Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

A New and Worthwhile Industry Locates In Brownfield; Operation to Start Soon

Patiently and without fanfare, the local Chamber of Commerce as well as other interested local people, have been working toward locating a chemical industry here in Brownfield. Of course there were rumors now and then on the surface of what was transpiring. But Brownfield did not until last week know for certain that the plant would be located here, there were other towns in the area that also wanted the plant.

The company in business circles from the Pacific to the Atlantic is known as California Spray Chemical Corp. The local plant will be located between Main and Broadway in the neighborhood of the Goodpasture Grain and Milling, and Farmers Co-operative Society, gin No. 1. Carl L. Elliott will be the Brownfield branch manager. Mr. Elliott stated that Brownfield was chosen because of its close proximity to all the south Plains agricultural area.

There are presently other plants in Texas, including Greenville, Uvalde and Wharton, and arrangements are about complete for another at Harlingen, along with the Brownfield plant. Dusting materials which are insecticides, will be manufactured at the local plant, but most of the sprays, because of the technical skill and machinery to manufacture them, will come from California, St. Louis, New Jersey and Orlando, Fla. The trade name of the product is ORTHO.

During the rush season, when there is much insect dusting and spraying, the plant will employ some ten men. During the rest of the year, the plant here will be manned by around four employees. Much of the credit of landing the plant for Brownfield goes to Herbert Chesshir, Harmon Howze, Grady Goodpasture and Red Smith, all closely aligned with the Chamber of Commerce.

Mr. and Mrs. Kay Dolloff and their little granddaughter, who live in the Silgo community in Yoakum county, were Brownfield visitors Wednesday of last week.

Methodist to Start New Building Soon

Actual construction of a new First Methodist Church will begin in the near future, Rev. Dallas D. Denison, pastor, announced this week. The permit for steel to be used in the building has been received from the Commerce Department in Washington, and work is expected to begin within the next few days, Rev. Denison said. During the past year approximately \$83,000 has been paid into the building fund through pledges made by church members, Rev. Denison said, and the building committee has not planned a regular building fund drive. Funds will continue to be collected through pledges.

To be located on the lots just south of the new high school, the church will include an educational building, sanctuary and chapel.

Burton Hackney is chairman of the building committee, and others on the committee are J. O. Gillham, Joe Johnson, W. T. McKinney, R. J. Purtell, Mrs. Fred Bucy and Mrs. G. S. Webber.

Judge, Commissioners To Meet in Brownwood

County Judge L. M. Lang and Commissioners Lee Bartlett, Horace Fox, Sam Gossett and Bruce White went to Brownwood today where they are attending the West Texas County Judges' and Commissioners' convention.

During a special Memorial Service Friday, a brief biography of the late Judge Homer Winston will be given, with similar biographies of other officials in this area who have died the past year.

The story to be told of Judge Winston was compiled by Mrs. Winston, and will tell of his 25 years of continuous service as a public official.

The convention will close Saturday.

Ribble With Wellman Church of Christ

S. A. RIBBLE

The Herald bunch was not a little surprised last week when Evangelist S. A. (Sam) Ribble called partly on business and partly socially, as we had known each other some 35 years or more. While Sam has a lot of good gospel work left, and gets around as well as many men much younger, he has been around long enough that he is well versed in what it takes to put over local or evangelistic work for the church.

In times past, when the local Church of Christ could not afford a regularly located minister, he would come down from Lubbock once a month to preach for the small congregation. And he held at least one protracted meeting here, if not more. He was always highly regarded by the old timers here and at Lubbock whether a member of the Church of Christ or not.

So, we are glad that we shall

BOBBY L. HOOVER

have Sam Ribble as a next door neighbor, as he will work for the church at Wellman. In fact, he informed us he and wife had already moved down there. Mrs. Ribble is a fine co-worker in church affairs. Back in the middle forties he was located down at Loop for some time, and then spent some three years at Coahoma. He always leaves a work in good shape.

Right now the Wellman church has evangelistic services going on, conducted by a young minister, Bobby L. Hoover of Wolfthorpe. The meeting will go on through Saturday evening of this week, at 8 p. m. You are cordially invited to attend.

A son was born to Mr. and Mrs. Ray G. Bowen of Brownfield at 4:43 p. m., Friday, in a Lubbock hospital. The child weighed 7 pounds 12 ounces. The father is a truck driver.

Local Jaycees Installs New Officers

The local Junior Chamber of Commerce had a double barreled affair of their meeting Monday night, with Herbert Chesshir, president of the Chamber of Commerce as the principal speaker. It was a combination Ladies' Night and installation of the new officers.

Ike Johnson of Levelland acted as the installing official, with Curtis Sterling as the new president; Harry Goble, first vice-president; Sid Lowery, second vice-president; J. C. Powell treasurer, and Ralph Howell as secretary.

It is reported that more than 50 people attended the banquet.

Others in the race and tabulations are Susan Pendergrass, 2,464; Cynthia Hilburn, 1,894; Dawn Pemberton and Tonya Price both have 1,665 votes; Kenny and Keith Sibley, 1,923; Doris Jane Treadaway, 2,117; Carole Gaasch, 1,673; Laurene Hulse, 1,932; Juaneva Smith, 594; and J. The winners will be crowned between features at the Rialto next Monday night. Voting will close this afternoon at 6 o'clock, when all voting containers will be picked up, Miss Grabber said. The winners will be crowned by Katherine King, former Queen of Babyland, and daughter of Mr. and Mrs. H. L. King, and Tommy Williams, son of Mr. and Mrs. Coleman Williams, who was crowned king two years ago. Sid McIntosh will be master of ceremonies for the coronation.

Wheatley Wins First Place in District Field And Track Meet; Compete For State Honors

Wheatley "stole the show" in the colored interscholastic league meet in field and track events, held last Friday at the Dunbar school in Lubbock by placing first, according to the athletic director of the school, Robert C. D. Tieucl Jr. in a statement this week.

First place showings include: Broad jump, one mile relay, one mile run, one hundred yard dash, pole vault and 50 yard dash for both boys and girls division. Second place honors were as follows: 880 yard dash and 880 yard relay. Wheatley also placed first by default on shot put and discus throw.

Eight participating C schools participated and in the B division, Lamesa placed first and in A division schools, Lubbock outpointed

The group will leave Friday morning with the coach and spend the night in Dallas and on to Prairie View Saturday morning to vie for state honors.

Coach Tieucl stated to a reporter that the Brownfield school board had decided to stand the expense of their trip to Prairie View, and therefore they would not have to take up a public donation.

"This is their first opportunity to win all district honors, and you know how we feel down here at Wheatley, today," Tieucl stated.

THE CLEAN UP, PAINT UP DRIVE NOW UNDER WAY

Any leisure time after you read this article, should be spent in making your place of business, both inside and out, as well as your home and premises, as clean and free from waste material as possible. All this in preparation to the inspection to take place on the 17th, which is Thursday of next week. This inspection will not only cover the possible hazards

as to fire, but health as well. There will be periods of time between now and next Thursday for the home owners as well as the proprietors and personnel to get out and make a complete clean-up of all places that are a fire threat, or that may harbor refuse that later could, when warm weather really arrives, become a threat to the good health and well being of the community. Most of us have had enough sickness in the family that we are well aware of the cost in money, not to mention the worry.

Wilson Is In Real Estate, Loan Business

When it became generally known here that C. L. Wilson had resigned as Vice-President of the First National Bank, that we would lose a mighty good man and his family. But such is not the case. Mr. Wilson is opening a real estate and loan office, 418 west Main, across from the First National Bank.

The formal opening of his place, which has recently been repainted and redecorated, will be tomorrow, Friday, and he invites his many friends to call and see him at his new place. Presently, he will sell real estate, and make small loans. He is negotiating for a general insurance agency, he will add later.

Mrs. Pat McMillan will be his secretary. The Wilsons have two children, both boys, one 6 years of age and the other nine months old. We are all glad the Wilson family decided to make Brownfield their permanent home.

Mr. Autry said that the name was being changed along with those of all of the other major subsidiaries of General Telephone Corporation. He added that this involved no change in the management or operations of Southwestern Associated.

Lions Club and Delphian Study Club to Present Hollywood Radio Party April 16

Sponsored by the Lions Club and the Delphian Study Club, the unusual entertainment will be presented by Carl Webster Pierce, well-known master of ceremonies and magician. Pierce was heard for years on the famous Breakfast in Hollywood program as an associate of Tom Brenneman, and has appeared on many other popular shows originating in Hollywood. He is also the author of numerous dramatic radio shows and stage plays, including the stage version of the "Queen For A Day" radio show.

Admission to the show will be 75 cents for adults and 50 cents for students, and tickets may be purchased from any member of the Lions or Delphian clubs, or at the Chamber of Commerce office.

One of the most interesting parts of the entertainment will take place when Carl roves through the audience interviewing people at random. Great human interest

we find any fault with that? But when prices go down, that fact stimulates consumption, but discourages production. On the other hand, when prices go up, it stimulates production, but discourages consumption. Just one example. Suppose the government put a price of \$10 on a new automobile, all of us would rush to buy one. But no one would undertake to make them at that price. If the government put a price of say \$10,000 on an automobile, everyone would want to build them—but no buyers. Therefore depression. It's all easy if we just take the trouble to think a bit.

Volunteer health insurance is the answer of the medical profession as well as others who do not like to be bossed around by government bureaus. Some of our best thinkers and lawmakers are of the same opinion, and have so expressed themselves publicly and on the floor of the lawmaking body in Washington. And these men have included lawmakers, business men, professional men and in some instances leaders of labor unions, especially the Teamsters and the CIO. And they have some startling figures to guide them. The growth of volunteer insurance has been dramatic. It has not been many years when insurance companies began to write health, or as we usually say, hospital insurance. It is a comparatively new movement. Most of us can remember that very few people carried health insurance, and when the unexpected sickness or operation came, if the family were not in fair shape financially, it meant that the head of the family must go to the bank and make arrangements to pay the hospital bill. But today, statistics show that almost 77,000,000 people are covered or partially so by health insurance of some kind. And the idea is growing by leaps and bounds. Many carry two policies. And one of the most surprising things is that the rate has remained low. A few dollars a month will cover the whole family. But a few years ago, many people were sold on government or socialized medicine. As late as 1949 a vote was taken in the state of Minnesota, showing a 2 to 1 vote for socialized medicine. But a vote taken last year showed a complete reversal. It was 2 to 1 against socialized medicine.

A Dallas school teacher has produced a booklet that we believe should have a wide circulation among the voters of Texas in particular, especially those who say, "oh, my vote won't make any difference." The name is David F. Switzer, and this teacher seems to have given his subject a thorough study, and can by no stretch of the imagination be classified as the proverbial "absent minded professor." The writer goes on to state that the voter has a chance to do more than just cast his vote on election day, and then proceeds to tell them how. In the first place, he tells the reader how to open the door—a door the political profiteers have closed and locked tight. Then he goes on with cartoon, graphs and charts, showing the procedure of professional politics from the precinct conventions to the general election in November. In fact, that primary lead in the precinct and county conventions is where the people loose their initiative. It is in the "smoked filled rooms" that the big boys take over, and the "grass-root boys" have to like it or lump it. This book would make some

Is the Hon. Tom Connally Showing His Age?

—Photo courtesy Avalanche-Journal.

The above is a good likeness of the Hon. Tom Connally in action, and from all accounts he stays in action most of his waking hours. Some of our good friends have also stated of late that Tom does not greatly show his age. Look at this candid picture, and say it again.

Yep, Tom is getting well up in years, and his temper being always on edge proves the point, even if you did not know that he is 76 years of age. We believe Texas needs a younger man in his place.

might be good reading for a lot of us some Sunday afternoon. Might put some of us on guard that government by the people, for the people, of the people, is gradually being jerked out from under us.

The State Observer, a small weekly political sheet published at Austin, has for the past several months been all hot and bothered for the reason that Governor Allan Shivers wants to send the Texas delegation to the National Democratic Convention, uninvited. We might relate right here that the Observer calls everyone who does not subscribe to Trumaneracy a Dixiecrat, Texas Regular or Republican. Somehow, we have always been proud that we are from Dixie. Nothing to be ashamed of. But to the average Texan, we think it ill becomes a fellow born in Nebraska or Iowa, we believe, as was the editor of the Observer, to come to the south and try to make it appear that it is a disgrace to be from Dixie. We have utmost respect for anyone who is on the ball, from the mid-

west to come to Texas and help develop our great resources. But we don't exactly like the name calling kind. And while we are about it we don't exactly think that anyone who calls himself a Republican, or wears the name, has the brand of Cain on him. We have found some very decent fellows in our time that were GOP-ers. And we fancy that Editor Holcomb would still find a good many of them in his native state, should he return, if he is not afraid to go back? But he don't think Gov. Shivers is exactly honest, now that HST has stepped down and out of the picture, to send an uninvited delegation to Chicago. But Gov. Shivers knows his politics, and he has a very fine premonition that the Truman crowd will be in control, and they will give us a candidate just like Harry. Gov. Shivers is first a Texan and then a Democrat. In advance, he nor anyone else can know how that convention will stand on state rights, the tidelands issue or the FEPC. So, he'll not help to throw the 40 odd delegates from Texas

into a mongrel hopper. The editor then goes on to rave about "Roosevelt Haters." Texas people are not much given to hating dead people or even live ones that they may have occasion to disagree with. One good thing about the whole matter is that the Observer has a small circulation, somewhere around 1,000, and therefore its influence in Texas is almost nil. Then the paper laments the fact that the "loyal" Democrats who were organized in Austin a few months ago, have had to undergo a smear campaign. Just about all that the Governor said or asked about the organization, so far as we have seen, is "loyal to what?" So far the "loyal" Democrats have failed to answer that one. It even goes so far as to say that Shivers is a candidate for president himself. So far as the rest of us are aware, the only office he seeks is re-election as governor of Texas, and he will get that office by a huge majority in spite of the "loyals."

Much has been said in some quarters about letting men in the service vote without the possession of a poll tax receipt. Some have gone so far as to say that the man in the service of his country has been disfranchised. Secretary of State John Ben Shepperd has cleared a bit of this false propaganda in a communication to the press. But in many ways they have to have the same qualifications as a home resident taxpayer to get the free vote. That is, they have to be 21 on the day they cast their vote, which will be on the 26th day of July. They must have been a resident of Texas for at least one year and the county from which they enlisted or were drafted six months prior to their enlistment or draft. And it makes no difference in which arm of the service they are in. It can be the army, the navy, coast guard or air corps. They must communicate however with their County Clerk of their home county about obtaining the absentee ballot, and how it is to be handled. Our advice is, to the parents or wife of the man in service who wants to vote in absentee, to talk with the County Clerk, and he will be glad to give full details about the matter. And this would of course apply equally to girls or women who are in the service and otherwise qualified, same as the boy or man as to age, residence, etc. We believe this law was enacted by the Texas State Legislature during War II, and has never been repeal-

ed. So, don't go of half-cocked and make the statement that because our young people are in the service of their country, they are disfranchised from voting. Fact is, they have the advantage that they do not have to be out \$1.75

for a poll tax receipt.

Want a lot of mileage for your money?

WE'LL admit that the price tags of automobiles—all automobiles—are not what they used to be.

But it's just as true today as ever before that some price tags are lower than others, and some cars cost less to own than others.

So let's see how a Buick SPECIAL fits into the picture.

Take first cost. If you put the price tag of this Buick against price tags of cars that have always been tagged as belonging in "the low-priced field"—you'll find that, in actual dollars, a Buick's surprisingly close to these cars of lesser size and horsepower.

But that's just the beginning.

What you're getting here is Buick quality—this SPECIAL comes down the

same assembly line as SUPERS and ROADMASTERS.

Its heft tells you it has extra sturdiness in frame and structure.

Its Fireball Engine delivers extra power. It is an eight, a valve-in-head, with high compression, and the miles you can get from a gallon of gas make it a thrifty performer.

You get Buick's Million Dollar Ride, which protects you—and the car—from jars and jolts.

Even the tires are bigger—which, any tire man will tell you, lengthens their wear.

And if you pay a bit extra for Dynaflow Drive* you're easing the strain on the engine, the rear end, the tires—and eliminating clutch repair bills.

So when we talk about "mileage for your money" we're talking about the miles you'll get from your car—including the unused miles that are what you have to sell when you trade it in.

Cost of Irrigation Water Runs High

COLLEGE STATION.—It costs between \$4,000 and \$5,000 to develop and equip a new irrigation well on the High Plains of Texas, according to a study just published by the Texas Agricultural Experiment Station.
 These averages are based on installation and operation costs reported during 1947, 1948 and 1949 in a study of a yearly average of 176 wells in Lubbock, Hockley, Hale, Floyd and Swisher counties. Present costs may be somewhat higher than during the period of the study.
 Installation costs including the drilling, casing and spillway for the well, which average \$1,272. Purchase and operating costs are given for four types of power units used to pump irrigation wells. These were electric engines, small and large automobile engines and industrial engines. Respective initial costs during the period of this study were \$720, \$485, \$782 and \$1,320.

An average of 126 acre-foot of water was pumped per well each year of the study. The cost per acre-foot varied with the type of power used and whether the unit was operated with electricity, butane, gasoline or natural gas. Price ranges are shown for each kind of fuel.
 The study, reported in Bulletin 745, briefs the historical development of irrigation from wells on the Texas High Plains. About 1,860,000 acres of Plains land were irrigated in 1950 from about 14,000 wells. Most of this development has taken place since 1934, with the greatest expansion since 1945. Well drilling continued at a rapid rate during 1951.

Cooperating in the study were the Department of Agricultural Economics and Sociology of the Texas Station and the Bureau of Agricultural Economics of the U. S. Department of Agriculture. Copies of Bulletin 745 may be obtained from the Publications Office, Texas Agricultural Experiment Station, College Station, Texas.

WHERE EISENHOWER STANDS
 By RAYMOND PITCAIRN, Editor
 Americans for Eisenhower

IKE AND CAPITALISM
 Where does Ike stand about "Capitalists?"
 Eisenhower's speech to 3500 newspaper boys at Philadelphia on October 6, 1948, made in defense of capitalism, is a gem. In it Ike the statesman talks to the nation's youth in words they understand. For Ike was himself a newsboy in Abilene, Kansas, and he has kept the common touch.

Who Are Capitalists?
 "Hello, boys I am proud to be with you tonight...
 "You fellows, in your job of delivering newspapers, must have had a chance to read in them a lot about a class or group of men called capitalists. Often they are referred to in terms of anything but respect. They are called anything but gentlemen. In fact, they are called the source of all our evils."
 "But now you are capitalists. You have exercised the right of a free American citizen to save a portion of what he has acquired by his own efforts and put it aside for a rainy day or possibly for your schooling or a bicycle—what difference does it make? You are a capitalist the second that you save any money."
 "Now because of that I congratulate you fellows heartily, for to my mind a capitalist, far from being someone to condemn, in this country is one who by his own efforts in the past has made it possible for this country to be what it is today. The accumulated savings of this nation by investment and reinvestment have established these great newspapers that you boys carry to your clients and have given you a chance for a job."

The Rights of Newspaper Boys
 "You read a lot about people who say, 'Why have property? Let the government have it. Then they will take care of us all when we are old.'"
 "Now, men, here is something to remember. There is a bunch of rights and privileges that you enjoy that they do not have in some nations. "One is the right to talk and say what you please as long as you tell the truth; to go to the church or the school you please; to take the job you please and to work at it as long as you please, and if you don't like it to quit when you please. And no one can stop you."
 "Now remember this. All of these rights are like a great stone arch. Remove one and all the rest fall. When you do not have the right to save money like you are doing, you are going to have no right to speak as you please, to worship as you please, to go to the school you please. Indeed, you will do as you are told."
 "The people who forget the value of these rights forget what American initiative, courage, and resourcefulness have done."
An American Sergeant's Idea
 Ike then went on to tell the inspiring story of an enlisted ordnance sergeant who had an idea which contributed greatly to the winning of the battle of the Normandy invasion. Dramatically and simply he told the boys how the sergeant had given the idea to his captain, the captain to General Bradley, and Bradley to him. "Then," said Ike, "we rushed to the sergeant."
 "Now that sergeant contributed more with his idea to win the battle of Normandy than any other single operating person I can think of."
 "And boys, I ask you this. In what country of the world would there be the enlisted man who would have the initiative, the ingenuity, the resourcefulness to think of the idea, and above all have the courage, the understanding self-confidence to come forward and present his idea and win a great battle."

FHA News from Wellman
 Tuesday night of last week, a gala affair was held at the Wellman school, when members of the Future Homemakers chapter entertained their Dads. On this particular night the girls all had dates with their Dads. Everyone met in the school cafeteria and after a meal of fried chicken and all the trimmings had been served, it was agreed that this occasion be made an annual affair, in the planning of FHA activities in the following year's program.

Seems everyone in the first and second year homemaking classes are wearing new dresses these days, since these classes have finished their class projects in sewing. The girls have enjoyed their sewing and some are planning to take sewing for home and summer projects.

The third year girls will complete their dresses this week to have the ready to wear on Easter Sunday.

FARM QUESTION BOX

ED W. MITCHELL

 General Electric Station WGY

- Q. In our yard we have two young Red Maple trees about one foot high. They have been there for three years and have not grown in height but have branched out. We have fertilized and watered them but they are in the open where they get all the wind, with no protection. This fall my husband put a large paint pail over them and fastened them so they wouldn't be blown. Will this smother them entirely? I thought the top soil should be opened and only sides left. Is this true?
 A. These "dwarf" Red Maples are fairly hardy but should have some protection in winter. The pails are too much cover so replace them with slatted crates, like potato crates and put three or four inches of mulch over the root area.
- Q. What is the remedy to prevent hens from laying soft-shelled eggs?
 A. Time is the best cure—the shells usually improve as hens get into full production, and become poor again toward the end of the laying period. Aside from providing oyster shell and limestone grit, all you can do is to raise birds on a strong and healthy diet, with plenty of calcium in the ration.
- Q. I would like to use the cans that food comes in, such as lard pails and coffee cans, to put food in for my freezer. Can I paint them with sap bucket enamel to make them safe for food storage? If I can't, will you tell me where I could purchase the gold-colored lacquer which is used in tin cans that hold food?
 A. The sap bucket enamel is the safest, cheapest, and best thing to use. I doubt that you need any coating as there is baked enamel lining on most cans.
- Q. Are the dried grapes we get for breakfast really prunes or just dried plums?
 A. A prune is a variety of plum. Some varieties of plums are especially good for drying and called "prune plums" or just "prunes."
- Q. Can you give me any information on whether using coal ashes from the stoker on the barn floor could be harmful to the soil? I use a large pail full each day.
 A. Coal ashes are about as inert and neutral as anything can be; they will neither help nor harm the soil.

Don't Always Blame The Children

We are hearing a lot about child delinquency these days, and perhaps in a few instances the kid is to blame. But more likely it is the parents. A case in point we wish to bring up is that of a 13-year-old boy down at Snyder. The reason we know this case so well, was that the boy was a student in Junior High, of which our son-in-law is principal, and we've kept up on it pretty well.

His parents were the kind that had to seek their own pleasure—children came second in their lives. From what we can gather, they were always out at "spots" at night, and the boy was allowed to ramble about town. Soon he began taking things that did not belong to him, as he was never given spending money. His case soon came to the notice of police and county officers. The result was that the boy was sentenced to serve a term in the reform school at Gatesville.

We don't say it because he is our son-in-law, but Herman Trigg has a heart as big as they are made. So, when the boy was started to Gatesville, his parents gave him a bus ticket and \$2. Then they left for New Mexico, where they now reside. Supposedly they forgot the child. But Herman and the officers at Snyder did not. They believed that if the lad was given a chance in the proper environments, he would make a good citizen, perhaps.

So, they got in touch with the superintendent of Boys Ranch near Abilene, who agreed to take the boy and give him a trial. The Snyder officers got the management at Gatesville to agree to release the boy to Boys Ranch, and Monday, Herman and the Boys Ranch superintendent drove down to Gatesville after the lad.

This could be a warning to many parents, that God has given them charge of a human life, and He expects them to so conduct themselves as to make good men and women out of the human soul committed to their care. So, don't al-

Rogers Family Home From Tennessee

Phillip Rogers and family returned last week from a two-week vacation in Tennessee visiting his parents, and other relatives. He gave us a bit on the storm that took four lives near the county seat, Bolivar, as well as wounding several others, and destroying their homes. The storm was even worse still further northeast at Henderson and Lexington.

About all it did in the Middleton area was to rain all night, but they stated that it looked so stormy that some spent the night in their storm cellars. Truth of the matter is, that the storm that struck Moscow, Bolivar, Henderson and Lexington, was a different one from the one that ripped through Arkansas, southeast Missouri and northwest Tennessee.

The one that came near Bolivar originated in Mississippi near Greenville, on the Mississippi river, and seemed to have played out at Lexington, Tenn. This information was taken from a weather map printed in the Memphis (Tenn.) Commercial Appeal on Sunday, March 23, following the storm Friday, March 21.

Mr. and Mrs. J. Fred Bucy returned home last week after a four weeks' trip that took them to South Texas, East Texas, and Independence, Kansas. They visited relatives, looked after business and fished.

ways blame the child for being a little outlaw. Maybe his parents were somewhat to blame, if not altogether so.

We are printing this so that if there are those in this community who are inclined to "have fun" and let the chips fall where they may, to get them on the right trail in child raising.

Kathleen Likes the Blood Bank Work

Kathleen Hardin, R. N., always manages somehow to visit the Herald office when she comes to Brownfield to visit her mother, and Levelland to visit her sister. Of course we have known each other as long back as she can remember, as she was born after we came to Terry county. Don't even faze her when we ask when she aims to marry. This time she wanted to get the Herald started up.

Anyway, she is now located at Beaumont, and their territory of blood gathering extends way up in the piney woods of east Texas, and as far west as Austin and New Braunfels. They even visited the State Penitentiary, where she stated she was an "inmate" for several hours. Had a copy of Echo, the State prison publication, with a picture showing she and several others of the blood bank personnel taking blood from the trustworthy convicts.

They didn't bother to visit any of the prison farms where the "bad boys" are confined. She told us another story of some of her experience in blood gathering for the Red Cross. It concerned a new comer from Germany, who while speaking English brokenly, appeared to donate a pint of his blood. He informed Kathleen that he was a German soldier in the last war, but strenuously denied that he or his folks were ever Nazis. He was captured by the Russians.

He was very sick, he said, and for some reason, he did not make clear, two American soldiers were confined for a time where he was. He became unconscious, and the two Americans carried him with them to an American hospital, where he was given a transfusion, other medical aid and food. He soon recovered and vowed he was going to that land where men would risk their own lives to save a stranger from sure death.

So, he came over at the first opportunity. He said, "I love this grand America above everything on earth, and will do anything in my power to help keep it great." His story might be learned and remembered by those who are a bit careless about their citizenship, or where our country is drifting.

By the way, we asked Kathleen if taking a pint of blood made people ill. "Very few," she stated, "and those whom it does not make sick seem to be disappointed. They expect it to make them ill."

Mr. and Mrs. T. J. Barrow and sons, 320 West Felt Street, visited in the home of her parents, Mr. and Mrs. Lee McClung, at Hillsboro last weekend, and they also enjoyed some fishing while there.

New Place Not So Tiresome, Says Mrs. Merritt

We called at the new location as well as the new building of the Claude Merritt grocery out on Tahoka highway, one afternoon last week. They really have a nice place out there, as well as about double the floor space. And Mrs. Merritt, who checks the groceries, says it is not so tiresome, as she has more room.

They have a very nice, clean stock of groceries out there, and the ceiling is much higher. Also, behind a partition in the rear, is a large space for storing surplus groceries, for the hot water heater, wash room, etc. They have the place well lighted and otherwise arranged.

Mr. and Mrs. Merritt stated that a lot of their friends and customers called on opening day at the new store.

May Fly With The Ducks

S. R. Loe and wife of the Foster Gin community, were in this week and dropped in to renew. S. R. threatens to join the ducks for a voyage east if these sandy-andys keep up. However, S.R. comes from old Haskell, laying just north of old Jones, where we came from, and he stated that when he left, Editor Roberts of the Haskell Free Press told him he would not like out here.

But Loe says he likes Terry better than Haskell, or even out at Pecos where he first went to "grow up with the country." So, you neighbors of Loe better pen him when the duck flying season starts, or you'll lose a good family and neighbor.

Is Little Abner Married Or Just A Dream?

The many fans of Lil Abner, the hero of Dogpatch, are just about as non-plussed as ever on whether or not he and Sadie Mae are really married. And some, who have for one reason or other missed a few issues of the dailies that carry the cartoons, were looking up the lost issues. Anyway, the couple are on their way to Nuyawk for their honeymoon.

While we have switched from the sublime to the ridiculous, did you read the one on the "absent minded professor" that was supposed to actually happen? One of the professors of a Dallas U. was invited out to Abilene for an address at the city auditorium. He came in his car, and had some trouble finding a place to park near the auditorium, but finally made it.

After the address, he hastened out to catch the next T&P train to Dallas, and after arriving there took a taxi home. Next morning he remembered he drove his car to Abilene. But there was one consoling thought . . .

He had bought a round trip ticket from Abilene to Dallas.

Speaker Selected For Tech Commencement

LUBBOCK.—An ex-football player, radio announcer, band director—turned preacher—will be the 1952 baccalaureate speaker at Texas Tech.

Dr. Robert E. Goodrich Jr., pastor of the First Methodist Church, in Dallas since 1946, will speak to the graduating class May 25. Dr. Goodrich was a member of the "Centenary Gentlemen" of football fame in the late 1920's; was program director and business manager of KTBS, Shreveport, in the early 1930's; and directed the Mustang Band at SMU from 1933 to 1935.

Gov. Dan K. Thornton, governor of Colorado and an ex-student at Tech, will give the commencement address May 26.

Santa Fe Train Goes Through Daily

Someone put out a report recently that on account of sand on the tracks piled up by sandstorms, the train missed going on through to Seagraves a day or two recently. Bob Harriss, local agent of the Santa Fe, says this is an error, and that the train has gone through each weekday as usual.

However, there is a crew here with a work train that has a Jordan spreader shovel that is putting the track in good shape. The crew will be here for some two weeks longer, Harriss stated.

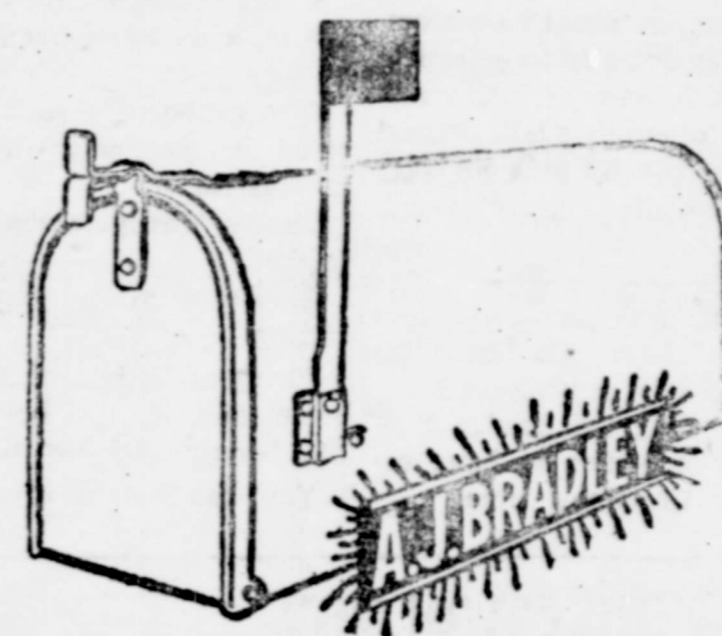

Mr. and Mrs. F. E. Forgy spent the weekend in Sudan with Mr. and Mrs. A. D. Linton.

Colorado Governor To Make Address

GOV. DAN K. THORNTON

LUBBOCK—It will be old home week May 26 when the class of 1952 at Texas Tech graduates.
 Gov. Dan K. Thornton, governor of Colorado and an ex-agriculture student at Tech, will give the commencement address. He is the second ex-tudent to speak to the graduating class at Tech.
 The ceremony starts at 8 p. m. in Jones Stadium.
 The Colorado governor was born in Hall County, Texas, Jan. 31, 1911. He moved with his parents to Slaton, Texas, where he attended high school three years, transferring to Lubbock High school to graduate. He attended Texas Tech two years, then continued his education at the University of California at Los Angeles.
 After leaving college he worked in the California oil fields, then moved to Arizona in 1936 where he started ranching and raising registered Hereford cattle. He moved to Gunnison, Colo., in 1941 to continue his ranching activities.
 Thornton was elected to the Colorado State Senate from the 11th Senatorial District in 1948. In 1950, the Republican candidate for governor died just shortly before the election. The vacancy committee named Thornton to run in the deceased's place, and he had only five weeks in which to campaign against the incumbent.
 He was elected by a sizable majority and was inaugurated as governor Jan. 9, 1951. The governor is up for re-election.

IT'S THE LAW

Specific Agreements Help Avert Disputes, Bar Says

A well drawn contract is designed to avoid the unfortunate disputes which are usually based on honest misunderstanding, and not to let one person take advantage of another. Lawyers agree that one of the most important functions served by the careful execution of a contract is the preservation of business friendship.
 Oral or written, such agreements are usually contracts. Probably the great majority of contracts that we enter into are never put into written form. Generally speaking, you can enter into a verbal agreement that is just as binding as a written contract. The important thing for each party to remember is to make the agreement or understanding perfectly clear whether it is oral or written. Usually you will find that the best way to do this is to put it into a written contract. Exact terms of an oral agreement may be difficult to establish if a disagreement arises.
 It is easy enough to define a contract as an agreement between two or more people where each of the parties does something or promises to do something in return for the act or promise of the other. The real problem is to be actually certain what each party has agreed to do.
 Suppose Mr. Householder has a piece of paper on which is written the heading "Proposal" and which thereafter reads as follows:
 "We will build a garage for you on your lot for the estimated price of \$800, work to be done in a workmanlike manner. All of our work is guaranteed to your satisfaction. Subject to the conditions printed on the reverse side."
 This is signed by the XYZ Company. Under this signature is the word "Accepted" followed by a line for the signature of Mr. Householder. His question is, should he sign it?
 Before he signs it there are some things he should consider. He should first remember that once he and XYZ Company both have signed the agreement no matter how formal it may appear, they have bound themselves to the terms as written and cannot later escape the obligations they have assumed.
 With this in mind, here are some of the misunderstandings that might arise from such an agreement: The company has agreed to build a garage—yet nothing is said about the size or type of construction. It has not even been stated whether it is to be a single or double garage. There is no indication in the agreement as to where on the lot the garage is to be built. It says nothing about when the work is to be finished. There is no agreement as to whether Mr. Householder is to pay in advance, in installment, or not until it is completed.
 Further, they have not actually agreed upon the price. The agreement refers to an estimated price of \$800. They should be specific and make either a fixed price contract or an agreement whereby the builder is reimbursed for his expenses plus a definite profit percentage. Perhaps the XYZ Company feels that if their expenses are higher than anticipated, they will be able to charge more than the estimated \$800. On the other hand, Mr. Householder probably feels that \$800 is the maximum price he will have to pay.
 The most important thing in a contract is to determine the essential elements of performance. As to the acts of each party determine "what" is to be done, "when" and "by whom." See that these essential parts are included in your agreement. In addition, remember that if a contract is worth signing, it is worth reading and understanding—all of it.

Q. I'm planning to buy a house with a GI loan. My lender wants security in addition to the house itself. Is this allowed under the law?
 A. Yes. It's a matter between the veteran and the lender.
 Q. I have a National Service Life Insurance term policy. Now that I'm on active military duty, my premiums have been waived. What must I do, after I am discharged, in order to pick up my insurance again?
 A. You must start paying the required premiums to VA, within 120 days after your separation from service. It's best to start paying the premiums as soon as you get out of service. The premiums won't be applied to your policy until it falls due, but in the meantime, you'll be guarding against any chance of your policy lapsing.
 Q. I am eligible for a pension because I am totally and permanently disabled as the result of a non-service connected disability. Will I receive an extra amount of pension because I have a wife and family?
 A. No. Under the law, pension rates are not based on the number of dependents you might have.

Book Review Heard By Maids and Matrons

"So Sure of Life," written by Violet Wood, was reviewed by Mrs. Bryan Edwards of Lubbock at the Maids and Matrons Study Club Tuesday afternoon of last week, when club members entertained guests at Seleta Jane Brownfield clubhouse.

The story is a biography of a missionary doctor who lived in the smoky mountain region in Tennessee. Mrs. Edwards has had extensive correspondence with the author of the book, and the doctor within the past few months, and is looking forward to a visit from Miss Wood in Lubbock.

A past president of the Lubbock Federation of Women's Clubs, Mrs. Edwards is a sister-in-law of Mrs. J. D. Akers, 402 East Buckley, who presented her to the club.

Program chairman at Tuesday's meeting was Mrs. A. W. Butler. Before the book review, hostesses Mrs. Leo Holmes and Mrs. Frank Weir served a salad plate and coffee. The Easter theme was used in table decorations and on the mantle in the clubhouse.

Out-of-town guests were Mrs. Charles Randal of Seymour, Mrs. David Mills of Seminole, and Mrs. C. F. Simes of Lubbock. Other guests were Mesdames L. M. Lang, J. H. Bounds, Frank Jacobs, Alvin King, Hub King, Ben Monnett, Thurman Skains and Mrs. Akers, and Judy.

Members of the club attending were: Mesdames W. A. Bell, Butler, Frank Ballard, Barton Evans, Lee Fulton, Holmes, Eunice Jones, Tom Keenan, E. F. Latham, W. F. McCracken, Looe Miller, E. B. Methodist Women Attend Conference

Mrs. G. S. Webber and Mrs. Bernarr Smith attended the annual Northwest Texas conference for the Women's Society of Christian Service, held in Amarillo several days last week at Polk Street Methodist Church.

About 297 delegates and 40 officers of the conference attended, with a large number of visitors. Mrs. M. B. Hilburn of Lubbock, president, presided, and outstanding speakers were heard at the meetings, and officers were elected for next year. President will be Mrs. C. C. Coffey of Lubbock.

Mrs. Joe Coffey of Amarillo, a teacher of Bible, gave the devotional each day, Tuesday through Thursday, and she discussed "The Power of Faith" by Lewis Benstock. The theme for the programs at the conference was "All One Family—God's Plan," and among those who were presented on the program were Miss Flora Foreman, who has recently completed 32 years as a missionary nurse in Africa. She talked on "The Advancement of God's Children in Africa." Mrs. Jordan Grooms, minister's wife of Lamesa, told of peoples in the Holy Lands, as she recently returned from a tour in Europe and the Holy Lands. Others on the program were Mrs. J. H. Rutherford of Stamford, a member of the board of missionaries and chairman of extension work in the conference; Rev. Thos. W. Watkins, promotion secretary in the Plainview district, told of "Our Brothers in Europe," as she recently traveled on the continent; and Mrs. Harold Soulen of Hutchinson, Kan., who is vice president of the south central jurisdiction of the WSCS, discussed the work of the year.

To Mrs. Webber and Mrs. Smith, a most interesting program was given on Thursday night at a banquet, when the theme "World Federation of Women" was carried out. The two from Brownfield went to "Yugoslavia for dinner," Mrs. Webber said, as banquet tables were decorated with flags and novelties from various countries where there are Methodist missionaries. Several missionaries related incidents, that have taken place in these countries.

Contributions Made to Jim Neill Library Fund At PTA Meeting Last Thursday

Checks in the amount of \$15 and \$5 were presented to the West Ward-Junior High school Jim Neill Memorial Library fund last Thursday afternoon at the regular meeting of the Parent-Teachers Association in the Junior High library at 4 o'clock.

The checks were sent by Mrs. Van Neill of Lamesa and Geo. W. Neill of Brownfield, wife and father of the late Jim Neill, for whom the library was named. At last month's meeting the Ted Hardy family presented 386 books to the library in memory of Mrs. Hardy's brother, Jim Neill.

As a courtesy to the vice president of the PTA, Mrs. R. D. Shewmake Jr., was asked to preside at last Thursday's meeting by the president, Mrs. Tess Fulfer. ELIMINATE FIRE HAZARDS IN BROWNFIELD

A 40% Increase In Fire Insurance Rates

Brownfield property owners now pay \$29,822.40* more for FIRE INSURANCE than in the year of 1950. Chief cause for this rise in Fire Insurance Rates is negligence in the elimination of fire hazards—hazards which have caused numerous fires in Brownfield during the past 18 months.

*Figures from Fire Insurance Division of the Board of Insurance Commissioners of Texas.

Fire Insurance Companies are sending trained representatives to Brownfield to point out Fire Hazards in an effort to prevent further loss of life and money by fires. These representatives will start inspection of Brownfield business houses on April 17th. Your cooperation in making Brownfield a safer town is requested.

GO TO CHURCH EASTER MORNING

There's an adventure in store for you this Sunday. An adventure you will share with your friends and your neighbors . . . an adventure that first gave new hope to the world almost two thousand years ago when an astonished populace cried out, "He Is Arisen."

For Easter is the observance of His Resurrection. It is an adventure of the spirit which we share with our families, our relatives, our friends, each Easter Sunday. It is an adventure in personal spiritual resurrection in which faith lifts our hearts and our strength as we review the life of His Son in the House of our Lord.

Go to Church this Easter Sunday, join in again proclaiming His Resurrection . . . be filled with the hope that will enable us to lift up the banners of peace and good fellowship. Go to Church this Sunday and go away cheered by the smiles that will light the eyes of your family and friends as you exchange greetings after the service.

Compliments

Political Information You Should Know

It is significant that many people are now becoming interested in our democratic form of government. We think that it is a healthy situation that our citizens are beginning to realize that in order for the grass roots of this country to have a voice in the election of their national officials, that they must start in the precinct conventional levels. In order for us to have a voice in the election of our President and Vice-President we must start at the precinct conventional level, elect proper delegates to the county convention and delegates from the county convention to the state convention and so on to the national convention. Heretofore, we have left this matter to a few men who generally meet in the so-called smoke-filled rooms and decide who shall be our candidate for President and Vice-President. Those of us who are Democrats have usually let this happen and vote for the nominee. It is up to us, if we want a change in our national policies, to start in our precinct conventions and see that the democratic procedure which we use are used for the benefit of the people as a whole, and that we get the man nominated for these officers who we would like to have.

In the years that the writer has lived in Terry County, Texas, I do not recall there ever having been held a precinct convention, in this county. I have attended many county conventions here and on numerous occasions we have had to call men to get them to come to the convention in order that we might have enough to elect delegates to the state convention. Not more than five or six have us-

Five Marriage Licenses Issued Last Week

County Clerk H. M. Pycatt issued the following marriage licenses week ending April 5:

James R. Thomas and Miss Shirley Ann Carouth; Refugio S. Rodriguez and Miss Busila Cavasas; Ralph Bone and Mrs. Myra Laney; W. E. Tucker and Miss Millie Janice Brown; Donald E. Dykes and Miss Irene Virginia Moeller.

During the same week one suit for divorce was filed with Mrs. Eldora A. White, District Clerk.

Mr. and Mrs. Bob Castleberry were in Brownfield on business Saturday morning.

tend to see that the precinct conventions are held, and that deleaguely attended. This year we ingates are elected thereat for the county convention, and that delegates to the state convention are properly elected and will attend the state convention to voice our vote in that convention.

Under the new election code passed by the legislature in 1951, there should be precinct conventions held in each precinct of the county at two different times during the year, and two county conventions. I give you herein the dates of these conventions, and I hope that you will keep them in mind and attend the same in large numbers. On April 23, 1952, the county executive committee will meet and post notices of precinct conventions for political parties desiring to send delegates to the national political convention. On May 3, precinct conventions will meet in each precinct. This is the first Sunday in May, and the purpose of these conventions will be to elect delegates to the county convention. Three days thereafter, to-wit, on May 6, 1952, which is the first Tuesday after the first Saturday in May, the county convention will meet to elect delegates to the first state convention. The state convention meets on the fourth Tuesday in May, which is May 27, 1952, to elect delegates to the national convention.

Many of the people do not know who their precinct chairmen are, and we give them to you here: Precinct No. 1, H. B. Virgil Crawford, Precinct No. 2, J. M. Burlison of Meadow, Precinct No. 3, W. R. Tilson of Meadow, Precinct No. 4, H. L. Holleman of Brownfield, Route 3.

Under the law each precinct is entitled to one delegate for each 25 votes cast for the governor at the last general election. Inasmuch as we had only 786 votes cast in the county for the governor at the last general election, this county will not be entitled to but three votes in the state convention.

Precinct No. 1 cast 294 votes for the governor at the last general election, and will therefore be entitled to 12 delegates to the county convention. Precinct 2 cast 262 votes and is entitled to 10 delegates to the county convention. Precinct No. 3 cast 122 votes and is entitled to 5 delegates to the county convention. Precinct No. 4 cast 108 votes and is entitled to 4 delegates to the county convention.

We are entitled to 1 delegate for each 300 votes or major fraction thereof cast for governor in the county at the last general election, to the state convention. Inasmuch as we cast only 786 votes we are entitled to three delegates to the state convention.

Further notices will be published about the precinct and county conventions, and it is hoped that these conventions will be attended in large numbers, and that people will voice their sentiments there, and will elect delegates to the county and state conventions to see that their desires are carried out.

BURTON G. HACKNEY,
Chairman Democratic Executive Committee, Terry County, Texas.

BROWNFIELD, TEXAS

Turning Back the Time
By A. J. S.

Last week, we said a bit about the "promoters" of a railroad from Stanton to Hereford, via Brownfield and Lamesa. Hockley and Lamb counties were unorganized at that time. Late one afternoon these gentlemen arrived in Brownfield from Stanton. They had much better cars than the general run of people at that time; were well dressed gentlemen, with the usual "duster" on over their business garments. They were fed and roomed at the Hill Hotel, for the night.

There was at that time a bunch of us boys that hung around John Cook's barber shop where Griffith Variety now stands, who were a bit skeptical of getting any railroad via promoters at least, and being just a bit mean, we decided to pull a show for the visitors. So, some of us made a noise like hissing steam; some puffed, some tooted, while some tried to sound like a bell. This all in marching formation on the north side of the square out in the middle of Main.

At that time, this was a country of make-believe, in a way. Most of us in our more normal moments believed that some day this would be a great country, of nice streets, beautiful, clean towns, and prosperous stockmen and farmers. But as far as dignity went, there was very little here in practice.

We remember well the night before we pulled out from Anson for the wild and woolly "hawldies." The elder brother, a teacher and minister, his wife, a ten year old daughter and a five year old son, were returning from church down one of the main residential streets of Anson, and the writer and children got to playing "tag." Next morning, when we were taking the train for Abilene to transfer to the T. & P., our brother gave us a little fatherly lecture, being 10 years our senior.

When you get to Brownfield, Jack, please remember that you are a grown man, so quit playing tag with children, in the streets.

Use some dignity." And we promised faithfully that dignity and more dignity would be the watchword. And we started off fine. In fact, for the first week or two, a Kentucky Colonel could hardly hold us a light for pose and dignity. But after a few practice scenes as described above, we found that doggone few of the other people were dignified—if any—and why be a lone wolf? Even the oldest barrister, Judge W. R. Spencer, officing next door to the Herald office, would get a big crowd around him on the gallery out in front and spin one of his funny yarns, and the roar of laughter might have been heard back at Anson if they were listening. Judge Spencer later became the first District Judge of the newly created 72nd Judicial district.

And when our brother came out in June to hold protracted meetings at Lamesa, Tahoka and Gomez, he came upon us rather unexpected, and saw one of our undignified stunts as well as heard it. We were not expecting him until after the Lamesa and Tahoka meetings, but he got a chance to run over between the Lamesa and Tahoka revivals. Finding no one in the Herald office (it was not locked—nothing was), as it was growing late, he stopped at the Holden Grocery to ask if they had seen us. By that time we had reached the southwest corner of the courthouse square.

It was near dark, and a jackrabbit, probably getting a drink from the leak of the horse trough, was ambling along on three legs toward the draw. We decided that jack could make better time, so we began yelling (hollering) like people back east do when their condogs strike a trail, and we had a fair pair of lungs, and was probably heard half way to Gomez. Whereupon, our brother stated to Mr. Holden, who later became our father-in-law: "I hear him." In fact, he could see us, and we saw him about the same time.

We went meeting him, and before we met we began to laugh. "What's tickling you," he wanted to know. "You sure caught me on my dignity with a vengeance," we replied. Both laughed, and then we explained that dignity in pioneer Brownfield was for sale at a penny a dozen. So much for this week.

Mr. and Mrs. J. E. Eakin Jr., of Dallas were home last weekend visiting their parents, Mr. and Mrs. Ross Black and Mr. and Mrs. J. E. Eakin Sr. Mr. and Mrs. Eakin Jr. plan to move to Midland in the near future.

Mr. and Mrs. J. A. McCraw, 1099 East Oak, visited his niece at Earth, Texas, Sunday.

Stricklinly Speaking

By OLD HE

The storms in Arkansas and other southern states, are bad in many ways, the Red Cross makes plain. Aside from the many dead, more than 1200 were wounded, and more than 700 are hospitalized, some of them perhaps will be in hospitals for months. Then there is the big loss in property, and from another point of view, White county, Arkansas, is one of the nation's greatest strawberry producing areas.

With no housing left to accommodate the migrant pickers, it is feared this rich crop of berries will have to be wasted. Then there is the great question of the survivors of families, perhaps small children with one or both parents killed. These dependent children must be clothed, fed, educated and given a home until they are able to take care of themselves. So, this makes the work caused by the vicious storms a long range program. But we don't believe the Red Cross or the American people will fall down on their duties to these unfortunate people.

Anyway, whether or not you are for Senator Taft, he leaves no doubt in the minds of people where he stands. He's no fence rider. For instance, down here in Texas he stated that all tidelands belong to the states which they touch, and his vote has been consistently in that direction. And while he is opposed to any socialistic trend of aiding our farmers, he favors intelligent farm programs that recognize the special needs of the farmer.

And he left no doubt in the minds of those who heard or read his speeches in Texas where he stands on states' rights. He opposes any great concentration of power at Washington. Bad for the nation. And he has worked on programs in cooperation with southern Senators and Representatives. If such Republicans as Taft and others had not worked well all along with the representatives from the South, we would already be much further along the trail toward Truman socialism.

It may somewhat dampen the ardor of the Panhandle Press Association that Gen. E. O. Thompson is not to throw a big feed at his Herring Hotel this year, nor possibly ever again. This sad news comes after 29 years of footing the bill for the feed of some 300 newspaper folks, generally on Friday night. In times past, we have enjoyed a number of these feeds.

But figuring at a low of \$3 per plate, that runs into real money, fast. And when it is remembered

What's That About My Votes, Podnah?

—Washington Times-Herald

that back several years ago, when the feeding first started, \$1 per plate would have been considered reasonable, and perhaps 100 or at best 150 to feed. The Herring has always been the headquarters place, and the accommodations to the news folks have always been superb. So maybe the General figures he is doing his part in putting up the yaps from the forks of the creek, during conventions.

Now comes Claude Calan in his column, "Cracks at the Crowd," and 'tows as how he is pretty well acquainted in his neighborhood, and for that reason he knows a few folks who are not in the employ of the government.

Yeah, the politicians keep talking economy up there on the Potomac. In fact some of them go so far as to threaten a big appropriations cut for the boys and gals who warm the chairs in the "boorrows." But nothing ever happens. It is just for home consumption. Next year there are always more employees in Washington than the year before.

An now comes an actor out there at Hollywood, who perhaps would not know a cow from a steer, and asserts that the report of foot and mouth disease down in Old Mexico, was just a stall by the Agriculture Department to raise the price of beef.

Never was any foot and hoof disease down there, he asserts. This actor has a fair chance of being summoned to Washington and state before some investigating committee just where he got his expert information.

Speaking again of economy, we at least have one army man, Maj. Gen. Bruce Clark down at Camp Hood, who is trying to drill into the men in training what the things they use, cost the taxpayers. And that it costs the folks at home some \$450 to equip each soldier for the service.

They are putting price tags on every article in use from pants to tanks. They are also taught the Do's and Dont's about the care of everything they use, such as economical maintenance and conservation. Not bad.

It seems that Lubbock and Garza county propose to take a free ride on the "rain increasing" proposition. While not subscribing any money, they hope to be near enough to get some of the slobber from the sidelines.

No, no, no, says the Trumancrats when HST announced that he "did not choose to run." Sure is disheartening to lose a well paying job, we'll have to admit. But the nation as a whole has to be considered as something aside from an organization to pay big salaries for little work from cronies.

C. H. Heafner of Wellman was a visitor in our office recently, and we asked about the condition of the soils in that area, knowing that it has some of our sandier areas. Perhaps we might say that they

BEAUTY TRICKS AND NOVEL ACCESSORIES ADD GLAMOR

Special make-up care, in preparation for an important evening, boosts the morale of this young woman as well as enhancing her appearance. Eyelashes, curled for the occasion, add glamor and allure in keeping with the party mood.

BY EDNA MILES

MANY women, looking forward for weeks to the date of some special occasion, find themselves puzzled and saddened when reality, finally arrived, falls far short of anticipation.

It's the party mood, in many cases, that makes the difference. To create a gay mood—in yourself and others at the party—it takes a bit of advance planning and effort.

If you've been in the habit of letting your daily beauty routines slip a little, make this the moment to revive your important day-by-day good looks tricks. Make it a time, too, for special effects with which you ordinarily don't bother. Not only will a sleek, new hair-do, foundation and powder applied with extra care, lips colored with new precision and dash, make you look better but these routines make you feel better, too. For additional morale-boosting, try a special manicure, and eye make-up, too. If you don't care for colored eyeshadow, highlight your lids with a transparent eye cream. And curl your lashes for special allure.

Special, clever little accessories can guide the observing eye to your special brand of evening beauty, too. Such devices as pinning jeweled butterfly pins to your long evening gloves, then fastening matched ones to your ears should prove as effective for you as for film actress Donna Reed, who originated this arresting trick.

Planned-in-advance jewelry tricks, such as the matching jeweled butterflies that highlight the gloves and ear-loops of Columbia Pictures star Donna Reed, do much to make an event of what otherwise might be just another evening.

It is our opinion that under the new election law which was passed by the legislature in 1951, the provisions thereof concerning the sworn statement by candidates setting forth their campaign contributions and expenditures must be filed on or before the dates set forth hereinabove.

Any candidate who fails to comply with this law is subject to having his name left off the ballot. All candidates for public office should take notice of this provision and be sure that he complies strictly with this portion of the law.

On the 3rd Monday in June, which is June 16, 1952, the County Executive Committee will meet to estimate and apportion cost of primary among the various candidates for nomination and to determine by lot the order of candidates names in the ballot and appoint a sub-committee to make up the official ballot. After the cost has been assessed to the various candidates, this assessment must be paid on or before June 21, to the County Chairman, in order for candidates to have his name placed upon the ballot.

The above information and dates covers only the first primary. We will broadcast publish information and dates as to the second primary.

First April Shower Tuesday Night

The first April shower of the season, said to make May flowers, fell here Tuesday night, from about 9 to 10 p. m. There was considerable thunder and lightning, and at one time the hail peppered down, ranging from the smallest to the size of an old black walnut. There was a quarter inch of moisture in the USWB gauge, Wednesday morning. And now that the elements are kinder moistened, maybe we'll have some more, with the aid of the rain "increasing" machinery in operation hereabouts. Very likely the hot air from the south for several days, meeting the cold front coming in from the blues caused the rain. We hope for more.

Funeral services were held on Monday, March 31, for Floyd David Rowden, 26, in the East Side Church of Christ, Lubbock. Rowden died in Seminole Saturday night, March 29, of injuries received when a truck bed fell and crushed him. Interment was in a Lubbock cemetery.

Ed Thompson's Brother Seriously Hurt

Late last week Ed Thompson of south Fifth received a message from one of Dude Thompson's sons at Fort Worth, that his uncle, Albert Thompson of Dallas, was badly hurt. The report was that a drunken soldier ran into Albert's car, turning it over, throwing Albert out of the car.

Apparently Albert landed on his head, as he was reported to have been on the operating table for three hours, and was having convulsions the last heard here. Philip Thompson, wife, and his mother left Friday morning for Dallas. Ed not being very well himself, did not go.

The folks returned about 10 Sunday night, and reported there was little hopes for Albert. Even if he recovers, they reported the doctors as stating he would be paralyzed or blind.

Later—A message stated that Albert died shortly after 10 p. m. Monday.

Still No Votes For Connally

With this week, we are winding up our straw poll on the US Senatorial race. Ten votes were cast this week, all for Daniel. Last week it stood 11 to 0. So, as of the present it stands:

Daniel 21
Connally 00

One remark this week: "Three of us are thinking the same way." Another, "we will have two for Daniel." One from Lubbock took the trouble to sign his ballot. There are surely some people hereabouts who are for Senator Connally, but probably not enthusiastic enough about it to be audible.

Most of the damage to the city of Rotterdam by German bombing on May 14, 1940, has been repaired.

Society, Church & Club News

Mr. and Mrs. O. R. Douglas and children, Mr. and Mrs. Frank Jordan, and Mr. and Mrs. Frank Szdloski and daughter, Kay, and son, Jimmie, will drive to Mexico City in June to attend the Lion International convention, which starts there June 25. Mr. Jordan is an international counsellor, so he will be going in an official capacity. Nice vacation trip for all of them.

Mr. and Mrs. Farris Nowell and children will go to Crosbyton when school is out today for the Easter holidays, and Coach Nowell will become a "flower artist" over the weekend! Mrs. Nowell's parents, Mr. and Mrs. Pennington, have a floral shop there, and it is understood each year that the daughter will assist her parents with the Easter Flower Rush! She's taking coach along this year for a different kind of "work-out" from that he gives the boys at school!

Mr. and Mrs. Ruby Neal is one of Brownfield's newest residents, and she will soon occupy a brand new house that has been built especially for her near the home of her son-in-law and daughter, Mr. and Mrs. W. N. Lewis, 608 East Hill.

Mrs. Neal has moved from Dallas, and is not a stranger in Brownfield, as she has visited here on various occasions, she has met many nice people. Her son, Bill Neal, lives in Lubbock, and another daughter, Mrs. Herbert Roark, resides at Bellville. She has placed her letter in the First Baptist Church, and has already been doing lots of baby-sitting, which she enjoys!

We surely hope Mrs. Neal will be happy in Brownfield. We think it such a nice thing that she will still be able to maintain her own home, where she can have all of her treasured possessions, and still be close to her children. Of ten older people who have lost their companions do not find it easy to live in one of their children's homes... we are sure it is difficult to make adjustments to life after rearing a family and "being left."

We are reminded of a few near and dear friend, Mrs. R. T. Creel, of Seagraves, who was successful in keeping her own home, and after her own things, for many years after Mr. Creel passed away. They were pioneer residents of the Sligo community out in Yoakum County, where they farmed many years.

After Mr. Creel's death, she requested that her home in Seagraves be near the First Methodist Church so she could attend as long as she was physically able... and she did... many times on Sunday mornings when the weather was too disagreeable for many of us to go to church. Mrs. Creel was there, as was typical of her beliefs... that everyone should attend religious services regularly.

She walked to town several times a week for her mail until she was almost 80... and usually on Monday mornings... much to the displeasure of her children, who could have had her laundry done... she built a fire under a big black pot in her back yard, sometimes long before sun-up, and started her wash with a rub board!

Anyone visiting Mrs. Creel after four o'clock in the afternoons found her in bed, as she grew older... but she never failed to be awake about four in the mornings, as she used to do while rearing her family. A wonderful person, we always felt better after a visit with her, as she never failed to make us feel that life was worthwhile, regardless of how "far down in the dumps" we might have been.

A son, Jack Creel, and a daughter, Mrs. M. B. Clayton, live in Seagraves, and one of her grandsons is Jack Earl Creel, who is farm editor for radio station KFYO in Lubbock.
