Brownfield Entertained The Bankers Monday

Brownfield had as their guests Monday, some fifty of the representative bankers and their wives of this section, known officially as the South Plains Bankers Association...

Many of the bankers and their wives were interviewed after the sessions were over, and all were loud in their praise of the way they were entertained and welcomed...

The sessions were held in the Rialto Theatre, where registrations began in the lobby, and not a few city officials, business men and farmers registered as guests...

At this point, Mr. McDuffie, to put it in everyday slang, sang his swan song. In his short address, Mack told of the pleasure he had as their official, thanked them for their fine spirit of cooperation...

The next address was delivered by W. L. Pier, vice-president of Fort Worth National Bank. Mr. Pier's subject was "Dust Storms" but dust storms and sandstorms are little known to this year occupied little of his time...

The next address was Country Banking, delivered by Walter B. Lee, of the Security Bank of Spur. By the way, Mr. Lee being off the caprock, does not belong to this regional association...

J. M. Young and family are entitled to a pass to the Rialto Theatre to see "BABOONA" Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

stead of Lee. There was plenty of meat in his address mixed in with his witticisms though.

The first section of Round Table discussions was led by John D. Mitchell, V. P. of the Lubbock National bank. Mr. Mitchell gave a good thesis on the little known Federal Housing act in this section...

He was followed by Ed McLaughlin, of Ralls, on "Loans to Farmers." Mr. McLaughlin stated that he had handled many kinds of loans, but he considered a reasonable loan to the best class of farmers the best and safest he ever handled...

Mr. and Mrs. Terry had certainly framed up a quality and quantity luncheon at the Wines Hotel, and the late hour—near one P. M., found the hosts and guests with a keen appetite...

Under the direction of Mrs. W. H. Dallas, a splendid song feast of her music classes was enjoyed. Ten little girls sang, "What Would You Take for Me Daddy?" This chorus was composed of Beverly Ann Duke, Betty Jean Holmes, Marion Wingerd, Ruth Milner, Ima Gertrude Akers, Janet Davis, Christine Akers, Louise McSpadden, Mary Edna Tankersley, and Eleanor Jean Miller...

Among the local after luncheon speakers was Judge Neill, who in his Will Rogers style, burlesqued Raymond Hamilton and the bankers in general...

The next step was the election of officers for the following year, and selection of the place of meeting next San Jacinto day. Ed McLaughlin of Ralls was elected president, and John D. Mitchell, of Lubbock, vice president. Paul Hardwick of Lubbock was retained as Secretary-Treas.

James H. Dallas, assistant cashier of the Brownfield State bank; W. R. McDuffie, cashier of the First National, city; Spencer Kendrick, assistant cashier, National bank, city; Roy Reddell, cashier First National, Lubbock; O. L. Slaton, President, First National, Lubbock; T. C. Ellis, vice-president Lubbock National; W. L. Pier, vice-president Fort Worth National; W. B. Lee, president Security of Spur, and Mrs. Lee; Champ Clark...

Sophomores Win in The Herald Contest

As stated in last week's Herald, Jack D. Wester, principal of high school was authorized to name the three judges from the grade school, who in turn would grade the Cub Reporter put out by the Juniors, Sophomores and Freshmen for the last three weeks.

Judge No. 1, graded the Sophomores 88; Juniors 85 and Freshmen 75. Judge No. 2, graded the Sophomores 90; Juniors 86, and Freshmen 78; Judge No. 3 gave no grade figures, but gave the Juniors first place, second place to the Freshmen, with third place to the Sophomores.

The money has been divided as follows: Sophomores \$1.00, Juniors 75c, and Freshmen 50c. The Herald thanks Mr. Wester and the judges who so gladly undertook to decide the matter, and we feel sure that they had to give considerable thought and study before making their decisions...

We also hope that the three lower classes have enjoyed the contest as much as we, and we hereby give notice that contest will hold good next year, with the Seniors barred, but perhaps others will join with the Herald and make the prizes a little more attractive.

Editor of Lubbock Newspapers Hurt

LUBBOCK, April 20.—Charles A. Guy, Lubbock Avalanche-Journal editor, and Charley Watson, staffman, are recovering from severe injuries received Tuesday night when Guy's automobile, traveling at high speed, overturned on highway 9 six miles south of Plainview.

The two newspaper men were on route to Plainview to attend the annual dairy show. Guy was at the wheel. The car sharply veered from the pavement and as Guy tugged at the wheel a tire blew out, the car overturning five or six times. A passerby, finding Guy unconscious and Watson partly so, carried them to a Plainview hospital for emergency treatment.

An x-ray picture showed Guy had received a two and one-half inch basal fracture of the skull. Watson's shoulder was injured and 16 head stitches were taken.

To peel oranges easily put them in boiling water for a minute or two, then in cold.

A large number responded to the kind invitation, and understand were well rewarded for their appearance here in both amusement and refreshment.

Methodist Conference Here Tues., Wednes.

Methodist preachers and lay delegates from eleven counties of the south Plains, were guests of the local Methodist church and the town in general here this week for two days, Tuesday and Wednesday. Brownfield as a whole was pleased to have this fine bunch of people visit them; tell us what they are doing at home, and to give local people the advantage of their knowledge and experiences.

While the Lubbock District is one of the youngest in the Northwest Texas Conference, the section has grown until it is one of the largest in communicants as well as importance in the conference. Some three hundred delegates were here from all sections of the district to attend the deliberations of the annual district conference of this district, and many expressions were heard that it was one of the best held in this district.

The main speaker for the occasion was Rev. John Hick, teacher in Southern Methodist University at Dallas. He was scheduled to speak twice each day, and the church was packed each time he took the rostrum.

Help Save A Life

To avoid accidents and to render more efficient service, we are asking that all cars drive to the curb when the fire alarm is sounded, and that you refrain from speeding to fires. We do not object having people come to the fires provided they will remain at the curb and not get in the way of the firemen.

We shall deem it necessary to take numbers of all cars not complying in the future and a fine will be imposed.

FIRE DEPARTMENT

Pampa Man Elected School Superintendent

M. L. H. Baze, of Pampa, Texas was elected Tuesday night by the board of education as Superintendent of the Brownfield High School. He and wife will move here some time in June, when he will assume active head of our school system.

Mr. Baze comes to us well recommended as both an instructor and school executive, having been a teacher, principal and superintendent for the past 20 years. He was for several years superintendent of the school at Roscoe and Tahoka, going from the later place to Tech College where he spent two years as instructor in the educational department.

His education was obtained, after leaving high school, at Abilene Christian College, Texas Tech and the University of Texas. He holds both the A. B. and M. A. degrees. Mr. Baze is 42 years of age. The people of Tahoka without exception, have highly recommended Mr. Baze to us, we understand, saying that the Tahoka schools under his administration was as good or the best they have ever had, and the trustees feel elated that they were able to get a man of his calibre at this time on the salary they are able to pay.

Legion Boys Entertain "Tired" Business Men

Last Thursday night, the members of the American Legion invited the "tired" business men of the city out for a little fun and recreation at their ball on south Fifth. A large number responded to the kind invitation, and understand were well rewarded for their appearance here in both amusement and refreshment.

Red & White Stores Fourteen Years Old

There are two Red & White stores in this city—Chisholm Bros. and Hudgens Grocery Co., both operating as independent units of the great system of stores, all independent, which have for the past 14 years bought as a group in order to save money...

Below we give the reader a few facts and figures on this well known national food selling organization, in order that the reader may understand how unitedly they buy, but remain independent of each other so far as store organization and management is concerned.

The Red & White plan of operation was conceived by S. M. Flickinger of Buffalo, New York, in 1921, and was designed to meet the demand for a wholesale-retail co-operative organization. From Buffalo it spread to the northwest into Minneapolis; from Minneapolis it was pioneered in Denver.

More West Texas Senators is the Plea

HASKELL, April 20.—Asserting that West Texas wants equal representation in the Texas Senate, Y. L. Thomason today wrote an open letter citing that the Legislature has failed to follow the Constitution in this respect.

He pointed out that the Texas Constitution says that after the publication of each United States decennial census, the Legislature shall apportion the State into senatorial and representative districts.

Will Plead Guilty In Sheriff Slaying

LUBBOCK, April 20.—Clarence Brown Monday will plead guilty of murder of Sheriff W. B. (Bill) Arthur at Dickens and accept a sentence of 99 years in the state penitentiary, defense and prosecution reported Saturday.

The case has been set for trial Monday in 99th district court by Judge Clark M. Mullican. Virgil Stalcup, given the death penalty in 99th district court here for the slaying of Sheriff Arthur, is in the death house at Huntsville, awaiting outcome of his appeal.

Two men in a 1935 model Ford coach hijacked a Hobbs, N. M., man and his wife on highway 151 between Seagraves and Seminole about dark Monday, Lubbock police were informed.

Landmark Razed in Seminole Blaze Mon.

SEMINOLE, April 22.—Seven business houses and the Masonic Hall here were destroyed by fire Monday morning. Flames started at 2:30 a. m. in the Austin Building, erected in 1905 as the first business structure here, and the oldest landmark in Gaines County. The fire destroyed this building and rapidly spread in adjoining frame construction, wiping out half of the west side of the square.

Man Throws a Fit—Gets a Big Audience

One of the greatest means of drawing a crowd extant, is to let a man throw a fit. A drunk is disgusting to most people, but every one seems to want to find out just what makes a man have a fit. Tuesday afternoon, some officers presumably from New Mexico, brought a man through here and he had a fit in the court yard. Hundreds of men soon gathered and surrounded the victim.

Methodist Thank People

In behalf of the Brownfield Methodist congregation I wish to take this means of publicly thanking the people of Brownfield for the splendid ways in which you helped to make our District Conference a success.

Lamb County Sheriff, 28 Others Indicted

FORT WORTH, Texas, April 22.—Charges of fostering and protecting bootlegging activities were filed against Sheriff J. L. Irvin of Lamb County and twenty-eight others in a Federal indictment containing eighty-four counts, returned Monday.

Others named in the indictment are Deputy Sheriff Lawrence Walraven, Driscoll Irvin, the Sheriff's son; Vernon Herman, Mrs. N. T. Dalton, Mrs. Bill Herman, John Purdy, Mrs. Rebecca Carr, Jim Etter, Mr. and Mrs. Star Haile, Jack Page, J. J. Little, Mr. and Mrs. Leonard Terry, M. L. Lynn, George Carpenter, Jerry Silman, Henry Silman, Felix Silman, E. E. Wheeler, Guy Foster, Virgil Dudgeon, Buddie Johnson, Henry Fulcher, N. O. Roper, Constable Sam Hudson of Littlefield, Roy Campbell and Sam Bruton.

The Sheriff is accused of protecting bootleggers and of selling liquor privileges in Lamb County from 1926 to February, 1935. He also is charged with threatening Federal agents.

First mention of Sheriff Irvin came Saturday in an indictment charging Vernon Herman with perjury. Herman allegedly had told officers and then denied that Sheriff Irvin had sold him bootlegging privileges.

Deputy United States Marshals arrested five of the defendants Monday at Littlefield. Herman is in the Tarrant County jail with his mother, Mrs. Bill Herman, and John Purdy. The prisoners will be taken to Lubbock for a hearing before the United States Commissioner.

We have another bulliee it or not for Bro. Ripley. One of our farmers saw a knot on the shoulder of one of his fine brood mares recently, and thinking the place had pus in it, cut in, and raked out a dime—a pure old U. S. silver dime. Money even grows in animals in dear old Terry.

The Hubcock-Havalanche Shurnal has been trying to set us on the Lynn County News, the Seagraves News and the Crosbyton Review of late, when really there was nothing to be sicked on for. These journals are put out by well meaning but "jest kinty ejitors" like "weuns," and we have no hairs to split with them. It's your trail we are on, Sharley.

When I try to imagine what my pioneer grandmother would have done in the face of our present economic problems, I can't see her holding out her hands for doles or donations! I can imagine her urging grandfather to trade a pig for a bushel of corn, and I can see her bending over a big iron kettle, making hominy from that corn, with lye filterer from the old ash-hopper, but I cannot imagine my grandmother driving up in a motor car to a relief station to get an apportionment of food.—Cosmolitan.

Sharley Guy sent us word this week that he hoped we were not mad at him as we had failed to claw his hide for the past week or two. Well, the Herald never was any hand to hit a man that was down, and we understand that Sharley was in no condition to pester when that car he was driving near Plainview quit turning sumersalts last week. Sharley is a great hand to prod the careless driver, and had it not been as serious at it was, it would have been a little funny to ask him about the car accident.

Over at Farmersville there seems to be quite a bit of complaint about chickens getting into neighbors' gardens and destroying young tender vegetables. Really no one should complain about chickens rothering gardens. They both work together. Just catch a few of the birds and have a chicken pie. This will cause neighbors to put up their chickens. This is one of the best ways we know of to put a stop to chicken trespassing on your neighbors' property. It will work.—Wylie Herald.

storms that have alternately scoured and smothered the prairie states this spring will go down as the worst in the history of the United States. Huge areas in the Middle Western section of the country have been drying up and blowing away. High March and April winds have lifted billions of tons of rich farm soil from the plains and carried it eastward. People in nearly all sections of the country have wiped this dust from their cars, their porches and furniture, air traffic has been hindered and in the worst areas death and disease have been spread.

This catastrophe, besides presenting the vast job of conservation work necessary to remedy the condition, has caused many to wonder if there will be drouth in the devastated areas this summer like the drouth last year which ushered in the present trouble. President Roosevelt has indicated his desire for legislation to expand the forestry program so as to begin the work of erecting tree barriers to dust storms at an early date. It has been estimated by one authority that as much as a billion dollars of the new work-relief funds will go for land rescue work, including fighting dust storms, soil erosion, floods and for re-forestation.

The popular expansion of these dust storms is that during the World War when wheat prices shot sky high thousand of acres of semi-arid grazing lands were plowed under and planted in grain. Destruction of the natural coverage of this soil, together with the overgrazing of the drouth-burned ranges that were left, made it easy prey to the winds. But doubting this explanation of the cause, the Wichita (Kans.) Eagle says: The plowed grasslands origin of the storms is now on every tongue. If the prairies had not been plowed, it is said, there would be no dust storms. This is plain balderdash. Dust storms, while infrequent in occurrence, appeared in this section in the 70s, when virtually none of this prairie was broke out.

As concerns the possibility of drouth in these injured Great Plains and other Western sections this year no reliable weather forecaster has ventured to guess. In fact at the present time there is no known scientific means by which weather can be forecast with any assurance of accuracy for more than 48 hours in advance. It is a fact, however, that the drouth in most of these areas is still unbroken. But this is no indication that the climate of the affected areas or of the United States is changing. Scout ing the ideas prevailing in some localities that the drouth has been caused by excessive cultivation and that the prolonged dry spell indicates a permanent change of climate, Joseph B. Kincer, chief of the Division of Climate and Crop Weather of the Weather Bureau declares the condition in the Great Plains and other sections are what can reasonably be expected to occur from time to time under the prevailing climate. According to this authority future years will likely see repetitions of these conditions, but there is no evidence to that the climate has permanently changed to any appreciable extent during the past few years. Also, in a report to Secretary of Agriculture Wallace on the Weather Bureau, declared: "There is nothing to indicate that the 1934 drouth constitutes a permanent change to desertlike conditions.

Then, too, Weather Bureau records show that precipitation in the states east of the Rocky mountains has been decreasing for the last 25 years. Twenty-seven years ago, however, the areas hit by the drouth last year and many of those still dry had plenty of rainfall. In fact there was so much that it was actually wet for the plains regions. Between this wet cycle and the present dry spell there were years of abundant rainfall. It is the belief of most weather experts that these cycles will be repeated in the course of time, but just when they cannot say.

Regardless of how long the dry spell will last and when it will end government scientists believe the insurance against wind erosion is grass restoration and reforestation. Already the administration's \$15,000,000 shelter-belt of trees to stretch from the Dakotas to the Texas Panhandle—100 miles wide and 1,000 miles long has been started. This row of trees is expected to restore the water level and act as a snow and dust fence. During the next 10 years the Forest Service expects to plant 3,500,000,000 trees in hundreds of narrow strips, each 100 feet wide and one mile apart. In addition farmers will be called on to cooperate in an effort to get more of these regions under sod. Already government experiment stations have been checking wind erosion and some of their experiments have proven successful under actual tests in the present emergency.

RED GOOSE—THE OJIBWA INDIAN BOY

An Indian Story for Boys and Girls by CARLYLE EMERY

At the command of Red Eagle, Little Beaver threw an arrow into the air, which fell flat on the ground.

Now go on with the story. Swiftly, Red Goose sped through the forest and in no time at all returned with the good news the arrow had moved.

"Father, you go with me?" Asked Red Goose tensely.

"Yes, Red Goose. You, I and Little Beaver. Maybe we find food for our people.

As the tribe broke up into parties of three, Red Goose said jubilantly:

"My arrow was good. My medicine is good. We will take food back to our people. You see.

Red Eagle, Little Beaver, and Red Goose kept moving in the direction indicated by the medicine arrow for a long time without seeing any signs of game.

Then for several more hours, they trudged slowly ahead always being sure to keep in the direction indicated by the arrow.

"Long hours we have traveled," he said, "but we find nothing, no tracks, no signs of game, nothing!"

"We go on my father," suggested Red Goose. "We cannot go back without food. You are Chief, I am your son. We cannot fail our people. My arrow was good medicine. We keep on. We—"

"Look! Look!" interrupted Little Beaver. "Look, Red Goose!"

At the same moment a large white rabbit ran almost across their path and disappeared in the brush.

SHAFTER AREA IS PRODUCING WELL

SAN ANGELO, April 20.—The American metals mine at Shafter, said to be the second largest silver producing mine in the United States, is running 250 tons of ore daily through its 150-ton mill and is employing 200 men.

Bel said about 500 flasks of quicksilver are being produced monthly in the Terlingua district, the mental being worth \$76 a flask, or \$1 a pound. Around 400 men are working in the district.

Hauled By Mules Mule teams haul the quicksilver from the mines to Martho and Alpine in a two-weeks' trip making about 15 miles daily. Texas leads in quicksilver production.

Bel said many new claims are being staked in this district. There is much lead and silver activity in the Chinati mountain and Shafter areas and across the border in Mexico.

The Shafter mine was shut down in 1932 but the rise in the price of silver brought re-opening in 1934.

Author, Actress, Wife and Mother

Mrs. Gertrude Berg

YEARS ago a pretty, dark-eyed youngster sat in the lobby of her father's hotel in a small New York town and with fascinated interest observed the life that flowed around her.

The author, now in her early thirties, is Mrs. Gertrude Berg, wife of a sugar technologist and mother of two children. She divides her time between the rearing of a family and starring in this new serial from her own typewriter.

Already famous as the creator and star of "The Goldbergs," one of the best-known stories ever told over the air, Mrs. Berg is again playing a major character in "The House of Glass."

With Bill Artist's orchestra supplying the music, "The House of Glass" is heard every Wednesday evening for a half-hour on the NBC red network.

Geodetic Survey Made In Area by U. S. Crews

U. S. geodetic surveying crews surveyed this section the first of the week. There were eight towers erected extending from near Dorras south.

Very little information was obtained from the crew here as to the details of their work. When asked why the survey was being made, one of them remarked, "That's what we have been wondering about."

The purpose of the survey, it is understood was to determine just what percentage of the country is Nebraska and what per cent is Texas. When the earth's crust becomes more than 50 per cent Nebraska soil the state name will be changed.

There is a bunch of those birds in Terry county too, building those lookout towers. We have been wondering about them, but like a hen turkey can never be found about these nests.

AMERICA IN ARMS RACE

While America has made it plain by her indifference to European squabbles that she is not contemplating spending more of her blood and billions by shooting it out with any of those foreign belligerents, neither is she sitting idly back while others make balls which might eventually be fired in her direction.

In the number of men now under arms the United States falls below any of the powers, even the recent increase in the Army to 165,000 men failing to bring it abreast of the English Army, the lowest in Europe. Otherwise, however, our country is not so backward. The planned expenditures of \$875,000,000 for national defense during the coming year are larger than those of any other nation in the world except, possibly, Russia.

Life insurance was known in England as early as 1696.

YOUR CHILD AND THE SCHOOL

Picnic Time

Spring time is picnic time. No call will bring children so quickly.

In their enthusiasm is our opportunity. We must provide for safety in transportation; protection against impure drinking water; and instruction on the dangers of poison ivy.

We must guard against sunburn and sunstroke. We must know the hidden threat of the swimming hole.

"Eats" is the big question when talking picnic. Here is the supreme occasion for getting across the ideal picnic luncheon. Plan it carefully as any meal.

How to implant proper eating habits in children will be the subject of Dr. Ireland's next article.

Chamber of Commerce

J. E. Shelton, Secretary

Being of the opinion that a number of people might be contemplating a fishing trip to Old Mexico and that they would like to be informed concerning the rules and regulations governing fishing parties, we have written for and secured all of the available information as of April 8th, 1935.

No hunting is allowed in Mexico at this time due to military regulations put into effect several months ago. Fishing may be done at any time of the year and with any types of bait, there being no regulations.

Upon arrival at Eagle Pass, Laredo, or any other border town, the party must secure the following permits and pay the following fees:

(1) Passport or tourist permit costs 56c per person. (2) Car bond costs \$3.00 per automobile. (3) Federal fishing license costs \$1.20 per person desiring to fish. (4) Special fee to Sporting Club having concession at Don Martin lake costs \$1.20 per person in crowds of three or more, otherwise \$2.20 per person.

Arrangements should be made in planning the trip, so that you will cross the river between 9 a. m. and 4 p. m. and in this way you will not be delayed, due to the Federal offices being closed.

Call at any chamber of commerce office at any border point and secure other information.

Brownfield will be represented in the My Home Town speaking coming convention of the West Texas Chamber of Commerce, which is to be held at Plainview on May 13-14-15. The Home Town contest is being arranged by R. M. Kendrick, local director of the West Texas organization and the Poster Contest is being sponsored by the local chamber of commerce.

Today (Tuesday) County Judges and Commissioners of the four plains counties that are located on highway 84, will meet in Tahoka, for the purpose of undertaking to secure improvement of the route as soon as the surveys have been completed, and are hopeful of securing results in the way of grading and drainage projects.

The directors of the chamber of commerce and county commissioners met in a joint session Monday of this week for the purpose of arriving at an agreement with the highway commission as to the route to be taken through the City of Brownfield and for the further purpose of devising means of preliminary work on our recreational project.

Terry County is included in the 10 cents per acre allowance for bearing a portion of the cost for listing land to prevent blowing, but the trouble is, that we had some rain February and March and a big majority of our farmers have already completed this work, but maybe we can re-list. Although 10 cents doesn't pay the cost.

We visited Hunter school Monday and must say we surely enjoyed being there. While, we, the writer, lives at one corner of the school ground and see the teachers and children on the playgrounds most every recess and noon hour, it is more pleasure to visit them. We, as parents should visit our school more. It is encouraging to our teachers as well as to our children.

Mr. R. D. Johnston spent Saturday and Sunday in Brownfield.

HEART BALMS BOMBED

If the state legislatures continue their swift banning of love suits it will not be long before the deceived women, no matter how legitimate her case, will not be able to sue for damages. As the New York Senate passed a bill outlawing suits for breach of promise, alienation of affections, seduction and criminal conversation, the Assembly of the same state passed two bills designed to curb breach of promise and alienation suits.

While the Assembly bill does not abolish breach of promise suits, it permits them only when there is a written promise to marry.

Michigan and Indiana both have new legislation (one modeled after the other) to abolish civil causes for action for alienation of affections, criminal conversation and seduction and causes for breach of contract to marry.

Heart balm suits have been termed the "biggest matrimonial racket in America." Many other states, including Texas, Rhode Island, Idaho, Pennsylvania, New Jersey, Illinois, and Connecticut are considering similar laws. —Pathfinder.

Centennial Train Trip Has Been Postponed

Dallas, April 20.—Departure date for the Texas Centennial special train slated to visit the old south, the Atlantic seaboard and Washington to boost Texas' 1936 celebration has been postponed, Lowery Martin, general chairman of the train committee, said today.

Martin after a meeting of his committee, said postponement was made necessary by failure of the Texas legislature to take definite action on a bill to appropriate Centennial celebration funds.

Eating Habits

Consider these bits of common sense.

First of all, what you do the child imitates. Eating habits are contagious. If you say one thing but do something else, the value of what you say is lost. The child will do as you do. Don't expect anything else. You are the model. If you don't eat carrots, don't wonder when your child doubts your assurance that "carrots are good for you." Children aren't that gullible.

Avoid forcing. I mean that vigorous, stern insistence—"you shall eat it or I'll know the reason why." Rebellion, resentment, unhappiness are the only results. Your chance is lost. Do not discuss food values at length nor in technical terms, such as calories, vitamins, minerals and the like. You may understand them but children don't, and more, they don't want to.

It is decidedly bad to make children "food conscious." You can do so much more by casual, quiet suggestion in a conversational manner, saying, "this milk makes strength" or, "this cheese builds muscle" or, "this fruit keeps you well."

Summer camps—good or bad? Dr. Ireland will discuss them next week.

Back Again!

Hats off to the underclassmen! We are proud of the classes "that can deliver the goods" when called upon to do so.

We have the paper again to be edited by the regular staff. There will be five more issues of the "Cub Reporter," one of which will be definitely a Senior paper.

Again, hats off to the underclassmen.

TRY OUR STEAKS

They will please you we are sure. Because we buy the best meats possible, and then cook them for you as to your order.

CLUB CAFE

The home of good eats, and good coffee.

men! We hope that next year will be a better year for the "Cub Reporter." We wish the best of luck to those who will help to write this paper—the accurate history of a grand institution.

Cub Comment

The Cub Reporter appreciates the interest shown by the Terry County Herald in the high school paper.

Here's to the Stricklins, father and son, and to their helpers everyone.

Only four more weeks of fun and work! Let us hope there is not too much of either for a grand finish.

A peal of old time thunder sent a thrill through the student body Monday and caused quite a few of the younger pupils to speculate upon "What is rain anyway?"

In the spring a young man's fancy lightly turns to thoughts of love, and ours, to those finals. Oh heavens above!

Tomorrow we will rest from English! But will tomorrow every come? Manana, Manana.

Are we making progress? Just ask the Home Economics girls, especially those who have gone to Corpus Christi.

Who will represent our school in the Home Town Speaking Contest? We should have at least six or seven in the try-out.

Those "banely underclassmen" have set us a pattern in journalism that will be hard to live up to.

Let's have more news and more fun for the the Cub Reporter—beginning now.

Here's to Earl Manning! May he be first in the State Track Meet as he is now first in the heart of more than one Junior girl.

Well, here it is—our first paper since the vacation. And our ed-in-chief off to Corpus, too!

Cub Clubs

THE DRAMATICS CLUB—The Dramatic Club program last Thursday was as follows: Two Readings by Doris Lee Gore. A talk on Dramatics by Roy Chambliss. Reading—Sam Chisholm.

THE SCIENCE CLUB—The Science Club met April 17. An interesting program was given. It consisted of the following: The Romance of Culber—Christine Green.

B. B. B.—The B. B. B.'s had a meeting Tuesday, April 23. It was a rehearsal to entertain at the play, "Crashing Society."

LIILLIANNNA CLUB—The Lillianna Club met Tuesday, April 23. A very interesting program was given on famous women authors.

SENIORS—The Seniors had a real treat Monday in their class meeting. Mrs. L. J. Dunn as a representative of the Baptist Missionary Society extended an invitation to every Senior to come to a banquet to be given Thursday night, April 25, at the First Baptist church.

Brownfield Representative C. L. Lincoln

Billie Graves. Honorable mention; Pauline Lindley, Charlotte Gibson, Josephine Eudy. The judges for these two contests were: Mrs. R. B. Parrish, Mrs. J. D. Wester, and Mrs. S. C. White.

Thursday the Home Economics Class II A participated in a contest of food selection. Each girl selected a lunch for 25c, giving reasons for her choice and balanced it with the whole day's menu.

Wanda Graham went as Lillianna Club representative. We want to express our appreciation to all of those who made this trip possible, and we want especially to thank the Odd Fellows Lodge for use of their hall.

Regional Meet—The contestants entering the Regional Meet to represent Brownfield High were Earl Manning, James Burnett, Ruby Nell Smith, and Bill McGowan.

Cub Chatter

Many of the college students were home for the Easter holidays. Those seen from Tech were Horton Howell, A. T. Fowler, Annie Letha Hamilton, John L. Cruce, R. L. Bandy, Martha and Velma McClish, and Don King.

Several of the High School girls sang at the Banker's convention Monday. Evelyn Pippin, who is attending W. T. S. T. C. at Canyon was also home for the Easter holidays.

Sophomores

The Sophomores met for a program Monday morning. Mollie Mae Allen made a talk on the 'Juniors of 1936' Ralph Jeter played a few numbers on the harmonica that were thoroughly enjoyed.

JUNIORS—At the class meeting Monday morning the Juniors continued a discussion of the Junior-Senior banquet. The entire class seemed willing to cooperate in helping to make the banquet a success.

FRESHMEN—The Freshmen met in Room 202 Monday morning, April 22, with their sponsor, Mr. Penn. The report cards were handed out, the grades were discussed, and financial conditions were talked over.

A. A. Whyte Speaks

On Wednesday morning the student bodies of Junior High and B. H. S. met in the auditorium for an interesting chapel program given by A. A. Whyte.

May Fete

Quite an interesting contest has been conducted in the West Ward during the past two weeks to determine who should represent the school at May Queen in the coming festival.

When the contest closed and the votes were counted Patsy Ruth Carter was declared winner with Emma Gene Coleman a close second; Minnie Lee Walton was third, and Christine McDuffie placed fourth.

The list of candidates in the order of the votes received by each, was as follows:

Patsy Ruth Carter; Emma Gene Coleman; Minnie Lee Walton; Christine McDuffie; Miriam Harold; Ida Mae May; Margaret Howell; Mildred Irene Hamilton; Nita Jean Worsham; Dorothy Nell Graham; Maxie Hunter; Alice Eubanks; Barbara Taylor; Francis Joyce Rambo; Pearl Ruth Cox; and Marjorie Neill.

The votes in the contest netted \$24.92, which will be used to defray the expenses of the May Fete and to buy library books for the school.

This May Day Fete is presented in keeping with Child Health Day, a nationally observed day, in the interest of conserving and promoting health among the children of the nation.

Scouts to Hold Court—The Brownfield Boy Scouts will hold a court of honor in the District Court Room next Thursday at 8:30 P. M.

was in town. John Penn of Georgia had come in, and was working a farm for Coble & Criswell. J. D. Quick of Lubbock purchased 60 pounds of dry hides from Brownfield Hardware.

The Sawyer ranch was under Federal quarantine. Cleve Williams had opened his cold drink stand. The ball team went to Lubbock but failed to touch the home plate. Lubbock piled up a big score. Rev. Thomas, Baptist minister had lost a cow from a streak of lightning. The following day Rev. Trammell lost a \$150 cow. The preachers were certainly having a bad ending. Rev. John Arbuckle was conducting a revival at the Baptist church. Dock Powell was injured at Gomez Sunday when he was thrown from his bicycle. Lawrence Green's mother tendered him a birthday party on his 11th birthday the past Friday.

Primrose: The farmers were planting corn. Booth Hays had moved to the Tubbs place. Frank Jackson and wife had moved to the Jim Smith place. Lightning had killed a steer for Lee Cowan. Gomez: District conference was in session at Tahoka. Mrs. D. B. Watson had passed away at Plainview. The young people enjoyed a party at the phone office. Robt. Hurst of Lubbock, was visiting his brother, Ben and wife. The grown young people had a party at the Geo. Black home. Singing at Robt. Holgate's Sunday night. Oscar Adams left for his home at Scott, N. M. Prof. Harrison was giving a course in penmanship. Histories for the library were received. Harris: Ellington Bros. had purchased 80 head of dry cows from Wayne Carlyle. Lynn Harris was building a doll house for his little sister, Fern. Miss Mary Simms had come out from Gomez to keep house for her brother Raymond, while he made a crop. Miss Olga Fitzgerald had a relapse from measles, and was taken to Lubbock for treatment. F. M. Ellington went to Lubbock to purchase lumber for a three-room residence. All for this week.

OUR 23 YEAR COLUMN

There was a party at the home of Mr. and Mrs. J. T. May, a farewell affair for Mesdames Elmer Spurgeon and O. M. Daniel, under auspices of the Home Missionary Society. The Odd Fellow lodge was planning the 93rd anniversary of that order. Lee Allmon was giving the final touches to the district court room. Mention was made that if we built a good road through here east and west, at least 1500 cars would travel over it going to the Panama-Pacific exposition at San Francisco in 1915. More cars than that go through here each week now. Mail was scheduled to come through from Lubbock instead of Le-

mesa the following Wednesday. The Titanic had just gone down with 1600 lives snuffed out, which the Herald stated was nearly as many people as were in the city of Lubbock and four times the population of Brownfield.

Miss Mamie Powell had returned from Lubbock, where she had been under the instruction of a tutor. Miss Ella Farar who had been teaching at Amarillo, was visiting her aunt, Mrs. Randal. Mrs. W. B. Downing of Lubbock, was visiting her parents, Mr. and Mrs. J. T. May. Burnett Bros. and Sam Singleton had delivered a fine herd of steers to Kansas buyers. A party of Lubbock people consisting of Messrs. Sim O'Neal, Newt Wilson, H. A. Davidson, J. D.

Quick, L. D. Rankin, and Rawleigh Martin were down. Bert French was reported to have a very fine garden. Timms Bros. were drilling a well for J. W. Harper. A son was born to Mr. and Mrs. Henry Witt. John C. Scudday had installed a large tank at his windmill. George Royster was visiting uncle Billie Wilkins. Mr. Mabrey was here from Tatum, N. M., at school closing. He had two daughters in school here. No new cases of meningitis, and Mr. Holt reported doing well.

Miss Clara Cowan of Primrose was visiting her sister here, Mrs. Lense Price. J. O. Jones and son, ranchmen from Loop, were in trading. John Howard had planted 50 acres of cotton. J. D. Eastham of Lou

YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND

Director, Physical and Health Education, New Jersey State Department of Public Instruction

Summer Camps

The summer camp is one of our most valuable gifts to childhood. There are camps to fit almost every purse, and nearly all give more than money can buy.

In selecting a camp, look first to the leaders. If there is understanding of children, kindness, and tolerance, you have a safe foundation. To run a successful camp, one must have a sincere love of children. Look next to the camp facilities, especially sanitary features and water supply.

Inquire into the daily menu. Are the food essentials provided, both in quality and amount? How about the milk supply? Children on vacation will need lots of it. At home, vegetables can be purchased in cans; at camp, they should be bought fresh from the farm.

Finally inspect the program, but be wary of the over-loaded day. Fatigue may offset every benefit the camp has to offer. There should be outdoor sports, woodcraft, scouting, handicraft in moderation, balanced by long restful nights of sleep in the open. If you can afford a camp for the son or the daughter, by all means untie the apron strings. If it does no more than that, the camp justifies its existence.

"Do explorers drink milk?" asked a little girl. Dr. Ireland tells what week how she was answered.

Underground Water Survey May Be Made

Congressman George Mahon last week called on Secretary Ickes of the Department of Interior for an allotment of \$100,000 from the Public Works appropriation for making a survey of the Underground Water resources of the high plains region. These funds would be used by the Geological Survey having been made last year. This preliminary report indicated some doubt as to the presence of sufficient underground water for extensive irrigation over a wide area.

He also conferred with Dr. Mead of the Bureau of Reclamation in an effort to secure funds for making irrigation loans to individual farmers. Mr. Mahon has already secured an interpretation from Federal Housing Administration officials which would allow that agency to insure loans may be made possible through an act. Dr. Mead is of the opinion that loans may be made possible through an allocation of funds from the Public Works appropriation. However, nothing definite may be determined at this time because the President has not announced his plans for administering the new appropriation.

In discussing this problem, Mr. Mahon said: "I believe that the two

greatest natural resources of West Texas are its soil and its water supply. With a record of the extent of this water supply that would prevent exploitation, and with a properly directed irrigation program, conservation of the soil resources would be possible, and West Texas could look forward to a more stable prosperity."

Mr. and Mrs. H. D. Heath and son, H. D. Jr., of Stanford Valley in Yoakum county, were in shopping Tuesday.

Mrs. C. J. Smith, who has been seriously ill, is reported to be improving. Her mother, Mrs. Ross Bentfro of Amarillo, is attending her bedside.

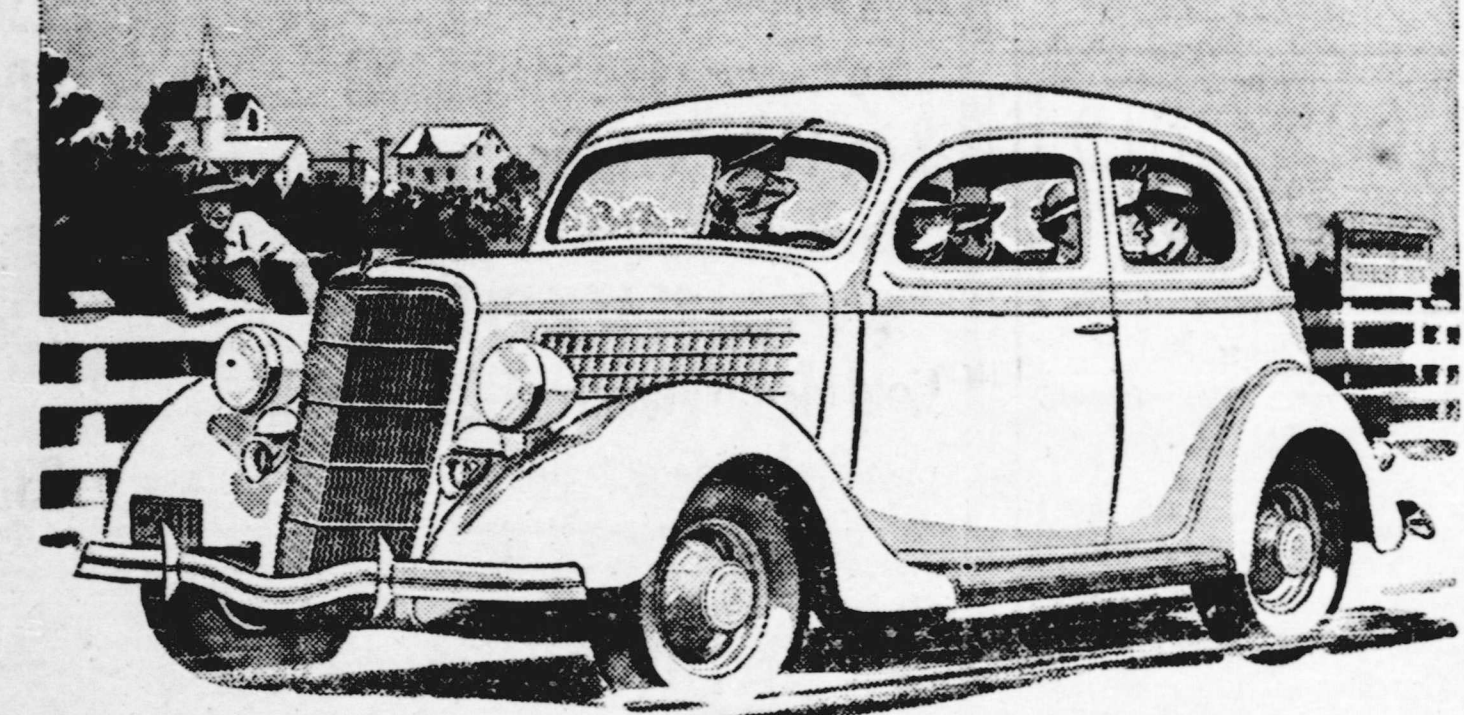

CORRECTION

In the printing of the circulars for Aryain Dry Goods this week, we made a mistake on Ladies Spring Coats. We corrected the mistake the best we could with a red pencil mark, but want to take this further means in calling the correction to your notice.

The circular read: Ladies Spring Coats, \$7.95 values to close out \$8.98 and should have been \$4.98.

The correct price appears in Mr. Aryain's ad in this week's issue of the Herald.

The Universal Car

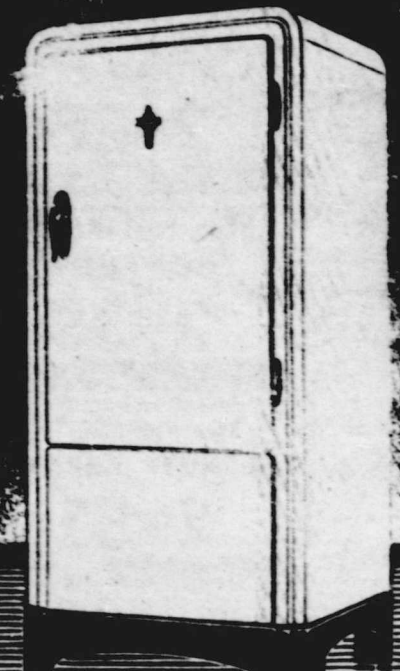

ONE name comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service. . . . That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists. . . . Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile. . . . The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. There is no other car like it.

Every Rural Home can now have
MODERN CITY REFRIGERATION

ELECTROLUX
OPERATES ON KEROSENE

YOU don't have to live in the city to enjoy all the advantages of the finest of modern city refrigeration—Electrolux! For rural homes, Electrolux now operates on kerosene... gives you the same perfect refrigeration that has made it the choice of more than half a million American families!

Runs for amazingly little!
It's a real opportunity! Especially when you consider how very little it costs to run Electrolux. A five-gallon filling of kerosene lasts a week or more. No daily attention needed. Owners report their Electrolux operating for as little as 3 1/2¢ a day!

Simpler... more efficient!
Electrolux is able to operate so efficiently because of its remarkable simplicity. Like every Electrolux, the Kerosene model has no moving parts. A wickless glow-type burner circulates the refrigerant which is cooled by ordinary air. Electrolux uses no water.

No moving parts to wear!
Thanks to its absence of moving parts, Electrolux is permanently silent and saves on repairs too! For parts that do not move cannot cause noise or wear!

Modern living at its finest!
You'll be proud to have this beautiful Electrolux in your kitchen. American women themselves created its smart new design! And every day you have it, you'll appreciate more the way it keeps food perfectly fresh, provides plenty of ice cubes, and makes possible a world of new, tempting salads and delicious frozen desserts.

BIRTHDAY SURPRISE

Mrs. Isaac Lloyd was the recipient of a surprise covered dish birthday lunch given at her home last Saturday, April 20th in honor of her 80th birthday anniversary. By means of pretty and useful gifts, beautiful songs and lovely, endearing words and deeds some seventy-five friends besides her son A. J. Lloyd, and her granddaughter, Maurine Lloyd, expressed the esteem with which they regard their wonderful friend and neighbor, Grandmother Lloyd. Those who helped her celebrate this happy birthday and wished her many more as happy ones were:

Messrs. and Mesdames Jno S. Powell, W. H. Black, W. E. Winn, Bryan Wright and children, G. M. Thomason and daughter, Sibyl, O. D. Payton and sons, J. M. Green and daughters, W. T. Simmons and children, Lawrence McCoy and little son, R. H. Franklin and sons, J. E. Lee and daughter, Lillian, W. G. Carter and children; and Mesdames Kellie Sears and sons, James H. FOUR PUPILS TO GIVE SPECIAL RECITAL

On next Thursday evening May 2, Miss Gertrude Rasco and Mrs. M. L. Penn will present four advanced pupils in a special recital. The program will be presented at the high school auditorium beginning at eight-fifteen. Appearing in piano numbers will be Mary Louise Tinkler and Betty Jo Savage. Numbers in expression will be given by Mattie Jo Gracey, Maurine Lloyd, and Betty Jo Savage, who is taking work in both piano and speech departments. All who are interested in the advancement of these fine arts are cordially invited to attend. The program will be as follows:

ANCIENT SOAP FACTORY

The use of soap is of great antiquity. A well-equipped soap factory was found in the ruins of Pompeii, which was destroyed in 79 A. D.

GREATEST VOLTAGE

At the lightning investigation station near Ogemau, Arkansas, voltages as high as 10,000,000 volts have been attained. An artificial lightning amounting to 10,000,000 volts has been produced between two giant electrodes, each of which consists of a sphere 15 feet in diameter, mounted on a column 25 feet high and 6 feet in diameter.

LIVING MODELS

Something of a surprise followed the disclosure that three of the figures on the front of the new Supreme Court building are actual images of living men. They include Chief Justice Hughes, Robert Aitken, the sculptor, and Elihu Root. Others represented are John Marshall, former Chief Justice Taft, and the late Cass Gilbert, architect of the building.

ORIGIN OF "DARK HORSE"

It has been attributed to Sam Flynn a horse trader of Tennessee. His horse, Dusky Pete, was quietly entered in a country race meet, attracting little attention and unexpectedly won the prize. The term has thus come to describe one who was not in the race until the last minute, had no expectations of winning, but unexpectedly gained the prize.

Doctor Told Her How To Lose 17 Lbs Fat

GOSSIPERS PEEVED
Mrs. Robert Hickey of Ropesville, Calif., writes: "My doctor prescribed Kruschen Salts for me—he said they wouldn't hurt me in the least. I've lost 17 lbs. in 6 weeks. Kruschen is worth its weight in gold." Mrs. Hickey paid no attention to gossipers who said there was no safe way to reduce—envious women who don't like to see others youthfully slim. She wisely followed her doctor's advice. Why don't YOU? Get a jar of Kruschen to-day (lasts weeks and costs but a trifle) and if you don't lose 12 lbs. and feel years younger and healthier—money back. Simply take half teaspoonful in cup of hot water every morning (taste fine with juice of half lemon added). Corner Drug Store sells lots of it. No. 2

Band Contest at Lubbock May 3-4.

LUBBOCK, Texas, April 23.—Approximately 25 bands with over a thousand competing musicians are expected here May 3 and 4, for the West Texas High School Band contest, according to D. O. Wiley, director of the Texas Tech Matador Band, who is likewise director of the contest.

The contest is sponsored by the West Texas division of the Texas Band Directors Association.

Through the Lubbock Chamber of Commerce, Lubbock merchants are offering approximately \$300 worth of prizes, loving cups and individual trophies.

All bands that receive a rating of superior band will be given a loving cup. About four dozen solo trophies have been ordered.

Prizes of \$25.00, \$15.00 and \$10.00 will be awarded to the bands making the best showings in the parade Saturday morning, May 4. One of the largest crowds that has been in Lubbock in several years is expected here to witness the parade which will be the longest parade of bands ever witnessed here.

Friday evening, May 3, a massed band concert with over 200 musicians will be staged, free to the public with contest judges directing the various numbers.

IDLE CHILDREN

The number of boys and girls between sixteen and twenty-one who are out of school and out of work is estimated at about 3,000,000 by Miss Katherine Lenroot, new Chief of the Children's Bureau.

CONSTIPATION 6 YEARS.

John J. Davis had chronic constipation for six years. By using Adlerika he soon got rid of it, and feels like a new person. Adlerika is quick acting—safe. E. G. Alexander Drug Co., Inc.

TROUBLE NOW GONE

J. M. Barbee, manager of the Babicora Development Co., is spending a few weeks at Corpus Christi.
