

HERALD WANT-ADS

Make Life More Enjoyable!

Just what constitutes an enjoyable life?

If you asked a hundred different housewives, or husbands, or any kind of people, their answers would all sound different; and yet if you'd stop to consider, they're all really based on the same thing.

Making life more enjoyable is giving people the things they want . . . making it possible for them to do things they want to do.

That's why the Herald is such a help to everyone in Brownfield. It provides a means of getting the things you want. It offers help to you in making each day more cheerful and brighter. You'll find values you can afford . . . in the Herald!

Consult the Want Ads for the Things You Want. Today and Every day in the Pages of

Real Estate Values and Homes for Sale.

Advocates Absolute Philippine Independence

WASHINGTON, June 21.—Advocating complete independence of the Philippine Islands as a vital peace insurance policy for the United States, Congressman George Mahon last week asked the House of Representatives to consider legislation making independence possible in 1938 or 1939. The present law provides for complete withdrawal of the United States in 1946.

In his address to the House, Ma-

PEACE

Our quiet, dignified service and modern equipment have won for this establishment a reputation which is a constant satisfaction to our entire staff. Inquire about the facilities we make available to you without extra charge.

hon stated: "We are legislating for neutrality. We are bent on preserving peace for America regardless of war in Europe or Asia. We are far from Europe, but as long as we maintain our sovereignty in the Philippines, we are liable to be in the middle of a conflict in the Orient. This is most unfortunate, and this untenable position should be terminated at the earliest possible moment. It is one of the major threats to peace for the United States."

He also pointed out that in addition to being a war hazard, the Philippines have been and still are very expensive financially to the United States. The total actual cost to the United States for all departments of the Government which have made expenditures in the Island from 1898 to the present year was estimated at approximately \$900,000,000. Annual expenditures for the Army and Navy in the Philippines is \$14,500,000, and under the present law this expense will recur each year until 1946. The Congressman stated that these millions could best be spent in America in the development of the institutions of this country.

Mahon is a member of the House Insular Affairs Committee which has charge of legislation affecting the Philippine Islands.

Mrs. R. M. Kendrick spent Sunday with her daughter, Mrs. Orb Stice, in Midland.

Hill Asks Dallas News Pertinent Questions

WHERE IS THE DUST BOWL?

The great Dallas News, in its issue of June 4, contained an editorial entitled "Dust Bowl Rehabilitation" pleading for the co-operation of farmers and ranchmen with the Federal Government in its Dust Bowl program, and recommending the retirement of "Dust Bowl" and "marginal" lands from cultivation.

This time, however, the great Dallas Newspaper is careful to specify that portions of the South Plains which it thinks should be so retired. Only that portion of the plains lying west of a line passing through Lubbock and Plainview should be rescued by the Federal Government from the clutches of the farmer and restored to a ranchman, the News thinks.

"A lot of misleading information," says the News, "has been broadcast about the drought areas of the West and Southwest, some of which has been harmful to the more stable farming regions lying east of the 20-inch rainfall line which passes through Lubbock and Plainview. The fact, however stands out that such farming as has persisted west of that line has been largely marginal and has brought ruin in its wake periodically. The Federal Government's Dust Bowl program should have the effective support of the region it is intended to serve."

Among the counties lying wholly west of a line passing through Lubbock and Plainview and which the Dallas News would ban from agricultural pursuits are Terry, Hockley, Lamb and Castro.

We doubt if our neighbor, Jack Stricklin of the Terry County Herald, would consent for his fine county to be reconvered into mere ranch lands. It claims an average corn production of more than one million bushels per annum and is the largest corn producing county in all West Texas. On account of the abundance of feed produced in Terry county, William Randolph Hearst has established vast feeding pens at Brownfield and has been feeding from 7,000 to 10,000 head of cattle there annually the past few years. While Terry is not one of the largest cotton producers in the state, it nevertheless surpasses many east Texas counties in this field. During the twelve years from 1924 to 1935 inclusive its cotton production ran below 10,000 bales only one year, being 9,792 in 1928 and it ran as high as 33,848 bales in 1933. Its average production for the twelve years was 18,483 bales. Compare that with Anderson, Cooke, Coryell, Freestone, Gregg, Henderson, Nacogdoches, Panola, and others and you will find that this record is not so band even as a cotton producer.

What about Hockley and Lamb counties? Neither of these counties began developing agriculturally until about twelve years ago and never really got into cotton farming until 1926. Yet from 1926 to 1935 inclusive, a period of ten years, Hockley county produced an average of 27,875 bales annually and Lamb an average of 41,090 bales annually. How many counties in Texas can beat the Lamb County record? Probably not more than a dozen. For four years in a stretch, 1929 to 1932 inclusive, Hockley County produced 30,882, 28,283, 63,108, 52,179 bales respectively and for a period of five successive years, 1929 to 1933 inclusive, Lamb county produced 51,151, 36,866, 79,470, 61,776 and 52,908 bales respectively. These figures are taken from the Texas Almanac published in 1936 by the Dallas News and were compiled by the U. S. Bureau of the Census, showing the number of bales ginned in each county for the years indicated.

Castro County lies a little farther north and is outside the cotton belt proper, but it is one of the heaviest wheat producing counties in the state, according to the Texas Almanac, in the dry year 1935, it produced 1,195,903 bushels of wheat. Only six counties in the state exceeded this production, and all of them lie on the plains or in the Panhandle. They are Carson with a production of 2,033,972 bushels, Floyd with 1,722,665 bushels, Hale with 2,167,809 bushels, Hansford with 1,614,074 bushels, Ochiltree with 1,945,801 bushels and Swisher with 1,397,538 bushels. All these were comparatively light yields, for 1935 was a dry year. But compare Castro county's production with that of Denton county, which produced only 483,022 bushels that year, Collins county which produced only 342,699 bushels and Grayson county which produced 313,911 bushels and the importance of Castro as a wheat producing county becomes apparent.

Now, in the light of these figures we should like for the News to state whether or not it believes that these counties should be retired as agricultural counties and converted back into purely ranching propositions.

We believe that there are lands in some if not all these and other

Texas Adds An Alkali Plant to Its Industries

HOUSTON, June 21.—Texas year-

ly is adding to her industrial fame. One of the newest industries is described by Harry Van Demark in his article, "Alkali, a Fast-Growing Texas Industry," in the June issue of the Texas Good Roads Association's official organ, Texas Parade, just from the press.

"A new Texas industry, a fast-growing industry, the expression of the belief of level-headed businessmen in the industrial potentialities of Texas, is represented by the plant of the Southern Alkali Company of Corpus Christi," writes Mr. Van Demark. "Thus one of the most important chemical developments in the history of the Great Southwest has become a reality."

"Three years of planning and preparation preceded the opening of the plant. Every detail was perfected so that alkali buyers might from the very beginning obtain the fullest cooperation."

"It is difficult to over-emphasize the importance of this, the first alkali plant in the far South. An adequate home supply of basic alkalies has for years been one of the recognized needs of the industries in this section. Petroleum refineries, soap factories, paper mills, glass factories, cottonseed oil refineries, and other Texas industries using alkalies, now have available a convenient supply of materials at short-haul low cost rates. All of which means lower production costs for these industries and the ability to compete more advantageously with manufacturers located in

Plains counties that should be converted into pasture lands, but the average which should be so converted is comparatively small. We believe further that the Resettlement Administration can do a good work, but in order to emphasize its importance, the Administration, we believe, is itself guilty of exaggeration and the spread of misleading propaganda.

The News should at least revise its map of the territory which should be retired as agricultural lands.—Tahoka News.

MAILING MISTAKES

The United States Treasury was \$230,000 richer in 1936 because the public was careless in addressing mail. Exactly 12,250,000 pieces of mail went to the "Dead Letter Office" because of insufficient addresses, and 108,454 of that number contained money. Since there was no return address on the envelopes, and it could not be returned, the government got it.

Brownfield people may not be that careless, but is emphasizes the importance of having your name and address printed on the left hand corner of your envelope, whether you are in business or whether it is a social letter. If it don't reach its destination, you are always sure to get it back.

Mr. and Mrs. W. B. Parks and sons of Ponca City visited in the home of her brother, G. S. Webber.

Miss Minnie Hazel Gore who is in the hospital.

other parts of the country.

"Petroleum refineries, especially, are large users of caustic soda, soda ash and other common alkalies."

"All the requirements for the manufacture of alkalies are within easy access of the plant. Salt brine is obtained by dissolving rock salt 1800 feet beneath the surface of the earth. The brine wells are located six miles north of Benavides, Texas, and the raw brine is transported to the plant through a 61 mile cast iron pipeline.

"Limestone is quarried in the San Antonio district. Oyster shells are obtained from Nueces Bay. The coke comes from Birmingham, Ala., ammonia from artificial gas plants in the east.

"Thus Texas industry marches on and the state's manifold advantages in commerce and industry another major and most important unit is added."

but nothing takes the place of more mileage

I don't just tend this station; it's my own place of business. I've got a personal pride in keeping civilized restrooms for you. You're absolutely entitled to that, along with all the other service I can give you. But here's the thing: I don't figure I'm let out of giving you mileage—every last cent's worth you can get. That's exactly why the oil I picked to sell at my station is Conoco Germ Processed. Let me explain the long mileage it gives you, out of both your oil and your engine. You see, the patent Germ Process makes this oil form a real plating of lubricant all through your engine. Being attached for good, Oil-Plating won't run off while the car is parked... nor get pushed off either, no matter how fast you make a long trip. Then you're not wasting your oil and mistreating your engine, no matter if you reel off 5000 miles in a row, or make a million starts and stops around town. I could take your car now at my place, and in a few minutes change it to the correct grade of Conoco Germ Processed oil, the only oil that Oil-Plates your engine.

CONOCO GERM PROCESSED OIL

from Your Mileage Merchant

Texas Screw Worm Cases Increase in May

Screw worm infestations in wounds of animals reported from Texas increased from 3,665 in April to 7,831 in May, which is a little more than one-fourth of one per cent of the animals on which reports were obtained. An infestation of two per cent or more of the animal population is considered as an outbreak proportion and one that can cause noticeable losses among animals.

Of the cases reported during May, 5,518 of them occurred in cattle and 1,961 occurred in sheep. The greatest losses were reported among sheep where the mortality amounted to more than three per cent of the infestations. More than half (56 per cent) of the cases occurred in navels of young animals soon after birth, which emphasizes the importance of

controlling the breeding of livestock so that young may be born before screw worms appear. Snags, scratches and prickly pear furnished wounds which caused over 14 per cent of the infestations.

The fact that man-made injuries resulting from castrating, dehorning, marking, branding, sheer cuts and lamb docking furnished less than 15 per cent of the wounds which became infested with screw worms is evidence of the precautions being taken by ranchmen and farmers in performing operations on livestock, according to the Division of Screw Worm Control office at 1010 Travis Building, San Antonio, Texas. When it is absolutely necessary to perform such operations during the screw worm season, good stockmen apply pine tar oil to repel the flies and to aid in helping the wounds. If the wounds become infested, they are careful to kill the screw worms with benzol so as not to injure the wounds. Over 7,000 stockmen in the state were given advice and reported on cases to screw worm control supervisors of the Bureau of Entomology and Plant Quarantine, United States Department of Agriculture, during the month.

St. CLAIR'S VARIETY

Dr. Schoch Presents Valuable Pat. to T. U.

AUSTIN, Texas, June 21.—The discovery by Dr. Schoch, director of the Bureau of Industrial Chemistry at the University of Texas, of a method of processing natural gas into various by-products of great commercial value has been announced. The discovery, as explained by Dr. Schoch, is that of learning how to control electric discharges of electric arcs through natural gas, thus making possible the production of a definite desired product, including carbon black, acetylene and others of commercial importance.

The application of the new discovery promises to bring widespread economic benefits, both to the State and the people at large, it was pointed out. Dr. Schoch has a patent pending on the new method he has found for utilizing gas and when it is granted he will turn it over as a gift to the State of Texas, he said. He declared that by the use of electrical discharges in the processing of natural gas into a variety of products, the vast volume of gas, valued at two hundred million dollars annually, now going to waste in Texas, would be saved and converted into wealth of many times that sum. The possibilities of the momentous discovery are manifold, as pictured by Dr. Schoch. He envisaged the possibility of innumerable processing plants being established at individual wells in the Panhandle and other parts of the State, and the additional employment of many men.

Assisting Dr. Schoch at various times in his research work that has resulted in the new discovery have been a number of graduate students who have written their doctor of philosophy on the subject—four of them this year.

Mrs. Guthrie Allen who has been ill is reported improving.

Mrs. John Markham and sons of Tatum were guests of her mother, Mrs. Cousineau, last week.

HOW REDELL PARKS FURNISHED HER ROOM

(Tokio Community)
Home improvement work done by Redell Parks of the Midway 4-H club in Yoakum for the year 1936. Redell was a Gold Star girl of Texas for 1936.

As we had just built and was not able to furnish the house, I had scarcely anything in my room; really all I had was just junk which consisted of an old trunk which my grandfather had bought 43 years ago and a little old iron bedstead which had been in use for 29 years. We had some boxes tacked together for a table and dresser combined with a plain old nail keg for a chair.

First I made my plan of work, then we papered my room; put four extra shelves in the clothes closet. We gave the closet two coats of paint which had been left over from the house last year. Then I furnished the closet with shoe racks, sheetcases, hat stands, bed linens, sheets and pillow cases, blankets, quilts, bed spread, hand towels, washrags, and bath towels. Also a laundry bag which I made from scraps. As the bath room is next door it is sufficient for my bathing center.

My old dressing center was replaced with a new one with dresser scarf made from a feed sack. My study center (desk and book shelf) a neighbor man made. I finished it by sandpapering, putting the nail holes, I then put on two coats of paint and two of varnish. My chair is an old one which I took off of and re-bottomed with iner-tube. I took the paint off with a lye solution that the home demonstration agent taught the club girls to use. I painted and varnished my chair. This made three pieces of furniture I refinished. My clock was placed over my desk. My chair mat is made from braided gunny sacks, my stool is also covered with braided gunny sacks, to match my rug. My old iron bed which did not have enough slats was replaced with a wooden one with a slat to every row of coils. The spring cover is made from old cotton sacks. My home made mattress cover made by instructions from the Home Demonstration agent, with mattress pad made from flour sacks. My candle which bed spread we stamped at home. My pillow covers were made from sacks. My pillow cases were made at home of bleached muslin. My quilt has a protector on the end made of muslin. My rug is made from gunny sacks which I dyed and braided matching my chair mat and foot stool. My lamp is made from a coffee jar.

I refinished my floor with one coat of varnish and wax. My windows which were without curtains and only one shade were equipped with curtains which I made from ecru missionary curtain material. My waste basket is made from paste board boxes with pictures and coat of paint. I made a picture of my room before and after improving. The cooperators have assisted me in all ways possible. They have filled their goals in the bedroom work.

A total of \$49.49 was spent improving my bedroom. I thoroughly enjoyed the work and received a lot of valuable information while improving my room.

JUST MARRIED

At ten-thirty Wednesday morning in the pastor's study at the Methodist Church Mr. Earl McLain and Miss Florence Smith were united in marriage by the simple but beautiful rites of the Church, Rev. R. T. Breedlove officiating. Mr. McLain is temporarily employed in Brownfield, where he and his bride will make their home.

Miss Elsie Marcy who is employed at the Sandra Sue Beauty Shop, was a witness to the ceremony and signed the marriage certificate for the happy couple.

LITERARY DIGEST SOLD LAST WEEK

NEW YORK, June 17.—The Literary Digest was sold yesterday by Funk & Wagnalls Co., to Review of Reviews Corp., and will be merged with the Review of Reviews as a weekly publication.

"We have not yet decided on a name," said Albert Shaw, Jr., president of the Review of Reviews Corp. "It will be a news, interpretative and review magazine," said Shaw. He declined to disclose the price paid for the Digest.

Last fall the Digest suffered a blow when President Roosevelt's victory upset the results of its expensive and elaborate nation-wide straw poll. The presidential polls of the Digest in previous years had been remarkably accurate.

Miss Rowena Hulse who has been teaching at Skellytown, is the guest of Miss Bernice Weldon and Miss Elizabeth Dumas this week. Miss Hulse was re-elected to teach the coming year at Sekellytown but has accepted a school at Jal, New Mexico.

Elmer Moser, employee of Chisholm Grocery, is spending his vacation in Ada, Okla., with relatives.

ANOTHER OLD TIMER PASSES

We have before us a letter under date of June 20th from Mrs. R. E. Cleveland, of Scholle, N. M., stating that her mother, Mrs. L. T. Brooks died on June 17th, after being confined to her bed for ten months, following a stroke of paralysis August 9th, 1936. Mrs. Brooks was one of the early settlers of Terry county, had a home in Gomez and some land in the now Wellman section. She has been a subscriber to the Herald since it started at Gomez in 1904.

For many years, after the writer bought the Herald, Mrs. Brooks, under the pen name of West Wind, kept our readers well posted on the happenings of Gomez and vicinity. She was a lady of fine intellect, and taught school most of her life. For many years after moving to New Mexico, she followed that profession, quitting only a few years ago, when her health began to fail.

We understand that Mrs. Brooks had quite a nice little ranch in the Scholle section, which was her pride and joy in her declining years. So far as we know, Mrs. Cleveland is her only child. Her many friends among the old timers of Terry county will join the Herald in regretting the loss of this old and tried friend, and extending to Mrs. Cleveland and family our heartfelt condolence.

Mon Telford brought in a mighty fine sample of his compass plums or compass cherries this week. They were very thickly clustered, yet large for that variety, and were turning ripe. This variety hardly ever fails in this section, and each family should have a few trees of them, as they make especially good jam, preserves and jelly, not to mention pies.

Mrs. Ches Gore received another blood transfusion Monday. Joe Price furnished the blood this time. She seems to be some better, we understand.

Mon Telford Jr. spent several days this week in Seminole visiting Billie Joe O'Neal.

Mr. and Mrs. Joe Chisholm and children and Miss Jessie Chisholm left Sunday for Portola, Calif., for a three weeks visit with their sister.

Mr. J. M. Welborn was called to Alvarado, Wednesday, because of the illness of his father.

Mrs. Roy Watson and Miss Mary Margaret McKay spent last Thursday with Mrs. Bertha Stahler here.

Mr. and Mrs. Tom Cobb spent the week end with her mother in Seminole.

JUDGE SAYS RETURN OF PROHIBITION LIKELY

Ninety-Sixth District Judge Power at Fort Worth last week predicted the return of prohibition unless Texas' liquor laws are strictly observed. He made his prophecy while talking to attorneys during a recess from a liquor injunction trial.

"I have been observing Texas politics too long to be mistaken," said the judge.

Gilbert Coconaugher of Sudan visited his sisters, Mrs. Joe Patterson and Mrs. Gene West this week.

Mr. and Mrs. M. L. Penn of Tahoka, are moving to Post, Texas. He has accepted a position as principal of high school in that city, having held the same position in Brownfield and Tahoka.

A Mexican down in Starr county produced what was said to be the world's first 1937 bale of cotton to be ginned. The bale brought him about \$1.13 per pound.

J. O. Wheatley was in recently and displayed the fact that he was having his molars and incisors removed, and would have some store bought teeth put in as soon as C. Sears got his fit, as he did not want the same style that Cam has.

Jim Burnett writes in from El Centro, Calif., that they had a fine trip out there and found the California children enjoying good health. Apparently Jim is filling his old hide full of watermelon, cantaloupes and tomatoes, but he adds that apparently that place is not far from the place where the old "Bad Man" lives.

Mr. and Mrs. Ed Aryain and sons were Roswell visitors the first of the week. They also went through the Carlsbad Cavern.

L. L. Brock writes us from Brownwood that he will be home this week end as the screw worm season is about over in that section. He hints that he and a friend have had some mighty good fishing, and that we might get in on some he brings home this week.

Roy Collier and family went to Justiceburg fishing the first of the week.

Mr. and Mrs. Jack Hamilton returned Saturday from Ruidosa after a weeks vacation.

Mr. and Mrs. O. G. Cheek of Royalty visited her parents, Mr. and Mrs. Ed Ballard this week.

Mr. and Mrs. Troy Noel spent Sunday afternoon in Crosbyton visiting friends.

AMERICA'S MOST COPIED RADIO . . . AGAIN A YEAR AHEAD

Wellman News

J. D. Roberts Jr., and Wilson Roberts left Monday for the harvest field on the north Plains. Mr. and Mrs. Elmer Green of Amarillo and children visited Mr. Green's parents, Mr. and Mrs. W. M. Green and Mr. and Mrs. Wesley Bishop this week. Mrs. Chancellor visited in the home of Mrs. L. D. Hamm, Tuesday. Billie Jo Pace is spending the week with Ione Bishop in the Hunter community. Grover Lewis visited his parents, Mr. and Mrs. Lewis of Brownfield, Wednesday. Mrs. Bill Ewers of Hart, Texas and her daughter, and son-in-law Mr. and Mrs. Monroe Phillips spent the day with Mrs. Ewers sister, Mrs. W. L. Pace, Sunday. Supt. Bell was in Lubbock Tuesday on business. Troy Hudson of Brownfield is spending the week with Mrs. E. R. Norton of Wellman. Everyone is almost through planting again since the rain and sand storms destroyed part of the crops. Things are looking pretty good at present. A party was given in the Clendenon home Saturday night. A bunch of young people reported a good time. Mr. and Mrs. Rogers Orr of Lubbock visited for awhile in the home of Mrs. W. L. Pace Saturday. They are attending school at Tech. Almada and Nora Gregg have returned home after a tour through California. Mrs. Stanley Bow's, sister from

Mexico is visiting in Wellman this week. We failed to get her name and exact address. Margaret and George Green of Amarillo and Dewey and Mildred Pace enjoyed a moon light picnic on the railroad bridge, Sunday night. Miss Johnnie Mae and Emabelle Cates of Lubbock spent Monday night with their grandmother, Mrs. D. T. Cates. Till W. Read is sporting a new pickup. The Home Demonstration Club met in the home of Miss Ora Anderson, Tuesday, with an all day meeting to quilt the 4-H Club girls quit. All reported a nice time. Mrs. Bert Bartlett, Mrs. George Bartlett and Mrs. Herold were Brownfield visitors, Wednesday. Joe Dixon McLaren underwent an operation for appendicitis at the Treadaway-Daniell hospital, Friday night. Odus Lusk, Milt Mason and Brit made a trip to El Paso this week. Donald Hufhines visited in the J. L. Cleveland home this week. Mrs. J. R. Anderson is reported some better this week. Mr. and Mrs. Sanford Webber of Plainview were visiting home folks this week end. Mr. and Mrs. Olan Cox and children and Miss Winnie Mary McLaren visited in Brownfield, Sunday. Mr. and Mrs. Lindley and children of Fort Worth spent Monday night with Mrs. Lindley's brother, W. H. Hague and family. Mrs. Kit Morris was home for the

week end. J. H. Hightower, Bill Keller and Charlie Gibson of Odessa visited in Plains Thursday and J. H. Hightower visited his uncle, P. G. Stanford also. J. V. O'Neal and family visited in the J. S. Webber home, Sunday. Mr. and Mrs. Clarence Dikes and Carl McClellan spent Saturday night with J. R. Anderson and family. HAS FACE LIFTED The plastic surgeon is a fairly recent comer to the beauty industry. His business is face-lifting. With a calm hand, a sterile scalpel, and the inspiration of a sculptor, he hoists sagging cheeks, resolves multiple chins, shoos away "crow's-feet," and banishes bumps from bulging noses. All this to help women—and men, too—retrieve the youthful look. But face-lifting is not confined to the human physiognomy. Cities—just as proud as the folks who compose them—have lately begun to make appointments with those beauty experts, the architect and the engineer, bidding them lift the face of Main Street. A business district that looks every bit like an exhibit of the history of architecture can have little appeal, certainly, in an age that is learning to demand the functional, the streamlined, and the beautiful in toothpicks and skyscrapers and everything between. It is, moreover, just sound sense to provide pleasant, relaxing surroundings for Main Street's customers. A certain American comedian, please indulge his pun, thinks that we have been wrinkled up with care and worry for so long that now is a good

Beauty's Daughter By Kathleen Norris

SYNOPSIS

Victoria Herrendeen, a vivacious little girl, had been too young to feel the shock that came when her father, Keith Herrendeen, lost his fortune. A gentle, unobtrusive soul, he is now employed as an obscure chemist in San Francisco, at a meager salary. His wife, Magda, cannot adjust herself to the change. She is a beautiful woman, fond of pleasure and a magnet for the attention of the men. Magda and Victoria have been down at a summer resort and Keith joins them for the week-end. The Herrendeen return to their small San Francisco apartment. Keith does not approve of Magda's mad social life and they quarrel frequently. One day while Victoria is asking her mother why her father is so worried, Magda receives flowers and a diamond from Ferdie Manners, a wealthy man from Argentina whom she had met less than a week before. Manners arrives a few hours later. Magda tells Victoria that a valuable Chinese shawl that has been in the Herrendeen family for many years. Vic is shocked when she learns her mother had contemplated selling it. Magda tells Manners a dealer had offered her \$500 for the shawl. Magda takes Victoria to Nevada to visit a woman friend who has a daughter named Catherine. There she tells her she is going to get a divorce. Victoria soon is in boarding school with her friend Catherine. Magda marries Manners and they spend two years in Argentina. Victoria has studied in Europe and at eighteen she visits her mother when Ferdie rents a beautiful home. Magda is unhappy over Ferdie's drinking and attentions to other women. Vic dislikes him. When her mother and stepfather return to South America, Magda refuses to go with them because of Ferdie's unwelcome attentions to her. Magda returns and tells Vic she and Ferdie have separated. Meanwhile, Keith has married. Victoria is now a student nurse. Magda has fallen in love with Lucius Farmer, a married artist. While she and Vic prepare for a trip to Europe, Ferdie takes a suite in their hotel.

room was filled with dusk and fear and confusion. At the door it was Otto, with the dinner card. On the telephone was Mollie Jervis, saying good-by. Victoria answered both claims; ordered oyster stew and brown toast and meringues; snapped up lights. But she still felt frightened and bewildered; her forehead sticky with perspiration; her throat thick. "Goodness, what horrible dreams!" She went to her mother's door, saw only dusk and confusion and emptiness within. "She's late," Vic yawned, seeing a clock's hands at seven. "Maybe she's taking a bath." The bathroom was empty, too. Perhaps Mother was going to have one last dinner with her Lucius. Perhaps she had left a note somewhere; it might be in her rooms. Victoria went in there, lighted lights. She saw the note on the dressing table, a large square note

Vic Awakened With a Start, With a Sense of Something Wrong.

CHAPTER IV—Continued It was five o'clock when Victoria got home; Magda had evidently preceded her by only a few minutes and was lying flat on her bed. "Vic, we had a very serious talk this morning, you poor chicken, and I've been thinking about you all day," Magda said, her eyes rounded over her teacup. "I'll tell you what's happened, and what we decided. We're not children, this isn't a first affair, and there are a great many other persons to consider. So... So—the upshot of it all is, Vic, that you and I sail on Saturday, and that it's all over!" Magda was a little subdued and pale in the morning, but showed no other signs of her recent emotion; the day was exciting with final purchases, much talk of wardrobes and plans. Vic wandered out to the balcony, looked down at the waterfront over which the mist was softly closing. Through the cold dusk the fog horns were steadily sounding. "Horrible weather to go through the Gate." "What makes you say that?" Magda asked, looking up from her letter. "Heavy fog. You can't see the Konalet. Maybe that's she, going along now. I hope Ferdie made her!" "They'd wait for Ferdie. They may not even sail. What is this, darling—the eighteenth?" "Tomorrow's the twentieth." "Of course!" Magda reached for the trilling telephone. "Tell Mr. Farmer to come up," she said immediately. And then to Vic, "I'm going out with him for just a little while." "Call me if I'm asleep when you get back!" Vic answered, going toward her room. She heard Lucius' voice a few moments later; her mother's voice. "One more day of this," she said to herself. Vic awakened with a start, with a sense of something wrong. The telephone was ringing, and someone was knocking at the door. The

vanished. The hospital day had begun. "Vicky, tell me, do you like Dr. Hardisty?" Louise Mary Keating asked interestedly, a few days later. "Very much," Vicky said abstractedly. "Vicky, I'll bet you're in love with him! They say every woman he meets is in love with him." Miss Keating bit into a chocolate; looked at it filling thoughtfully. "I oughtn't to touch these," she said. "I'll bet Vic hates to give up the Keats kid," Helen Geer observed, watching her. "You won't see Dr. Hardisty any more now after tonight, Vic." "Well, as a matter of fact, I will," Vicky said, beginning to smear her face with cold cream, after tying a towel over her tawny hair. "When little Kate Keats goes home I go with her. I've been there before, you know, and Mrs. Keats asked me yesterday to come back. Her mother isn't very well, and if she goes away with the doctor she always leaves a nurse with the children." "And then will you see Dr. Hardisty every day, Vic?" "Not every day. But they're great friends. A lot of good it will do me to fall in love with Quentin Hardisty," Victoria went on practically. "He doesn't know I exist." The Keats home stood out on Pacific avenue with the long lines of the Presidio eucalyptus trees and the Golden Gate below the drawing room's northeast windows, and a sweeping view of the bay and the mountains that framed the bay from the upper floors. Victoria liked the atmosphere of the house; she said it reminded her of a book. Victoria, who had gone to them from the hospital as Kate's nurse, had been kept on after Kate's recovery because of Duma's scarlet fever, and after that because of the feeble age of Mrs. Chauncey Clements, the children's English grandmother. Gently, agreeably, without any unpleasantness, Granny was dying. Victoria had a small room next to the old woman's luxurious one on the first bedroom floor, and the easy task of watching her dignified departure from a life in which she had behaved for eighty years with admirable decorum. Violet Keats was in her early forties; her husband perhaps ten years older. She adored the small, blinking man with his fluffy gray mop "as only an English gentleman can adore a man," Vic told Catherine.

"We're dining alone, Victoria, you and I," Mrs. Keats said one day, in her crisp, brisk way. "I want to talk to you!" It was when they were seated at the little table downstairs an hour later that she made a first attack upon Victoria's confidence. "You're so perfectly charming with the children that I can't feel quite happy until you're in a fair way to have a few of your own," she said. "Not!" Vic smiled, shaking her head. "You don't mean that. No girl means that!" "Most girls don't, I daresay. But I do. I've had a queer education along those lines," Victoria added, half to herself. "You mean your mother's life?" "Not only Mother. But all her crowd, all women who make love, passion, so important, who persuade you, or almost persuade you, that it is right to go wherever your heart goes. It's all so artless." "You ought to set your cap for Quentin, as you are." "Dr. Hardisty?" "Certainly he is. In his heart he despises women. He thinks—Johnny tells me that he thinks that they're all alike—weak and selfish and ready to break up anything or anybody's life for a little pleasure." "Did he tell Dr. Keats that?" "That's the impression he always gives." (TO BE CONTINUED)

time to get our faith lifted. What better way to lift a townsman's faith in his own town than to consider, and then to do something about lifting the face of Main Street?—Rotarian Magazine.

NEW WAYS TO THINK

Businessmen who represent the vigor and vitality of private initiative cannot remain provincial in their political and social outlook, isolated and unorganized in their tactics, in this era of world unity, world business, world organization. They must answer the challenge on the field in which it is made—on the grounds of service to the world community—which, of course, implies two ideas; service rather than mere profits; and a world-range as a basis for the community which is being served. —Salvador de Madariaga, Spanish author and statesman, in the Rotarian Magazine.

A GREAT NEED TODAY

If there is one commodity in which the world is short today, it is enlightened leadership. The need is written in every day's headlines. As men and citizens, we should be looking ahead to preparing enlightened leadership for tomorrow. And from whence will it come if not from the ranks of healthy, normal boys, the sons of good parents, the products of the hard-won advantages of our civilization?—Winthrop R. Howard, New York businessman, in the Rotarian Magazine.

ASLEEP IN JESUS

Mrs. Annie Covington died at her home in Terry county at 12:25 o'clock P. M., June 20, 1937.

Mrs. Covington's maiden name was Anne Wright. She was born in Dexter, Mo., December 19, 1879. Was married in 1909 to T. W. Covington. She has lived a consecrated Christian. She leaves three children, Weldon, Leonard, and Vallie; two little grand-children, five sisters and two brothers, and a host of friends to mourn for her, for all who knew her loved her. We join the many friends in condolence, to the sorrowing family but there loss is her gain. The Lord giveth and the Lord taketh away. We bow in humble submission to Him.

Over the river, the river of time, Lies a bright land of venture sub-line Valleys of beauty in splendor do shine Beautiful, beautiful HOME. —We who loved her. The State Education Department notified Supt. M. L. H. Baze that the second year of industrial arts offered in the Brownfield high school has been accredited for the first time.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Terry County, Greeting: YOU ARE HEREBY COMMANDED to summon Frank Yost, Susan Yost, Rhoda Cameron Harvey C. Frase R. M. Kenny, C. C. Akin, H. I. Dennis, Henry Frase deceased and the heirs and unknown heirs of Henry Frase, deceased, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county if there be a newspaper published therein but if not, then in

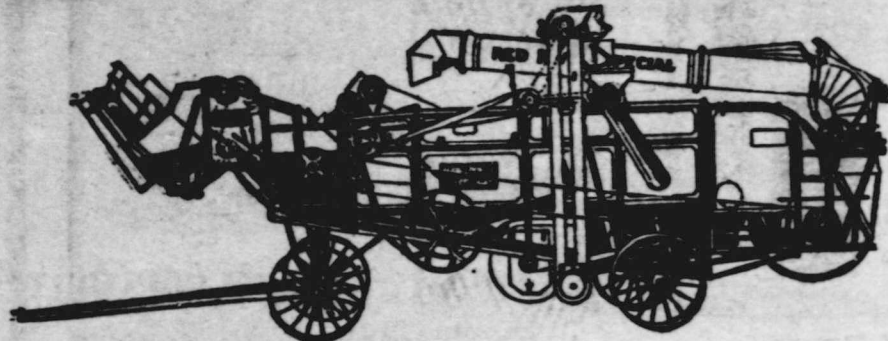

the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County, to be holden at the Court House thereof, in Brownfield, on the Fourth Monday in August A. D. 1937, the same being the 23rd day of August A. D. 1937 and there to answer a petition filed in said Court on the 22nd day of June A. D. 1937, in a suit, numbered on the docket of said Court as No. 2163, wherein Jacob F. Heer, J. H. Heer Susan Heer Marshall, a feme sole, Martha Heer Weir, D. M. Weir, Annie Heer Bricker, Earl M. Bricker, Lee C. Harrison and Roland S. Bond are Plaintiff's, and Henry Frase, deceased, the heirs unknown of Henry Frase, deceased, Frank Yost, Susan Yost, Rhoda Cameron, Harvey C. Frase, R. M. Kenny, C. C. Akin, H. I. Dennis, W. E. Pool, R. R. Stolley, administrator of the estate of Otto Stolley, deceased, Defendant's, and that Jacob F. Heer, J. H. Heer Susan Heer Marshall, a feme sole, Martha Heer Weir and Annie Heer Bricker, are the heirs and only heirs at law of Mary Ann Heer, deceased, and that the said Mary Ann Heer departed this life in February 1915, in the State of Oklahoma. That said Mary Ann Heer died intestate and that at the time of the death of Mary Ann Heer, she was seized and possessed of, owning the same in fee simple, together with all the oil, gas and other minerals, therein or thereunder the following described property in Terry County, Texas, described as being all of the Southwest Fourth of Section Numbered Twenty-One in Block D-11, having acquired title to same by warranty deed December 30, 1887. That the above named plaintiffs as

ing some kind of interest in or lien against said above described lands but plaintiffs allege that any lien or claim they may have is inferior to the plaintiffs. Plaintiffs pray for title and possession of the above described lands for a writ of restitution, that their claim be decreed to be a superior to any claim or lien of the defendants W. E. Pool and R. R. Stolley administrator of the estate of Otto Stolley deceased; for costs of suit, general and special relief in law and in equity. Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Given Under My Hand and the Seal of said Court, at office in Brownfield this 22nd day of June A. D. 1937. Eldora A. White, Clerk, District Court, Terry County.

COME FOR A DRIVE AND LEARN THE DIFFERENCE! No. 1 Endurance The doctor's job is saving lives, And he needs safety when he drives; Terraplane has it, through and through, And Number One endurance, too! How these cars can "take it!" Yes, the doctor needs a car that's safe... on which he can depend. But don't you, too? Then drive a car that proved its endurance in the most punishing test ever given a stock car... 2,104 miles averaging 87.67 miles per hour for Hudson and 1,900 miles at 86.54 miles an hour for Terraplane, on the Utah Salt Flats. In everyday driving, that extra ruggedness means greater safety, lower upkeep cost, longer life. Discover all that makes these America's No. 1 CARS... just see your nearest Hudson and Terraplane dealer. Built For the Big Heavy Jobs

For almost a century there has been nothing but praise for Oliver's fine threshers—the popular Red River line. For the big, heavy jobs, the 32 x 56 Oliver Red River Special is in a class by itself.

Here's the finest, fastest, cleanest thresher in the world today. It is built around the famous four threshermen—the Big Cylinder—Man Behind The Gun—Steel Winged Beater—and Beating Shakers—that team up together to put those extra bushels into the sacks or wagon box.

Experienced threshermen like Oliver Red River machines. Whether you have been threshing for a long time, or are just considering owning a thresher, come in and let us tell you what a profitable investment the Oliver Red River Special 32 x 56 really is!

CHUCK WAGON SUPPER

Mr. and Mrs. J. D. Cox entertained with a chuck wagon supper last Thursday evening at their home on the Lubbock highway, honoring their daughters, Mrs. John L. Bishop and Mrs. Snodgrass.

Those attending were, Messrs. and Mesdames, J. H. Dallas, Bill Edwards, L. Rogers, Roy Herod, Parrish, Alton Webb, and Mrs. Bill McKinney, Mr. and Mrs. Madison Weaver and Terry Redford and daughter, Dixie Jean.

BIRTHDAY DINNER

Mr. and Mrs. Cullen Wood entertained friends with a fried chicken dinner, Sunday, June 13, honoring Mr. Odom Wood on his 31st, and Ralph Nichols on his 9th anniversary.

Mr. Wood is the father of six children and four grandchildren, all living in Terry county and present at the dinner.

Several friends called during the afternoon to wish them many happy returns of the day.

Those present were, Mr. and Mrs. Odom Wood, Lora, Cloma, Vivian and Dale Wood; Mr. and Mrs. Austin L. Wood and children; Mr. and Mrs. John R. Wood and daughter; Mr. and Mrs. Dan McCoy and son, Doyle; Mr. and Mrs. J. E. Ward and sons; Mr. and Mrs. Cullen Wood and son, Ralph Nichols, all of Forrester community, south of Brownfield. Mr. and Mrs. Albert Wood and son, Kenneth of Post, Texas, were also present. Mr. Albert Wood is a brother of Mr. Odom and Cullen Wood.

W. M. U.

The W. M. U. of the First Baptist church met in a business and mission meeting at the church, Monday, June 21st at 3 o'clock. Sixteen ladies were present.

The business session was followed by a Royal Service program.

Subject: "The Italians." Devotional was given by Mrs. Jenkins. Talks were made by Mesdames Wright, Howell, Ross, McPherson and Pounds.

The Lockett Circle will meet with Mrs. Rhine next Monday. Other announcements will be made at the church Sunday.

The Sunbeams meet at the church each Friday P. M. at 4 o'clock. Send your children.

The Junior G. A.'s met with Marjorie Faye Mullins Monday P. M. at 4 o'clock. Thirteen girls are working on a quilt for "Buckner's Orphans Home." They will meet at the church next Monday P. M. at 4 o'clock.

The Intermediate G. A.'s met at the church Monday with Mrs. Wright as leader. Next Monday is work day. All Intermediate girls are urged to come to the church at 4 o'clock.

All Junior and Intermediate boys are asked to come to the church Tuesday P. M. at 4 o'clock.

MRS. NIX PASSES

Mrs. Lucinda Nix, 79, passed away in the Forrester community, June 15, 1937. Funeral services were conducted by Rev. Leo McClure, pastor of the local Assembly of God church, and the body laid to rest in the Forrester cemetery.

She was born April 28, 1858 in Alabama, and was married to T. W. Berryhill at the age of 18. To this union was born 7 children, Selbia, Lena, Cora, Frankie, and Thomas William. She was converted at the age of 29 and baptised into the Missionary Baptist church. In 1930, she was baptised into the Pentecostal church, living a devoted christian life until death. She is survived by two children, Mrs. Frankie Renfro, and Thomas William Berryhill, 10 grandchildren and 3 great grandchildren.

HIGH SCHOOL COACH TAKES HIMSELF A BRIDE

John A. (Johnny) Bost, high school coach here, recently took a bride at Rockwall, Texas, who also, we understand will be one of the faculty of the local schools next year. Sunday's Dallas News had a picture of the fair lady, and the following about the wedding:

The marriage of Miss Edna Mae Peck, daughter of H. F. Peck, Fate, to John A. Bost, Brownfield, son of Mr. and Mrs. John Bost, Royce City took place Monday afternoon at the First Presbyterian Church at Rockwall with the Rev. H. J. Manley officiating.

Miss Ruth Garrett, San Angelo, was the bride's only attendant. R. L. Tipton attended the bridegroom.

Mr. and Mrs. Bost will make their home in Brownfield.

PICNIC SUPPER

Mrs. Leo Holmes entertained with a picnic supper at her home Friday evening, honoring her husband whose birthday fell on that date. The guests were: Messrs. and Mesdames W. H. Dallas, Bob Bowers, R. L. Harris, Garrett Daugherty, Bruce Knight, J. O. Gillham, Crede Gore, Bill McKinney; Miss Marjorie Griffin, and Messrs. Buddy Gillham and Bruce Zorns.

HOSPITAL NOTES

Master Joe Dickson of Plains underwent an appendicitis operation Thursday.

Mrs. T. C. Ragsdill underwent a major operation Wednesday.

W. P. Forbes of Pleasant Valley community was bitten by a rattle snake Monday, and was brought to the hospital for treatment.

Mrs. Jimmie Slaton who suffered a broken limb and skull fracture in the wreck on highway 51 two weeks ago is improving.

ACE HIGH CLUB

Mrs. Mon Telford entertained the Ace High Club, Friday afternoon when Mrs. Jim Graves received high score prize and Mrs. Lee O. Allen received second high. Mesdames R. M. Kendrick, W. C. Smith, J. H. Dallas, Jim Graves, J. R. Turner, M. E. Brown, A. J. Stricklin Sr., M. E. Jacobson, I. M. Bailey, Roy Herod, and Lee O. Allen made up the guest list.

An ice course was served.

FAMILY REUNION

Mr. and Mrs. N. R. Marchbanks entertained with a family reunion Sunday at their home when the guests were, Mr. and Mrs. R. B. Marchbanks and son of Monahans; Miss Bessie Burnett of Snyder, Mary Helen Marchbanks, who is attending school in Lubbock; Mr. and Mrs. Joe Hopper, Mr. and Mrs. Pete Marchbanks, and Mrs. Lanious and son, Tom, of this city. Following the dinner the party visited the Pickens oil well.

PRESBYTERIAN CHURCH

10 A. M., Sunday School. 11 A. M. Morning Worship, Subject: "Conflicting Loyalties" 7:30 P. M. Intermediate-Senior Christian Endeavor. 8:15 P. M. Vesper Service, Subject: "A Life Dedicated." We indeed regret that it is necessary to announce that the Vacation Church School has been postponed a while on account of sickness at the Methodist Parsonage. We shall be very happy to welcome any visitors into our fellowship at any time.

Robert Rayburn, Student Supply

THE METHODIST CHURCH

Our Church Vacation School has, on account of measles, been postponed until next Wednesday, when we hope to have all the children present at eight o'clock.

The Sunday School will begin at 9:45 and there will be preaching by the pastor at eleven A. M., and at eight-thirty P. M. We cordially invite you to worship with us.

To our friend and contemporary of the Terry County Herald we would make this explanation: It is our candid opinion that due to the unusually long confinement and otherwise lack of proper care, they just could not stand the moisture. In any event the next morning when we came down, we found them all with their toes turned up, so rites were read (tho no tears shed) and they were quietly laid away in peaceful rest.—Lamesa Reporter.

The Reporter in the above was referring to the line of frogs that Editor Smith used to run just under the title head of the Reporter when it would rain in Dawson. Surely, frogs ought to get by without rain for a little three months dry spell, when old Rip down at Eastland made it, cut off from water, meat and bread in a courthouse cornerstone for 30 odd years. Over here in Terry, it matters not how long it has been dry, 20 minutes after a soaker comes, those old frogs start up Alexander's Rag Time Band. Where they stay during the dry seige, or where they come from has always been a mystery to us.

CARD OF THANKS

We wish to thank the many friends for their kindness through our sad hours of the going of our dear mother and sister. We wish to send thanks for the floral offerings.

Mr. and Mrs. Weldon Covington, Leonard and Vallie.

Ennice Jones, city utilities Supt., has been ill but is improving.

Geraldine Pyeatt, daughter of Mr. and Mrs. Sam Pyeatt, is visiting her grandparents, Mr. and Mrs. R. M. Hall at Tatum, New Mexico.

Miss Elsie Marcey, employee of the Sandra Sue shop spent Sunday with her parents in Lubbock.

Miss Beulah Page returned Friday from a ten days visit with relatives in Snyder, Jayton and Midland.

L. A. Cantrell purchased a Tudor touring from Tudor Sales Co., Saturday.

Walter Bond of Lubbock, spent several days here this week visiting his mother, Mrs. J. C. Bond.

Tildon Wright, West Point student of Littlefield, was here attending the dance at the Venetian Auditorium Tuesday evening.

TEXAS WARM SPRINGS TO RIVAL GEORGIA

HOUSTON, June 21.—The famous Warm Springs of Georgia will soon have a rival, according to Jack Blackwell, who, under the title of "Suffer Little Children," tells of the protected warm springs foundation of Texas in the June issue of Texas Parade official organ of the Texas Good Roads Association.

"Few things," says Mr. Blackwell, "are as inspiring as a happy, healthy child, and one of childhood's greatest boons is the opportunity to run, to play childish games, to develop physically as well as mentally.

"Texas only recently has discovered the health-giving qualities of a God-given flow of mineral waters in the valley of the San Marcos River, and a group of public-spirited citizens have joined in the movement to develop a warm springs foundation where the crippled children of Texas may find succor from pain and a chance to build strong, healthy, useful bodies.

"The site for the foundation is at Ottine, a few miles from Gonzales, where pools and streams of warm mineral water lave placidly at shores lined with luxuriant tropical growth. Nearby, at Palmetto State Park, has already been provided auxiliary facilities that will make of the arca a traveler's mecca.

"Texans who have visited the area believe that its full usefulness has not been reached in making of it only a recreation spot and that provision of additional facilities for the care of crippled children, together with the improvements already installed by CCC workers, will make it one of the most beautiful as well as most valuable from a health standpoint in Texas.

We glory in the spunk of Henry Ford, who came out ahead in his first round with the CIO agitators. He is the first man who is likely to give them a good scrap. It may be well to remember that Ford was the first manufacturer to put out an auto costing less than \$2,000 on the market. He was also the first man to pay common labor five dollars per day, which Big Business claimed would ruin the labor market.—Quannah Tribune-Chief.

Mr. and Mrs. Jim Graves and Mr. and Mrs. A. D. Repp were Levelland visitors, Sunday evening.

Mrs. B. D. Cooksey and daughter, Donnilita, visited friends here Tuesday.

One of the noted features of Lhasa, capital of Tibet, is the Yutok sampa, or turquoise-tiled covered bridge.

Mrs. C. C. Primm left Sunday for McAlester, Okla., to visit Miss Eunice Michie.

Tom May and R. L. Adams were Big Spring visitors Sunday.
