Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

NUMBER 2

First National Bank Is Observing 30th Year

The Herald wishes to call your attention to the ad of the First National bank in this issue. Particularly to the two statements along side each other. One of them was the first day of business after reopening, August 9, 1919. The other is as of August 1, this year and week. Admittedly, there is a vast difference in deposits of \$5,860.32 and \$3,287,425.66.

Kendrick Very Lonesome
Those of us who were here on that occasion remember that this lone banker looked rather lonesome in the small building on West Main, now occupied by Hamilton Auto Part. The fixtures at the opening of the new bank consisted of boxing plank desks, with chicken wire used to screen the working department. But R. M. stood in there all day and registered a smile when a customer or visitor called.

Yes, sir, he was the vice president, cashier and bookkeeper. But he had a board of directors. They were, other than himself, the late H. H. Longbrake, president, and the board of directors consisted of Longbrake, Kendrick, D. J. Broughton, J. F. Winston, and John Scudday, Jr., all deceased except Mr. Kendrick, and he looks like he'll be around for quite some time yet. The late Mayor Tom May made the first deposit in the new banking institution.

Soon the new building now occupied was under construction, and it was thought.

be in the new building by January 1, 1920, but it was up in March. In January that year, Mr. Kendrick was elected president and the late Will Alf Bell, vice president and cashier. Luther French was employed as bookkeeper. W. R. McDuffie, now vice president of the First National bank of Lubbock, joined the staff in 1924 as cashier.

Other early day employees were Ergie Rambo, now Mrs. Claude Henderson; Miss Lorelle Brownfield, now Mrs. Ike Bailey; Miss Gladys Kendrick, now Mrs. O. L. Stice; Miss Annie Bell Scudday, now Mrs. M. M. Hines of Forsan.

The present officers and employees are R. M. Kendrick, president; C. K. Kendrick, executive vice president; Richard Kendrick, Jr., vice president; John J. Kendrick, cashier; O. L. Stice, Ruth Huckabee, and Crawford Taylor, assistant cashiers. Frances Rambo, Shirley Wilgus, Mrs. Raymond Warden, Mrs. Milton Hughes, Lillian Cameron and Frank H. Gorton are bookkeepers.

To Show Old Money
The First National extends a cordial invitation during anniversary week to see the old currency display on the 8th through the 12th. This will consist of paper currency of the United States from colonial days to the present time. This very interesting exhibit has been compiled by the Federal Reserve Bank of Dallas.

Lubbock Firm Buys P. R. Cates Office
The firm of Meyers, Campbell and Phillips, public accountants of Lubbock, have purchased the office of P. R. Cates, located at 111 N. Fifth street, and will assume management September 1.

Crayton Campbell specializes in auditing gin books, in federal, estate, and gift taxes, and in municipal audits. He was formerly associated with Merriman and Campbell of Lubbock.

David H. Meyers, another partner, will take care of general accounting and auditing.

Raymond Hugh Phillips, certified public accountant, is a graduate of Texas Tech, and will specialize in monthly bookkeeping and oil accounting.

A spokesman stated that there will be a member of the firm in the office at all times.

AMERICAN LEGION POST TO MEET THURSDAY

There will be a regular meeting of the Howard-Henson post No. 269, American Legion, Thursday, August 12, at 8 p.m. at Veterans hall.

All members are requested to attend.

Building Permits Hit \$53,200 For Week

Building permits for this week total some \$53,200.00 with permits being issued to:

Brownfield Independent School district for the cafeteria addition to Jesse G. Randal school at a cost of \$32,000.

Loyd Moore for construction of a 28x32 foot residence and garage to be built at 708 E. Lake at a cost of \$7,000.

Loyd Moore for construction of a 29x31 foot residence to be built at 706 E. Lake at a cost of \$6,400. W. T. Pickett to build an additional room on his residence at 813 E. Broadway at a cost of \$800.

W. L. Bandy to construct a 28x32 foot residence at 1008 E. Lake at a cost of \$7,000.

HOUSE DAMAGED BY FIRE

About 50 per cent damage was done to a residence belonging to Jack Wilson, located in the 800 block of North Bell street at about midnight Friday, July 29. Eunice Jones, fire chief, reported. Cause of the fire was unknown, but the blaze seemed to have started in the attic, and faulty wiring could have started it.

A false alarm was turned in to the firemen Thursday at about 9 p.m.

No Pay Raise For Terry Officers

Word comes that the county officials of Terry county as well as the commissioners' court decided that with sundry other expenses, it could not be done, according to Judge Homer Winston. So, we guess if the boys and girls over at the courthouse wish for a little extra spending money for Christmas, they'll just have to drag a sack up and down the cotton rows this fall.

But it is not too bad over there, as they had a 25 per cent raise early this year that helped out in the higher living costs. However, a hint came from Judge Winston that the county might return to the fee system after the first of the coming year.

We hope, however, that this can be avoided, as a straight salary to county officials, as well as police forces, has always proven the better system.

SCHOOLS GET MONEY FROM STATE FUNDS

County Supt. Lee Fulton reports that his office recently received \$4 per capita scholastics for Terry county. He expects an additional \$3 before schools open around September 1.

With some more than 3,000 scholastics in Terry county, this will give the four schools of the county better than \$21,000 as a starter. Not a great amount of funds on the 1949-50 apportionment is expected until after tax paying starts, however.

Chris Addison Breaks Kneecap

Chris Addison, ten-year-old son of Mr. and Mrs. Milton Addison, suffered painful injuries Saturday, July 30, when he fell from the rafters in the top of a barn to the concrete floor below.

Chris was brought to Treadaway-Daniell hospital where x-rays showed that he had a broken kneecap. He was walking a rafter in the top of the barn when he lost his balance and plunged to the ground.

Supper

A buffet supper will be served Sunday, August 7, from the hours 6 p.m. until 8 p.m. in the club house, Mrs. Roy Wingerd, president of the ladies' auxiliary of the Brownfield Country club, announced Wednesday.

Tickets will be sold for one dollar each, and all club members and their families are asked to attend the buffet dinner.

ICE IS THE ANSWER—When fish started dying in the tepid water of this artificial pond in Ludlow, Mass., ice was found to be the solution. Now the iceman cometh—every day—and drops off half a ton of his wares into the pond to cool the water and keep the fish alive. Youngsters using it as a swimming pool don't object, either.

Comanche Trail Swim Meet Proves Popular

A large crowd attended the Comanche Trail district swim meet held at the Lions pool Tuesday at 6 p.m. by local Boy Scouts.

Winners of the side stroke in the junior division were Richard Baggett, first; Teddy Joe Hardy, second; Sammy Key, third, and John Montgomery, fourth. In the senior division winners were Bill Patterson, first; Kenneth Spears, second; Jerry Anderson, third, and Bob Ferguson, fourth.

Winners of the back stroke in the junior division were Richard Baggett, first; Teddy Hardy, second; J. P. Benson, third, and John Montgomery, fourth. In the senior division winners were Bill Patterson, first; Bob Ferguson, second; Johnny Cloud, third, and Tommy Hord, fourth.

Winners in the free style in the junior division were Jimmy Benson, first; Teddy Hardy, second, and Jimmy Pickett, fourth. In the senior division, Tommy Hord, first; Johnny Cloud, second; Bill Patterson, third, and Kenneth Spears, fourth.

Judges in the swimming events were Al Muldrov, Herman Cheshir, Lee Orville Lewis and Jim Beck.

In the diving events, the contestants each did a swan, a jack, and a plain dive. Winners were pointed on each dive, and the best average for three dives was taken.

Winners in the junior division were Teddy Hardy, first; Richard Baggett, second; Jimmy Benson, third, and Willingham, fourth. In the intermediate diving events, Grady Thompson, first; Richard Sturgess, second; Roscoe Treadaway, third, and Robert Strickland, fourth. In the senior division, Bill Patterson, first; John Cloud, second; Kenneth Spears, third, and Bob Ferguson, fourth.

Judges of the diving events were LeJeune Lincoln, Jim Beck and Herman Cheshir.

Presbyterian Youth Group To Attend Lamesa Meet

Several young people of the First Presbyterian church of Brownfield will attend an overnight Westminster Fellowship rally at Lamesa Friday (today) and Saturday of this week.

The executive committee of the eastern district of the Abilene Westminster Fellowship will have charge of the program.

Among those from Brownfield who will attend are: Cynthia Black, Deanie Ballard, Lois June Foster, Ann Sneedecker, Nancy Wier, Judy Griffin, Bob Ferguson, Frank Gorton, Betty Ferguson, Neta Ann Jowers, Juanice Sims, Chloe Marion Schmidt, Lynne Sturgess and Nelda Brown.

B & J No. 2 Open For Business

E. M. Ballard and J. L. Joyner, co-owners of B and J Chevron station located at 721 Lubbock road, announced this week that they have purchased Bailey's Standard service station from L. D. and C. K. Bailey.

The new station will operate under the name "B and J No. 2" and is located at 720 W. Main.

Baptist Formally Open Educational Building

A large crowd of members and friends went through the new educational section of the First Baptist church, corner Main and Third, last Sunday. According to one of the leading members, the people were going through on an inspection tour most of the day, and some before the night service as well as after.

The membership, which is now around 1700 or 1800, was becoming badly crowded for Sunday

Schools to Open August 29

Tourney Winners Presented Trophies

At the close of the two-night Texas Associated Athletic Federation boxing tournament, sponsored by the Brownfield Jaycees, Dr. W. A. Roberson, president, presented trophies to the following winners:

Johnny Cloud of Brownfield, novice flyweight; Jackie Ray of Denver City, novice lightweight; Don Andress of Brownfield, novice welterweight; Lyle Shelton of Brownfield, novice feather weight; and Harvey Meredith of Plainview, novice middleweight.

Bill Chandler of Amarillo, open bantamweight; Dan Williams of Lubbock, open lightweight; Billy Lewis of Brownfield, open feather weight; H. L. McMillan of Tahoka, open lightweight; Sammy Sims of Amarillo, open welterweight; and James Witt of Lubbock, open middleweight.

District Missionary To Hold Meeting

The Rev. J. W. Stone, pastor of the Johnson Baptist church, has announced that their meeting will begin Friday evening, August 12, and run through August 21. The Rev. J. W. Arnett, district missionary of Big Spring will do the preaching at the revival.

Rev. Stone stated that he and his membership extend a pressing invitation to one and all to attend all these meetings possible.

Big Spring Rodeo Boosters Hit City

With an addressing system, plenty western hit records, as well as the hillbilly variety, a number of cars from Big Spring hit the town Tuesday afternoon. They were advertising their 16th annual rodeo and cowboy reunion August 3 to 6, inclusive. Buck and Tommy Steiner will be the producers.

There will be four performances, according to the circulars distributed, ending Saturday evening, and prizes of \$3400 in added money. Local rodeo fans are urged to attend.

G. C. Aschenbeck and the Old He are thinking of starting out for the last two days of the affair, with our fast walking canes in one hand and our thumbs of the other in the air. Perhaps some autoist will come along with a sympathetic eye.

DERRICK UP FOR THE OFFSET WELL

The derrick for the offset oil well in east Terry can be seen for miles and it is presumed that as soon as preliminaries are finished, actual drilling will start.

This is something that people all over this area have been waiting for. The offset is one spacing south of the discovery. Now we'll find out whether or not the field extends south.

We have been informed that at least three geology crews have investigated that area since the discovery well was brought in last fall.

GENE GUNN TIRE STORE BEING REMODELED

Gene Gunn Tire store is getting a face-lifting this week with a new coat of interior paint.

A representative of Goodyear Rubber company will be in the store next week putting up new displays and re-arranging the fixtures.

Bill Does Not Raise Rate

According to S. P. Cowan, superintendent of Brownfield schools, the Gilmer-Aiken bill will not require this school district to raise its tax rate as other schools have been forced to do. Cowan attended a meeting recently in which the Gilmer-Aiken bill was explained and discussed.

This school administration will receive enough money from the state to pay the increase in the school teachers' salaries, Cowan said. There will also be additional money for operation of the school.

Several new positions have been created, such as a general supervisor over all the schools; a visiting teacher, who will visit in the homes of children who are failing and who do not attend school regularly; and a special instructor for handicapped children.

Bruins 'Hug Win' Out Of Levelland By Point

Don't tell us the Bears just can't win this year — that the cards are all stacked against them. They actually took their second game of the season Sunday, the second out of 25 tries. They whaled the Levelland Refiners by a score of 11 to 10. Shot in six runs last time up.

Do you reckon it is in the stars for the Bears to make a whirlwind finish and astonish the rest of the other Oil Belt league member clubs?

After all, it is not just a matter of winning. A lot of it is for sportsmanship and entertainment for the fans. Take, for instance, the Phillies and Browns are nearly always at the bottom of the ladder, but sometimes they stun the dickens out of some of the big boys by taking them to a good thrashing.

And while we are about the matter of sports, baseball and football in particular, we have been looking for a sports writer or radio commentator who doesn't blow up when the Brooklyn Dodgers baseball team, or the Notre Dame football boys lose a game.

Just why these two teams are the national pets is beyond this old noggin of ours. Frankly, folks, this stuff we are putting out don't make sense, not even fit to read, but we have to get something back to the linotyper.

Tudor Sales to Show New Buick 'Special'

W. B. (Red) Tudor announced this week that the new Buick "Special" will be shown at Tudor Sales company Wednesday, August 10, from 9 a.m. until 9 p.m. Coffee and doughnuts will be served during the day.

The new Special features an entirely new cushion ride. The car, which comes in three styles, has 110-horsepower and has 112 1/2 inch wheelbase.

The public is cordially invited to attend the showing of this new automobile.

SGT. THOMPSON TO RETURN TO STATES

Sgt. Mansel E. Thompson, who is stationed in England with the third air division, has been making a mark for himself and the air force in tennis tournaments in England.

After winning his matches in a tournament at his base, he spent three days in London participating in a tourney.

Sgt. Thompson is expected home sometime this month.

WORK ON MEXICAN CENTER NOW UNDER WAY ON 6th ST.

The foundation for the Mexican recreation center to be located in the 200 block of North Sixth has been laid, a spokesman for the Brownfield Chamber of Commerce announced Tuesday.

The building, which is 25x75 feet, will include a cafe and rest rooms. There will be plenty of parking space for trucks.

District Governor To Speak To Rotarians

The annual Rotary conference met with District Governor Elmo Wesson of Big Spring at 7:30 p.m. at the Esquire cafe Thursday. Clovis Kendrick, Brownfield Rotary club president, announced.

In the annual conference, the district governor hears reports on the year's activities from all the chairmen, officers and board members. The governor also gives advice on future activities and discusses aims, activities and principles of Rotary clubs.

Wesson will address members of the entire Rotary club today at their regular luncheon meeting at the Esquire.

SPEAKER TO SPEAK—Durwood Manford (above), Speaker of the Texas House of Representatives, will deliver the address at the annual luncheon of the West Texas Press Association at the Brownwood Hotel in Brownwood, Friday, August 12. He is expected to review the state government's financial position.

UNDERGOES SURGERY

Pat Ramsey, head bookkeeper at the Tokio gin, underwent an emergency appendectomy Saturday morning in Treadaway-Daniell hospital.

His condition is reported to be good.

Fifteen Additional Teachers Employed To Carry On Work

The 1949-50 school term will begin August 29, S. P. Cowan, Brownfield school superintendent, announced this week. Fifteen new teachers have been employed, including one who will specialize in teaching handicapped children.

O. R. Douglas, who has been principal of the Winters high school for the past six years, has accepted the position of principal of Brownfield high school. A graduate of Howard Payne college in Brownwood, Douglas received his master's degree from North Texas State Teachers college in Denton.

Supervisor of academic work over all the schools will be R. H. Brannan, formerly of Wichita Falls. He received his BA from North Texas State Teachers college and his MA from SMU. Brannan has served as superintendent of school in Mineral Wells, Harlan Dale at San Antonio, and Denton, and has had years of experience with youngsters.

A. B. Williams of Lubbock has been employed to instruct English and journalism in high school. He is a graduate of West Texas State Teachers college in Canyon.

J. V. Wilson, formerly of Oklahoma City, will instruct English in high school. He is a graduate of ACC in Abilene.

Miss Helen Berth of Electra will teach homemaking in high school. She graduated from North Texas State Teachers college and also holds a MA from that college.

Miss Peggy Davis of Albuquerque, N.M., and a graduate of Texas Tech, will teach the second grade.

Miss Jo Redman, of Nocona, a sister of Jimmie Wood, will teach art in West Ward. She is a graduate of Abilene Christian college.

Miss Betty Roydston of Lubbock will teach first grade. She received her degree from Texas Tech.

Mrs. Joe Preston Murphy, a graduate of TCU, will teach the third grade.

Jimmie Paden, a graduate of Abilene Christian college, will teach fifth grade at Gomer.

L. C. Davis of Bowlegs, Okla., a graduate of East Central State college in Ada, Okla., has been employed as special teacher for handicapped children.

Teachers in the Phyllis Wheatley school are Curtis Tucker of Lubbock, who is principal; Thelma Lee Peters, a graduate of Fairview A&M college, who is intermediate teacher; and Miss Ella D. Sayles of Tahoka, who will return as primary teacher this year.

ANDREWS COUPLE LEASES CAFE

Mr. and Mrs. Troy Diggs from Andrews have leased the "Steak House" from Ed Saunders and are open for business. They have been in the cafe business for several years, having had "Helvey's Cafe" in Andrews before coming here.

The Diggs have two sons, Don and Dale, and the family is living on North First street.

SPEAKER TO SPEAK—Durwood Manford (above), Speaker of the Texas House of Representatives, will deliver the address at the annual luncheon of the West Texas Press Association at the Brownwood Hotel in Brownwood, Friday, August 12. He is expected to review the state government's financial position.

Now, let's see! Wasn't it Alice and Duval county among the other south Texas counties that were involved in the election scandal during the runoff primary between Coke Stevenson and Lyndon Johnson for United States senator last summer? And wasn't it Alice and Duval among others that "stuffed the ballot box" for Lyndon? At that time many of us remarked that there was something putrid in Duval, but the Lyndon partisans keep very mum, including the dailies that supported Senator Johnson. When in the course of human events officers of the law open and own questionable places to dine, dance and drink, it is time for the state officials to step in as such places are incapable of self-government. When a decent newspaper or radio men have the guts to expose such places that are making a fortune for some one who should be for decency and order, he is murdered by the very folks that are hired to uphold the law. We still maintain that the ballot boxes of Duval county should have been thrown out.

If you have been receiving literature of late about the sale of

Canadian mining stock, especially if traces of uranium is mentioned as some of the mineral, better be careful. If you have money to invest, better that you consult your banker or a reliable brokerage firm before putting out any hard-earned cash. The United States has also been flooded of late by oil stock schemes from that country. We believe there is plenty good stocks and bonds in our own country without sending money off to some foreign nation about something you know nothing about.

Well! Well! So the ex-Texas, the honorable Tom Clark, formerly of Dallas, has been kicked out of the cabinet as attorney general by the president, to an upstairs job in the United States supreme court. Some of the big Texas dailies are jubilant, notably the Star-Telegram, but over in Big Dallas, from whence Tom hails, the Dallas News don't seem to be sure, editorially speaking. Editorially, they admit that Tom is a very good prosecutor, but as a high court judge, that is something else to be seen. Some Texans think that it is nice that Tom will, after taking the new oath, have nothing further to do with the tideland grab. Better that it will be his successor, J. Howard McGrath, presently senator from Rhode Island and national Democratic chairman. But if the tideland issue goes to the supreme court, we would hate to think how Clark would vote on the issue.

We hate to think that our president is guilty of double talk, but after listening to one or two of his recent speeches, it is hard to believe otherwise. In one speech he will call for measures to depress inflation, and in the next it will be laws and money to inflate the depression. And in one he will make light of the gathering storm with the Communies, referring to it as "hysteria" "red herring." But in his message to congress he demands that congress re-arm western Europe against possible Russian (couldn't be anyone else) aggression. Such expressions as recently made, along with these huge preparations, in the past have led only to war. All diplomacy seems to have been pitched out of the door by the state department. But we

An Appreciative Audience

believe that some of the big talk should be canned.

In the good old days of the country store, we are reminded that the proprietor sold goods at whatever price he wished, and you could take them or leave them. In those days it was a long way afoot, horseback or wagon to the larger town where there might be competition, and the time spent going and coming might overbalance the overcharge of the country Shylock. Then came the automobile and with them good roads to most any place. And if the crossroads store keeper seemed high you could reach a sizable town in less than an hour. Thus the country merchant was either forced to meet competition or quit business. Even in the smaller cities and towns now, the stock is up to date and kept clean and sanitary. And in some instances goods are sold as cheap or cheaper than in the larger places, as the overhead is much less in the smaller villages and towns.

There is still some talk among administration leaders of federalizing or socializing the railroads. Some of the newer folks seem to think that it would work out fine pay taxes, nearly all of them

would lose money, and such things as the TVA would lose its pants. The government always overloads with employees. It just has to provide a paycheck for a good vote rounder-upper.

Boys Town, up in Nebraska, operated by the Catholic church, but which is said to take in boys of all faiths and colors, we guess, has written a request we are glad to publish. It has been reported to the manager, Rev. Mr. Wegner, that people in various sections of this country are soliciting magazine subscriptions and using the name of the institution as the beneficiary. Rev. Wegner states that all such statements are absolutely unauthorized. It is pure fraud, the writer states, and he advises that if such solicitors show up that you call the officers.

It seems that the people of Heavenly Houston have an awful time about their meat supplies. About two years ago, it was horse meat and a lot of meat dealers of the Texas metropolis were rounded up and made to pay heavy fines. The latest to come to light is spoiled meat, and two of the big packeries are the accused. Both deny the charge and after a few days of closed supply houses, they open again. Reminds us of a youngster who was visiting his grandmother here during the horse meat episode. Asked which place he'd rather live, he quickly replied: "I'd rather live in Brownfield; you don't have to eat horse meat here."

While the states east of the Mississippi are improving their herds of beef stock along with their dairy herds, it remains a fact that about two-thirds of the meat supply comes from west of the Mississippi river. On the other hand, about two-thirds or more of the meat consumers reside east of the Mississippi. This would throw things quite out of balance were it not for the 4,000 meat packers, who are not only on the job of curing and packing, but have worked out a distribution system that is a wonder to the rest of the world. This is via refrigerator cars, as well as huge trucks. Speaking of improvement

The Low Down From Hickory Grove

I been reading where the Govt. is looking into our buying habits — thinks maybe we been spending our money some place different and where it don't know about. The Govt. BLS is asking for 4,200,000 bucks to do the peeking-in job. The boys have to travel all around, you know — Florida, California, Texas, Wisconsin, every place. Uncle Harry has already asked congress for the cash. It will be nice investigating weather around the Wisconsin lakes in the summer time and not bad in Florida and the South in the winter time.

Congress says it is economy-minded. If it is, and is not joking, then this tip on the BLS might bear fruit. Every citizen, when he sees some tomfoolery scheme being cooked up that will keep an army of bright boys and bright girls on Sambo's payroll, should drop a line to Congress. A congressman being far from home and not hearing from the folks there, could grow a little careless. Last year, Uncle Harry and his boys put us in the hole by 1,800,000,000 — and Congress just blinked.

Right and left the Govt. is jimmying its way into all kinds of business. In Tennessee, the TVA. In Oregon and Washington, it has fooled the power soup. The Govt. is the nation's biggest business. If any business, any place, needs scrutinizing, then the Govt. should be the first customer.

A congressman sure needs some new and stronger specs if he can't see places to save.

Yours with the low down,

Meat For Your Table Don't Just Happen

Two-thirds of all the meat consumed in this country is "grown" west of the Mississippi. But two-thirds of the people who eat the meat live east of the Mississippi. The significance of this is clear. If we had to depend on local supplies of livestock, millions of people would never be able to buy meat at all. And in the farming regions of the nation, where the livestock population is large and the human population is small, producers would have virtually no market for their animals.

This problem, of course, was solved long ago, and the solution is what we call the meat packing industry. The main job of the packers is to see that meat is removed from the producing areas

to the consuming areas. There are 4,000 of them, located in every part of the country. They provide a ready, year-round market for the farmer. And they bridge the distance between the farm and the ranch and the 350,000 retail stores in which meat is sold.

The packing industry, however, must do a great deal more than merely turn livestock into meat for the butcher shop. For instance, only 55 per cent of a good grade steer is beef and only 60 per cent of a pig is pork. This fact underlies the old saying that the packer finds a use and a market for "everything but the squeal." The by-products of meat packing make up a long and amazingly varied list—hides and wool, fertilizers, glands which produce insulin and other medicines, etc.

We take meat on the table for granted. But it requires a big and complex and highly efficient service to bring it to us.

COMBINE COMBINES OPERATIONS—This machine is the latest idea in speeding up the harvesting of the nation's biggest peacetime wheat crops. A standard automatic twine-tying baler was joined with a combine to do several jobs at once. With the arrangement, a two-man crew can cut the ripe wheat, thresh it, bag it, and bale the leftover wheat straw in one continuous operation. At the left an automatically twine-tied bale is shown ready to drop from the baling chamber.

Says Ignorance Spreads Disease

AUSTIN, Texas — There is no more emphatic proof of the power of ignorance and carelessness to spread disease than is shown by the continued ravages of tuberculosis, which is responsible for more deaths between the ages of 15 and 45 than any other disease. Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave public health problem, and today it holds fifth place among the killing diseases in this state. This fact exists even though the majority of tuberculosis patients could have their condition arrested, if it were recognized early and proper treatment applied.

These facts are disclosed by Dr. George W. Cox, state health officer, who says, "treatment of the early recognized case is essential to recovery. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more widespread appreciation of this fact would result in the saving of thousands of lives."

The state health officer added: "When a diagnosis of active tuberculosis has been made, examination of all other members of the family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of deaths caused by tuberculosis, Dr. Cox urges periodic examinations of all adults, including chest x-rays, frequent check-ups by physicians, when active cases and their contacts are known, isolation or hospitalization of active tuberculosis cases, and a more intelligent application of hygienic living principles.

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK, July 25—They're going to count houses again. With the passage of the housing measure, another home census is assured. Meanwhile, some rather surprising figures have come to light. For instance, who'd have guessed that since 1930 the number of new houses has risen faster than the population? In 1930 we had 123 million people and 31.5 million dwelling units; in 1949 the population is 146 million and the number of dwelling units is 43.5 million. Thus, in 1930, we had only one unit for every 3.9 people, whereas today we have one for every 3.4 persons.

And the rate of construction is still rising. New housing "starts"

NOW SANTA FE ALL THE WAY

Amarillo, July 25—To provide improved performance on schedule, through chair car and sleeping cars between Lubbock and the South Plains and North Texas will, effective Sunday, July 31, leave Lubbock at 7 p.m. instead of the present 9 p.m. departure. H. C. Vincent, Santa Fe traffic manager, Amarillo, announced today.

The new schedule will provide South Plains residents with one-carrier service over the Santa Fe by way of Brownwood, Dublin, and Stephenville, to Ft. Worth and Dallas.

The through car service now operates over the Texas and Pacific railway east of Sweetwater.

PLAGUE RETURNS TO CALCUTTA

CALCUTTA — (AP) — Plague has rejoined the ranks of the many endemic diseases of Calcutta after an absence of 42 years. Last year there were 254 cases and 14 deaths during the 17-weeks ending July 31. But this year it started early in January and already it has killed 50 out of 366 cases.

Except for stray imported cases Calcutta was free from plague since 1906. In 1899, about 60,000 were reported to have died of plague in Calcutta alone.

were low in the first part of the year but in June the rate of new building passed that of June of 1948. So new homes are still increasing faster than the population.

All this adds up to quite a lively boom, with office buildings, apartment houses, schools and factories contributing more to this year's total than in 1948.

UP SCHOOLS—Activity in the school building field is increasing largely because authorities realize they can wait no longer for "more favorable" conditions, in the opinion of R. H. Jacobs, director of the school controls division of Minneapolis-Honeywell Regulator company, who has just completed a coast-to-coast study of the situation.

The nation's schools are facing the greatest crisis in history due to the unprecedented increase in population and the failure to expand facilities during the last two decades. The United States bureau of census estimates that 8,240,000 more children will be enrolled in the first to twelfth grades in 1958-59 than are in the already-overcrowded classrooms. To house these increased enrollments will require at least 250,000 additional classrooms.

Mr. Jacobs found on his tour that educators and school boards are insisting that buildings erected today must be modern in every respect. Most specifications today call for highest standards of illumination, acoustical treatment and automatically-controlled heating and ventilating systems.

State Internal Revenue Is Listed By Bureau

Austin—July—Federal internal revenue collections in Texas for June amounting to \$147,569,083, jumped 18 per cent over a year earlier, the University of Texas bureau of business research reported.

Income taxes, totaling \$123,988,630 in June, showed a 21-per cent increase over a year ago and withholding taxes, totaling \$1,052,533, rose 20 per cent. During the same period, employment taxes (other than withholding) rose ten per cent.

Collections from July 1 through June 30 stepped up seven per cent from a like period in 1947. Income taxes during the 1948-49 fiscal year rose 13 per cent over last year; employment taxes increased 31 per cent, and withholding taxes fell five per cent.

HUMANS DON'T LEAD A BEE'S LIFE

Total government looks upon people in the same manner a beekeeper looks upon his bees. The people and the bees must produce for the bosses in order to earn a living of a sort and a "hive" for shelter. But the government and the keeper get the honey.

The reason people do not thrive under the beekeeper plan is because they are individuals. They demand more than the privilege of producing for political overlords, at the expense of their own profit and freedom.

Many revolutions and civil wars have occurred over resentment at dictatorial government acting as a keeper of the people's honey. Eventually men will balk at a government that plays the part of the beekeeper.

Experiments show that cockroaches will stop entering sections of an enclosure where they have been frequently shocked by electrical charges.

Your trip to California in Santa Fe Chair Cars costs less than by automobile...

It's hard to believe (till you figure it out for yourself)

Even when you divide the cost among two people—the cost is still less per person via Santa Fe chair car.

Just add up the cost of driving your car to California—gas, oil, depreciation and night's lodgings (to say nothing of wear and tear on yourself)—and you'll see for yourself!

And that isn't all! After arriving in Los Angeles, you can travel to San Diego on your round-trip ticket via Santa Fe at no extra cost! Just tell the ticket agent you want it that way.

You'll like traveling in Santa Fe chair cars, too! Carefree clothing is the popular way to dress, and you have comfortable dressing rooms to freshen up whenever you please so that you can enjoy every minute of your trip along the scenic route to California.

Remember too, you can enjoy famous Fred Harvey meals when you travel Santa Fe.

Among the Terry County Farmers

Hugh-Lee Hulise was in this week to have his leg looked after that was badly cut just above the knee by a stalk cutter recently.

Mr. Hulise was evidently greasing the cutter when the motor to the tractor was stopped and it kicked back, causing the blade of the stalk cutter to tear into his thigh just above the knee.

Then there was W. C. (Happy) Chenault and folks in with the other shoppers for the Monday special. Stated that he had about three-fourths of an inch of rain on his farm Sunday night but the high wind lay the cotton and feed over a bit, but he figured it would straighten up in a few days.

As far as he could find put, the rain covered several sections out in the Tokio area where he lives. However, some reported only a half-inch, and perhaps others just got showers. The rain was very light in Brownfield, about .03 inch.

And while W. C. and the Old He were talking, we started out to give the farmers in general just a chunk of cussin'. Noted that a good farm lady sorter paused to see what we would have to say and perhaps to sass us back a bit. But it was just a

Post Staging Junior Championship Rodeo August 11, 12 and 13

The second annual southwestern championship junior rodeo will come unbound in the Post Stampede arena August 11, 12 and 13. There will be three night performances and a special matched roping on the last afternoon of the show. This unusual rodeo, which is the world's original all-junior rodeo was originated by Alvin G. Davis of Post who won the highest boy's 4-H award in the United States last year. It is run by a board of 15 junior directors under the supervision of the Post Stampede and it is open only to boys and girls who are 18 or under.

It even features a junior clown and junior specialty acts. The clown for this year's show is Dale Winders of Earth, Tex., with his mule, Pancho. Trick riders and trick ropers for the show are Ted and Betty Lamb of Dallas, Tex. Nat Fleming of Wichita Falls is the announcer and Goat Mayo of Petrolia, Tex., is furnishing the stock.

matter of no roasting-ears to speak of to grace our table this year.

The lady was Mrs. Montana and her husband of Loop community. After hearing what our plaint really was, she turned around and said: "If the wind don't stop blowing so much, none of us will have any roasting-ears."

And while we are about the matter, will state that Terry county wheat acreage has been cut to 13,361. We don't have the least idea what the acreage was this year, but possibly much more than that. But this will not hinder farmers from planting blown-out areas in wheat for winter pastures. Nor for that matter, harvesting it next year, but without a support price by the government.

CHALLIS NEWS

Church services Sunday were well attended. The Rev. Vance Zenn delivered the sermon. Mrs. C. S. Carroll visited relatives at Stephenville last week. Vacation Bible school and a revival will begin at the church Sunday, August 7, and will continue through August 21. Everyone is cordially invited to attend.

Mr. and Mrs. Lence Price are entertaining their daughter and her children this week. Mr. and Mrs. Bill Bagwell had friends visiting from Stephenville this week.

Among those present at the Five-County Singing convention at Lubbock last Sunday were Mr. and Mrs. Frank Gray, the Misses Wanda Langford and Avenell Garner, and J. C. Armstrong.

Several have received good news here the past week. LARGELY CROWD ATTENDS COUNTRY CLUB OPENING

A large crowd attended the grand opening of the Brownfield Country club swimming pool last Friday, July 29, beginning at 5:30 p.m. A swimming party, picnic, and fireworks made up the program.

Construction of the new swimming pool was in charge of Grady Goodpasture and Roy Wingerd. The pool, which is 45x105 feet, is reinforced with steel throughout and the sides have been finished with glare-resistant plaster. Virgil Short has been employed as lifeguard at the pool and will be on duty at all times when the pool is officially open between the hours of 2 p.m. and 9 p.m. daily.

VOICE TEACHER RETURNS Mrs. John Luckie has recently returned from a month's visit on the east coast with relatives. While there she coached with a well-known New York voice teacher, Amy Ellerman.

Since she has returned, Mrs. Luckie has resumed her classes with voice students.

MEETING STARTS AT WELLMAN SUNDAY

The membership of the Church of Christ at Wellman has asked The Herald to announce that their summer Gospel meeting will begin next Sunday morning, August 7, and continue through August 17. Evangelist W. A. Brown of Lewis, Kans., is the speaker. Home forces will have charge of the singing. Night services will be at 8 p.m. and the morning services at 10 a.m., with the exception of Sundays, when it will be at the regular 11 o'clock hour. The church extends a cordial invitation to one and all to attend all services possible.

Economic Highlights

(Happenings that affect the dinner bills, dividend checks and tax bills of every individual, national and international problems inseparable from local welfare.)

In one of his recent columns, Walter Lippmann, who is perhaps the best of the publicists, asked why all our ambitious and costly plans for world rehabilitation have fallen so short of expectations. He put it this way: "Beginning with the world bank and the monetary fund, which were followed by the British and the French loans, which were followed by the Marshall plan, we have tried to reconstruct a world economy in which our partners and friends could earn their way to a rising standard of life. But we have not succeeded, and once again the economic relations of Europe and North America are at a crisis."

Mr. Lippmann's explanation for this tragic failure is an interesting one. He said, "The crux of the problem and the heart of the crisis is that Europe must buy absolute necessities from us, whereas there is almost nothing that we have to buy from Europe."</

FARM, HOME SAFETY A FAMILY AFFAIR, SAYS A&M SPECIALIST

College Station, July — Farm and home safety is a family affair, says Mrs. Eloise Johnson, extension specialist in family life education of Texas A&M college. It involves everyday habits of living, working and playing and there's no safety engineer on the job to remove hazards and prevent acts of thoughtlessness and carelessness, she adds.

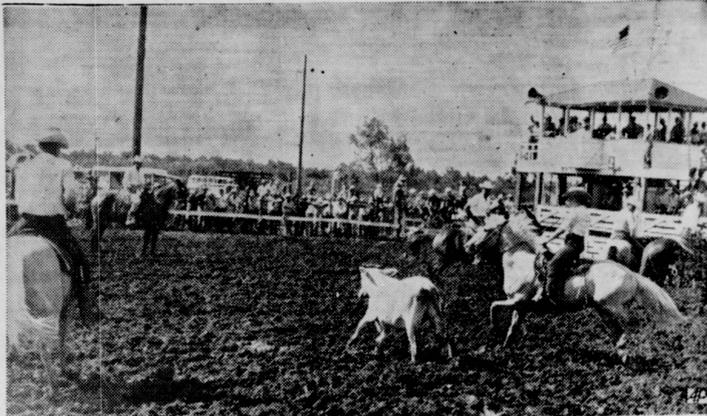

"We must realize that the human element and our own attitudes play a big part in our own actions. Likewise, the home atmosphere can be partly responsible for many of the farm and home accidents," she says. Some of these contributing causes are worry, dissatisfaction, annoyance, anxiety and unhappiness. Mental conditions may cause one to take unnecessary risks, be thoughtless

in doing a task or even cause the development of wrong attitudes toward safety.

The home atmosphere, she says, should be cheerful; calmness should prevail, there should be understanding between all members of the family and all should work toward the development of a safety attitude for the family. "All accident hazards cannot be eliminated so we must learn to live safely with them. We teach our children by the examples we set and remember," she cautions, "don't teach by fear but by logic."

Farm safety is a family responsibility and it offers a challenge to every member of the family. Those who succeed will reap a harvest of happiness and satisfaction, concludes Mrs. Johnson.

Turkeys, quail, frogs, snakes, skunks and shrews all eat grasshoppers voraciously.

Collins Not An Admiral As Yet

Lt. Jesse Collins was here over the weekend visiting his mother, Mrs. Fred Smith, and other members of the family. Really his visit was to be at the graduation of his brother, Roy Collins, who finished his textile engineering course at Tech college this month, but when the second summer term is completed in August is when the graduating exercises take place.

Jesse got his appointment to Annapolis naval academy at Congressman George Mahon. Jesse was highest ranking student at Tech that year, and he seemed to be a special favorite of Mr. Mahon, who maintained he was going to make an admiral out of Jesse. He hasn't yet, but give him time. He's just a lad yet.

The four-year course at Annapolis was finished just in time for Jesse to get into the thick of the fight in 1942. His operations were mostly in the Pacific. White war was still on, he married a New York girl, and they have a little son. The family is now with Jesse, who is based at Charleston, S.C.

Even though there was no graduation exercises at Lubbock, he was glad to be with his young brother and mother a few days. Both boys left Monday for New York. Roy will later visit some cotton mills in the Carolinas and Georgia, where he has been offered positions in large textile plants.

Here's a little information we will let the reader in on. We asked Jesse if he was enjoying his visit here. "You know it. I've had the best night's sleep I've had this summer, since I came to the plains."

Texans in Washington

By Tex Easley

AP Special Washington Service Washington, July — (P) One of the guides in the Capitol these days, a tall Texan who formerly operated a small newspaper in Texarkana, feels that tourists are greatly disappointed at not getting a peep into the house and senate chambers.

The roofs over the historic rooms are being rebuilt and barriers keep all but the workmen away. Tourists can't even get near the doors of the temporary chambers.

"We explain that the new quarters are crowded and have no spectators' galleries," says Carl Miller, ex-newspaperman, one-time aide of Rep. Wright Patman of Texarkana and later on the staff of former senator W. Lee O'Daniel.

"It's obvious, and natural, that they're disappointed. We try to make up by lingering a little longer here and there at various points in the Capitol, and throwing in an extra story or two about historic incidents which occurred in the building."

Miller is an affable, lanky fellow and is blind in one eye. He has written a book called "Know Your Constitution." When he worked for O'Daniel he did a lot of research, digging up background to go into the senator's speeches.

When O'Daniel left Washington Miller then landed a job on the guide force with the endorsement of three Republican and three

Democratic senators. Texas senators Tom Conally and Lyndon Johnson weren't among them.

The guides are paid on the basis of take from the 25-cent fee collected from tourists; their average income is around \$6,000 annually.

Incidentally, when former San Antonio congressman Maury Maverick was in Washington he tried to get guides put on a salary, paid through congressional appropriation so tourists could have their services free. A lot of people like the idea, but no enough to get it across.

Around The Capital

There were many Texans visiting Washington during the past week.

About 300 of them who had been in Canada and to New York for the Lions convention stopped here en route home. They went out to George Washington's home town of Alexandria, Va., for a luncheon.

The Odessa high school band, including 84 boys and girls, also stopped here en route home from attending the New York meeting. It was a sweltering, humid midday when the three buses in which they have made the entire trip unloaded them on the Capitol steps to be greeted by their perspiring senators and Rep. Ken Regan.

"This heat is terrible," commented Band Director Robert Maddox. "These kids are about ready to get home to cool 'West Texas.'"

Ney Wade of Rockwell, wearing a big broad-brimmed straw hat, visited various Texas congressmen. He had lunch with Speaker Rayburn, House Majority Leader McCormack (D-Mass.) and Rep. J. M. Stamps of Beaumont.

Other recent visitors in congressional offices included: James Hartzog, Beaumont port director; Mr. and Mrs. William Bailey, Tyler; Fred Shield, San Antonio; Art P. Bradley of Amarillo, president of the Texas County Agricultural Agents association, with his wife and son, Bob; Mr. and Mrs. G. M. McDaniel, Borger.

One of the veteran employees of the Civil Aeronautics administration is Mrs. Nelle Carmean Gompers, formerly of San Angelo. Interested in aviation since her childhood, she was one of five persons in the CAA and the only woman to receive a government

PUBLISHERS GET STRANGE REQUESTS

NEW YORK — (P)—Publishers sometimes get some strange orders. The Columbia University press puzzled over a request for "Behavior in Pants," but finally filled it with a copy of "Behavior Development in Infants."

Another man ordered a copy of "United Nations Chatter." It turned out he wanted the deluxe edition of the "United Nations Charter." In its magazine, "The Pleasures of Publishing," the Columbia press gives some other curious examples:

"The person who ordered 'Algebraic Emotions' probably wanted a copy of 'Algebraic Equations.' Someone with mother-in-law trouble must have asked for 'Crime in Relation to Relations.' We sent a copy of 'Crime in its Relations to Social Progress.' An animal lover (or hater) wrote in for 'Dog Catcher.' The nearest we could come was 'A Song Catcher in Southern Mountains.'"

CZECHS STILL CARRY NAZI CARDS

PRAGUE — (P) — Although living under the hammer and sickle of a communist government since February, 1948, Czechs are still carrying official identification cards which bear the stamp of the Nazi swastika.

But they now have an official promise that by the end of 1950 the last of these will have been junked and replaced. After that date all identification papers with the German-Czech text and the swastika insignia will be invalid.

Bank Glad To Lose Postal Business

GUNNISON, Colo. — (P) — There's no profit in re-selling stamps so the First National Bank is glad it's out of the "postoffice" business.

Tellers were puzzled by a flood of tourists asking for stamps, mailing schedules and such until one visitor finally noticed that an arrow sign, intended to point to the postoffice around a corner, had been moved by the wind until it pointed directly at the bank.

Farm Bureau Ask For Price Support On Cottonseed

WACO, Texas, July 26 — J. W. Hammond, president of the Texas Farm Bureau federation, who last month was the sparkplug in the fight which led to Secretary of Agriculture Brannan's announcement of the three-point grain storage program which saved producers of Texas \$45,000,000, today dispatched a wire to Congressman Bob Poage, chairman of the Texas delegation in Washington, urging that he rally the support of the hardhitting Texas members of congress behind a concerted effort to get the secretary to provide a support price for cottonseed, a program that will save Texas cotton farmers 20 million dollars.

"Seed are selling for \$34 as compared to \$90 last season," Hammond told Poage. "There is a support price on soy beans," he declared, "and cotton farmers can not understand why the secretary does not support the price of cottonseed when the same act of congress provides a support price for both of these competitive commodities, which in the case of cottonseed would be \$55 a ton."
Hammond foresaw the developments in the present cottonseed crisis and started contacting the Washington officials on the problem several weeks ago. Today he renewed his efforts as cotton harvest reached full blast in South Texas and producers pressed the federation president for help. Hammond told Poage that by organized effort and immediate action the Texas delegation could save the cotton farmers of Texas alone 20 million dollars.

What It Means:

THE INSURANCE DIVIDEND

By Rowland Evans, Jr.

WASHINGTON — A tremendous outpouring of dollars will sweeten the pockets of 16,000,000 World War II veterans early next year.

The dollars will come from a \$2.8 billion dividend kitty, built up in the National Service Life Insurance (NSLI) fund over the past nine years.

The "special dividend" checks will roll out from Washington to the four corners of the globe — wherever veterans are — starting in January. They will reach a rate of 200,000 a day, five days a week.

The average check will be \$175. Veterans will get more or less depending on: 1. Age of the veteran at the time he first bought NSLI.

2. Number of months he kept his insurance in force.

3. Amount of insurance he has (or had).

Every veteran who held some NSLI for at least three months will get some dividend if he applies for it.

It is highly probably some veterans never will apply, either because they don't want to or because they won't hear about it. However, the veterans administration (VA) will do its best to see that dividend information is sifted into every nook and cranny of the United States and abroad (in cooperation with the state department) through the press, the radio, veterans' organizations, all postoffices, the Red Cross and countless other media.

Within six weeks application blanks will be sent to every U.S. postoffice and other convenient distribution points. Veterans will fill out their forms and mail direct to VA's central office in Washington in self-addressed envelopes.

A receipt will be mailed back to the veteran at the address he supplies on the form. He then waits for payment.

VA estimates it will take six months to complete payment of dividends. It might be done quicker.

This special dividend is the result of two factors:

1. A lower-than-expected mortality rate among veterans after discharge. (War-connected deaths are paid by special appropriations and do not affect the dividend kitty.)
2. An out-dated mortality table

Farm-to-Market Roads Said To Be Dangerous

Austin, July — (AP) — Hundreds of Texans are likely to be killed or injured because of the farm-to-market road program in Texas.

This will happen, the Texas safety association and the Texas highway patrol said today in a joint statement, unless the rural people learn quickly to use these roads properly and to police themselves.

Last year, 221 persons were killed in county road accidents in Texas. For the first half of this year, only 77 were killed, for a 37 per cent reduction in the death rate.

"This is National Farm Safety week," said Charles A. Miller of Houston, president of the safety association, "and its observance centers attention on rural traffic as one of the most important of farm safety problems."

"As rural roads are improved, rural people must remember that a good farm road is a substandard highway, likely to be narrower and to have sharper turns and grades," he said. "Another dangerous factor is the tendency of people to think that they have the road all to themselves. This is revealed especially in failure to observe proper precautions, coming to a full stop and proceeding cautiously when entering a highway."

W. J. Elliott, chief of the highway patrol, said his force has more than it can do to patrol 31,000 miles of principal highways and can not possibly patrol additional miles of farm roads.

"We're praying that rural people won't start making race horses out of plowhorses on these roads," Elliott said. "Our only hope is that the people will be their own safety patrol for the sake of self-preservation. Unless they do, enough blood will be spilled on these roads to paint a red stripe down the center of them from one end to the other."

which does not allow for the constantly increasing life span but which the law compels VA to use.

It is called a special dividend because:

1. It is computed from the date the insurance was purchased to the policy's 1948 anniversary date.
2. It cannot be left on deposit with VA at interest (although a veteran can endorse his check to VA as advance payment of NSLI premiums and this will draw three per cent interest).
3. It is payable to former, as well as present, NSLI policy holders.
4. It must be applied for. (In the future, dividends can be expected to be paid automatically on an annual basis and may be left with VA at interest also automatically.)
5. Beneficiaries or heirs of deceased veterans are eligible to collect the deceased's dividend, regardless of whether the policy was in force at the time the veteran died. But they need not apply for it. It is to be paid to them automatically.

EARLY DAY WESTERNERS ASKED "HOW FAR IS LUBBOCK FROM CITY OF GOMEZ?"

Bill Brown, over at James H. Dallas' postoffice, sends in the following clipping, which seems to have been taken from a quiz and correction section of an Amarillo paper. Anyway, a cousin of Bill sent him the clipping and he passed it along to the Old Herd further digesting. Here 'tis:

Plains Names: Gomez
Just who named Gomez and why, and who started the town I do not know, but W. P. Florence wrote in his book, "Visions of Higher Ground," that at one time it seemed that all roads led to Gomez. When Lubbock was mentioned in Stanton, for instance, someone asked, "How far is it from Gomez?" In the early 1900's it was a large town with tents, sacks and dugouts near Sulphur Draw. There was a newspaper, a land office, a general store doing retail business and doing a wholesale business with ranches as far as the New Mexico line. The first school in Terry county was taught at Gomez in a one-room schoolhouse with two teachers. Gomez aspired to be the county seat but Brownfield won the decision.—LAURA V. HAMMER.

We do not wish to cause any of the old pioneers that "fit, bled and died" on either side of the county seat controversy to turn in their graves. We had rather they would slumber on. But that matter was still a "hot potato" when this individual arrived here in January, 1909. There was even talk of bringing on another election. Really the west side of the county had the most votes then, and would elect practically all county officials. But the Brownfield guys would laugh, as most of them would then move here and make this home.

But Gomez had more stores, more residences, a better school,

more church buildings—three to our one. They had a doctor and a chamber of commerce with a full board of directors and officers. A guy came out from Dallas and put in a paper there about the first part of 1910. He was a fine fellow, but his city bred wife did not seem to geehaw with the Gomez ladies. So, after getting the political announcements and some good advertising, the man shipped out to Dallas one fine morning in May. By the way, The Herald was born in Gomez, and was the paper mentioned in the article above.

But when the railroad reached Brownfield in 1917, Gomez fell apart, and most of the stores and people moved to Brownfield. They will now fight for Brownfield just as hard as for Gomez in the early days. When Gomez came into being early after the turn of the century, the promoters of the place naturally thought of the 1898 Cuban patriot who with the help of the U.S. army and navy, ran the Spanish out of the western hemisphere.

That is how the name "Gomez" came about.

THE TELFORDS HAVE PLUMS GALORE!

Mrs. J. M. Telford brought The Herald a lot of very nice plums this week. Indeed, they are just as nice, and in some measure, better tasting than a lot of the plums shipped in from other states. Just goes to show what old Terry can do when people put it up to its soil.

It is a shame that more people do not have orchards. Even a fruit crop every other year or every two or three years will pay off, as the family may care enough to do them several years when the crop does hit.

But we have noted that people are making better selections of varieties adapted to this climate, and fruit crops are much more frequent than they were 25 to 30 years ago.

That is a renter, but he put out an orchard several years ago, with or without his landlord's permission and he has already had several fruit crops.

Ag Department Gives Pointers On Selecting Good Wheat Varieties

College Station, July — The acreage of hard red winter wheats has expanded in recent years into the north central area of the state as better varieties have become available, says J. E. Adams, head of the Texas A&M college department of agronomy. Either hard or soft red winter varieties may be grown in the area north of Dallas and Fort Worth, but only rust resistant varieties or very early maturing ones should be grown in the rolling plains area.

Results of recent tests by the Texas agricultural experiment substations in the northern part of the rolling plains show that of the early maturing varieties, hard wheat, Wichita is recommended because of its better baking qualities. Triumph is about two days earlier than Early Blackhull in the north central area, plants are shorter in height and it stands better than Wichita or Early Blackhull. The grain of Triumph is of good test weight and of approved quality for general purpose flours. The early maturing varieties are all highly susceptible to rust but usually escape serious injury because of their earliness.

In those groups of later maturing hard wheat, Comanche and Westar are similar in appearance, although Comanche is often shorter and slightly earlier. Comanche is resistant to bunt and both varieties are moderately resistant to leaf rust. Both are susceptible to stem rust and loose smut, and both produce flour of high quality for commercial baking.

NEW SCHOOL LAW TO BENEFIT TEACHERS

AUSTIN, Tex., July 30—Impact of the improved financial conditions for teachers under the new educational program for Texas has already been felt.

A survey of 16 private and state-supported colleges and universities by the Texas State Teachers association shows an increased enrollment of graduate students this summer over last year of 2,957.

All told, the 16 schools have 9,599 students taking postgraduate work as compared with 6,642 last summer, an increase of 44.5 per cent.

Comments of educators also show that passage of the Gilmer-Aiken bills, which completely reorganized the state school system, definitely has caused teachers to seek masters degrees or to take refresher courses.

"Better prepared teachers will be reflected in more adequate education of our children," C. H. Tennyson, director of public relations for the teachers association, said Saturday.

"Our survey of the college indicates that most of the students in the first summer term of the graduate schools are teachers."

"Under terms of the Gilmer-Aiken bills, teachers receive substantial pay increases, but those holding masters degrees and who have several years' classroom experience are especially benefited," added the director.

Old Hands On New Jobs

West Texas Gas Company's men are rapidly installing new transmission and distribution pipe lines.

Many of these men serving you are "old hands." Several have served you more than twenty-two years. The experience of these men... plus the constant addition of new facilities and equipment... make it possible to maintain good gas service.

We expect to install new facilities, costing over six millions, during the period 1949 through 1951.

Yes... the "old hands" are on many new jobs which are designed to maintain good gas service, high in quality, low in price... the best bargain in the family budget.

FROM

GOODPASTURE GRAIN

TO SHARE IN THE BENEFITS, AND TO GET BETTER ACQUAINTED, BY USE OF A NEW SERVICE WE ARE STARTING

Monday Morning, August 8, 6:30 O'Clock

"Trading Post of The Air"

Station KTFY, Brownfield

A Post Card Will Do It

Here's how to use the service, and it can cost you no more than a penny post card: Mail in your wants—what you have to sell and trade, or anything you want to buy, and the service is designed to put you in contact with other farmers who perhaps are looking for just what you have to sell or trade, or may have what you want to buy.

There are many ways you can use this service. When coming in to GOODPASTURE GRAIN, you can also tell us your wants and we will see "BY AIR," or through personal contact with many other farmers of the territory, that your wants "get around"—If the things you have to sell, buy or trade are wanted in this entire territory, we believe the "other fellow" can be found.

USE THIS SERVICE FREELY—IT IS INSTITUTED FOR THE BENEFIT OF OUR FRIENDS ON THE FARM

THE INVITATION

We want each and every farmer, individually, to know that there is absolutely no cost for this service. In fact, you are doing us a favor by using it, because we in turn can aid some other farmer in securing things he needs for his farm and home. Too, we still want you to come in to see us—whether to visit for a chat, or to buy your needs from our place.

ON THE AIR

Listen in over Station KTFY Monday through Saturday, from 6:30 to 7:00 each morning to GOODPASTURE'S "TRADING POST OF THE AIR"

1050 on Your Dial

THE PURPOSE

Since our dealings are chiefly with the farmers, it is natural that we would want to serve the growers at every opportunity. This "Trading Post of the Air" is designed to bring together farmers of all communities in the trade territory in an exchange of items—things that one farmer does not need, another farmer is seeking. Perhaps one farmer wants to buy a milk cow; another farmer has one to sell—this service can bring them together for a deal. However, there is no limit to items. You can buy, sell, trade, what have you: livestock, farming implements, tools, household furniture, and many other items incident to farming and homemaking.

THERE IS NO CHARGE TO FARMERS AND OTHER CUSTOMERS

Country Club Swim Pool Opens Friday

The grand opening of the Brownfield Country Club swimming pool will be held Friday, July 29, beginning at 5:30 p.m. All members are asked to take a picnic supper and stay for the fireworks display that night.

Grady Goodpasture and Roy Winger have had charge of the building of the pool, which is 65x105, and it has been under construction for several months. Several weeks of bad weather stopped work on the project. The pool is reinforced with steel throughout, and the sides have been finished with glare-resistant plaster.

It is hoped that the terrace, which will connect the clubhouse and the pool will be finished this week. A wading pool for the younger children will also be added.

Listed below are the rules governing use of the pool:

1. Lifeguard will be furnished by the club at all times, during which pool is officially open. Lifeguard has full authority to enforce rules of swimming pool in particular.
2. Pool will be officially open between the hours of 2 p.m. and 9 p.m.
3. All bathers must take showers and footbaths, provided by club, before entering pool.
4. No person under 21 years of age shall enter pool at any time unless lifeguard is on duty, or he is accompanied by parents.

GOING UP FAST—Laura Elliot should climb to film fame fast, if the first three days of her career are any indication. Paramount executives interviewed her on a Monday morning. Tuesday she signed a contract, and the following day was given the feminine lead in "Special Agent," her first picture.

5. A fee of 20c for guests under 12 year, and 40c for those over 12 shall be charged and the same rule applying to guests for all other club activities shall govern.

6. Until further consideration by Rules Committee, no private parties requiring exclusive use of pool may be held.

7. All persons entering pool must register with lifeguard, likewise upon leaving pool.

Virgil Short is lifeguard at the pool.

Phi Beta Craesus Club Have Formal Initiation

The Phi Beta Craesus club had their formal initiation Tuesday, August 2 at 8 p.m. in the home of Lynne Sturgess. New members took their oaths in a candlelight ceremony.

Officers of the club stood in a semi-circle before a full-length mirror. The new members, with their "big sisters," entered individually and knelt before a low table. The table, covered with a Mexican hand-woven lace cloth, held crystal candelabra with white tapers, a white Bible, the white satin oath manual with purple streamers, and a purple velvet pillow to which were pinned aster corsages which were presented to new members.

Throughout the ceremony, the club song, "Deep Purple," was played softly by Patsy Black.

After the individual oaths were taken, the group of new members was assembled before the table. Nancy Wier, president, presented Nelda Miller a plaque inscribed with the club song, color and flower, as being best pledge. Lois Lee, a new member who has moved to Kansas, was also named one of the best pledges. After the presentation, the entire club sang the club song.

The refreshment table was covered with an Irish linen cloth, centered with crystal candelabra, flanked with sweetpeas. The hostesses was assisted with hospitalities by Barbara Stice and Harlene Glenn.

New members who were initiated were: Nelda Miller, who wore a blue marquisette dress; Virginia Martin, wearing black and white; Jean Welch, with a green net dress; Elizabeth White, who was attired in white organdy; Carolyn Griffith, who wore white organdy over blue taffeta, and Rena Faye Chessier, who wore yellow taffeta.

Members present were Nelda Brown, Harlene Glenn, Nancy Wier, Barbara Stice, Patsy Black, Peggy Black, Joan Blevins, Nan White, Glenda Blevins, Sandra Bailey, Wanda Stafford, Onagene Walker, Ann Snedeker, Janelle Thompson and the hostess.

Barbara Whitson of Midland, who is visiting Elizabeth White, was a guest at the ceremony.

Couple Honored With Shower Last Week

The home of Mrs. Buck Andress was the scene of a shower honoring Mr. and Mrs. Gordon Newsom Tuesday, July 26, at 8 p.m. Co-hostesses were Meses. Ted Hardy and Doug Branch.

Bride and "42" were played. Punch and sandwiches were served to the following guests: Mr. and Mrs. Shorty Collier, Mr. and Mrs. Mike Blair, the honorees, Johnny Haynes, Ed Mayfield, Steele Bayless and Bobby Newsom.

MRS. TRUSSELL HOSTESS TO HD CLUB FRIDAY

The Pool Home Demonstration club met Friday, July 26, with Mrs. J. M. Trussell.

Miss Helen Dunlap's program was "The Purchase, Care and Storage of Bed Linens," and Miss Ella Katherine Keith, her assistant, demonstrated making a bed with only one trip around it.

The community party will be held Thursday night, August 4 in order not to interfere with the Baptist revival, which will begin Friday night.

A refreshment plate was served to three members and the two demonstrators.—Reporter.

BROWNFIELD LADIES ARE HOSTESSES TO VTGA

The women of the Brownfield Country club were hostesses to the members of the West Texas Women's Golf association in an all-day session held at the clubhouse Wednesday.

During the day 18 holes of golf were played in a competitive tournament. The first nine were played before lunch.

Luncheon was served at noon to approximately 60 women, representing clubs from Meadowbrook in Lubbock, Lubbock, Lamesa, Plainview and Levelland.

After a short business meeting after lunch, the remaining nine holes of the tournament were played. Golf balls were given as prizes to the winners.

GOMEZ HD CLUB SEES DEMONSTRATIONS

Mrs. J. H. Blevins received a miscellaneous shower for hostess gift at the meeting of the Gomez Home Demonstration club held Thursday, July 28. Roll call was answered with how to remove stains.

Miss Helen Dunlap, home demonstration agent, gave a demonstration on "Care and Storage of Bed Linens." Her assistant, Miss Ella Katherine Keith, gave a demonstration on "How to Make a Bed With One Trip Around It." Ten members and five visitors, Meses. Lee Farmer, Raymond Wiggins, Charlie Moore, Alline Black, and Ruby Lee Arnold, were present for the demonstrations.

The next meeting will be held September 8 in the home of Mrs. R. G. Herron.—Reporter.

Gee Gee's Chit Cha

Building in Brownfield seems to be zooming. Driving over the city, we see constructions fanning out on each side of us. One of the largest and most impressive buildings going up will be the Gilpark apartment house, which is being built at the corner of East Rippetto and Ballard streets. Of modern functional design, the building is to contain 16 units.

In talking with the city fire chief, Eunice Jones, he told us that one of the most dangerous things that a householder can do is to stick a penny in the fuse box instead of a new fuse. With a penny in the fuse box you may save a few cents on fuses, but in case of a short in the wiring, you have no protection whatever. Too many fires are caused by pennies in fuse boxes, and the cost is too great in property damage and loss of lives. So the next time you may be tempted to stick in that penny, just add a few more to it and pop downtown and buy yourself a new fuse. You probably won't be sorry.

We were happy to see so many people at the Comanch Trail swim meet staged by the Boy Scouts Tuesday. Wish more people had been as interested in the Jaycees district two TAAF boxing meet.

MISS AMERICAN LEAGION OF TEXAS, pretty Jerry Gibbons, uses a fan to keep cool while trying on a new coat which will be among the advance winter fashions to be shown at the American Styles meeting in Dallas, August 14-19. While most Texans will be complaining about the heat, some 4,000 buyers from all parts of the Southwest will attend the exhibit to see a forecast of what American women will be wearing next winter.

Sorry to see Pat McMillan hobbling around this week on an injured foot, received in a skating accident, we understand. Is your youth cracking, Pat?

We would like to thank the person or persons who keep bringing our idiot child home to 801 E. Rippetto. Despite the fact that he's perfectly worthless and useless, and evidently an ungrateful wretch, he's our only child and we love him just the same. Just show us any cocker spaniel who has much sense, though.

For a few days we sweated when we glanced into display windows of clothing stores. As you know, merchants are now showing some fall clothes. However, it was not so painful Wednesday morning — for a while, that is. Well, despite our dislike of extreme cold, we always look forward to fall—and football.

Stricklinly Speaking

By Old He

The Dallas Morning News carries a daily one column by four cartoon entitled, "Remember?" A recent release showed a bunch of boys fighting a nest of bumblebees with paddles, and indicated the date as 1915. The fight started long before that time. In fact, it was raging when we landed in Texas in 1900.

We'll have to admit that we were never a very enthusiastic bumblebee fighter. Those boogers had a bad way of hitting hard and stinging in the same act. And we never to any great extent relished the handful of dirty honey that was extracted from the fence row after the bumblebees were dispatched.

And drifting on down on the gulf, we note that Galveston boasts of being out of debt, except for some undue bond issues. A lot of cities, likewise counties, could also so boast if they'd paid no state taxes since 1900.

If we remember correctly, the next legislature after the great Galveston storm of September, 1900, remitted the taxes of Galveston and Galveston county, and we believe that has been going on since. Likewise, a lot of other pretty wealthy counties have been added until it makes a burden on the counties, some of them poor, that have to pay taxes.

This big talk of "hysteria" and "red herring" is like the boy that whistled when he passed the cemetery. And, "where there is smoke, there is some fire."

We admit that we worry some about the A-bomb, but not half as much as we do about how to make both ends meet. One is a future problem—the other is ever present.

Did you ever discover how filthy a kitchen can look, or how lopsided the bedroom den of the lord and master can get in just a few days, when the wife or housekeeper leaves for a few days, or gets sick or something?

A paragrapher tells us that practically all people listen to the radio more than they'll admit. Yeah, and sometimes the Mrs. will ask you how you comprehend what you're reading and listening to at the same time.

HE TAKES A FULL SUPPLY OF "CHEWIN" ON VACATION

Joe J. McGowan, or as one of his clients in the early days designated him, "Joegowan," and wife are off on vacation to the northwest. In fact, their trail will be obliterated as much as possible, as they wish to get away from it all. But we have it on pretty good authority that Joe took quite a nice supply of thick plug Tinsley along for chewing.

He had been reminded that out in that section the time might come when only Copenhagen snuff could be obtained. His son, Billie Jo, states that he would send his dad an extra supply of chewing if he need be, but that when the supply of money runs short "dad better start home."

Speaking of the substitute Copenhagen for the real article, that is a measly shame, when one can buy bubble gum at every hamlet store in the United States. Why not cater to manhood as well as childhood?

Charley Plainsman Guy of the A-J publications was making a little argument recently on the sense of smell being next in importance to seeing and hearing. Like him, we believe that smelling is important, even if some things do stink.

He had also discovered that some songs or flowers remind one of a funeral, some place or circumstance. We have noted that we usually think of some certain place where we first heard the hymn, even though more than half a century ago.

One guy told us that he always thought of a certain honkytonk in a nearby town when he heard "Rainbow Over My Shoulder."

We like to watch Mayor C. C. Primm at his work in his drug store. He can get around faster and get more done than any two guys we ever saw at work. We have often watched with bated breath for him to wreck a counter sometime when he turns a corner like a whirlwind. He always misses.

Reminds us of an old guy who attended a nickelodeon in a city for days thinking the train would be a little ahead of time each day when it approached a scene where a bunch of shapely gals were bathing along the track—in the nude.

It was always the same old story. The gals always took to the bushes just before the train got in good viewing distance.

SOAP IS STILL A LUXURY IN EUROPE

VIENNA—(AP)—Soap is still a rich man's luxury in many European countries. Even in those countries where it is not rationed, soap is scarce and expensive. Low income groups can pay. Hospitals and other public institutions still depend on charity shipments from abroad for the bulk of their needs. CARE officials in Europe report the use of inferior quality soaps in institutions is a serious menace to child health.

STARLINGS LIKE FIREWORKS

CROWN POINT, Ind. — (AP)—Every night in July 4 here. The citizens have been shooting sky rockets, Roman candles, guns and firecrackers, trying to chase away chattering flocks of starlings. The results: none.

QUICK WHISKY FORMULA IS STILL IMPROVED

WASHINGTON—(AP)—Reports that a Japanese citizen claims he can "age" whisky 15 years in 12 minutes are nothing new in the U.S. patent office. The office has 239 registered schemes to do the same trick.

The 239 patents were issued between 1857 and 1942. Some of the processes were used by distillers shortly after repeal of prohibition in the United States. They were abandoned, however, as basically unsatisfactory when naturally aged whisky became available.

Mr. and Mrs. J. J. Moser of Colorado City visited their daughter, Mrs. Les Short, and family Sunday.

Publicity Gag Backfires

NEW YORK—(AP)—Bob Sayre, a press agent, is prematurely gray anyway. Otherwise results of one of his latest gags might have made him so.

Bob drew the chore of publicizing the movie, "Rope of Sand," which is laid in South Africa's diamond fields. He and his red-haired wife spent several evenings putting glass diamonds into envelopes. The envelopes were distributed where they would do the most good. The stunt was a grand success. Bob's boss was happy, gave Bob a bonus.

Then his wife found that the half-carat diamond in her engagement ring was missing. As nearly as they can figure, someone who got a "glass" diamond in the publicity stunt has the real thing. Bob says his bonus will just about pay for a half-carat diamond.
