Local Church Carries Out Christ's Command

By JIMMY WOOD
"Go Into all the world and preach the Gospel to every Creature." Mk. 16: 16.
Perhaps the most of you who will read this article know of the Missionary Program of the Crescent Hill Church of Christ of this city.

Perpetual Care Goal Sought For Cemetery

Secretary Burton G. Hackney was a visitor this week at the Herald office. It was not just a social call. Mr. Hackney sought some help and encouragement for the two cemeteries here, a matter that should be dear to the heart of all who have loved ones buried in either cemetery, or who may in future times rest in them.

Some Good Reasons For Field Days

We don't suppose that anyone will ever know the full value of Agricultural Field Days to the present and future generations. We can only generalize, and that is what we are going to try in this issue. In the first place, let us state right here that we are very glad that we took the time to make that trip Friday of week before last.

Vote For Amendment 2 Says Crawford

Thousands of Texans are taxed and governed without adequate representation in the state legislature, H. B. Virgil Crawford, speaking for the Terry County branch of the non-political Texas Committee For Redistricting declared in an address before local clubs.

While the writer was born 30 or 40 years too soon to enjoy the carnival part of the Terry-Yoakum County Fair, we got the kick of a Missouri mule out of the livestock, community exhibits and the merchants displays.

In regards to community exhibits, they were all good, and showed time and patient toil of some of the boosters of these communities in gathering and placing the exhibits. Gomez carried off the first prize, Wellman second, Union third, and Sligo in Yoakum county placed fourth.

Buildings Purchased

To begin the work over there properly it was necessary to purchase some property. Bro. Linscott was able to find a Villa near Frascatti, some 12 miles from Rome that could be bought. The piece of property had two houses on it, containing 28 rooms.

Food and Clothing to be Sent

This church believes that the Gospel must be preached in planning to carry an extensive benevolent work in Italy. Already some 300 boxes of clothing have been prepared to send to Italy.

As the current issue of Colliers points out, the American citizen is the most blessed in the world, and we should never allow any of our privileges to be taken from us.

Well, the Texas brass collar high-binders are getting scared. Usually they pay no attention to other parties after the Democratic primaries, but Jack Porter is making it so hot for them that they are sending in such pinch hitters as long haired Tom Connally and the hairless one, Sam Rayburn, as well as other lesser lights.

President Truman stated in a speech at Chicago Monday night, supposedly with a straight face, that the GOP was stirring up hatred between the races and religions in order to win.

Once upon a time Herbert Hoover was one of the most cursed, bemoaned and maligned ex-presidents this country ever produced. He took his medicine without a whimper and bid his time. This paper does not deny that it had some part and share in sarcastic criticism of Mr. Hoover.

They never heard of it. Of course his gradual comeback is not sensational. Hoover is never sensational. But he has a man's job in the reorganization of our badly disorganized government.

They have to attend college brushing up on subjects. They have to take on extra jobs, attend and take part in PTA programs and are expected to do many things with no extra pay. A laborer gets overtime for all extra periods.

The new dealers have quite a different idea of supply and demand to that of Joseph, son of Jacob, of Bible history. In that day and time when the going was good for bumper crops, Joseph constructed huge warehouses for the storage of grain.

The only power in heaven above, the earth beneath or anywhere else the Ruskies understand is military might. And they seem to be the only possible enemies we have on earth, and they and their satellites, Congressman Geo. Mahon stated recently that we are spending eight out of every ten dollars to rearm for such possible enemies, combating communism, etc. Even if by spending these billions of dollars we can stop possible blood shed, and the butcher of the flower of young manhood, let's spend it without a murmur.

After our drive Sunday afternoon over territory, much of which trade regularly in Brownfield, and practically all occasionally. Also over some territory that we had never seen before, we began to ask: "How large would our city be; also Levelland, Seagraves, Seminole and other towns if they were not blessed with the vast natural resources that is at their front and back doors? What part has this development played in the growth of Lubbock in 40 years from a village to a city of 75,000? Where would we be without this rich agricultural land; the abundant ranches, and the great oil fields? This is just an after thought from Oil Progress Day, observed nationally, October 14th.

A new angle has suddenly appeared in the idea of so-called government aid to medical practice over in England, and should be a warning to us. Some of the medical practitioners are quitting their profession, and are going in for farming and other callings that do not require such close supervision of their time, and with fewer bosses. And like America, England can ill afford to lose any of their scarce doctors.

Meats are second to none when it comes to quality and freshness.

Texans In Washington

BY TEX ESBLEY

Washington, Oct. 27 (AP) In a profession dominated by males and in a city full of lawyers, Texas women have made a name for themselves in the practice of law in Washington.

Most prominent of them is Marguerite Rawalt, formerly of Corpus Christi. Known professionally by her maiden name, she is the wife of Harry Secord, a retired army officer.

Miss Rawalt is with the Bureau of Internal Revenue and presently is reviewing cases which are to be brought before U. S. Tax Court for final disposition.

After pre-legal studies at the University of Texas, Miss Rawalt obtained her law degree at George Washington University here. Baylor U. at Waco conferred an honorary doctor of laws degree on her in 1945.

She has served as two national bar associations the national association of women lawyers in '42-'43 and the federal bar Association in 1943. Attorney General Tom Clark a fellow Texan from Dallas, suc-

ceeded her as head of the latter organization.

Most women lawyers in the capitol are with governmental agencies are on Capitol Hill.

Mrs. Nina Haynes Ikard, legislative secretary to Rep. J. M. Comb of Beaumont, is a member of the American and Women bar Associations. She is chairman of the juvenile committee for the district of Columbia for the women's bar group.

Formerly a public school teacher in Fort Worth, Dallas and Mineral Wells, Mrs. Ikard is a graduate of North Texas State Teachers College at Denton. She got the idea of becoming a lawyer when she was a secretary to a U. S. district attorney in Fort Worth.

After getting a law degree from Southeastern University in the district of Columbia, she worked as a reconciler and claimed reviewer in the General Accounting Office.

Another of the women barristers from Texas is Mrs. Lotus A. Van Huss, secretary to Chief Justice Marvin Jones of the U. S. Court of claims. She formerly lived in Stratford, Dalhart and Amarillo.

A graduate of a Washington law school, she served as secretary to Judge Jones when he was congressman from the Panhandle district.

Two other Texas women have deserted Washington to practice law in their state.

One of Emeline Jackson of Corpus Christi, formerly on the staff of Rep. John E. Lyle. The other

Miss Lou Nora Spiller, formerly of Austin. Miss Spiller got her law degree here while working for Senator Tom Connally and now is assistant U. S. district attorney in Houston.

Miss Fannie M. Boyis, member of a family noted in south Texas legal circle is now a principal attorney on the general counsel's staff of national labor relations board. She supervises the briefing of cases and argues them in the federal courts.

She got her law degree from the University of Texas in 1929. For five years engaged in private practice, first in the San Antonio law firm of her father, the late James F. Boyis, and then in Beaumont.

Since 1934 Miss Boyis has been with the government, starting with the Home owners Loan Corporation in Washington and then going to Dallas to serve in the regional office of the agency. She has been with the NLRB since 1937.

Ivy Lee Buchanan formerly of Dallas is engaged in private law practice here. She attended Texas State College for Women in Denton and Southern Methodist University, before receiving her law degree at National Law School here in 1942.

She is chairman of the committee on communications law of the National Association of Women Lawyers.

All of the Texas women lawyers here have been admitted to practice before the supreme court.

GI QUESTIONS AND ANSWERS

Q. I served in the U. S. Army during World War I. Am I eligible for Government Life Insurance?

A. As a veteran of World War I, you are eligible to apply for up to \$10,000 of U. S. Government Life Insurance, whether or not you took out such insurance while you were in the service or have let such insurance lapse.

Q. What are the deadlines that apply if I wish to take my training under the provisions of the GI Bill at a later date?

A. You may apply for training within four years from July 25, 1947, or within four years from the date of your discharge or separation from the armed services, whichever is later. You must finish your training by July 25, 1956.

Q. I am considering taking on-the-job training but I find the proposed training will necessitate purchase of a great many tools and some equipment. Will Veterans Administration pay for the tools I will need?

A. Veterans Administration will furnish you with tools and equipment, provided they are required by all other trainees taking the same course.

Q. Will the Government pay funerals, expenses for a World War I veteran who dies of a non-service connected disability?

A. Funeral services, up to \$150 will be paid by the Government in the death of any World War I veteran discharged under condition other than dishonorable.

SHE REALLY WORKED

An article taken from The Woman's Angle in the Lubbock Avalanche-Journal runs thusly: When Brownfield residents stage their annual Harvest Holiday which is climaxed with the coronation of a queen they really put their hearts into the preparations. Mrs. Edith Stice, for instance, worked so hard in selling votes for her candidate, Miss Daina Ruth McIlroy, who won, incidentally, that she was forced to view the parade from an ambulance.

She expended so much energy she had to be taken to the hospital early Wednesday morning. Miss Mary Jo Jones will arrive today (Friday) from Nashville, Arkansas for a ten day visit with her sisters, Gerturde and Sue Jones. Don't Fail To Vote Nov. 2!

Mrs. K. Hodges was in charge of the program on proper table setting.

The following officers were elected to fill several vacancies left by resignations. Mrs. Jack Mason, president; Mrs. K. Sears, vice-president; Mrs. Alton Webb, secretary and treasurer.

Next meeting will be in the home of Mrs. Alton Webb with Mrs. J. A. Roach giving demonstration on glass etching and making of serving trays. Each member is supposed to bring own material to work with.

Had the pleasure of meeting the new Meadow Baptist pastor this week, Rev. Huckabay. He stated that his predecessor, Rev. Shannon had moved up near Tulia, where he is teaching in the public schools and pastoring a church. Don't Fail To Vote Nov. 2!

Calif. Lady Likes Herald Visits

We had a letter this week from Miss Almira Goodman of San Jose, California. She stated that she got a lot of useful information from reading the Herald. She has a section of land just north of Meadow, that has been in the possession of the Goodman family since 1880. Gosh! that was the year the Old He was born. And would we have hated to have been turned loose here along about that time?

She had visited Terry county to see her land in 1917 and 1920, and visited Lubbock two years later. Miss Goodman is particularly interested in the weather, crop and oil developments. And in telling about new oil development she likes for us to name the block and section number. In that way she can easily spot the location on her Terry county map.

Mrs. E. D. Jones and Mrs. Jimmy Wood spent the past week visiting in Abilene.

Cub Scouts And Parents To Meet

The Cub Scouts and their parents meet in the Presbyterian church next Monday evening Nov. 1, at 7:30 o'clock.

The parents of fourteen of the boys will present their sons with Wolf Certificates and badges. Rev. J. Preston Murphy, Cub Master, will teach the Pack some of the new games he learned at a Cub Pow-wow in Lubbock last month. Group singing will be a part of the program also.

Cub Scouting is the program of the Boy Scouts of America for boys 9 through 11 years of age. The parents or guardians of the boys join with their sons, and are the leaders of the program. Literature, training, and equipment such as uniforms and badges are offered to assist parents in the rearing of their sons. The Cub Scout books are available here in Brownfield and the Scouting Magazine, which comes to all leaders, carries material on the monthly programs. All persons interested in the Cub Scouts are cordially invited to visit the meeting.

Mrs. G. E. Lockhart of Lubbock, was down this week paying her taxes. Mrs. Lockhart is an old timer in these parts, having settled at Gomez around the time the county was organized in 1904.

Mrs. Bill Reick and daughter Carolyn Sue will leave today for Boston, Maryland. Mrs. Reick will make her home there while her husband is attending school.

Life Insurance Sales Off In Sept.

Austin, Texas, October 27 Life insurance sales in Texas fell 8 per cent from August to September the University of Texas Bureau of Business Research reported. September sales, totaling \$57,997,000, slid 7 per cent a year earlier. Throughout the United States life insurance sales totaled \$1,077,732,000 in September, or a 4 per cent decline from August. In comparison with September 1947, United States sales were up 3 per cent.

Milk Prices Reach All Time High

Austin, Texas, Oct. 27 - (AP)-remember when you used to put down a nickel and tote home a generous quart of milk in a lard pail?

Those good old days are now gone for good, along with the nickle beer, the nickle hamburger and the five-cent cigar.

Texans now are competing for the privilege of putting a quart carton or bottle of grade A pasteurized milk in their market baskets at prices ranging from 22 to 25 cents.

Milk is big business now. Man's first food has increased in popularity because of health education and prosperity and supply is hard pressed to keep up with the demand. Where a city's source of supply used to be its neighboring farms, improved refrigeration and pasteurization methods have spread it out to distant counties and even other states.

They call these areas "milk sheds." Unlike water sheds, where gravity guides water down land slopes toward the sea, money makes the milk flow. Bidding for the limited supply has forced prices up and up in Texas.

The contest has reached the courts here. Attorney General Price Daniel has charged a number of major city dairies with price fixing in violation of the state anti-trust laws. The South Texas milk producers association and six Houston dairies have been temporarily enjoined in 98th district court here against alleged price fixing practices.

In issuing the order which will remain in effect until the case can be tried, Judge Charles O. Betts said:

"There is no doubt from a practical standpoint the south Texas producers association is a monopoly in the area where it operates."

The association, organized in Harris County under state cooperative marketing laws in 1931, has extended its memberships until it now covers 57 counties in south, east and central Texas. In addition to the price injunction the cooperative also is under court not to seek memberships outside its present area.

Outside of the competitive situation the outlook for Texas milk supply this coming winter is dependent upon the weather, like all other farm products. A survey discloses that the prospects are spotty, ranging from poor in drought stricken areas to good in sections where there are bountiful feed crops.

Prospects and prices in Texas cities include:

Big Springs - recent showers have brought hope of winter pasture in this south area, with a consequent prospect of an adequate milk supply. The retail price of milk is 25 cents a quart and producers receive \$6.60 per 100 lbs. This is an area of high production coasts.

Wichita Falls area producers, county agents and distributors agree the milk supply will be short this winter. "But production should be above last year's if we have rains," distributor said. Feed prices have drooped while milk prices have gone up. The wholesale price is \$6.60 per 100 pounds, the retail mark 22 cents per quart.

Palestine - retail prices have advanced from 22 to 23 cents per quart while feed prices have drooped. Palestine is within the Houston milk shed. The Anderson county agent noted that 10 of the 30 dairies in the county have been set up since the first of the year and predicted six more would be in production by Dec. 31.

Four Courses Open For Draftees

There are four courses open for men of draft age; so states M-Sgt. A. W. Carnes of the local Recruiting Office. First, if you are 18 you may volunteer for one year's training with the Army of the U. S. Following active duty you must serve four years in an organized Reserve unit or with the National Guard or six years with the inactive reserve.

Second if you are 19 to 25 you may volunteer for 21 months in the Regular Army. Upon completion of this service you must serve for 3 years with an organized reserve unit or National Guard, or serve 5 years in the inactive reserve.

Third, you may enlist in the Regular Army for 3 or more years. There are many advantages to this course such as taking advantages of Army Technical School Program, attending Officer Candidate School, furthering your education through U.S. Armed Forces Institute Serving overseas in Japan, Korea or Europe with extra pay for going into the Army unassigned. Veteran's have special choices open to them.

Fourth—and last, you may take your chances with the draft. If you have had no previous military experience and have no dependents and you are within the age limits, there is a good chance that you may be called to fill the ranks of the Army. Sgt. Carnes invites you in for further information.

Talk On Texas Constitution Revision

ABILENE, Oct. 28 (Spl.)—Paul Carrington, Dallas attorney and former president of the Texas Association of Commerce, will be the principal speaker at the luncheon of the West Texas Chamber of Commerce annual meeting here Nov. 8.

Mr. Carrington will discuss revision of the Texas constitution which is under study of the TAC, which is a federation of the three regional chambers in Texas.

The West Texas chamber represents 132 counties of West Texas and this year will present a continuation of its work program to the annual directors' meeting according to General Manager D. A. Bendeen.

Principal item on the agenda is a continuation of the fight to protect water interests of West Texas, he said.

Mr. and Mrs. John Milner visited in the home of Mr. Milner's brother, Mr. and Mrs. C. H. Miller in Morton Sunday.

duction "if they weren't getting premium prices," he said.

Denison a dairyman asserted that his price was four cents higher than it should be because of the outside influence.

Mr. and Mrs. James Tucker from Sweetwater visited his mother, Mrs. Ethel Tucker and Mr. and Mrs. J. G. Sadler this weekend.

Vote FOR Constitutional Amendment TWO on November 2nd. It protects your right to equal representation in the Legislature by providing for regular redistricting of Texas.

Ask the woman who owns one

By tradition, she's entitled to the last word. So Packard has built it for her!

She might not care whether what's under the bonnet is a "free-breathing" straight eight, or a turbo jet.

But when she praises delightful responsiveness, and the soothing smoothness of Packard power... we like it! (What man ever put so dainty a shoe against an accelerator pedal and got such results?)

She might not care whether Packard's superior roadability and handling ease are achieved by advanced engineering, or by happy little gremlins.

But when she tells us that her Packard has the restful riding ease of a limousine, and the finger-tip handling of a tiny tot's stroller... we beam!

And when it comes to styling, and tailoring, and convenience features, she's always been the No. 1 authority—and New York's Fashion Academy confirms her good judgment in preferring Packard.

Come in—learn all the reasons why the most enthusiastic "man who owns one" is often a woman!

STRICKLINLY SPEAKING

Serious—Sincere—Silly

Mrs. Mon Telford brought us a pound of good old home made butter last week. Homemade butter rates 99 per cent over the creamery variety with us, providing we know who handled the HM butter. We do know that Kate is a housekeeper par excellent.

Yep, we know that most all the big labor unions are supposed to be for Truman. Just so, we imagine that most union men, just like the rest of us will vote just as he likes at the polling place. A canvass of union miners revealed the fact that is just exactly what they will do. After all, labor unions are human, and they like to think they are such rather than a bunch of sheep.

Very little cotton is missed from the fields of Terry, Yoakum, Cochran and Hockley counties. If you don't believe it, drive out and see for yourself. The fields are white unto the harvest.

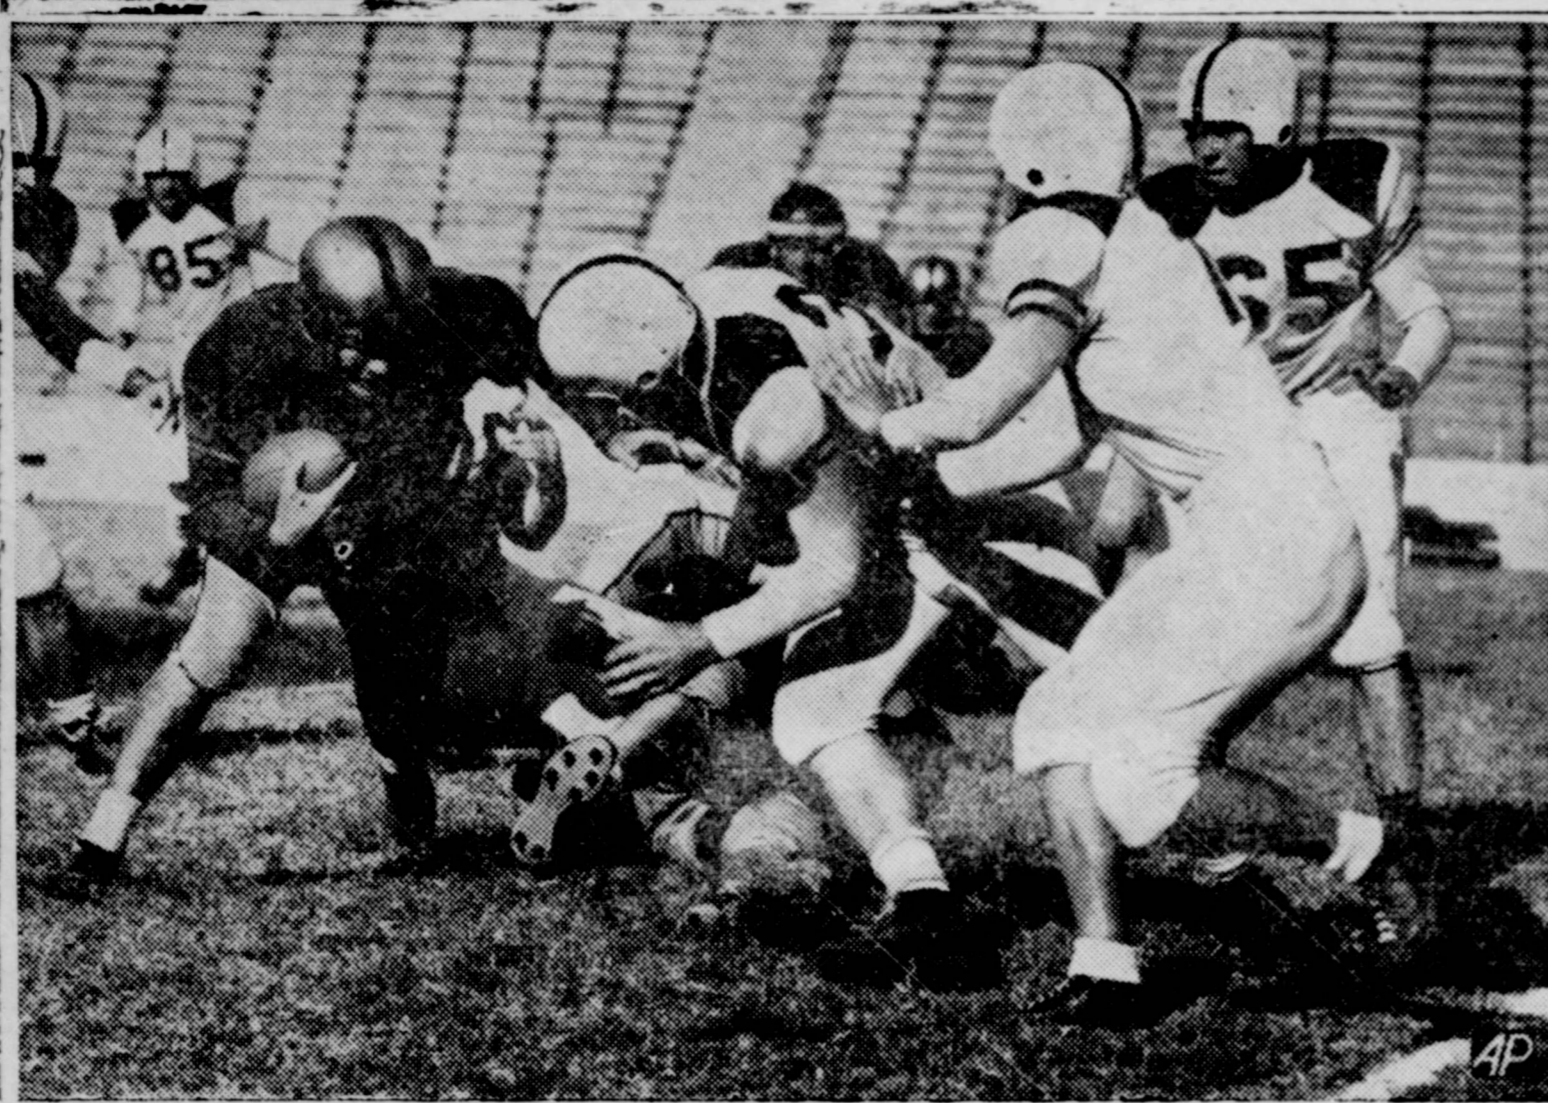

G. U. Seaton, combination farmer and grocery clerk, is always in a fine humor. His son found the Shrine pin belonging to the Tahoka man who lost it while here for the fair and queen crowning last week. We always explain to people who advertise for something lost that they are just taking a gambler's chance. If found by an honest person you get it—otherwise you don't.

Yeah, Mr. Truman as president gets the crowds. As a young fellow we always had a hankering to see a president and in 1903 went to Dallas, 60 miles away, to see Teddy Roosevelt. We wore a size too small shoe and got our one and only corn. We also recall that in 1896 William Jennings Bryan got the crowds—Bill McKinley got the votes.

We are just on the verge of joining the Pixicrats. We are becoming more confused, abused, misused and amused all the time over politics. Whence are we headed?

George Cross was the only lucky guy around the Herald office. He got the fifty buck's worth of groceries offered by Stell's. And dat's sumpin' these days.

Speaking of luck, we called at the First National Bank this week wearing our old war time hat with a near puncture around the crease at the top. While not mentioning our dilapidated lid, some pity appeared in the face of the president, R. M. Kendrick, and to impress us that it was not just because we needed a top piece, he announced quite solemnly that he had always liked our political and editorial policy. So, says he, go get the best hat in Brownfield and have it charged to me. We did and thanks, old friend. But before some of you jokesters make the old crack about the sympathy all being in the banker's glass eye, we'll tell you that both of R. M.'s eyes are genuine.

TEXAS STOPS RICE PLAY— Gordon Wyatt (44), Rice Institute back, is stopped by Tom Landry (32) Texas U. back as he plunges through right tackle for a four-yard gain in second quarter of their game in Houston. Dick Rowan (54) Texas center, assists in the play. In background is Errol Frey (60), Texas guard and Bobby Lantrip (43) Rice back. (AP Wirephoto).

With the campaign over next week, we wonder what we'll fill this colyum with.

Our exchanges in this area are reporting many rubber checks are appearing, taking their bow and bounce. There are always too many. But some of them are OK, and occasionally the mistake is at the bank. Heard of one this week.

They tell us that the Missouri

WAKE UP WEST TEXAS

Too Long Have We Submitted To The Evils Of Unfair REPRESENTATION

Every Governor the State of Texas has had the past twenty years has given lip service to the proposition that the state should be redistricted after each Federal Census, but only Governor Neff had the intestinal fortitude to call a special session and force the issue on a traditionally lackadaisical Legislature. That was in 1921—on the basis of the 1920 U. S. Census. In 1920, this section was a raw frontier—an awakening giant, just flexing its muscles and sensing its latent strength. Today's thriving West Texas cities, if they even existed, were only sleepy cowtowns. Booming oil fields now stand on sections that then only knew the bark of the prairie dog and the wail of the coyote. Consequently, the sections of Texas that are striving to progress have been bound and hobbled by a HORSE AND BUGGY LEGISLATURE!

The Means Of Abolishing This Situation Has Been Delivered Into Your Hands

Decades overdue, the means has at long last been provided whereby EVERY section of Texas can obtain its proper share of representation through the means of Redistricting Commission when the Legislature refuses to be roused from its lethargy long enough to provide it. But this is not HANDED you on a silver platter—it is only being OFFERED to you on a silver platter! We still must express our desire for a change in conditions by voting for such a change. Right-thinking citizens in ALL sections of Texas stand ready to help us throw off this oppressive yoke, but if we fail them by refusing to help ourselves we will show that we DO NOT DESERVE TO BE HELPED!

So Get Out And VOTE For Amendment 2- To Redistrict Texas And Give Every County A Fair Deal

Plainsman Lashes Out At GOP And Democrats

Knowing the feeling of the Plainsman of the Lubbock Av-... Late last week he informed us via his column.

what Charles A. Guy (Plains- man) would do with the matter, Late last week he informed us via his column.

We got the biggest thrill out of the article of anything he has written in a long time. We had

been wondering where Charley would land after the company he had been keeping this summer He unmasked all that and follow- ed a straight line, and reached the only logical conclusion that any self respecting Southern white man could reach.

If the article was just a bit shorter, we would have given the readers the whole thing. But we are going to try to give some of the high points. In the first place the Plainsman puts Gove. Thurmond and Wright up as real Dem- ocrats of the old Jefferson- Jackson brand, and not the ersatz variety. He says that these two fine, upstanding statesmen are risking their political futures to carry this fight to southern and other people who believe in the American way of life.

On the other hand, Mr. Guy continues, and here's where we got the surprise of our life, "the southern man can find no aid or comfort in Tom Dewey and the Republican platform. The Repub- licans are now and always have been as hostile to states rights as the Truman administration is today. A vote for Dewey then is not a logical protest."

Mr. and Mrs. W. T. Howze left Monday to spend this week at their cabin in Abilene.

nappers" of the real Democratic party and that a real Democrat would not recognize the old party of their fathers with its CIO-PAC, black and ton minority, near red and big city bosses in the saddle. The party must be won again by the people who are real Democrats The fight must go on until the bloc groups come to recognize that they can get no where with- out the southern vote.

In conclusion, the Plainsman points out that he can see no logical reason that in order to gain control of the party by honest Democrats, they would have to fight within the so-called Demo- cratic party. Like Mr. Guy, we can see why the office holders are supporting Truman. They think it a mere change to hold on to the gravy wagon.

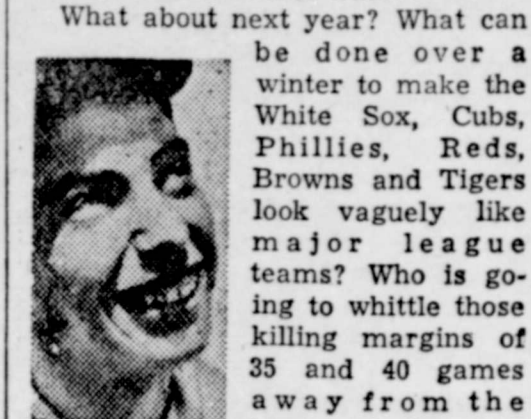

The second division of the National league has far better ball- players than the second division of the American. At least such teams as the Phillies and the Reds made attempts to get better ballplayers —such as Richie Ashburn, Hank Sauer, Virgil Stallcup and others. Both teams should have finished better than they did.

Next time Charley Guy comes to Brownfield, we are going to buy him the best dinner in town. He calls the Trumanites "kid- nappers" of the real Democratic party and that a real Democrat would not recognize the old party of their fathers with its CIO-PAC, black and ton minority, near red and big city bosses in the saddle.

Mr. and Mrs. W. T. Howze left Monday to spend this week at their cabin in Abilene.

THE leaves are just beginning to turn red and gold. The 1948 baseball campaign is over. But the surest sign of the end is the clarion call that rings across the landscape —"Wait Till Next Year."

league especially are worse than disgraceful. Some of the American league teams would't run 1-2-3 in several of the stronger minor leagues. They are parasites, willing to live off the money they draw from better teams, but not willing to spend important cash to keep in the race.

Every team in the league will need new talent. They all need pitchers—especially pitchers who know in what county the home plate is located. The Braves need outfield speed and outfield arms. The Red Sox need four or five good, dependable pitchers. There is a heavy deficit in catchers. The crop is running thin.

Mr. and Mrs. Arthur Nunn are visiting in Dallas this week. Their daughter who has been visiting here returned home with them.

The Low Down From Hickory Grove

Of all the times not to do certain things, the Govt. has a knack of picking same. Take right now—Uncle Harry and his boys say they are gonna move heaven and earth in order to get prices down—and what do they up and do. They start a law suit tryin' to bust the meat packing companies.

And a little off the subject but not too far, are strikes— they raise prices too, but the same crew there in Blather Town, don't raise a finger. And when we finally graduate in strike technique— we can go socialist and ask some- body to feed us. But, says the little red hen, who will we ask?

Yours with the low down, JO SERRA.

Chevrolet... Leader in Value

Your choice for QUALITY

on all these counts ... at prices that are lower than those of any other car in its field!

Men and women agree that Chevrolet gives a much smoother, steadier ride than other cars in its field. The reason is that Chevrolet alone has the original Unitized Knee-Action Ride, backed by more than 14 years experience in build- ing Knee-Action units. This feature is found elsewhere only in higher-priced cars.

You know—and your friends know—that the emblem, Body by Fisher, is the hallmark of bodies that are better by far. Chevrolet's Bodies by Fisher reveal this finer quality in every detail, including the hardware, upholstery and all appointments. Naturally, these bodies are exclusive to Chev- rolet and higher-priced cars.

Compare Values!... Compare Prices!... CHEVROLET— and Only CHEVROLET — IS FIRST!

The Woman Listener

COMMENCING with its October issue, True Experience Magazine will inaugurate a monthly feature entitled The Right To Happiness.

Claudia Morgan, well-known stage and radio actress. The column will be an invitation from Carolyn to the readers to write their most out- standing experience in winning their own right to happiness.

Hugh Studebaker, star of the CBS serial, "The Guiding Light", is probably the only person in Holly- wood who does not drive a car. After two years of driving steadily on one-night stands, Hugh made a vow never to get behind a wheel again.

Paul McGrath, who has the role of Dr. John Wayne in the CBS "Big Sister" show, is taking a well de- served vacation this month. Sub- stituting for Paul during his ab- sence is his brother, Byron. So similar are their voices, that listen- ers probably will not detect the difference.

Chicago's Mayor, Martin H. Ken- nelly, heartily congratulated emcee Tommy Bartlett when he appeared at the first anniversary broadcast of the ABC "Welcome Travelers" program in Chicago last month. Said the Mayor, "Chicago is the greatest city in the world and as long as I can't meet everyone who comes here, I'm certainly glad to have such a fine man doing the job for me."

Lowell Thomas

Lowell Thomas, top-notch CBS news- caster, is an officer of the unique Lancaster & Chester Rail- road in South Carolina, which has just a 29-mile run. The railroad is reputed to have many more vice- presidents and officers than it does miles of track—and all are friends of Elliott Springs, President of the R.R. In addition to Thomas, the list of officials includes names such as playwright Charles Mc- Arthur, Artist James Montgomery Flagg, Golfer Bobby Jones, Historian Samuel Hopkins Adams, Tobaccoman R. J. Reynolds.

Beauty Contest winner, Miss Mary Ruth Wade, who was selected in a photo contest held on "Truth or Consequences" last May, will be seen this Fall in a movie titled, "The Plunderers". The photographs in the contest were judged by Sgt. Dick Shohawick and his buddies, at McCormack General Hospital in Pasadena, Miss Wade, 18, won the "Jane Doe" — "typical American girl" contest on the NBC "Truth or Consequences" show, and was awarded the movie contract as prize.

All Teams Need Talent

A smart, aggressive front office can make a big difference. A stupid, timid front office can wreck any team. And there are more than a few of the latter brand now operating. You can look at the standing of the clubs and at least guess who most of them are.

Pitchers for Red Sox

Red Sox—At least three good pitchers in addition to the crop they have—which has been forced to depend on Red Sox hitting power. Even two good additional pitchers would be enough.

Tigers—The biggest disappointment in baseball. Still have a fine pitching staff. Someone should clean out most of the others by sales and trades. Club spirit poor. Present squad is going nowhere.

Browns, White Sox, Senators

Browns—Browns much the best of these derelicts. They have some good ballplayers. White Sox and Senators will need heavy cash and several years to reach even partial respectability. They will likely continue to be clinging parasites, living on the rest of the league—practically beyond all hope for a long time to come.

The Braves—More outfield speed and better throwing arms. Pitching help to relieve Sain and Spahn, two fine workmen. At least two new dependable pitchers needed badly.

The Dodgers—They were easily the best team in the league this season by six or seven games. Just see what they have and use it intelligently, which Brooklyn didn't do this season.

Over Some New Territory To Us

Sunday was one of the most beautiful "Nocktober" days we ever saw, and that month on the Plains is always full of beautiful days not to hot or to cool just right. The urge to travel and see a bit of new territory, to us, was so great that we named the plan to the wife and son and his family. Headaches, urge of the movies eliminated all but the first three. So we set out in the new Ford.

It is no mystery to us why the towns, cities and communities of this section keep building and growing. But that does not preclude us from wanting to see the reason first hand. To tell the whole truth, there is a little stretch of highway, 38 miles to be exact, that we had never traversed, although only a bit more than 30 miles away—between Plains and Morton. We had been to Plains numerous times. We had been to Morton on occasion, but never over the north-south road between the two cities.

Plains was reached about 2 P. M. and we drove over the town. Found there were a number of new homes built since we last visited the little city, and other improvements, such as a sizeable street paving undertaking. Plains has some very fine school buildings and a good school, with a full quota of excellent, well paid instructors. Right now they are putting up a new courthouse that would do credit to a city much larger than Plains. But the Yoakumites are looking to the future and building while they have thousands of oil wells belching liquid gold. While the county has a small population, comparatively speaking, its county valuations are some 28 million dollars.

Leaving Plains, we took state highway 214 for Morton. Except for a few miles north of Plains, this was absolutely strange to us. The terrain for the most part is similar to others in this area, but they have had a bit more rain this year than most places, and the grass shows it. However, as that area is several hundred feet higher than Terry county, and frost has already nipped the cotton in low places over in Cochran county. There is a string of low sand hills up about the county line, where grazing still predominates. But north of the sand hills, the land becomes harder with mesquite and catclaw in evidence. In

the Lehman section, there is considerable farming, and a new oil field is being developed. We saw a number of rigs up, so the territory must already be proven. Lehman was very little bigger than it was years ago, we are told, although in the center of Cochran county and a railroad point. Morton won the county seat in the organization election, although north of the county center several miles.

It had been several years since we visited Morton, and in that time the town has made rapid growth. This was not only true in regards to residential buildings, but a number of large and attractive business buildings have gone up. True they have a few wooden buildings on the square yet—but give 'em time. Cochran county has not been organized but a few short years as time goes. The Tribune office looked dark and cold as we passed, with Carl and Ann probably taking their afternoon seista. So on to Whiteface.

And we almost decided that Whiteface is a misnomer. Most people we saw around the town were negroes—cotton pullers, we guess. Anyway it looked more like Blackface to us. It is situated near the line of Cochran and Hockley counties, but in the former, and is a railway town, a branch of the Santa Fe. At Whiteface you enter the big Slaughter oil field, one of the largest in this section. Oil wells on each side of the highway from there to Sundown and past, as far as the eye can see. They stop abruptly a few miles after the Terry county line is reached.

Between Whiteface and Sundown, on a slight rise in the prairie some five of the major oil companies are building a million dollar refinery. It is now under construction, and will be a big asset and source of income to that immediate area when finished. In fact, we, right here in Brownfield will feel the extra weight of that big plant.

It had not been but a few months since we were in Sundown. That town that oil built is still improving. Summing up, even the halt and the blind can see why this area is making the fastest growth in the southwest: RANCHING, FARMING and OIL all in the same territory.

What could spell better income? Mr. and Mrs. G. W. Tarpley from Lubbock spent the weekend with relatives here.

The flight-streamed new Studebaker Land Cruiser

THIS special, extra-long-wheelbase Studebaker Land Cruiser is a stand-out in looks. It's finished and appointed to a new degree of perfection! It's tops among fine cars in gas mileage. Its low-swung clean-lined structure is free from burdensome excess bulk. Top value in a top quality car, this Land Cruiser is just one of the dramatically different postwar Studebakers. New Champions! New Commanders! Convertibles, sedans, coupes!

Keep Them Healthy

To reduce lamb and sheep losses from dogs and wolves, use truck flares placed in holders on top of steel posts driven into the ground. Sheep learn to gather near the flares at night. Wolves and dogs are kept away by the flicker of the flame and the odor.

If DDT fails to control flies around the barn, it's probably because there are manure piles or old strawstack bottoms nearby. These breeding places can turn out flies faster than DDT can kill them.

Blackhead of turkeys is caused by an organism that is carried by seal worms. Phenothiazine is effective in removing these worms from chickens and turkeys. Many turkey raisers now give phenothiazine in the mash every three or four weeks to prevent outbreaks of blackhead.

Farms Use Six Times As Many Tires as City

The typical Midwestern American farm has six times as many rubber tires on its rolling stock as a one-car city-dwelling family, a survey conducted by B. F. Goodrich company indicates. The survey covered 105 farms in a representative "agricultural" county in Illinois, and disclosed an average of 32 pneumatic rubber tires per farm. From the standpoint of actual rubber volume the farmer's edge is greater.
