The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

Let's Elect A Terry County Man For District Attorney

An Editorial
Not since the creation of the 106th Judicial District has Terry County had the honor of having a district officer. They have consistently come from Dawson, Lynn and one time Garza. Since Terry county is near the center of the district geographically, it would be an ideal location for your District Attorney.

We have nothing against Mr. Clement. No doubt he is a good man and a good attorney. But since for years Dawson county has been the home of the District Judge, and also has a fine man as a candidate for our State Senator, let's elect H. B. Virgil Crawford of Terry county, as our next D. A.

Some of our prominent business men have made a quiet canvass of the situation and have found that a lot of the best people all over the district are for Virgil Crawford, but informants have told them that the liquor element and their friends fear hard prosecution if Virgil is elected, knowing his record as county attorney here in Brownfield, and they are against him.

This does not intimate in any way that Virgil's opponent has in any way solicited the vote of the above element. We are inclined to think he has just as little use for them as Virgil, but they know Virgil will go after them, hook and tongue.

Virgil gave up his office as county attorney when the going was hottest in the Pacific, joined the navy and sailed the Pacific on the airplane carrier Ticonderoga. He gave and took the best the Japs could put out. For this reason, as well as being a whale of a good citizen and a good prosecutor, we believe he should receive the bow of the voters of the district.

Lets put it this way, good citizens. Suppose a drunken driver runs over and kills or maims some member of your family. Suppose some maniacal murderer kills some of them. Would you want a strong prosecutor on the case, or would you want a soft-soaper?

Championships To Be Decided In More Football Classes

By Harold V. Ratliff
Three State, eleven regional and fourteen bi-district championships will be decided next fall in Texas schoolboy football with 870 teams competing. This is the all-time high in number of schools.

The Interscholastic League's gigantic gridiron program has been revamped from top to bottom. The city schools Fort Worth, Houston, San Antonio and Dallas have been grouped in one conference. The small cities are in class AA. The towns are in classes A and B. Then there will be more than 200 schools supporting six-man football teams.

Until this year there has been only one state championship determined. That was for the school with 500 or more enrollment. But the city schools formed their own conference and the league voted to have a state championship campaign in class A. The AA state title race continues.

This will be the first year without spring training. However, all schools have the privilege of starting fall practice Aug. 15 instead of Sept. 1 as in the past.

The city conference determines its district champions by Nov. 27. Since there will be four district titlists, it will require only two weeks to determine the State championship. In the bi-district pairings the San Antonio and Houston champions meet while Dallas plays Fort Worth. There are 26 schools in the city conference.

Class A determines its district See CHAMPIONSHIPS page 12

Some 56 Miles Of Crops Seen Sunday

One of the longest crop viewing tours that we have made this year was taken Sunday by the Junior Editor and family and the Old He. This jaunt took us over considerable of northeast and east Terry, and a section of west Lynn county. Most of this area has always been regarded as among the best farming communities on the South Plains. Also, the area visited has some of the swellest country homes in this section, and we saw more than one in process of construction or remodeling. Most of the area visited already has rural electrification, and poles are on the ground for more.

The route selected kept us mostly on highways or paved farm to market roads, although part of the stretch between Lakeview and West Point, both in Lynn, is not paved. Some six or seven of the ten of twelve miles has not been paved, but we feel sure that old Lynn will get to this unpaved stretch in the near future. Our route lay as follows, with approximate distances: Brownfield to Needmore, 12 miles where farm to market road carried us to Lakeview, about 20 miles. South to West Point 12 miles and west to Brownfield another 12, making approximately 56 miles.

Pretty good crops were seen on most of this route, which passes through the northern part of Terry county, and through the Fine Meadow farming area, the FM road missing Meadow a half mile to the south. True there are places that are pretty sandy, and some crops have been lost, but as stated above, they have been planted over, much of it coming up. We tried to figure out where old Meadow used to stand before moving to the railroad, but so many of the farms have been changed and the houses remodeled, that it is hard to get your location from a farm to market road that is not only paved but straight. The place and the school was renamed Prairieview when Meadow moved five miles west to the railroad, but if the school house is still there, we were unable to see it. Probably like other school houses in Terry, sold when the big consolidations came.

We are glad to see the Terry and Lynn county farmers are replanting ends of rows and spots out in the fields that have blown out. At present it looks kinder like a patch-work quilt, but soon the green new crop will show up, and then it will be a thing of beauty instead of barren ground. Most all the section visited, are needing rain, except a small scope of the West Point area, where they have had washing rains recently, some lake water and some crops not up had to be replanted, or "scratched." Most in need of rain is east of Meadow and around the Lakeview community, but we had See SOME 56 page 12

Next Week Is Farm Safety Week

Among other ads in this issue calling attention to National Farm Safety Week, July 25-31st, there is a page ad undersigned by four of our business men. At the top center of the page is a large picture of a supposed farm scene. There are said to be 62 hazardous or risky errors that are often made on the farm in this picture. How many can you find?

Also, there are twelve typographical errors in the four ads under the cut. These errors are left purposely. How good are you at proof reading? See how many of the 12 you can find. No prize—just a bit of fun.

Next week we will publish the same picture with the 62 farm errors listed. If you get as many as 30, you have done very well; if 45, extra well and if you get all you are keen.

Mobile X-ray Unit Coming Soon

Motorized and equipped by the State Health Department, a mobile X-ray will be in Brownfield August 10 through 14, for the purpose of taking X-ray pictures, free to the public.

This is part of a huge program by the Department to better the health of the general public. It is endorsed by the Five County Health Unit, who have requested its visit. The machine will be set up in the County Health department rooms in the court house.

The check is primarily to detect Tuberculosis, but will pick up any abnormal malady of the chest. If such is detected the information will be divulged only to the patient or his or her preferred physician and no others.

The operation requires less than five minutes, and no one needs to disrobe. The X-ray picture detects tuberculosis in its earliest stages, even before the patient feels any symptoms and thus many lives may be saved, before this malady reaches advanced stages.

At a meeting a civic clubs Tuesday morning in the court house, they will sponsor and advertise the move.

Telford Says Deep Breaking Can Be Extreme

Was discussing the deep breaking plan that is right now attracting so much attention in Terry county on the lighter soils, last Monday. From our conversation with Mr. Telford he is a deep breaking fan, but intimated that the plan can be carried to the extreme. Says he, "what is the use of breaking the land more than 12 or 14 inches, if you have no more than 6 or 8 inches of top soil?"

But, he stated that contrary to the idea of some, he wanted the clay on top and not mixed, and he went on to tell us why. "We broke our land some 15 inches deep, and after planting the cotton, there was no more rain till Sunday the 11th, when I got about an inch. I pulled a few stalks of the cotton to see just what was See Telford Says page 12

Deep Breaking Was Disc Not Chisel

We are very sorry that we stated last week that the deep breaking on the old Bynum place was the chisel type when in truth it was disc plows. Our boner. But it caused at least one farmer to go out and see the operations. He was Harmon Scales from south Terry. Mr. Scales is a deep breaking fan ok, but he has ideas about the matter and may be right. Mr. Scales doubts the feasibility of break land deep, and turning all the top soil underneath with the clay subsoil all on top. He wonders if crops can be produced on such land without use of fertilizer or pen manure, thus making provision for the shifting of the soil far beneath the clay.

His idea is that some form of plow be invented or employed that will while breaking some 20 inches of the subsoil, at the same time mix it evenly with the top soil, instead of reversing the two—top soil bottom, and clay all on top.

There has been considerable deep breaking for the past few years. No doubt some one has the answer for Mr. Scales. Have you noticed any improvement or falling off of your production since you had your land deep broken? The Herald would like for some of the farmers that have had experience come in and give us their opinion.

Deep Oil Test Still An Uncertainty

Concerning the deep oil test out near Mound Lakes in northeast Terry, there is rumor after rumor, and no one has the same story about the well. The well is on section 91 in block 4-X, and known as Hinson No. 1. It is reported here that a showing of oil was found at about 5,000 feet, but as the contract called for a depth of 12,000 feet drilling went ahead. Oil was struck again at the present depth of around 9,600 feet but to the lay driller any evidence around the well is lacking. True there is some oil around on the ground, but whether from the 5000 of 9600 level is the guess of any uninitiated. One report states that a core was taken when the well blew in and was quick shut off.

Most rumors put the production at 40 barrels per hour, but no one seems to know whether this is true or not. Those who have been out there say it appears that some kind of test tube is being run. Our guess is that the drillers are awaiting the arrival of the big shots.

It is known that owners two or three miles from the well were contacted for leases early Thursday morning, but whether the would-be leaser had any real information about the well, or were just willing to take a sporting chance, is problematical.

Of course all of us are hoping that it is a real good oil well.

Buchanan Brings In Nearly Grown Bolls

A few weeks ago, this great weekly told its readers of two farmers, Paul Young and V. H. Wheatley bringing in cotton blooms just before the 4th of July. There is another westside farmer that has some cotton, too. His landlord, C. P. Buchanan brought in the evidence, Tuesday afternoon, two cotton bolls, almost grown, that had begun to "speckle" a bit.

Carlton Jones, the son of J. J. Jones, also of that section of the county, is just a young man as far as the years go, but in that time he has gone ahead of perhaps much older men in the knowhow operation of a farm in Terry county. He has a wife and two small girls. Mr. Buchanan informed us pointedly that Carlton was the best farmer he ever had on the place. And he related how Carlton had rented another place all run down, a few years ago and had rebuilt it until it was a desirable place to cultivate.

"This year is his first on my place," Mr. Buchanan stated, and I could not get him to take time out to plant a garden until all the fields were planted. Now, however, Carlton has a fine young garden coming along.

Back to the cotton, Mr. B. stated that Carlton had 50 acres with the almost grown bolls, and 150 acres a bit younger, both making rapid progress. Not only that, but Jones has some 200 acres of thirty feed growing on the place. He has a very good season in the ground, and expects a good harvest. In fact, some of his maize will be ready for a combine in three or four weeks.

Yoakum Boy Gives Officers A Chase

Sheriff Murry and Deputy Powell apprehended a 16 year old Yoakum county youth late last week for that county. He was wanted on a charge of theft of several articles from a farm home there. He had possession of the goods. Sheriff of Yoakum county took him to the Plains jail.

A few days later he escaped jail, laid out in the prairie nearby two days and while attempting to take another farmer's car was fired by the irate owner, puncturing a tire. The youth then fled across the open pastures, and apparently he has his good escape.

Sheriff's department reported the arrest of three men here charged with driving cars while drunk and the usual weekend inebriates.

The negro woman, Ida May Montgomery, charged with murder of a Mexican man two weeks ago, was released Saturday on making a \$2500.00 bond, which was signed by Lubbock men.

Lack Of Respect Shown Funeral Processions

L. O. Greenfield, commanding the local company of the National Guard, calls to the attention of the Herald several instances of flagrant disrespect toward the funeral procession of the Huckleberry brothers, who died in action and were reburied here last Tuesday.

These instances included cross traffic cutting through the procession and men on the street remaining covered while the procession was passing.

Previously, the intersections have been under the control of city and county enforcement officers during the passage of funeral processions. Greenfield states that this was not the case Tuesday. No reason has been given for the discontinuation of this practice.

But, whether the police are present or not, any persons with the proper breeding and a sense of common decency, knows without being told, the respect due all dead and especially to heroes who have made the supreme sacrifice in the defense of their country.

VOTE! VOTE! VOTE!

We are not trying to tell you how to vote. That is your business. But the time has come in west Texas that we are going to have to drag our lazy bones to the polls and vote, or the east Texas politicians and the northern and eastern manufacturers will be telling us just what they want us to do. It will be too late then. Drop everything Saturday; march to the polls as good soldiers should and CAST YOUR VOTE!

Local Girls To Go On Three - Day Tour

Marjorie Scales and Betty Zo Dean, members of the Wellman 4-H Club at Wellman, and also members of the district talent club; will leave on a three day educational trip through the Panhandle and South Plains districts next Monday morning. This trip is sponsored by the Producers Grain Corporation and the Extension Service.

Representatives of each group will accompany the boys and girls on this educational bus trip, which leaves Amarillo the morning of July 26. Members of the talent club of 1948 and of former years will make this trip. Marjorie Scales was selected in 1947 on her achievements in 4-H work; while Betty Zo Dean was selected on the same basis in 1948.

Some of the places they will visit are: Producers Grain Elevator and Feed Mill, Amarillo; Deaf Smith County Potato Growers Packing shed, Hereford; Clayton Herrell Farm, and various cooperatives at Plainview; South Plains Cooperative Hospital, Co-Op Locker Plants, elevators, gins, See LOCAL GIRLS page 12

Body of Carl Rogers In Fort Worth

Mrs. Juanita Rogers, wife of Carl A. Rogers, local insurance man here prior to the war, has been notified that the body of her husband has been received at the distribution center at Fort Worth. The Brownfield Funeral Home is expecting to be notified momentarily when the body will be shipped to Brownfield for reburial.

Rogers joined the air force in 1943, and after training was sent to England, where he was fatally injured in a plane accident in December of the same year. Full details will be related in this paper next week.

More Phone Lines To Lubbock Needed

Very seldom one is able to get a connection with Lubbock right off the reel. Sometimes the wait runs into three or four hours. We experienced a wait of some three hours on a call Monday. We have heard a number of others make such complaints.

We know that material is scarce and hard to get. But as soon as materials can be obtained, several more lines should be run from Brownfield to Lubbock.

First Baptist Church To Build \$200,000 Annex

Lost Child Returns Home With Dog

Quite an excitement prevailed awhile last Tuesday night when the Sheriff was notified that the 4-year-old son of Mr. and Mrs. Monk Parker was lost on the farm 12 miles southeast of town. The boy had been left with Mrs. Parker's mother, while its parents had gone to Hot Springs after Mrs. Johnny Criswell who was injured in a car wreck there.

The boy had wandered off on his tricycle after his dog. The grandmother missing him, had put out an alarm. An airplane late in the evening failed to find him. At about 9 p. m. the Sheriff had the fire department give an alarm causing a large crowd to assemble downtown, when he asked for a posse. Near 100 cars responded for the search, but about time they got there the child had come in following his dog, but had lost his tricycle on a nearby farm.

The boy was scared and crying but unharmed.

Good Rains Visit Much Of County

Heavy thunder heads, with an undercast of blacker clouds, began to form soon after noon Monday, and by 4:30 thunder was heard in the north and northwest. Rain began falling about five PM, and continued for about one and one-half hours. There was a measurement at that time of .80. Later in the early evening there was another shower, bring the fall to almost an inch, 94-100 to be correct.

Heavy rains visited the Wellman and Seagraves area, but we could not find how far west it extended. The north part of the county got a good rain, and the Meadow Ropes area fine showers, with quiet an electrical storm that burned out some REA transformers. The east part of the county got a good rain out some 6 miles from Brownfield, and then just a light shower. But most of that area got a fine rain Sunday afternoon the 11th and were not suffering.

There were considerable cloudiness and heavy thunder toward the south and southern part of the county, but on account of so many trees here in town it is very hard to tell the extent of the rain cloud. Anyway, what did fall was gratefully received, and will be a big help in pushing the crops of Terry to maturity. Soon the cool night of August will be with us, which will be a big help.

Funny Ideas About Who Brings Panics

A fine gentleman over in Crosby county by the name of Jimmy Rankin, who has a column in the Ralls Banner had one to tell us last week. Jimmie goes off half cocked with that old one that panics and depressions all happen under Republican administrations. We have heard Republicans say the same thing about Democrats. Both are false. No administration in its right senses wants a panic or depression during its tenure.

Fact is there has been three depressions in our memory, one under Cleveland, 1893, democrat; a very short one in 1907 in the fall, under T. R. Roosevelt, Republican, when he used his "big stick" on some of the big boys, and stopped it cold. Another depression happened in 1920 just as 8 years of Woodrow Wilson went out, and Warren G. Harding came in. This followed World War I, and neither party was to blame. Of course even the younger folks can remember the 1929 depression that took 8 long years and millions of government money to stop.

Yes, we remember the cheap See FUNNY IDEAS page 12

TEC Office In Lamesa To Govern Terry

Information has been received by C. E. Curry, manager of the local office of the Texas Employment Commission that a budget cut has made it necessary for a number of small Texas Employment Commission offices to be closed. For this reason, the local office in Brownfield will be closed on July 24, 1948.

After July 24, the Texas Employment Commission office in Lamesa, Texas will have jurisdiction over the activity in Terry and Yoakum counties. A representative will be available in Brownfield in the District Court Room of the Court house on Thursday, August 5, 1948 and at two-week intervals thereafter, between the hours of 9 A. M. and 12:00 Noon for taking claims for Servicemens Readjustment Allowance and Unemployment Compensation, and also for rendering assistance in filing job openings.

A problem foremost in the minds of farmers is that of securing sufficient numbers of migratory farm workers to help hoe and harvest the cotton crop. It is believed that plenty of such workers are in Terry and Yoakum counties now to finish hoeing the crops. Although it would be impossible to obtain a figure that is absolutely correct, it is estimated that approximately 60 per cent of the hoeing has been completed. Most crews try to have work contracted for two or three days in advance, and farmers should not be alarmed by having to wait a short time to secure services of such workers.

As the migration proceeds from one section of the state to another, these trained men will also advance from section to section. During the cotton harvest season, one of these men will be stationed in Brownfield. Full cooperation of the farmers with him will be or great assistance in securing a fair share of available harvest hands for this area, and in making efficient use of the service of these workers.

After the local office is closed here farmers should keep the Texas Employment Commission Office in Lamesa, Texas posted in regard to the need for farm laborers.

LAMB COUNTY SHERIFF SUES CASTRO SHERIFF FOR \$25,000 DAMAGE

A \$25,000 slander suit was filed in the 64th Judicial District court last week by Lamb County Sheriff Hugh Rich against Castro County Sheriff E. D. Weyer and Weyer's former Deputy, Woody Sullivan. Sullivan now a deputy at Levelland, Hockley county.

The original petition was filed

Transit Company Gets Mail Contract From Santa Fe Railway After 20-Odd Years

Postmaster James H. Dallas announces herewith several new changes in mail business in and out of Brownfield.

A re-arrangement of the city delivery route was put into effect Monday July 19th. There was no new territory added but there will be Oct. 1st, pending final approval of the Post Office Department.

One new service has been added on the parcel post delivery. C. O. D. parcel will be delivered to all persons and firms receiving their mail on city delivery. All persons and firms ordering parcels C. O. D. are asked to be prepared to pay them out when they are brought for delivery. Only one attempt at delivery by the parcel post carrier will be made. After one attempt at delivery the parcels will be left for delivery at the C. O. D. window.

Effective August 1st there will be no more mail service train in or out of Brownfield. A contract has been awarded to the Mistletoe

The First Baptist church of this city has put out very little hot air about their huge building expansion, nevertheless for some weeks excavating machines have been tearing out a foundation that will be the Educational Annex. This building will be three stories high, the first floor being only four feet below ground, and may not be considered as a basement. This building will add some 7075 square feet of floor space on each floor to the building, or more than 23,000 square feet in all.

This huge congregation, with a membership perhaps larger than any town or city anywhere near the size of Brownfield, has, in spite of building two missions in the town, the south side and west side, continued to grow until the central plant completed only about ten years ago, has become badly crowded, thus this \$200,000.00 Educational building became a necessity.

The new annex will be 39x65x140, and will house the entire Sunday school of the church from the cradle roll to advance adults. We understand that Lloyd Moore local builder has the contract, and work will be completed as soon as possible.

The entire plant when finished will reach across the block from Main to Hill Streets.

This building will leave the large auditorium of the church building proper, together with basement areas for kitchens, dining or recreation purposes.

The Herald congratulates the First Baptist church on their forward strides. With the rapid growth of the city, and new people arriving every day, the churches, schools, etc., have to be on their toes at all times to keep abreast of the town's growth. But the First Baptist is always found among those that are willing to try.

The Pastor, Rev. A. A. Brian, his board of deacons and the building committee have worked hand in hand to put over this expansion movement.

DANGEROUS FOR PROSPECTIVE DAD-IN-LAWS IN LUBBOCK

Since around the first of June this year, three citizens of Lubbock have been killed by the suitor or ex-suitor of their daughters, and the three charged with murder with malice, are either in jail or out on bond. If this keeps up at the rate it is going now, most fathers with a daughter may try to put them in an orphan's home in order to be able to stay above ground himself.

with Herbert Dunn, District Clerk for Lamb County.

In the suit Sheriff Rice alleges that the defendants had untruthfully made statements that the plaintiff was engaged in unlawful trafficking in liquor.

Transit Company of Lubbock, Texas to haul all classes of mail for all the office between Lubbock and Seagraves. This mail will arrive in Brownfield at 10:30 A. M. (if on time). It will arrive back in Brownfield from Seagraves at 6:00 P. M. To meet this schedule first class mail and parcel post must be in the office by 5:00 P. M. Air Mail and Special delivery must be in the office by 5:30 P. M.

The Star Route from Post carrying first class, special delivery, special handling and daily newspapers arriving at Brownfield at 9:00 A. M. (if on time) will remain the same without any changes. The Star Route from Brownfield to Seminole carrying all classes of mail leaving on arrival of the mail from Post, will remain the same without any changes.

All other routes in and out of Brownfield, including to Roswell, N. M., will remain the same.

Wellman Whisperings

Mr. and Mrs. Miller Rich attended the Old Settlers Reunion at Childress July 16-17 and visited old friends and relatives in Cary.

The C. L. Robertson's have moved to Lovington, N. M.

Mrs. W. C. Faulkenberry of Willow Wells community visited Mrs. Miller Rich Thursday.

Mrs. Ione Cruz of Amarillo visited her parents, Mr. and Mrs. J. W. Bishop in Wellman over the weekend.

The Wellman community received another rain Monday July 19. Some hail damage to crops was reported from farmers south of Wellman last week.

F. N. McWilliams of Lamesa was a Sunday guest in the home of Mr. and Mrs. C. McWilliams.

Ewath Huckleberry and girls of El Centro, Calif. are visiting with relatives here.

O. M. Harper and brother, R. B. Harper and niece, Sue Robinson all of Odessa.

Mr. and Mrs. Alec Graves of Paris, Texas were visitors in the Frank Tuttle home last Monday night.

Mrs. J. A. Bench gave a birthday dinner in honor of her husband. Those enjoying the occasion were: Mr. and Mrs. Jerald Bench and children, Mr. and Mrs. Lowell Bench and son.

Rev. and Mrs. J. W. Stone and L. V. Alexander will leave Wednesday morning with a group of girls to attend the Baptist Intermediate G. A. Camp for girls near Floydada. Girls that are going are: Gloria and Demaris Little, Barbara Parker, Sue Robinson, Barbara and Myrna Echols, Nora, Flora and Leona Tuttle. They will return Friday evening.

Mrs. Jerrell Bench had as her guest Monday her mother, Mrs. J. W. Martin and sister Mrs. Loyd Franklin and family of Gomez community.

The Womens Missionary Union of the Baptist church met at the church Monday afternoon at the regular time. Mrs. J. W. Stone led the group in a study of the book, "Guide for Community Missions." There was a discussion of the Mission needs of the community. Eight women were present with three new members.

A Sunbeam Band for the children was organized and sponsored by the WMU. Mrs. D. E. Lyles was chosen as the leader. Children present were: Gail Echols, Elizabeth Ann Nolan, James Dalberry, Barbara Harris, Evleyn Jo Lyles, Alva Lay, Shirley Jay and Curtis Lynn Patton.

Meadow Musings

Mr. and Mrs. B. C. Horton were in Odessa on Thursday of last week for the wedding of their granddaughter.

Mr. and Mrs. Maurice Frost of Lubbock were supper guests of E. W. Hemme and the Laurance Renfro family last Sunday night.

The J. H. Gober family was shopping at Lubbock last Saturday.

Mr. and Mrs. B. C. Horton visited their sons, Cecil and Winford, and families who live south of Brownfield on last Sunday.

The H. Combs family was called to Fort Worth on Friday night of last week because of serious illness of Mrs. Combs's mother, Mrs. H. L. Goodwin who passed away at about 8:00 a. m. the next morning. Burial services were held on Saturday at 2 p. m.

Mrs. Goodwin had visited her

daughter and family at Meadow at several different times in the past. The sympathy of the entire Meadow community goes to the Combs family in their loss and sorrow. Mr. Goodwin returned home with Mr. and Mrs. Combs for a visit with them and their son, David.

Martha Jo and Anita Mackey of Lubbock visited Carolyn Verner from Friday through Sunday. They are visiting their uncle, W. T. Verner and family at Ropesville this week.

Mr. and Mrs. W. T. Verner of Ropes visited Mr. and Mrs. J. T. Verner and Mr. and Mrs. T. E. Verner last Sunday.

Mrs. W. T. Arnett visited a sister and other relatives at Seagraves over the weekend.

On Monday of this week Meadow and vicinity received a nice rain. Some reports indicate about an inch and one-half at Meadow.

Miss Jean Finley is at home from Texas Tech where she has been enrolled in the summer term.

Mrs. Guy Nowlin has completed six-weeks work at Texas Tech this summer.

Mr. and Mrs. J. K. Jonas of Oklahoma City visited in the home of Mr. and Mrs. J. M. Jones over the weekend.

Mr. and Mrs. Charlie McAter and daughter, Lois Dell, of Eunice, N. M. visited Mr. and Mrs. J. M. Jones on last Sunday afternoon.

Mrs. Dave Rowe and Mrs. W. F. Jones and girls of Union visited in the home of Mr. and Mrs. J. M. Jones on last Sunday after-

BUT COFFEE!

Cotton's newest use—a "coffee pot." The hat-like cotton cover can be placed over a coffee maker and said to keep the beverage steaming hot for two hours. In the summer time, it is used in the same way to keep cold drinks cold. The National Cotton Council says the bag consists of a waterproof exterior covering, a padding of flameproof cotton insulation and an inner covering of muslin.

Mrs. Catherine (Bynum) Ince informed us this week that she and the two children had returned to Brownfield from El Paso to make their home. Her sister and husband, Rev. and Mrs. Bunts have moved to Fabens where he is pastor of the Methodist church.

noon.

Mr. and Mrs. John Cadenhead visited Mr. and Mrs. T. C. Lucas at San Angelo over the weekend.

The revival meeting starts at the Meadow Methodist church on Friday night of this week. The pastor, Rev. Cecil Tune, will do the preaching, and they will have a visiting singer to lead the song services. Rev. Tune and the church extend a cordial welcome to the general public to attend these services each morning and evening.

Miss Jean Finley is at home from Texas Tech where she has been enrolled in the summer term.

Mrs. Guy Nowlin has completed six-weeks work at Texas Tech this summer.

Mr. and Mrs. J. K. Jonas of Oklahoma City visited in the home of Mr. and Mrs. J. M. Jones over the weekend.

Mr. and Mrs. Charlie McAter and daughter, Lois Dell, of Eunice, N. M. visited Mr. and Mrs. J. M. Jones on last Sunday afternoon.

Mrs. Dave Rowe and Mrs. W. F. Jones and girls of Union visited in the home of Mr. and Mrs. J. M. Jones on last Sunday after-

IT'S MILK PER BAG OF FEED THAT COUNTS!

PURINA MILK CHOW

Yes, it's the milk in the bag that pays off in this dairy business. You can't fool the cow, because she produces the right quantity and quality only if she's fed the right quantity and quality. On the Purina dairy plan feeding Milk Chow and roughage you're assured of putting the right ingredients into your cows. Milk Chow is first, last, and always a milk-maker. Ask us about Milk Chow. It's a real milk-maker.

LEE BARTLETT
- FOR COMMISSIONER Pct. 4**
H. R. (Horace) Fox
J. B. (Mutt) OLIVER
- FOR JUSTICE OF PEACE, Pct. 1**
J. W. HOGUE

Next week, July 30th, the Herald starts out on Volume 44, all but five years of which it has been under the present management. Despite the shortage of paper, and shortage of efficient help at times, the old gal manages to struggle along.

A good start was made at Birmingham, Ala., Saturday, to bring President Truman's vote in the south dry, and for good reason. As one speaker stated the Alabama-Mississippi delegations that bolted the Philadelphia convention were jeered by so-called Democrats of the north who are not even able to elect a constable of JP in their precincts, much less a president.

Inch by inch the bureaucrats, who by the way are not elected by the people, are gradually moving in and politicalizing everything in sight. Take old Julius Krug, for instance, who is secretary of the interior, and can only be compared to Joe Stalin for grabs and a start toward dictatorship. Krug is for firing all the private concessioners in national parks, and appoint those who will do his will. He's the man, you know who wants Gulf Coast submerged oil lands. These private concessioners are paying the government a reasonable fee to do business. Political appointees of Krug, as every intelligent person knows, would have their deficits made up at the expense of the paternalistic government.

On his "non-political" tour of the west, Truman branded the present congress the nation's worst, and some congressmen came back and branded HST as the nation's sorriest president. Very likely both statements are false, but one pronunciation

brought on the other. By itself, the Republican congress would have been unable to override three of Mr. Truman's vetoes in as many days. But with the help of Southern Democrats, they were able to do so. And for that reason Harry Truman thoroughly hates the South. That boy is just not big enough for the job of President of the USA.

Flood controls by dams is a myth, especially on the big rivers. The Tennessee river with perhaps more dams than any other stream in America, witnessed a bad one this year, and Truman reached the west coast recently just in time to see a much famed Columbia river do its worst. And now the TVA wants steam supplement supplied by the government to help out when the river is low. The taxpayers all over the country would then be called upon to supply cheap steam as well as water power for a small area of the country. And in case of a large number of power and water dams out west like Boulder, Parker and many others, the people of the entire nation are called upon to foot the bill for cheap power and irrigation to a few western states. Thousands of other communities like Brownfield are either creating their own power by bond issues or buying it from private utilities. And the latter, mind you, pay taxes, city, county, states and federal. No wonder congress turned the steam power proposal for the TVA down.

At the Jeffersonian Democratic convention at Birmingham last Saturday a good start was made in winning the true Democratic party back to those who have kept it alive for generations. The men that met in the Alabama city are not off brands in creed or color. They have not belonged to some other party previously, and got into the new deal party to get at the feed trough. None of them have ever been tinged red or even pink. The man named for President, the Hon. J. Strom Thurmond of South Carolina, is a world war II veteran, and his running mate is the Hon. Fielder L. Wright of Mississippi, both true blue, died in the wool Democrats all their lives. The entire south should get behind these men. Harry Truman who kicked the south in the pants can't be elected without the electoral votes of the south, probably not with them. We must learn those insulting leaders of the party in the north that the south will and can run men as Democrats whom we do not have to hold our noses when we vote. If it takes a petition to get these true Democrats electors on the ballot in Texas, bring on the petition. It will probably mean a Republican administration, but could be no worse for the south, probably better. The GOP might make such a mess that they could be thrown out on their ears in four or eight years. In the meantime, maybe the real leaders of the Democratic party could by that time get in control once again.

Here in Texas we have some very interesting races, especially in the US Senate race. And we still say that the man ahead or next to Coke Stevenson in the race will be his runoff mate, and before August we may stick our neck out again, and tell you who will be the Junior Senator from Texas. In the governor's race, while Jester has few followers in this area, he has a host of more or less locally known people as opponents in their own towns or counties. Jester is making a race for his second term, and has every advantage, even if he had a well known opponent. Then there is the State Senate race in this the 30th district. Parrish is making a race for his second term, and may fool some of the boys who thought at first he'd not get to first base. But he has three opponents, all seemingly fine material. Brummett of Lubbock county and Kilmer Corbin of Dawson county, along with Parrish, have all come out fair and square against the so-called "fair trades act." The other man, Mr. Brock of Lubbock, sayeth not where he stands.

Because this is America, and the newspapers are for a free press, they will give anyone from the lowest to the president a chance to make a statement about matters word for word. Once in a while, this favor is being extended a man like Mr. Truman on his "non-political" jaunt recently, told the reporter that he might be a good one, but that the paper he represented along others he mentioned, "are the nation's worst papers." Of course each of the papers reported what Harry had to say about them, word for word, right on the front page. But back in the editorial department, the typewriters began to click, and the editors took the hide off Harry.

Another thing that happened on this western "non-political" tour that showed the size of the man we call our president, and as long as he is president, most of us will have some respect for him. He accused the press and radio of deliberately misrepresenting him at one place when he dedicated an

Dewey and Wayne Rogers returned Sunday from San Antonio where they attended the Texas Florist Convention. A new line of pottery and ceramics was purchased for the Brownfield Floral.

WHY LABOR BOSSES ENDORSE THE OPPONENT OF...

JUDGE JOHN A. RAWLINS
Candidate for Associate Justice Supreme Court of Texas

★ It is recorded May 9, 1945, in 188 S.W. Reporter 2d series, page 276, that James P. Hart, opponent of Judge Rawlins, was one of the attorneys for the labor unions in their unsuccessful and ill-advised attempt to enjoin the State Officials from enforcing the Texas law regulating labor unions, which was passed with the view of protecting public interest.

★ The Appellate Court, in upholding the law forbidding the unions from collecting work permit fees from non-union employees, reorganized the policy expressed by the Legislature in the preamble to the Act: "The right to work is the right to live."

★ Judge John Rawlins is under no obligation to either labor or capital. He is now completing 20 years of service as a State Trial Judge. He is a family man, a World War veteran, and a church worker. He has the endorsement of the Dallas Bar Association and is interested only in administering the law fairly and impartially in the interest of the public at large. He is a graduate of Texas University and Texas Christian University.

The Low Down From Hickory Grove

THE LOW DOWN
Day by day I get more sure that I am not going to vote for the guy who spouts the old guff that he if elected will stand shoulder to shoulder with the "little man" the "common people." I figure he is directin' his "little man" guff right smack at me, of the "common herd," he says. Who is he, looking down on me as from me.

Here is the USA each person is his own architect and needs nobody at his elbow to sponsor him. The USA got to where it is or was

up to a few years ago by each person free to choose his job each to his own liking, and doing his utmost. Mr. Edison, and Mr. Ford, Mr. Knudsen the emigrant boy, all of'em, and 100 thousand and more, have gone to town under their own steam no subsidies no leaning on anybody.

I am not against tomfoolery or monkey business in its place like at Barnum and Bailey's but when it comes to voting and somebody ups and calls me a "little guy" and tries smarty fumididdles on me, I get agitated: What kind of sissy does he think I am I ask him that, Yours with the low down,

TITUS TAKES LEAD
Texas Liquor Control Board Inspectors in June reported the seizure of six illicit stills.

With the stills, which had a cubic capacity of 335 gallons, Inspectors captured 460 gallons of mash and made three arrests. Four gallons of moonshine liquor were destroyed.

Three stills were taken in Titus County, two in Harrison County and one was taken in Bowie County.

Bodies of Brothers Returned for Burial

Last week we had a story about the return of the two Huckleberry boys that gave their lives for their country. We failed to get our cuts in time to go with the story. This week we are running the pictures of these two fine lads:

Sgt. Dan. J. Huckleberry was killed in the invasion operations in the southwest Pacific in January 1944.

Willis R. Huckleberry, Flight Officer was killed in the action of making the landing on Normandy beaches on D-Day, 1945.

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO: VERNON L. MILLER
GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 1st day of September A. D., 1948, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said Plaintiff's petition was filed on the 20 day of July, 1948.

The file number of said suit being No. 3493.

The names of the parties in said suit are:

Carrie Mae Miller as Plaintiff, and Vernon L. Miller as Defendant.

The nature of said suit being substantially as follows, to-wit: Being a suit for divorce, Plaintiff pleading Residence of 12 months in the State of Texas, and six months residence in the County of Terry of the State of Texas, Plaintiff pleads abuses, Threatened Personal Violence, forsaken in another state without funds, cursing and abuse.

Issued this the 20, day of July, 1948.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 20, day of July A. D., 1948.

ELDORA A. WHITE, Clerk (Seal) 3c

It is rumored that cheerfulness is largely a matter of one's income being above one's outgo.

Fall in love with yourself and you won't have any rivals.

New OLIVER "77"

A New Model of a Famous Tractor

Oliver begins its second century with the introduction of a new fleet of quality farm tractors—including the new 2-3 plow "77", a tractor with advanced farm features that make field work faster and more efficient than ever.

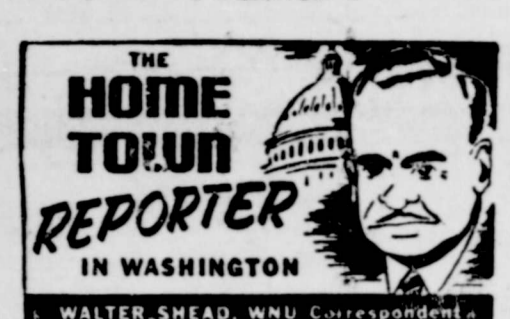

The smooth, brisk valve-in-head engine of the "77" is a six—and you have a choice of three types for the fuel you prefer: high compression for gasoline, "KD" for tractor fuels, and a diesel that will be available later.

The "77" will set a new performance mark in the operation of power take-off machines with its direct drive unit . . . a new economy record with its 6-forward-speed transmission in the Oil Miser case, Fuel Miser governor, and the basic interchangeability of Oliver's full line of tractor-mounted tools with all other new Row Crop models. Wheels on Row Crop models are interchangeable, too—with a choice of cast iron or stamped steel.

One of the models in the new Oliver fleet is sure to fit your acreage and farming practices. Available in Row Crop, Standard, Row Crop with Adjustable Front Axle or Single Front Wheel. Drop in next time you're in town.

OLIVER AUTHORIZED SALES SERVICE

Party Platform

If the labels of the two platforms recently adopted by the two national party conventions were erased and they were laid side by side, Mr. Average Citizen with good grace could subscribe to either platform whether he were a Democrat, a Republican, a third partyite or just an independent voter.

Political party platforms are something which take up about two hours of reading time in the national conventions and which unfortunately are too often forgotten when the conventions become history.

About the only difference in the two major party platforms is that the Republicans view with alarm the record of the national administration and point with pride to the record of the 80th congress while the Democratic platform views with alarm the record of the 80th congress and points with pride to the record of the national administration.

That, in a nutshell, is the difference. So you take your pick and make your guess as to which shell the little pea is under.

This reporter believes that both major parties may have an opportunity to put into operation their platform planks sooner than they expect because every indication is that President Truman does not propose to let the lawmakers rest until next January but will call them into special session probably sometime in August.

Promises - Performance

The Republican party, since it is the majority party, had had the responsibility since 1946 of placing into practice what it preaches in its platforms. A scanning of the 1944 platform finds little difference between the pledges made then and the pledges made in the 1948 platform adopted at Philadelphia. As Al Smith was wont to say, "Let's look at the record."

"WE FAVOR PROGRESSIVE DEVELOPMENT OF THE NATION'S WATER RESOURCES FOR NAVIGATION, FLOOD CONTROL AND POWER WITH IMMEDIATE ACTION IN CRITICAL AREAS." Then why were bills for development of the Missouri river, the Columbia river and others pigeonholed?

"WE FAVOR A COMPREHENSIVE RECLAMATION PROGRAM FOR ARID AND SEMI-ARID AREAS . . ." Then why were reclamation projects throughout the West strangled for lack of appropriations?

"HOUSING CAN BEST BE SUPPLIED AND FINANCED BY PRIVATE ENTERPRISE, BUT GOVERNMENT CAN AND SHOULD ENCOURAGE THE BUILDING OF BETTER HOMES AT LESS COST." Then, obviously, why were all controls of allocations and costs eliminated?

"WE RECOMMEND FEDERAL AID TO THE STATES FOR LOCAL SLUM CLEARANCE AND LOW-RENTAL HOUSING PROGRAMS WHERE THERE IS NEED THAT CANNOT BE MET EITHER BY PRIVATE ENTERPRISE OR BY THE STATES." Then why was the Taft-Ellender-Wagner bill scuttled?

"WE URGE EXTENSION OF THE FEDERAL OLD AGE AND SURVIVORS INSURANCE PROGRAM AND INCREASE OF BENEFITS TO A MORE REALISTIC LEVEL." The natural question—why was not the social security program extended for more coverage and benefits made "more realistic"?

"WE URGE STRENGTHENING OF FEDERAL-STATE PROGRAMS DESIGNED TO PROVIDE FOR MORE ADEQUATE HOSPITAL FACILITIES, TO IMPROVE TREATMENT OF MENTALLY ILL AND TO ADVANCE MATERNAL AND CHILD HEALTH AND GENERALLY TO FOSTER A HEALTHY AMERICA." Then why wasn't the Taft national health act passed and the national hospital act improved?

"WE PLEDGE A VIGOROUS ENFORCEMENT OF EXISTING LAWS AGAINST COMMUNISTS AND ENACTMENT OF SUCH NEW LEGISLATION AS MAY BE NECESSARY TO EXPOSE TREASONABLE ACTIVITIES OF COMMUNISTS . . ." Remember the Mundt-Nixon bill outlawing communism? It passed the house and died in the senate.

"WE PROPOSE A WELL-PAID AND EFFICIENT FEDERAL CAREER SERVICE." Most federal pay bills were lost in the shuffle.

"WE FAVOR ELIMINATION OF UNNECESSARY FEDERAL BUREAUS." None was eliminated.

More Promises

The GOP platform recognized the "CRUELLY HIGH PRICES" and pledged attack upon the "BASIC CAUSES OF INFLATION," but the party refused to enact any legislation to curb prices and only pledges to "PROVIDE INCENTIVES FOR MORE PRODUCTION AND THRIFT." All when production is at an all-time peak.

The party pledged continuation of efforts to reduce taxation but knows it must increase taxes next January.

CARD OF THANKS

We wish to express our deep gratitude and thanks to our many friends and neighbors for their sympathy and kindness shown us during the illness and death of our dear husband and father and for the beautiful floral offering and the nice food sent.

Mrs. J. A. Rushing and children.

WEST TENNESSEE A HUNTERS PARADISE

The western part of Tennessee especially among the more hilly regions has always been considered the private hunter's paradise, and no little time is spent by the people who settled the section, and originated by such outstanding hunters as Daniel Boone and David Crockett. In our early childhood the deer were gone, but father used to show us deer stands where he would be located on deer runs to kill a buck as he crossed the road or clearing. But even in our time, there were lots of wild turkey, duck, and quail. Then there were the raccoon, mink and muskrat for pelts, and squirrel and opossum for the table.

Early day fox hunting was thought to be only for the "blue-bloods." While so far as we know, "Uncle" Jimmy Lillard didn't claim aristocracy, he maintained a small pack of white and black spotted hounds, and often came out to our section to chase the old red fox. These fox had a very bushy tail that caught lots of water or dew in weeds, and when crossing a stream, and when tired running was inclined to drag his tail in dirt, which became very heavy. This hindered him greatly in keeping ahead of the hounds. Four or five hours was about all he could run. Later, the red fox was imported from England and a black and tan hound, we believe known as the Morgan breed

GI QUESTIONS AND ANSWERS

Q. What is the deadline for reinstatement of lapsed National Service Life Insurance on a comparative health basis?

A. July 31, 1948, is the last day to make application for policies which has lapsed for more than three months without taking a physical examination.

Q. Where do I get an application blank to reinstate NSLI policies?

A. VA form 9-353A should be filled out and mailed to VA on or before July 31, 1948. Blanks can be obtained from the nearest VA office, the service officer of any veterans' organization, the American Red Cross or most insurance agents.

Q. How much will it cost to reinstate my GI insurance?

A. Your application for reinstatement should be accompanied by at least two monthly premiums in the amount of insurance that you had at that time. If you wish a smaller amount, reduce your premium payment accordingly. For example, if you paid \$6.50 a

folks thought it very nice. We remember that a very prominent department store owner from Philadelphia used to come almost every year, bringing his own dogs and a few young bloods who were generally poor shots. The older gentlemen killed most of the birds. When noon and tea time came far removed from camp, it was noted around that he would call at some farm home and give the lady a silver dollar to heat a teakettle of water for his tea. A dollar looked as big as a wagon wheel in the 90ties.

Back to Mr. Avant. He instituted field trials in the region both for fox and quail, and Grand Junction still has one of the biggest field trails for pointers and setters in the south, an annual event, and attended by sportsmen from all over the USA. This went on for years, with Mr. Avant and his friends as leaders. But somehow a cog slipped, and Avant almost lost his pants. It was about this time that Florida begin to clear out some of its swamps, alligators and Everglades, and build find hotels-along the beaches. It was much warmer than Tennessee, and had plenty fishing if no hunting. Anyway, the little village of Hickory Valley once again returned to a strictly farm trading point.

But fox hunting still goes on in the New Hope hills. Most any Saturday night one can hear the sound of the horn and the bay of the hounds. A lot of the old steeds in the horselot, have to have a real fence to keep them from breaking out and joining the chase. A horse will thrill over a fox hunt the same as its rider. A lot of others like to ease through the woods looking for squirrel when leaves are on the trees, or follow a good squirrel dog when the leaves are gone. Others like coon and opossum hunting.

VETERANS NEWS

Thousands of World War II veterans may lose the opportunity to reinstate National Service Life Insurance worth many millions of dollars unless they act before August 1, the Veterans Administration says.

After July 31, veterans whose NSLI term policies have been lapsed more than three months must take physical examinations to qualify as insurable risks. Before August 1, veterans have only to sign a comparative health statement.

Eligible veterans may reinstate any amount of term insurance up to 10,000 in multiples of \$500 regardless of the length of time it has been lapsed under present liberal regulations if they apply before August 1.

They need only to fill out a simple application form, in which they certify that their health is as good as when the policy lapsed, and pay premiums for two months.

Authority of Veterans Administration to provide automobiles or other conveyances for veterans of World War II who in service lost, or lost the use of, one or both legs at or above the ankle has been extended until June 30, 1949.

The law granting vehicles to such disabled veterans had been scheduled to expire June 30, 1948. The extension and an appropriation of \$1,500,000 for the program were contained in the second Deficiency Appropriation Act for 1948.

A veteran who qualifies is entitled to an automobile or other conveyance costing not more than \$1,600, including such special equipment or appliance as may be necessary to enable him to operate the vehicle safely.

Mr. and Mrs. L. M. Rogers and family had as their guests during the weekend, Mr. and Mrs. Joe Rogers and family of Floyd, N. M.

PONTIAC

Fine for its Second owner too!

Recently, a large group of used car owners were asked what car they would buy if they were buying new cars today. Those who own used Pontiacs led them all in saying they would buy new cars of the same make they are now driving.

In other words—according to this survey—a used Pontiac is more satisfactory to own than any other make of used car.

Of course, that could mean only one thing: Pontiac's dependability and long life are outstanding, and Pontiac's fine performance lasts throughout the years. There could be no finer endorsement of a new car than this—and we trust you won't forget it when you order your own next car.

Remember, too, Pontiac is the lowest priced car in the world offering GM Hydra-Matic Drive*—a tremendous advance in better motoring.

It's wise to choose a Pontiac—a car so fine that even its second owner is sure to like it.

*General Motors Hydra-Matic Drive and White Sidewall Tires optional at additional cost.

Texans In Washington

By Tex Easley
 WASHINGTON July 22—(AP)—Sixty-seven year old Clifford Beckham of Fort Worth, an attorney here with the Bureau of Internal Revenue, has the laugh on reporters who cover the Texas news front in the nation's capital. Ten years ago, when he was president of the Texas State Society of Washington, he had a heart attack while at a social gathering of the organization. He was so near death that the newsmen wrote up his obituary. Last week he passed a physical examination with flying colors so he can take lessons to be a plane pilot.

The Gold Star Wives of America met in Detroit July 4 and presented to Congressman Teague their first annual award for outstanding service to veterans and their dependents. A six-times wounded veteran

of fighting in France and Germany in World War Two, Teague serves on the House Veterans Affairs Committee. He was particularly interested in pressing legislation to aid those women whose husbands were killed in the service of their country.

Teague plans to attend a reunion of his outfit which he served as a colonel, the 79th Infantry Division, in Philadelphia August 6-8. He intends to head back to his South-Central Texas district after it is over.

Wichita Falls Congressman Gossett was amazed the other day when he looked up as his office door creaked open and saw his 7-year old son Glenn peeping sheepishly inside.

The youngster, with his 6-year-old playmate Bryan Milner, had walked four miles from the apartment village where they live in southeast Washington. And without permission of course.

After considering whether to rejoice at their safe arrival or to scold them, Gossett took the boys for a ride on the electric monorail subway car that connects the Capitol with the Senate office building.

Both lads had to stay indoors the rest of the day when they got home.

Vote for Ernest Northcutt of Potter County for Associate Justice of the Court of Civil Appeals at Amarillo. He has practiced law for 29 years at Amarillo and is well qualified for the job and wants to beat his opponent who was appointed by Gov. Jester in 1947. Your vote and influence will be appreciated.

Pol. adv. paid for by Terry County Friends of Judge Northcutt.

SINGER VISITS HOME TOWN — Anita Gordon, nationally known radio singer, is the honored guest of the Corsicana Centennial Celebration. She was also in Corsicana to help observe the 87th birthday of her grandfather J. D. Gordon. Earlier in the week she visited her other grandparents in Marshall, Texas, Mr. and Mrs. Charlie Harwell. With the singer is her husband Dale Sheets, whom she married three weeks ago. (AP Photo)

Fat Salvage Marches On Even During Hot Spell

Even though hot weather discourages long hours in the kitchen and makes a woman think twice before planning a heavy roast, she should not file her fat salvage can with mothballs during the summer months, the American Fat Salvage Committee points out.

Pie-like frankfurters are a source of fat to add to the salvage container. If they are boiled, the fat that congeals on top of the water in which they are cooked can be skimmed into your fat container. If fried or barbecued in the backyard, the residual fat left in the pan is worthy of saving.

Fat can be salvaged from either cold cuts or canned meat. If your family requires that you remove the rim of fat on ham and other meat cuts before serving, melt these scraps down and add to your fat container, and when canned meat is opened, scrape the congealed fat jelly from the top and sides of the can. It means pennies for you.

"During the summer months, you may want to keep your salvage can in your refrigerator or on cool cellar stairs to prevent rancidity," a spokesman points out, adding that the big point is never to neglect saving fat because the world scarcity of fats goes on during hot summer months as well as during other seasons of the year.

Attention Farmers:

In the July 1948 Issue of the FARMER-STOCKMAN, Raymond Brooks, Texas Capitol Reporter has this to say.

"Austin—The Texas race for United States Senator, for the seat which W. Lee O'Daniel vacates in January, has created a clear cut issue over the federal policy of Parity and Farm Price Support.

Congressman Lyndon B. Johnson of the 10th Texas District, Austin, a former ardent New Dealer, is an active champion of the recent federal policy of supporting Farm Commodity Prices.

Former Governor Coke Stevenson, outspoken critic of federal benefits, is listed as opposed to Parity and Subsidy benefits."

The Record shows that Lyndon Johnson was an Independent Voter in the Halls of Congress and has voted to override several of Roosevelt's and Truman's Vetoes, and still held their respect. He is a hard hitting man of vision and sound judgment and has always voted for the best interest of the farmer, rancher, veteran and many other problems of Texas,

Mr. and Mrs. Frank Gray have recently moved to 809 N. Adkens where they have bought a home.

Dr. W. A. Roberson, Dr. T. H. Mellroy and Kyle Graves spent the weekend fishing at Throckmorton.

Mr. and Mrs. Clifton Jones were weekend guests of Mr. and Mrs. Marshall Loyd at San Angelo.

The ukelele is not a native Hawaiian instrument as is generally believed but was introduced to them by Portuguese sailors in the 18th century.

and is fully qualified by ability and experience to represent Texas with distinction and honor as her United States Senator. Help the farmers to elect a friend to the Senate.

Pol. Adv. paid for by Terry County Friends.

Glad U. S. Failed To Take Texas Offer

Bascom Giles, Commissioner of the General Land Office, said today that the proceeds from the July School Land Sale helped swell the permanent education funds to \$50,000,000.00 for the fiscal year.

This tremendous flood of money into these funds exceeds by five times the largest amount heretofore received for a similar period of operation by any former com-

missioner, Giles said. The higher education and the public school permanent fund have now reached a total of \$215,000,000.00.

The Land office added an additional \$1,144,184.00 resulting from the sale of 210,000 acres located in 68 counties. Only 30 tracts totaling 15,000 acres located in Presidio, Reeves and El Paso Counties failed to receive bids. The amount bid per acre doubled that for any previous sale.

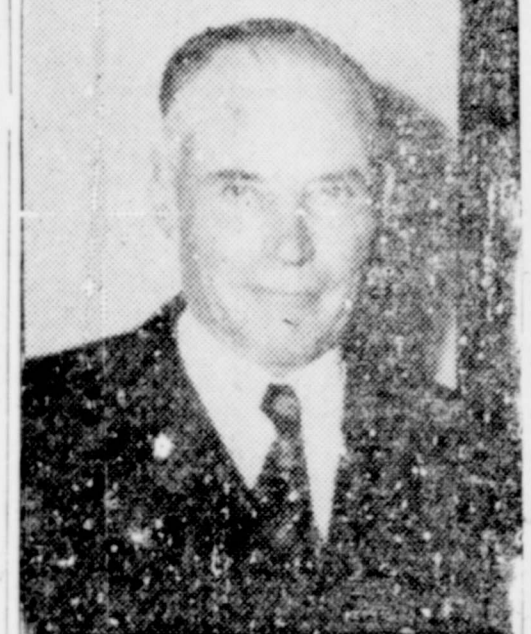

Commissioner Giles pointed, by way of contrast, that when Texas

made its bid to enter the Union, it unsuccessfully offered its entire public domain to the Federal Government for \$13,000,000. Now a small fraction of those same lands are bringing in over \$14,000,000 annually from oil and gas royalties alone for public education.

The Rosetta Stone, containing inscriptions in three ancient languages provided the key that unlocked the mystery of ancient Egyptian hieroglyphics.

Six LIFESAVING RULES FOR FARM PEOPLE

TAKE TIME TO BE SAFE

The loss of an arm or leg is a high price to pay for saving ten seconds. When operating power machinery, take time to be careful. Your life will be safer if you . . .

- Observe these simple rules:
- 1 Shut off P.T.O. before attempting to unclog corn picker, baler, etc.
 - 2 Keep all shields in place when operating machine.
 - 3 Don't trust defective hitchers, brakes, clutches, seats.
 - 4 Never mount or dismount from a moving tractor. Don't ride on drawbar.
 - 5 Don't wear loose, floppy clothing around power machinery.
 - 6 Think first. After the accident it is too late.

This year a disabling injury probably will strike some farm person every 19 seconds. Don't let carelessness put your name on that list.

New Bathroom Package—New Improved Formula!

Famous and favored

Wrisley
bath crystals

perfumed—water softening...

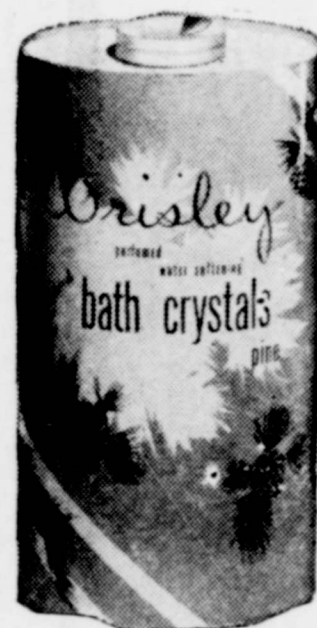

A truly wonderful new packaging of Wrisley famous water-softening Bath Crystals. Colorful, beautifully-designed canister dispenser for handy and attractive bathroom use.

The improved formula and enhanced perfume will delight you.

Softens water for pleasure and economy. Soap is wasted in hard water—it lathers poorly and leaves a gummy deposit on bathtub, skin and hair. This film often causes skin irritation and dryness.

Dissolve in the water before using soap and feel the amazing difference.

HERE'S WHY MORE AND MORE TEXAS FAMILIES PREFER THE **GAS** REFRIGERATOR

ONLY SERVEL STAYS SILENT LASTS LONGER

That's why only Servel gives you a ten-year guarantee

More and more Texas families are discovering that there's one different simpler refrigerator. Its freezing system has no moving parts at all. So—it stays silent, lasts years longer.

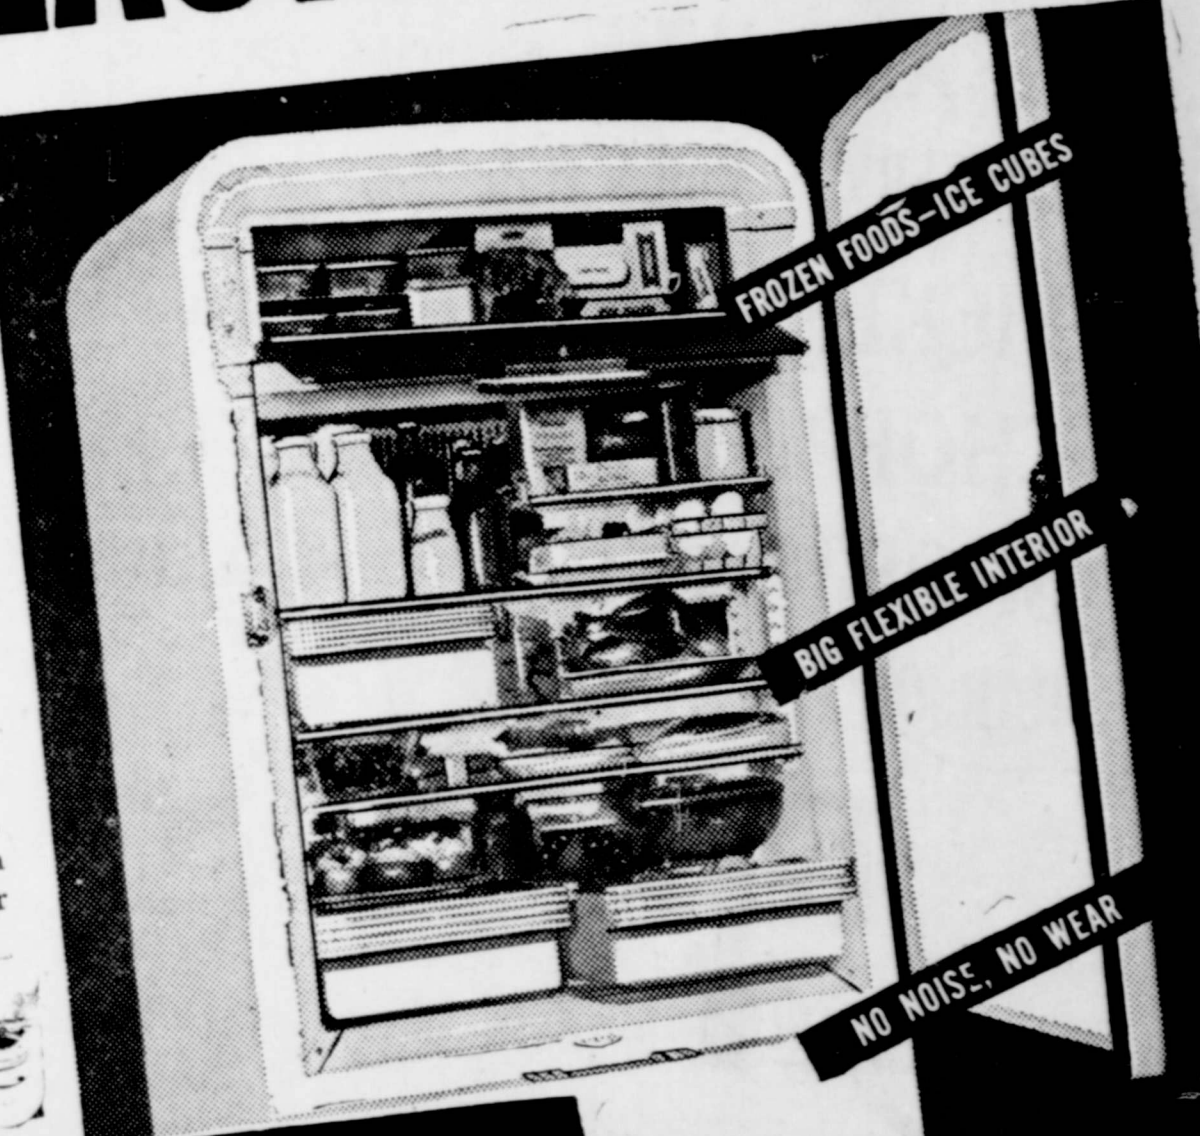

Because it has no motor to wear, no machinery to get noisy, this modern refrigerator is guaranteed for ten years. (And many of Servel's 2,000,000 owners have enjoyed noise-free, worry-free performance for 18 and 20 years!)

You'll say the new models are beauties! New conveniences include a big frozen food compartment, plenty of ice cubes, moist and dry cold for fresh foods. Come see the famous Servel Gas Refrigerator—Texas' favorite—today.

It's corn-on-the-cob season!

SERVE IT OFTEN AND COOK IT TENDERLY.

In cooking this wonderful vegetable, try adding 1 tablespoon of sugar to the large pot of boiling, unsalted water (not salting the water keeps the corn tender). Boil just 5 minutes for the best corn flavor. Serve it on the cob with butter or margarine. Or if you prefer, shave the kernels off with a sharp knife, add butter or margarine and several drops of Worcestershire sauce. The corn season is short, and you've waited a long time for this delicious seasonal item, so serve it today and everyday. There is no finer dish.

Serve this wonderful dish by the Food Editors of McCall's Magazine, today!

Local Girls—

etc., Amherst; Co-Op Refinery, Levelland; and Oil Mill, Lubbock. While in route, the boys and girls will visit colleges at Canyon, Plainview and Lubbock. They will be entertained with luncheons and barbecues in Dalhart, Amarillo, Canyon, Plainview and Lubbock. They will be guests of Dr. Marshall, Wayland College at breakfast Wednesday.

In addition to these activities, the group plans to take swims; one at the college pool at Canyon and one at the city park in Plainview.

Marjorie and Betty Zo expect to leave the group at Lubbock to come home Wednesday, July 28. Those living in the Panhandle district will return to Amarillo or nearby towns.

Championships —

champions also by Nov. 27. There are 14 districts, meaning two districts will have byes in the first round of the play-offs. These districts are no. 1 made up of Amarillo, Borger, Brownfield, Lubbock, Pampa and Plainview, and no. 8 composed of Gladewater, Henderson, Longview, Marshall and Texarkana, there are 84 schools in this conference, under tentative classifications announced by the interscholastic league. The final listing will be made Sept. 15.

Some 56 —

expected otherwise. It had been several years since we had been over this route, and many improvements had taken place. Some farm homes had been moved off, others built. There is some mighty fine land all over this area. True there is some that may have to be deep broken to hold it properly. Of course there is various and sundry opinions about deep breaking, but it is generally the consensus that it may be the salvation of farming in sandy areas.

From the Lynn county line into Brownfield, a lot of land has recently been replanted. However some of it seemed to be wheat stubble land. But in spots there is some mighty fine crops all the way. It's a pleasure to look at growing crops, especially when prices are as high as now.

Mr. and Mrs. Herman Trigg of Brownwood and Mrs. Trigg's mother, Mrs. Stricklin, sr., of this city returned Wednesday from a visit to Redlands and Long Beach, Calif. They report a real nice time. Even the dogs got a big kick out of the trip.

Mr. and Mrs. Melvin Dickson spent the weekend in Stamford.

Telford Says —

keeping it alive, even if growing but little, prior to that rain. While the cotton stalk was only about 6 inches high, the root penetrated the soil some 10 or 12 inches. The roots were twice the length of the stalk.

"If I had gotten one and a half or two inches that Sunday instead of about an inch, I would have made a good cotton crop with no more rain. Of course a few showers would have helped."

Well, Monday night after our conversation, Mon got about an inch more rain, so guess he is setting Jake. Asked about the maize, he stated that it had done almost the same thing as the cotton. It had formed a large stool of roots just under the soil, and had sent feeders down looking for moisture.

In a nutshell, you have Mon Telford's idea of the deep breaking methods now becoming so popular here in Terry.

Funny Ideas —

wheat, cotton and meat and scarce dollars. Also, we are some older than Jimmy and we remember the one Cleveland was held responsible for, when it took 3 dozen eggs to buy two yards of calico or cotton checks, and cotton was hardly worth hauling to town.

But about 1897, McKinley was inaugurated president, and in 1898 the Spanish-American war came on, and those old 1500 pound work oxen that could be bought for \$15 each, began to sell for around \$100. So, the Republicans reared back on their pastures and said, like Jimmie: "Just see how things move around when the Republicans get in."

Lets see who has been in office most and perhaps we can better determine who, if anyone is responsible for bad conditions:

REPUBLICANS:
Since the Civil War, Lincoln-Johnson 8 years; U. S. Grant 8 years; Hayes 4 years; Garfield-Arthur 4 years; Harrison 4 years; McKinley-Teddy Roosevelt 8 years; Hoover 4 years. Total 32 years.

DEMOCRATS:
Since Civil War: Cleveland 8 years, Wilson 8 years and Roosevelt-Truman 16 years. Total 32 years. World War One with good times happened during Wilson's administration, and World War two under FDR-HST. Only the Spanish-American war lasting but three months, happened during a Republican administration.

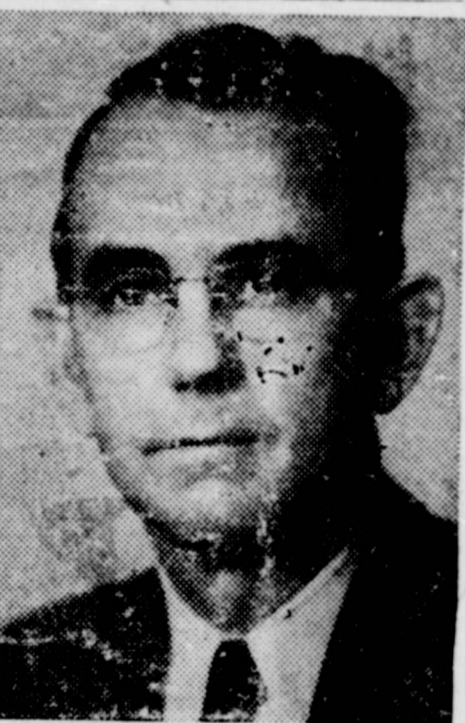

To set a woman's heart to humming, say her new fall hat's becoming.

Unawed by three-inch thorns, Jackie Andelbrat of Chicago, gets a closeup of the Santa Fe Railway's Indian village at Chicago's Railroad Fair. In the background is a three-storyed communal pueblo which will house part of the 100 Navajos, Hopis, Apaches, Zunis, Jemez and San Juans during the Fair which opens July 20.

A Big Crop With Very Little Work?

In the days that the writer landed in Terry, nigh on to 40 years ago, up to a few years ago many a piece of land was sold to a "prospector on the then saying, "plant (plow and harvest." And we might add that a lot of fellows who bought the land on those conditions almost lost their shirts after a few years when weeds and Johnson grass took their places.

Vote for Ernest Northcutt of Potter County for Associate Justice of the Court of Civil Appeals at Amarillo. He has practiced law for 29 years at Amarillo and is well qualified for the job and wants to beat his opponent who was appointed by Gov. Jester in 1947. Your vote and influence will be appreciated.
Pol. adv. paid for by Terry County Friends of Judge Northcutt.

Then, we remember the late M. B. Sawyer sold a lot of his ranch (and to some Oklahoma people who thought, "the Lord will provide." He did provide the land, but He expected man to provide the sweat. These religionists streaked off a furrow through the native sod, planted it, and started a big revival that lasted from May to frost. That fall, most of them were kicked off the land. Of course there were a few exceptions that worked and made good.

There are farms in Terry county that were in cultivation when we came here or put in in the next few years, that are still good farms, fairly free of weeds and Johnson grass, and producing nearly as well as when first put in cultivation.

C. P. Buchanan was one good farmer that agreed with us this week that the old idea of "plant, plow and harvest," should never have been instituted by the land agents to sell land here.

To The Voters Of Terry County

On account of not having made an announcement through the papers at the beginning of the campaign, and one of my opponents having made a late appeal to you by letter and the fact that there will not be a candidate rally before the election, as is the usual custom, I make this short statement in connection with my candidacy for the office of County Attorney, especially to those of you who do not know us, and I trust that you will take this as a personal solicitation for your vote.

I am a native Texan, educated in the public schools, Junior College and University of Texas, having received a LLB degree from the latter institution in 1922.

Since that time I have continuously maintained a law office, the last thirteen years of which have been in Terry county. I am fifty years of age, yet, I am more than ten years the junior of my youngest opponent. I can still get up the stairs to the County Attorney's office, two steps at a time. I served you in this capacity in 1944, while the present incumbent, who is not a candidate for this office, was away in military service. My stand on moral issues and law enforcement is well known to those who have been here any length of time. Your investigation is invited. My tenure of office will be guided by these ideals of service—namely:

Impartiality in all cases; courteous and fair, but firm; ability and willingness to devote the necessary time and attention to the duties of the office; prosecution where the facts of the case justify. I will not wink at the liquor law violations and the drunk drivers will be brought up to the lick log. That is a part of the duties of the office that I will not side step. How would you feel if some member of your family happened to be the next innocent victim of the drunk driver? It is with humility and yet with sober confidence in my ability to serve Terry county well that I ask your support.

Your interest and vote will be sincerely appreciated.

Respectfully Yours,
L. C. HEATH

According to a book publisher only a person who has suffered can write a modern novel. If that's true, then we'd say that anyone who has read a modern novel can write one.

NATIONAL FARM SAFETY WEEK JULY 25-31

Use your head before you use your hands. Don't take chances to save a few seconds.

These are the best safety rules in using farm machinery, J. H. Oppenheim, president of the Farm Equipment Institute, declared in endorsing National Farm Safety Week, July 25-31. Without head work, he said, the best mechanical safety devices cannot be completely effective.

Mr. Oppenheim points out that, like their city neighbors, more farm people are injured within the home than anywhere else. And although some 4,300 farm work-

ers were killed and 300,000 injured during 1947, this represented 200 fewer work deaths and 20,000 fewer injuries than the year before.

"The rules of safety are familiar to most users of mechanized equipment," Mr. Oppenheim says, "but this knowledge always can be defeated by carelessness."

R. J. Purcell of Brownfield reported Thursday night that rainfall around Meadow varied from 1 to 2 inches and up to four inches at Wolforth where he was forced to turn around by high water and return to Brownfield. He was enroute to Lubbock.

I would like to take this means of asking the people of Terry County for their votes for the office of Constable. It is impossible for me to see each one personally.
