

Greetings Cowgals, Cowpunchers!

BROWNFIELD EXPECTS THE LARGEST RODEO CROWD ON AUGUST 15-16-17

The Old Town Will Be In Holiday Attire, to Greet the Ranch Hand Artists From Far and Near. Brownfield and Terry County Extends The Glad Hand.

The Herald along with the rest of the citizens of Brownfield and Terry county, welcomes the rodeo and ranch people from west Texas and New Mexico, to what we expect and hope to be the best rodeo and largest crowd that has ever been seen in Brownfield and vicinity. Brownfield and Terry county have grown up in the atmosphere of the ranch and ranch hand, and know their likes and dislikes.

When the Herald began business in Terry county in December, 1903, this was then strictly a ranch country. Very little farming was then under way, and our oil resources were a deep dark secret, hidden 5000 feet under the sod. There was some feed raised to feed the saddle horses, but soft cotton was planted in a limited manner. The ranch dollars meant everything then and prior to that time.

And while many of us have changed our avocations, we still have the blood of the cowman and cowboy in our veins, and most of us get a thrill by the prancing roping steed, and the dust of the branding pens. Like the boy was about his corncob, "we have not gone back on our raisin'."

Of course in the early days, there were no rodeos as they are known today. True, we had some riding and roping, including goat roping on picnic and barbecue occasions, including the "tournament" wherein the rider with lance in hand snipped rings from posts as he rode by. And even of Saturday, to create a little excitement, we generally chipped in to see some local cowboy ride, or try to ride some "outlaw." Yes, the streets were hard, for the contests between rider and horse took place, generally on the west side of the public square. The soil was blown off the street, to the clay, but the rider was betting his skill against the horse that he would stay the limit.

Now days, we have everything under control, as the Marines would say. The decks at the rodeo are all cleared, everything is done according to time and Hoyle. Nowadays, the winner gets a considerable pot of money, and has a good time with it. Then, if the pot amounted to as much as ten dollars, the winner thought he was "in the money."

So, let us add again, that the old town is tickled to have you girls and boys, and we hope your stay will be both pleasurable and profitable, and none of you get hurt.

In the meantime, let each and everyone of us make himself or herself a committee of one to give the stanger within our gate the glad hand and any information they might wish.

STRANGER, HERE IS OUR HAND!

SING SONG SUNDAY AT NAZARENE CHURCH

Mack Thomason was in this week and announced there would be a sing song Sunday afternoon at the Nazarene church, situated at the corner of West Tate and Second streets.

All lovers of good gospel singing are invited to be there with their throats free of frogs.

Mr. and Mrs. Tom Neely and daughter, Jan, visited relatives and friends in Sayer, Oklahoma, last week.

Rodeo Caravan Victim Buried Here

Funeral services for Aubrey W. Jones, who was instantly killed in an automobile-truck crash near Lovington, N. M., Thursday of last week, were conducted here at the Church of Christ, last Friday at 5:30 p. m., with Bro. Joe Chisholm officiating, followed by interment in the Terry County Memorial cemetery, directed by Brownfield Funeral Home. He is survived by his parents, Mr. and Mrs. R. D. Jones, of the Johnson community, and by two brothers, R. D. and Norman G. at home, the latter being out of military service only a few weeks before. Aubrey is a discharged veteran of World War II. The family had resided in this county several years, and are well known farmers.

The fatal crash occurred when the car he was driving, being about the third back from the leading car in the caravan of 12 cars, on a boosting tour for the rodeo now in progress here, was struck almost head on by a large commercial truck, out of Amarillo. The victim's automobile was practically demolished. The truck turned over in the barrow pit, 100 feet away.

Billy Winn, local rodeo performer, and C. C. Copeland, Jr., of this city, riding in the car, were also injured. They were rushed to Lovington to a hospital, 8 miles away. The Copeland boy was released the same day, after treatment for minor injuries. Winn was returned here late the same evening by a Brownfield Funeral Home ambulance, and is recovering in the Treadaway-Daniell hospital of critical injuries of head and shoulder. Driver of the truck sustained only minor abrasions.

The caravan, after giving an entertainment at Plains, had just left Tatum, N. M., going south to Lovington, the truck being headed north. It was about 1:00 o'clock p. m.

PLAINS NEWS

Mrs. Ed Kim, Grandmother Cook and Mrs. J. H. Morris were shopping in Brownfield Tuesday.

Several from Plains attended the matched roping in Levelland Sunday.

Virginia Blanche and Jackie Hays of Barstow are here spending the week with their grandparents, Mr. and Mrs. G. P. Beane.

Mrs. W. H. Hague, Louise Oden, Faye Lusk and Mrs. J. H. Morris were in Lubbock shopping Saturday.

Mrs. Jim Story visited her mother in Lubbock last week.

Mrs. G. P. Beane visited her daughter in Barstow last week.

Mr. and Mrs. Ralph McClellan and Mr. and Mrs. Jesse Criswell are vacationing in Colorado, Oregon and other points.

Mrs. Rachel Duff and Margaret and Mr. and Mrs. Charlie Newell are visiting relatives in California. Mr. and Mrs. John Anderson were in Brownfield Monday.

GRAND JURY TO CONVENE AUG. 26TH

Notices are being mailed to the Grand Jury to convene here at the regular term August 26th. No more than a routine check on offenses is expected. A heavy docket awaits the judge. Mostly non-jury cases. If sufficient are left over a Petit jury will be summoned Sept. 9th.

Mr. and Mrs. Guy Copeland, of Long Beach, California, visited over the weekend in the homes of Mr. and Mrs. Lal Copeland and Mr. and Mrs. Wilson Copeland.

Mr. and Mrs. Homer Nelson and family are vacationing in Ruidoso this week.

Hay! Hay! Hay! Yep, Tons Of It

Seeing the several unusual large ricks of alfalfa hay at the Western stockyards in the north part of town, and the seeming hundred trucks loaded with hay, coming in and out daily like red ants, prompted our roving reporter to check up on it. He finds there was over six thousand tons of such hay hauled in here in the last 30 days, most of which was used by the feeding project, who use forty tons per day, and have four thousand tons in reserve.

Ed Winkle & Sons, with their fleet of trucks, often bring sixty tons per day. Many truckers make a round trip in a day, dispose of it to local dairies and farmers. The feed dealers also handle hundreds of tons. The total value for the past month is \$225,000.00. While some is brought in from Floyd and Hale counties irrigated farms, most of it comes from the Pecos Valley, Roswell to Carlsbad.

Paved roads are appreciated by the truckers, who have perhaps made \$30,000.00 in freight. While a boon to the valley, this year's drought in old Terry has cost us half a million in feed only, so far.

Roswell is getting even with us for the maize, corn and cake we have for many years furnished their area.

Union School Redecorating Its Home Ec. Dept.

Patrons of the Union School are invited to meet at the school next Monday, Aug. 19, for the purpose of finishing the painting and papering of their Home Economics building. A few met Tuesday and started cleaning and painting the kitchen.

The school board plans to buy a new gas stove for the department, and the patrons are urged to help with the work of making the rooms look more attractive. The time is announced for 1:00 o'clock, and they are expected to finish the work in one more afternoon.

If you live in the Union community and can paint or paper, you are urged to be at the Home Economics building at one o'clock Monday afternoon, August 19.

CHAFFIN FAMILY HAVE SERIOUS CAR WRECK

Bill Chaffin and family of Seagraves, had quite a serious car wreck last Sunday morning near Wichita Falls. The car was a total wreck but the family escaped serious injury.

The Chaffin's daughter, Miss Dorothy, who works for Copeland Hardware here, was with the family when the accident occurred. Friends went to Wichita Falls after the Chaffins.

BROWNIES TO HAVE PICNIC

The Brownies are urged to meet with Mrs. Herman Chesshir Monday afternoon at five o'clock at her home, 220 West Buckley. Those attending will enjoy a picnic.

Mr. and Mrs. Bill Maxwell, of Las Cruces, New Mexico, spent the weekend in the home of Mr. and Mrs. Jeff Farley.

Tom May left Wednesday for the regular monthly Shrine dinner and business meeting. He also attended the Shrine - sponsored wrestling matches Thursday night.

Mrs. J. J. Kendrick, Mrs. Basil Reynolds and son, Durwood, all of Lubbock, spent Sunday visiting in the home of Mr. and Mrs. John J. Kendrick.

Already Too Many "Weak Sister" Radio Stations

We take note that two more applications have gone into the CC office at Washington for that many more "weak sister" radio stations at Lubbock, to further clutter up the air channel, we guess. Being as a one watt station maybe, on favorable occasions, capable of being heard inside the city limits of Lubbock, their service to the public will be nil, so far as the area is concerned. They seem destined for advertising gain for a few parties, only.

What the Herald thinks the general public here on the South Plains should do, joined by their Chambers of Commerce, is to get in touch with the authorities that be in Washington, and ask that KFYO or some other concern with ability to deliver, be permitted to get on a suitable wave length, and increase their power so that they might be heard all over the South Plains and eastern New Mexico, day or night.

At the present time, KFYO is readily heard in day time with the old pre-war radio models, and that's all it seems one is able to get, or will perhaps get for years. But when the sun goes down behind the mountains in New Mexico, about all one can hear over that station here in Brownfield is a jingle-jangle and rumble.

We think the fast growing south Plains area is entitled to at least one station that can be heard outside the city of Lubbock at night. On July 27th, when we wanted to get election returns from this section, especially county and congressional returns, KFYO sounded like the supposed babble of voices at the Tower of Babel.

We therefore had to turn to Dallas, Fort Worth, San Antonio, etc., and what they gave about south Plains races could be put in your eye with a dropper. It will take concerted action to get a good night power station, but we believe the area should enlist the aid of Geo. Mahon and Senator Connally in an effort to get the air power boys at Washington to recognize the fact that the South Plains is demanding some recognition.

Let's forget the fact that KFYO is owned by and operated by Lubbock people, and remember that it will be beneficial to all of us.

"Whata Snozzle" Geo. W. Neill, R. R.

Have you seen our R. R. (roving reporter) Geo. W. Neill, lately. Well, you may and then you may not recognize him. Some say he favors Jimmy Durante, while others contend his mug leans or hangs toward W. C. Fields' snout, being that it is quite red.

From all appearances, the R. R. appears to have come in contact with a bunch of bumble bees, harnets and a bed of big red ants. Judge merely claims a bit of infection, alleged from jirking irksome hairs out of his nose.

He lay out from the office one day, as he maintains that it was a man sized job to carry that snozzle around over town.

Mr. Lee Allen and Mr. Harold Crites, of Brownfield, and Mr. W. A. Dykes, of Lubbock, were in Corpus Christi last week. As Lee put it "Mr. Crites went down to a coaching school and he and Mr. Dykes went to coach the fish."

Mr. and Mrs. Homer Winston Weslaco, are visiting Mr. and Mrs. S. H. Holgate, Mr. and Mrs. Jim Burnett, and Mr. and Mrs. W. W. Price.

Death Claims Father-Son Within A Week

Four days after attending the funeral of his father, J. J. Johnson, here Wednesday of last week, Robert Ben Johnson of Odessa was instantly killed, early last Sunday night in an automobile-truck collision on the streets of Andrews. While details of the accident were not learned it is thought the car he was driving crashed head on into the rear of a parked truck. Two other men riding with him, R. T. Echols, sustained severe head injuries, and Tom Box of Plains received minor injuries, remaining in an Andrews hospital. Echols was brought to Treadaway-Daniell hospital here, as was the body of Johnson, in a Brownfield Funeral Home ambulance.

Funeral services were conducted by Rev. A. A. Brian at the First Baptist church here, Tuesday at 4:30 p. m., and interment followed in Terry County Memorial cemetery, by the Brownfield Funeral Home.

Johnson, aged 45, is survived by his mother, Mrs. J. J. Johnson, residing on north 2nd street, a brother, J. C. Johnson, well known resident here, and another brother, W. R. of Vernon; two sisters, Mrs. Matt Barton and Mrs. O. V. Jobe, both of this city. His father died at Big Spring Monday night of last week, and was buried here the following Wednesday. The families have lived in this county several years.

School Registration Days Announced

Football boys—Monday, Aug. 19, 9 till 4.
Seniors—Tuesday, Aug. 20, 9 till 4.
Juniors—Wednesday, Aug. 21, 9 till 4.
Sophomores—Thursday, Aug. 22, 9 till 4.
Freshmen, Friday, Aug. 23, 9 till 4.

Registration fee will be 25c and includes examination fees and ink supplies for year.

An activity ticket will be on sale during registration for \$1.35. It includes 6 paid assemblies and school paper subscription for 9 mo. school term—and will entitle holder to 135 votes towards the Queen's race.

Beauchamp On Freedom of the Press

"Your dissent (Ex parte Craig, 192 S. W. 2nd, 178) rings true to AMERICA, carries respect, esteem, confidence in it. May it ring down the ages!"

"You are to be commended for the splendid courage displayed in your dissenting opinion." (Do.) From THE VALLEY MONITOR, McAllen, Texas:

Judge Beauchamp's dissenting opinion in this case was a masterpiece of clear logic and unquestionable justice. . . . He was dignified and courteous in the extreme in writing his dissent, but he also was plainspoken. . . . He said: 'It is important that the dignity of the court be maintained, but it likewise is important that the public interest be served. . . . It is not so much a naked 'freedom of the press' for which we are concerned as it is the public interest in the efficiency of our government. The people are entitled to know the truth about the Judiciary, the same as the Legislative and Executive!'

Mr. and Mrs. Lee Capell, of Weslaco, are visiting Mr. and Mrs. S. H. Holgate, Mr. and Mrs. Jim Burnett, and Mr. and Mrs. W. W. Price.

Shivers Opposes All New Taxes

Austin — "I want the people of Texas to know there are certain types of taxes to which I am opposed, both personally and as shown by my record of 12 years in the senate," Allen Shivers, who led his runoff opponent in the lieutenant governor's race by approximately 100,000 votes in the first primary, said here this week.

"I oppose a general sales tax, and always have, because I feel that it would place undue burdens on the people. I oppose a state income tax, because that field is pre-empted by the Federal government."

"If any additional taxes do become necessary, and I don't think they will in the near future, the burden should be spread on as broad a tax paying base as is possible," he continued.

"I have always considered myself a conservative, both in expenditures and in taxation, and on many occasions have opposed appropriations of the taxpayers money because I thought the expenditure was unwisely and unnecessary. I have also opposed many tax bills because I thought they were levied on the wrong principle or that they were unnecessary."

"I have had to work hard all my life and that is probably the reason that I am conservative about the expenditure of tax money. I feel the same way about expending my own funds."

Ginner Griffin Brings In The Corn

Henry Griffin, Wellman ginner, has just returned from a visit to Oklahoma, and presented the Herald with an ear of "yaller" corn a foot or two long, which from the sample, the Sooners will get from 75 to 100 gallons per acre off.

Some one else stated that it was from Tillman county, but on second thought remembered that Henry had "went" on to eastern Oklahoma, where they have bottoms and overflows, occasionally. Tillman county is too much like this section this year, too shy of rainfall to raise corn like that sample, unless irrigated.

The weather man is a poor distributor at best. He has allowed four overflows in Tennessee in the past three weeks, while a brazen sky greets us from day to day.

JUDGE SAYS —

They now call the OPA, the Office of Price Advancement.

That "cooling-off" period don't seem to work at the Peace Conference.

If Russia don't like democracy, she oughtn't to act so much like a Democrat at a convention.

Teachers and old-agers ought to be the best paid element. We have raised their pay every campaign for the past five.

In religious history it may be the Holy land, but right now it is everything else but. They are having lots of gripe Jewce there.

Mr. and Mrs. Jake Geron have as their guests this week his parents, Mr. and Mrs. G. E. Geron, of Ft. Worth.

Mrs. Roy Ballard and Deenie were in Lubbock on business Tuesday.

Rev. and Mrs. R. N. Huckabee left Monday for a two week vacation, visiting their daughter in Denver, Colorado.

V-J Day Quietly Celebrated Here

There was quite a difference in the celebrating of the first anniversary of V-J Day here and what happened one year ago, when it became known that Japan had thrown in the sponge, thus ending World War II.

At that time it was almost dangerous to be safe. Every noise making apparatus, including pots and pans were tied on cars and dragged through the streets, and the youngsters were called into the homes and advised, admonished, and commanded to play safe by staying off the streets.

Complying with the request of President Truman that the day be observed quietly and in prayer for continued peace, flags were put out in front of the business houses, and on various public buildings and grounds, and the crowd was quiet. Too hot to be most any other way.

There was a fair sized crowd in town, whether observing the holiday or making preparations for the rodeo events to be followed on Thursday, was not at once apparent.

Let us hope and pray that we shall never have any more wars. Wars are just that much waste and worry, and never settled anything.

Our Apology Goes To Routes Four and Five

Last week, we stated in these columns that a supplement was being sent to all local area readers, along with the regular section of the Herald. We thought we had plenty ordered for that purpose, but evidently our mailing list has grown fester than we thought a month ago.

We lacked several having enough for route four, and none whatever for route five. We immediately got in touch with headquarters, and hope to have papers enough for all local routes and area bundles in the future.

Commenting on the supplement this week, Mack Thomason said he sure liked the added feature to the Herald. Said it gave a lot of news from his former stomping grounds in southwest Oklahoma.

TEEN AGE ROUND-UP

Mark the date, August 29th, with red ink, teen agers, because that is the night fun will be had. Come to the Presbyterian recreation hall at eight o'clock and enjoy an evening of games. A varied program, full of surprises, has been planned for you—refreshments, too.

Boys, ask your favorite girl for a date that night, you will have somewhere to go and something to do.

All teen agers of Brownfield are invited. We'll be looking for you on the night of August 29th.

The voter may find himself in a mess when he goes to the polls on August 24, for there will be two McDonalds on the ballot, both for the same office. One of them is "J. E." the present Commissioner of Agriculture, and the other is "R. E." McDonald, of Austin, whose knowledge and ability is little known. It is reported that "R. E." was picked by the haters of J. E. McDonald to confuse the voter, and that is just what it did, although the old commissioner was far out in the lead in the July primary with several on the ballot. J. E. McDonald has not always stood for everything the party leaders have stood for, and being of good Irish blood, he is no yes man. Therefore the party leaders of Texas are out to get his scalp. But Texas farmers know who has been their friend through thick and thin, and if we know our Texas farmers, not enough of them will be turned by this trick to defeat J. E. McDonald.

It is not the poll tax or lack of it that keeps people in Texas, or the south for that matter, from voting. They are just not interested. If there ever was a hot election, the July campaign was it. And while there was 1,500,000 qualified voters, around 1,100,000 was all that were interested enough to cast a vote. And our prediction is that the August runoff will show less than a million votes. And, at the general election this fall, if there is 300,000 cast, it will fool us. With all due regards to the Republican party and other minor parties in the south, the Democrat party is dominant; the others are not even close. In the north and west, the Republicans are not only strong, but in some sections socialists and communists are fairly strong. This brings out a strong vote in those states. Whereas, in Texas and most southern states, the voter thinks he has reached his full duty as a citizen and voter when he has polished off a few "has runs" in the primaries. This will be the case until when or if we ever have a two party system down in Dixie. And so far, no cloud of a competing party as large as a man's hand, has ever appeared on the horizon. Some say we would have better government if we did. Yet Vermont is just as overwhelming-ly Republican, and we understand they have a fairly good state government.

You couldn't have exactly

knocked us over with a feather, but our surprise voltage rose to a high degree when the Abilene Reporter-News announced Sunday that paper was supporting Jester. It always seemed to us that the R-N was just about the strongest new deal daily that we had access to. That is, the R-N gave the new deal its fair and just dues, which is the right thing to do. Lots of the laws that have come out of the Roosevelt administration, are sound and good for the nation, and no one with an ounce of reason would level a blanket charge of failure on all counts. No one but an extreme partisan would do it. Many of the things any of us dislike most, came hurriedly and out of stress of war, and mayhap would never have happened in normal times.

There is the deliberate arsonist and there is the "unconscious arsonist." Both are bad. However, there are laws to curb the former, but none to handle the latter. The unconscious arsonist lights his pipe or cigaret and carelessly tosses his match away, maybe into dry grass by the roadside, or in a pile of inflammable stuff in his office or home. But the loss is just as bad one way as the other. Are you an arsonist, deliberate or accidental?

Our system of free enterprise has done wonders in our country, and should not be hog-tied. It has made our country the greatest in production the world has even seen. Singling out just one example, let us take oil. Under our individual and free enterprise system, we educated and trained men to find and drill for oil. This took money, but we had men that would risk their money against the possibility of oil underneath our

land. As a consequence, America is by far the largest oil producing country on earth, and we have the cheapest oil, gas and fuel oil in the world. On top of that, we have the best paid employees in the oil game of any country. No dictator nation has ever accomplished what free American enterprise has done. And this is being done with a high federal and higher state taxes on oil products, which goes principally to our schools and good roads. Texas produces almost a third of our nation's oil and most of its natural gas.

This week when we received the Andrews County News, we won brother of Editor Chas. Roberts, brother of Editor, Chas. Roberts, who writes a column which he calls Drifting Sand, was not spoofing just a bit about the scarcity of water in that city. His stories of Andrews' worry with scarcity of water were, to say the least, a bit overdrawn, but laughable. Nothing more serious than a rather acute water shortage could faze a guy who spent several months as a guest (?) of the Nazis in one of their infamous concentration camps. So we took the corporal's columns with a grain of salt and looked further. Down at the bottom of page one, in a two column box, the mayor of Andrews backed up James with a notice that those found irrigating or washing cars with city water would be pounced

on by the city laws and fined \$10. But we still say his story was funny.

And so, the "sassy" editor, who was attending the bedside of her sick mother in San Antonio, was still a bit dubious about the Old He getting letters here in Brownfield with just that for an address. So, she tried it with a lovely scenic post card from the Alamo city. We'll show her the card when she returns.

BOARD OF EQUALIZATION TO MEET AUGUST 22

The Board of Equalization of the Brownfield, Independent School District will meet in the courthouse Thursday, August 22, 1946, for the purpose of equalizing taxes for the school district. All persons having business with the Board of Equalization may meet with it at this time.

Brownfield Independent School District. 1c

NOTICE OF BUDGET HEARING

Notice is hereby given that on August 26, 1946 at 10:00 a. m. at the Court House in Brownfield, Texas, the Terry County Budget for the fiscal year 1946-47, as prepared by the county judge, will be presented to the Commissioner's Court of Terry County for consideration and approval. The public hearing on this Budget is open to all interested taxpayers and those desiring to be present and partici-

pate in this hearing are invited to attend.

R. R. WINSTON
County Judge.
Attest: H. M. Pyeatt,
County Clerk. 4c

NOTICE TO BIDDERS

Notice is hereby given that sealed bids for one year contract on lubrication oil will be received by the Hon. Mayor and City Council of the City of Brownfield, Texas, at the office of the City Secretary, City Hall, Brownfield, Texas, until 8:00 P. M., Central Standard Time on 13 September, 1946, at which time and place the bids will be publicly opened and read aloud and considered by the City Council. Any bids received after closing time will be returned unopened.

The City reserves the right to reject any and/or all bids and to waive informalities except that no bid received after closing time will be considered.

Bidders are to be paid in cash and bids are to be made on a cash basis.

Any additional information concerning these bids may be obtained from Mr. E. D. Jones, Supt. of City Utilities, at his office in the City Hall.

City of Brownfield
By: Thomas D. Zorns
City Secretary. 4c

H. J. R. No. 62 HOUSE JOINT RESOLUTION

proposing an Amendment to Article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 49-b, creating a Veteran's Land Board and establishing a Veteran's Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 49-b which shall read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veteran's Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Legislature shall provide by law for the issuance by said Board of not to exceed Twenty-five Million Dollars (\$25,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veteran's Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas in such form, denominations, and upon such terms as shall be prescribed by law, provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum.

"In the sale of any such bonds a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent Free School Funds; such bonds to be issued only as needed, in the opinion of the Veteran's Land Board under legislative authorization.

"The Veteran's Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, be paid for in cash, and shall be a part of the Veteran's Land Fund.

"The lands of the Veteran's Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, in such quantities, and on such terms, and at such prices and such rates of interest, and under such rules and regulations as may be prescribed by law; provided, however, that any such lands remaining unsold at the expiration of eight (8) years after the effective date of this Amendment may be sold to anyone as shall be prescribed by law.

"All moneys received and which have not been used for re-purchase of land as provided herein by the Veteran's Land Board from the sale of lands and for interest on deferred payments shall be credited to the Veteran's Land Fund for use in purchasing addi-

tional lands to be sold to Texas Veterans of World War II, in like manner as shall be provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period of eight (8) years from the effective date of this Amendment; provided, however, that so much of such moneys as may be necessary to pay interest on the bonds herein provided for shall be set aside for that purpose. After eight (8) years from the effective date of this Amendment, all moneys received by the Veteran's Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the first Thursday in November, 1946, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of

World War II."

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"AGAINST the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Ten Thousand (\$10,000) or so much hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election.

BROWNFIELD STEAM LAUNDRY

Band News

Saturday was a full day for the Junior band for after the concert they played, everyone went to the park and enjoyed a picnic. Those helping were: Mrs. Alton Webb, Mrs. James King, Mrs. C. L. Horn and Mr. C. L. Aven. Mr. Aven drove his truck which he used as a taxi in taking the kids home. After some games were played sandwiches (with all the trimmings) were served along with "pink" lemonade.

Since school is less than a month away, Mr. Horn advises that prospective band members and beginners should not wait until the last minute to get ready to start band. Be sure your horn is in playing condition or in the case of beginners, contact Mr. Horn and arrange to get an instrument now and not be late in starting classes. There are still some new and some used instruments available so ask the person who is in position to help you.

As is the custom on nearly every Saturday that the band plays a concert, free drinks were given the band members. This time the donor was the Copeland Hardware. In speaking for all the band I'd like to add my "thanks."

The band played for the "donkey ball game" Tuesday night and the co-operation from all the band was excellent. With that kind of interest and help from all concerned we can really go places. Anything worth doing at all is worth doing well, I always say.

Uniforms were issued to about 40 members who will be in the Rodeo parades Thursday, Friday and Saturday. This is also our week for a concert which will be played Saturday afternoon at 3:00 p. m. The parades will be the first for several of the youngsters who only last week were promoted to the High School band.

With school only a couple of weeks away the band members are reminded to get those horns fixed for once the football season starts there will be no time for that. This is going to be a great year for the band if all the members show as much enthusiasm as they did last Tuesday night when they turned out some 40 strong.

Society

Joyce Trotter, Bob Campbell Marry

Joyce Trotter and Bob Campbell were married in a single ring ceremony August 4th, in the parsonage of the First Baptist church, with Rev. A. A. Brian officiating. The bride is a graduate of Brownfield high school and attended a Lubbock business college, and is now employed at the Brownfield State bank.

The groom is also a graduate of the Brownfield high school and served in the U. S. Navy.

The bride was dressed in a blue suit with black accessories. She wore gardenias and carried a handkerchief for something old. She wore a pair of pearls belonging to Bennie Wartes for something borrowed.

Mr. and Mrs. Guy Brown, sister and brother-in-law of the bridegroom, Miss Norma Crossland, of Lubbock, Miss Bennie Wartes were the attendants.

After a wedding trip to Ruidoso, New Mexico, the couple will be at home on North Sixth St.

Second Primary And The Belden Poll

A good citizen of Randall county said the other day: "We will have a larger vote in the second primary than in the first. We now have some one to vote AGAINST. We do not want that fellow Rainey as Governor."

That may alarm some people, but after all it is a true statement of fact. Under the Terrill election law, we do not vote FOR candidates; we vote against candidates. In order to support Beauford Jester in the first primary we had to vote against 13 other candidates for governor.

The second primary is getting under steam without delay. Rainey is trying desperately to keep in the public eye. The Belden poll flopped when it placed him as the top

When all vacations are over we expect 100 percent attendance. —Reporter

of 14 contenders with about a third of the votes. As a matter of fact he dropped to second place, with only one-fourth of the voters. Jester, who was placed second by Belden, stepped away out in front, with 38% of the votes.

Rainey started to bombard Jester with telegrams as soon as election returns were in. He is disappointed at his poor showing and is trying to keep in the race by a futile attempt to stir up trouble. Rainey proposed a series

of joint debates, and later joint radio programs. Jester saw through the whole scheme. Rainey was a sort of political curiosity during the first campaign, and drew good crowds. But he did not get the votes. Now he is fearful that his crowds will diminish and he will not get even as many votes as he did in the first primary. This may be true, due to the fact that he has openly antagonized so many groups of Texans.

Jester led in the home boxes of all his opponents, including Rainey. This indicates his strength throughout the state. He did not make a fight on any of the candidates, but presented his own program. Now that the race is narrowed down, Jester is not hesitating to point to the weakness of his opponent. The only places where Rainey led have a predominance of Negro and CIO voters. This is not a good indication of his strength or of his program.

The Belden poll failed again in declaring that Neff would whip Dainels for Attorney General. If Belden fails again he is likely to fold up the same as other polls which have so badly missed the goal.—Canyon News.

Mrs. Bill Amo and children, of Little Rock, Arkansas, and Mrs. E. A. Graham were in Lubbock Tuesday, visiting friends and relatives.

Mr. and Mrs. Bill Mahler, of Wichita Falls, were here a few days this week, visiting friends and relatives.

Mr. and Mrs. Graham Smith were in Lubbock Tuesday. Mr. Smith went for a medical examination.

Sudan had a big celebration last week to celebrate completion of its farm-to-market roads, complete with Indian pow-wow dancing.

GENERAL EISENHOWER'S REPORT IV

The third decisive phase in the campaign consisted of the battles west of the Rhine during February and March. Once again the enemy played into our hands by his insistence upon fighting the battle where he stood. In the lowland country between the Rhine and the Meuse, in the Eifel, and in the Saar, the armies which had been intended to defend Germany were shattered beyond recovery. The potential barrier of the Rhine lay practically undefended before us and from that time onward there was no German force in existence capable of halting our forward march. The war was won before the Rhine was crossed.

Throughout the struggle, it was in his logistical inability to maintain his armies in the field that the enemy's fatal weakness lay. Courage his forces had in full measure, but courage was not enough. Reinforcements failed to arrive, weapons, ammunition, and food alike ran short, and the dearth of fuel caused their powers of tactical mobility to dwindle to the vanishing point. In the last stages of the campaign they could do little more than wait for the Allied avalanche to sweep over them.

For this state of affairs we had, above all, to be grateful to the work of the Allied air forces. Long before we landed in France, the heavy bombers had begun their task of destroying the centers of production upon which the enemy relied, and the fruits of this effort were evident immediately the land campaign began. Following the invasion, these strategic blows at the heart of German industry were continued, and the task was also undertaken of cutting the supply lines which linked the factories to the fronts. Meanwhile the tactical aircraft, by their incessant bombing and strafing of the enemy before us in the field, broke his powers of resistance and prepared the way for the ground advances which struck toward the center of Germany. Those thrusts, moreover, were made with a rapidity which only the expedition of airborne supply could support. The overwhelming Allied superiority in the air was indeed essential to our victory. It at once undermined the basis of the enemy's strength and enabled us to prepare and execute our own ground operations in complete security.

It is difficult even for a professional soldier to appreciate the tremendous power which was achieved on the battlefields and in the skies of western Europe by the concerted efforts of the Allied nations. As stated earlier in this report, most of the 90 divisions which fought in the later phases of our operations were habitually reinforced to a strength of 17,000 men by tank, tank destroyer, and anti-aircraft attachments. An idea of their shattering impact upon the Nazi war machine comes from consideration of the terrific firepower which they represent, of the mass of heavier Corps and Army artillery which supported them, of the inexhaustible supply system that sustained them, and of the flexibility with which their efforts could be applied by means of the efficient communications system. For behind the combat units the efforts of 3 millions of other men and women in uniform were devoted to maintaining them in action. We could, in effect, apply against the enemy on the Continent a force 30 times as large as the Allied armies which defeated Napoleon on the battlefield at Waterloo. In addition, we had available nearly 11,000 fighter and bomber airplanes whose mobile firepower could be applied at virtually any point we desired, as I have just described, and whose annihilating effects are evidenced by the wreckage of a powerful nation's cities, industries, and communications, and by the destruction of the air forces which defended them. To this power was added the striking and strangling force of two formidable naval fleets working as one.

Do Courts Work The Same For Black And Whites?

A local citizen was a visitor in our office a few weeks ago, and he made the remark that he believed that generally speaking, negroes got the same justice as whites in our courts. We took issue with

him. Here's about the substance of what we said to our visitor. "On an average, when a white man kills another white man here in Terry county, he gets around 20 years in the pen. We have never known a negro to get over five years, sometimes suspended, for killing another negro."

And that illustrates what we aim to say. The Sheriff at Snyder raided a negro crap game Saturday night, when a negro with a bad reputation grabbed the Sheriff's gun and shot him, and then fled. He was rounded up Sunday morning and hustled off to Lubbock to keep him from possible mob violence. A few years ago, this same negro killed a Snyder negro shoe shine, and got a five year suspended sentence.

That probably worked him up to believing himself to be a bad "nigger." Now he has shot a white man and the sheriff at that, breaking his arm, and putting him in a hospital. The fat's in the fire. If that jury of several years ago had done its duty, and sent "Two-Gun" Wellington up for a good long stretch, this incidence would never have occurred.

What juries in Terry, Scurry and all other counties should do,

Latest On DDT

College Station — DDT is still a very new story particularly in connection with feed and food crops.

For household and livestock insects, DDT is the best insecticide that has been found, said C. A. King, Jr., entomologist for the Texas A. and M. College Extension Service. But in general, entomologists are going slowly on recommendations until they know more about how the insecticide reacts on different plants under different climatic conditions.

For houseflies, mosquitoes, fleas, roaches, bedbugs, and lice, DDT is deadly, say Extension entomologists. When DDT fails to control these insects, such as houseflies, the trouble may be that too low a percentage of the insecticide is being in the spray. A five percent mixture should be used to kill houseflies, and the spray must be applied thoroughly on the walls of the house.

Several precautions must be practiced by DDT users. When spraying vegetable and truck crops such as cabbage or sugar beets, the crop residue should not be fed to livestock. For stored grain insects, a three percent dust may be used, if the grain is not to be used for food. In spite of extensive investigation, the use of DDT on fruits is not yet recommended. It should never be used on animals in an oil solution.

With DDT, as with any other insecticide, the effect on the insect is only half the story. It can be poisonous and harmful to animals and human beings, and it does kill some useful insects, at the same time allowing others pests, such as the red spider, certain aphids, and mite to increase.

Entomologists don't know yet just exactly where DDT is going to fit into the insect control picture.

TRY A HERALD WANT AD

is to forget that one negro just killed another negro, and give them the same kind of a sentence they mete out to white killers. Then, and only then, will both races have equal justice before the law.

Many a girl suffers from her belief. Belief that she can wear a number five shoe on a number eight foot.

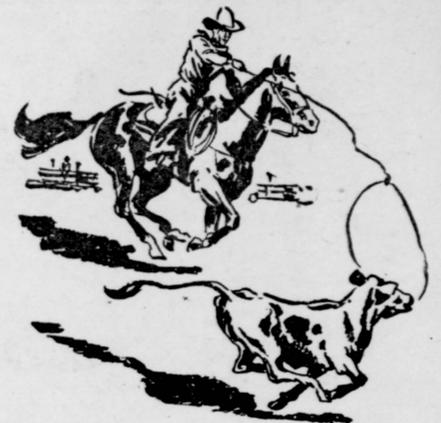

And, if you don't believe that women can stand more pain than men, ask the shoe salesman.

One thing can be said for the road hog. He meets you more than half-way.

The guy who lives a double life gets no where twice as fast.

One reason the gentleman of today doesn't kiss the modern girl's hand is that he'd burn his nose on her cigarette.

If you stand in the way of your friend's prosperity you'll only hinder your own.

Vital Economy

Hearing that it would not be necessary for anybody to pay any federal taxes for a period of 12 months would have been good news to a lot of people any year for two decades before World War II. It would have occupied acres of front-page space in metropolitan papers, utilized hours of radio time and consumed gallons of red ink. It might have started a buying boom.

The money people used to put out in federal taxes was staggering (then) although the amount seems small in contrast to what they have been paying lately and probably will keep paying for several years. Just the same, pre-war taxes were big money and, even now, would be worth saving. That's exactly the point I want to make in this department today: It can be saved.

Over Twice Enough

Civilian employees of the United States government today number approximately 2,800,000 when 1,250,000 would be plenty. Even this low figure is about twice what we had six months after World War I. In short, government has 1,550,000 unnecessary hirelings now—more people than live in The Bronx, in Los Angeles or in St. Louis plus all of its suburbs. It is humiliating to think about.

All of this enormous host of people are eating out of the public breadbasket. They are not to be thought about as if they had private wealth and had retired to pursue some impractical hobby. Such people as that do, at least, distribute wealth previously put away. The people I am talking about are dead-weight on the rest of us. They subsidize on federal tax revenue.

Five Million Grand

Since their average annual income is about \$2,400 each, they are costing the taxpayers of the United States every year the staggering sum of \$3,720,000,000 in salaries alone. Everybody who hires salaried people knows well that salaries are not all the expense they incur. They all have to be provided more or less space, lighted, heated and equipped.

Add to these items such matters as traveling expenses, telephone calls and incidentals and the grand annual expense, as a result of having these people employed, will swell to five billion dollars at least. If such people could be lifted off the public's neck the money could be saved and the public would surely feel the relief.

Plus Social Gains

Such shortening of payrolls would be completely justified by savings alone but there are plenty of other benefits. (1) It would help to balance the federal budget, and if it is not balanced the country will eventually go broke. (2) It would help curb the trend toward bureaucracy, toward centralization of power and toward government by whim instead of deliberate government by law.

(3) Not the least of blessings to follow laying off these people would be releasing more than one and a half million persons for productive work, letting them create something instead of living off the efforts of others. (4) Finally, it would increase the hope of saving for future generations the finest civilization the world has ever known. I submit unto you it ought to be done.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending August 10, 1946, were 27,608 compared with 27,338 for same week in 1945. Cars received from connections totaled 12,052 compared with 15,035 for same week in 1945. Total cars moved were 39,660 compared with 42,373 for same week in 1945. Santa Fe handled a total of 39,963 cars in preceding week of this year.

Tahoka's clinic addition had the foundation laid last week, and will be completed soon, bringing it up to hospital size.

Petersburg's alfalfa mill got under operation after a slight delay to iron out some "bugs" in the machinery.

Miss Amy Savage of Brownfield, left for an extended visit with relatives, Mr. and Mrs. Harold Huffman and family of Midland, Texas.

The weed-killer, 2,4-D, can cause trouble if users don't follow instructions. Most common trouble is killing flowers and plants bordering lawns sprayed with the chemical, caused by the wind blowing mist on the plants. The spray should be used on a calm day.

Workers seeking year-around or seasonal farm ranch jobs, whether experienced or inexperienced, should contact the local county agricultural agent or the farm labor office.

Complacency Is Our Greatest Danger

Complacency is one of mankind's greatest dangers. It leads to wars, to bankruptcy, to plagues and even to death itself.

Complacent people, just like complacent nations, never think anything is going to happen; and when it does they have forgotten to look after themselves and just give in. It is the same with business, and what's even more important, it's the same with health.

Take a subject that we are all intensely interested in—tuberculosis. A lot of people, just because they have been told that tuberculosis is on its way to being beaten, and that last year in Canada and the United States we recorded the lowest death rate from the disease in history, are all ready to become complacent.

Some of them—especially the ones who know least about it—forget about its dangers, won't take precautions, and don't even join in the mass surveys now going on. This is a poor attitude, because despite our good results, the danger of tuberculosis is greater today than it has been for years.

Reports from Europe tell us that tuberculosis is running almost unchecked through the famine ridden, war-battered countries, and even extends into England and Wales. We know that this situation across the waters is a distinct menace to us here.

In these days the world is very small, and a serious tuberculosis situation in Europe threatens us very much. Its threat, though, is not inevitable, and it won't touch us if we continue our precautions.

True, some of its effects are bound to be felt on this continent—fresh cases are undoubtedly going to arrive from the huge pool overseas. But that only means we have to redouble our efforts and be constantly on the watch.

Now is the worst time in our lives to be complacent. If everyone would only be on the lookout, would cooperate in the surveys, and if they have tuberculosis be sure of "cures," there is every reason that the disease, instead of rising as in Europe, will be beaten here.—Your Health.

BARBARA BENTON ENTERTAINS

Miss Barbara Jean Benton entertained with a buffet supper Monday night. After games were played a regular supper was served to Misses Patsy Black, Jo Ann Price, Betty Ferguson, Martha Cranford, Nelda Brown, Katharine Ross, of Marshall, and the honoree.

Mr. Ross Osterhout spent last week in Oklahoma City on business.

Mrs. Bob Murray, of Dallas, visited her sister, Mrs. Harold Crites, last week.

Mr. and Mrs. Blaine Bennett and children, of Long Beach, California, are visiting her parents, Mr. and Mrs. J. E. Spears, Sr.

GOOD NEIGHBOR CLUB MEETS

The Good Neighbor Club met Thursday, August 8, in the home of Mrs. Huston Stephens. The afternoon was spent quilting a quilt for Mrs. Stephens. We were glad to have Ruth Holleman back with us, with her new son, Danny.

Three of our members were unable to attend. They were Mesdames Anderson, Fowler, and T. D. Warren. We missed all of them, and hope they will be back next club day.

Ice cream and cookies were served to Mesdames Henry Jefferies, W. H. Wagner, L. V. Wagner, Henry McMilliam, Walter Watson, Lester Etter, Dalton Warren, Mary Belle Warren, Ruth Holleman, W. V. Fenter, Stephens, and fourteen children.

Our next meeting will be on August 22, at the home of Mrs. W. H. Wagner. Everyone is invited to come and join our club.

FAREWELL PICNIC FOR CLINE PADEN

The Sunday School and Prayer Meeting class of the Church of Christ honored Cline Paden with a farewell picnic Tuesday night at the County Park. After games were played, refreshments of fried chicken, potato salad, beans, cokes, iced tea, and pie were served to approximately seventy-five guests.

MRS. STRICKLIN HONORS DAUGHTER

Mrs. A. J. Stricklin, Sr. honored her daughter, Mrs. Herman Trigg, of Brownwood, with a coke party at her home Wednesday morning. Cokes were served to the following guests: Mesdames Sam Teague, J. T. Bowman, C. C. Primm, Bruce Zorns, Ethelda Edwards, Slim Schillinger, N. L. Mason, Bill Amo, of Little Rock, Ark., Ted Hardy, Tom Hart, Tommy Hicks, Terry Redford, Johnny Benson, A. J. Stricklin, Jr., Buell Price, Tom Neely, Morrison Arnett, of New York City, and Misses Elizabeth Jacobs, of Memphis, Tennessee, Jo Pete and Ida May May, Twilla Graham, the hostess and honoree.

NELDA BROWN CELEBRATES BIRTHDAY

Mrs. R. A. Brown honored her daughter, Nelda, with a surprise party last Wednesday, celebrating her fourteenth birthday. After enjoying swimming the guests returned to Mrs. Brown's for a lawn dinner. Refreshments of chicken salad sandwiches, stuffed celery, potato chips, cokes, birthday cake and ice cream were served to the following:

Naomi Thomson, Betty Flippin, of Ranger, Barbara Benton, Mary Wanda Whitney, Billie Beryl Black, Yvonne Forbes, Jackie Sue Goodpasture, Mary Joyce Goodpasture, and the honoree.

MEADOW HOME CLUB

The Meadow Home Demonstration club met at the school lunch room Friday, August 9, at 2:30. The meeting was called to order by the president, Mrs. M. W. Fox. We enjoyed a game of "Who Is It," then talked about ways and means of raising funds for the club. Mrs. H. P. Pendergrass gave council report.

Mrs. W. T. Bell was hostess and served refreshments to five members. Our next meeting will be September 3rd, with Mrs. M. W. Fox. All members are urged to be present as we are to elect officers. If you don't want an office, be there to protect yourself.

—Reporter

MEET IN FELLOWSHIP HALL

The Women's Society of Christian Service met in Fellowship Hall at the Methodist church, Monday afternoon for their regular meeting.

Mrs. W. B. Downing was leader of the lesson, "Ambassador of the Cross." Opening song, "Jesus Calls Us."

Mrs. Longbrake gave, "A Call—Laborers for Peace."

Those present were: Mesdames W. B. Downing, F. Miller, Glenn Harris, A. J. Lloyd, B. L. Thompson, N. T. House, Arch Proctor, a visitor, Jesse Randall, Ed Tharp, T. H. Carpenter, Tobe Power, H. O. Longbrake, and Lee Walker.

LAWN PARTY FOR RUTH CLASS

The Ruth Class of the First Baptist Church enjoyed a lawn party at the home of Mrs. Bud Norris, Tuesday night. Co-hostesses with Mrs. Norris were Mesdames J. E. Mathews and Ted Hardy. A covered dish supper was enjoyed by Messers and Mesdames A. A. Brian, Sam Brian, J. R. Wright, N. L. Mason, Grady Goodpasture, Boyce Holder, Virgil Burnett, Nathans Evans, Campbell, J. B. Ray, Mrs. Shewmake and Mrs. M. L. Norris, a guest.

Mrs. A. H. Daniell is visiting relatives and friends in Rule this week.

FAREWELL PARTY FOR CYNTHIA TANKERSLEY

Miss Charlsie Gaston honored Miss Cynthia Tankersley with a farewell party last Friday evening. Miss Tankersley received many lovely gifts from the following guests: Misses Ann Snedeker, Lynn Sturges, Jo Ann Blevins, Barbara Stice, Frances Price, Margie Cary, Wanda Collier, Deenie R. Ballard and Messrs. Chuck Wilson, Billy Patterson, Jimmy Kebodeaux, Donald Wayne Andress, Paul Billings, Jerry Ellis, Doug Tankersley, Lyle Shelton, Dale Cary, and Morgan Pace. Punch and cake were served.

TRY A HERALD WANT AD

EASTERN STAR MEETS

The Eastern Star met last Tuesday night at the Lodge Hall for their regular business meeting. Refreshments were served by Mesdames Crawford Burrows, Jean Brownfield and Virgil Burnett to approximately twenty-five members.

James W. Warren, son of Mr. and Mrs. Pierce Warren, of Meadown, arrived this week from California where he received his discharge from the Navy.

Mr. and Mrs. A. J. Stricklin, Sr. have as their guests Miss Elizabeth Jacobs, of Memphis, Tennessee, and Mrs. Morrison Arnett and daughter, of New York City.

CYNTHIA TANKERSLEY HONORED

Miss Wanda Collier honored Miss Cynthia Tankersley with a slumber party at her home last Sunday night. Watermelon and sandwiches were served to the following: Dixie Brown, Julia Ann Barrow, Barbara Barrow, of Lamesa, the hostess and the honoree.

Mrs. C. A. Wilhite and Mrs. John Portwood were in Lubbock last Friday visiting with Mrs. Wilhite's sister, Mrs. H. F. Maner.

Larry Bailey, Neill Thompson, and Willis Black spent last week in Portales, New Mexico, visiting with Mr. George Marray at his ranch.

Back to School

Sweaters

Skirts

Blouses

The smart girl will get ready for fall and winter now. Whether she's a business lass or a school-gal — she'll want several of our well-tailored, new skirts, blouses, and sweaters. Try on your favorites here today.

Start with a skirt . . .

by Justin McCarty of Dallas

First purchase for back-to-school wardrobes, the classic skirt with front pleats stitched neatly at the top. Tailored of Shirley's Strutter, a rayon fabric in black, brown, gold, aqua, or grey. 9's to 15's. The ideal base for your sweaters and blouses.

Mr. and Mrs. John Butler have as their guests this week, his parents, Mr. and Mrs. D. H. Butler, of Blackwell, Oklahoma. Mrs. Butler's parents, Mr. and Mrs. W. F. Leslie, of Chickasha, Oklahoma, visited with them over the weekend.

Mr. and Mrs. J. C. Whisenant of Sorrocco, N. M., are here visiting their daughter, Mrs. H. R. Winston and family. Mrs. Winston has lately visited out there, and her parents came home with her. Mrs. Whisenant is also a sister of Mesdames Jim Burnett, S. H. Holgate and W. W. Price.

CARD OF THANKS

We wish to express our sincere gratitude to everyone who were so kind and thoughtful to us during our father's sickness and death. We trust you will have just such tokens of friendship when your hour of sadness comes.

Mr. and Mrs. B. E. (Bill) Shaddock, Mr. and Mrs. James L. Autry, Mr. and Mrs. L. J. Dunn, Jr., J. C. (Buddy) Shaddock.

CARD OF THANKS

We take this means of thanking our good friends and neighbors for their many expressions of sympathy in the tragic loss of our son and brother. Also for food furnished, and for the many nice floral offerings. May the gracious Father of all bless you, is our fervent prayer.

Mr. and Mrs. R. D. Jones, R. D. Jr. and Jerry.

Mr. Phil Gaasch was in Monahans last week on business.

Mr. and Mrs. Murphy May of Seagraves, were here Tuesday night. Murphy brought over a government released movie, taken in actual combat, and showed it to many friends and relatives. The movie was about the invasion of New Britain, and a commentator explained the scenes. He showed it in the Tom May home and was enjoyed by many.

Francis McElroy, ad man of the Herald, came down last Friday with malaria, and was carried to the local hospital, where they kept him full of penicillin for two or three days. He felt well enough Monday that he and wife left for her old home in Dallas, where he will rest for a few days before coming back on the job.

Mrs. Herman Trigg, of Brownwood, came in last week from Brownwood to visit her parents, Mr. and Mrs. A. J. Stricklin and family, and to meet her cousin, Miss Elizabeth Jacobs, of Memphis, Tenn.

Mrs. H. R. Winston is opening her Modern Shop in the rear of Auburg-Brown Jewelry, Saturday. Friends, old and new customers are invited to call.

Mr. Ben Monnett, of Pampa, will spend this weekend here visiting friends.

Mrs. Lee Allen spent last week in Lorenzo and Crosbyton visiting friends and relatives.

Mr. and Mrs. Ulee McPherson are rejoicing over the recent arrival of a son. Ulee passed out—smokes.

Mrs. Bruce Zorns and Miss Ida May May were shopping in Lubbock Monday.

Mrs. Jack Stricklin Jr. and son, Jack Taylor, are leaving this week for Denison, where they will visit their parents and grand-parents for the next two weeks.

Mrs. J. D. Yowell is visiting her parents, Mr. and Mrs. L. B. Apperson, in Dallas, this week.

Roger Curry, linotyper of the Herald, and wife, who is local manager of the telephone company, both got their vacations last week, and "took 'em at home." Well, at least they were rested at the end of their vacation. By the way, Roger was 30, Monday, and his wife was (?) Tuesday, a doubled barreled birthday celebration.

Messers and Mesdames Martin Line and family, Crawford Burrows and family, Jack Benton and family, Wayne Brown, M. T. House, and family, and Oscar Tyler, and Ruth Hogue spent Sunday at McKenzie State Park in Lubbock.

Mr. and Mrs. G. L. Sullivan, Mr. and Mrs. H. B. Grant and Rennie, spent the past week in Ruidoso, and also the Carlsbad caverns. While in Ruidoso they reported a wonderful rain, plenty lightning and thunder, and said it was really wonderful to know it can rain some place.

Had a surprise visitor last week in the person of R. T. Massengill, of Dalton, Ga., who is here visiting his mother, Mrs. E. S. Massengill. R. T. is superintendent of a large cotton mill in the G-a-a city. Next time we "march through Georgia, we aim to visit Dalton, as the better half has a lot of kin there.

NOTICE

Those who brought dishes of food to use during our recent bereavement, please call for the dishes.

Mrs. Lester McPherson

Mrs. Ralph Ferguson returned Sunday from San Antonio, where she has been visiting with her mother who underwent surgery. She reports her mother is getting along nicely.

Paden To Go To Italy As Missionary

We learn that Cline Paden, who has for the past year or two labored as minister of the Main Street church of Christ, is to resign soon, to take a special training course at Abilene Christian college, his alma mater, to prepare himself as a missionary, and has chosen Italy as his field of endeavor.

The congregation here will certainly regret to lose this smiling, good natured minister, but the prayers and good wishes of all will go with him into his new field.

This young minister has just finished a fine meeting with the church at Loop.

STALE BREAD CAN BE FRESHENED

When stale bread is the only "buy"—or when bread gets stale in spite of you—Westinghouse home economists say it can be freshened to taste almost as delicious as freshly-baked bread, using such simple utensils as a double boiler or regular steamer.

Mr. and Mrs. J. E. Cary and family are in Ruidoso, this week.

Mr. and Mrs. Winston Reeves and Bobby, of Lubbock, and Mrs. C. F. Hamilton, flew to Lawton, Oklahoma, to visit Mrs. "Sugar" Reick.

Ed Shaddock Buried Here Saturday

B. Ed Shaddock, aged 56, died Thursday night of last week in a Levelland hospital, where he had been confined for several weeks. He was employed by the Co-op Locker plant here, when taken ill.

Funeral services were conducted at the Brownfield Funeral Home chapel, by Rev. A. A. Brian, and burial was made in the Terry County Memorial cemetery, at 3 p. m., Saturday.

He is survived by three sons, Carl E. of Shreveport; Burrell E., Jr., of San Benito, Texas, and J. C. of Brownfield. All attended the funeral. Two daughters, Mrs. James Autry, of Levelland, and Mrs. L. J. Dunn, Jr., of this city. Two brothers and four sisters, living elsewhere.

He was a War I veteran, had lived here for the past six years.

Mr. and Mrs. Jerry Kirschner returned this week from Oklahoma City, and Tulsa, Oklahoma, where they have been visiting friends and relatives.

Mrs. B. C. Hancock, of El Cajon, California, visited Mrs. R. B. Walls, Sr., over the weekend. Mrs. Hancock is undergoing treatment in the Lubbock General Hospital.

Mr. and Mrs. W. B. Downing left Tuesday to join Mr. and Mrs. Roy Herod, in Ruidoso.

Rodeo Boosters Make Long Tour

Monday morning a dozen highly decorated automobiles, filled with boosters for the Rodeo now in progress here, went to Tahoka, Post, Snyder, Colorado City, Big Spring, and back by Lamesa. The trip being without undue incidents. The same caravan, last week resulted in the death of a member, Aubrey W. Jones, in a car-truck crash near Lovington Thursday of last week.

Mrs. Vona Lee Hudspeth is on a two-week vacation from the office.

Mr. Jack Spence is working at Furr Food Store, while Frank Hunter is on vacation.

Mr. and Mrs. Frank Hunter are vacationing in California, for two weeks.

Miss Phola Jean Browder and Mr. Kenneth Threet visited relatives in Monroe, Sunday.

Two Terryites Get Degrees At ACC

Miss Juanita Jo Brown, daughter of Mrs. Estella Brown of this city, received her bachelor of science degree from Abilene Christian college, along with 25 other summer school students. Also, Wilma Woodard, Rt. 1, Seagraves, who lives in the Wellman community, this county. She is the daughter of Mr. and Mrs. T. J. Woodard.

Among the others, we noted that Miss June Fry, daughter of a former minister of the Church of Christ here, but now of Tulia, was a graduate.

TARRAGON ADDS FLAVOR

In frying chicken at the Westinghouse Home Economics Institute not only are salt and pepper added to the flour in which the chicken is rolled, but also a pinch of dried tarragon for something special in the way of flavor.

RUFF AND MASTER GET DIPLOMA

Veterans Administration Photo

Ruff and his blind master, Edward J. Glass, 24, brought 7,000 persons to their feet with spontaneous applause during recent commencement exercises at Stanford University. Glass, Marine veteran of the Dieppe raid who was blinded during maneuvers in this country, completed work on his A. B. degree at the California university under Public Law 16. He made the honor roll consistently and graduated with distinction. President Donald B. Tresidder is shown presenting Glass his diploma.

Texas Ranks Second In 4-H Enrollment

College Station — Texas ranks second only to Alabama in the number of boys and girls engaged in 4-H Club work, according to nation-wide figures just released by the United States Department of Agriculture.

The census was based on club enrollment figures for 1945. Texas had 100,820. Mississippi's 100,239 members placed a close third.

During 1945, 20.7 percent of all Texas rural-farm youth were engaged in 4-H Club projects. This percentage was based on the 1940 population census, however, so the figure could be much higher or lower now. Texas club membership in 1945 dropped slightly from the 1944 figure, which was 103,294.

A report from USDA received by the Texas A. and M. College Extension Service stated that Congress, when it appointed, since July 1945, some 1390 new county extension agents, expressed the intent that these new agents would spend much of their time in bringing more boys and girls into 4-H Club work.

MODERN REFRIGERATION AIDS ECONOMICAL BUYING

Because of the accurate low temperatures maintained in modern refrigerators it has become possible to eliminate food loss by spoilage but also to buy economically. Reports from homes, where Westinghouse refrigerators have been tested show that an average of \$1.75 per week is saved by buying in quantity and by watching for and taking advantage of food sales.

BROWNFIELD STATE BANK

Public Health Unit Engineer Enlarges On Bubonic Plague

As a matter of clarifying recent articles concerning the presence of Bubonic Plague in this area, Walter Breedlove, Public Health Engineer of the South Plains Unit, explains that the presence of plague in Cochran County was proved by the U. S. Public Health Service in fleas from ground squirrels and prairie dogs taken on April 27-30, 1946.

Since publication of this statement had caused many inquiries the Engineer explains this to the people by stating that Public Health Authorities have published reports showing that the presence of plague in West Texas is a result of the movement of this disease beginning in Hong Kong, China in 1894 and reaching San Francisco about 1900. The disease has since spread eastward in various rodents and was first proved in Texas in April of this year.

According to records available only forty human cases of plague had been reported in the United States which were attributed directly to infection from rodent carriers of the disease up to 1938. The first indication of plague in this area was found near Broncho in the spring of 1943 when it is believed without laboratory proof that rats died from the disease.

Fleas from rodents in Hockley and Terry Counties have been sent to the State Laboratory at Austin but confirmation of the presence of plague in these areas has not been received.

The presence of plague has been proved in West Texas and since the progress across country has been steady during recent years it may be assumed that it will spread eastward and that human cases may occur if proper control measures are not taken. All towns within this area have been warned about the approach of this disease and all residents everywhere are urged to take special precautions to see that all buildings are rat proofed and that infestation of rats and other rodents is kept at a minimum and that fleas are controlled wherever they are found, since it is the flea that transmits the disease from the rodent to man.

Mrs. Ruth Patterson and Miss Bennie Kenshalo, are leaving today to spend their vacation in Mexico City.

Girl Scout Troop I has discontinued meetings until further notice.

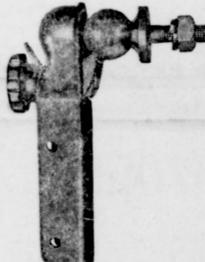

Jack Browder, Margaret Goza, Sue Jones, and O. E. VanMeter were in Ruidoso last weekend.

Funds Okayed For Vets' Pay

Washington, Aug. 8 — President Truman today signed legislation carrying money to pay some 15,000,000 former and present enlisted men for terminal leave they did not get.

He also signed a series of other measures affecting ex-service men including one increasing veterans' pensions by 20 percent and another designed to head off what Veterans Administrator Omar N. Bradley has described as a threatened national scandal in veterans' training.

The appropriation for terminal leave was signed in advance of the bill which authorized such payments. A special White House ceremony—possibly tomorrow—will attend the signing of the latter measure.

New Funds For OPA

The legislation signed today:

1. Appropriates \$2,431,708,000 to

MUST GROW MORE

"For several years to come, and indefinitely if sounder price policies are pursued, the United States will have to turn out substantially larger crops of cotton if domestic and foreign demands are to be satisfied."—Journal of Commerce, New York.

Rotan passed in favor of a \$258,200 school bond issue last week.

make the terminal leave payments, mostly in five-year bonds; \$30,000,000 to buy special automobiles for legless veterans; \$26,000,000 additional for OPA.

2. Increases by 20 percent the pensions of nearly 2,000,000 veterans of both World Wars and 400,000 dependents, effective Sept. 1.

3. Sets up tighter standards for on-the-job training for veterans, the activity in which Gen. Bradley said scandal was threatened; provides for inspection of such training projects and sets pay ceilings for veteran trainees.

U. S. CAVALRY PARADES IN TOKYO . . . The U. S. 1st cavalry division is shown parading down one of the main streets of Tokyo during celebration held in the Japanese capital. Lt. Gen. Robert Eichelberger, commanding officer of the 8th army, and Maj. Gen. William Chase, commanding officer of the crack cavalry unit, reviewed the display of U. S. might from a stand in front of the Imperial hotel in Tokyo. Many G.I.s watched from the sidewalks.

Wildlife Conservation Starts At Boys Camps

College Station — Texas sportsmen's organizations can do a lot toward conserving wildlife and natural resources in the future by sponsoring summer camps for small boys. R. E. Callender, specialist in wildlife conservation with the Texas A. and M. College Extension Service, pointed out this fact after attending a boys' camp at Lake Dallas sponsored by the Denton County Pointer and Setter Club.

Thirty-five farm boys attended the camp, were entertained at the expense of the Denton county club

MORE SEED WILL PAY

"As we perfect mechanical harvesting, there is every reason to believe that production of cotton producing much higher yields of seed per bale of cotton will become profitable to the producer." —A Cecil Wamble, Texas Cottonseed Products Research Laboratory.

and instructed in methods of conserving wildlife and natural resources on the farm. "It is an excellent project for any sportsmen's group to consider," says Mr. Callender. He hopes to see more sports organizations sponsor similar camps in the future.

Watering Trees And Shrubs

College Station — Many trees and shrubs which were set out in West and Central Texas last fall have been lost due to lack of moisture. J. F. Rosborough and C. R. Heaton, horticulturists for the Texas A. and M. College Extension Service, say that these losses are due largely to improper watering methods.

The tight soils of West and Central Texas must be watered very slowly in order to get deep moisture penetration, the horticulturists say. Every 10 to 14 days is often enough to water if it is done properly.

A soil covering placed around the trees will hold the moisture in the soil. Hay, weeds, or any cured material that will make a mulch may be used for a ground covering. Experiments have shown that a mulch will cool the soil as much as 20 degrees.

TEXAS COMES FIRST!

That is the political philosophy of

Beauford Jester

of Corsicana

Candidate for
GOVERNOR OF TEXAS

In his opening campaign address Beauford Jester declared:

"The Political Action Committee of the CIO is not going to dominate the people of Texas."

"I am opposed to labor monopolists as much as I am opposed to capitalistic monopolists."

"There must be no threat to the life, livelihood or property of any citizen."

"In Texas we want equal responsibility from both labor and management—responsibility to the public itself."

"I am urging the people of Texas to return to first principles in government."

"The home, the Church, and the School are the foundations of our society and well-being. As Governor of Texas I shall ever strive to strengthen these foundations of Texas."

"I am a liberal Democrat, but I am not a loose Democrat."

Beauford Jester long has been an active worker for the better things in life—church, welfare, civic development, education, agriculture and athletics. He has served with distinction on the Texas Railroad Commission. His record as a citizen and as a public official justifies his promotion to the governorship of Texas.

Vote for

Beauford Jester

FOR GOVERNOR

He has declared:

"THE PEOPLE OF TEXAS ARE ENTITLED TO FIRST CONSIDERATION IN ALL PUBLIC MATTERS"

(Paid For By Terry County Friends of Beauford Jester)

Meat Shipments From Texas Less

AUSTIN — Fewer carloads of livestock were shipped in Texas during June, as compared with June 1945, the University of Texas Bureau of Business Research reports.

Shipments of cattle were 5 per cent less than in June, 1945; calves were down 30 per cent, and sheep shipments were only two per cent less than in June last year.

TRY THIS ON FRUIT PIES

It's done with macaroni — a trick to help keep fruit pies from boiling over. Westinghouse home economists stick about six one-inch long pieces of thick macaroni upright in crust before pie is placed in the oven. This lets off steam.

KILL RED ANTS! You can easily rid your premises of Red Ant Beds with Durham's Extermo Ant Balls at a cost of less than 5c per dozen. Six Balls 30c and 12 Balls 50c at your druggist or at

PALACE DRUG STORE

Poultry Shipments From Texas Increase

AUSTIN — Thirty-eight carloads of chickens were shipped from Texas in June, 1945, the University of Texas Bureau of Business Research reports.

A study of rail shipments of poultry and eggs was made by the Bureau in cooperation with the U. S. Department of Agriculture.

Egg shipments in June totaled 589 carloads, compared with 715 for June 1945, and 1,036 in May, 1946.

Turkeys shipped during June totaled 15 carloads, compared with 17 carloads shipped in June 1945. One carload of turkey eggs was shipped in June, 1946.

LINE WITH WAXED PAPER

When storing extra ice cubes in refrigerator drip tray, or meat keeper line the tray with waxed paper and, as Westinghouse home economists find, ice cubes won't stick to the bottom. If more than one layer of cubes are stored, separate each layer with waxed paper.

TRY A HERALD WANT AD

Diabetics Can Live Or Die Early

Austin, Texas — Despite the fact that modern medicine can do much to help the diabetic live out a normal life span, nevertheless diabetics took a toll of several hundred lives in Texas during the past year, according to Dr. Geo. W. Cox, State Health Officer.

"While the communicable diseases such as typhoid fever, malaria, diphtheria and smallpox are annually causing a decreasing number of human lives each year, especially in the middle aged group," Dr. Cox said.

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox said that diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational economic conditions are factors, since it seems a fact that those who do not indulge in luxurious living and whose occupations call for manual labor are not frequently affected.

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

Disabled Vets Get GM Priority On New Cars

DETROIT, Mich.—The General Motors Corporation has advised The American Legion it has worked out a plan whereby disabled veterans will be given priority in the purchase of new automobiles without the counting of such cars against the quotas of dealers.

The corporation also announced that its Oldsmobile division has developed a complete line of prosthetic appliances to enable handicapped veterans to drive a car.

We know a fellow who shaves forty or fifty times a day—but he's a barber.

CONSTITUTIONAL AMENDMENT

H. J. R. No. 49
HOUSE JOINT RESOLUTION proposing an amendment to Article VIII of the Constitution of the State of Texas by adding thereto a new section to be known as "Section 7-a"; providing that subject to legislative appropriation, allocation and direction all net revenues derived from the taxes, except gross production and

ad valorem taxes, levied on motor fuels and lubricants and motor vehicles registration fees shall be used for the sole purposes of acquiring right-of-ways for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrant voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; negating any interpretation of this amendment as authorizing the pledging of the State credit for any purpose; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; and providing for the proclamation of the election and the publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VIII of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as 7-a and to read as follows:

"Section 7-a. Subject to legislative appropriation, allocation and direction, all net revenues remaining after payment of all refunds allowed by law and expenses of collection derived from motor vehicle registration fees, and all taxes, except gross production and ad valorem taxes, on motor fuels and lubricants used to propel motor vehicles over public roadways, shall be used for the sole purpose of acquiring rights-of-ways, constructing, maintaining, and policing such public roadways, and for the administration of such laws as may be prescribed by the Legislature pertaining to the supervision of traffic and safety on such roads; and for the payment of the principal and interest on county and road district bonds or warrants voted or issued prior to Jan-

uary 2, 1939, and declared eligible prior to January 2, 1945, for payment out of the County and Road District Highway Fund under existing law; provided, however, that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; and, provided, however, that the net revenue derived by counties from motor vehicle registration fees shall never be less than the maximum amounts allowed to be retained by each County and the percentage allowed to be retained by each County under the laws in effect on January 1, 1945. Nothing contained herein shall be construed as authorizing the pledging of the State's credit for any purpose."

Sec. 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at the General Election to be held in November, 1946, at which election each ballot shall have printed thereon the following words:

"For the Amendment to the Constitution of the State providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund;

providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose.

"AGAINST the Amendment to the Constitution of the State of Texas providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from

motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose.

"Each voter shall strike out with pen or pencil the clause which he desires to vote against so as to indicate whether he is voting FOR or AGAINST said proposed amendment."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for Amendments thereto.

COPELAND HARDWARE

LESS WEAR AND TEAR ON TABLECLOTHS

When ironing tablecloths, fold them hem to hem occasionally, instead of lengthwise, and they'll last longer. As explained by Mrs. Julia Kiene, director of the Westinghouse Home Economics Institute, creasing at the same point tends to increase wear at that point. Linens especially are brittle enough to break at the crease in due time of folded repeatedly in the same place.

Mr. W. E. Latham is in Dallas on business this week.

ROBERT W. CALVERT SPEAKING FOR JESTER

Robert W. Calvert, who took a strong leadership for the Pro-Roosevelt forces in the democratic debacle two years ago, and who was strongly urged to run for Governor this time, declining at the last minute, is using the radio speaking for Beauford Jester for Governor.

Mr. and Mrs. Grady Dickson had as their guests last weekend, Mr. and Mrs. Syd Grant and Misses Mary Louise and Carolyn Owen, of Deport, Texas.

Let's Try To Stop Disease Inflation

Austin — In discussing the possible danger of inflation to the American way of life, Dr. Geo. W. Cox, State Health Officer, has declared that he believes, one phase of this menace which should not be overlooked is the danger of inflation in the incidence of disease.

"Just because we have won a war is no reason why we should allow the disease and death rates in the country to become higher than in recent peacetimes," Dr. Cox said. "Indeed, it is an urgent reason why we should sharply reduce these rates among our people and use every effort to keep the health levels among our civilian and military population at their highest possible peak."

The State Health Officer emphasized once again, as he has often done in the past, the necessity for using the more easily accessible, common-sense safeguards of health. Immunization against several of the more killing diseases is available to all, at little or no cost. Such protection should not be neglected and the person who allows himself or his family to suffer from a preventable illness is, whether he realizes it or not, actually handicapping the nation's reconversion effort. Another health precaution which can and should be practiced in every home and community is careful sanitation; clean clothes, a clean body, and clean home environments do much to prevent the appearance of illness in the home and the same sanitation practiced throughout the community will help to insure the good health of that community.

"Good, wholesome, nourishing foods, home and community sanitation, and the protection afforded by immunization can do a lot to prevent the needless inflation of the disease and death rates in this country," Dr. Cox asserted.

GI Question And Answer Department

Q. How can a veteran get assistance with his unemployment problems?

A. The veteran may consult a veteran employment representative in a local office or in the state central office of the employment service, a local service organization, a school or a community veterans center.

Q. If a veteran is unable to find work, where can he obtain specific information concerning unemployment allowances?

A. Inquire at the public employment office or the office of the unemployment compensation agency in the state or territory in which the veteran resides.

Q. Are there any penalties in case the veteran accepts readjustment allowances to which he is not entitled?

A. Any veteran who knowingly accepts an allowance to which he is not entitled shall be ineligible to receive further readjustment allowances. Also, the law provides for fine and imprisonment for anyone who fraudulently obtains payment or makes a false statement in order to cause allowances to be issued under the act.

Q. Does a veteran who is partially unemployed have a right to readjustment allowances?

A. Yes, a veteran who works less than his normal number of hours and who receives less than \$23 per week should inquire at the nearest public employment office of the state unemployment compensation agency as to his eligibility for partial readjustment allowances.

Q. Can a veteran have a loan guaranteed or insured to buy or construct more than a single-family home?

A. Yes, but one veteran cannot get a guaranteed or insured loan to buy or build more than a four-family home. If more than one veteran is buying, then the basic four-family home is allowed for the group and this may be increased by one additional family unit for each veteran participating: thus two veterans can buy or build a six-family home, three veterans a seven family home, etc.

The Hobbs Bill Aimed At Racketeers

Passage of the Hobbs Bill, which was signed by the President on July 3, was made necessary by the racketeering activities of certain organized labor groups.

Genesis of the bill goes back to 1941, when a New York City teamsters' union stopped trucks arriving from outside the city, and compelled shippers or buyers to employ union drivers and pay them the union scale. Threats and violence were employed. A farmer driving his own truck and hauling his own produce was forced to hire a union driver. A test case was taken to the Supreme Court, which held these activities did not violate the Federal anti-racketeering act, and that remedial action would have to be taken by Congress.

The Hobbs Bill is the result. It simply makes it unlawful for unionists, along with everyone else, to interfere with interstate commerce by extortion or robbery. It does not interfere with labor's rights to strike or picket. It is in no sense a "class" measure.

It is a remarkable fact that some labor leaders vehemently objected

UT Goes Back To Pre-War Schedule

Austin — The calendar of the University of Texas for the coming school year lists Thanksgiving and Easter holidays for the first time since the close of war. The University returns to its pre-war schedule of two semesters with the beginning of the winter term September 16.

Registration for the long session will begin Sept. 16 and ends Sept. 21. Freshmen convocations will be held Sept. 16. First semester classes begin Sept. 23.

Thanksgiving holidays will be held Nov. 28-30. Christmas recess will begin Dec. 21 and end January 3. Spring vacation will be April 4-7.

Legumes Paying Off

College Station — The winter legume program is benefitting greatly cotton farmers in the Texas coastal areas, reports F. C. Elliott, cotton work specialist for the Texas A. and M. College Extension Service.

Evidence of this fact is shown in Lavaca County Elliott says, where the legumes were planted on 255 farms last fall. Lavaca County Agricultural Agent G. C. King made a recent random check of the cotton in the area, and found that cotton following the legumes had an average of two more bolls per stalk than cotton planted on soil that hadn't had benefit of the legumes.

Social Security Man Here August 22

Elliott W. Adams, Manager of the Social Security Administration in Lubbock will be in Brownfield at the U. S. Post Office, at 9:00 a. m., Thursday, August 22, for the purpose of assisting persons who have questions regarding Social Security, taking claims from persons who seem to be entitled to benefits and taking applications for Social Security account number cards.

Women workers should notify the Social Security Administration when they marry so their names can be changed on the records in Baltimore. If they do this they will make it easier for themselves and the Social Security Administration when the time comes to file claims for old-age and survivors insurance benefits.

The Administration does not assign her a new number, but issues a new card bearing her present name and the number that was originally issued to her. She thus will have only one Social Security number during her entire lifetime. If she had more than one number or uses more than one name, she may stand to lose her benefits.

"Are you blind?" snarled the pedestrian. "Blind?" snapped the driver, "I hit you didn't I?"

Morton business firms closed half a day last week to start the city's all-out clean-up campaign.

CANNING "DON'T"

Never open jars at the end of processing to refill with liquid. It's explained by Westinghouse home economists that loss of liquid from the jar does not affect the keeping quality of home-canned food. If the jar is opened it must be reprocessed to prevent spoilage.

Morning is that time of day when the rising generation retires and the retiring generation rises.

Big Spring last week was named district office for West Texas division of the Civil Aeronautics Administration.

Crosbyton last week donated a building for the first unit of a labor camp there.

Behind the Scenes in American Business

By John Craddock

NEW YORK, August 12—Earnings reports for the first six months of the year are flooding the mails to the millions of men and women who own American business. Many of these reports make sad reading. The figures reflect the economic consequences of the strikes earlier in the year. It is the heavy industries which disclose the deepest red in their figures. Both the electrical equipment and the motor car industries operated at substantial losses through the first half of this year. So, apparently, did the railroads. The first 35 Class I roads to report showed a net deficit for the period of \$20 million against earnings of \$217 million last year. Though the steel industry kept in the black,

due chiefly to tax adjustments, its earnings, too, were off sharply. So substantial were the losses in the heavy industries that, on the average, they more than offset gains registered by some of the consumer goods divisions. Meanwhile, Bureau of Labor Statistics figures reveal a 44.5 per cent gain in workers' wages and only a 10.5 per cent gain in workers' output since 1939.

THINGS TO COME—Sales talks in retail stores that start clacking when customers pass between two electric eyes . . . A weed killing machine that travels over a field, electrocutes the root systems of weeds . . . A battery-operated light, attached to any house door, that throws a beam on the keyhole . . . Now they have sun-tan lotions that are said also to be antiseptics . . . Still another soapless detergent will soon be offered housewives to make dishwashing easier . . . A cola drink, in tablet form; you just drop the tablet in a glass of ice water . . . A new livestock feed made from corn silk is at least a possibility . . . They say there is a device described in the Patent Office as a protection for walking at night. Pedestrians don the outfit and carry lights all over them.

STATE FAIRS — Watch your state fairs this year for more things to come. You may see on display the Chicken-of-Tomorrow. All over the country (in 44 states to be exact) poultrymen are competing with each other in a chicken breeding contest. Object of the contest, in which federal and state agricultural experts as well as poultrymen are participating, and which will run for three years, is to produce an improved meat-type chicken. Such a bird could substantially add to poultrymen's earnings, now so heavily dependent upon eggs.

BITS O' BUSINESS — Retail trade experts are watching the sales trend of the second half of the year closely. Durables, such as furniture, household appliances and various hard goods are coming into better supply. Will consumer buying shift to this type of goods at the expense of apparel and piece goods which have been accounting for so much of the recent volume? This does not mean that analysts expect any marked drop in overall retail sales. Far from it. But if public buying does switch,

Cotton Crop Is Below Average

Washington, Aug. 8 — The Agriculture department today forecast a 1946 cotton crop of only 9,290,000 bales, indicating that this country's supply for the year ahead may be at the lowest level in 18 years.

The prospective supply will be adequate, for domestic manufacturing needs and indicated export demands. Reserves at the end of 1946 consumption year, however, may be reduced to the smallest quantities since the late twenties. This year's crop will be augmented by a carry-over of about 7,600,000 bales from previous crops. Thus the total supply will

stores that sell hard as well as soft goods have a better outlook than those specializing in non-durables . . . Out on the west coast they are packing the biggest tuna catch on record. Some five million cases are expected in this year's pack, against 1940's previous record 4.1 million . . . The average American consumed 18.6 pounds of coffee in the twelve months ended June 30. Didn't seem that much, did it? . . . Demand for honey is boosting the bee business. The U. S. now has 33 per cent more bees at work than in 1940.

be about 16,890,000 bales compared with a record of 24,600,000 in 1939. Demand, on the other hand, totaled about 12,700,000 bales for the consumption year ended Aug. 1.

Curry County, N. M., proudly announces its bonded debt has been cleared, approximately eight years ahead of time.

Abilene Reporter-News Chooses Mr. Jester

The Reporter-News believes that the growth and development of Texas and the promotion of harmony among its citizens will best be served by the election of Beauford Jester as governor.

In particular, it believes the election of Dr. Rainey would further involve the destiny of the University of Texas, and through it the state's whole educational system, in endless controversy and turmoil, to the hurt and detriment of the state as a whole and education in particular.

For if Dr. Rainey gets in, he will undertake to remake the university in his own image, and his successors in office would feel justified in doing the same thing.

Mr. Jester's attitude toward this question is simple and direct. He says that while he was a member of the board of regents there was harmony on the board, and that the greatest building program in the university's history was carried out. He says if he is governor, harmony will again prevail.

We take no stock in the charge that Dr. Rainey is a wild-eyed radical, any more than we take stock in the charge that Mr. Jester is a creature of the "interests."

If some of the "interests" are found on Mr. Jester's side, that is not surprising, since Dr. Rainey has been telling for years what he was going to do to them if he got the chance.

Mr. Jester is an experienced and able administrator, a sound business man, and a solid citizen. He is not given to going off at tangents, or indulging in demagogical pyrotechnics. He can and will get along with the legislature, whereas, the election of Dr. Rainey would almost surely usher in another period of uproar, with the result that he couldn't put any of his program across.

Dr. Rainey refers to Mr. Jester as his "rich" opponent—frequently. The ability to make money honestly is not a crime in this state. We do not know how "rich" Mr. Jester is, but the fact that he has been successful with his own affairs lends basis for the belief that he can manage the state's affairs successfully. And so, we hope he's elected—Abilene Reporter-News.

Colorado City, acting as trustee for four other cities, last week filed application with the state board of water engineers for water rights on the upper Colorado River.

War II, and it was evident that demobilization could turn into a flood. This was borne out by the fact that the number of World War II veterans has reached the 13,000,000 mark during the past year. The first job faced by the General was to ready the VA to handle the tremendous load of work created. General Bradley states that he has spent a great part of the past year in this task.

The Low Down From Hickory Grove

Today I am on WSDCM versus EDUCATION. To explain it, sorta short-cut and quick, I would say "wisdom" is what Mr. Franklin and Mr. Washington and the Mayflower folks used when they set our Govt. up in business, and got it clicking. And "education"—it is more like something in a book that you prove with figures and diagrams but which, when you try it, don't work so hot, like in Socialism where the book says the profits go to the people, but which in practice it turns out there is no profit to go any place.

You take a bride and you nibble on one of her biscuits made according to the latest book—it don't hold a candle to one of grandma's gems. Wisdom and "know how" come from experience.

We been going through a book era. In Govt. if the book says to raise less corn so prices will be good—and the farmers pay attention and raise less corn and it becomes scarce, then next year another book will explain how to ration scarce corn so everybody will get his share. Two books are worse than no books, you might say — when the Govt. gets mixed up with corn and professors versus leaving it to the farmers.

Yours with the low down,
JO SERRA

Veterans News

Thirty-two of the 107 VA hospitals now are working under the new program of cooperation with leading medical schools, according to a report of the VA Medical Director. Within six months the program will be operating in 65 to 70 of the hospitals. The new program consists chiefly of using the VA hospitals as "teaching hospitals" for grade A medical schools. The Medical Director cited the

known fact that best medicine is practiced in such hospitals.

One million of the 1,600,000 veterans who came from farms will return to the farm, 900,000 of them as farm operators, according to a VA estimate. Citing the many pitfalls in trying to obtain farms at this time which would support veterans and their families, alternatives of formal education in agricultural schools or on-the-farm training under the VA program were suggested. A depart-

ment of Agriculture estimate which throws a brighter light on the long run outlook for farm-veterans is that 160,000 farm vacancies per year will occur during the next five years. This means 800,000 farm vacancies by the end of the five years.

This week marks the first anniversary of V-J Day as well as the anniversary of the day General Omar N. Bradley took over the reins of the VA. On V-J Day there were 2,500,000 veterans of World

G. I. Insurance Put On Peace Time Basis

Insurance benefits to veterans were materially extended when the President signed a liberalized GI insurance bill last Friday, Robert W. Sisson, Lubbock Veterans administration regional manager, said today.

Discussing the amendments to the National Service Life Insurance Act which became law yesterday, Sisson said GI insurance benefits are now in line with those of commercial insurance companies at a great saving to the veteran.

"As originally enacted, National Service Life Insurance was designed to meet the needs of men and women at war," Sisson explained. "The new amendments provide for liberalization to make it more attractive in peace time."

Principal changes in the amended act include:

1. Lump sum payments to beneficiaries if desired.
2. Total disability protection upon payment of a slight additional premium.
3. Entitlement of all persons who served in the armed forces between October 8, 1940, and September 2, 1945, to apply for National Service policies or to in-

AGREE ON RESEARCH

"Thoughtful men have long felt that cotton economy calls for something more fundamental than government support prices. There are conflicting views, but they are agreed on one thing. This is that more money must be made available for research to find more economical means of producing cotton and new uses which will increase consumption." — The Alabama Farmers State.

Abernathy holds its annual homecoming August 13, with its world War II veterans as honored guests.

crease the amount of policies already in force.

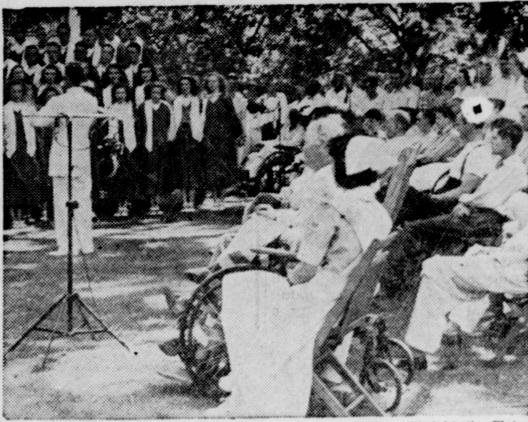

4. More endowment types of policies offered.

5. Removal of many restrictions in the naming of beneficiaries.

"Holders of about six million NSLI policies now in force are eligible for the many new benefits provided by these amendments," Sisson pointed out.

"In addition, those veterans who formerly held some ten million policies that have lapsed may still be entitled to reinstate them and take advantage of the low cost protection provided for their families by GI insurance."

MUSIC FOR WOUNDED VETERANS

Veterans Administration Photo

Members of the Sault Ste. Marie, Pa., high school glee club here entertain patients at the Veterans Administration's Mount Alto Hospital in Washington, D. C., during a recent eastern tour.

We Are All Investors

In a recent editorial, the Saturday Evening Post discussed the "war against saving," caused by the steady decline in return on invested capital, and the enormous increase in taxes on earnings. In

conclusion, it said: "If the war against saving is carried much further, our users of capital will be driven to government lending agencies, with the inevitable evils that arise when investment is made, not to produce a profit, but to augment political power . . . For the 'Little People' the prospect would be much as the London Times lately stated it: 'The worker will face a single vast monopolist employer — the State—whom he can neither emulate nor fight.'"

"Most of these evils can be avoided if the so-called Common Man will consult his own interest instead of letting demagogues and executive secretaries of leftist committees define it for him. If he did that, he might even champion the right of the investor to his just share of the pie, if only on the ground that, when you come down to earth, we are all investors."

Government domination of industry, like government ownership of industry, is the sure and inevitable road to Statism. That is why we must keep private enterprise alive—and to keep it alive we must allow it adequate earnings on the people's savings it represents.

The Nitro plant at Seagraves was destroyed by fire believed caused from spontaneous combustion.

Allan Shivers Is People's Favorite

Senator Allan Shivers, in thanking the voters of Texas for the heavy lead they gave him in the July primary to make him the fa-

vorite candidate for lieutenant governor, also warned citizens that attempts will be made by "scheming minority pressure groups" to defeat him in the August 24 runoff.

The Jefferson County legislator, lawyer and farmer, pointed with pride to the overwhelming support which he received in his present home county and in the county where he was reared to manhood. Shivers, a World War II combat war veteran (the only veteran in this race), polled approximately 75 per cent of the votes in Jefferson County, his present home, and was a 25 to 1 favorite over his runoff opponent in Tyler County, where he spent his youth. Senator Shivers led his runoff opponent by approximately 100,000 votes in Texas.

"I am deeply grateful for the confidence the people of Texas have shown in me and the progressive program for Texas which I advocate," Shivers said "I shall strive even harder to work for the welfare of Texas."

"Because I represent the masses of the people, there will be those in the runoff campaign who will conspire to defeat me," Shivers predicted. "I will not be swayed by these radical, minority groups—the C. I. O. noisemakers in particular. My opponent is welcome to the support which they are giving him. I will continue to fight for the right and welfare and progress of our people who make up the backbone of Texas."

Variety In Homemade Bread

College Station — Stretching wheat flour in home baking can bring a variety in taste and texture to home baking. Possible extenders include rye flour, oatmeal or cornmeal, potatoes and sweet potatoes. But Edith Lawrence, specialist in food preparation for the A. and M. College Extension Service, cautions housewives that for good results they must know the correct amounts to use and the best method of mixing.

Yeast bread may be made entirely from rye flour. The German bread, pumpernickel, is a familiar example. All-rye bread is darker, more moist and heavier than wheat bread. A lighter loaf may be made by using half rye and half wheat flour.

In extending with oatmeal or cornmeal, only a third as much finely ground oats or fine cornmeal as wheat flour is recommended. Oatmeal bread is slightly coarser and darker than white bread but excellent in flavor.

These flours or meals are sifted or mixed with the wheat flour and then the bread is made by the standard method for white bread offered in any reliable cookbook.

In using potatoes in bread, both the proportions and the method of mixing are different. Only a small quantity of potato can be used—about one cup of mashed potatoes to five or six cups of flour. The mashed potato is thinned with potato water, then mixed with the softened yeast cake before the flour is stirred in to make a dough or sponge. Mashed sweet potatoes may be added to the sponge with the flour.

State Unemployment Man To Be Here

Unemployment compensation taxpayers in the Brownfield area will have a chance to consult a field auditor from the Lubbock Area Office of the Texas Unemployment Compensation Commission Tuesday, August 20, 1946.

The Lubbock Office has announced that Mr. T. E. Pendleton will be available for consultation that day for employers in Brownfield and the surrounding area.

Mr. Pendleton will be at the office of the United States Employment Service, 605 West Main St., Brownfield, from 9:30 a. m. to 2:30 p. m.

This service is offered employers so they will not have to go to Lubbock to get answers on their tax problems. Employers now sub-

COTTON OPPORTUNITY

"Oklahoma has a tremendous investment and wealth of experience in cotton. The state has thousands of acres of fertile land that will return more money per acre when planted to this crop. When world trade is resumed, there will be a huge demand for cotton goods, and certainly Oklahoma needs the cottonseed cake and meal that supplements its vast grazing areas. There is no reason to become discouraged with cotton, but every reason to recognize the problems and attempt to solve them."—Henry E. Dunlavy and Associates, Oklahoma Experiment Station.

ject to the Texas Law, or those who think they may become subject, are invited to see Mr. Pendleton.
