## Terry's Dining Room To Open Here Soon

The handsome brick building, just west of the Rialto theatre, being built by W. B. Downing, will soon be ready for occupancy, and has been leased to Mr. and Mrs. W. W. Terry. The Terrys are well known, having served the "Eating Public" for many years and have been fortunate in securing this fine new building to resume business. The Terrys need no introduction to those residents who have been here several years, but to those new comers we should like to say they are connoisseurs of good food and graced in the art of serving. The establishment will be known as Terry's Dining Room, and will have a Balcony Dining Room where they will be able to serve parties, banquets, service club luncheons, any size party up to a hundred, can be comfortably and efficiently served. This "party" service is something new and will be a decided asset. Watch for the Formal Opening date.

To the new owners of the building, Mr. and Mrs. W. B. Downing and the leases, Mr. and Mrs. W. W. Terry, the Terry County Herald extends congratulations.

## Texas Farmers Paying Farm Security Loans

Texas farmers in the forty-seven Panhandle counties rank high in the nation as good credit risks, judged by payments on Farm Security loans for livestock, feed, seed and cooperative facilities, made to help farm families without available credit to become permanently self-supporting, according to Wilson Cowen state rural rehabilitation director, Amarillo. Loan aid totalling \$2,056,894, together with farm and home plans that assure maximum production of food needs on the farm and repayment of the loan over a period of years, has been extended to 3,814 farm families in the state, many on or near a relief status.

"Progress of the families cooperating in FSA program is not only evident in generally improved living standards, more efficient farm management and increased farm returns," Cowen said, "but in repayments that total over \$850,332 on loans scheduled over periods up to five years with 518 loans paid in full.

## Windham Desires Return Battle With Mex

Woodie Windham, local pug, now employed in the Yoakum-Gaines oil fields, told a representative of the Herald last Monday that he would like to get a return bout with Nick Santos, tough little Fort Worth Mexican, who soundly defeated him about a month ago.

Windham stated that his work had put him in better physical condition than he had been in for some time, and would be ready to go, given three weeks notice. He declared that it would be well worth the spectator's money should such a bout be arranged.

Another contest that should prove highly interesting to people in this area, would be a return match between Bert Tankersley of this city and James Cotton of Seagraves. Tankersley won a hotly contested special event over Cotton at the opening card at the Venetian Auditorium. Not satisfied, Cotton has been training constantly since that time for a return engagement.

Should the public be sufficiently interested in these matches, the Herald is positive Cye Tankersley, local promoter would be glad to stage them.

## Mrs. Roosevelt to Lecture at Lubbock

LUBBOCK, March 1.—"A Typical Day at the White House," is the subject of the lecture to be given by the First Lady of the Land, Mrs. Franklin D. Roosevelt, at the Lubbock High School Auditorium, Tuesday evening, March 8, at 8:00 p. m.

Mrs. Roosevelt will arrive in Lubbock Tuesday afternoon from Wichita Falls by private car, accompanied by her son, Elliott Roosevelt and his wife.

The Avalanche-Journal Publishing Company, under whose auspices this lecture is given, placed on sale this week admission tickets. All seats will be reserved so that early ticket seekers may receive choice seats. Money orders or cashier's checks will be accepted, it was reported. Seats are selling at \$1.25 and \$1.75.

After her lecture the First Lady will spend the night in Lubbock, leaving Wednesday for Amarillo to attend the Mother-in-law Day parade held in her honor. Mrs. Roosevelt has chosen the Matador Band of Texas Technological College as her Official Band, and the band will lead the parade at Amarillo.

## Made His First Dollar Turning Press By Hand

AUSTIN, March 1.—The first dollar that Judge Ralph Yarbough of Austin ever earned was made by turning a newspaper press by hand, the candidate for Attorney General recalled today.

"I used to like to visit the office of the News in the little town of Chandler, over in Henderson county, where I was born—the seventh of 11 children," Yarbough said. "One Thursday, I offered to turn the press; it was run by hand as the shop didn't have electric power, and the editor, R. T. Craig, rewarded me for my work with a big silver dollar.

"Of course, I'd done things around our farm and had a little spending money once in a while, but this was the first task that I'd ever received a whole dollar for, and I ran all the way home to show the small fortune to my parents."

Craig, former owner of the Chandler News, now is editor of the Austin Review and is one of the best known newspapermen in the State.

## Rumors That Hotel Company Buy Site Here

A rumor is persistent that a large Texas Hotel Company, with a string of first class hotels throughout the state, have bought a site on east Main street. We did not try to run the rumor down, as we have been disillusioned once or twice before.

But it is a well known fact that this company has had agents here several times looking around, but it was usually given out that they just wanted to get some desirable property here before it gets to high—just in case—

And that just in case, we imagine means, IF and WHEN oil in paying quantities are developed in a similar circle to our northwest, west and southwest, sufficiently, that they will be ready to develop their property.

And, we might add that, perhaps, they believe that oil development is sure enough that they are willing to gamble the price of a site on the situation.

## Drive to Dispose of Used Car Stocks

New York, Mar. 1.—A national drive to sweep the American automobile industry out of the current recession and stimulate American business generally was announced here today by Alvin Macauley, speaking for every American automobile manufacturer and the nation's 46,000 automobile dealers.

The campaign, to be known as "National Used Car Exchange Week" and scheduled for March 5 to 12, is an outgrowth of recent conferences at the White House between President Roosevelt and leaders of the automobile industry, Mr. Macauley said. The President has been advised of plans for the campaign, which is the first cooperative effort ever undertaken in which all American automobile manufacturers have taken part.

The campaign is timed at the outset of the spring selling season when both new and used cars usually begin to move in greatest volume, Mr. Macauley said. It is aimed primarily at stimulating the disposal of used car stocks now in dealer hands. Once this is accomplished, a substantial increase in car manufacturing schedules and an employment of wage earners in the automobile factories is anticipated.

To support the campaign, Mr. Macauley announced, the manufacturers will spend \$1,250,000 in newspaper, radio and outdoor advertising and in other promotional channels. Two-thirds of the advertising budget will be spent in newspapers.

## Mack & Mack Says the Herald Gets Results

Mack and Mack, who are some times called L. N. McClain, Terry county agent, and Bill McKinney, his assistant with the constantly smiling map, tell us that our notice for them to the farmers of Terry county two weeks ago really got the job done, but intimated there were a few out yet that ought to come in and make up a work sheet.

The writer keeps pretty well up with the doings of other county agents in this section by reading our exchanges, and from what we can glean from them, some of our neighboring county agents are having a heck of a time getting farmers in to make out a work sheet, whatever that is.

And from what we can read between lines of articles by these same CA's, those counties that do not get a full report from practically all their farmers, that county will be handicapped badly when the payments from the government are due.

So, if there are other farmers that have not reported, or you know any that have not, urge them to do so at once. Let old Terry get her full quota of government funds.

## SOFT BALL

There has been considerable soft ball talk of late, especially around the Sanitary Barber Shop. But at this time it is really all talk but by a bunch of young men who really mean business. We hope to have some definite by next issue.

In the meantime Cye Tankersley is talking of taking over the present golf grounds and developing them into some play grounds of various kinds. Brownfield certainly needs some kind of recreation, as well as a recreation center.

## Not to Attend Big Spring School Meet Fri.

Believing that a day of teaching is worth more than the time taken out in the meeting at Big Spring, the local schools will delay until Saturday their attendance upon the educational meeting at Big Spring. Several plan to attend on the last day. The matter of attendance was made optional by the local board.

## Oldest Grocery Store Changed Hands Tues.

The oldest continuous grocery store, as well as one of the most popular, the Chisholm Bros. Grocery sold this week, or rather last week, being purchased by two of our high school faculty, Messrs. Emmitt Smith, principal, and Johnny Bost, coach. They took charge of the store Tuesday.

We understand that they will have some one else in active charge of the store until the trustees can find other teachers to relieve them, even if it means to remain until school is out. But both are in hopes that they may be relieved as soon as possible, in order that they may enter actively into their business. Both have been here several years with the school faculty, and are very popular.

Chisholm Bros. entered business here in 1923 in a small store on the east side of the square, and have consistently expanded. Some ten years ago, they built their own building on the south side of the square, adding hardware and hatchery, and later furniture and recently a drug department.

Everything except the grocery department will be retained. We understand that Mr. G. W. Chisholm will leave at once for south Texas, where he will prospect for a location. Dick will remain in charge of the drug department, adding to it, while Joe and John will still run the hardware, furniture, implement and hatchery departments.

Later: We learn since writing the above that Mr. Smith will be able to personally take charge of the business after this week, and that Mr. Bost will be on the job after school closes in May.

## Postal Employees to Gather at Lubbock

All postmasters and postal employees of the 19th congressional district are being invited by Postmaster Amos Howard of Lubbock, to a get-together at the Lubbock hotel Saturday night at 7 o'clock.

"We want all postal employees and their wives as well as the postmasters to meet with us," Howard said in announcing the meeting. "It has been suggested a number of times that such a meeting be held and we believe this to be as good a time as any."

Mahon Is Invited  
Congressman George Mahon has been invited. Howard said he had not received word from the congressman on his acceptance.

Senator G. H. Nelson; Bruce Luna, Dallas postmaster and dean of postal officials of the state and Postmaster W. D. DeGrassi, Amarillo, vice president of the Postmasters Association of Texas, have accepted invitations to speak.

W. T. (Tanlac) Strange of Big Spring and Lubbock, is to be toastmaster. Chas. A. Guy, editor of the Avalanche-Journal publications will welcome the visitors.

Howard has asked persons desiring to make reservations for the occasion, to notify him at once.

## Deep Test For Oil Planned in Terry

Harry E. Hulst of Fort Worth obtained from Gulf Oil Corp. leases on two tracts in northwestern Terry county for the drilling of a deep test for oil, to be spudded within 60 days. The farmout consists of the west half of section 6-D14-C&M and the west half of section 6-D14-C&M and the west half of section 20-D11-SK&K. The wildcat will be on P. J. Ross's land in the west half of section 6, about three miles south and slightly west of Gulf No. 1 Mallett, a southwest outpost to the Slaughter pool in southwestern Hockley county, and about eight miles northwest of Foree No. 1 Poole a Terry county failure.

Drilling will be carried to approximately 5,200 feet to test the producing horizons in the Slaughter field in Hockley and the Duggan pool in southeastern Cochran county.

## Lahey P. O. Has Been Discontinued

The Postoffice at Lahey has been discontinued; Monday, Feb. 23, was the last day before closing, and according to the Postmistress, stamp collectors and souvenir hunters from all over the States have written in to get stamps bearing the cancellation signature.

Mr. and Mrs. H. W. McSpadden have returned from a month's sojourn in Corpus Christi.

## Terrell Announces For Re-election as R.R. Com.

In announcing my candidacy for re-election as a member of the Railroad Commission of Texas, I do so with profound appreciation of the trust reposed in me heretofore by the people of my native State.

True to my promises in the past, I have faithfully discharged the duties of an important public office; and due to intensive training and experience I have qualified myself to pass upon matters coming before the Railroad Commission—a department which constantly faces complex problems vitally affecting every citizen of our Commonwealth.

The jurisdiction of the Railroad Commission embraces the supervi-

HON. C. V. TERRELL

sion of railroads, trucks, busses, express companies, dock companies, gas utilities, pipe lines and the administration of the conservation laws of this State dealing with the production of oil and gas; investments totaling more than three billion dollars.

The Commission has caused the rates on cotton to be reduced in some instances from \$4.00 to \$1.25 per bale, resulting in a saving to the cotton farmers and people of the State of several million dollars annually. Through its action the rates on grain are lower than they otherwise would have been and the grain farmers of Texas have thereby been saved, and are being saved, in excess of two million dollars annually. Because of the action of the Commission the rates on stocker cattle are 15 per cent lower than they would have been, which saving has accrued to the cattlemen of our State.

An order of the Commission directing a reduction of the gas rates to the City of Laredo, by which the consumer will be saved more than 25 per cent was recently sustained by the Supreme Court of the United States. Since I have been a member of the Commission no order of the Commission fixing gas rates has ever been stricken down by the Courts.

The Railroad Commission's policy of oil and gas conservation has yielded to the permanent public school fund, the University of Texas and A. M. College more than forty million dollars, the benefits of which will extend to coming generations.

Standing upon my record in these and many other achievements of the Commission, I ask with confidence my re-election to this highly responsible office; and I pledge a continuation of my best efforts for the public welfare.

A faithful performance of public service in the past is the best guarantee of like service in the future.

## ON THE JOB

## Adult Commercial Classes Are Offered

Arrangements have been made with the State Board for Vocational Education whereby people over sixteen years of age might be offered courses in Commercial Education. These classes will be offered between four and six o'clock each day and will extend over 144 clock hours. The cost to the pupil will be \$2.00. There is no age limit, but the purpose of the work is to give opportunity to people of mature age to get training in Commercial Subjects.

Courses are open in the following: Bookkeeping, typing, shorthand, business English, business law, business arithmetic, filing, office machine work. It is not possible to have more than one or two of these classes going at one time. Frankly, we are not interested in giving the course to any one except those who are sincerely interested in preparing for a vocation. For the purpose we have the backing of the state and federal governments, which agencies will pay three-fourths of the salary of the instructor. At least 50 per cent of the pupils enrolled must be employed in commercial work at present. Others must show that they are good timber for the course.

If adults of Brownfield and community are interested in this work, please let me know at once. COURSE MUST BEGIN IMMEDIATELY IN ORDER TO BE COMPLETED BY THE END OF SCHOOL. The teacher will be a trained specialist.

## Preaching Mission at The Methodist Church

A Preaching Mission has been organized in the Lubbock District of The Methodist Church for the purpose of reaching every Methodist Church in the District with inspirational addresses and sermons to commemorate the two hundredth anniversary of the conversion of John Wesley in Aldersgate Street London in 1738. Sunday evening at seven-thirty o'clock, Dr. O. P. Clark and Rev. Elmer E. Peterson, pastor Asbury Church, Lubbock, will be in charge of the preaching at the Local Methodist Church. Dr. Clark needs no introduction to West Texas People. He is universally known as the strongest preacher in the Conference. Brother Peterson is a most promising young man. Hear these two men Sunday evening. They will do you good.

## Join in On National Used Car Exchange Week

Brownfield automobile dealers have joined the nation whole heartedly in National Used Car Exchange Week, as will be seen by several that have special prices listed in this week's issue of the Herald.

It is the hope of the nation from the president down, that the bulk of the used cars, which have been reconditioned and almost made new by these dealers, can be cleaned up, in order that factories may be started up full speed, putting thousands of people to work again.

This is the first shot to be fired at the recession by automobile manufacturers and dealers all over the United States.

Mr. and Mrs. M. B. Sawyer have returned from an extended trip to South Texas.

## South Plains Fixed Up With a Fine Season

With three snows in a row, as well as some rainy, misty weather, Terry county and the south plains in general is certainly fixed up on a season, and people are rejoicing, for it is not often that this section is fixed up as well on a season. It has often been stated here that if you give Terry county farmers a season to start with, they will always make a crop.

This has literally been proven out in the last 29 years we have known the county, and from those who were here before us, when farming first started in the experimental stage about 1903 or 1904, they agree. Here is the reason: Our deep, sandy soils are underlaid with a red clay subsoil that holds moisture like a jug, and showers enough to get plants up and started, is all we require, of course including showers along during the growing season. Indeed these showers need not necessarily mean what is termed a season.

Our usual cool nights help a lot in making a crop on a minimum rainfall, and we are usually more free of hot winds than any other section of west Texas, or even central Texas. But this does not mean that you do not have to keep your crop clean. There is no country on earth that we know of where weeds and crops grow up in the same furrows asbrothers and sisters.

## Mr. Farmer, Be Sure To Read This Ad.

We call the attention of Terry county farmers to the ad this week and next run over the signature of the First National Bank and the Brownfield State Bank, captioned, "ATTENTION COTTON GROWERS." In this ad is a lot of information that you need to know about your government cotton loans.

Read every word of it, and then go to your county agent if you are in need of further information. We wrote an article recently on the value of ads in an educational way. Well, this is one of them, although not one of the series we were discussing at that time.

This ad is placed in the Herald and paid for to give you some needed information. Don't fail to read it.

## McSpadden Building Own Green House

Mrs. Flem McSpadden is putting in a small green house in her back yard in order that she might better care for her growing floral business. She has also put out a rose garden in the rear, and work is going forward on a stone wall fence around the place.

She is converting their garage into a front work room, which will be connected with their residence. A large electric refrigerator, ten feet long, will care for her flowers, keeping them fresh.

When the job is completed, and she is ready for the formal opening, the Herald will go into further details about her plant.

## The Cat and the Canary For Boy Scout Benefit

Big New York Press to be produced by C. Long and J. Holt for the benefit of the Boy Scouts of Brownfield. Much time has been spent on the direction, in the selection of the cast and last but not least in the building and painting of the scenery that will be just as good in every way as that of the New York production.

Never has Brownfield or any city in this section had the pleasure of having a play of this type with the complete production as this one has.

You owe it to yourself and to your community to support this type of play.

## Geo. Warren With The Stewart Grocery

A man that has watched the trend of politics in Texas for years was heard to say this week that while Governor Allred's intentions might be the reverse, he was making votes for McCraw and McDonald every day. That old saying, "whom the god would destroy, they first make

mad," is pretty true. American people never like to see a man martyred and to try persecution on a man, is the best way to make votes for him.

The entire press of the south Plains in particular, and west Texas in general, will sorrow in the loss of J. W. Smith, former veteran editor of the Lamesa Reporter, until he sold it about a year ago. You may not have been able to always agree with Editor Smith's editorials, but you always had a conviction that he was square, honest and sincere, and that he loved and respected his fellowman, although in disagreement. You never had to guess where Editor Smith stood on any question.

Much is being said but little done outside of Texas about the sale of marijuana in Texas, which thrives not only in Texas, but in most any section of the United States, even in the wild state, and especially so when cultivated. It is said that there is no known narcotic that so adversely affects its users. While most opiates dull and deaden the sensibilities, marijuana seems to entice the victim to commit some of the most heinous crimes in the category of criminal jurisprudence. It is stated authoritatively that some cigarettes contain the weed, and therefore there will have to be a law to cover the whole United States uniformly, to control the raising and sale of the weed.

This is the day of the youth, and seems to be the day of youthful ambition. This week a young man approached the writer for a job, and when told that he had a full crew just at present, he then informed us that he did not want us to exactly hire him, but to permit him to get out and make us some money—yep, wealthy. We informed him that we would like to see one rich country editor that had got that way without the death of a wealthy relative, which is indeed rare. He stated that until he found a man that would permit him to make them into a man of leisure, he was selling magazines on the side to make his way. Wouldn't we like to become a regular reader of Saturday Afternoon Colliers? Thus ended our interview. Just think how close we came to being a multi-millionaire—but missed.

Former Editor Lamesa Reporter Found Dead

LAMESA, Feb. 26.—Final rites will be read Monday for J. W. Smith, sr., for 20 years owner and editor of the Lamesa Reporter, who was found dead in his bed at 9 o'clock this morning.

For the past several days the former editor had been slightly ill with influenza but his condition was not believed to be serious. Physicians attributed his death to neuritis.

Smith owned and edited the Lamesa Reporter until a year ago when he sold the paper and retired from active work. Before going into the newspaper business 22 years ago, he was a Presbyterian minister and held pastorates in several West Texas towns. He was a firm supporter of West Texas and had been a leader in civic development of this section.

Coming to Texas when he was 13 years old, Smith lived for several years in Waco. He was a graduate of the University of Texas, class of 1891.

He is survived by the following children: Mrs. Fred Mitchell of Lamesa; Mrs. T. Bauleh of Clyde; Mrs. Ed Houston of Mission; Mrs. P. M. Finley of Corsicana; Milton Smith and J. W. Smith, jr., both of Glendale, Calif.; Robert Smith of Pomona, Calif.; Sam Smith of Bakerfield, Calif.; and George Smith of Alturas, Calif.

**GOMEZ**

"Aunt Tillie Goes to Town," will be presented at Gomez tonight. For a real good laugh, that leaves chuckles in its trail, how much would you pay—ten cents or perhaps twenty cents? Absurd—a good laugh is priceless. Still, we can tell you where numerous ones can be had by the children for 10c and by the adults for 20c—just be among the fortunate gathering, when the first curtain rises in the Gomez school auditorium, at 7:30, this evening, Friday, March 4.

On the production of "Aunt Tillie Goes to Town," is a riotous farce in three acts. Certainly this performance is going to be one that the whole community may be proud of and will establish a new high record for attendance. In between acts, little Misses Patsy Ross, Peggy Ruth and Billy Beryl Black, also Donald Wayne Anderson of Brownfield will entertain. Their performance will be worth the price of the ticket alone. This play is being sponsored by the local P.-T. A. The proceeds to be used for purchasing stage furniture, and other things badly needed for our school. Don't forget the date, March 4.

And don't forget to come. Remember Sunday School. You are cordially invited to be in Sunday School at the local Baptist church or Christian church at 10 a. m. Several from this community attended the auction sale at Tahoka last Tuesday.

Mr. and Mrs. W. H. Key and children were called to Lamesa Wednesday of last week to attend the funeral of an aunt, Mrs. Walter Moore.

Mr. Hansel Marchbanks returned Wednesday from Sarah, Oklahoma, where he has been employed for the past several weeks.

Mr. D. D. Whitley was a week end guest in the J. J. Whitley home. Mrs. Kenneth Furr and children made a business trip to Lubbock on Wednesday of last week. The whole village and vicinity was entertained on Wednesday evening of last week, when the local Ex-Students Association went on a scavenger hunt, under the efficient direction of Mrs. Ross Black. Divided into three groups led by Miss Nora Grigg, Messrs. Raymond Green and Stevens Heartsill, the "Exes" scoured the vicinity for such articles as 6 white horse hairs at least 6 inches long; chicken feathers, a hard boil-

ed egg. Miss Gregg's group won first, completing the hunt in 35 minutes. Raymond Green's group following up with a close second. Refreshments of apples and sticky candies were served to the twenty exhausted, but happy "exes." It was truly a delightful affair.

The local seventh grade agriculture class, under the supervision of their instructor, Miss Nora Grigg, visited in Lubbock and Texas Tech last Saturday. They made careful inspections of the agricultural departments of that school. The ate lunch in the park and spent the remainder of the afternoon visiting the airport, and the business section of the city. This group feels that this was one of the most worthwhile excursions of their school term.

Messrs. and Mesdames W. E. Winn and E. E. Trollinger and children were Sunday afternoon guests in the J. E. Lee home.

Mr. and Mrs. W. G. Swain and children visited relatives near Brownfield, Sunday.

Mr. John Newberry returned last week from El Paso where he has been visiting relatives for the past several weeks.

Mr. and Mrs. Earl James Brown and family visited relatives at Brownfield, Sunday.

Mr. Thos. S. Doss, Sr., and children visited relatives at Wellman, Sunday.

Mr. and Mrs. V. V. Brown and children visited friends in Johnson community, Sunday.

Mr. and Mrs. Kellie Sears and sons visited relatives in Johnson community, Sunday.

Mr. and Mrs. J. B. Patton and children of Abernathy visited in the home of J. W. Christesson and family, Sunday.

Sick list: Mrs. Bernice Stice, Mr. Ray Moore, Jewell Faye Green, Mrs. J. J. Whitley, Keeth Furr.

Mr. Milford Condra left several days past for Eunice, N. M., where he has employment.

Mr. and Mrs. Lloyd McNabb and

son of Post visited Sunday in the Kenneth Furr home.

Mr. and Mrs. Henry Decker and little daughter and Mrs. R. A. Whitley and son, visited relatives in Brownfield Sunday afternoon.

Misses Rena and Nellie McLeroy were co-hostesses to the Live and Learn Leaders Club on Thursday of last week, with a reverse backward party. Guests backed in, dressed backward and entered at the back door of the teacherage. Refreshments of cookies, sandwiches, olives, potato chips and hot chocolate was served to the ten members present. The remainder of the evening was spent in interesting backward games. Mrs. Lee Fulton was acclaimed the most backward one present.

We extend a hearty welcome to Mr. and Mrs. Ed Thompson and family to our community.

A movie camera man visited the local school on Friday morning of last week and snapped pictures of the children and teachers while at play on the campus. Many local people attended the Rialto Theatre that night where they saw the reel flashed on the screen, much to their delight, and amusement. Who knows? We might have movie stars in the making.

Remember Sing Song meets at Johnson the first Sunday afternoon. Come and enjoy the good singing.

AUSTIN—Participants in the Texas political circus, and observers of that biennial phenomenon likewise, have come to the Ides of March with the situation regarding the race for Governor badly muddled, and Gov. Allred, the key-man, still declining to clarify it by declaring himself in or out of the race for a third term.

The Senate investigating committee after a three day session in Dallas, was to resume here Wednesday, with Attorney General Bill McCraw, and Mrs. McCraw, appearing by invitation of the committee, on McCraw demand. Political observers here agreed that McCraw's appearance before the committee will likely have a quick and decisive effect in shaping up the situation definitely, for it is likely that McCraw, an avowed but as yet unannounced candidate, will make public his formal announcement and his platform. Allred claims he is waiting "to see the platform" before he makes his declaration. The action of Jim Ferguson is expected to hinge on what Allred decides to do about running. And Ernest Thompson, an announced candidate, is quietly making hay by filling speaking engagements and laying down in these speeches a political philosophy which his friends say embodies his forthcoming platform.

**Senate Probe Puzzle**

Just what the Senate's probing committee, headed by the conservative Holbrook of Galveston as Chairman, and the erratic Joe Hill of Henderson acting as prosecutor, may do next, and what its effect upon the political fortunes of the various candidates may be remained a matter of speculation. Holbrook, denying any political intentions on the part of himself, pointed out his well-known enmity for Allred, and declared he was ready to summon anybody who could throw light on the affairs of the State departments, regardless of their political affiliations or ambitions. Hill has been sniping at the Railroad Commission and Ernest Thompson for some weeks, criticizing the allocation of allowances among the various oil fields, and the Sunday shutdowns. Dissention already has broken out among the Senators on the committee, with Holbrook and Hill apparently lined up together, for the time being, and Weimert, Stone and Collie opposing some of their tactics. Collie bitterly criticized Hill and Holbrook for issuing subpoenas for the bank accounts of McCraw and Mrs. McCraw, declaring it was done without his knowledge or consent. Best informed observers here believe that the Dallas session of the investigation committee had done McCraw no harm, and, that if he acquires himself creditably in his personal appearance in Austin this week, he has been helped by the committee's actions.

**Thompson Aloof**

Remaining aloof from the Allred-McCraw battle, and taking advantage of the situation to get in a few effective campaign licks for his own candidacy, Thompson sounded a keynote in a speech at Wichita Falls, by declaring that talk of balancing the budget can't mend the state's financial ills, and said he favored, instead "Budgeting the balance." He pointed out the state's general revenue income increased by \$4,000,000 last year, and declared by living within income, this increase would retire the \$15,000,000 deficit within four years, without new or additional taxes. "There has been too much running to Austin and Washington to get something from the Government," he said. "We should remember that government is us—you, me, and the other fellow. When we get something from the government, we're getting it from ourselves. The time has come to call a halt to government spending, which has increased 2900 per cent in one generation for state purposes alone."

**Oklahoma Loses Federal Cash**

Texas politicians who would seek to build a political machine by promises of "pensions for everybody" were shocked this week, when they saw Oklahoma, the only other state which rivals Texas in the universality of its pensions gifts to old folks, cut off off from Federal pension grants by the Social Security Board in Washington, until further notice. Alleged misspending of \$700,000 of Federal pension money, which investigators said was paid to "persons clearly not entitled to receive assistance" was given as the cause. No further federal money will go to Oklahoma pensioners pending a thorough investigation and possible revision of the State pension administration. Texas, with 113,000 pensioners drawing benefits, exceeds every other State but Oklahoma in the percentage of oldsters who are drawing benefits. Any substantial increase in the number of Texas pensioners, officials here believe, might bring similar Federal action in the Lone Star state.

**Chain Store Tax Cash**

Receipts from the State chain store tax, which inoperative during a two-year court battle and was finally upheld by the State Supreme Court, mounted above the million dollar mark this week, with additional payments yet to be made. A fourth goes to the school fund, and three fourths to the ailing general fund. Many merchants learned with surprise, as the Comptroller began to collect the tax, that owners of a single store are subject to a small tax, the levy increasing with the number of stores. Some of the larger national chain organizations have begun reducing the number of stores in the larger cities of Texas, concentrating their business in a few huge "super-stores" to avoid the maximum tax of \$750 per year.

### Terry County, The Diversified Section

We have noted several farmers from our neighboring counties here of late, trying to get places, and give various reasons for seeking to move. The most common that landlords in most of the hard land counties wanted them to put the whole creation in cotton, including the cow lot and horse lot. That generally they would wind up with a huge cotton crop and then buy feed next year.

But even Terry county tried to bust a bottom off raising cotton this past year, but along with it, has an enormous corn crop which is now being gathered. Based on an estimated acreage of 70,000, and a low estimate of 15 bushels per acre would give Terry a corn crop of over one million bushels. Some say it will average nearer 20 bushels per acre, and if so, the yield will be 1,400,000 bushels.

Terry county usually stands third or fourth in corn production in the state, and fourth or fifth in the number of hogs shipped to market. These two naturally go together. Where you find corn production, you naturally find hog production in line. This is a fine hog section, as they are usually very free from cholera, and other ills that effect swine in the east. Also, there is a small loss from farrowing on account of bad weather.

As little as you would think about the matter, literally thousands of bushels are being trucked to a neighboring county now that has almost identical soil as Terry, but they have gone hog wild over cotton, they are now having to buy pretty high priced corn with mighty cheap cotton money to make their 1938 crop. The writer was really surprised when he heard the above, but verified the story as facts.

The Herald will always be proud of Terry if she will continue to produce in the neighborhood of 30,000 bales of cotton and around a million and a half bushels of corn, along with other feed, than to do 100,000 bales of cotton, and then buy feed to make the next crop with. However, the Terry county cotton crop will go well over 50,000 bales this year.

### The Band Mothers Purchase Uniforms

Monday was a happy day in the Brownfield schools when some 35 boys presented themselves for measurement for new band uniforms. The band mothers have accomplished a mammoth undertaking in raising funds for these snappy uniforms. The total cost will be about \$975.00, and the cash is on hand to pay the bill. Mrs. C. F. Hamilton is president, Mrs. J. D. Miller, vice-president, and Mrs. R. L. Bowers, secretary and treasurer. About one hundred pupils of the schools are enrolled in band and saxette groups.

### Food Handlers Must Take Examinations

AUSTIN, Texas, March 1.—For the protection of the public a law was passed in 1921 making it mandatory for every person who is employed in any public eating place, bakery, meat market, dairy or candy factory to secure a health certificate from a reputable physician. This law is intended to eliminate all persons having any communicable disease from handling any foodstuff. These certificates must be renewed every six months.

Typhoid fever, diphtheria, and amoebic dysentery carriers have been found numbers of times working in dairies, cafes and other places where food is prepared or offered for sale. It is not too much for the consuming public to demand that those who sell them food shall be free from communicable diseases. If the examinations for food handlers are properly carried out, much good will be accomplished in protecting the health of the buyer as well as giving the applicant for a certificate accurate information as to his physical condition.

The Texas State Department of Health has repeatedly advocated periodic physical examinations for the general public, as it is during these examinations that many incipient diseases may be discovered and treatment begun in time to stop its development to such a degree that treatment will not be helpful. Many deaths and much suffering would be eliminated if every one would have this periodic check. In the case of food handlers, only the diseases that are communicable will withhold the issuance of a certificate. The cost is money well invested and the consuming public should demand that those they buy from have this evidence of good health.

### SIX GROW FAST

DENTON, Feb. 28.—Texas is among the six states in the union which have maintained a 20 per cent increase in population both in the period 1910 to 1920 and again between 1920 and 1930. Other states are California, Florida, Michigan, Arizona and New Jersey. California is by far the leader in the last census, having recorded a 67 per cent increase.

### How Big Is Texas ???

How big is Texas? Well, Texas is this big—that the natives of El Paso smile when they speak of those "so and so Easterners, the citizens of Galveston!" That the train-traveling Londoner drops his monocle in wide eyed surprise when told: "Of course you're still in Texas!"

Whether you judge it in terms of people, area, animals, crops or natural wealth, Texas is a big state. From the eight foot spread of a long horn's point to the twenty-five mile Houston ship canal, Texas does things in a big way. And that bigness isn't just physical. When it comes to things of the heart and spirit, Texas can qualify for greatness also. Friendship, loyalty, patriotism, "push," vitality, spirit—these are BIG virtues, Texas virtues.

How big is Texas? Well, Texas is this big—that "billion" is just about the most popular word in the language. A billion feet of lumber per year, mineral products worth a billion dollars every two years, a billion in manufactures produced every year, a billion barrels of oil every two years, a billion dollars worth of Cotton, corn, wheat and other farm products every three years—Texas the billionaire state.

So big Texas, the delight of the statistician with a "now if all the pins" complex. It's farther from El Paso to Besant than it is from New York to Chicago! If Texas were as densely populated as New England, it would take every inhabitant of the United States to fill it up. If Texas raised all the farm products her fertile lands could produce, the rest of the farm states could quit business. Those are true Texas tall tales!

How big is Texas? Well, Texas is this big—that no few paragraphs can hope to even summarize the greatness of her plains and valleys, her cities and ranches, her forests and deserts. So big Texas—The Lone Star in the field of forty-eight states. —Jayton Chronicle.

### UN-BLESSED EVENT

"Honey, I hardly know how to tell you," said the young wife, "but soon there will be a third in our little home."  
"You don't tell me!" exclaimed the husband. "But are you sure dear?"  
"Positive. I just received a letter from mother saying she will arrive tonight."

### Map Improvement Promotes Safety

PONCA CITY, Okla., Mar. 1.—A major improvement in automobile road maps which encourages the motorist to think in terms of reasonable driving time between given points rather than mileage to be covered is announced by the Continental Oil Co. in connection with the issuance of maps of the new type by the company's Conoco Travel Bureau at Denver, Colorado.

The new feature which will appear on the face of all Conoco maps consists of the addition of actual driving time in hours and minutes from town to town. These figures are printed in red ink and appear directly under each of the usual mileage figures which give the distances between cities and towns. A footnote points out that the driving time has been calculated for normal traffic conditions and dry roads and that allowances should be made by motorists who drive unusually fast or slow.

The improvement is also in use by one other major oil company and is understood to be under consideration by several others. This strong emphasis on reasonable driving time rather than the factor of distance-to-be-covered should do much to promote highway safety, say Conoco officials.

Our good friend W. R. Stewart was in this week to renew for his Herald, and to drop in an ad. Just wanted to let 'em know he was still doing business at the old place, and would appreciate their business, large or small.

### NATIONAL FOREST LAG

Ranking first in many things, Texas slips a long way down the ladder to twenty-fourth place in national forests. There are only 614,000 acres of National Forest land in this state, as compared to more than 19,000,000 acres in California, Idaho and Alaska.

### MRS. O'CONNOR PASSES

While her passing had been expected for some time, the death of Mrs. J. H. O'Connor, 74, last Thursday morning was a shock to the community. Her physician believes that a water clot at the base of the brain was the immediate cause of death, as she was paralyzed for some time. The large number at her funeral, and the profuse floral offerings, attested her standing in the community.

Mrs. O'Connor was beloved by the entire community, and we heard more than one person say that of such as she, their minister had no trouble in preaching their funeral. She obeyed her Lord in Baptism at the early age of 14, and had therefore lived a devoted Christian life for 60 years.

The subject of this sketch was born at Sparta, Tenn., Aug. 20, 1864, and as Miss Josephine Stroud married J. H. O'Connor on March 16, 1886. To this union six children, three girls and three boys were born; Mrs. R. E. Hamilton, city; Mrs. Edna P. Cook, Colinga, Calif.; Mrs. Lillian Rogers, Amarillo, Norvel, El Monte, Calif.; Lester, Salisbury, Mo.; Eustace, Bakersfield, Calif.

Mr. and Mrs. O'Connor moved their family from Tennessee to New Mexico in 1909, and to Brownfield in 1924. Following funeral services at the church of Christ conducted by J. H. Killian, the body was laid to rest in the Brownfield cemetery. Funeral under direction of Brownfield Funeral Home.

## THE PARABLE OF A SOWER

In Remembrance of Mrs. J. H. O'Connor.

A sower went forth to sow the seed. By doing many a kindly deed.

She taught a little child the right, And helped the needy in their plight. She preferred Christ to the doctrines of men And kept her garments unspotted from sin.

The orphan child she clothed and fed And to the throne of God she led. To a bitter heart with anger stirred She spoke a soft and gentle word.

The sower who went forth to sow, Has reached the ending of her row. She has grown old, her race is run, We stand to view a work well done. The seeds are growing in the field, And some an hundred-fold will yield. And many lives the fruits will bless With lasting joy and happiness.

For her good work will live on and on, Although her soul from earth has gone. —J. H. Killion

## Let's Talk About Clothes

DENTON, Feb. 28.—Between Shirley Temple and Princess Elizabeth the world of children's fashions has been completely revolutionized. No longer do we hear mothers bemoaning the fact that their children are at "that ugly age," because smart designers have found that certain tricks can hide the flaws in any case, from one to a hundred.

Little brother and sister are now about ready for their spring wardrobes, and if mother is wise she has started long ago preparing for the deluge. Like other parents, she has found that the ducky little creations in the children's departments also have ducky little prices, and plans to try out her luck with homemade styles.

Dresses and suits in the military mode never fail to delight little wearers, and the effect is easy to achieve with braid and little yarn balls. Classic sailor suits and dresses with a plentiful supply of stars are in this even-popular class too.

Just as in milady's clothes, the peasant influence will rule little girls' play dresses this spring. Full, short skirts, little full-sleeved blouses and sashes are very much in vogue.

Mistresses Midget plans to follow her big sister in the bolero movement. Trim little Scotch plaid belted skirts with plaid boleros and little round-collared blouses make the kind of children's togs that people go over.

And oh yes—the hemline question that bothers girls at Texas State College for Women and everywhere else—little Miss Priss just says make it at least two inches above the knee and all will be well.

SEE ANY CAR DEALER DISPLAYING THIS SIGN

Get there early while the choice is wide—fine cars now offered at rock-bottom prices

This National Used Car Exchange Week gives you a great opportunity to OWN A BETTER CAR for a small investment. Automobile dealers co-operating in this big sale have a fine selection of used cars — and prices are far below those of several months ago.

Many are 1937, '36 and '35 models — backed by the finest of dealer guarantees. All have thousands of miles of first-class unused transportation in them.

And the "first-class" transportation of these modern cars represents satisfaction which the owners of older cars can hardly imagine. Beautiful, modern styling — a more comfortable ride — more room for you and your luggage — finer,

more powerful engines — better gas mileage — better brakes — bigger tires — dozens of improvements introduced since your old car was built.

Now's the time to make the switch, while you have more to trade and less to pay. Your present car may cover the down-payment—balance on easy terms. If you have no car to trade, you can still take advantage of the low down-payments and easy terms during this sale.

K. P. DEFINED

The colored soldier had been peeling potatoes until his hands ached. Turning to a fellow K. P. he said "What dat sergeant men when he call us K. P.?"

Washington, D. C.

FORWARD-LOOKING CONGRESSMEN

The Senate has discarded one filibuster and now, until a new one shows up, both the Senate and House are bending down to realities and appear to be getting up steam for the long hard pull toward business recovery—and for early adjournment in the interest of who gets elected to what in the autumn all-American political sweepstakes.

But while the late special session was a do-nothing Congress the present term, viewed from any angle, is not. Those who in glee-filled anticipation predicted that Congress would kick over the traces on emergency relief appropriations, or the farm bill, now find themselves out on a twig—with no soft landing place in reach.

Here in Congress we have the spectacle of radical New Dealers who consistently out-New Deal the New Deal, and straggling survivors from the submerged Tribe who conformably out-Hoover Mr. Hoover, caught in the act holding hands and working together constructively.

This is a condition known to biologists as optimum, but on election years seekers after re-election secretly know it

as good politics. So, we are reminded that election year carries some advantages along with its many drawbacks.

TRENDS

Checks are now going out, under the terms of the farm control or soil conservation act, a total of \$400,000,000 is expected to reach agricultural sections from this source alone. President Roosevelt still pulls for the adjustment and stabilization of industrial commodity prices, and contends that such a program is essential to full business recovery.

HIGHWAYS FOR FAST AUTOS AND FASTER SPENDING

Senator Robert J. Bulkley of Ohio, sponsors a movement calling for approximately eight billion dollars to be used in the construction of superextended Federal highways, which he contends will be self-liquidating and self-refunding through a system of moderate tolls.

Picture a series of travelways crisscrossing the continent, where even the most humble motorist may, for the payment of a small toll, travel de luxe as to speed, and live sumptuously or fast in his trailer for hours on end without having to pause for intersecting roads, or for cities, even. Some complain that by the time such a project could be completed everybody would be traveling by air. But good roads are of immense value, and Sen. Bulkley's proposal is regarded by many as embodying strong elements of practicability.

THE U. S. AND US

We, the people, sometimes forget to remember the great good fortune which is ours as citizens of the good old U. S. A. Of course we have much to growl about, and we never fail to growl. No political party is responsible for what our country means, or should mean to us, and no special class or creed can claim credit for the goodness and greatness of America, and our sublime principles of freedom.

In the interest of a better understanding of and appreciation for what we are privileged to enjoy at home, many of us, especially those who are always crying "down with everything," should migrate to Moscow, Berlin or Rome. In comparison with everyday conditions in those countries, the darkest period of our depression would look like harvest time and bumper crops in the Garden of Eden.

In Europe—the origin of our civilization and most of our misfortunes—we have the spectacle of one Adolph Hitler the German calendar back in 1914, while in Washington we see Congress not in total agreement as to specific formulas, but practically united in thought and general purposes on the proposition that in this country jobs shall be made safe for those who want to work.

KEEP OUR POWDER DRY

Men and dogs gone mad should be lethal-gassed. Times may change but truth never changes, and the eternal truth that sword swallowing egomaniacs always perform one time too many, and perish, does not provide a retroactive remedy for the sufferings inflicted by these maniacs while they are allowed to run loose.

While we keenly desire to be a good neighbor, we do not propose to ever again lend England our lawn mower—nor can any of them borrow our cat for raking their burning chestnuts out of the fire. While we are willing for Asia to be made safe for Englishmen, we are quite stubbornly convinced that the partnership of Adolph, Benito & John can and must muddle through without our aid.

Jim Hudgens, who has been attending the Curtis Wright Technical Aeronautical School in Glendale, California, made his solo flight last Saturday and attained a perfect "three-point" landing, which is something in the flying language. He will receive his flying license and at the same time he is awarded his diploma in March. This is a very nice distinction for the youthful Jim.

ASPECTS OF ADVERTISING

Two men spent an afternoon together at golf. They were not very well acquainted, and at the clubhouse afterward one said to the other, "By the way, what is your line of business?"

"I am a minister," was the reply. The other in great confusion apologized to the cloth for the shocking profanity he had used on the course.

"Never mind," twinkled the minister, "I'd probably swear, too, if I played as badly as you do." That story—it's common property—may come to the minds of readers interested in the trends and problems of advertising. Perhaps some will draw an analogy between the golfer who compensates for his lame game by bad language, and the advertiser who tries to conceal his lack of anything to say for his product, by much irrelevant talk about glamour and sex appeal.

His sex exists, certainly, but there is evidence that he is not the whole picture, perhaps not much more than a rough edge of it. An aspect of advertising to which the laity has given little attention is that in which the "adman" has set up checks upon his own behavior.

Back in 1911, counsel for Printers' Ink, a leading advertising magazine in the United States, drew up a statute which would make false advertising a misdemeanor. Most of the 48 states have since adopted The Printers' Ink Model Statute as written or with slight modification.

You've heard the slogan "Truth in Advertising." It came out of the 1912 convention of the Associated Advertising Clubs of the World (now known as the International Advertising Association). And from the same meeting came the National Better Business Commission, whose purpose is to forward higher standards of honesty and reliability in advertising.

Your Doctor Knows THAT DRUGS MUST BE PERFECT

WE WOULD LIKE TO SELL "CUT-RATE" DRUGS BUT WE WON'T DO IT!

We know that "cut-rate" drugs are the greatest lure in the world to attract customers. And we know that it's possible to make big profits on inferior drugs at "cut" prices. Naturally, we like to make money, but we don't want that kind of money. We prefer to continue our policy of selling fresh, potent drugs and remedies prepared by recognized pharmaceutical houses. Maybe we won't make as much money, but we'll maintain your confidence and our own integrity.
