Any erroneous reflection upon the standing of any individual, business or corporation will be gladly corrected if brought to the attention of the publishers.

Some of our exchanges, including one daily, we understand, are preparing to call doctors or physicians simply "Mr. So-and-so," instead of "Dr. So-and-so" in their columns. This is due to the fact that the medical boys are such sticklers for something "unethical" including advertising in newspapers. Now since our sawbone friends are so very modest, the name in the future will appear in a number of papers as "Mr. Pillroller" instead of "Dr. Pillroller." And we understand that the press boys in their convention assembly, by resolution, are determined to swiftly but surely consign all propaganda from the State and National medical associations, that is to be used against so-called socialized medicine, to the very bottom of their waste baskets. Don't misunderstand; the press

is not for socialized medicine as a body. On the other hand, they are against it. But instead of using something the associations send out as "free advertising," the press will write as much and like it wishes. In fact, the press has reached the conclusion that it would be an insult for the medical profession to send them propagand on any issue it might wish to put over, considering the attitude it has taken toward the press. Some of this propaganda comes from press agents, such for instance, as the Industrial News Review. Surely that should also be unethical to the press. Resolutions of medical associations not to patronize newspapers is a veiled boycott to the least, and might come under the head of anti-trust laws if the matter was ever called to the attention of federal courts. Anyway, the med-

ic boys will just be plain mister with some of the newspapers, at least.

You brass collared, voter 'er straight boys need not be at ease in Zion just because the Supreme Court decision stopped with the University of Texas. Just give them time. Heman Sweatt will not be the only negro to file application to enter that or other white colleges and universities in Texas and the south. All we need with the present Supreme Court setup is for some negro boy to seek entrance into a white grade, grammar or high school. You say it can't happen here, but it can. A few years ago, it was believed that if equal opportunities were provided, the law was complied with, but the supreme court has reversed its own decisions of late. Remember the case against the Southern railroad, and the decision of the supreme court that in view of the fact that it was engaged in interstate commerce, they would have to serve negro passengers in the diner? What would hinder an Oklahoma negro, for instance, to come over to Texas and try to get service at a white cafe, and if refused, carry it to the supreme court on the contention that it was interstate commerce? Do you think the supreme court would not heed the appeal of the Truman-Humphrey setup of the Association for the Advancement of the Colored People? Do you think for a minute that the "civil rights" issue is dead? It is very much alive, and will be kept alive for political reasons. Truman hates the southern people, but likes their money, especially \$100,000 a clip to help elect other southern haters in the north to the next congress. We almost have on hand again that nauseating condition that followed the Civil War, when scalawags and carpet-baggers ruled the south. What we dread and fear is that the white people in the thickly settled negro districts will go underground, and the KKK or something even worse it possible, will be born Let's take Dallas right now. In the past two or three months there has been five bombings of negro residences that were encroaching into white districts. The fact is always a bid for unlawful measures, either north or south. And those bombs now used in Dallas might be just a finger length missile compared to what may be used if

## Just Won't Stay Buried

the going really gets rough. The whites and blacks of the south have been solving their problems peacefully and fast in the past 30 years. But northern agitators, encouraged by President Truman may bring about one of the blackest pages in our nation's history.

Perhaps not one in ten people know there is such a thing as factory franchised used car dealers and the curb stone variety. But there is a vast difference. And those who have franchises are going to see what can be done to curb the wildcatter or boot-legger variety of dealers. There is no protection of the buyer of a car from the bootleg car dealer and the title is often doubtful and cloudy. The legitimate dealers are going to meet in San Antonio and see what can be done toward forcing the questionable dealer to take out dealers license and conduct a square business. If a person buys a car from a spurious dealer, he has no comeback if the car is not just as represented. Whereas the licensed dealer must make good. The idea is to force the state and highway department to make all dealers take out a license before they can sell used cars. Usually there are no non-franchised dealers in a small city like Brownfield, but the larger cities are full of them, and what they do to buyers is often a plenty.

Despite good points brought out in statements of Gen. E. O. Thompson, Texas railroad commissioner, and Congressman Lloyd Bentsen of McAllen, agent the division of Texas into five states, we don't think the vaccinations will take. This paper has sometimes advocated at least four of the five states as provided in the resolution adopted when Texas was admitted into the Union. But with the present setup in the Supreme Court, they could knock such a step into a cocked hat. Remember what happened to the tidelands issue? Of course, if such a plan could be adopted and get by the Supreme Court, the area now known as Texas, could have ten instead of two senators, which would help a lot in keeping down the south haters in the Truman party in the north. But remember we have a "packed" Supreme Court, and it is stacked against any move of Texas or the south. It appears that the majority of the august body thinks more in terms of who and what a law will help than following the law and justice, let it fall where it may. Many Texans are still wondering along with one dissenter, Justice Frankfurter, that "just when did Texas lose title to the tidelands is a puzzle to me." We have always thought Texas was a bit unwieldy, and that some sections that had the most representatives in the legislature were very unfair to other sections of the state. Take the matter of redistricting for the last 30 years, for instance, as to the matter of sentiment about not having an Alamo in all four or five states, lots of states do not have an Alamo, and get along OK. But here is the rub as we see it in case of a division. Would west Texas or north Texas, deprived of their share in the tid-

lands, have as much interest in them as now? But to say the least, it strikes us that those who would deprive Texas school children of millions of dollars of money in this land steal, are just setting up another dictatorship of centralized government against state rights, no less than Hitler set up one in the same way over in Germany during the thirties.

of the stuff that goes so well with eggs. The Britisher had to do 53 minutes and the Irishman 96 minutes to get his pound of sow bosom. But what a jump takes place over in the paradise on earth, Russia, the Soviet Union democracy of democracies. The poor Volga boatman and his counterpart had to do 466 minutes of toil for his pound, or 7 hours and 46 minutes. Fact is, according to reliable reports, the Kremlin worker rarely sees bacon, much less to eat it. This speaks louder than any words in favor of free economy vs. dictator economy.

### MEADOW STORE GETS MIXING CERTIFICATE

St. LOUIS, MO., (Special) — Meadow Farm Store, Meadow, has been issued a Certificate of Mixing Accuracy by the Ralston Purina Company, following an analysis of samples taken from custom-mixed feed prepared specially for customers of the mill. The proper mixing of ingredients, using grain grown locally

by farmers in this area, has long been recognized as an important factor in the efficient and economical feeding of livestock and poultry.

### CARD OF THANKS

We wish to thank our friends and neighbors for their help and kindness in our recent disaster.

### BIBLE COMMENT FOR JULY 2

#### Jesus Spoke of Troublous Times In the Future

ANXIETY and speculation have marked every generation of Christians since the very beginning of Christianity itself. It would be difficult to enumerate all the times that "the end of the world" has been predicted, and the number of times that those who had it all worked out in their sure interpretations of prophecy have been shown to be false interpreters. Jesus spoke of troublous times ahead; He warned the disciples not to put too much confidence in "signs" and to be wary of false messiahs. So far as nation rising against nation is concerned, the two great World Wars of the past might fill that category; but there have been many wars and tumults since Jesus spoke those words, and some of them were on a world-wide scale as the world was at that time. Was Jesus predicting some definite day of catastrophe? Or was He speaking in general terms of the struggle between good and evil? Whatever the future, the one sure thing is that Christians cannot be prepared for it unless they are always prepared. It is those who endure to the end that are saved, but the lesson of endurance is not learned at the end. It would be better for us, and better for others, if we were to heed the plain teaching of Jesus, and strive to follow His example in word and in deed, instead of spending time and energy speculating about doubtful matters. The world is undergoing a certain degree of turmoil today. The future is uncertain. We know not what may befall us, or what the world of tomorrow may be like. But the Word of the Lord shall not pass away. There is our place of anchorage and faith. Hold fast to God's word, and do our duty. That is the best preparation for whatever is to come.

Rains-Tarpley Vows Read Last Saturday

The marriage of Miss Sonya Ruth Rains and Larry Eugene Tarpley was solemnized at 8 p. m., Saturday, June 17, in the High-Terrace Methodist Church at San Antonio...

The Rev. Bruce M. Cox, minister of the church, read the double ring ceremony before an altar decorated with white gladioli and stock, flanked with greenery and white tapers in candelabra.

Ruth Huckabee of Brownfield, sister of the groom, furnished the nuptial music, and accompanied Pat Ramsauer of Brownfield as he sang "One Alone" and "Because."

Given in marriage by her step-father, the bride wore a gown of imported Chantilly lace, fashioned with a fitted bodice buttoned down the front and a mandarin collar and long fitted sleeves.

Shower Honored Miss Iva Blair

Miss Iva Blair, bride-elect of Nathan Brown, was honored with a surprise kitchen shower given in the home of Miss Mary Alice Moore on June 16.

The honoree's chosen colors of blue and gold were used in floral decorations throughout the house. A gold lace cloth covered the refreshment table, and Miss Moore served punch and cookies to the following guests...

Refreshments were served to Mesdames Henson, C. Forbus, W. P. Forbus, Cabbiness, Willis, Evans, George, Massingill, Dawson, Wood, Oliver, Riley, Henson, Durham; two visitors, Mrs. Gandy of Lorenzo, and Pansy Singletary of Brownfield, and the hostess.

HARMONY H. D. CLUB

The Harmony Home Demonstration Club met in the home of Mrs. C. D. Reid recently. The president called the meeting to order. There were thirteen members present.

Refreshments were served to Mesdames A. J. Bell, Ocie Murray, C. E. Bailey, Ralph Murray, G. Chapman, E. D. Saunders, John Gracey, J. W. Hogue, T. M. Ellis, W. F. Campbell and the hostess.

At least some of the people in Brownfield are just a little better about these things than others of us. Hand it to a woman, too, to do it. Members of the Maids and Matrons Study Club this week have organized a new study club...

Mr. and Mrs. Club Met In Griffin Home

Mr. and Mrs. Hayden Griffin entertained members of the Mr. and Mrs. Club in their home Tuesday night.

Travelling prize for the women went to Mrs. W. B. Downing, and M. J. Craig, Sr., won the men's travelling prize.

Mr. Downing was honored guest as it was his birthday. Birthday cake and punch were served to Mr. and Mrs. Downing, Mr. and Mrs. Craig, Mr. and Mrs. L. J. Dunn, Sr., Mr. and Mrs. A. A. Sawyer, Mrs. Sam White, Claude Henderson, and the host and hostess.

Mrs. Sonny Gandy Hostess To Club

The Pleasant Valley Home Demonstration Club met in the home of Mrs. Sonny Gandy Friday, June 2.

Mrs. Riley, president, conducted the short business meeting. In this meeting, plans were made concerning the pie supper and political speaking at the school house June 8.

Mrs. Bertha Durham demonstrated the making and serving of two summer salads. Two new members were added to the rolls. They were Mrs. J. D. Oliver and Mrs. T. B. Wood.

Refreshments were served to Mesdames Henson, C. Forbus, W. P. Forbus, Cabbiness, Willis, Evans, George, Massingill, Dawson, Wood, Oliver, Riley, Henson, Durham; two visitors, Mrs. Gandy of Lorenzo, and Pansy Singletary of Brownfield, and the hostess.

Let's all remember this week to extend the friendly hand to all of our visitors. And while we're at it, we might try to be kind to all of our newcomers in Brownfield. Being as guilty as anyone else of failing to make it a point to welcome new residents, but also priding myself on being glad-hander, I herby promise to do better if you'll strain yourself a point. Several times lately I've been shocked to discover that persons whom I've just met and considered "new" to Brownfield have lived here almost as long as I have.

At least some of the people in Brownfield are just a little better about these things than others of us. Hand it to a woman, too, to do it. Members of the Maids and Matrons Study Club this week have organized a new study club for the younger and newer women in Brownfield, and have gathered many of the new comers in to the club. One thing leads to another, you know.

With the swimming season on us, I've noticed a couple of places in town have some cute rubber water toys — brightly colored swans, sea horses, whales, turtles, and huge balls. I'm probably sighting someone, but the ones I saw are at Primm Drug and City Drug. They make nice birthday presents, don't you think?

As I mentioned previously, I was shocked to learn about the new people in town not really being new at all. Well, when I get to the point that I don't learn something new every day, I'll give it back to the Indians. So, I may as well confess that, until this week, I didn't know that Pat (Mrs. G.) Stinnett had a venetian blind reconditioning business here. Phone 684-R in case you're interested.

Although it's early in the morning, I still think longingly of the delicious barbecued steaks served up at Nick's Cafe, at the Lubbock - Levelland Y. You can get all sorts of good barbecue there, but if you're a lover of good barbecued T-bones, with jillions of onions and garlic, here's the place for you. People may avert their heads slightly when you breathe on them, but, boy, it's sure worth it.

On the subject of highways, more or less, Homer Winston has some very catchy candidate cards, printed on the back with "Sing While You Drive". I quote—At 30 miles, sing "Highways are Happy Ways"; at 55 miles, sing "I'm But a Stranger Here, Heaven Is My Home"; at 65 miles, sing "Nearer, My God, To Thee"; at 75 miles, sing "When the Roll is Called up Yonder, I'll be There"; and at 85 miles, sing "Lord, I'm Coming Home." Okay, laugh. It's not as crazy as it sounds.

Mr. and Mrs. J. H. Carpenter plan to leave by automobile Saturday morning for California, where they will visit relatives. They are interested in having someone ride that far with them and help Mr. Carpenter with the driving. If you would like to take them up on it, or if you know someone who would like to, please contact either Mr. or Mrs. Carpenter at telephone number 146 or see them at 404 E. Broadway.

If you failed to be around the courthouse square between 10 and 11 a. m., Wednesday, you really missed the fun. As you may or may not know, a group of Fort Worth business men stopped here Wednesday morning on a good will tour. They were greeted by the Terry County Sheriff's Posse, the Junior Chamber of Commerce, the Chamber of Commerce, the Brownfield High School Band, and a variety of "natives" (including yours truly). After talking with several of them, the business men said that their reception in Brownfield by far surpassed any they had received as yet on their tour. Adding to the variety of the reception was a demonstration by four of the high school band twirlers and a mass "dunking" of several of our more well known citizens by members of the Jaycees. A damp good time was had by all.

Hope you all plan to attend the rodeo this week end. I can't wait to see what happens to Lynn Nelson's watch. He's had it soaking in a pan of water all week—adding insult to injury if you ask me. If it survives that, I guess it can survive the 1000 foot drop from the airplane at the rodeo arena tomorrow (Saturday) night. As for me, I plan to be there to see what gives. Incidentally, "I think you can still register at Nelson Jewelry for a chance at that Wylor watch. See you at the rodeo. YIPPEE!

FIRST YUCCA—Pretty Claudia Blair of El Paso is shown admiring the first Yucca to bloom in the Southwest. The Yucca is a desert flower abundant in Arizona and California. (AP Photo)

Gee Gee's Chit Chat

Children, when you're sweating (genteel people say "perspire" but actually it's sweating) all over the place, be thankful you aren't further down the line. It's hotter than nine hundred dollars down south, and I speak from experience.

The town is gala with rodeo doings, and most of us seem to be in good spirits. Let's stay that way. And speaking of horses, isn't it strange how some people who are ashamed of something, never let other people forget, but constantly keep the stink stirred up themselves. It never occurs to them that they aren't nearly as important to other persons as they are to themselves.

Let's all remember this week to extend the friendly hand to all of our visitors. And while we're at it, we might try to be kind to all of our newcomers in Brownfield. Being as guilty as anyone else of failing to make it a point to welcome new residents, but also priding myself on being glad-hander, I herby promise to do better if you'll strain yourself a point. Several times lately I've been shocked to discover that persons whom I've just met and considered "new" to Brownfield have lived here almost as long as I have.

Luker-Duncan Vows Read Sat., June 10

Miss Donna Jean Luker, youngest daughter of Mr. and Mrs. Walter Luker, Dora, N. M., granddaughter of Mr. and Mrs. G. W. Luker of Brownfield, and Oscar E. Duncan, son of Mr. and Mrs. N. B. Duncan of Dora, were married Saturday, June 10, 2 P. M., at the Dora First Baptist church, with Rev. Alton Green officiating.

The altar setting consisted of an archway of greenery with white daisies and tied with blue satin bows. The arch was flanked on either side by palms and tall baskets of white gladioli, stock, and blue daisies, with seven-branched candelabra.

Miss Betty Jo Luker, sister of the bride, was Maid of Honor. Her dress was of old rose shadow sheer with black and white satin ribbon.

Miss Melba Luker of Morton, Texas, cousin of the bride and Billye Ruth, Jones, niece of the groom, were ring bearers. They wore blue dotted swiss dresses and carried white satin pillows trimmed in net and blue ribbon.

T. Z. Duncan of Causey, N. M., brother of the groom was best man. Ushers were Robert Luker, Morton, Texas, uncle of the bride, and Arthur King, of Dora. They also lighted the candles.

The bride wore a beige suit complemented with a blue blouse and navy accessories. She wore an off-the-face hat of natural straw with navy trim, and carried a white Bible topped with red rosebuds and tied with blue satin streamers.

For something old she carried a pure linen handkerchief of her mothers and for something borrowed she wore earrings and matching bracelet belonging to her cousin, Francis Price of Brownfield. She was escorted to the altar by her father.

The bride's mother chose a dress of navy blue sheer with black accessories. The groom's mother wore a dress of pale blue with black accessories, and both wore red rosebud corsages.

Music was played while the guests were being seated and through the ceremony by Mrs. Earnest Duncan, sister-in-law of the groom. Rev. Ernest Duncan, the groom's brother, sang "At Dawning," and "I Love Thee."

Refreshments were served from a lace covered table centered by a three-tiered wedding cake decorated in white and blue topped with a miniature bride and groom.

After the bride and groom cut the first piece of cake, Mrs. Robert Luker, aunt of the bride, served the cake and Mrs. Arthur King presided at the punch-bowl.

The newlyweds left for a short wedding trip to Roswell and Ruidoso, N. M. The couple will live in Dora on their return.

Mrs. Duncan finished high school with the 1950 class and was active in all sports and 4-H Club work, winning a trip to Chicago in 4-H Club work.

Mr. Duncan finished high school at Causey and attended Wayland College for a year and a half. He will engage in farming.

Out of town guests who attended the wedding were: Rev. and Mrs. Earnest Duncan of Troy, Tex.; Mrs. Ethel Moore, of Lubbock; Mrs. Gay Price, Mrs. Raleigh Luker, Mrs. Nealon Luker, Mrs. Rudolph Luker, Miss Patsy Jean Hill and Francis Price, all of Brownfield; Mr. and Mrs. Woodson Inman and Gary of Lovington; Mr. and Mrs. Robert Luker, Melba and Charles of Morton; and Pfc. Robert Dwane Patterson of Wichita Falls, Texas.

CUBS HAD PICNIC

About 20 Cub Scouts and their parents met in Coleman Park Monday night for a meeting and picnic.

The Cubs flew kites which they had made in their Den meetings, according to Newell Reed, Cubmaster.

mother wore a dress of pale blue with black accessories, and both wore red rosebud corsages.

Music was played while the guests were being seated and through the ceremony by Mrs. Earnest Duncan, sister-in-law of the groom. Rev. Ernest Duncan, the groom's brother, sang "At Dawning," and "I Love Thee."

Mrs. Duncan finished high school with the 1950 class and was active in all sports and 4-H Club work, winning a trip to Chicago in 4-H Club work.

Mr. Duncan finished high school at Causey and attended Wayland College for a year and a half. He will engage in farming.

Out of town guests who attended the wedding were: Rev. and Mrs. Earnest Duncan of Troy, Tex.; Mrs. Ethel Moore, of Lubbock; Mrs. Gay Price, Mrs. Raleigh Luker, Mrs. Nealon Luker, Mrs. Rudolph Luker, Miss Patsy Jean Hill and Francis Price, all of Brownfield; Mr. and Mrs. Woodson Inman and Gary of Lovington; Mr. and Mrs. Robert Luker, Melba and Charles of Morton; and Pfc. Robert Dwane Patterson of Wichita Falls, Texas.

HD Club Honored Two Members With Shower

The Pleasant Valley Home Demonstration Club met in the home of Mrs. L. George Friday, June 16.

Mrs. Nathan Evans, vice president, was in charge of the short business meeting.

The remainder of the afternoon was devoted to a double stork shower, honoring Mrs. Pete McNeill and Mrs. J. D. Oliver. Mrs. Loyd Dawson, Mrs. Lester George, and Mrs. George Hudspeth were hostesses.

Refreshments were served to about 35 guests.

4-H Club Girls Met At Gomez June 15

The 4-H Club girls met in the home of Patsy Colwell of Gomez Thursday, June 15.

A demonstration of stuffed eggs was given by the hostess, Theta Moore and Dortha May.

The stuffed eggs and lemonade were served for refreshments. The next meeting will be held July 6 in the home of Dortha May. A chicken for the frozen food locker demonstration will be given by Miss Helen Dunlap.

Refreshments were served to the following members: Mmes. Wm. Falkenberg, O. D. Kennedy, Burnett, Ervin, E. E. Brown, Lamp, Burisco, Crowder, Keel, W. M. Nelson, Miss Betty Kinney and the hostess.

Mr. and Mrs. P. C. Carter of Dallas visited Mr. and Mrs. Bob Simmons over the week end.

**Stricklin's Speaking**

**By Old He**  
This week we are going to start these tirades by trying to incite a fuss between ex-editor Hale of the Yoakum County Review, and the Lubbock Morning Avalanche. Last Sunday, the A-J boldly moved the county seat of old Yoakum from Plains to Denver City without as much as consulting the citizens and voters or batting an eye. It is your fuss from here on out Bro. Hale.

Question of the day: Do men really want to fish, or is it they just want to get away from it all?

Well old Terry is still dragging on its Independence Day Bond Drive. It has reached just about 15.5 of its quota of \$21,000. In the meantime, old Yoakum is over the half way mark on its \$6,000, 35.31 per cent.

Detroit is expecting 6,500 Rotarians in their international meeting there this week. Representatives from 60 nations, covering practically all the globe except of course the iron curtain countries. And they would be there if they could use their veto.

Mrs. J. M. Avent will be greatly missed and remembered by sportsmen all over the United States and Canada. It was her late husband that did so much to make West Tennessee the huntsman's paradise, especially for red fox and quail. This lady recently passed on back there in Hardeman county at the age of 82.

We once worked in a newspaper office for a man who claimed to have given Jim Avent his first fox hound. They were cousins. From that one he raised and trained hundreds of them, and later scores of bird dogs. Sportsmen would flock into the little village of Hickory Valley by the hundreds to participate in one or the other sports, and it always devolved upon this good lady to help in the entertainment.

Later, Jim Avent was very instrumental in making the Nation-

**Vic Vet says**

AVOID RISK OF LAPSING YOUR GI INSURANCE BY PAYING PREMIUMS WHEN DUE... SAVE THE 31-DAY GRACE PERIOD FOR EMERGENCIES!

**Ticklers**

**By George**

"You can't just play music, you've got to feel it!"

al Field Trials a going institution at Grand Junction. These field trials are still well known over the nation and annually sportsmen from over the nation gather at the huge Ames plantation near there for the field trials. And the winning dog is crowned the champion.

What looked like a sawmill worker's shack on wheels invaded our little city Saturday. It was the master plan of Caso March, who is out to be the next governor of Texas. And with the loud speakers—and we mean loud—on the outfit, it mad Pappy Lee O's fiddlers look like pikers.

We didn't find out about the matter. In fact we didn't try very hard. But maybe the shack was supposed to represent the boxed and stripped shanty the would-be governor was born in. Most politicians were born in a log cabin.

To say the least, such showmanship does not in the least appeal to the Old He. We are old fashioned enough to believe the office of governor of the great state of Texas should have some resemblance of dignity. A man who tries to be governor with a hill-billy band and vaudeville, just does not appeal to us.

Speaking of speech makers and dignity, Gov. Allan Shivers really got down to earth last week with the other newspaper men at the Texas Press meet in Fort Worth. Yes, Gov. Shivers is a newspaper man. He is interested in a fine paper down in the low-

er valley section.

He told the other newsmen that they should never hold their fire on state or national officials who get off on the wrong foot, but to pour it on 'em. Of course, he added, to stay within the bounds of truth. Gov. Shivers says that as long as we have a press that can expose the crookedness of the politician and grafters, the nation never need fear the dictator.

Still going on with candidates for public office, candidate G. C. Morris, who is seeking the office of Lieutenant Governor (wish these long words could be reduced to Lt.-Gov.) Anyway the electioneering ways of Sen. Morris is everything but sensational. He was here at the same time that Caso was here. What a contrast.

Heard a fellow say the other day that he was inclined to become a bit "juberous" when clouds looked like they were going to come up and rain, then backed off and disappeared. But the one Monday night finally got in thunder and lightning distance, and rained a shower.

The talk of the town here of late is the burning oil well over in Borden county. Those who have passed over highway 180 from Snyder to Lamesa say the smoke is visible all along the route, and on high places, the blaze can be seen.

It takes all to make a country. The old timer just made a start

them a long time to populate the country by themselves. So we just have to borrow some new comers along from older parts of the state. They tell us that the best whiskey is a blend, (if there is any best) and a blend of old comers, middle comers and new comers to make a good combination.

And you will see guys with beards on their faces here getting ready for the big rodeo blowout this week-end. Maybe their dads were cowhands when the country was opened up. Then there will be some whose dad was a mongrel cowhand and cotton raiser, and hauled it to Tahoka or Colorado City to get it ginned.

Any maybe the next bearded fellow's dad follow an old grey mule in front of a bull-tongue plow in east Texas. But it is a fine blend, and it takes all, the cow nurse, the cotton raiser and the bull-tongue guy among the stumps of old east Texas to make up the most progressive section of Texas.

We always fall for pastoral scenes. Late one that we admired was in a copy of Fertilizer Review. There was plenty nice green grass for a herd of "contented cows" in the foreground, and a depression was just over the rise for a small "crick" of water. It was a scene to make a man and animal both very happy.

But the name of the picture kinder stalled us. It was titled: "Grass Is The Answer." Well, we think it is one of the answers. But what about the cake, meal and corn, and maybe silage in the winter?

Speaking of cake, meal, grass and crops in particular, we have one of the hardest bunch of chuckle-headed farmers to deal with in these here United States. One says: "Had to plant shallow; not enough moisture; cotton dieing; must have more rain in the next 17 1/2 minutes." The next one will say: My cotton is not high enough to stand a heavy rain; hope it will hold off awhile."

Talk about "wimmin" being hard to please. They ain't got a thing on Terry county farmers. Frankly, Bud, when do you look for rain?

The Levelland papers rather boastfully remarked that they had passed Brownfield in population. Brownfield does not have much loose end population. Most own their homes. It still does more business than Levelland, and has greater bank deposits, and a far better and larger trade territory. Also a lot of votes.

Ah! me the old stick candy with the barber pole stripes still tastes good. Done a little notary work for Mrs. B. Lay out at Johnson recently and refused a fee. Told her to bring us a stick of stripped candy some day. She did, but it was a whole sack of it. Thanks!

**POOL HD CLUB MET**

The Pool Home Demonstration club met June 13 in the home of Mrs. Tressa Asburn. Six members were present and one visitor, Miss Janie Brown. Mrs. Faye Barrier gave an interesting talk on "How To Simplify Your Work." Mrs. Ethel Salisbury gave a talk on Boys Ranch and Mrs. Osburn had visited Boys Ranch last week and had picture post cards from there. It was all very interesting. The next meeting on June 27 will be with Mr. Mary Forbus.

**RED GOES WEST** — One of many Communist youths taking refuge in West Berlin, afraid of Red reprisals if they return to their homes in Eastern Germany, appears to enjoy a taste of freedom after his sample of life behind the Iron Curtain. Though still wearing the blue uniform shirt of the Communist Youth Organization, he has ripped off the insignia, and wears American tie and socks, gift of the U. S. Red Cross.

## Bringing Clay To Surface Only Fight Against Drifting Sand

In the vast West Texas plains heavily laden from the great dust bowl havoc of 1933-36, farmers are now practicing a deep tillage method that is stabilizing the sandy soil and offering them a "one-seed" crop that will harvest and not necessitate replanting from continued drought and high wind storms.

Today, driving through Terry, Brown and Lynn Counties, one finds evidence of an amazing transfiguration of the once desolate, wind-blown sandy fields. Many of the farms never producing more than 600 or 700 pounds of Martin maize per acre each year are now producing 1500-2800 pounds annually. In every case, the first years' increased production has more than paid the cost of breaking the land, aside from savings in seed and labor. With deep tillage, it has been estimated that in the South Plains area from 4 to 5 million acres of sandy low-productive soil can be transformed into highly productive farms. It has also been shown that farms receiving deep tillage have made the difference to the farmer in having no crop or bumper crop without the gamble of replanting 4 to 5 times to no avail, and then hoping for some type of harvest in late seeding of Martin maize.

### Replanting Cycle Costly

Ever since this area has been under tillage, the farmer has had to reckon with the problem of sandy soil blowing through his fields and resulting in damage or complete elimination of crops such as cotton, sorghum, grains and wheat. During the spring when crops are still young, the farmer has his worst headaches, for in the spring these plains bear the brunt of blowing sand. During this blow, the sand either cuts the young crop off completely or buries it. The problem then is to replant and quite often plantings is repeated 5 to 6 times in a dire attempt to get crop stand.

Even after these replantings, the sand has taken its toll.

Usually a farm that has tried replantings of wheat will switch to cotton the following spring. If cotton planting fails he may try sorghum, but at this stage in the game, he is lucky to get even a small yield.

Such trials may have an answer, and the men fighting against odds realized that this blow sand, averaging a 12-inch depth, will vary from 0-25 inches deep in covering the strata of clay soil. This concentrated and deep sand layer would have to be tilled over with a deep tillage tool capable of doing such rugged plowing, a larger horsepower tractor was needed than the conventional farm wheel tractor. (See picture at right.)

## Tokio Boys Training In The Marines

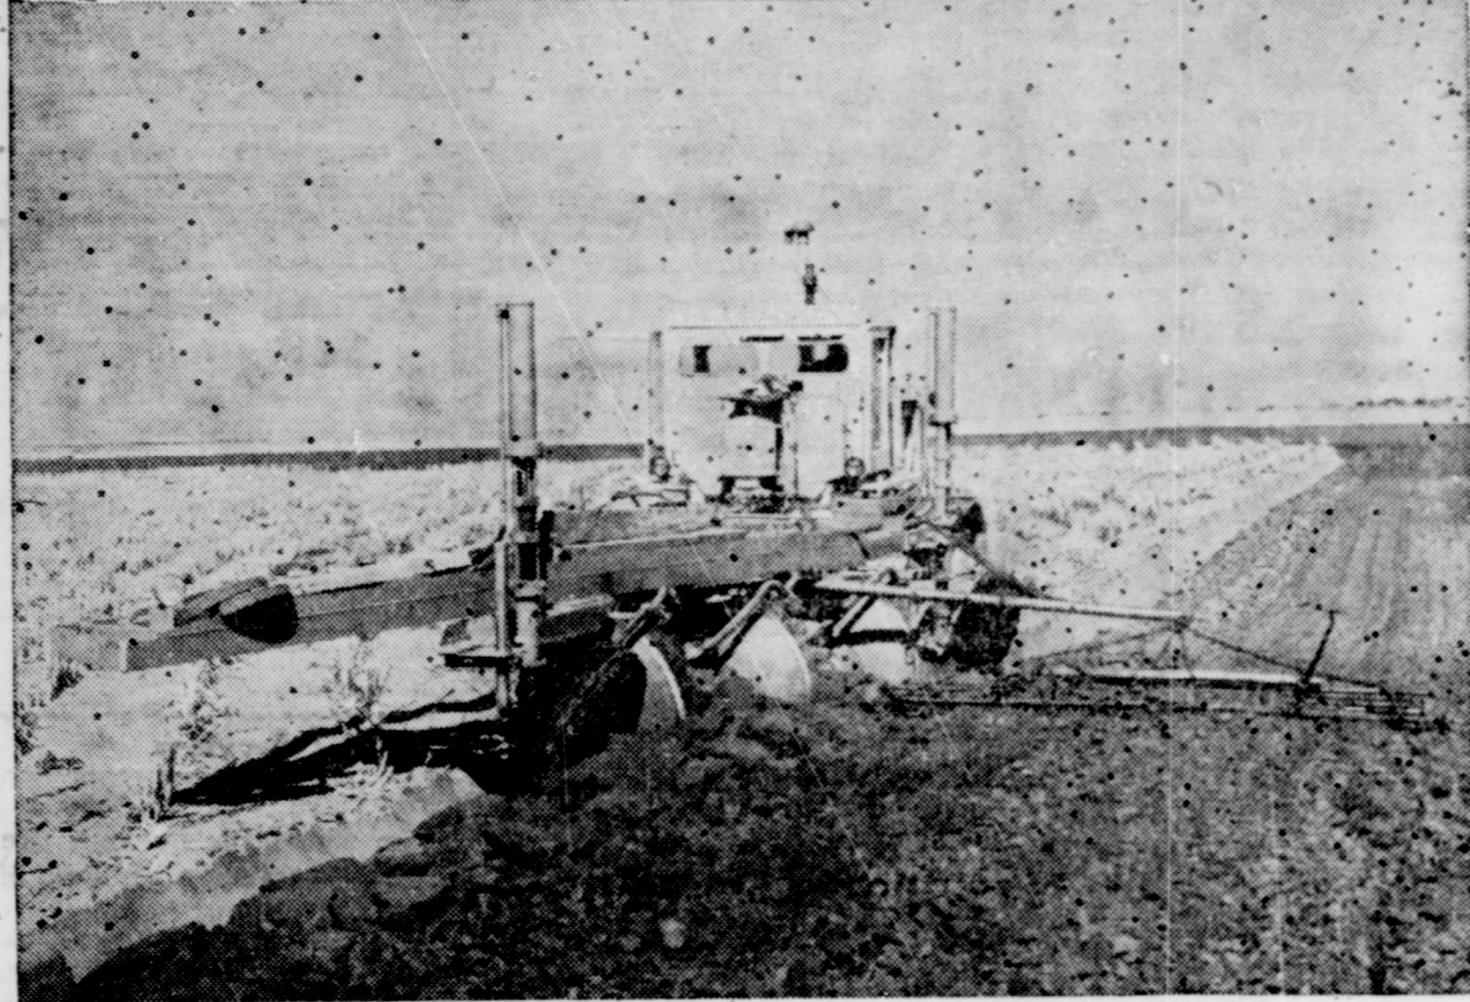

Marine Corps Recruit Depot, San Diego, Calif.—Marine Private First Class Amos L. Smith, son of Mr. and Mrs. Amos B. Smith, Tokio, and Hughie A. Huddleston, son of Mr. and Mrs. Arenie B. Huddleston, also of Tokio, recently completed their initial 10 weeks of training at the Marine Corps Recruit Depot, San Diego, Calif. Upon completion of this training both were promoted to the rank of Private First Class, an honor bestowed upon every man who finishes his training with a clean record.

The Tokio devildogs spent their first three weeks of training here at the Post receiving instructions on small arms, first aid, field sanitation, map and compass reading, military courtesy and infantry drill.

The following three weeks the young Marines spent at the Marine rifle range.

Mr. and Mrs. Marshal Akin and family visited friends in Tahoka Sunday.

## GIANT MACHINES FIGHT DUST HAVOC

Deep tillage with giant disk plows and 130 h.p. track-type tractors may be the answer to reclaiming the dust laden Texas Plains. Shown above, a "Caterpillar" Diesel D8 Tractor pulls a Towner Giant Disk Plow in deep breaking from two to two and one-half acres per hour on field formerly planted with Martin maize. Seasonal average is one and one-half acres per hour.

## Tech Has Big Plans For Small Business

LUBBOCK—Texas Tech's division of business administration is preparing for the day when it can say to West Texas and industry, "How can we help you?" That's the long range program. More immediate is the expanding departmental set-up, which will get under way next fall with the creation of the department of management.

Dr. Fredrick L. Mize says the new department will stress general management and office management during the 1950-51 school terms. Formerly, management has been joined with economics in a single department. During the past academic year the number of management majors outnumbered economics students two to one and pointed out the need for a "divorce" of the two sections.

William M. Fox, a native Texan, now studying on the Ph. D. degree at Ohio University, will join the Tech faculty this fall. Fox, Dr. Mize and two other Tech faculty members will launch the new departmental program. "We plan to offer a personnel management major for graduates this fall, and will add a traffic management major in 1951-52," Dr. Mize adds. A procurement and inventory major and public utilities major will also be added later.

### GENOA REPORTS ON COLUMBUS

ROME—(AP)—As far as his home town of Genoa is concerned, Christopher Columbus is buried in Santo Domingo and not in Spain. Recent reports from Seville, Spain, said that a burial found there was now believed to be the remains of the Genoese navigator. The burial was in a grave in the crypt of the Church of Santa Maria de las Cuevas.

The Genoise Center for Columbian Studies which specializes in such matters says Columbus was once buried in Seville, but the present finding must be inaccurate. The body was moved. According to the Genoise Center, the "admiral of all the oceans" died at Valladolid, Spain, May 20, 1506.

### STRICTLY FRESH

A RADIOACTIVE golf ball has been invented which can be located with a Geiger counter when lost in the rough. Now if they could only find some golfing device to retrieve those lost tempers!

Music piped in through ear-phones is being used in a Chicago hospital to soothe patients during certain types of surgery. Bet "I've Got You Under My Skin" is popular.

Blondes are bothered more by headlight glare than other motorists.

ists, a newspaper says. Of course, some of them are bothered more by other motorists.

Cincinnati police were looking for a young man who tried to tickle young ladies' feet. Now that's about as low as a masher can get!

The U. S. Treasury's Bureau of Public Debt is scheduled to move into the world's largest industrial plant, in Chicago. Now let's hope it doesn't outgrow those quarters.

### "SUFFOCATION" NOT DEATH CAUSE

NEW YORK—(AP)—Babies rarely suffocate in their cribs, although their deaths often are blamed on smothering, two New York physicians report. Dr. Jacob Werne and Dr. Irene Garrow of the Medical Examiners office told the New York County Medical Society of their study.

Autopsies show that 25 per cent of the infants listed as smothering victims really died from congenital heart disease, bronchopneumonia, meningitis, or mastoiditis, they said. The other 75 per cent can nearly all be found to be due to other causes also, they reported.

Dr. Werne said it is virtually impossible for a healthy baby to die of accidental mechanical suffocation. The position of the baby's body at death means very little unless the baby has strangled itself between the slats of the crib, he added.

## Brother Of Local Man Died Sunday

Lee Lyon received word Sunday night that his brother, Sam Lyon, 51, of Hermosa Beach Calif., died suddenly Sunday morning of a heart attack.

A former resident of Terry county during the 1920s, Mr. Lyon was once county clerk of Bryan county, Okla.

He is survived by his wife, two daughters, two sisters and six other brothers.

Funeral services were held at Hermosa Beach Tuesday afternoon.

### MIXED ANCESTRY?

# Highway Department Operations—Traffic Safety

## FIXED-TIME (STOP AND GO) HIGHWAY TRAFFIC SIGNALS

What do you know about traffic signals? If your knowledge is limited to the fact that you go when the signal shows green and stop when it shows red, you can make the problem of traffic control an easier one for your public officials by knowing more about traffic signals.

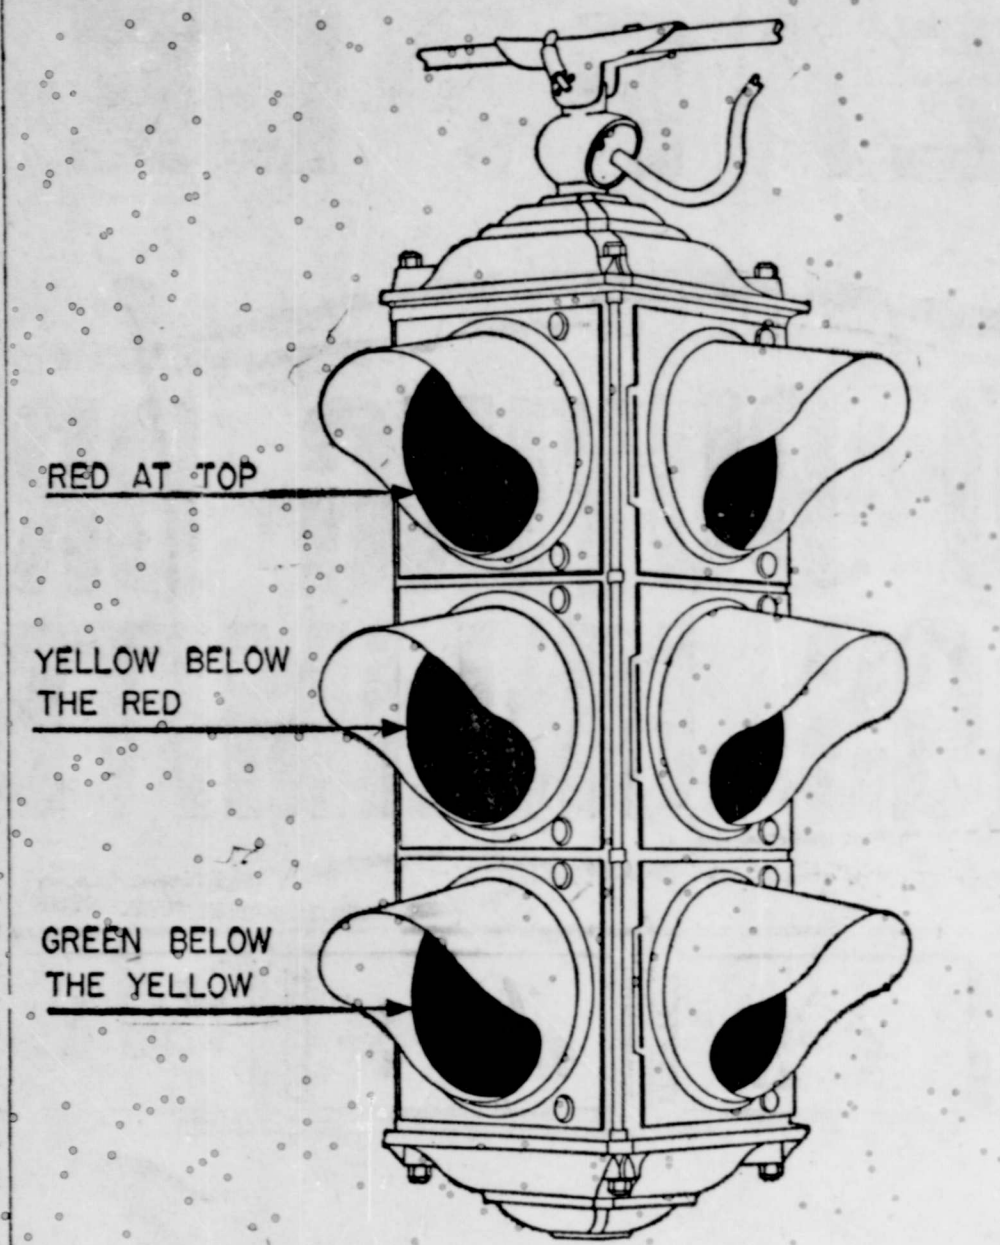

You can help bring about uniformity of traffic signals by learning to identify the standard traffic signal and then encouraging your officials to use only standard types when they install new signals or replace existing non-standard signals. Wouldn't it be much easier for you to understand the indications given by traffic signals if they were all of the same design in every town and state? In fact, standardization of traffic control signals is considered so desirable and important that the Fiftyeth Texas Legislature specified that all highway traffic signals installed in Texas after 1947 shall conform to National standards.

The sketch will help you to identify the most common type of a standard fixed-time (stop and go) signal for suspension over the center of the highway. To be standard each face must have at least three lenses, with red at the top, yellow below the red, and green below the yellow. Additional lenses, showing arrows and walk-wait, may be added at complicated intersections to provide for special movements of traffic. The standard position of the lenses is not only helpful to every motorist, but it is especially helpful to the color blind who cannot tell whether to stop or go by the difference in brightness of the lenses when they cannot distinguish colors.

The yellow signal, which follows green only, plays a very important role. It warns traffic in motion that the signal indication will change; it provides a clearance time for traffic already in the intersection and for traffic approaching so closely that to stop would be hazardous; and it permits operation of yellow as a flashing caution signal when the signal is not being operated as a stop and go signal.

There are a large number of traffic signals in use today that were installed before the present standards were adopted, and they do not conform to present standards. Unfortunately there are some local units of government who still buy non-standard signals without the yellow lenses. Some of these two-section signals, show both red and green at the time they are changing color, which

TERRY COUNTY HERALD, FRIDAY, JUNE 28, 1950

STANDARD VERTICAL ARRANGEMENT OF SIGNAL LENSES SKETCH E

is not only confusing but also hazardous.

You can help with the problem of traffic control by understanding the functions of traffic signals and their limitations.

A well designed and operated traffic signal installed on the basis of factual studies of the number of vehicles and pedestrians, accidents, speeds, delays, and physical conditions of the location can render invaluable service in the smooth and safe flow of traffic. On the other hand, an unjustified, ill designed, ineffectively placed, improperly operated, poorly maintained signal is not only a waste of public funds, but it causes unnecessary delays to traffic, disobedience of signal indications, use of alternate routes and often, an increase in accidents.

After years of study and experience, National authorities have set out the conditions that will justify the installation of a traffic signal. Unfortunately, too many traffic signals have been installed on the basis of opinion rather than facts, and upon the mistaken idea that they are a cure-all for all traffic problems. The result has been a hindrance to traffic rather than a help. How many times have you, as a law-abiding citizen, been forced to

stop and wait at some insignificant cross street and wait for a signal to change to green when there was not a car or pedestrian in sight? Did this unnecessary delay improve your disposition and your respect for traffic signals? Another common fallacy is that a single stop and go signal can control speed, and this belief has resulted in a number of unjustified signals. The signal may slow down the speed demon or even stop him while the signal is red, but while the signal is showing green, it only offers a challenge for this speed demon to go faster to get by it before it does turn red. Traffic signals cannot write tickets for traffic violations—you still need traffic officers to enforce traffic rules and regulations.

Remember these things about traffic signals and do your part in the problem of traffic control by insisting that your local officials install only standard signals in the future and that they be installed only after a factual study has been made by a competent engineer to determine whether or not they will be a help or a hindrance to traffic.

## G. I. QUESTIONS and ANSWERS

Q—As the beneficiary of my late husband's NSLI policy, I am at present receiving monthly insurance payments. How should I proceed to collect NSLI dividends on this policy?

A—Since the policy was in force at the time of your husband's death, the NSLI dividend will be sent to you, his beneficiary, automatically.

Q—My husband, a World War II veteran, died from a nonservice connected disability. Am I entitled to a pension even though we had been married less than 10 years?

A—Since you were married within 10 years of the official close of World War II, you may be entitled if you meet income provisions, but there must be a showing that at time of his death, the veteran also had a service-connected disability. However, it is not necessary that death resulted from the service-connected condition.

Q—I had an arm amputated when I was 10 years old. Am I entitled to a pension as the dependent child of a Civil War veteran?

A—You are not entitled to a pension. To receive a pension after age 16, a child of a civil war veteran must have been totally helpless prior to that age.

Q—If my husband, a pensioned World War II veteran dies, will his pension go to me or to a dependent uncle?

A—The veteran's pension will stop at his death. You, as his wife, may apply and qualify for a widow's pension if you meet the necessary requirements. The uncle may apply, but would not qualify unless he had acted as a parent to the veteran.

Mr. and Mrs. Homer Newman and daughter of Oklahoma City visited her parents, Mr. and Mrs. Jim Burnett and other relatives this weekend.

SAYS HE IS 128 YEARS OLD—Francisco (Paneho) Camacho, above, who lives on a ranch near Brownsville, Texas, told a census taker he was 128 years old. He lives with his nephew, Ramon Rodriguez, who estimates his uncle's age at between 125 and 128. Rodriguez' mother, who is 78, was born when Camacho was 50. Camacho's teeth are good and he enjoys good sight, although his activities are hampered by a severe pain in his hip. (AP wire-photo)

The dogs at this center are trained to assist in apprehending criminals.

### G. I. QUESTIONS and ANSWERS

Q—I made application for my National Service Life Insurance dividend, but haven't received my check. To what office should I direct my inquiry concerning this?

A—Some NSLI dividend applications have had to go through special checking procedures before payment could be made, and yours may be one of them. Do not write to VA concerning your NSLI dividend until June 30, 1950. If you have not received your check by that time, address your letter to Mr. E. G. Joseph, Director, Special Insurance Projects Service, Veterans Administration, Washington, D. C.

Q—I am a veteran of World War I and have been receiving pension for nonservice-connected total disability. Recently I became paralyzed, and now would like to know if VA will increase my pension of pay for an attendant?

A—The most you are entitled to under existing laws for nonservice-connected total disability is \$72 monthly after you have been on the pension roll 10 or more years, or reach the age 65.

Q—I am a World War I veteran and have been receiving nonservice-connected total disability pension. I also expect to receive workmen's compensation from the State and the total of both is more than \$2,500. Will VA continue to pay me a pension?

A—The pension from VA is not to be included in your total income for pension eligibility purposes. For pension purposes, your outside income cannot exceed \$1,000 if you are single or \$2,500 if you have a wife or minor children.

### Candidate For Lt. Gov. Here Saturday

SEN. G. C. MORRIS

State Senator G. C. Morris of Greenville, Texas, was among the candidates here Saturday. Sen. Morris is a special friend of Dr. Gordon E. Richardson and Atty. Vernon Townes. Both these citizens have known Senator Morris for some time and speak highly of him personally as well as officially.

The Senator, in company of Mr. Townes, visited the Herald office, and we were favorably impressed by the Senator. From his appearances, as well as his background, Senator Morris, if elected, will not only make a good lieutenant governor, but, should death or resignation visit the office of governor, as it has the past term, have the ability to fill that office also.

From our conversation with the gentleman, he has good ideas about the state government, such as putting its finances on a real business basis, and an endeavor to save as much money as possible for the taxpayers. Senator Morris, we learn, came up to where he is the hard way, and he knows what hard work means to a poor man's son trying to get ahead.

### PLAINS NEWS

Mr. and Mrs. J. A. Rushing were in Lubbock Tuesday.

Rev. Nangle and P. M. Williams attended a meeting of pastors and laymen of Lubbock district of Methodist churches at Wolfarth Tuesday.

Mr. and Mrs. Kit Morris of Post spent the week end with his father and mother, Mr. and Mrs. J. H. Morris.

Johnnie Rhodes, who was band instructor the past two years, accepted a position with the Burnet school near Austin.

Mrs. J. R. Trout of Tokio has leased the Burt Laundry.

Mr. Ray Lackey, who is attending West Texas State Teachers College at Canyon, spent the week end with home folks.

Mrs. Pete Smith and children spent the week end at home. Mrs. Smith is attending Texas Tech.

John T. Camp entered Treadaway-Daniell Hospital in Brownfield for treatment.

Mr. and Mrs. R. L. Culwell of Los Angeles, Calif., are visiting Mr. Culwell's brother, H. W. Culwell and Mrs. Culwell's sister, Mrs. Joe Curry, and families.

Mrs. Guy Wilson and daughter of Wilson and Opal Fitzgerald of Brownfield, have been visiting their grandfather, P. M. Williams, and Mrs. Williams.

Waggoner Carr, county attorney of Lubbock county and candidate for the office of representative of the 114th district, was guest speaker at the Lions Club Thursday.

Amos Smith, formerly of Tokio, has moved to Plains and will operate the new Conoco station, which is located on the Tatum highway. He will be assisted by Tommy Flud of Brownfield. The new building is modern in every respect and quite an addition to Plains.

Mrs. Bob McLeroy and sons of Nucla, Col., are visiting friend and relatives in Plains.

R. S. Bandy and family have returned from several days visit with relatives in Weatherford.

Mr. J. H. Morris visited her son, Harry and family and her sisters in Lubbock this week.

Mr. and Mrs. Oliver Wildman and family of Eunice, N. M., visited his parents, Mr. and Mrs. A. L. Wildman last week.

Mrs. Shorty Coke underwent a tonsillectomy at the Treadaway-Daniell Hospital in Brownfield this week.

Mrs. Ruth O'Neal has returned from a visit with her daughter, Mrs. Bookout, at Kermit. Mrs. Bookout will enter Treadaway-Daniell Hospital at Brownfield for major surgery.

Mrs. Elmer Webb was visiting in Plains Tuesday.

Roy Fleming, Homer Winston, Johnny Winston, and Crawford Burrow spent last week fishing at Combes Dam, N. M.

He has a wife and two children, is a civic and church worker, belongs a Sunday school teacher.

### FLYING NEWS AND VIEWS

By EDWIN E. DUNCAN

Most of us drive our automobiles to work, a few ride bicycles or motorcycles, while a good many still just walk. But none of these old fashioned means for getting from one place to another is as fast as flying.

Burton Rowe—he flies to work every morning in his Aeronica Champion. Mr. Rowe is with the J. R. Fanning Construction Company working at the present near Lockettville. He is now making his home in Brownfield and keeps his plane hangered at the local field. Every morning around 7 o'clock Burton drives out to the airport, climbs into his plane and takes off. Near the job site, he lands on a convenient road, taxis off to one side and ties the plane down for the day. Around six in the evening he reverses the procedure and returns to Brownfield. Bad weather doesn't seem to worry Burton too much. If a dark cloud moves in late in the day, he knocks off work early and heads for home, or if it isn't too bad, he usually comes on through it. So far, he hasn't been caught on the short end. Mr. Rowe began using this modern means of transportation several weeks ago while his crew was working north of Levelland near Oklahoma Flats, and then after the crew moved nearer home, he continued using the system, having found it so handy.

### LOCAL TEACHER ATTENDING TSCW ENGLISH WORKSHOP

Mrs. J. M. Bursleson of Meadow is attending the English Workshop on "Current Trends in English" in progress at Texas State College for Women through June 22.

Directed by Dr. Autrey Nell Wiley, the workshop is planned to help teachers of English keep up with developments in their field.

Mrs. Bursleson will resume her duties as teacher of English in Sundown High School in the fall. She is a member of Delta Kappa Gamma (Alpha Sigma Chapter in Lubbock) and the District Four English Workshop Committee.

### Vic Vet says

**MOVING? BETTER REPORT YOUR NEW ADDRESS IMMEDIATELY TO THE VA OFFICE HANDLING YOUR RECORDS SO YOU'LL RECEIVE YOUR VA CHECK OR NSLI PREMIUM NOTICE ON TIME**

As an example of this, he stated that he had voted for re-districting the state every time it came up, and this was verified by Mr. Townes, who was a Senate page at one time when the question was up. And as President of the Senate, he appointed six men to write up a constitutional amendment to force redistricting via a disinterested committee, providing the legislature failed in its duty. Four of these six men were west Texans. He is a great believer in helping the handicapped children of our state.

Senator Morris is a family man.

### MORE DAIRY PRODUCE NOW IN STORAGE

AUSTIN—Cold storage holdings in Texas of dairy products rose 4 per cent in May from April, the University of Texas Bureau of Business Research reported.

May holdings of cream increased 49 per cent from April, while evaporated and condensed milk stepped up 49 per cent, creamery butter, 20 per cent, and cheese, 1 per cent.

### MARINE RECRUITING OFFICER COMING

If there are any young men in the community who wish to join the Marines, a Marine Sergeant will be here at the post-office lobby from 2:30 to 3:30 P. M., each first and third Tuesdays of each month.

The enlistee will be sent to Dallas for processing, and then to San Diego, Calif., for six weeks of basic training. Then there is following a three week period of range firing and practice with different weapons.

Annual Jaycee Rodeo June 22-24

### TEXAS NEWSPAPER ADVERTISING BOOSTED

AUSTIN—Texas newspaper advertising lineage gained 2 per cent from April to May the University of Texas Bureau of Business Research reported.

Reports for 35 Texas newspapers showed May advertising lineage bettering the May 1949 level by 6 per cent.

KITCHEN MEMO BY JEAN CLAUDE

YOU'RE a happier hostess if food is ready before guests arrive. Prepare this flavorful variation of Pineapple Ham Mousse ahead for a company meal and serve as an entree. Soften 2 envelopes unflavored gelatin in 1/2 cup cold water. Heat 1 can (1 1/2 cups) condensed mushroom soup over low flame to boiling point. Add gelatin, stir until dissolved. Combine 1/4 cup catsup, 1/2 tsp. Worcestershire sauce, 1 tsp. prepared mustard, 1/2 tsp. scraped onion, 3/4 cup celery and 1/4 cup green pepper, both chopped fine, 1 1/2 lbs. (4 cups) ground boiled or baked ham. Add gelatin-soup mixture. Stir to blend well. Fold in 3/4 cup mayonnaise. Add salt, pepper to taste. Cut 1 1/2 slices pineapple into wedges. Arrange around sides of loaf pan (8 3/4"x4"x4"). Spoon meat mixture into pan. Chill in gas refrigerator until firm. Turn into serving dish, garnish with 1 1/2 slices pineapple and parsley. 8 to 10 servings.

For customer protection, more than 350 individual tests for safety, durability and performance are made on automatic gas water heaters by the American Gas Association's Testing Laboratories.

Dip scissors in hot water before cutting marshmallows to keep them from sticking.

It's easy to keep your gas refrigerator clean with soda and water—3 tbsps. to a quart of warm water for washing down walls, shelves and fittings.

When recipes require any mixing over top burners, put all ingredients and utensils on a tray, set it on the work surface of the gas range to save steps.

### WELCOME

## Texans In Washington

## No Husk Between The Teeth

By Tex Easley  
AP Special Washington Service  
WASHINGTON—(AP)—Another highly-placed Texan says it's time the Lone Star State exercised its historic right to divide itself into five states.

This time it's Rep. Lloyd Bentsen, Jr., of McAllen. Bentsen's views, expressed in his weekly newsletter, corresponds to a statement made at Amarillo recently by General Ernest O. Thompson of the Texas Railroad Commission.

Both say they are motivated by the same thing: A feeling that eight more votes in the U. S. Senate might give Texas a better chance to retain control of its tidelands. The U. S. Supreme Court ruled recently that the Federal Government has paramount rights to the tidelands.

The Rio Grande Valley Congressman said:

"Apparently this is the time for Texas to exercise the option it retained when it joined the Union.

"Now is the time for Texas to break down into five states as Texas' privilege and send 10 senators to Washington. With 10 senators Texas would have almost one-tenth of the senatorial representation in the country, and then perhaps our northern Democrats would lend a more attentive ear to Texas problems."

"With Alaska poised for admission in the Union, Texas would no longer be the biggest state in the Union anyway after that happened.

"Needless to say Texas would still want to keep the name of Texas. A probable compromise would be to name the five states East Texas, West Texas, Central Texas, South Texas—and, lest our northern friends might think we

COLLEGE STATION—Pop-sorghum—a cross between Haiti's Petite mill and India's Shalla developed by plant breeders of the Texas Agricultural Experiment Station—has one big edge on popcorn.

The hull is thinner and more tender so there is less husk to lodge between the teeth.

It's just as delicious—most of the few people who have sampled it so far say more so—and as nutritious as popcorn.

The expansion of pop-sorghum is around 15 to 1, about the same as the popcorn varieties of 10 years ago, but not nearly so high as the 25-30 to one expansion of the large grained popcorns of today.

R. E. Karper, agronomist in charge of Texas A. & M. grain sorghum investigations, said the aim was to come up with a farm or home confection for areas where sorghum does well and corn does not. As it turns out, its small size makes it a natural for packaged caramel and candied confections.

Joe Dale, son of Mrs. Johnny Winston of Meadow, spent the weekend with his mother.

They were too obviously bidding for their support, instead of North Texas we'd call it Upper South Texas."

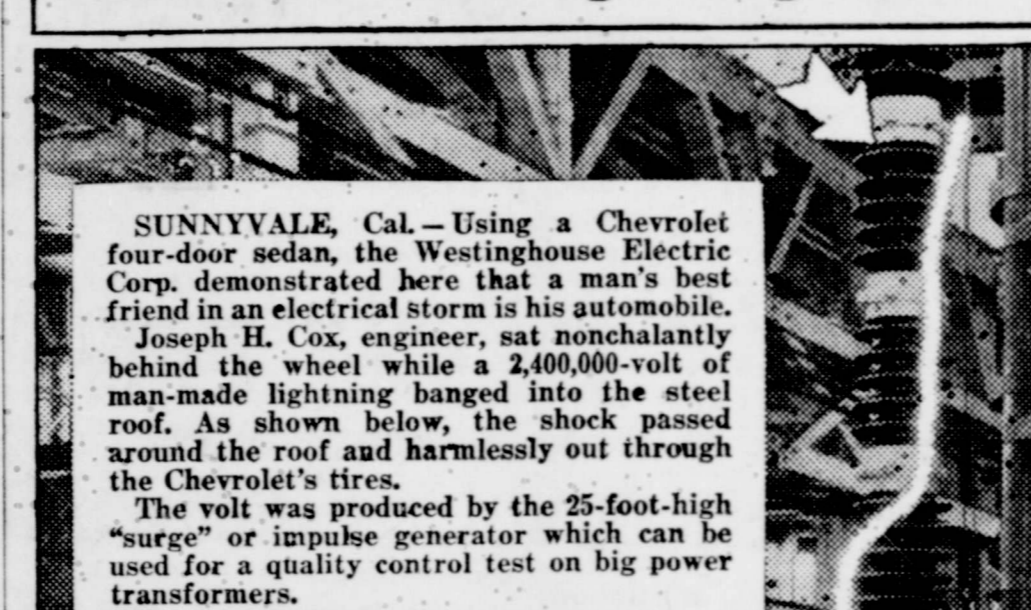

John Nance Garner, former speaker of the house and later Vice President, used to say Texans ought to consider the idea seriously, because of the eight extra votes they'd get in the Senate. He would concede in the same breath that the chances of such action were pretty remote.

TERRY COUNTY HERALD, FRIDAY, JUNE 23, 1950

Joyous confidence and eager anticipation both shine in the eyes of 8-year-old Virginia Lee Brown, Borger, Texas, polio patient in the out-patient clinic of the Texas Scottish Rite Hospital for Crippled Children in Dallas. L. R. German, brace maker (left) has assured Virginia that she will soon walk again. Her father, T. A. Brown, (right) lends a helping hand in fitting the specially made braces. Many children, polio victims and others, get the best possible medical care and attention at the Scottish Rite Hospital. The charity hospital, now serving humanity for 27 consecutive years, is supported by contributions from kind-hearted Texans all over the state.

## Sedan Defies Lightning Bolt

SUNNYVALE, Cal.—Using a Chevrolet four-door sedan, the Westinghouse Electric Corp. demonstrated here that a man's best friend in an electrical storm is his automobile.

Joseph H. Cox, engineer, sat nonchalantly behind the wheel while a 2,400,000-volt of man-made lightning banged into the steel roof. As shown below, the shock passed around the roof and harmlessly out through the Chevrolet's tires.

The volt was produced by the 25-foot-high "surge" or impulse generator which can be used for a quality control test on big power transformers.

## JALOPIES ARE JUNK-PILE BOUND

LUBBOCK—Sixteen over-age autos, ranging from jalopies to fairly respectable models, are creating a campus parking problem at Texas Tech. No one will claim them, and for one reason or another they won't run.

Marshall Pennington, college comptroller, said that unless owners of the vehicles have them removed from the campus soon, the cars will be impounded by the police officials and turned over to the Lubbock Junk yard.

Some of the models represent varying degrees of artistic interpretation. Several have designs which hark back to the 1920s, although one has lines which mark it as a limousine model of the early 1930s.

Mr. and Mrs. E. D. Ballard had as their guests Sunday her sisters, Mrs. N. T. Dalton of Littlefield and Mrs. Houston Ruff of Albany, and Mr. and Mrs. James Ruff and son of Albany and Mrs. O. G. Cheek of Levelland.

## CITIES BURN OR BURY RUBBISH

CHICAGO—(AP)—Most cities get rid of refuse by burning it and using it to fill in low or excavated land. The American Public Works Association reported this, and added: "Still popular, but on the decline, is the old-fashioned method of getting rid of garbage by feeding it to the hogs."

Mrs. Ethel Tucker had as her guests this week her brother, Ammon Griffith, and Mrs. Griffith of Eldorado, Okla.; her daughter, Mrs. J. G. Sadler and their son, all of Falfurrias; and her sons, James Tucker of Sweetwater and R. G. Tucker and family of Lubbock.

## Many Local Band Students To McMurry

ABILENE, June 18—One hundred and thirty band students representing 24 Texas towns have obtained reservations for McMurry College's Summer Vacati Band School, July 24-August 5. Prof. Raymond T. Bynum, director, has announced. Twenty-three of that number are from Brownfield.

Open to college, high school and advanced junior high players, the band school will cover general musicianship, elementary and intermediate music theory, conducting and marching. Also, an intensive course in twirling will be offered by Rebecca O'Bannon, national champion twirler from Huntsville.

Director of the McMurry College Indian Band, Bynum will teach flute. Other well-known instructors include Richard Young of Brownfield, Ralph Mills of Odessa, Theodore James of Littlefield, Odie Claxton of Abilene, Mrs. Ada Creel of Phillips, and Donald Yarbro of Abilene.

Bynum describes the summer band staff as "practical bandsmen whose aim is to return students to their respective bands better players and with a new enthusiasm for the coming school year."

Students already enrolled in the band school include: Leah Dale Portwood, Elizabeth Gail White, Carlon Brady, Carolyn Griffith, Kay Szydlowski, Jo Ann Short Fredda Anthony, Roxanne Miller, Patsy Stice, Herba Leta Singletary, Billy Mack Herod, Dale Travis, Gene Willingham, Martin Lino, Jr., Bobby Greer, Romy Daniel, Dale Johnson, Jimmie Walker, Joe Sharp, Joe Brown, Lanny Webb, Perry Cown and Clyde Trotter.

## Cleaning Solvents Can Be Dangerous

There's a lot of punch corked up in that little bottle of cleaning solvent out on the back porch. State Health Officer Geo. W. Cox called them "hazardous, when special precautions are not used."

It seems that solvent vapors are heavier than air, which means, according to Dr. Cox, that they will collect at floor levels. The danger of using solvent for such household chores as taking spots off the linoleum, or cleaning dirt or grease off the back steps, is that you have to get on your knees to do the job.

And when you're on your knees, you're closer to the accumulation of solvent vapor.

The state health officer proved his whole point with this story: A man attempted to remove the grease from the underside of his car by spraying it with a spray gun he had brought home from his construction job. He was found dead under the car, suffocated by the vapor of the cleaning agent.

Proper use of cleaning solvent, says the doctor, call for opening all the doors and windows when cleaning floors, the underside of household furniture or clothing. The idea is to get as much ventilation as possible. A fan blowing on the working area is helpful.

When doing a job of this sort, work for a short time—avoiding inhaling the vapors as much as possible—and then get into the fresh air for a minute or two.

The first symptoms of vapor poisoning are nausea, dizziness, headache and fatigue. When you notice them, get outside as soon as possible, the health official advises.

Mrs. Lynn Nelson and children and Mrs. W. N. Lewis are visiting Mrs. Lewis's parents, Mr. and Mrs. H. T. Brooks in Tucson, Ariz., this week.

## BASS FRY OUTPUT HARD HIT BY COLD

AUSTIN—A sharp reduction in bass fry production and distribution this year was indicated Saturday by reports from seven of the state's twelve hatcheries for the Director of Hatcheries for the Game, Fish and Oyster Commission.

Indicative of the curtailment mainly because of unseasonable cold in March, was the San Marcos Hatchery statement that an estimated 75 per cent of normal production was lost. Contrary to the picture was the laconic report from Luke Proctor, Superintendent of

the Brownsville Hatchery, that his distribution of 2,172,950 black bass represented "average hatch average luck."

On the fate of the survey, the bass fry crop will fall far short of the expected 20,000,000 total for the state.

In his gloomy appraisal, Hatchery chief Harmon Henderson at San Angelo, wrote: "Due to the late cold weather in March after having a mild February which caused our bass to spawn early, I estimate we lost about 75 per cent of the bass eggs."
