The Terry County Herald

The truth about Terry County is good enough. An appreciated weekly that covers the territory thoroughly.

Printed in Terry County, on the South Plains, the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME THIRTY

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, AUGUST 2, 1935

NUMBER 51.

DON'T MISS TRADESDAY MON.

Year! We're Boasting For Grand Old Terry

Met J. T. Browning and wife at lunch Thursday. They are visiting here from West Texas and say they spent last week in Brownfield, Terry Co. Brownfield, he says, is the best growing town in West Texas and he says further that they are really optimistic there now that they have been able to get their cotton up.

Mr. Browning says that he got well acquainted with Jack Stricklin, editor and owner of the Terry County Herald, and that the editor and his family seemed to be doing o. k. We were glad to get the report on the uncle and hope that we can always feast for the place that we live like he has touted for Brownfield and Terry County.—Cleburne Times Review.

The people our nephew speaks of, were recently here transferring local Bural Association policies into a Ft. Worth Insurance Co., which were spoken of last week in these columns. Our nephew, Benton Stricklin, is on the staff of the Cleburne Daily Times Review. He has been with them since last winter, and his favorite column is "Circling the Square," although he has an assignment to cover most of the rural schools sporting events.

Last winter Benton was undecided whether to make a banker or newspaperman. He was employed then part time by a Grandview bank as bookkeeper. He wrote us for advice. We told him that we knew not the bank business, but newspapering was a mighty fine game if you can keep a "lip upper stiff" as Andy says. He chose the newspaper game, and his bosses are Editor Harold Ratcliff of that paper, and Manager Eugene Pool.

Benton seems to have made good with the bosses. Recently the Times-Review have decided to launch a weekly paper from their presses the first week in September, to be known as Johnson County Weekly, and have named Benton as the Editor. Congratulations, young fellow, but always try to be out when the irate subscriber calls.

New Organization To Fight Communism

The Herald has recently received literature from the headquarters of The American Nationalists, Inc., at New Port, R. I., outlining the intents of this organization, the primary object of which is to fight communism and other radicals, which are fast becoming entrenched in America, are well organized, and as distributing tons of inflaming printed matter every year. Dudley P. Gilbert is the president of the new organization.

The literature tells us that it is a proven fact beyond doubt from facts gathered that the radicals of the larger cities and industrial centers, are responsible for the race riots in Harlem, negro section of New York, recently in which a number of innocent people were killed. Not only that, but are responsible for delays in trial of the Scottsboro, Ala., negroes; the sharecropper riots in Arkansas, and the Mexican riots recently at Gallup, N. M.

It is stated that the great fort of the radical element is to work in the symphonies and prejudices of the Negro and Mexican races in the south and southwest. Membership in American Nationalists Inc., is solicited of every race, creed and color, so they are true to the United States and its traditions.

Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

Brownfield Expects a Record Crowd Mon.

Again, the time for our grand old First Monday Tradesday is here, and we are expecting a record crowd. Nothing but a stormy day, something unusual for the time of year could keep down a record attendance. Last First Monday came at a time when planting feed and cultivating the young cotton and corn was in full headway. A small crowd was anticipated, and no one was disappointed.

But the weeds and grass are now cleared from the fields, or most of them, and the farmers have little to do. Indeed 90 per cent of them will have their crop clean and in a fine state of cultivation by the last of this week, and come call off the dogs, and come in both Saturday and Monday. This time Brownfield is expecting the biggest crowd since last fall, and we believe they will be here.

The usual program and distribution of funds will take place at the old stand, east of the square, so be on hand and participate in this "free-for-all." And don't forget to bring the trading stock, for buyers and traders will be here from all over the trade territory.

Remember that there are two big sales on dry goods in full blast and we are sure others will at least have specials. Our grocerymen, hardware men and druggists will also have bargains that will interest you. Come and see.

Ray Brownfield Jr. Goes to West Point

Ray Brownfield, son of Mr. and Mrs. A. R. Brownfield of this city, left this week for West Point, N. Y., where he will enter the U. S. Military Academy.

We are glad to know that Ray got this appointment, which came through the Roswell school and Congressman George Mahon.

After finishing high school in Brownfield, Ray spent three years in the New Mexico Military Institute in Roswell, graduating about the first of June. After spending six weeks in R. O. T. C. at Fort Bliss, Texas, he was commissioned Second Lieutenant of Cavalry Officers Reserve Corps.

Ray made some mighty fine grades both in high school, and in the N. M. M. I., and it is his ambition to make his life work that of an army officer.

Attend Rural Mail Carriers' Convention

Mrs. Albert Hansen and daughter Mignon returned Sunday from a seven weeks visit with her parents at Los Fresnos, Texas.

On her return, Mrs. Hansen was met at San Angelo by her husband, Albert Hansen, carrier of rural route No. 2, where they attended the convention of the Rural Carriers and Ladies' Auxiliary of Texas.

Mrs. Hansen was elected to the office of State Secretary-Treasurer of the Ladies' Auxiliary. Mr. and Mrs. Hansen will leave about August 15th for Boston, Mass., where they will attend the National Convention of Rural Carriers and its Auxiliary.

JACK AND JILL JUGGED

Jack and Jill went up the hill At 60 miles or better, A cop unkind Was right behind— They're seeking bail by letter.

Saw Some Good Crops —Killed Some Rabbits

Monday afternoon four of us left town late in the afternoon to see a few of Terry's crops, and incidently, we took a couple of small bore rifles to slay a few jacks and cotton-knockers on the way. Some fifteen or more of these pests bit the dust as a consequence of the expert (?) marksmanship of the Sr. and Jr. members of this great editorial family.

The territory covered, was north to the old Dave Broughton place, thence west by the Sam Miller place to the road that turns south a half mile west of the I. M. Smith and C. Sears farms. We can honestly say that this territory has the best crop prospects that we have seen here in many days, since 1926 to be exact, and we believe a little better than that year.

However, we were made to feel sad at times. On one side of the road was a beautifully kept crop, free of weeds and grass, and the crop so green it looked like a black cloud rising, and then just across the road, the weeds and grass as high as the crops, with apparently little effort made to clean them. This shows either laziness or sickness, maybe both.

But the great majority of the crops were as clean as one would wish to see. Some are even cutting the weeds out of the corn that has been "laid-bye."

Have You a Home For a School Pupil

Supt. Baze of the Brownfield schools, as well as County Judge, Raymond Simms, have each spoken to us this week in regards to the intention of a number of boys and girls of high school age, who anticipate coming in this year to attend high school, but many of them are short financially, and must get a place where they can work for board and room, or least make work and part cash pay their expenses.

Remember these boys and girls are worthy of our consideration—they are making a great effort and in some instances a real sacrifice of time and money to educate themselves. Pupils who work their way through school and college generally make as good or better citizens than the other kind. It is said that President Benedict of the University of Texas once remarked: "The greatest trouble with colleges and universities is that they would be better off if more of the pupils that CAME to them instead of being SENT to them."

If you are interested in this matter and all of us should be, get in touch immediately with either Supt. Baze or Judge Simms.

Ritz Theatre to Open Next Thursday

The new theatre, the Ritz, owned and managed by Earl E. Jones, also owner and manager of the Rialto, will have its formal opening next Thursday night, August 8th, according to Mr. Jones. The opening play will be "Going High Brow," said to be one of the best shows coming from Hollywood recently.

The Ritz, while not having the seating capacity of the Rialto, is one of the neatest little show houses in this section, the decorations and lighting effect being the very latest. The sound arrangement has already been tried and found to be par excellent. A great crowd is expected at the opening.

As will be noticed, a great host of the business men of the city, as well as some who had to do with the plumbing, electrical arrangements, carpenter and painting and decorating, are using considerable space in congratulating Mr. Jones on his opening of a new place of amusement and business in our city.

Mrs. H. R. Winston is on an educational tour of the northeast, which will carry them to many places of interest in that section. The tour is under the supervision of Tech College.

Judge W. W. Price and brother Gay, left this week for a visit at Que-mado, Texas, with old friends.

\$4580.00 Granted For School Repairs Here

To the Brownfield schools goes the honor of having the first W. P. A. project in Terry County.

The district men from Big Spring were in Brownfield Tuesday of this week and approved the project. It will enable the school board to renovate the three buildings and equipment throughout, build over two thousand feet of side walk and some three thousand feet of curb around the campus. The project involves an expenditure of \$4580.00, the federal government making a direct grant for approximately 85 per cent of the amount.

Brownfield is noted for its beautiful school campus, and this movement will enable the school to continue to hold this honor. Plans for the project were prepared by Supt. M. L. H. Baze and accepted by the school board in its original form. Work will begin as soon as the papers can be finally approved at Washington, which will probably be three weeks.

Supt. Baze informed us that this would include and pay for the complete renovation, painting, varnishing and plastering where needed in the old grade building, as well as the Junior High. Rewiring and screening and all the desk revamped and repaired.

Indeed, he informed us that for all practical purposes these two old buildings would be in just as good shape as when they were built and that we would have one of the prettiest school grounds in west Texas.

No Place to Hold the Fair Says Shelton

Some time since the Herald mentioned the fact that with prospects of a good crop, it would be a good time to resurrect our county fair. But, asked our esteemed Chamber of Commerce Secretary, the Hon. J. Ed Shelton, "where in h--- will you hold it." And echo answered him—where? Like the son of Man, our fair has no home, no place to lay its head, as it were. Besides, where would you put the merry-go-rounds, etc.?

Ed says that to consider holding the fair under the city tabernacle is now out. It's too dogged small, he says, and Ed is right. Besides, where would you put your livestock? Before the large cotton warehouse sheds were torn down, we had a fine place, but even then, we had to borrow part of the Turner Wagon yard for the livestock, and erect pens for the swine department.

So it looks like we will have to wait another year. By then, perhaps, we can have our PWA County Park and recreation center far enough along, and prosperity far enough around the corner that we can build a fair ground shed large enough to take care of our needs.

The Herald Stands In Need of Money

A great many of our readers are getting behind on their subscriptions, many of which we have waited for months on. Now we do not enjoy the task of Red Marking your paper no more than you enjoy getting it that way. So pay up and avoid that.

You can look on your label following your name and tell how you stand without us notifying you. You are getting some cotton rental money and will soon get your hog-corn money. Why not use a dollar of that to help us out in mid-summer when business is dull and collections on the punk. WE'LL SURE APPRECIATE IT.

Prohibition Speaker To Be Here Tuesday

Sam Morris, of Stamford, Texas, who broadcasts regularly over radio station XEPN, Piedras Negras, Coahuila, will speak here Tuesday, August 6 on the courthouse lawn, in the interest of sustaining the present constitutional prohibition amendment.

Jim Smith, former Terryite was over from the Tatum, N. M., section this week swapping yarns with old friends.

Lions Elect Denver Man as President

CHICAGO.—The nineteenth annual convention of the International Association of Lions Clubs adjourned today in Mexico City, and the 5,000 delegates and guests who during the convention have been royally entertained "a Mexican" by the Lions of Mexico City, have begun to spread out from the capital city to take in all the sights of Old Mexico before returning to their homes in the United States and Canada. Advance estimates on registration indicated the largest attendance of the Association's history.

During the four days of the convention the fact that the largest North American service club was holding its convention in Mexico was

acclaimed as a great step toward the closer understanding between the race of North America. Messages from President Roosevelt and Premier Bennett of Canada were presented to the President of the Republic of Mexico, Senor Lazaro Carnenas, who welcomed the Lions at a grand reception attended by all Lions and the diplomatic representatives of several countries.

Yesterday the Lions elected their first vice-president, Richard J. Osenbaugh of Denver, to the presidency of their Association. Lion "Dick" Osenbaugh, an official of the Denver Sewer Pipe and Clay Company, has been a widely known respected figure in the Association for many years.

Jones Family Enjoys Trip to Arkansas

City Utilities Manager, Eunice Jones and family have returned from their vacation trip to Arkansas. Eunice says that while it was fearfully hot back there, they sure enjoyed every minute spent with their kin around Nashville, Ark., eating fruit and vegetables, fishing and what have you. A sister, Mrs. Alger Merrell, wife of the circuit court clerk at Nashville, accompanied them home to see if change of climate might help her asthma.

We might state in this connection that Eunice is installing some machinery in the power house which is said to control the current so well that it will not only help radio reception, but will make it possible to install electric clocks here that will keep accurate time.

Road Building Experiment Closely Watched

One of the most interesting road building experiments that has ever been undertaken here is being watched in the north part of the city. The stretch is some four blocks running from Lubbock highway to the compass, and is under the direction of State Highway Engineers.

The experiment is being made with our old "blow sand" mixed with crude oil, and a mixed asphaltum composition for the top layer. If this road proves to be satisfactory no doubt but a number of lateral roads in this section will be so treated.

Mr. and Mrs. J. R. Jennins, and their son L. J. Jennins and wife of Sturgeon, Mo., are here visiting their daughter and sister, Mrs. Arthur Green, who underwent an operation week before last.

I. H. Hudson was in this week from the Johnson community

Three Hurt in Wreck —One of Them Fatally

One of the most serious tragedies that has occurred in this section in some time occurred last Thu. night, southwest of Bronco, in New Mexico, when a car ran into a vehicle containing John Houston, Grandma Shults and Norma Green, 11 year old daughter of Mr. and Mrs. Emmett Green, who once resided near Wellman, and are well known in Terry County.

The car that ran into the buggy or cart, was driven by a youth of that section, who is credited with being a good boy. He was blinded by an approaching car or truck that failed to stop and render assistance. Others, however soon stopped, and the wounded were rushed to the Treadway-Daniell hospital here. It is said the boy skidded his car ten feet to avoid the accident.

Mr. Houston, who was driving had his left thigh and calf broken, as well as his left arm above the elbow; also a large scalp wound on top of his head. The Green girl had one leg so badly crushed and mangled, that the surgeons removed it above the knee Friday afternoon.

Grandma Shults was so badly wounded, and being rather aged too, that she lived only two or three hours after being brought here. The body was carried to near Wichita Falls Friday afternoon for burial. She is the mother of Lee Shults of this county.

The other two victims are doing as well as could be expected, and have a reasonable good chance of recovery. All parties, we understand were either on their way to or from church services at a school house when the accident occurred.

Revenue Collector Speaks to Rotarians

Last Friday evening was quite an event for local Rotarians, Lions, and friends, but part of the program had to be dispensed with. Scenes of the Rotary International meeting at Mexico, D. F., was to have been shown at 7:30 at the Rialto, but the films were for a 16-MM machine instead of 35-MM the standard size. The right size will be received here a little later on.

A great feed was enjoyed at the banquet at the Wines Hotel attended by Rotarians and some 20 invited guests. Following which an address was given by the Hon. W. O. Thomas, U. S. Internal Revenue Collector of Dallas, in which district we are. Mr. Thomas is a very interesting speaker, and held his audience well even if it was sweltering hot in the banquet hall. He was accompanied here by Mr. Barkley, deputy collector, with headquarters in this section.

Not a great deal of this talk was devoted to the art of collecting, but was most devoted to conditions as they existed March 4, 1933, when President Roosevelt took the helm of state, and conditions today. He painted a glowing and yet tragical picture of what would have happened to the poor of America without the setups provided by the Federal government. The speaker believes we are fast headed back to pre-depression conditions but without their fanatical investments and get-rich-quick schemes to bait the unwary.

MARRIED

Mr. H. H. Boyd, U. S. Custom Inspector here for the past several months with the Hearst cattle, which are imported from Old Mexico, and are under bond to the U. S. government and Miss Lessie Fancher who has been a waitress at the Hotel Coffee Shop for the past few months, were married last Friday at Ft. Stockton, Texas.

We understand the young couple will make their home at El Paso where Mr. Boyd has been given a position with U. S. Custom forces. It will not likely be succeeded here as more cattle are shipped in.

Mrs. J. E. Shelton and children, spending the summer at Stephenville as Mrs. Shelton has had a very bad cold. She will come home for school.

Miss Etta Rickard writes she will be home in a week

Save and Protect Your Feed Crop

There is a possibility from the fall of 1934 to the fall of 1935 that in Texas we will go from the extreme of gathering tumble weeds as a means of saving and feeding hungry livestock to the giving away or letting surplus feed rot in the fields.

Below is an eight point feed program that the Extension Service feels is of prime importance at this time. The products grown on rented acres can be used only for home consumption. It is important that feeds grown on these acres be used in accordance with regulations and in the most profitable manner. It is estimated that Texas will produce this year from 1 1/2 to 2 years feed supply if properly conserved and stored.

- 1. Dig trench silos for storage of feed that may be conserved for silage.
2. Repair barns and build new storage if needed.
3. Use best practical means of protecting stored grain and other crop from weevil and rot damage.
4. Stack hay, such as sorghum and bundle feed according to best known methods to prevent deterioration.
5. Increase the number of milk cows, hogs and poultry on farms not now producing and adequate supply of milk, home grown meat: chickens and eggs for home use.
6. Offer for slaughter only well fed and finished animals.
7. Finish all Texas cattle and other livestock for market on Texas grown feed.
8. Feed well during winter months all work and breeding animals.
(Information on Silos, etc; can be obtained from your County Agents office.)

Former Brownfield Boy Killed at Lerado

Otho Flippin, 28, who was practically reared and educated in Brownfield, was killed in a plane smash at Laredo Monday afternoon. His companion was seriously hurt, but is still living according to advices received here. The body was carried to Mt. Clements, the old home of his wife, for burial. He leaves two small children.

Otho has been with the U. S. Aviation Corps for the past 7 years, going to Michigan where he was trained. For the past year or two he has been making Dallas headquarters. His wife and children were in Michigan visiting, and he and the other aviator were at Laredo inspecting and proving a plane with intention to purchase and were up in the air about 800 feet when something went wrong.

He is the son of Mr. and Mrs. T. M. Flippin of this city, and brother of Lolan, and a sister who has not resided here in several years. None of the family here were able to attend the funeral.

TECH MANS WINS RHODES SCHOLARSHIP

LUBBOCK, Texas, July 29.—Canon Clements, graduate of Texas Technological college who was awarded the Rhodes scholarship from Texas this year, has been appointed an instructor in the college department of economics and business administration. He is teaching an advanced course in investment.

Clements, who received a bachelor of business administration degree from Tech in 1932 and a master's degree the following year, will leave for Oxford university soon after the close of the Tech summer session.

AGED LADY PASSES

Grandma E. A. Hamilton, of Abilene, aged 89, passed away last Sunday afternoon at the home of her youngest daughter, Mrs. J. E. Boyles. Deceased was born in Mississippi. Burial was made in Lubbock cemetery. She leaves seven children, seven grandchildren, including Mrs. C. Beavers of Meadow, two children at Tahoka, and in Cook county. She is also survived by 37 grandchildren and 36 great-grandchildren.

A letter from Jim Burnett states that he and wife are having a great time in California since they got away from the Imperial Valley to the coast and mountains.

The Official Paper of Terry County and the City of Brownfield.

The Herald from now until election day August 24th, will print one or more articles each week on the seven constitutional amendments to be voted on that day. These articles are written by Gerald C. Mann, Secretary of State, who, while explaining the intention of the amendment, gives no advice whatever on how you should vote. Read these articles carefully, and be prepared to vote intelligently.

Not only are they closely quizzing one of the big utility heads of Texas, at the Senatorial investigation at Washington, but they have been on the trail of one of our congressmen, and Editor Peter Molyneux, editor of Texas Weekly. The Herald has been expecting Bro. Peter to get an investigation, for some time. He's been roosting too high with the big Shanghais, while we lesser fry had to take the low branches with the tom-tits. Our advice to Bro. Peter is to play around some with us common folks a spell, until this thing blows over.

Editor Emmett Whitaker of the Colorado Times agrees to move before he aimed to. He received a very polite letter from his landlord recently, when that gentleman found he was going to move his office out of his (the landlord's) building, requesting Emmett to refrain from moving any machinery until all rents were paid. At the time the note was received, Emmett states that he was paid up some 30 days in advance. This fellow perhaps didn't think he would get a lot of publicity about the matter, but he did. Emmett not only published the landlord's letter, but his reply as well, and we'll bet said landlord's face is red. Emmett says he intended to stay in the building a few weeks longer, but is now arranging to rent from a man that has some respect for his fellowmen.

Sharley Shurnal Guy musta got kinder miffed last week at what we had to say, and gave Brownfield a rather dirty dig. Many here have complained of the article, but we told them to consider the source and trade in Brownfield where their trade and feelings are respected. Sharley referred to Brownfield as "Flytown." Nothing would have been thought about the matter if it had not been that Hubcock was the very place where the nickname was invented and started. Still we have people right here that think unless a spool of thread comes from Lubbock, it's not worth a tinker's dam. We shall never give Lubbock or any other neighboring town a dirty nickname no matter what happens, and we wish to inform Lubbock people generally that the best element of citizenship in Brownfield don't appreciate that name a little bit.

Hundreds of forced land sales have been made in this county in the past few years. Notice of these sales have been posted instead of being published as the law requires. Its alright as long as the man that owns the land makes no kick but, just suppose oil should be found in this county and this land becomes worth ten of thousands of dollars per acre? You will see sharp lawyers coming

into the county looking up these flaws in the land titles—taking these cases on a per cent basis and just what will happen you may surmise. It pay to follow the law.—Jayton Chronicle.

Farmers can now rest assured that they will be able to exist until they make a crop again. After that, they won't have to depend upon anybody for anything. The Senate finally passed the AAA amendment bill, which assures two things: the power of the Secretary of Agriculture to raise prices and to guard against the AAA being declared unconstitutional. The first can be done by processing taxes or by marketing and crop control agreements. The second was done by having Congress officially pass the tax measures needed to make the AAA self-supporting. The bill also outlawed all suits pending against the government for recovery of tax money paid by mills in processing taxes, unless the mills could show that they had paid the taxes themselves and not put the tax onto the producer or consumer. Which will not be likely. All in all, our feelings are much relieved now, and we feel that

the Senate is entitled to our congratulations. They are really not such bad boys when you can get them to behave properly.—Ralls Banner.

**CARD OF THANKS**  
We take this means of thanking our friends for their kindly deeds and words of sympathy in the tragic death of our dear mother and grandmother. May God bless each of you.

**Plans For Employment**

LUBBOCK, Tex. July 29, 1935.—The current Employment Report just issued by Draughon's Business Colleges of which E. C. Hatton is local manager, shows a long list of young people who have been placed in excellent positions during recent months. Because the students recommended by Draughon's Colleges have been making good for more than fifty years, many firms continue to call Draughon's for help even though they may have many applications on file. A new illustrated booklet called "Planning Your Future" describes the far-reaching methods for placing graduates, training and time required, cost of tuition, etc. Young people interested in good starting positions and opportunities for advancement, should mail Coupon at once for free copy of "Planning Your Future"—showing how we can train and place you, at a saving in time and expense. Address Draughon's Business College, Lubbock, Texas, or see this paper about a Special Scholarship.

**CITATION by PUBLICATION**

To the Sheriff or any Constable of Terry County, Greeting:

You Are Hereby Commanded to summon M. A. Bowman, and if he be dead, then his heirs, executors, administrators and legal representatives, by making publication once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County, to be held at the Court House thereof, in the city of Brownfield, on the Fourth Monday in August A. D. 1935, the same being the 26th day of August A. D. 1935, then and there to answer a petition filed in said Court on the 22nd day of July A. D. 1935, in a suit, numbered on the docket of said Court as No. 1855, wherein Joe J. McGowan is Plaintiff, and M. A. Bowman, and if he be dead, then his unknown heirs, administrators, executors or legal representatives, are Defendants, and said petition alleging that on or about the 1st day of July, 1935, plaintiff was lawfully seized and possessed of the following described land and premises, situated in Terry County, Texas, holding and claiming the same in fee simple, to wit: The southwest quarter of section No. 31 in Block D-11, Cert. 32 issued to Stone, Kyle & Kyle, original grantees, containing 160 acres of land, more or less. That on the day and year last aforesaid the defendants unlawfully entered upon said premises and ejected plaintiff therefrom, and unlawfully withheld from his the possession thereof, to his damage \$1,000.00. That the reasonable annual rental value of said land and premises is \$160.00. That plaintiff purchased said land and premises at tax sale on the 2nd day of December, 1930, and received a tax deed to same; that since said date he has had peaceable, continuous and adverse possession of said lands and premises, cultivating, using and enjoying the same, and paying all taxes thereon as same became due that defendants right of redemption has long since expired; that plaintiff's title is as follows: Patent from the State of Texas to Benjamin H. Wisdom; Deed from Benjamin H. Wisdom to F. W. Colby; Deed from F. W. Colby to M. A. Bowman; and deed from M. A. Bowman and his unknown heirs, by Sheriff, to plaintiff. Wherefore, plaintiff prays that citation issue, that upon hearing hereof he have judgment for the titles and possession of said land and pre-

mises, for writ or restitution, for his damages, rents and costs of suit, and such other and further relief, special, and general, in law and in equity, to which he may be entitled, etc.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and Seal of said Court, at office in Brownfield, Texas this 22nd day of July, A. D. 1935.

Eldora A. White Clerk, District Court, Terry County.  
By W. W. Price Deputy.

**CITATION by PUBLICATION**

The State of Texas, County of Terry,  
To the Sheriff or any Constable of Terry County, Greeting:

You Are Hereby Commanded to summon Hannah E. Jacobs, and if she be married her husband, whose name is unknown, and if she be dead, her heirs, administrator, executor or legal representatives, whose names or is are unknown, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County, to be held at the Court House thereof, in City of Brownfield, on the Fourth Monday in August A. D. 1935, then and there to answer a petition filed in said Court on the 20th day of July, A. D. 1935, in a suit, numbered on the docket of said Court as No. 1853, wherein Frank E. Givan is Plaintiff, and Hannah E. Jacobs, and if she be married her husband, whose name is unknown, and if she be dead, her heirs, administrator, executor, or legal representatives, whose name or names is are unknown

Defendants and said petition alleging on the 1st day of July, 1935 plaintiff was, and still is owner in fee simple of the southwest quarter of section 3 in Block D-11 in Terry County, Texas, and in possession thereof, and on the 2nd day of July, 1935 the defendants unlawfully entered upon and dispossessed him of such premises, and withhold from him the possession thereof, to his damage, \$1,000.00. That the reasonable annual value of said land and premises is \$160.00.

That plaintiff purchased said land and premises at tax sale held on May 3rd, 1927, and received from the sheriff of Terry County, Texas, tax deed to said land and premises; that said sale was based upon a valid order of sale issued by the clerk of the District Court of Terry County, Texas, on judgment rendered against the defendant, Hannah E. Jacobs for taxes due and owing on said land and premises, which judgment was a valid judgment; that since the time in which the defendants had to redeem said land and premises plaintiff has had peaceable, continuous and adverse possession of said lands and premises, claiming and using, cultivating and enjoying the same and paying all taxes on same as they became due and payable for a period of more than five years.

That plaintiff's title in and to said land and premises is as follows, to wit:

- (a) Patent from the State of Texas to Benj. H. Wisdom, dated January 5th, 1800 recorded in Vol. 43 page 292 of the Deed Records of Terry County, Texas.
- (b) Deed from Benj. H. Wisdom to F. W. Colby, dated July 27th, 1881 recorded in Vol. 1 page 138 of the Deed Records of Terry County, Texas.
- (c) Deed from F. W. Colby to defendant, Hannah E. Jacobs, dated September 5th, 1881, recorded in Vol. 1 page 151 of the Deed Records of Terry County, Texas.
- (d) Sheriff's deed to your plaintiff, dated May 3rd, 1927, recorded in Vol. 29 page 421 of the Deed Records of Terry County, Texas

Wherefore, premises considered, plaintiff prays the court that defendants, and each of them, be cited to appear and answer herein, that upon a hearing hereof he have judgment for title and possession of said land and premises, for his damages, costs of suit, and for such other and further relief, special and general, in law and in equity, to which he may be entitled, etc.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and Seal of said Court, at office in Brownfield, Texas this 20th day of January, A. D. 1935.

Eldora A. White Clerk, District Court, Terry County.

**CITATION by PUBLICATION**

The State of Texas, To the Sheriff or any Constable of Terry County, Greeting:

You Are Hereby Commanded to summon Christova Stitt and husband, W. T. Stitt by making publication

of this Citation once a week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County, to be held at the Court House thereof, in Brownfield Texas, on the Fourth Monday in August A. D. 1935, the same being the 26th day of August A. D. 1935, then and there to answer a petition filed in said Court on the 1st day of June A. D. 1935, in a suit numbered on the docket of said Court as No. 1829, wherein Forrester Independent School District is Plaintiff, and Christova Stitt and W. T. Stitt are Defendant, and said petition alleging an action by plaintiff praying for judgment against the defendants in the sum of \$65.00 for taxes due the plaintiff for the years 1932 and 1933, together with interest, penalties and cost assessed and rendered against the land hereinafter described, which taxes interest penalty and costs constitutes said lands lying and being within the boundaries of the plaintiff school district in Terry Co., Tex., and described as being the Southwest Fourth of Section Numbered 147 Block T. Plaintiff further prays for a foreclosure of its lien against said property, to satisfy said taxes, interest, penalty and cost for order of sale; for writ of possession, and that the defendants are husband and wife and the property sued upon is the separate estate of the wife.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and Seal of said Court, at office in Brownfield, Texas this 1st day of June, A. D. 1935.

Eldora A. White Clerk, District Court, Terry County.

**CITATION BY PUBLICATION**

The State of Texas, County of Terry To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to summon Mrs. W. B. Brown, and if she be married, her husband, whose name is unknown, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County to be held at the Court House, thereof, in the city of Brownfield, on the Fourth Monday in August, A. D. 1935, the same being the 26th day of August A. D. 1935, then and there to answer a petition filed in said Court on the 7th day of January A. D. 1935 in a suit, numbered on the docket of said Court as No. 1810, wherein S. J. Treadaway and Elsie L. Treadaway, independent Executors of the estate of T. L. Treadaway, deceased, are Plaintiffs and Mrs. W. B. Brown, and if she be married, her husband, whose name is unknown, Defendant, and said petition alleging that on Sept. 29th, 1923, J. H. Scott made, executed an delivered to N. W. Jones his certain promissory note, being numbered eight of a series of 10 notes, for the principal sum of \$355.00, bearing date on the day and year last aforesaid, due January 1st, 1932, payable to said N. W. Jones, with 8 per cent per annum interest from date until maturity, and 10 per cent from maturity until paid, and expressly providing for 10 per cent attorney's fees on the amount then due if placed in the hands of an attorney for collection, which said note was given in part payment for the West half of section Number 53 in Block "DD", John H. Gibson survey, in Terry County, Texas, and the Vendor's Lien acknowledged in the note to secure its payment and retained in the Deed from said N. W. Jones and wife to said J. H. Scott, recorded in Vol. 22 page 110 of the Deed Records of Terry County, Texas; That in due course of trade, and for a valuable consideration said N. W. Jones transferred, assigned and delivered to T. L. Treadaway said note, together with the lien securing same which assignment is of record in Vol. 20 page 379 of the Deed Records of Terry County, Texas, but before such

transfer, assignment and delivery of said note the said N. W. Jones released the southwest quarter of said section 53 in Block "DD" in Terry County, Texas, as to said note, and retained same against the Northwest quarter of said section; That J. H. Scott and wife conveyed the Northwest quarter of said section to Q. D. Stark by deed recorded in Vol. 20 page 576 of the Deed Records of Terry County, Texas; and by deed recorded in Vol. 36 page 491 of the Deed Records of Terry County, Texas, the said Q. D. Stark and Mrs. N. E. Harris, a widow, conveyed said land to the defendant, Mrs. W. D. Brown, and in said deed of conveyance the said Mrs. W. D. Brown assumed the payment of said note number 8, whereby she became liable and bound to pay same together with all interest and attorney's fees due thereon, to the owner and holder thereof; That T. L. Treadaway is now deceased, left a written will in which your plaintiffs were named independent executors of said will, and at the time of his death the said T. L. Treadaway was the legal owner and holder of said note No. 8, and that plaintiffs, in their capacity as independent executors of the will of said T. L. Treadaway, deceased, are the legal owners and holders of said note No. 8.

That said note is now long since past due and unpaid, and defendants, although often requested has failed and refused and still refuse to pay said note, except a credit of \$177.50 on March 14th, 1924 on principal, and annual interest paid to January 1st, 1931, to plaintiffs damage \$500.00.

That said note has been placed in the hands of plaintiff's attorney for collection, and the 10 per cent attorney's fees provided for in said note are due and payable.

Plaintiff's pray for Citation to issue to the defendant to appear and answer herein, for judgment for their debt, principal, interest and attorney's fees, cost of suit, order of sale, and for such other and further relief, special and general, in law and in equity, to which they may be entitled etc.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and Seal of said Court, at office in Brownfield, Texas this the 22nd day of July, A. D. 1935.

Eldora A. White Clerk, District Court, Terry County.

**HARMONY NEWS**

Rev. and Mrs. Patterson filled their regular appointment Sunday. A nice crowd was out to hear him.

Sunday School enrolled 80. All enjoyed the afternoon singing.

The young folks spent a pleasant evening in the Whitefield home, Saturday. All report a good time.

Mr. and Mrs. Ocie Murray, Mr. and Mrs. John Garner were visitors in the Whitefield home Saturday evening.

Mr. and Mrs. Walter Jones were dinner guest in the Huyles home Sunday.

Mr. and Mrs. Harvey Davis spent Sunday with her parents.

Mrs. Sam Miller entertained the quilting club Thursday afternoon.

Mr. and Mrs. John Garner attended singing at Needmore Sunday night.

Mrs. Wise was able to be at church Sunday. Her brother visited her in the afternoon.

Mr. and Mrs. Floyd visited sick friends at the Sanitarium, Sunday afternoon.

Mrs. Sam Miller entertained her

**PROGRESS NOTES**

B. J. E. Shelton, Secretary Chamber of Commerce

Mr. A. H. Davidson, Chief Engineer of the District Office of the Works Progress Administration, at Big Spring, and Mr. R. F. Boston of the same organization, visited Brownfield Tuesday of this week for the purpose of explaining the rules and regulations of the new program and also for the purpose of organizing the local unit WPA, which will be known as the County Planning Board and the following persons were appointed to act in that capacity. R. A. Simms, Chairman; J. E. Shelton, Secretary; L. C. Wines, Tom May and E. H. Jones members.

A very considerable number of citizens, who are interested in the various activities that will be attempted under the works plan, were on hand to listen in on the program. During the meeting, one project was approved by the County Planning Board and listed as Project No. 1. Which called for the improvement of the school building and grounds, tentative plans had previously been submitted to the district office and were developed by Supt. Baze, of the local schools. The writer will not undertake to comment upon the new relief setup as any opinion at this time would be premature and not to be relied upon. The County Planning Board, will hold regular sessions on the Second Tuesday of each month, at which time applications for projects will be considered. Call meetings will not be held except under extreme conditions.

During the last week, a trip has been made to another state in the interest of highway 84 and we hope that our cause was advanced by reason of it. County Judges and Commissioners of the counties of Lynn, Terry and Yoakum compromised the party, of course the writer was in the party, carrying "wood and water."

It is noted in the daily papers that the highway commission, other officials connected with the state highway department and district engineers of our section of the state, will hold a session in Mineral Wells on Wednesday of this week for the purpose of allocating something like \$8,000,000.00, for highway construction in North and West Texas. We don't know what position 84 will occupy if any, on the program, but if we don't show in it somewhere, it just means that we will have to re-double our efforts to get something done about it and the writer is willing to admit that the present commission is an unknown quantity as it concerns its attitude toward this number.

Our recreational project seems to have taken on new life as more has been done toward putting it over with in the last two weeks than we have been able to accomplish heretofore and while we will not know just what will be developed on it before the middle of August, the writer is very hopeful and believes that we are going to put it over in great shape. It must be remembered that it is a project for the benefit of the entire county and is not local in any sense.

I wonder whether any of our people have ever visited those "bottomless lakes" that are located on the highway a few miles this side of Roswell. If they haven't they have missed some-

thing that is worth seeing and is just as wonderful in their way as the Carlsbad cavern. The writer has passed this place at least a hundred times and if he ever thought of the lakes at all, it was just to think that they were a bunch of dirty holes containing a lot of brackish water, but last week while visiting Roswell on highway matters, our bunch decided to give them the "once over" as none of us had ever been to see them and to say the least of it, our eyes were opened and we wonder why it is that Roswell does not give them as much publicity as the Caverns are getting. At this time over 200 hundred C. C. C. workers are at work in the canyon containing these lakes and when completed it will be one of the show spots of New Mexico. We wont undertake to describe these lakes, just stop over and visit them the next time you are out that way.

A few days ago an inquiry came through the Santa Fe Railway, requesting the chamber of commerce to undertake to secure pasturage for approximately 5,000 head of cattle and it was revealed that William R. Hearst interests were the one who desired it. Of course knowing, that we would not be able to supply them out of pastures in our county, we undertook to and were successful in contacting a citizen of Yoakum county who was in a position to meet the need and the pasture is now available but we have not been advised of acceptance. In view of the fact that use of the pastures was only needed for 90 days, we are of the opinion that these cattle are a part of the number that will be fed out of the Babicora pens this fall and winter.

### 8000 TEACHERS TO GET FEDERAL CHECKS

AUSTIN, July 29.—Checks for approximately 8000 rural school teachers of Texas under the federal aid program which enabled nearly 1500 schools this year to complete normal terms are being prepared and will be in the mails shortly, State Relief Director Adam E. Johnson has announced.

Unwilling to see rural schools close two or three months short of a normal term at the penalty of the rural youth of Texas, the FERA early last spring agreed to pay a portion of teachers' salaries in schools in towns and communities under 5000 population which were unable to complete a full term on their own finances.

More than 1500 school districts applied, and 1493 projects were approved, enabling thousands of Texas school children to complete a normal term, F. A. Royce, engineer in charge revealed. Exact number of children benefited is to be compiled later. In most cases schools were enabled to remain open on an average of two months longer than otherwise would have been possible.

A total of 8764 persons, chiefly teachers but including others connected with schools such as bus drivers, will receive the checks being prepared by the Relief Commission. The total aid will be approximately \$1,000,000 (one million).

Mr. Johnson announced that no more applications from schools can be received as all funds are allotted. Checks will be sent to superintendents in the various school districts for distribution.

### NEW SCHOOL HEAD ARRIVES IN TAHOKA

W. G. Barrett, the new superintendent of schools here, arrived Monday and is on the job making preparations for the approaching school term. Thus far he has been unable however to procure a residence, and his family is visiting in Waco until he can procure one.

Mr. Barrett was superintendent of the city schools of Comanche for eleven years and the people there send some very strong recommendations of him and his work. The teachers and patrons here are looking forward to a most successful school year.

Mrs. Youngbride (telephoning Grocer)—I want you to send me two pounds of beefsteak.

Grocer—What kind do you like? Mrs. Youngbride—I'd like it rare please

### PROPOSED AMENDMENT No. 1 OLD AGE PENSION

The first proposition to be found on the ballot in the August 24th Special Election on Constitutional Amendments is the so-called Old-Age Pension Amendment. This year, for the first time, the amendments will be numbered, according to Secretary of State Gerald C. Mann.

The Old Age Pension Amendment proposes to give the Legislature the authority to pay these pensions to persons over the age of 65, who are not habitual drunkards nor habitual criminals, nor inmates of any State Supported institution. Those who are eligible must have lived in Texas at least 5 years, during the nine immediately preceding application and in the State continuously for one year.

All other restrictions and limitations would have to be set up by the Legislature.

The Amendment authorizes the Legislature to accept money from the Federal government for the same purpose. It is presumed that Federal funds would match State funds. The maximum amount to be paid by the State would be \$15 per person per month. It is presumed that the Federal government would match State Funds. The total pension per person per month in this case it is presumed would be \$30. The amount might be smaller, however; but not larger.

It is estimated that the cost of this pension to the State would run between forty and fifty million dollars annually. No provision is made for the income. It would be up to the Legislature to determine where the money would come from. The Legislature would have to enact such laws as it deemed proper to utilize the right granted by the amendment. The Legislature might do this at once, or some time later—or for that matter not at all. The amendment is permissive and not mandatory, though few doubt that some form of old age pensions would be enacted if the amendment is adopted in August.

Of all the medicated gall that was ever spread over the country has broke loose down Dallas way with the Centennial boys. Half a million dollars was appropriated by the legislature for the purpose of paying for the publicity for the Centennial, and naturally newspaper boys of the state were of the opinion that it was to be spent in buying newspaper space to tell the people about the big show. But what happens now. Walter Woodul, our lieutenant governor, has named an advisory committee composed of a railroad executive department store manager and a lobbyist of a sulphur company to handle the advertising. Not a single newspaper man was named on the committee. But that "ain't" nothing yet, listen to this: The Dallas News recommends to the committee that it spend all the money to hire "high-powered" press agents to send out accurate news items, about the Centennial to be published free by the newspapers of the State that so graciously carried publicity about the show the past year when no advertising funds were available. The Exposition management has indicated its faith in the policy, and has hired a crew of press agents headed by an expert from San Diego to send out Centennial news. Couldn't even find a man in Texas to handle the the proposition, or one that had the gall to ask the country newspaper boys to publish it free. The newspaper boys in West Texas did not expect to get paid advertising about the Centennial, as East Texas and Dallas Centennial managers have already told us boys to "go where there is no shoveling of snow," but we sure would like to see those East and South Texas boys get a slice of that advertising money, for it is their song and dance. We sincerely hope every newspaper editor in the state will send this free publicity back to that San Diego man and his bunch of free publicity hounds with their compliments.—Lockney Beacon.

Despite the cussing and fussing, radio advertising persists. Last night it led off with "here is a message for all you tired and weary under the New Deal looking for help. Do you wake up weary and tired after 13 hours in the bed? Do you feel hungry after going without food 4 days? Do your garters bag at the back and your shoes slip up and down on the heels until dame nature wisely puts a blister there? Does your head feel unrelated to the body after a "night before?" Gentlemen, (also ladies) here is instant relief for you. Send for our free sample. It is good for 99 years after if you get it right now. The method is simple. You merely pay the postman \$4.99 to cover cost of postage and packing. Next you remove the stopper, turn a bit into a glass and drink yourself back to gladiator strength at one gulp. How simple! Men fall for it—so do ladies. Don't delay. Send for it right now or you will always be glad you didn't. The chance of a lifetime, folks, the chance of a lifetime."—Clarendon Leader

### TO ORGANIZE SONS OF CONFEDERATE SOLDIERS

AMARILLO, Texas July 24.—Organization of Sons of Confederate Veterans camps in cities throughout the Panhandle Plains region to assist in welcoming and entertaining the survivors of those who followed the "Stars and Bars" during their reunion in Amarillo, September 3 to 6, is now in progress.

General headquarters of the Sons of Confederates at Richmond, Va., and Texas State headquarters at Dallas, have designated Carl Hinton, Past National Commander, as Director of all organization work in this section.

Sons, grandsons and great grandsons of Confederates are eligible for membership in this internationally-known organization. Those eligible can either join the Plemons-Shelby Camp at Amarillo, or form a camp in one of the cities in the Panhandle-Plains.

Plainview is one of the first cities to begin organization of a local camp, several citizens there having recently invited Mr. Hinton to assist in that detail. Pampa, Dalhart, and Canyon are among other cities preparing for organization work.

Dues are \$5.00 the first year and \$1.00 each year thereafter. Practically all funds derived from this source are to be used in housing and feeding the veterans and widows of veterans during the forthcoming reunion.

Mr. Hinton has volunteered to visit any town in this section, at his own expense, and assist in organizing local camps.

Amarillo is not asking for financial aid in connection with the reunion, but due to the fact that the State could not finance the function as has been the practice in other states, the citizens of this region are being urged to affiliate with the Sons of Confederate Veterans. Amarillo business men have underwritten the \$10,000 reunion expense.

### A BULWARK OF CONSTITUTIONAL GOVERNMENT

It has often been said that the greatest safeguard to liberty and constitutional government in the United States, is the country press. No nation is so well covered with local newspapers.

The thousands of publishers of these local newspapers generally own and edit their own publications. They are independent and express their own opinions. They are among our highest type of citizens and have thorough understanding of the principles upon which our government is founded. Regardless of their party beliefs. In the great majority they are broad-minded enough to put the welfare of the nation and security for life, liberty and prosperity ahead of any party prejudices.

That is why the country press of the United States is the greatest champion of the rights and liberties of all the people as set forth in the fundamental law of our land.

If anyone doubts this, he has only to read the editorial comment of editors from the four corners of the nation today. To illustrate, the editor of the news, published in the typical country town of Ruskin, Nebraska, in his issue of June 13, in commenting on the growing tax bills and bureaucratic tendencies in government, says:

"We say, look out! When you get more than half the people on the federal, state, county, municipal or other public payroll, then you are going to have bureaucracy right, both at home and in Washington. As we have said before, it is not just what we are doing now, but the direction in which we are heading that counts."—Exchange.

### STATE SENATOR DUGGAN WILL UNDERGO OPERATION IN CITY

Senator Arthur P. Duggan, 58, of the 30th senatorial district of Texas was admitted to Lubbock sanitarium Friday afternoon for surgery this morning.

The Littlefield lawmaker's condition was described as satisfactory.—Lubbock Avalanche.

### BRISTOL CHERSER COUNTY AGENT OF HASKELL

LUBBOCK, Texas, July 24.—Bristol Chesser graduate of Texas Tech college in 1933, has been appointed county agent of Haskell county. Chesser took a year's vocational agriculture work at the college, went to Brownfield where he was assistant county agent, and then to Crosbyton in that capacity.

Rufus—Come on—let's go to the movies. Goofus—Go 'way from me. I'm busy. I got this here mail order catalog to read through and all I got is one day more. On the wrapper it said: "Return in five days"—and tomorrow's the last day.

Mr. and Mrs. Jas. H. Dallas are vacationing in the mountains of New Mexico. James assists in banking at the Brownfield State.

### WHAT THE NATION WORKS FOR

The goal of the average nation is to have more prosperity so as to raise more taxes so as to build more warships so as to develop more markets so as to sell more products so as to have more prosperity so as to raise more taxes so as to build more warships so as to develop more markets so as to sell more products so as to have more prosperity—and so on around the circle until something unforeseen happens—and then there's war even though nobody wants it.

### NO WILDCATS ON HER LAND

The Oil Weekly tells this joke: A Wisconsin woman who owns some land near Rio Hondo, Texas, was "insulted" by an oil scout recently when he wrote her regarding the leasing of her land for "wildcat purposes."

She wrote an indignant letter declaring that there were no wildcats on her land. "This land was bought for good land, taxes have been paid on it as good land and it is good land," she wrote, "with no wildcats on it."

Stranger—What is the standing of the Spendmore family in this town? Native—Well, I should say they is sort of betwix and between. They ain't exactly nobody and yet they hain't really anybody.

Mr. and Mrs. M. B. Sawyer and son Arthur and wife have returned from a visit to Yellowstone park and Boulder dam. They report a great time and lots of scenic wonders.

## Bury Gold Nugget "As Big as a House"

A cube of gold about the size of a two and a half story house, represents the \$9,000,000,000 of precious metal round which spectacular precautions are now to be taken for a national safekeeping.

An isolated army post at Fort Knox Kentucky, is to be the site for a modern fairy tale strong-box, in which a good share of the nation's metallic reserve is to be buried. It will be guarded by every device known to the ingenuity of the most up-to-date chemistry and metallurgy, by the modern equivalent of what the old Aladdin's lamp story-tales described as dragons and genii.

The hurried construction of a subterranean vault at the army post, 30 miles outside Louisville, Kentucky, has been authorized, but the plans have not yet been approved, the Treasury Department said June 29. At this "gold storage plant" about the same amount of gold will ultimately be placed underground as is now kept in the other inland gold reserve base at Denver, Colorado. A mechanized cavalry unit of the army is stationed at Fort Knox, which will be handy if anyone should attempt to tamper with the gold supply.

The decision to set up an inland gold concentration point really began with new world gold financial policies. Previously gold circulated from hand to hand; now it is all going back underground; into the earth from which it came. No one will see it any more, no one will use it; pieces of paper called "money," which are not payable in gold, will take its place in the trade centers, and yet it will be piled there as the theoretical base of the whole fiscal system.

The vault will be surrounded by an air space, on all sides and below, so that guards can patrol about it and beneath it. It will be supported within its exterior underground vault by metal pillars.

The actual vault itself will be made of a complicated intermixture of steel and concrete. Outside, there will be a layer of chilled, cast iron plates while inside will be concrete, inter-placed with steel webbing. Walls will be three or four feet thick, about the width of a medieval fortress. A very elaborate time-lock door will give the only entrance. One million dollars worth of gold weighs about a ton, so that 900 tons represents America's whole present gold supply. This would be included in a cube 34 feet by 34 feet. The new storage vault will be probably hold a large fraction of this total.

All these precautions will be taken for a yellow substance that is neither suitable for clothing nor food, and that is mined at infinite labor by the hand of man from underground only that it may go back underground again with infinite labor of man to protect it.—Christian Science Monitor.

### RATTLESNAKE DRIVE NETS TOTAL OF 1,076

A total of 1,076 rattlesnakes, most on them of the black diamond variety, had been killed in Taylor county from April 25, when the commissioners court placed a bounty on rattles up to July 12, according to records in the office of Roy Fudder, county treasurer.

The bounty paid amounts to \$317.94, an average of 29c plus for each snake killed.

To A. J. Willeke of the Chaney ranch south of Merkel go the honors for rattlesnake slaughter. He has collected \$19 for a total of 56 snakes.

The bounty set by the court is 5 cents per rattle, up to five, and two cents for each additional rattle. Largest amount paid for one snake was 51 cents—an 18-foot rattler—but several with 15 and 16 rattles have been killed.—Merkel Mail.

Monday is Brownfield's Tradesday.

### GET CHILDREN READY FOR SCHOOL

AUSTIN, Texas, July 29.—Now is the time, according to Dr. John W. Brown, State Health Officer, that every parent should ask himself if his child is physically ready for school. A visit to the family physician and dentist will answer this question and give time for the correction of minor defects before time for school to open.

A child with defective vision cannot be expected to do the required work in school until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions as habitual winking may be caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has been recognized by health workers for many years. Many of the ills of later life, as heart disease arthritis, deafness, etc., are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, and for this reason children should be taken regularly to the dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible to discover dental defects as soon as they appear.

Postural defects appear in the life of a child much sooner than we formerly suspected. Have your family physician see if your child's shoulder blades project and if his arches are low. Simple exercises, diligently adhered to, when the child is young, will prevent later serious developments in many cases.

### PRINTING

With little doubt, the invention of printing affected remarkable changes in the world. Last Month, Monday June 24 was said to be the 495th anniversary of the invention of this art. The Gutenberg press was the first invention of this type and was an important step in the progress of printing.

That little press that Gutenberg experimented with in Germany has given to civilization one of its important inventions for the betterment of mankind. The press with all of its developments has drawn the veil of ignorance from the eyes of mankind. Never since the dawn of civilization, has the advancement of knowledge been so great as it has been since, that apparently insignificant experiment was conducted by Gutenberg.

The study of medicine, law, engineering, economics, and all the major sciences would be held back if it were not for the use of movable type and all its developments. It has been said that we would not have radio, automobile, steel, lines of communication and transportation if printing had not been invented.—Levelland Herald

### RETAINING COLOR OF BEETS

"Do not plunge hot beets into cold water before peeling. This step does not make the peeling slip off much better and the sudden change from hot to cold causes the beets to "bleed," or lose their color," says Maudie Ramage, cooperator of the Polar 4-H Club.

"In preparing beets for pre-cooking or blanching leave at least two inches of stem and all of root to further prevent bleeding of beets. By observing these precautions, provided you have a good variety such as Detroit Red your canned beets will retain the dark red purple color that you desire," she said.—Jayton Chronicle.

### WEEK'S ADD-A-LAFF

News item in the Lincoln County (Kans.) News—O. E. Lessenden had car trouble last week. The gear gathered and broke on the outside after which he got relief.

### LOST and FOUND

It has been a regular service of the Herald to restore lost dogs, watches, wallets and whatnots to anxious owners. But today our attention is called to the fact that we have helped find something which owners did not know they had lost.

"Thanks to the Herald," says R. L. Bowers, local representative of the Gulf Refining Company, "a multitude of motorists have found that they have been losing gallons of good gasoline without realizing it—just as surely as if there were a leak in the gasoline tank!"

Mr. Bowers refers to the result of a series of advertisements recently placed in the Herald by his company, offering all motorists the new free booklet, "15 Ways to Save Gasoline Money."

"Soon after the offer appeared in your paper, motorists began to flock to our filling-stations to claim their copies of the booklet, and the original supply had to be renewed. An enthusiastic demand for them continues," Mr. Bowers states.

Among the 15 simple, money-saving hints illustrated in the attractive little Gulf booklet is a pertinent pointer on parking. It explains, to the surprise of most motorists, that a car figuratively "burns up gas" even when it is parked, depending upon where and how you park it. Other hints in the booklet that materially increase mileage-per-gallon deal with proper use of the self-starter, accelerator, gear shifting and other ordinary operations in driving, any one of which wastes quantities of gasoline, if carelessly done.

Titled "15 Ways to Save Gasoline Money," the booklet is free for the asking at all Gulf service stations and dealers.

Italy seems to be determined to try out her war machine on Ethiopia as Mussolini the great dictator is under the impression that he is either a modern Napoleon or an Alexander the great, and is looking for more world to conquer. We hope he gets the spaghetti beat out of him while attempting to conquer the famed land of the blacks. Ethiopia is one of the oldest nations in the world dating back to the days of King Solomon.—Jayton Chronicle.

Hollywood scandal is becoming so scarce that the movie press agents now even tell us when a couple of stars become well enough acquainted to speak when they meet on the street.

Over in India a woman wrote 600 words on a postcard in communicating with a friend by mail. And we bet a nickel she started off by saying she didn't know any news to write.

"Man is mentioned in the Bible 4,332 times while "Woman" is mentioned only 536. This seems to bear out the fact that men wrote it.

Roy B. Davis, of Plainview, former county agent of Terry county, has been appointed by Gov. Jimmie Allred as one of the regents of the A. & M. college.

## Dallas New Offers \$2500 in Cash Prizes

Farms and ranches alongside of Texas highways will keynote Centennial visitors' impressions of the State.

The Centennial Farm and Home Demonstration Contest announced by the Extension Service is an effort to enroll every family living on a Texas highway in one big reception committee to create a "smiling countryside" welcoming visitors to the birthday party.

Response to the announcement of the contest has been inspiring. Dallas News representatives met it when out to raise \$2500 for prize money for the contest. Commercial firms gave generously to stimulate enrollment in the state-wide movement to improve the homes and farms and ranches by which the State will be judged in 1936.

Newspapers all over the State have joined hands in cooperation with the News as representing the city where the principal Centennial event will be celebrated. Good editorials and generous inches of space are being given to promote the movement. Radio announcers on commercial programs are telling about it.

The Sister State of Oklahoma plans to "pretty up" the highways leading into Texas.

Extension Service agents aided by the men and women and boys and girls who have worked with them heretofore are helping Texans on the highways to make plans for improvements based on Extension Service standards for country homes of comfort and beauty.

Everybody wants the contest to be a success because Texas will be host to the Nation in 1936. Texas pride is involved. Texas pride is our pride. The nation's opinion of the homes and farms and ranches of Texas matters to every Texan. So enrollment will not represent alone a desire to win one of the big prizes but will be a measure of Texans' love for their State.

Mr. and Mrs. W. Richardson and family, of Grandfield, Okla., left Sunday after spending a week with Mrs. Richardson's sister's Messrs. Dolphus Goodpasture and John Miller.

A Buffalo couple prescribes a good scrap every day as a recipe for happiness. But shucks, if there was anything to that, don't you think there would be a lot more people happy than are?

If it can be welded— We can weld it—

We can weld anything but the BREAK OF DAY and a BROKEN HEART.

### DO THE BARBERS NEED A CODE

Barber—"Poor Jim has been sent to the asylum!" Victim—"Who's Jim?" "Jims my twin brother. Jim has long been broodin' over the hard times, an' I s'pose he just naturally went off his nut."

"It that so?" "Yes, him and me worked together side by side for years, and was so much alike that we couldn't tell each other apart. We both brooded a good deal, too. No money in this business now."

"What's the reason?" "Safety razors has robbed us barbers of our rights an' we don't feel none too good about it. I musn't say any more, for it gets me all excited an' my hand trembles. I can see that you shave yourself. We barbers can always tell a cheap skate what shaves himself. They're very poor customers."

"Why, I always thought you barbers had a soft thing of it."

"No the prices are so low. Unless a customer takes a shampoo, facial and hair tonic, it don't pay to shave him an' cut his hair." Poor Jim—I caught him trying to cut a customer's throat just because he refused a shampoo an' a few little extras costing only a dollar. So I had to have the poor fellow locked up in a padded cell. It makes me sad to think of a human life bein' weighed in the balance with a measly dollar. Sometimes I feel serry that I didn't let Jim cut loose and slash as he wanted to. It might have saved his reason. Shampoo sir?" "YES!"

### TRAFFIC COPS ARE ADVISED TO USE KINDNESS

COLLEGE STATION, Texas, July 11.—Capt. Roy Rogers of the Houston police department put himself in solid with every automobile driver in Texas today.

His speech before peace officers attending their second annual short course dealt with methods of handling traffic violators.

"Kill them with kindness," he urged fellow officers.

"The average motorist tries to draw the officer into an argument the first thing," said Rogers "The officer who uses a kind word has the advantage and if he does get into an argument he is licked.

Arrests for traffic violators are generally unnecessary, he said. Running "through a red light" or boulevard stop sign is generally done without intent on the part of the motorist and "smart cracks" on the part of the officer are insults and should be avoided, Rogers asserted.

### FIND ALIGATOR IN PUBLIC POOL

FORT WORTH, July 18—Life-guard Bob Mettler spied a black object floating on the surface of the Forrest Park swimming pool.

"My God, it's a body," was his thought as he walked quietly toward the far end of the pool, careful not to attract the attention of 50 or more children swimming.

As he reached the object it flirled a scaly tail and dived.

Officials of the nearby zoo recognized it as a runaway from the nearby pool when a diver finally lassoed the three feet of fighting reptile.

### SWEET SONGS OF LONG AGO

Hello Central, Give Me Heaven

"Papa, I'm so sad and lonely,  
Sobbed a tearful little child;  
"Since dear Mamma's gone to heaven,  
Papa, darling, you've not smiled;  
I will speak to her and tell her  
That we want her to come home;  
Just you listen and I'll call her  
Through the telephone."

#### CHORUS—

Hello Central, give me heaven  
For my mama's there;  
You will find her with the angels  
Near the Golden Stair.  
She'll be glad it's me that wants her,  
Call her won't you, please,  
For I surely want to tell her  
We're so lonely here.

When the girl received this message  
Coming o're the phone,  
How her heart thrilled in that moment

E'en the wires seemed to moan,  
"I will answer just to please her—  
Yes, dear heart, I'll soon be home."  
"Kiss me, Mama, kiss your darling,  
Through the telephone."

#### RABBIT FEVER

AUSTIN, Texas, July 24.—A number of cases of tularemia, sometimes called Rabbit Fever, have been reported to the State Department of Health, according to Dr. John W. Brown, State Health Officer. The disease is usually transmitted during the hunting season by the handling of infected rabbits when there is a break in the skin. The cases now being reported are probably due to the bite of the wood tick.

The disease is known to be caused by a minute germ which infects a small percentage of rabbits, and in addition, a variety of other animals. The germ is spread among animals by blood sucking flies, or ticks which draw blood from an infected rabbit and latter carry infection to other animals. A rabbit that is slow and fails to get off to a good start is apt to be infected.

The disease usually starts with symptoms that resemble grippi or influenza. It has often been mistaken for typhoid fever. In many cases, an ulcer develops at the site of the infection. Whatever form it takes, means a long, serious illness. The family doctor should be sent for without delay whenever symptoms develop that suggest rabbit fever. To assist in the diagnosis of the disease, blood tests for the presence of the infection will be made by the State Laboratories, at the request of the city or county physician, for any case in the counties.

The best means of prevention is to avoid direct contact through handling of wild rabbits, by protecting the hands with gloves, also, while in the woods to protect oneself from tick bites.

#### DE LUXE BABY MODEL

When the stork brought his first-born to the home of Charles Hatch, Portsmouth, O., a specialist in automobile advertising, the proud father sent out announcement cards slightly different from the customary kind but in keeping with Hatch's profession. The cards contained the following:

"The 1933 free wheeling Hatch de luxe.

"Specifications—Gregory Charles Hatch.

"Make—Boy. When better babies are built, we will be too old to care."

"Weight—7 1/2 pounds."

"Wheelbase—20 inches. Easy to handle, easy to park."

"Lighting—Bright blue lamps automatic dimmers."

"Horn—High frequency vibrator type—loudest when fuel tank is empty. (Ask the man who owns one!)"

"Tires—Yes, but never at night."

"Fuel—Gravity feed, 4-ounce tank. More smiles per gallon."

"Engine—Two-cylinder WOW.

"Body—Well insulated, no squeaks but plenty of squawks and rattles."

"Color—Customary pink."

"Price f. o. b.—Well, why bring that up?"

Mr. and Mrs. Jack Burdett, of Porcupine, South Dakota, were week end guests of Mrs. J. T. Auburg. Mr. Burdett is a brother of Mrs. Auburg. He reports plenty of rain in his part of the state this year and that grass is knee high.

Mrs. J. F. Ruehs, of Odessa, visited her sister, Mrs. J. T. Auburg, Sunday. She was enroute to Lubbock to see her mother.

land. Mrs. Simon Holgate had returned from Plains, where she taught a music class. Mrs. R. M. Kendrick and children passed through from a visit with her father, Mr. Cunningham, in south Terry. Sixteen Spaulding buggies had been received at Gomez and on west. Rev. A. D. Jameson and wife were visiting in Knox county. All for this week.

### Our 23 Year Column

Quoting from the issue of August 2, 1912: Gov. O. B. Colquitt carried Texas by 40,000 over his opponent, W. S. Ramey. Ramey carried Terry county by a vote of 139 to 100. Bartlett carried the county for State representative over Frank White. Spencer got more votes than his three opponents for District Judge. Lockhart beat Vickers badly for District Attorney. While the above was just Terry county, that was the way the races panned out all over the district. In the county races, Neill was elected over W. G. Hardin for county judge, D. J. Broughton defeated T. J. Price for county and district clerk. Geo. E. Tiernan was re-elected sheriff and tax-collector over W.

R. Bridges. Jim Burnett defeated R. W. Glover by one vote for assessor, the vote being 124 to 123. H. T. Brooks defeated A. B. Bynum for treasurer. Eb. Ivey was in from the ranch on business. Cleve Williams was making ice cream for his confectionary with a gasoline engine. L. B. Minor was down from Lubbock prospecting. J. T. May went to Tahoka after lumber to make some repairs on his home. A cow attacked Dee Hunter and fractured one of his ribs. M. B. Sawyer and family were visiting in east Texas. G. J. Rose was gathering plenty beans from his two acre patch. A dog belonging to H. T. Brooks bit Raymond Speegle while he was distributing circulars for a Lubbock firm. Mrs. D. Y. Blanton had returned from Ralls where she had

been visiting. H. M. Bridges left Blue Springs, Miss., on a visit. The Methodist revival was to start Sunday with Presiding Elder Terry holding same. R. H. Bonowsky had gone to Temple after his parents, His mother was ill and it was thought the change would help her. The local Rebekah team was practicing to compete in drill work at the Odd Fellow Assn. at Lubbock. Rev. J. W. Thomas of this city and Rev. Balch of Tahoka, were conducting a revival at the Gomez Baptist church. Gomez: W. A. Fulton was visiting relatives in east Texas. Mrs. Sam Funderburk was on the sick list. Jim Parks and W. D. Winn were repairing a well for McPhaul Bros. in the sandhills. Geo. Bragg had been in Yoakum county looking after his

# try Gulf 3 weeks IN THE "TRAFFIC COURT"

#### Wanted: A fair trial

If it's been some time since you've used Gulf, try it 3 weeks—this gives us your verdict.

Try it in traffic. Starts. Crawls. Get-aways. Climbs. There's no fairer test—and we think you'll confirm a recent judgment...

#### 750 Turned Judges

We went to 750 owners of average cars—asked them to judge Gulf against their regular brands on mileage, starting, pick-up, power, all-around performance.

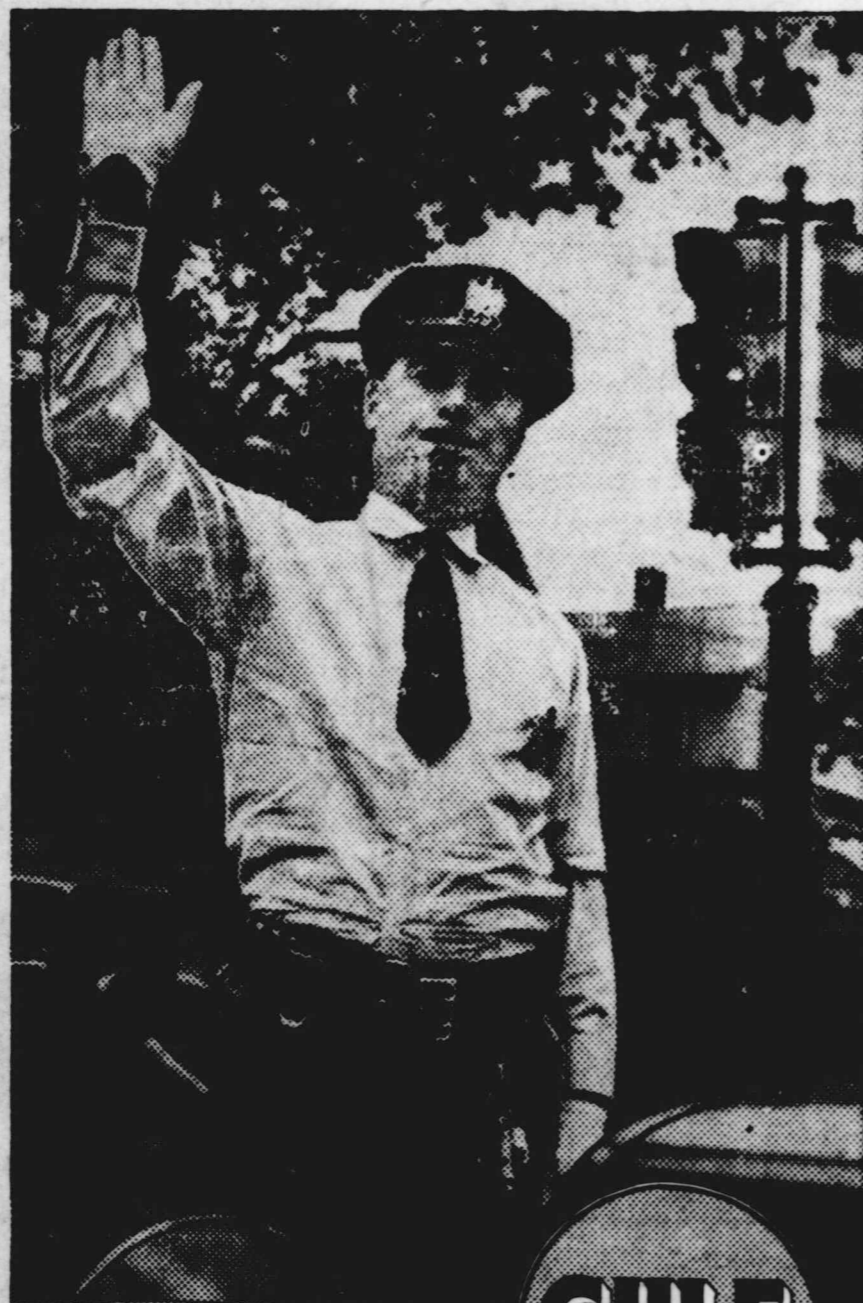

#### Gulf Won the Verdict!

At the end of the trial, 7 out of 10 voted Gulf superior on one or more of the 5 counts—many on all five.

Reason? Controlled refining makes Gulf 5 good gasolines in one. Gives it not only 2 or 3—but all five qualities of a perfect gasoline.

Try That Good Gulf 3 weeks—and you'll be an addict!

GULF REFINING COMPANY

Q. What tip on "pickup" can cut down gasoline bills? You'll find the answer in this Gulf Booklet, plus 14 other valuable economy hints. Free—at the Sign of the Orange Disc.

### Drouth Said to Be Over By Experts

WASHINGTON, July 17.—Torrential rains that have brought the west both floods and the promise of better crops today prompted weather bureau hopes that the drouth cycle was ended.

For more than four years, the western states have been baked by a blazing sun, unrelieved by enough rainfall to sustain crops.

Low Precip Over Joseph Kinger, climate and crop weather expert for the weather bureau, said this years rains gave ground for a definite belief that the bottom of the low rainfall period had been reached.

Kinger said a great deal of study and investigation had been given to the possibilities of long range forecasting but the bureau was not yet convinced of its feasibility.

Rains Improve Crops The spring rains already have improved growing conditions in most sections of the west and given promise of larger corn, wheat barley, rye, flax, hay, beans and most vegetables and fruit crops than were had last year.

The agriculture department said that in the northwest, farmers by

borrowing, using government loans and seeds wherever they could and by keeping tractors going for long hours on end had planted acreages of wheat, oats, barley and flax that

seemed impossible three months ago. Mesdames J. L. Cruce and W. H. Collins visited in Lubbock, Thursday of last week.

Mr. and Mrs. Toone were Lubbock visitors last Monday.

Mrs. J. E. Shelton, son Jim and daughter Betty are in Stephenville. They have an apartment there and will stay until after the 1st of Sept. Mrs. Shelton doesn't have hay fever so badly there.

El Ray Lewis, Mattie Jo Gracy and Margene Griffin were Lubbock visitors Tuesday.

Mr. and Mrs. Benard Thompson of Nashville Tenn., are visiting Benard's parents Mr. and Mrs. B. L. Thompson and brother Hubert and family. Benard and wife are teaching.

Mr. and Mrs. Griffin and children returned from Whitesboro, Saturday where they visited relatives.

**A LOVE TAP**

Dr. Will Mayo, the famous medical specialist, once told of a case he knew of where a Negro woman came into a clinic with a broken jaw. The examining surgeon anxious to discover the extent and nature of the injury, asked numerous questions. To all of them the patient gave evasive answers. Finally however she admitted that she was "hit by an object."  
 "Was the object a large object or a small object?" queried the doctor.  
 "Tollerby large," said the patient.  
 "Was it a hard object or a soft object?"  
 "Tollerby hard"  
 "Was it coming rapidly or slowly?"  
 "Tollerby fast."  
 At this point the patient's patience was exhausted and she turned to the inquestor and barked: "To tell de trufe, doctah, Ah was jes' simply kiked in de face by a gen'lmen friend."

The assets of the Andrews State Bank, at Andrews, Texas, have been transferred to the Midland National Bank, and the Andrews bank ceases business.

Mrs. L. J. Dunn was a Lubbock visitor last Monday.

We hope you'll be here MONDAY.

**THOUGHTS OF A BROTHER**

My heart is heavy with grief,  
 I'm lonely, blue and sad.  
 For gone is the sweetest brother  
 A girl has ever had.

Oh, it's hard to give you up,  
 The pain cuts like a knife,  
 It almost tears my heart out  
 To think of my future life.

But then at night I'm happy,  
 My heart is swelled with joy,  
 For in my dreams you come back to me,  
 The same sweet smiling boy.

And in my darkest moments  
 There appears a shining light,  
 It is my memory of you,  
 So vivid and so bright.

But then my greatest comfort  
 Are your happy words that day;  
 And knowing you did not suffer  
 Before you passed away.

It seems I'm always waiting  
 For you to come once more,  
 To drive up in the truck some night  
 And step inside the door.

I'll miss your brotherly teasing,  
 Your advice for that and this,  
 And your telling your chums  
 "Don't take my baby Sis."

And so in my memory you linger;  
 A beautiful dewey Bud,  
 A rose just in it dawning,  
 Young, eager, and in love.

God, alone, knows how I loved you,  
 But then He loved you more,  
 And always doing best,  
 He took you on before.

And now, I think of heaven,  
 The home prepared above,  
 I want to go there, for waiting  
 Is the big brother I love.

—Willie Galloway

**PROPOSED AMENDMENT No. 2 TEMPORARY COMMITMENT OF INSANE**

Proposition No. 2 on August 24th special election ballots has to do with the temporary commitment of insane persons, preliminary to a trial by jury.

Under the present Constitution whereby everyone is guaranteed a jury trial, it is impossible to commit a mentally ill person to an institution for treatment or observation without the necessity of a jury trial. It has been pointed out that this is often very inconvenient and embarrassing.

The proposal, according to Secretary of State Gerald C. Mann, if passed, would authorize the Legislature to pass such laws as would permit mentally ill persons to be confined by County Courts in institutions, presumably, or under the care of physicians or experts for a period of ninety days prior to a jury trial. It is presumed that the ninety day period of confinement would be for the purpose of observing such person. The provisions would apply only to persons not charged with a criminal offense.

The Amendment specifically sets out that the right of trial by jury shall remain inviolate, but that in the particular case of insane persons a confinement period of ninety days for observation may be prescribed without the necessity of a jury trial. At the end of that time a jury trial would be had.

**STUDYING WATER RESOURCES OF TEXAS**

LUBBOCK, Texas, July 29.—Dr. Leroy T. Patton, head of the department of geology and geological engineering at Texas Technological college, has been appointed a member of a committee on the "Conservation and Proper Utilization of the Surface and Underground Water Resources of the State."

The committee, which has nine members, is one of seven which will handle the activities of the Texas Planning board.

Dr. Patton was appointed by John A. Norris, chairman of the water conservation committee.

We hope you'll be here MONDAY.

**Sec. of Agriculture Coming to Amarillo**

AMARILLO, July 23.—When Secretary of Agriculture Henry Wallace comes here, Monday, August 5, it will afford the first opportunity in the Southwest to see and hear a "New-Deal" cabinet member.

"Not only agriculture leaders, but also any others interested visitors," to greet this distinguished visitor," declared Grover Hill, who is chairman of the general committee making arrangements to entertain Secretary Wallace.

"Agriculture is facing many difficulties and it is important to know what our Secretary has in mind," he continued. "People will want to see and hear the man under whose management they have received wheat and cotton allotment checks, feed and seed loans."

While here for only the one day Secretary Wallace is scheduled to make an address at 3 o'clock in the afternoon at the Municipal Auditorium.

"There will be a tremendous interest throughout the country in this address," said Mr. Hill, "because the Department of Agriculture has become most important in government and its policies affect 40,000,000 persons."

The visiting cabinet member is a real dirt farmer and developed Wallace corn, one of the popular varieties in Iowa. He also operates a dairy, feeding out Panhandle cattle every year in his lots.

This true friend of the farmer, the man to whom farmers pin their faith, is coming to Amarillo and the Panhandle on a tour of inspection and as a compliment to Congressman Marvin Jones.

Between the Amarillo congressman and the Secretary of Agriculture a warm friendship has developed.

Mrs. Jack Stricklin Jr. accompanied her uncle, Mr. Crowe and son, of Seagraves and her brother, Bill, to Denison last week, and visited with her parents. She returned home Monday.

Monday is Brownfield's Tradesday.

We note in the Quemado, Texas, Sun, that Alton Black has gone into the barber business, which is his old trade.

Monday is Brownfield's Tradesday.
