

Livestock Research To Cross-breed Hereford - Brahman

By Martha Cole
McGregor, June 24 (AP) The white-faced Hereford will be cross bred with the Humpbacked Brahman in the first livestock research project at Bluebonnet Farm near McGregor, Texas.

"We hope to establish a new strain that will be superior to either of its parents," said H. O. Hill, superintendent of the farm, station of Texas A & M college. The Brahman, crossed cow in India, has been cross-bred with European cattle before. King Ranch combined 3/4 Brahman with 1/4 Shorthorn and produced its Santa Gertrudis breed.

"Cross-breeding the Brahman and the Hereford hasn't been taken through enough generations," Hill explained. J. C. Miller, head of animal husbandry at A & M, said that selection and breeding of the Brahman and Hereford at Bluebonnet farm will be based entirely on performance, plus certain standard requirements of body type and conformation.

"In the course of a few generations it is not unlikely that we will produce animals whose ability to gain rapidly and economically will surpass the average of the breed," Miller said.

"The superiority of the Brahman in the deep South and Gulf coast country, in general due to their ability to adapt themselves to climatic and feed conditions existing there, is recognized," Miller said. The Brahman drawback is that the calves and yearlings are best for marketing, not the steers. The hump-backed importation also has a stubborn streak to go wild on the range and become a problem child to handle.

The star in his crown is his immunity to Texas fever. A tough hide, short hair and a waxy secretion of the Brahman's skin are a combination which ticks and flies avoid.

South Texas has become the chief center for the Brahman. The cattle are the descendants of a heard brought to Louisiana from India in 1860.

The gentler Hereford was brought to Texas in 1876 when W. S. Ikard, pioneer Texas rancher, visited the Centennial Exposition in Philadelphia and liked the white-faced cows in the cattle show.

Herefords now comprise an estimated 75 per cent of range cattle good grazers, mature early and have an ability to accumulate flesh at all ages.

"Everyone recognized the superiority of the first cross Brahman-Hereford over either parent for the production of mild fat calves at weaning time," Miller said.

"While our plans are not complete, we do contemplate the study of the various combinations of blood between the Brahman and Hereford. And if we succeed in finding a particular combination which is superior, that strain will be intensified through breeding in the hope of establishing a strain which will breed true and retain its superior beef ability."

The Week's Meanest Trick Pulled

This is vacation week for Mrs. Marjean Carouth, one of the cashiers of the local Piggy Wiggy store. Mrs. Carouth had been off only three days when she was notified that the manager, Pat Patterson had dropped one of those large distilled water bottles on his foot, was laid up, and she'd have to return to work.

Being one of the best natured gals imaginable, she hastily made ready to assume her duties and went to work without question. After a period of time, Pat walked in, and she took a good look at his feet. It all dawned on her then.

If she did not use the mop handle on the perpetrators of that joke, she should have.

Teen Agers Play Matched Games

Raise 'em up in the way they should play is the purpose of the American Legion in sponsoring the early teen aged boys baseball teams. Thursday of last week, Mulshoe came here and mopped on us very badly, but the local team got even Monday afternoon here by scoring 10 to 4 over Morton. Wills McNeil, was pitcher. Other kid teams are being formed.

From the luck of the big boys in the Oil Belt league had last Sunday when they lost 10 to 1 to Seagraves, it is well to have the young ones coming on.

There nearly one and three-quarter millions cows, making up nearly a quarter of a million dairy herds, enrolled in the artificial breeding associations in the United States.

Gas Co. Gives City 9020 People

According to the last issue of Employee's News, official publication of the employees of the West Texas Gas Co., Mr. C. L. Hafer, local manager and reporter for the periodical gave the city of Brownfield a population of 9,020 people. This was based on the number of gas meters in use here, and heretofore have proven pretty accurate.

There was much of interest in this issue, other than the local report. For instance pictures were shown of probably the first gas office opened up on the Plains, at Amarillo. Among other utilities shown was a 1920 model hot water heater, that appears extremely crude compared to the present automatic models.

Today is a day of progress, and those who do not go forward, are inching backward. There is no such thing as holding your ground in present progress in this old world.

"No Bond Issues Needed"—Evans

Texas needs no county road bond issues to take the farmer, the rural mail carrier and the school bus driver out of the mud, according to Roger Q. Evans, candidate for governor. Evans, in his formal campaign opening speech at West on Tuesday night, asserted "I know where to get the money for this purpose, and it won't take any bond issues, either."

A proper and adequate tax on Texas resources leaving the state, he declared, will provide more than enough money for necessary road building and other purposes. He is strongly advocating "adequately and properly" taxing such resources that are sent away from the state.

Basing his candidacy on a simple, 12-point program, which he insists is not a "platform" but a declaration of purposes, Evans plans to take his campaign to every section of the state before the July 24 primary.

Bankline Spots Terry Wildcat

Bankline Oil Company has staked a 3,100-foot wildcat in southeastern Terry County as No. 1 W. E. Ray, 330 feet from north and east lines of section 12, block C-39 psl survey.

It is three quarters of a mile east of Bankline's No. 1 Butler, San Andres prospect seven miles northeast of the Terry portion of the Adair pool.

Seaboard Oil Company No. 1 Hinson, section 9, block 4-X, psl survey, wildcat three and one-half miles southeast of Meadow, was drilling below 6,658 feet, in lime, Tuesday.—Star Telegram.

Mrs. F. L. Coe Claimed In Portales

Funeral services were held Tuesday, June 15, at 2:00 p. m. in the Wheeler Chapel in Portales, N. M. for Mrs. F. L. Coe of that city.

Mrs. Coe died in her home at 308 State Street in Portales after an illness of five weeks. She formerly lived in Brownfield and had been a resident of Portales for 18 years.

Mrs. Coe is survived by her husband, six daughters and three sons. Two daughters are from Brownfield: Mrs. T. G. Sexton and Mrs. Loyce Floyd.

Rev. Thurston Rock, former pastor of Calvary Baptist church now of Gallup, N. M. conducted the services. Interment was in the Portales Cemetery.

Adam, To Boston For Olympic Tryout

Tom Adams, local light-heavyweight fighter, departs shortly for Boston, where he will try for a spot on the U. S. Olympics boxing team.

Adams, who has figured prominently in state Golden Gloves and AAU boxing circles the past several years, won his right to try for the Olympics team at the Region Nine meet in San Antonio recently. In the regional meet, he KO'd Inez Rister in 2:05 of the third round, won a decision over Buster Harrison and won by a knockout from John Willingham in 59 seconds of the third round.

Adams has continually been set by a series of unfortunate mishaps which have prevented him from showing up in national meets, but he has hopes that the jinx has lifted and he can get a first shot at the Olympics team berth.

R. G. Peeler, former production foreman of the Brownfield Stanolind Oil Co. district, has been transferred and promoted as assistant field superintendent of the East Texas district at Gregton, Texas.

The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

VOLUME 43

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JUNE 25, 1948

NUMBER 48

CALL HIM DAN FOR SHORT—Daniel Murphy (above) of Van Alstyne in Grayson county is one of the longest names in the world. It is: Daniel Wisdom May I Know Stephens Faith and Spirits Chose Johns' Devine Communion Field Moses' Meekness And Joshua's Zeal Win The Day And Conquer All Murphy. Dan only knows one other person who has a longer name. That's his youngest son. He named him Junior.

Funeral Services Held For Mrs. Townsend

Funeral services for Mrs. Ocie Mae Townsend, wife of L. B. Townsend of Gladiola, N. M. were held Saturday morning, June 19, at 10:00 o'clock in the First Baptist church with Rev. A. A. Brian and Rev. Walter Brian officiating.

Mrs. Townsend was born in Melrose, N. M. November 20, 1908 and died June 17 in the Treadaway-Daniel Hospital. She had lived in Gladiola for 13 years. Mrs. Townsend is survived by her husband; five sons, Leroy, Melvin, Johnny Carl, Robert Wayne, Calvin; one daughter, Eva Serena; three brothers; six sisters; and her mother, Mrs. J. C. McBride of Tulsa.

Burial was in the Tullia cemetery under the direction of Farley Funeral Home of Brownfield.

Wellman Vets Class Hold Meeting

The Veterans Vocational Class of Wellman held a meeting Monday night June 21. Supper was served and they went into the meeting. Mr. Ira Brackett, of Wellman schools led the song service, which was followed by a very interesting talk by Mr. Don Jones of the Lubbock Experiment Station.

Mr. Jones spoke on breeding grain sorghums and also planting and harvesting cotton. He answered several timely questions on the control of the flea-hopper and the thrip.

Got to see that field of cotton a sample of which Paul Young brought in last week, on our rounds. The guy that suggested tank dam cotton is all wet—probably planted when some of the farms in west Terry and east Youakum got good rains in April. The only suggestion we have to offer is that the cotton is getting fairly weedy. But it is just too hot to chop cotton.

Huge Crowds Attend Showing of '49 Ford

An estimated two thousand people attended the formal showing of the '49 Ford last Friday and Saturday at Portwood Motor Co. showrooms. The new Fords, in a wide variety of body styles and colors, were displayed on the floor. Both sixes and V-8's were shown.

Those who rode in the demonstrator during the showing were well pleased with the performance and ease of handling of the new car.

"The public as a whole was very enthusiastic in its reception of the new Fords," stated Johnny Portwood, local Ford dealer.

JAYCEES ELECT NEW OFFICERS

The local Junior Chamber of Commerce in their meeting at the Veterans Hall Tuesday night elected a new set of officers for the coming year.

They are John J. Kendrick, president; Clifton Jones, 1st vice president; Lynn Nelson, 2nd vice president; and Tess Fuller, secretary. This club has been active in civic affairs of the town and are pledged to greater efforts this coming year.

One Case Of Polio Reported In City

We Got To See Paul Young's Cotton Patch

We went out to Ed Thompson's Sunday after church for the noon meal, which was fully up to par. Not only was there a good meal to chew on, but a lot of fat to chew on the side. As Sunday was a fairly cool day comparatively speaking, we had a very fine nap following close on the heels of the meal.

That over with, the gang climbed into the car and decided to see how much damage the wind had wrought in the north, northwestern part of the county. Some of the Harmony, Pool, Johnson and Gomez areas were visited, and we found varying conditions in almost every mile of our journey. For instance, here was a farm that was flattened, and over across the road there would be another hardly hurt, except what loose sand had blown across the road on him.

We have talked with farmers from almost all over the county in the last week, and that is the way most of them describe the situation. No final explanation is available from them except that some indicated that it might partially be explained from the fact that one farmer deep broke his land and the other shallow farmed.

All of which goes right back to the new idea of extra deep breaking for the sandier and lighter soils of the county. Duggan Thomas was in last week too late to get an ad in that issue, and stated that if there were any who had land he could get to now for deep breaking, to contact him, as he would have a full program come the fall and winter. Much of the land in Terry county should never have been put into cultivation, to our notion, and if possible should be re-seeded to some of the new pasture grasses.

During the drive, we found that since we had made the rounds before, much of the wheat had been harvested, and all of it seemed to be ready for the combine. It is reported here that what is coming in pretty well. Ches Gore of the Gore Elevator stated he had handled five cars in the last several days, but he failed to state what he thought would be about the average acre yield.

T. A. Wartes, of the Goodposture Elevators stated that he had an idea that the average yield would be around seven bushels per acre. That while some run as low as four or five bushels per acre, some few were getting near ten. He stated the best wheat was coming from south and southwest Terry in the sandier soils. They were buying quite a bit he stated but had made no shipments.

Got to see that field of cotton a sample of which Paul Young brought in last week, on our rounds. The guy that suggested tank dam cotton is all wet—probably planted when some of the farms in west Terry and east Youakum got good rains in April. The only suggestion we have to offer is that the cotton is getting fairly weedy. But it is just too hot to chop cotton.

Jawed with Hugh-Lee Hulise and Paul Gracey one north and the other southwest of town over a bottle of coke, Tuesday morning. Paul says his stuff is still there, and Lee-Hugh says he has lost five acres up to now, and as he said that, he looked out to see if the wind was getting up any.

We Terry county farmers sure are having a hard go of it this year.

OPEN HOUSE TO BE HELD IN COLEMAN PARK

The Oddfellows and Rebekahs will hold open house Tuesday night, June 29, in Coleman Park. Refreshments will be served in picnic style. Everyone is invited to attend.

Mrs. Buel Price took a plane at Lubbock one day last week for a two months visit with her parents at Seattle, Wash. She was in the air only 12 hours.

Listening In On The GOP Convention

We imagine most of the people with a radio are listening in more or less on the Republican National Convention now assembled in the city of Brotherly Love, but so far, not a lot of love has been shown for the Democrats or New Dealers now in power. In fact Permanent Chairman Joseph Martin made it pretty clear in his address that the GOP is set on not extending the lease of the White House to Mr. Truman for another four years.

We failed to hear the address of Mrs. Luce, but from local comments as well as the newspaper accounts Tuesday the old dog Tray was kicked all over Philadelphia. They were having a little entertainment that night at our house, was the reason we failed to hear it. The Martin address while interesting, was 100 per cent political, as was to be expected. Martin spared no words in denouncing the present White House occupant, for Truman's many dodges and at least five about faces in the past three years, he said.

Also, Mr. H. B. Kaltenborn had to put in his two bits worth at least twice over the mike, and he made some prediction, one being that Dewey would walk off with the nomination without too much trouble, probably on the 3rd ballot. Like Kaltenborn on most any subject, you can tell right where he stands, and that he was intensely pro-Dewey. The other commentators were not so outstandingly partisan.

Last, but not least, was the address of our only living ex-president, Herbert Hoover. We would doubtless be right if we stated that Mr. Hoover was at one time the most hated if not the most maligned man in America. Very few of us outside the inner circle of the GOP bigwigs but expressed ourselves about Mr. Hoover in very uncompromising terms. But time and changes, many of them far to the left, has eased the hate and misrepresentation once visited on the ex-president and now we are willing to listen. Maybe after all he was not entirely to blame for what happened back in 1929-33.

The address of Mr. Hoover was not too political. Most all could go along with him. In fact Mr. Hoover has been working for the present administration on food distribution in Europe, and is doing a good job, we understand. His was mostly a defense of the American system of government. But he warned that we cannot so forget ourselves as to drop our own assets too low while trying to bring up to our standard the assets of Europe and Asia. He also roundly denounced the Stalinist dictatorship for their failure and non-cooperation in trying to establish peace among the peoples of the world. In fact he intimated that the Kremlin rather seeks world chaos and not peace.

Homer Nelson Family Moving Away

Homer Nelson, prominent Brownfield druggist for the past 18 years, with his family, are moving last of this week to his boyhood home at Prescott, Arkansas. He has extensive timber lands and farms there which require his personal attention.

Nelson came here from Littlefield, about 18 years ago, as a pharmacist in a local drug store, where he worked for some years. Later, with C. C. Primm, he established the present store now known as Primms on west side of square.

He sold his interest in same to Primm over a year ago. He was quite successful in business here. The many friends of Homer and his family, regret their leaving.

Tiny Nelson, Jess McWhorter, W. F. McCracken, John Criswell, Larry Miller and J. D. Miller attended the cornerstone laying ceremonies of the Masonic Temple at Lubbock last Monday.

A negro child was stricken this week with what has been tentatively diagnosed as polio. Reports of final tests have not yet been received from state laboratories. Condition of the child was reported as somewhat better Wednesday morning.

Sanitation measures, undertaken by the City and in cooperation with the leaders of the colored and Latin-American communities, are now under way. The two communities lie outside the city limits of Brownfield.

Walter Breedlove, Sanitarian of the Five County Health Unit, stated that while Brownfield was above the average in cleanliness, conditions in the colored and Latin-American communities had an important bearing on the health of the city, as many people living in these two sections are employed as domestics in Brownfield homes.

Razorbacks Don't Have Owners

Homer Nelson is a very busy man these days, and what with trying to get off to Arkansas to make his home, temporarily, he has little time for conversation. The reason we say temporarily, he has not sold his home here, just in case he decides later to return to Brownfield.

In one of our articles lately, we mentioned the hundreds of razorback hogs and pigs along the highways in southern Arkansas. On the other hand, there were many prosperous looking farms, nice home and barns, and high grade cattle and horses could be seen grazing in the meadows. Then we just wondered if it was possible that if those prosperous folks didn't have some high grade swine somewhere around those barns.

We mentioned this to Homer, and he replied that perhaps no one knew the owners of the razorbacks. They just run out in the wild state, rear their young; many are killed by cars or dogs, just like stunks would be killed in West Texas.

Pioneer Yoakum Rancher Dies

A. J. Davis, pioneer stock farmer of Yoakum county died here Sunday afternoon, only a few minutes after being brought to the local hospital. He was 67 years old and had been in failing health several months. He had been a resident of that county since 1906 and a frequent visitor to Brownfield.

Funeral services were conducted Tuesday at 4 o'clock at the Baptist church in Plains, by Rev. C. M. Ryan, pastor of the Methodist church there. Interment was made in the Plains Cemetery by the Brownfield Funeral home.

Survivors are his wife, one son Wilburn Davis of Clovis, N. M. and two daughters: Mrs. L. O. Smith of Plains, and Mrs. Lynn Soemaker of California. One brother, W. J. Davis of Arizona and five sisters.

Newsprint Really Short In England

SAN ANTONIO, June 20 (AP)—A closed legislative session Sunday ended the three-day 69 annual meeting of the Texas Press Association at the Gunter Hotel. Attending the largest convention in the association's history, 450 delegates heard distinguished speakers included Gavin Astor, assistant to the publisher, London Times.

Astor explained the critical newsprint shortage in England. He said his newspaper can obtain only one-third of the newsprint it used before the war. The critical shortage of dollars for foreign purchases was blamed. He said newspapers are now digging into reserve stockpiles and his own publication had cut its circulation by 40,000 to a 235,000 total.

"Some of our advertisers have to wait weeks to get an ad run," he said. "Others have nothing to advertise except their firm name."

Room And Teacher Shortage Acute

AUSTIN, — Conditions improved slightly this year, but nearly half of the 1,500,000 public school children in Texas are still being taught in badly over-crowded classrooms.

A survey announced today by the Texas State Teachers Association indicates that 46.7 per cent of the children are getting inadequate education due to a shortage of teachers and buildings.

Many schools, among them larger cities such as Amarillo, Corpus Christi and Galveston, are on a half-day schedule so acute is the situation, according to Joe Humphrey of Abilene, vice-president of the Teachers Association.

Thirty pupils is the maximum class for efficient teaching, the National Education Association and other organizations agree.

Classes with as many as sixty-five pupils were found in a survey which was conducted by Miss Willie Mae Floyd of Abilene, Texas representative on the NEA advisory committee on tax education and school finance.

Masonic Officials Publicly Installed

A good crowd of Masons and their families were present last night at Coleman Park for the public installation of officers of the local bodies for the coming year.

In addition to Virgil Bynum, who was installed as Worshipful Master, R. D. Newsom as Senior Warden and Wayland Parker as Junior Warden, Cromer Knox was installed as Senior Deacon, Hoyt Willingham as Junior Deacon, Clyde Truly as Senior Steward, L. O. Turner as Junior Steward and Rev. W. T. Sparkman as Chaplain.

Another feature of the event was the presentation of a life membership in the local lodge to Will Adams. Dick McDuffie, of Lubbock, installed the new officers.

Chapter Installs Officers

Also installed at last night's affair were the newly-elected and appointed officers of the Brownfield Chapter of Royal Arch Masons. They are: J. J. Kendrick, High Priest; R. L. Shannon, King; G. E. Richardson, Scribe; C. W. Nelson, Captain of Host; C. L. Aven, Jr., Principal Sojourner; Paul Campbell, Royal Arch Captain; Jake Fulford, Master 1st Veil; A. M. Muldrow, Master 2nd Veil; B. H. Rucker, Master 1st Veil, and J. V. Gilliam, Guard. Council officers were not announced but are to be selected from the officers of the chapter.

J. D. Miller is secretary of the Blue Lodge and Jay Barrett is secretary of the Chapter and Council.

A picnic supper followed the installation ceremonies.

Seminole "Carnation Day" Outstanding

SEMINOLE—Carrying out a novel and unique theme of "Give Credit Where Credit Is Due" the Seminole Chamber of Commerce held a banquet-meeting here last night, presenting specially grown carnations to 85 merchants and professional men, for their contributions to the progress of the community and trade area.

Principal speaker was Railroad Commissioner W. J. "Bill" Murray, who was flown to and from Seminole by the Stanfield Flying Service, operators of the Seminole Municipal Airport and Flying School.

Grand Jury Returns Six Bills

The Terry County Grand Jury convening here last Monday, returned six bills of indictment. Four bills, naming three men in each for theft of farm tools, implements and building material and two against one man for forgery.

The theft cases were discovered by Bual Powell, deputy, about a month ago in the southwest part of the county. Upon arrests and further investigation found they were wanted in several adjoining counties for similar offenses.

CANDIDATE JOHNSON AND "WINDMILL" COMING

C. W. Ratliff of the Avalanche-Journal publications, Lubbock, called up Wednesday and stated that Candidate Lynon Johnson would be a guest of several South Plains towns next Thursday, July 1st. He will make an address at the place and times specified.

He will be making the towns in his helicopter, which has been named "Johnson's Windmill." Lamasa 10:00 A. M., Brownfield; Levelland 3 P. M.; Littlefield 4:30 and Lubbock at 5:30 P. M. where he will spend the night.

County Agent Advises On Insect Control

County Agent Jack Cleveland stated this week that this being the time of year when we are most troubled with various insects on shrubs, in the house and gardens, it is well to take notice of the many insecticides, some of which are better for some pests than others. He says that DDT is cheapest and has the longest residual effect and control of flies, fleas and several other like pests, but is not so good as we were led to believe a few years ago. BHC is good on plant lice, but seldom used around the house, because of its pungent odor, and is not recommended on vegetables because it often leaves a disagreeable taste. Chlordane is a promising new insecticide on ant, roaches, grasshopper and blister beetles.

He admonishes that great care should be used in all these as they are toxic to all warm blooded animals.

There are several new ones, not yet recommended because of danger to humans. Still another new one is good for cotton insects, but not other uses.

One having specific insects should consult with the county agent for specific remedies.

Mr. Cleveland also stated that grasshoppers are beginning to appear in some spots in northeast part of the county and he has a limited amount of poison for them. One farmer has already called for some. He also calls attention, that now is a good time of year to kill Johnson grass and the County has some exterminator on hand.

This Dog Traveled 600 Miles

Of late there has been a story going of a man here in Brownfield, whose dog by instinct or coincidence found his master at Morton, Texas, 300 miles from the place he had been left with relatives at Goree, Texas. Now the Old He will hand you one that doubles that story by 100 per cent.

When a boy of some 12 years, Mr. N. G. Thompson, father of Ed Thompson of this county, left Tennessee for Johnson county, Texas, near Grandview, a distance of 600 miles, plus. This dog came back to Tennessee. The difference was old Jok left his master; the other was hunting his. But old Jok longed for the old wooded hills and the spring branch to cool off in.

Thompson loaded a car of household goods, and he and the woman folks and children took a train. Some three of the sons-in-law, including Frank Howell went through in wagons, with Jok trailing along. One day some weeks later, the writer was out hunting and passed the old Frank Howell farm home, and who but old Jok stood on the gallery to bark at us.

A few days later a letter was received in the community from some of the Thompson family and among other things, it stated that old Jok must not like Texas, as he had been gone a week or two. Now here is the interesting part.

At that time the first bridge was being built over the Mississippi at Memphis, and only the girders were up. Both trains and wagons were ferried across. Now old Jok did one of three things: Swan the river; walked the girders, or got in with some friendly wagons and crossed on the ferry.

But Jok came back.

Water Safety Course To Be Offered

The Terry County Chapter of the American Red Cross announces there will be held on July 5-9 a Water Safety Instructor Course at the Lions Club swimming pool in Brownfield.

Mr. H. Burton from the American Red Cross will be present for instruction in the course. All applicants for this course should have passed their senior life saving and should enroll at the local pool on July 5.

The water in the pool is being chlorinated and changed twice weekly for the safety of the swimmers.

MRS. BROWNLEE LOSES FATHER

Mr. Sam Davis, 65, father of Mrs. Elmer Brownlee died at his home on Graham, early Thursday of last week. Mrs. Brownlee and daughter Dorothy Nell was at his bedside. He was buried at Olney Saturday.

Mr. Brownlee, who is Tax Assessor-Collector of the Brownfield school district, attended.

The United Nations Food and Agricultural Organization is introducing hybrid corn into Europe. Last year the FAO held demonstration schools on hybrid corn breeding in Italy and Hungary.

ANNOUNCEMENTS

The following named candidates have announced their candidacy for office subject to the action of the Democratic Primaries Saturday July 24 and August 28, 1948:

- CONGRESS 19th DISTRICT
GEORGE MAHON
- FOR STATE SENATOR
RALPH BROCK
Lubbock County
KILMER B. CORBIN
Dawson County
DUDLEY K. BRUMMETT
(Lubbock County)
STERLING E. PARRISH
(Re-election, Lubbock County)
- FOR STATE REPRESENTATIVE
PRESTON E. SMITH
(Lubbock County)
- FOR DISTRICT ATTORNEY
H. B. VIRGIL CRAWFORD,
Brownfield
R. STANSELL CLEMENT
Lamesa
- FOR COUNTY JUDGE
H. R. WINSTON
- FOR SHERIFF
OCIE H. MURRY
- FOR ASSESSOR-COLLECTOR
HERBERT CHESSHIRE
- FOR COUNTY ATTORNEY
GEORGE W. NEILL
R. L. GRAVES
L. C. HEATH
- FOR COUNTY CLERK
H. M. (Dube) PYEATT
- FOR DISTRICT CLERK
ELDORA A. WEITE
- FOR COUNTY TREASURER
MRS. O. L. (Oscar) JONES
- FOR COMMISSIONER, Pct. 1
W. BRUCE WHITE
MARION B. STONE
- FOR COMMISSIONER, Pct. 2
S. H. (Sam) GOSSETT
- FOR COMMISSIONER Pct. 3
LEE BARTLETT
- FOR COMMISSIONER Pct. 4
H. R. (Horace) FOX
J. E. (Mutt) OLIVER
- FOR JUSTICE OF PEACE, Pct. 1
L. W. HOGUE

We note in a late issue of Acco Press, house organ of Anderson-Clayton Co., that all the rest of the South Plains, as well as the Panhandle cotton producing counties have been put under quarantine for fear of pink boll worm ravages. The map gave all this region as "lightly infested." Also several counties in central Texas have been put under quarantine, and eight in southwestern Oklahoma. No report was given of gin trash finding in other Texas counties, but the statement did say that six (6) larvae were found in the eight Oklahoma counties. In our unscientific way of thinking, that is really unbelievably "light infestation."

We don't exactly like the story told recently by a civic club

speaker about a boy and girl trying to get married, but there is little we can do about the matter except protest, and in doing so pity the poor preachers a bit. So the story goes, on the way to the preachers home they had a fatal wreck, killing both. After reaching the pearly gates, they applied to St. Peter for a minister. After some evasion from Peter, they made a second demand and were told that there had not been a preacher in heaven for a thousand years. We don't believe a word of that tale. Surely heaven is not barren of the men of the cloth. And in the second place, Peter himself was one of the greatest preachers this old earth has ever known, and many there be that believe he had the distinct honor of preaching the first Gospel sermon ever delivered to mortal man.

Polio is said to be in the epidemic stage in South Texas, and is gradually spreading to other sections of the state. The closest case we have heard of is Anton, in Hockley county. That is getting close, and it could break out here any time. A good farmer who lives out northwest of town informed us this past week that many residences in the Mexican and Negro sections of the town were good sources of polio spread. He has to pass through these sections frequently, and he stated many of the outdoor privies were becoming foul, with thousands of flies around them, and in some instances, excretions were piled almost to the seat. Might not be a bad idea for the health department to make an investigation, and if conditions are that bad, order a clean up and the frequent use of disinfectants and DDT.

The American Heritage Foundation, of Freedom train fame, are advising the small city papers like the Herald to advertise a big rally centering in the churches this year, as the Glorious Fourth comes on Sunday. The most centers of population in West Texas were studiously avoided by the Freedom Train, as El Paso and Amarillo were the only points touched. Well there was Del Rio on the border of Mexico, with shy rural population. Anyway the AHF wants all the church bells to toll out liberty and justice throughout the land, and all preachers to stress our way of life to their communicants. That is all very well, and we feel sure most preachers will respond. But where are we to get the tolling bells? Back in the older settled sections, some churches have bells, but they were out of fashion when most churches in this area were built. There is perhaps one church bell in Brownfield, or used to be.

Speaking of the Fourth of July we used to wonder why the old saying ever came about that when one started to sign an instrument, he was asked to put his "John Hancock" on it. If one will examine a photostatic copy of the Declaration of Independence, he will see at once that old John Hancock really bore down on his pen in the boldest style, while other more timid souls signed so lightly and in such small letters that it is hard to read their names. Well, it really took bold men to sign that instrument. Had old King George's armies ever caught up with them, it would have meant the firing squad or a rope around their necks. Those men were trying to and did form a new nation. England still wanted tribute from America.

In the passing recently of Alvah Roebuck, son of one of the founders of Sears, Roebuck & Co. one of the world's largest mail order and department stores, it called to mind that when a boy most of the merchants in the small towns of the south would tell their white customers that Roebuck was a negro. There could not be any other reason for it than to stop people from ordering from this firm. We have also heard it stated that Sears was a negro, and also Montgomery Ward.

Neither was true. A picture of Roebuck in Sunday's papers show him to be typically caucasian, but what race we do not know or care, as that makes little difference here in America. Later on, after we were grown, both catalogs published the pictures of the owners in their catalogs. But for a long, long time, perhaps the report kept many mail orders from white people in the south reaching them.

You have often heard that it is not the heat but the humidity that hurts. That at least is the argument put forth by the city judge of Presidio, after the report went out that mercury climbed to 114, and seemed to have lodged up there. Anyway he really has something there. If Chicago, Memphis or Dallas should register a temperature of 114 in the shade, people would drop like flies. When it gets up in the top nineties in those cities or other cities where there is a lot of humidity, it has reached a dangerous stage. Reminds us of the Chamber of Commerce Convention reported several years ago at Denver, Colo. One fellow from the Panhandle of Texas told the people there assembled, "sure it gets cold on the Plains of Texas, but it is a dry cold and does not hurt." A guy from Oregon followed, and "lowed as how they had six months of rain in his country, but it is a dry rain, and does not wet you."

The Associated Press has sent the Herald a number of cuts to be used this summer to indicate weather changes. For instance, showers, clear, cooler, hot, etc. Right at present all the picture we would need to indicate our weather would be—hard-hot wind from the southwest, more expected tomorrow, next week and in July and August. But we hope we are wrong.

CITATION BY PUBLICATION THE STATE OF TEXAS

T. D. Woodruff, R. V. Payne, Ruben Loftis, Estelline State Bank, a corporation and the unknown stockholders thereof, Regional Agricultural Credit Corporation and the unknown stockholders thereof GREETING: You are commanded to appear and answer the plaintiff's petition at 9 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 2nd day of August, A. D., 1948, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said Plaintiff's petition was filed on the 16 day of June, 1948.

The file number of said suit being No. 3478.

The names of the parties in said suit are:

Elva S. Tankersley as Plaintiff, and T. D. Woodruff, R. V. Payne, Ruben Loftis, Estelline State Bank, a corporation, the unknown stockholders of Estelline State Bank, Regional Agricultural Credit Corporation, the unknown stockholders of Regional Agricultural Credit Corporation as Defendant.

The nature of said suit being

Wellman Whisperings

Vilda Loyde Foster is visiting in Fort Worth with her aunt and uncle who have been visiting in the Foster home and with the J. W. Cottens in Seagraves. Rev. and Mrs. Felton Griffin and family have been visiting his parents Mr. and Mrs. D. H. Griffin. Rev. Griffin and family drove down from Anchorage, Alaska via Tennessee where he held a revival meeting. He is pastor of the First Baptist church in Anchorage.

The Wellman Baptist church is conducting a vacation Bible School this week.

The A. L. Baker and Len are visiting in California. Grandpa Dean and Anna Jo Dean are visiting in Lancaster, Texas.

Mr. and Mrs. G. A. Rich and Maxine, Mrs. Miller Rich and children visited Jack county and Lindale, Texas returning via Duncan, Okla. G. A. Rich and wife, and the Orthmans went on to Arkansas and Missouri before returning home. They reported a rain and storm of near cyclonic velocity in Missouri which scared the "daylights" out of these dry West Texas people.

Mr. and Mrs. Joe Hawton are visiting in Gainesville this week. Mrs. Charlie Rex has returned home from an extended visit in Vernon, Texas.

G I QUESTIONS AND ANSWERS

Q When is National Service Life Insurance considered lapsed?
A It is lapsed when a veteran fails to make a payment of premium within 31 days from the date it was due.

Q If I do not receive National Service Life Insurance premium notices or receipts promptly, should I continue to send my premium?
A Yes. You should clearly identify your payments by giving your insurance policy number, but if that is not available, you should give your rank, organization and your service serial number.

Q If I filed a change of address with the VA hospital or regional office where my claims folder is on file, will the same change be made on my insurance records?
A No. Change of address for purpose of compensation or pension is not a notice of change of address for insurance purposes. VA Form 889, "Change of Address," should be executed by the insured to notify the Insurance Service

substantially as follows, to-wit: Suit in Trespass to Try Title to Section 93 in Block 4X, Certificate 198, D & S E Ry Co Survey, in Terry County, Texas, for title and possession, damages and costs. Also please the Ten Year Statute of Limitation, general and special relief.

Issued this the 16th day of June 1948.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 16th day of June A. D., 1948.

ELDORA A. WHITE, Clerk, District Court, Terry County, Texas.

(seal)

Veterans News

Student veteran entitled to increased monetary benefits because they have more than one dependent are reminded by VA of two important deadline dates to be observed if they are to receive to April 1.

One deadline effects veterans taking full-time educational courses. The other affects veterans taking part-time courses, combination school-job training courses are entitled to increased benefits due to new subsistence-earned income ceilings.

Veterans in full-time educational courses who are entitled to 120 monthly subsistence because they have more than one dependent must submit evidence of additional dependency before July 1 in order to have the higher payment retroactive to April 1. Veterans with more than one dependent and taking part-time school or who are affected by the increase income ceiling must submit proof of additional dependency by September 1. In most cases, veterans in this group may submit this evidence on a form which they will receive from VA.

Veterans who lose subsistence, compensation or pension checks should notify immediately the appropriate Veterans Administration Regional Office.

VA said a veteran losing such a check should write a letter giving his full name and address, his claim number and the date and amount of check. He should also state what the check was for and the circumstances surrounding its loss.

On being notified of the check's loss, VA determines first if it may have been found and returned to the U. S. Treasury. If so, the check will be re-mailed to the veteran. If not, VA will request the Treasury to stop payment and take necessary steps to reimburse the veteran.

A veteran who finds his check after reporting its loss should notify VA and hold the check until he has been advised by the Treasury that action to stop payment has been withdrawn.

The amount of fuel lost every year through incorrectly adjusted tractor carburetors alone would fill a train of tank cars 200 miles long. More than \$12 worth of fuel is being wasted every year by the average tractor owner.

Will Smalley's Place A Must In Tennessee

When we make a trip back to Tennessee, the home of a first cousin, Will Smalley is always a must. And while we met his wife only a time or two before they were married, Ann is always happy for us to come see them, and she and her daughter always find a lot of good things around the place to cook. Last year was an exception, however, as Ann got a copperhead bite on the hand just before we arrived. This year Niece Aleen helped Madie fashion an extra good meal. Madie works at the hospital in Bolivar, but Saturday is her day off.

Will has a blacksmith and wood work shop, and next to Ann, that is his prized possession, and he spends many happy hours in there repairing and sharpening farm implements and fixing household appliances for neighboring farmers. Just after we drove up, he had a negro customer who had a very pretty span of horses to his wagon, and just about the loudest set of harness we ever saw. Looked like a picture of Santa's reindeer team harnessed up. He had just fixed up a middlebuster for the negro. Will remarked that the negro, calling him by name, was black on the outside but white on the inside. This made us think of two very fine negro neighbors when we grew up there, Anderson Bowdin and Forrest Hendrick, and we asked about them.

Says Will, "this man married Bowdin's granddaughter, and they have part of the old Stricklin place and have built a new house on the ridge west of the old Stricklin farm home." There never has been any serious friction between the whites and blacks in Hardeman county that we ever heard of. There was one attempted rape, but the negro was an unknown in that section, and two local negroes made him release the girl and called officers. The strange negro was given a fair trial at Bolivar with state guards on hand, and a trip to the pen for life.

Will and the Old He have quite a highly colored past. We lived close to each other, about a mile if you cut through the woods. None of our escapades could of necessity be termed criminal, but after a hard week on a farm, and our usual get-together Saturday nights and Sunday, the juvenile delinquency part of our nature burst bounds, and our crime wave ran into mild misdemeanors, such for instance as the invasion of some guy's melon patch, peach or apple orchard. Maybe we had stuff at home just like we took forbidden from some stingy old cuss. But it appeared to us huskies that the fruit from the neighbor's patch had just a bit better flavor than the home grown variety. The next step in our ambitious adventures was to keep from getting caught. But we usually did. Then came

NEW OFFICERS OF OIL MEN'S GROUP—Four Texans and one Wyoming man were installed as officers of the National Oil Scouts and Landmen's Association at the group's 25th annual convention in Denver, Colo. The officers include, (left to right): R. C. Brown, San Antonio, editor-in-chief; O. L. McNew, Casper, Wyo., 3rd vice-president; Robert Wilson, Houston, 2nd vice-president; H. W. Pontius, Midland, Tex., 1st vice-president; and Simon Crites, Corpus Christi, president.

PONTIAC

Adding to its Reputation!

Year after year, Pontiac's reputation grows—as owners spread the good word of its performance and dependability.

This year is certain to add special luster to the Pontiac name—for the great car illustrated here, the 1948 model, is the finest Pontiac ever built.

First, it offers the performance luxury of General Motors Hydra-Matic Drive*—and it is the world's lowest priced car with this phenomenal advance in easier, more convenient motoring.

It is the most beautiful of all Pontiacs. It is the finest performing of all Pontiacs. It is the most dependable of all Pontiacs.

Consequently, we are certain that those who purchase it will be the most enthusiastic of all Pontiac owners—and their praises will add to an already-great reputation for enduring satisfaction.

Better make your own next car a Pontiac. Regardless of when you get it, you can be sure it will be a great car and a great value.

*GM Hydra-Matic Drive, Bumper Guards and White Sidewall Tires optional at additional cost.

ROSS MOTOR CO.
720 West Broadway Brownfield, Texas

the threshing, and those old black-gum switches were really tough, and bent all around you.

Then there were the multitudinous tours to the old swimming hole that had more or less stagnant water, but what cared we? We never heard of a germ, if we had it would not scare us. Couldn't we stomp chestnut burs with our bare heels? Oh, we had plenty entertainment, even if we didn't know a half dozen people in the next community. We'd plait hickorybark pop whips as we called them, and hie to old fields to tangle with wasps nesting on the briar bushes, or have it out with a nest of yellow jackets under a bank. If we felt especially tough, we might tangle with a hornet's nest hanging from a limb some 20 feet up. That part called for real bravery.

We had another stunt not unlike the modern "follow the leader." We would go into dense woods with plenty saplings, climb one; bend it to another and so on, to see which could travel farther without touching the ground. That was hard work, tough on clothes, but our clothes were not made of silk or nylons. Then too, it was a prospective neck-breaking stunt, and it is a wonder any of us lived to be grown. Fancy us carrying our 190 pounds through timber now.

Will Smalley is as gentle as he is tall and rugged. He has given an invalided sister-in-law a home, and a good one since the

Cool Off

There are lots of ways of keeping cool; according to the Girl Scouts the best way is to go to camp where life in the out-of-doors provides plenty of opportunity for dodging heat waves.

Mr. and Mrs. Les Short and son, Virgil, will leave Sunday for a fishing trip to Tres Ritas and Eagle Nest, N. M.

death of her parents many years ago. But such things are not unusual in the old New Hope community. Will has a brother-in-law, Dalton Alford, who has given—not his mother, but step-mother—a good home since the death of his dad. Christianity is really practiced as well as preached in that community.

MRS TRULY HOSTESS TO TWO BRIDGE CLUBS

Mrs. Clyde Truly was hostess to two bridge clubs last week. The La Fiesta club met Thursday night, June 17, at her home. A Sandwich plate was served to Mesdames Slim Schellinger, Geo. Germany, Ralph Ferguson, Ted Hardy, Chris Hafer, Terry Redford, and a guest, Bea Windstrom. Friday afternoon, June 18, Mrs. Truly entertained the afternoon bridge club. Dessert and iced tea were served to seven guests. Present were: Mesdames Sam Teague, Phil Gaasch, Tommie Hicks, Jerry Kirschner, Tom Harris, Crawford Burrows and Chilpon.

GOOD NEIGHBOR CLUB MEETS WITH MRS. WATSON

The Good Neighbors Club met Thursday June 17, at the home of Mrs. Elmer Watson. The time was spent embroidering and crocheting. New officers were elected for the following year. Mrs. Dalton Warren was elected president; Mrs. Doyle Anderson, vice-president and Mrs. Elmer Watson, reporter.

A delicious refreshment plate was served to Mrs. Dalton Warren, Mrs. Jim Thurman, Mrs. Walter Watson, Mrs. J. R. Davis, Mrs. Doyle Anderson, Mrs. L. V. Wagner, Miss Mary Bell Warren, Miss Thelma Davis and the hostess and her daughter, also several children.

BRIDGE CLUB MEETS WITH TOM HARRISES

Mr. and Mrs. Tom Harris were hosts to the couples bridge club Monday night, June 21, at their home.

High score for couples was made by Mr. and Mrs. George Germany.

Present were: Messrs. and Mesdames J. T. Bowman, Sam Teague, C. L. Truly, George Germany and Dr. and Mrs. James Finley were guests.

SLUMBER PARTY AT WINN HOME

A slumber party was held Friday night, June 18, in the home of Verna Winn of Gomez.

The guest list included: Misses Shirley Duke, Billie Benton, Barbara Parker, Zareta Camper, Charlene Tittle, Ella Wood, and Bobbie Anne Hosey.

Freddie Ray Huckabee arrived Thursday from Denver, Colorado. After a 12-day leave, he will be stationed in Alaska with the Army Air Corps. Huckabee is the son of Mr. and Mrs. L. B. Huckabee.

PI MU SOCIETY ORGANIZED

In a meeting held Monday night in the home of Mr. and Mrs. Alton Webb, Tahoka Road, a Pi Mu society was organized. Pi Mu is a Greek honor society in music. Three officers were elected: Freddie Ruth Lowe, president; Maurine Webb, secretary; Beverly Wartes, historian.

Mr. Harold H. Lees, educational director of the art publication society, lectured on the importance of planned music education.

Those attending the meeting are now associate members of the National Society of Pi Mu and will become members when the society charter has been accepted at headquarters in St. Louis, Mo.

The next meeting will be held July 15, in the home of Mrs. Richard Young.

MR. AND MRS. EARL WILSON GUESTS AT PICNIC SUPPER

Mr. and Mrs. Earl Wilson of Brownwood were honored guests at a covered dish picnic Monday night, June 21, at the A. J. Stricklin, sr. home. Mrs. Roy Collier assisted Mrs. Stricklin with hospitalities.

The Wilsons are former residents of Brownfield and are visiting friends and relatives here.

After the picnic supper, games of "42" were played by 37 guests.

MRS. WEBBER CONDUCTS BIBLE STUDY

When the Methodist Women's Society for Christian Service met Monday afternoon at three o'clock, Mrs. Webber conducted the Bible study. The meeting was held in Fellowship Hall.

Those attending the meeting were: Mesdames Carpenter, Longbrake, Hogue, Loyd, Walker, Tharp, Harris and Downing.

HARMONY H D CLUB

The Harmony Home Demonstration Club met Thursday, June 17, in the home of Mrs. Ralph Murry, for a demonstration on decorative stitches by Mrs. J. A. Bell.

A short business meeting preceded the demonstration. Cake and punch were served to fourteen members.

Club members and their families were entertained with a tacky party in the Ralph Murry home Thursday night, June 24.

The next club meeting will be in the home of Mrs. Cecie Murry at 612 E. Hill July 1. All club members are urged to attend and visitors are welcome.

JOHNSON NEWS

Mr. and Mrs. E. Smotherman of Seagraves visited Mr. and Mrs. Grady Patton Saturday.

Carroll Johnson, Troy Harold Currington, Bobby Lyn Stokes and Kenneth Tuttle left Tuesday with a group to attend the FFA Encampment at Possum Kingdom.

Mr. and Mrs. C. F. Faught and children attended a birthday dinner Sunday given in the I. O. Faught home of the Forrester Community.

Mr. and Mrs. L. V. Alexander were Lubbock shoppers last Saturday.

Mrs. Herman Wheatley has her sister and two children of Artesia, N. M. visiting her this week.

Mr. and Mrs. Alvis Patton and children visited in the C. J. McLeRoy home of the Gomez Community Sunday afternoon.

Mrs. Wood E. Johnson returned last Wednesday from Gordon where she has been at the bedside of her daughter-in-law who has been real ill.

Miss Hazel Faught visited last week with her brother, Kenneth Faught and family of Denver City.

Misses Elizabeth Anthony and Armita Lucas of Brownfield and Allie Belle Alexander spent the week end with Mary Ellen Patton.

Miss Nell McLeRoy of the State Training Union department was with the Johnson Baptist church last Wednesday night. She showed the film, "The Life of Christ."

Mr. and Mrs. James Martin of the Gomez Community visited in

Mr. and Mrs. L. D. Spradling have returned from Emory, Texas, where they attended the funeral of Mrs. Spradling's brother-in-law, H. D. Ivie. Ivie was active in politics and was a member of the Republican State Executive Committee and a delegate to the Republican National Convention in Philadelphia, now in progress.

GOMEZ H D CLUB

The Gomez Home Demonstration Club met Thursday, June 17, in the home of Mrs. Alton Webb for an all day meeting.

A dress form was made for Mrs. Webb by club members. A covered dish lunch was served at noon.

The next meeting will be an all day Thursday, July 1, in the home of Mrs. Lowell Stephens. The making of cheese at home will be demonstrated.

the J. A. Bench home Sunday afternoon.

Mr. W. D. Faught went to Abilene over the week end to get his little daughter, Lara May, who has been under treatment there.

The vacation Bible school at

the Johnson Baptist church closed out Friday with a big ice cream feast. The commencement program was well attended Friday night.

Mr. and Mrs. Denton Patton of Big Spring, Mr. and Mrs. Burl Patton and family of Terrell

visited Mr. and Mrs. Grady Patton Thursday.

Gene Faught had his eye operated last week at Lubbock.

Mrs. L. O. Tanner is taking a two-week vacation from Cobbs Dept. Store.

W. W. Tapp robbed a hive of his bees last week, and presented the writer and family with a large portion. However, all agreed that the first honey here made exclusively from wild flowers is not up to par with later robbings when cotton blooms come in. The

honey was high in sugar content.

Archie Dungan, son of Mr. and Mrs. Archie F. Dungan, will leave this weekend for Los Angeles, Calif., where he will spend several weeks with his aunt and uncle.

An EXTRA VALUE for You!

Texans In Washington

BY TEX EASLEY
AP Special Washington Service

Washington, June 24 (AP) Most Texas members of congress will be heading southwest this weekend while their Republican colleagues leave for Philadelphia and the G. O. P. national convention. The Texans and their families will go by train plane and automobile.

One Texas congressman and his wife who won't hurry home are Rep. and Mrs. George Mahon of Colorado City and Lubbock.

Their daughter, Daphne, is to be married here June 28 in Metropolitan Methodist Church to Duncan W. Holt of Greenboro, N. C.

Miss Mahon has just graduated from Duke University in North Carolina. Holt is a veteran student law there.

The West Texas Congressman, incidentally, is one of those lucky individuals who didn't draw an opponent this year.

Around The Capital:

The Louisiana-Texas Intracoastal Canal Association, headed by John Fulbright of Beaumont, gave a reception last week at the Mayflower Hotel in honor of the retiring Chief of Army Engineers, Lieut. Gen. Raymond A. Wheeler. During Wheeler's tenure as chief of engineers work has been authorized and started on the final link in the inland waterway that skirts the Gulf coast from Florida to Brownsville. The last section, now being dredged, is between Corpus Christi and the mouth of

the Rio Grande. Completion of the waterway will be the realization of a dream fostered for many years by the late Roy Miller of Corpus Christi, who was an intimate friend of General Wheeler and every other man who has served as chief of army engineers for the past two decades. His son, Dale Miller succeeded him as Washington representative of the canal association.

Washington, June 24 (AP) Texas congressmen, being minority party members, get little recognition in congress for their efforts in Republican - controlled committees.

But sometimes they are able to give the shove that's needed to pass a measure along.

For Example: Rep. Wright Patman of Texas continued to work for the Taft-Ellender housing bill when it appeared hopelessly deadlocked in the House Banking and Currency committee. Largely through his work, it won a 14-13 vote approval and was sent to the floor.

Rep. John E. Lyle of Corpus Christi wasn't content when his committee finally reported the Federal Pay-Raise Bill to the floor.

Suspecting the majority leadership of wanting to let the measure die on the calendar with the scheduled adjournment, he began a crusade in the House Chamber. Each day he arose and, playing on the so-many shopping days left until Christmas idea, reminded the Republican leadership they had only so-many days left before adjournment to pass the bill.

Rep. Bob Poage of Waco was one of the leaders in getting house action on the bill to repeal the margarine tax.

Rep. Lindley Beckworth was active in getting favorable committee approval of a bill to establish a "National Science Research Foundation." Under the plan, the government would give grants for studies in basic scientific fields including research in quest of a

WHAT NEXT?

What they won't think of next! This time it's a flour sack-apron combination. The National Cotton Council reports that the printed cotton flour sack is made so that a seam can be ripped out, and presto, the housewife has a fresh, new apron. She doesn't have to do a thing—even the strings at the corner of the bag turn into ties for the apron. Modeling the sack apron is pretty Rita Lynch of Little Rock, Ark.

cure for polio and other diseases. Speaking of polio, when the present outbreak in Texas hit the Corpus Christi coastal area, Rep. Lyle got a call from official in that area asking his help in getting navy planes to spray insecticides over low-lying damp areas.

Lyle called the White House and talked personally with president Truman. In a matter of minutes top-ranking navy admiral were calling back Lyle for details. In short order planes were roaring over the south Texas area dealing out a death spray for germ-carrying insects.

Around The Capital

One of the neatest cracks of last week came after Mr. Truman was quoted as saying that the sent congress is the second worst in history.

You'll remember that he was answered by House Majority Leader Halleck (R-Ind) who said: "There are some who think that Mr. Truman has been the poorest president since George Washington."

This led a Wallace-for-president man to comment:

This is the first time in history that both congress and the president have been diametrically opposed and both right."

Behind the Scenes in American Business

Steel occupies the same position in our economy at it does in a building. It is the framework upon which virtually everything else is hung. On its production rests the output of railway equipment, automobiles, electrical appliances, even the nails for new housing. Any sag in its manufacture sends a convulsive shiver through hundreds of allied industries.

Steel production currently is at the rate of 96 per cent of capacity. The output last week of 1,730,400 net tons of raw steel indicates that the industry will produce in excess of 7,000,000 tons during June and bring to 43,000,000 tons the total output for the first six months of the year.

Barring a coal strike or other possible production interruptions, the outlook for the second half of the year is bright. The output of iron ore is running at an all time high and the scrap supply has improved within recent weeks. Steel companies know that they must maintain their production at the peak to halt attempts in government quarters to place distribution under Federal control.

UNIQUE SOLUTION — Nowhere has the steel shortage been felt more sharply than by the manufacturers of railway equipment, whose production potential has been periodically hamstrung. These manufacturers have built 140,000 freight cars since the end of the war, but during that same period the railroads have retired 170,000 cars as obsolescent. Only about 135,000 new cars currently are on order.

America's first "box car in a package"—the P-S-1—has been introduced by the Pullman-Standard Car Manufacturing Company to play a major role in helping to offset the nation-wide shortage of freight equipment.

According to its builders, figures based on data from the American Railway Car Institute show that the P-S-1 is now accounting for approximately 40 per cent of box cars ordered from all contract builders and more than 28 per cent of box cars ordered from all sources. Built of component parts mainly engineered and manufactured by Pullman-Standard, the P-S-1 box car has contributed heavily to the ability of the company's Michigan City, Ind., plant to reach its prewar capacity of 54 cars a day, making it the biggest single producer of

KITCHEN MEMO BY JEAN CLARKE

Oven-baked desserts can be cooked along with the roast to save time and fuel. *Banana-Coffee Souffle*, one of these, is nourishing and flavorful. Melt 2 *tblsp.* butter in a saucepan. Remove from heat and stir in 3 *tblsp.* flour. Gradually add 1/4 cup strong coffee, 1/2 cup milk and cook over low simmer flame stirring constantly until nicely smooth and thick. Combine 1/4 cup sugar, 1 egg yolk, gradually stirring these into cooked mixture. Add 3 mashed medium-sized bananas. Beat 1 egg whites until stiff but not dry. Fold into banana mixture. Pour into 1 1/2 qt. souffle dish which has been buttered on bottom only. Bake in slow gas oven (325°) 40 to 45 mins. Serves 6.

The most reliable buyer's guide to gas appliances for the home is the Seal of Approval of the American Gas Association Testing Laboratories. For example, nearly 600 tests and requirements must be met on a gas range before it can be produced and sold to the homemaker.

If your biscuits burn on the bottom and still remain rather pale on top, your baking sheet may be too large which tends to hold the heat from the burner to the bottom instead of radiating around the oven evenly. There should be at least one inch of space between the baking sheets and all four sides of the oven.

Hot butter and syrup makes a richer-tasting spread for waffles. Add 2 *tblsp.* butter to 1 cup extra-sweet corn syrup, heat until butter is melted, then serve hot.

As soon as baked potatoes are cooked, cut them criss-cross on the top to keep them fluffy. Add butter and serve at once.

Veteran Newsman Writes Book About A Texan

San Antonio, June 24 (AP) A veteran newspaperman of San Antonio, J. C. Oslin, has ventured into the literary field with publication of his first book.

The book is "Benbenjox," the story of a Texas boy and his problems. It is a fictional account but is told in a manner to give it the appearance of a factual biography.

Oslin is on the editorial staff of the San Antonio Evening News, where he has been employed for the last 30 years. Prior to that, he was on the editorial staff of the Galveston Daily News and has served on small country weeklies and dailies. He has spent 46 years in the newspaper profession.

His purpose in writing the book, Oslin said, was to furnish some entertainment and give the world insight into the American system that can be made to work for the happiness of anyone who makes an effort to enjoy its benefits.

The book tells how the boy meets the difficulties of life, handicapped by impoverishment, and develops a philosophy of freight cars in the nation. As of April 1, more than 7,000 of the cars had been delivered to nine railroads.

The railway expects to start turning out the first of this lot of box cars in the fourth quarter of 1948.

Mrs. John Allen, her daughter and son-in-law, Mr. and Mrs. Ed Castle and three children of Oklahoma City are visiting in the W. B. Downing home this week. Mrs. Allen is a sister of Mrs. Downing.

SANTA FE TO MAKE OWN BOX CARS

F. G. Gurley, president of the Santa Fe Railway, announced today that the company will build 750 forty-foot six-inch box cars of fifty tons capacity at its own shops, and that the material is being ordered at the present time.

faith and contentment and acquires some material success. It is told in simple style.

Next best thing to a NEW car...
our GENERAL OVERHAUL!

IF THAT new car of yours shouldn't materialize as soon as you expect—cheer up! Our famous General Overhaul will put new zip, safety and smoothness in your old one. And the money you invest now in essential repairs will come home to roost in the form of a better trade-in allowance.

So drive in soon. Our mechanics can do wonders for an aging car. They use factory-approved methods and parts, and we've got precision equipment to help 'em do the job fast and right. They'll return your car primed to deliver extra miles and smoother miles, at a new peak of efficiency. Why not talk it over with us today?

What About That Picture Of Truman Learning To Fish?

By Dave Cheavens

Austin, June 24, (AP) My fisherman friends keep calling me up to ask about that (AP) picture of President Truman learning to cast or pointing a fly rod, at Trail Creek in Idaho.

They know your correspondent sometimes fishes in the Colorado river.

It is apparent to these fishermen that Ray Mack, who the picture caption says is teaching Harry Truman how to use a fly rod, has only started on his job.

The picture shows the president standing pigeon-toed on a rock, holding a fly rod in his left hand. He's off-balance, his elbow isn't jammed in next to his ribs as it should be, and a big fish could easily pull him right in. Looks like deep water, too.

The left hand is okay because the President normally throws from port side, but what about the right hand, just hanging there? Any fly fisherman knows you'd better have a hand, right or left, on that slack line if you are really waiting for a game fish to strike.

Of course if you're just standing there to get your picture taken you could be playing the Missouri Waltz with your right and it wouldn't make any difference. The fish would get away.

My fishing friends look at the picture closely and think maybe it's an automatic reel the President is using. That's the expensive kind with a spring that puts enough mechanical tension on the line to set the hook and keep the line tight while you are reeling in, if you play that way.

I don't know. I never owned an automatic reel the blamed things cost too much. In all my fly fishing, I have used the \$1.49 reel (pre-war), without springs or motors, I retrieved or gave line, keeping close personal contact with the fish, depending on whether he was running away from me or toward me, and how fast.

I've even seen fisherman with automatic reels doing it that way. But what about that semi-western hat, that double-breasted coat, that tie, that corner of the hankie peeking out of the President's breast pocket? They all want to know what kind of fishing outfit that is.

All I could say was, I just saw the picture I didn't take it.

The Muse With Meals

A Mineola cafe has this sign prominently displayed above the door:

Welcome, Podner,
To Our Palace.
Eat Your head off;
It's eighty miles to Dallas.
Another hand-lettered smile that goes with the good food says: "Everything Comes To Him Who Orders Hash."

We asked the waiter where we could find the rest room. He pointed to a sign above a door. It said "For Tired Folks." —Caps and Lower Case.

Mr. and Mrs. Harvey Gage are visiting in Bluffdale this week. They are guests of Mr. Gage's parents.

One Third Have Athlete's Foot

"Few, if any, people have escaped the inconvenience and the annoyance of athlete's foot. It is said to be the third most common skin disease of the summer, and, contrary to popular opinion, the fifth most prevalent disorder in the winter."

Dr. Cox explains that athlete's foot is due to a small, mold-like growth or fungus which thrives on moist, warm parts of the body such as the feet.

"The infection of athlete's foot is usually gotten directly or indirectly from someone else," Dr. Cox says, cautioning that the most likely place to contract the infection are around bath houses, locker rooms, and other public places where people go barefoot.

"It is probable that at least one-half of all adults suffer from the infection at some time."

In suggesting some effective measures to be taken to prevent initial cases and avoid recurrent attacks of the disease, Dr. Cox emphasized drying carefully between the toes; use of a mild alcoholic solution on these areas after drying; liberal applications of talcum powder in the socks and the shoes; and wearing socks that are absorbent but not coarse.

"Ill fitting shoes are often the source of athlete's foot, Dr. Cox warns. "Shoes that rub and chafe should be corrected or discarded."

MAID LOOKS HOMEWARD

Wearing the same sky-blue cotton dress that brought her luck the night she was elected 1948 Maid of Cotton, pretty Matilda Nail smiles happily as she thinks about the wonderful experiences she has had during her 3,500 mile international journey for King Cotton. Matilda will end her six-month tour in mid-June and return home to Ft. Worth, Texas, for a well-earned vacation.

Mr. and Mrs. Clarence Gosdin are vacationing in Eagle Nest and Red Revire, N. M. Mrs. E. G. Alexander of Plainview is managing the Alexander-Gosdin Drug store while the Gosdins are away.

Herald Want Ads Get Results!

Tomatoes Aplenty In June, USDA Reports

There will be lots of fresh tomatoes on the market in June, the USDA reports. Supplies will be coming in throughout the country from Texas, Georgia, Mississippi, Alabama, California, South Carolina and Louisiana.

Myrtle Murray, extension home marketing specialist of Texas A and M College, says the reason for the extra supply is from an overlapping of crops in the South. In parts of Texas, Georgia and Florida, the mid-March freeze made replanting necessary. So tomatoes in these areas got off to a slow start, while in other areas they are ripening at the usual time.

Another reason for the unusual abundance is that tomatoes that are usually marketed in Canada will be on the U. S. markets, since Canada is not importing them this year. In other years Canada bought over a thousand carloads.

These plentiful fresh tomatoes are expected to be of good quality, says Miss Murray. Shopping housewives can plan many fresh tomato salads for June.

SAYS RETONGA GAVE HER GREAT RELIEF

Gas On Stomach, Muscular Aches and Pains, Sluggish Elimination, Weakened Feeling, All Promptly Relieved, Says Mrs. Era Manning in Discussing her Own Case.

"A good friend personally recommended Retonga to me and I can say that she did not praise this fine medicine half strong enough," gladly states Mrs. Era Manning, respected resident of 408 Barrera St., San Antonio, Tex. The mother of seven children, Mrs. Manning is a member of the Baptist Church. She gratefully continues:

"If meal time had never come it would have been all the same to me, for food seemed to sour in my stomach and burn inside me like acid. I suffered so much distress from gas on my stomach and bloating that sometimes I could hardly get my breath. I thought I was at the end of my row I

felt so weakened and worn-out. My shoulder and arm muscles pained and ached something awful and I had to rely on strong purgatives, my whole body seemed so full of toxic poisons.

"The very first bottle of Retonga gave me wonderful relief. I have a grand appetite now and can eat anything I want with no fear of distress from acid indigestion. I no longer rely on harsh purgatives. I sleep good, feel refreshed when I get up, and my housework is a pleasure instead of a drag. No one can be more thankful than I am for Retonga."

The active ingredients of Retonga are purely herbal, combined with Vitamin B-1. Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency, and constipation. If the first bottle fails to give you gratifying relief, your money will be refunded. You can get Retonga at Primm Drug and all other good drug stores. adv.

WHY WAIT?

WE CAN DELIVER YOU A NEW TRUCK

NOW!

Your new International truck is now on our lot. All you have to do is come down, look 'em over, pick up the one you want, buy it, and drive it away. No waiting; no beating around the bush; no brush-offs; no "lists".

Our present stock of new Internationals include the following sizes:

KBS - 5's - 7's - 8's

... And here's something else to consider: The prices on these trucks are LIST prices. We have never asked for a bonus on anything we have ever sold and we never intend to. Could you ask for a fairer deal than this?

FARMERS IMPLEMENT CO.

401 Lubbock Road Brownfield

INTERNATIONAL Trucks

THANK YOU!

We wish to express our heartiest thanks to the people of this area for the enthusiastic manner in which they received the New Fords. We knew we had a car that would please you, but the extent exceeded by far our fondest expectations.

While the '49 Fords are new from bumper to bumper, they are still backed by the same tradition that was built into the first Ford and every Ford that has rolled off the assembly line since then—the tradition of making the best car possible for the lowest possible price.

You liked the New Fords on the showroom floor; you will like them even better on the road. And it must not be overlooked that wherever you go throughout America, there is always a friendly Ford dealer and his splendid service department, whose primary aim is to keep your Ford in A-1 condition and delivering mile after mile of top-notch performance.

Mexicans Are Greatest Immigration Violators

By ROWLAND EVANS, Jr.
WASHINGTON, (AP) — By land, sea and air thousands of aliens are trying to get into this country illegally.

Some make it. Most do not. The swarm of foreigners stream to and across our borders has reached an "unprecedented volume," according to the Immigration and Naturalization Service.

In 1944 more than 33,500 were caught by our border patrols and sent back.

In 1946 the number for 100,785. If the current rate of apprehensions is maintained for the rest of this year the number will exceed 200,000, a 100 per cent increase in two years.

Mexicans are the greatest offenders against our immigration law. What are those laws? Briefly, no alien may come here who is an illiterate, an alcoholic, or a contract laborer, or if he believes in polygamy, has traces of insanity or various contagious diseases, has a criminal record, has been deported before or is a vagrant.

There are a few other reasons why he may be barred. Perhaps

the best known is membership in any organization advocating violent overthrow of the government.

Any citizen of a country (not a colony) in the Western Hemisphere can legally enter this country by meeting the conditions and paying a small fee. There is no waiting list, no immigration quota and no immigration restriction.

But in other countries all over the world whose citizens are eligible for naturalization we have set up immigration quotas. These drastically restrict immigration.

Citizens of Greece, Turkey, Iran, and many other countries must wait an indefinite period before their turn will come on the quota list. In some cases the "indefinite period" will run for more than 50 years.

About 25 other countries (England, Switzerland, Norway, Holland, etc.) have not exhausted their quotas. Their citizens could be here tomorrow.

By far the greatest illegal entry activity is along our 2,000-mile Mexican border. Why Chinese and Spaniards, as well as Mexicans and other aliens, use every trick in the book to dodge our armed patrols and get safely across, murder and sudden death consistently strike down our 650 frontier watchdogs. Since 1924 when the patrol was first authorized, 24 patrolmen have been killed by law-violators along the southern border. Five inspectors were slain before the patrol was authorized.

Only 11 have met death on the Canadian border, where illegal immigration is negligible.

Aliens travelling by land use two methods of avoiding patrols. 1. They hire transportation to smuggle them through regular "Ports of Entry" on highways and bridges concealed in secret compartments of trucks and automobiles.

2. They hire native guides and cross at isolated points far away from regular entry ports.

The strategy of the patrol is to lie in wait north of the border at intersections of highways and byways where they know illegal entrants are likely to pass.

Patrolmen are skilled in the art of tracking, can often tell to the hour when a track was made and the speed of the traveler.

Two-man pincer movements are used for the border patrol, allow information to be relayed ahead. Two-man pincer movements are often used to trap parties of immigrants known to be coming.

Other aliens come illegally to this country by sea. Three methods are used.

1. Smuggling on an ocean liner or freighter.

2. Signing on as crew and jumping ship permanently. A Greek ship arrived in New York early last year with a crew of 242, left with one of 80.

3. Hiring a small boat and getting dropped off at an isolated place along the coast. Cuba is the starting point for many of these smuggling expeditions.

Officials say that as soon as shipping accommodations between here and Europe become more available there will be a big step-up in illegal immigration.

They expect, too, a big increase in the number of aliens who will use the airplane. They say the airplane is the "most difficult means of smuggling to intercept."

Border Patrolmen recently broke up an air-smuggling ring which brought at least 19 Chinese and four Europeans to various airports in the East. Each passenger paid the smugglers between \$600 to \$1500.

Mrs. J. B. Lewis has returned from a visit with relatives in Denton county.

Mr. and Mrs. Walter Tomlinson spent the weekend in Denton and Fort Worth.

CITATION BY PUBLICATION

TO: W. C. FREEMAN
GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the First Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 26th day of July, A. D., 1948, at or before 10 o'clock A. M. before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said Plaintiff's petition was filed on the 6th day of November, 1947.

The file number of said suit being No. 3397.

The names of the parties in said suit are:

Frances Freeman, as Plaintiff,

and W. C. Freeman as Defendant.

The nature of said suit being

substantially as follows, to-wit:

A suit for divorce, alleging cruel treatment and improper conduct by Defendant toward Plaintiff of such a nature as to render further living together insupportable. That defendant continually quarrelled and nagged at Plaintiff, and hit her, on several occasions. That there are no children born of said marriage, and no community property. Also ask for her former name to be restored.

Issued this the 11th day of June, 1948.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 11th day of June A. D., 1948.

ELDORA A. WHITE

Clerk, District Court, Terry County, Texas.

(seal) 50c

Friday shoppers in Lubbock were Mesdames Roy Sparkman, P. R. Camper, and D. W. Allmon.

Weekend visitors in Afton were Mr. and Mrs. Vaughn White.

EAGLE KILLS BOY IN TURKEY

ISTANBUL (AP)—The seven-year-old son of a shepherd climbed a summit on the Anatolio plateau recently and prodded into an eagle's nest. There was a scream from above and, as the helpless father and villagers watched, an eagle swooped down. With the child in his claws, the bird soared upward and away. Those on the ground watched the boy struggle furiously and finally break loose—to fall to his death from more than 1,000 feet.

Baseball Teams Being Formed

Sponsored by the American Legion, several teams are being formed for the summer amusement. Various ages are included mostly among the teen agers.

J. B. Huckabee and Milton Bell, are in charge and one or both of them will be at the Club Field every afternoon. Every boy desiring to play ball is invited to come. Some matched games with nearby towns will be held soon.

Last Rites Sunday For Mrs. J. A. Gresham

Funeral services were conducted at 2:30 p. m. last Sunday at the Assembly of God church here for Mrs. J. A. Gresham, 69, who died Friday noon at the home of her son, Alvie Gresham who lives six miles south of town. Rev. C. L. Fuller officiating, assisted by Rev. R. A. Jones and Rev. Earl Walden. Burial was in the Terry County Memorial Cemetery by the Brownfield Funeral home. She had been ill about two weeks. Survivors include her husband, two daughters; Mrs. Neva Clark, of Denver City and Mrs. Alma Stell of Oklahoma. Three sons, Alvie, farmer here, Marvin of Oklahoma and Farris of Level-land. One brother and one sister of Fort Worth and Austin also survive.

How to keep a Champ in Trim!

YES sir, there's a championship caliber all through that Buick of yours.

It's caliber that calls for mighty little "conditioning"—if the attention it gets adds up to really knowing and understanding care.

For instance, these Fireball cylinders will keep on packing all the wallop they should, if you let us compression-check them in the Buick way. Steering will stay easy and light, tire wear will stay at the minimum, if you keep your wheels lined up on our special tracking gauges.

Skilled service men—Buick to their finger tips—know how to bring out all the Fireball zip and go.

And when wear does take its inescapable toll, we have the parts—Buick-engineered for their job—that restore factory-new standards of performance.

Even our tools are specially designed to do a typical Buick job—and for the personal, interested, specialized attention that tops off

genuine Buick care, you simply can't beat the Buick specialists in our shop.

Yes, give your champ real Buick care—Buick know-how, Buick parts, Buick interest in keeping your car at its peak. Costs no more than ordinary attentions—but what a whale of a difference it makes!

Lubricare Matched-to-mileage maintenance for Buicks

★ Lubricare is specified for your Buick by the engineers who built the car—with the right kind and the right amount of lubricants carefully chosen for just one reason: they are best for your Buick.

★ Lubricare is matched to the mileage your Buick has traveled—including a thorough inspection, a report of anything needing attention and a record of the service for future reference.

★ Lubricare adds thoughtful care to complete lubrication. For protection and smooth performance, your Buick deserves Lubricare regularly.

★ SEE YOUR BUICK DEALER EVERY 1000 MILES FOR LUBRICARE

IT PAYS FARMERS

... TO MAKE EVERY BIT OF WORK COUNT
AND TO GET FULL SERVICE FROM OIL

Farmers are learning to arrange things so chores can be done without unnecessary work. It's sheer waste to take 150 minutes for a job that could be done in 60 or 70 minutes with better planning. Just as it's wasteful to accept only 60 or 70 hours of use from tractor oil when Veedol Tractor Oil stands up for 150 hours in gasoline-burning tractors. 150-Hour Veedol is made by advanced methods and equipment from 100% Pennsylvania, the world's toughest crude.

150-HOUR VEEDOL

SAVES FUEL by reducing power blow-by.
SAVES TIME by avoiding breakdown delays.
SAVES REPAIRS through greater heat and wear resistance.
SAVES OIL—stands up 150 hours in gasoline-burning tractors; cuts oil consumption in all tractors.
SAVES TRACTORS—assures long, economical service.

INDEPENDENCE — master of his own harvest.

SERVITUDE — the collective farm way.

Freedom IS EVERYBODY'S JOB!

Here is an alarming fact; the freedom we now enjoy is threatened. Subversive influences are at work in our land; perhaps closer to home than we realize. They are working hard to destroy our cherished heritage. But it is not too late. We still have time to clean house... to stop the undermining forces of un-American isms.

WHAT YOU CAN DO

- Remind your friends that we must be as wide-awake as our enemies.
- Vote and urge your neighbors to vote.
- Offer your time and ideas to public service.
- Speak your mind freely.

The Sims Are Still Gadding About

Duggin Sims was in this week from his dad's plantation down in extreme south Terry. In fact, we believe the Sims place joins the Gaines county line. He reported that many farms in that section was badly damaged by the recent winds, but that his own farm was not badly damaged. By the way, way back in the winter we stated that Mr. and Mrs. Sims intended to devote this year traveling, and endeavoring to find out what was at the other end of the rainbow if possible. One time they came back through Brownfield, but just for a night or two and on they went in another direction. Well, we hope that this fine couple, who have for some 20 or 30 years had their noses to the grindstone, have the best time ever, and can tell us what's what, where and why when they finally come in and settle down again.

GOMEZ GOSSIP -

Mr. and Mrs. Dulie Carroll and children of Meadow visited Sunday in the Tres Key home.

Mr. and Mrs. O. F. McCrary and children visited Sunday with her sister and family, Mr. and Mrs. Homer Britton of Brownfield.

Miss Aconal King visited last week in Hamlin with her aunt and family.

Misses Eura Lee and Billie Ruth Burns visited with their sister, Mrs. W. L. Buckley and family in Hobbs, N. M. last week.

Mr. Wes Key was honored with a father's day dinner Sunday in the home of his daughter and son-in-law, Mr. and Mrs. Otis Kelly. Those attending from Gomez were Mr. and Mrs. Wes Key, Miss Imojean Key, Mr. and Mrs. Denver Kelly and children, Betty Sue, Royce and Patricia.

Miss Frances Lay, Texas Tech student spent the weekend visiting in the home of her uncle, B. R. Lay and family.

Jean Purcell, Jon Fulmer and Clyde Trotter of Brownfield are visiting Sonny Little this week.

Miss Billie Jo Tittle who is attending a business college in Lubbock spent the weekend with her parents, Mr. and Mrs. Alfredd Tittle.

Mrs. M. Cheshier is visiting for several weeks with her daughter, Mrs. J. R. Cast in Chickasha, Okla.

Mr. and Mrs. Bert King and daughter, Lenda of Plainview, visited Sunday in the Tom Doss home.

Mrs. Pate of Lubbock, Mrs. Cottrell of Lamesa, Miss Davis of Lubbock and Miss Boyd of Levalland visited last week in the B. R. Lay home.

The Tress Keys are having

Hugh Harred was in from the Union-Welch section Tuesday and stated the high winds were playing the wild with most crops down there, although so far he was not badly hurt. Weather bureau reports the rush of wind from the southwest the past few days are trying to fill a void in the Kansas area following cyclones. Takes a long time to fill 'er up.

Mr. and Mrs. Robert G. Hiltz have recently moved here from Atlanta, Ga. Mr. Hiltz is employed by Stanolind Pipe Line Co.

Yellowing of the leaves of shrubs, rose bushes, shade trees, peach trees and other plants may be prevented by adding cooperas and sulphur to the soil at the rate of about one pound per large shrub or small tree.

Centipede grass grows best on rich, sandy, well-drained soil with a fair amount of moisture. However, once this grass is established, fertilizers must not be added, as this will kill the grass next year.

Members of the Gomez Baptist church Brotherhood will present a program at the Foster Church the first Tuesday night in July.

Mr. and Mrs. C. J. McLeroy, Mr. and Mrs. K. Sears and sons Earl and Kelly Mack, visited in the Frank Bozeman home at Springlake Saturday.

Farmers in the south part of the community are looking forward to having REA in the next few days. Almost all of the houses are wired and ready for the electricity to be turned on.

Mr. and Mrs. Raymond Reynolds were weekend visitors in Abilene.

UNION UTTERING

The Union H D Club met Thursday, June 17, in the home of Mrs. J. C. Herring. Refreshments were served to nine ladies. Mrs. Ardis was a new member. The club meets next on July 1, the place will be announced later.

Clinton Smith, of Lubbock, was visiting Owen Parish, of this community, over the weekend.

The following had dinner in the Cullifer home Sunday: Rev. and Mrs. B. H. Baldwin and family, Carrol Herring, Marcia Garner, Alma Faye Baker, and Homer Bearden.

Mr. and Mrs. Willie Jones and children visited Mr. and Mrs. J. M. Jones, of Meadow, on Father's Day.

Virginia Ann Kirk of Plainview, visited her cousins, Joyce Simmons and Sue Dell Jones, last week.

Mr. and Mrs. D. P. Lewis and Carl visited at Seymore over the weekend.

Misses Joyce and Doris Lewis are visiting in Bakersfield, Calif. Doris plans to stay for an extended visit.

The girls 4-H Club met at the home economics building on Wednesday June 16. Five members were present and their sponsor, Mrs. Frank Sargent, demonstrated the canning of tomato juice.

Mr. and Mrs. R. H. Decker had all their children home for Father's Day. Those present for dinner in the Decker home Sunday were: Mrs. J. L. Altum and children, Adell and Robert Lee. Hamlin; Mr. and Mrs. Jack Key and son Gary Ross, Lovington; Mrs. Eva Lee Altum and daughters, Ada Blanche and Peggy Jean, Hobbs; Mrs. Dee Foster and daughter, Ruth, Brownfield; Mr. and Mrs. Clifton Decker and children, Rodney and Tyralene, Seagraves; and Mr. and Mrs. Lloyd Thompson and Mac, Mr. and Mrs. Harold Hill, Mr. and Mrs. Lester Decker, Mr. W. F. Decker, Misses Bettye and Patsy Byrd and Will-eta Greene all of Brownfield.

The intermediate and senior Sunday school classes enjoyed a lawn party Saturday night. Several members met in the afternoon and dressed chickens. The boys fried the chickens over an open fire Saturday night. It was reported that Carrel and Homer are real cooks. The social was sponsored by Mr. and Mrs. Lofton Warren and Mrs. Lanious.

Meadow Musings

Mr. and Mrs. Maurice Frost of Lubbock spent the weekend with E. W. Hemme and Mr. and Mrs. Laurance Renfro and family.

Mr. and Mrs. R. E. Castleberry had all of their children at home on last Sunday for a Father's Day reunion.

Mr. and Mrs. Edd Peek visited Sunday afternoon with Mr. and Mrs. Joe Armontrout at New Home.

Mr. and Mrs. H. Combs and son, David, are visiting Mrs. Combs' mother, while Mr. Combs is looking after some business interests at Fort Worth.

Terry Redford is building a new home at Meadow. He has been employed as principal of the Meadow high school for next year, which begins in September.

Funeral services for Lois Jean Hansard were conducted at the Meadow Baptist church on last Saturday morning at 11:00 o'clock.

Lois Jean died in a Lubbock hospital after an illness with measles. Services were conducted by Rev. R. L. Shannon and A. C. McIlroy, minister of the Church of Christ at Meadow.

Lois Jean was five years old and was the daughter of Mr. and Mrs. Dewey Hansard of Meadow. Mr. and Mrs. Hansard moved to Meadow about February 1, 1948. They formerly lived at Hollypond, Alabama.

Both grandmothers of Lois Jean from Alabama were present. Also Mr. and Mrs. Chester Hansard and family of Idaho were present at the funeral.

The Meadow Methodist Church had a very successful Vacation Bible school last week.

Truett Babb is attending Summer school at Texas Tech.

Tommy Dick Carruth has been working at Lubbock.

Miss Wanda Jean Hicks took the tests for the Dunlap Scholarship at Lubbock last Saturday. She was honor graduate at Meadow this spring.

Mr. and Mrs. Elmer Finley and children are visiting Mr. and Mrs. B. F. Finley.

NEW... H.P. SIX up to 100% more economical

NEW... "Magic Air" temperature Control optional

Three BIG people ride in comfort on front and rear seats!

It looks like a custom-built car! The smartest thing on wheels!

The look of the year!

It's dreamy on the inside, too! You never saw better looking upholstery and fittings!

White sidewall tires available at extra cost.

Two brand-new engines: 100 H.P. V-8 or 95 H.P. SIX!

Front and back seats are actually sofa-wide!

Those "Magic Action" King-Size Brakes are brakes you love to touch!

"Hydra-Coil" Front Springs!
