USS Missouri To Be Scene Of Historic Japanese Surrender

NUMBER 5

Hotel And Office Building Crying Need Of Brownfield

While the writer had his hot cakes and coffee Wednesday AM of this week, J. O. Gillham, president of the Brownfield State Bank, sat at our table for his usual morning cup of Arbuckle. Under such conditions, it's just natural for two guys to air their views. So, naturaly the conversation started.

J. O. had gone up to Lubbock the day before on business, and stated that in his conversations with a number of Lubbock business men, and calling to mind Terry's vote for the farm to market road bond issue, Saturday, Gillham stated that they were almost unanimous in the opinion that Brownfield is putting itself into shape to become one of the best if not the best towns on the south Plains-Lubbock excepted by them, of course.

Then our conversation ran to Brownfield's immediate needs, and J. O. suggested a real good hotel was badly needed. "How about a good office building," we ventured? He agreed readily that we need both, bady.

But let us keep in mind two for you at the County Clerk's

Light Vote In Terry **County Saturday**

About 20 per cent of the voters of Terry county, turned out last Saturday to vote on Four Constitutional Ammendments, and on Road Bond issue. About 550, out of a normal vote of 2500 responded. The county has a potential vote of 3100.

The ratio as to numbers voting, and for and against each amendment was about the same in each box, we give only the county totals here.

Soldier Voting:

Against 126 For 417 Legislators Pay: Against 448 For 97 Supreme Court:

For 235 Against 305 Welfare - Pension:

Against 216 For 334 A very light vote over the State. The proposed increase in Legislators pay, was defeated by an almost two to one majority. All majorities.

A permanent record of your military discharges will be made

Town and Farm Push

Ever since our government asked town and farm women to save used fats, the record pre-viously set by city women has taken a beating.

We must keep up the good work! This country is facing a shortage of 1 billion, 500 million pounds of fats in domestic supplies, alone. Tons of vital war and home-front supplies requiring fats are still needed. We in towns and rural districts are in a better position to save fats than most city folks, so the government is depending on us.

Save every drop, every scrap. Melt down solid fats. There's never too little to save! Butchers will give you up to 4¢ and 2 red points a pound. If you have any ficulty, call your Home Demonstration or County Agent.

to Invade 2 1945 GRAIN CROP

• Remember 1944, with its bumper grain crop ... serious shortage of men and farm machinery ... thousands of acres of precious grain destined for destruction?

Remember how the Massey-Harris Self-Propelled Harvest Brigade saved the day for thousands of farmers last year - swept over mid-western and western grain belts, harvesting more grain per hour, per man, per machine and per dollar than ever before

If your fields are not among those to be

visited by the 1945 Harvest Brigade, let us tell

by any other type of combine?

You know that another emergency exists in 1945-increased crop quotas-the supply of labor more critical than ever and new machinery still short. So again, hundreds of Massey-Harris Self-Propelled Combines are banded into a new and still greater Harvest Brigade. Wherever harvesting assistance is most urgently needed, you'll find the fighting Brigade ready to lend a helping hand.

A WAR EMERGENCY MEASURE

The Harvest Brigade is strictly a wartime measure you where and when it will be operating. Be sure -designed to make critical materials do the greatest possible amount of work. Massey-Harris would like to build Self-Propelled Combines for all farmers who need them now, but materials are not available. When this emergency is over, they will be produced ... and Self-Propelled will be YOUR ANSWER TO THE HARVEST PROBLEM in the years to come.

Semi-Mounted Mowers

7-Foot Self-Propelled Clippers

Herman Heath, for the past 15 years district manager of West Texas Gas Co., here, has been transferred to the Midland-Odessa area with headquarters at the former city, he informed us this week. This we understand is a promotion with increased pay. He will take over down there about the first, he stated, but owing to the fact that he cannot get house there, his family will remain here for the present.

Herman and wife have made a host of friends here, as they have taken a leading part in civic and church matters. He has been a members of the Lions Club for years. Their many friends will regret to see them leave, and he stated that he really disliked to leave Brownfield, but our congratulations and best regards go with them, He will

keep his farm and maybe his residence here.

At the time Herman made the above statements he was not advised who would take his place

H. C. Wood, 8 miles southeast of of town. 1p FOR SALE:-640 acres in Terry county, improved, about 275 acres in cultivation; balance grass land. Dial 5493, Mrs. Geo Arnett, 1905 Ave. N., Lubbock, Texas. 5-7p.
