

## Early Dental Treatment Essential

AUSTIN, Texas, Feb. 10—Solution of the nation's dental problems lies in making dental health education and dental care available to every child, said Dr. Geo. W. Cox, state health officer.

He said it is possible to prevent loss of teeth from decay if a person starts early in life to follow these simple rules:

1. Early and frequent examination of the mouth by a dentist.
2. Early treatment of small cavities and other dental defects.
3. Proper diet with refined sugars held at a minimum.
4. Proper brushing of teeth after eating.

A child should be taken to the dentist shortly after the last of his first teeth appear at about the age of two, he declared. Frequent examinations and treatment of dental defects by dentists should follow, he added.

Experiments are under way in research laboratories to find the answer to dental decay diseases, he said, adding:

"It has been learned that the very active element, fluoride, can be used to curb dental decay to a large degree. Dentist are now applying a solution of sodium fluoride to the teeth of their child patients as a routine dental treatment."

"To improve the dental health of the children of this country, each community, through coordinated group activity, should assume its responsibility in putting an adequate dental health program into operation to meet adequately the needs of our children."

### CARD OF THANKS

We take this means of thanking one and all of our good neighbors and friends for their kindness and help rendered in caring for Grace Bookout.

Mr. and Mrs. Bob Jones,  
Plains, Texas

TERRY COUNTY HERALD, FRIDAY, FEB. 10, 1950

**KING GOES SHOPPING**—Just like any other shopper King Frederik IX, of Denmark, looks over what he buys as he goes shopping in the North Jutland village of Farsø with his eldest daughter, Princess Margrethe. The village is close to the king's hunting cottage, where the royal family spent their winter vacation.

## Corporation Charters Issued In December

AUSTIN, Texas, Feb. 10—New charters were granted to 235 businesses in Texas in December, the University of Texas Bureau of Business Research reported.

Merchandising ventures led with 47 charters in December, followed by real estate, 24; construction, 19; and manufacturing, 15.

From January through December 1949, 3,643 new corporations were formed in Texas as compared with 3,801 in 1948 and 3,247 in 1947.

A 5-per-cent gain over 1948 was shown in the number of banking-finance establishments formed in 1949, while other categories registered declines from 2 per cent in real estate to 38 per cent in transportation.

## They Call It Communism

We can't compete with the federal government in printing, especially in price. We don't get any tax money to pay our help, no do we have any tax money to make up our losses. We wonder what will happen when the Duponts, the Fords, the G. E.'s, the Morgans, G. M.'s, and the little man is taxed out of business? Here's what we think will happen. The long arm of the federal government will take over and operate, and what will we have then? Federal ownership and operation. They have that in Russia today, but they call it Communism. —Andrews News.

### CARD OF THANKS

I take great pleasure in expressing my appreciation for the kindness of the nurses and my friends, and to Dr. Daniell who made my stay in the hospital as pleasant as they could. May God bless each and everyone.

M. B. Childress

### AUTO LIFE DOUBLED

PHILADELPHIA —(AP)—Today's automobile life expectancy has doubled. Today, whether the vehicle is ready to fall apart or is fresh off the assembly line, chances are that it will have more than 12 years of service and 103,000 miles behind it before reaching the junk heap. This compares with an average life span of about six years and 25,750 miles for the car of 1925.

These figures are cited by W. L. Aiken, chief automotive engineer at SKF Industries, Inc. He's already driven his own car more than 200,000 miles—and it's still going strong.

### BOY COLLECT ONE SMILE

BLOOMINGTON, Ill.—(AP)—John Branaman is 80. He lived alone in a shack until fire turned it into a charred ruin. All he had left were the clothes on his back.

Then three small boys went from house to house. They collected a purse for Old John. It added up to a few pennies less than \$14. It was enough to bring a toothless smile to a time-seamed, weary face.

Manganese has been mined in the Shady Valley district of Johnson county, Tenn., since 1883.

## Will HST Put Over His So-called "Civil Rights" Program?

Is President Truman just stubbornly set on pushing through if possible his so-called "civil rights" program because he sincerely favors it, or is he advocating it merely as a matter of political expediency? We don't know, but we do know that his chief spokesman in the House of Representatives, Speaker Sam Rayburn, very deliberately and effectively side-tracked consideration of the "civil rights" program the other day. He either did it with the secret consent of the President or he dared to run the risk of breaking with the President far enough on that score, consistently supported heretofore. We can hardly believe that President Truman is wholly insincere in this matter, but we can believe that Sam Rayburn has decided that he has followed the President far enough on that score. We are sure that he does not favor the FEPC bill and other radical race relation proposed by the President and radical northern labor unions. He knows that the people of his state and particularly of his congressional district do not favor these radical measures, and we believe that

he has finally determined to represent the sentiment of his home people and his own personal sentiments in these matters even if it should bring down upon his head the wrath of the President. At any rate, the action of Sam Rayburn in blocking consideration of this proposed legislation in the House the other day seems to be most significant. —Lynn County News.

Halvah, the turkish candy, now is available in can. Chocolate, vanilla and marble are the three flavors.

For average winter feeding, most farmers count on three tons of hay for each milk cow.

## Building Permits Hiked Over 1948

AUSTIN, Texas, Feb. 10—Texas building permits issued in December rose 30 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Building permits in 48 cities totaled \$35,867,869 in December, falling 7 per cent below November.

After adjustment for seasonal variation, the Bureau's index of building permits dropped 29 per cent from November to 54 per cent of the prewar (1935-38) base level. A year ago the index stood at 417.

## FRENCH BIRTH RATE STILL HIGH

PARIS—(AP)—France, whose birth rate caused concern to national leaders before the war, is now producing more babies. Official statistics for 1949, just issued, show 840,000' birth during the year as compared with an annual average of about 630,000 in the immediate pre-war years. The number of marriages in 1949 was about 320,000, a slight decrease as compared with 1948.

Official estimates placed the population of France for the year at around 42,000,000.

Coffee grounds make a good sweeping compound for the cement basement floor.

# ★ Lincoln's Birthday ★ Sunday, February 12th

Born into the poverty of a frontier family—he rose to the highest position the American people can confer upon a man. And during his years of public service, Abraham Lincoln showed in all of his words and deeds, that he never stopped believing in the greatness, the power, the freedom and the dignity of the people.

His Words of Yesterday Hold True Today:

“—that government of the people, by the people, for the people, shall not perish from the earth.”

WE WILL BE CLOSED MONDAY, FEBRUARY 13, IN OBSERVANCE OF ABRAHAM LINCOLN'S BIRTHDAY. PLEASE ARRANGE YOUR BUSINESS ACCORDINGLY

## G. I. QUESTIONS and ANSWERS

**Q**—I am a World War I veteran and I have been receiving pension for nonservice-connected disability from VA for about five years. I am now 48 years old. Will I have to wait until I am 65 years old to be allowed an increase in pension?

**A**—Your pension will be continued at the present rate until you have received it for 10 years, after which it will be increased to \$72 according to present laws.

**Q**—I am receiving vocational rehabilitation under Public Law 16. How long after I finish my course do I continue to receive subsistence checks from VA?

**A**—You are entitled to receive your subsistence allowance for two months after your employability has been determined.

**Q**—I incurred some expense to bury my brother who died while going to a VA hospital. Will VA reimburse me for funeral expense which I paid at that time?

**A**—VA may pay your claim, but it must be filed within two years from the date of permanent burial. The burial allowance which cannot be in excess of \$150.00 is payable only to undertakers or to reimburse the person who paid funeral expense.

**Q**—Will VA lend me the money to build a home? I was honorably discharged after four years of service in World War II.

**A**—VA does not lend money. You must make your own arrangements for the loan through the usual financing channels. VA then will guarantee your lender against loss up to 50 per cent of the loan, with a maximum guarantee of \$4,000 on real estate and \$2,000 on non-real estate loans.

**WINTER ON AN ENGLISH FARM**—The winter sun casts long shadows as an English farmer traces out deep furrows with his tractor near Pamington. Britain is faced with the task of greater food production as a part of the battle of the dollar.

### THTOP THIEF!

The editor of a weekly newspaper in the Catskills found that some prankster had stolen all the letters "S"s from his type cabinet, and inserted the following apology in his next issue:

"Thome thneaking thoundrel hath tholen into our compting room and thee-daddled with all our etheth. We mutth therefore, apoloithe to our readethr for the inthipid appearance of thith week'th 'Thentinel'."

"We would altho like to thate thif at any time in the yearth to come we thee thith dirty thnake in the grath about the premittheth, we will thoot him th full of holeth, he will rethemble a thwith cheethe. Thank. you."

**RED DEMONSTRATOR ARRESTED**—Motorized riot police in Rome arrest a Communist demonstrator in the downtown section after Reds tried to march through the city in an unauthorized procession. Police took in several agitators as 50,000 gathered to hear leftist speakers at a rally in the Piazza Del Popolo.

### A Grass-Roots Country Rules

The government of this nation is dominated by the small towns and the rural areas—not by the great city populations. That striking fact is developed in an analysis of the United States Congress published in the December issue of The American Press.

The analysis shows that 76 out of the 96 Senators—79 per cent—are elected by rural majorities, and that 54 per cent of the Representatives represent more rural counties than urban counties. For the purpose of the study, a rural county was considered to be one in which there are no community with more than 10,000 population.

The small number of Senators who represent predominately urban constituencies mostly come from states with very small land areas and concentrated industry, such as Rhode Island and Connecticut.

The study shows further that 42 Senators and 132 Representatives have a weekly newspaper as their home town paper. It then said: "All of those from rural areas depend on weekly newspapers as one of their chief barometers of the opinions of their constituents."

The point is that, in spite of the growth of the cities, this is still a grass-roots country. The people on the farms, in the villages, and in the small municipalities have the dominant voice when it comes to electing the men who make our laws. The future of America is in their hands. The above was reprinted by request of the local Chamber of

### The Cow Story Up-to-date

It doesn't make any difference whether you are a Republican, a Democrat or an Independent, the following article from the Bernice, La., News-Journal is good for all to read who wish to see our American system of representative government survive.

**Capitalism:** If you have two cows, you sell one and buy a bull.

**Socialism:** If you have two cows, you give one of them to your neighbor.

**Communism:** If you have two cows, you give them to the government and the government gives you milk.

**Fascism:** If you have two cows, you keep the cows and give the milk to the government.

**New Deal:** If you have two cows, you shoot one, milk the other, then pour the milk down the drain.

**Fair Deal:** If you have two cows, you let them starve so you can buy your milk in cans, thus making business better.

Rats are declared to cause an annual damage of around \$2,000,000,000 in this country, of which about half is the food supplies they eat.

The first ship sunk at sea by an enemy submarine was the 5,000 ton British cruiser HMS Pathfinder.

Commerce.

**BUFFALO, N.Y.**—The world's first and only complete 3-speed record changer, that automatically plays all speeds—and all sizes—also automatically plays both sides of 10 and 12-inch records continuously and in sequence. Markel Playmaster, above, is manufactured by the Markel Electric Products, Inc., here. It fits most radio or television combinations. And it's simple enough for a child to operate.

This is the world's lowest price record changer on the market that will play symphonies, etc., on 33 1/3 records in correct sequence — by playing both sides automatically. It comes with a base for simple attachment to any radio-phonograph or television set—the illustration is of the model that is installed in a combination.

Music lovers everywhere are thanking Joseph Markel for his company's contribution to their entertainment in giving them a changer that provides for nine consecutive hours of music without interruption. A special added unique feature is the tone arm can be moved at any time. It cannot be damaged or made inoperative even if it is thrust out of line. This is especially welcome news to parents of small children.

### Some Interesting House Organs

The lay newspaperman may not exactly savvy what we mean by "House Organ." Newsmen usually refer to a paper or magazine that is put out by some manufacturer, and sent by mail to customers of their retail dealers, or mailed in bulk to the dealers for them to hand out or mail as house organs. Usually there is no subscription charge for such papers or magazines.

With that explanation, will state that the Herald finds that not a few of these periodicals, mostly monthly are quite interesting. Very little of the space is devoted to the wares of the company. Many of the stories are written by the best of writers, and well illustrated by using black and white or colored photographs taken by expert photographers.

The past week, we received a magazine put out by International Harvester Co., and the leading feature story was "Mountains of the Moon." This story dealt with the 11th expedition of Commander Attilio Gatti of Vermont to the so-called dark continent, Africa. And most of the pictures were closeup or distant pictures of such animals in south Africa as the lion, giraffe, zebra, rhinoceros, as well as the natives and their mode of living in that section.

Among other mags that we greatly enjoy, is Friend, by Chevrolet, Ford Times, the latter Reader's Digest size, while Friend and most others are Collier or Saturday Evening Post size of page. There are several others, some by local lumber companies

### Business Failures Increase Over '47-48

AUSTIN, Texas, Feb. 10—Business failures in Texas totaled 209 in 1949, reports from Dun and Bradstreet to the University of Texas Bureau of Business Research showed.

This figure compares with 85 fatalities in 1948 and 55 in 1947. Liabilities per failure averaged \$33,000 in 1949, \$52,000 in 1948, and \$91,000 in 1947.

**SANTA FE CARLOADINGS**  
Santa Fe System carloadings for week ending January 28, 1950 were 21,574 compared with 19,355 for same week in 1949. Cars received from connections totaled 10,993 compared with 9,662 for same week in 1949. Total cars moved were 31,672 compared with 29,017 for same week in 1949. Santa Fe handled a total of 29,993 cars in preceding week of this year.

or their chains. Others we greatly enjoy are magazines by the Texas Company and Humble Oil Co. Of course the latter are mostly oil field and refinery scenes.

Some one may ask if we do not believe that publishing their own papers or magazines, have a depressing effect on advertising the Herald might get from them. We figure that it does not. Most firms of large calibre are thoroughly sold on advertising, and they do it both in their house organs as well as the privately owned press.

Over the years that we have been in the newspaper business, firms that advertise at all, have gradually increased it.

### PLANS AND SPECIFICATIONS

### WHAT'S NEW IN THIS PICTURE?

Well, just look how the SPECIAL shines now! Brightwork on the fenders and around all windows. A name plate—and inside, door armrests, a robe rail, an extra ash tray. See the SPECIAL in de luxe finish at your dealer's.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

## Here's where Thrift and Glamor meet

Recognize this sprightly traveler?

Yes, it's the Buick SPECIAL 6-passenger Sedan that has caught the public fancy not only on its sleek lines, but on its easily-reachable price.

But notice anything new on it?

That's right — gleaming trim and the name plate "SPECIAL" bright-

ening up the fenders. Brightwork around the windshield and windows, too. And when you swing the door open you'll see still other touches of added luxury—side armrests, front and rear, a robe rail, an extra ash tray.

It's all still mighty thrifty, because this strapping straight-eight sells for less than many sixes.

Frugal in other ways too — gas mileage, for instance, is surprising so many people they are writing us in delight about it.

But here we've added extra glamor. Stepped up, at small step-up in price, the luxury look and surroundings of cars that would normally be much higher.

Why not drop in and see for yourself, both how these added touches dress up this SPECIAL and how close it is in price to cars of much less room, riding comfort, standing and performance.

Your dealer will be glad to see you — glad to show you how this traveler handles—glad to sign you up for prompt delivery.

**Features like these mean BUICK'S THE BUY**

- HIGHER-COMPRESSION: Fireball valve-in-head power in three engines, five hp ratings. (New F-263 engine in SUPER models.)
- NEW-PATTERN STYLING, with bumper-guard grilles, taper-through fenders, "double bubble" taillights.
- WIDE-ANGLE VISIBILITY, close-up road view both forward and back.
- TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius.
- EXTRA-WIDE SEATS cradled between the axles.
- SOFT BUICK RIDE, from all-coil springing. Safety-ride rims, low-pressure tires, ride-steady-ing torque-tube.
- DYNAFLOW DRIVE standard on all ROAD-MASTERS, optional at extra cost on SUPER and SPECIAL series.
- WIDE ARRAY OF MODELS with Body by Fisher.

**DYNAFLOW DRIVE? SURE, AT \$40 LESS THAN BEFORE!**

Dynaflo Drive is available as optional equipment on all 1950 Buick SPECIALS. The extra cost is now \$40 less than originally, putting the siren luxury of this super-smooth transmission within still easier reach.

### Stricklinly Speaking

**By Old He**  
Gosh, we felt old beyond our years one day last week when we received a little letter from a great-grand niece back in Tennessee, who is a second grader. Of course little Sallie Stewart didn't address us as great grand uncle, just Uncle Jack. Glad she left off the age qualifying stuff. Her letter goes among our keepsakes.

They tell us that Bill Byron Price drew sixth place in roping at the Fat Stock show at Fort Worth, and was in on some of the money. But what tickled Bill Byron was that there were 104 that he beat.

It's a measly shame that Swiney Belle took that bath and erased the soil image from her knee that Li'l Abner admired so much. Thus another mountain romance goes glimmering, and Abner will have to hunt another knee.

One of the boys that works in this plant pulled quite a crack last week. He remarked he'd just as soon have a nice, quiet Christmas edition on his hands as what we did have.

Not only was the Herald to be gotten out, but there was a 120,000 run on a 12 page 20,000 edition of the Frascati Orphan Home monthly. It was folded by machinery, but assembled by hand.

We note that Henry Kaiser has put up 15 million dollars to get into the low priced car racket—maybe late this year. We hope he'll knock down one to us for \$1.98.

The politician was being heckled by the audience about the increasing taxes, when the politico pulled the old one about death and taxes being with us always. "Yeah," yelled a guy back in the rear, "but death is not always in such a hurry to collect."

We note in reading Texas Co-Op Power, a monthly published at Austin, that electricity has been turned on in Judge Roy Bean's well known courthouse and saloon at Langtry, Texas, sometimes known as the Jersey Lilly. Of course the place is no longer a saloon or courthouse, but now just an historical spot of "Law West of the Pecos." Many of the ranches in that section also have been cut in on modern power and light.

We had just about decided that Editor Afton Richards of the Aspermont Star had gotten stingy, and cut us off. But evidently we did just that to him in the first place, probably when we were having our subscription campaign last year, and changed to a more modern mailing system about the same time.

Anyway, here we is again. So Open Dat Door Richards. You

might have something in there we'd want to quarrel at you about. Speaking of editors, Mr. Joiner of the Ralls Banner brought out a thought some of us never think of. Too often we editors just take the proffered money and forget what the candidate says, especially that "make no promises." We don't think the majority intend to convey the idea that they'll do nothing either way, just collect the salary. But a real negative candidate might do to watch.

This is National Boy Scout week and also national frankfurter and kraut week. They tell us there is now in the neighborhood of 250 national "weeks" and a heck of a lot of "days."

A paragrapher tells us that you breathe from 7 to 8 thousand tons of air per day, and get all you can as that is the only one of the necessities of life that is free, he added. Maybe, but our air conditioner that we run in summer wasn't exactly free, nor the water, electricity, etc., that run it. An there's a repair bill most every spring.

To you Territes, we can tell you now what went with that rain you have been expecting. Exactly 16.35 inches of it fell back in our old home county in Tennessee in January during 27 of the 31 days. If spaced just right we could make a bumper crop on that much rainfall. We got 13/100 of an inch here in Brownfield, and several sandstorms.

Another competitor: Red Smith, new manager of the Chamber of Commerce, has started a paper, but so far has not christened it. It is a 4-page mimeograph paper, chock full of C of C information.

### CHALLIS NEWS

We were glad to have our pastor, Bro. Vance Zinn, back with us and we had a wonderful service. Miss Charlene Quillin of Brownfield visited in the home of Mr. and Mrs. W. J. Henderson Sunday.

Bro. Vance Zinn and wife visited in the home of Mr. and Mrs. C. S. Carroll Sunday.

Mrs. Lula Lewis spent last week end in Shallowater.

Mr. and Mrs. Ray Anderson from Levelland were visitors in our church Sunday night.

Mr. and Mrs. C. S. Carroll spent Sunday afternoon with Mr. and Mrs. Hubert Durham in the Johnson community.

The Wayland College youth band will bring us a program Saturday night beginning at 7:30 p.m. and will be with us Sunday. All are welcome. We will spread lunch at the Challis church Sunday, then will attend the Sunday school zone meeting at Forrester Sunday afternoon.

We are having the school of missions with us next week. Everyone is invited to attend these services.

Sgt. Charlie Edmonson, stationed at El Paso, visited here with Elijah Henderson over the week end.

### An Experiment In Democracy

(An Editorial)

In developing broadened programs designed to promote the growth and welfare of the entire community, chambers of commerce have made mistakes, like most growing institutions. Civic enthusiasts in some communities converted their chambers into organizations whose primary object seemed to be the achievement of spectacular growth rather than one based on sound economic principles.

Instances of such misplaced emphasis were inevitable, but they probably have occurred with no greater frequency in the history of the chamber of commerce movement than in other rapidly developing fields of organization wherein membership, financial support and active participation are on a voluntary basis.

The trial and error experiences of many chambers of commerce over a period of many years have contributed much to the development of sound organization and operating principles employed by chambers of commerce today. The day-by-day achievements in thousands of American communities is proof that a chamber of commerce is a practical means of coordinating the efforts of men of many vocations and interests in the advancement of community welfare.

The fact that the number of chambers of commerce is steadily increasing indicates the wide spread recognition of the value of community organizations through which forward-looking citizens effectively promote the industrial, commercial and civic interests of their community. A survey of the post-war trends in the membership and income of established personal and financial support of local chamber of commerce is steadily increasing.

There is no question that in the world-watched test of America's free competitive enterprise system, chambers of commerce will continue to make a significant contribution. In the final analysis, their effectiveness depends upon the willingness and ability of men to work together.

### JOHNSON NEWS

Mr. and Mrs. W. E. Parker and children, Frankie and Nelda, visited her parents, Mr. and Mrs. J. W. Entekin in Lamesa Sunday.

Mr. and Mrs. Alvis Patton and children visited his mother, Mrs. W. H. Patton in Brownfield Sunday.

### Shower Honored Miss Hicks February 3

Complimenting Miss Wanda Jean Hicks, bride-elect of Harold Wayne Foster, a bridal shower was given in the home of Mrs. Fonzie Sharp February 3 between the hours of 3 p.m. and 5 p.m. Other hostesses were Mesdames G. E. Ashburn, John Roberts, Watkins, Willis Blair, R. L. Montgomery, Horace Castleberry, C. N. Gray, Malcolm Timmons, Richey, and Keesee.

The refreshment table was covered with a white linen cut work cloth over blue satin. Centering the table in a crystal bowl was an arrangement of white stock with tiny gold flowers at the base. White satin streamers running from the centerpiece were lettered in gold with "Harold and Jean" and between the streamers stood a miniature bridal couple.

Alternating at the tea service were Mrs. Ashburn, Mrs. Montgomery and Mrs. Timmons.

Musical selections were given at intervals during the afternoon by Miss Pat Key, pianist, and Miss Frances Roberts, vocalist.

Miss Hicks wore a corsage of white tube roses and her mother, Mrs. C. E. Hicks, wore a corsage of white carnations.

Mrs. Willie Blair registered 78 guests in the bride's book during the afternoon.

### PLAINS NEWS

The Fine Arts club met in the home of Mrs. Cecil Courtney Thursday with Mesdames Courtney and Lovelace as hostesses. A lovely dinner was served to 14 members and one guest, after which a very interesting program was given. The next meeting will be with Mesdames Thelma Ellis and Rhodes.

The Women's Society of Christian Service met at the Methodist church Tuesday afternoon. Their study course is "Women of the Bible." After an interesting program, refreshments were served to 12 members.

Mr. and Mrs. A. C. Copeland are in the hospital at Brownfield.

Mrs. L. B. Cabe of Brownfield was visiting her parents, Mr. and Mrs. W. E. Smith this week.

Mr. and Mrs. L. C. Goad of Provo, Utah, and I. A. Goad of Whitharrel visited Mr. and Mrs. H. W. Culwell this week.

Billy Curry returned to Wayland College at Plainview Tuesday after spending the week end with his parents, Mr. and Mrs. Joe Curry.

B. B. Bookout, and son of Tularosa, N. M., visited his mother and brothers this week.

Morris Lowe, P. M. Williams and Marcene Lowe attended the Fat Stock Show in Fort Worth this week.

Dr. George Moreland and family are home from Mexico, where he was assisting in the work of stamping out the foot and mouth disease among cattle. He has completed his work there and has bought a place in Balmorra, and will continue his practice there.

Rev. E. L. Naugle and wife attended a Methodist preachers conference in Levelland Monday. Little Linda Lou Robertson celebrated her third birthday Friday. About 30 little tots attended her party.

Uncle John Hague is still in the Denver City hospital with a congested lung. He is better and is expected home the last of the week.

Mrs. Edd Raymond of Roswell, N. M., visited her parents, Mr. and Mrs. J. H. Morris this week.

Mr. and Mrs. Elmer Webb from Denver City were visiting friends in Plains Sunday.

Dr. George Moreland and Johnny Robertson made a business trip to Ruidoso, N. M., over the week end.

Mr. and Mrs. George Cleveland attended the Fat Stock Show in Fort Worth this week.

### TOKIO HD CLUB MEETS

The Tokio HD club met in the home of Mrs. P. W. Smith, Feb. 1, with five members and Mrs. Elton Busbee, a visitor, present.

The program, "Household Pests," was given by the president. The next meeting will be with Mrs. Wesley Sherrin, Feb. 15.

Mrs. Leona James and little daughter, Kay, of Englewood, Calif., are here visiting their parents and grand-parents, Mr. and Mrs. J. H. Plant of the Johnson community. They will be here three or four weeks.

children visited relatives on the Williams ranch near Plains, Sunday.

Mrs. Milam Tuttle has her sister visiting her from California.

Dale Faught, four year old son of Mr. and Mrs. C. F. Faught, had the misfortune of having his arm broken while playing Sunday.

Mr. and Mrs. John McGraw moved to the community last week from Brownfield.

Mr. and Mrs. M. L. Murray and daughter, Juanita, visited in the W. J. Hancock home at Wilson Sunday.

OWNERS & OPERATORS

### It's Now Staff Sgt. Mansel E. Thompson

Staff Sgt. Mansel E. Thompson, son of Mr. and Mrs. John E. Thompson, 221 North 11th St., Brownfield, was promoted to his present grade January 24, 1950, at Spokane Air Force Base, Wash.

Entering the service July 14, 1947, he received basic training at Lackland Air Force Base, San Antonio, and was transferred to Hq. Sq. 92nd Bomb Wing, SPAFB, November 1947, where he is a clerk in the Wing Comptroller's office.

Prior to entering the service he attended Texas Tech.

### LOVE HER WITH ALL YOUR LIVER

WACO, Texas, Feb. 10—Baptist Missionary Henry Schweinsberg warned Baylor University students here never to tell a Bolivian girl he loves her will "all my heart."

She would not know what he means, the missionary told the Baylor chapel, explaining that the Bolivian considers the liver and not the heart as seat of affections.

"Instead," advised Mr. Schweinsberg, "tell her that you love her with all your liver."

The German Navy lost 178 of its U-boats to enemy action during World War I.

### Marion Bowers Got Degree January 31

AUSTIN, Texas, Feb. 10—The University of Texas conferred Masters' degrees on 79 graduate students January 31 at the close of the current session's first semester.

The list, announced by Graduate School Dean A. P. Brogan, included Marion Clark, Bowers, Master of Science in petroleum engineering.

### CROP REPORT ON SANTA FE LINES

Texas territory served by the Gulf, Colorado and Santa Fe railway experienced a variety of weather during the past month, one day a high temperature of 70 to 80 degrees, next day freezing. Some heavy rains fell but most of the cold weather came in the form of dry "northers."

Planting of land for spring planting is well underway, operations being 50 to 60 per cent completed in some areas. Cold weather damage to small grain was quite severe in the northern part of the state, especially to oats, some fields of which are being replanted. Wheat was frozen down but with a few days of sunshine most of it is expected to recover.

Spain, the Near East and Greece for centuries furnished the world with its supply of raisins.

### Continuous Job for U.N. in Holy Land

Four Mixed Armistice Commissions, each with a United Nations Representative as chairman, are on the job in Palestine to help Israel and her neighbors maintain the peace they agreed upon a year ago with U.N. help. At left, UNAC members look over the ruins of a tank. At right, they supervise the reclamation of soldiers' bodies from unmarked desert graves where they were temporarily buried.

### The Low Down From Hickory Grove

Always striving to be helpful, I suggest as we go headlong into 1950 that every congressman—every mother's son of 'em—go on down to his ear specialist and find out just what it is that has been throwing him for a loop and off his equilibrium. Find out what is causing him to imagine that 500 folks making a big hubbub cut more ice than 10,000 quiet folks who elect their man and then expect him to be astute enough and smart enough not to be carried off his feet by the noise of the few looking for loot.

These congress fellers, when they are home, know that to get a nest egg in the bank—and have your own earned security—that it takes thrift. Even in the schoolhouse—first grade—they know that a nickel a week in the piggy bank puts the young goslings in a fancy spot when vacation time comes and ice cream cones are extra tasty.

So you gents there on that mystic Potomac where some are inclined to the fancy that diners grows on shrubs and bushes, I warn you. My crystal ball tells what is brewing. Listen. The 10,000 quiet citizens back home pack a haymaker and could fool you on next election day. They are not as sound asleep as you might think.

Yours with the low down, JO SERRA

**NOT HIS DISH**  
CHICAGO—(AP)—John Ramone, who likes to juggle in his spare time, tossed three dinner plates into the air.

He deftly caught No. 1 in one hand and No. 2 in the other. The No. 3 dish landed on his forehead. After the wound was closed with three stitches, he commented:

"Well, it always worked with rubber balls."

ANYBODY WANT A 'POSSUM?—When Mrs. John Broecker of Quincy, Ill., went to gather eggs she found this 'possum curled up in one of the nests where a hen had just laid an egg. Mr. Broecker is now looking for someone who wants a 'possum. He says it's one of the largest he's ever seen.

### Good News for Texas 4-H Girls

COLLEGE STATION, Feb. 10—Two outstanding Texas 4-H club girls will annually have a chance to attend college on scholarships provided by the Texas Home Demonstration Association. If plans made at the Association's recent board meeting are approved.

A recommendation was approved to raise the Maggie W. Barry Scholarship to \$500 per year and in addition, the board voted to present to club women plans for the creation of another scholarship of equal value. The second to be known as the Helen H. Swift Scholarship.

The recommendation was introduced by Mrs. B. M. Harris, Plainview, chairman of the State 4-H Committee of the Association. Final action will be taken on the scholarship proposal during the 1950 state meeting which is to be held in Big Spring in August.

The awards would be of equal annually to the two most outstanding 4-H club girls Texas who are entering college for the first time or have started their second year.

The Texas Home Demonstration Association also assists each of the 14 extension districts by furnishing a \$100 grant that may be used in promoting 4-H work. This financial aid comes from a small contribution that each member of the Association makes annually and it has done much to stimulate 4-H club work in the state. Club members also serve as local adult leaders for many of the 4-H clubs in the state.

### Report From Life Magazine "Span of Life Grows Longer"

From one city's medical facilities with the years 1900 to 1950 comes a report on the fight against health hazards that cause death. Listed diseases are diarrhea, diphtheria, tuberculosis, pneumonia and flu, typhoid fever, nephritis, heart diseases, cancer and stroke.

1900: Three out of ten children born were all that could expect to reach the age of 70.

1925: Four out of ten children born were all that could expect to reach the age of 70.

1950: Five out of ten children born could expect to reach the age of 70.

This record from Wichita, Kansas Medical facilities.

"Frosted Coin," "Star and Punt," and "Frosted Lion" are terms to designate types of syrup pitchers in which collectors of American glassware specialize.

New York, Dallas, Jacksonville, St. Petersburg and Camden have city-owned radio stations.

## Attention Farmers!

For best results on your cotton acreage allotment plant Kemgas delinted and treated seed, it will save you seed—save chopping expense and produce a more vigorous and healthy plant.

The grading of Kemgas delinted seed is far more efficient than is possible to grade fuzzy seed, and our new method of liming and ceresaning the seed prevents any loss of sacks as it coats each seed with a thin coat of lime and ceresan.

For a date come by our plant located one mile north of Lamesa by Railroad stock pens, or write —

### FARM QUESTION BOX

by  
**ED W. MITCHELL**  
Farm Advisor  
General Electric Station WGY

- Q. Is there any method which can be used to filter soft water so that it will be purified?
- A. You can filter the water through a box of sand before it enters the cistern; you can build a wall of porous brick in the cistern so water goes in on one side and comes out from the other nicely filtered; but no filter is effective in removing bacteria and germs of disease. You must add chlorine from time to time if it seems necessary or advisable, and kill any germs in the water.
- Q. How long does it take an apple tree to come into bearing?
- A. Macintosh and Delicious should start to bear a few apples in four or five years; Spy, Baldwin and some others at about ten years.
- Q. What causes blood spots in eggs and what will prevent it?
- A. Blood spots are due to little blood vessels breaking and there is no practical way to prevent it. Eggs should be candled to keep the spotted eggs from going to market.
- Q. What crops can be sown in the spring and harvested the same year for hay?
- A. Use oats and peas if you can get them planted early; millet or sudan grass if you have to plant after the first of June; or, if the land is rich and fairly free of weeds and you have a silo, plant fodder corn with a drill and cut it for green feed or grass silage.
- Q. Use oats and peas if you can get them planted early; millet or sudan

### New Chapter in Auto Volume

T. H. Keating, general manager, and W. E. Fish, general sales manager, inspect a special display of the 23,000,000th vehicle manufactured by the Chevrolet Motor Division. The milestone model was produced in record time. It came off the assembly line only 32 weeks after the 22,000,000th unit.

Mr. and Mrs. Wayne E. Brown, Jr.

## Wagner-Brown Vows Read Last Week

A ceremony read in the home of her sister, Mrs. L. G. Smith, at 10 a.m. January 26, Miss Nadine Wagner became the bride of Wayne E. Brown Jr. Her parents are Mr. and Mrs. W. H. Wagner and he is the son of Mr. and Mrs. Wayne E. Brown.

The Rev. Jack Pearce performed the ceremony before an archway of huckleberry, flanked with candelabra and baskets of white gladiolus.

Miss Janelle Turner, the maid of honor, wore a blue satin dress fashioned on the lines of the bride's gown, with a blue tulle net halo hat. She carried a sheaf of pink roses, tied with tulle net and satin streamers.

Given in marriage by her father, the bride wore a gown of white slipper satin, made with a fitted bodice with a sweetheart neckline and fitted sleeves, ending in points over her hands. The full skirt fell from a low scalloped waistline. He illusion net shoulder length veil fell from a satin halo, encrusted with seed pearls. She wore a strand of pearls and carried a white Bible topped with red roses, tied with satin streamers.

The bride had an old penny in her shoe for luck, and her white Bible was borrowed from Miss Turner. She wore a blue garter, and something old was a pin belonging to the groom's mother.

James Evans served as best man.

The bride's mother wore a navy blue dress with black accessories and a white carnation corsage. The mother of the groom wore a wine suit with black accessories and a corsage of white carnations.

A reception was held in the Smith home immediately following the ceremony. The bride's table was laid with white net over a blue satin cloth and featured a centerpiece of a miniature bridal couple standing under an archway, set on a reflector.

The three-tiered wedding cake, topped with silver wedding bells, was served by Miss Elizabeth

Anthony and Miss Mary Ellen Moore.

Miss Maurine Davis registered the guests.

For a wedding trip to El Paso and New Mexico, Mrs. Brown wore a tan gabardine suit with green accessories and a red rose corsage.

Both Mr. and Mrs. Brown are graduates of Brownfield high school. At the time of her marriage, Mrs. Brown was employed in the E. G. Akers Abstract office. Mr. Brown is a senior student at Texas Technological college.

### Shower Compliments Miss Gwenette Glover

Miss Gwenette Glover of Roswell, N. M., bride-elect of Virgil Short, N. M., was complimented with a bridal shower, given in the home of Mrs. J. E. Gillham February 6 between 4 and 6 p.m. Other hostesses were Mesdames Frank Wier, Doug Jones, Herman Chesher, and Misses Sue and Gertrude Jones, Freda Anthony, and Mary Wanda Whitney.

The house was decorated with white sweetpeas, white gladiolus, and white and yellow chrysanthemums. Mrs. Gillham, the honoree, Mrs. Vance Glover, Mrs. Les Short, and Miss Dixie Glover greeted guests at the door.

A centerpiece of a miniature bridal couple and a minister standing under a triple archway covered with satin and sweetpeas was flanked with two tall tapers in silver holders. Directly over the arrangement, hung a shadow box filled with sweetpeas and chrysanthemums. Mrs. George Chisholm and Miss Anthony served tea, yellow heart-shaped cakes, nuts, and mints. The table was laid with white net over white satin, with large yellow satin bows caught on the edges.

Miss Whitney registered the guests.

Phone us when you have news!

### Mr. and Mrs. Krizek Entertain at Party

The home of Mr. and Mrs. Joe Krizek was the scene of a bridge party last Friday night.

A sandwich plate was served to Messrs. and Mmes. Clyde Trully, Tommy Zorns, Tom Harris, Jim Finley, Sam Teague, Jack Cleveland and Mrs. C. L. Hafer.

Mr. and Mrs. Harris received high couples prize. Mrs. Hafer was high for the women and Mr. Harris was high for the men. Bingo prizes went to Mrs. Hafer and Mrs. Trully and to Dr. Finley and Mrs. Cleveland.

### Mr. and Mrs. Yoast Entertain at Dinner

The Loyalty Union of the First Baptist church was entertained with a chicken dinner Friday evening in the home of Mr. and Mrs. Charles Yoast.

The guest list included Messrs. and Mmes. Joe Plemmons, Stuff Moorehead, Gerald Nelson, Ken Posey, Kelton Miller, Charles Auburg, C. W. Dennison, Bill Liles, F. C. Bradley, Jr., Webb, Henry Fugitt, L. G. Smith, and Mesdames Bill Neel, Marie Bilbey and A. J. Green.

### Mrs. W. G. Hardin Birthday Honoree

Mrs. W. G. Hardin was complimented with a tea, given in the home of Mrs. Joe Hardin, Sunday afternoon honoring her on her 73rd birthday. Other hostesses were Mesdames Redford Smith, B. L. Webb, H. E. Schwartz, and Sherman Mitchell.

The honoree was presented a pink rose corsage. Mrs. Joe Hardin wore a pink carnation corsage, and other hostesses wore variegated carnation corsages.

Coffee and cakes were served to approximately 60 guests who called during the afternoon.

### Mrs. J. C. Herring Hostess to HD Club

The Union Home Demonstration club met in the home of Mrs. J. C. Herring February 2.

The vice-president called the meeting to order. Two songs were sung. The club members drew names for their "sunshine sisters" for the year.

Miss Helen Dunlap gave a demonstration on how to make different kinds of rugs.

Refreshments were served to Mesdames B. Y. Howze, Bill Ardis, Frank Sargent, W. F. Jones, Carroll Shults, J. A. Cornett, Jack Ragan, J. T. Newsom, Claud Montgomery, and one new member, Mrs. W. W. Cheatham.

### ATTEND RECEPTION HONORING PARENTS

Mr. and Mrs. A. T. Fouts of Rule recently celebrated their golden wedding anniversary with a reception at their home. They are the parents of Mrs. A. H. Daniell of this city.

The reception was attended by members of the family and friends from many west Texas towns. All of Mr. and Mrs. Fouts' six children and all but one of their 12 grandchildren attended the reception.

Mrs. Bernice Huckabee visited her son, DuBoise, and family in Hobbs, N. M., Sunday.

### MRS. J. T. BOWMAN HOSTESS TO CLUB

Mrs. J. T. Bowman entertained the Pleasure Bridge club Feb. 1 at 7:30 p.m. at the Esquire Restaurant.

Those present were Mesdames Jack Hamilton, Walter Hord, R. N. McClain, A. M. Muldrow, Tom Harris, Clyde Trully, Sam Teague, Joe Shelton, Harry Cornelius, Germany, C. C. Primm, and N. L. Mason.

Mrs. Hamilton won high score prize and bingo prize, and Mrs. Mason was second high.

## Gee Gee's Chit Chat

Slim pickin's this week. Not much to cuss about, and having a terrific case of spring fever. Wonder if the m.d.s have any shots or pills to cure it. Mother Nature will probably attend to that, though, and for that reason, I have not yet salted my longhairs into the mothballs. Kinda makes you quiver to think what may be in store for us any time now, doesn't it? Maybe she'll just take pity on us and send us a nice, warm, gentle 9 inch rain. Drool, drool, drool.

I do have one small cussing to do, and if you've ever been a victim, you'll think I'm not cussing enough. I'm talking about these (censored) who poison dogs. As a matter of fact, it practically makes me speechless to think of them. If there is a more cruel, heartless, villainous, heinous, vile character in the world than a dog-poisoner, I hope that I never hear of it. Granted, some dogs can be pesky and mischievous, but so are a lot of people. So are a lot of people's children. I am not much of a dog-fancier myself, but I've seen some human beings I'd come a lot nearer poisoning than I've seen dogs I would. Of course, the thing to do is to call the city police to impound dogs that ap-

pear to be strays and to talk to the owners of the other dogs. These dog-poisoners are the ones who need to be put out of their misery—not the poor animals—because they are usually soured on the world, dogs and kids and people in general, and no good for anything. But, you see, I and all the other people who have and ever will rave and rant and cuss about dog-poisoners are just wasting our efforts, because I have a very serious doubt in my mind that a person who would poison a dog can even read or write.

Am I growing an unusual variety, or are everyone else's hyacinths blooming, too? Kinda stumpy, but definitely blooming. Who wants to go to Florida, anyway?

To all the people, including the merchants who so generously donated prizes, the players, and all the helpers, who made the March of Dimes bingo benefit such a success last Friday afternoon, THANKS. Not only from the officials of the M of D campaign, but also from all the children who have been, and will be helped, by your magnanimity.

Hey, they're going fast! I mean those tickets to the annual Brownfield Chamber of Commerce banquet to be held at the Esquire Restaurant February 20. Get them now at the Chamber of Commerce office or at the Brownfield Coffee Shop. Where else could you get a lot of good companionship good talk, and a filet mignon, for only a buck and a half??

As you may or may not know, this is National Boy Scout week. Having never been a Boy Scout, my knowledge as to which badge comes first or in what order they fall is practically nil. This I do know. Brownfield has one of the most active scouting programs in the South Plains Council. Last week, Johnny Cloud of Troop 74 received the Eagle Scout award, the highest honor in scouting, at a court of honor held at Veterans Hall. Tuesday night, 19 members of Troop 49 received their Eagle Scout awards. I understand that this is the largest number of scouts in a single troop to receive Eagle awards in the South Plains Council. Cecil Hill, scoutmaster of the American Legion sponsored troop 74; Ralph Bailey, scoutmaster of Rotary Club sponsored troop 49; and Dr. T. H. McIlroy, scoutmaster of Lions club sponsored Troop 79, having worked hard with these boys in making their troops outstanding, not only in Brownfield, but in the entire council. And so, to all these fine scoutmasters and their scouts, congratulations upon the 40th anniversary of your organization. May you, our leaders of tomorrow, continue to thrive and grow.

Mrs. Ladell Nelson

## Bessie Burnett Weds Ladell Nelson in N.M.

Miss Bessie Irene Burnett, daughter of Mr. and Mrs. Ernest Burnett, became the bride of Ladell Nelson, son of Mr. and Mrs. Jim Nelson, in a single ring ceremony January 29. The Rev. W. R. Houston performed the marriage in the parsonage of the First Methodist church at Lovington, N. M.

The bride wore a white wool suit with navy blue and pink accessories and pink rose corsage. For something old, she wore a pin belonging to her mother. Something new was her wedding suit, and something borrowed and blue was a pair of garters belonging to Miss Charlene Quillin.

Miss Mae Bever was maid of honor. She wore a gold suit with brown accessories and a blue iris corsage.

Best man was Ernest Ray Burnett of Seminole, brother of the bride. Mrs. Ernest Ray Burnett was also present at the wedding.

The couple is at home at 801 E. Hester Street. Both are graduates of Brownfield high school. She attended Draughon's Business college in Lubbock and is employed now in the office of the Southwestern Associated Telephone Co. Mr. Nelson served in the paratroops during World War II and is now employed with Big West Drilling Co.

### Women Entertain At Bridge Party

Mrs. W. A. Roberson and Mrs. Tommy Zorns entertained Feb. 1 with a dessert bridge party given at the Seleta Jane Brownfield club house.

The guest list included Mesdames Gordon Richardson, Frenette Walker, Bruce Zorns, Frank Ballard, Roy Herod, Jerry Kirschner, Clyde Trully, A. A. Sawyer, I. M. Bailey, Roy Wingerd, Coleman Williams, John Kendrick, C. L. Hafer, Joe Krizek, Burton Hackney, George Germany, Charlie Price, Ted Hardy, A. M. Muldrow, Bill McGowan, Jack Shirley, Dick Chambers, Glen Akers, Sam Teague, George O'Neal, R. N. McClain, Tommy Hicks, Phil Gaasch, Joe McGowan, M. J. Craig, J. T. Bowman, Bobby Jones, Bill Anderson, Clovis Kendrick, and John Lahouricade.

### VISIT PARENTS

Mr. and Mrs. S. P. Cowan and family spent last week end visiting her parents, Mr. and Mrs. F. L. Doggen, at Blanco, and his parents, Mr. and Mrs. T. W. Cowan, at Lampasas.

Mr. and Mrs. Jack Hughlett visited in the Alvin Kelley home Sunday.

Styled FOR Spring

AS SEEN IN CHARM

JUSTIN McCARTY adds a fillip to the crinkled nylon fabrics of this one-piece dress with perky little pocked peplums. A shiny black patent belt and bright buttons give it a Spring like air. In turquoise, wax, black, navy, budgreen, toast or red.

While a once very popular so-called Swedish actress was preparing to and did give birth to what is known as an illegitimate child by an Italian film director over in Italy, another actress was preparing to deliver her first sermon in a Presbyterian church in Pennsylvania. A star in her own

right, Colleen Townsend has chosen the ministry with a probable wage reduction below the \$1000 per week she gets as a star on the screen. This, instead of the too common habit of screen stars of both sex of having a great plurality of husbands and wives. Now whether or not you agree that women have a right to be a minister of the gospel, you must agree that preaching is much more less of a sin than adultery. And also that some good intentions as well as evil ones come out of Hollywood.

The old saying of our hearty pioneers such as "a dollar saved is a dollar made," and "save the pennies and the dollars will take care of themselves," has gone by the board. In fact the bureaucracy up at Washington don't want the people to save. They want them to make plenty, and put every dollar in taxes above a bare living. That is Trumanocracy with a big HST branded on the band. One of Bro. Harry's lieutenants recently spoke his lines in south Texas about as follows: "We have learned that deficit spending does not bankrupt the nation nearly so quickly as mass unemployment." Now let's suppose that some of the strongest firms in Brownfield took it on themselves to spend more of their firm's income than it made? How long would it be until they are hailed into the bankrupt courts? They would last just about as long as the proverbial snowball in hades. The old idea of Harry Hopkins to tax and tax, spend and spend, elect and elect, goes merrily along to contrast sharply with the idea of that great statesman, John Marshall who said, "the power to tax is the power to destroy." At the rate we are going, how long can our nation remain free?

Heretofore the press and the doctors have not had much in common. The physicians have lifted, in some cases in the past, the newspaper folks on their boot toes, and out the door, to use a common expression, when the little matter of advertising was mentioned. The physicians would habitually fall back on that old one about "against their ethics," and in many cases they used rude language to impress the press. But since the FBI has moved in to investigate the Texas Medical Association at the instigation of Washington, the editors have forgotten the old professional quarrel, as the move threatens freedom of action, speech and press. Of course the medics perhaps had too much to say against the Truman-CIO political move to socialize medicine. Many of the editors call it "Gestapo-ing the Doctors." To the bureaucrats, the doctors were very insolent in questioning Mr. Truman's idea of socialized medicine. Formerly the Bill of Rights protected the in-

Lincoln Lesson for Today

dividual and associations, but that is old stuff at Washington. Nothing has any rights except the federal government, to them.

After years of sparring and maneuvering, the federal tax on oleomargarine was finally repealed by the congress. Of course the opposition, mostly congressmen and senators from the so-called "bitter states," tried to tack on riders, such as the so-called "civil rights" and other things wholly unconnected with the bill, but the final vote cut right across party lines in the senate, for instance, the vote being 56 to 16, with 34 Democrats and 22 Republicans voting for the bill. Let it be remembered, however, that at least 22 of the 48 states have some kind of state tax on oleo; it was just the federal tax that was removed. The question now comes up, that if butter is so superior to oleo in food value, will butter really be hurt? That remains to be seen. But we know some that prefer butter, and will continue to buy it, while others say they had as soon have the margarine. As a matter of fact, chemical analysis show that oleo has about the same food value as butter. Southern senators and congressmen almost unanimously supported repeal, despite the fact that in some sections of the south, dairying is coming to the front. Yet, cottonseed oil is the principal ingredient in oleo, and cottonseed is one of the principal southern products.

That big harmony dinner at \$50 a plate, chiefly sponsored by Editor Josephus Daniels, of Ra-

985 feet out of the Colorado river, which the LB informant says is fantastic—we wouldn't know. But that is higher than the Empire State building. The writer from California admits that his state gets the lion's share of Colorado river water, but that they have 5 million people to supply. This fight over water has been going on for years, and water anywhere in the west is becoming a great concern of people living in the west.

Secretary of Defense Johnson spoke some fighting words recently that were aimed squarely at Russia. He was addressing fellow alumni at the University of Virginia. Mr. Johnson stated that the unification of the forces of the army, navy and air corps is moving along in high, and will be ready for Old Joe Stalin within the hour, after Joe makes an aggressive move. "And we'll whip hell out of him." Such words are rather encouraging to a jittery nation, but most of us will recall that Japan would be licked in the matter of two or three months after Pearl Harbor. Be that as it may, the Herald believes that too much soft peddling has already been used to deal with the Kremlin. The only language the Russos understand is force. Even if we are not up to the par that Johnson indicates, let's let 'em know we will not be a pushover, and that while we are a peace loving nation, never having started a war, when one is forced on us, we will fight to win and quick. The only way we know to avoid war at this time is to keep prepared for one.

Studebaker Reduces Prices On All Cars

The Studebaker Corporation reduced list prices of all its passenger cars from \$82 to \$135 effective February 1, according to H. S. Vance, president and chairman of the board of the company. "The year ended December 31, 1949, was the most successful in our history," Vance declared. "Our production for the year was of record proportions, with passenger car output 43 per cent higher than in 1948. Since the introduction of 1950 models in September, we have been able to increase our production further. Today, passenger cars are rolling off our assembly lines at a record pace."

Corbin To Support General Tax Plan

AUSTIN, Feb. 10—Senator Kilmer Corbin said here this week he will support a tax plan which would spread the common financial burden as widely and as fairly as possible, and endeavor to keep the burden off the consuming public, for the operation and improvement of the state's hospitals which are classed "the worst in the nation."

The West Texas senator made his statement following Governor Allan Shivers' address to the legislature which has been called in special session for the specific purpose of financing the state's hospital program.

"In view of the emergency that exists, with no money to pay for food, clothing and care for the unfortunate people in our state institutions during the coming year, we must pass a tax bill," Corbin pointed out.

"I for one," he said, "will vote for a tax on natural gas, particularly that going outside the state, oil and sulphur, in order to provide for the state's mentally ill." Corbin stated that he is bitterly opposed to a state sales or income tax, or any program which fall on the people. He also said he is a strong advocate for economy in state government, but does not favor cutting existing appropriations for our educational system, aid to the needy, and rural road and highway program. He added that eighty-nine cents out of every dollar collected by the state in taxes is spent on these three items.

Social Security Tax Now 1 1/2 Per Cent

The fact that the social security tax advanced from 1 per cent to 1 1/2 per cent each from the employer and the employee, effective January 1, 1950, has caused some employers to inquire if the law has been changed to tax more than the first \$3,000 in wages paid to an employee in a year, according to John G. Hutton, manager of the Lubbock office of the Social Security Administration. "The law that only the first \$3,000 in wages paid by an employer to each employee is still in effect," Hutton said, "and only act of Congress will change the law pertaining to the minimum wages to be taxed." Hutton pointed out that all inquiries regarding social secur-

ity tax matters should be referred to the Collector of Internal Revenue, and that all questions about old age and survivors insurance benefits should be directed to the social security office, located at 1311 Texas Ave., Lubbock.

Mr. and Mrs. J. T. Hoy spent Sunday with her parents, Mr. and Mrs. C. D. Knight, in Lubbock.

Dick Strong of Wink was a business visitor in Brownfield Saturday.

FIRE MAKES PHONE DELAY COSTLY

RUSH, N. Y.—(AP)—"Please let me use the phone so I can report a fire, farmer William Yahn shouted to users of his party line. "We're talking you'll just have to wait, Yahn," said one of the women on the line. Yahn said his alarm was delayed five minutes. Flames had all but levelled both his barns when firemen arrived.

Mr. and Mrs. Fred Bucy and daughter, Ethelene, attended the Fat Stock Show in Fort Worth over the week end.

STRICTLY FRESH

A MASSACHUSETTS educator says colleges are turning out too many "half-baked" degree-holders. This is going to make a lot of people hot under the collar.

Having failed in their efforts to repeal the Taft-Hartley law, labor leaders are expected to go all-out in the next election to try to repeal Senator Taft.

Finances are colleges' major problem these days, headline says.

Tell that one to a Dad with two daughters in college.

Predictions for the auto industry: Dealers will not fare quite so well this year as last; the car buyer will be king. Pedestrians, as usual, will be run down.

Lots of small businessmen are finding tougher going these days. Particularly noticeable is a pinch in men's shoes.

Ford's won it again!

The New York Fashion Academy Gold Medal Award for the Fashion Car of the Year

WHAT sterling is to silver, the Fashion Academy of New York is to the world of fashion—the last word! And again for 1950, as for 1949, it has selected the Ford Car to receive its distinguished gold medal award as "Fashion Car of the Year." There is, we believe, no greater proof of the beauty of the '50 Ford. And there's no greater proof of its fine performance than a 10-minute "test drive." Your Ford Dealer will be glad to arrange it.

## J. H. O'Conner Feted On 94th Birthday

Mr. J. H. (Uncle Jimmy) O'Conner was honored at a party observing his 94th birthday February 5 in the home of his daughter and son-in-law, Mr. and Mrs. S. F. Rogers, in Amarillo. His children present were Mr. and Mrs. J. L. O'Conner of Moberly, Mo., E. E. O'Conner of Bakersfield, Calif., and Mrs. Nannie Hamilton of Brownfield. Grandchildren present were Mr. and Mrs. David Mills of Seminole, Mr. and Mrs. Bill Thomas of Perryton, Mr. and Mrs. Henderson of Skellytown, Miss Dixie Lou O'Conner of Kansas City, Kans., and Miss Joyce Rogers of Perryton. One great-grandchild, Gary Thomas of Perryton was present. Also attending were two sisters-in-law of Mr. O'Conner, Mrs. Mattie Lester of Amarillo and Mrs. Jim Camp of Pecos. One daughter and one son were unable to attend the celebration.

Mr. O'Conner, Mrs. Hamilton, and Mrs. Camp returned to Brownfield Sunday evening, and another celebration was given in Mr. O'Conner's honor Monday afternoon in the home of Mrs. Hamilton.

Coffee and cake were served to a large group of friends and relatives during the afternoon.

## Lady On the War Path—Dog Poisoned

The Jr. editor met Mrs. John Luckie and her mother on the streets one day this week, and the former was up in the air because her dog had been killed by a poisoner. She suggested a strong editorial. The editor (Jg) suggested that he had four poisoned, and appreciated her feelings about the matter.

Of course the dog poisoners are generally one and the same person in a town or community, and they are both cowardly and contemptible to most all people. But like an evil shadow, they steal about at night to perpetrate their nefarious business while decent people sleep.

People who have no conscientious scruples about the amount of convulsions animals suffer before death, would have none if the poisoned food happened to be found by a child instead of a dog, with fatal results.

Mr. and Mrs. M. G. McCain visited her son, Rudolph Lewis, and family and daughter, Mrs. W. I. Kluting and Sgt. Kluting of Lubbock, in Shallowater Sunday. Rodney Kluting returned home with them for a visit.

Mrs. Jim Camp of Pecos spent the week end with Mrs. Nannie Hamilton.

**THE PEOPLE SPEAK** — When Governor Allan Shivers invited the people of Texas to express their views on his program to improve the State Hospitals (termed by one survey group the worst in the nation), his mail picked up sharply. In this picture he is shown reading some of the letters, seeking ideas for the message he delivered to the Special Session of the Legislature this week. Virtually all the letters urged immediate action to improve these rundown institutions. — Governor reported.

## The Coahoma Courier Received By Herald

We received a little four page mimeographed paper going under the name of Coahoma Courier, last week. It is put out by the Coahoma Church of Christ, with S. A. Ribble, editor. He is their present minister.

Ribble is along with Liff Sanders of Lubbock, one of the pioneer ministers of that faith on the south Plains, and helped in establishing many of the congregations. He is of a kindly disposition, and his wife is an equal yokefellow in church work.

The Ribbles were at Loop for some years, until they moved to Coahoma a year ago.

C. A. McInerney (left), newly appointed national campaign director of United Service Organizations, Inc. (USO), discusses a 1950 campaign leaflet with Karl K. Van Meter, USO executive vice-president. McInerney will be in charge of fund-raising for the maintenance of 170 USO clubs, lounges and other facilities now serving the 1,600,000 peacetime members of the American armed forces in the United States and overseas. USO funds will also continue to support a regular schedule of Camp Shows for more than 100,000 patients in Veterans Administration, Army and Navy hospitals.

## Dates for State 4-H Round Up Set

COLLEGE STATION, Feb. 10.—Dates for the 1950 Texas 4-H Club Round Up and the annual conference for all Texas Extension Service personnel have been set, according to an announcement made by Extension Director G. G. Gibson.

Both meetings will be held at Texas A & M college during the week of June 12-16. The district winning 4-H judging and demonstration teams will participate in the state contests on June 12 and the 4-H Round Up will follow on June 13 and 14.

The annual Agricultural Extension Service conference will be held on June 15 and 16. Details covering the programs for the week have not yet been completed, however Gibson says that all committees working on the programs are expected to have much of their work done by early March and announcements will be made at that time.

## Billie Joe Stricklin Visits Kin Here

Billie Joe Stricklin, with the army air corps, located presently at Austin, was here over the week end visiting his grand uncle, A. J. Stricklin and family, and uncle, Phillip Rogers and family of the Pleasant Valley community. In view of the fact that BJ spent some eight months in Germany with the air lift, a talk with him was interesting.

He liked Germany, he stated, at least the part occupied by the US. But he was not so sure of liking it and when it is turned back to the Germans. He likes Austin as well as this section of Texas, and after his time is up, he will likely become a permanent citizen.

He was born and reared near the little town of Middleton, Tenn., and slipped into service at the age of 17. That was rather easy as he was over six feet tall at that time.

Mrs. Roger Clapp of Baltimore, Md., has been here visiting her mother, Mrs. Jesse Smith, who is seriously ill, and other members of her family.

## ASTIN EDUCATOR GETS STATE POST

AUSTIN, Feb. 10 (AP)—The State Board of Education last week announced the appointment of James Winfred Edgar, 45, of Austin as state commissioner of education.

Dr. Edgar's name was submitted to the state Senate for confirmation on Monday following the appointment.

Edgar, superintendent of schools at Austin since 1947, was given a \$17,500 yearly salary.

## TEST YOUR I. Q.

1. What are the names of Britain's two leading political parties?
2. Are tall steel buildings dangerous during electrical storms?
3. Are porcupines born with mills?

4. Were all dinosaurs huge animals?
5. What are your chances of being in an auto accident?

## Mrs. J. C. Jennings Honored February 2

Mrs. J. C. Jennings, the former Mary Jo Jones, was named honoree at a miscellaneous bridal shower given in the home of Mrs. Leonard Lang February 2. Other hostesses were Mesdames Lee O. Allen, Les Short, Alfred Gore, Madeline Holder, Jay King, Frank Ballard, F. C. Boydston, and H. L. King, and Misses Mary Ballard and Margaret Goza.

The bride's chosen colors of red and white were carried out throughout the house decorations. The mantle was centered with a large bouquet of white and red sweetpeas. At either end were double crystal holders with lighted red candles.

Mrs. Lang, the honoree, Mrs. S. L. Jones, Mrs. C. M. Jennings, and Misses Sue and Gertrude Jones made up the receiving line. The refreshment table was laid with a white madeira cloth, centered with a miniature bride and groom, flanked with red and white sweetpeas. Red candle in crystal holders flanked the centerpiece.

Lime sherbet punch, red and white mints, cookies with sweetpeas iced on them, and nuts were served by Miss Goza, Mrs. Boydston and Mrs. Ballard.

Mrs. Sammy Jones registered guests. The bride's book was of white satin with a bouquet of red and white sweetpeas tied with

## TOKIO NEWS

Mr. and Mrs. Vick Maple and girls of Snyder visited in the J. W. Sherrin home Sunday.

Mr. and Mrs. C. C. Maynard moved to the Plains district last week.

Mr. and Mrs. W. T. Warren were shopping in Lubbock Saturday.

Visitors in the G. Lewis home Sunday were Mr. and Mrs. Fitzgerald of Plains and Mr. and Mrs. O. A. Pippin and sons.

Mr. and Mrs. Kelly Ware and girls visited in Lubbock Sunday. Mr. and Mrs. B. A. Floyd made a business trip to Lamesa Monday.

The Herald for best results!

Satin streamers served as a marker. About 50 guests called.

In charge of displaying gifts were Mesdames Short, Allen, King, Holder, and Miss Ballard.

## Gov't Wants Trainees for Soil Conservation

We had a letter this week from the postoffice department suggesting that trainees and engineers were wanted for the soil conservation service. Of course newspapers were supposed to run government ads free, so here goes.

The places are to be filled in Louisiana, Texas and Oklahoma, and the pay runs from \$2450 to \$2875. If any reader is interested, we suggest they get in touch with Fourteenth US Civil Service Region, 210 South Harwood St., Dallas 1, Texas.

Mr. and Mrs. M. T. Montana of Loop, were in to renew for their Herald last week. They have sold out and are moving to another farm in Yoakum county out on a Seagraves route, soon.

## FARM QUESTION BOX

by  
**ED W. MITCHELL**  
Farm Advisor  
General Electric Station WGY

- Q.** How can I get rid of slugs and snails?  
**A.** Remove, so far as is practical, any stones or rubbish under which the slugs can find refuge. Dust or spray DDT or sodium fluoride over the areas they infest and you will soon be rid of them.
- Q.** Can you tell me where I can get a copy of the constitution of the United States and the Bill of Rights?  
**A.** You can find those at any public school or library and any good bookstore can get copies for you. The librarian or superintendent of your central school may have copies on hand for school use or general distribution.
- Q.** Why do some little sweet cucumber pickles ferment after being sealed in glass cans?  
**A.** In all such cases it is due to the wrong kind of bacteria getting in and spoiling things. The prevention is in boiling and sterilizing so both the product and container and liquid are sterile.
- Q.** In our cellar I have observed tiny holes in nearly all the beams. From these holes dust trickles. Could this be caused by termites? Is there any way to stop these hole makers—any spray or fumigation?  
**A.** These holes are probably due to pinhole borers, carpenter ants or some wood-boring beetles rather than termites and the damage is not apt to be serious. The best remedy is to spray or paint with some creosote wood preservative.
- Q.** Do you know of any treatment of apple or other fruit trees to prevent them from bearing fruit?  
**A.** You can kill the bloom and prevent a crop by spraying with "bigot" when trees are in full bloom. Local spray supplier can furnish the material with instructions on the package.

## NOTICE!

We have sold our store, Thomason's Grocery, to Mr. and Mrs. Ted Hardy, and would like to take this means of thanking our many friends and customers for their patronage while we were in this business. It has been a pleasure to serve you.

Again We Say Thanks

**Mr. and Mrs. Mac Thomason**

We have purchased and are now operating "Thomason Grocery," now known as "Ted Hardy's Grocery and Market." We take this means of asking for your continued patronage. We cordially invite everyone to stop by and see our line of top quality groceries. We will do our very best to please you.

**Mr. and Mrs. Ted Hardy**

...prescriptions too, take SKILL

● In dangerous sports, the professional gets a medal, while the amateur may settle for a broken bone. Similarly, in the compounding of prescriptions, skill is an indispensable ingredient. Knowledge and experience are factors that should never be lightly dismissed. Our prescription service parallels the interest and integrity of your physician. May we compound that next prescription for you?

## The Inventor and the Water-Bucket

A TALL, lanky man walked along a London Street, in the year 1780, muttering to himself. People stared at him.

"That's William Wouldhave," someone remarked. "Odd as his name, he is! A crazy inventor."

He never held a job very long, though he'd tried everything from painting houses to teaching music. He was always inventing—an electrical machine, a clock, an organ. But nobody ever wanted to put money into his new-fangled schemes. A cheerful chap, though, always kind and friendly.

On this particular day, an old woman at a street-pump was struggling to lift her heavy water bucket. Wouldhave's big hands raised it smoothly from the ground. Then he stopped short.

He put the bucket down, tipped it one way, then another, then kicked it. He eyed a float in the bucket.

"This wooden float keeps the water from spilling!" he cried. "Where'd you get it?"

The old woman stammered, "It's just a—round wooden bowl, sir. One that broke in two."

"Half a round wooden bowl," he repeated softly. "One quarter of a sphere."

Abruptly he kissed the old woman smackingly on the cheek, and strode away. She shrugged, tapped her head significantly, and with a sigh carried home her water bucket.

Wouldhave, when he reached his own home, filled a large tub with water. He cut a bowl in half, pushed one piece down to the bottom, and it popped right to the surface. He turned the float upside down, and it promptly turned right side up again. Furious he churned the water with his hands. The float bobbed, twisted, banged the tub sides—but it stayed upright.

"Eureka!" shouted Wouldhave. "I've found it!" And rushing out of the house, he began jumping and clapping hands and spluttering explanations to everyone he met.

"A boat that'll swim in any sea! It can't sink, can't overturn! A lifeboat for shipwrecks!"

A few days later, Wouldhave sent plans for his new lifeboat to the government.

A YEAR earlier, a storm had wrecked a ship only 300 yards from land. The crew jumped into the water to try to swim ashore. People stood along the beach watching. Before their eyes, the sailors drowned, one by one.

This tragedy aroused the English people. The government offered prizes for the best plans for a strong, safe lifeboat.

But the Prize Committee laughed at Wouldhave's idea. They couldn't believe a boat's SHAPE could keep it from sinking or turning over. He couldn't persuade them to make a working model from his plans. He died the way he'd lived, poor and unknown. Sixty years later, in 1850, his "self-righting" principle was first tried out. And it worked!

water-tight compartments in the bottom. Even if one compartment fills with water the others keep the boat floating. Even 20 holes or leaks wouldn't sink such a boat. The boat and everything on it is made of buoyant material, such as balsa wood or cork.

Passenger ships and the United States Coast Guard both have special lifeboat crews. These men have special training, take a stiff examination, and have regular drills.

The lifeboat has come a long way since William Wouldhave. But we owe some of its efficiency to the man who saw a float in an old woman's bucket. He was kind enough to want to help her, and clever enough to make use of what he saw.

## Puzzle Patch

Today's Subjects  
Are Varied

## Teen Time

PLAY a really nutty game the next time the gang collects at your house for soda pop, by passing around a bowl of walnuts. Your friends will discover to their surprise that there won't be any nutmeats inside the shells. Instead, each one will contain a tiny slip of paper. You can write messages like this on them: "Act like Groucho Marx for the rest of the evening." "Meow like a pussy cat instead of using the word 'meow' till it's time to go home." Imagine the hilarity!

Next time you bake "mickies" around an out-of-door camp fire, place a large tin can over them. They'll be ready much sooner, because the heat will be concentrated, and you won't have to rummage through all the hot coals to get at the spuds. What's more, the potatoes won't be blackened by soot.

**Crossword**

**All Aboard**

A new book for junior hobbyists is "Make It and Ride It" by C. J. Maginley (Harcourt, Brace & Co.) which tells how to make all sorts of things from kiddie cars to soapbox racers. Complete plans are given with each item.

**PIN IT ON PAPER**

1. Fold a 2 in. square of PAPER in half two times.
2. Cut off corners to make a circle.
3. Pin it on RED FELT and cut around it.
4. Pin it on GREEN FELT and cut a circle 1/4 in. wider all around than red circle.
5. Cut 3 leaves of green felt.
6. Cut 1/2 in. circle of BLUE FELT.

**7. Cut 1/2 in. circle of YELLOW FELT.**

**8. Sew small SAFETY PIN on back of green circle.**

**9. Sew flowers and leaves on red circle.**

**10. Sew red circle on top of green. Leave 1/2 in. opening at top.**

**BEHEADINGS**

Behead a word meaning "worries" and have "a Greek war god"; behead him and have "a legal point"; behead this and have "an electrical term."

## Rainy Day Game

**PARLOR GOLF**

USE RUBBER BALL OR GOLF BALL

For Parlor Golf, borrow one of Dad's golf clubs, or use an old cane. The ball should be the size of a golf ball, but it need not be a golf ball. Cut three openings in the side of a shoe box as shown in the diagram. The idea is to make an eight-foot putt into one of the openings. Count the score by points, as shown in the picture. Five points are allowed for each of the side openings, and 10 points for scoring in the smaller opening in dead center.

## A Notable Birthday

America's Boy Scouts and leaders, now numbering 2,300,000 strong, are observing the 40th anniversary of their organization from Feb. 6 to 12. Scouting has become so woven into the Amer-

ican way of life it is difficult to recall when our nation did not have this character-building, leisure time program for its youth.

Since 1919, more than 16,500,000 American boys and men have had the benefits of the training, fellowship, handicraft skills and

high adventure of Scouting. America is all the richer for it. Many men in high places in American affairs today proudly credit Scouting's influence in their lives.

The year-in, year-out civic and emergency service to the nation by Boy Scouts, needs no recital

here. Scouting brings to boys at an important time in their lives a program of worthwhile activities, under high grade volunteer leadership.

The need is for more boys to have the advantages of Scout training. Although more than 2,300,000 boys and leaders are now in Scouting, there are thousands of boys still outside the organization. They can get into the fun if more institutions open their doors to them in their own neighborhoods, and if more men interested in boys, volunteer their time as leaders. It's an invest-

## POOLE HD CLUB MEETS

The Poole HD club met Jan. 24th, with Mrs. E. E. Bramlett as hostess. Five members were present. The next meeting will be with Mrs. Mary Forbus on Feb. 14th.

A Herald writer spoke to the Poole HD reporter about the very brief report. One of these sandstorm days, she said, few were there and they had little to report.

## Ronald Douglas Glad To Get Home

Harry Ellyson and daughter, Margaret of Sundown, and Mrs. C.Y. Douglas, went to Dallas Saturday, returning Sunday, bringing Ronald Douglas home from a Dallas hospital, where he has been under treatment for several weeks.

We are glad to report that Ronald has fully recovered and was glad to be home again.

## GOMEZ HD CLUB MET WITH MRS. SEARS

The Gomez Home Demonstration club met with Mrs. Kelley Sears on January 26.

Mrs. A. J. Stricklin gave a demonstration on ceramics which was very interesting.

Club members who wish to take this course may do so in groups or individually.

Mrs. Sears gave the council report. Mrs. Jack Mason and Mrs. Alton Webb gave a demonstration on glass etching.

Refreshments of coffee, cocoa and cookies were served to five members, one new member and four visitors.

The next meeting will be Feb. 9 in the home of Mrs. Lowell Stevens. The demonstration will be "Rug Making."

Mrs. Emmett Tucker visited her son, James, and wife in Sweetwater Sunday.
