

Here We Are Back Home Safe And Sound

Here we are in good old Terry again, the county that can sometimes promise less and deliver more than any county in the state. Up to late in August it looked like we had not only kissed a cotton crop goodbye, but had little chance of a feed crop. And cotton is still shy, but we will perhaps get a fair feed crop.

Let us say that we had a great trip, and everywhere the folks seemed real glad to see us, and we just know they meant it. They even insisted that we stay longer, but we knew that the first of the month was approaching with those little bills to make out and to receive like ones from those who trust us 30 days. So we have had our head buried under a raft of business since getting home. No time to rest a week from our vacation.

And we have found out since we reached home that we had some readers. Many have asked about "our friend," that was in the jail at the Knott Berry Farm. Even Dave Beasley, as busy as he is on his fine farm, acknowledged without a blush that he had been reading all we sent in from the Golden State. All that made us very happy. Later, a California man, Homer Nowell, formerly of this city, said he was reading our trip stuff before he left Salinas, Calif., for Terry on a visit.

We stopped briefly in Arizona with the Mumford Smiths and Walter Holdens at Glendale, and with Cleve Holden and family at Coolidge. At the latter place, we met Harrison (Hack to the old timers here) Holden, the Indian trader who came down from Gallup, N. M., to see us. Hack, or Harry as they call him out there had several thousand dollars worth of, as the old riddle said, "rings and jewels and all other pretty things," as he never goes anywhere but he is prepared to do some trading. The Jews as a race are accused of always being prepared to make a dollar, but Hack has most of them we know skinned a city block.

Just how much money Hack has is a secret that no one but himself knows, but evidently some in that section think he has quite a bit of loose cash about, as an Indian tried to rob him last spring and got himself killed for his trouble. But the law up at Gallup said Harrison was justified in shooting the half drunk Indian, after he had taken a few pot shots at Hack. So that's that.

After clearing our desk of all the new deal propaganda that the Junior editor had failed to dispose of while we were away, as well as dope from many other sources that want publicity for free, we find we just have time for this article. As we don't know any Republicans to speak of, we don't expect so much propaganda after the GOP bunch takes over next January.

We back-tracked most of the way home, as we had heard of snow in the mountains further north while out there, and chose the southern route, and we don't pronounce root. However, when we got to Las Cruces, N. M., we turned via El Paso and Carlsbad, N. M., instead of via Roswell, as we wanted to come through the Guadalupe range of mountains in the day time. Let us state right here that the drive through those mountains in the hang-under New Mexico part of Texas, are just as pretty as they have been described to us. We had been over that highway once in the night.

By the way, our brother-in-law and wife, Mr. and Mrs. Bill Wilson are to visit us soon. He is a native Californian, as his dad and mother went there in the 80ties, and he has never seen Texas. Jessie, his wife, was born in Terry county, but left here when a child of 5 or 6 years of age. Bill and his two brothers are large orange, walnut and apricot growers, and as he has summer oranges and spring apricots, Bill stated he would be at leisure to make a long planned trip to Texas right now better than any time of year.

His walnuts have also been "shook" out of the trees as we tried to describe heretofore in an article.—Old He.

Kate Smith Heads Polio Program

Kate Smith, famous radio star, is national chairman of the 1946 Sister Elizabeth Kenny campaign for Infantile Paralysis, which campaign will be conducted throughout the nation, November 18 through December 7.

KATE SMITH

The Texas quota has been set at \$150,000, George C. Francisco, Jr., of Houston, chairman of the Texas Executive Committee, announced, and funds will be used to send graduate nurses to the Kenny Institute in Minneapolis for two year training as technicians, so that there will be available trained Kenny technicians wherever polio breaks out in epidemic stage, and to eventually build Kenny clinics in the state.

Counties are being organized throughout the state. Campaign chairmen have now been appointed in more than 100 counties and committees are being organized. However, volunteers are needed throughout the state. Interested persons can contact the Kenny State Headquarters at the Driskill Hotel in Austin.

Cubs All Set To Invade Plainview

Coming out of the Lubbock game with a minimum of injuries, the Cubs have been termed in fair shape for the battle with the Plainview Bulldogs at Plainview tonight at 8 o'clock.

While the Bulldogs have fared somewhat better than the Cubs in season's competition, the Cubs have no intention of donating the Plainview lads tonight's game. Neither team has won in district play.

While the Cubs were losing a bitterly contested 6-0 battle to the Lubbock Westerners last Friday night, before a homecoming crowd estimated at 4200, the Bulldogs were absorbing a 28-7 beating at the hands of Borger in the first conference game for Plainview. Brownfield has previously been beaten 7-0 by Amarillo.

Both the Lions and Rotary Clubs have chartered busses for the game tonight. Superintendent McCollum has announced that the School would make available its busses for students and would send as many as were necessary. Plans are also being discussed at this time for chartering a special train to the Thanksgiving game at Borger November 28.

TWO LOCAL WOMEN SUSTAIN INJURIES

Mrs. J. H. Howell of the 300 block on South 6th, and secretary of the Woodman Circle, while out collecting Tuesday, accidentally fell on a curb near the First National Bank, sustaining a broken wrist.

Mrs. Helen Mangum accidentally fell in her home on East Tate Wednesday morning, breaking an ankle, and was hospitalized.

Veterans May Register Their Bonds

County Service Officer C. L. Lincoln informs us he has a book register for veterans to bring in and register their terminal leave bonds, without charge.

This is to be a permanent record, and he points out that if the bonds should become lost or destroyed, the record would be proof for issuance of new ones.

U. S. O. Drive Lagging Here

Local officials of the U. S. O. drive, now on over the nation are somewhat disappointed over the let-down, which seems to be universal, in collections to this very worthy cause. This county's quota is \$1040.00, and they have only collected \$349.00 up to Monday of this week. The purpose of these funds is to bring a home to the boys away from home. From every 8th home in the country, is a boy yet in service.

They are nearly all 'teen agers, just a kid army, many are over seas. The Army still maintains several bases in this country also, as well as abroad. Nothing touches that lonely home chord in their youthful hearts more than entertainment, a show, of American vintage. Books, magazines, the friendly chats, and little aids in a thousand ways, from those of their kind. A few words in their own lingo, a little cheer and sympathy keep their straining home ties unbroken. Don't let them forget America still exists, and human hearts still beat for them, as they serve for us. All is not military. The USO's entertainments, and in many little ways, the Army cannot supply, brings them joy and comfort.

Zone and precinct chairmen are urged to make an effort this week to wind up the drive, and the public is requested to not wait for a caller, but to contribute their mite, by paying it to J. J. Kendrick, the Treasurer, at the First National Bank.

The war is not over for a million kinds in service.

Mother Of Local Business Men Dies Here

Mrs. Limmie Murphy, aged 76, succumbed to a year long illness Wednesday afternoon at the home of her son, Sam, on east Broadway. Funeral services were conducted at the Church of Christ, by the Minister, F. C. Stanley at 3 o'clock P. M., Thursday, followed by burial in the Brownfield cemetery by the side of her husband, W. F. Murphy, who died here seven years ago.

She is survived by five sons, Sam T. and Dewey F., well known business men of this city; John, a former resident here, now of Mineral Wells; E. G., of Ackerly; and L. B. of Big Spring. One daughter, Mrs. Oma Burnett, of Corpus Christi, who was attending her mother's bedside, the last several days. One brother survives, John Hobbs, of Merkel, who with his wife also attended the funeral; and 16 grandchildren and four great-grand children. The local Murphy brothers have lived here over 25 years; the deceased for about nine years.

Pall bearers were Joe Price, George Nicholson, Ed Whitaker, John Wall, C. G. Perry, and F. M. Ellington.

NEW OWNERS TAKE CHARGE OF SMOKEY'S CAFE

Mr. and Mrs. B. J. Layland are now the owners and operators of what was until his recent death, known as Spoke's Cafe in the 200 block of First Street or Seagraves highway. This is a drive-in cafe.

The Laylands are expert cafe people with much experience, and solicit your business.

District Court Holds Busy Session

The District Court held a busy session here Wednesday morning, disposing of some ten divorce cases and other non-jury cases. The Grand Jury in session, returned two bills of indictment by check, against one man, and one of theft of an automobile against a colored man.

Both are now in jail. Judge Reed and stenographer went to Plains for like business there in the afternoon.

Bobby Condra Gets In From Japan

There is rejoicing in the F. B. Condra household this week, as their son, who has been in the army of occupation of Japan, has arrived home with his discharge.

The Condra family are pioneer Terryites. Bobby's dad informed that boy did not like Japan or Japanese one bit, and was glad to get out of sight of them again.

Films To Be Shown At VFW Meeting

Arrangements are being made to show the documentary films, "Air War Over Europe" and "Weekly Review" at the next meeting of the Veterans of Foreign Wars at the Legion Hall, Tuesday night, November 12. New meeting time is 7:30 P. M. Plans are also being made to serve refreshments at the conclusion of the meeting. All members are urged to attend.

Band News

The Band is getting ready to go to the football game at Plainview Friday night. We will do about the same drill as we did at the Lubbock game here last Friday night. We will have one of two additions. We expect to put the people at Plainview on a good show.

At the marching clinic at Canyon the Brownfield band won a second division rating. We just liked a fraction making a first class rating. We will get better and go to more clinics and maybe we can get a first class rating before long.

The Plainview game will be the last game the band will go to this year. After football season we will start studying music and getting ready for concert numbers. We will also enter some more contests this spring.—Reporter.

Armistice Day To Be Observed Here

A football game between veterans, the Navy and Marines on one side, and the Army on the other, will be the main attraction here on the afternoon of Armistice Day, next Monday, at Cub Field.

Veterans, former gridsters, are lining up, practicing, and it promises to be a real game. They will also have parades between halves on the field.

They will have their usual breakfast at the Legion Hall, Retreat, a ceremony lowering the flag on the northwest corner of the court yard at 5:30 p. m., and a dance at their hall that night.

Tipton Orphan Home Truck To Be Here Tuesday, Nov. 12

Officials at Tipton's Orphan Home, located in Tipton, Okla., and sponsored by Churches of Christ, have notified the local congregation that their truck would be in Brownfield Friday, November 12th.

Among the wanted items are: plates, bowls, sheets, pillow cases, canned and dried fruits. We understand anything you want to send will be acceptable, but they were especially asking for the above items. A lot of items have already been left at the church store room. For further information see Joe Chisholm at the hatchery.

Republicans Win National Congress

Last Tuesday's election provided the biggest political upheaval in the nation in sixteen years, when the Republicans gained control of the House and Senate, surpassing their pre-elections hopes. In the House, 218 constitutes a bare majority; they have 246 and with 49 making a majority of the Senate, the have elected 51. So the nation is confronted with an Executive of one, and the Legislative branch of another party. The South remains solid.

Republican senators supplant Democrats in Massachusetts, New York, Ohio, Kentucky, and several other northwestern states. Congress organizes itself on the priority basis, this means Joseph W. Martin of Mass., will likely be the speaker, taking place of Texas' Sam Rayburn. Vandenberg will likely succeed Tom Connally on the Foreign Relations Committee. All committee chairmen will be changed.

Only Slight Damage By Frost

Most of the shivering early this week was from fear of the damage frost might do, and not because of it. Inquiries around Wednesday reveals but slight damage was done by the early week cold.

No damage was done to the late feed crop, which now is at its anxious stage. Many report with just a few more days for ripening, they will have a sixty per cent harvest of feed.

Anyway the cold wave proved it would be a cold day when the Republicans got in.

LIONS BANQUET THEIR LADIES

The local Lions club staged their annual Ladies Night banquet at the Legion Hall, Tuesday night, entertaining their wives and lady friends.

As a special guest they heard H. C. Pety of Corizzo Springs, an International director of Lions, and State leader, speak of Lionism, and its important part in keeping good will among the Latin-American neighbors, as well as promoting and sponsoring many civic accomplishments at home.

A number of Lions from neighboring clubs were also guests.

Mrs. Chris Quante, Mrs. Roger Heinrich and Daina Ruth McIlroy will be in Abilene over the weekend for the homecoming of A.C.C.

Very Light Vote In County Tuesday

That the July and August primaries are tantamount to election in Texas, was evident in last Tuesday's General election when a scarce 15 percent of the voters went to the polls. Unofficial returns for Terry county, which were late in coming in, shows Tom Connally with 390, and Sells, his opponent, 40; Jester for Governor received 380 to his opponent, Nolte's, 38; Mahon 285, Temple 39. All other State, District and County officers received the full vote.

The Constitutional Amendments were quite divided: 1st, to pay for building at John Tarleton college, 320 for, 140 against; 2nd, the Retirement fund for employees, 200 for, 260 against; 3rd, the Road amendment carried by 310 for, and 150 against.

The vote over the State was also light, but early returns indicated all the amendments carried but by slight margins.

Returns from the second election held yesterday, on the proposition to buy land to be sold to Veterans for farms and ranches, and the county's allocation of local funds, had not been received as we go to press.

Local Price Control Board Closed

The Price Control board at Brownfield, Texas, serving the counties of Terry, Yoakum, and Gaines was closed on November 4, 1946, Robert L. Noble, chairman of the local board announced this week.

"The step marks the conclusion of almost five years of unprecedented patriotic service by many citizens of Terry, Yoakum, and Gaines counties, who, through their thousands of hours of volunteer work, have prevented inflationary dangers from taking effect and saw that their neighbors had an equal right to their fair share of scarce commodities during the days of rationing," Mr. Noble, the chairman, said.

"Members of Terry county's price control board stayed on the job for more than a year after the end of the war. Production has had a chance to catch up with demand. Now that President Truman has announced the program for accelerating the remaining wartime controls, Price Administrator Paul A. Porter has determined that the remaining functions of local boards can be continued by the District OPA office at Fort Worth."

Mr. Noble gave the following information as to the conducting of OPA business in the future.

1. Trade and consumer inquiries about price control formerly handled by price control boards should be addressed to the OPA District Office in Fort Worth, Texas.

2. Certificates of Transfer covering sales of used passenger automobiles may be obtained from principal auto dealers. Dealers should request additional supplies from the OPA Regional Mail Center at Dallas.

3. Sugar rationing has been administered from the District Office since last January. In the future, sugar forms required by the trade and consumers may be obtained from the District Office in Fort Worth.

4. Pending compliance actions by the board will be transferred to the District Office.

5. The local board office will be closed for the transaction of public business on Nov. 4. However, the paid clerical personnel will continue on duty during the month of November in order to transfer records to the District office and to perform the many other duties involved in closing the board.

Now we can say we told you so, way back in June, when the Herald said editorially that the next lower house would be Republican, with a good chance that the Senate would swing the same way. We based our predictions on the unrest of people even in the old South in May, as well as what we could read in the papers and magazines about the thinking in the northern, eastern and Pacific states. It has been the habit of the American people to make a change periodically, when they feel they are being mistreated, whether there is anything that either party can or cannot do about the matter. The Republicans probably held the reins of government longer than any party from 1861 to the middle 80ties when Grover Cleveland was elected. Harrison beat him for second term, but he came back in 1892 for another term. Then the Republicans took over again and held till 1912, when Woodrow Wilson was elected. Possibly he would not have been re-elected had there not been a split in the Republican ranks with both Taft and Teddy Roosevelt running. Again the Democrats took over in 1932, when FDR got in and was elected consecutively for his 2nd, 3rd and 4th terms, by landslides. It will depend to a large measure how long the GOP will hold the house and possibly the senate, or whether or not they win the presidency in 1948, on their own conduct. If they settle back to their old standpat extreme right attitude of the past, their turn at the public trough will be short lived.

That the University of Texas has become a hot bed of radicalism is doubted by few. They, and we mean a small but very audible part of the student body and some of the faculty showed their hand at a football game between UT and SMU recently by booing Governor-Elect Beauford Jester. This after the people of Texas had given Jester a majority of almost 2 to 1. This attitude is probably agged on by one, J. Frank Dobie, author and English professor. What the regents should do is clear the institution of Dobie and all his ilk, and make it plain to the pinkish students that they can either settle down to study and quit politics, or maybe their appropriations will be so trimmed that only students seeking to learn will be admitted.

At times we really feel sorry for Harry S. Truman. In the first place, FDR would be the last man in the world we would want to follow as president. That magnificent poise and action; that matchless radio voice; that canny judgement of what was on the mind of a friend or foe. Yes, Harry Truman had a job following such a man in the White House. And for a few months, the whole nation felt the letdown. But HST rallied; he almost seemed to be a tripple threat man himself. Then came indecisions; his cabinet members were at variance and they gave sundry advise generally adverse to each other instead of all pulling together. Mr. Truman jumped from one position to an-

other. His friends lost confidence in him, and his foes used these breaks to advantage in the election campaign for all they were worth, and again, the general opinion became, "the man's too light for the job." The last bad break was to reverse himself on the OPA question. If HST had let OPA die as of June 30th, many close elections might have gone to his supporters instead of the opposition. But his final decision came too late.

The appointments of governor-elect, Beauford Jester are expected to come at an early date. Jester being a keen business man, his appointments are expected to be from some of the best material in the state, and we believe Texas can look forward to a real jamb up good business administration.

Gracie Allen, radio and screen comedian, who now operates a newspaper syndicated column, really gets off some good stuff on occasions. Of course her stuff leans much more to the ridiculous than the sublime. A late crack from her revealed what she expected the ladies to do when they fought the men back from the political feed trough and took over themselves. Says Gracie: "When we women get in power, there won't be no smoked filled hotel rooms where presidents are made or unmade, but it will be smoke filled beauty parlors."

As we write this Wednesday, the bosses of CIO-PAC may feel just as badly about the election as some of the Democrats. We have no way of surely knowing that, but they made it pretty plain who they were supporting, and in most cases, according to the returns, they lost. In fact, in some districts where they seemed to have a cinch, they came near losing, to mention one, the 1st of New York, held by one of Bilbo's Waps, and in an Italian-Negro district. So, here is the conclusion by columnists and radio commentators. A man may be a true 100 percent union man, but he don't mix that with his politics, no matter how much pressure the labor racketeers put on them, when they enter a voting booth, they are again just men and call their soul their own.

Monday the 4th was the anniversary of the birth of the late humorist, Will Rogers. Had he lived till the past Monday, he would have been 67 years of age, but he was cut down in a plane wreck in Alaska 11 years ago, and did not get to witness the horrors of another war. Had this Oklahoman lived however, there is no question that he would have been of immense help to his nation in raising war bond quotas, as well as helping keep up the morales of lonesome GI's by kidding them in a nice way. The nation still misses Will Rogers Sr. From talking to many while in California, Will Jr. is not exactly a chip off the old block. During his race in California for the US Senate on the Democratic ticket, he seemed to have an excellent chance for awhile, until he got himself endorsed by a bunch of leftists, which sealed his political doom.

Babson Discusses Real Estate

Babson Park, Mass., Nov. 8—The stock market is not the only thing that has had a bump during the past two months. I happen to be vice president of the Newton-Waltham Bank & Trust Company with assets of \$65,000,000. Naturally, we take a large number of mortgages. Just before leaving on my Western trip, it looked to me as if the edge is off the real estate market here in the East.

Conditions in the Middle West
Hence, on my Western trip I constantly inquired regarding real estate and found that all cities visited told about the same story. Briefly, this is that the demand continues for small houses selling from \$8,000 to \$12,000; but that the demand for larger houses, even new ones, has fallen off considerably.

Real estate agents tell me that property that has been selling for \$15,000 or over is now being marked down at least 20%. This applies to older fairly modern houses and also to new houses. Large houses are actually a drug on the market at the present time in some sections of the country. Veterans are gradually getting located. Rumors are abundant that new houses are being built of green wood, with few nails and

poor fixtures, which cause the purchasers to be wary of them.

What About Ceilings?

Sooner or later the cost of living will again decline. If labor plays fairly, it will be willing to take a cut in wages, as living costs decline, to offset the increased wages which it has been given as living costs have increased. But whether or not this happens, labor, before long, will do better work and give much more for an hour's wage. This will apply to all wage workers, beginning with those who cut the trees in the woods for the lumber. Hence, those who can wait before buying a new house, should surely do so. The present \$10,000 ceiling is not helping.

Now, a word regarding rent ceilings. It may be wise to continue rent ceilings on prewar houses although they should be adjusted to provide for the increased cost of upkeep, etc. But there should be no rent ceilings on new houses built for renting. Otherwise, very few houses will be built to rent and the nation will suffer.

Farm Investment

The subsistence farm which produces only enough to feed the family, pay taxes and hire a man, but where the owner has a position or business on the outside, is holding firm in price. This is especially true in the case of property within a mile or two of a church, stores, post office, schools, etc. Real estate people are looking up such property with the idea of cutting it up into a subdivision of

five or ten acres.

While on my trip, I purchased two 160-acre farms. Both of these I can rent at a figure to pay taxes and give me 4% on my investment. This is good enough these days with the security which a good farm offers. In one instance, the farm was within walking distance of a city of 5,000 population. I consider this a safe investment considering the excellent soil, drainage and location on a bus line.

Farming States

During this trip I found an instinctive desire of farmers to want to move in a southerly direction.

Farmers in Minnesota are selling and buying farms in Kansas, Iowa and Missouri; while farmers in these Central States are selling and buying farms in Oklahoma, Texas and perhaps Kentucky.

Although the general movement during the past fifty years has

Farmers Said To Be At Cross Roads

Farmers today are definitely at the cross-roads. The day has passed when a farmer working alone can hope to solve his own problems. The need for a strong farmer's organization was never greater than it is today. FARM BUREAU IS THAT ORGANIZATION!

Compare these prices. The first, following the commodity, represents the "boom" of 1919, the last figure the "bust" of 1920:

Cotton (lb.)	40c, 8c
Cattle (lb.)	17c, 7c
Wool (lb.)	70c, 30c
Hogs (lb.)	19c, 8c
Butterfat (lb.)	76c, 42c
Potatoes (bu.)	\$4.07, 68c
Peanuts (bu.)	\$3.70, \$1.15
Rice (cwt.)	\$8.02, \$1.72
Wheat (bu.)	\$2.56, \$1.19
Corn (bu.)	\$1.85, 46c

THIS MUST NOT HAPPEN AGAIN! To maintain farm prices at a fair exchange level is a job of a nation wide organization—of by, and for the farmers. As individuals, we CANNOT:

1. Be in Washington every day Congress is in session.
2. Be in Austin throughout the legislative session.
3. Attend hearings in all parts of the country where agriculture has a stake.
4. Protect our own interests against the interests of other strongly organized groups.

TEXAS DAIRY PRODUCTS SHOW DECLINE

Austin — Fewer dairy products were manufactured in Texas in September—there was less production of creamery butter, ice cream, and American cheese—data from the Bureau of Business Research at the University of Texas shows.

There were 1,492,000 pounds of creamery butter production, compared with 1,908,000 pounds in September, 1945; ice cream production dropped 12 per cent below production for September, 1945, and American cheese production was 775,000 pounds, but 21 per cent below production of September 1945.

Dairy products' production during September consumed approximately 80,677,000 pounds of milk.

EILEEN PALMER, of "Road Of Life," has proof positive that there is an exception to every rule. In the early days of Eileen's radio career, she broke an all-important rule by arriving at the studio for an audition with a 95% inferiority complex—the result of being down to her last slice of bread, last pair of suede shoes, and last drop of confidence. To boot, she was the last person to audition for the part.

But the resulting weak, timid, frightened voice was just what the director wanted. The job was hers. On "Road Of Life," heard on both NBC and CBS, Eileen plays the part of Frances Brent.

WINTER GIVES THE "GO" SIGNAL TO AGF TASK FORCE "FRIGID"

Headquarters, Task Force "Frigid"—Oct. 28—Winter has finally

arrived at the Headquarters of the Army Ground Forces Arctic Winter testing unit, Task Force "Frigid." While it is a scientific fact that winter does not officially arrive here in Alaska until, December 21st, members of the task force, including Pfc. Lenard M. Williams, Box 509, Brownfield, Texas, are convinced that it is already here.

With the fall of the first snow and the accompanying directive concerning the wearing of Shupacs, the task force personnel prepared to settle down to work and take whatever "old man winter" has to offer this year in the Fairbanks area.

Testing personnel are preparing to take the various types of Army Ground Forces rolling stock and equipment into the field and subject them to the wiles of the Arctic winter.

Located less than 100 miles from the Arctic Circle, Ladd Field near Fairbanks, Alaska, can expect temperatures which may plunge to minus 66 degrees, and snow that may exceed 60 inches during the winter months.

England suffered much during the war. Many blocks in the heart of the great city of London, completely razed by the Nazi "Luftwaffe," remain unrepaired. All parts of the city sustained scattered damage from the raids. They took much punishment bravely, and they are industriously setting about to repair their country.

Perhaps it is partly Britain's proximity to continental troublemakers and the consequent disaster, although some of these trouble spots have been pawned as well as threat during her history, that gives the people such an awareness of foreign relations. They have learned the defenses that are usually provided by a good foreign office, and have developed shrewd international statesmen. There is little apparent disunity in their foreign policy.

Nonetheless, war came to them, and their sufferings were great. Reconstruction in Britain is moving slowly. A long time will be required for complete rebuilding, even of her damaged streets and destroyed buildings. Materials are short, and rationing diverts most materials into home building, which is proceeding slowly also.

Rationing Slow-Down Most Britons feel that rationing of materials has slowed production. The government is meticulous about "filling out forms," and the proper approval must be had to obtain each different type of building material. Sometimes brickwork must stop because the bureau controlling glass has not approved and returned the forms for buying windows.

The London press announced while I was there that building contractors were being granted extra gasoline rations because of the additional travel required to get their numerous forms filled out and circulated to wholesalers and retailers, which they found necessary to do in order to complete a building.

All rationing seems to move slowly. For instance, I had to obtain food points to give the hotel for the week I was in London. Upon the advice of the hotel manager that I should report at the rationing office when the doors opened at nine o'clock, I arrived at 8:45 and found a long queue already waiting. Eventually I found myself in a special room for foreign visitors, with only a few of the waiting applicants, and had to wait only about an hour.

The speed of the ration clerks reminded me of some of our own paid clerks during the war: it was evident they were not paid by the number of customers they served and that they had no fear of competition. Queues and Bread

England is experiencing a greater shortage of food, clothing, and gasoline than during the war, and therefore rationing has not been eliminated. On the contrary, some items are now rationed which were not under rationing during the war. Queues of from 50 to 300 people were constantly on the streets, at most all hours, waiting to get rationed articles.

I was actually hungry every day I spent in England. Bread counts as one of the three courses available for a London dinner, and if bread is ordered this eliminates either the soup or sweet. During my last day in London a hotel waiter was fined \$20 for inadvertently putting a roll on the table for each of two men who had not ordered bread. They chanced to be inspectors

Teachers Launch Statewide Fight For Higher Pay

Dallas — Public school teachers of Texas are rallying to the call of the Texas Teachers Welfare Association, Inc., determined to wage a valiant fight for the right of teachers to earn a decent salary, and for proper recognition of the service they render in directing the education of Texas youth.

Plans are being made now for the annual meeting of this militant organization in December, at which new officers will be elected to direct the activities of the association. These include a membership campaign to enlist support of every teacher in Texas, a statewide educational campaign to inform the public of the grave crisis now faced by the school system, and sponsorship of legislation before the Legislature for increase in the pay of teachers.

Founders of the Republic of Texas made liberal provisions for a great public school system, but succeeding generations have not met their responsibility fully in maintaining this great public educational system. Dr. Joe P. Harris, Dallas County School Superintendent, Secretary-Treasurer of the association, said.

The American Council on Education ranks Texas 33rd among the States in per capita expenditure based on average daily attendance; 31st in expenditure per classroom unit.

Dr. Harris said the Rural School Aid Law, which provides State funds to help poorer rural districts, should be amended. This law fixes ceilings on pay of teachers in Rural Aid Schools, starting at \$1,215, with increase each year of \$14.50. Maximum salary for teachers with degrees is \$1,431.

These salaries may have been adequate when the law was passed, but they are far too low now, Dr. Harris said. The Texas Teachers Welfare Association will sponsor legislation to raise the pay of teachers.

March of Dimes Director Named

George D. Wilson

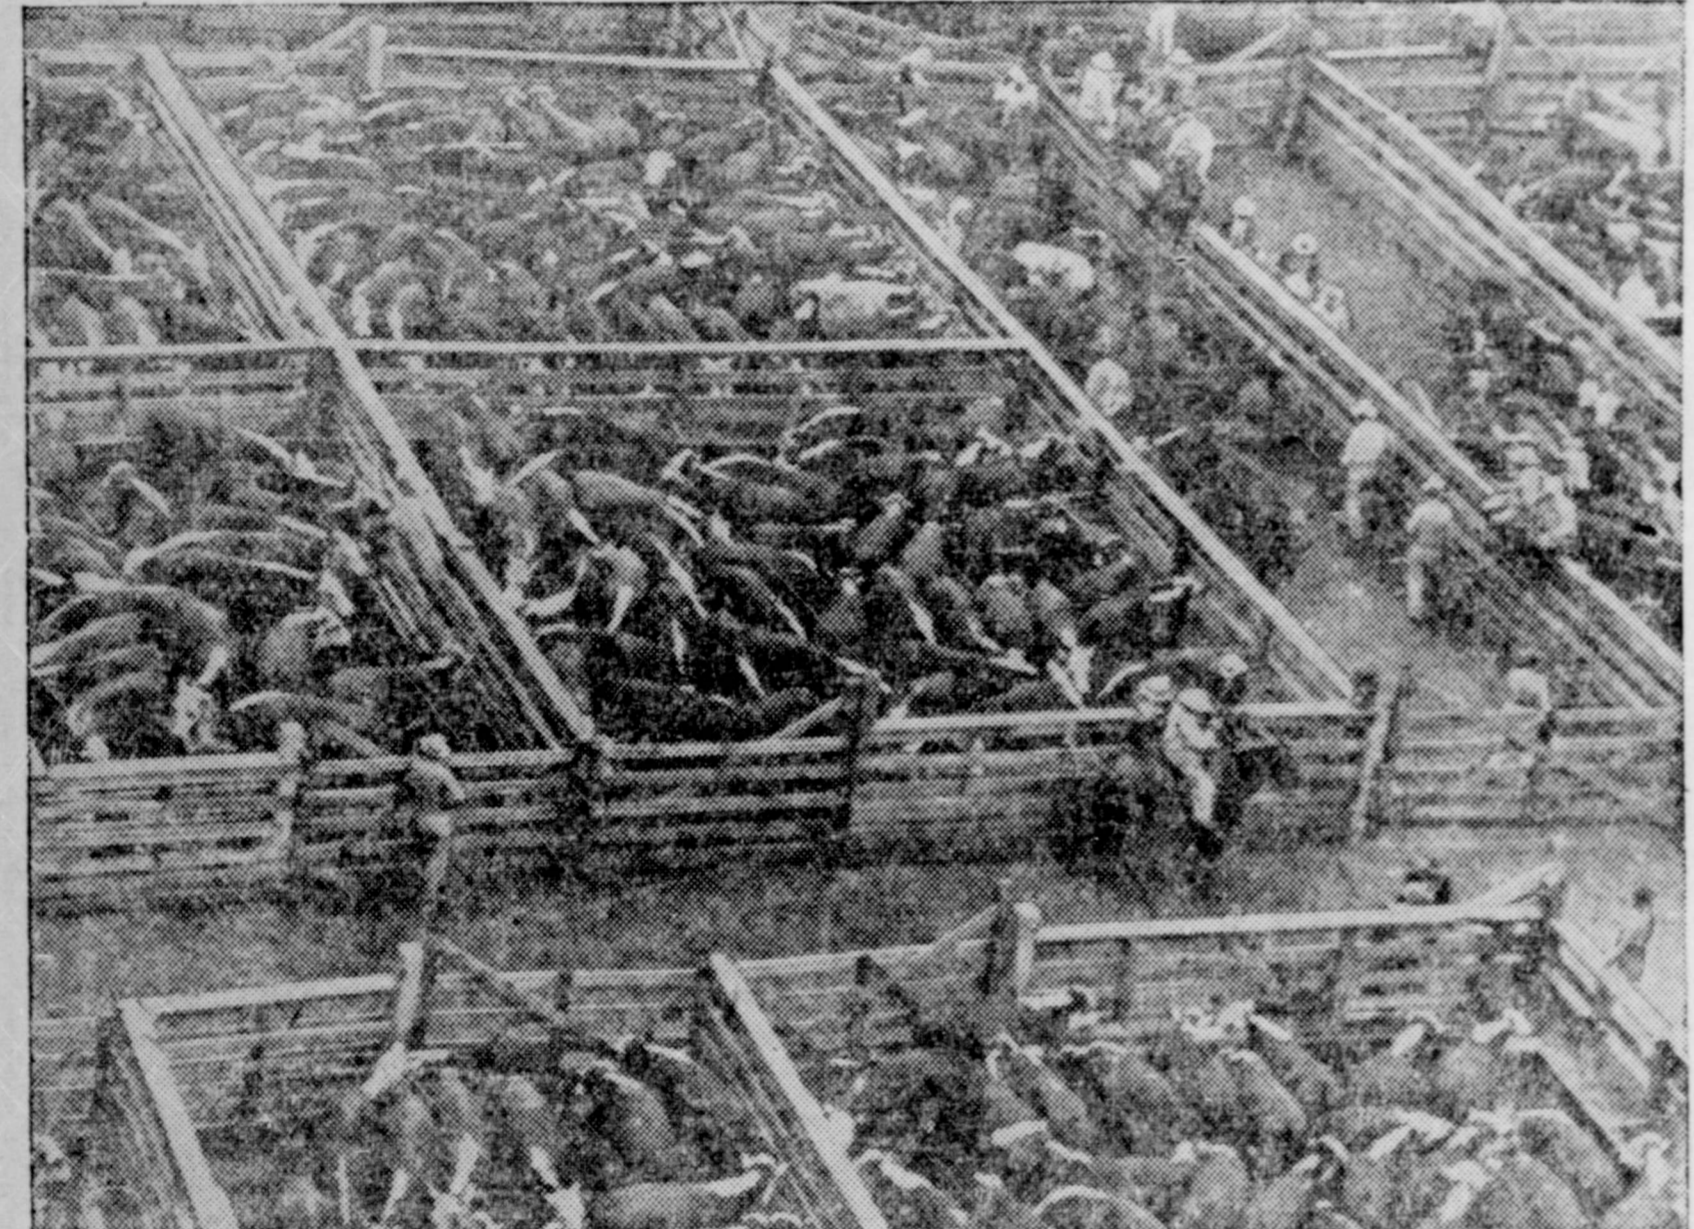

George D. Wilson, of Houston, has been named Texas State Chairman of the 1947 March of Dimes, Basil O'Connor, president of the National Foundation for Infantile Paralysis, has announced.

A prominent civil and religious leader, Mr. Wilson was formerly president of both the Board of Trustees of Houston University and the Board of Education of Houston's Public Schools. He is vice chairman of the Harris County Chapter of the American Red Cross and is one of the Houston chairmen of the National Conference of Christians and Jews.

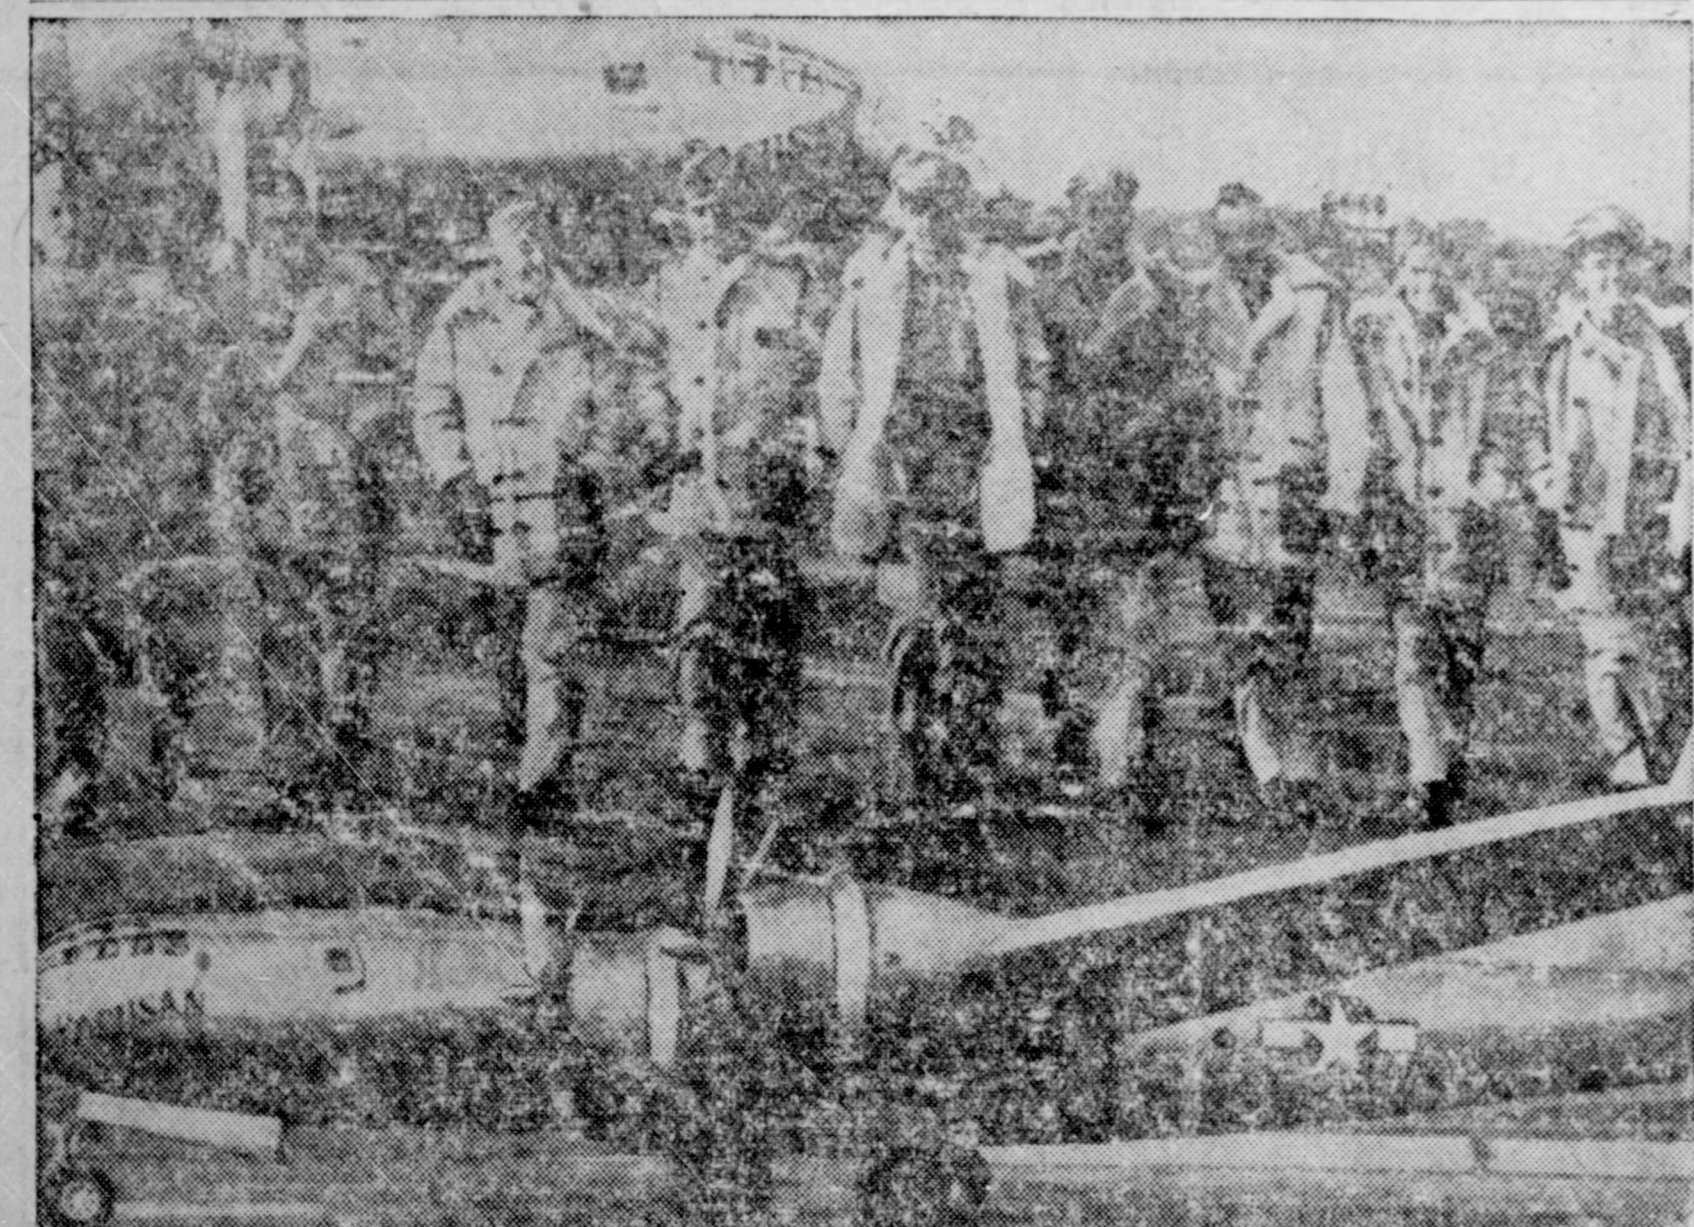

Mr. O'Connor, in making known Mr. Wilson's acceptance of the chairmanship, revealed that in coping with the 1946 outbreaks of infantile paralysis the National Foundation sent to its chapters in the field more than two and a half million dollars in epidemic aid up through September.

"Many of this year's polio patients," Mr. O'Connor said, "will require hospitalization and care for a long period of time. The after-care of these patients will be more expensive than treatment in the acute stage of the disease. The high cost of epidemics points up the real need for the services of public-spirited men such as Mr. Wilson. His efforts will prove of great value in the forthcoming appeal."

Mr. Wilson is also Chairman of the Harris County Chapter of the National Foundation and was formerly County Chairman of the 1945 and 1946 March of Dimes.

Glynn Ross Named Honoree At Tea And Shower

Miss Glynn Faye Ross, bride-elect of Rufus E. Franks, was named honoree at a tea and shower Tuesday afternoon in the home of Mrs. A. W. Turner. Assisting as hostesses were Meses. J. M. Moorhead, E. C. Davis, M. G. Tarpley, R. A. Brown, E. B. McBurnett, Claude Henderson, R. L. Harris, Dave Finney, and Irvin Rambo.

Receiving the guests were: Mrs. Rambo, Mrs. Turner, Glynn Faye Ross, the honoree, Mrs. C. E. Ross, mother of the bride-elect and Mrs. J. B. Jeffries, sister of Mr. Franks. Miss La Rue Ross was at the bride's table. Guests were registered in a white leather bride's book with white satin streamers and a cluster of marigolds marking the pages. An artistic arrangement of marigolds and white net decorated the table.

The tea table was laid with a white cutwork cloth and centered with a crystal bowl of huge white mums flanked with white and yellow tapers in crystal holders. The buffet was decorated with a bride and groom doll under a wedding arch on white satin. White satin wedding bells, clusters of yellow marigolds and fern and yellow tapers completed decorations.

Mrs. Davis and Miss Frances Rambo presided at the silver tea service and were assisted by Miss Wanda Hahn and Meses. Y. E. Douglas, Tarpley, Moorhead and Brown.

Beautiful arrangements of mums in autumn colors were used throughout the reception rooms. Meses. Henderson, McBurnett, Finney and Harris displayed the many lovely gifts.

Mrs. J. E. Smith and Scharlyn Daniell were at the piano during the calling hours.

WOMEN'S SERVICE GUILD MEETS WITH MRS. PICKETT

The Women's Service Guild of the Presbyterian Church met in the home of Mrs. A. T. Pickett Monday for a social afternoon. A short business session was conducted and then written games and contests were enjoyed.

Yellow and pink chrysanthemums were used in the living and dining rooms for decoration. Refreshments of open faced sandwiches, cookies and coffee were served to Meses. L. L. Bechtel, John King, Hayden Griffin, Abel Pierce, Al Muldrow, Joe Murphy, L. E. Hamilton, P. F. Forness and R. W. Faegan.

W. M. S. MEETS IN CIRCLES FOR BIBLE STUDY

The Women's Missionary Society of the First Baptist Church met in circles Monday afternoon for a Bible study taken from the book, "Scripture Teachings of the Early Church."

The Lucille Reagan circle met in the home of Mother Green, who also conducted the lesson. A round table discussion was held with all members taking part. Present were: Meses. Etta Gillham, Elco Evans, Ruth Auburg, J. T. Wilson, A. A. Brian, R. E. Townzen, Henry Holmes, Leach and Gladys Moorhead.

Mrs. B. L. McPherson was hostess to the Lottie Moon circle and Mrs. W. E. Pool taught the lesson. Present were: Meses. W. L. Bandy, L. J. Dunn, Sr., W. H. Collins, Claude Henderson, William Henderson, Drew Hobdy, L. A. Rhyne, W. E. Pool and R. M. Moorhead.

The Bagby circle met in the home of Mrs. Askew with Mrs. E. D. Yeatts teaching the lesson. Present were: Meses. D. L. Patton, L. C. Heath, H. B. Grant, Roy Phillips, A. R. Tyler and E. D. Yeatts.

EARLE DAVIS CELEBRATES BIRTHDAY

Mrs. E. C. Davis named her son, Earle, honoree at a party Saturday afternoon to celebrate his eleventh birthday. Games and football furnished diversion.

Birthday cake, sandwiches and grape juice punch were served to: Tommie and Mackie Hord, Gene Aven, Jack Taylor Stricklin, Max and Rex Black, Richard Sturges, J. D. Moore, Walter Frank Didway, Teddy Joe Hardy, James Dell Heinrich, Billy Mack Herod, Bobby Donnelly, Lannie Webb and James Chesshir.

In Europe

Leaving New York at eleven o'clock A. M., I flew to London in just 20 hours. A flight to London shows how the world is growing smaller. Our relations with other countries are becoming much more intricate as the globe shrinks, and our great need is better understanding which will beget wisdom.

For 20 years I have had a great personal interest in studying the secret of national prosperity, which of course is the sum of each individual's prosperity within the nation. This interest was first awakened when in 1925 I observed the poverty of China for the first time.

More Than Resources
Countries having equal resources are not always equally prosperous. That is an axiom most of our people accept readily. They have come to know, sometimes subconsciously, that our democracy is mixed of more, and perhaps finer, ingredients than statistical reports of national resources will show.

Surely, what makes one nation happy, peaceful, wealthy, need not make another nation troublesome and ripe for revolution from within. Truly, there are many ingredients in the recipe for national well-being.

Like Good Deeds
Today, when the popular catchword, even internationally, is "security," we know that one of the most valued ingredients is prosperity. If people everywhere could understand and achieve the conditions necessary for prosperity, every home-neighbor and every world-neighbor would benefit. This is like a good deed that pays off for everybody.

Currently, the writer is concluding a stay of eight weeks in Europe, the full benefit of which the readers of this column will have opportunity to share. On the itinerary are England, Norway, Sweden, Denmark, the Netherlands, Belgium, Switzerland, and France.

What is the Secret?
The objective is to study political, economic, social, and religious conditions in each country, with a hope of arriving at definite and significant conclusions regarding the secret of individual and national prosperity.

If we can be sure why it is that American wage earners and farmers can purchase with their earnings two times as much food, clothing, shelter, and transportation as the workers on any other continent can purchase with their wages, we shall then understand the factors we must preserve as vital to all of us in our period of reconstruction.

For awhile, I would like to be your European observer, for it is my conviction that some important lessons can be pointed up by studying our continental neighbors. Ours is a great economy. If we in America can have enough foresight to cooperate for the sake of production, our land can long remain the land of freedom and plenty.

Beginning next week, this column will survey postwar England, and will then proceed with some significant observations of continental nations.

W.S.C.S. HELD REGULAR MEETING MONDAY

The Women's Society of Christian Service met for their regular meeting in Fellowship Hall of the Methodist Church Monday afternoon at 2:45 o'clock. Fifteen minutes were taken in prayer services. Devotional by Mrs. Johnson, taken from Matthew 1st chapter, 19 and 20 verses. Song by the group, "We've a Story to Tell." Mrs. Power discussed the fifth chapter of Study Book, entitled "Christian Youth Bring New Life to Tasks." Meeting will begin at 2:00 o'clock on Tuesday, because Monday is a holiday.

Those present were Mesdames J. H. Carpenter, Tobe Power, Joe Johnson, Ed Sharp, Glenn Harris, Cleve Williams, A. E. Proctor and son Archie, W. B. Downing, A. J. Lloyd and Lee Walker. Meeting closed with benediction.

BRAZELTONS ENJOY A FAMILY DINNER SUNDAY

A family dinner was enjoyed in the home of Mr. L. B. Brazelton Sunday noon with the following as guests:

Mr. and Mrs. Claude Wilson and children, Mrs. Irma Dooley and children, Mr. and Mrs. R. J. Rowden and son, Mr. and Mrs. L. M. Perry, Mr. and Mrs. J. W. Jordan and son, Mrs. A. T. Pickett and son, and Mr. Coy Jones and Billie Brazelton.

Luis D. Huckabee came in early this week and changed his address from Tokyo, where he has been the past year with the occupation army. He was a Sergeant in the medical corps. He is to get his final discharge early next month, and to remain here at present with his parents, Mr. and Mrs. Luke Huckabee of this city.

Congressman George Mahon of the 19th Congressional district of Texas told the Evening Journal Wednesday night that he will retain his membership on the House appropriations committee, although as a member of the minority party.

When the 80th Congress convenes, Cong. Mahon pointed out, the appropriations committee will

be composed of 19 Democrats and 26 Republicans, in view of the Republican victory in the general election. Although he was uncertain as to the number of ranking Democrats on the committee who retained their seats, he surmised he would be the fourth ranking committee member.

The West Texas congressman will lose his chairmanship of the government corporations sub-committee (which deals with the about 20 corporations, including com-

modity credit, crop insurance, farm credit and TWVA), to Rep. Ben Jensen of Iowa. Instead of committee chairman, Cong. Mahon will be the ranking minority member.

He will continue to serve on the War department appropriations sub-committee, as one of three Democratic members, with the chairmanship going to Rep. Elbert Engel of Michigan.

He also will continue to serve on the independent offices sub-

committee (dealing with the Veterans administration and the Public Roads administration), as Rep. B. O. Wigglesworth of Mass. becomes chairman.

Also when the new Congress meets, it will be Cong. Mahon's turn to become chairman of the Texas delegation, replacing Rep. Milton West of Brownsville.

Cong. Mahon expressed his opinion that it is fortunate that the Democratic party, having lost control of the House, also lost out

in the Senate, saying responsibility will be more clearly placed and there will be less confusion than there would be with different parties in control of the two legislative bodies.

"To have one party in control of both houses," he said, "is generally of public interest," pointing out that the South stands little chance of gaining anything at the hands of a Republican regime in any case." — Lubbock Avianche.

Enlistments Now Open For Pacific Divisions

The Army Recruiting Office in Lubbock announced today that enlistments are now open for certain Pacific Theater Divisions, namely the 1st Cavalry, 8th, 7th, 24th and 25th Infantry Divisions.

The Regular Army today requires a higher standard of technical skill than the world has ever known before. The men of our New Regular Army must be capable, efficient and able to handle many instruments of modern military science from Robot Bombs, Television, Radar and Atomic Energy to Jet-Propelled Planes. The New Regular Army of highly trained men has the stature that will win for this nation the goodwill and respect of the whole world. The high mental, moral and physical standards of the men who now comprise the Regular Army merit the respect and support of their fellow citizens while performing the high task laid upon them of making this world of ours one of peace and security for all. Opportunity is given to men to take part in shaping the world of the future by enlisting in the Regular Army, an opportunity which offers advancement, good pay, education, travel and security, and a career in pace with technological advancements of age.

For further information see your Recruiting Officers, 605 W. Main.

Sgt. DuBoise Huckabee, son of Mr. and Mrs. Luke Huckabee, came in last Friday on terminal leave from Japan. He has been overseas for the last year and will receive his discharge in December. His wife, Tommie, who has been living in Midland, joined him here.

Santa Fe Reports On Texas Crops

Texas enjoyed unusually favorable conditions during the past month, adequate moisture for field operations and good growing weather for fall crops, with harvest of such staple commodities as cotton, corn, rice, grain sorghums and peanuts, either completed or well underway. Light frosts in the northern section failed to do any material damage.

Handicapped early by dry weather, and later by excessive moisture in the south and southeast, which offset an improvement trend in the northwest, the cotton crop has dropped to 1,750,000 bales, smallest in more than 50 years. Cotton harvest is nearing completion in all districts except the northwestern plains, where the crop is late and picking is just getting underway.

Harvesting of a corn crop, estimated at 67,456,000 bushels, is about completed. Although some areas will experience a short crop, a grain sorghum estimate of 58,592,000 bushels, is an increase of 7,000,000 bushels over the previous month. This reflects the great come-back that has taken place in the northwest during the past six weeks, and if frost holds off in that area, another boost will result.

Production of 17,200,000 bushels of rice, almost as much as last year, is the forecast which was held good for two months. Early varieties have been harvested, enabling mills and elevators to operate on full schedule, but there has been a delay in gathering the late crop, due to scattered rains. Grassy fields and thin stands have resulted in light yields in some areas.

Texas is second in the production of peanuts this year, with a bumper crop of 362,900,000 pounds, and harvest is well underway. The crop improved rapidly after the summer drouth was broken and needs only a couple of weeks of good weather to completely mature. The sweet potato crop also shows late gains and bumper production is indicated in

FIGHT TO PAY TAXES . . . One would normally see such a crowd rushing to get an item of scarce food—a steak or roast—or to procure tickets to a sold-out performance, or trying to crash a crowded train. This mob is pushing to—of all things—pay income taxes. The scene is Rome, Italy, where the mob waited until deadline to file their income tax returns—just as many do in America.

all of the eastern districts of the state.

Fall vegetables generally are growing nicely, despite a nip or two by frost. Brownwood has 100 acres of fall tomatoes, now showing excellent yields, and this is a crop that is doing well elsewhere, although acreages are small. With two or three weeks of favorable weather, Texas will have a bumper crop of fall tomatoes and increase its total harvested average 18 per cent over last year.

With from five to 12 inches of rainfall in northwest Texas during September and October, the winter wheat crop, now mostly planted, is getting an excellent start. Volunteer wheat is already being grazed and much of the sowed acreage will be ready for grazing early in November. This wheat pasture will be of great benefit to the livestock industry.

Sugar beets in this part of the state are showing good yields and harvesting of the crop will be well started by early November. Black eye peas have also proven a profitable crop in the northwest this year.

NOTICE

The Brownfield schools will observe November 11th as a holiday.

PROOF THAT THE BOYS HAVE COME HOME

Fort Worth — Where one year ago all but one of five major student body offices on the T. C. U. campus were held by girls, this year's elections put only one coed into a major office. Definitely, the boys are home!

Miss Sammy Morrow of Fort Worth, president of the junior class, is the coed exception. She is a journalism major, and one boy suggests that she won her election "because the name Sammy fooled the voters!"

Don't Kill The Goose That Lays The Golden Eggs

College Station—A lot of Texas dairymen are killing the goose that lays the golden eggs by cross-breeding their dairy cows with beef sires.

The dairyman who makes a steady practice of cross-breeding will end up with no replacements for his herd, and just like the man who killed the gold-producing goose, he will kill the chances for more profit from a better dairy herd in the future, explains G. G. Gibson, dairy husbandman of the Texas A. and M. College Extension Service.

Dairymen cross-breed their stock because a cross-bred calf is worth more for beef than a straight-bred calf at the same age, says Gibson. But, he warns, the deal isn't as good as it sounds on the surface. It takes plenty of feed to make a cross-bred calf weigh 400 or 500 pounds at six months of age, and whole milk makes up a good share of the feed that the calf gets. Suppose it gets a gallon of milk a day, for five months says Gibson . . . (and a lot of them get twice that much). At present milk prices, that amount milk is worth about \$45. If the calf gets two gallons, the cost of course is \$90, which doesn't leave much profit from the selling price of the calf.

Polio Outbreak Second Worst

New York, Nov. 3 —The infantile paralysis outbreak that swept across the nation this year was the second most severe in the nation's history, the National Foundation for Infantile Paralysis reported Sunday.

Up to Oct. 12 a total of 20,681 cases were reported compared with 10,845 in the corresponding period a year ago, Basil O'Connor, foundation president, said.

The worst epidemic was in 1916 when 27,363 cases were reported in twenty-eight states. No nationwide figures were compiled that year.

Shriners attending the Khiva Temple ceremonial in Amarillo Friday of last week were: Messrs. P. R. Cates, Troy Noel, Tom May, Lee O. Allen, Johnny Kendrick, Dan Davis, Dick Fallis, and Reagan Peeler, of Sundown. Mr. R. N. McClain and Mr. Joe McGowan attended as novices. Wives accompanying their husbands were: Mmes. County's Farm Income Shows Large Increase

More than quadrupling their annual gross income in comparison with 1940, as reported by the U. S. Bureau of Census, Terry County farm families last year produced crops and livestock with the record value of more than \$9,274,000.

This huge increase in farm revenue has already created heavy demand for general farm improvements and for home remodeling, according to a study released by the Tile Council of America. With every industry anticipating greater business in the state than before the war, floor and wall tile manufacturers alone expect their sales here to triple in the next few years.

"Increased sales of industrial products mean in turn a new level of prosperity for every local business man and worker," said D. P. Forst, chairman of the council's Residential Construction Committee.

The study shows that many farm improvements were made even during the war. Since 1940, for example, the number of farm homes reporting electric lights here has increased from 185 to 341. Heavy demand for such modernizing as installation of running water, tiling of bathrooms and improving kitchen layouts has already resulted, according to Forst.

Forst also pointed out that farmers in the county today have 400 more tractors than in 1940, according to the Bureau of Census, and that the number of trucks on farms has likewise increased substantially. "These facts not only indicate the importance of the farm market but also make it one which no businessman or manufacturer can afford to overlook," he said.

Less Livestock On Texas Markets

Austin — Evidence of less livestock on the market in Texas during September is noticed in a report from the Bureau of Business Research at the University of Texas that 8,025 carloads were shipped in September, but that this total was 18 per cent below the August 1946 shipments and 24 per cent less than September 1945 shipments.

The largest monthly decrease was registered in shipments of hogs which totaled only 89 carloads in September, compared with 317 in August.

Sheep shipments gained during the month, as the 2,052 carloads were 12 per cent above August shipments, but 21 per cent lower than the total reported last year.

Cattle shipments totaled 4,627 carloads, and were down 27 per cent from August, and 21 per cent lower than September, 1945.

OBITUARY

Lorena Magdalen Medford was born Sept. 24, 1896 at Shawnee Chapel, Red River County, Texas. At the age of twelve she was converted and joined the Methodist Church and lived a faithful member until her death.

She was married to James Lawrence Davis Dec. 25, 1915 and to this union one son was born, James Parker, who now resides at Pleasanton, Texas. They lived in or near Avery, Texas, until December of 1923 when they moved to Brownfield, Terry County, Texas. While in Brownfield they were engaged in the grocery business.

On November 8th, 1932 her husband was killed in an automobile accident. Interment was in the Memorial Cemetery at Lubbock, Texas. In Aug., 1933, Mrs. Davis closed her business here and moved to Lubbock where she resided until 1935 when she moved back to Brownfield. In 1939 she again moved to Lubbock to make her home.

In October, 1945 she was married to Marshall Sidney Cothran and moved to Hobbs, New Mexico where she made her home until her death, Oct. 30, 1946.

Funeral services were conducted by Rev. Ed Sharp and Rev. R. N. Huckabee at the Brownfield Methodist Church. Interment was in the Memorial Cemetery in Lubbock beside her first husband.

NOT BOUND BY DECISIONS . . . During closing days of the Paris peace conference, Stanoje Simic, Yugoslav ambassador to the United States, right, said that Yugoslavia does not consider decisions binding in which Yugoslavia is concerned. With Simic here are Russian Foreign Minister Molotov, left, and Ljubo Leontic, Yugoslav ambassador to London. They asked a chance for Yugoslavia to make her views known before final decisions are made.

STANDARD OF LIVING RISES IN U. S. . . This photo-diagram shows how the average income of American families has risen and how the incomes have been more equally distributed since the semi-depression year of 1936 to the postwar year of 1945. The figures show that millions of families have joined the middle income group, although 70 per cent still fall below the \$3,000-a-year mark. In the lowest brackets the total has dropped nine million families.

TEXANS AND 36TH DIVISION TO CELEBRATE RETURN OF THE COLORS

With much military pomp and ceremony, more than 150 flags and colors of the several units of the Texas National Guard, inducted in Military Service in 1940, will be presented to the State, at a celebration to be staged at Camp Mabry in Austin, on the afternoon of November 11.

Major General John B. Coulter, Deputy Commander of the Fourth Army with headquarters at San Antonio, will represent the Federal government. Governor Stevenson will receive them on behalf of the State. General Coulter was born at San Antonio; his grandfather built Fort Sam Houston, one of the largest permanent posts in the nation.

The famous 36th Division, who bore the brunt and heavy losses in the battle of Rapido Crossing in Italy in World War II, and who drove the Germans from North Africa, up through Italy, France, Germany and Austria, will be awarded France's Croix de Guerre by French officials, flown from Washington for the purpose. This division, in World War I, then made up of the Texas National Guard, and volunteers from Texas and Oklahoma, won renowned fame in the major and decisive battles of that war. Most of Terry county's boys who volunteered in World War I, including the Allen brothers, killed in action, and for whom the Lubbock Legion post is named, served in that Division, which then trained at old Camp Bowie at Ft. Worth.

In World War II, this Division, while mostly Texans, through the draft, had many from other States. Texans will always be thankful to the other States for their able assistance in helping us win the war. There were heroes from them all.

Statistics from the Adjutant General's office show this division had over 27,000 men, of whom 3,900 were killed in action, 19,000 wounded and 4,300 listed as missing in action. Twelve of its battalions received Presidential citations for heroic service. Sixteen Texans received Congressional medals of honor.

This is to be one of the biggest events in the State's history. Governor-elect Beauford Jester will also speak. It will be broadcast and moving pictures made. Many veterans from over the State are expected to attend.

A letter came in this week from L. L. Brock, with a renewal. He is now a citizen of our neighbor, New Mexico, but says he still enjoys hearing about old Terry.

Baptist State Convention Convenes At Mineral Wells

The Baptist General Convention of Texas will have its annual sessions at Mineral Wells beginning at 7:15 on Tuesday night, November 11 and running through a night session on Thursday. E. D. Head of Ft. Worth is president of the convention. Other officers are: first vice-president, Forrest Freezor of Waco; second vice-president, Odell Jameson of Dallas; recording secretaries, D. B. South of San Antonio and Roy L. Johnson of Canyon.

J. HOWARD WILLIAMS

Texas personalities who will occupy prominent places on the convention program are: W. R. White of Austin, Carr P. Collins of Dallas, E. J. Gregory of San Antonio, C. E. Hereford of Corpus Christi, E. H. Westmoreland of Houston, W. H. McKenzie of Dallas, Forrest Freezor of Waco, Hal Buckner of Dallas, and Thomas J. Watts of Dallas.

Out of State speakers will be J. W. Marshall, Duke K. McCall, John D. Freeman, and John L. Hall all of Nashville, Tennessee and Ellis A. Fuller of Louisville, Kentucky.

Dr. J. Howard Williams of Dallas will climax the sessions when he brings the first annual report of his current tenure as Executive Secretary of Texas Baptists on Thursday night. Dr. Williams will report a year in which accomplishments have outstripped all previous years in every phase of endeavor. He will report state office receipts for all causes totaling over \$3,500,000.00. This figure is more than three millions above the receipts in 1935.

Vet Housing Champion Gets Eviction Notice

Milwaukee, Wis. — While Department Commander Walter A. Rose of the Wisconsin American Legion was touring the state on a veterans' housing survey, his wife received an eviction notice at their home here.

The landlord, according to Mrs. Rose, objects to their son-in-law and daughter, Mr. and Mrs. Ralph Prescher's living with them.

"Ralph is a young veteran," Mrs. Rose said. "He and his bride haven't been able to find a place to live. So naturally, we felt they could stay with us," she explained.

SCOUT MASTERS MEET HERE MONDAY NIGHT

Some 13 Scout Master of Terry, Yoakum and part of Gaines county met with District Director Alfred C. Smith of Lubbock, at the School building.

They discussed Scout work, to speed up the drive for funds this week, and to fix a date for staging a Scout merit badge show, to be held here soon.

Ensign Marion C. Bowers, son of Mr. and Mrs. R. L. Bowers, arrived home Oct. 27 from Japan. He received his discharge from active duty in Norfolk, Va., but will remain in the reserve officers corps. He was in the service for two and a half years.

Judge Reed To Decide Land Boundary Case

Attorneys Durwood Bradley, G. D. Wilson and C. C. Crenshaw of Lubbock, and Carl Roundtree of Lamesa were here last week attending the trial in the District Court, being a land boundary suit between Brit Clare and the Hornaday heirs, of Austin, and the heirs of E. J. Smith; Land being north of Tokio.

After a jury had set through the trial, Judge Reed decided no necessity for a jury verdict, taking the case to decide himself, after further study.

Mr. and Mrs. W. H. Culver left Thursday of last week to make their home in Odessa.

FOOD NEEDS LIMIT COMPETITION

"Latest reports from abroad indicate that the acreage of the next crop in cotton-producing countries of the British Empire will be restricted by the need for increased food production." — The Cotton Digest.

Mr. and Mrs. Ed Mayfield had as their guests over the weekend, Mrs. Mayfield's aunt, Mrs. R. D. Stewart, of Melrose, N. M., and her daughters, Mmes. Ike Williams and John Bruce, of San Angelo.

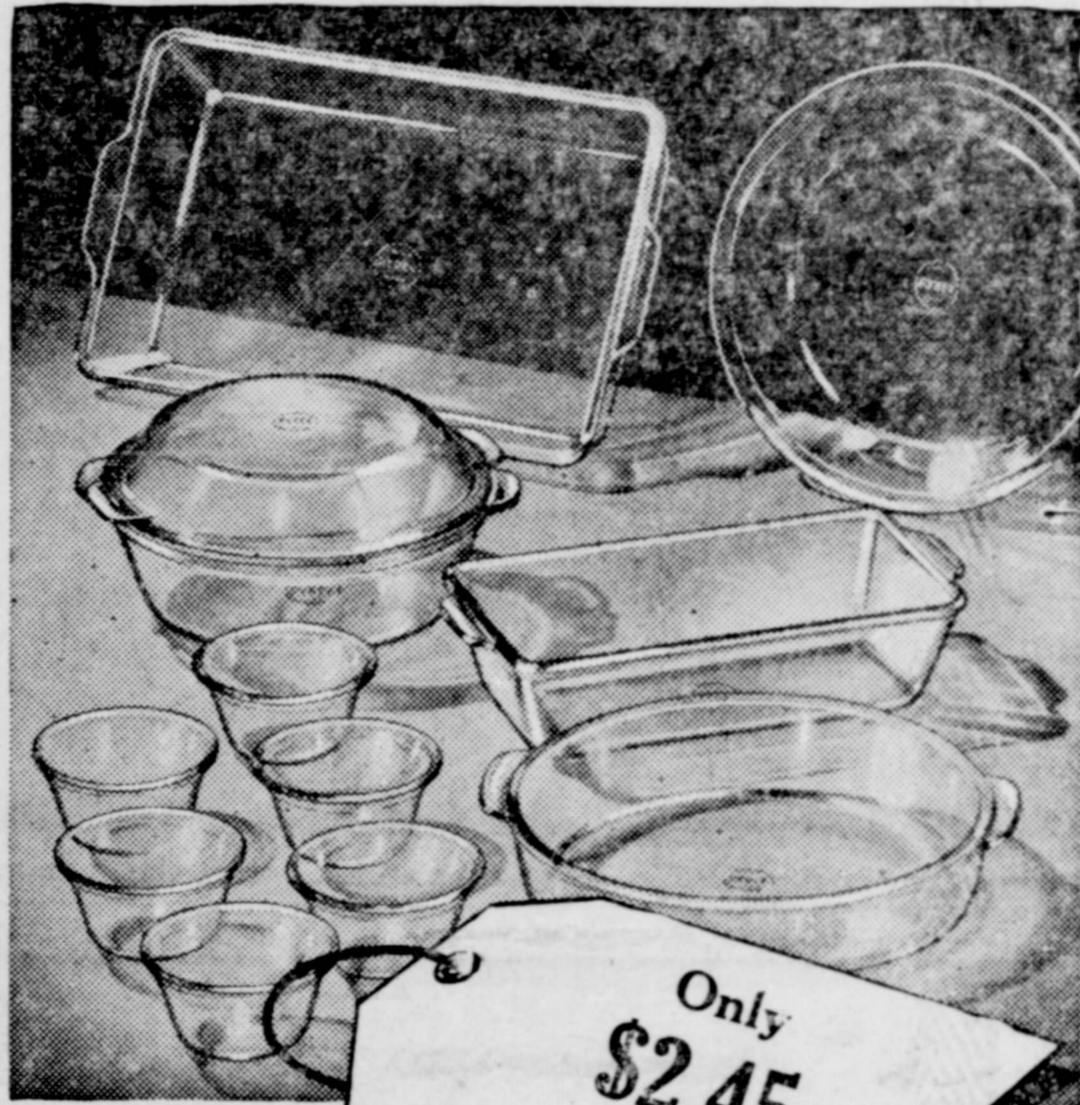

Messrs. Jack Bailey and Buddy Teague were in Houston last week on business. They attended the Rice-Tech game while there.

Correspondents Will Please Call By For Pay

As the Herald is not too well acquainted with the address of some of the rural correspondents, we will ask that they come in to the office for their pay, mentioning their business to someone in the front office. We may owe some for two months, September and October, as we started the small payment plan as of September 1st.

We would like to add a few more correspondents, especially at Meadow and Tokio. Other communities will be considered.

Tomorrow you'll be glad you waited today...

Waiting for a new motor car isn't exactly the easiest or most pleasant experience in the world. But the saying about patience having its own reward holds doubly true when your patience is rewarded by delivery of a gleaming, new Pontiac "Silver Streak".

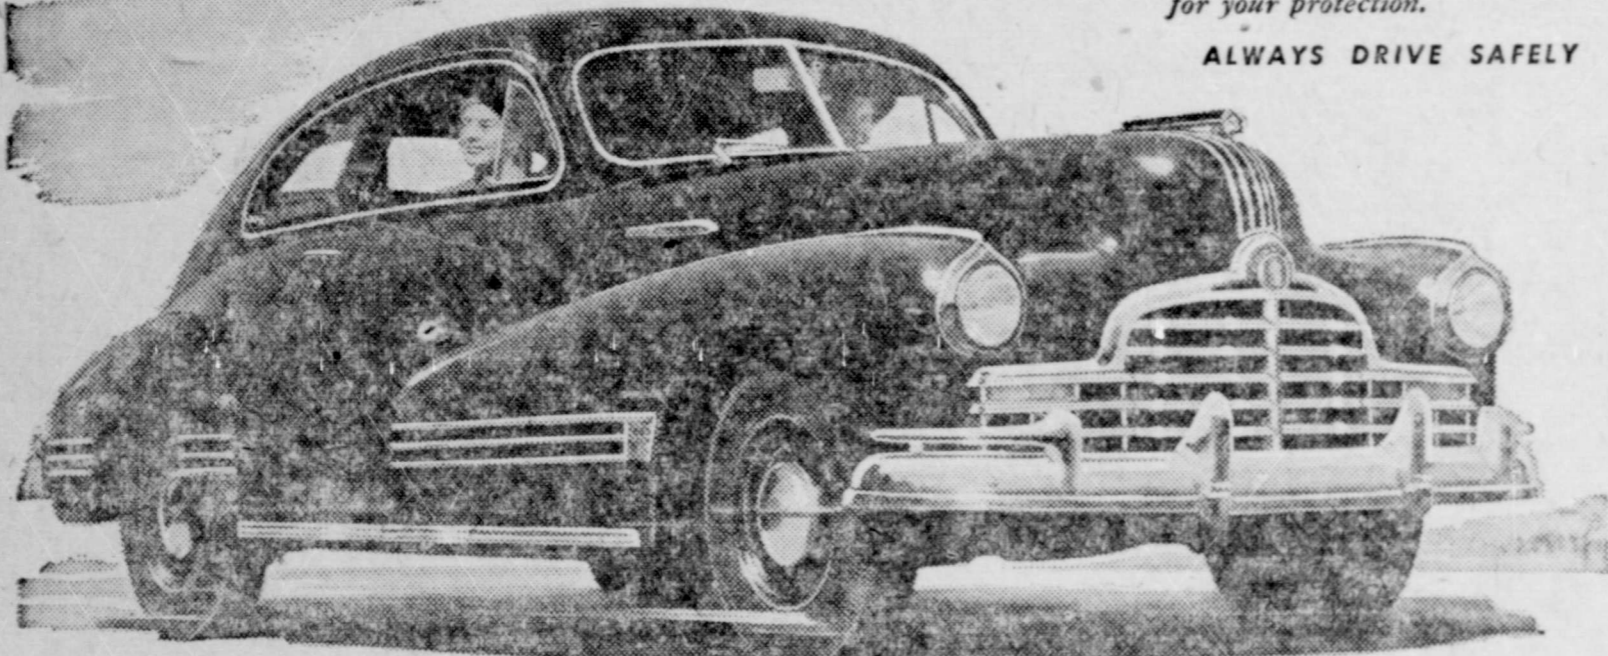

Up to now Pontiac production has been limited for reasons beyond our control. Now production is increasing. As of today, it's still below anticipations. But the trend is definitely encouraging. Which means that your wait is being shortened every day.

And when you do become the proud owner of a new Pontiac, you'll be mighty glad you waited—and your feeling of gladness will grow with every passing month and mile. Because in every way, the new Pontiac measures up to the phrase, "Finest of the Famous Silver Streaks". In dependability and economy it lives up to its great war-won reputation. It looks, handles, rides and feels like the quality car it is. It's a value that will endure over the years—something well worth waiting for!

PRESERVE AND PROTECT YOUR PRESENT CAR

Until you are definitely assured of a new automobile, keep your present car in a safe, satisfactory condition. While we are prepared to service all makes of cars, we are PONTIAC SPECIALISTS—employing factory-trained mechanics and using highest quality parts. "Taking" Child Need Not Be A Thief

Lubbock—Does your child have taking ways? Are you forever finding toys your little darling has purloined from the touseled terror next door?

Even though this may be the case, you should not worry for fear the baby may grow into a criminal, because his behavior is perfectly normal, according to Miss Sannie Callen, head of the department of child development at Texas Technological college.

Small children usually take things because they do not know how to ask for them, or because, to the childish mind, picking up objects is simpler and therefore better than asking for them, she said. With no appreciation of economic values and no conception of moral ideals, small children cannot be expected to understand property rights until they are

taught.

The hair brush method of teaching is not to be recommended, Miss Callan stated, emphasizing that usually if the child is required to return personally everything he has taken, this will be adequate to break the bad habit. In case he has taken something and lost or broken it so it cannot be returned, he should be deprived of something he likes to teach his responsibility, she concluded.

Mr. and Mrs. W. B. Brown were informed that they would not be transferred to Odessa as was stated in the paper last week. Mrs. Brown plans to return to Brownfield to make her home as her husband will be working over a wide area in the near future.

Rev. R. D. Carter, of Anson, returned to his home Tuesday after a week's visit here with his son, Mr. D. P. Carter and Mrs. Carter.

Mr. Claude Hudgens, of Leveland, was seriously hurt in Alexandria, La., last week when he slipped off a truck from which he was unloading sheetrock being used in the construction of his building there. He is a former resident of Brownfield and the brother of Mrs. Kyle Graves.

Mr. and Mrs. J. B. Tate, of Lubbock spent Sunday with Mrs. Tate's parents, Mr. and Mrs. J. R. Sullivan.

Mrs. Ralph Tarter and daughter, Texan, of Odessa spent last week in the home of her parents, Mr. and Mrs. J. R. Sullivan.

Dr. and Mrs. Wayne C. Hill left Tuesday for a two weeks vacation in Maryville, Tenn. They will visit Dr. Hill's parents and other relatives.

Mr. Eugene Jenkins, who is employed in Denver City, spent the weekend here with his wife and son.

NEW SWEDISH PRIME MINISTER . . . Tage Erlander, new prime minister of Sweden, is pictured at his desk as he took over his new duties, succeeding Per Albin Hansson, head of the Social Democrat party, who died of a heart attack.

Veterans News

Veterans Administration hospitals in the Southwest have been equipped with the newest type of portable, aluminum "lungs" in a move to reduce the threat of poliomyelitis (infantile paralysis).

A modern adaptation of the "iron lung," the lighter respirator can be used in an airplane, automobile or train as well as in a hospital, Dr. Lee D. Cady, VA's director in the Southwest, said.

Dr. Cady said a patient can sit up, lie down, or even walk about in his room while wearing the new device, which covers only the chest.

While its chief use will be for polio victims, the aluminum lung can be used for artificial respiration in several other types of medical emergencies.

Wilfred M. Bailey, 22, one of the 4,000 students attending Southern Methodist University in Dallas under the VA educational program, has put aside his flying gear and Navy Cross to train for the ministry.

The stock Texan was awarded the Navy decoration for his part in sinking a Jap aircraft carrier during the second battle of the Philippine Sea.

"I suppose," he said, "that becoming a minister always has been my plan. But it didn't completely formulate itself in my mind until I got out there above the Pacific. Seeing my comrades names disappear from the roster, one by one, had something to do with it."

Bailey is serving as assistant pastor in a Dallas Church. He will enter theology school at Southern Methodist next fall after completing preparatory work.

Since VJ Day the number of patients in VA hospitals in the Dallas Branch Area has increased 42 per cent, according to Dr. Lee D. Cady, Branch Medical Director.

"On September 30 this year we had 7,503 patients in VA hospitals in Texas, Louisiana and Mississippi, compared with 5,296 on VJ Day," Dr. Cady reported.

GI Question And Answer Department

Q. Is a veteran eligible for readjustment allowance benefit if he settles in Canada or Hawaii?

A. Residence in the United States territories or possessions is a definite eligibility requirement for readjustment allowances. Veterans living in Canada are not eligible. Veterans living in Hawaii are eligible if they meet all other eligibility requirements.

Q. I obtained a G. I. loan on which the Government guarantee was \$2,500. Recently I lost my job and would like to know if I'm eligible for unemployment compensation provided in the G. I. Bill?

A. The fact that you obtained a G. I. loan does not affect your eligibility for readjustment allowances. You may receive them if you meet the requirements specified by law.

Q. My son has been pursuing a course of training under the G. I. Bill, but find that he can't afford to continue and support himself and his family. Can he terminate his course at any time without notifying Veterans Administration?

A. A veteran should not quit his course of education or training without notifying or obtaining the approval of the Veterans Administration regional office handling his claim. This is necessary so that he will be qualified for further training.

Says Approaching Buyers Market In Cars

Competition in the sale of automobiles is likely to be in effect by next Summer, D. U. Bathrick, general salesmanager of Pontiac Motor Division, predicted Thursday in Kansas City where he presided over the first delivery of cars from the new General Motors assembly plant.

Speaking before 450 Pontiac dealers, Mr. Bathrick warned:

"By next Summer you may be in a competitive market because of one or the other of two economic factors: rising prices which have so reduced the ranks of new car purchasers that each becomes a real prize, or—increased production has satisfied the emergency market for new cars and left a residue of not-so-bad-off customers who can buy or wait a year, as they see fit.

"The day is coming, and coming fast, when automobiles again must be sold and not doled out like prizes. Some believe that day will be a long time coming—that cars are wearing out faster than we can build them. But I say we are approaching a Buyer's Market right now.

A battle flag from the U. S. S. Texas, veteran battleship of two world wars, has been presented to the Texas Memorial Museum on the University of Texas campus. The flag was presented on Navy Day, Oct. 27. It will be exhibited in the Museum where a diorama of the Texas Navy of 100 years ago is permanently exhibited.

Miss Cleota Wood spent the weekend with her parents in Sherman and Miss Ann Bruton visited with her parents in Colorado City over the weekend.

The Low Down From Hickory Grove

Finding somebody to sound off with a good word for OPA would be like it was once, trying to find a duck to say a word at the funeral of the town's loafer and no-count. And the good word finally said for him was—to refresh your memory—Snider here, he was not as useless all the time as he was part of the time.

Proceed, says Henry. Well, I says, OPA has touched everybody where he lives—and in doin' so it will maybe alert the nation, and get folks to wondering if all the other "do-good" and "uplift" schemes originating there in Old Spindville are as cockeyed. So, if OPA is a fizzle and everybody knows it, maybe voters will become dubious about TVA which is far away—and nobody paying much attention up to now. Also the 3A and UNO saying, eat less bread in June, and then in September saying, eat more. How about eating no bacon, all the time, says Henry. Don't interrupt, I says. And there's the railroads—as wages soar—losing dinero, day by day.

Buick Starts Production Of Special Car

Flint, Mich., Nov. 4 — Buick Division of General Motors will begin production this month of its Series 40 Special cars, on a 121-inch wheelbase.

This was announced today by Harlow H. Curtice, General Motors vice president and Buick chief executive, who said that the Series 40 cars, to be produced in two body types, are 1946 models in the company's lowest priced group.

The two models are the six-passenger four-door sedan, which carries the O. P. A. factory list price of \$1,346, and the six-passenger two-door sedan with an O. P. A. price of \$1,291.

The new lower priced Buicks are powered with the famous valve-in-head, precision-bored "Fireball" engine and incorporate numerous design and mechanical improvements.

Tech Students Left Their Hats Too

Lubbock — This is the story of an irate professor, a fun-loving class, and a hat.

The professor, who teaches English at Texas Technological College, pondered long over means to encourage his class to wait for him although he habitually arrived late. Finally he decided to leave his hat in the room where he expected to lecture, and informed his students, "Whenever my hat is here, I am here too. And you must, absolutely must, wait for me."

The next time he came in late he found a quiet classroom, absolutely empty of students. But on each desk he found—a hat!

Expects Sharp Drop In Ag. Products

Lubbock — A sharp but temporary drop in agricultural prices within the next few months is foreseen by Prof. E. L. McBride, head of the department of agricultural economics at Texas Technological college.

This temporary break will probably last only about a year, and will be followed by an economic adjustment period when prices will rise again for several years, McBride predicted, to be followed by a real and serious economic depression.

The national income has increased about 250 per cent since 1939, he pointed out, while agricultural production has increased only 25 per cent and industrial production has risen about 65 per cent. National buying power so far exceeds the number of goods available, that prices have risen entirely too high. The approaching trend back to normalcy will cause a sufficient price drop to be termed a market crash, McBride explained.

However, production cannot get back in line with demand for a long time, the professor said, predicting that six or more years will elapse from now before production exceeds demand, causing a serious depression.

SAYS OSTRICH DOES NOT HIDE IN SAND

Schenectady, N. Y. — Contrary to popular belief, the ostrich does not stick its head into the sand when frightened or in danger.

Neither does the beaver work all the time "like a beaver," nor does a bull "see red" just because a red cloth is waved in front of it.

These popular myths were exploded here in a General Electric Science Forum address over WGY and WGYM by John R. Saunders of New York city, associate curator in the department of public education, American Museum of Natural History.

"We can trace clear back to Roman times the belief that the ostrich, when frightened, sticks its head into the sand," Mr. Saunders pointed out. "Through twenty centuries of time, and in the face of all that is reasonable, millions of people believe this to be true."

"Meanwhile, the ostrich goes about his business, never thinking of sticking his head in the sand, living in a land where lions and other predatory animals are ready to accommodate a bird so foolish. The ostrich would, in all probability, have disappeared from the earth if it persisted in this supposed behavior every time danger approached. In this case of bird behavior and man's belief, I leave it to you to determine where the foolishness lies."

The naturalist said that the "busy beaver" does not work all the time.

"The animal does work, to be sure, and when he does, he works hard," said Mr. Saunders, "but he also loafs and plays; and observers note that he does a great deal of the latter. In addition, the beaver does not use his tail as a trowel, nor does he drive stakes

with it, or use it as a sled to carry mud or other materials upon."

With regard to bulls, Mr. Saunders explained that they are color-blind. "In fact, scientists can find support in the statement of the noted matador, Sidney Franklin, that it is not the color but the motion of the cloth that annoys the bull," the naturalist declared.

"Some experimenters have found that even in the course of a thousand trials the animal is still not able to discriminate between two colors," Mr. Saunders asserted.

"Dogs as well as bulls are color-blind," he said.

YOUR THANKSGIVING TURKEY

Will Be

More Tender . . . More Delicious

When Baked In A

CP GAS RANGE

MORE tender and more delicious because only in the fresh-air oven of a Live-Flame Gas Range, with CONTROLLED and sustained low temperature, do you get finest baking results. Not only will the turkey be uniformly done throughout, tender and juicy, but with low temperature, so easily and accurately maintained, you have minimum shrinkage. Nothing equals GAS for superb baking or roasting.

Wines Hotel To Enlarge Dining Room

To accommodate the increased membership of the Lions and Rotary clubs, which hold their luncheons there, the owners of the Wines Hotel are enlarging their dining room, by removing partitions of two rooms on the south side, and will also re-arrange and decorate the then larger dining room.

These two clubs, alive and active in civic affairs, have increased in membership, out-growing the room. This too, will allow them to have programs of larger casts.

Vets Get Full Share Of Chevrolet Deliveries

Detroit, Oct. 30 — Equitable distribution of new cars by automobile dealers across the country to insure fair treatment of all elements in the market received a statistical underscoring here today when it was disclosed that one out of every four 1946 Chevrolets has been delivered to veterans of World War II and that more than half of all Chevrolet sales this year have been made to buyers who had no old car to trade in.

These facts were disclosed by T. H. Keating, general sales manager of the Chevrolet Motor Division of General Motors Corp., who pointed out that analysis of Chevrolet sales reports through August supported the industry's contention that veterans are receiving not only numerically fair treatment in the auto sales field, but also have been placed in a preferential category on deliveries.

The Chevrolet report was based on figures from 35 of the division's 37 zones, and represented 128,892 vehicles accounting for 83.6 per cent of sales.

Mr. and Mrs. Jack McLaughlin, of Lubbock, were down Friday for the football game.

"Forms of City Government," a bulletin prepared by the Bureau of Municipal Research at the University of Texas, has been revised and reprinted since its first publication in 1945. Dr. Wilfred D. Webb, research assistant, made the revisions. The bulletin describes three forms of city government in Texas: mayor-council, commission, and council-manager.

Clears Charges Of Favoritism Among Car Dealers

D. U. Bathrick, general sales manager of Pontiac Motor Division, today released the results of a national survey conducted by Pontiac among its dealers as a complete refutation—at least so far as Pontiac is concerned—of charges of favoritism leveled against automobile dealers generally.

The survey, first to be conducted by a major manufacturer, revealed:

1. That on all Pontiac retail deliveries of new cars since October 1945 only 51.1 have been accompanied by a trade-in of the purchaser's old car.

"Before the 1946 model went on sale we made it plain to our dealers and to the public that a trade-in was not necessary in doing business with a Pontiac dealer," Mr. Bathrick said. "These certified figures show that the Pontiac dealerships are following this advice and that trade-ins are being made in only slightly more than one out of every two new car deals. In normal times trade-ins ran much higher than this. We think these figures bear out what we have always said: 'You don't have to trade to get a new Pontiac.'"

2. That of the total number of 1946 Pontiacs delivered thus far, 28.2 per cent have gone to veterans.

"Originally we asked our dealers to deliver one car in every four to deserving veterans," Mr. Bathrick commented. "The figures show that they are exceeding this request by a good margin, considering that the dealer is receiving cars under an iron clad quota which cannot be stretched or added to. However justified are the complaints of veterans that they are not getting cars—they are certainly getting their share of new Pontiacs in ratio to the general public."

3. Doctors to date have received seven per cent of all Pontiac new car deliveries.

"We are very proud of this figure," Mr. Bathrick said. "According to the American Medical Association the ratio of doctors to the population is 1.3 per cent. This means that Pontiac dealers are maintaining their responsibility toward the physicians of their communities with a good deal of margin. We intend to maintain that margin if it is humanly possible to do so."

4. Only 5.7 per cent of 1946 Pontiacs were delivered outside the dealer's trading area.

"There has been much loose talk that dealers are putting new cars into the Black Market or are delivering them outside their communities for better deals," Mr. Bathrick said. "The figures prove this is not so in Pontiac's case, at least. The majority of this 5.7 per cent overflow into other trading areas can be accounted for by fleet sales which are made by the home offices of companies outside the dealer's normal trading area. Also, there is normally a number of sales made by dealers to old customers living in nearby counties."

Pointing out that it is impossible

TWOS-BY-FOURS . . . Students and professors at Boston university are literally going around in circles trying to identify these four sets of Massachusetts' twins. Left to right: Harold and Bernard Polit, Dorchester; Ann and Alma Baker, Framingham; Grenith and Patricia Rood, Hyannis, and Alan and Philip Turner, Attleboro. The four boys are veterans. They are all enrolled at the Back Bay school and, to complicate matters, all dress alike.

Messrs. Prentice Walker and Sam Privitt were in Amarillo to attend a showing of the International trucks and farm machinery.

Mr. and Mrs. S. J. Treadaway and their daughter, Ethel Nell, of Abilene were here over the weekend visiting relatives.

Mrs. Betty Butler, of Enid, Oklahoma, was a weekend guest of her aunt and uncle, Mr. and Mrs. D. W. Allmon.

Mr. and Mrs. J. B. Worsham and Mr. and Mrs. Jim Quinton spent Sunday in Plainview and Olton visiting relatives.

Mr. and Mrs. Pat Hensley, of Tahoka, Mr. and Mrs. Lowell Young and Mr. and Mrs. "Bear" Benton, of the Union community and Mrs. Thelma Bruce, city, visited Mr. and Mrs. H. L. Allmon Sunday.

Bill Gorman sustained painful though not serious injuries Tuesday evening, when a wrench he was handling at an oil derrick back fired on him. He was rushed to the local hospital for treatment.

Classes are conducted at the University of Texas from 8 a. m. to 6 p. m. without a break, and some classes and laboratories are held at night as late as 11:30 p. m. There are 17,100 students enrolled—the greatest enrollment in the University's history.

to tell how much duplication exists, Mr. Bathrick said the survey shows that Pontiac dealers still have 74,444 unfilled orders from veterans on their books and 9,306 from doctors. Fleet orders undelivered total 11,826 units—more than double Pontiac's total fleet sales in 1941. Pontiac dealers have taken 8,862 trade-ins on which new car delivery has not yet been made.
