**The Terry County Herald**

Printed in Terry County, on the South Plains, the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME THIRTY

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, MAY 31, 1935.

NUMBER 42.

The truth about Terry County is good enough. An appreciated weekly that covers the territory thoroughly.

**Mon. is Tradesday in Brownfield Again**

**June Tradesday is Expected to Be Great**

Next Monday will be our Tradesday again, and the merchants are preparing for the event by putting on some real good prices in almost every line, so the people who come here for that day will not be disappointed in either price or quality and quantity of the merchandise they are offering. Also, the Herald is trying to do its share to make the event worthwhile to visitors.

It is expected that farmers will by that time be well enough up with their planting to be able to turn loose for one day to come to town. While some one may stay with the farm to run the planter, most of the others will be here. This is a fine season in the ground and one day more or less will not make a great deal of difference in getting seeds in the ground.

By that time the jockey yard north of the square will be dry if there are no other rains, and traders and buyers of livestock can trade and traffic to their heart's content. In the afternoon at the usual time, the usual program, sponsored by the merchants will take place on the east side of the square, and if you are not here, you stand a chance to lose out.

Come and be with the big crowd Monday.

**A New Telephone Directory Printed**

Copy for the new Southwestern Associated Telephone Co. directory for Brownfield, is now in the hands of the printers of the Herald job printing department, and is to be ready for distribution by June 1st, according to Miss Laura Lee Jones, local manager of the telephone company exchange here.

This company for the past several years have had their directories printed by local printers, and we understand they are finding this to be a good arrangement for the reason the local manager can go over the proofs before they are printed and make all necessary corrections. This was not possible when they were printed in Dallas or other large cities.

Twice a year, June and December, this company is having a new directory printed, which keeps the subscription list pretty well up to date. The local exchange shows a good healthy increase in subscribers over the one put out in December.

**Negroes to Celebrate Juneteenth at Home**

For the past several years the local colored population has had to go to other towns to celebrate Emancipation Day, but this year they are making arrangements to celebrate the day at home, and have invited visitors from Tahoka and Lamesa of their race to come and help them celebrate.

A large beef and a porker or two will be barbecued for the occasion, according to leaders among the local negroes, and in the afternoon a ball game, possibly a double header will be played.

**CARD OF THANKS**

We take this means of thanking our friends and neighbors for their help and words of comfort in the illness and death of our beloved husband, son and brother.

Your kind expression of sympathy is gratefully acknowledged and deeply appreciated. May God bless each of you.

Mrs. O. L. Jones and family  
Mrs. Lou Jones and children.

Remember Monday is Tradesday and to keep it wholly in Brownfield.

C. E. Fitzgerald and family are entitled to a pass to the Rialto Theatre to see "Billy the Kid"

Be sure to present this clipping at the box office at the Rialto Theatre.  
Compliment: Rialto-Herald

**Additional Rains Fall The Past Week End**

Old Terry certainly has had some fine rains the past week or two, and every section of the county now has a fine season. Those who have been over the county say that all sections now have had at least two inches of rainfall in the past two or three weeks. Some think the section between Seagraves and Tokio have had the lightest rainfall, but they have had enough to start a crop.

Many of the old timers say that the lakes have more water in them than they have had for years. The lake on highway 51 this side of Lohay, stands to the top of the fence posts on the Santa Fe right-of-way, and they are on about the highest ground thereabout. The field on the other side is standing under several inches of water, and cannot be planted for some time.

According to the government gauge at the courthouse in charge of J. E. Shelton, 1.56 inches of water fell the past week end, and made a total precipitation for May of 4.36 inches. The days that rained in May and the amount is as follows:

May 3-4	.42
May 15	.18
May 16	.68
May 17	1.35
May 20	.17
May 24	.08
May 25	.60
May 26	.88
Total	4.36

**Meadow School Receives 4 1/2 More Units**

Meadow School received 4 1/2 units of additional affiliation from the State Department of Education this year. This brings their total units of affiliation to 21. The new subjects affiliated this year were:

Music 1 unit; Public Speaking 1/2 unit; Commercial Law 1/2 unit; Junior Business Training 1 unit; and Vocational Agriculture 1 1/2 units. The affiliation in this work was granted without submitting the material. The School System was very highly complimented by Mr. Holbrook, the Deputy State Superintendent.

In line with the Curriculum movement that is now on in Texas, we plan on changing our course from an academic one to a more practical curriculum. In line with this we plan on adding Home Economics next year and getting additional units in Vocational Agriculture.

**Must Plant 40 Percent Of Cotton Acreage**

While over at the County Agent's office this week, Mr. McClain informed us that he was just in receipt of a communication from headquarters that at least 40 percent of the allotted acreage to cotton must be planted by the signee of the contract, otherwise there would be a chance the contract would be canceled. That of course would mean that the government would pay that farmer nothing.

Agent McClain stated that a total of 740 cotton contracts had gone into the A. & M. college for approval, and that several were being held that had not been signed. So, if you are in any hurry for your rent acreage money, better drop into the County Agent's office in the courthouse basement at once, and sign on the dotted line.

**Ford Hikes the Wages Of His Employees**

DETROIT, Mich., May 21.—Henry Ford, who stands out in the automobile industry as the great independent, stepped up the minimum daily wage of his 126,000 employees on Tuesday from \$5 to \$6 adding \$2,000,000 a month to the Ford Motor Company pay roll.

The increase restores the minimum wage level of the Ford plants to where it was in the predepression months of 1929.

Lots of Brownfield men on the bachelor list these days.

**Three Local Boys N.M.M.I. Graduates**

Albert Ray Brownfield, Jr., son of Mr. and Mrs. A. R. Brownfield, Sawyer Orsband Graham, son of Mr. and Mrs. E. A. Graham, and Murphy Manley May, son of Mr. and Mrs. Tom May of Brownfield, will be graduated from New Mexico Military Institute on June 4, 1935.

Brownfield has been a cadet for three years and has been a honor student throughout his attendance. He is president of the honor society this

RAY BROWNFIELD, JR.

year. He is captain and adjutant in the Corps of Cadets and will attend the R. O. T. C. camp at Fort Bliss, Texas, from June 4 to July 15. Upon satisfactory completion of the camp he will receive a Certificate of Eligibility for a commission as second Lieutenant, Cavalry, Officers' Reserve Corps. Upon attaining his majority, his commission will be awarded.

Graham was admitted to the Junior College of New Mexico Military Institute upon certificate from Brownfield, Texas, High School. He is a Corporal in the band and is com-

SAWYER GRAHAM

pleting the Basic Course of the R. O. T. C. His athletic participation has been in football in which he earned a Varsity letter.

May has been enrolled in the New Mexico Military for three years. He received a high school certificate in May, 1933, and is now completing the Junior College course. He is a warrant officer in the band and is completing the Advanced Course of the R. O. T. C. He will attend the

MURPHY MAY

R. O. T. C. camp at Fort Bliss, Texas, from June 4 to July 15. Upon satisfactory completion of the camp he will receive a Certificate of Eligibility for a commission as second Lieutenant, Cavalry, Officers' Reserve Corps. Upon attaining his majority, his commission will be

**Had a Great Time on Trip to Washington**

Two of the nine Terry county farmers that made the recent trip to Washington together with nearly one thousand other Texans and more than 4000 from the south and west, called on the Herald last Saturday and briefly stated some of the facts that transpired going and coming, as well as what happened while in the national capital. They were Lee Thompson of Tokio, and Will McDonald of the Needmore community.

Their train of 17 coaches, pullman and diners, was made up in Fort Worth, but ran into Washington some 5 hours late, and they missed the morning session of Tuesday, May 14. They were met at the depot by Hon. George Mahon, our congressman, and shown to their hotel which was the Mayflower, the largest in Washington, as Texas had the largest delegation. They were, however, in time for the meeting at Constitutional

at four o'clock they were admitted to the White House grounds, where President Roosevelt, who had already been informed that the farmers had come from 36 states to tell him and his helpers how much they appreciated what had been done for the real dirt farmer. From what they say, FDR did not mince words when he got started about the big boys. His address is printed practically in full elsewhere in this issue. A banquet was held that night at the Mayflower at which both Texas U. S. Senators and several of the congressmen, and farmers from each section of Texas, spoke. They stated that Marvin Jones our congressman up to this term, is really one of the big boys in Washington, and they believe George Mahon is going to be.

Wednesday, a hog-corn meeting was held at the Agricultural building, which lasted until eleven, and after lunch most of the visitors went on a sightseeing trip over and around the city, which included: Bureau of Stamping and Engraving, Congressional Library, then up to the dome of the Capitol bldg., Washington's Monument, Smithsonian Institute, Mount Vernon, here we went through Washington's home, all buildings on the grounds and visited his tomb, Arlington Cemetery, Robt. E. Lee's dwelling, Church where both Washington and Lee worshipped, Lincoln Memorial, from here we went back to our train which left Washington on time at 6:01 P. M. Wednesday, May 15.

Mr. Thompson stated that every courtesy was shown them, not only by the Texas delegation in congress, but by railroad officials. The train was stopped on the way back on one of the meandering rivers between mountains in either West Va., or Pennsylvania, and the bunch played around and threw rocks in the river like a bunch of boys. The train was also stopped for sightseeing in Cincinnati and at St. Louis. At the latter place a section of seats was reserved for them to see a game between the Cardinals and Boston Red Sox, and they got to see Babe Ruth and the Deans in action.

**New Seed Loan Man Calls on The Herald**

Mr. Joe E. Price, formerly of Stephenville, Texas, sent here recently to approve loans for seed for planting purposes, called on the Herald this week. He stated that on account of heavy rains the past week end, his office was having a sizable run this week by farmers who had to replant their fields.

It is sincerely hoped that those who had to repurchase need not to plant again, and that with clear weather which come Tuesday, not to say much warmer, they will be able to get a good stand of cotton, corn and feed crops.

These three young men are among the eighty-six cadets who will receive diplomas from Governor Clyde Tingley of New Mexico. Twelve states Mexico and Hawaii are represented in this the largest class to be graduated from New Mexico Military Institute. Twenty-five members of the class are Texas cadets.

**About Terryites of Past and Present**

A letter and remittance came last week from Miss Wynona Burnett, who was reared here and educated in Brownfield schools. She is now holding down a job at Lindsay, Calif., but says she sure does like to get the old home town paper each week, and reads it from cover to cover. She has enjoyed the winter in the golden state, and has seen many of its wonderful sights, including the famous Sequoia National Park. Her dad and mother will leave in a few days to visit she and brothers for some time.

Mr. Claude D. Flowers from Ropesville and Silas B. Kennedy of Meadow, have recently joined the U. S. Army, and are now in training at Fort Bliss near El Paso. The Herald hopes these young men make Uncle Sam a pair of soldiers that he will be proud to claim.

Kyle Adams, son of Mr. and Mrs. Will Adams of this city is graduating in June at John Tarleton college at Stephenville, with a cadet commission.

Misses Gladys and Myrtle Mae Scates and Leona Elizabeth Bullington, all of this county, are receiving their diplomas in June from Northwest Texas Teachers College at Canyon. Terry is proud of these fine girls.

And Miss Lela Mae Zorn, who went to school in Brownfield while a child but finished high school at Meadow, is now a sophomore in Tech college. She is the daughter of Prof. and Mrs. H. C. Zorn, both of whom are teachers. Lela Mae will have a full page picture in Ventana, Tech year book, as one of the outstanding beauties of that college. As we haven't seen her since she was a kid, that we remember, we want her to come to the office when she comes home and let us give her the once over. We are getting a bit up in years, but it has never hurt our old peepers to look at pretty women. We'll risk one eye at you, anyway, Lela Mae.

**Knight Building a Modern Residence**

Work was started this week on an eight room, two-story residence for Bruce Knight, member of the firm of Hudgens & Knight Hardware and Furniture. The building is to be a frame stucco. The contractor is W. H. Stringer, and Cicero Smith Lumber Co. is furnishing the material.

Mr. Knight stated to the Herald representative that it was kind of a case of "pushinsky" with him to build just at this time, but it was either build or move out on the commons. He has been occupying the B. L. Thompson home for several years, but Lee wants to move back to town from the farm near Tokio.

We are glad to see our citizens gradually but surely making homes for themselves.

**Four Saw Way Out Of Lamb County Jail**

LITTLEFIELD, Texas, May 26.—Officers Sunday sought four men who sawed their way out of the Lamb County jail late Saturday and escaped in a stolen automobile.

Three of the prisoners, Keith Jones, Ed Hudson and Oran Aycock, were charged with chicken theft. The other J. W. Wolfe, is under a two-year penitentiary sentence for robbery. The prisoners were believed unarmed.

The automobile in which they left Littlefield was found near Sudan and a car owned by a Sudan physician was reported stolen.

**MEADOW BOYS GETS "T" AT JOHN TARLETON**

Stephenville, Texas, May 22.—Elmer Finley, Meadow, has been recommended for the Tarleton "T" in both basketball and track for 1934-35, according to W. J. Wisdom, director of athletics at John Tarleton College.

Local ACC students came in home Tuesday.

**To Ask For a Big Road Building Project**

AUSTIN, Texas, May 28.—In a determined effort to obtain \$100,000,000 for gap-closing on Texas highways before the Centennial and the opening of the Mexico City road, Harry Hines, new chairman of the State Highway Commission, will head a delegation of Texas leaders to Washington in mid-June, he has announced.

His hope is to impress the federal administration with the fact that the building of modern highways in Texas can provide more and better and quicker employment than weed-cutting, ditching or many of the other former CWA activities. It can do this, he contends, with minimum waste or abuses, and the result will be useful, permanent, revenue-producing facilities.

Accompanying Chair. Hines to the capital will be the other commissioners, Gibb Gilchrist, state highway engineer, Col. Ike Ashburn of the Texas Good Roads Association and envoys from many other groups.

Gov. James V. Allred favors utilization of road-building as a means of unemployment relief in Texas, and has wired his view to President Roosevelt.

"Well over 90 per cent of the Texas road dollar goes to labor either on the job or in the factories, mills and pits behind it", Mr. Hines explained, "and this is why we hope to get some money from purely temporary relief projects shifted to it."

"Texas should get over \$50,000,000 for roads and grade separations from appropriations already made, and we will ask for \$40,000,000 more. We have the plans all ready for badly needed roads that will exceed this amount and we can get them under way swiftly."

The highway chairman explained that he has no thought of disturbing the many worthwhile city and community projects to be presented through PWA, but only random and unplanned work relief.

**Farmers Delayed in Their Planting Work**

Farmers in many sections of the South Plains will have to wait several days before they can get into the fields to finish planting of cotton and grain sorghums, as a result of the week-end rains that added to moisture already in the ground. A number of farmers from over widely scattered sections, reported fields were too wet for work.

Crops already planted were beginning to germinate and the prospects for better crops are increasing. Sunday's rain, along with that of Saturday night, was exceedingly spotted. Heaviest fall apparently was along the Seagrave branch of the Santa Fe from Wolforth to Brownfield.

Some damage was reported by lightning southwest of Lubbock, on Saturday and Sunday nights. C. T. Potts said his windmill was struck and that the house of a neighbor was also struck by bolts.—Lubbock Avalanche.

**Song Practice at the Church of Christ**

Dick Chisholm and other song leaders of the local church of Christ, have agreed to devote each Wednesday and Thursday nights to song practice. The revival for this church will begin on June 16th, conducted by S. H. Hall of Nashville, Tenn.

Singers of the town are cordially invited to come on these nights and help out in these practice meetings, whether or not they will be able to attend the meeting when it starts. None of us have any to much song practice.

Next Monday is Inventor's Day in Lamesa, according to Wm. A. Wilson, secretary of the Chamber of Commerce. Terry county inventors, if any, are invited to be there and bring their invention.

Leo Travis is one of our readers.

As we go to press we have to say Grady Snow passed away on this (Thurs.) morning.

**The Production of Clean Milk and Cream**

By Byron A. Bassel  
State Department of Agriculture  
J. E. McDonald, Commissioner

**ARTICLE 2**

The first factor to be considered in the production of high quality milk and cream, is the physical condition of the cow itself. The cow should be examined periodically and if any physical defects such as swelling or inflammation of the udder is noted, a veterinarian should be consulted at once, because these signs may be forerunners or indications of serious diseases in the cow, which might be spread to the others in the herd.

The next important step to be considered is the condition of the cow, as far as cleanliness is concerned. All long hairs which might hold dirt should be kept well trimmed, and, before milking, the cows should be brushed with a stiff brush, especially the belly, flanks and thighs. Then the udder should be well cleaned with a damp rag and dried thoroughly.

With the cow in this condition the milker should then wash and DRY his hands thoroughly. The milk should be drawn from the cow into a small top milk pail, because the use of this pail which is 75% covered means that there is 75% less chances for contamination of the milk from falling dust, dirt, hair, etc.

Of course the barn in which the milking is done should be kept just as clean as possible; trash and dirt should not be allowed to collect on the floor, because this affords just that much more chance of contaminating and ruining your milk. The walls and ceiling should be kept brushed off and clean so that there will be no chance of falling dirt getting into the milk. The barn should be well lighted and ventilated. Roughage should not be fed before milking, because the air will become filled with dust which will settle in the milk or in the milk pail. Also, feed should not be stored in the loft above where the milking is done, because of the danger of feed dropping into the milk.

While on the subject of feed it would be well to mention the consideration which should be given feeding, in order to avoid off flavors in the milk and consequently in the cream. All highly flavored feeds such as turnips, silage, wild onions, bitter weed, etc., should be avoided entirely if possible, because their particular flavors will be carried over into the milk. If these highly flavored feeds must be used, they should be fed immediately after milking and never before, because by doing this the possibility of their flavor being given to the milk is avoided.

Some explanation is due as to why all of these precautions in producing milk should be taken. The importance of keeping dirt or any form of contamination from the milk and cream, is that this dirt etc., carries with it many germs, or bacteria, which cause the milk and cream to decompose in one way or another. This decomposition may be evidenced by souring, which is a natural process, ropiness, off flavors and odors, and many other conditions. When any of these occur you have a low quality product which will bring you a low price; therefore, to insure the highest possible price, it is necessary that attention be paid to the items about which we have been talking, namely: the physical condition of the cow itself, the way in which the cow is prepared for milking, the cleanliness of the milker, the type of pail used, the sanitary conditions of the barn, and the feed which is given the cow.

The next article of this series will discuss cleanliness in handling milk and cream, and the proper cleaning and sterilization of the equipment, and will be issued in the near future.

**NOTICE TO COUNTY SCHOOL SUPERINTENDENTS**

Earlier in the year Mrs. Downing offered a prize to the pupil in the county making the highest grade. So she asked us to notify you that this prize is ready and wishes each superintendent would turn in the name of the pupil in his school making the highest average grade to Mrs. Moore, Mr. Simms, or Mr. Lawlis, so the rightly deserved pupil may be awarded right away.

 The Official Paper of Terry County and the City of Brownfield.

Yesir, we're left to batch for the next six weeks, byjucks! Just such conditions is the reason that the average man sympathizes greatly with stray dogs and cats.

E. L. (Emmett) Whitaker, who once worked for the Herald, but has been part owner of the Abilene Times for the past few years, has purchased the Colorado Times. Sure, we'll exchange, Emmett.

The Chase National Bank, as well as other big banks are fighting the bank act of 1935. Of course, sure And they'll fight every thing else that benefits the common run of people, and makes their little savings safe.

We note that Lamesa has an anti-circular ordinance. We have one in Brownfield, but it does not extend to the resident section, or forbid putting them in stores if the storekeeper does not object. One cannot, however, hand them out on the streets in the business section.

Talking of ordinances, we thought we had one forbidding the riding of bicycles on the sidewalks. But we saw a boy riding one on the west side Tuesday afternoon and he ran into an old man and a little crippled boy. When told that it was against the law he gave his informant a blow of the tongue.

Cleburne recently celebrated "Santa Fe Day," to show that fine railroad and its officials how much they appreciated what that rail line with its big payroll meant to that city. A lot of places, including Brownfield, could show their appreciation for service rendered and the money expended in their town by institutions.

What made the professional lobbyist sore was that after being in Washington five months, they have never been invited to hold an audience with the President at the White House. Then lo and behold, the lowly dirt farmer comes to town, and an audience was arranged before they arrived in town. FDR is a funny chief executive to them.

We have heard many complaints about the amount of money Texas is spending on the Centennial at Dallas next year. After all, the amount is less than 50c each for each inhabitant of the state. Sure, no one should begrudge that much to show the world that Texas is proud of its past history, and the men and women that sacrificed to make it an American state.

It seems that hardly a week can go by without Sharley Guy pulling some boner for us to correct. In a late issue of the Hubbock-Havalanche Shurnal, Sharley tells us George Mahon is representing the "Lubbock District" in congress. We have been under the impression all the time that it is the 19th district, and Hubbock had nothing whatever to do with Mahon being in congress. They were "agin" him.

Strikes sometimes are necessary, we reckon, and would not hurt much

if they were confined to those on strike. But they effect all in a general way. For instance, more than \$40 worth of advertising was canceled this month that was coming to the Herald because of a strike in the Chevrolet plant at Cleveland, Ohio. That not only effected us, but practically every newspaper in the United States and their employees and creditors.

No, with the wages paid to Americans, from \$3 to \$6 a day, we can't compete in prices of manufactured goods with Japan, paying laborers

from 20c to 30c per day, even though we bring in our boasted "mass production." Recently at a "Buy American Goods" celebration at Atlanta, Ga., it was discovered that the flags used for decorating were labeled, "made in Japan." However, American goods are far superior to those made in Japan in quality. Their light bulbs are not worth taking home, yet thousands of Americans buy them every day.

Say, Jack, many thanks for the birthday present. This editor was 69 in the shade last Wednesday, but didn't know that you knew it. Thanks, old pal.—Lamesa Reporter.  
 Many happy returns of the day. Editor Smith, we believe is the Dean of newspaper men on the Plains in point of age at least. He has a unique way of expressing his thoughts in print to make them stand out sharp and clear. And if they hit some one—well, he just ought not to have been in the way. But and if a man or woman lives and acts the gentleman or lady, they need have no fear of the darts hurled from Editor Smith's pen.

A. J. (Jack) Stricklin of the Terry County Herald is trying to figure out the first name of neighboring editors whose first names he does not know. He has christened the News editor Enoch Isaac. Not quite right, Jack, but we thank you for the compliment. Enoch was a man that "walked with God" and was such a fine fellow that it is said that God took him straight to Heaven without even permitting him to die. And Isaac, the "son of promise," was a pretty nice fellow too in spite of the fact that he practiced a little deceit once. Nobody was able to "put anything over" on him until he got old

and blind and he was a little hard to fool even then. But our name isn't Enoch Isaac, Jack—just E. I. is good enough. As for Jack, anybody could guess his name. He is from Tennessee, and old Andrew Jackson, the first President from that state, was the New Dealer of his day. He went after Big Business and Predatory Wealth—though there wasn't much of either then—without gloves, put the National Bank out of business, and some claim that he brought on the panic of 1837. Yes, he was a New Deal Democrat, and Andy Jackson Stricklin bears the name proudly.—Tahoka News.

Howtheheck do you know so much about our name? Could it not stand for Andrew Johnson? Wasn't he, also, a Tennessean? Anyway, we are once more going to try to delve into "E. I.'s" great secret. Surely his wife don't say, "Mister Hill, come get it," when lunch, breakfast or dinner is served. Undoubtedly she uses some endearing name when the feast is spread? Yes, we'll try again. This time we have consulted a little book issued by Literary Digest, and thinking perhaps that "E. I.'s" parents thought he might amount to something in later life, this little book, "Who, When, Where, What?" may throw some light. Therefore, we have, after much deliberation selected "Erasmus" as the first name. This little book says that he was the Monk that laid the egg that Martin Luther later hatched. As to the second name, we believe that his parents desired that their son be somewhat of a hero, was called "Ivanhoe" a hero of one of Scott's novels. Therefore, we have "Erasmus Ivanhoe Hill." Will editor Hill undertake to deny this? Who cares who knows your full name? Yes sir, ours is Andrew Jackson, and we don't give a plugedam who knows it. And we ain't ashamed to be from the old Volunteer state. It was such men as Houston and Crockett from that state that whipped the tamalas out of the Mex. and freed Texas. It was the man we were named "after" or "for" that sent old Gen. Packingham and his Redcoats to hell before breakfast at New Orleans. Come to Terry!

**Hunter News**

Little Troy Lee Scott drank some kerosene Sunday afternoon, but was rushed to the doctor and we are glad at this writing that he is all right.  
 Misses Mildred Thurman and Lorene Smith visited Miss Janerio Rogers, Sunday.

Mr. R. E. Sanders and two children from Ralls are visiting Mr. and Mrs. E. P. Smith this week.

We understand Bro. Jackson will preach here next Sunday.

Mr. and Mrs. L. B. Johnston and Miss Geneva Williams visited Mr. and Mrs. Malcolm Riley at Forrester, Sunday.

Mr. and Mrs. Tom Smith and children and Evelyn Williams, Bernice Thurman and Lorene Breazeale took dinner with Mr. and Mrs. Holleman and family.

Mr. and Mrs. Breazeale and family spent Sunday night in the Johnston home.  
 Messrs. Homer and Roe Sudderth and Miss Yrma Sudderth attended the cream supper at Mr. and Mrs. A. P. Bowerman's of Scuddy, Saturday night.

Mr. Reece who has been visiting her parents, Mr. and Mrs. E. P. Smith returned to her home at Ralls, Monday. Her brother, James Smith accompanied her home.

Mr. and Mrs. L. I. Sudderth and family, Mrs. Renfro and son Dale of Brownfield and H. M. Austin spent Sunday with Mr. and Mrs. J. L. Lyon.

Mr. and Mrs. Sudderth and family returned last week from Callahan county where they have been visiting their daughter, Mrs. Fred Kelley. They also called to see Miss George as they were passing through Sweetwater.

The lightning struck the Breazeale home Sunday afternoon two different times. It struck a bed room first and set the bed on fire, and then the kitchen, completely demolishing the cabinet and breaking a lot of dishes. Luckily no one was hurt and the fire was soon put out.

Jane Addams is dead at the end of a famous career of gracious service. She was known wherever people sought to serve the lowly ones of the earth. Hundreds of thousands of those among the poverty stricken of the great cities knew her and loved her for her unselfish life, and for the brightness she brought into their lives. The self-serving politician can be forgotten as soon as he is gone, but new generations must come before Jane Addams' name will be a household word among those she worked to help.—Ralls Banner.

Mrs. John Shinn of Plainview visited her parents, Mr. and Mrs. L. L. Blackstock who live west of town, the first of the week. Mrs. Shinn also visited in Mrs. T. L. Treadway's home Wednesday, and Miss Mozelle Treadway went home with her for a few days visit.

**A FINE CITIZEN PASSES**

O. L. Jones, 46, passed away last Friday afternoon at the family residence in the southeast part of the city. He had been ill for some three weeks with pneumonia. All that doctors and trained nurses, together with the ministrations and prayers, of his friends, was done, but the weakened body could never rally sufficient to recover. He leaves a wife and seven children, the youngest just a baby in arms, and the oldest a lad that will be a senior in high school next year. He also leaves a mother and a number of brothers and sisters, some whose names we do not know at this time.

Funeral services were held at the church of Christ, of which he was an Elder, Saturday afternoon at three o'clock, by Elder Liff Sanders of Lubbock, the man who married the deceased and wife in 1916. The crowd overran the capacity of the small building soon after time for the funeral, and hundreds perhaps, stood about the building outside. A profusion of flowers, the like of which is seldom seen, attested the high esteem in which Oscar was held by the community in general. Elder Sanders was assisted by Elder Jas. A. Fry, of this city. Burial followed in the Brownfield cemetery.

Deceased was born at Nashville, Ark., in 1889, but came to Texas in his young manhood with his parents. He became a member of the church about 20 years ago, and had always been a faithful and conscientious member. After several years as a deacon, he was made an elder in the congregation. And as Elder Sanders said of him, "Outside of a preacher, Oscar Jones could pray the most reverently of any man he knew." People of all walks of life loved and respected him, because he always gave them a square deal. The writer has known him since about 1917, and never heard him say a harm word of anyone, nor did we ever hear anyone make a disparaging remark about Oscar. He stood high with his employees, the West Texas Gin Co., of which he was local manager, and the men who worked under him feel that their best friend is gone.

His going is not only a shock and a blow to his family and relatives, but to the church and community in general. He was always willing to lend his assistance and to help financially support the community institutions, especially the public schools. He was always to be found on the moral side of every question. Few men have ever lived here who held such universal respect of his neighbors.

Among relatives and friends from a distance who attended the funeral, were, Mrs. B. Tidwell, of Quemado, Texas; Mrs. May Williams of Roswell, N. M., and Douglas Jones and wife of Amarillo, brother and sisters; Kelsey Chesshir, of Quanah, cousin; Messrs. Simmons, McAdams and Barry, of Quanah, connected with the West Texas Gin Co.; Prof. and Mrs. Earl Brown and R. H. Banowsky, of Abilene. Prof. Brown, history instructor in Abilene Christian College, was given the privileges of an education by deceased, by both encouragement and financial aid, as he was a cripple and an orphan.

The sympathy of the entire community goes out to the heartbroken family.

**Inspiring Opportunities**

Young people interested in early incomes should write at once for current Employment Report issued by Draughon's Business Colleges, showing long list of recent placements and many unfilled positions—proof that the world-famous Draughon Training brings inspiring opportunities during good times and bad.  
 With calls for graduates constantly increasing, you can imagine what the opportunities are going to be during the fall and winter business months.

All we ask is an opportunity to furnish proof. Mail Coupon at once for a free copy of "Planning Your Future," which describes today's opportunities in business and a proven plan for securing good starting positions.

Young people who enter soon will finish at the best time of the year to have the widest choice of positions. Special time and money-saving plan now open to a limited number. Fill in name and address and mail now for full particulars to nearest Draughon's College—Dallas, Wichita Falls, Abilene or Lubbock. (Or see this paper).

**FAMILY REUNION**

Mr. and Mrs. L. D. Chambliss had all of their children home Sunday, May 26, for a chicken dinner, honoring their son, Woodrow, who will be at home several days. Woodrow leaves Saturday for Dallas where he will be employed by the Texas Farm and Ranch publishing Co. for the summer.

Kodak picture taking furnished entertainment for the afternoon. Enjoying the day besides the father and mother and honored guest were: Marcus, J. W., Roy, Ora Belle and Lois Chambliss; Mr. and Mrs. J. J. Gunter and five children of the Pool community; Mr. and Mrs. Lloyd Chambliss and their two children; Mr. and Mrs. Sam Chambliss and children, and Mr. and Mrs. Robert Chambliss and little daughter.

### RED GOOSE—THE OJIBWA INDIAN BOY

An Indian Story for Boys and Girls by CARLYLE EMERY

Red Goose has reached the top of the cliff, where Black Kettle and his murderous band of Sioux are camped. Down below, Bear Cat orders his men to follow, using the rope Red Goose has fastened securely to a tree up above. Now go on with the story.

Private Mulroy was quick to obey his Captain's command, and seizing the rope in his big hands, he began to climb up the side of the steep cliff, hand over hand.

Evans was the next soldier to start the climb, then Wilson, and then the others, until only Bear Cat and Little Beaver were left.

"Now it's your turn, young lady," said Bear Cat to Little Beaver. "Take it easy and don't try to go too fast. When your arms and hands get tired, rest on the rocks that jut out from the cliff. But climb—you must join Red Goose, you know—and as soon as you are safely up, I'll start after you."

So, following Bear Cat's instructions, Little Beaver took her time and worked slowly, but always she kept climbing. Once her foot slipped, when she caught it on a loose stone, but after a brief rest she started again, and eventually climbed on to solid ground.

Bear Cat followed without a moment's hesitation, Bear Cat looked over his surroundings. Red Eagle had gone with Custer and his cavalry to lead them to the top by the long way round.

"Is everybody here?" whispered Bear Cat cautiously.

"Yes, Captain," said Wilson quietly. "All but Red Goose."

"What happened to him?"

"He went on a little skirmishing party of his own."

"How long has he been gone?"

"He left the moment I got up here, said Mulroy, who had been the first soldier to reach the top.

"Then he should be back soon. It took just an hour for all of us to get up and if Black Kettle is here, we'll have to entertain him for two hours.

By that time the General should be getting here."

Bear Cat spoke softly, but there was a note of anxiety in his voice that no one missed. Black Kettle was a notoriously bad Indian, and there was little hope for any of them if they were discovered before Custer's return.

"Shhh—" said Mulroy, "Something is moving over there in the grass—to the right, Captain—Look!"

"Keep still, everybody! It may be an animal, and then again, it might be—"

But Bear Cat's worry was put to an end, when the head of Red Goose popped up.

"What luck son?" asked Bear Cat, as soon as the boy had joined the rest of the party.

"Black Kettle and many Sioux here. We separate now," said Red Goose. "One soldier go behind big rock over there—two go behind tree—two more behind bush near hill—rest stay here."

"That's a good idea," chuckled Bear Cat, amazed at the strategy of his youthful companion.

(To be Continued)

### TOO MANY LAWS

Last week the Legislature adjourned and they did about as much good preventing some legislation as they did in passing some. We need to repeal a lot of laws. To many laws and too little enforcement. Now don't get the idea that we are after the courts. We have been watching courts for a long time and in at least eight out of ten times it is the jury.

Just a few days ago we noticed where a fellow killed his wife and there was no question about his having killed her or there was all question. If he did kill her as charged, he should have been electrocuted, if he didn't then he should have been cleared, but they gave him three years. We can't understand why a jury can possibly do such things. He was guilty or he wasn't. He was charged with the murder of his wife.—Lamesa Reporter.

We note from the Lubbock Avalanche that John Stanford, formerly of Plains, addressed the Van Zandt county picnicers in reunion at Lubbock Sunday. John is a whole souled ex-Van Zander.

### More Seats Provided For Cowboy Reunion

STAMFORD, Texas.—Seating capacity at the rodeo arena on the Texas Cowboy Reunion ground is being increased to 10,000 by the rebuilding and enlarging of one of the present grandstands to provide 2,000 additional seats. The improvement will be completed in ample time for the sixth annual Texas Cowboy Reunion which will be held here July 2, 3, 4.

Enlargement of the stand will give a total of approximately 8,000 grandstand seats in addition to the bleacher seats accommodating about 2,000 persons. Plenty of standing room and a small amount of space for automobiles is also available on one side of the arena.

The improvements are being made to take care of the increasing crowds which flock here each year for the cowboys' meeting. A guest cabin at which distinguished Reunion visitors will be entertained is another improvement being made on the grounds this year.

A new fence has been built around the chuck wagon or camp area on the grounds to provide more privacy. A number of ranch outfits each year bring their chuck wagons to Stamford and the cowboys camp here while taking in the Reunion and competing in the rodeo. Some new pens at the arena are also included in the improvements.

Detailed preparations for the Reunion this year are well under way. Committees of Stamford business men are busy on various features of the program, including plans for the entertainment of the oldtime cowboys who are guests of the organization each year.

All plans are being made on a scale to care for a substantial increase in the attendance which reached a total of 55,000 for the three days last year.

Rev. Landreth preached to the three graduating classes Sunday. He looked like every sentence he spoke was a little better than the preceding one. He never held out false hopes. He never misled any one as is generally the custom. To my way of thinking he hit his hardest lick when he told that bunch of youngsters that "there probably has never been a time when the world had as little to offer them as now, or a time when jobs were scarcer." I wondered what made the preacher say that. It was like hitting the young folks in the face with a wet rag on a cold morning. Then he came right back and clinched the bargain by saying, "and there never was a time when the world needed you more than right now." I'll say the world needs some help, and it must look to these young folks for that help. We older folks are not getting anywhere, and the preacher was honest enough to admit it. He could have told them that "if we did come from a monkey, we ought to apologize to them for not having sense enough to manage our affairs as well as the monkeys have theirs." Yes, we need a fresh supply of brains, pep, ambition and training. The preacher was dead right all through his talk.—Clarendon Leader.

The Herald has received an announcement of the marriage of Miss Mona Marie Graves to Mr. Robert L. McCain, at Stephenville, May 3rd. Mrs. McCain is a sister of Kyle Graves of this city, and has visited her brother here several times. Congratulations.

### CHALLIS CHATS

Our school closed last Friday evening with a beautiful combination Commencement program for the seventh and eleventh grades. Rev. Jas. A. Fry, of Brownfield, gave the Commencement address. Mr. Terry C. Redford presented the diplomas to the following seventh grade graduates: Salutatorian, Calvin McLeroy; Valectorian, Jewel Decker; Geraldine Key, Lucille Walker, Lawrence Whitley, Ruby Childress, Thurman Drury, Rayburn Burns, Charlie Vest, Estell Cottrell, Lois Daugherty, Cecil Corley, Raymon Payton; and to the following eleventh grade graduates: Salutatorian, Chester Kerrick; Valectorian, Frank Decker. Mr. Wayne Tipton of Brownfield, entertained during the evening with guitar music and song.

Rev. R. K. Linder, of Lorain, delivered some inspiring messages at the Baptist church, Saturday night and Sunday.

Miss Viola Anderson, of Tokio, was the week-end guest of her sister, Mrs. Henry Cargill.

Mr. and Mrs. Elmer Sears and little son of the Johnson community, and Miss Reva McLeroy were guests in the K. Sears home Sunday.

Messrs. W. H. and Earnest Kelley of Quemado Valley, visited relatives here last week.

Rev. R. K. Linder and wife, of Lorain were guests in the T. S. Doss home, Saturday night.

Miss Lillian Lee is visiting relatives at Aspermont.

Mr. and Mrs. C. J. McLeroy and daughters visited in the Scuddy community Sunday afternoon.

Mr. and Mrs. Henry Cargill and children visited her mother, Mrs. Anderson, of the Tokio community, Sunday.

Mr. and Mrs. Aubrey Fore and little daughter were guests in the H. R. Franklin home Sunday.

Mr. and Mrs. Lee Fulton are visiting relatives at Wichita Falls this week.

Doyle and Dorman Sears of Lamesa and Mrs. C. Sears and daughter, Vicie Mae visited in the K. Sears home Monday.

Rev. R. K. Linder and wife and Mr. and Mrs. J. E. Lee were dinner guests in the N. A. Newberry home Sunday.

We are sorry to report that Mr. F. B. Earnest is suffering a broken hand sustained while employed at the Babicora Development stock pens.

### OBITUARY

Mrs. Willie Waters Jones, age 38 years, passed away at her home at Tokio, Texas, May 12, 1935 at 3 P. M. The funeral services were held at New Hope church Jones county, May 14, 1935. Reverend H. S. Hincson and Rev. J. H. Skiles conducted the services.

Mrs. Jones had been in ill health for some time. She is survived by three children, Ray 16, Wanda 13 and Elaine 6.

Friends and relatives attending the funeral from other towns were: Mr. and Mrs. J. T. Jones, Tokio, Texas, Mr. and Mrs. Buck Huston, Berwyn, Okla., Mr. Claude Huston, Berwyn, Okla., Mr. and Mrs. Roy Huston, and daughter, Modena, Littlefield, Texas, Mr. and Mrs. L. B. Baker, Merkel, Texas, Mr. and Mrs. C. P. Livengood and children, Floreine and Durward and Mr. and Mrs. T. W. Jones of Lueders, Texas.

The pallbearers were: J. C. White, Rual White, C. P. Livengood and Buck Shelton. Roy Collier of Brownfield had charge of the funeral arrangements.

### Largest Elevator Structures

Manhattan boasts the tallest and the largest elevator structures in the world, notes a writer in the New York Times. In the Empire State building a freight elevator travels 186 feet from the sub-basement to the eighty-sixth floor. In the Port Authority building an elevator with a carrying capacity of 40,000 tons lifts four loaded trucks. The platform of the elevator, 17 by 34 feet, stopped all traffic in the Hudson tunnel for two hours when it was carried through. It negotiated the tube with two feet to spare.

### Noisiest Bird

The scream of the peacock can be heard a mile away, but the noisiest bird in the world is the cockatoo. A single bird can make a din which would dim a dozen motor-car horns and fill the sound of a steam whistle. The bell-bird of Brazil is runner-up to the cockatoo. This white bird is about the size of a pigeon. It lifts its head in the air and makes a noise that sounds like the bang of a hammer on an anvil.

### Falling Objects

All objects falling through a complete vacuum fall at the same rate of speed regardless of weight or size. But in the atmosphere falling objects meet with air resistance which depends on size and shape of the object falling. If the two balls are of the same material the smaller one would fall slightly the faster because there would be less surface to offer resistance.—Pathfinder Magazine.

### Varieties of Law

The varieties of law under which the people of this country live may be classified as follows: Common law and principles of equity; city ordinances and town, township and county regulations; statute laws of the state; state constitution; federal statutes; national constitution, and treaties made by the United States with foreign countries.

### Effect of Diseases

Every disease leaves one less able to resist the next attack. Most of the diseases of adult life are partly the "sequelae" of the diseases of childhood. Most people who live to be eighty and ninety have been extraordinarily free from disease all their lives.

### Model of Roman London

In the All Hallows church, close to the Tower of London, and open to the public, is the great model of "Roman London" as it existed in the early part of the Fourth century. The total distance around this venerable section is a little more than three miles.

### Use Tails as Weapons

Some animals swing a wicked tail. Whales are famous for this and so are certain large lizards. The octopus has the prize weapons of all in his eight arms, each equipped with a double row of suckers.

### The "Turbine"

A "turbine" is a rotary motor in which the shaft is rotated steadily in its bearings, not by means of cranks, as in a reciprocating engine, but by a current of water, air, steam or any other fluid flowing forcibly against the flanges.

### Bargain Brides

Parents of Turkish girls sell their daughters to the highest bidders on the island of Cyprus. A bargain bride may be obtained for as little as \$200. Others bring up to \$500.

### The Largest Whale

The largest whale of which there is scientific record is the one 54 feet long which was captured and killed in 1907 and is on exhibition at the American Museum of Natural History.

### Potteries Show Chinese Ritual

The potteries found in the early tombs of the Chinese represent copies of their earthly belongings as well as objects prescribed by ritual for burial with the dead.

### Wall Paper Made Here in 1765

The first wall paper manufactured in the United States was made by John Ruger, who in 1765 set up his factory in New York city.

### Sheaf of Wheat 1830

Silver spoons decorated with the sheaf of wheat or basket of flowers design date from about 1830. They were popular in 1850.

### Columbia Gets Rare Document

A document dated 1754 relating to the founding of Columbia university has been presented to that university.

### Africa Has Ancient Tower

Mombasa has a high tower which dates back to 400 B. C. It is one of the wonders of mid-Africa.

### Cornfields at Waterloo

The ground of the battlefield of Waterloo is today an intensively cultivated district of rich cornfields.

### 76 Per Cent of People "Natives"

About 76.5 per cent of the people who are born within a state live within that state.

### N. Y. Had First Hotel Elevator

The first hotel to install an elevator was the Fifth Avenue in New York city in 1859.

### Jade Carved by Hand

The real Oriental jade is carved by hand with primitive tools.

Kyle Graves, wife and daughter, Miss Charlene were visitors in the home of Mr. Graves' parents at Stephenville, the past week end, returning Tuesday.

Mrs. Wilkins of Hatch N. M., a sister of Mrs. Harrison Carpenter visited in the Carpenter home the first of this week.

### "BAD MEN"

Kerrville Times:

The end came to Raymond Hamilton, the Southwest's Public Enemy No.1, early Friday morning. "Crime can't win," Hamilton said a few hours before his execution, but added, "it will do no good to warn."

Hamilton had made the boast that he would escape from the prison again and that he would never be electrocuted, or in event of death penalty was carried out that his nerve would keep up to the last. Like many other "bad" men, his nerve snapped toward the last. Raymond Hamilton like many another robber and killer was not so brave when the pinch came. Most of these bandits are cowards at heart, showing bravery only when there is a good chance to win.

There was some effort by misguided commuted to life imprisonment. These folks certainly have forgotten that Hamilton plotted and helped to execute the plan of escape from the penitentiary which resulted in the deaths of prison employees; that he had just been recaptured after another career of crime running through several states, and forget that if he had again escaped that other deaths would result from his heartless gun efficiency. They forget that there are those who mourn for the victims of such bandits and must forget that to turn these lawless men loose would mean death and heartache for innocent and law-abiding people.

There is no reform for such outlaws and their execution means greater safety for honest and law-abiding citizens.

## SPECIALS

FOR

Saturday and First Monday

Below we list a few of the many specials we offer you.

- Fly Ded, ..... pint—25c; Quart—50c
- Sprayers ..... 15c

CONSTITUTIONAL AMENDMENTS

S. J. R. No. 3

A JOINT RESOLUTION

proposing an Amendment to Article XVI of the Constitution of Texas by striking out Section 20a to Section 20e, both inclusive; prohibiting the open saloon and vesting in the Legislature the power to define and enact laws against such; vesting in the Legislature the power to regulate the manufacture, sale, transportation and possession of intoxicating liquors, including the power to provide for a State Monopoly on the sale of distilled liquors; providing that intoxicating liquors shall not be manufactured, sold, bartered or exchanged in any county, justice's precinct or incorporated city or town wherein sale of intoxicating liquors had been prohibited by local option election held under the laws in force at the date of the taking effect of Section 20, Article XVI of the Constitution of the State of Texas...

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVI of the Constitution of Texas be amended by striking out Section 20a to Section 20e, both inclusive, and substitute in lieu thereof the following:

"ARTICLE XVI. SECTION 20.

(a) The open saloon shall be and is hereby prohibited. The Legislature shall have the power and it shall be its duty to define the term 'open saloon' and enact laws against such. Subject to the foregoing, the Legislature shall have the power to regulate the manufacture, sale, possession and transportation of intoxicating liquors, including the power to establish a State Monopoly on the sale of distilled liquors.

(b) The Legislature shall enact a law whereby the qualified voters of any county, justice's precinct or incorporated town or city, may, by a majority vote of those voting, determine from time to time whether the sale of intoxicating liquors for beverage purposes shall be prohibited or legalized within the prescribed limits; and such laws shall contain provisions for voting on the sale of intoxicating liquors of various types and various alcoholic content.

(c) In all counties, justice's precincts or incorporated towns or cities wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20 Article XVI of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any county, justice's precinct or incorporated town or city, any spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication or any other intoxicants whatsoever, for beverage purpose, unless and until a majority of the qualified voters in such county or political subdivision thereof voting in an election held for such purpose shall determine such to be lawful, provided that this subsection shall not prohibit the sale of alcoholic beverages containing not more than 3.2 per cent alcohol by weight in cities, counties or political subdivisions having voted which the qualified voters have voted to legalize such sale under the provisions of Chapter 116, Acts of the Regular Session of the 43rd Legislature.

Sec. 2. Such proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas on the fourth Saturday in August, 1935, at which election all voters favoring said proposed Amendment shall write, or have on their ballots the words:

"FOR the amendment to the State Constitution repealing Statewide prohibition, prohibiting the open saloon and providing local option."

And those voters opposed to said proposed Amendment shall write or have printed on their ballots the words:

"AGAINST the amendment to the State Constitution repealing Statewide prohibition, prohibiting the open saloon and providing for local option."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for such election, and shall have the same published and such election held as provided by the Constitution and laws of this State.

Sec. 4. The sum of Eight Thousand (\$8,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

The above is a true and correct copy.

Gerald C. Mann Secretary of State

H. J. R. No. 39

A JOINT RESOLUTION

proposing an Amendment to Section 15, of Article 1, of the Constitution of Texas, and providing that the Legislature may authorize the temporary commitment of mentally ill persons, not charged with a criminal offense, for treatment and or observation without the necessity of a trial by jury.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 15, of Article 1, of the Constitution of the State of Texas be amended as to hereafter read as follows:

"Sec. 15. The right of trial by jury shall remain inviolate. The

Legislature shall pass such laws as may be needed to regulate the same, and to maintain its purity and efficiency. Provided, that the Legislature may provide for the temporary commitment, for observation and or treatment, of mentally ill persons not charged with a criminal offense, for a period of time not to exceed ninety (90) days, by order of the County Court without the necessity of a trial by jury."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State, qualified to vote on the Constitutional Amendments, at an election to be held throughout the State on the 4th Saturday of August, A. D. 1935, at which election each ballot shall have printed thereon the words:

"For the Amendment of Article 1, Section 15, of the State Constitution by adding to said Section a provision to the effect that the Legislature may provide for the temporary commitment of mentally ill persons not charged with a criminal offense by the County Court without the necessity of a jury trial."

"Against the Amendment of Article 1, Section 15, of the Constitution by adding to said Section a provision to the effect that the Legislature may provide for the temporary commitment of mentally ill persons not charged with a criminal offense by the County Court without the necessity of a jury trial."

Each voter shall scratch out with pen or pencil the clause which he desires to vote against so as to indicate whether he is voting for or against the proposed Amendment.

Sec. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election, and have the same published as required by the Constitution and laws of the State of Texas.

Sec. 4. The sum of Five Thousand Dollars (\$5,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

The above is a true and correct copy.

Gerald C. Mann Secretary of State

H. J. R. No. 46

HOUSE JOINT RESOLUTION

proposing an Amendment to Article IV of the Constitution of the State of Texas so as to authorize Courts having original criminal jurisdiction to suspend the imposition or execution of sentence and to place the defendant on probation and to reimpose such sentence under such conditions as the Legislature may prescribe; providing for an election on the question of adoption or rejection of such Amendment and making an appropriation therefor; providing for the proclamation thereof; and prescribing the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IV of the Constitution of the State of Texas be amended by adding thereto, between Sections 11 and 12 a new Section to be known as Section 11A, to read as follows:

"Section 11A. The Courts of the State of Texas having original jurisdiction of criminal actions shall have the power, after conviction, to suspend the imposition or execution of sentence and to place the defendant upon probation and to reimpose such sentence, under such conditions as the Legislature may prescribe."

Sec. 2. Such proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas, on the fourth Saturday in August, 1935, at which election all voters favoring said proposed Amendment, shall write, or have printed on their ballots the words:

"FOR the Amendment to the State Constitution authorizing the Courts to place defendants on probation."

"AGAINST the Amendment to the State Constitution authorizing the Courts to place defendants on probation."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for such election, and shall have the same published and such election held as provided by the Constitution and laws of this State.

Sec. 4. The sum of Four Thousand Dollars (\$4,000), or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

The above is a true and correct copy.

Gerald C. Mann Secretary of State

H. J. R. No. 48

HOUSE JOINT RESOLUTION

proposing an amendment to Section 1, of Article XVII, of the Constitution of Texas, providing that Constitutional Amendments may be submitted by the Legislature at Special Sessions under certain conditions; providing for an election on the question of adoption of such amendment and providing for the proclamation and the publication thereof; describing the form of ballot, and making an appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1, Article XVII, of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

"Section 1. How the Constitution is to be Amended. The Legislature, at any biennial session, by a vote of two-thirds of all the members elected to each House, to be entered by yeas and nays on the Journals, may propose Amendments to the Constitution, to be voted upon by the qualified electors for members of the Legislature, which proposed Amendments shall be duly published once a week for four (4) weeks, commencing at least three (3) months before an election, the time of which shall be specified by the Legislature, in one weekly newspaper of each county, in which such a newspaper may be published; and it shall be the duty of the several returning officers of said election, to open a poll for, and make re-

turns to the Secretary of State of the number of votes cast at said election for and against said Amendment; and if more than one be proposed, then the number of votes cast for and against each of them; and if it shall appear from said return, that a majority of the votes cast, have been cast in favor of any Amendment, the said Amendment so receiving a majority of the votes cast, shall become a part of this Constitution, and proclamation shall be made by the Governor thereof; provided however, that in cases of extraordinary emergency affecting the State as a whole, Amendments to the Constitution may be proposed in the manner hereinabove set out upon the submission of the proposed Amendment by the Governor at any Special Session."

Sec. 2. The foregoing Amendment shall be submitted to the electors of this State who are qualified to vote on proposed Constitutional Amendments at an election to be held on the 24th day of August, A. D. 1935, at which election each ballot shall have printed thereon the words:

"FOR the Amendment to Section 1, Article XVII, of the Constitution of Texas, providing that Amendments to the Constitution may be proposed at Special Sessions of the Legislature under certain conditions." And those against the Amendment shall have printed the words:

"AGAINST the Amendment to Section 1, Article XVII, of the Constitution of Texas, providing that Amendments to the Constitution may be proposed at Special Sessions of the Legislature under certain conditions." Each voter shall strike out with pen or pencil the clause which does not indicate his desire regarding the above proposed Amendment.

Sec. 3. The Governor is hereby directed to issue the necessary proclamation for said election, and to have the above proposed Amendment published in the manner and for the time required by the Constitution and laws of this State.

Sec. 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary is hereby appropriated out of any funds in the State Treasury not otherwise appropriated, to pay for the expenses of said publication and election.

The above is a true and correct copy.

Gerald C. Mann Secretary of State

S. J. R. No. 6

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas, amending Article 16 by adding another section to be known as "Section 61", providing for the abolishing of the free method of compensating all district officers of this State and county officers in counties of this State having a population of 20,000 or more, and providing that all such district and county officers be paid on a salary basis; and providing that the Legislature shall enact law putting this amendment into effect, providing for the submission of this amendment to the voters of this State; and providing that all precinct officers in all counties and county officers in counties under 20,000 population may be compensated on a fee basis or on a salary basis authorizing the Commissioners' Court to determine whether or certain county and precinct officers shall be paid on a fee basis or a salary basis; and providing for the necessary appropriation to defray necessary expenses for the submission of this Amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas, Article 16 be amended by adding thereto another section to be known as "Section 61", which shall read as follows: "Officers in the State of Texas and all county officers in counties having a population of 20,000 or more, according to the then last preceding Federal Census, shall from the first day of January and thereafter, and subsequent to the first Regular or Special Session of the Legislature after the adoption of this Resolution, be compensated on a salary basis. In all counties in this State, the Commissioners' Court shall be authorized to determine whether precinct officers shall be compensated on a fee basis or on a salary basis; and in counties having a population of less than 20,000, according to the then last preceding Federal Census, the Commissioners' Court shall also have the authority to determine whether county officers shall be compensated on a fee basis or on a salary basis."

All fees earned by district, county and precinct officers shall be paid into the county treasury where earned for the account of the proper fund, provided that fees incurred by the State, county and any municipality, or in case where a pauper's oath is filed, shall be paid into the county treasury when collected and provided that where any officer is compensated wholly on a fee basis such fees may be retained by such officer or paid into the treasury of the county as the Commissioners' Court may direct. All Notaries Public, county surveyors and public weighers shall continue to be compensated on a fee basis."

Sec. 2. The Legislature of the State of Texas is hereby directed, at the first Regular or Special Session after the adoption of this Resolution, to enact legislation as will be necessary to adequately compensate, on a salary basis, the officers herein referred to in all counties having a population of 20,000 or more according to the then last preceding Federal Census.

Sec. 3. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at a special election to be held on the 24th day of August, 1935, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words:

"FOR amendment to the Constitution of the State of Texas abolishing the fee system of compensating all district officers, and all county officers, and all county officers in counties having a population of 20,000 or more; and authorizing the Commissioners' Court to determine whether county officers and precinct officers in counties containing less than 20,000 population may be compensated on a fee basis or on a salary basis", and those opposed shall write or have

printed on their ballots the words: "AGAINST amendment to the Constitution of the State of Texas abolishing the fee system of compensating all district officers, and all county officers in counties having a population of 20,000 or more and authorizing the Commissioners' Court to determine whether county officers and precinct officers in counties containing less than 20,000 population may be compensated on a fee basis or on a salary basis."

Sec. 4. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Sec. 5. The sum of Five Thousand (\$5,000.00) Dollars or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

The above is a true and correct copy.

Gerald C. Mann Secretary of State

H. J. R. No. 19

HOUSE JOINT RESOLUTION

Proposing an amendment to Article III, of the Constitution of the State of Texas, by adopting a new Section to be known as Section 51-b, which shall provide that the Legislature shall have the power to provide, under such limitations and restrictions as may be deemed by the Legislature expedient, for old-age assistance and for payment of the same not to exceed Fifteen Dollars (\$15) per month each to actual bona fide citizens of Texas over the age of sixty-five (65) years, who are not habitual criminals, nor habitual drunkards, nor inmates in any State supported institution; and providing that the requirements for length of time of actual residence in Texas shall never be less than five (5) years during the nine (9) years immediately preceding the application for old-age assistance and continuing for one (1) year immediately preceding such application; and providing that the Legislature shall have the authority to accept from the Government of the United States financial aid for old-age assistance; providing for the necessary proclamation and making an appropriation to defray the expenses of proclamation, publication and election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a Section to be known as Section 51-b, which shall read as follows:

"Section 51-b. The Legislature shall have the power by general laws to provide, under such limitations and restrictions and regulations as may be deemed by the Legislature expedient, for old-age assistance and for the payment of same not to exceed Fifteen Dollars (\$15) per month each to actual bona fide citizens of Texas who are over the age of sixty-five (65) years; provided that no habitual criminal, and no habitual drunkard while such habitual drunkard, and no inmate of any State supported institution, while such inmate, shall be eligible for such old-age assistance; provided further that the requirements for length of time of actual residence in Texas shall never be less than five (5) years during the nine (9) years immediately preceding the application for old-age assistance and continuously for one (1) year immediately preceding such application."

"The Legislature shall have the authority to accept from the Government of the United States such financial aid for old-age assistance as that Government may offer not inconsistent with the restrictions hereinbefore provided."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the electors of the State of Texas on the fourth Saturday of August, 1935, at which election there shall be printed on such ballot the following clause:

"For the Amendment giving the Legislature the power to provide a System of Old-Age Assistance not to exceed Fifteen Dollars (\$15) per month per person and to accept from the Government of the United States financial aid for old-age assistance."

"Against the Amendment giving the Legislature the power to provide a System of Old-Age Assistance not to exceed Fifteen Dollars (\$15) per month per person and to accept from the Government of the United States financial aid for old-age assistance."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same printed as required by the Constitution and Laws of this State.

Sec. 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of the funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of said publication and election.

The above is a true and correct copy.

A JOINT RESOLUTION

proposing to amend Sections 3 and 5 of Article 7 of the Constitution of the State of Texas so as to permit the furnishing of State official text books free to every child of scholastic age, attending any school within the State.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 3 of Article 7 of the Constitution of the State of Texas be amended so that hereafter it shall read as follows:

"Section 3. One-fourth of the revenue derived from the State occupation taxes and poll tax of One (\$1.00) Dollar on every inhabitant of the State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed Thirty-five Cents on the One Hundred (\$100.00) having a population of 20,000 or more; and authorizing the Commissioners' Court to determine whether county officers and precinct officers in counties containing less than 20,000 population may be compensated on a fee basis or on a salary basis, and those opposed shall write or have

der such regulations and in such manner as may be provided by law, a sufficient amount out of the said tax to provide free text books for the use of children within the scholastic age attending any school in this State; provided, however, that should the limit of taxation herein named be insufficient the deficit may be met by appropriation from the General Funds of the State and the Legislature may also provide for the formation of school districts by General Laws; and all such school districts may embrace parts of two or more counties, and the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties, and the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and for the erection and equipment of school buildings therein, provided that a majority of the qualified property taxpaying voters of the district voting at an election to be held for that purpose, shall vote such tax not to exceed in any one year One (\$1.00) Dollar on the One Hundred (\$100.00) Dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by General or Special Law."

Sec. 2. That Section 5, Article 7, of the Constitution of the State of Texas, be amended so that hereafter it shall read as follows:

"Section 5. The principal of all bonds and other funds, and the principal arising from the sale of the lands herebefore set apart to said school fund, shall be the permanent school fund, and all the net, derivable therefrom and the taxes herein authorized and levied shall be the available school fund, to which the Legislature may add, not exceeding one per cent annually, of the total value of the permanent school fund, such value to be ascertained by the Board of Education until otherwise provided by law, and the available school fund shall be applied annually to the support of the public free schools. And no law shall ever be enacted appropriating any part of the permanent or available school fund to any other purpose whatever; nor shall the same, or any part thereof ever be appropriated to or used for the support of any sectarian school, provided that the State Board of Education may furnish State Adopted text books free to every child of scholastic age, attending any school within the State; and the available school fund herein provided shall be distributed to the several counties as may be provided by law and applied in such manner as may be provided by law."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to the electors of this State qualified to vote on Constitutional Amendments at the election to be held on the fourth Saturday in August, 1935, at which election there shall be printed on each ballot the following:

"FOR THE AMENDMENT TO THE CONSTITUTION OF THE STATE OF TEXAS PERMITTING THE FURNISHING OF FREE TEXT BOOKS TO EVERY CHILD OF SCHOLASTIC AGE ATTENDING ANY SCHOOL WITHIN THIS STATE,"

and

"AGAINST THE AMENDMENT TO THE CONSTITUTION OF THE STATE OF TEXAS PERMITTING THE FURNISHING OF FREE TEXT BOOKS TO EVERY CHILD OF SCHOLASTIC AGE ATTENDING ANY SCHOOL WITHIN THIS STATE."

Sec. 4. The Governor is hereby directed to issue the necessary proclamation for said election and shall have the same published as required by the Constitution and laws of this State, and said election shall be held under the Constitution and laws of this State.

Sec. 5. The sum of Ten Thousand (\$10,000) Dollars or so much thereof as shall be necessary is hereby appropriated out of the State Treasury to pay the expenses of the publications and elections provided for in this Resolution.

The above is a true and correct copy.

### OUR 23 YEAR COLUMN

Judge Joe Lancaster of Plainview had announced for congressman-at-large. Sheriff Geo. Tiernan had picked up a man here wanted in New Mexico for theft of horses. The Herald editor had learned that he had a new brother-in-law; Mr. Geo. H. Irwin had married Miss Annie Holden at Needles, Calif., on May 12th. Two gentlemen from San Francisco had passed through on the Transcontinental highway to Michigan. W. D. Winn went to Tahoka to meet Mrs. Lemley's mother. V. E. Hargett had over 300 young chickens. Moore & Griffith were drilling a well on the southwest corner of the square. A boy was born to Mr. and Mrs. Jonah Hamlet. Dee Brownfield and wife had moved to the old Harris place. Eb Ivey was in from the 666 ranch. Miss Ruby Bynum's school at Dumas had closed. Mr. and Mrs. Chas. Boone had given the young people a party.

A. M. McBurnett was in from the Groves community. W. J. French reported a fine rain in his section. The editor of the Knowles, N. M. News was a caller at the Herald office. Knowles was then the only (wet) spot in this section. W. J. Byrd and wife, and Dock Walker, had left for Arizona to make their home. Mr. and Mrs. E. Eicke and Misses Eldora Lewis and Jennie Lee Almon, were visiting in Snyder. Vernon Seitz and family had moved down from Lubbock and was operating a small ranch north of town. Judge and Mrs. Geo. W. Neill were Lubbock visitors. Sheriff Geo. E. Tiernan, W. G. Hardin and J. R. Hill were district court witnesses at Lubbock in the Dillard case. A man from Roswell was here to trade for the Harris ranch property south of town. Dad

Ellis was sporting a brand new 4-cylinder Buick.

Miss Dean Lowe had accepted a position in the Slaton schools as teacher. New seats for the district court room were being received. J. T. May and family were visiting at Lindsey, Okla. He was catching lots of fish, but times were hard and money scarce. A. B. Bynum had announced for County Treasurer. Mrs. M. A. Griffith, who had formerly resided in Brownfield and Gomez, had passed away at Mangum, Okla. Robert Lovett, who was raised on his father's farm in "Big Thicket" in San Jacinto county, Texas, had been elevated as president of the Harriman railroads, with offices in New York City.

Gomez: A light shower Friday. Mother's Day services were held at the Baptist church. Bro. Thomas filled his appointment at the Baptist church. A blind piano tuner was in town. Mrs. Ed Dumas of Plains was seriously ill. Ice cream supper at Will Black's. Simon Holgate had business in Plains. Allen Shepherds were well pleased with their new home at San Patricio, Texas.

Harris: Mr. Center had sold his cattle to Mr. King, on the Fox place. W. H. Harris had made a trip to Lubbock after supplies for his store. Mrs. J. W. Spear was nursing measles cases at J. E. Fitzgerald's. Roy Harris was drilling a well for Mr. Potts. Mrs. Arch McPhaul and little son had returned from a visit to New Mexico. All for this week.

Mrs. G. W. Graves and son, Jim, also son-in-law, Jack Holt, returned last week from a visit to Arkansas on account of the serious illness of Jim's grandfather. The old gentleman was said to be better when they left.

Some eight or ten rock trucks are certainly distributing crushed rock on Highway 51 in a hurry.

## TERRY COUNTY GROCERY

### DEALERS, GROWERS TO PRESENT WOOL MARKETING VIEWS

**COLLEGE STATION**—A proposal to license dealers in wool and mohair, under which certain trade practices which act to reduce returns to growers would be prohibited, is being considered by the Agricultural Adjustment Administration. Hearings on the proposed license will begin July 2nd.

One hearing has been scheduled at San Angelo, Texas, for July 29th and 30th, and other hearings will be as follows: July 1 and 2, Boston, Mass.; July 8 and 9, Denver, Colo.; July 11 and 12, Billings, Montana; July 15 and 16, Portland, Ore.; July 18 and 19, San Francisco, California; July 23 and 24, Salt Lake City, Utah; August 1 and 2, Kansas City, Mo.; and August 5 and 6, Columbus, Ohio.

the Angora goats of the United States and produces a like percentage of mohair. Figures from the United States Department of Agriculture for 1934 show that 7,608,000 sheep were shorn in Texas in 1934 and that 60,485,000 pounds of wool were shorn.

### CARD OF THANKS

We wish to thank our kind friends of Tokio for their help and sympathy in the death of our loving mother daughter and sister. We also thank the Stamford friends for the beautiful floral offerings.

We want to especially thank Mr. Collier, the undertaker for his faithful assistance and kind sympathy. May God always bless you. Signed: Roy, Wanda and Blaine Jones; Mr. and Mrs. J. T. Jones; L. B. Baker, C. P. Livengood and T. W. Jones.

Texas ranks first among the states in the number of sheep and goats and also in the production of wool and mohair. Sheep on Texas farms numbered 7,644,000 on January 1, 1933, according to an estimate of the United States Department of Agriculture. This was approximately 14.7 per cent of the sheep in the United States. Texas also has about 83 per cent of

A card from Mrs. Stricklin Sr., written last Friday, stated they—she and daughter, Sallie T., and Miss Vona Lee Dittto, had arrived at the home of Mrs. Stricklin's mother, Mrs. J. F. Holden at Redlands, Calif., Thursday at 4:30 P. M. She was to leave Monday for the home of a sister at Long Beach, where most of her time will be spent while in Calif.

### Meaning of Word "Caucus"

The word caucus originated in Boston as the name of a political club early in the Eighteenth century. Since Indian names were favorites for clubs the word is believed to have been inspired by the Algonquin Indian word "kaw-caw-saw" meaning "one who advises, urges, pushes on." It is now used in most English speaking countries but the American meaning is generally defined as a meeting of leaders of a party or a group to decide on policies, nominations, etc., for the party or group.—Pathfinder Magazine.

### Microbes

Microbes undoubtedly present the greatest extremes in nature. They vary greatly in size, some being 5,000 times larger than others. They live in a temperature range of 779 degrees, some being able to live at 459 degrees F. below zero while others thrive at 820 degrees F. above it. And some apparently are deathless, as they have been found in a revivable condition in coal deposits one hundred million years old.—Collier's Weekly.

### Village in a Crater

One of the queerest of all islands is the tiny island of Saba in the Dutch West Indies, the remains of an old volcano. The cliffs rise sheer to 800 feet, ascended by a staircase cut in the rocks. At the top one looks down into the crater of the old volcano, and in the crater, a tiny Dutch town where they build boats although there isn't a tree on the island.

### Lonely St. Helena

St. Helena, one of the loneliest places in the world, is 1,000 miles west of Africa. It is but 47 miles square and has a population under 4,000. Ships call but once a month. Its chief claim to fame is that it was the scene of the exile and death of Napoleon Bonaparte. General Cronje, Boer war leader, was interned here with 6,000 prisoners.

### The Sidesaddle Fashion

The sidesaddle for women riders, now considered old-fashioned, was a sensation when it was introduced in England several centuries ago by Anne of Bohemia, Richard II's queen. The queen, who went a good way toward curbing the wild impetuosity of her husband, brought the sidesaddle with her from her native country.

### The Fox Shark

The fox shark, also known as thresher shark and swingtail, is a peculiar species abounding in all warm seas, especially in the Mediterranean and the Atlantic. It feeds on herring and other small fish, rushing into schools of them and threshing about with its long tail.

### Bull Moose Loses Horns

Like every other sort of deer in the world, the bull moose loses its horns (antlers) every year, and they are annually renewed during each following summer, so as to be serviceable to the male deer during the winter to come.

### Two Long Voyages

The distance from Southampton, England, to Bombay, India, is 6,100 miles, practically the same as the distance to Buenos Aires, Argentina. The distance from Southampton to New York is 3,120 miles.

**Park Marks 600-Year-Old Event**  
At the spot at Maktu, in the Bay of Plenty where the first Arauwa canoe landed in Australia, 600 years ago, the famous Arauwa Maori tribe set aside ten acres as a public park.

### Safety First

"We should never rejoice at another's misfortune," said Hi Ho, the sage of Chintown, "lest we lose valuable time which should be employed in averting misfortunes of our own."

### Winds Steal Australian Soil

Hundreds of thousands of acres in central Australia disappear every year, according to researches, hot winds carrying the surface soil high and far over the Pacific.

### Woman Needs Less Food

A woman requires only 83 per cent of the food necessary for a man, according to recent findings of the British ministry of health.

### Make-Up Halted Fleas

Egyptian women used make-up, not to beautify themselves, but as a protection against fleas, declares a European scientist.

### Record for a Moose

There is one instance on record in which a domesticated moose is said to have drawn a sleigh 234 miles in one day.

### Epidemic in 1781

About 100,000 Indians died of small-pox in the epidemic which swept the central states and Canada in 1781.

### Telling the Truth

"If you tells all de truth you knows," said Uncle Eben, "you's liable to be as unpopular as a private detective."

### Colonial Greenwich

Many streets in Greenwich village, New York city, have houses dating from colonial days.

Human bodies are like stoves—65 per cent of the heat generated is radiated.

### China Traced to 1500 B. C.

The story of China has been traced back to somewhere near 1500 B. C.

Mr. and Mrs. Marvin Davis, of Waxahachie, were visitors here with Mr. and Mrs. Dick McDuffie over the week-end. Mrs. Davis is a sister of Mr. McDuffie. He is an employee of the Waxahachie Daily Light.

Mrs. Joe J. McGowan and son, Billie Joe, are spending a few weeks at Mineral Wells.

## President Roosevelt's Address to Farmers

Address of the President, delivered from the south Portico of the White House, to farmers who have convened in Washington for the purpose of supporting the Administration's Agricultural Adjustment Program, Tuesday afternoon, May 14, 1935.

I am glad to welcome you to the National Capital. We can think of this occasion as a kind of surprise birthday party for it was just two years and two days ago that the Agricultural Adjustment Act became a law. And I will remember the fine group of representatives of farmers from every part of the Union who stood around me on that occasion when I signed the Act.

In record time you and thousands of other farmers took hold and set up the machinery to control your own affairs and put the new law to work.

I remember, too, the many high and mighty people who said you could not do it—that it was no use for you to try—intimating clearly that their only remedy to improve your situation was to let the sheriffs' sales go on. That was the old and very familiar way—the high and mighty balanced farm production with demand. Those people did not understand and many of them do not understand today that, if the farm production of the United States suffers and loses its purchasing power, the people in the cities, of necessity, suffer with them. One of the greatest lessons that the city dwellers have come to understand in this past two years is this: Empty pocketbooks on the farm don't turn factory wheels in the city.

Go back for a minute to the Spring of 1933—when there was a huge carry-over of almost thirteen million bales and a price, because of that carry-over, of six cents a pound. You and I know what six cent cotton means to the purchasing power of the Cotton Belt.

There was huge carry-over of tobacco during the preceding six months was the lowest on record for many years. Wheat, with a carry-over of nearly four hundred million bushels and a price of thirty-five cents on the farm; corn, with a price of fifteen cents a bushel on many farms; hogs selling at three cents a pound.

You and I know what that meant in the way of purchasing power for forty million people.

When we came to Washington we were faced with three possible programs. The first involved price fixing Government decree. This was discarded because the problem of over production was not solved thereby.

The second was a plan to let farmers grow as much as they wanted to and to have the Federal Government then step in, take from them that portion of their crop which represented the exportable surplus and, in their name, on their behalf, dump this surplus on the other nations of the world. That plan was discarded because the other nations of the world had already begun to stop dumping. With increasing frequency they were raising their tariffs, establishing quotas and clamping on embargoes against just that kind of proposition.

Therefore, we came to the third plan—a plan for the adjustment of totals in our major crops so that from year to year production and consumption would be kept in reasonable balance with each other to the end that reasonable prices would be paid to farmers for their crops and to the end that unwieldy surpluses would not depress our markets and upset the balance.

We are now at the beginning of the third year of carrying out this policy. You know the results thus far attained. You know the price of cotton, of wheat, of tobacco, of corn, of hogs and of other farm products today. Further comment on the successful partial attainment of our objective up to this time is unnecessary on my part. You know.

I want to emphasize that word "adjustment." As you know, a great many of the high and mighty—with special axes to grind—have been deliberately trying to mislead people who know nothing of farming by misrepresenting—no—why use a pussyfoot word—by lying about the kind of a farm program under which this Nation is operating today.

A few leading citizens have gone astray from ignorance. I must admit it. For example, the prominent city banker who was driving through up-State New York with me four or five years ago in the late Fall. Everything was brown. The leaves were off the trees. We passed a beautiful green field. He asked me what it was. I told him it was winter wheat. He turned to me and said, "That is very interesting. I have always wondered about winter wheat. What I don't understand is how they are able to cut it when it gets all covered up with snow."

The other was the editor of a great metropolitan paper. He visited me down in Georgia when the cotton was nearly grown but before the bolls had formed. Looking out over the cot-

ton fields he said to me:

"What a great number of raspberries they grow down here."

Raspberries was right. At four and one-half cents a pound for cotton his mistake was, perhaps, a natural one.

I was speaking of adjustment. It is your duty and mine to continue to educate the people of this country to the fact that adjustment means not only adjustment downward but adjustment upward. If you and I agree on a correct figure for a normal carry-over it means that if we have a bumper crop one year we will, by mutual consent, reduce the next year's crop in order to even up that carry-over. At the same time, if we get a short crop in a given year, you and I agree to increase the next year's crop to make up the shortage. That is exactly what we are doing today in the case of wheat.

It is high time for you and me to carry, by education, knowledge of the fact that not a single program of the A. A. A. contemplated the destruction of an acre of food crops in the United States, in spite of what you may read or be told by people who have special axes to grind.

It is high time for you and me to make clear that we are not plowing under cotton this year—that we did not plow under in 1934 and that we only plowed some of it under in 1933 because the Agriculture Adjustment Act was passed after a huge crop of cotton was already in the ground.

It is high time for us to repeat on every occasion that we have not wasted food in any form. It is true that the Relief Administrator has purchased hundreds of thousands of tons of foodstuffs to feed the needy and hungry who are on the relief rolls in every part of the United States.

The crocodile tears shed by the professional mourners of an old and obsolete order over the slaughter of little pigs and other measures to reduce surplus agriculture inventories deceive very few thinking people and least of all the farmers themselves.

The acknowledged destiny of a pig is sausage, or ham, or bacon or pork. In three forms millions of pigs were consumed by vast numbers of needy people who otherwise would have had to do without.

Let me make another point clear for the benefit of the millions in cities who have to buy meats. Last year the Nation suffered a drought of unparalleled intensity. If there had been no Government program—if the old order had obtained in 1933 and 1934, that drought on the cattle ranges of America and in the corn belt would have resulted in the marketing of thin cattle, immature hogs and in the death of these animals on the range and on the farm. Then we would have had a vastly greater shortage than we face today.

Our program saved the lives of millions of head of livestock. They are still on the range. Other millions are today canned and ready for this country to eat.

I think that you and I are agreed in seeking a continuance of a national policy which on the whole is proving successful. The memory of old conditions under which the product of a whole year's work often would not bring you the cost of transporting it to market is too fresh in your minds to let you be led astray by the solemn admonitions and specious lies of those who in the past profited most when your distress was greatest.

You remember, and I remember, that not long ago the poor had less food to eat and less clothes to wear and that was at a time when you had practically to give away your products. Then the surpluses were greater and yet the poor were poorer than they are today when you farmers are getting a reasonable although still an insufficient price.

I have not the time to talk with you about many other policies of your Government which affect the farm population of the country. I have not the time to go into the practical work of the Farm Credit Administration

which in all of its ramifications has saved a million farms from foreclosure and has accomplished the first great reduction in exorbitant interest rates that this country has ever known.

Because your cause is so just no one has had the temerity to question the motives of your "march on Washington". It is a good omen for Government, for business, for bankers and for the city dwellers that the Nation's Farmers are becoming articulate and that they know whereof they speak.

I hope you have enjoyed your stay in Washington. Seeing your Government at first hand, you may have a better idea why its efforts at times seem lumbering and slow and complicated. On the other hand, you may have seen that we are moving faster and accomplishing more practical results than you have been led to believe by the high and mighty gentlemen I have spoken of. I want to thank you for your patience with us. I want to pledge our wholehearted cooperation as you go forward.

**DR. J. H. WAYLAND FREED OF CHARGE**

LUBBOCK, Texas.—Dr. J. H. Wayland, 72, pioneer Plainview physician and founder of the Baptist Junior College there which bears his name today, pleaded guilty of violating the Harrison anti-narcotic act but Fed-

eral District Judge James C. Wilson freed the aged physician without punishment.

"We will treat this as a mistake, not a crime," the court announced. Dr. Wayland's narcotic records were checked in the recent West Texas wide investigations, and found to be somewhat irregular.

### NEW CHARTERS NEARLY 50 PER CENT BETTER

AUSTIN, Texas, May 27.—A total of 165 new charters were granted to corporations in Texas during April, an increase of 2 per cent over March and 47.3 per cent over April last year, according to the University of Texas Bureau of Business Research. Capitalization aggregated \$2,064,000—an increase of 8.6 per cent and 55 per cent respectively over the two comparable periods. The increase was especially marked in the groups classed as oil, manufacturing, real estate-building, and transportation.

Mr. and Mrs. Warner Hayhurst, of Plains, were here the past week end.

### INSPECT SCHOOL

On May 22, Mrs. Baker, teacher and Supervisor of the Brownfield Nursery school, invited friends and mothers of the school children in for a short program and inspection of the school. Visitors were delighted with the splendid work being done by Mrs. Baker and her assistants. The school is composed of a fine group of children and is one that Brownfield

should be proud of; there are only 20 nursery schools in the state. Brownfield ranks one of the highest. After the program a nice dinner was served by the mothers, they having brought most of the lunch including pies and cakes. The program was as follows:  
Invocation—Mr. Hall.  
Talks by Rev. Tharp, Mrs. Shelton and Mrs. Savage.  
Xylophone Solo—Miss Rasco.  
Reading—Evelyn Jones.

Story—Gwendolyn Baker. The school will possibly continue through the summer.

Mr. and Mrs. Harrison Carpenter were called to Henrietta, Texas last Wednesday, Mr. Calloway a brother-in-law of Mrs. Carpenter's being very sick.

H. M. (Dube) Pyeatt handed in his renewal recently.

### Two Species of Peafowl; Can Endure All Climates

In a bulletin of the New York Zoological society it is pointed out in an article by Lee S. Randall, curator of birds at the New York Zoological park, that Solomon is credited as the first owner of the peafowl or peacock outside India. The peafowl, while a native of India and Java, is readily adaptable to all climates. The readiness with which the peacock has accepted the conditions of captivity in all sections of the world and in all kinds of climate, Randall says, has made them so common as to cloud our appraisal somewhat, but the fact remains that it is difficult to find a bird to excel them in beauty of form and coloration.

"There are two species of peafowl, the Indian, or blue, and the Javan, or green," Randall says in the society's bulletin. "The Indian fowl is a native of India and Ceylon. It keeps to the low country, seldom going above 2,000 feet. Although it is naturally accustomed to the steaming heat of such localities, it nevertheless has the ability to endure, without discomfort, temperatures well below zero Fahrenheit. It is this adaptability which has allowed the bird to be enjoyed in most countries of the world. The male Indian peafowl is characterized by the deep blue neck and breast, the long, delicate and wonderfully 'eyed' train formed by the upper tail coverts, and the fanlike crest on the head. The female is a dull gray in general with the neck and upper breast iridescent green."

Randall adds that, besides the typical bird, there are three other color varieties: black-shouldered, the white and pied.—New York Herald Tribune.

### TO FOIL BANK CROOKS

NEW YORK.—The American Bankers Association Protective Committee has developed a plan of bank inspection to bring out exposure hazards or weak spots in respect to attacks by criminals based on its long-established, nation-wide experience in investigating bank burglaries, holdups and sneak thefts.

The inspection covers eighty leading questions and seventeen recommendations which are instructive in the prevention of such crimes. These relate to such subjects as the use of alarms and other protective equipment, also the condition of windows, doors, skylights and other entrances which have facilitated the early morning entry of bandits who kidnap bank employees from their homes during the night, or break into the bank premises and blind and gag the employees.

### Valley Forge

Valley Forge received its name from Valley Forge Creek, and the creek received its name from the Mount Joy Iron Works, which were built on the stream, 19 miles northwest of Philadelphia. The foundry was known locally as "the valley forge" and in time the stream was called that, too. The site of the camp is now a state park.

### Proof Coins

Proof coins are coins especially struck from polished blanks and dies, and finished by hand, which gives them a mirror-like, smooth, reflective surface, the most nearly perfect condition known. The mint makes a small charge for the proof coins, and they can be had only during the year of the issue.

### Buddy Tradition in France

The "copain" or buddy tradition is so firmly implanted in the French Foreign Legion that when a Legionnaire gets into trouble, his copain is supposed to follow suit so that he can go to the guardhouse with him.

### Animals' Weapons

Horns and antlers are among the most familiar weapons of animals. The horns of domestic bulls are well known by any farmer for their effectiveness, and so are those of domestic rams of certain breeds.

### Japan's Oyster Farms

Five million oysters are planted each year in the famous pearl farms of Japan, where oysters are deliberately started on their pearl growing activities by a bit of shell inserted in each oyster's body.

### Length of Life

All life insurance records show a marked superiority in the health and longevity of the more privileged classes and also show that length of life is largely a matter of inborn heredity.

### Wool Was Wasted

The ancient Chinese kept both sheep and goats, but the idea of utilizing the wool of the sheep was foreign to them until taught so by others.

### Corn Taken West by White Men

The corn plant, so widely distributed in ancient America, was not grown by Indians along the Pacific coast before white men came.

### Bone Glue Aids Yeast Producer

Bone glue, in common use as an adhesive, is also made an ingredient of plastics and a source of nitrogen in producing yeast.

### Zuni Women Rule Homes

Women at Zuni select their own husbands, then become owners of the homes and crops raised by these husbands.

### Old Clock Keeps Good Time

A 100-year-old clock in the Quaker Meeting house, South Yarmouth, Mass., still keeps good time.

### Ohio's First Settlement

Ohio was settled soon after the Revolutionary war, which made "the West" a part of the new republic. The first permanent settlement was established at Marietta by a land company. This was called the Ohio company, and was formed in 1787 in New England by Revolutionary officers, with a view to opening up the West. The government sold the company 1,500,000 acres, and the company recruited settlers and resold to them. In the winter of 1787-88 the first party set out from the east and arrived April 7, 1788, at the spot chosen for a town, at the junction of the Muskingum and Ohio rivers.

### Lamp Lore

In a modern electric lamp factory two main classes of lamps are made. The vacuum lamp, so called because every trace of air has been extracted and the lamp hermetically sealed; and the gas-filled lamp, where the air having been similarly exhausted, its place is taken by an inert gas, such as argon or nitrogen—dry and pure—to given pressure. The vacuum is obtained by the use of a mechanical pump, and by its means a vacuum of 400,000th of an atmosphere can be produced.—Tit-Bits Magazine.

### Right to "Rent the Sea"

The only country in the world which allows individuals to collect a private toll from deep-sea fishermen is Denmark. For many centuries it has held steadfast to a law which gives the owner of shore land the right to "rent the sea" in front of his property for eel fishing. In some years this total rent has amounted to as much as \$250,000.—Collier's Weekly.

### Lion-Fixing in South Africa

Lion-fixing was formerly a profitable occupation in South Africa. Natives would poison an antelope, kill it and place it in a likely spot. Lions eating the poisoned meat would become groggy, and white hunters, for a price, were then permitted to shoot the beast in the open without danger to themselves.

### Mr. and Mrs. W. D. Dilbeck of Los Angeles Calif., are visiting Mrs. Dilbeck's sister, Mrs. S. C. White over the week end.

### Believe That Lightning Creates Fine Fertilizer

The popular belief that lightning fertilizes the soil where it strikes the ground probably has some scientific basis. Such electrical disturbances, according to the United States bureau of chemistry and soils, may increase the fertility of the soil by rendering the minerals in it more soluble and making the elements of fertility more readily available to plants.

Possibly the common notion that lightning fertilizes soil arose from the fact that dead trees and other dry objects are sometimes struck and burned down, leaving ashes which fertilize the soil and cause vegetation to grow more luxuriantly on such spots. This belief is related to another, namely, that lightning fixes nitrogen in the air and improves the fertility of the soil in general. One writer estimates that lightning creates millions of tons of the finest fertilizer every year in the United States alone. The electrical disturbances in the atmosphere cause a chemical reaction between the oxygen and nitrogen in the air and form a soluble substance which is brought down by rain and snow.

### Eye Torture for Suspects

Victims of eye strain suffer the same tortures, in a milder degree, to which suspected criminals are subjected in "third-degree" methods employed by the police, according to M. J. Julian, president of the Better Vision Institute. The torture is eye strain and it has been found to be one of the most reliable means of breaking down a victim's morale under cross-examination. The phrase "on the spot" originally meant being placed in the blinding glare of a battery of spotlights for interrogation by detectives. "Nothing could be better calculated to break a suspect's reserve," Julian says. "While eye strain usually results in one or more physical ailments, such as headaches, dizziness, nausea and the like, the immediate effect is more subtle but pronounced and results in a lowering of mental vitality and ability to concentrate."—Cleveland Plain Dealer.

### London Bridge Once Wooden

"Until within comparatively recent times (about 100 years ago) London bridge was built of wood, and had wooden shops and dwelling houses on it. Several times all the structures on the bridge were destroyed by fire," says A. Edward Newton in Derby Day and Other Adventures, "but the bridge itself was saved. Sections of it were constantly falling down, hence the song which we used to sing as children, 'London bridge is falling down.'"

### Rumble in Hot-Water Lines

Rumbling in hot-water lines, especially when the hot water supply tank is heated by a coil in the heater's fire-box, is caused by steam, formed in the coil, forcing its way through the water in the coil as it rises to the tank. Coil connections should slope upward to allow the steam easy escape. Rumbling also occurs when a faucet is opened with the water boiling.

### Obtaining Cream of Tartar

Tartar is a substance existing in the juice of grapes and deposited in wine casks together with suspended matter as a reddish crust or sediment. Creams of tartar is this substance purified—so called because of the crust of crystals which forms on the surface of the liquor in purification by recrystallization.

### Verd Antique Marble

Verd antique marble was a serpentine marble—also a calcareous serpentine—with a veined structure showing various shades of green, possibly through some infiltration of copper. It was much used by the ancient Romans for interior decoration.

Mrs. Eldora White and children left this week for Maude, Texas, to visit their mother and grandmother for a few weeks. Mrs. White is our district clerk.

Mr. and Mrs. Jim Burnett and Mr. and Mrs. Ernest Burnett are visiting relatives at Dublin this week.

## Even With—

- Safety glass throughout
- 85-horsepower engine
- Big air-balloon tires
- Comfort-Zone riding
- Body-colored fenders
- Safe mechanical brakes
- Built-in luggage space
- Rigid front axle

You can buy a FORD V-8 for

• No car price is high or low—until you examine the car itself. The Ford has the only V-8 engine in any car under \$2300. New Ford brakes have more gripping surface for car weight than any car under \$1095. Any model in this Ford V-8 includes many dollars worth of "extras" at no extra cost. Every Ford model, regardless of price, gives you the same wheelbase—the same 123½-inch springbase. And with all that—this Ford costs less to run than any Ford car ever built. Go see it at your Ford dealer's. Drive it—today!

### Weekly Church and Social Happenings

Eld. James A. Fry taught the 14th chapter of 1st Corinthians last Monday when 14 ladies met at the church of Christ.

Twelve members of the Methodist Missionary Society met at the church and quilted Monday. A covered dish lunch was served at noon. Mrs. Leo Holmes was hostess.

Mrs. Jack Terry was hostess to six members of First Christian church Monday afternoon. Subject of their program was "The Value of Music to the Human Soul." After the study a social hour was enjoyed. Cake and lemonade were served.

Baptist ladies met in Circles Monday. Young Matrons met with Mrs. J. M. Hale; Mrs. Ross led a Royal Service program; the group also worked on a quilt; punch and cake were served to twelve members. The South Circle also had a Royal Service and industrial meeting at Mrs. T. C. Hogue's; eleven were present, and lemonade and cakes were served. Mrs. Ame Flache was hostess to the

North Circle Monday in an industrial meeting; five were present; refreshments were served.

**Y. W. A. MEET**

The Y. W. A. met with Mary Dee Price Monday evening at 8:00 o'clock. After a brief business session the hostess entertained with music. Iced tea, cookies, canapes and potato chips were served to the fourteen members and two visitors present. They will meet with Elray Lewis next Monday evening at 8:30 for Bible study.

**TEACHERS MEET**

Monthly meeting for the teachers of the Baptist Sunday School was held at Mrs. Ivy Savage's home, Miss Bernice Weldon being joint hostess. Mr. K. W. Howell talked on Enrollment and Mrs. Gladys Green Winning the Juniors to Christ. A social hour was then enjoyed, ice cream and cake being served to 15 teachers.

**PRISCILLA NEEDLE CLUB**

Mrs. Walter Gracey was hostess to

the Priscilla Needle Club Wednesday P. M. of last week. The group was served a sandwich course, iced tea, ice cream and cookies. Attending were Mesdames Simon Holgate, L. E. McClish, L. J. Dunn, Frank Rickles, Clint Rambo, Arch Fowler, John Wall, and J. Hayden Griffin.

Mrs. M. V. Brownfield and Queenelle Sawyer are spending this week visiting relatives at Sweetwater, also attended the commencement exercises of the Sweetwater high school, of which Geraldine Youngblood was a graduate.

Mrs. Jack Warden and son, Walter Price of McKinney, sister and nephew of Mrs. Clyde Cave visited in the Cave home last week. Maxine Har-

din, who spent the winter here with her sister, Mrs. Cave and attended high school, went home with them to spend the summer.

**ENTERTAIN NIGHT CLUB**

Tuesday night Mr. and Mrs. G. Daugherty entertained the Tuesday Night Bridge Club. Cape Jasmine and roses were used for decoration. High men's prize was a carton of cigarettes and went to Leo Holmes. Mrs. Clyde Cave received a pottery jar of Jasmine tea. Others playing were Messrs. and Mesdames Roy Ballard, James H. Dallas, Dr. and Mrs. Jacobson, Mrs. Holmes, Mr. Cave and Mrs. Roy Wingerd. A tuna fish salad course, date tarts and iced tea was served.

**COMPLIMENTARY PARTY**

Deverele Lewis was complimented last Tuesday night when his parents, Mr. and Mrs. Clyde Lewis entertained with a slumber party at their new home 11 South First St. The little guests arrived at 7:30. Sandwiches and cakes were served on the lawn which was lighted with electric lights. Outdoor games were played until late. Creamed beef on toast was served for breakfast to Cecil Ross Smith, Sonny Wall, Kenneth Jones, Son Cloud, Billie Greenfield, Spencer Murphy, M. J. Akers, Buck Michie, Bobbie and Sammie Jones.

Bill Collins left Sunday to go back to his work at Hemphill-Wells at Lubbock after a months absence on account of an appendix operation.

Mr. and Mrs. O. Dennis and children visited relatives at Ralls this week.

Miss Lenora Lisenby of Spur visited in the W. H. Collins' home last week end.

**LINDSAY, CALIFORNIA**

Guests of Mrs. De Witt Brewer and Miss Wynona Burnett enjoyed a pleasant event Sunday evening, May 5, when they entertained with a dessert bridge party at the Brewer home.

Dessert was served at tables with May basket centerpieces. Honors went to Mrs. Burr, Miss Mary Fritz and Mrs. Jack Short. Traveling prizes went to Mrs. A. E. Feltes. There were thirty ladies attending.

### Bonus Drives to Go On Says the Leaders

WASHINGTON, May 28.—Patman bill leaders in congress decided today to go forward with their drive for cash payment of the bonus at this session and to sacrifice the inflationary provisions of their bill if necessary.

At a joint session of house and senate supporters of immediate payment, it was agreed to poll the senate to determine what cash payment bill would have the best chance to succeed and then push for action on it, regardless of whether it should be the Patman bill recently vetoed by the president, the Vinson bill, or some combination of the two.

**No Compromise on Payment**

It was decided definitely there would be no compromise on their demand for cash payment but only on the method of financing.

The decision, it was believed, virtually killed any chance of an agreement between the administration and the cash bonus bloc at this session.

An appeal was broadcast by the Patman leaders also for veterans not to march on Washington to demand the bonus. They expressed the fear that instead of helping the cause, a bonus march would harm it.

**PHILATHEA CLASS**

We are very glad to report that we won the contest between the classes in the Young People's Department. We have reaped many benefits from this contest, not only the Philathea Class has increased in interest and attendance, but the other classes have increased also.

We wish to compliment Mr. How-

THEY TOOK LIFE GAILY  
... AND LOVE LIGHTLY!

You wouldn't believe there could be so many heart-thrills and laughs in one picture until you see CLARK and CONNIE match wits and lips in 1935's liveliest romantic comedy! An exciting pair of screen lovers in a picture reminiscent of "It Happened One Night" and "Forsaking All Others."

ell's splendid class for the close race they gave us, because they gave us an inspiration to work harder. They lost the contest by a narrow margin, but they were very nice and took their defeat like a brave soldier, and with a smile.

We had an interesting lesson on "The Lord's Supper" last Sunday. We were very happy that we had the largest attendance Sunday that we have had in some time. We had eighteen girls present, and of course our faithful teacher was there, who is always an inspiration to the class.

In spite of the fact that we had such a large class Sunday, we still have some old members that were not with us. We miss each of you very much, there is always a vacant place in our little class room, which no one else can fill when you are absent. We had two new members Sunday, and we still have room for many more. Even though the contest is over, in reality we still have a greater contest going on, don't loose interest just because there is not a worldly entertainment at the close of the contest, but a much greater reward.

**CONSTIPATED 30 YEARS AIDED BY OLD REMEDY**

"For thirty years I had constipation. Sourcing food from stomach choked me. Since taking Aderika I am a new person. Constipation is a thing of the past."—Alice Burns. E. G. Alexander Drug Co., Inc.
