

The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

Best Advertising Medium

The Herald subscription list is a splendid blend of town and rural readers, folks who can and do pay for their papers—they do not ask or want it donated to them. Many 30 and 40 year continuous subscriptions.

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

VOLUME 46

BROWNFIELD, TEXAS, FRIDAY, MAY 11, 1951

NUMBER 42

Wildcat In Central Terry Co. Gets Show

The No. 1 Lowe, central Terry county wildcat, four miles north-east of Brownfield, being drilled by Gulf Oil Corporation, had a show of oil on a deep drillstem test.

On the two and one-half hour check at approximately 11,500 feet in an unidentified lime, a weak blow of air surfaced throughout the test. Recovery was 100 feet of drilling mud and 800 feet of heavily gas cut mud with a slight show of oil.

Location is in Section 81, block T. D. & W. Survey. Operators were deepening Tuesday below 11,610 on a 11,700 contract.

Senator Corbin For Natural Gas Tax

Senator Kilmer Corbin of Lubbock and Lamesa today took a flat footed stand against a one-cent gasoline tax increase as proposed in the omnibus tax bill voted out of State Affairs Committee in the Senate.

At the same time, Corbin repeated his support for a tax on natural gas going into pipelines. He emphasized that 62 per cent of the natural gas tax would be paid by out-of-state users of Texas gas, leaving only 38 per cent for Texas citizens to pay.

As a member of the State Affairs Committee, Corbin was one of only three Senators voting against the one-cent gasoline sales tax increase.

"I will vote against it again on the floor of the Senate and from now on out every time they try to put this extra sales tax on the people of Texas," Corbin declared.

"The tax issue in the Legislature now has come to the point where the legislators must choose between a natural gas pipeline tax (which will be paid largely by people in other states) and a higher gasoline tax (which will be paid almost entirely by Texans)," Corbin continued.

"There's no sense whatsoever in adding more and more sales taxes on the people of Texas when natural gas is going out of the state in ever-increasing volume without paying a fair and just tax for the support of the State," Corbin continued.

Corbin is supporting the natural gas pipeline tax which it is estimated would raise about \$30,000,000 a year. The money would be divided as follows: one-fourth, or \$7,500,000 to the available school fund for support of the public schools; one-fourth to the cities and towns of Texas for street construction; one-half to the counties for rural road construction.

"This is a fair tax and a just tax," the Senator said. "It is a tax which will solve the State's financial predicament without hurting the people of Texas. It would raise more money than the gasoline tax, but it would cost the people of Texas many times less."

MORE GOING THAN THERE IS COMING

During the past week, 12 people decided that the grass was a bit greener over in the next pasture, and made for it. Incidentally, we presume most of them are oil field workers. However, one went to the Reese Air Base at Lubbock, whether as a civilian worker or a recruit, we failed to learn.

Five new people were known to have come in. Oil field workers as well as major oil field headquarters are constantly changing personnel, and such are hardly ever permanently located. However, we welcome the following: Gordon Brant and A. T. Flowers, from Amarillo; John Dorsey, colored, from Spur; Gaines Byrd, from Sag Angelo, and J. Jones from Lubbock.

No marriage licenses were issued last week, but two couples, one a Latin-American, decided to call it quits. This is a habit the Latins catch on to from their Anglo neighbors, and soon.

Mrs. Redford Smith, who has been ill and confined to her bed for the past month, is improving gradually.

No. 4 Harmon Scales Has High Reef Pay

Magnolia Petroleum Company No. 4 Harmon Scales, east outpost to the Wellman reef pool of central southwest Terry county has bored into the highest reef pay of any well drilled so far in this area.

The Magnolia project has show for approximately 700 feet of pay, with reef top reported at 9,148 feet on a minus datum of 5,865 feet, which is 188 feet higher than the Anderson-Prichard No. 2 Scales, one-quarter mile to the north and previously the highest well in the field.

COLD CHECKER USING A REGULAR CHECK BOOK

According to a report of the local Retail Merchants Ass'n, a man that signs "Saunders," with varying initials, is loose in the land with a check book of a local bank. Many of the checks have been found over town, blowing about in gutters, etc. Once again, the RMA warns people to "know their endorsers," and we might add, those who hand in checks.

Such an experience is still fresh in the mind of this paper. Several years ago, an employee of the Herald, whose background we had investigated very little, obtained one of our check books. One Saturday night, he gave some \$1,800 of forged checks over town and vanished.

Luckily, he was caught in a few days at Fort Worth, and sentenced to six years in the pen. But with good behavior, he got out in about four years, and we hope is leading a better life.

Is The Ranching Center Moving East?

In view of the fact that our old friend Wiley Bridges and the writer have both been east of the Mississippi river this year, and the latter for the past several years, we got to discussing the increased ranching interest in the east recently. For the past 15 years we have noted that there are more and more cattle—not just cows—of the favorite ranch breeds. They are not as formerly, spotted, pigged, brindled, red and yellow, horned and muley, but some of the favorite breeds like Herefords, Angus, etc.

This year, however, we noted that these beef breeds as well as most of the dairy breeds that were not protected from the elements and fed, came through the winter in bad shape—poor and boney. But let us keep in mind that the past winter with its 18 below zero mark was a frightful experience to cattle exposed to the elements, and with perhaps little feed. Indeed reports revealed back in mid-winter that thousands died of cold and undernourishment. They must learn to feed in bad weather.

But Wiley and the writer agreed that this is what is happening. The land out in west Texas is becoming higher and higher. It is level or practically so, and one man can work hundreds of acres. It is too high for ranching. So, it is sold, and land in east Texas and the old states bought. Some of it is rather hilly, and wornout for agricultural purposes, and is therefore the cheapest land that can be bought.

It is an easy matter to get the better pasture grasses started on this land, which tends to stop erosion. Hundreds of pounds of fertilizer is used and in a little while you have a lush pasture that will carry 50 cattle on 50 acres. Out here that is considered too many for 640 acres in most cases.

Around the worst gullies one can plant pines from 3 to 4 feet high, and in 20 years you have saw logs. Not long ago, we saw some statistical matter that related that east Texas has gained heavily in number of beef cattle in the past ten years. This section has lost many. But the rougher, more arid areas of west Texas, New Mexico and Arizona, will perhaps always run more or less cattle.

BHS Senior Class Returns From Trip

Members of the Brownfield high school senior class will return to town (Friday) from their annual class trip. The group visited New Orleans and other southern cities, including San Antonio, Houston, Vicksburg, Miss., Shreveport and Ruston, La., and Dallas.

Adults accompanying the group were class sponsors, Aubrey Culp and Miss Mattie Morgan; high school principal Byron Rucker and Mrs. Rucker; and Mesdames E. D. Jones and Harlan Glenn.

Class members who made the trip include Ethelene Bucy, Sandra Bailey, Peggy Black, Wanda Baldwin, Bernadean Chapman, Jacqueline Crump, Bonnie Dye-martin, Mary Duffey, Janie Doss, Freda Edwards, Geraldine Forbes, Carolyn Griffith, Harlene Glenn, Joyce George, Juanelle Greenfield, Doris Gorby, Betty Hudson, Linda Hudson, Edna Harbin, Willa Johnson, Patsy Lewis, Mary Alice Moore, Jo Anne Machen, Loryce McBee, Laura Mae Odom.

Amaryllis Roach, Billie Nell Runnels, Dixie Stoneman, Ona-gene Walker, Effie Wheatley, Doris Walls, Mary Akins, Norma McClendon, Robert Bryant, Joe Christie, Dale Cary, Edwin Garnett, Linwood Howell, Jack Holmes, Jerry King, Jessie King, Martin Line, Jr., Jimmy Milner, Don Noble, Graves Nelson, Allen Orr, Orbra Rowden, James Skiles, Robert Wilgus, and Gene Willingham.

Buying Paint For Farm Buildings

In buying paint for farm buildings, the main thing to consider is location and climate, says E. C. Brown, extension buildings specialist, Texas A. & M. College.

He recommends using the hard-er type paints, which contain greater amounts of zinc oxide, in areas that have warm, humid climates. Soft paints, which contain a high percentage of white lead, are better for use in a dry climate.

Brown warns against using white lead paints on buildings located near industrial plants that give off sulfide gases. These gases cause paints that contain a high percentage of white lead to turn black. Zinc oxide paints, however, are not affected.

In addition to climate and location, a farmer has to consider his income—because in a bad year he may not be able to keep up a regular painting program. In a regular painting program, buildings are repainted every five years—or whenever the paint shows signs of failing.

Brown suggests that farmers consult their local paint dealers about painting problems. These men are qualified to give specific recommendations that apply in the particular areas where they are located.

Mr. and Mrs. Mon Telford, sr., are visiting their son, Mon Jr. and family in Fresno, California.

COMMITTEES FOR ANNUAL JAYCEE RODEO JUNE 28-30 ARE NAMED

Clyde Truly has been named to serve as general chairman of the annual Brownfield Junior Chamber of Commerce rodeo to be staged at the Jaycee rodeo arena June 28-30, it has been announced.

Other committee chairmen are Dr. W. A. Roberson, ticket sales, and DeWitt Stafford, cushion sales. The advertising and concession chairmen have not been appointed as yet, Truly said.

Stock will be furnished again this year by the T. C. Steiner Company, with Tommy Steiner as producer. Truly said that the contract with the company had been signed, and that July 1 (Sunday) had been set as a "rain date" in the contract.

There will be eight events in this year's rodeo, including three specialty acts, and, as usual, the clown will participate in the entire rodeo. Only night performances will be given, and a dance at Veterans Hall will follow each performance.

Money Price, captain of the Terry County Sheriff's Posse, is in charge of assembling the parade, which will officially open the three-day rodeo on the afternoon of June 28, Truly said. All Sheriff's Posses in surrounding towns have been extended invitations to attend this year's event.

Truly expressed the hope that this year's rodeo will be the "big-gest and best."

FFA Chapter To Elect Officers

Members of the Brownfield high school chapter of Future Farmers of America will elect officers for the next school term at a meeting to be held in the high school agriculture room at 7:30 p. m., Monday, May 14.

At the meeting, the group will also make plans for their annual summer encampment, according to Jerry King, president, and Lester Buford, sponsor.

EIGHT APPLY FOR STATE FFA FARMERS

Eight members of the Brownfield high school chapter of Future Farmers of America have applied for State Farmers' degrees, according to Lester Buford, sponsor.

The members are John Burris, Chester Albert, Edwin Garnett, Jerrell Rowden, Glenn Paden, Bobby Carter, Icharles Bartley, and Bryce Wagner.

The applications will be reviewed by the area board tomorrow (Saturday) and then by the state board, which will meet in Lubbock in June.

TC Sheriff's Possee Second In Parade

The Terry County Sheriff's Posse, captained by Money Price, placed second in the parade which kicked off the Texas Tech annual Rodeo in Lubbock last Friday. Tahoka placed first in the Sheriff's Posse competition.

Many invitations to participate in rodeo parades have been received by the local posse, and the group will be in Tahoka this afternoon to ride in the parade which officially opens the annual Tahoka Jaycee Rodeo.

An invitation has also been accepted by this posse to ride in the annual rodeo parade at Post on May 18, Price said.

Blood Tests Now Performed Here

The South Plains Health Unit Laboratory is now in full operation with the beginning, in April, of the performance of blood tests in connection with the issuance of marriage licenses, it has been announced.

It is now a state law in Texas that each applicant for a marriage license must present a certificate from an approved laboratory stating that the applicant is free from a venereal disease in its communicable state before a license can be issued.

That these tests can now be performed in the local laboratory means that applicants from this area may now receive reports on blood tests much sooner than was the case when specimens had to be sent to Austin or other distant points.

TERRY CO. DISASTER MEETING CALLED

There will be a meeting of the Terry County Disaster group Tuesday evening at 7:30 o'clock at the South Plains Health Unit auditorium, according to Wayland Parker, Terry county disaster committee chairman. All members are urged to attend, and anyone interested is invited to attend.

Swimming Pool To Open May 19

The Lions Club swimming pool, located on South Fifth street, will be officially opened Saturday, May 19, according to Herbert Chesshir, chairman of the project, and Clyde Bond, jr., manager.

Babe Lincoln will serve as lifeguard at the pool this season, assisted by Billy Thomason.

The pool will be open daily from 2 p. m. until 9 p. m.

The miniature golf course is now open and is being managed by James Chesshir and Fred Salmon, who also manage the concession stand.

Dr. T. L. McIlroy, president of the Lions Club, officially opened the season's men's softball league play Monday night by tossing the first ball in the game, which was played by Primm Drug and Foster.

SHAG'S SHOWY SHAVE SHOP

Virgil (Shag) Bynum has established a real up-to-now barber shop on West Broadway, to the rear of the Western Auto Store.

He wants his old customers as well as new folks to call at his place. There are five barbers and little waiting.

THIRTEEN NEW CARS ARE REGISTERED

Herbert Chesshir reports the following cars were registered by their owners at his office of Tax Assessor-Collector of Terry county, up to and through May 5th: Tulsa Rig and Reel, Chevrolet; Portwood Motor Co., Ford; Billy Rex Webb, Ford; Sherman Hendard, Ford; Richard L. Chambers, Mercury; Parker Drilling Co., Ford; G. B. Hallmark, Oldsmobile; Magnolia Petroleum Co., Ford; E. M. Cannon, jr., Chevrolet; Floyd H. Joplin, Mercury; Martha E. Bullard, Chevrolet; R. W. Wynn, Dodge; and J. E. Smith, Plymouth.

The pedestrian is often his own worst enemy. Ignorance of the rules of the road, failure to understand the problems of the driver, and carelessness about reading signs and observing safe walking habits are the causes of many pedestrian accidents.

Children interested in a game, or absorbed in a certain activity, are apt to run out into the street from the walk, or from behind a parked car and pay dearly for this action. People do not want to make children fearful, but thru understanding safe practices, they want them to be confident and responsible for themselves.

Those who ride bicycles are the cause of certain types of accidents. A few safety rules for them are: ride close to the right curb or to the right side of the highway; obey all traffic rules; refuse handle bar rides; and refrain from hitching to autos; buses or streetcars.

Five Persons Charged On Liquor Count Here

OPS Food Specialist To Be Here Monday

The Office of Price Stabilization is sending L. C. Tyson, price specialist from the Lubbock District OPS office, to Brownfield, Monday afternoon, May 21, to assist business men of this area in complying with the federal pricing program, it was announced by the local Chamber of Commerce. He may be contacted at the Chamber of Commerce on that day.

Mr. Tyson is a price specialist in the food branch of the Office of Price Stabilization. However, he will be able to give information to representatives of all types of businesses concerning the ceiling price regulations. He emphasized that practically all business men, excepting those specifically removed by the "tailored" regulations, are covered by the general price ceiling regulation.

The Chamber of Commerce says plans have been worked out for the OPS office to have a price specialist in Brownfield every Monday afternoon to work with the business men in the area.

Specialists from different branches will rotate in order to cover completely the regulations within the shortest time possible.

All business men are urged to consult with the OPS representatives in order to bring their firms into complete voluntary compliance as soon as possible.

Rites Held For Accident Victim

Last rites were held at 4 p. m., Saturday in the North 2nd street Church of Christ for Buster John Crawley, 47, who was killed instantly at 8:30 p. m. Friday when he was struck by an automobile about 14 miles north of Odessa on the Brownfield-Odessa highway.

J. L. Pritchard, minister of the church, officiated at the services. Burial was in Terry County Memorial cemetery, under the direction of Brownfield Funeral Home.

WILEY BRIDGES HAS BEEN SEEING SIGHTS

Our old friend, W. R. (Wiley) Bridges was in to see us this week while waiting for a bus that would carry him to Hereford, to visit a niece. Since Wiley lost his wife a few months ago, he has done much traveling and visiting, probably in a measure alleviating his grief and loneliness.

The Black-Bridges reunion will go to Breckenridge this year, by vote of the majority here last year. Will be held 3rd Sunday in August.

He informed us that he had visited the El Paso section, parts of New Mexico, and had been in the lower Rio Valley twice this winter. Also during the winter he visited back in the region of his boyhood, Pontotoc county, Mississippi. He related that a cousin back there was sheriff for 20 years and people said he held the office so long by virtue of the fact that he kept lots of fox hounds and hunted a lot.

By the way, he stated that foxes, the red variety, were setting so plentiful back in north Mississippi, that they were eating the rabbits, and even catch squirrels, quills, etc., and many had to keep their chickens penned until late morning.

Some of his folks have moved to Memphis, and it was there and in Mississippi that he witnessed some of the coldest and most bitter weather he ever experienced in his memory. Wiley stated that he thought it rained a lot back there in winter but he had no idea that it snowed, sleeted and rained almost all the time and could reach 18 below zero.

He confirmed what our people had written us before hand, and confirmed when we were back there, that they had an unusually cold winter: Pontotoc is only about 60 miles south of where our people live, all in the Memphis area.

A GOOD SHOWER IN WELLMAN SECTION

Again Tuesday night, the lightning flashed and the thunder rolled, and a small section centered around Wellman, got a welcome shower—enough to run off the road in the bar ditches.

We are wondering up here if the Wellman folks are not paying the preacher better than we. A bare sprinkle here and in the rest of the county.

All-America Stars and Queen

Five former All-America football stars gathered around the Red Raider Roundup queen at Texas Tech in Lubbock. Left to right are: Mal Kutner; Wade Walker; Mrs. Emily Keyes O'Grady, 20, Tech queen from Fort Worth; Jack Mitchell; Glenn Davis and Bobby Layne. (AP Photo).

Just owing to whose ox is gored. And sometimes it is easy to read between the lines what the other fellow is thinking, and by thinking it is easy to follow the trend of thought. This trend also follows an old saying, "Me and my wife, my son John, his wife, these four and no more." We find that the labor union bosses are following this trend on the Economic Stabilization program. But the boys have a double vocabulary when they wish to describe stabilization. They are asking for price ceilings without wage ceilings, but this is the double talk that is being used in regards to prices, is a demand for "freezes" and "ceilings." But when they have reference to wages it is "stabilization." And they always interpret this to mean a further boost. They have a lot to say about rent controls, and no doubt in some booming places rents are beyond reason. But taking the average, statistics show that while rents have increased only 33 per cent from the years 1925-39, wages have gone up 180 per cent. So, to the general public, and that is the most of us, the idea and the thought comes down to the simple admission that if there are controls, it should hit all alike. No partiality whatever should be shown, especially in war time—and we are in a war whether the administration admits it or not. A police action does not leave 60,000 dead and wounded in less than a year.

While speaking of ceilings and rent controls, it all runs back to many years ago, when the government stated that in view of the fact that there was a serious housing shortage, rent controls must be imposed. This measure caught a lot of owners flatfooted. Rents were so low, and material so high that many existing rent houses could not be improved or repaired. But the man who built a new

rent house could get enough so he would be able to make a reasonable profit. During that nine years we have the following available facts, which go to show that once the government gets in the saddle, there is no way to change matters. The findings are as follows: Since rent ceilings have been imposed, the number of dwellings have increased 23.6 per cent. 2nd: The population has increased 14.5 per cent. 3rd: The increase in dwellings has exceeded population increase by 2 million people. 4th: The number of dwellings occupied by owners increased 8.2 millions. 5th: The number of dwellings occupied by tenants has decreased 0.5 millions. 6th: The number of vacant dwellings have increased 2.5 millions to 3.4 millions. 7th: The dwellings occupied by only one person increased 45 per cent, reaching in 1950 a total of 3.9 millions.

Here of late, the big dailies of the state, some of which at first seemed to believe that a gathering tax of 1c per 1,000 cubic feet of natural gas, would be a good thing for the State, have about-faced. The purpose for which the new tax money was to be used, build farm-to-market roads, city streets and schools, also seemed to be a good idea then. But the oil and gas lobbyists had not gotten their last lick. Since that time, a lot of State Senators seem to have turned against the tax, and the great dailies have hit the tax with varied arguments. Sunday's Star-Telegram seemed to think the big gathering companies would throw the measure into a suit that would last for years, perhaps. The Houston Chronicle comes forward with an argument of big money from the government, citing that industries approved for Texas amounted to more than \$566 million dollars, with only one state, Pennsylvania ahead of Texas. All

because Texas had plenty of this tax free fuel. Then the Chronicle stated that Louisiana, also with unlimited natural gas resources had only received some \$30 million dollars for industrializing—because they had a tax on natural gas. These big dailies go on to say that the increase to the consumer would be from 10 to 200 per cent. Maybe we cannot figure like the guy up in the tall buildings, but we can see no such increase from 1c on the 1,000 cubic feet to the user in Texas. Nor do we believe the argument that it will keep out industries, will hold water. No one but a nincompoop will believe for an instant that it will not increase the price to consumers some. But on the other hand it seems to be the only chance on earth to keep billions of free natural gas being piped out of Texas, and not a farthing for it. Some of these days, Texas, as well as all other states, principally the southwest are going to be out of this fine fuel, and we'll have to look for other sources to keep us warm in winter. For our part, we are willing to pay a reasonable increase in order to collect some income to build roads, elementary institutions, etc. Here in Texas, if we can on the other hand force the people in other states that are enjoying this fuel tax free, so far as Texas is concerned, to pay a reasonable tax for natural gas.

Some of the things that have happened in the Texas legislature in the past few weeks. In the first place, there is said to be a slow down from the juggernaut pace of the first several weeks. One reason was said to be an amendment to the right to work bill. But the legislature did set up a legal Thanksgiving Day for Texas, the last Thursday in Nov. So, supposedly, we will not have the two Thanksgivings at the price of one as under FDR. Another thing the legislature hopped on was to try to relevel the doctor shortage. This was in the form of a \$5,000 loan to students for a medical course—providing they would spend their first five years in the small towns and communities, instead of a 40 story skyscraper in the cities. On the spot unloading of overloaded trucks was finally passed by big majorities in both houses, and now awaits the governor's signature. But a sop may be handed the trucking companies in a raise of load limit from 48,000 pounds to 58,420, based on the number of wheels. The House also passed a proposed amendment to raise

their pay by a vote of 105 to 81. Under the terms of the new setup, if adopted by the voters, the pay for the first 120 days would be \$20 per day, for the regular session, and \$7.50 per day thereafter. Presently they get \$10 per day for the first 120 days and \$3.00 thereafter, and 25c per mile travel expenses to the capitol. There will be as usual be many arguments among the people over this amendment before it comes to a vote. Many say the legislators are underpaid, and that more pay would entice a better class of men to seek the legislature. Many others say the legislature is already paid more than they are worth. But we have to admit we have not heard this complaint about the present legislature. A bill is also pending to inspect cars as a safety measure in each county, such as brakes, windshield wipers, lights, etc., to keep defective cars off the highways as much as possible to cause accidents. The inspection fee would be only \$1, but would exempt out of state cars. Texas is still in no mood to take on anything in the form of a sales tax or state income tax. Such a measure was killed by a vote of 89 to 23 in the House. Texans traveling in other states have met this nuisance tax head on and don't seem to like it.

Our opinion about the firing of General MacArthur won't be worth much, although, like most Americans, we have formed an opinion. In fact we formed this opinion long before MacArthur was fired. Frankly this humble country editor has never been able to see the virtue of playing old time "stink-base" up and down the length and breadth of Korea with the Chinese and Korean Reds. That while those outlaws are supposed to stay clear of their stinking bases. We also believe that we have no man in the US army, navy or air corps that is the equal of Mack when it comes to knowing the Asiatic mind—if any. He has worked with and occasionally fought them for the past 50 years, and knows their reaction to most everything better than any foreigner, and as well as some of the Asiatics. A sweller job never was accomplished than was his of occupying Japan. During the late war he had almost the same battle to fight with the brass then in the Pentagon that he has had about Korea. He had to convince both President Roosevelt and Pacific Fleet Admiral Nimitz not to by-pass the Philippines on their way to conquering Japan. He also convinc-

ed them that by systematic bombings and the destruction of the Jap fleet, that we'd never have to land ground troops to fight in that country. He was right again. The Herald is inclined to believe he is right in the present squabble, but President Truman is too set in his ways to take the advice of a man who really knows his way about in the east. It all came out when MacArthur answered an inquiry from GOP leader, Martin. This was OK with most people, but not with HST. He thought Mack was exceeding his authority, and after many of the President's favorite oaths and name calling, not fit to be printed, he fired MacArthur. But so far, it has proved a boomerang to the administration. It made MacArthur more popular than ever, and greatly lowered the estimate on the war-making ability of the little man from KC. War has never been play, and never will be.

The oil industry made a new record last year in expanding practically all of its operations. But those in the know believe that the oil industry must be further expanded in the next few years, especially if Russia and satellites take over in Iran and other near east oil fields. Aside from this will be a big demand of the government for young men who might go into the oil production channel to join the armed forces instead. Huge sums of money will be required for this expansion, but with ever increasing spending, a lot of it unnecessary, by the government, money will naturally be cheapened and buy less oil development. And there is the ever present expectation of higher and higher taxes. It is said that over a ten year period the industrial construction dollar has shrunk much faster than the

consumer dollar. Any bad laws that are calculated to hedge the search for new oil and gas are laws that can strangle.

In the sweet name of defense, our big boys up at Washington, are now doing the flag waving stunt with the idea of taking over a lot of our natural resources but the folks who in reality are socialists, but like the name, "liberals," for political purposes much better. A voluminous report has just been handed in to the administration, in which all the water resources, is given the OK. Of course this means all the land, electricity, agriculture, etc. Many of these are recommended where privately owned, taxpaying util-

ities are already doing a good job. Perhaps some of the states that have no tideland oil will, some of these days wake up to the fact that they are fast being led into national socialism. And it does

not just effect California, Louisiana and Texas, but all 48 of the states, as all have more or less natural resources.

ROOSTER CROWING BRINGS FINE

ONTARIO, Calif. (AP)—The cock that crowed in the morning proved the undoing of Iselabo B. Julaton, 42, of Salinas, Calif.

He stopped at a gas station at 5:45 a. m. and a couple of passing policemen were attracted by the lusty crowing of a rooster. The

The average size of American farms has grown from about 145 acres in 1925 to about 195 acres in 1951.

Officers said they found six game cocks in the back of Julaton's truck. He was fined \$25 for illegal possession of fighting birds and the fowl were confiscated.

More About Family Allowance

We have furnished several items of information concerning family allowances in various bulletins from time to time but new questions are coming in daily and so we again will "elaborate" to some extent on this subject:

Currently, the office handling family allowances for the Air Force is the same as the Army: Dependents Division, Army Finance Center, Department of the Army—St. Louis, Missouri—but after June 30, 1951, all correspondence in connection with family allowances of Air Force personnel should be addressed to: Air Force Finance Center, 3700 York Street, Denver, Colorado.

You have been correctly informed that the wives and children of servicemen are entitled to family allowances as a matter of right, and it may be established by request of such dependents even though it has not been requested by the serviceman—but in the case of dependent parents such allotments can only be established by the serviceman himself. There is one specific exception to the latter—if a serviceman is missing in action, upon proper proof of dependency (over half of the parent's support) the service department may establish family allotment and allowances upon application of the dependent parents.

In a recent conference an official of the Army, Dependents Allowance Branch, at Washington, D. C. was asked what further action might be taken for parents in cases in which we feel that sufficient evidence of dependency has been submitted to Army Finance Center, St. Louis, and the application was disallowed by that office. His answer was that if we feel sufficient evidence of dependency has already been sub-

WENZEL ATTENDS SWINE CONVENTION HELD NEAR AUSTIN

A. D. Wenzel, the Bestshire breeder of the Neebmore section, was in last week and reported that he too, had quite an outing for two or three days at least, while we were in Tennessee. He attended the annual Swine Breeders convention, which was held at Lake Buchanan on the Colorado river, near Austin.

Mr. Wenzel is one of the directors of the Association, and informed us that breeders of every major breed of swine in Texas was represented. He reported a harmonious and very interesting convention of men who are making Texas well known in the swine business.

Also he stated that the Buchanan Lake park was certainly a fine place to hold such a convention. That there were numerous private cabins for the delegates to occupy during the night, and if they liked, there was good fishing.

The Low Down From Hickory Grove

Today I am on Socialism. Of all the queer dishes that have been cooked up for the American people to nibble on, there has been nothing more un-American. And for our multitude of careless—but good citizens—I sound-off with this studied essay.

It is squarely up to 51 of each 100 people to alert themselves and when some Govt. gent with a fancy and glittering plan shows up for a free lunch at some club in your town, you gotta examine the plan, even if it don't concern your own business but is just for putting a crimp or squeeze on the other fellow. Next week, if you don't bar the door, another guy will show up with a way to put you, yourself, on the grid-dle.

And for folks who are not in business for themselves but are on salary or wages, they can keep on reading, I am coming to them next. The weekly wages in socialist England has just been announced by the Labor Govt. there as being \$21.07 for 48 hours. Keep reading—it is a weekly wage of \$21.07—not daily.

Woe is us—if we don't put some rocks on the track—get over being a greenhorn and simple people who are duck soup for the Socialist Medicine Man in the checkered suit—and all smiles.

Yours with the low down,
JOE SERRA

Economic Highlights

(Happenings That Affect the Future of Every Individual, National and International Problems Inseparable From Local Welfare).

David Lawrence recently described the varying points of view regarding international, military and diplomatic policy in this fashion:

"England says: 'Appease in Asia and save Europe.'
"MacArthur says: 'Appease in Asia and you lose Europe.'

"Truman says, in effect: 'Don't appease but also don't fight with all your might—the enemy might get mad.'

"The average American will say: 'Appease anywhere, show weakness to a bandit or a bully, and you're lost. To keep on saying you're afraid to go into a big fight will only invite attack from the other fellow.'

In the radio speech made to explain the policy reasons for the dismissal of General MacArthur, the President said that the Administration's purpose was to keep the war from spreading, to confine it to Korea. He clearly implied his belief that the MacArthur plan—with its bombing of Red China's bases, its blockade of the China coast, and the use of Chinese Nationalist forces in the fight—might bring the Soviet Union into active participation and set the world afire.

This is the doctrine of limited war. Yet, to many, it becomes increasingly difficult to regard the Korean affair as a small-time "police action." Our casualties are well past the 60,000 point. Russia is supplying Chinese with increasing numbers of jet aircraft. The best intelligence indicates that Russian officers are serving as top-level staff advisers to Mao's forces. The cost to us of carrying on the war runs into many billions.

Moreover, it has been pointed out in many circles that Mr. Truman's Korean policy gives the Russians the initiative. He is as much as said this himself in his radio talk. It is up to the Kremlin to decide whether the war shall be extended. We are just holding our ground as best we can while waiting for the enemy to make the major decisions.

Congress, as a whole, has dodged taking a forthright stand on these issues. As Holmes Alexander put it, "Congressmen will vote for war measures, but they shy away from voting a 'quit-kidding declaration of fact.'" Senator Cain

A "Must" In The Food Diet

One whole grain cereal each day is a "must" in the diet, according to Frances Reasonover, foods and nutrition specialist with the Texas A. & M. College Extension Service. Cereals help build strong bodies, she explains, but a more popular point in their favor is their economy.

Miss Reasonover adds, however, that cereals are economical only if the homemaker buys wisely. Read the labels, she cautions. All labels must have the brand name of the product and ingredients, name includes the amount of niacin, riboflavin, calcium, and other nutrients included. If the cereal has been enriched, this is usually indicated on the label.

Check yourself, says Miss Reasonover, for the quality and nutritive value of the whole grain cereal as well as the price. The weight of packaged cereals should be noted. The specialist points out that cereals that need to be cooked are usually lower priced than prepared cereals, and if they are bought in large size containers even more saving can be realized.

Washington has attempted to force the Senate to make its position clear through his simultaneous introduction of two resolutions. One is for a declaration of war on Red China. The other is for the evacuation of all our forces from Korea. In sum, he wants the Senate to do something definite, one way or the other. But it is believed that there is small chance of these resolutions reaching the floor. Congress will keep on doing a great deal of talking, but very little positive acting.

Hopes still remain that Red China will, before too long, agree to a cease-fire and a peace of some sort. But, failing in this, what will we do? Will we go on fighting indefinitely in Korea, taking our losses, in a campaign which we cannot possibly win under present policies? That all-important question has not been answered.

"Where Most People Trade"

1. Question: A serviceman has a wife and two children from his first marriage. How does he, or the service branch, determine how much of his allotment and allowance is to be paid to his present family and how much to his previous family?
Answer: The only dependents recognized by the government for purposes of allotments under the Act are the serviceman's present wife (or dependent husband), all his children, whether they are in his custody or not, and his dependent parents. He may cause the distribution of his allotment and allowances to these dependents as he sees fit. If his divorced wife is not satisfied with the portion allotted her for the support of her children by him, she may appeal to the appropriate branch of the armed forces for an increase and it will then be determined if the serviceman's distribution is equitable.

2. Question: The serviceman has a wife and two dependent parents. He makes out an allotment totaling the amount required by the Act, dividing it three ways as he sees fit, to his three dependents. If the wife feels that her share is too small, does she have the right to appeal for a greater share, and if so, to whom should such a request be addressed?
Answer: As we stated before, the share to each dependent is determined by the serviceman. The wife may ask him to increase her share and he may do so by allotting more from his own pay without cutting the amount of his parents' allotment. In the event he fails to provide adequate support to his wife to the extent of his capabilities, she may make complaint to his commanding officer or to the appropriate branch of service. The armed forces has authority to reapportion the allotment and allowances without the consent of the enlisted member in appropriate cases, also he will probably be given an opportunity to furnish reasons why reapportionment should not be made, before such action is taken.

3. Question: He has a wife and one child when he enters the service and establishes a family allotment to these two dependents, then his wife gives birth to another baby. What evidence in connection with application for increase in allotment should be submitted, and to whom?
Answer: The serviceman may file an application for this increased allotment with his Personal Affairs Officer (or other appropriate officer) and generally this is accepted as evidence; or, if the wife wishes to make the claim, she should send a certified copy of birth of the child to the appropriate allotment division, along with sufficient information to identify the serviceman.

Barbara Harrold, James Forbes Wed

In a double-ring ceremony read in the Methodist parsonage at Carlsbad, N. M., at 5 p. m., May 4, Miss Barbara Ann Harrold became the bride of James William Forbes, both of Brownfield. His parents are Mr. and Mrs. Cullen Forbes of route 1, Brownfield.

Mr. and Mrs. Nelson Brigrace of Brownfield attended the couple.

The bride wore a white sharkskin suit with navy blue and white accessories. She had a corsage of tallman roses, and wore the traditional wedding symbols.

Other guests at the wedding were Miss Ann Lilly of Brownfield and Miss Charlotte Green of Seminole.

Both the bride and groom are graduates of Brownfield High School and Mrs. Forbes attended Draughon's Business College in Lubbock. The couple is at home in Brownfield, where she is employed at the Brownfield State Bank and Trust Company, and he is employed with the Shirley Miller Drilling Company.

Carl Hogue Will Marry B. Warren

Mr. and Mrs. O. A. Warren of Levelland are announcing the engagement and approaching marriage of their daughter, Barbara, to Carl Hogue of Brownfield, son of Mr. and Mrs. T. C. Hogue, sr., of Brownfield.

The ceremony will be held June 3 at the First Baptist Church of Levelland.

Miss Warren will graduate from Levelland High School this month. The prospective bridegroom is a graduate of Brownfield High School and is a Navy veteran.

The couple will live in Brownfield, where he is engaged in farming.

Mrs. Herbert Chesshir Hostess At Meeting

The regular meeting of the Delphian Study Club was held at the Seleta-Jane Brownfield Club House, May 7, with Mrs. Herbert Chesshir as hostess.

A business meeting was held with Mrs. W. T. Pickett presiding in the absence of Mrs. Leonard Chesshir. The resignation of Mrs. Chesshir as president was presented and a nomination committee composed of Mrs. Claude Buchanan, Mrs. Wayne Brown and Mrs. Benarr Smith was appointed.

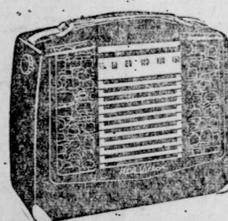

Mrs. Wayne Smith, program chairman, introduced Mrs. George Weiss, who reviewed "The Spanish Gardener," by A. J. Cronin.

Members attending were: Mesdames C. L. Aven, Fred Vandell, George Steele, L. D. Spradling, H. B. Parks, Martin Line, Willard Adams, Herbert Chesshir, Wayne Brown, Otto Butler, Bill Tipton, W. T. Pickett and the following guests: Mesdames Ray Steele, Harmon Howze and George Weiss.

Mrs. Arthur Nunn returned this week from Moran after taking her mother, Mrs. C. H. Mashburn, to her home there. Mrs. Mashburn had visited several weeks here with her daughter and family.

New PTA Officers Installed May 3

The final meeting of the West Ward Parent-Teachers Association was held Thursday, May 3, at 3:45 p. m., in the junior high school auditorium. Mrs. Jack Griggs, program chairman, introduced Mrs. Frank Wier, who installed the new officers for the next current term.

Officers installed were: Mrs. Tess Fulfer, president; Mrs. Lal Copeland, first vice-president; Mrs. R. D. Shewmake, second vice-president; and Mrs. Carr Austin, secretary.

Mrs. V. L. Patterson, district vice-president, gave a report on the conference held recently in Lockney.

Mrs. Ernest Latham gave a summary of the year's programs and projects.

Mrs. Jack Hamilton, outgoing president, was presented a past president's pin by the junior high school principal, O. B. Stamper. Mrs. Hamilton expressed her thanks to her committees for their co-operation in making her term successful.

Mrs. Vera Boyd's room won the most served, and Mrs. George O'Neal served refreshments at the social hour.

Bowlin-Goings Vows Read in New Mexico

Miss Virgie Lee Bowlin, daughter of the late Mr. and Mrs. J. W. Bowlin of Meadow, and Lonnie Goings of Tatum, N. M., were united in marriage May 1 at Portales, N. M.

The bride wore a navy blue dress with white accessories.

Following the wedding ceremony, a wedding supper was given by Mr. and Mrs. B. D. Bowlin in their home near Brownfield.

Mrs. Goings is employed as a beautician at Viola's Beauty Box, and he is with the Port of Entry at Tatum.

Gee Gee's Chit Chat

I didn't get my head caved in over it, but it's just because I haven't seen Shag so he could. I mean that I forgot to give Shag Bynum a little write-up about his moving his barber shop from next door to the Fair Store to next door to the Western Auto Store last week. Well, Shag has a really nice, neat, bright, airy place over on West Broadway now, so when your old whiskers get to drooping into your soup and your hair gets to falling into your eyes, go over and let Shag or one of his five boys work you over. Sorry, Shag, that I missed you, but accidents will happen, I reckon.

Formal opening of the new South Plains Health Unit is tentatively set for May 24, and it should be a dilly. State Health Officer George W. Cox will be here to make the main address, and the opening will be held from 2:30 p. m. until 7:30 p. m., complete with refreshments. The public is, of course, invited and urged to attend and take part in the formal opening of their health unit. We are extremely fortunate in having this completely staffed and equipped unit in Brownfield, and I hope all of you appreciate it.

Well, it's getting time for rodeos to begin all over the territory. I guess one of the first to be held in the area is the Tahoka Jaycee rodeo, to be held this weekend. The stock is to be furnished by "Goat" Mayo, and should really be salty. Make your plans to attend the Tahoka Jaycee rodeo this weekend.

Speaking of attending things, you may or may not know that every Monday night from 8 p. m.

until 8:30 p. m. there is a big party for Brownfield youths at the Community Drug Store on the Seagraves highway. The kids have a lot of fun recording their programs and playing them back, and all the kids in the county are invited. Come on kids! Make your Monday night dates at the Community.

Sonny's Feed Store is fattening up another Beautena and a big birthday party will be held for her June 2. The calf, which is being fed strictly on Purina feeds, will be given away to some lucky person following the birthday party. For further information concerning Beautena, visit Sonny's Feed Store and get the particulars.

Be sure to watch future issues of the Herald containing Henry Chisholm's Grocery ads. "Scotties Are Coming."

After this week and until about July 1, Mrs. Bill Williams (Marge) will be pinch-hitting for old Gee Gee. Not to be outdone by Old He, I, too have the traveling fever, and, by the time you read this I should be half-way to Fort Knox, Ky. The captain will attend a special school in Fort Knox, and I hope to put the Privitts back on the gold standard.

So, while I'm away, please call Marge and give her all the gory details concerning your socials, weddings, company, and all other earth-shaking news that you think of. And if you'll be sweet to her while I'm gone, I'll be sweet to you when I return.

I'll be back in time to give you the devil for letting your little offspring shoot fireworks on July 4th.

Happy Mother's Day to, not only Bobolink, but to mothers all over the nation!

Mr. and Mrs. Durwood R. Moorhead and Larry of Estelline spent the past weekend visiting with his parents, Mr. and Mrs. R. D. Moorhead.

Mr. and Mrs. Bob Corley of Lubbock visited Sunday night with Mr. and Mrs. Seth Martin.

Mrs. Dan Davis and daughter, Nancy Lou, of Amarillo were guests in the home of Mrs. Elsie Cleveland the past week. Sammy and Kenneth Lee Kendrick accompanied them home and returned Sunday.

Mr. and Mrs. Lee O. Allen and Troy Noel of Plainview have returned from a ten-day vacation in Hot Springs, N. M.

For a new vegetable combination add cooked green peas to cooked new potatoes and serve in a cream sauce. Sprinkle with paprika or a little diced canned pimiento for color.

Herald Want Ads Get Results.

ENGAGEMENT OF MISS LEWALLEN REVEALED

Mr. and Mrs. V. M. Lewallen are announcing the engagement and approaching marriage of their daughter, Bonnie, to Don Albert Ethington, son of Mrs. Mary Ethington of Big Spring.

The ceremony will be performed Saturday, June 16.

Miss Lewallen attended Brownfield high school and is employed at Treadaway-Daniell Hospital. The prospective groom attended schools in California and is employed with Republic Drilling Company.

The couple plan to live in Brownfield following their marriage.

FROZEN VEGETABLES IS PROGRAM THEME

The Johnson Home Demonstration Club met May 1 in the home of Mrs. B. M. Tuttle, with nine members and two visitors present.

Miss Helen Dunlap, county HD agent, gave a very interesting program on freezing vegetables.

Mrs. Frank Tuttle will be hostess for the next meeting, which will be held May 15.

Sprightly Colors Dance on Spring Carpet Scene

White Synthetic Yarns Dye Beautifully

BY EDNA MILES

WHETHER you're living in a new-as-tomorrow dream home or keeping house with hand-me-downs from somebody's attic, there's a carpet this season to suit you.

Either modern or traditional furnishings take on a bright outlook when complemented by the fresh floral pattern of this carpet.

New yarns and new weaves have made it possible for carpet manufacturers to offer an extensive variety of patterns and colors. Particularly important this spring are synthetic fibers, which are being used in 100 per cent nylon or rayon carpets, in various combinations with wool, or as plastic reinforcements.

Since the synthetic yarns are pure-white like cotton and take dyes equally well, the same clear fresh colors are available in these carpets that homemakers have come to expect of cotton rugs.

One interesting all-rayon carpet features a new weave of vari-length interlocking loops. This makes for a heavy, luxurious pile that offers eye-interest as well as foot-comfort. It is available in four color combinations—all of which are in the

This young woman attends to her household mending, lounging in comfort with feet outstretched upon a luxurious, deep-pile carpet of 100 per cent rayon.

soft muted tones so popular this year.

The textured effect which contributes so much to the beauty of this carpet is one that is achieved in various ways in many new designs. Both weave and pattern are directed toward converting today's carpet from the flat, plain floor-covering it once was into a handsome room accent that beguiles the eye.

Even florals have undergone a change. If you like flowers

abloom on your floors all year long, you need not duplicate grandmother's parlor-rug in your living room. One design that fits particularly well with today's easy living scatters its blossoms around in "beds," thereby avoiding the monotony found in some repeat-pattern florals.

This fresh design by noted American designer Edward Wormley adds a note of bright cheer to bedroom, dining room or wherever you wish to use it.

HUGE AMOUNT WILL BE SPENT FOR GINS ON THE SOUTH PLAINS

By BOB FENLEY
Lubbock Morning Avalanche
LUBBOCK, Tex., May 4.—(AP)—Ginners are getting ready for an estimated 1,865,000 bale cotton crop in the South Plains this year.

There are plans to spend nearly five million dollars for about 16 complete new gins, and new equipment for 12 existing gins.

Most cotton men temper their estimates of the South Plains crop—also whether all gins and equipment will be built according to contract. With an "if it rains."

There are few more than 300 gins already on the South Plains. Sixteen new ones are under con-

tract. Several of these are being built. Others will be built as soon as materials are delivered.

Salesmen of gin equipment report that about \$1,900,000 will be spent for new gins.

They say also that the adding of new gin units and fill-in machines to present gins will be an investment of \$2,995,000.

Eleven new outfits and buildings to house them will be added to present gins. In each case they will about double capacity of the gin. Including buildings, each will cost about as much as a new gin.

Equipment salesmen say more money—\$4,900,000—may be invested in South Plains gins this

Texas Home Gardens Show Increase

The number of home gardens in Texas is increasing this spring in response to the expanded garden and food preservation program announced by Secretary of Agriculture Brannan.

J. J. Lucy, Rains County agricultural agent, reports that interest in gardening in that area is high as the prices of fresh and canned vegetables continue to rise.

He expects the number of gardens in Rains County to be twice the average for the last four or five years.

Garden seed sales from local seed stores in Cooke County have been unusually large, according to County Agent B. T. Haws.

J. E. Hutchison, associate extension horticulturist of A. & M. College, points out that April is a good month for planting squash, cucumbers, pole beans, bush type lima beans, cantaloupes, peas, okra, spinach, eggplant and watermelons.

Hutchison urges all Texas families to participate in the expanded home garden program. Home gardens, he adds, should prove beneficial in three ways. They provide a better balanced diet for families. They help stretch the family food budget. And they provide an outlet for satisfying exercise—thus benefiting health and morale.

A NEW ENEMY IN KOREA—Spring in Korea constitutes a new opponent for UN forces battling the Communists. The rainy season has turned many roads into rivers of mud, making travel difficult for heavy vehicles. The tank, above, with its nose submerged, is waiting to be towed to more solid ground.

Rural Women's Organization

More than 41000 organized Texas rural women in 185 counties had opportunity to study and use homemaking information originating with the A. & M. College Extension Service. This information was provided by county home demonstration agents to the 41,282 members of 2,317 community home demonstration clubs who in turn gave it to 344,753 other families. Clubs meet 12 to 24 times yearly for practical demonstrations of homemaking methods and discussion of current topics.

The rural women, through 181 county home demonstration councils in the state, advised with home demonstration agents in planning their programs, carrying homemaking information to non-club members, and learning how to function in organizations to

get homemaking information. At the same time they headed public support, financial and otherwise, for Extension work in counties. An example was obtaining salary increases for home demonstration work in six of the 13 counties in one Extension district largely through the vigorous cooperation of councils.

Subject matter leaders who attended 2,983 training meetings during the year repeated the training at 15,446 meetings of local home demonstration clubs. Six

year than in any other season. They do not expect the heavy cotton year of 1949.

They say many farmers are turning to cotton this year because of a poor wheat crop. The change from wheat to cotton is most marked in the northwestern part of the South Plains. In this section insects and drought have cut into wheat.

New cottonseed oil milling facilities will be built or added in Lubbock. The Lubbock Cotton Oil company plans a new oil extracting unit. Already under construction at the Plains cooperative oil mill in Lubbock is a new solvent plant.

All gins under contract ordered machinery before supplies shut down. Salesmen say no new equipment has been available since the first part of the year. Most of the materials for gin buildings have been received or ordered.

Legal Notice
No. 649
In the County Court of Terry County, Texas
Estate of Ronnie Dell Tyler, A Minor
To All Persons Interested in the Above Minor or His Estate:
You are notified that I have on the 2nd day of May, 1951, filed with the County Clerk of Terry County, Texas, an application under oath for authority to make an oil, gas and mineral lease on that certain real estate belonging to such minor, described as follows:
An undivided 3/320th interest in the oil, gas and other minerals in, on, under and that may be produced from the North Half of Section 28, Block O, H. & O. B. Ry. Co. Survey in Terry and Lynn Counties, Texas;
that H. R. Winston, Judge of the County Court of Terry County, Texas, on the 2nd day of May, 1951, duly entered his order designating the 21st day of May, 1951, at 10:00 A. M. in the County Court room in the courthouse of Terry County, Texas, as the time and place when and where such application would be heard and that such application will be heard at such time and place.
GRACE J. TYLER WRIGHT, Guardian of the Person and Estate of Ronnie Dell Tyler, a Minor. 42c

It's the only new-type engine in any "new car"!

Chrysler FirePower Finest engine ever put in an automobile

180 HORSEPOWER

The new Chrysler Hemispherical Combustion Chamber, heart of the finest car engine built today. In this dome-topped area, you see the only ideal combustion chamber... the only way to develop full combustion, full compression, full work and value from every drop of fuel!

With so many engines claiming newness... how can we call FirePower the only new type engine today? The answer's very simple, and one you ought to know before you invest in a car. The fact is that engine "improvements" happen every year... but a basically new motor car engine is a very rare thing. And FirePower is the most basic new development since Chrysler introduced high-compression in 1924!

To get to the heart of the matter, just go to the heart of the engine... the combustion chamber where the spark fires gas into power. Here Chrysler brings you something no car has had till now... a Hemispherical combustion chamber... the only perfect and ideal combustion chamber in any passenger car. Here the same amount of gasoline delivers you

far more energy than it could in any other car. What this means to the man at FirePower's wheel is impossible to tell you till you take that wheel yourself. FirePower's 180-horsepower can outperform any other engine on the road, even on regular grade gas.

Remember, too, that Chrysler now offers the wondrous road-ease of new Oriflow shock absorbers with twice the shock-absorbing power of any others... and the exclusive safety and delight of Hydraguide power steering® which takes four-fifths of the work out of steering! You can learn for yourself how Chrysler has changed your motoring life by seeing your Chrysler dealer now!

®HYDRAGUIDE regular on Crown Imperials, optional at extra cost on all New Yorker and Imperial models.

RECEPTION HELD TUESDAY NIGHT HONORED MR. AND MRS. NELSON

Honoring Mr. and Mrs. Gerald Nelson, who have resigned and are leaving for a new field, the Junior Adult Department assisted by Gladys Moorhead, Mesdames Byron Cabiness, Walter Skyles and Grady Goodpasture, gave a reception at the First Baptist Church Tuesday evening from 8 until 10 o'clock. Mrs. T. G. Sexton was general chairman.

The refreshment table was decorated with iris and pink tapers. Miss Virginia Chambliss poured, and the hostesses assisted in serving.

Clarence Powell was program director. Musical selections and a reading were given by Mrs. James Fitzgerald. Mrs. Bill Cope and Harold Mulkey sang a duet, and

Mrs. Billy Moore played piano selections during the serving period. Mrs. Andrew Cooper was refreshment chairman and Mrs. I. M. Bailey was decorations chairman.

The guests of honor were presented with many gifts, including a service of eight in sterling silver and crystal.

Delphian Club Has Call Meeting May 9

The Delphian Study Club had a call meeting Wednesday, May 9 at 9:30 a. m. at the Seleta Jane Brownfield Clubhouse.

The purpose of the meeting was to fill certain officer vacancies. Mrs. Lewis Simmonds presided as president.

The following officers were elected: Mrs. Crawford Burrows, president; Mrs. J. O. Burnett, Jr., first vice-president; Mrs. Fred Vandell, treasurer; and Mrs. Martin Line, corresponding secretary.

These officers will be installed at the next regular meeting of the club. Fourteen members attended.

"Petroleum Peggy" Says:

As every woman knows, one of the hardest jobs in good grooming is to keep our hands looking and feeling soft and feminine. Dish washing, house cleaning and other jobs, plus the effects of cold weather, all act to dry out, redden and chap hands. One of the reasons for this is that our hands have fewer oil glands than other parts of the body, and the palms have none at all. Thus, they dry out quickly and easily. Here are some practical suggestions you will find helpful for hand care.

Wash your hands in a bowl of moderately warm water with a bland soap. Scrub them well with a nail brush, rinse carefully, and dry completely. Follow each washing with a quick hand lotion or cream treatment to replace lost natural oils. Give your forearms and elbows a treatment with lotion, too. With short sleeves in fashion, this is important.

Use gloves for dishwashing and long-handled brushes or mops for various chores to save wear and tear. Exercising your hands by wringing them or shaking from the wrist will stimulate circulation. The crowning glory of your hands is their fingernails. Properly cared for, they add immeasurably to your appearance. Poorly-applied nail polish, however, does more harm than good. Best results with colored polish are obtained by applying over an untinted foundation. Two coats will give more depth of color and wear longer. Don't apply the second before the first is dry, and give both coats time to dry thoroughly. This is insurance against wearing off quickly and against chipping. After normal wear, small nicks may be retouched, but for sizable ones remove the polish and start over.

One of our greatest allies in keeping hands lovely is rather unusual. It's petroleum. Hand lotions, anti-perspirants, nail polishes—as well as many other familiar cosmetics—are made in part from oil-derived products. Nail polish removers also contain a pe-

roleum product. Oil not only keeps us warm and powers our automobiles, but it helps keep us feminine and beautiful.

Ex-Student Association Elects Officers

Pictured above are newly elected officers of the Ex-Student Association of Wayland College. From left to right, they are Neil Record of Tulsa, president; Harvey Wolfe of Amarillo, vice-president; and Ruby Bruton of Plainview, secretary.

MRS. POWELL HOSTESS TO S. S. CLASS

The Ruth Sunday School class of the First Baptist Church had a coffee in the home of Mrs. Clarence Powell of 1213 East Hill, Thursday, May 9 at 10 a. m.

Members present were: Mesdames Gerald Nelson, C. W. Denison, R. D. Shewmake, Jr., A. J. Johnson, Ted Odrum, Harold Denton, Hubert Colbert, J. B. Ray, Havest Sherrod, W. F. Tipton, Glyn Bilbrer, Lester Buford, Winnie Murphy, Robert Darnell, J. L. Fitzgerald, teacher, J. J. Morgenson, guest and the hostess.

NEEDMORE HD CLUB TO PRESENT SHOW

The Needmore Home Demonstration Club is presenting "Crazy to Reduce" at the Meadow High School May 18 at 8 p. m.

Miss Maude Alice Zorns is directing the skit.

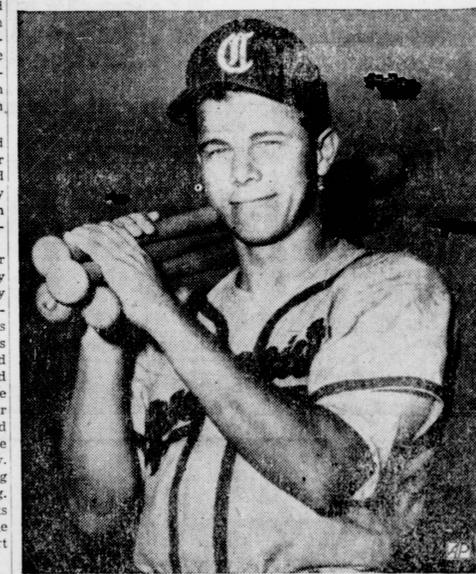

A style show will be held in connection with the play. The following men will participate: Harry Cornelius, Doc Settle, Lee Bartlett, Norvel Hulse, D. C. Flowers, Loyd McCallister, Grady Davis, Alvis Reece, Lee Holden, J. W. Smith, Curtis Hulse, Jewell Bell, Lenore Easterwood and Ralph Spain.

Youngsters like fruit-flavored gelatin cut into cubes then sprinkled with graham cracker crumbs.

Oil not only keeps us warm and powers our automobiles, but it helps keep us feminine and beautiful.

Star in New Role

Former Southern Methodist University football star Kyle Rote limbers up with a handful of bats for a turn at the plate with Corpus Christi of the Class B Gulf Coast Baseball League. He is under contract for an estimated \$20,000 a year with the New York Giants professional football team, but he decided to play baseball while waiting for the football season. Rote's potent bat has boosted him from a pinch hitter to a regular spot in the outfield. (AP Photo).

Texas Women Study Blight of Polio

Leaders of Texas women confer in Austin this week about a blight that has recently magnified their family burden.

It is the annual Polio Awareness rally at which members of religious, social and professional groups gain new inspiration and guidance for any fresh infantile paralysis emergencies.

The importance of the gathering is indicated by the fact that Texas has had more than its share of polio during the last three years, according to Mrs. R. O. Pearson of Abilene, Texas State Advisor on Women's Activities for The National Foundation for Infantile Paralysis.

The Foundation itself takes a powerful hand in the discussions, this time primarily through the presence of Miss Elaine Whitelaw of New York City, Director of the National Women's Division of the NFIP.

Miss Whitelaw's vitality and enthusiasm, coupled with native intelligence and wide experience in the organized fight against infantile paralysis, are known to women's groups throughout the nation.

Under her direction (since 1944) a corps of distinguished women are serving as State Advisors on Women's Activities, and working closely with women's clubs, as well as with influential individuals in their respective states.

Miss Whitelaw gives the national story at this week's conference; Mrs. R. O. Pearson, the Texas story, and Dr. W. A. Spencer of Houston, medical director of the Southwestern Respiratory Center, gives the scientists' slant.

The concluding place on the program is taken by Mrs. Rodney Toup, State Advisor on NFIP Women's Activities for Louisiana.

Hospital News

The following are patients in the Treadaway-Daniell Hospital:

Surgical: Mrs. J. W. Lucas, Mrs. W. H. Brown, Jr., Mrs. L. G. Wilson, Mrs. J. H. Riggs, Joyce D. Kelley, Mrs. Joe Boultinghouse, Peter Green, Miss Evelyn Stephens, Mrs. Rex Owens.

Medical: Mrs. G. C. Aschenbeck, Peggy Sue Briscoe, Mrs. J. A. Rushing, Mrs. C. H. Martin, Earl Montgomery, Frank Franco. Accident: M. V. Stone, J. R. Garrison.

NELSON JEWELRY LEADS JR. LEAGUE

The results of the games played this week in the Junior softball league are: Nelson Jewelry 3, and is leading the league. Griggs-Goble won 3 and lost 1 and is in second place.

In the Men's softball league Primm Drug beat Foster Gin. Pickert, for Primm Drug pitched a one-hit ball game Monday night.

Tuesday night Demolay beat Phillips 66; Goodpasture Grain won Tuesday night defeating Palace Laundry 15-5 in a practice game.

ANNIVERSARY DINNER HONORS MRS. STINNETT

Mr. and Mrs. Carl Lewis entertained with a dinner in their home Thursday night, May 3, honoring Mr. and Mrs. G. G. Stinnett on their fifth wedding anniversary.

Guests were: Mr. and Mrs. Claudie Gore, Mr. and Mrs. Alfred Gore, Mr. and Mrs. Jack Thomas, Miss Marcille Burleson, and Mr. Noel Reed.

BROTHERHOOD WILL MEET AT MEADOW

The Brownfield Association of Baptist Brotherhood will meet at the First Baptist Church in Meadow Tuesday, May 15, at 5 p. m.

Following a supper, a song service will be led by Bill Webb. Bill Reddell of Tahoka will give announcements and recognize those present. A violin solo will be given by Herron Nelson, and Alton Webb will sing a solo.

The evening's message will be brought by Rev. C. A. Kennedy, pastor of the First Baptist Church at Abernathy; a returned missionary from Africa.

Lester Buford of Brownfield, president of the group, plans to take a large group from here to the meeting.

When you are using a heat-resistant oven-glass baking dish, remember never to put the hot dish in a wet sink to cool; the sudden cooling in one spot may cause breakage.

The Drakenburg mountain chain in Africa rises in places to over 11,000 feet.

How to Make Sliced Ham Go Farther

BY EDNA MILES

HERE'S a wonderfully delicious way of making sliced smoked ham go farther. Sliced pineapple, raisins and parsley all do their part in this new recipe.

Ham With Dressing

Two slices smoked ham, 1/2 inch thick (2 pounds), 9 slices pineapple, 30 whole cloves, parsley.

Dressing: 4 cups soft bread crumbs, 1/2 cup raisins, 1/4 cup brown sugar, 1 teaspoon dry mustard, 1/4 cup melted butter.

Mix bread crumbs, raisins, sugar and mustard together; pour butter evenly over mixture. Place one slice of ham in a three-quart heat-resistant glass utility dish. Spread dressing lightly over the slice. Top with second slice of ham. Stick cloves in the fat around edge. Cut one pineapple slice into wedges to make flowers petals for the top of the ham. Place two pineapple slices, one on top of the other, in each corner of the dish. Bake for one hour in moderate oven, 325 degrees F. Garnish with parsley and serve.

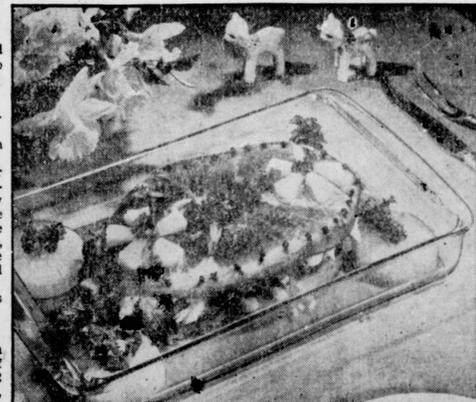

The following recipes will add something new to your menus without running up the cost:

Spanish Potatoes

Saute 1 tablespoon minced onion, 2 tablespoons chopped green pepper, and 2 tablespoons of chopped pimiento in 4 tablespoons of oil or cooking fat until the mixture is light brown. Now add 2 cups of cold boiled, sliced potatoes, and 1/2 cup of cold cooked ham, chopped. For seasoning, add 1/2 teaspoon of paprika along with 1 teaspoon of salt. Cook the mixture until it is heated through.

Hash Pickle Puff Pie (4 servings)

One-pound can corned-beef hash, 2 eggs, 1/2 teaspoon salt, freshly ground pepper, 2 teaspoons grated onion, 2 tablespoons chopped fresh cucumber pickles. Empty corned-beef hash into bowl; mash thoroughly. Separate

egg yolks from whites; beat yolks until light. Add yolks to hash mixture and season with salt, pepper, onion and pickles. Beat egg whites until stiff; fold into hash mixture. Put mixture into 8-inch piepan and bake in hot oven (400 degrees F.) for 20 minutes, or until brown. Cut into wedges. Serve with tomato sauce. Tomato Sauce: In a small saucepan, combine an 8-ounce can tomato sauce, 1/2 teaspoon Worcestershire sauce and 1/2 teaspoon celery salt. Heat and serve in a small bowl.

UNION NEWS

Miss Helen Dunlap met with the Union Home Demonstration Club May 2 and gave a demonstration on packing and storing Frozen Foods. Seventeen members and three visitors were present. The visitors were Mrs. Lee Shults of Brownfield, Mrs. Justie Walls and Mrs. R. F. Jackson of Lamesa. There was one new member, Mrs. J. C. Titus.

Mr. and Mrs. Bill Holliday and sons of Welch spent Sunday with Mr. and Mrs. Qlan Herring.

Mrs. Dock Benton has returned home after an extended visit with relatives in California.

The grade school softball team won second place in the tournament at Brownfield, Saturday.

Mrs. V. A. Herring had as her guest over the weekend her mother, Mrs. Edna Arnold, of Shallowater.

Mr. and Mrs. Brewer of Granite, Okla., spent the weekend with Mr. and Mrs. A. B. Cornett.

The third, fourth, and fifth grades, with their teachers, Mrs. Kerr and Mrs. Herring, and sev-

eral mothers, took a train ride to Seagraves, Friday.

Mr. and Mrs. Lorell Marchman and Diane spent Sunday with Mr. and Mrs. Carroll Shults.

Mr. and Mrs. Munn of Tahoka visited in the Frank Sargent home Sunday.

Mr. and Mrs. Winn of Big Spring spent Sunday with Mr. and Mrs. Sam Adair and family.

Mr. and Mrs. J. C. Herring and family spent the weekend visiting Mr. and Mrs. Billie Gilbert and Mr. and Mrs. Woodie Askew of Midland.

Fred Jackson and his granddaughter, Charlotte Champion, of Midland, spent the weekend with Mr. and Mrs. W. B. Cheatham.

Derrell Lewis preached at Welch, Sunday.

Roy Baker preached at the Union Baptist Church Sunday night.

Mr. Davis of Westbrook spent the past weekend with Mr. and Mrs. Henry Dyer and family.

Mr. and Mrs. C. A. Russell with Mrs. R. F. Jackson of Lamesa are visiting Mr. and Mrs. Brown in

The Oil News Is Very Brief This Week

Admittedly, so far as we are concerned, the oil news hereabouts will be very brief this week. In fact, the oil itself is sorter brief. One or two wells have been abandoned—plugged—deserted, since we tried to man this section of this great religious weekly. But some still think there is more oil in some of the plugged wells than is given out. We wouldn't know.

For instance, one man cited to us this week that one of the wells in the Wellman area that apparently was a duster, and the general public allowed to draw such a conclusion, finally came in as a 2,000-barrel well. We have heard others who have had oil field experience, assert that the majors are never in any hurry to develop a new field.

But why, ask one, did the Ranger and Snyder fields develop so fast, just to mention two. We have heard that some driller let a well get away from them at Ranger. Also a driller accepted a sizeable fee from ranchmen at Hobbs, N. M., to bring it in, and that there were originally more independent than major drillers at Snyder.

Then some are wondering if our fields are so limited why major companies keep coming in for supply houses and district headquarters. Oil companies have plenty of money, but none to throw away. Anyway, three rigs are still on the job in the South Brownfield pool, and about the same number at Wellman and the Adair fields.

Rumors were rife on the streets Tuesday that the Lowe well five miles northeast of town would be a weak producer. We have not checked on this street rumor.

Meadow News

Mr. and Mrs. Pearce Warren were visitors in the J. H. Gober home Friday night.

Mr. and Mrs. I. W. Walker attended the funeral of a friend in Floydada, Saturday.

Mr. and Mrs. Edd Ashburn spent the weekend visiting relatives at Tuxedo, Stamford, Abilene and Sweetwater.

Mrs. Saffell of Lubbock visited her son, Leon Saffell and family last Monday.

Mr. and Mrs. J. E. Peek spent the weekend in Stamford visiting Mrs. Peek's son, Guy Harvick and family. They attended the cemetery working at Fairview, Saturday, and visited Mrs. Peek's sister, Mrs. Hattie Harvick of Hamlin and her niece, Mrs. Hardie Hewett and family.

Mr. and Mrs. R. L. Brown of Lubbock and Mr. and Mrs. J. H. Gober and sons, Roy and Ray visited in Lovington, N. M., Sunday with Mr. and Mrs. James Selmon.

Mr. and Mrs. C. S. Carroll and daughter, Linda, visited in the L.

El Paso.

Mrs. C. E. Scott of Tupelo, Okla., is visiting Mr. and Mrs. L. A. Scott and Mr. and Mrs. Carroll Scott this week.

REMEMBER MOTHER MOTHER'S DAY, MAY 13 WITH FLOWERS

A LOOK AT YESTERDAY—With smiling faces, and eyes shining, Gloria Swanson, and Conrad Nagel, at right, took a trip into their memories recently as they viewed a film in which they co-starred in 1922. "The Impossible Mrs. Bellew." The two are shown at left in a high spot of the silent movie, where a clergyman tried to give counsel to the lovers of 29 years ago.

P. Carroll home Friday evening.

Several of the ladies of the Methodist Church attended a district meeting at the Methodist Church in Levelland, Tuesday.

STILL LIFE

The artist kissed his model. "I bet you do that to all your models," she said.

"No," he replied. "You are the first." "How many have you had?" "Four," he answered. "A rose, an onion, a banana and you." —Santa Fe Magazine.

From early times China's coast was subject to raids from Japan.

SOME JESTS AMONG THE HERALD READERS

County Treasurer Mrs. O. L. Jones was over last week to renew for her paper, but failed to sign the check. She and the Mrs. got to chewing the rag, and she just forgot to sign her name. "He that is not guilty, let him cast the first stone."

Then there is that long time subscriber, Dr. Henry Hansburger, of Columbus, Ohio, who got in under the wire the past week. Indeed the doctor is the second generation of his family to subscribe, his father having taken the paper as long as he lived.

By the way, the doctor says he enjoys the stuff we write and keep it up. And that it will not be too long till he comes down to see us, and of course his property in Terry. Hope we have a rain before that time.

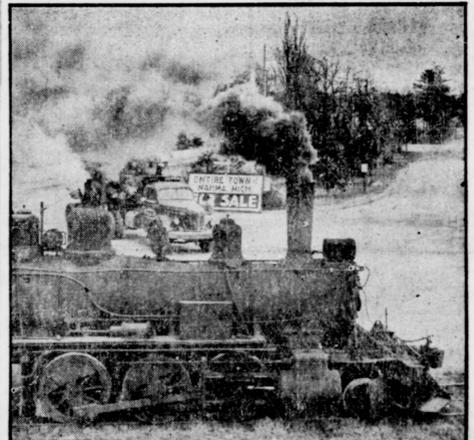

A new reader is Mrs. Evelyn Hartman out at Seaside, Calif. Here it comes Mr. H. and hope you like the old rag.

We accidentally treated the Seminole Sentinel shamefully, and apologize here and now. We also

Wheat

The wheat in this picture is near the knees. It is growing near Wichita Falls, Texas, where the National Wheat Harvest Festival will be held (May 14-19). The girls? Oh, they are Pat Moore, Pat Green and Pat Henderson. (AP Photo).

FOR SALE: ONE TOWN—Here's your chance to complete an unusual real estate deal. As the sign says, the town of Nahma, Mich., worth about \$2,500,000, is on the block for 10 cents on the dollar. Price includes sawmill, railroad—engine above—and harbor with docks. The Bay de Noquet Lumber Co., owners of the town, are pulling out because there's no more timber to cut.

Old West's Rustler Didn't Die, He Just Changed Tactics

By WILBUR MARTIN
 FORT WORTH, Texas, May 11.—(AP)—The cattle rustler didn't die when barbed wire lamed the wild west and left the open range a memory.
 He's still there. His tools today are a pair of pliers and a truck.

The two men who rustled 17 head of Harry Hardin's cattle near Miami, Texas, were bold and brazen.
 Their cattle-laden truck stuck in the mud on Hardin's ranch. They waited, until daylight, then fetched a wrecker from town to pull them out. They played to the hilt the role of disgusted ranchers.

The risk is great but the stakes are high. Look at the market prices for cattle on the financial pages of any newspaper. Beef on the hoof is going for as high as \$46 a hundred pounds.

The oldtime rustler might aim for a herd of 100 or more cattle. But he was lucky if he got \$20 a head.

It's easy to snap barbed wire with a pair of pliers. You can load two, three, four head of cattle in a pickup truck quickly, quietly.

There are a few things the present rustler faces that plagued his counterpart in the old west. One is brands. The other is the range detective.

They call them "field-inspectors" now and they, too, have traded their horses for horsepower.

A. T. Jeffries, of Clarendon, Texas, found the thieves who stole Harry Hardin's cattle. He found the cattle at Olathe, Kansas. The trail led to Springfield, Missouri, where they had been sold, then resold.

To find the thieves—and clear up \$10,000 worth of rustling in Texas, Oklahoma, and Missouri—was a check-and-double check operation that took the cooperation of law officers at Sayre, Okla., Cordell, Okla., and Miami, Texas and Southwestern Cattle Raisers' Association has 28 field inspectors, and brand inspectors at more than a dozen major markets.

"They do a good job," says Ernest Duke, assistant secretary of the association.

OLD INN GETS REPRIEVE

LONDON.—(AP)—The George and Vulture Inn, mentioned several times by Charles Dickens in Pickwick Papers, has won a stay of execution. The Court of Common Council has rejected a proposal to turn the old hostelry into offices.

The inn is in business and financial center of London, where the council voted, there already is a shortage of eating and drinking places.
 The George and Vulture is on the site of a 14th century inn known as the George. The vulture got in later.

If Your Diet Is Deficient in Vitamin B this great new formula can help you build

RICH RED BLOOD

...help you curb diet deficiency symptoms like

- UNDERWEIGHT**
- WEARINESS**
- CONSTIPATION**
- FATIGUE**
- BACKACHE**
- 'NERVES'**

Do you sometimes wonder what in the world can be the matter with you? You know that you have no diseases, no infections... yet you're always "out" on your feet, constantly over-fatigued, nervous, weak, irritable, cheerless. (This is especially true of older people.) Well, scientists have learned that such a condition may be due to the simple fact that you do not get enough B-Vitamins in your diet.

BEXEL SPECIAL FORMULA MAY DO WONDERS FOR YOU

Naturally it is wise to consult your doctor, since such a condition may be due to other causes. But if mild Vitamin-B and Iron deficiencies are the cause of your bodily distress,

COMMUNICABLE DISEASES IN TERRY-YOAKUM

For the week ending April 21, the Texas State Health Department reported the following number of communicable diseases in Terry county:
 Gonorrhea 2, influenza 19, mumps 1, pneumonia 6, syphilis 1, and whooping cough 1.
 For the same period Yoakum county reported, chickenpox 1, influenza 10, and measles 4.

G. I. QUESTIONS and ANSWERS

Q—I want to take a GI Bill course in accounting, but the only one available doesn't start until the Fall of 1951. Can I enroll even though the July 25 cut-off date—which applies to me—will have passed?

A—No. You actually must be enrolled in a GI Bill course by the July 25 cut-off date, except for interruptions for reasons beyond your control. You may not enroll for the first time after that date.

Q—I interrupted my GI Bill training to enlist in the Army. Does VA consider an enlistment an interruption for a reason beyond my control? Will I be allowed to continue training after my discharge?

A—Enlistment in the armed forces is considered an interruption beyond your control. Therefore you will be permitted to go ahead with your GI Bill training after your discharge—provided, of course, that you are discharged prior to the termination date for the GI Bill program.

Q—I am receiving compensation for a service-connected disability. Recently I lost my sight as a result of an automobile accident. Will VA provide me with a seeing-eye dog and electronic and mechanical equipment for the blind?

A—Yes. Blindness need not be service-connected so long as you are entitled to receive compensation for any service-connected disability.

Q—I have just entered military service, and, because of my reduced income, I no longer can meet payments on my \$5,000 commercial life insurance policy. Is there any help I can get to hold my policy?

A—Under the Soldiers' and Sailors' Civil Relief Act, the VA may take over your payments while you are in service and, if necessary, for two years afterwards. But after your discharge, you will have to repay VA for all the payments it made for you.

TEN CARS REGISTERED LAST WEEK

Ten new cars were registered last week with Tax Assessor-Collector Herbert Chesshir week ending April 28, as follows:

- W. W. Marchbanks, Buick; E. J. Hubbard, Ford; B. C. Frost, DeSoto; Howard E. Hunt, Ford; Milton L. Smith, Ford.
- Joe Havener, Jr., Mercury; Geo. Martin, Oldsmobile; Harris Lowe, Buick; LeRoy Christian, Ford and R. B. Jettin, Chevrolet.

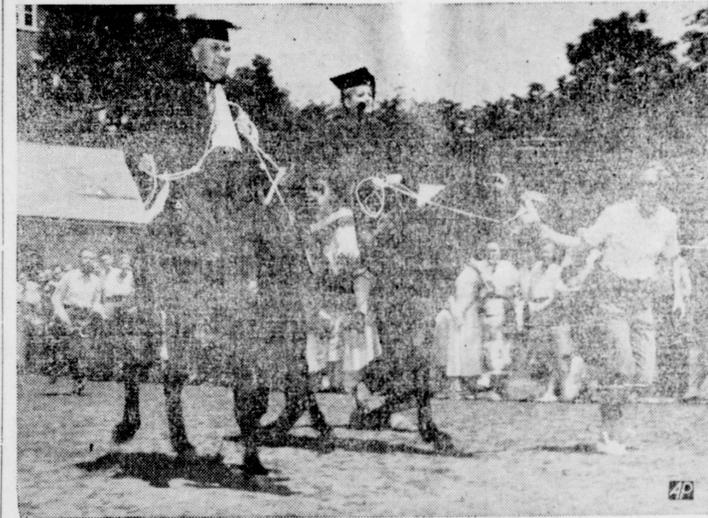

Hectic Texas Days Described In Book

RANGER, Tex.—(AP)—An atmosphere of "mud, murder, and madness," characterized the great Ranger oil rush of more than 30 years ago. It is described in Boyce House's book "Roaring Ranger, The World's Biggest Boom," recently published by Naylor Company of San Antonio. Corn liquor was a dollar a drink. A hotel cot in a hallway cost \$5 a night. The field's biggest well, the Norwood gusher, produced \$35,000 worth of oil in one day on a farm which had been bought for \$5 an acre 11 years before. A mule drowned in the mud of Main street.

Celebrities like Tex Rickard, Tex Beach, Jess Willard, and John Ringling played a part in the boom. House, author of 12 books, was a newspaperman in Ranger and nearby Eastland and Cisco for 10 years and writes from first hand experience.

SAMSON A HIT IN SINGAPORE
 SINGAPORE.—(AP)—Cecil B. De Mille's motion picture, "Samson and Delilah" broke all-time attendance records in the British crown colony. More than 120,000 people saw the film at Singapore theatre in five weeks.

Still Champion

The winner and still champion of the annual Baylor University donkey race is Dr. Lorena B. Stretch (right), dean of the Baylor School of Education in Waco. She defeated Baylor President W. R. White, riding the donkey at left. But Dr. Stretch had some help from Kay Mitchell (walking, extreme right). Dr. Stretch has been champion donkey rider since the event started in 1932 on Baylor's annual Play Day. (AP Photo).

What Was The Jaycee Show Barns Built For?

The writer was away during the calf show, and heard nothing about the squabble out at the show barns at the County Park until our return. And most of the talk we have heard since our return concerned just what the barns were built for. From what we could hear, a private riding club that keeps their horses out there, refused to vacate for the show.

So it all runs back to several years ago when the barns were built by the Junior Chamber of Commerce. Of course there were many other contributors to the building operation, perhaps many that now are using the sheds for stables. But if our memory doesn't fail us, the sole object of the building of the barns at that time was for the annual Jaycee Calf Show.

One farmer informed us since our return that he supposed that if there is a show next year, it will have to be held out in some pasture, which is very unlikely. For if such a stop has to be taken, there will be no calf or swine show to speak of.

If what we have been hearing is on the square, and until we know better, we shall have to believe it, some decision will have to be made between now and the Calf-Swine show in 1952 as to who will have use of the barn on the day or days the show runs.

No one can be more disappointed than the Herald that this matter had to come to light. But we believe that all parties concerned are big enough that the trouble can be settled satisfactorily to all. We hope so.

It was reported to us that there was not as many swine as last year, but perhaps more calves, and generally speaking the calves and pigs brought a better price than last year.

DON'T OLD HARRISON HAVE ANY CORN?

The Texas Liquor Control Board Inspectors in March reported the seizure of nine illicit stills.

With the stills, which had a cubic capacity of 465 gallons, Inspectors captured 830 gallons of mash and made eight arrests.

Fifteen and one-half gallons of moonshine liquor were destroyed. Two stills were taken in Titus county, two in Red River and one each in the following counties: Bowie, Cass, Wood, Smith and Shelby.

A 220-pound aquamarine is the largest gem ever found, says the National Geographic Society.

lieve it, some decision will have to be made between now and the Calf-Swine show in 1952 as to who will have use of the barn on the day or days the show runs.

No one can be more disappointed than the Herald that this matter had to come to light. But we believe that all parties concerned are big enough that the trouble can be settled satisfactorily to all. We hope so.

It was reported to us that there was not as many swine as last year, but perhaps more calves, and generally speaking the calves and pigs brought a better price than last year.

The Low Down From Hickory Grove

If the other guy's horse is stolen or his house burns down, we take note but it is minor and soon forgotten. But some time ago, for a change, a big N. Y. city editor, craving to be different or something, and instead of feeling compassion and then forgetting the whole thing, he said, "it served the guy right." Up to now, I am in the dark, says Henry. Patience, I says.

I have in mind this one particular city paper saying it saw nothing wrong in the Govt. being the Big Cheese in the TVA country where it ruthlessly took over and erased from the scene, with the help of congress, the individ-

ual outfits that risked their perspiration and cash in building there a kilowatt business.

And now what. At the recent convulse of editors in Washington, appalling evidence was bared showing that the UN and Washington were arrogantly conniving to keep various kinds of news from the papers. It depends on whose ox is gored. Until Govt. starts elbowing you personally the average voter down on Main Street does not get too excited or even hep to what sorry dish is cooking for him, himself. But if bad news could happen to a barber, a dentist, a housewife, or who—as we, without heed, leave the barn door unlocked.

Yours with the low down,
 JOE SERRA

ALL THE PROSPECTORS VAMOOSED LAST WEEK

Against one lone bewcomer last week, nine took off for greener pastures. This was an almost complete reversal of the week before, when a bunch of nineteen men, perhaps most of them with the Continental Oil Co., that came here to make district headquarters.

But they come and they go and the old world goes on, as usual. Anyway, we welcome the newcomers to Brownfield and hope they like. On the other hand, we hope those leaving have the best of the things of this life, and we enjoyed having you with us.

During last week there were no bogus checks so far as was heard, which is also some improvement. There were no marriage licenses issued, and no divorce suits filed.

The difference goes more than Skin-Deep

NOBODY wonders what you're driving when you roll by in this one.

In the 1951 line-up, its brand-new front-end styling stands out with a beauty all its own.

You're the proud owner of a Buick—and the whole world knows it.

But you—at the wheel—enjoy a long list of differences that go far deeper than looks.

The ride is different—level and true. You sit the road with special assurance—because Buick's torque-tube drive keeps rear wheels firmly

aligned—soft coil springs on all four wheels soak up the bumps and bobbles—honest weight keeps you on a steady keel.

The power is different—eager and sure. Buick's high-compression Fireball engine does wonders with fuel—and no matter what you demand in emergency, there's horsepower to spare.

Handling is different—this car seems to steer itself on straightaway or curve—and swings lightly into parking spots inches

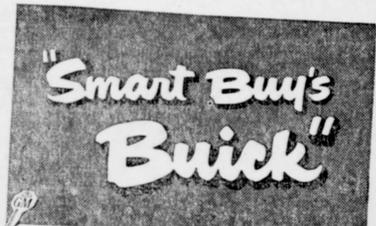

shorter than you'd think you need. Capping it all, there's the silken versatility of Dynaflo Drive,* that takes all the tenseness out of driving—responds to your slightest wish with a surging swoop of power.

No doubt about it, what you get in

a Buick is far more than just a new car—it's a whole new experience in getting pleasurable from here to there.

So why not explore this difference? Come, take a Buick over and find out how very much satisfaction smart money can buy.

Equipment, accessories, trim and models are subject to change without notice.

- No other car provides all this!**

Stricklinly Speaking

By Old He

We don't remember just where we left off last week on our Tennessee jaunt, but anyway, we did enjoy every minute and hour back there. We even enjoyed those old hard showers and thunder storms. It was hard to restrain us from getting out in them, despite the fact that we already coughed like a "heavy" horse.

A Lubbock lady who reads our tirades, stated this week, that she got a big kick out of that negro man plowing with hip boots on, and the middles half full of water. She did not doubt it, but maybe she do. But it was the God's truth.

With the big downpours they have had back there this year, those old graveled roads up into the hills in the New Hope community became fierce. Some of them are not graveled, and on some of the hillier places the gravel had washed away. But they were being re-graveled when we left. Therefore it was rather hard to get over some of those roads with a car. But our nephew, Vernon Stricklin, is a substitute rural mail carrier and has a jeep.

The last day we were there, the jeep was used in the afternoon, after he had finished his deliveries to reach some of the kin we had been unable to see. Now if you have any idea that a jeep won't make the grade in slush and mud and deep ruts, get the idea out of your head. They are too narrow to get into two car or wagon ruts at the same time. This one was a four wheel drive and six powers forward. He informed us that the jolting would be fierce, but we have done a lot jollier riding. A stiff-legged trotting horse

New Oil Well

The oil discovery well was brought in six and one-half miles north of Marshall in the northern part of the Woodlawn oil and gas field. It produced 22.5 barrels an hour of 41.3 gravity crude. It was perforated in the Pettit lime at 6,467-77 feet. The fire in the foreground is slag oil burning in the slush pit. (AP Photo).

for instance. We have had quite some fun with our barbers since we returned home. There in Middleton, we got three shaves at a total cost of 60c, five cents under one shave at the county seat, Bolivar, cost us the sum of 35c. We had quite some fun with that Bolivar barber.

ber. During the time he was extracting our facial fuz, the other barber and others in the shop got to talking about a man who had worked for the Tennessee Gas Transmission Co., at Middleton, but had been sent to Cooper, Texas. The barber who was shaving us remarked "that (Cooper) was not too far."

Of course we knew that he meant not too far from there. But after he shaved us and lay his razor down, without a change of expression, we wanted to know just what he meant by Cooper not being too far in Texas? He was puzzled, and we added: "Out where we live, we consider that section the Louisiana-Arkansas part of Texas. Out where I live near the New Mexico line, you will really find Texas." And to be perfectly frank, all east Texas is as much like La.-Ark. as two peas in a pod, and no more like this area than a rat and rabbit favor.

Along about Wed. 25th, Phillip began to want to see Faybelle and the kids, and on that day, we headed west, coming into the state via Mt. Pleasant, Mt. Vernon and Greenville to Dallas. Just before reaching Greenville a hard rain hit us, fell all the time we were there, and part of the way to Dallas. This greatly slowed our journey, as after the rain the pavement was slick, and it was well near 8 p.m. when Arlington was reached, where we pitched tent for the night with Mr. and Mrs. Oral Smithwick and little son.

While perhaps they were not expecting anyone but Phillip, a brother of Mrs. Smithwick, they made us feel very welcome, and we got a mighty fine night's rest after a hard day's journey, plus two meals. Mr. Smithwick fills a very important government job at the big Grand Prairie airplane plant, being an inspector for the government of finished planes.

All the time we thought he was just a mechanic at the plane plant, and we really had to dig out of Oral the importance of his position. He has none of that failure of "fanning" himself. Confidentially, after we left, Phillip confided that some of Oral's friends had approached him to get him to run for mayor of Arlington, which is quite a sizable city in its own rights now, between Dallas and Fort Worth Anyway, Cousin Oral, Willie Margurette and their little son made our stay in a strange city really pleasant.

As Oral has to get on the job early, this suited us as we were heading for Brownfield. Noon meal at Albany; Snyder by 2:30 p.m., where we rested and picked up Sallie and little Sara Beth to come on home with us. Herman came on next day—Friday.

Came via Post and Tahoka to pick up our old car in east Terry, as Faybelle was to use it while we were away. The doggone thing took a notion to burn up as she came home one day, but Jack Waggoner happened to be at home and helped save it, except the wiring, and some of the panel instruments. Nearly killed Faybelle, but it would have done the same thing if we had been driving it.

Hope you are fully loaded up on our trip. Will change the subject next week, perhaps.

P. S. Forgot to say we did not start home empty-handed. There was about three cases of canned vegetables and fruits in the form of jams and jellies, some being strawberries, etc. When we go back there we usually are able to live fairly well after returning home for a few weeks.

Flache Takes Course At Ft. Leavenworth

Lt. Col. Truett W. Flache of 702 East Buckley, Brownfield, Texas, has completed phase one of the special associate course conducted by the Command and General Staff College at Ft. Leavenworth, Kansas. The two-week course, which began on April 16, was attended by 30 Reserve and National Guard officers from the Third, Fourth, Fifth and Sixth Army areas. The students ranged in rank from captain to colonel.

The special associate course stresses the principles of command and general staff work on the division level. With the exception of four officers on extended active duty, the students returned to their homes and their civilian occupations. The principles learned by these officers at the college will be applied in instruction of the Reserve and National Guard units with which they are affiliated.

Colonel Flache was on active duty in the Army from March 1942 to December 1946, and served in Europe for 18 months.

Christopher Morley's home on Long Island is named "Green Escape."

Cattlemen Not Happy Over Rollback Prices

According to Tuesday's Star-Telegram, the Texas cattle raisers are not too happy over the rollback price order just issued out of Washington. As a consequence, the price offered at the stockyards was so low that some 2,000 head of cattle and 650 head of calves were still unsold late Monday, with the prospect that many of them would be returned to the ranches.

In the meantime, the northern feeders, who depend on their feeder supplies in Texas, had given orders to their buyers to cancel all orders. They stated that with the cost of feed and labor what it is, and with the ceiling going on in August, they would lose money.

It was also reported that such a condition in a lesser degree was reported at Kansas City, Omaha, St. Louis and Chicago. What most cattlemen believe will happen is more and more scarcity of meat, with the black markets taking over in most places.

Captain Sam Privitt, commander of the local Guard Unit, left Thursday for Fort Knox, Kentucky where he will attend school for a month. He will be accompanied by his wife, Gee-Gee.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending April 28, 1951, were 24,671 compared with 23,492 for same week in 1950. Cars received from connections totaled 14,393 compared with 10,959 for the same week in 1950. Total cars moved were 39,064 compared with 34,461 for same week in 1950.

Santa Fe handled a total of 38,210 cars in preceding week of this year.

Don Miller is in Dallas attending the shoe market for the Fair Store.

Mr. and Mrs. Frank Weir have returned from a vacation in Hot Springs, N. M.

JAMES HEARTSILL PUTTING FARM LAND TO BEST USE

Mr. and Mrs. James Heartsill made application to the C. Y. T. Soil Conservation District on February 26, 1948. A soil conservation plan was worked out with Mr. Heartsill in May of the same year.

Heartsill immediately started to put into effect the conservation measures agreed on in the plan.

Since he entered into agreement with the C. Y. T. SCD he has established a complete terrace and contour system on the more sloping land on the farm.

About 70 acres of weeping lovegrass has been planted on the farm and he plans to plant about 30 additional acres this year. Heartsill has moved the native grass on his farm to help kill the weeds, mesquite, and other noxious plants.

Heartsill plans to grow the grass on his cultivated land in a long time rotation. When the lovegrass is broken out, he will have, in effect, new sod land. This will increase productivity through the addition of organic matter to the soil, and more efficient use of rainfall.

In addition to the above practices, Heartsill is carrying out a crop rotation of small grains, grain sorghums, and cotton.

He points with pride to his herd of milking shorthorn cattle that utilize most of the feed stuff and the grass land on the farm.

Heartsill's aim in farming is to use all the land on the farm according to its best use. It is Mr. Heartsill's desire, through conservation farming, that he will leave his land more productive than it was when he started operating the farm.

The Brownfield Lions club awarded a plaque to Heartsill as the outstanding conservation farmer of the year, upon recommendation of the members of the board of supervisors in the C. Y. T. SCD. Members are Jay Barrett and V. H. Wheatley, Terry county; Monroe Price, Yoakum county; and W. W. Smith and Cortie Coffman, both of Cochran county.

PLAINS NEWS

Mrs. Kathrine Fitzgerald of Brownfield spent Sunday visiting her father, L. M. Williams and family.

Standlee Bowers from Lubbock, was a business visitor in Plains Tuesday.

Elias Ivy from Denver City was attending to business in Plains Wednesday.

Mrs. J. W. Jackson of Lockney, is visiting her daughter, Mrs. H. G. Sprawles and family this week. Mrs. Mable Camp is able to be up and out on crutches after falling and spraining her ankle a few days ago.

Mr. and Mrs. Guy Herrod visited his brother in Ranger over the weekend.

Mrs. Eddie Field was visiting in Plains, Thursday.

Mrs. Cecil Courtney and Mrs. J. P. Robertson were shopping in Lubbock, Friday.

Mrs. James O'Rear and daughter and Mrs. Jack Midkiff and daughter of Ralls, visited in the Morris Lowe home this week.

Mr. and Mrs. Sammie Taylor of Denver City, spent Sunday in Plains.

Austin Addison is recovering from a tonsillectomy.

Mr. and Mrs. John Smith of Seagraves, spent Sunday with his sister, Mrs. Donald Burkout and Mr. Burkout.

Mrs. Al Wolfenburger was called to Hillsboro, Tuesday to be with her mother, who was quite ill.

Visitors in the A. N. Addison home over the weekend were Mr. and Mrs. Raymond Addison, Mr. and Mrs. C. W. Addison, Miss Juanita Wilson, all of Snyder; Mr. and Mrs. Tom Wilson of Brownfield.

Mr. and Mrs. Vernon Hill and family spent the weekend with his parents, Mr. and Mrs. O. V. Hill.

Mr. and Mrs. McGill and little daughters have moved to Plains and are living in the Loyd Coke home. Mr. Gill is working for Shell Refinery.

Rev. W. P. Bryan has returned from Grady, N. M., where he held a two weeks' meeting.

Rev. and Mrs. Buddie Pettit were in Big Spring attending a meeting last week.

The Fine Arts Club met in regular session Thursday evening in the home of Mr. and Mrs. McGinty, with Mesdames Patterson and Reynolds as co-hostesses. A three-course dinner was served to about 16 members and four visitors. After a short program was rendered.

The Stamford Valley-H. D. Club met in the home of Mrs. W. F. Walsler, with 12 members present and one visitor. After a short business session, an interesting program on "The Art of Entertaining" was rendered. Refreshments of ice cream and cake were served.

Sparks From Capitol

By Jim Sparks, P. O. Box 2312, Capitol Station, Austin, Texas

Both the House and Senate are working feverishly to finish their work within a very few days.

Some delay may be caused by Senate revision of the tax plan originated by the House. While the natural gas tax bill was being sidetracked to the Agriculture committee, the Senate State Affairs committee raised the gas tax in the omnibus bill and also added an increase of one cent per gallon on gasoline sales. A House committee had refused to approve the levy on gasoline.

Senate sponsors of this plan claimed it would provide the necessary revenue to meet the demands of appropriations.

Also, allocation of funds from the new tax plan is intended to resolve the rural roads problem, which would remove the biggest block to early adjournment. If the House concurs without a fight, the session is about over.

The House passed on second reading a congressional redistricting plan and also the controversial drivers responsibility bill. It is still doubtful if either bill can gain final approval of both houses.

The House is considering the truck load limit increase. Rep. Joe Kilgore, House sponsor, argues that this bill will provide better and cheaper transportation service in areas wherein such service is not now provided, thereby aiding industrialization and increasing state revenues through payment of additional taxes.

Protesting the increase are the railroads who say the trucks are operating now in excess of the legal load limit. A bill requiring on the spot unloading of such vehicles has already been passed by both houses.

FATHER OF LOCAL MAN IS CLAIMED

Funeral services were held in Union City, Pennsylvania last Friday afternoon at 2 p. m. for L. S. Davis, who died Tuesday evening.

Mr. Davis was the father of Dr. E. C. Davis of Brownfield, and is survived by another son, Harold, and two daughters, Dr. and Mrs. Davis and son, Earl jr., are expected to return from Pennsylvania this week.

Behind the Scenes in American Business

By REYNOLDS KNIGHT

NEW YORK, May 4.—Developments on the price control front are catching the attention of both businessmen and consumers as the stabilizers swing into their fourth month of active enforcement.

Speaking in Chicago, Price Stabilizer Michael V. DiSalle has warned of even more stringent controls to come in the near future, but added that there will be a period of gradual decontrol at the end of two years, with 1953 set as the target for lifting both price and wage controls.

Meanwhile, Edward F. Phelps, assistant director of the Office of Price Stabilization, told grocery wholesalers that food price controls will become tighter before they are eased. He predicted that inflationary pressures will become more apparent by late summer and that OPS will be forced to adhere to a strict "hold the line" program for food prices.

The controls program closed its third month last week with thousands of investigators, lawyers, price experts and clerical workers on the payroll, but with only one case of violation sufficiently clear cut to warrant prosecution, a case involving a Los Angeles auto dealer. OPS representatives, although conscientiously investigating every reported violation, said they spend most of their time explaining the ramifications of price regulations to businessmen—and wish they had twice as much time to spend.

GI's will soon be able to get fresh whole milk while serving in any part of the world. This promise may bring to an end one of the memorable demands of returning GI's whose first wants included milk and more milk, a scarce and much-wanted food in war theaters.

The availability of fresh milk will be made possible through development by Dr. William McKinley Martin of an aseptic canning process which combines "flash" pasteurization, sterile canning and electronic robot controls designed for the system for minutely determining temperatures which are vital to the success of the process.

The new process has been successfully used, experimentally, on tree-ripened banana puree, strained meats, mushroom and other soups, puddings, pumpkin, Welsh rarebit and other foods. The whole fresh milk, and the engineers, will have a guaranteed storage life of several months.

PAT ROBERTS OPENS FISHING VILLAGE

The Stricklin generation had an invitation from V. F. (Pat) Roberts of Coahoma last week to visit his fishing village on Colorado City Lake, which opened May 1. Last week the Jr. Editor, wife and son, Jack Taylor made a trip down there. Mr. Roberts is a nephew of Mrs. Stricklin, sr.

Contrary to the idea of some, this lake is not Colorado river that runs through Colorado City, but a large creek. The upper part of the lake runs under a highway 80 bridge five miles west of the city. That is where Pat's Fishing Village is located.

Pat writes in a personal letter that the lake is well stocked, has never been fished in to now. There is a grocery and cafe on the ground and a tourist court under construction. Also motor boats, row boats, boats, fishing tackle, minnows, fishing worms and shrimp available.

A little later the Old He and wife will go down there, the latter to catch 'em, the former to eat 'em. The lake is well stocked with bass, crappie and channel cat.

OUR NEIGHBORS MOVED AWAY LAST WEEK

Most of us have experienced the moving away of residential friends we have become attached to. We find that we can also become attached to our business neighbors of several years duration. This certainly goes for Joe Johnson and Charles Kersch and their personnel of Johnson Implement Co., next door to us.

Their place was mighty handy should we need a bolt or nuts. Indeed, it was handy to borrow from them such things as wrenches, and they had all kinds of them, and even electric drills and many other things we needed for just a few minutes. Even if they were busy with one, it seemed they always had a spare to lend us.

But we congratulate them in their well planned and greatly enlarged and owned place on the Seagraves highway. We hope them the best of luck, and hope to get a new neighbor that is as neighborly as Johnson Implement.

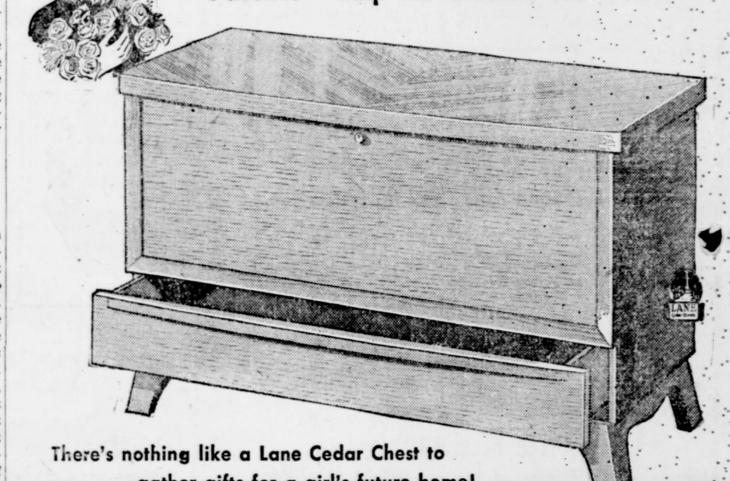

FOR HOT WATER MAGIC GAS has got it!

For the last word in water heating, buy a new automatic GAS water heater. One of these really dependable automatic GAS water heaters will give you years of carefree service. The magic of Nature's perfect fuel assures you of plenty of hot water all the time. See the new automatic GAS water heaters at your dealer's now. Be sure to buy an automatic GAS water heater sized to your family's needs.

communicable disease cases, thus preventing its spread.

4. Inspection of water supplies, and control over the safe production and sale of milk, drugs, and food products.

"But," the health officer added, "people get sick and accidents happen, and the job of curing and patching up is the business of the private practitioner of medicine—the family doctor and the specialist."

Doctors in private practice advocate public health principles when they urge mothers to have children protected against diphtheria and smallpox, and public health officials "need their help in the vital work of maintaining a high level of well being for all Texans," Dr. Cox asserted.

"We aren't in competition with doctors in private practice. Public health people deplore the idea of socialized medicine as unworkable, cumbersome, and totally inefficient.

"There is no place on earth that has a better system of medical administration than the United States. Private doctors deserve the credit.

"And there is no place on earth with a higher standard of public health. Public health people deserve credit for that," the doctor concluded emphatically.

To clean table glasses make a paste of baking soda and water and rub the glasses with it; rinse with cold water and dry with a clean towel.

SOCIALIZATION HAS NO PLACE IN PUBLIC HEALTH

Socialization has no place in either public health or the private practice of medicine, State Health Officer George Cox has said in a statement aligning himself with the medical profession against socialized medicine.

Public health is a separate, distinct field from private medicine, Dr. Cox said. Both professions have their separate objectives, and distinctive methods of accomplishing them.

He declared public health's objectives to be:

- 1. Public education as to how to avoid disease by such means as vaccination against smallpox and typhoid fever and immunization against diphtheria. 2. Investigation of disease outbreaks. 3. Quarantine and isolation of

Seasonal Dysentery Warning Is Given
 The increase of migratory labor on the South Plains late in May and continuing through July bring a large increase in the number of reported cases of unclassified dysentery in the local population, according to information received from the South Plains Health Unit here.

With the reported cases for the State seven per cent higher than this time last year, action should be taken now with every sanitary measure known, if the cases are to be reduced from the tragic 1,024 reported last year. The provision of safe excreta disposal, protected water and food supplies, and good fly and rat control will serve as a good shield against the spread of this disease in any home.

Amos Bollinger, sanitarian with the South Plains health unit, county home demonstration agent Helen Dunlap, and county agricultural agent Jim Foy will meet tomorrow (Saturday) as a group to discuss rural sanitation. They will assist rural people in solving dysentery problems and improving rural sanitation.

CARD OF THANKS
 We wish to express our thanks for the beautiful floral offerings, the food, and the words and deeds of sympathy extended us at the death of our baby, Brenda La Rue. We also wish to thank Dr. Daniell and all the nurses at Treadaway-Daniell Hospital. May God bless you.

Tennis, boys singles, Brownfield over Morton; tennis, boys doubles, Brownfield over Morton; tennis, girls singles, Morton over Brownfield; and girls doubles, Morton over Brownfield.

Polio Is Discussed By Texas State MA
 Prepared by the State Medical Association of Texas

Many of the virus diseases seem to be "city slickers" creating epidemics in heavily-populated areas and spreading slowly if at all in rural communities. Sometimes that is good and sometimes it isn't; it wasn't good during the last war when so many young men from small towns and farming country got the mumps because they had never been exposed to them before.

The mumps, like most of the childhood diseases, usually are a minor affair in healthy children. In adults, however, they become more serious and created a lot of suffering among the servicemen in camps during World War II.

The mumps cause a swelling in those glands that feed the saliva to the mouth, mainly those parotid glands right in front of the ear. Anything that makes the mouth water causes more congestion in those sore glands and any movement of the jaws seems to make them hurt worse. It's more of a hurting disease than a real sick disease in children; but in adults when it spreads to the sex organs it is a real sickness in addition to a lot of pain from the swelling.

You need rest in bed with the mumps and lots of liquids to drink. Hot or cold packs to the swollen area will make the pain seem less; sometimes hot packs do the trick and sometimes cold packs seem to give most relief.

One case of mumps, even if only on one side, usually makes you immune to the disease. There are other diseases of the salivary glands that may cause swelling quite similar to mumps; sometime people who think they are getting the mumps a second time may be mistaking another kind of swelling of those glands for the mumps.

Poliomyelitis is another virus disease that seems to attack more often in cities than in country areas. How polio spreads and how you can develop immunity to it are two of the biggest research problems under study now.

Much has been learned about polio from such research studies in the past. It is now known that many people get polio without ever knowing they have it. Since there are different kinds of polio, however, getting one kind doesn't mean you are immune to polio.

Polio is considered as contagious as the measles, but it doesn't show up as definitely as a sickness like the measles does. Many people may have an upset stomach or passing illness of some sort without realizing they did have polio.

Others become ill enough with the disease that it is recognized, but they have no crippling affects. Those who become crippled are a small percentage of the actual number of persons who do get the disease, knowingly or unknowingly, during an outbreak.

There are two main types of polio, called spinal and bulbar. The bulbar kind affects the breathing and swallowing system largely and is the cause of nearly all deaths from polio; bulbar polio rarely causes crippling, however. The spinal type of polio is the crippling kind and rarely causes death; this kind is much more common than the bulbar type.

CARD OF THANKS
 We wish to thank our many friends and neighbors who showed their sympathy with the beautiful floral offerings; also we would especially like to thank those who brought food. We greatly appreciated the words and deeds of kindness shown us during our recent bereavement. May God bless you for being so thoughtful and kind at the death of our loved one, Buster John Crawley.

Mrs. B. J. Crawley, Mr. and Mrs. H. C. Crawley, Mr. and Mrs. Zeb Russell, Mr. and Mrs. Herman Howard, and Mr. and Mrs. Earl Ball, all of Okofona, Ark.; Mr. Raymond Crawley of Gurdon, Okla.; Mr. and Mrs. John C. Crawley and son, Billy, of Ft. Worth; Mrs. Lorene Clifford and daughter, Moran.

The area of Tolwan (Formosa) is 35,961 square miles.

Ben Grauer, the radio commentator, also is a rabid book collector and a member of several bibliographical and literary societies.

Ticklers
 By George

"But I tell ya he's doing everything humanly possible for your hubby!"

MANY OLD TIMERS ARE DEPARTING THIS LIFE

We folks who have been here anywhere from five to 40 years perhaps take the matter more serious if possible than newer folks at the departure from this life of so many of the old-timers. Right recently, in three days' of each other, Jim Huckabee and R. L. Bandy have suddenly quite the walks of men. These men came here years ago, and helped to transform Brownfield from a struggling village to a smart little city.

Evidently both men came to Brownfield the same year, 1920, and both from Central West Texas. Both always stood for anything of a moral nature that went to the upbuilding of Brownfield and area. Both were against anything of a questionable nature. They put their money and their brain and brawn into whatever they undertook. Both were religious in their everyday as well as Sunday life. Neither was an extremist on any matter.

Both were fine family men; loved their wives and their children, and their wives and children in turn respected and loved them. They were neighbors in the highest sense of the word; and practiced neighborliness. Both were of very friendly disposition, and a newcomer soon learned who Jim Huckabee and R. L. Bandy were.

Brownfield and area can ill afford to lose such men. But let us remember that all flesh heirs death. Let's all try to be prepared.

SANTA FE CARLOADINGS
 Santa Fe System carloadings for week ending May 5, 1951, were 24,594 compared with 22,809 for same week in 1950. Cars received from connections totaled 13,787 compared with 11,454 for same week in 1950. Total cars moved were 38,381 compared with 34,263 for same week in 1950.

Santa Fe handled a total of 39,064 cars in preceding week of this year.

Silage For The Dairy Herd
 "A full silo is good feed insurance. If pastures get short or drouth strikes, silage will keep the dairy cow producing." This statement is from a new bulletin prepared by Texas A. & M. College dairy specialists.

The authors of Extension Service bulletin 186 says that silage is the cheapest, and best substitute for a good pasture.

Next to pasture, silage is the cheapest source of feed. Based on certain cost figures given in the bulletin, 100 pounds of total digestible nutrients from silage costs \$1.40; from alfalfa hay, the same amount costs \$3.00; and from a concentrate mix, \$5.40.

One ton of silage, costing \$4 or \$5, is equal in feeding value to about 500 pounds of 16 percent grain mix, costing \$1 or \$1.8.

In addition to the advantages and costs of silage, this bulletin contains information on silage crops, different types of silos, harvesting silage crops, filling silos, and feeding silage.

R. E. Burleson, associate extension dairy husbandman, suggests that dairymen stop by their county agents' offices and pick up a copy of Extension bulletin 186, "Silage for the Dairy Herd."

CARD OF THANKS
 We wish to extend our thanks and deep appreciation to everyone who was so kind and thoughtful and to all of you who sent food and the beautiful floral offerings at the passing of our loved one, May God bless each of you.

Mrs. W. L. Bandy, Mr. and Mrs. R. L. Bandy and family, Mrs. Doris Flippin and Betty, Mr. and Mrs. Charles Bandy and family.
