Processing Taxes and Protective Tariffs

When this nation wants to modify the tariff system which impedes export trade, then the farmers will talk about discarding their adjustment programs.

But unless I miss my guess, not before. . . . "Because it is so strong-

ly committed to the principle of equality for agriculture, and because the existence of the tariff system so clearly necessitates compensatory assistance for the farmers, the present Congress has made a great effort to amend the Act to meet every decisive point raised by any lower court which has held the Act unconstitutional. The heart of the pending amendments is to be found in the sections in which Congress legislates specific

rates of processing tax, both past and future, and validates past adjustment programs contracts and payments. Thus Congress speaks its intent directly and clearly, removing as far as the English language can, any question of invalid delegation of legislative power.

RESOLVED: We believe in the constitution of the United States of America, and in constitutional processes. We believe that what we need

is not a new constitution but a better understanding of the one we have. We believe that, reasonably interpreted and construed, it can meet all our needs and enable us to come to an orderly solution of our problems without sacrifice to those ideas and ideals that are American. If, by any chance, contrary to our expectations, we find the problem, we shall remember that the constitution contains within itself provisions where a well considered change in our fundamental law can be made in a well ordered manner. But such change should be made only as a last resort and should be only such as harmonizes with the American spirit and with American institutions."

—Excerpt from "Credits and Debits of the Cotton Program," an address by Chester C. Davis given at Stoneville, Miss., August 13, 1935.

DEATHS

Mrs. Martha Ann Neill, aged 80 years and 10 months, very suddenly and quietly passed away as she sat in her chair at the home of her son, Judge Geo. W. Neill, on Friday morning, August 23rd about 10:30. She hadn't been ill and was just her own sweet self as she sat chatting with members of the family when her head just dropped and she went to sleep at once without a sound.

She was the wife of J. W. Neill who preceded her in death in Sept. 1928, here in Brownfield. Both were well known and loved by all who knew them. Mother Neill has spent her last years with her children, always spending the summers here as it was cooler, and winters with children in Austin and Dallas.

She was born in Georgia, moving to Arkansas early in life, and was married to James W. Neill in 1874. They came to Texas in 1894 locating in Comanche county. They then went to Howard county, which they called home and later went to Austin for a few years.

A most impressive service was held in Big Spring, Saturday afternoon at 3 o'clock, conducted by Rev. Bickley, a Methodist Minister. The twenty third psalm was read and beautiful words were spoken, after which interment was in Big Spring cemetery by the side of her husband and near her son, Ed H. Neill, who departed this life last Oct. The floral offerings were many and beautiful.

The pall-bearers were six of her grandsons who lovingly and tenderly carried her to her final resting place. They were: Hubert Smith of Big Spring; Herbert and Jim Neill of Brownfield; Romie Stewart of Dallas; Travis and Chester Stewart of

Brownfield. She was survived by five children, four daughters and one son Judge Geo. W. Neill of Brownfield; Mrs. Tennie Stewart of Brownfield; Mrs. Elma Merryman of Austin; Mrs. Minnie Smith of Big Spring; Mrs. Annie Jo McFarland of Dallas, also a daughter-in-law, Mrs. E. H. Neill of Big Spring, besides a number of grand children and several great-grand children.

She was very wonderful woman with a beautiful christian life, deeply loved and appreciated, and who will be greatly missed and mourned by all who knew her.

Construction Work on Meadow School Plant

Things have begun to buzz in preparation for the 1935-36 session of school. A home Economics room is being equipped in the High School building. The cabinets are being built in by Mr. R. L. Pendergrass of Meadow who was the lowest bidder on the job. A combination cooking and sewing room is being modernly installed. Four new Singer Sewing Machines have been purchased for installation. Either four New Perfection stoves will be purchased or two oil stoves and two new electric ranges. The laboratory is being equipped for 16 girls. We are planning on about 50 girls taking home economics this year.

The old frame building on the north side of the campus is being remodeled and fixed over into a gym for the Grade school and the Juniors in the High school. The ceiling is being raised so as to give 17 feet clearance and the windows are being replaced by those of the correct size for a gym. There will be four goals installed so as to accommodate the largest number of students. The playing surface will be 70 by 40 feet. This work is being done by B. C. Horton and Gramam Swain both of Meadow.

Three old buss bodies are being overhauled and lowered so as to prevent them from having a tendency to be top heavy. One new bus is being installed to take care of the extra students who have been transferred here this year. A new body is being built for it by B. C. Channey of Meadow.

The grounds are being leveled and beautified in preparation for the opening of school.

The rest of the Grade school building is being concreted and sanitary drains placed in them. A new room is being seated in the grade school building for the extra grade which will be placed over there this year. The seventh grade will be moved from the high school to the grade school building.

LETTER TO FRIENDS IN TERRY COUNTY

"We have always believed in 'giving the roses while we live,' and we have surely seen that spirit carried out since our troubles begin on July 25, this year, at about 8 o'clock P. M., as the people of the Highway community were gathering at the school house for church services. A car blinded by the lights of another coming from the opposite direction, ran into a cart on which seven persons were riding; three of them were seriously injured, one fatally. Our little girl, Norma Jean being one of the injured, making it necessary to have her leg amputated.

"Nothing was left undone at that time to give us the help needed, and in a short time, Jack Markham was taking us to Brownfield to the Treadaway-Daniell hospital, where first aid was rendered. And speaking of roses, the good people of Brownfield who were up at that time of night, offered to help us any way possible. We were invited into their homes; merchants let us have anything we had to buy at a reduced price. We call that giving roses while we live.

"Those old friends of 25 years ago came to see us and let us know that they are still our friends. The doctors and nurses at the hospital are just fine, and were so nice to us. We recommend that institution to anyone in need of that kind of service. Words fail us when we try to express our thanks to the people of Brownfield and Terry county, for the great spirit of love shown us while there at the hospital, but we hope these feeble words will make you understand how we appreciate you, and maybe, we, in some way, sometime, place some flowers along your pathway of life.

Emmet Green and wife,
Tatum, N. M."

THE HOG-TOWN BUNCH MEET AND ELECT

We had a letter this week from Aesculapias, the Sage of Meadow, stating that the Desdemonia clan met last Sunday at the city-county park at Lubbock, but inasmuch as the Avalanche reported that the affair was to be on Saturday, there was some confusion. (That paper never gets anything right.) And we may not get much of this right, as we are bound to depend on translating some of the doctor's Egyptian hieroglyphics, as his typewriter was on the shelf. He has written prescriptions too long, to make an intelligible stab with pen and ink.

Anyway, former Desdemoniacs were there he said, from all over the plains, from Tulia to Lamesa, and they had a wonderful time together, but greatly missed Dalt Lewis, who failed to put in appearance. They agreed to meet each fourth Sunday in August annually. A permanent organization was perfected with Dr. J. D. Moorhead, of Meadow, President, and Walter Anglin, Tahoka, Secretary.

MRS. ANN C. BELL PASSES

Mrs. Ann C. Bell, 87, of Marshall, Texas, passed to her reward Monday afternoon at 2 o'clock, according to a wire received here on that date. The body was laid to rest in the Greenwood cemetery, that city, some time Tuesday. In her younger days, Mrs. Bell visited her son, W. A. Bell here most every summer, and had many fine friends here.

She was truly a fine lady, having the combined facilities of contacting and holding friends in the western style, together with the graciousness of the old South. She had been a constant reader of the Herald for many years, and often wrote us that she was greatly disappointed if the little paper from Brownfield did not arrive on time. She never forgot her friends.

Her son, W. A., left Saturday to be with his mother in her last hours on earth, and what a comfort it was to himself and other members of the family that their dear mother and grandmother was rational up to the very last moment. Other children were, Mrs. Sallie Hawkins, with whom deceased lived since the passing of her husband several years ago, and Herbert Bell, both of Marshall.

John S. Powell accompanied his daughter, Mrs. Rufus Rush, also her husband and son, of Lubbock, to the Carlsbad Caverns last Thursday. They also visited Cloudcroft and Ruidoso, Friday and Saturday, and back home Sunday. Pappy John says this was the grandest trip he ever made.

The editor and wife and been out on the farm of Homer Scott and family, and found everything in a flourishing condition, and he had made more crop than three men could gather. Not only was he well pleased with his land, but was surprised not to find a jail here, and to be told by county officers that there was not a criminal case on the docket.
