SNYDER HAS PURCHASED MORE THAN \$55,000 IN FEEDSTUFF

LEVELLAND, Jan.—Fred Snyder, Lubbock cattleman, who has on feed some 20,000 or more head of sheep, has spent more than \$55,000 in the purchase of feed for his trench silos here.

Fifteen thousand tons of green silage was bought, costing about \$40,000. Three thousands, two hundred tons of dry silage was bought at a cost of \$5 a ton.

W. H. Glimp of Menard is associated with Snyder in the feeding operations.

J. B. Goza, Calera, Okla., is getting the Herald complimentary of Com. Lee Lyon.

ANNIVERSARY

Dr. J. B. McKnight, superintendent of the State Tuberculosis Sanatorium, will round out twenty-three years of valuable service to citizens of Texas as the New Year greets us. Through his efforts, Texas now maintains one of the largest and most successful state sanatoria in the United States which has been directly responsible for the restoration of health to many hundreds of people of this great state who were victims of the disease.

The Chaser joins Dr. McKnight's many friends in wishing him continued good health and in congratulating him for this determined effort to place this health menace under safe control.—The Chaser.

NO BUSINESS SLUMP FEARED BY FORD; OPTIMISM RADIATED

DETROIT, Jan. 1.—Henry Ford, in a statement on business conditions, said "there is nothing to prevent our going ahead" and revealed he expects to produce a low-priced tractor of unusual design within a few months.

No details of the tractor were made available.

Expressing his opinion that the nation is on the verge of an era of greater quantity production, the funder of the Ford Motor Company said: "Almost every reason for the temporary stoppage (of business) can be discounted. The people are naturally cautious at this time of the year because they want to know how the rest of the winter will be."

"They have heard so many threats that they are waiting to see. Well, that is all right," he said. "What they will see will not be as said as it sounded."

"One thing we must learn is that we were on the right track a few years ago and left it. When we made plenty of things that people use to live, we were able to make them at low prices, and people were able to buy them, and this made work for more men."

"There is no way of changing that cycle, and no way of improving upon it—working and using and making is all there is to it—and the sooner we get back to that the better it will be. There is no use waiting for some one else to start—this thing will get started, as it always has, by individual initiative."

F. D. R. OFFERS TO SWAP AID WITH BUSINESS

WASHINGTON, D. C., Jan. 3.—President Roosevelt asked the newly convened Congress Monday for legislation to end harmful business practices, and appealed to business itself to help in the stamping out.

In a personally delivered message broadcast to almost the entire world he promised business if it would co-

operate with Government in this way it could count on the Government to cooperate with it in every way.

After the recent vehement attacks on some sections of the business community by high administration advisors, the President's address was generally regarded in Congress as unexpectedly conciliatory. But opponents of the administration still were wary, nevertheless, and before determining their course of action preferred to await a second message on the subject of business reforms which Mr. Roosevelt said he will send to Congress later.

Wants Strong Defense

Otherwise, the message: Noted a troubled and tense world situation which he said made it necessary that the Nation be adequately strong in self-defense.

Reported the budget which will be submitted this week for the next fiscal year would not show a balance between income and outgo, but would reveal a further decrease in the deficit.

TERRY COUNTY GIRLS RETURN TO COLLEGE

Evelyn White, Alma Fern Green and Mattie Jo Gracy of Brownfield; Ceve White, Elizabeth Nelson, and Elsie Della White of Meadow returned to Abilene Christian College as work was resumed Monday on the Abilene campus following the 15-day yuletide vacation.

These are among 583 students enrolled at ACC for the fall semester of 1937-38 which has been termed in many ways the best in the history of the college. Abilene Christian College is the largest school in the world maintained by members of the Church of Christ.

Registration for the spring semester has been set for February 2 and 3 according to announcement by President James F. Cox of the college.

E. C. Ross, Roy Harris and M. L. H. Baze, have been sick with colds the past week.

CHRISTIAN CHURCH IS PUT TO WORK

As a result of the meeting here at the Christian church being held by Rev. Haley of Colorado, Texas, a goodly number of communicants have been gotten together and put to work, according to Rev. Beebe, the local pastor.

The service are being continued this week, and we understand they are to have a baptismal service Sunday night.

HIS PLATFORM IS STATE'S SHORTEST

LEWIS M. GOODRICH
"I believe the voters of Texas are disgusted with long platforms and promises of men seeking office and desire to know more of the candidates and their personal integrity," declared Goodrich in making public his three-plank platform. "If elected Attorney General of Texas I solemnly promise the following:

1. That the office of Attorney General shall serve the best interests of ALL the people of Texas, any other interests notwithstanding.
2. That I shall give all that is within me personally and shall surround myself with carefully chosen assistants for whose integrity and ability I can vouch.
3. That I shall have only the foregoing obligations to perform with no debts, political or otherwise, to pay.

TWO BIG CLEARANCE SALES THIS WEEK

Last week, Taylors, the Man's Store, opened with a mid-winter sale of his fine stock of seasonal men's wearing apparel that he wishes to dispose of before the spring season opens.

This week, he is joined by two big dry goods firms, Collins and Arvain. Both are carrying two-page spreads, and are reserving nothing from the winter lines.

It will pay people all over this section to come to Brownfield and lay in a supply of these bargains.

HEAR—

Elder T. R. Chisholm, of El Paso, Texas, gave his 12 lectures on Revelations, harmonized with the other scriptures. Begins Monday 7:30 P. M., at the church of Christ. Lectures continue 3 weeks, 3 nights each week. Monday, Tuesday, Thursday, Friday.

Come bring your friends and your Bibles, and let us reason together. All the preachers in town are invited.

DIED

Little Joy, the five year old daughter of Mr. and Mrs. W. R. Stephens of this city, passed away last Saturday night. Funeral services were conducted Sunday afternoon at 2 o'clock at the church of Christ by Elder J. H. Killion. Burial followed in the local cemetery.

HAILED BY EUROPEAN DEMOCRACIES

In France and Great Britain nationwide applause greeted his statement of the American people's belief democracy will be restored or established in those nations which today know it not, and his declaration "in that faith lies the future peace of mankind."

In Rome high Fascists were indignant to the President's comments on democracy as a repetition of his previously expressed views. Official comment was withheld pending examination of the full text. The Fascist attitude previously has been, however, that Italy is the true democracy.

THE MIDDLE PATH

DENTON, Jan. 11.—Texas sticks to the middle path in the question of marriage laws, with the marriageable ages without consent of parents set at 16 and 14, and with consent, 21 and 18. Nine states in the union have no certain laws are governed by the old English common law, which allows marriage at the ages of 14 and 12 years for male and female respectively.

Sixteen states now have laws requiring a five-day notice either before the license is obtained or before the wedding takes place, and Texas is among the three who specify three day intervals. Wisconsin goes so far as to require both five day notice before and five days delay after the license is issued. The other 29 states allow immediate marriage.

Jim Smith of Tatum, N. M., who has been ill for some time, was brought this week by his wife and Mrs. Aiken, a neighbor, and he was examined by a local physician and given treatment. Jim is an old Territe, and all will regret to hear his health is failing him.

1935 DEATH TOLL CUT UNDER 1900

The mortality rate among the white population of the country has decreased since 1900 to the extent that there were 768,402 fewer deaths in 1935, statisticians of the Metropolitan Life Insurance Company reported.

They explained that the 1935 death toll of 1,207,359 would have been 1,975,761, if the 1900 mortality conditions persisted.

The improvement in the tuberculosis mortality rate ranks first, and in 1935 there were 173,000 fewer deaths from this disease.

Mrs. E. L. Duke is reported to be quite ill. Mrs. Duke is getting up in years and has been in bad health for some time.

WOODS COMPANY

BROADENING THE SHIRT TAIL THEORY

The late Jim Lowry, editor of the Honey Grove Signal, some years ago suggested that the cotton crop could be stabilized by the making of shirt tails longer or shorter, as the crop was light or heavy. It became one of the most widely quoted quips. There is much truth in it if it be used figuratively—in other words to find new uses for cotton or to increase the use of the staple in industries where it is now used sparingly.

There should be someone in this world who could devise such means. Many more difficult problems have been solved and with the urgent need for this one to be solved there should be an answer. Whether it is done by

the government or by private individual is immaterial—the thing is to do it.

A Tennessee chemical engineer, one learns from the press dispatches, talks of a type of flour made from cotton, and the possible manufacture of sugar from cotton; he also mentions use of cotton for insulation, with eventual use of it similar to that of asbestos. These, particularly the first two, may sound far-fetched, but it is from just such experimentation that commercially practical results emerge.

One thing is sure: more uses or greater uses must be found for cotton at a price that will return the grower at least a living, or there must be a reduction of the amount from one year to another in the ex-

pectation of a profitable crop next year. Nor can the South expect the federal government to continue indefinitely the subsidies in one form or another that have been paid during the past several years. These subsidies are makeshifts, intended to relieve immediate necessity and not to be an established practice.

Whether a government-subsidized institute to investigate new uses for cotton would be successful is problematic. There are people who believe this is the only solution, but no problem as great and pressing as that of the cotton crop should be dependent on the work of one group of people. Every person in the South should give it thought and out of themultitude of counsel there may come wisdom.—Big Spring Herald.

WILL YOUR TOWN BE NEXT?

Great oaks from little acorns grow—and a conflagration may begin with a spark. Since 1900 there have been one hundred conflagrations in the United States and Canada. Will your city be next in line for complete destruction.

It may be if adequate precautions are not taken. But fortunately a conflagration, like less serious fires, can be prevented. A certain water supply, an efficient fire department, a reliable fire alarm system, an up-to-date building code—these are fire's most potent enemies. In very small towns and rural areas, similar safeguards may be created through district fire departments strategically located where they may serve a wide surrounding territory, and by telephonic alarm communication.

According to tradition, the great Chicago fire started when Mr. O'Leary's cow kicked over a lantern. It is a known fact that the great Berkeley fire started in a vacant lot. Most great fires began from similar apparently unimportant events. Adequate protection can prevent them from spreading.

If the average holds true, there will be two or three conflagrations in the United States and Canada this year. Take care your town isn't on that unhappy list, and that your home and family don't become victims of the Fifth Horseman—uncontrolled fire.

We just didn't realize how big Brownfield had grown to be until we received a 52-page special edition of the Brownfield Herald last week, and we're forgiv'n Andy for shortchanging the editorial column in that issue. Any country publisher who puts out fifty-two pages of weekly newspaper, and does the editing, could write a whale of an "ed" on hard work, if he wasn't too durned tired to do it—and we suspicion Andy was. We'll just say it was a mighty good job and add "congratulations"—to Andy; to Terry; to Brownfield.—County Wide News.

Lubbock visitors last week end included, Mrs. Mony Price, Mrs. Jack Stricklin, Mrs. Morgan Copeland, Mrs. Gertrude D. Lees, who were shopping Friday afternoon.

Mrs. J. E. Woodward of Fayetteville, Ark., has renewed, and had her subscription dated to include the Historical edition. The Woodward family were early settlers in Terry.

LET'S TALK ABOUT CLOTHES
DENTON, Jan. 11.—The bolero has moved in from the front steps of fashion, and by next spring will have taken over the whole house. Young and giddy debutantes can no longer keep the tricky jackets for their private use, either, because expert dressmakers have succeeded in designing boleros that are just as becoming to mature figures as youthful ones.

Among the more dashing pictures of the tiny little coats that we've seen in magazines and papers lately is one of gold crepe braided all over in matching soutache. White sharskin forms another to be worn with dark creeps and later with linens. In a spectator sports group bolero variety is rampant. One is on a knitted zephyr ensemble in blue with a double row of buttons in deeper blue on the bolero. The famous designer Schiaparelli brings out her pleated bolero again and again, in gay solids and spring-hearing prints. The flared back bolero in black crepe with lingerie vestee of em-

COTTON BISCUITS? SCIENTIST SAYS THEY'RE GOOD
MEMPHIS, Tenn., Jan. 4.—Some day you may be eating biscuits made of cotton!
Clarence B. Weiss, chemical engineer, told the Engineers club he already had tried them and "they didn't taste bad at all."
Weiss said he made the biscuits of a mixture of wheat and cotton flour. Outlining other use for the future, the chemical engineer declared: "Cotton is an almost perfect insulation and if successfully fireproofed and waterproofed, it's not impossible that much of it will be used to replace asbestos."
He also foresaw as possible the manufacture of sugar from cotton.

FLAG COMPLICATIONS
One would hardly suspect the Texas flag, with all its simplicity, of being a geometrical problem, but so it is. Its width must be equal to two-thirds of its length, and the three stripes must be exact duplicates of each other in size, with the blue at the side, the white at the top and the red at the bottom. The diameter of the circle passing through the five points of the star is equal to three-fourths of the width of the blue stripe upon which it is placed.

MEADOW SCHOOL MID-TERM APPROACHING
All the pupils are creeping around with a far off look in their eyes (a sad look too). Mid Term is Thursday and Friday, and it may be some of our dooms. We hope for the best outcome, and will start reviewing early.
We are proud that school will soon be half out, but it would be much nicer if it wasn't spoiled with those old mid-term examinations. As the saying goes "We can't get all the monkey's up one tree." Each of you students say your prayers each night, and keep your mind as well as body in school—and we'll win, we hope!

Junior Class News
Who's who in the junior class:

Edna Lee Duffy was born August 27, 1921 at Maryville, Texas. She has spent her entire school career at Meadow. Edna is a dark complexioned little girl who is very outstanding in basketball and volleyball. Her side-kick seems to be Juanita Holder. She likes ice cream and handsome boys.
Juanita Holder was born January 28, 1921 at Sweetwater, Texas. She has hazel eyes and brown hair. She has attended Meadow for the last four years. Her hobby is kodaking and going to Ropes on Sunday. Her favorite song is, "You Can't Stop Me From Dreaming."

Sophomore News
We are very proud that our president, Leland Wilborn, is back in school.
It seemed that every one enjoyed the Christmas holidays, but it is very hard to catch up with our work.

Marie Hicks—Saying—"Heck".
Song—"Nobody's Darling But Mine, George".
Dish—Macaroni and cheese.
Sport—Playing fiddlesticks.
Nella V. Upton—Saying—"Not printable".
Song—"Harbor Lights".
Dish—Congee'd Salad.
Sport—Sitting out in the car crying on Ralph's shoulder.

Senior Class News
We regret very much having lost three of our most beloved classmates during the past two weeks. Our class editor, Arlene Redman, has moved to the Ropes community, and shall attend school there the next term. Our class treasurer, Lois Newton, has moved to Snyder, Texas, where she shall finish school. Martha Lou Chesshir, our class secretary, became Mrs. Clyde Gamble during the Christmas holidays. The members of the senior class wish for you, our classmates, happiness and success.
The seniors are diligently working to get prepared for the mid-term examinations which are scheduled for the 13th and 14th. Each senior has made up his mind to pass the exams, and be ready and free to start the last lap of this school term.

Who's Who in the Freshman Class
Marjean Bell:
Born in Brownfield in 1925. Her favorite teachers are Mrs. Durlson and Mr. Franklin. Favorite dish—Ham sandwiches. Favorite sayings—Golly. She is about four feet, three inches tall—weighs about seventy pounds—good looking—brown hair, blue eyes, olive complexion, and she is popular with the boys. They call her "Twinkle".
Edwin Nettles:
He is also one of the class's favorites. He is about four feet, five inches, weighs about ninety pounds, brown hair, brown eyes, olive complexion, and also good looking. He and Marjean are just a match.
Favorite dish—onions and cornbread—favorite sport, Basketball—Teacher Mr. Hartzog—Saying—"Gorsh".

BROWNFIELD, TEXAS

Sandra Sue BEAUTY SHOP

Our operators are specialists in all lines of BEAUTY WORK

Phone 161 for an appointment

OPERATORS: Ruth Lewis, Elsie Marcy, Vivian Mosier

Many of our boys are really wanting to meet Edith Meade, the new girl.

Oleta Franklin was seen with a young man from Needmore Saturday night.

Nella V. Nettles was seen with Tolly Stephenson from Ropes Sunday. What's the matter with the Meadow boys, Nella V.?

Aaron was really glad to see Opal Sisk back. Watch out, what will Christine say?

We wonder if George still has sugar on his hands?

DUMAS

Well, we sure are having some pretty weather this week. Had a nice snow last week. Farmers are just about up with their gathering.

Mr. and Mrs. Earl Rancaville of the West Ward community, Mr. and Mrs. John Smith and baby, Mrs. Stella Johnson and baby, spent Sunday with Mr. and Mrs. J. W. Elmore.

Miss Sybil Bryant spent Sunday with Misses Elizabeth and Viola Batteas.

A party was given in the W. D. Matteas home Sat. night. All reported a big time.

Mr. and Mrs. J. H. Wright and family at McCaulley visited relatives here this past week end.

Mr. and Mrs. Elmer Batteas and children returned from Magic City Texas Saturday.

Mr. and Mrs. J. E. Barron spent Sunday with Mr. and Mrs. Elmer

Batteas.

Condition of Mrs. C. L. Wright isn't much better. She has been in bed for the past few months. She has had cerebral hemorrhage and paralysis.

Little Cherry Lee Johnson has been very ill the past few days.

Mr. and Mrs. H. W. Schultzy at Wellman spent Saturday and Sunday with Mr. and Mrs. Fred Schultz and Mr. and Mrs. E. T. Batteas.

CARD OF THANKS

To our neighbors and friends of Brownfield, we thank each and every one for the kindness shown during the sickness and death of our husband, brother and father, Andrew Green. Also we thank you for the beautiful flower offerings.

May God bless each and every one.

SIGNED:
Mrs. A. A. Green and children,
Mr. C. C. Green of Brashear, Tex.
Mr. W. C. Green of Lindsay, Okla.
Mr. E. H. Green of Bowie, Texas.
Mr. Dellar Westmorlie of Big Spring.

Mr. W. L. Green of Bowie, Texas.
Mrs. P. L. Laster of Clayton, N. M.

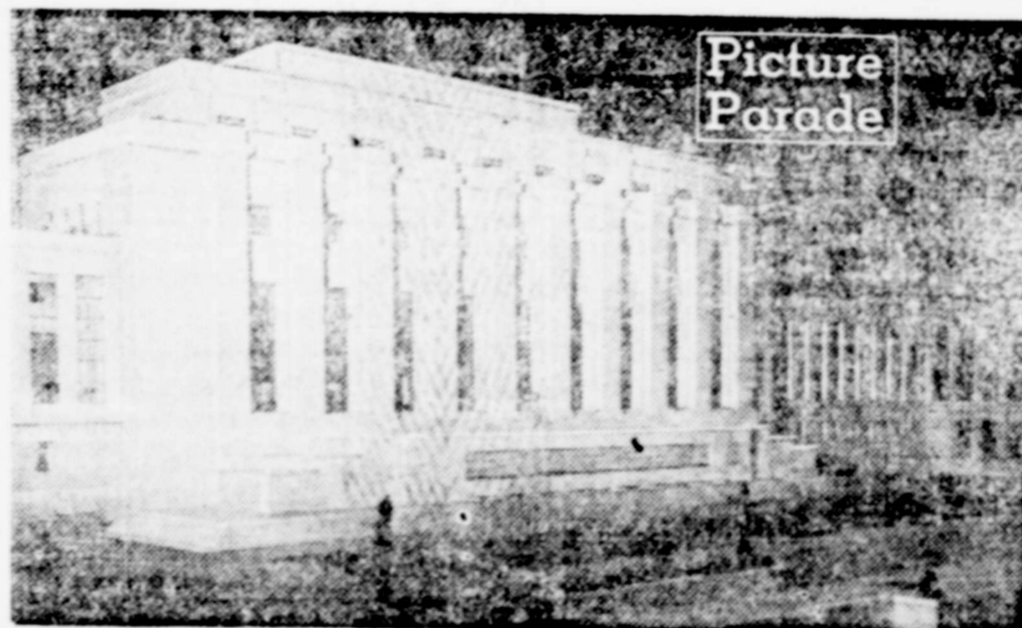

CARD OF THANKS

We wish to thank each and every one for the many deeds of kindness we received during the illness and death of our little daughter.

Mr. and Mrs. W. R. Stephens and family.

Mr. Lawrence Stewart of Abilene, is here the guest of his sister, Mrs. Claud Hudgens.

Clouds Over the Peace Palace

EUROPEAN war clouds hover over the new palace of the League of Nations, rising in Ariana park at Geneva, on the sloping shores of Switzerland's fairest lake. Architects of five nations collaborated in executing the Palace of Peace. Ten nationalities were represented in the 500 workmen who built it. But even these elaborate gestures cannot insure the League's permanency. England is lukewarm and several other nations are cold in their disregard. C. E. Boesch, the Geneva photographer who took these pictures, nevertheless found the Palace of Peace a thing of beauty that all nationalities must admire from an artistic point of view. For example, the magnificent council chamber at the right accommodates 300 delegates, 200 secretaries, 100 League officials, 800 official guests and 500 journalists.

The League's library can accommodate two million books. John D. Rockefeller, Jr., gave two million dollars to this cause.

PAYS TRIBUTE TO MR. GREEN
On December 25 the death angel entered the home of Mrs. Andrew Green of Brownfield and claimed as its victim the dear husband and father.
He was in bed five days when God relieved him of his suffering.
Mr. Green was 49 years of age. They were married at Brashear, Texas and lived there eight years, then moved to Brownfield where they have lived since. To this union was born six children, five still living. They are as follows: Mrs. Ray Hewett of Brownfield; Miss Vila Faye, age 15; Leroy, age 11, Buna, age 8; Annie Jewel, age 19 months.
Mr. Green was a man who was loved by all who knew him. His death cast a gloom of sadness over the neighborhood.
Funeral services were held Sunday afternoon, December 26 in the Church of Christ, Rev. J. H. Killion of Brownfield in charge of the services. Burial took place in the Brownfield cemetery.
God came and called him from our midst.
Of course, we can't see why; But He knows best, so He called him home.
To live with Him on high.
His voice on earth no more we'll hear.
His face on earth we'll see; But He will call his loved ones to him.
A happy meeting they will be.
A friend

CARD OF THANKS
I take this means of thanking my friends whose visits, flowers, gifts and good wishes helped me to tide myself over the danger line. The surgeons and the family physician whose combined efforts made the first moments of my affliction bearable and my recovery possible. I include also my friends in surrounding cities and wish to remember them here.
Your friend Mrs. M. P. Bragg.

Mr. and Mrs. Earl Murry, of the Willow Wells community, have a new daughter at their home.

Mr. and Mrs. George Carter of Ropes, were down last Thursday with their little granddaughter, Bobbie Jene Evans, who had her tonsils removed.

Roy Phillips, manager of the Co-Op Gin, was ill the first of the week.

Mrs. S. H. Holgate, chairman of committee of Federated Missionary Society, entertained ladies of all churches on Nominating Committee, Monday afternoon, January 10, at two-thirty o'clock, in business session.

Mrs. S. A. Cobb of Plains was over the past week to visit her little boy who had appendicitis operation, and called on the Herald.

Mrs. L. E. Green of Gomez, while in town visiting her daughter in the hospital, called on the Herald.

C. C. Nettles is moving over in Lynn county this year, where he will farm. Herald follows him.

Our old friend, M. C. Ammons of Loraine wrote in recently to have the Herald started to his address.

Mrs. G. W. Luker and daughter, Miss Oletha, of Union, were in Tuesday visiting Mrs. Gay Price.

John Howard, Haskell, is getting the Herald complimentary of his relatives here.

Mr. and Mrs. Claude-Hudgens were business visitors to Littlefield Wednesday.

Miss Von Dee Lewis spent the week end with her sister, Miss El Ray at Tech College.

Mr. and Mrs. Uyliss Sawyer of Cross Roads, New Mex., are here for a few days visit.

Mr. and Mrs. J. O. Gilliam left Wednesday afternoon for Austin, on a business trip.

Mr. and Mrs. Hoby Key from Gomez were dinner guest of Mr. and Mrs. Charlie Moore Sunday.

Chas Copeland of Yoakum county was here Monday after a load of cottonseed cake for his ranch.

Mrs. A. H. Herring of south part of the county was in Tuesday.

Terry Wood and Willie Hyman are both new readers.

The average curvature of the earth is two inches per mile.

O. M. Minnix was in from the farm Wednesday.

Mrs. Carl Rushing was in Monday.

The truth about Terry County is good enough. We cover the territory thoroughly.

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JANUARY 14, 1938

NUMBER 23

CANDIDATES BROADCAST

LOUIS B. REED FOR DISTRICT JUDGE

Judge Louis B. Reed of Lamesa authorizes us to announce that he is a candidate for election to the office of District Judge of the 106th District, which position he now holds. Judge Reed moved to Lamesa seven years ago from Red River County, where he was born and reared on a farm. He is a World War veteran, having served for two years and two months, part of which time was

LOUIS B. REED

spent overseas with the 90th Division. He received his legal training in the law school of the University of Texas. He has participated in the activities of the church, of which he is a member, and has been active in various civic organizations in his home town.

In making his announcement, Judge Reed stated:

"I have been actively engaged in the practice of law since about a year after my return from France at the conclusion of the World War. My practice has been devoted to the prosecution and defense of criminal cases, and general civil practice. I have devoted all of my time to the practice of law and not engaged in any other trade, avocation or profession. My home is Lamesa, where I have resided for the past seven years. Although planning to run for this position, I have carefully refrained from announcing or urging my candidacy until the proper time.

The dockets of this District are very crowded and will demand practically all of my time until June 20th. As a result I will be unable to see many of you personally to solicit your vote.

Whether I have properly performed the duties of the office is for your determination. If you are not familiar with the manner of my performance of duty, I hope that you will inquire of those who are.

In considering such candidates that shall offer for this position, I feel that you will consider their legal experience and knowledge, energy, integrity and general fitness."

TO THE VOTERS OF TERRY COUNTY

Please consider this as my announcement for the office of Superintendent of Schools of Terry County.

I was reared, and lived on a farm until I was twenty-three years of age. I taught a one teacher school for four years during the summer months, in order to obtain money to pay my expenses at the University.

I am a graduate of Vanderbilt University. Since my graduation I have spent my whole life in the teaching profession. I have taught in one teacher schools, four teacher schools, teacher's colleges and other colleges.

I was Superintendent of the Floresville schools for ten years. Supt. of the Lampassas schools for nine years, and of the Brownfield schools for three years.

During my three years here as Superintendent, the schools were fully accredited and prepared for entry into the Southern Association. The new high school building and gymnasium were constructed.

My whole life has been spent in school work. My stay at Floresville, Lampassas and Brownfield show the stability of my work. My idea of a County Superintendent is that the schools under his supervision should have the same careful supervision and guidance as the city schools. His duty is not to sit in his office, but to visit these schools and to give his time and the benefit of his experience to them.

My health is excellent. I had not missed a day from school in my last twenty-five years on account of illness.

My school board in Brownfield, and the people of Brownfield, can testify to my efficiency and loyalty to my work.

Should I be elected your superintendent I pledge my whole time and energies for the good of the rural

schools. With these statements, I submit my name as candidate for County Superintendent of Schools in the Democratic primary to be held in Terry County, Texas in July, 1938.

I solicit your kind and favorable consideration of my candidacy.

Very truly yours,
W. B. Toone

FOR JUSTICE OF PEACE

To the citizens and my many friends of Justice Precinct Number One, Terry County:

I take this opportunity for the first time in life to ask my friends to elect me to a public office. Will say I am before you on my own solicitation; just decided I would like to have an easier job. The entire citizenship of the county knows me, having served as your Courthouse janitor for near twelve years. As to my moral standing, you know it. That that you know good, I am grateful; that that you know or hear bad, I plead guilty.

As to my qualifications, otherwise, will say that I am no lawyer and never studied law, but I have been associated with the different courts since I reached manhood. Having done a lot of Grand and Petit Jury work, and been in the Courthouse continuously near twelve years, naturally I would absorb some law. I know I am well qualified for the office as any man in the county that would have it at all. That is for you to say next July 23. Just drop over at the courthouse and you can see the natural old man that will be grateful for your vote. You will always find him on the job.

With these remarks I humbly submit myself as a candidate for Justice of the Peace, Precinct One, Terry County, Texas, and earnestly ask your loyal support next July 23.

Sincerely your friend,
J. W. OLIVER

TO THE CITIZENS OF TERRY COUNTY

When I made my announcement for County Attorney two years ago, I made no promises to the citizens at that time, except that I would conduct the affairs of the office to the best of my ability. I have tried at all times to keep that promise, and in making this, my announcement for a second term, I make the same promise that I made two years ago.

I have made enemies with some of the law-breaking classes and their sympathizers, but at the same time I am sure I have made staunch

BURTON G. HACKNEY

friends of those who believe in the strict enforcement of the laws of the country.

I have at all times worked hand and hand with the officers of this and other counties of the State in trying to stamp out law violators, and especially have we tried to eliminate those who would cheat you by giving worthless checks, and I believe that the records will disclose the fact that we have a 50 per cent reduction in this line of law violators. I shall conduct the coming campaign in the same fair and upright manner as I did two years ago, and I plead for your support and influence in the coming election.

Respectfully,
BURTON G. HACKNEY

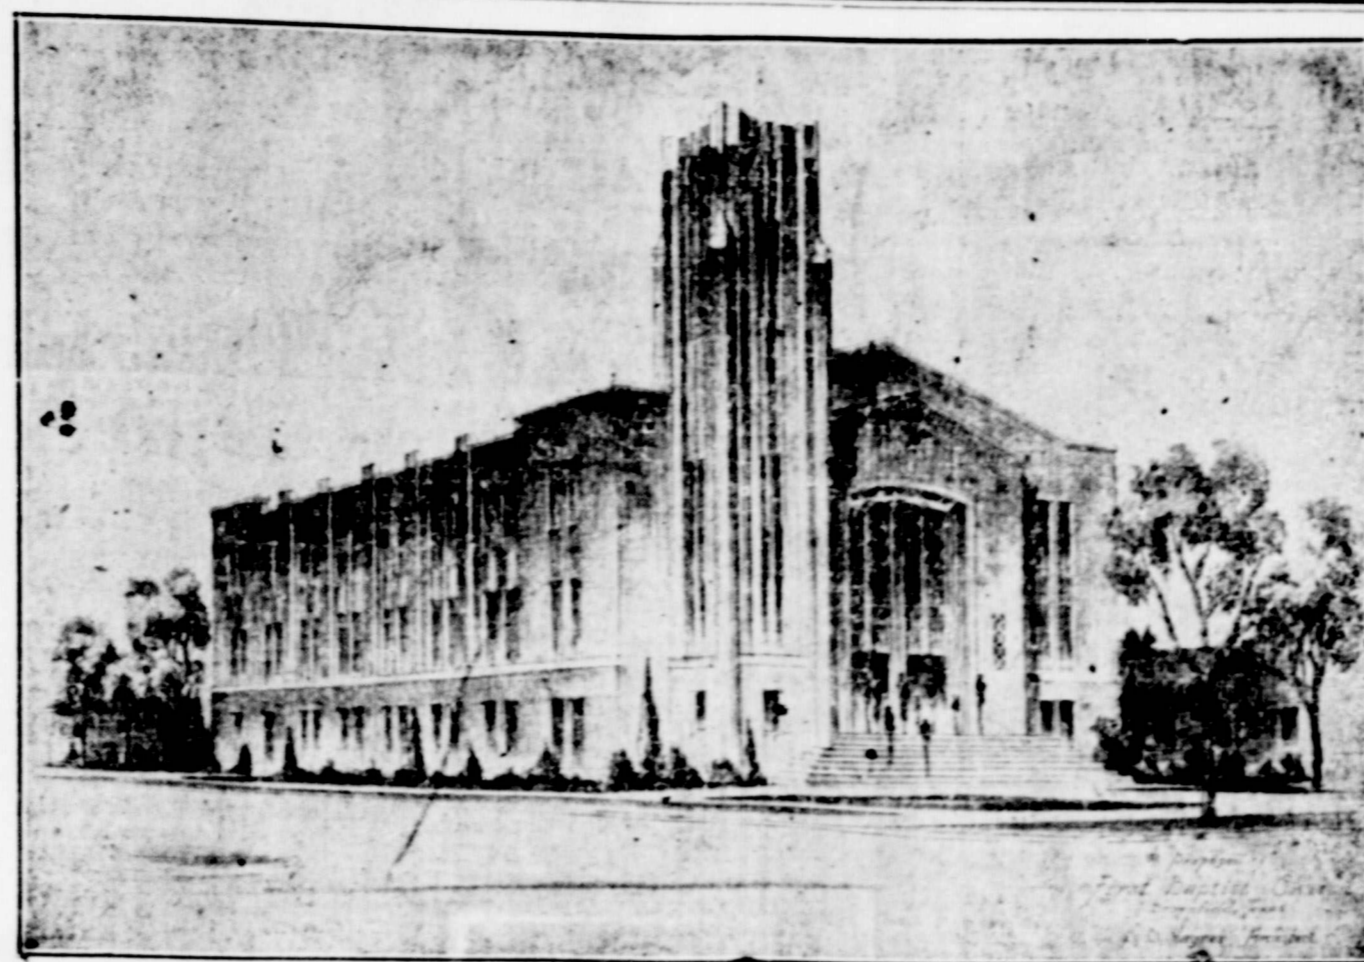

FOR COUNTY CLERK

Please consider this as my announcement for the office of County Clerk of Terry County, Texas.

I have lived and worked here for a number of years and think the nature of work I have been doing has given me the experience needed to fill the office as it should be.

I will deeply appreciate your vote, influence and active support, and assure you if elected, I will serve you to the best of my ability.

Respectfully Submitted,
H. M. (Dube) Pyeatt.

Proposed Baptist Church Building

It is the desire of the Church that this plant be adequate for the educational program of the Church for perhaps at least twenty-five years allowing a reasonable expectation for the growth of the town during that time. The religious education of the people is of growing importance because the people in a large way have almost quit teaching the Bible in their homes as of old, depending on the Church to do what is done, and we use the Sunday School and the Training Union for that purpose, which requires the facilities of modern methods in the use of the classroom for definite grades or ages. We consider this of growing importance.

The spiritual needs of any community are always the major needs. The spiritual needs for such a building is twofold, that of the honor and glory of God, and the salvation of the lost. It is for this twofold purpose that this building is desired and greatly needed.

The proposed auditorium if completed for the seating of nine hundred or more people should be ample for the Church and the community for at least fifty years. A smaller auditorium would now be sufficient for the church but a larger one is

TO THE CITIZENS OF THE 106TH JUDICIAL DISTRICT OF TEXAS:

TRUETT SMITH

In October 1935, I was appointed district attorney of this judicial district, which includes Garza, Lynn, Terry, Yoakum, Gaines and Dawson counties. In 1936 I was elected to this office without opposition and am now serving my first elective term as your district attorney. I am now seeking to be elected for a second elective term to this office.

To those of you whom I have not met, may I say that I am 33 years of age and have resided in Lynn county for 31 years. I am grateful for the opportunity to serve as your district attorney among the people where I have lived the greater part of my life. It is the best job I have ever had and I trust that I have conducted the affairs of this office in such a manner that will meet with your approval.

If you elect me for a second term as district attorney, I pledge you my very best efforts to make this judicial district a difficult place for the criminals to live and carry on their nefarious work. It is and shall be my desire to assist you in making these six counties of this judicial district a better law abiding place in which to live and rear your families. I am sure that I have made mis-

are only a very few acquittals of criminal cases as shown by the records of your court. The success I may have had in the trial of these cases, I credit largely to the grand and petit jurors of this district, who have shown by their actions, that they believe in the enforcement of the laws of this state.

I earnestly ask your support in the coming election.

Respectfully,
TRUETT SMITH

FOR COUNTY TREASURER

To the voters of Terry County: I have been solicited by a number of my friends to make the race for the office of Treasurer of Terry County, subject to the July primary, and have decided to tender my announcement as a candidate for same. I have some business training and feel that I am qualified to perform the duties of the office, and if elected will give my very best services to the duties of the office. Respectfully soliciting your vote and support, I beg to remain,

Sincerely yours,
Mrs. O. L. (Oscar) Jones.

FOR SHERIFF, ASSESSOR AND COLLECTOR

I wish to advise the voters of Terry County that I am again announcing for Sheriff, Tax Assessor, and Collector.

I have done my best to fill the office the past year and believe that I am now better qualified to carry on the duties of the office. I will kindly appreciate your vote in the coming election.

C. D. (Ches) Gore.

FOR COMMISSIONER

I take this method of announcing to the voters of Precinct No. 4 that I am a candidate for the office of Commissioner, of that Precinct, subject to the action of the Democratic primary in July. Will say that I have been a resident of the county about 20 years, and know most of the people in this precinct, and believe they know me, and what kind of life I have lived. I believe that I am qualified for the duties of the office, and if elected promise the people that I will to the utmost of my ability, fill the office in a business manner, and give a good account

TRUETT SMITH

takes as your district attorney, but they have not been intentional mistakes. I invite you to examine the record that I have made during the time I have been in this office. I am glad to report to you that there

needed badly in the community, which could hardly intertain conventions of different groups at present, and funerals of the community where largely attended are now difficult to handle.

We say this because while we are building for the needs of the Church we would not lose sight of the needs of the larger community and if it is possible to do so, and can be financed without debt that is unreasonably heavy, we mean to build adequately, a plant that will remain in the next generation, to show them how well, and how much we are interested in them, and they in turn can re-enforce and leave to the generation to follow.

We are meeting with encouragement now having subscribed \$17,000, to be paid by May 1st when it is proposed to begin construction of the plant but if we build as planned to cost \$45,000 we must be assured as much as \$35,000, by that date.

Many Baptist families have not been seen and we hope that they will give worthily where their means justify them doing so.

This undertaking is not intended to intimidate any individual but offerings are sought as a freewill offering on the part of the donor to a worthy undertaking and to provide facilities of worship and training religiously for the families of all of those who desire it, and a community meeting place for any requirement

of the community that would not be out of place among religious people.

A number of people who are not members of our church have expressed themselves as friendly to our aims and have stated that they expected to have a worthy part in the financing of the enterprise. We appreciate beyond words these friendly assurances and without the aid of such of our friends in large numbers we may be forced to build more modestly and for the present needs of our church only, but with large co-operation and need as we see it, we will be able to complete plant that will be the pride of the community as a whole, the upkeep of which by our church forever to use of all the people as they are in need.

An accurate record of every donor to this plant is being kept and will be kept which will be a portion of the historic record of the church, that all future generations may know who and what extent each individual found it in his heart to invest money in this plant.

A century from now families will look at this record and point with pride to their ancestors who were God loving people and willing to make a worthy contribution to this and future generations.

—Building Committee, Board of Deacons and Pastor.

Washington, D. C.

BY DR. JAMES E. POPE

WASHINGTON NEWS COMMENTATOR

ROOSEVELT DID—ROOSEVELT DID NOT

Some week ago the New York Daily News caricatured a bloated but disheveled gambler of Wall Street stripped of about everything except plug hat and gold cane, emerging from the wreckage of ticker tape in a condition symbolic of what has been striking that region under Roosevelt. The would-be profiteer in the people's daily bread, now bewildered, was made to represent the Old Deal in the act of spitting its wrath upon the New Deal and saying that President Roosevelt was not responsible for the recovery, if we had it, but he is responsible for this new depression, if we have it. . . but if we do not have depression he is not responsible for avoiding it.

A spokesman for Henry Ford—of Model T and V-8 fame—proceeds to call something or somebody, or everything and everybody, the New Deal in particular, a bad mixture of weird politics—with poor political sense and poor business sense combining to bring home a conglomerate brood of rumpy and mite-infected mongrel chickens to perch their scabbed feet in the National poultry house.

Mr. Ford's speaker was Bill Cameron. Mr. Cameron commits a grievous error when he labels the New Deal the invention of business men of a certain (meaning low) type, and that it was conceived by second-string business men to whom business meant only a spring-board to something more congenial. When he intimates, as he did intimate, that the Roosevelt administration is headed by men not strong enough to refuse what is asked, and second-string business men who are shrewd enough to ask those who are soft and can be driven and are driven, he brings to Ford's cause less of good than harm. Mr. Cameron also falls into the easy to avoid kind of error when he avers that New Deal policies are concocted in certain business councils to attain certain unbusinesslike ends—that THAT business supported the candidate who agreed to accept it.

Both Sides Play Dirty Ball

Henry Ford's Bill Cameron speaks in a manner unworthy of Mr. Ford—whom the American people have made fabulously rich. Likewise unworthy and un-American is the game of dirty pool being played by vicious minorities who, on one hand, are trying to lynch the New Deal, and the over-ambitious New Deal orators who, on the other hand, are trying to lynch industry. Expressing sincere conviction is one thing—malicious smearing is quite something else. No normal person would knowingly seek to associate Mr. Roosevelt with low cunning. To be sure, the President, himself, must realize that he has made some serious blunders, but even the most partisan anti-New Dealers, those who disagree with Roosevelt most bitterly in policy and procedure, know that even his worst mistakes are made in the blindness of devotion to cause and duty—as he sincerely interprets cause and duty.

BOTH SIDES PLAY DIRTY BALL

But Mr. Cameron is impressively right when he draws a distinction between two types of business men—one creates business as an inventive builder, and the other is made by business. The public regards Mr. Ford as a business maker and an outstanding American, despite the unwise and unbridled statements of his spokesman. Likewise the people regard Mr. Roosevelt as a true and sincere statesman along with his mistakes, despite the obviously consensual ravings of Secretary Ickes and Assistant Attorney General Robert H. Jackson.

President Roosevelt, in what appeared to be an ill-advised, and most certainly ill-starred campaign against Big Business retaliatory to its hanging this recession on the White House door, indulged in some indiscriminate and prestige damaging accusations—or allowed his lieutenants to do so. The days are heavy with the imminence of evil, and in the ohur of our country's travails there should be but one side, with every American on that side. But since we have two sides, with the issues sharply drawn, both sides should guard against empty gestures and intemperate speech by tightening the leash on fiery and intemperate spokesmen—and I DO mean BOTH sides. Both factions should avoid involvement in the unseemly, such as becoming mixed up with Gen. Hugh S. Johnson's famous termites and trousers. Before leaving this subject it is

fitting that commendable notice be given the statement made by Secretary Henry A. Wallace. Mr. Wallace said, "It doesn't do either labor or agriculture any good to scare capital; instead they must all find ways to work together." He said that "balanced abundance" could be achieved only through the cooperation of agriculture, labor and capital, and added, "capital itself is different from a few short-sighted capitalists."

PURE THEORY—IMPURE FACT

Secretary Wallace also said that most people discounted the business expansion of last spring and regarded it as unhealthy. This brings us up to the subject of the incident, or budding, or threatened boom of 1936-37. Marriner S. Eccles, the Chairman of Federal Reserve, told the Senate Unemployment Committee that payment of the soldier's bonus in 1936 helped to bring on the present recession by throwing recovery out of balance through the creation of inflationary psychology. They still call it "recession" here. If Mr. Eccles is even suspected of being right he stopped short of a complete diagnosis.

Let us skip pure theory and proceed to impure fact by admitting that the surest way to always have what we like is to always like what we have. Destiny is what happens, not always what we plan. According to some economists who pretend to know, there is really no new recession—at least it is simply nothing more than a return to that normalcy of 1933-34, called depression. The brief upturn of last spring was but the temporary delirium of Governmental heavy spending.

It bore all the earmarks of a real boom while the easy money lasted, but now that the veterans have spent their bonus cash the same old slump comes back with a sudden thud—like falling out of bed. In addition, and contributing largely toward making matters no better fast, the \$4,800,000,000 relief goose has stopped laying her golden eggs and gone broody—and persists in following her maternal instincts in spite of all the tricks and blandishments known to brain-trusters and sophomores for persuading Gossie to give up setting and resume her egg-laying activities. So we must wait on the caprice of Mrs. Goose—and doggedly cling to our faith in America's common sense recuperative qualities.

POLITICAL RAT-POISON

Associate Justice George Sutherland quits the United States Supreme Court and his resignation leaves a situation potentially dangerous—like TNT, dynamite and political rat-poison. It is literally packed and stuffed with the inherent possibilities of all these.

So swiftly do things move in Washington that the President may nominate and the Senate peacefully confirm Justice Sutherland's successor before this can appear in print, and the whole matter be happily closed before you read these lines. We fervently hope for this. Next to the President, a place on the United States Supreme Court ranks as the juiciest plum of the entire orchard, and many Senators are suspected of giving sanctuary to private and probably biased personal opinions as to whom Mr. Roosevelt should nominate.

We can just wait and pray that the selection of this Supreme Court Justice will not explode a lot of tainted or rancid and inflammable political fat into the controversial fire. That fat is already hot.

OLD-AGE PENSIONS

The Old-Age pension bloc in Congress, consisting of forty members, held a conference Monday, January 10. Those issuing the call invited all groups to attend or send representatives, and declared that "the movement for old-age pensions . . . transcends all factional and political differences." The House Steering Committee for pensions is composed of the following: Charles N. Crosby (Pa); James C. Oliver (Me); Harry R. Sheppard (Calif); Martin F. Smith (Wash); John H. Tolan (Calif); Gardner R. Withrow (Wis); Dewey W. Johnson (Minn).

One of the consistent champions of reasonable old-age pensions is Congressman Will Rogers, of Oklahoma. The bill sponsored by Rep. Rogers calls for a minimum pension of \$30 per month, and because of its moderation the Rogers bill has received much favorable attention throughout the country.

Agriculture and old-age pensions may yet prove to be the stepping-stones to real and permanent recovery.

Postoffice Receives Appreciative Letter

Postmaster James H. Dallas and the office force of the Brownfield postoffice received a letter of congratulation and appreciation from James Farley, Post Master General, during the holidays.

The service was commended and Mr. Farley stated was a matter of great pride and gratitude to the Department. No previous administration has ever shown a more efficient handling of the mails, or presented a more courteous and helpful front to the general public.

The postoffice employees have been repeatedly called upon to assist in important work having no connection with the mail service. During the past few months the Social Security program and the Unemployment Census were initiated by the Postal Department. This work was done well and was the subject of no complaint by the workers in the nation. In fact, it was the one governmental agency upon which huge burdens were placed and which did not entail big expense budgets in accomplishing needed and necessary work outside the regular routine duties.

Mr. and Mrs. R. W. Rutherford of Littlefield were Sunday guests of Mr. and Mrs. Tom Cobb.

for every dollar spent. Your vote and influence is solicited.

Yours very truly,
W. B. (B) Martin.
FOR CITY MARSHALL

To The Voters of City of Brownfield: Believing that during the time I served you as your city Marshall I gave you an efficient administration, both in the office of your city Marshall and your Tax Assessor, and that I can again serve you in this capacity I wish to announce for this office.

I invite your inspection of the tax rolls for the years 1932 and 1933, because it was these two years I served you in this capacity.

If elected I promise to give you an efficient enforcement of all ordinances and laws, as well as to look after the matter of assessing your taxes in a satisfactory and efficient manner.

C. E. (Cliff) FITZGERALD

JANUARY CLE

OUR WINTER STOCK MUST BE MOVED

In order to make room for our spring merchandise, our shelves and counters must be cleared of our winter goods. These winter goods are still seasonable—there will be many cold days yet. In fact we are right in the big middle of winter. Everything must go, and we are putting on prices that will move them and move them in a hurry. We will have plenty of courteous clerks that will wait on you and help you find what you want. Come in the first day before the stocks have been broken and picked over.

BROWNFIELD, TEXAS

Texas Getting Ready For FDR's Birthday

DALLAS.—Every county in Texas is now being organized for the crippled children's benefit campaign which will mark President Roosevelt's birthday January 29th.

State Headquarters for the President's Birthday Celebrations have been opened at 1109 Santa Fe Building in Dallas. Jesse H. Jones, of Houston, Chairman of the Reconstruction Finance Corporation, heads the Texas campaign with George Waverley Briggs of Dallas as Vice Chairman. Mr. Briggs is actively directing the work from state headquarters. Mr. Jones has come to Texas from Washington to lead this drive against infantile paralysis and response from all part of the state to his appeal on behalf of the child victims of this dread disease has been immediate. From hundreds of communities assurance are given that benefit entertainments to aid the National Foundation for Infantile Paralysis will be held January 29th. These entertainments will be in the form of dances, card parties, theatrical presentations or other novel attractions. The benefit program is not strictly limited to a dance, although this form of birthday party seems at present the most popular.

For the first time this year the effort to aid the fight against infantile paralysis and to help the thousands of little cripples left in the wake of epidemics which swept many parts of the United States last summer, is being coordinated by states and counties into a single intensified national. In particular is the campaign being supported by women's organizations throughout the nation. In Texas those interested in aiding to combat infantile paralysis are asked to write State Headquarters in Dallas and full cooperation will be afforded them.

Broncho Corral

(Carried over from last week)

Annuals
Notice! Annuals for sale. The High School annual has now gone on sale. Deposit 25c to save your annual. 25c now and \$1.25 when the annual arrives. The annual this year will be published faster than in previous years, and we will get them to you quicker.

The pictures are stamped and pasted in this year. Each page is fully covered with interesting articles. There will be more than one picture to the page. Pictures of teams in action, organizations, clubs, classes, buildings, grounds, queen, king, grades, and athletics. Also there will be about 4 pages of snapshots around the campus.

This year there will be the best advertising section ever put in a paper or annual of Meadow High. The attractive print and arrangement of the advertisements catch the eye. Make reservation for your ad now because space is limited.

The school does not print the annual, but just arranges the "dummy" and sends it to Steck Company at Austin, who prints the annual, and stamps the pictures.

Make reservation for your annual now because we only will have about one hundred and twenty copies.

Students get your annuals now for entertainment and memories you will never forget.

See Lee Rice, Vandy Turnbough, and Lois Newton for subscriptions.

Girl's Basketball
The Meadow High School Bronchos won their fifteenth straight game when they defeated Lamesa last Friday night, December 31. The girls defeated Lamesa to the tune of 28 to 20, and the team was like a mechanical machine. The girls are still a thousand per cent in the South Plains League. However the team will get their severe test against Wilson, Southland, and Frenship; the first half of the round robin tournament.

The schedule for the following games are:
Jan. 6.—Wilson at Wilson.
Jan. 7.—Southland at Southland.
Jan. 8.—Frenship at Meadow.

Clock System Installed
"What time do you have Mr. Franklin?" "I have 8:00 o'clock."
"What time do you have Mr. Ted-better?" And so on until all of the teachers had looked at their watches and then no one knew for sure what time it was so all of the bus drivers and the janitor would be consulted, then as no two of the people consulted had the same time it would end up by someone suggesting that we all set our watches by Mr. Franklin's. This Meadow High School used to start off the school day but now it is a thing of the past, as we have installed a New Modern Clock System.

This clock system will ring all the bells in the school buildings, as well as ring the outside bells at noon. There will not be any more guess work as the clock is a real time keeper, and will not forget when to ring the bells, as the teachers sometimes do. Thus we have made another step in the direction of modernizing our school plant.

This Clock System is a Eureka clock, bought with part of the pro-

ceeds of the School Carnival. It cost about \$100.00 installed, that is, clock, bells, wire, transformer and all materials.

The installation was done by Mr. Ledbetter assisted by Charles Poole, and Bill Copeland.

Boy's Basketball
Our team is small in height but they can certainly get around fast, as we proved in the game with Ropes. The bronchos took the lead, but did not hold it long, as Ropes was really fighting. At the beginning of the fourth period the Bronchos put up a strong defense against Payton, the outstanding Ropes player, and the Ropes scoring was over. The game ended 27-24 in favor of Meadow, with White leading the scoring.

Last Friday night, December 31, after an enjoyable Christmas, the Bronchos came back with a fighting spirit, and after a hard-fought game, they came out winning from the Golden Tornadoes of Lamesa 22-29. White was high point man with 14 points. Nettles and Gatewood followed with 6 points each.

Thursday night, January 6, the Bronchos will journey to Wagon to meet the boys over there. Stay in the Bronchos, we are behind you.

LET'S TALK ABOUT CLOTHES

DENTON, Jan. 4.—Coming colors cast their shadows before them, and the ideas for springs are already influencing mid-winter fashions.

The trend is toward softer shades and more grays. For instance, where-as the beige of 1937 had a yellow cast, the beige of 1938 is filled with gray. Muted shades of blues, rose and copper will hold the stage soon, too, for whose flattery most women should be grateful.

The combination of several soft pastel in thin materials with a dark color has already gained favor and will continue in the public eye on through the spring. An effective costume along these lines is of black crepe with mauve, pink and green chiffon drapery.

Beautiful gray green called "Storm at Sea" and cadet blue, one of the favorites of girls at Texas State College for Women, are destined to hold the spotlight as the new year gains headway, and dusty pinks and blues will be worn with gray.

Purple, a rather neglected color for the past few years, is going to receive the dues of its royalty soon. All shades of it will be worn, with lavender and off shades being featured particularly in sheer woolsens.

From England that are hints of new floral shades that are to be developed speedily. Colors, though softer, will be much more prevalent, and those who have enjoyed this black season may well be preparing to bid it adieu.

DEMOCRATS WILL MEET IN DALLAS

AUSTIN, Jan. 1.—Myron G. Blalock of Marshall, chairman, today called a meeting of the state Democratic executive committee in Dallas Jan. 8 to organize the party for the coming political year and collect funds for the national committee.

The annual Jackson day dinner will be held the same day. Blalock said, and contrary to reports the price per plate is not \$25. Anyone who collects as well as subscribes that much for the national war chest will be entitled to a "free" dinner, he explained.

Principal speaker for the dinner will be Jesse Jones, chairman of the Reconstruction Finance corporation.

COTTON SUPPLIES AT NEW ALL-TIME HIGH

AUSTIN, Dec. 25.—Dr. A. B. Cox, director of the University of Texas bureau of business research says cotton supplies currently are at an all-time high.

The increase in supplies of cotton in the United States on Dec. 1 from last December was 5,558,000 bales," Dr. Cox said, "the greatest increase for any like period in history."

The indicated supplies in this country, by the bureau's statistics, were 18,823,000 bales as of Dec. 1 compared with 13,065,000 bales last year and 13,408,000 two years ago. The all-time high for any Dec. 1 was that of 1931—18,874,000.

WAR ON SYPHILIS

The Dallas Campaign against syphilis, recently commended by Dr. Thomas Parran, Suregon General of the United States Public Health Service is part of a national movement that is stirring every State and city to some kind of action. The fight has even extended to college campuses, including that of Harvard, and students at one university are voluntarily taking blood tests.

Especially encouraging in recent news in this field is the announcement that trustees of the Zachary Smith Reynolds Foundation have decided to use the income from a \$7,000,000 memorial fund established last year in a North Carolina campaign against venereal diseases. In the past, many, many wealthy men have given generously to combat disease but usually have shielded by endowing campaigns against syphilis and gonorrhoea. It may be suspected that this hesitation, indirectly at least, had its roots in the old assumption that venereal disease was punishment for sin.

The folly of this attitude is apparent when it is realized that a large proportion of sufferers from venereal diseases are babies, children and other persons who contracted the germs through no fault of their own. The prevalence of these diseases endangers every person, no matter how puritanical his own conduct may be. Protection of society against these twin scourges demands that those found to be infected be required to take treatments until cured.

Half the battle is won when the veil of secrecy that formerly hid venereal diseases is torn away. Medical science is able to cure nearly all cases of syphilis and gonorrhoea, except those which have reached advanced stages. The main task is to induce those who are infected to go to doctor or clinic and to continue treatments until completely cured. There is no valid reason why America cannot become as free from syphilis as is Sweden.—Dallas News.

TEXAS SHIPMENT OF LIVE-STOCK, POULTRY SHOW GAINS

AUSTIN, Dec. 25.—Forwarding of Texas livestock and poultry and egg shipments to out-of-state points in November showed increases over the same month last year in figures released by the University of Texas bureau of business research.

Shipments of all classes of livestock totaled 7,172 cars last month as compared to 6,859 last year, reflecting a 14 per cent gain.

Interstate shipments of poultry, including turkeys, numbered 761 cars. There were 581 last November. Turkey shipments of 700 cars this year increased 28 per cent.

FIRST CAR OF MATERIALS ARRIVES FOR ROPESVILLE CONSTRUCTION

ROPEVILLE, Jan. 1.—First car of materials for the new additions to the Ropesville Community project of the Farm Security Administration have been received here. It was a car of lumber.

Construction of 48 houses is to begin soon. Also the erection of windmills, tanks and wells is starting.

JIM FERGUSON CONTINUES SILENCE REGARDING POLITICAL INTENTIONS

AUSTIN, Dec. 29.—Former Governor James E. Ferguson continued his silence today on his 1938 political intentions notwithstanding the announcement yesterday of Mayor C. K. Quin of San Antonio that he would be in the governor's race if the Ferguson's stayed out.

"It appears that he's doing all the talking," was Ferguson's only comment.

TEXAS COTTON RANKS FIRST IN QUALITY

WASHINGTON, Dec. 29.—The agriculture department reported today Texas cotton ranked first this season in quality, with the Tennessee crop a close second.

It said the 4,492,400 bales of Texas cotton ginned prior to December graded 53.7 per cent white middling or better. The Tennessee percentage was 53.4.

In average staple length, the Mississippi crop was ranked first. It averaged slightly in excess of one inch in length. The Louisiana and South Carolina crops tied for second with an average length slightly less than an inch.

FAILURES FOR NOV. INCREASED OVER 1935

AUSTIN, Texas, Jan. 4.—Fourteen commercial failures occurred in Texas during November, a decline of 17.6 per cent from October, but an increase of 40 per cent over November last year, according to the Bureau of Business Research of the University of Texas. Liabilities of the bankrupt firms totaled \$202,000, up 41 per cent from the preceding month and 104 per cent from the like month last year. Assets of these firms totaled \$93,000, a decrease of 11.4 per cent from October, but an increase of 97.9 per cent over November last year. Average liability per failure was \$14,000, an increase of 27.3 per cent over the month before and 40 per cent over November, 1935.

U. OF T. FAVORS THE ANTI-LYNCHING BILL

AUSTIN, Texas, Jan. 4.—A campus wide survey at the University of Texas conducted by the Bureau of Student Opinion, agency of the Daily Texan, student newspaper, shows over half of the students interviewed want the proposed anti-lynching bill to pass. To the question, "Do you favor an anti-lynching law for the United States?"

Yes, said 67.5 per cent
No, said 31.7 per cent
No opinion, said 10.8 per cent

Senator Tom Connally of Texas led the fight in the Senate recently against the passage of the bill, saying that northern senators should clean up the gangsters in their large

cities before they come to the south to clean up the lynchings, of which there has not been one in Texas this year. On November 22 the bill was put aside to make room for the farm measure.

WOOLWORTH CHAIN IN A JAPANESE BOYCOTT

NEW YORK, Dec. 28.—The F. W. Woolworth chain of five and ten cent stores has ceased, for the present at least, adding to its stock of Japanese-made goods. T. J. Mullin, assistant to the president, said today.

"We haven't purchased any goods in Japan in months," he said, adding the action could be construed as resulting from the far eastern war.

Lubbock and Lynn county stand first and second respectively in cotton production in Texas, and Dawson will likely move up to third place above Ellis on the next report. One county in Arkansas and two in Mississippi are still ahead in county production.

SEMINOLE TO ACCEPT WATERWORKS BID

SEMINOLE, Jan. 1.—Bids will be opened by the city commission and mayor Jan. 16, for construction of a new waterworks system for Seminole. Proposals will be received until the opening at 3 p. m. by the city secretary.

The job is not a PWA project, but will be financed by the city.

Harry N. Roberts, Lubbock engineer, drew the plans for the system. The city several months ago voted bonds for construction of the water-works.

FIFTY CARLOADS

A carload of calves every three minutes was the selling record made last October when the price of West Texas calves and the number of out-of-state buyers reached a new high at Marfa. Fifty carloads of calves were sold in two hours and thirty minutes. Representatives of nine states were there to buy.

A frown demands a greater expenditure of energy than a smile, fifty muscles being brought into action when frowning, while only thirteen are required for a smile.

Indianapolis is the largest city in the world not located on navigable water.

If all the land in the United States were to be equally divided, there would be between sixteen and seventeen acres for each inhabitant.

Your Mileage Merchant advises

PRESS THE CLUTCH

to start quicker

Here's right smart footwork for right smart starting in the cold: Down with your clutch pedal before you do anything else. Then your starter and battery won't be turning the gears, but only the engine, which is just that much easier to do.

Now don't let up on the clutch, but pull out the choke (unless automatic) and then spin your starter, leaving ignition OFF.* After a few engine revolutions, switch on the ignition... And hark to the strong steady firing of your Special Winter Blend Conoco Bronze, which is certainly the sensible gasoline for quick starting.

Conoco Bronze always lets you do a cocksure "professional" job of starting. For that matter the way Conoco Bronze is specially winter-blended you could purposely give it the worst handling in the worst cold just for a test... and that's daring you! Only YOUR MILEAGE MERCHANT has Special Winter Blend Conoco Bronze for you. And ask for his simple, helpful Complete Winter Care Card—FREE, Continental Oil Company.

*If your starter is of the type that does not spin with ignition off, consult Your Mileage Merchant
