Houston.—Pathfinder.

We love her hills, we love her plains, We all love Texas so.
We love her San Jacinto and Her sacred Alamo.

And when in 1936 Her past we celebrate One hundred glorious years will tell The annals of our state.
—May Abney Mayes.

Editor's Note—Mrs. Mayes is the brilliant wife of H. F. Mayes, publisher of the Brownwood Bulletin. She is the sister-in-law of Will H. Mayes, Secretary of the Texas Centennial Commission.)

It isn't so much the taxes you pay but what is the money spent for?

We all preach a little—its second nature.

WE LOVE TEXAS

O, Texas skies are bright and fair
And Texas hearts are true
Her far flung boundary lines are loved
By gulf and rivers too.
Her bosom flows with molten wealth
Her soil abundance yields
Her "cattle on a thousand hills"
Roam hills and woods and fields.
She bears upon her flag a star
Emblem through woe or weal
The button from a soldier's coat
Became our Texas seal.
Yes, Texas skies are fair and blue
God set his stars in Heaven
The little fragments fell to earth,
Thus was our blue bonnet given.
O, blue of flag and blue of flower
And azure blue above
You speak to us of Texas
The valiant state we love.

Methodist Church Had a Fine Revival

The revival at the Methodist church, which was conducted for the pastor, Rev. Ed Tharp, by presiding Elder W. M. Pearce, of Lubbock district, came to a close last Sunday night after one of the most interesting week's meetings held here this year. Just what the visible results were, we failed to learn, but the speaker made a lot of new friends while here.
We heard many compliments on the sermons delivered by Rev. Pearce on the streets and in places of business by people of all walks of life, and not one but said they were benefited by the lessons he gave. The speaker stayed clean of politics and local factions, and preached Bible sermons like he believed they should be preached
It is certainly worth something to a community when a preacher can come into it and leave a good taste in all the people's mouths when he leaves. If he does not have an addition to his or any other church, has at least welded the people together, and taught them that they should love their neighbors, no matter whether they agreed on men or issues or not.
Large crowds attended throughout, especially at night and the two Sundays. The meeting was held in the Methodist house of worship.
and showing a fine red rash, should have medical attention and be immediately quarantined to prevent the spread of this disease. The appearance of scarlet fever in the home should be immediately followed by a rigid quarantine for at least three weeks. The public should be warned against exposing young children to those exhibiting acute catarrhal symptoms of any kind. Take no chances—be on the safe side.
The use of potent scarlet fever antitoxin is of value in shortening the course of the disease. The antitoxin should be administered within three days of the onset. Scarlet fever antitoxin lessens the complications, such as heart and kidney diseases, discharging ears and infected sinuses that often occur after scarlet fever. Scarlet fever can be prevented by first giving the Dick test to all children and the administration of scarlet fever toxin to all children that are susceptible."

SCARLET FEVER DANGEROUS

"Scarlet fever still continues to be a menace to children," said Dr. John W. Brown, State Health Officer, in discussing diseases common to children. "Many cases are slight, but they may infect others who may become seriously ill. It is treacherous and undesirable, and the only good thing about it is that if one can avoid it until grown, the chances of never getting it are excellent.
"Scarlet fever is spread by the transfer of the infection in the discharges of nose and throat, ears, or abscesses of persons ill with the disease and those who are carriers of the infection. The handling of articles soiled by the patient may cause the disease.
"Children under ten years of age are usually susceptible to scarlet fever. Children becoming suddenly ill with fever, sore throat, vomiting
