BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, FEBRUARY 15, 1935.

NUMBER 27

Terry Stands Second In Cotton Parade

BY J. SAM LEWIS
Avalanche-Journal Staff Writer
Semi-final cotton ginning report for the South Plains, for 1934, issued by the bureau of the census as of January 16, shows a total of 90,563 bales turned out up to that time, which is slightly under 18 per cent of the 504,842 bales turned out for the previous year's crop.

Nine counties on the plains had ginned over 5,000 bales each, two of them over 10,000 bales; with Lamb leading by 12,088 bales and Terry a close second with 11,101. For the corresponding report for the previous season, seven counties had turned out more than 30,000 bales each, four of them more than 50,000 and Lubbock county a few less than 80,000. This year Lubbock ginned 5,377 bales, or less than 7 per cent of last year at this date.

Terry county this year had ginned only 1,050 bales under that of a year ago, Lamb county had ginned 12,000 bales as compared with 51,000 last year.

County rankings for 1934 season were: Lamb, Terry, Scurry, Lynn, Hale, Hockley, Lubbock, Dawson, Bailey, all with 5,000 bales or more.

Last year's ranking were: Lubbock, Lynn, Crosby, Lamb, Dickens, Floyd, Scurry, Hale and Garza.

With reports from most counties indicating gins were closing down for the season consensus is that the final report, to be taken early in March, will not show a material increase in bales. The gain over the December report was from 9,000 to 10,000 bales. This was due largely to counties resuming ginning after stopping cotton picking to harvest grain sorghums.

Only 18 counties are shown in this year's report. Swisher was eliminated because only one or two gins operated there and the government policy is not to disclose individual ginnings. Yoakum and Borden counties do not have gins. Gains this year also is not shown in individual reports, because of the few gins operating there.

Comparative reports for the two seasons 1933-34 and 1934-35 are as follows:

County	1934	1933
Bailey	5,076	19,476
Briscoe	1,267	11,569
Castro	975	5,327
Cochran	1,441	3,764
Crosby	4,871	55,987
Dawson	5,295	8,310
Dickens	4,170	34,563
Floyd	2,866	34,091
Garza	1,976	20,762
Hale	7,279	26,193
Hockley	5,686	18,130
Lamb	12,088	51,204
Lubbock	5,377	79,203
Lynn	7,843	65,722
Motley	2,163	19,131
Parmer	2,006	7,918
Scurry	8,983	31,255
Terry	11,101	12,167

Total 90,563 504,842

First Hatch of Season Off Next Monday

John Chisholm of the Chisholm Hatchery informed us this week that he started one of the big incubators up with a full supply of eggs on Monday, Jan. 28th. Therefore, this hatch will be ready to begin taking off next Monday. So if it has been some time since you heard the cheep of little chickens, fall in to see them some time after Monday. But don't bother them the day the chicks come off.

Hatchery men never expect a full hatch the first time, especially this early in the year, for there is a thousand chances that in some way, somewhere, some of the eggs become too chilled to hatch, or perhaps were infertile to start with. But with the years of experience that is behind John, he will get the maximum hatch for the time of year.

John informed us that the best certified breeds would sell about like they did last year, but the lower grades would be advanced just a bit. This is in line with a general advance in poultry over last year.

R. H. Franklin and family are entitled to a pass to the Rialto Theatre to see "Against the Law" Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

Farm Leaders Are to Gather at Co. Seats

O. G. Tumlinson, district county agent leader for district No. 2, Texas State Extension service, has arranged 35 county meetings in his district to contact farm association executive committees on AAA work for 1935.

Two meetings will be held by Mr. Tumlinson daily, one in the morning about 9 o'clock and the other at 2 o'clock in the afternoon. Each county agent has been advised of the date for his county and has been asked to notify those interested.

All-Day Affair
Lubbock's meeting will be an all-day affair as far as Mr. Tumlinson is concerned, he having planned to spend the day here.

Meetings with county farm association executive committees are scheduled for 9 a. m., and 2 p. m., as follows:

Place	9 A. M.	2 P. M.
Feb. 12	Plainview	Floydada
Feb. 13	Silverton	Tulia
Feb. 14	Dimmitt	Farwell
Feb. 15	Muleshoe	Amherst
Feb. 16	Lubbock	
Feb. 18	Levelland	Morton
Feb. 19	Tahoka	Post
Feb. 20	Snyder	Gail
Feb. 21	Lamesa	Seminole
Feb. 22	Brownfield	Plains
Feb. 23	Crosbyton	Spur
Feb. 26	Guthrie	Benjamin
Feb. 27	Seymour	Throckmorton
Feb. 28	Albany	Anson
Mar. 1	Roby	Haskell
Mar. 2	Aspermont	Jayton
Mar. 6	Breckenridge	Graham
Mar. 7	Archer City	Henrietta

Man Falls Out of Truck—Fatally Hurt

While L. C. Lattimer and two nieces, Mesdames E. V. and T. V. McClain, were on their way to Brownfield from their home in Lubbock, Sunday afternoon, in making a turn near Meadow, the truck door came open, and Mr. Lattimer fell out, and one of the ladies on top of him. They came on to Brownfield with him, and reported that he was conscious part of the time.

He was carried to the Treadaway-Daniell hospital, but died in a few minutes. Dr. Treadaway said that he no doubt had some bad internal injuries. The party was coming to Brownfield to see about bonding out the women's husbands, who were investigated by the grand jury for alleged theft of cotton seed. The men had already been released according to Sheriff Smith.

According to Roy Collier of the Brownfield Hardware Undertaking Co., the body was still held at their funeral home Tuesday morning pending funeral arrangements, but he thought relatives would come after the body that afternoon.

Poll Tax Payments Off From Last Year

A great many Texans don't think they need a poll tax receipt of an off year, but we'll bet that before this year comes to an end many will wish they had sacrificed for one. One thing that will very likely come up this summer is an amendment to the constitution to try to repeal the Dean liquor law. Both wets and drys will wish many times for a poll tax receipt that have none.

According to information received in the tax collector's office, just 1341 Terryites would spare \$1.75 for a tax receipt. Last year, an election year, 2100 paid their poll tax in order to vote in the primaries. This is a difference of 759 in payment of 1933 and 1934 poll taxes.

Yoakum Club Ladies Pleased With Books

Mention was made in these columns some two weeks ago, that the Herald job department was putting out 200 year books for the home demonstration and canning clubs of Yoakum county. These were delivered last week.

In a few days the Herald received a letter from the Yoakum County Home Demonstration Agent, Miss Lilith Boyd, stating that the club ladies were highly pleased with their books, the neatness and dispatch with which the work was handled, and especially for courtesies shown them.

People run in debt but crawl out tight.

Two Snows Fall Here During the Week

The weatherman finally decided that old Terry and the rest of the south Plains section needed a little moisture, as the farmers were becoming restless, and naturally with the farmer a little uneasy about the question of whether or not we would get any rain or snow this winter, it became catching, and the business and professional men of the town had also begun to cast doubting glances at the clear skies from day to day.

However, Sunday morning dawned with murky skies, and by noon the beautiful snow began falling, and with only a few pauses, it fell at a pretty rapid rate until about eight that night. But it melted almost as fast as it fell. Farmers tell us that it penetrated some six or seven inches in cultivated ground.

Then on Tuesday, again with the skies overcast with low hanging clouds, the white flakes started again to pepper down, and from 11:00 A. M. to 9:00 P. M., a period of ten hours, it came down like nobody's business. Again, this snow, about the wettest we ever saw, melted almost as fast as it fell, penetrating the ground where it lay. We can almost safely say that we now have a good plowing season, and as soon as the weather moderates, farmers will no doubt begin turning their soil.

These two snows have been worth tens of thousands of dollars to the county, first in actual value, and second, as a tonic to the uneasy feeling of our people. It has really shown the people here that no matter how dry it gets, it can rain or snow when it gets good and ready.

And as we have tried to explain to some of the newcomers as well as some of the oldcomers, generally speaking, when we have a dry, open fall, we will get rain in the spring when it is really needed. It's all right for the wheat belt to have a good fall season but really we need an open fall in Terry county for gathering crops. And we had one of the best on record this past fall.

City and Terry Ask For Several Projects

Among those who went to Lubbock last Thursday to the district meeting of the PWA to submit plans on projects for Brownfield and Terry county, out of the \$4,800,000,000 to be used in the next two years by the government to relieve unemployment were, County Judge R. A. Simms, and all the commissioners, which includes, L. C. Green, W. E. Henson, R. I. Cook and Lee Lyon; J. E. Shelton representing the Chamber of Commerce; Mayor L. C. Wines of the city, and Supt. Paul F. Lawlis and Trustee Clyde Lewis, representing the city schools.

Among the projects asked for was lateral roads in Terry county, aggregating some twenty-four miles, to be well graded and topped with several inches of caliche. The Union school asked for funds to build a gym and auditorium. The school here asked for funds with which to build curbing and sidewalks all around the school grounds. A recreational park was asked for the city.

Judge Simms informed us that the amount asked would run close to a half million dollars. Well, Brownfield and Terry county should try to get their share of this money. Some other places will if we don't.

Local Tailor Installs New Naptha Cleaner

Syl Tankersley of the City Tailor Shop, has recently installed the latest Bowser pressure filter system, that keeps the naptha used in cleaning, as clear and pretty as a crystal. This machine was installed at great expense, and with the exception of one in a Lubbock tailor shop, is said to be the only one on the South Plains. Mr. Tankersley would be glad for you to call and examine his plant.

Mr. Tankersley is also drying all clothing he cleans with hot steam, which not only kills all germs, but takes every particle of naptha scent from the clothing, and they are as sweet and fresh when delivered as when new.

Recently Mr. Troy Noel, of Plainview has been employed by City Tailors. Mr. Noel is said to be one of the best men on cleaning and pressing silk garments on the Plains.

Loose fellows are prone to get

Movie Capitol Takes Penner to Its Heart

Somebody, opines Joe Penner who makes his feature film debut in Paramount's "College Rhythm," coming Sunday to the Rialto Theatre, is wrong! Hollywood is not at all the place he feared it would be!

"It's like this," explains Joe. "All my life I've had to fight for everything I got. Once, when I was in vaudeville, I was supposed to be playing straight to another comedian. I cracked a joke, and he beat me up right there on the stage."

What They Said
"Every time I've tried to get ahead there have jealousies, arguments and fights. Whatever success I have achieved has been won at the expense of a lot of trouble. So when I got an offer to come to Paramount I did a lot of thinking and a lot of investigating."

"People started telling me that Hollywood didn't want any newcomers; that Oakie wouldn't give me a chance to do anything; that Norman Taurog, the director, was Simon Legree brought back to life; that I'd be made to look so bad that not only

COLLEGE RHYTHM

would I never get another screen chance, but that I'd be totally ruined in every way.

"That," says Joe, "was pretty discouraging but I was used to fights. I found myself a nice chip, placed it on my shoulder and headed for Hollywood. So what happened?"

What He Found
"Hollywood welcomed me with open arms. I made a million friends within five minutes after I'd landed. Norm Taurog turned out to be one of the grandest guys I'd ever met. And Oakie! Why he not only gave me a wide-open chance to spring my own gags, but even came up to me and pointed out opportunities to be funny that I'd overlooked."

"If I don't make good now, it's strictly my own fault. I've been given every possible opportunity to make good. And I can't understand it. Hollywood isn't at all like it's painted."

"College Rhythm," which also features Lanny Ross, Helen Mack and Lyda Roberti, is the story of the college rivals who carried their funny feud into the business world and transformed a department store into a collegiate institution.

The picture features four brand-new songs by Gordon and Revel and the All-American Co-ed chorus, 150 beautiful girls under the direction of LeRoy Prinz, dance director.

Co. Agt. Has Nice Offices in Basement

The partitions in the basement of the courthouse have been removed from two storage rooms, and a nice, well artificially lighted office has been made for the county agent and his crew. Mr. Reed states that he does not feel so cramped and crowded as in the small office upstairs on the second floor.

County Judge R. A. Simms said, however, that the lighting was not quite as good as they wished, but that would be remedied when the new reflectors were installed. Judge Simms also stated that there would be plenty of storage space in the basement after turning this part into an office for the county agent.

CARD OF THANKS

I wish to thank the many friends for their help in stopping Mr. Pendergrass from firing another volley of shots at me, also for their sentiment.

Austin Storie.

Post Sheriff, 2 Drs. Accused in Killing

Two federal narcotic men, Officers Stafford of Fort Worth and McCullough of Dallas, drove into Post, Texas, Thursday morning, accompanied by a man and woman, informers for the department, and began a search for narcotics, it is alleged at the office of Dr. L. W. Kitchen, veterinarian of Post, when Sheriff W. F. Cato, of Garza county, drove up and rammed a machine gun in the side of the man informer who was in the car, and ordered him out.

The informer called for the two officers, after failing to convince the sheriff that they were with federal officers, who were inside the office of the veterinarian, who would vouch for them. Stafford is said to have come out of the office and tried to tell the sheriff that they were federal investigators, and finally pushed the gun of the sheriff out of the informer's ribs. One report said the Federal man pulled or started to pull his gun, but Sheriff Cato was too fast for him, and as the federal officer went around a car, the sheriff shot him at least four times, killing him instantly. U. S. Marshalls from Dallas came next day and carried the sheriff, the veterinarian and a physician, Dr. V. A. Hartman, all to Dallas, where they were put in prison.

We understand that all have been accused of premeditated murder and have been refused bail, though several wealthy friends from Post were on hand. The examining trial will come up in Dallas today. Another report states that two other Post citizens have been arrested by Federal authorities as accessories to the crime.

People here who know the Post Sheriff seem to think he is a fine citizen.

Rance King Gets Another Promotion

Some time ago, we announced in these columns that Rance King, former Brownfield boy, and a graduate of the Brownfield schools, had been promoted from manager of the Montgomery Ward store at Big Spring, to manager of their Lubbock store, with quite an increase in salary.

Lately we learn that he was called to Wichita, Kansas, a few days past and given district management of 13 Ward stores in Kansas and Oklahoma, with another big increase in salary.

We are certainly glad that this former local boy is going up in the world of business.

Spur Negro Jailed For Swiping Gasoline

While nightwatchman M. L. Rogers was making his rounds last Thursday night, he discovered a strange negro siphoning gas out of a car standing in front of the Hotel Brownfield. Rogers kept an eye on the fellow until he had filled a five gallon can, then arrested him and lodged him in the county bastille.

The negro was still being held the last of the week, as he was unable to pay his fine or make bond. His wife, or the negro woman that accompanied him, was not jailed.

District Court Has Adjourned For Term

Very little was doing in district court this week, as most of the criminal cases were disposed of last week. One man came clear of liquor possession. Mostly civil cases early this week.

Judge Gordon B. McGuire was to have come over from Lamesa Wed. to sign up the grand jury report, pass on the juries for the next term, and sign other instruments, but the weather was so inclement he phoned that he would be here later.

MARRIED

Jim Hughtlett, popular employee of the Sanitary Bakery, and Mrs. Dena Gray, both of this city, were married last Sunday at Plains. We failed to learn who married them.

Mr. Hughtlett has been a resident of Brownfield several years. Mrs. Hughtlett came here about a year ago from Southland and has been employed in a cafe most of the time. Both have made many friends here.

Texas May Have a Sterilization Law

AUSTIN, Feb. 4.—Designed to lighten the burden of state support of eleemosynary institutions and to prevent propagation of children by those physically unfit for parenthood, a bill was this week submitted to the Legislature by Senator Arthur P. Duggan of Littlefield.

The act provides for eugenic sterilization of inmates of state eleemosynary or penal institutions in certain cases and prescribes methods of procedure for officials. It is emphasized that the operation carries no stigmatization, is a protection rather than a punishment, does not unsex the individual, might permit return to normal life of many persons who would otherwise be confined in institutions for years.

According to recent report of the State Board of Control, the number of inmates in Texas Eleemosynary Institutions is 17,308, an increase of 526 over last year. The approximately 5,500 convicts in state penitentiaries make a total of 22,808 wards being supported by tax-payers, the report shows, at a cost of \$5,994,732 annually.

The biennium budgets calls for no developments and additions to the state educational system; asks for one million dollars over normal expense for needed buildings and improvements at eleemosynary institutions.

"Cost in money is trivial compared with the crime, heartache and horror that find origin in these defectives," Senator Duggan indicated. "Anything, sanctioned by common sense and good morals, which can prevent this accumulation of human misery and degeneracy, should be done."

The bill also provides for establishment of a State Board of Eugenics to pass on applications for and to keep records of sterilization operations. The State health officer, chairman of the Board of Control, and chief of the division of Child Welfare will serve as members of the Eugenic Board.

Procedure for institution officials is detailed, briefly, as follows:

"Superintendents of eleemosynary or penal institutions, when it appears that a patient or inmate will likely, if released, procreate children who would have tendency to serious physical or mental deficiencies, may, after medical consultation, submit to board of Eugenics a recommendation that the surgical operation of sterilization be performed upon the patient for prevention of parenthood." The operation, the bill says, shall "be vasectomy for males, salpingectomy for females, or some similar operation that will not unsex the patient."

If the Eugenic Board approves the recommendation of the Superintendent it will authorize the operation. The patient, or his representative will have the right to select a competent physician of his own choice. Written notice of the order of sterilization will be served on patient and to nearest relative, telling why sterilization is desirable and notice of patient's right of appeal to courts.

Stork Visits Texas 121,508 Times Yearly

A new baby every 4 minutes, 320 every day, 10,100 a month—that's the record of Texas, who showed 121,508 births registered with the State Bureau of Vital Statistics in 1934. This total carries an increase of 8,800 over 1933, when 112,669, the greatest number of births ever registered with the Bureau in any year were registered.

The 1934 records showed an excess of 57,956 births over the total deaths. Last year in Texas there were 63,552 deaths recorded, or one death every 8 minutes, 174 each day, or 5,292 per month. Or putting it another way, about two babies are born in Texas each time a death occurs in the State.

The Bureau of Vital Statistics is a part of the Texas State Department of Health and is charged with the duty of seeing that every birth and death occurring in the State is properly filed and registered. Such records are known as vital statistics because the information contained in them is of vital importance to the people themselves, the community, and the State. Texas is now in the Register Area for both births and deaths. Everyone can assist in helping to keep our records at this high standard if they insist that every birth and death occurring in the State be registered.

Work is the yeast that makes the dough.

Rangers Losing Fine Reputation is Claimed

"Oh God, whose end is justice, Whose strength is all our stay, Be near and bless my mission, As I go forth today." (From the Ranger's Prayer by the Rev. Pierre Bernard Hill, chaplain of the Texas Rangers.)

AUSTIN, Feb. 8.—A special committee of the Texas Senate, after an exhaustive survey of crime in Texas, has reported the famous organization of manhunters is losing "its once fine reputation."

It based the statement principally on the fact that at the time of the investigation last Fall more than 1,600 "special" Ranger commissions were in existence. There are only 36 regular members of the Ranger force.

Quoting the official Ranger prayer, the committee said "it is beyond our imagination to picture a 'special' Ranger uttering that prayer to his Maker after a night spent policing a gambling house or a night club"

It reported that most of the holders of special commissions fell into the category of "official gun-toters," serving for example as bouncers in night clubs, as officers in gambling houses, as traffic officers and guards at horse and dog race tracks.

Other holders included an undertaker, a stereotyper, a rock mason, a painter, a chamber of commerce manager, an oil mill operator, an electrical advertiser, a dentist, a barber, a wrestling referee and a retail liquor dealer.

It is no secret that the regular Rangers have been restive under the appropriation of their name by outsiders. One grizzled old captain who has hunted bandits all over the Big Bend area of the Rio Grande for years said the name is "the biggest asset we have."

A former chief of the Rangers said he felt he had done his "Boy Scout act" when he was able to revoke a special commission.

And recently there was elation all 'round when Governor Allred ordered the revocation of all outstanding special commissions at the same time denouncing promiscuous issuance. Most of the specials were issued during the administration of Governor Miriam A. Ferguson, whom Allred succeeded Jan. 15.

It was understood the bulk of the special commissions were issued to enable men to obtain positions as private peace officers, somewhat after the manner of creating Kentucky colonels. A commission to Elliott Roosevelt, son of the President, fell in the latter class.

The committee recommended stopping "indiscriminate" issuance of special commissions "except perhaps in unusual cases," and then only on recommendations of the sheriff, the county attorney, the district attorney, the county judge and the district judge of any county, certifying a necessity existed.

Grocery Stores to Close at 7:00 P. M.

All the local grocery stores have agreed to close their places of business at 7:00 P. M. each afternoon, to be effective the past Monday, according to Kyle Graves of the Hodgson Grocery Co.

Not only will the stores close at 7:00 P. M. each week day afternoon, except Saturday, when they will close at 10:00 P. M., but they will remain closed all day Sundays.

CARD OF THANKS

We wish to thank every one who so kindly brought us comfort in so many lovely ways during our recent sorrow. May our Heavenly Father very tenderly bless each one of you.

Gratefully,
P. R. Cates and family
Mrs. Ada C. Wilkins and family.

Rhodes: "I notice that when you are telling about that big fish you caught in Lake Winnebygosh you always very the size. Have you no respect for the truth?"

Bansler: "I have plenty of respect for the truth but I make it a rule never to tell a man any more than I think he will believe."

Arthur: "So your new job makes you independent?"

Albert: "Absolutely. I get here any time I want to before eight, and leave just when I please after five."

No, a penny in the collection hardly counts as a down payment on a harp.

The Official Paper of Terry County and the City of Brownfield.

Sheriff Bill Arthur is dead these three months. Two men who admit they were present when the murder was done are on trial. But the trial instead of being a quiet business-like search for the truth, will have all the dramatics of a feature picture show. The facts that should be presented in two hours will take from two to ten weeks. The verdict which should represent justice, may represent only the confusion implanted in the jurors' minds by the silly court practices that too often obscure justice.—Ralls Banner.

The fight against infantile paralysis has been pushed on all lines for the past several years, and was given a big boost last year: when the funds from the President's Birthday Ball were turned in. A serum for that affection has been perfected in the mean time, and has been tried with gratifying success at Bakersfield, Calif., where an epidemic was raging lately. Out of 700 that have been inoculated with the serum, not a one has later developed the disease. We owe much to medical science that studies almost night and day to aid the health of the human race.

I heard on the sidewalks of Wink this week that a milch cow found the place where workmen on the highway had their lunches parked, and proceeded to feast upon them in a sumptuous manner, and next morning produced seventeen gallons of gin fizz, and then died. It was not learned whether the overproduction of "fizz" caused the cows death eating of the lunches. I am not even saying that this is a true story, but I am giving it to you, just as I heard it.—Wink Times.

Last week, the Hubcock Havalanche told the world in general and the south Plains in particular that the editor of this sheet was in bed and sick as two hoes, or words unto that effect. As we had "snunk" off like a wounded dog to lick our own sores, and say nothing, few here knew of our illness, until the article appeared in the Lubbock papers. But they were just a week too late; we had been up long enough by then to eat corn pone and sowbells again, and none of the good neighbor ladies brought us any delicacies. Be a bit more prompt next time Guy-Lewis.

Last week, down in old Texarkana, or near there, some of the old set put on a drinking party. All were not content to swill the booze themselves, so one fellow to have a little fun, gave a mere child a full glass or cup of the stuff, and today that innocent little fellow fills an untimely grave. It was to strong for his little heart. But that big, strapping fellow wanted to see the child cut-up, just for fun. Well, when the next grand jury of Bowie county meets, and the district court with it, very likely that "fun loving" man will laugh it off on the other side of his face.

The Hon. Virginia E. Jenckes, whom we take to be a lady congresswoman from Indiana, has recently introduced a bill in congress to pay to the widow of all ex-service men, who either were killed or died over seas, or from results of war since coming home, the sum of \$200 annually, for the maintenance and education of the children of such war orphans, to be terminated in 1943, when the youngest of these orphans will be 23 years of age. The American Legion and Auxiliary have been doing all they could as an organization for the past several years to care for these orphans, when as a matter of fact, it is the duty of the federal government to care for the orphans of men who gave their all to their country.

Well it has happened again, and we have been watching for it. We have reference to a bill being introduced in Congress to have all post office jobs placed under Civil Service. Senator Norris is the man that threatens

to push it through. Really he is firing at Postmaster Farley. He wants Farley to either resign as Postmaster General or chairman of the Democratic National Committee. A bill of this kind is introduced at every session of Congress. It is just a lot of "hokey". Congress isn't going to pass any kind of a law that will cut out "patronage." They have to have it to keep the political machine organized back home and thereby re-elected to office, etc. No, this is just a "dead cat" as "Crack-down Johnson" would say, that is being tossed at Farley, and we hope it hits him. We don't like the way he has handed out patronage since he has been in the saddle.—Lockney Beacon.

Carter Glass, Senator from Virginia, and a power in banking legislation, seems to be just a little "set" in his ways. He will oppose any changes in the Federal Reserve Act that he practically wrote back in 1913 when he was chairman of the

banking committee. In this fast moving age, a vehicle that was ok in 1913 would perhaps be more or less of little use now. But the fire eating old Senator always turns thumbs down on any amendment to the Federal Reserve Act. This is his brain-child and he will protect it as long as he lives. In our opinion the Federal Reserve Act has passed all usefulness. It was alright in its day but its day has passed. It is now controlled by big money interests and therefore is of no use to the rank and file as it was intended. Small member banks of the Federal Reserve receive very little benefits, so we say tuck on a few amendments so it will be of some use or do away with it entirely.—Lockney Beacon.

March 31 to April 7, will be observed as Negro Health Week in Texas, perhaps throughout the country. The time was when little if any attention was paid to the health of this race, most people erroneously thinking that the race as a whole was proof against most diseases to which white people fell easy prey. As a result, thousands of negroes, especially infants and both adults and children were carried away with tuberculosis and other diseases. Leaders of negro health in Texas state that since the inauguration of the health move among their race started, health in general has greatly improved. Negro children are being taught the essentials of health, and the mothers are taught to care for their infants and children in the more improved and scientific way. As a result the death rate among that race has been greatly lessened.

Tokio Paragraphs

The people of this community turned out in earnest Wednesday and set out trees on the school ground. We hope in time to have one of the best improved school grounds in Terry county.

Mr. King of the Brownfield Nursery has presented beautiful geraniums to every room in our school. We purchased our shade trees from him. He gave us a bargain in the trees, as well as suggestions for the work of beautification.

The school was represented in the County Basketball Tournament Friday and Saturday by both boys' and girls' teams. Tokio won no games, but was proud of the way our boys and girls played, and of the type of sportsmanship they showed.

In spite of the snow storm a good crowd was present at B. Y. P. U. Sunday night.

The Senior and Junior classes of the Tokio school will put on the play "George in a Jam" Friday night, February 15th. The admission will be 10c and 15c. The proceeds will be used to buy class rings and pins.

A big dinner was given in honor of the Seniors Sunday at the Trout home. The hostesses were Mesdames Trout and Patterson. Those present were Arvel and Jesse Snodgrass, Ross and Bertram Patterson, Lowell and Clyde Trout, Minnielee and Myrtle McAda, Rita Mae and Marie Cheek, Hallie and Hazel Harred; Mr. and Mrs. W. R. Patterson, Mr. and Mrs. G. W. Casey, Mr. and Mrs. W. R. Benson, Mr. and Mrs. Joe Trout, Mr. and Mrs. J. R. Trout and sons, Charles and Royce, and Mrs. J. C. Casey

Romalee Gaudin who has been sick for the past week is able to be in school again.

Mr. and Mrs. Claude Merritt have returned from McAdoo where they visited with parents and friends.

Mrs. Ellison Carson was operated upon last week for appendicitis at the Treadaway-Daniell hospital, Brownfield. She is reported to be getting along satisfactorily. She is a very much appreciated music teacher in the Tokio schools, and will be greatly missed during her enforced absence.

Marie Buchanan has enrolled in Tech College for the second semester. Evelyn Pippin who is attending college at Canyon was a weekend visitor here.

THE BIBLE

The world's most wonderful book was written by forty different men and over a period of almost 1600 years, without a single contradiction. The authors of this book lived in far removed times and some of them under adverse circumstances, they were learned men, sages, philosophers, wise men trained up at the feet of the Rabbis in Jerusalem, and ignorant fishermen. The Bible was written on the desert, in the sea, in Jerusalem, the seat of religious government, in green pastures and beside still waters. It was finally completed in A. D. 96. No sooner had the Bible gained a foothold in the hearts of men and women than the enemy began to assail it, yet within 350 years the Roman Eagle was replaced by the cross, thus causing the Bible to meet with bitter opposition along the line of march. No fragments of an army ever survived so many battles, no citadel ever withstood so many sieges, no rock was ever swept by so many storms, or battered by so many hurricanes as the Bible, and still it stands. It has seen Daniel's four universal empires rise and fall. In the city of Washington one may see a few mutilated figures that adorn our National Museum, all that remains of Assyria, once the golden headed universal empire. Media and Persia have long since been weighed in the balance and found wanting. Greece only survived her historic period; it is a living Greece no more, and the iron Rome of the Caesars is held by a very feeble hand.

But the book that foretells all has still survived while poets and orators statesmen and philosophers, kingdoms and empires have all gone vanishing the things that were and remain only to point a moral or adorn a tale. The Bible is still read, believed, obeyed, debated and sifted, by the wisest men living. It occupies the highest niche in the temple of fame it is more vehemently assailed, more devotedly loved, more traduced, more honored and revered, more printed and freely given to the world than any book the world has ever known. It remains unchanged in the midst of change. While all other things decay it remains incorruptable. It has seen myriads of books engulfed in the stream of time while it floats triumphantly on, and will continue thus to float until the mystic angel with one foot on the land and the other on the sea shall declare by Him that liveth forever and ever that time shall be no more. It is the only bridge that spans the river that flows between time and eternity, between temporal and eternal life. It is the only guide that safely conducts those that have obeyed the Lord to the haven of unending bliss, where we will sit down with Abraham, Isaac and Jacob, and talk time without end of the wonderful love of the Son of God; and in the full enjoyment of the society of all redeemed spirits that gather around the throne of the majesty in the heavens.—G. Earl Woods in Texas Spur.

NOTICE

Notice is hereby given that after the 28th day of February 1935 a penalty of 10 percent will be added to all unpaid taxes owing to the City of Brownfield, Texas, appearing on the roll for the year 1934.

And this notice is given in compliance with ordinance passed by the City Council of the City of Brownfield, Texas, passed on 11th day of February, 1935.
Roy M. Herod,
City Secretary.

The 12th not only was Abraham Lincoln's birthday, but was the 25th anniversary of the organization of the Boy Scouts. The Stars and Stripes were run up on the flag pole in the courthouse park Tuesday morning in honor of both.

Schools May Close

If too many of the pupils become affected with contagious skin diseases such as ITCH, IMPETIGO, RINGWORM, CONTAGIOUS SORES, Etc. No need to let your child suffer long from contagious sores. Get a bottle of BROWN'S LOTION from your druggist for 60c or \$1.00 and quickly rid the body of ITCH and other loathsome skin diseases. For sale and guaranteed by Palace Drug Store.

CUB REPORTER

STAFF

Editor-in-Chief—Ruby Nell Smith
 Editor—Irene Adams
 Society Editor—Ona Faye Tittle
 Sports Editor—Bill Childress
 Joke Editor—Ima George Warren
 Business Manager—Val Garner
 Junior Reporter—Iris Lewis
 Soph. Reporter—Betty Jo Savage
 Freshman Reporter—Doris Lee Gore
 Faculty Adviser—Jack D. Wester

OUR POLICY

It is the prayer, intention, and hope of the Press Club to put out a paper that will reflect our high school life in every phase of activity. "The Cub Reporter" is the only source for many of our parents to learn what we are doing in Brownfield High School. Therefore, we should include every bit of school news that would be interesting. That material should be written by high school students. If we are to have jokes they should be original ones gleaned from the campus and classroom. We often overlook facts and incidents that would make good school news.

Do you wish to be of service to your alma mater? The Press Club needs the co-operation of every student and faculty member in helping to publish "The Cub Reporter." Keep your eyes and ears open so that you can be of service to B. H. S. through "The Cub Reporter."

CUB COMMENT

Tests are tests, not only of intelligence but also of will power and honor.

Are the teachers and students of B. H. S. about "half-dead"? We heard they were!

There is a plea for more consideration of our fellow classmates.

Can you go to college if you want to?

There is a rumor that the Seniors will take their play, Laugh, Clown, Laugh to Plains in the near future.

Why doesn't Brownfield High School have a Student Council?

The faculty and students wish to express their sympathy to Mrs. Wilkins and Cathrine Cates in the death of their sister and mother—Mrs. P. R. Cates.

Will B H S have a "May-Fete"?

What went with the band that was started in Brownfield several weeks ago?

The Girls' Basketball awards have been ordered.

The student body was very enthusiastic and excited over the arrival of our principal's new son, and we are glad to report that at the time of this writing Mrs. Wester is doing nicely.

As we go to press we find that we have failed to get a report on the County Tournament but it will be in next weeks issue.

ABRAHAM LINCOLN

Abraham Lincoln, the sixteenth president of the United States, born in Hardin County, Kentucky on February 12, 1809, was one of the most exalted characters in American History. As the savior of the union Lincoln stands in history by the side of George Washington, the Father of his country. He was not merely a statesman, not merely a man who sat in a high place and planned mighty deeds, he was a man whose life seems a part of the national existence. By the gift of that life on the altar of service, he preserved the union and gave it ungrudgingly. Victory and death combined to give Lincoln his imperishable place in history.

Nancy Lincoln, Abraham's mother died when he was only nine years old. Afterwards Thomas Lincoln, Abraham's father married Sarah Bush Johnson, a widow with three children. This new Mrs. Lincoln was the most prosperous woman the Lincolns had ever known. She brought to them furniture, cooking utensils, and real bedding. She forced her lazy husband to put a floor and doors in the cabin, and, for the first time Abraham and his sister had something that resembled a home. Mrs. Lincoln also

encouraged her stepson in his eagerness to learn. Lincoln's school was of the slightest; he once estimated that his entire schooling put together would make about one year. The Bible was Abraham's favorite book. As a boy Lincoln won the reputation of witty and forceful speech. He read everything on which he could lay his hands. His knowledge, his humor, and his gifts for telling stories made him a favorite. Tall and "lanky"—he reached his full height, six feet and four inches, at seventeen with a carefree mass of hair—he was in the words of a contemporary, "the ungodliest sight I ever saw."

This simple man, sprung from the soil, descendant of a poor, even shiftless stock, had risen to the highest place in the nation and had wielded dictatorial power. The nation never before in its history, had allowed any president as much power as Lincoln wielded. Yet he never lost his sense of proportion. Phillips Brooks said of him: "There are men as good as he, but they do bad things. There are men as intelligent as he, but they do foolish things. In him, goodness and intelligence combined and made their best result of wisdom!"

P. T. A. IMPROVES CAMPUS

During the past week, the Brownfield school campus has undergone a change. Tennis and volley ball courts have been constructed at each school. Swings, seesaws, and slides have been constructed and repaired. Our gymnasium, lights and screens have been repaired. Everything has been painted green—Freshmen colors!—to remind us of the coming spring. This highly appreciative work is being done by the P. T. A.

CUB CHAPEL

On Wednesday morning the student body met in the auditorium for a short chapel program sponsored by the Glee Club. Their quartet sang two songs: "Rain" and "Winter Wonderland." Then the Glee Club sang "Home in Wyoming" and "Play to Me Gypsy." The program was enjoyed by the student body and some visitors.

On Friday morning the student body met in the auditorium for a program, but they were surprised when told that they could use the time as they wished. The girls gathered around the piano and sang while one of the girls played. The boys were too bashful to stay, and most of them went outside. The students are looking forward to more days when they can do as they wish.

CUB CHATTER

Illness kept Mr. Penn out of school one day last week. We are glad to say that he is back in school now looking fine.

Several of the Tech students were home this week-end. They were Horton Howell, A. T. Fowler, Martha and Velma McClish, Fern Sawyer, L. C. Green and Jim Neil.

Evelyn Pippin was also home for a few days from mCanyon, where she is attending the State Normal.

Sallie Ruth Cox and Helen Quante were Lubbock visitors Saturday.

Mr. Lawlis was absent Thursday afternoon. He was at Lubbock attending a meeting of the teachers who are interested in the projects that the government is considering for the betterment of our public schools.

Mrs. Miller substituted Monday in the absence of Mrs. Wilkins.

Elmer McInturf who refereed the Brownfield's Girls' Basketball Invitation Tournament, was down this week refereeing the County Tournament of Girls' Basketball for Class B and C.

Mr. Daniel refereed the boys' games for the County Tournament.

Orvalene Price, an ex-student of B. H. S. was in town Saturday attending the games.

CUB CLASSES

Is The Senior Play a Thing of the Past?

Last Tuesday evening, February 5, the Seniors presented their play, "Laugh, Clown, Laugh." There was a good crowd but not as many as the Seniors expected. This was due to the county court which was in session at that time.

The Seniors need some more money to meet expenses and they are trying to make arrangements with the Plains superintendent, Mr. Hayhurst, to put the play on there. If the plans are carried out the Seniors will have some more rehearsing to do.

If you did not see "Laugh, Clown, Laugh" when presented in Brownfield, we advise you to see it at Plains. The date will be announced later.

JUNIORS

The Juniors enjoyed a short program at the class meeting Monday, February 11. The Junior quartet,

consisting of Marguerite Smith, Alma Fern Green, Virginia May and Dortha Mae Randall, sang the well known song, "All I Do Is Dream of You." Mary D. Price rendered several recent tunes on the piano. Mrs. Miller was present in the absence of the Junior sponsor, Mrs. Wilkins. Mr. Daniel was also present.

SOPHOMORES

Some of the English pupils in the Sophomore class have written letters to schools in other states. Letters have been coming in fast, telling the history of the state or the origin of the town, all of which are very interesting.

In trying to be loyal to B. H. S. the Sophomores got in bad recently. At one of the contests the school song was used. Last week one of the Cub reporters told them in so many words that it wasn't the thing. The Sophomores felt small enough to sit on a pencil and swing their legs. But they ask forgiveness even though it was done for the school.

FRESHMEN

The Freshmen had a very interesting program Feb. 11, in their class meeting with their sponsor Mr. Penn. Before the program a number of business problems were settled.

The program read as follows: Reading "In the Department Store"—Vondoe Lewis.
 Song "Our Texas"—Lorene White and Darlene Tankersley.
 Talk "My Opinion of the Freshmen Class"—Keller Greenfield.
 Several new yells were practiced.

CUB CLUBS

The Science Club met on Feb. 5, in the Science Room. They had a most interesting program and was given by two boys, Bill Hardin and Bobby Ayreas. It was an experiment "Centrifugal Force." After the experiment the club adjourned until their next meeting.

The Lillianna Club met Tuesday, February 5. The following report was given:
 Lincoln's Early Life—Donnie Mae Smith.

Plans for a picnic were discussed, but the club adjourned without making any definite plans.

GIRLS BASKETBALL WORK-OUT UNDER SUBSTITUTE COACH

The Girls' Basketball work-out was very exciting and snappy under the supervision of the substitute coach Jack D. Wester. This substitution was due to the illness of coach M. L. Penn. The girls had a good time, as well as a hard work-out, and wish to express their appreciation. Mr. Wester was relieved of his job Monday by the return of Coach Penn.

DEBATE

The debaters are coming along fine this year. They have been meeting in the afternoons after school and working very hard. These teams have been invited to a practice tournament. The debaters are the following: Irene Adams, Evelyn Shepherd, Catherine Cates, Mary Louise Tinkler, Dorothy Randle, Roy Chambliss, Wendell Smith, Nelson Smith, Bill Childress and Bill Savage.

We hope to make a good showing with the teams this year.

TENNIS CLUB

Some of the students of Brownfield High are certainly making plans for winning places in tennis this season. They have been coming out about eight strong, four girls and four boys, for about three weeks. Several more are expected to enter this event as soon as basketball season is over.

Some strenuous work is being done by those working out at present and they plan to be going strong by Inter-scholastic League meet. Plans are being made for two tennis courts on the campus. This will greatly benefit those who are interested in this sport and will probably encourage others to join the club.

Those who have renewed for their Herald since last week are: C. F. Hamilton, J. D. Williamson, Grandma J. O. Brown, Mrs. Dalt Lewis, W. B. Toone, Homer Faught, J. O. Hobbs O K Tongate, J. W. Anderson, T. A. Smith, Walter Luker, Jack Holt, W. J. Murray, A. C. Finley, W. E. Winn, J. R. Martin, and C. W. Gaston, city and routes; J. L. Mill-sap, Meadow; Geo. Alexander and F. M. Ellington, Tokio.

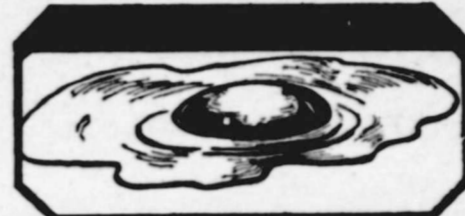

We are glad to number W. T. Littlefield, route 2, as a new reader.

Finest Quality Eggs Are Now Laid-to-Order

Controlled Feeding Makes Them Look and Taste Better

A revolutionary development resulting in vastly improved egg quality has been made possible in the past few years by two great factors in the poultry industry, according to Meade Summers of the poultry department of Purina Mills. One of these factors, he says, is the growing consumer demand for eggs that look better and taste better—eggs that are uniformly better than average in appearance, color, flavor, and keeping qualities. The other has been the willingness of the producer to recognize this inevitable consumer trend and to cooperate in the production of eggs that have all these quality features.

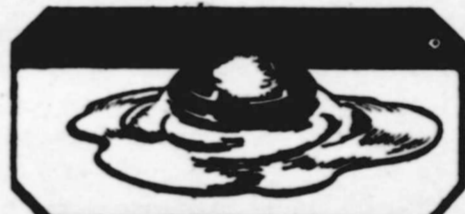

"It is this combination of circumstances," says Summers, "that has made absolute control of egg quality a definite achievement today and has brought laid-to-order eggs within easy reach of every producer and consumer. For today any poultry raiser, from the back yard flock owner to the big commercial operator can easily and economically get the finest of eggs, without variation, from his birds. Which

This is how an AVERAGE fresh egg looks by letting hens pick and choose their feed. Such eggs vary so much in color, body, and flavor that they're not nearly as appetizing when served on the table. Nor do they give the best results in recipes.

means naturally that folks who use eggs can now purchase exactly the kind of eggs they prefer, anytime and anywhere—eggs which stand up well, with attractive light yellow yolks on thick firm whites, eggs which always have the same wholesome color and healthful flavor, eggs that always look and taste their best in every way they are prepared and served.

"The fascinating story of the successful development of quality egg control is all told in a bag of feed," Summers says. "It's a story that began 8 years ago in the research laboratory and experiment station. At that time Purina research men, observing the rapid growth of this quality egg market, began an intensive experimental program to make it easy to produce eggs made to order in all quality requirements. For six years, thousands of hens were used in a quality egg investigation which included a close study of breeding, feeding, care of eggs, housing, flock management, total egg production, cost of production, and the health and vigor of the birds—every factor that might effect egg quality."

Controlled feeding does this. Makes eggs that stand up well and always have the same appetizing color, flavor and appearance. Every egg looks better, tastes better, and is more wholesome and healthful. They do better in all egg recipes too!

"In the last analysis, feed is what makes eggs. The kind of feed used, the researchers decided, would undoubtedly have the most direct bearing on the kind of eggs produced. Accordingly, every practical combination of egg making ingredients was included in these feeding tests and results carefully observed. The eggs, produced, too, were checked in the laboratory as to size, shell texture, color of yolks, condition of whites, keeping qualities, taste, and food content.

"As a result of these years of experiments, we've found that a hen is almost 100% under the control of the feeder—that whatever is put into the beak comes out in the egg."

"Resulting from this experimental work is a single complete feed built from a proven egg making formula that never varies from bag to bag. It gives hens everything they need in feed for producing quality eggs. There is no chance for the hen to upset the formula. She can't pick and choose her feed to suit herself. Every bite she takes is the same—ever mouthful provides the same balanced quality egg making ingredients. Besides giving quality control, this feed has been found to promote higher sustained production, maintain body-weight and condition, and reduce hen mortality. Too, it has made feeding easier since here's nothing else needed but water."

"Controlled feeding has made quality eggs a household institution. There is no reason today for producer or consumer being satisfied with anything less than eggs which are uniformly the best in size, color, appearance, flavor and food value, when such eggs are readily produced and so available to every housewife."

Nolan W. Floyd, son of Mr. and Mrs. Luther Floyd, of Rails, has received the appointment of Cong. Geo. Mahon of this district, to enter the U. S. Military Institute at West Point. Floyd is now stationed at Fort Bliss, El Paso. Ray Brownfield Jr., student in the New Mexico Military Institute, who graduates this year, was an applicant.

JUST SUPPOSE

Just suppose that the newspaper publisher was as hard boiled as some of the other business men of our town. If he was you would pay for church notices, school notices, cards of thanks, obituaries, extra papers and a thousand other little things.

The merchant charges for a penny piece of candy, did you ever hand the editor a penny for a small piece of paper or an envelope. If you did it probably made him feel bad.

The newspaper publisher is different, you say, we take the paper and pay for it possibly one year out of two, and those little things don't cost him much anyway. Neither does a penny piece of candy cost much but a million of them make \$10,000.00.

Give the newspaper man a square deal. 90 per cent of what he does is for the good of the community and he earns much more than he gets all ways. Start by coming in and renewing your subscription to the old home town paper.—Jayton Chronicle.

Relief Dollars Go to Permanent Improv'ts

AUSTIN, Feb. 10.—Work projects operated by the Texas Relief Commission last year not only brought an opportunity to work for aid received to thousands of men and women, many of whom had despaired of ever working again, but also left improvements of lasting benefit all over Texas, it was declared by Adam R. Johnson, state administrator, as he scanned the engineering department's annual report.

Significance of work relief projects is apparent in the fact that at the close of the year there were 6,229 projects being operated, and during month of December there were 158,940 certified work relief cases. Moreover, it is estimated 3,000 projects were completed during the year.

Budgetary labor earned \$13,000,000 on these projects between April, closing date of CWA, and December 31, it was estimated.

In all of the nine districts into which the state has been divided for the purpose of expediting the program, there are outstanding permanent improvements to communities made possible by relief labor.

WOULD UNEMPLOYMENT INSURANCE REDUCE THE SEVERITY OF DEPRESSIONS?

Unemployment insurance wouldn't add one cent to the purchasing power of the United States, declares Virgil Jordon, distinguished economist and president of the National Industrial Conference Board, Inc., in a debate in the current Rotarian Magazine. To this, Secretary Frances Perkins of the Department of Labor, replies that if unemployment insurance had been in effect several years prior to 1929, the benefit payments would have gone a long way toward stabilizing industry and reducing the severity of the depression.

In normal times, Mr. Jordon points out, the unemployed fall mainly into four groups: vagrants, the incompetent, the chronically unemployed, and the indigent. If these are taken out of the pool of unemployment, the unemployment problem becomes of little social importance. The situation is different in a depression. "But," he says, "all students of this subject are in agreement that unemployment insurance cannot take care of depression unemployment."

Insurance, therefore, is primarily a relief measure, according to Mr. Jordon, and should be so judged. If continued into normal times it will tend to make unemployment permanent, and will impose a severe tax on workers. "Workers in insured occupations should be given a preferred status in society. The rest of the country, including farmers, would be paying a tribute in order to give unemployment relief as a legal right to a specially selected group."

Secretary Perkins, while admitting that insurance alone is no cure-all, and will not put men back to work, defends it as a necessary instrument for social security. "Under modern conditions, it is practically impossible for the individual worker, however thrifty, to lay by, through his own efforts, sufficient to tide him over the rainy day of prolonged unemployment or loss of earnings due to sickness or advancing age."

The cost of unemployment insurance, she believes, should be considered a necessary part of the overhead cost of production, and it would be a charge relatively so small as to be almost negligible.

"In Great Britain," says Miss Perkins, "a considerable sum of money was kept in circulation through the payment of these insurance benefits. It was spent on the daily necessities of life, and saved thousands of small merchants from disaster."

HARRIMAN DECLARES 2,000,000 JOBLESS ABSORBED

"We are just now entering upon the era of better times," said Henry I. Harriman, president of the Chamber of Commerce of the United States, in an address at Pittsburgh late in January. "The rise in retail sales last year, a one billion five hundred million dollar boost in farm income and substantial increases in dividend payments are unmistakable signs of the economic upswing."

Mr. Harriman declared that Americans "are still rugged individualists but they have their fill of ruthless individualism."

"Some measure of social control," he said, "is imperative to maintain and insure orderly development. And it follows that this control can best be exercised by the Government."

"There are now," he added, "about 7,000,000 unemployed, 2,000,000 fewer than in January, 1934." His figures, which fall far short of American Federation of Labor estimates, he said were based upon reports from all types of industries in the country.

Forrester Notes

There were not very many people out to Sunday school Sunday due to the weather.

Mr. and Mrs. J. A. Forrester and daughter, Helen left for Palestine, Texas to visit relatives, Friday.

Mesdames Cox and Jackson visited Mrs. Francis Mathis, Thursday.

Miss Espray Hulse visited Miss Sibyl Thomason Friday night.

Mr. and Mrs. E. D. Duncan's little son is very ill with pneumonia.

Mr. and Mrs. W. W. Thomason visited Mr. and Mrs. Wendell Stephens of Poole, Saturday night and Sunday.

Miss Eulah Belle Ragsdill visited Miss Gladys Newsome Friday night.

Little Tommie Hollifield is real sick with the flu.

Singing next Sunday night. Everyone come.

NEWSLESS, THEREFORE A VALUABLE PAPER

Under the Texas head in "Gossip of Newspapers, Editors and Publishers" in last week's Auxiliary appeared a news item which was an editorial in itself. For the benefit of such readers of this paper as may not have noticed the item, we reproduce herewith the gist of it:

Clyde Warwick, publisher of the Canyon News, has just published and circulated a very unusual edition. As he terms it, it is a "newspaper without any news." From his forms he lifted all the type covering news and feature material, leaving that space blank. Only the advertisements were printed. In a letter accompanying the edition, Warwick called attention to the fact that it was the type of publication that a business house goes when they confine their advertising to a newspaper without any reader interest.

No doubt, Publisher Warwick's "newsless newspaper" and the letter which accompanied it was a fine piece of promotion for his publication among his advertisers. But it is also a good object lesson to publishers who may believe that the volume of advertising alone is an accurate gauge of a successful newspaper and who minimize the importance of putting into it the element which makes that advertising of any value to the advertiser—the reader interest in its news and features.—Publishers Auxiliary.

HOBBIES THAT HELP TO FIND YOUR VOCATIONS

Hobbies are often an excellent way of helping children to find their vocations. Roy Giles cites a number of examples in the current Rotarian Magazine. The late Cyrus Curtis, founder of the Curtis Publishing Company, as a small boy published an amateur newspaper. Helen Hoskinson, famous magazine cartoonist, as a child loved nothing better than to caricature her teacher and fellow-students. A little boy named Boucher was a tireless constructor of small boats—today the H. E. Boucher Manufacturing Company is the largest concern making miniature boats and parts.

Some grown ups have turned hobbies into profitable businesses. The kiddie-car was devised by Clarence W. White in a whittlers idle hours. A fisherman invented a new kind of bait to attract more fish—and the Al Foss Pork Rind Minnow, nationally known, was the result. A Chicago bond man named Dodson built a bird-house for fun—today, Dodson bird-houses are sold far and near.

"Hobbies," says Mr. Giles, "make us interesting to other people and interested in life." He offers this prayer for parents: "And give to my sons and daughters the hobbies which enlist their keenest interest, which arouse their greatest enthusiasms, which make them painstaking and persistent, and in which they can lose themselves completely, Amen."

CHURCH OF CHRIST Jas. A. Fry, Minister

Bible school opens at 10 A. M. Come in time to attend one of these classes.

Preaching at 11. Subject: "Conversion." Communion at 11:45. Senior young people meet at 6:15 P. M. Juniors at 6:30.

Preaching at 7:15. Subject: "The Holy Spirit's Part in the Conversion." Women's Bible Class meets Monday at 3 P. M.

Mid-Week Service Wednesday evening at 7:30.

We will go to Johnson for a service at 3 P. M. Sunday.

No, you can't worship God as commanded and stay at home. His command is: "Forsaking not the assembly."

A cordial invitation is extended to all.

The body of L. C. Lattimer, whose death from falling from a truck Sunday near Meadow, was removed to Lubbock Tuesday afternoon, and burial was to be made in the Abernathy cemetery.

C. D. Boyce, of this city, is numbered with the new readers.

Nation's Population Gain 939,000 in Year

WASHINGTON, Feb. 9.—Latest census estimates show the population of the United States and all islands and possessions has increased 4,666,565 since the 1930 census.

The estimated population now, based on the latest reports, is 141,574,000, of which 15,000,000 live outside Continental United States.

These estimates show a gain of 939,000 over 1933.

THOUSANDS OF DOLLARS RECOVERED TO WORKERS

DALLAS, Texas, Feb. 10.—During the four-weeks period ending February 2, pay restitution in the sum of \$62,963.16 was recovered for 1,310 workers in Arkansas, New Mexico, Oklahoma and Texas through adjustment proceedings of the four State NRA offices in the Eighth National Recovery Administration Region, according to a report which has just been released by Ernest L. Tutt, Regional Director, whose headquarters are here.

These adjustment proceedings, covering 463 separate violations of code and Presidential Reemployment Agreement wage and hour violations, represent an average of a trifle of more than \$48.05 per employee, the report shows.

The following schedule reflects violations, adjustments and back-pay restitution by states:

Arkansas: Total complaints adjusted with restitution, 27; total restitution or due backpay obtained for 86 employees, \$2,943.81, or \$34.24 per employee. J. J. Harrison, headquarters at Little Rock, is State NRA Compliance Director.

New Mexico: Total Complaints adjusted with restitution, 14; total restitution or due back-pay obtained for 665 employees, \$2,596.90, or an average of \$39.95 per employee. Fred C. Rogers, Santa Fe, is State NRA Compliance Officer.

Oklahoma: Total complaints adjusted with restitution, 80; total restitution or due back-pay obtained for 128 employees, \$10,679.44, or an average of \$83.43 per employee. Ben J. Wilson, Oklahoma City, is State NRA Compliance Officer.

Texas: Total complaints adjusted with restitution, 342; total restitution or due back-pay obtained for 1,031 employees, \$46,733.01, or an average of \$45.32 per employee. Sherwood H. Avery, Dallas, is the State NRA Compliance Officer.

One of the direct outgrowths of these adjustments is the release for the purchase of goods and services from merchants etc., in these four states of \$2,953.16 in the hands of 1,310 people, or an increased buying power of \$48.05 per person for each of the 1,310 employees.

Mr. K. C. Holmes of Lubbock, district supervisor for the recent farm census, has notified the Herald that on account of the fact that many farmers were away from home, and that others had moved to new locations, that many were missed by enumerators. All such will please get in touch with the local enumerators, or communicate with Mr. Holmes at Lubbock.

L. D. Winingham, of Meadow, is a new reader of the Herald.

ANTI-CRIME "WEST-POINT" WILL BE ESTABLISHED

As one of more than a dozen definite results of the national conference on crime held in Washington in December, Attorney General Homer S. Cummings has announced the formation of a committee to establish a "West Point" for education of officers and soldiers in the national war against crime. The committee, headed by Justice Miller, special assistant of the attorney general, was selected under the terms of a resolution adopted by the crime conference and is the first step of an eight-point program for crime prevention.

The committee will prepare plans for establishment of a national scientific educational center for police and other officials in Washington. In addition to training in all branches of

crime work, an important function of the center will be to coordinate the activities of all kinds of crime prevention and detective agencies, city, state and local, throughout the country and to assist local forces.

Dr. E. C. Davis reports the arrival at the home of Mr. and Mrs. E. G. Brock, this city, twins, a boy and a girl on the 6th. The boy will be known as Lawrence Leo, and the girl Florence Cleo. The young man tipped the scales at 8 pounds and the little lady at 7 pounds.

R. L. Payne, rural supervisor for Bailey, Cochran, and Yoakum counties, and brother, C. R. Payne, assistant supervisor, both of Lubbock, passed through last week on their way to Plains. C. R. called on the Herald as he is an old hand at the printing game.

Pleasant Valley News

(Delayed)
The Bible class met Sunday with a fair crowd. Everyone is invited to attend and help make it the best in the county.

Sunday was our regular singing day. There was a good crowd and plenty of good singing. Our visitors were Mr. Sears of Gomez and Mr. and Mrs. Arthur Erwin of Challis, whom we were very glad to have. Everyone is cordially invited to our singings.

Mr. and Mrs. Peacock visited in the Tapp home Sunday.

Mr and Mrs. Gandy visited Mr. and Mrs. Perkins, Sunday

Miss Murle Moore spent the week end with the Steen girls

Mr. and Mrs. C. D Moore spent the evening with Mr and Mrs W E Steen Sunday

Miss Patricia Mae Steen visited Miss Syble Willis Sunday

The flu is raging in our community. Very few families have escaped it.

Miss Faye Perkins visited Miss Atie Montgomery Sunday.

Three of the Benton children are absent from school on account of scarlet fever. We are glad to report that they are all improving.

Mr. and Mrs. Ewell Stockton and family spent Saturday night and Sunday with her parents, Mr. and Mrs. Willis.

Mr and Mrs. Paul Peacock visited in Post Friday night and Saturday.

The U. S. Dirigible Macon plunged in the Pacific Tuesday afternoon off the fog-cloaked coast of San Francisco. Quick work of U. S. warships nearby saved 81 of the crew of 83. The fate of the other two men, radio operator Ernest Edwin Dailey and a mess attendant, Edward Quinday, of the ill-fated Sky Queen, had not been determined more than 4 hours after the crash.

P. R. Cates informed us this week that the government was building about 64 homes of 3 rooms and better in Terrell for people under the National Housing Act. Full details in the Herald next week.

Our 23 Year Column

Gomez: Weather warm enough to start farming. Tom Taylor was on his homestead claim in New Mexico. Messrs. Winn and Parks were drilling a well for Grandma Stapp. A good program was rendered at the school house Friday night. Miss Addie George had returned from a long visit to Spur. Walter Gainer was a Plains visitor. The little folks were preparing for a Valentine program. Rabbits were reported to be playing havoc to apple trees. Two new pupils had enrolled. Messrs. Lusk and King of Comanche county were here prospecting. Messrs. Green, Arthur More, and Will Snodgrass were having phones put in. Mr. Rotan had returned after a year's absence.

Harris: Mr. Harris was killing hogs for both home use and the market. Jay and Ed McPhaul attended church at Harris. Lynn, Roy and Glen Harris were building sheds for Mr. Dooley. Miss Maymie Powell had closed her school at Ellis Chapel. E. E. Simms and family had moved to Gomez. Rev. B. F. Dixon of Plains, was to preach the 4th Sunday.

Primrose: The sandstorms were arriving regularly. Frank Howard passed through on his way to Lubbock with grain. Hope Timmons had sold two tons of maize for \$15 per ton. The ladies were helping their men keep the wolf from the door. Mrs. Blankenship had sold 32 dozen eggs the week before; Mrs. Hope Timmons 16 dozen; Mrs. Hershell Timmons 50 dozen; Mrs. Lee Cowan 11 dozen. They received 17c per dozen. A Leap Year party was had at the Cowan home. Dock Peeler had returned from Lamesa where he had been attending school.

Editor Frank White of Crosbyton, had announced for State representative of the 122nd district, which included Terry county at that time. Geo. W. Neill had announced for reelection as county judge of Terry county. E. T. Powell and Chas. Copeland had business in Lubbock. Will Adams had business in Slaton. Work was to soon start on an eight room home for A. M. Brownfield. Will Mathis was occupying the Kinard residence. Dick Brownfield had sold his old residence to Prof. Hunter. Messrs. Joe Stokes, P. B. Hall, Bud Millican, and Bob Majors, were over from Tahoka. N. N. Ross had several bushels of corn shelled. J. V. Newson engaged three loads of corn to the local mill. Alvin Duke was working for R. G. Wood on the farm. W. D. Winn and W. B. Carson had renewed. Messrs. McAdams and Rather of Tulia, were business visitors here. Edwin Groves brought in 50 bushels of corn to the mill. M. V. Brownfield had returned from Sweetwater, accompanied by his son, Almer. J. T. Gainer and son, Walter, and Milt Pulliam, of Plains, passed through on their way to Tahoka. A new cowboy had arrived at the home of Mr. and Mrs. Eb Ivey on the T4 ranch. Mr. Moorehead was in with a nice porker.

A. C. Copeland had completed about four miles of the Tahoka road. S. L. Hunter was in with eggs and butter for sale. C. D. Roe and family had arrived from Collinsworth county to make this their home. They moved on the Perry place in the Groves community. Tom May, Bert French and Hugh Snodgrass were all about to announce for hide and animal inspector. A railing was to be built around the judge's and witness stand in the district court room, and more seats were to be provided. The Seminole National Bank was robbed of \$3,500 at the noon hour during a bad sandstorm on Thursday, and left the cashier locked in the vault. All telephone wires out of Seminole had been cut. Miss Effie Brownfield had entertained the little folks with a party Friday night. Miss Mamie Powell had entered Canyon normal. Jack Bryan had recovered from his illness. A railroad was being surveyed from Fort Worth to Post and Tahoka, on the Post lands in Hockley county. The Maids and Matrons met with Mrs. Dora Copeland, with Mrs. Randal as teacher. All for this week.

REDWOOD GIANT FALLS TO EARTH IN YOSEMITE

Yosemite National Park, Cal.—The most splendid and most mighty of trees crashed to earth—a little tired around the roots after 4,000 years of living.

"Stable tree," one of the oldest living things in the world, and the pride of Mariposa grove of big trees, suddenly hurtled to the ground with a tremendous roar.

"Stable tree," was so called because army cavalry used to house in the enormous hollow at the base of the towering giant redwood.

The magnificent redwood was 266 feet tall and its girth at the base was 92 feet. The diameter at the base was 29 feet, five inches.

The Magnolia Petroleum Oil Co. is leasing land in east Terry.

Mr. and Mrs. Harvey Culp of Plains visited Mr. and Mrs. Lazelle Huckabee the first of the week.

ALEXANDERS

MRS. P. R. CATES PASSES

Mrs. Florence Cates, wife of P. R. Cates of near this city, passed away at the Treadaway-Daniell Hospital here at 11:00 o'clock Saturday night, February 9, 1935.

She bore her afflictions patiently as she hovered between life and death for a brief period of a week.

We are never ready to give up our friends and loved ones, especially a friend and loved one like Mrs. Cates. We all miss her bright smiles and gentle voice, for she was indeed a friend to every one whose privilege it was to know her. She always wore a bright winning smile for every one she came in contact with. She is missed by her friends and loved ones more than words can express and there is a place vacant in that home which can never be filled—that of a mother. How many times the members of that family have stopped to hear that gentle voice which they will never hear again on this earth. But we are thankful for the hope of meeting her in that sweet "bye and bye." Only a short time before she bid this world "good bye," she was aware of the fact that her time here was very brief and she called her family to her side and told them that she was prepared to go and that she was very happy.

"A loving one from us is gone, A voice we loved is stilled, Jesus has sweetly called her to yonder's shining shore—

Yet, again, we hope to meet her, When the day of life is O'er, And in Heaven with joy, we will greet her where no farewell tears will be shed.

Sh is sleeping, sweetly sleeping in that new made grave today, No, not dead, but only sleeping 'til the resurrection day.

We must look to God our Father, Who will all our sorrows share, He will lead us on to Glory, yet to meet our loved one there."

The funeral service was conducted by Rev. Hale, pastor of the First Baptist church of this city, at 3 o'clock Sunday afternoon, February 10. The church was filled with friends, who came to pay their last respect to Mrs. Cates, despite the fact that the weather was very disagreeable.

She is survived by her husband, and little son, Don. She also leaves to moan her untimely going, a mother and one brother, who were unable to attend the funeral, a number of other relatives and a host of friends.

Dear friends, do not forget to visit and comfort the members of that family who miss her so, and may God grant that theirs will be an unbroken family up yonder.

—A Friend.

Mrs. Otis Longbrake and little son Ronnie of Odessa are visiting Mr. and Mrs. H. H. Longbrake.

Drill Core Determines What is Under Earth

Austin.—The late Dr. J. A. Udden, formerly the director of the University of Texas Bureau of Economic Geology, was the first man in America, and perhaps anywhere, to realize the importance of studying by means of the microscope the more or less pulverized rocks brought out of a drill hole by the bailer or washed up by the constant stream of fluid used in rotary drilling, according to C. L. Beker, geologist in the Bureau. He established in the Bureau at Austin the first laboratory for the study of well cuttings.

"Today all large petroleum and gas companies the world over have these laboratories and almost every driller of a deep well preserves them for study and determination," Mr. Baker said. "By this means very much has been learned concerning the rocks buried beneath the surface and the knowledge acquired leads very often to valuable discoveries of oil, gas, water or mineral deposits. In Texas by this means much has been found out about the old Texas of late Paleozoic time and many facts have become known which it would have been impossible to find by the study of the geology of the surface.

"The Bureau of Economic Geology during the 25 years of its existence has acquired a large collection of well cuttings which have already proved very valuable in the study of the sub-surface geology. When new wells are drilled the geologic conditions found in them can be compared to great advantage and profit with those known from studies of drilling samples procured from the older wells."

Bruno Richard Hauptmann, Wednesday night, was convicted of first degree murder, and sentenced to the electric chair, for the kidnapping and murder of the Lindbergh child.

Miss Francis Brittain, of Lubbock, was a visitor in the home of Mr. and Mrs. Jack Stricklin Jr., Sunday. Her father was former sheriff of Gaines county.

Look at the new low prices . . .

Prove the greater operating economy

and as for the performance

DECIDE WITH A RIDE

CHEVROLET has always specialized in giving extra value. But never before has Chevrolet offered such big and outstanding values as these fine Chevrolets for 1935. The New Standard Chevrolet . . . powered by the improved Master Chevrolet engine . . . setting a new high in Chevrolet performance, stamina and reliability. And the new Master De Luxe Chevrolet . . . beautifully streamlined . . . longer and notably lower in appearance . . . the Fashion Car of the low-price field. Here, indeed, are values that excel all previous Chevrolet values. You

can see the low prices . . . the lowest ever placed on cars of such high quality. You can prove the greater operating economy. For tests show that the new Chevrolets give even higher gasoline and oil mileage than did last year's models. And as for performance . . . well, there's only one thing we ask you to do . . . decide with a ride! You will experience getaway—power—and smoothness so extraordinary that you will be happy to confirm the wisdom of the statement: Choose Chevrolet for quality at low cost. May we suggest that you drive one of these new Chevrolets—today?

SOCIETY

CHURCH NEWS

Baptist Missionary Society ladies met in three Circle groups Monday afternoon. The young matrons met at Mrs. Wayne Brown's with Mrs. Sexton as hostess in a social meeting. Games were played and gifts were received from "Sunshine Friends." Hot tea and cake was served to six teen ladies. Names were drawn again at the close of the program.

North Circle met with Mrs. S. H. Daugherty with eight present in a Bible study. Sandwiches, cookies and hot chocolate were served.

South Circle also had a Bible lesson at the home of Mrs. Will Adams. Doughnuts and hot tea were served to four members present.

Methodist Missionary ladies met with Mrs. Downing in a monthly "World Outlook" program. Mrs. H. Longbrake led the lesson. Hot tea and cake was served to twelve ladies. The hostess was surprised with a handkerchief shower and a cake complimenting her birthday.

Rev. Fry led an interesting discussion Monday afternoon when ten ladies of the church of Christ met at 3 at the church. The last chapter of the book of Romans was their study.

MRS. DAVIS PARTY HOSTESS

Members of the Two Table Club met at the home of Mrs. E. C. Davis Wednesday afternoon of last week to play bridge. Table cuts were a nest of measuring cups and went to Mrs. Cecil Smith and Mrs. A. J. Stricklin. Mrs. Smith also received a relish dish for high score prize. Other guests were Mesdames Paul Lawlis, Flem McSpadden, Kyle Graves, G. Daugherty, W. C. Smith and John R. Turner. A vegetable salad course with heart shaped sandwiches, baked apples and hot tea were served at the close of the games.

Born to Mr. and Mrs. Jack D. Wester, a boy, on the 11th.

EL PROGRESSO STUDY CLUB

Mrs. Sumner was hostess Monday night to the El Progreso Study Club at Mrs. Flem McSpadden's home. The subject for discussion was Current Foreign Affairs. Irene Duke was leader for the program. Miss Laura Lee Jones spoke on "Austrian Disturbances"; Miss Bessie Chisholm on "Hitlerism in Germany"; Miss Louise Wolforth on "Soviet Russia." The hostess served toasted sandwiches, asparagus salad and hot tea. Others present were Misses Fay Martin, Gertrude Rasco, Kathrine Holgate and Mrs. Madison Weaver. The club has changed their time of meeting from Tuesday afternoon to Monday night.

ENTERTAIN NIGHT CLUB

Last Friday night "Our Night Out" club enjoyed a party with Mr. and Mrs. Leo Holmes. Four tables were placed for playing bridge. Stuffed tomatoes with shrimp, potato chips, cheese wafers, pickles coffee and apricot fluff were served to Messrs. and Mesdames R. L. Bowers, Joe J. McGowan, Lester Treadaway, Paul Lawlis, G. Daugherty, James H. Dallas, Claude and Clarence Hudgens. Cocktail recipes were given Mr. Daugherty and a Valentine box of candy to Mrs. Dallas for high scores.

TWO PUPILS IN PRIVATE RECITAL

On next Thursday afternoon, February 21, Miss Gertrude Rasco and Mrs. M. L. Penn will present two pupils in a private recital. Jane Brownfield will be presented in piano. She will be assisted by Doris Lee Gore in expression. The program will be given at the home of Mrs. L. M. Wingerd between the hours of four-thirty and five-thirty. It will be presented before a group of friends and relatives.

These two young ladies have been studying in the respective departments of music and expression for several years.

Mrs. L. E. McClish was hostess to the Priscilla Needle Club last Wednesday afternoon.

BIRTHDAY SURPRISE DINNER

Mrs. Elzie Eicke entertained some thirty-five relatives Tuesday evening at the home of her daughter, Mrs. Red Woods, honoring Mr. Eicke's birthday. The birthday cake with candles was in the center of the table. A chicken dinner with salads, pies, cakes and all that goes to make a lovely dinner was served.

Mrs. Arthur Sawyer was hostess to the Ideal Bridge Club last Wednesday afternoon.

Mrs. C. R. Rambo is recovering from a severe attack of the flu, and expects to be in her office at the court house the last part of the week.

Mrs. Ellison Carson, daughter of Mr. and Mrs. F. M. Ellington, was operated on for appendicitis at the local sanitarium Friday night, and is reported to be doing nicely.

On account of bad weather Tuesday night the PTA failed to meet, and postponed the meeting till next Tuesday night, Feb. 18.

James Parker underwent an operation at the Treadaway-Daniell Hospital last Thursday for appendicitis. Also, Kathryn Graham, daughter of Mr. and Mrs. Dillard Graham underwent an operation for the same trouble that day. Both are doing nicely.

\$75,000 INCOME FROM FUR SALES

KERRVILLE, Texas, Feb. 6.—The Kerrville Fur Company through its thirteen branches has shipped out 90,000 pelts valued at \$75,000 during the season which closed Jan. 31. The firm has on hand 20,000 pelts to be shipped. It handled \$16,000 worth of furs last season when prices were 25 per cent higher.

Lower prices this season are attributed by dealers to the fact that Germany, which consumes about 80 per cent of the United States crop of skunk and possum pelts, has become a closed market. There was a large carryover last year and an even larger end-season supply is expected this year.

Drouth and the low prices which discouraged trappings are blamed for the smaller number of furs handled this year.

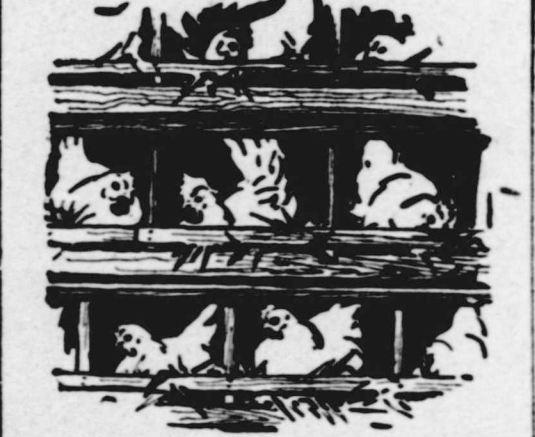

Lost 20 Lbs. of Fat In Just 4 Weeks

A St. Louis, Mo., lady wrote: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—a quarter pound jar lasts 4 weeks—you can get Kruschen at any drug store in America. If not joyfully satisfied after the first bottle—money back.

Proper Care Makes Hens Pay Better

"Anything goes" is the casual attitude toward the average flock of chickens during every period of low egg prices. Just the most desultory feeding and management—enough to get by—seems to be the inevitable lot to which the layers are subjected.

Provide one nest for each four to five birds. Keep the nesting material clean and replace as often as necessary.

"Such a period and such a condition have long prevailed; but today things are different," says J. H. McAdams of the Purina poultry department. "The turn has come. Egg prices are advancing; getting higher and higher. Now there is the general feeling that the flock should be given the best of care and a sincere effort is being put forth to do so.

"This turn of affairs naturally brings up the question as to what is the most practical plan of feeding and management that will make it possible to get heavy egg production at this time of the year when eggs are money," McAdams says. "The answer is that there are a few fundamental rules which if followed will get the desired results—namely lots of eggs that cost little to produce and sell high.

"In the first place the hens should have a warm, dry, comfortable place to live and their laying house should be kept well ventilated, taking every precaution against sudden temperature changes. Overcrowding should by all means be avoided by allowing 3 1/2 to 4 square feet of floor space per bird. A clean dry litter of straw or peat moss or similar material at least four inches

1934 BANK FAILURES FEWEST SINCE 1920

Washington.—Long strides toward the rehabilitation of America's banking structure since the crisis in March 1933 were reported in the monthly bulletin of the Federal Reserve Board.

Due to Federal activities, the Board reported that the number of unlicensed banks, or banks which had not obtained licenses to reopen, had been reduced from more than 4,500 to less than 200 at the end of December.

Bank suspensions in 1934 were reported fewer than in any similar period since 1920. The year's failures comprised 56 institutions, with deposits of \$37,000,000. Only one of these, with deposits of only \$40,000 was a member of the Federal Reserve system.

P. G. Stanford was among the Plains visitors here Saturday afternoon.

W. B. Collins came in Friday from Dallas, and reported good rains all the way from Dallas to Rotan. Said the rain seemed to quit at the river.

W. G. Wright of the Johnson community, is moving his family to Mayhill, New Mexico.

Jim Neill and Miss Martha McClish, Tech students, spent the weekend at home.

P. F. Bruce and son have taken charge of the produce station next door to the Chisholm Service Station, and have re-named it the Peoples Produce.

Geo. W. Neill, former citizen and county judge of Terry county, but in the abstract business in Lubbock, at present, was down Wed.

"Are you a doctor?" asked a young lady stepping into a drug store. "Now," replied the youth behind the white counter, "I'm a fizzician."

"Ah," said the customs officer producing a bottle, "I thought you said there were only old clothes in that trunk?"

"Aye, that's ma night cap," said the Irishman.

COURTING EXPENSIVE

Who goes to court
And does not wed
Quite often goes
To court instead.

Love resists competition. It gives all and demands all.

Some old parents are about as welcome as some new babies.

The unpardonable sin is the one committed by the other fellow.

Preparation for war is a constant stimulus to suspicion and ill will—James Monroe.

To a really big man authority means only responsibility.

New Judge

Charles F. Kettering, whose creative genius produced the self-starter and other developments contributing materially to the evolution of the modern motor car, joins the Fisher Body Craftsman's Guild as a member of the international board of judges. This unique body, limited heretofore in its membership to the presidents and deans of leading technical schools and colleges, passes each year on the models submitted by boys in the coach-building competition of the educational foundation, and sanctions the distribution of awards. Mr. Kettering, who becomes the fifteenth member of the board, is the director of research for General Motors.

The bigger the fish the more easily it gets away.

Some cities have the best judges money can buy.

Beware of the man who talks much of his honesty.

A few eat to live, more live to eat.

Trained to Save Lives

First aid certificates were issued by the Red Cross last year to 130,972 persons who finished the course of instruction put on by the chapters. Included in this list were more than 70,000 foremen, time clerks and other key employees on Federal Civil Works projects. Further evidence of the government's endorsement of the first aid program is found in projects now under way where Red Cross chapters, at the request of the War Department, are giving first aid instruction in CCC camps. Where it has been requested by Army engineers the same instruction is also made available to key men working on federal water conservancy and food control projects.

War Veterans' Problems Increase

Last year American Red Cross chapters dealt with the problems of nearly 400,000 veterans and their families. The workers find that as the years go on their responsibility increases rather than decreases. Changes in legislation, the increasing age of veterans and the consequent increase in physical ills, bring new needs for sympathetic treatment; by trained Red Cross workers. In addition to this service to veterans the Red Cross served as the official medium between the people and the men in military and naval service, giving aid through this service last year to 6,979 men in the army, navy and marine corps.
