Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

VOLUME 44 BROWNFIELD, TERRY COUNTY, TEXAS FRIDAY, JANUARY 28, 1949 NUMBER 27

Member Associated Press  
Member Texas Press Assn.  
Member South Plains Press Assn.  
Member Panhandle Press Assn.

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

## ONLY FOUR DAYS REMAINING IN 1949 "MARCH OF DIMES" CAMPAIGN

The 1949 March of Dimes campaign ends in another four days, Mr. Milton Bell, who heads the drive, today reported that the goal for 1949 still may be reached if the citizens of Terry County put their shoulder to the wheel during the few days left for fund raising purposes.

When January 31 is past we will know just how well prepared we will be for the hot polo months of summer time. Let us not forget that this 18-day campaign period must produce results sufficient to provide care for all those who may be stricken during the next 12 months period.

There is still time for everyone to contribute. Coin collectors will remain in the stores and public building until the end of the final day of the March of Dimes Drive. The women of Brownfield will have their opportunity to support this cause by attending the benefit card party at the Legion Hall, Friday Jan. 28 at 3:00. We can all follow the motto "Dance that others may walk", by attending the President's Ball at the Legion Hall on Jan. 31.

"A heavy responsibility is to see to it now, that every possible aid can be given to all our boys and girls, should polio strike at our homes. We hope we may escape this year. But hope alone is a fools weapon. Only by contributions, and greater contributions than ever before, can we expect The National Foundation to carry on its fight against polio where it has struck and where it will strike in the coming year. Only by carrying this fight on can we hope to erase infantile paralysis from the list of dangers facing our children."

Only four more days remain during which we can live up to these responsibilities. Let's make our motto, "Give to the March of Dimes" give 50% more this year. The quota this year will be \$3394.

### Merchants Donate Generously With Prizes For Benefit Bridge Party

The committee arranging for the Benefit Card Party to be held at the Legion Hall on Friday, Jan. 28, has been busy this week contacting the local merchants for contributions to be given as prizes. The list of prizes which appear below should be an added inducement to the ladies of Brownfield, in getting them to attend this party. The party not only offers an opportunity to help such a worthy cause as the March of Dimes, but is also holds promise of an exceedingly entertaining afternoon.

The contributions are as follows: The Dutchess Style Shop, 1 pair of hose; The Dutchess Beauty Shoppe, 1 manicure, shampoo, and set; Fox's Paint Store, 1 picture; Cobb's Dept. Store, 1 towel set; Griffith Variety, sugar and creamer; Jones Dept. Store, towel set; Latham's, 1 set of colored sheets; Alexander-Gosdin box valentine candy; St. Clair Variety casserole; Copeland Hardware, coffee maker; Palace Drug, 2 Lenthic bath sets; Andress Beauty Shop, \$10.00 permanent; Shelton's 2 nylon slips; Teague-Bailey tissue dispenser; Broadway Clean, \$1.50 cleaning credit; Martin and Walker Used Cars, \$1.50 cash donation; Brownfield Tractor Co., \$1.00 cash donation; Rex Headstream, \$1.00 cash donation; Crawford and Hackney, \$1.00 cash donation; E. G. Akers, \$1.00 cash donation; Cinderella Beauty Shoppe, \$10.00 permanent; Stell's Grocery, \$1.00 cash donation; Bayless Jewelry, salt and pepper shakers; Looe Miller, \$1.00 cash donation; Thomas Furniture, smoking stand; Brownfield Glass and Mirror, one mirror; D. L. Patton's Service Sta., \$1.00 cash donation; Lindsey Hardware, vase; Dr. James Finley, Combed ceramic ash tray; Hoy's Flowers, Calif. ceramic bean pot; W. Graham See "Merchants" Back Page

### Gas Company Puts In Much New Pipe Here

Of course most of us saw great ditching machines running here all summer. Some of them were the people who installed new sewerage lines as well as putting in the new sewer disposal plant. Therefore, most people may have decided that it was the same ditching machine. But one was the West Texas Gas Co., making some extensions.

Not only were they making extensions in some cases, but in others they were installing larger piping where the use is heavy in the down town area. In the last issue of Gas Employees News in the Brownfield report by C. L. Haffer, manager, we take the following from December report: People in the southwest part of Brownfield were happy when the new improvements were completed last week. Gas service will be extended to them in the next few days.

A new border station will be built in the extreme south part of town, which will tie in to the Seagraves H. P. line next week. George Tucker's pipe line crew will handle this job.

We installed 3,233 feet of 2-inch pipe, 895 feet of 3 inch, 1,329 feet of 2-inch and 3,284 feet of 5/8-inch pipe in the town recently.

### Found Italy Not A Paradise

Those that left here early in January to sail from New York to Italy to begin missionary work, along with several others from other points in the USA, have all landed, and have had time to make somewhat of a survey of what is before them now and in the future.

Members of the Church of Christ here have had letters from Cline Paden and wife, and others from Joe Chisholm. It seems that they found the property that was purchased for an orphanage was pretty well as represented, but far from sanitary and clean, from the standpoint of American conception of cleanliness. Joe reported an unpleasant odor.

As there was no cooking arrangements in the buildings as yet, board and rooms had to be obtained at a hotel that was nearby. Both the Padens and Joe Chisholm reported that the food was poor and the place none too clean.

### Chamber Of Commerce Board Meeting

Officers and directors of the Chamber of Commerce met last night at 7:30 at the Esquire Cafe. Plans and policies for the forthcoming election of officers were discussed. Also taken up was the 1949 budget; a joint meeting with the Lions Club March 2nd; the census, to be a joint undertaking between the local churches and the Chamber; and a proposed courtesy campaign.

### Local Minister To Speak At ACC Lectureship

ABILENE, Jan. 28—Thirty-second annual Lectureship of Abilene Christian College, the oldest and largest annual gathering of members of the Church of Christ in America, will be held Sunday through Thursday, Feb. 20-24, President Don H. Morris announced. The four daily sessions will be held in Sewell auditorium.

Reports of evangelistic work being done in many lands and reviews of opportunities in new fields will be emphasized, according to the program.

Speakers will include men from Holland and South Africa, and others who recently have returned from the British Isles, Japan and Mexico.

A special collection for foreign students attending A. C. C. will be taken Wednesday evening.

Principal speaker will be A. C. Pullias, president of David Lipscomb College, Nashville, Tenn. Christian unity will be the central theme of his three addresses. The College will be host to preachers and elders at a dinner Wednesday at 5 p. m.

Visiting women will be honored with a tea by A. C. C. Faculty Wives in the parlors of McKinzie Hall Wednesday, 4 to 5:30 p. m.

A report of college's activities and development program will be presented at the Wednesday morning session.

The college trustees will hold their annual meeting during the Lectureship.

Speakers will include Glenn L. Wallace, E. W. McMillan, Paul Southern and Bill Reeves, Abilene; Charles Chumley, Athens, Ala.; Hulen Jackson, Dallas; Ellis McGaughey, Washington, D. C.; M. Norvel Young, Lubbock; George H. Stephenson, Wichita Falls; Harold Thomas, Danforth, Maine; Eldred Echols, Southern Rhodesia, South Africa; Jimmy Wood, Brownfield, and Jacob C. Vandervis, Haarlem, Holland.

### Special Election To Be Held March 15th

A special election will be held on March 15th to fill the office of mayor, left vacant on the death of the late Tom May. At present C. C. Primm is acting as mayor pro-tem.

Those wishing to file for this office, must do so by February 21. The only application so far received is that of C. C. Primm.

### Scottish Rite Club Formed

A Scottish Rite Club has recently been formed here and is open to Scottish Rite Masons in this area. Officers have been elected and are as follows: C. K. Kendrick, president; Ted Porter of Sundown, 1st vice president; Glen Akers, secretary. Appointive officers are to be named later.

Next meeting of the organization is to be called in March. Plans will be discussed at the meeting for the Maundy Thursday program to be held in April.

It was decided at the meeting last Monday night, that due to the inclemency of the weather, all who registered for membership between now and the March meeting would be charter members.

The housefly carries typhoid, tuberculosis, dysentery and intestinal worms. Many folks wonder why Noah didn't take advantage of the situation and kill both flies when he had such a good chance.

### Speaker Rayburn Meets a Texan

Linda Brown of San Antonio, March of Dimes Poster Girl, makes herself at home on the desk of Speaker of the House Sam Rayburn in the Capitol at Washington. She greeted the Speaker after opening the 1949 Fight Infantile Paralysis drive during a call on President Truman in the White House. Linda is holding the Speaker's pipe and his pencil.

### Primm Announces Candidacy For Mayor

To the people of Brownfield: I wish to take this means of announcing my candidacy for the office of Mayor of Brownfield, subject to an election called for March 15 by the City Council.

I am now serving my second term as alderman, and was Mayor Pro-Tem during the term of the late Mayor Tom May.

I feel I am well qualified by experience to conduct the duties of the Mayor's office as they should be conducted and promise, if elected, to have always at heart the interest of the city of Brownfield and its progress.

I earnestly solicit your vote and influence. C. C. Primm (Political Advertisement).

### THE ICE FREEZE COST HEAVILY

Not only did the ice storm of week before last do great damage to the trees in this section, almost ruining the shape of some of them, but it is going to cost a lot of money for the owners to get them trimmed up again. And its not late to freeze again.

Tree men at Tech College, and perhaps elsewhere are advising that the trimming take place just as soon as possible, and to get some one if possible who understands that the broken branch should be sawed off below any peeled bark, and if possible above any bud where a new limb is likely to start.

Of course most of us realize now that we should have planted tough timbered trees, even through they do not grow so fast. We have seen Chinese elm break in summer from wind when lots of leaves were on them.

### Mahon Seeks Price Control On Grain

Washington, Jan. 25 -An immediate announcement of a 90 percent of parity price support on the 1949 grain sorghum crop was asked by Rep. Mahon (D-Tex.).

He said he would visit Secretary of Agriculture Brannen today to discuss the matter. He also said he planned to talk to Production and Marketing Administrator Ralph Trigg.

Mahon said an early announcement of support would contribute substantially toward the government's drive to reduce cotton production.

### West Texas Motors Have Successful Showing

The West Texas Motor Co., the local Studebaker dealers, inform us that their showing of the new 1949 models on Jan. 22 was very successful. Their show rooms were crowded during the day of the official showing and many more interested visitors have been in during the past week to view the three cars on the floor.

They have on display a green, Commander, 4-door, sedan, a blue, Champion, 4-door, sedan, and a 2 ton truck. If you have not yet been in to see these new 1949 Studebaker products they urge you to do so, and extend their thanks and appreciation to all those who have already visited them.

### More Sleet And Snow Visited Terry

From Monday until yesterday, the sun made a fadeus, and the weatherman took over in big hunks. First we had another slow, drizzly rain, then the norther that had been predicted bore down in all its glory. If you want to call it glory. Cold cloudy weather for three or four days in this usual land of sunshine is depressing to the well and those up and about. To the shutins, it gets next to the hick.

Following the drizzle, there was intermittent period of sleet and snow, which all added up to .55 inch. With the total of .69 last week, it gives the area a moisture content of 3.45 for January. Now that is goo in anyone's language. The roads and streets were just about as slick as glass, but people took it easy, and if any one was hurt we did not hear of it.

Cousin Phillip Rogers and wife ventured in to wash Wednesday and pai a short call on us in the home. He informed us that all the tractors out on the Oliver farm were tune up and ready when the ground warmed up and dried a bit. And we imagine that is the plan of most Terry county farmers.

If they can get their land broke or bedded while all this moisture is in the ground, putting large flecks of clay on top, they will just about have the March sandstorms under control. And the land will be ready to plant come a warm April and May.

Mr. E. D. Jones is in Temple, Texas undergoing surgery at the Scott and White Clinic. Word was received that he would have a major operation on Friday, and will remain in Temple for several weeks after.

## CHURCHES, CHAMBER OF COMMERCE TO WORK TOGETHER IN ENUMERATION OF TOWN

### Red Cross Still In Need Of Clothing

The Red Cross is still in need of warm, serviceable clothing. Lewis Simmonds, local chairman, wishes us to express his thanks to those who have already contributed to this cause, but he informs us that due to the continued cold weather there is still a great demand for clothing for the unfortunate and needy.

Look in your closets, check for any out-grown clothes that would provide warmth and comfort for some underprivileged child during this bitter weather. Old shoes, overshoes, coats, caps, mittens and scarfs that are valueless to you might provide some unfortunate person with a little comfort.

Mr. Simmonds also informs us that Clifton Jones has been appointed chairman of this year's Red Cross fund raising campaign. The quota this year will be \$3394., \$2000. less than last year.

The drive will start sometime around March first.

### New Pontiac Makes Appearance Monday

C. E. Ross, of Ross Motor Company, announced yesterday that Monday had been set for the first showing of the 1949 Pontiacs. Showrooms of Ross Motor Co., local Pontiac dealers, are located at 720 West Broadway.

The 1949 Pontiac will be offered in two series—the Chieftain and Streamliner—in Deluxe or Standard models, and with six cylinder 90 H. P. or eight cylinder 103 H. P. engines. Hydra-Matic transmission is optional equipment.

The new Pontiacs are lower by 2 1/2 inches than previous models. Visibility has been greatly increased in the entire line. The windshield alone has been widened 5 1/2 inches. Rear windows have been increased eight inches in width and three inches in height.

Two distinct rear designs are presented in the Chieftain and Streamliner series. The Chieftain incorporates the "notchback" or "gull wing" pattern, with gracefully arched steps from the roof crown to the trunk door top, thence to the lower edge of the trunk lid. The Streamliner back is a lower, more graceful application of the 1948 Streamliners.

Mr. Ross extends his invitation to all to visit his showrooms and see the new Pontiacs.

### The Cubs Need A Game For October

Coach Tracy Kellow, has announced that he will need a football game either Oct. 21 or the 29th to fill out the panel. The game is preferred for a class AA or a strong class A team.

Of course it's too early in the season to know very much about whether or not the team will be equal of superior to the 1948 team, which won no games in conference play, and only one victory and one tie in non-conference games.

A lot of fans seem to believe that Brownfield is trying to play out of its class in AA instead of A football. They point out that although Levelland claims more high school students than Brownfield, they are cleverly staying out of class A football.

Of course these same folks will readily admit that it is no disgrace to lose a football game. On the other hand they point out that going years without winning any in conference play, may lose a lot of fan interest.

### Results Of March Of Dimes House To House Canvas

Mr. Milton Bell, county chairman of the March of Dimes Drive, announced today that the volunteer workers making the house to house canvas have thus far turned in \$136.17. This canvas is not, however, complete, and this amount will be greatly increased it is hoped during the remaining days of the drive.

The drive for contributions from the business houses, has thus far netted \$342.50 according to Mr. Bell. Edward Stewart, district chairman of the drive, has advised Mr. Bell that because of the bad weather, the drive may continue through next week if necessary. Our county chairman hopes that all the funds will be gathered by Tuesday of next week.

The following volunteer workers having been making the house to house canvas under the direction of Mrs. Milton Bell: Mmes. Buddy Norris, Kathryn Marshbanks, K. D. Threet, Louise Watson, Frank Weir, Tom Crawford, John B. King, Wayland Parker, Buddy Tarbutton, Frank Corbell, Gay Price, Stuffy Moorehead, Graham Smith, Herman Chesshir, R. D. Shwmake Jr., O. L. Chennoweth, Toke Power, Alvin King, Sawyer Graham, Harlan Gray and Miss Twilla Graham. They will be asked to complete the down town drive, and Mr. Bell wishes to thank all of them for their efforts on this project.

### Cities Service Oil Co's Crew Honored

Members of the Cities Oil Co.'s seismograph crew headquartered here were honored here Jan. 20 for having established an enviable safety record. The 17 members of the crew under O. M. Lambright have worked 100,000 man-hours without a lost - time accident.

In town to help the local Cities Service men observe their safety record were R. M. Bradley and W. E. Allen of the company's Geophysical Section, K. V. Brooks of the safety department, and R. O. Durham of the Secretary's Division, all of Bartlesville, Okla.

Members of the seismograph crew were praised by the group from the company's headquarters relaying the commendations of Cities Service management.

Honored for their part in the safety record were Billie H. Barber, Morgan Barker, Wallace A. Cox, Loren E. Gardner, B. H. Gary, David E. Halley, Merwyn M. Hand, Raymond L. Hare, Paul D. Hartman, Earnest D. Hawthorn, John Paul Jones, Oscar R. Matthews, Eli W. Morris, Robert W. Sampson, Floyd Sherherd, Jr., Raymond H. Simmonds, Alton Wilmethe, and O. N. Lambright.

### Cerebral Clinic In Lubbock February 7th

A Clinic for the examination of children with Cerebral Palsy (Sometimes called Spastic Paralysis, or birth injury) will be held Monday, February 7th at the Cerebral Palsy Treatment Center, 1317 tenth Street, Lubbock, Texas. Orthopedic specialists from Amarillo and Plainview will be present to examine patients.

Parents planning to bring children to the Clinic are requested to register the children at the Center prior to the date of Clinic. Information regarding the Clinic may be obtained by writing Miss Esther Snell, Director, or calling Lubbock 6541.

The Chamber of Commerce and eight local churches will work together on a complete city-wide census. The following churches will unite their efforts on this project: The First Baptist Church, First Methodist Church, Crescent Hill Church of Christ, First Presbyterian Church, Nazarine Church, First Christian Church, Westside Baptist Church and the Southside Baptist Church. At least four paid workers will be employed, and the census is slated to start on the coming Monday, Jan. 31.

A joint meeting was held on Friday, Jan. 21. At this meeting a steering committee was elected, the members of which will be David Nickolson, Chameb of Commerce secretary, Rev. A. A. Brian, pastor of the First Baptist Church, Bro. Jimmy Woods, pastor of the Crescent Hill Church of Christ, and Rev. Herschell L. Thurston, pastor of the First Methodist Church.

In order to get a complete and adequate census the workers will ask a number of questions, some of which will be: the ages of all members of the family under 21, the length of residence, whether you rent or own your home, occupation, and church membership, or preference. The people of Brownfield are urged to co-operate with the workers.

### 6,000 See New Chevrolet

The Teague-Bailey Chevrolet Co. reported that around 6,000 people have been in to view the new 1949 Chevrolets, on display in their showrooms. During their official show days, Jan. 22 and 23 the rooms were crowded with interested visitors.

Teague and Bailey have on display two models, one Fleetline, two-door in the new color Grecian grey, and one four-door, Skilme model, in Maylayan black.

They wish to extend their thanks to all their friends and customers who attended the showing.

### Drouth Can Be Expected Every Eleven Or Twelve Years

ANSTIN, TEXAS, Jan.20—The recent Texas drouth was part of a climatic cycle which can be expected to recur about every 11 or 12 years, says a University of Texas archaeologist who is interested in the relation between climatic change and human history in North America.

Alex D. Krieger, participant in a program on weather cycles at the recent Plains Archaeological conference in Lincoln, Neb., says drouths have recurred repeatedly for many centuries in the Great Plains states, and this information should be a sign-post to farmers to anticipate these changes in their crop planning.

He points to modern drouth periods in 1934-36, 1923-24, 1910-12, 1899-1901, and the 1880's as examples of climatic cycles which have had profound effects on American economy.

Establishment of the exact dates on climatic periods in North America during the past 25,000 years is one of the problems facing climatologists. The archaeologist can date his finds through geological and other means, thus helping the climatologist to determine the date of climatic periods which changed life on this continent during the past 25,000 years, Krieger says.

Mr. Jack Browder of Pecos will spend the weekend with his parents, Mr. and Mrs. Jack Browder Sr.

Mrs. Arthur Sawyer underwent surgery last week at the Scott-White hospital in Temple.

Mr. and Mrs. Morris Lowe of Plains were visitors in this city Thursday.

West Texas Chamber of Commerce has sent a sharply worded letter to Texas Water Conservation Association on proposed legislation coming up at Austin soon. It seems that there is a catch in Section 13 that was not so apparent awhile. The vague meaning of this section appears to be that there can be no dams built on the upper reaches of the Brazos or Colorado rivers or tributaries, if that diminishes the flow of water at other dams below. In plain language, that would forbid west Texas to catch the water where it fell for municipal or other uses, if there happened to be a power dam below turning out electricity, etc. The call for battle has been issued, and the residents of west Texas will be in Austin to see that no legislation concerning water conservation is passed until this Section 13 joker is removed.

Last week Eddie Warren of the Post Dispatch in his column "Out On a Limb" went the whole thing on an advertising publication that comes out of Lubbock weekly, devoted exclusively to advertising—no reading matter. Like a lot of newspaper folks, Eddie got to wondering about the reader interest—if any—on a sheet of this kind. And like a lot of the rest of us, he wondered how many of these advertising sheets that must cost Lubbock merchants a lot of money, high as everything is, to get this stuff in the mail boxes of some 14 counties on the south Plains. And like some of the rest of us he made an investigation the day the 'newspapers' came in to Post. He found they were not only all over the lobby of the postoffice, but even out on the sidewalk in front, and the huge waste baskets in the postoffice lobby just about filled. Editor Warren then asked a postoffice clerk what percent he figured were actually carried home. He placed the figure at between 10 and 15 percent. Then Mr. Warren wondered why these Lubbock advertisers had not sent men out to check up on just how well this huge advertising expenditure was stacking up—if it was really worth the money they are spending. But he finds that a lot of merchants think they have to divide up their advertising appropriation whether it be good, bad or indifferent.

We saw an article lately that well illustrated the popular conception of monopoly, and proving once again that American capitalism is more away from monopoly and toward competition. In fact, the writer stated that the nearest approach we have ever had of monopoly was the old time country general store. Whether the stuff they had to sell was good, bad or indifferent, the customer could take it at the price offered or lump it. There just was not any competition. Then came the cars and good roads, and people could go to larger towns or even cities if they were not satisfied with local prices.

Stores then had to meet prices elsewhere, as well as better ser-

vice. The chain stores came into being. The independent stores picked up some of the better points of the chains and added some of their own. Specialty shops came into being, and the customer was offered better merchandise at narrower profits. That is what competition does, and it is the underlying principle of the capitalist system.

Many of the States of the union have laws forcing those who drive cars or other motor vehicles to take out insurance against wrecks and collision. Texas has never done that, and one motorist may dodge out from some side road, bulge into a highway without even pausing or looking and cause a big wreck with heavy damage and perhaps the loss of life. Some such bill was offered at the last session of the legislature, but it was either killed or died in committee. We understand that another will be offered at this session, and it should be passed. There is talk that states that do have forced accident insurance for motorists, are talking of heavy fines for tourists traveling in these states that do not have such insurance. It is a travesty on justice to have some careless driver ruin your car as well as his perhaps, and maybe hurt or kill some of your folks, and not have 15c in the bank or in his pocket. Therefore in justice to all a law should be passed to force all drivers of motor vehicles to take out insurance to cover or partially cover such accidental damage.

President Truman, and Vice-president Barkley for that matter, showed rather juvenillish disposition during the big inaugural parade. It showed that his makeup was not of the good sport disposition. He can't take competition in stride, and congratulate or complement his losing or winning opponents. When Gov. Thurmond came by and bowed politely in his car section of South Carolina, Truman frowned and turned his back, pretending to talk with Barkley. The next section was a delegation from some northern state that did not even go for Truman and Barkley, but both turned and bowed and scraped to beat the band. Gov. Herman Talmadge and the Georgia delegation that did not even go for Truman and Barkley, but both turned and bowed and scraped to beat the band. Gov. Herman Talmadge and the Georgia delegation was given the same "fishy" stare. And so far as we know Talmadge voted the democratic ticket; at least Georgia did. We also understand that it was partly through the influence of the Talmadge crowd that Truman-Barkley were allowed on the Georgia ticket as the Democratic party Some one of our statemen of the south once said after bowing to a darkey who tipped his hat, "I will allow no one to be more courteous than myself." HST could take quite a few lesson in good manners.

One has to travel over central and east Texas to realize the change that has been made in cropping changes. Whereas in the early part of this century, one would find that 50 acres was devoted to cotton to ten in grain, the reverse in almost true today. And much of the west central section of the state is now devoted to dairying. Here is what the bureau of farm statistics have gathered: In 1924 and prior to that, 70 percent of the state farm income was measured in cotton. Today, the lineup will run close to, livestock 46 percent; cotton 30 percent and the balance small grain, sorghum grains, citrus and vegetables. Much of the farm lands of Texas became so worn with repeated cotton crops that it would not pay. So other and more profitable products were substituted. Many of the old shacks people lived in while trying to make cotton pay on wornout land, now stand empty on the farm, or are used for migratory labor, but nearby are nice, modern farm homes.

**Beware Coughs From Common Colds That HANG ON**  
Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

### WHAT IT MEANS

#### FORRESTAL'S REQUEST FOR CODE LEGISLATION

By Clarke Beach

WASHINGTON—An ex-service man who worked in the highly secret code unit of our defense establishments writes or talks about our military cryptographic work. Chances are he can not be prosecuted.

But if a former employe in the State Department's code room blabs about diplomatic cryptographic systems, he liable to 10 years' imprisonment and a \$10,000 fine.

That's the reason behind the new bill which Defense Secretary Forrestal has sent to Capitol Hill. It would provide the same penalties for disclosing any information about military codes that now apply to diplomatic codes.

The State Department got its bill in 1933. It's called "The Yardley Act".

Herbert O. Yardley, a former official in the State Department's cryptographic section, in 1931 wrote "The American Black Chamber". The book told about the department's code work from A to Z, including one highly damaging fact: That some years previously he had broken the Japanese code.

(This was the first time we broke the Japanese code. We did it again before the Second World War. That was the famous "Operation Magic", which was first publicly revealed in the Congressional Pearl Harbor Investigation.)

The Japanese were highly incensed. What was worse, they were alerted, so that they could change their codes and try to stop up future leaks.

The State Department fumed, then took action when it heard another alarming report: That Yardley was about to publish another book in which he was going to spill the fact that our cryptanalysts had broken the code of still another foreign government.

A bill was promptly snapped through Congress. It made it a crime for any person who by virtue of his employment by the United States obtained information about our official diplomatic codes to pass on the information to unauthorized persons.

It applied also to foreign cipher work, so that there could be no more talk about breaking other nations' codes. And it applied to the subject matter of coded messages as well as to cryptographic methods. (Some government legal experts are now wondering whether the person who gave Whittaker Chambers his "pumpkin" document could not be prosecuted under this provision of the act.)

### Time To Repair Ice-Damaged Trees

COLLEGE STATION, Jan. 28—Nature dropped a coating of ice over two-thirds or more of the state recently—at least once, anyway.

This chilly pastime for Old Man Winter has literally put many of the trees and shrubs in cold storage. And a cloak of ice usually does more harm than good to our ornamental plants used in landscaping home yards and lawns.

First aid is generally necessary for these thousands of shrubs damaged by ice storms if these plants are to regain their natural shape and beauty. Broken, split and bent branches and wounds all need a different treatment. Where the weight of ice has caused branches to break several feet from the trunk, pruning will help. Remove the hanging limb where it has broken off, then select a side branch between the break and the tree trunk. Cut off the limb at this point. Follow up by pruning to reshape the plant.

Sadie Hatfield, extension landscape gardening specialist of Texas A. & M. College, says that badly split branches won't grow back and heal over even though they are tied in place. Such split limbs should be removed at the trunk, leaving no stub at all. It's usually safer to prune off the split branches, and all the splintered and rough edges should be smoothed off before a wound paint is applied.

White or orange shellac makes good wound paint, says Miss Hatfield. Or you may make a mixture of your own if you so desire. Here's how: Heat eight parts (by weight) of resin and three parts of boiled linseed oil. Paint this mixture on the bark ring and hardwood area.

Branches that are merely bent over by the weight of the ice don't need quite as much care. They may pull back into place and held with strips of gunny sack or cloth. Miss Hatfield advises not to use wire and hard strings, as these may cut and injure the limbs. By the time the cloth rots away, the tree limbs ought to be growing back in their original shape. But if they aren't, you may need to cut part of the bent limb away.

Ornamentals such as the arborescences which have been disfigured by the weight of ice may be sheared. However, they can usually be bent back into their original shapes, Miss Hatfield says.

So if you've had any shrubs or trees that were put in cold storage by Old Man Winter, there may be some first aid work needed in your front yard.

### Helping To Control Mumps

AUSTIN, Jan. 28—Commenting on the necessity for individual cooperation in effecting the control of mumps, now widespread throughout the State, Dr. Geo. W. Cox, State Health Officer, emphasizes the fact that the contagion factor is present before any symptoms appear, and strict isolation of all patients is the surest means of controlling the spread of this disease.

Mumps is transmitted by direct contact with an effected person or articles freshly contaminated by the secretions of the mouth or nose of persons having the disease. It takes from 12 to 26 days for mumps to manifest itself after the infection occurs. The disease can be easily transmitted, but one attack usually establishes permanent immunity and second attacks very rarely occur.

The most easily recognizable characteristic symptom of mumps is a painful swelling of the salivary glands. Sometimes there is an involvement of other portions of the body, causing disturbances in the digestive, nervous, circulatory, and genito-urinary systems. The disease is usually accompanied by temperature rise which more often than not is mild.

"Patients suffering from this disease should be isolated from other members of the family immediately upon the suspicion that mumps exists, and the family physician should be called in promptly," Dr. Cox said. "In the meantime, complete rest in bed is indicated. The doctor's orders should be followed strictly. Violating his instructions can lead to serious injury, which may permanently affect the patient's health."

### Experts To Study Taxation In Texas

DENTON, TEXAS, Jan. 28—Bullock Hayder of the North Texas State College economics and government department has been named by Gov. Beauford Jester as one of 10 experts in the field of taxation and finance who will assemble factual data on problems of taxation in Texas.

The group will serve as a fact-finding body, and material gathered will be presented for consideration of the legislature and of such statewide committees as the legislature may create to make reports on the entire tax structure of the state.

Headed by Dr. Stuart MacCorkle of the University of Texas, the group will study the present tax structure of state and local government, federal-state fiscal relationships, fiscal problems of county and city governments, obsolete and unimportant state taxes which might be abolished, and any other changes in taxes and administration which might be indicated.

### Senator Corbin Mixes Business With Pleasure

AUSTIN, Jan. 28—Senator and Mrs. Kilmer B. Corbin of Lamesa were among the guests of honor at inaugural festivities held here last week for Governor Beauford Jester and Lieutenant Governor Allan Shivers.

One of the most gala occasions in the annuals of the biennial celebrations, the festivities attended by Senator and Mrs. Corbin included a pre-inaugural dinner Monday evening at the Austin hotel, at which he governor, lieutenant governor and newly elected senators and their wives were honored guests. The dinner was sponsored by the Senate Wives Club.

A reception to fete the governor, lieutenant governor and members of the legislature was held at the Austin Country Club Tuesday afternoon and an hour later public reception was underway in the rotunda of the capitol with all state officials forming a receiving line.

From the public reception the spotlight switched to Gregory Gymnasium, where Governor and Mrs. Jester led the grand march to start the evening's dancing.

Amid all the pomp and ceremony that prevail in Austin during the first days the legislature was in session Senator Corbin found time to write and sponsor five of the first 100 bills introduced in the senate. He stated this week that he will keep his constituents fully informed of his legislative activities, and that a general explanation of the bills he has or will introduce will be issued within the next few days.

Senator Corbin also said that he will greatly appreciate anyone interested in matters pertaining to state government contacting him either by mail, telephone or in person.

His Austin mailing address is Drawer D, Capitol Station, and his telephone number is 6-2222. He may be reached at his residence by telephoning No. 6-2190.

Mr. and Mrs. Lee O. Allen and Mr. and Mrs. W. T. Howze left Sunday for Corpus Christi for a two weeks visit.

Miss Margaret Goza is spending this week in Lubbock and Sunday with relatives and friends.

Mr. and Mrs. P. A. Nowlin of Clovis, N. Mex. arrived Thursday to spend the weekend with relatives and friends and attend to business.

America has some 4,000,000 "hidden" houses not counted in government housing statistics, says a large business publication. So that's the reason we haven't been able to find a place to live!

### Terry Countians Invest In U. S. Bonds

The people of Terry County bought \$139,959.00 worth of U. S. Savings Bonds during 1948, according to a year-end report by Harry Owens of Dallas, state director for Savings Bonds, to J. O. Gillham, County Savings Bonds chairman. During the same period, the people of Texas bought \$196,448,587.50 worth of these securities.

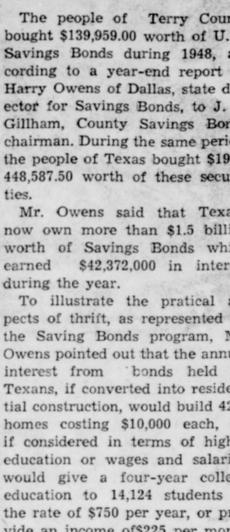

Mr. Owens said that Texans now own more than \$1.5 billion worth of Savings Bonds which earned \$42,372,000 in interest during the year.

To illustrate the practical aspects of thrift, as represented by the Saving Bonds program, Mr. Owens pointed out that the annual interest from bonds held by Texans, if converted into residential construction, would build 4237 homes costing \$10,000 each, or, if considered in terms of higher education or wages and salaries, would give a four-year college education to 14,124 students at the rate of \$750 per year, or provide an income of \$225 per month for a full year for 15,693 persons.

Mr. Owens said that of the state's total bond sales last year, Series E, the "people's bond," accounted for \$139,591,216.25, or 71 per cent.

"There are more Savings Bonds in the hands of the people today than ever before," he said. "Almost 70 per cent of all bonds ever issued are still in the possession of their original owners. The sale of series E bonds in Texas alone during 1948 was \$4,940,447.50 more than for 1947."

### Ticklers

"Paw, you've gotta do something about the floor upstairs. Grandmaw has come through again."

### Gorgeous George Takes a Whirl

Gorgeous George (horizontal), glamor boy of the wrestlers, gets the business from his unglamorous opponent, Ralph Garibaldi, in Chicago's Amphitheater. The Gorgeous One, wearing long, curly tresses wrapped in a spun gold hairnet, gives the fans a show. He wears startling robes, selected from a huge wardrobe, and never wrestles until his valet has thoroughly sprayed the ring and ropes with perfume-scented disinfectant. Everybody laughs, but they flock to see George, and that's the payoff.

### Program To Protect West Texas Water Rights Launched

ABILENE, Jan. 14 Protection of the domestic water rights of West Texas today was termed by president John Mitchell of the West Texas Chamber of Commerce, as the most important task for 1949. Mitchell, who is president of the First National Bank of Odessa stopped in Abilene for a conference with General Manager D. A. Bandeen.

"We are launching on all fronts a very comprehensive and constructive program as worked out by our executive board, eight district meetings and board of director action during October and November," Mitchell said.

"Our first and most important task is to protect our municipal and domestic water rights now being seriously threatened by legislation requiring that all big power dams be first filled with water before our West Texas towns can get water.

"My town of Odessa would be foolish to participate in a \$12 million tri-city water project if our water supply on the Colorado is first dependent on the big power dams around Austin being filled before we can have water. The same applies to all West Texas towns."

To assure action on this before the legislature the Municipal Legal Rights and Defense Committee meeting has been called for Amarillo 10 a. m. Monday, Jan. 17, in the office of Mayor Lawrence Hagy, who is co-chairman with Charles South of Coleman of this important committee. Other members are Preston Kers, manager of the Odessa Chamber of Commerce, secretary; Charles E. Coombes, Stamford, legal consultant; Mayor Yance M. Davis, Rotan; Mayor A. C. Humphrey, Stamford; Mayor A. F. Little, Jackboro and R. M. Wagstaff, Abilene, who was one of the authors of the WTCC-Wagstaff-Woodward act which is the law which now gives domestic users prior rights to water.

Proposed new legislation would place a vested right to water that falls on West Texas water sheds with present appropriation holders, which include power dams, thus depriving municipalities of their rights to recapture this water for domestic use, under the present law, according to Mitchell.

At the same time he pointed to the importance of another com-

'Yes, Sir . . .'

Southern California's recent unpleasantness gave Hollywood actress Gloria de Haven, above, her first chance to take a real sled ride. Gloria was working in the Universal-International movie, "Yes, Sir, That's My Baby," when the snow blanket halted production and let her get out for a good time—and a good snow picture.

Families are planning fewer children, are waiting longer to have them, and are setting increasingly higher objectives and attainments for their children.

Committee, which will meet in San Angelo, Jan. 10. This is the legislative enactment committee of the Soil Conservation Commission and headed by W. R. Cusenbary of Sonora and Wendell Mayes, Brownwood. Other members are Paul Counts, Fort Stockton Chamber of Commerce manager, secretary; Sterling Williams, Snyder; Judge L. M. West, Channing; Judge Robert Herring, Breckenridge and J. Walter Hammond Tye.

It is the duty of this committee to assist in passage by the 51st session of the legislature an enabling act prescribing terms and conditions of use by the respective counties of the state general fund ad valorem as constitutionally diverted to the counties. Under this bill the counties are assured the maximum of local self government in the expenditure of these funds within the counties for soil conservation, farm - to - market roads and water conservation purposes.

### TEXAS CONGRESS OF PARENT AND TEACHER OFFERING SCHOLARSHIPS

DENTON, TEXAS, Jan. 28—In an effort to increase interest in teaching in Texas schools, the Texas Congress of Parents and Teachers is offering two scholarships of \$200 each per school year to students attending North Texas State College.

Scholarships will be awarded to two students of Junior or senior rank in each state teachers college, and students accepting them will be expected to teach two years in Texas schools.

"The effort is being made because of our keen interest in the Read And Use Herald Want Ads

emergency arising from the teacher shortage in our state," Mrs. J. H. Moore, president of the group, explained in a letter to president W. J. McConnell of NTSC.

### MR STURGIS RETURNS FROM NEW YORK

Mr. Edwin Sturges returned Monday by plane, from New York, where he had been on business during the past week. He stopped in Cedar Rapids, Iowa to visit his mother. Mr. Sturges is manager of the Arizona Chemical Co. here.

# NOTICE BOND OPPONENTS

Since there will be several elections this year, such as Trustee, might be the repeal of the Bonds, possibly another bond election, in the schools, the things that might come up in the local, as well as County and State and: Since the outcome of these elections will have a most vital effect upon the efficient working of the school and Community in the plotting of the course of business, co-operation of the people, their progress, prosperity and welfare, at the present and for sometime in the future. We urge that you render your property for taxes, pay your poll tax and exercise the same in the coming elections..

YOUR COMMITTEE

### SUMMER CATALOG OF TECH READY MARCH 1

LUBBOCK, Jan. 28—Summer catalog for Texas Technological college will be ready for public distribution about March 1. All copy is to reach the catalog committee by Jan. 24, and be ready for printing immediately.

The catalog schedule has been stepped up to provide catalogs earlier for students planning to enroll for summer sessions.

### CARD OF THANKS

Mr. and Mrs. W. B. Downing take this means of expressing their gratitude for the many remembrances which were extended them during the recent loss of her brother, and the hospitalization of her husband, Mr. Downing at Temple.

### INSPECTORS CAPTURE SIX ILLICIT STILL

The Texas Liquor Control Board Inspectors in December reported the seizure of 6 illicit stills.

With the stills, which had a cubic capacity of 290 gallons, Inspectors captured 775 gallons of mash and made 6 arrests. 3 gallons of moonshine liquor was destroyed.

One still was taken in each of the Counties of Bowie, Morris, Wood, Cherokee, Marion, and Smith.

Most garden soils should be prepared for spring planting in January or early February. Be sure to allow for good drainage of the garden plot.

The outlook is going to be good for the dairyman who does a good job.

### Dream Train Ride for Young Casey

When Jimmy Colcough, 11, of Canastota, N. Y., reported a broken rail to New York Central railroad officials and averted a possible train wreck, he became a full-fledged hero. Among his rewards was a 150-mile ride in the engine of the Empire State Express from Albany to Syracuse, with a slowdown to greet the crowds in his home town. Jimmy also got a set of electric trains, a \$100 check and promise of a job when he's 21, but he prized his time "at the throttle" most.

### Texas Retailers Sales Climbed \$554 Million In December

AUSTIN, TEXAS, Jan. 20—December sales of Texas retailers climbed 21 per cent to an estimated \$524 million, preliminary tabulations of the University of Texas Bureau of Business Research showed.

In comparison with a year earlier, dollar sales edged up 1 per cent.

Sales of durable goods stores rose 6 per cent in December to a level 3 per cent above December 1947. Except for a 12-per-cent decrease in farm implement dealers sales and a 6-per-cent decline in automotive store sales, all durable goods stores turned in gains over the previous month.

Jewelry stores more than doubled their sales from November to December. Furniture and household stores increased sales 35 per cent in December; hardware stores 20 per cent; and lumber and building material dealers, 5 per cent.

All types of nondurable goods stores shared in the over-all rise

of 33 per cent from November. Reflecting Christmas buying and post-holiday clearances, apparel stores showed December sales 48 per cent ahead of the preceding month. Sales of men's and boys' clothing stores jumped 71 per cent; family clothing stores, 49 per cent; shoe stores, 36 per cent; and women's specialty stores, 35 per cent.

Other substantial gains over November were reported by florists, 71 per cent; department stores 53 per cent; general merchandise stores, 43 per cent; and drug stores 42 percent.

December sales of durable goods stores were 3 per cent above a year earlier, and nondurable goods store sales were up fractionally.

Santa Fe System loadings for week ending January 22, 1949 were 21,347 compared with 25,129 for same week in 1948. Cars received from connections totaled 10,407 compared with 10,755 for same week in 1948. Santa Fe handled a total of 30,698 cars in preceding week of this year.

Another Woman's Angle

Mrs. Buell Price
Old Man Winter seems reluctant to release his icy grip on Terry County.

At least most of us are fortunate enough to have warm and comfortable houses, and sufficient heavy clothing to prevent any real discomfort.

Thinking of col weather makes us a little envious of Dana, Ruth McIlroy, who leaves Friday on a trip to Mexico.

Their itinerary reads like a brightly colored travel folder, on tropical vacations. They will spend two weeks visiting such glamorous spots, as Acapulco, the famous Pacific resort town, Mexico City, where they will stay at the Del Prado Hotel, Taxco, the silver mining capitol, Vera Cruz, and Pueblo.

We are in hopes that Dana Ruth will keep some record of her wonderful trip and provide us with a journal telling of her experiences, for publication when she returns.

The drive for funds for the club house to be built by the Maids and Matrons and Alpha Omega Study clubs is still going on.

In connection with the publicity for the March of Dimes we have been reading lots of literature sent out by the National Foundation. We only wish it were possible to publish all the pictures of little folks smiling bravely, as they try to learn to use withered arms, and legs.

Federated Missionary Society To Have Meeting

The Federated Missionary Society of Brownfield meets Monday, January 31 at the Presbyterian Church at 3:00 p. m.

All the women of Brownfield Missionary Societies are urged to attend.

V. F. W. HELD BUSINESS MEETING

Parker-Fetch Vows Read At Home Ceremony

Miss Alpha Joyce Parker, of Phoenix, Ariz. daughter of Mrs. W. S. Bradley of Brownfield, and C. W. Fetch Jr. son of Mr. and Mrs. C. W. Fetch of Kansas City, Kan. were married in the home of Miss Parker's brother, Wayland Parker, at 6:00 p. m., on Friday, Jan. 21.

The couple were united in a double ring service, read by Rev. Joe Preston Murphy, pastor of the First Presbyterian, Church. Vows were exchanged before the mantle decked with white gladioli and white tapers. The bride was given away by Mr. W. S. Bradley.

"A Wedding Prayer", and "Because" were played during the ceremony. Miss Arnetta Lukas sang "My Hero", and Mrs. Lewis Parker sang "As The Years Go By". They were accompanied by Miss Bobby Helen Brian.

The bride wore a street length, cream crepe dress. It's high neck was emphasized by a cameo pendant belonging to the brides mother. She carried a white bible to which was fastened a corsage of pink and white carnations. She wore the traditional blue garter and a penny in her shoe. Her attendant Mrs. Wayland Parker wore a dress of pearl blue, and carried pink iris. Bill Fullerton of Seagraves was best man.

A reception followed the ceremony. A three tiered wedding cake centered the table, which was decorated in the pink and white floral theme.

Out of two guests at the wedding and reception were: Mr. and Mrs. Lewis Parker of Sabin, Texas, Mr. and Mrs. Pete Owens of Littlefield, Mrs. Laurence Margee of Lubbock, Mr. and Mrs. L. L. Brock of Ray, N. Mex. and Mr. and Mrs. Bill Fullerton of Seagraves.

The bride wore for her going-away costume a navy alpaca dress and white straw hat. The bride and groom left immediately following the ceremony for Phoenix, Ariz., where they will be at home at 6002 South 12th Place.

Mr and Mrs Ellis Attend Sons Wedding

Mr. and Mrs. T. M. Ellis and children, Joyce, Edward, and Mary Ann, spent the week end in Dallas while there they attended the wedding of their son J. T. He was married Saturday, Jan. 22 to Miss Betty Lee Stewart, daughter of Mr. and Mrs. Lee Stewart of South Barnett, at the Brooklyn Ave. Methodist Church.

The young Mr. and Mrs. Ellis will make their home in Denton, where J. T. is enrolled in college.

Luncheon Held For Helper's Class

The Helpers Class of the First Baptist Church held a luncheon at the home of Mrs. A. W. Turner, Thursday at 1 o'clock. Assisting Mrs. Turner as hostesses were Mmes. Paul Campbell and Vergil Burnett.

Mrs. Arlie Lowmore, president of the class presided over the business meeting.

Those present were: Mmes. Andy Anderson; Toby Greer; Gene Harred; Ted Hardy; Buddy Norris; Grady Goodpasture and Arlie Lowmore.

Jungle Jane

Hollywood actress Hillary Brooke models the "new look" jungle outfit which she created for her role in the movie, "Africa Screams." From top to bottom, she wears: pith helmet, modified Eisenhower jacket and silk blouse, swing skirt with 10-inch hemline, nylons and oxfords.

DARIS NEWTON AND LONNIE SEXTON MARRY

Miss Doris Newton, daughter of Mr. and Mrs. C. E. Newton of Idalou, and Lonnie Sexton, son of Mr. and Mrs. T. G. Sexton of Brownfield were married Sunday, Jan. 22, at the First Baptist Church. The bride was given in marriage by Mr. Billy Bond, Rev. A. A. Brian read the service before a background of salmon gladioli, white mums and woodwardia fern.

A double ring ceremony was used. The bride wore a beige gabardine suit with black accessories and carried a corsage of red roses. Her attendant, Miss Betty Smith of Brownfield, was attired in a dress of navy blue, with pink accessories. Her corsage was of pink carnations. T. C. Hogue, Jr. acted as best man.

Miss Ruth Huckabee played the traditional wedding music, and Bobby Helen Brian sang "Because".

A reception followed the ceremony at the home of the grooms parents, Mr. and Mrs. T. G. Sexton. Yellow candles and white wedding bells decorated the lace covered refreshment table. Mrs. T. C. Hogue Jr. served the cake, and Mrs. Tarzan Crossland, and Miss Arnetta Lukas poured coffee. They were assisted by Mrs. A. W. Turner, Mrs. C. D. Wise, and Mrs. C. D. Ross. Mrs. C. H. Decker registered some 57 guests in a white brides book, decorated with white and yellow streamers.

The bride and groom left on a short wedding trip. Upon their return they will make their home in Brownfield.

Mrs. Hinson Entertains H. D. C.

The Pleasant Valley Home Demonstration Club met in the home of Mrs. Mancel Hinson on Jan. 21. During the short business meeting the club decided to vote for Beautiful Texas for the Terry County Home Demonstration Club song.

The enjoyed an afternoon of 42 with prizes going to Mrs. E. V. Riley and Mrs. Lester George. Mrs. Lillie Forbes and Mrs. Belton Tatum won second prizes.

Refreshments were served to the following members: Mmes. Massingill, Lester, George, Hubert, Cullen Forbes, E. V. Riley, Leonard Willie, and Delton Tatum of Lovington N. Mex. and the hostess, the next meeting will be with Mrs. Massingill.

Mrs. Sadler Hostess To The P. S. G.

The Presbyterian Service Guild met in the home of Mrs. Ken Sadler Monday afternoon at 2 o'clock.

Mrs. J. M. Teague, president, opened the meeting and held the services installing new officers for the year. They are: Mmes. Abel Pierce, president; Ken Sadler, vice president; R. E. Klotfanda, treasurer; Al Muldrow, secretary and reporter.

Mrs. Pierce presided over the business meeting held. Mrs. Muldrow gave a devotional taken from the sixth chapter of Isaiah. Mrs. Claude Buchanan led the lesson discussion on "Why have special days of Worship?"

A dessert plate was served to the following: Mmes. W. B. Brown, C. L. Buchanan, R. E. Klotfanda, Al Muldrow, J. P. Murphy, A. H. Pierce, J. M. Teague and Frank Wier.

WEST WARD PTA TO MEET

The West Ward P. T. A. will meet Thursday night, Feb. 3, at the High School Auditorium. Senator Kilmer Corbin of Lamesa will be the principal speaker. His talk will be on "A Democratic Unit of World Peace."

HARMONY HOME DEMONSTRATION CLUB MEETS

The Harmony Home Demonstration Club met in the home of Mrs. Jewell Bell, Jan. 20. Twelve members were present also a new member.

Two quilts were quilted for the hostess. Miss Dunlap gave a demonstration on making processed cheese. The next meeting will be held Feb. 3.

Miss Mildred Eubanks And Adon Carr United

Miss Mildred Eubanks, daughter of Mr. and Mrs. Bill Eubanks of Happy, Texas, and Adon Carr, son of Mr. and Mrs. Floyd Carr, of Arlington, Texas, were married in the home of the brides parents, on Sunday, January 9. Rev. A. H. Shaw, pastor of the Happy Baptist Church performed the ceremony before an altar decked with tall white tapers, white carnations and woodwardia ferns, and flanked with baskets of white gladioli.

Miss Eubanks was married in a traditional white gown, fashioned of satin, with a lace trimmed neck yoke, long sleeves, and full skirt, ruffled at the bottom, and caught at intervals with white satin rosettes. She carried yellow roses. Her attendant was her sister, Mrs. Geo. Wood, wore a gold taffeta dress designed like the brides. Mrs. Wood carried white carnations. Another sister of the brides, Miss Billy Eubanks, was candle lighter. She was attired in a miniature bride gown of orchid satin, and carried a corsage of tiny orchids. Geo. Wood was best man.

The reception was held immediately following the ceremony. Miss Billie Eubanks registered the guests in a white brides book. Miss Minnie Ruth Foster of Plainview, and Mrs. Harold Hill of Brownfield, presided at the refreshment table in orchid and yellow gowns identical to the matron of honors. The table was decorated with white tapers, and yellow roses. Spiced tea, and wedding cake were served.

Following the reception Mr. and Mrs. Carr left for Amarillo, where they will make their home.

LIONS CLUB HAVE LADIES NIGHT BANQUET

The local lions entertained their wives with a banquet at the Legion Hall at 7:30 on Tuesday night Jan. 25. Over 100 attended.

The evenings entertainment was provided by fun program. H. B. Virgil Crawford acted as master of ceremonies. Rev. J. Preston Murphy gave an imitation of Dr. Nutt of Coo Coo College, and spoke on the A. B. C.'s of Matrimony. Lion, Milton Bell discussed Psychrometry. Herbert Chesshir led a Three Lions were given various question and answer period, materials and had a contest at creating feminine hats. Willie McDonald and Geo. Wade won first and second prizes. In concluding the program Crawford Taylor led the members and guests in songs contrasting the music of the Gay Nineties with the Fantastic Forties.

ALPHA OMEGA PROGRAM DEALS WITH SOCIAL PROBLEMS

The Alpha Omega Study Club was entertained by Mrs. Wayland Parker, on Tuesday, Jan. 25. The program topic was Social Problems. Mrs. Lee Brownfield discussed Racial Segregation. The State Prison System was reported on by Mrs. Virgil Crawford. Institutions and Hospitals were covered by Mrs. Clarence Lackey. Mrs. M. J. Craig Jr. was installed as a new member at the meeting. She was presented with a corsage of carnations, the club flowers, in the club colors, maroon and white.

Pecan pie and coffee were served to the following: Mmes. Lee Brownfield, H. B. Virgil Crawford, A. J. Geron, E. C. Gerstenberger, Jake Gore, Jack Hamilton, Tommy Hicks, Wayne C. Hill, R. E. Klotfanda, Clarence Lackey, N. L. Mason, W. T. McKinney, M. J. Craig Jr., V. L. Patterson, John H. Portwood, J. O. Rodgers, Sam Teague, Chad Tarpley, Coleman Williams, and George O'Neal.

JESSIE G. RANDAL PTA MEETS

Due to the weather conditions the Jessie G. Randal P. T. A. meeting slated for Jan. 13 was held on Jan. 20. Many members were absent due to inclement weather and illness. In the absence of the officers, Mrs. J. M. Teague conducted the meeting. She spoke on the "Rearing of Our Boys", and Mrs. Virgil Crawford, reported on the "Training of Girls". Both of these subjects were discussed by the group in general during the social hour. Mrs. Chic Lee, and Mrs. J. C. Criswell served cakes to some 50 members present.

Mrs. John Hopkins has returned to her home in Dalhart after a weeks visit with her sister, Mrs. R. L. Hamm.

Spring Forecast: Flowers

Belle Baldwin shows what the ladies' spring hats will look like at the 1949 spring show of the Millinery Stabilization Commission in New York. She wears a white oversized cartwheel of rough straw trimmed with vari-colored velvet sweet peas. She holds (left) a pink straw roller trimmed with asters and (right) a natural straw bonnet trimmed with daisies.

KITCHEN MEMO

JEAN CLARKE

If you don't feel like turning on the oven to bake cookies, try Grid-De Cookies cooked over the top burner. Preheat griddle for three minutes with flame full on, then turn down to low simmer for entire cooking period. Best heat test is a drop of water which should dance, rather than steam, on the griddle surface. Put 1 egg, slightly beaten, into 1/2 cup milk. Add 1 cup raisins. Sift once 3/4 cups all-purpose flour, 1 cup sugar, 1/2 tsp. baking powder, 1/2 tsp. baking soda, 2 tsp. nutmeg, 1/4 tsp. salt. Work 1 cup shortening into dry ingredients with pastry blender until mealy. Then pour into this milk, egg and raisin mixture. Mix. Wrap dough in wax paper, chill in refrigerator 1 hour. Roll out 1/4" thick. Cut with cookie cutter. Brown on slightly greased griddle on one side, then on the other. Makes 36 cookies.

Don't worry about boilovers on your top burners. Just wipe them up with a cloth dampened in warm water. Later, when your gas range has cooled, you can do a more thorough cleaning job.

Neither hot water nor gas is wasted when you have an automatic regulator on your gas water heater, because gas is turned on and off automatically only as hot water is needed.

The built-in towel drier and movable racks on some new gas ranges not only save precious space but also hide unsightly dish towels and cloths.

An ordinary vegetable parer is a good tool to use for grating chocolate or cheese and certainly easier to clean than a grater.

### NTSC Receives Dinosaur Track

DENTON, Texas, Jan. 28—A dinosaur track believed to be 150 million years old has been presented to the North Texas State College geography department, headed by Dr. Walter Hansen.

The track, given to the department by Emmet R. Johnson, student from Nucla, Colo., was found on the roof of a mine near Naturita, Colo. Size of the impression, about 22 inches by 18 inches, indicates that the dinosaur was about 35 feet long, Hansen says.

Oysters are good to eat throughout the year, even in the "R-less" months.

### No Horses Or Mules

COLLEGE STATION, Jan. 20—Texas farmers are making long strides toward complete mechanization of crop production, according to H. P. Smith, agricultural engineer of the Texas Agricultural Experiment Station.

Smith has just completed analyzing information on power used on Texas farms in crop production furnished him by county agricultural agents.

No mules or horses are used in crop production in about 40 Texas counties. With the exception of some hand-hoeing and hand-harvesting of cotton, crop production in these counties are completely mechanized, Smith said.

Thirty counties use less than 25

horses or mules, while in another 35 counties less than 100 horses or mules are used in crop production, Smith said.

Tractor power is used exclusively in the production of all crops in a block of 77 Northwest Texas counties. It was reported that a few farmers in these counties still keep a team or two for odd jobs about the farm or for hauling feed.

There are about 47 million acres in these 77 counties. The total devoted to crop production amounts to about 14 million acres.

Smith found that East Texas farmers still use a good deal of animal power. This is likely due to the farmers being smaller units than in West Texas. East Texas farmers were reported to use horses and mules ranging in number from a few hundred per county to more than 6,000, Smith said.

Mr. and Mrs. Jack Shirley and daughter Pam returned Sunday from Fort Worth where they spent several days visiting Miss Rose Palmer, taking care of business, and shopping.

Mr. and Mrs. Sam Privitt visited Mr. and Mrs. J. K. Applewhite in Tahoka, Sunday.

### G I QUESTIONS AND ANSWERS

Q Is the widow of a World War I or a World War II veteran entitled to a pension even through the husband had no service-connected disability?

A For World War I widows the answer is yes. Benefits are payable under Public Law 483, 78th Congress, if the veterans' service meets the requirements and the widow's income not exceed limitations established by law.

A World War II widow whose husband had no service connected disability is not eligible for pension.

Q Is it true that National Service Life Insurance pays the insured veteran \$5 per month for each \$1,000 of insurance in force while he is totally disabled?

A If the veterans pays the necessary extra premium, he will be paid \$5 per month for each \$1,000 of insurance in force after he has been totally disabled for 6 consecutive months. Application for total disability income may be made at your local VA office.

Q Can the beneficiary or family of a veteran make premium payments on his National Service Life Insurance if the veteran doesn't care to do so?

A Yes, but the insured veteran has the right to change his beneficiary or beneficiaries at any time without consulting with or receiving the approval of anyone. He may also surrender his permanent NSLI policy for cash at any time.

Q I bought my home without a G I loan. May I secure a guaranteed loan to buy furniture for it?

A No.

The Romans made medicines and a kind of cement out of oyster shells.

# You'll be riding a Winner this winter!

LIGHTLY spur that Buick thoroughbred of yours. Feel it surge ahead with a sure-footed stride, stepping out in front to set the pace—with never a murmur or complaint.

Yes, you can have quiet, lively horsepower like this, and a chassis that's free of stiffness and winter squeaks—if you let us keep your Buick in tiptop shape.

Take lubrication, for example. For the price of a routine "grease job" elsewhere, we turn our Buick-trained men loose on a complete, tailor-made lubrication service

from hood latch to trunk handle. They make a regular habit of extra care, such as dropping a spot of graphite on the carburetor heat-conducting shaft, or using a special, non-sleeve-soiling lubricating stick on your door strikers—and we could list a dozen more.

The point is, these mechanics are Buick specialists of long and patient experience—they know your Buick and its needs better than anyone else—and they take pains to keep you happy with it.

Yet you don't pay a penny more. Why not drop in this week?

### Time for our special LUBRICARE service!

No need to drive a stiff and squeaky car, when our factory-engineered LUBRICARE program offers you so much service for so little money.

For the price of a routine "grease job" we give you specialized lubrication, matched to the mileage on your speedometer—plus a number of free inspections to forestall future trouble.

### Educational Program To Combat Venereal Disease

AUSTIN, Jan. 28—Throughout America men and women have become conscious of the necessity for fighting the menace of venereal diseases, and it is a matter of pride to public health workers that the entire nation now joins in the observance of National Social Hygiene Day, which is this year is dated February 2.

Dr. George W. Cox, State Health Officer, states that at the present time three rapid treatment centers are being operated in Texas, located at San Antonio, Waco and Rocky Mount, and that a total of approximately 15,000 patients per year are being treated in these centers. Ninety-six venereal disease clinics are also in operation throughout the state, and these clinics as well as the rapid treatment centers are primarily for the treatment of indigent and semi-indigent persons referred by physicians or local health units.

In the past two years a blood survey of more than 80,000 Texans has disclosed that between seven and ten per cent of that number had positive tests for syphilis and that a large majority of them did not know they had the disease and had never had medical treatment for it. This vast reservoir of untreated syphilis is one reason for its continued spread, and it is a notable achievement in furthering public health that approximately 98 per cent of these persons have been brought under treatment so that they can no longer spread the disease. More than 43,000 contacts have been investigated and placed under treatment until no longer infectious. A continuous educational program carried on by the State Department Health is another effective means for controlling venereal disease among our people, and reducing the number of crippled, blind and paralyzed persons who are annually the victims of syphilis and other venereal diseases.

Mr. and Mrs. Walter Hord were visitors in Lubbock Sunday.

### Corbin Youngest Member Of State Senate

ANSTIN, Texas—Senator Kilmer B. Corbin of the 30th Senatorial District along with ten other new members of the Senate took the oath of office at noon on January 11th. The Senate completed the organization on that date and is proceeding with legislation. Of the 31 members of the Senate, Senator Corbin is the youngest member.

Senator Corbin reports that the problems which will confront the 51st Legislature are many and varied. At the present time financial matters are principal among topics of discussion among lawmakers.

Senator Corbin was selected to serve as the chairman of the committee on Town and City Corporations; vice-chairman of the committee on Aeronautics; and as a member of the following committees: Agriculture; Civil Jurisprudence; Congressional Districts; Finance; Insurance; Oil, Gas, and Conservation; Public Printing; State Institution and Departments; and Water Rights.

Corbin and his wife and three children—Barry, 8; Blaine, 5; and Jane, 4—are living in Austin during the session.

In a recent letter to the Herald Senator Corbin expressed his intention to keep the people of this area informed on legislative matters through the columns of this paper.

According to the Ropes Plainsman, George Martin has sold his residence in that city, and has purchased one in Brownfield. The Martins will move here as soon as weather conditions permit. Welcome.

Mrs. Masier and daughter Oletha returned Monday from McKinney where they visited relatives.

Miss Mary Ballard, co-owner of the Gore Fashion Shoppe, left Saturday for Dallas to attend market.

### DON'T WAIT

COLLEGE STATION, Jan. 20—Don't wait too long.

That's the advice from Sadie Hatfield, extension landscape gardening specialist of Texas A. and M. College, for those who plan to set out new trees or shrubs around the yard this year.

This is the time of year to do that kind of landscaping job, so better begin working on it now. Before you know it, the sap will begin rising and the buds will begin swellings after a spell of mild weather. And once the trees have their leaves, your good plans may have to wait another year. Trees that are set out late don't stand as much drought as those set early.

Planting new shrubs or trees, or transplanting old shrubs, is

best done right after a rain, says Miss Hatfield, and your plants in their new places should be well established before the leaves unfold. The leaves use up much of the plant's vitality.

When you put trees out, it's best to ball and burlap them to keep the roots from drying out. For the planting job itself, use a spade or a long handled shovel for digging the hole. Make it deep enough so that the trees will not be more than an inch deeper in the ground than they were in the nursery or the woods. Planting too deeply injures or kills the shrubs. Be sure the hole you dig is large enough to hold the plant's roots without crowding them in, or curling them up toward the surface.

### FARM QUESTION BOX

by ED W. MITCHELL  
Farm Advisor  
General Electric Station WGY

Q. Last year we had two pigs that dressed out about 100 pounds each. The smoked meat was very rubbery. Can you tell me what caused that?

A. If animals exercise violently, get overheated or excited just before they are killed, the meat is apt to be tough and spongy. In a good slaughter house the animal is kept as quiet as possible, stunned to make it unconscious and the vein cut so it bleeds to death. The cooling, aging and curing also affect quality of meat.

Q. We have a crab apple tree that has bloomed twice this year and is now growing apples for the second time. Please explain.

A. Fruit trees often bloom a second time in a season if frost or fire has killed the first crop of bloom—or the tree is about to die and makes a supreme effort at reproducing itself.

Q. My hens are eating their eggs. They have grit, grain, green grass and are very fat. They are young and laying well. How can I break this habit?

A. Go out some night with a sharp knife and snip off the tip of the upper beak back to the quick line, and gather eggs frequently. Have nest dark and china eggs in them and on the floor.

Q. Notwithstanding your loyal protection of the harmless garter snakes, and charitable promotion of their virtues—I don't like

them and want to get rid of them and please tell me how to do it. I'll tell you all I know, or nearly all. Remove as far as possible all refuse where they can hide, such as closed-in porches, stone walls, rubbish-heaps, etc. Keep dogs and cats and try to train them to kill the snakes. You can't poison, trap or fumigate them so the above is about all you can do.

Q. Have just set 200 raspberry plants and have been advised to cover the ground with four to six inches of shavings. What is your opinion?

A. It is a good idea; they will afford a good mulch and winter protection, and improve the soil as they get worked in and rot.

Q. What can I do to get rid of termites in the basement of my house?

A. Break the mud galleries, apply creosote wood preservative and use oil to soak soil around foundations.

Q. Is it worth while to raise a heifer calf whose mother, grandmother, etc. were excellent producers but whose sire was a scrub bull? My farmer says heifers resemble the sire rather than the mother in milk production. What is the Mendelian law?

A. Mendel's law is that out of four offspring, one will resemble father one the mother and two be a compromise of the two. An expert can tell by examining the calf if it will make a good cow, but it seldom pays to raise anything but stock with good parents on both sides.

### STRICKLINLY SPEAKING

Serious—Sincere—Silly

If we are not mistaken the temperatures dipped far lower last January than so far this year, but left little or no moisture. So far this January, with rain, sleet snow, the later two melted, have yielded some more than 3 inches of moisture, all going into storage in the ground.

Stockmen and farmers are in hopes of some early grass for grazing this year, and maybe some "winter" weeds that cattle and other livestock will eat as a green diet. All helps.

Many of us perhaps have been wondering where all the clouds that keep our skies overcast came from. Through the summer and fall when a shower would have been as welcome as the flowers in May, there was not a speck of clouds for a week at the time. And if some came up, a dust storm would blow them away.

Now a dust storm don't seem to have any more chance than rains did a month or so ago.

Speaking of dust storms, Winnie Mae (Clare) Hill wrote us recently from Beaver, Okla., to renew for her paper, and intimated that we have been accusing them of some of the dust down here. She misunderstood us, they are or were coming from the northwest.

Mrs. Hill says they are having little or no dust there, although it was once in the dust bowl. They have learned to handle the land. That lesson is going to have to be learned here or turn the country back to the Indians—if they'll have it.

Some of the crew made us say last week "that our brother said

we'd never make a printer." It should have been farmer, not printer. Or were both right?

It may be that we are just getting older and can't take it like old, but it appears to us that winters—the last two especially, are getting more severe.

A bill is being introduced at Austin so that car license tax can be paid at more than one place. We pay little attention to the matter, as we can go over to the courthouse and get the plates in just a few minutes most any time. But in the large counties with large cities it is something else again. You have to stand in line for hours.

Fact is, it is like the soldiers and sailors used to say while the war was going on. If you did not have to stand in line for whatever it was, it would be discontinued. Returning to the license plates, we understand that they will be sold at a number of the smaller towns in the big town counties.

Pontiac has announced a small increase in prices on the 1949 models of from \$40 to \$60. Of course if you want to go up into the streamliner models of the Pontiac, you may have to stand as much as \$135.00. That's up to the customer.

The National Dairy interests have put out a very nice bulletin of late. Of course it was nice argument for their side of the question versus oleomargarine. At the outset let us state that we really like butter better than oleo, but at the same time think some of their arguments weak. One is that oleo is "sold and called a butter substitute." We have never heard it called that.

Visitors from the north and east are astounded at the rapid strides Texas is making in gain of new industry. In the first place we have abundance of cheap fuel,

### GOMEZ GOSSIP

Mr. and Mrs. A. E. Fletcher and family are moving to New Home, Texas this week.

Mr. and Mrs. Loyd Franklin are announcing the arrival of a baby girl Sunday night Jan. 24.

Mr. and Mrs. Hiram Bingham an sons of Forrester community, visited in Bud Miltons home Sunday.

Claude Landiss and family visited in Lubbock Sunday.

Mr. and Mrs. Sam Bullard of Lamesa have moved to this community, also Mr. and Mrs. Bob McDonald of Meadow.

Mr. and Mrs. A. C. Copeland are home from the hospital and reported doing nicely.

Jimmie Coke of Abilene is home this week between semesters.

Mrs. S. McDonnell visited her nephew and family at Seagraves Saturday night and Sunday.

Mrs. Sherm Tingle and children were in Lubbock Thursday.

a lot of various raw materials, and plenty laborers, mostly untrained but willing to learn.

No, you are wrong, but we thought so too. According to the records kept by the West Texas Gas Co., the temperature just reached 18 Tuesday morning, but on Monday morning, January 3, The temperature dipped to 17 above zero. Either is cold enough to suit us.

### Veterans' News

No increase in the GI loan interest rate from 4 to 4 1/2 percent will be made at this time, Carl R. Gray Jr., Administrator of Veterans' affairs, has announced.

Section 103 of Public Law of the 80th Congress authorizes the Administrator of Veterans' Affairs, with the consent of the Secretary of the Treasury, to set by regulation a maximum interest rate of 4 1/2 percent on loans guaranteed by the Veterans Administration if it is determined that the loan market demands the increase.

Mr. Gray's decision not to increase the rate was reached after an exhaustive study of all factors involved. He said:

"I have consulted extensively with Government leaders, individual veterans, lenders and the veterans' service organizations through the United States.

"My principal responsibility and duty is to our veterans. In my studies of this question, I have reached the conclusion that an increase in rates would not be in their best interest, as the evidence fails to indicate an increase rate will make more houses available to veterans."

Acquisition of the 1,000-bed U. S. Naval Hospital at Houston, Texas, by the Veterans Administration and cancellation of VA plans to construct a 1,000-bed neuropsychiatric hospital, also at Houston, have been announced by VA.

Transfer of the Naval hospital will result in a savings of \$12 million in construction costs.

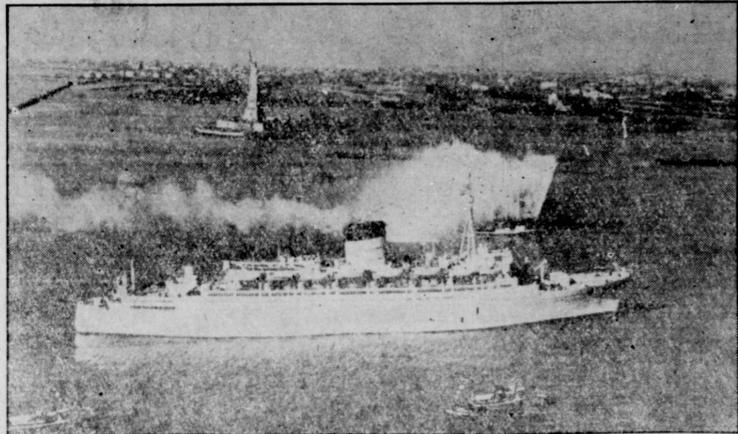

More than 9,000,000 World War II veterans have applied for education training under the GI Bill and Public Law 16 since the two laws went into effect in June, 1944, and March, 1943, respectively.

### Lawmaker

Rep. John Coffey (D) of Pennsylvania, newly-elected member of Congress, climbs aboard a P-80 jet plane at Andrews Field, Md., for a brief flight around Washington. Coffey, an Air Force reserve officer, is the only jet pilot in Congress. He was a lieutenant colonel in the Air Forces during the war.

### Luxury Liner Completes Maiden Voyage

The Cunard White Star Line's newest luxury liner Caronia, escorted by tugs and saluting fireboat, sails past the Statue of Liberty into New York harbor, completing her maiden trans-Atlantic voyage from Southampton, England. The Caronia, largest vessel built since the war, boasts the largest stack in the world and a hull painted in three shades of green.
