

Prominent Japanese Speaker, Author Is Coming Here Monday

One of the leading educators and churchmen of Japan, the Rev. Moritka Samejima, president of Chinzai Gakuin, Methodist secondary school in Nagasaki, Japan, will be the guest-speaker at First Methodist Church in Brownfield.

Rev. Moritka Samejima

Monday night, June 15, at 8 p. m. He is on a speaking tour of Methodist churches in the United States.

Chinzai Gakuin was established as a school for boys by the Methodist Church in 1881. In 1924, after a disastrous fire, a new site was secured, and a main concrete building, housing more than a thousand boys, was erected. This building was almost completely destroyed when the atomic bomb was dropped upon Nagasaki in 1945. After the war, the institution was moved to suburban Isahaya, and reorganized as a co-educational school, to serve the needs of a wide rural area. It is now in process of becoming an agricultural-industrial school, providing opportunity for self-help for the students, especially those from needy families. Two buildings have been erected, and the school enrolls 750. In 1951, Mr. Samejima was called to the presidency, and has been active in establishing the new curriculum.

Mr. Samejima had his earliest education in public and Methodist schools in Japan, and was graduated in 1927 from the theological school of Kwansai Gakuin University, Kobe. He then came to the United States, where he entered Emory University, taking MA and BD degrees; later receiving an STM degree from the San Francisco Theological Seminary.

Ordained to the ministry of the Methodist Church in 1933, Mr. Samejima was successively pastor of the Kobe Hirano Methodist Church, of the Seoul, Korea, Methodist Church, and superintendent of the Korea district of the Japanese Methodist Church. Later he was a lecturer at Severance Medical College and the Korean Methodist Theological Seminary in Seoul, and then dean of Kwansai Gakuin University in Kobe, Japan. During World War II, when the United Church of Christ in Japan was organized, he was in Hongkong for a period as advisor to the Christian churches there. He has received letters of appreciation from various churches in south China for his services during that period.

Mr. Samejima is the author of "Solution of Human Suffering," "Biography of Bishop Akazawa," and the translation of "Outline of Christianity" (Overbridge).

Rev. Dallas D. Deason, pastor of the First Methodist Church, invites the public to come and be in this service.

Criminal court will be held Monday, June 15, at 10 a. m. Judge Lewis B. Reed will be trying the cases.

Tax equalization board has been in session in the City Hall this week. Announcement will be made soon concerning the public hearing date.

KIWANIS CLUB MEMBERS have been busy as beavers for the past two weeks, plowing and planting grass at West Ward School. At right, Lee Fulton, chairman of the project committee, listens as Bill Cope, president of the Kiwanis Club, tells him that the club doesn't know, as yet, where they will obtain all the grass for the club's new planting project, at the Jesse G. Randal School. Some of the grass used at West Ward was taken from the draw east of Coleman Park, and persons across the street from the school also contributed grass from their yards.

Resolution On Memorial Day Observance

Whereas, Memorial Day has been set aside, designated and dedicated to the heroic soldiers, sailors, and marines, who, in past wars, have died in the defense of our country and way of life.

Whereas, our lives, our liberty, our homes, our property, and all spiritual and material blessings were purchased and secured by the blood of our fallen comrades.

Whereas, each citizen of our great country owes all to our heroic dead of all wars, who, on the far flung fields of battle, in love and patriotic devotion, made the supreme sacrifice for each of us.

Whereas, we, as living veterans, hold many things near and dear to our hearts, which even money can not buy. One of the things sacred and dear to the hearts of all living veterans, and which even money can not buy, is our respect and reverence for the memory of our fallen comrades, who wanted to live and love, and who deserved to live and be loved, but who, true to their patriotic trust and sacred devotion to duty, and love of country, gave themselves and their last drop of blood so that we might have and enjoy life, liberty and the many material and spiritual blessings of our day.

Now, therefore, be it resolved: That the Hand Brothers Post No. 6794, of the Veterans of Foreign Wars of the United States, do, by this resolution, unanimously adopted and passed at a regular meeting of such post on June 9, 1953, publicly commend and express our appreciation for patriotic citizens of Brownfield who, on Memorial Day just passed, forsook the expectation of gain and profit, and closed their businesses in honor and respect to our heroic veterans of all past wars who gave their lives for us and our country.

Be it further resolved, that a copy of this resolution be given our local newspapers, with the request that same be published.

Patriotically submitted,

VETERANS OF FOREIGN WARS OF THE UNITED STATES,
HAND BROTHERS POST NO. 6794

Grady Elder A Hit On TV, Lauding Brownfield, Terry Co.

Grady Elder, manager of the Brownfield Chamber of Commerce, starting at 6 p. m. last Friday, was on television for 15 minutes, June 6, over KDUB-TV at Lubbock. He spoke on, "Why Brown-

Grady Elder

field is the best town in west Texas," and Jack Starr, announcer at KDUB, interviewed him.

Mr. Elder stated, "The kind of people in Brownfield is the most important factor in making it a good town. They are civic minded, good church going people, who put their money and effort in making Brownfield the best town in west Texas. I think that the Rotary Club Harvest Festival is evidence of the cooperation given by everyone to put Brownfield on the map. Businessmen spend thousands of dollars annually, and give their time to make the event a success. No other town our size in this area can produce anything as big as the Harvest Festival, because no other town has the kind of people that we do here.

"Last year we had 38 blocks of impressive parade; Governor Shivers spoke, and thousands of people attended from the surrounding area.

"Terry county has a salt manufacturing company (Frontier Salt Company) that produces 2,200 tons of salt monthly from a 500 foot thick deposit under the earth. They pump fresh water into the salt deposit, which penetrates, forming a brine that is pumped out and evaporated, leaving salt for manufacturing and stock use. We also

Kiwanis Club Sodding Project Completed At West Ward School

Have you noticed the changes that have taken place on the grounds of West Ward School? The Kiwanis Club has been hard at work, plowing the grounds and setting out grass, for the past two weeks. Last Monday the club started planting grass at the Jesse G. Randal School, and among other projects that they have completed this year are the three concrete barbecue pits at Coleman Park, and they plan to build three more.

Twelve to 15 Kiwanis Club members worked every day at the West Ward grounds, and have really changed an "eyesore" into a fine looking school yard. Lee Fulton is chairman of the project, and others on the committee are J. C. Powell and T. A. Wartes, Sr. Other Kiwanis members that are helping are Bill Cope, president; Don Cates, Shorty Collier, Andrew Cooper, Eldon Cornelius, J. B. Curtis, Ted Fox, Bob Hamilton, Dr. R. L. Kennedy, Bill Neel, and Delwin Webb.

The Cub Scouts, which the Kiwanis Club sponsor, helped with the work on the first day.

Mr. Fulton said the club is grateful to the following persons for helping to make the venture a success: Jerry Dumas, for furnishing trucks to haul the grass; Grady Goodpasture, for use of his power shovel and operator to dig up grass; and to Noah Lemley for furnishing trucks.

Mrs. Bernard Lay Sworn In Precinct 3 Commissioner June 5

Mrs. Bernard Lay was sworn in as commissioner of precinct 3 at a special meeting called by the commissioners' court, June 5, at 3:30 p. m. She will fill the unexpired term of her late husband, Bernard Lay. She has 19 months to serve.

The Lay family moved to Terry county in 1944 from Howard county, and at present Mrs. Lay lives five miles northwest of Brownfield.

Mrs. Lay is a graduate of Coahoma High School, and Arlene's Beauty School at Lubbock, and she worked as a beauty operator in Brownfield until she and Mr. Lay

JAYCEE RODEO AND PARADE SLATED TODAY WITH MANY NEW FEATURES

The Jaycee Rodeo parade, today, will form at the Junior High School on Main Street, but the actual starting point will be the intersection of Main Street and Lubbock Road at 3 p. m. From there, the parade will go to the Methodist Church on Main and turn south one block to Broadway and continue to Ross Motor Company, then turn north to Main Street. From Main the parade will go to First Baptist Church and turn north to West Hill, go west until it reaches the railroad tracks, where the parade will disband.

Fifteen sheriff's posses have accepted invitations sent them by Terry County Sheriff's Posse. They are Lamb County Sheriff's Posse from Littlefield, Idalou Riding Club, Gaines County Sheriff's Posse from Seminole, Post Stampede of Post, Cochran County Sheriff's Posse of Morton, Hockley County Sheriff's Posse of Leveland, El Paso Sheriff's Posse, Fisher County Sheriff's Posse of Roby, Lynn County Sheriff's Posse of Tahoka, Hereford Riders, Dawson County Sheriff's Posse of Lamesa, Slaton Rangers, Ector County Sheriff's Posse from Odessa, and Crosby County Sheriff's Posse from Crosbyton. This makes the largest number of posses that have been in any of the Brownfield Jaycee parades.

Judging of the beard contest will

be held Thursday afternoon on the northeast corner of the courthouse square, immediately after the parade. Three prizes of \$15 each will be awarded for the best full grown beard, the best trimmed beard, and the most original beard.

Three trophies will be presented to the three winning riding groups in the parade. First place trophy is donated by the Brownfield Chamber of Commerce, second place trophy is donated by the Brownfield State Bank and Trust Company, and the third place trophy is donated by the Terry County Sheriff's Posse.

The opening rodeo performance will be at 8 p. m. tonight, with night performances tomorrow and Saturday night at 8 o'clock. Events for the rodeo performing will include calf roping, bulldogging, bareback bronc riding, wild bull riding, and a girl's contest.

Neal Gay, arena director, will be responsible for putting on the rodeo and seeing that that everything goes off alright. Stock will be furnished by Tommy Steiner, well known rodeo promoter and owner of the finest, roughest string of rodeo bulls in the nation.

Featured attractions in the comedy line will be Sid Moore, who has two dog acts. He has performed at the biggest rodeos in the world, including Madison Square Garden in New York, Chey-

enne, and Omaha. Bobby and Gene Clark, two of the world's greatest burlesque bullfighters, will also give performances each night. They have performed at Madison Square Garden the past two seasons, and have also put on their act at the world's greatest rodeo arenas.

Included among the prizes for best performances will be a choice of a western shirt and trousers, or western boot and skirt, by the Western Boot and Shoe Shop, to the girl that wins the barrel races. Clifton Jones is owner of the shop, and he is also giving a trophy buckle to the winner of the champion calf roping contest, and a true Manila rope to the man that takes the longest in calf roping, but still makes time. The Terry County Sheriff's Posse will serve barbecue suppers all three days from 5 p. m. to 7 p. m., at the rodeo grounds, and the visiting posse members and their families will be served free. Other persons wishing to eat may purchase tickets at a dollar each from members of the Terry county posse.

A street square dance was sponsored by the Circle and Square Dance Club of Brownfield last night. The street on the east side of the court house was roped off and music was furnished by Walt Gehring and his musical entertainers of Lamesa.

HARVEST QUEEN TO GET SCHOLARSHIP OR CASH AWARD

The lucky girl that wins the will be given a \$300 scholarship, or will receive her choice of a \$500 scholarship, or \$400 cash; runner-up receives a \$400 scholarship, or \$300 cash; and third place winner Harvest Queen contest this year \$200 in cash. The contest is an annual event sponsored by the Brownfield Rotary Club.

Three girls have entered the race and will be sponsored by their respective high school classes. These girls are Bobby Jean Taylor, member of the sophomore class, and daughter of Mr. and Mrs. Jim Bob Taylor, 803 East Hill; Patsy Kay Rogers, member of the senior class, and daughter of Mr. and Mrs. C. C. Rogers, 316 East Broadway; and Virlene Sharp, member of the junior class, and daughter of Mr. and Mrs. Virgil Sharp, 206 East Tate.

The Rotary Club is paying all the expenses of advertising that ments in newspapers, and window cards, in addition the Rotary will buy the girls' formal, and furnish their float for the parade. Definite date of the crowning of the queen has not been decided upon, but it will be either the third or fourth Thursday in October.

APPLICATIONS FILED BY NOTARIES PUBLIC

A total of 130 applications have been filed for reappointment for notaries public, according to a report Tuesday this week from County Clerk Wade Yandell. Applications numbered 232 last year, but some of these have moved away or won't qualify for other reasons.

Bond for reappointment had to be filed by June 10, and those that failed to file an application with the county clerk for new appointment.

bought the Johnson store in November, 1948, which she still owns.

Mrs. Lay has two children, Mrs. C. C. Ming, Jr., of the Johnson community, and Mrs. John McCraw, 1013 East Cardwell.

Commissioners attending the called meeting were Earl McNeil, precinct 1; Carl Stephenson, precinct 2; and Bob Burnett, precinct 4. Others attending were County Judge Leonard Lang, Dube Pyeatt, auditor, and Wade Yandell, county clerk.

CITIES SERVICE CO. OPENS DISTRICT OFFICE HERE

The creation of a gulf coast division oil production office at Houston, with J. P. Straight as division superintendent, and a new district office at Brownfield, with E. Y. Wilder as district superintendent, has been announced by Cities Service Oil Company.

Announcement of the new offices and appointments came from J. A. Cleverly of Bartlesville, vice president in charge of oil production.

J. P. Straight, the new division superintendent, has been with Cities Service almost 25 years, having joined the company as a geological scout at Oklahoma City. Shortly thereafter, he was transferred to the oil production division, and has worked in various capacities at Liberty and Gladewater, Texas. He was appointed assistant division superintendent for east Texas and the gulf coast in 1943.

Wilder takes over the new position of district superintendent at Brownfield with a wide variety of experience. He was first employed by Cities Service in 1937, as a junior engineer, and has served in various capacities in Kansas and Texas. He was named district superintendent at Columbus, Texas, in 1945.

D. S. Bodie is the new district superintendent at Columbus. He was production foreman at Snyder, and is a long-time Cities Service employee. He joined the company in 1933, and served at Odessa and other Texas points.

Headquarters for the newly-created gulf coast division will be in the Mellie-Esperson building, Houston, where Cities Service maintains a division exploration office. Brownfield district offices will be in the Cities Service building in Brownfield.

Miss Mae Beaver left Saturday for a vacation in Arkansas and

Frost on the evaporator of the refrigerator should never be allowed to become more than 1/4-inch thick.

Dinah Shore and Robert Cummings selected as Hollywood's best dressed.

LAL COPELAND GETS A FREE TRIP TO ATLANTIC CITY

The Herald had a letter under date of June 5th, from the Southwestern Appliance Co., Amarillo, stating that 22 Philco dealers in the Tri-State area, had been given trips to Atlantic City. As we understand the matter, Lal Copeland left late last week via plane from Amarillo. This appliance company covers extreme west and northwest Texas, western Oklahoma and eastern New Mexico.

To get this trip, these 22 hustling radio, television and appliance dealers, are all hustlers, and Copeland is designated as one of the leaders in the Tri-State area. He will get to knock around on the famous board walks of the Atlantic seashore city, as well as attend the meetings of some 7,500 Philco dealers.

Sonny Curtis Elected President of Area II Sul Ross FFA Meet

Sonny Curtis of Meadow was elected president of the Area II Future Farmers of America for 1953-54, at a meeting and officers training school held recently at Sul Ross State College. Sonny's parents are Mr. and Mrs. Arthur Curtis.

Earl Brown, son of Mr. and Mrs. Earl Brown of Brownfield, was named Second Star Farmer, and was presented a cash award of \$50 at the area FFA meeting.

First place went to Monte Griffin, 18 year old farm youth of Lamesa. Griffin made a net profit of \$3,078.40 from his supervised farming program, and was selected the Star Farmer from 72 FFA members who applied for the Lone Star Farmer Degree. He was presented a \$100 award.

In the national chapter contest, Brownfield FFA chapter was judged the best chapter in Area II, Iran second, and Lamesa third. Judging was on the program of working and the achievements of the participating chapters. These three programs of work will be entered into competition on a statewide basis at the state FFA advanced degree and ward committee meeting in Austin.

The American Creed

We believe in the United States of America as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many states; a perfect union, one and inseparable; established upon those principles of freedom—equality, justice and humanity, for which American patriots have sacrificed their lives and fortunes.

—Terry County Herald

The search for oil is an interesting matter, even to the uninitiated. We get two magazines put out monthly by the majors, that are very interesting to us, The Humble Way, by Humble Oil & Refining Co., and Horizon, by the Stanolind Oil & Gas Co. The former had an interesting article in the current issue about the continued search for oil and gas fields and to add to the reserves. Most of us have heard of the "Water Witch." Such a personage is illustrated on page one of the article in question, with his forked stick. But from the pioneer appearance of the "witch" man, he was not in search of oil, but water. From what we have gathered about the matter, the search for oil in the pioneering days of that industry, was just about as crude as the old whiskered man looking for water with the forked stick. But the search for oil is now very scientific. Courses on the matter are now taught in our colleges and universities, especially in our big oil producing states. What we term the "rock hounds" out here in the oil fields, are better known as geologists, and many times these men are able to tell what lies under the surface. Later came the seismograph crews, with their complicated, but efficient, machinery. A small hole is drilled in for a water well, at varying depths, and a small charge of dynamite is lowered to or near the bottom. A transmitter of sound and vibrations is also lowered, but the main part of the seismograph is located nearby in a truck with needles of a sensitive nature, not unlike those used in observatories to locate the direction, distance and severity of an earthquake. An electric spark sets off the charge of dynamite, and the seismograph crews are ready to read results. Mud and water spouts 50 to 75 feet in the air at the explosion. These men, with their sensitive instruments, have made it possible, not only to keep ahead of the demand for gas and oil, but we now have quite a reserve, much of which is located in our own immediate vicinity. On account of the great demand for oil and gas, during the War II years, the reserves of oil dropped some, as there was a great demand for men as well as the oil and gas. But since the close of the war, the reserves have gone up again, and we now have 1 1/2 barrels found or in reserve, to each barrel produced. And new oil fields are being found constantly.

We seldom branch out in review or preview of books of any nature, as we usually leave that up to the daily press or the magazines. But a series of books especially touching the South are now being printed. The publishers are the University of Louisiana Press, in conjunction with the Littlefield Fund for Southern History of the University of Texas. Volume 6 of the 10 volume series is to come in the press in June. The author of the history is Avery O. Craven, presently professor of history in the University of Chicago. The period of history covered by the books range from 1607 to the present. Prof.

Craven takes up the matter of the ideas of the South in the pre-civil war period, veering toward nationalism. This seems to have been brought about, not only because of slavery in the South and anti-slavery in the North, but the South seemed to have been well satisfied with its leisurely farming process, from the smallest to the largest plantations. On the other hand, the North was fast developing as a manufacturing section, as well as farming, and they had no need for or could they use slaves profitably. And so varied was their ideals and expectations, that there was little for either section to compromise on, and live in peace. Hot tempers and blood shouted defiance. Each side wanted its "rights," and they were determined to have them, regardless of cost in blood and money. And Mr. Craven doesn't believe it possible to have avoided the break without one side or the other yielding. Perhaps the section in which the writer was reared, the hate following the strife, was not as deep seated as it was in portions of the South where more slaves were concentrated. As we remember, most of the men from 40 to 50 years of age when we were a youngster, had fought on the side of the Confederacy. But perhaps not one in 50 had ever owned or wanted a slave. They would tell you that they were not fighting to continue slavery, but for "state rights." Those who did not own slaves did not seem to be jealous of those who did, or vice versa. To all, it was just a matter of minding their own business, and letting the other fellow do the same. Yet, reared in the South as we were, we cannot help but believe that slavery sooner or later would have been an issue, even among people of the South.

In reading the dailies and the magazines, we have found that not a few people are jumping all over President Eisenhower for the cut in some of the military spending. And some of this criticism has come from the U. S. Senators and Congressmen, who wish to restore all or part of the amount cut off. As we understand the matter, the air corps, particularly, has billions of dollars piled up, already appropriated, and not used, as the brass usually move at a snail's pace, and then blame others for their short comings. In fact, we learn that this department of the defense is anywhere from one year to 18 months behind schedule in production. The red tape has had full sway, and orders are passed and repassed from department to another, and, by the time the order is finally cleared from the Pentagon, much water has run under the bridge. Right here we wish to quote just a brief bit from what the President said at a press conference a few weeks ago along that line: "I have always believed that there is great logic in the conduct of military affairs. There is equally great logic in economic affairs. If these two logical disciplines can be wedded, it is then possible to create a situation of maximum strength, within economic capacities. If, on the other hand, these two are allowed to proceed in disregard one for the other, you then create a situation either of doubtful military strength, or of such precarious economic strength that your military position is in constant jeopardy." The president then elaborated to the effect that it is as important to our survival as actual military power—that reckless, unbridled spending can be as dangerous as a foreign foe." Let us state right here that we are glad that the powers that be up at Washington presently, are taking the view that nations, as well as individuals, cannot spend themselves rich. That there is always a time of reckoning. It

is well known to those who have made a study of the matter, that Russia lives in hopes that the USA with its reckless spending all over the world will finally have to face its creditors and the bankrupt courts as well, and at that point, the Kremlin hopes to step in and take charge of matters, not only in America, but throughout the world. So, let's let the air corps as well as other military contingents, spend the money already appropriated, and provide more when it is needed—if we have it.

In the past few years, we had hoped that the days of the big bosses was passing into the dim, distant past, whether they were the big city variety, the industrial bosses or what have you. But it seems that, in the present age of our nation, another is coming on. At least, they have the ambition, but they are having a pretty hard struggle, as bosses of any makeup is presently taboo by all classes. But the latest attempt is the labor bosses. Whether they succeed remains to be seen. We are thankful that law and order has stepped in to stop the big city and the industrial variety. But, so far, nothing nationally has been done to nip the toes of the high moguls of the working man. Messrs. Murray, Reuther, Lewis and others seem to be very important, or at least they think they are. It is certainly a bad omen for the nation, when any one man or set of men can tell the people in general to go lump it and like it. When they are given the power to run rough shod over the wishes of the majority of people, we are then and there approaching a form of dictatorship, whether we want to admit it or not. But, like all bosses, these labor bosses do not seem to have gathered a lesson from what happened to their ilk in past history. They seem to figure that it can't happen to them. However, it appears to us that they had a pretty good hint of what may come in the election last fall. So far as we have been able to determine, every mother's son of the labor bosses were out personally for Stevenson, and against Eisenhower. This was backed by slush funds that were garnered from their membership, many who reluctantly, perhaps, donated, but voted as they pleased when they reached the polls. In fact, that is the only answer that can be given, for the bosses failed to carry a single state in which union labor is strong. If their membership had been with them, they would have carried many states that they lost. This old idea of "the public be damned" attitude is a goner. If you do not have the people with you, you are a goner. And any company, incorporation, or labor organization that thinks they can run rough shod over the will of the people are just plain nuts. The people have been patient, but a glance will show the worm is turning, as states are passing laws to prohibit excesses by labor, or any other organization. All of us have the ballot. That's enough.

Texas' own Attorney General, John Ben Shepperd, has sent us a neatly printed sheet, which he designates, "A Public Official's Creed." And while we are not too much sold on creeds, we believe that each and every publicly elected official or appointed one might well paste the Shepperd creed on the wall or frame it and put it on his desk, where it would be constantly in sight. The first sentence of the creed says, "A conscientious public official serves the people as guardian of their welfare, defender of their institutions, servant of their will, champion of their cause, by dedicating himself to . . ." The first one is to put God and country above party, persons and private interests. While striving to promote a religious state, stay off a State Religion. Safeguard the people's right to free, unfettered elections, secret ballot and an honest count. Discourage centralized government, and keep the government the servant—not the master—of the people. Uphold law and exhort corruption. Make your office an example of efficiency, economy and integrity. Give a day's work for a day's pay, and require it of your employees. No private promises, no favors, nor accept personal gifts. Don't use the power of your office for personal gain. Defend the institutions of private enterprise, and discourage the excessive acquisition of property by the government in competition with private capital. Keep the public informed of the office activities. It is certainly the right and functions of the press to keep the people informed, and to invite public scrutiny and constructive criticism. To assist the public schools and civic education of the children. To be attentive to the activities and needs of other offices and branches of the government. Strive to make your personal conduct exemplary of morality and good citizenship, and to fulfill the duties of good citizenship, and to fill the duties of a private citizen, as well as a public servant. Most of the above was taken from an address delivered by Mr. Shepperd, and we believe the Attorney General lives up to the advice he gives. In this connection, we might say right here that we have been hearing talk of late about a certain official in our county, who really feels his importance. Now this is just street talk, mind you, but if it is true, and some say it is, this young man is hurting himself only, and may have a hard time being re-elected.

Creed." And while we are not too much sold on creeds, we believe that each and every publicly elected official or appointed one might well paste the Shepperd creed on the wall or frame it and put it on his desk, where it would be constantly in sight. The first sentence of the creed says, "A conscientious public official serves the people as guardian of their welfare, defender of their institutions, servant of their will, champion of their cause, by dedicating himself to . . ." The first one is to put God and country above party, persons and private interests. While striving to promote a religious state, stay off a State Religion. Safeguard the people's right to free, unfettered elections, secret ballot and an honest count. Discourage centralized government, and keep the government the servant—not the master—of the people. Uphold law and exhort corruption. Make your office an example of efficiency, economy and integrity. Give a day's work for a day's pay, and require it of your employees. New Lifesaving Technique Now In Use

NEW ARTIFICIAL RESPIRATION TECHNIQUE, the Nielsen "back-pressure arm-lift" method, which has now been adopted as standard by the American Red Cross, the Armed Forces and the National Safety Council, is demonstrated in these scenes from a new motion picture, "Seconds Count," produced by the Aina Casualty and Surety Company. The 10-minute movie, which portrays a step-by-step demonstration of the Nielsen method, may be obtained without charge for showings by contacting local Aina representatives or through the company's public education department at Hartford, Conn. The "back-pressure arm-lift" method increases chances of revival since it pulls fresh air into lungs as well as expelling air from them. In administering it, rescuer rocks forward exerting pressure on victim's back (top photo) and then rocks backward grasping victim's arms (bottom photo), repeating cycle 10 to 12 times a minute.

Grass Roots Opinion

National City, Calif., News: "The issue is state's rights. . . Decentralization of government would mean its return to the grass roots, where people can watch it, and see it, and know it."

Vesta, Minn., Vision: "The TVA area is practically all in the state of Tennessee. So a comparison of Tennessee with other southeast states is indicated. The figures . . . show that Tennessee's remarkable development has been matched in most of those states, and exceeded in others. In other words, Tennessee has just been about average. It is not easy to see much justification in the claim that TVA has done what private industry could not do."

Albany, Oregon, Democrat: What is believed to be the

Herald: "As the law now stands, a citizen has a legal right to belong to any party he chooses, including the Communist party, which, as of now, is not outlawed. He has not, however, the right or privilege to use the classroom and the college as a place to promote the ideas of a group devoted to the overthrow of the government by force."

Boston, Mass., Jewish Advocate: "Mankind is in ferment. The sanctity of the individual is threatened, and God on high denied, by an atheistic philosophy and power, which would enslave the human personality and crush man's religious spirit. . . The greater the show of belief in God, the more ominous the portent for His revilers."

largest forest fire in America occurred in 1825 in Maine and New Brunswick. It burned over 3 million acres and cost 160 lives.

CHRYSLER CAR SALES INCREASED 49 PERCENT

Shipments to Chrysler cars for the first five months of 1953 are 49 percent ahead of the same period last year—an all-time record, reports E. C. Quinn, president, Chrysler division, Chrysler Corporation.

"Shipments of new 1953 Chryslers from Jan. 1 through May for the Detroit and Los Angeles plants combined reached a total of 79,002 cars," Quinn said. "This is an increase of 49 percent over the same period last year, when 53,044 cars were shipped. The previous high for this period was set in 1951."

Meadow News

Mr. and Mrs. B. C. Horton went to Kerrville Wednesday, to visit their son, Cecil Horton, and family, for a day or two.

Miss Joyce Gregory was at Lovington, N. M., Sunday for the wedding of her cousin, Miss Shirley Collier. She will spend the week with her aunt, Mrs. Isom Collier, and family.

Mr. and Mrs. Joe Turner of Big Springs visited Thursday afternoon with Mr. and Mrs. Edd Peek. The Turners are former residents of Meadow.

The J. H. Gober family visited at Hobbs, N. M., last Sunday, in the home of their daughter, Mrs. James Selman, and family.

Mr. and Mrs. J. M. Burleson was in Abilene last week, attending the Methodist conference, and also visited in Austin before returning home.

Mr. Willie Verner of Ropesville visited a while Tuesday night with his mother, Mrs. J. I. Verner.

Melvin Carroll, son of Mr. and Mrs. L. P. Carroll, who has been at Fort Leonard Wood, Mo., for some time, is home on a few days' furlough. He will report at Camp Kilmer next Thursday.

Mr. and Mrs. Billy Kennedy and sons of Plains have been in Meadow for the past week, working at the lumber yard while Mr. H. M. Horschler and wife were in Fort Worth to visit his sister, who is sick.

Rev. James P. Patterson, the new pastor of the Methodist Church, preached his first sermon Sunday morning. He and his family moved into the parsonage last week from McAdoo, where he was pastor.

The Vacation Bible School at the Baptist Church closed Friday morning with the program Friday night. There was a good attendance for the two weeks.

Miss Ailene Curtis of Lubbock spent the weekend with her parents, Mr. and Mrs. Arthur Curtis and family.

Mrs. J. T. Vernon went to Abilene last Saturday for a few days' visit in the homes of her daughters, Mrs. J. E. Wrenn and Mrs. A. A. Storey, and their families.

Mr. and Mrs. R. E. Castleberry were in Brownfield Saturday on business.

BROWN WAS IN THE MEDITERRANEAN CRUISE

Norfolk, a. (PHTNC)—The USS Pittsburgh returned May 26 to the United States, after a six months' cruise in the Mediterranean and the Indian Ocean.

Serving aboard the heavy cruiser is Roger A. Brown, fireman, USN, son of Mr. and Mrs. Grady Brown of Brownfield.

As a member of the U. S. Sixth Fleet, the Pittsburgh participated in "operation rendezvous" and other maneuvers.

HOUSTON VA HOSPITAL IS NEEDING NURSES

Registered nurses are urgently needed by the Veterans Administration hospital at Houston, Dr. Lee D. Cady, Manager, has announced.

Salaries of the nursing positions to be filled range from \$3,740 to \$5,940, and include established VA benefits of annual leave, sick leave and forty-hour work week. Housing accommodations are available on the station in some instances.

Interested parties are requested to write Chief of nursing service, Veterans Administration Hospital, Houston, Texas.

Natural gas consists of about 90 percent of methane, known as "marsh gas," since it is formed by decaying vegetation in marshes.

Mrs. W. T. Arnett left Saturday to visit her brother, Milt Goode, and family, of Clyde, Texas.

Mr. and Mrs. T. E. Verner and daughter, Carolyn went to Cisco Saturday to attend the reunion of the T. A. Gage family, which was held Sunday at the park in Cisco. Mr. and Mrs. Gage are the parents of Mrs. Verner. The Verners will visit his sisters in Abilene while they are away.

Aubrey Castleberry of Morton spent Monday night in the home of his parents, Mr. and Mrs. Bob Castleberry.

Rev. and Mrs. E. H. Coston, the former pastor of the Methodist Church, moved last week to Estellene, Texas, where he will be pastor of the Methodist Church there.

JERRY BOND IS CALLED FOR FOREIGN DUTY

Jerry Bond, with the 15th Medium Tank Division of the infantry, spent last week with his parents, Mr. and Mrs. W. E. Bond.

PRIVATE WILL BROWN GRADUATES FROM A.S.S.

Private William W. Brown, son of N. H. Brown of Brownfield, has been graduated from the ammunition supply specialist school, of the ordnance replacement center at Aberdeen Proving Ground, Md.

He is now qualified to command an ammunition squad or a detail of ammunition handlers engaged in issuing, storage or transportation of ammunition or other military explosives.

The 21-year-old Brownfield private was employed by C. D. Shamburger Lumber Company before entering the service.

Kathay Price of Lovington, N. M., is spending this week with her grandparents, Mr. and Mrs. Mory Price.

Mr. and Mrs. C. E. Lackey are leaving Monday, June 8, for Ruidoso, N. M., for a three weeks' vacation.

Mr. and Mrs. C. E. Lackey are leaving Monday, June 8, for Ruidoso, N. M., for a three weeks' vacation.

Items Of Interest Here And There

Had a letter from the Roger W. Babson, Publishers Financial Bureau, up in Massachusetts, this week, stating that the largest revolving globe in the world was dedicated May 30th this year by Senator Saltonstall and Speaker Martin.

Mr. Babson wants a copy of all the US dailies and a select number of weeklies, as well as many foreign papers, to go in the corner stone, which is to be opened up 100 years from now. At that time, not many of us will be hereabout, or even up at Babson Park near Boston, to watch the official opening in 2053. But may be some, not allergic to A and H bombs, will be about.

Anyway, Mr. Babson asked that a copy of the Herald as near May 30 as possible be sent up for the cornerstone.

There was also a regular renewal from our old time friend, Mrs. John Snyder, up at Lubbock. Said she wanted to keep up with our visits to our little grandchild and family. Now, was out good friend really interested, or did she wish to kid us for mentioning the child so much?

Anyway, that little lady pulled a fast one the last time down in Snyder, and made us wonder just how young the girls have to be to begin taking care that they do make that slender look or school girl complexion. Driving around over Snyder, Miss Sara B. solemnly asked her mother, "Mama, do you suppose 7-Up is fattening?" She had been told that another soft drink was fattening. And she won't be three until August 5th.

And speaking of relatives, the Jr. member of this honorable firm was forty, Tuesday, but would not admit to being "fat and forty." Just in good prime condition, as we speak of porkers in summer, when it is not best for them to be fat, he stated. And, Miss Mary Ann, his daughter, passed her fourth birthday, Wednesday.

Some water has passed under the bridge and a whale of a lot of sand has swished by since 1913, the 13th of June, in a little two-the track, Santa Fe, didn't happen. room house, boxed and weather boarded, with siding. But a lot more people here lived in two-room houses than otherwise, at that time. And he was born on the wrong side of the track. But the track, Santa Fe, didn't happen, along until 1917.

When the next two happened, along, John Franklin, deceased, in 1916, and Miss Sallie T. in 1919, we had built a fairly modern home on the corner lots in the 1st addition. We were then happy until after the railroad came, and a firm decided to erect a huge warehouse right in front of our home.

We got mad, tore down our home and erected our present home on east Broadway. Been in debt ever since.

A lot of the old timers we now see only at lengthy periods. Saw Mrs. Eva Bryan, wife of the late Jack Bryan, early day ranchman, early this week. The wife was curious to know how many oil wells she had on the holdings in the old Hunter community, in south Terry.

Eva said she had two wells, and hoped to have two others before long. We are always glad when those old timers, who have stood the rigors of taming Terry county, hit the jackpot with an oil well or two. They deserve every good thing that comes their way.

No more wasteful, back-breaking ditches!

SAVE LABOR AND WATER with

AMES PORTABLE PIPE

Put an end to the work and worry caused by costly, troublesome ditches. Eliminate soil and water losses resulting from washing and seepage. Ames Lo-Head Portable Pipe delivers water in volume anywhere you need it—cross-country, uphill or downhill—under perfect control. Carries water to your fields for furrows or flooding, to your booster pump for sprinkler lines.

Available in 4" to 12" diameters, either lightweight, sturdy aluminum or rugged lockseam galvanized. Your choice of connections: low-cost Slip-Joint drive-ends, QCL quick-coupled joints, or pressure-locking ABC Couplers. Pipe also available with Flo-Control Gates along the sides for easy furrow watering.

For full details and free planning service, call or write us today.

Top Car in drive power... control... safety... comfort!

You'll never know the tremendous difference that does exist between cars today until you drive this one. Dial your dealer for a Chrysler Power Ride... in the car that brings you the great features first!

Chrysler FirePower New Yorker

Now Available—The New Chrysler Airtemp Air-Conditioning System

M. J. CRAIG MOTOR CO.

719 West Broadway Brownfield, Texas

Designed & Engineered to stay ahead of other cars

Out of 146 major automotive advances in the past 28 years, Chrysler has introduced 77... that's actually more than all other makes of cars combined!

- New kind of power!** FirePower V-8 gets maximum drive from gas. Hemispherical combustion power... as in the costliest European sports cars!
- New kind of control!** Full-time Power Steering does 85% of the work... checks all wheel fight. Steady, predictable in action!
- New kind of safety!** Power Brakes stop you fastest, with but 1/2 the ordinary effort. Safety-Rim wheels hold punctured tires safely on!
- New kind of ride!** With double-strength shock absorbers, soft Chair-high seats... plus the protection of the Safety Crash Pad dash panel!

Terry Gets One New Well, One Location

Nothing exciting happened in Terry, so far as oil is concerned, last week. True, we got a brand new well that was a pretty good one, but as it was in a proven field, it was rather expected. Both the new well as well as the new location were in the Prentice field of northwest Terry. Old Yoakum also got a new well in Prentice, and a new location in the western part of the county.

The new location in Terry was the Kay Kimball, No. A-1, S. T. Murphy, block K, section 22. Rotary to 7,100 feet at once. The Yoakum county part of the Prentice field, the Tennessee Production Co., brought in one on the Crutchefield land in block D, section 14. Bather a weak sister, pumping 33 barrels 39 gravity oil daily. Total depth, 5,992 feet.

By the way, we got hold of a mag last week that gave us quite some information about the name of fields, as well as geological formations, and the usual depths. We found that, east of the Mississippi, many of the fields took the name of towns in Alabama.

While oil is found in shallower areas in this area, most of the wells are in the Permian formation, while a lot of them nowadays are in the Canyon Reef, and deeper stratas, up to 12,000 feet.

Presently, there are 12 rigs going in Terry, and the same number in Yoakum.

Volunteer Firemen Extinguish 3 Fires

Three fires were reported last week by the Brownfield fire department.

A vacant house in the 400 block on West Lake was declared a total loss after it burned Monday about 5 p. m. It was believed to have been set afire by three young boys. The house was owned by Mrs. Bernice McNutt, and fire truck driver W. O. Turney and 11 volunteers fought the blaze.

A closet in the living room of the house at 407 North Fifth caught fire and was extinguished by the fire department before too much damage was done. Cause of the blaze was unknown, and a folding bed, a divan, and pieces of furniture were heavily damaged. Firemen had to break a window pane to enter, and the police department was helpful in aiding the fire truck driver, Johnny Hall, until 16 volunteers arrived. A suction fan was used to remove the smoke.

The third fire was a bathroom heater on fire in a house in the 400 block on North Eleventh. The department extinguished the fire and little damage was reported.

Volunteer firemen are Leonard Isaacs, Wayland Parker, Tom Crudup, Pat McMillan, Jim Cousineau, Don Cates, Johnny Hall, W. O. Turney, H. N. Swan, E. A. Richardson, Marion Lindville, Johnny Rayburn, Dewey Rogers, Clifton Jones, Bennett Jordan, Scott Dalton, Frankie Sydoski, Lewis Simmonds, E. R. Hudson, C. C. Primm, L. O. Lewis, S. J. Smith, H. B. Stubblefield, R. E. Carruth, James Hill, A. B. Black, Herman Chesshir, R. E. Howard Hurd, and Vic Harris.

Fire officials are E. D. Jones, fire chief; Leonard Isaacs, assistant chief; Wayland Parker, captain; Crudup, drill master; McMillan, drill master; Cousineau, fire marshal; Cates, secretary; Johnny Hall, driver; and Turney, driver.

WELLMAN FUTURE HOMEMAKER NEWS

The Wellman Future Homemakers met recently to make summer plans for work.

This will include group meetings in chorus work for next year's program. Individual committee meetings will be held to plan future activities, which will be in the 1953-54 yearbook. Summer projects will be carried on in individual projects by chapter members. Supervision of the summer work will be under Miss Willie Maye Hines, supervisor.

Chapter members carrying on individual work are: Jo Francis Earp, Bobbie Weaver, Nita Rich, Dessie Oliver, Gloria Ingram, Yvonne Bolen, Gail Berry, Edna McBeth, Margaret Ferguson, Myrna Lindsey, Peggy Dean, Laura Bea Burnett, Carletta Bullock, Burdene Rick, Beverly Rogers, Glenda Jo Oliver, Barbara Falls, Nita Jean Christman, and Mary Lou Bass.

Chapter mothers for the coming year are: Mrs. Opal Earp, Mrs. Willie Mae Oliver, Mrs. Winnie Burnett and Mrs. Ara Ingram.

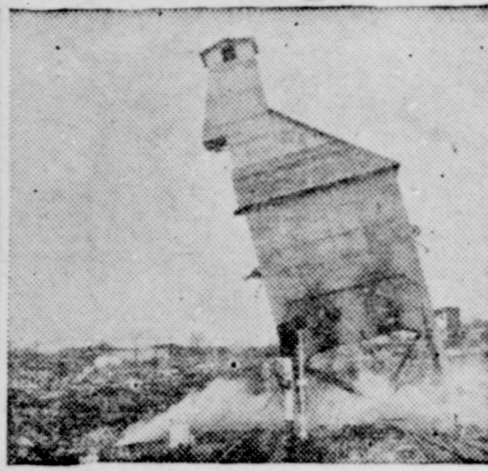

We would like to thank Mrs. Nita Golden and Mrs. Irene Beavers for being such wonderful

Phillip Rogers and family visited in the home of his brother-in-law, Orel Smithwick, at Arlington, over the weekend. At this home of his sister, he met another sister, Mrs. Jones, and his mother, Mrs. Ellen Rogers, from Middleton, Tenn. At the end of the visit Sunday A. M. Phyllis, 5, daughter of the Phillip Rogers, went home with the Tennessee folks for a visit. Miss Carolyn Pippin, niece of the Terry county Roger family, who was a May graduate of Paris High School, came home with them for a visit chapter mothers for the past year.

Mrs. Hattie Bish left Monday to be with her son, Charles, who is ill at Holbert.

TUMBLIN' TOWERS

More than twenty sticks of dynamite... a detonator 300 feet away... workmen scattering in all directions... the loud "ALL CLEAR" of the safety man... a terrific blast and six seconds later 110 feet and 750 tons of steel and concrete drops into a pre-dug hole alongside the main line of the Santa Fe Railway.

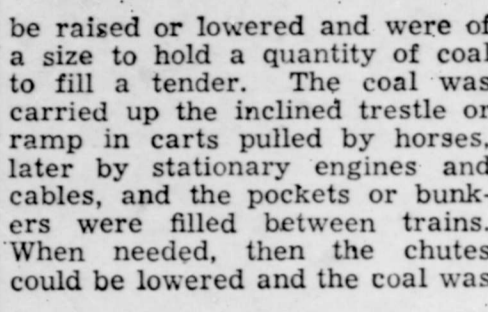

G-O-O-O-I-N-G

This marks the beginning of the end of a historic scene in American railroading... the destruction of those tall structures known as coal chutes—storage places for 500 tons of black energy—the places where the now rapidly disappearing coal burning locomotives stopped to take on more "food" to haul America's produce.

The coming of the diesel-electric locomotive in 1935 started a rapid change in the type of motive power on railroads. It was first adapted to passenger train service and soon to freight and switching service. By 1948 the Santa Fe had the largest fleet of diesel locomotives in the world. Santa Fe has destroyed coal chutes at Sreator, Illinois; Baring, Missouri; Guthrie, Oklahoma; and Adamana and Houck, Arizona. Others will follow.

The primitive method of supplying coal to locomotives required no special structures. A man could shovel the coal by hand directly into the tender from a car located alongside the locomotive. The supply stations had to be located at convenient intervals depending upon the distances run and the capacity of the tender. Soon an improvement in this operation was made with a hoisting device by shoveling the coal into an iron bucket on the ground and then hoisting the bucket with a simple crane and swinging it over the tender to be dumped.

G-O-O-O-I-N-G

The third general development of coal facilities took the form of platforms built at the elevation of the top of the tender. The coal was delivered on the platform either by horse or cart or shoveled from a car standing alongside the platform. From the platform the coal was shoveled directly into the tender or was stored in buckets or trucks on the platform and dumped into the tender. Numerous methods were devised for delivering coal to the platform and from the platform to the tenders, the selections being guided by the local conditions and requirements.

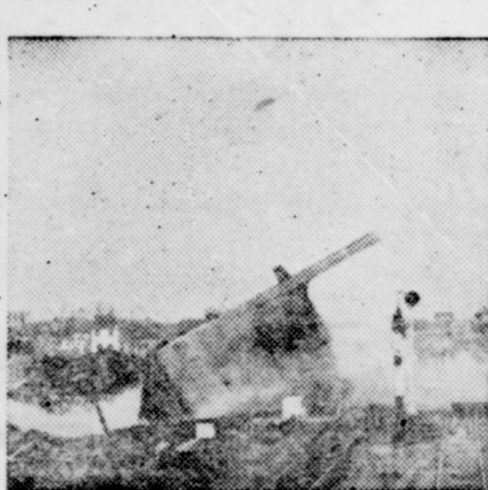

Modification of the platform idea resulted in a trestle-type platform with an incline on which dump cars or trucks loaded on the ground could be pushed or pulled to an elevation above and alongside so they could be dumped into the tender. The next general development was the use of a trestle much higher than the tender with pockets built on the sides. These pockets were fitted with chutes that could

G-O-O-O-I-N-G

deposited in the tender by gravity with little loss of time.

About 1900, however, the trestle type became an old-fashioned facility. The elevation of the coal by running the cars up an incline was superseded by dumping the cars at ground level into a hopper from which the coal was raised by an elevator or a bucket on an

G-O-N-E

endless belt and deposited in the bunkers. This called for a large sized structure and a power plant with gasoline engine or electric motors. At first these structures were mostly built of timber. By about 1920, however, the use of reinforced concrete became quite general. These large structures are today familiar sights to the railway passengers on coal using roads.

Many months passed during the construction of each coal chute but only a couple of weeks are necessary to destroy them. Workmen first remove the heavy pieces of machinery on the coal chutes, holes are drilled in two of the "legs." Then the concrete is chipped away at the bottom of these two legs and acetylene torches cut the steel reinforcing inside the legs. In the meantime bulldozers have been digging a large deep hole off to the side of the tracks. The dynamite is planted in the holes in the two "legs" and the charge is ready to go.

As the dynamite is ignited the two legs take away the support from the heavy chute and the old structure drops to the side of the track into the excavation previously made. Battering machinery pulverizes what is left of the structure and bulldozers push the dirt back in place, completing the burial of another coal chute—the monument of another era.

More than 50 years ago the development of crude oil as a fuel for steam locomotives sounded the death knell of coal chutes in some sections of the country. The more recent advent of the diesel engine a more wide-spread demise of these old familiar landmarks. Actually some coal chutes have never held a ton of coal, having just been completed at the time crude oil was developed.

On the Santa Fe lines the primitive types of coal facilities have been in service since 1869 when its line reached Carbondale, Kansas. Oil as locomotive fuel had its beginning on that line when oil was first discovered in California. By 1900 all the Santa Fe engines in California were burning fuel oil. Following the first great Texas oil gusher at Spindletop in 1901, oil for locomotive fuel became available on many Texas railroads. In 1902 seventeen per cent of the Santa Fe locomotive mileage was made by oil burners. By 1917 the oil burners accounted for nearly 50 per cent of the mileage, pushing the coal chutes farther into the background. Many of the coal chutes, however, were kept in service as stand-by facilities.

Another sign of continuing progress on the American Railroads—the disappearance of the coal chute.

Behind The Scenes In American Business

By REYNOLDS KNIGHT

New York—The great lesson of the economic ineptitude of government has not yet been learned in Washington.

President Eisenhower last week sent to congress a plan for the revival in full strength of the council of economic advisers. Dr. Arthur F. Burns will head a three-man council, whose other two members are still to be named. With the submission of the plan, Washington correspondents were given to understand that plans would be made to meet any threat of a recession from today's record levels of production and employment.

These plans would call for government intervention when unemployment reached the 2.5 million mark. That is half the jobless total the Truman administration set as the danger point in 1949. (The Korean war came along before the point was reached.)

Remedies are those of the Roosevelt administration: easy money, tax cuts, public works. It has been largely forgotten that seven years of this left 10 million jobless in a much smaller business community. Most quickly cured recession in this country's recent history was that of 1920-21. President Harding did absolutely nothing but hope it would go away, and it did.

admitted to the bar examination and to practice.

Q—I am a widow of a World War I veteran, and I have a daughter, age 20, who is in school. The VA has been paying us a pension that covers us both. My daughter is planning to get married and drop out of school. Will she still be entitled to a pension?

A—No. Under the law, she may not be paid a pension after she marries or drops out of school, or both.

Q—I have been paying premiums on my GI insurance by having VA deduct the payments out of my monthly disability compensation check. My compensation has just been reduced so that it no longer covers the amount of the premium. Could VA continue to apply the compensation toward my premium payments, if I send in a check for the difference each month?

A—No. One of the requirements that must be met, for VA to pay premiums out of compensation, is that your monthly compensation pay be at least equal to the amount of the premium.

Q—I have a 20-year endowment GI insurance policy. I have elected to receive installment payments, after the endowment period is up. What would happen if I die before I receive all the payments, and I fail to name a beneficiary?

LOONEY TO HEAD TEXAS BAR ASS'N.

Austin—Everett L. Looney, Austin attorney, has been elected president of the State Bar of Texas in a statewide election, just completed among the state's 11,300 lawyers. R. V. Nichols of Fort Worth was elected vice-president.

Looney is currently serving as vice-president and Nichols on the organization's board of directors. They will begin one-year terms in their new offices at the close of the 1953 state bar convention in Fort Worth on July Fourth.

Results of the mail balloting were announced by current President J. Glenn Turner, Dallas. Also elected were five new directors, each for three-year terms, for five of the state's congressional districts. They are Ben L. Parthen, Sr., Franklin, Sixth congressional district; W. C. McClain, Seventh district; E. M. Dodson, Marlin, 11th; Lloyd A. Wicks, Sr., Falls, 19th; and A. P. Allison, Kerrville, 21st.

Mr. and Mrs. W. A. Wolfe left Sunday, June 7, for ten days' visit on business and pleasure at Tulsa and Oklahoma City.

Mr. and Mrs. Donald E. Walker and son of Kermit spent last weekend in Brownfield. He is a former employee of the Terry County Herald, and they were visiting relatives in Brownfield.

J. B. Knight and Otis Lerner of Brownfield, and T. L. Lerner of Levelland, fished last week in the state of Colorado.

Advertise in the Herald.

In such a case, the unpaid installments would be paid in one sum to your estate.

HEALTH QUESTIONS AND ANSWERS

Prepared by T. M. A.

Q—What is an allergy, and how may it show up?

A—It is a sensitivity, either inborn or acquired, to a certain substance, which may be touched, eaten or breathed. An allergy may show up as a skin "rash," hay fever or asthma, so-called "upset stomach," or headache.

Q—What doctors specialize in diagnosis and treatment of allergy?

A—The dermatologist or allergist is most likely to be called in on complicated problems of allergy. A dermatologist is an expert in skin diseases, and an allergist is a specialist in the diagnosis and treatment of all allergies, whether they affect the skin, the respiratory system or the gastrointestinal tract (food tube).

Q—What is "contact dermatitis"?

A—A condition caused by the skin's being sensitive to a substance which touches it, such as cheap soap, oil, or leather. The number of materials known to have caused contact dermatitis are almost without limits.

Q—Why is skin cancer such a vast problem in Texas and the southwest?

A—Because people exposed to a lot of sunshine are among those who most often get cancer of the skin.

Q—What is the best rule for avoiding possible trouble with skin cancer?

A—To call the doctor's attention early to any sore on the skin that does not heal promptly or to any mole, wart, or other growth which seems to be changing in size or color, which bleeds, or which is subject to constant irritation.

PRIVATE LEROY MOORE NOW STUDYING WARFARE IN JAPAN

Eta Jima, Japan—Pvt. Leroy D. Moore, whose wife, Joanne, lives at 504 South Weatherford Street, Midland, recently completed a course in chemical warfare at the Eta Jima specialist school in Japan.

The two-week course is designed to teach defenses against chemical, bacteriological and radiological warfare.

Private Moore entered the army last November and arrived in the far east in April.

He is the son of J. T. Moore of Seagraves.

Along the lower Rio Grande Valley, fossil oysters have been found 30 inches in diameter.

John Quincy Adams, sixth president of the United States, was born July 11, 1767, at Braintree, Mass.

AETNA WROTE FIRST TEXAS POLICY 100 YEARS AGO

A century ago, when the Aetna Life Insurance Company was founded, it wrote on policy totaling \$3,000 worth of life insurance in Texas.

Insurance written by the Aetna life in the state during 1900, a hundred years later, exceeded \$324,500,000, while the company paid out a total of \$11,167,000 to or for its policyholders in Texas.

Now on the eve of its 100th anniversary, June 14, Aetna life has more than \$730,675,000 in surance in force in Texas, where the company is represented by five general agencies.

Mrs. Sammie Jones underwent surgery in Lubbock, Monday of this week.

Pasture mowing not only helps control weeds, but also keeps the grass tender and growing.

Jacob Sandage Makes An Explanation

To the Herald:

We see that the Old He has stated that we taught school several years before coming to the Lone Star State. So, we suppose an explanation is now in order. At the age of 18, the age at which too many boys quit school, we chopped cotton to pay tuition, and walked four miles to school. At the close of that school, Ma sold enough chickens and eggs to buy us our first pair of shoes. We put the shoes on and began walking backwards, looking at our tracks, and never stopped until we crossed the Tennessee border. When the folks in Tennessee learned that we could count up to 75, they hired us to teach school.

We remember about 30 years ago we were then teaching school in Arkansas—in a county where there were more than 60 school districts. After the County Supt. had visited each district, he reported that only in one district had he found anyone who could recite the American Creed, and that person was a 7 year old colored boy. We memorized that wonderful creed, after that statement was made by the Supt. But back to the wonderful state of Tennessee.

The writer will always love that state, for it was there that some of our ancestors answered the call of the Southern Confederacy, and with no money and less credit, carried on this "Police Action" for four long years. And do we remember how we were surprised by hearing that some of our ancestors had carried a musket for four long years, fighting for states rights, and for what they believed to be Democratic principles and local self government? Well do we remember hearing those who wore the grey, were led to believe that on Southern soldier could whip five Yankees.

They were told that the Yankees would not fight; that they could not even handle a gun. We remember that there was mention of sadness, as well as gladness in the preparations for war. At the parting hour, even the bravest heart lost courage, when he realized the weight of woe and his omission. Love struggled with duty, and the most manly could not re-

West Texas Oil Men Are Pioneer Conservationists

Ahliene—Oil men are west Texas' pioneer conservationists. With secondary recovery and pressure maintenance practices, the oil industry has brought to the surface millions of barrels that otherwise would have been lost eternally.

So declares an article in the current issue of West Texas Today, magazine of the West Texas Chamber of Commerce.

In West Texas Today, the article read, conservation is of utmost importance, whether it results in the saving of crude oil or of water and soil.

Results attained or expected from a few secondary recovery projects in west Texas were described.

These have or will result in production of 14,511,829 barrels that would have been lost, it was stated.

press the sigh, the most courageous restrain the tear. The heroic wife, the sacrificing mother, the noble sister and sweetheart, with a "God bless you," sent their loved ones into the very hell of war. How doubly dear did they seem as they marched away. The resolute women stood bravely, waving their last farewell, and for many this was indeed the last farewell.

Oh, the heartaches, the sorrow of those days. So many homes were destroyed; so many hearts were broken; and so many hopes were blasted. War is terrible, carrying death and destruction in its path. We wonder how soon, if ever, the nations of the world will succeed in outlawing war the same as dueling—which was war between individuals—has been outlawed? And we wonder what the Confederate soldier would say if he knew that his offspring had had to go over to the party of Lincoln in order to return states rights and local self government?

We cannot make progress without changes, but changes is not always progress. After all, it is wonderful to be an American. To be an American citizen is a greater privilege than to be a king.

—Jake, on Route 5, city.

G. I. QUESTIONS and ANSWERS

Q—I expect to graduate from law school under the Korean GI bill. After I finish, would I be allowed to take further training on-the-job in a law office, for the study of clerkship?

A—You would be permitted to take this job training under the Korean GI bill only if your state requires it as a condition that it must be met before you may be

A 50-yard dash with a potato on a spoon! An exciting bit of Americana—but it's not the

World's Greatest Potato Race

That's the 2200-mile dash on the Santa Fe with 1,350,000,000 potatoes

Somebody east said, "Pass the potatoes!"

Out in California, the fertile San Joaquin Valley heard them. And look what happened.

Santa Fe started moving 14,000 to 15,000 carloads of potatoes to hungry markets all over the Midwest and East. 36,000 to 40,000 pounds to a carload. As high as 550 carloads per day at peak of harvest. That's more than 1,350,000,000 potatoes. And that's a lot of spuds.

Bag 'em. Load 'em. Roll 'em. And hustle. Somebody east said, "Pass the potatoes!"

From America's largest fleet of refrigerator cars owned by an individual railroad, these yellow

Santa Fe "reefers" are dispatched to the "Potato Capital of the West."

There the cars are cleaned, checked, loaded, switched. And iced fast (a car a minute, if you please). These potatoes can't wait!

In servicing the cars as they speed east, new icing docks at Bakersfield and Needles, Calif., Belen, N. Mex., Waymoka, Okla. and Kansas City work the clock around. Electronically-controlled "hump" yards speed the switching.

SANTA FE PRECISION—SANTA FE SPEED

On-time delivery calls for full-time precision to keep these schedules "on the advertised."

After the potatoes come the wheat... citrus fruits... grapes... melons... and green vegetables all year long—flooding east from Santa Fe country to you. Everything from avocados to zucchini.

It costs Santa Fe millions of dollars to serve you so—and provide you with Super Chiefs, too! But we're proud to say they are earned dollars. Not one penny comes from the taxes you pay.

WHEN FOUR MEN WERE HUNG TO RAFTERS

Our good friend, J. H. Plant out on Rt. 2, finally brought in that "old" paper about the quadruple hanging in an old barn or livery stable at Ada, Oklahoma, in 1909. Fact is, J. H. is not up on the newspaper business quite as well as the writer. We soon found that the paper was a 1951 reprint. "But why so old looking?" he asked. Well, as a youngster back in Tennessee about 1897, our school plant had a job on a reprint for the "Daily Rebel," published in Chattanooga about the time, 1862, the battles of Lookout Mountain and Missionary Ridge were going on. We just wet the papers as printed, to make them "age."

But back to the Ada hanging. This outlaw, Jim Miller, and his gang had given the better class of Oklahomans about all the murders and stealings they could stand. And, despite the renowned Moma Prullet, the famous criminal lawyer of that area, who got all the criminals out without a scratch, Miller's time was running out. The people had elected a fine upstanding young lawyer as district attorney, Robert Wimbish. And it seems they had a pretty good sheriff.

But Miller had a very prominent farmer-rancher waylaid and killed on his way home. The gang was rounded up, and jailed at Ada, and the people, fearful that something like as of old would happen, were determined to exterminate these soulless pests. About 30 entered the jail one night, tied up the deputy and the jailer, and obtained the keys from the latter, and went in after Miller and his three pals. But they had to wait until Miller had dressed in his best, including a stiff bosom shirt

and a bow tie.

Next morning the curious of the town, visited the old barn to view the strangled bodies of the outlaws. Things quieted down, and few other were brave enough to risk a mob's rope around their necks after that incident.

Miller and his gang are believed to have killed 38 or more people in Oklahoma and Texas, and stolen thousands of dollars' worth of property.

West Texas Today Out With Oil Edition

West Texas Today, official publication of the West Texas Chamber of Commerce, came in the past week with their somewhat belated May edition. No wonder, though, as it is much larger than usual and it really gave the low-down of oil development in west Texas.

On the front page, the publication mixed a bit of the past with the modern, all printed in colors. For instance, there was the old hind wheels of the old farm or ranch wagon, with nothing left but the hub and some spokes in one wheel. Part of the rim, spokes and hub in the other. The hounds and coupling pole are still there, in a whomperjawed way, but the steel tires long since gone.

But in the immediate distance, there was something very modern, and at the same time, an acclaim that the place was not deserted. There was a drilling rig putting down an oil well. There were barns, houses and farm machinery in the background.

No, what was left of the old wagon was not all the picture. In the middle and distant background, it looked prosperous. Perhaps there was a new car and a farm truck around that farm home, after all.

NEW INSECT CONTROL GUIDE AT COUNTY AGENT'S OFFICE

"A Guide for Controlling External Parasites of Livestock and Poultry in Texas," C-324, is available without cost at all offices of county agricultural agents. The new publication contains the latest information on the use of chemicals for controlling insects on herds and flocks.

JUNE IS DAIRY MONTH

June is Dairy Month. Consumers are urged to step up their purchases of milk and other dairy products, because they are a good buy, and are good food. Dairy men should take time out to give their operations a critical check. Lower prices increase the premium on efficiency of operation.

Miller and his gang are believed to have killed 38 or more people in Oklahoma and Texas, and stolen thousands of dollars' worth of property.

Hot weather means that swimming and other water sports will be on the increase, and that means more deaths from drowning, unless the strict rules of water safety are observed. Carelessness is a maker of statistics.

Don't Overload Your Washing Machine

College Station—For best results in your washing machine, don't overload it with too many clothes, or too many large pieces of clothing. Home management specialists for the Texas agricultural extension service say this advice comes as a result of an extensive study made at the Ohio experiment station.

Findings from the study indicate proper loading is important for successful laundering in any washing machine. Research included washing 20,000 pounds of soiled clothes from 32 different families in five different automatic washers and a reliable, well-known conventional or non-automatic washer for comparison. During the study, 75 women reported machines that would not remove soil, and the trouble often was found to be overloading. Ten self-service operators reported overloading as their greatest problem, with cylinder-type washers.

Manufacturers of the cylinder or agitator-type washers rated the load capacity as nine pounds, and the pulsator washer as eight pounds. The Ohio study showed that all washers did a better job with 7½ or eight-pound load. This indicates it is wise to weigh clothes before putting them into the washer, until the eight-pound load becomes easy to estimate.

The specialists say the research also indicates a combination of large and small pieces is practical and satisfactory for family washing. Combinations of small items washed well because they could move freely, but a load of sheets, for example, gave trouble. In agitator-type washers, a load of sheets could not move freely. They billowed around the agitators, and turned over so slowly that the mechanism seemed to work continuously only on part of the washing.

For best results, the research indicates a typical assortment for an eight-pound load: Two sheets, two pillow slips, two bath towels, two men's white shirts, two lunch-cloth, and about a pound of tea towels or other small items. In the typical family wash, there will be two such loads, then a third load of dresses and undergarments, and finally a load of colored or badly soiled items, that must be washed separately from the white clothes.

Hot weather means that swimming and other water sports will be on the increase, and that means more deaths from drowning, unless the strict rules of water safety are observed. Carelessness is a maker of statistics.

THOSE FAITHFUL OLD SUBSCRIBERS

Many years ago, a poetically inclined editor of a weekly paper got so riled up that he composed a piece about his subscribers, and rhymed it to the "Old Oaken Bucket." It was something about the faithful old subscriber who never forgets to renew. "While we are a poor hand on poetry, we love every mother's son and daughter of our readers. The gang that has pitched in the magazine the past week, are:

Mrs. J. C. Beaver, city; J. W. Sherrin, Tokio, 2 yrs; Harmon Scates, Lubbock; C. H. Heafner, Wellman; S. W. White, Meadow; R. T. Parkard, Greggton; M. G. Rackler, Morton; P. R. Cates, city; J. C. Cunningham, Rt. 1, city, and Kathleen Hardin, Beaumont.

We also welcome two brand new readers: Mrs. E. S. Peck, city, and Mrs. Fannie Irwin, Salt Lake City, Utah.

Mumford Graham of Glendale, Ariz., came in by plane last week to spend the summer with his father, Sawyer Graham. He is employed for the summer at Griggs-Goble Economy Store.

LOCAL GIRLS ATTEND ENCAMPMENT IN N. C.

Two Brownfield girls are attending the Young Women's Association encampment at Ridgecrest, N. C. They are Brenda Weathers, daughter of Rev. and Mrs. J. W. Weathers, 1121 East Tate, and Jerri Catherine Dumas, daughter of Mr. and Mrs. Jerry Dumas, 707 North Second. The girls left for Dallas Sunday night, May 31, accompanied by the Rev. Weathers. On Monday, the two girls left on a chartered bus for the camp in North Carolina, and will stay there until June 12.

The morning hours at camp will be spent in Bible study and devotional periods, the afternoons to be filled with recreational activities, such as mountain climbing, swimming, and study of handicrafts.

The Woman's Missionary Union of the First Baptist Church in Brownfield sponsored the girls' trip, and paid all expenses to and from the encampment.

PUFFIN ALONG ON TIME?

Labrador's puffins, rivaling the cliff swallows of San Juan Capistrano, leave their summer and winter haunts on definite dates, and arrive at their destinations with equal predictability.

The J.H. club members from all sections of Texas will be at Texas A&M College on June 25 to participate in the various state judging and demonstration team contests.

WOMEN'S EDITOR, MARY WINSTON

PHONES 2244 and 2859

MR. AND MRS. S. W. WHITE will celebrate their fiftieth year of marriage, June 14, at their home, three miles east of Meadow. Pictured above, at left, is the couple when they were married in 1903, at Desdemona, Texas. At right, are Mr. and Mrs. White in the present year. They have nine children, all reared at Meadow, 20 grandchildren, and seven great-grandchildren.

Mr. and Mrs. S. W. White of Meadow to Celebrate Golden Wedding June 14th

Mr. and Mrs. S. W. White of Meadow, Texas, are announcing their Golden Wedding Anniversary, Sunday, the fourteenth day of June, from 2 p. m. until 6 p. m., at their home, three miles east of Meadow.

Mr. and Mrs. White were born and reared on farms near the town of Desdemona, Texas. They were married in Desdemona in 1903, and continued to live there until 1913. From there they moved to Nolan county, 11 miles east of Sweetwater, Texas, and they lived there for five years, until the drought of 1917, which starved them out. They moved from Sweetwater in January, 1918, to Motley county near Elmont, Texas, and there they farmed on the halves with an old friend, Raleigh Anderson, whom Mr. White had been reared with in Eastland county. Afterwards, they rented a farm near Quitaque, Texas, where they farmed for two years. They made two good crops, in fact, they sold 1919 cotton for 35 cents per pound, during the spring of 1920 a friend of theirs told them about some cheap land selling for \$6.00 per acre in Gaines county near Seagraves, therefore, in May, they cranked up the old "Tin Henry" and went down there. When they got to Lubbock, they drove across the town site to where the Elwood home is located on 19th Street. There was not a paved street in Lubbock nor was there a paved road in the county. As they passed

through the north part of Terry county near Meadow, they noticed that the land looked pretty good to them, so, after two days of looking at the \$6.00 land near Seagraves, they came back to Meadow and paid \$32.50 per acre for 160 acres of raw land.

Mr. and Mrs. White have nine children, six boys and three girls, all being reared at Meadow, Texas, and the Whites have 20 grandchildren and seven great-grandchildren.

After their children were married and had left, Mr. and Mrs. White decided to move again. So, in 1946, they rented their farm and moved to Llano county, and bought a small rancho near Buchanan Lake. They spent a very pleasant year there fishing and hunting with some of their friends, but, after a bronco pony pitched Mr. White, they decided they had waited just a little too long to go in the ranching business. The Whites sold the ranch, and bought a nice improved stock farm one mile west of Lometa, Texas, and had a very enjoyable time there, meeting many new friends, but the urge came to move back to their old home, friends, and children. Therefore, in 1948, they moved back to Meadow, and hope to spend the rest of their days there, until the Angel of Death comes to pilot them across the chilly waters of death to their home beyond the grave.

Capt. and Mrs. Arthur T. Stafford, Jr. and Terry, are visiting in the home of his parents, Mr. and Mrs. A. T. Stafford, 803 East

Main. Captain Stafford has recently returned from active duty in Korea, where he was stationed for about a year. He will be stationed at Rapid City, Dakota.

Eastern Star Presents Eighteen at Installation Services

Mrs. Dora Lee McCracken was named worthy matron, and Kyle Adams, worthy patron, of Brownfield chapter No. 785, Order of the Eastern Star, in installation services at 8 p. m., Tuesday, June 2, held at the Masonic Hall. Sixteen other officers were presented during the ceremony.

Preceding the service, guests were handed programs by Mrs. Carolyn Ellington, who also presided at the registry.

Mrs. Mollie Goodpasture, grand examiner, district 2, served as installing officer, and Mrs. Florence Parker was installing marshal.

Mrs. Hazel Lackey served as installing organist, and Mrs. Jesse G. Randal was installing chaplain.

Mrs. McCracken was installed at the altar, and she was then escorted to her place by her husband, Mr. Adams was installed at the altar, and escorted to his place by his wife.

The new worthy matron brought greetings to the group, and stated her theme, "Acknowledge Him," emblem, the Bible; colors, white and the star-point colors. Mr. Adams also brought greetings to the group.

A drill was presented by the drill team, under the direction of Mrs. Parker. Following the installation, a gift was presented to the new worthy matron, and to the new worthy patron by their officers. A past matron's jewel was presented to Mrs. Viola Simmonds, junior past matron, by Mrs. Melvina Nelson. Leonard Ellington presented a gift from the chapter to J. W. Nelson, junior past patron. Mr. Nelson was not presenting a jewel because of his having received one when he served as worthy patron heretofore.

Piano selections were played by Mr. Ellington, and a monologue, "The Jerk Family," was given by Mrs. Dorothy Jane Burnett. "Star of the East" was sung by Mrs.

Parker and Mrs. Beth Neel, accompanied by Mrs. Lackey.

"Acknowledge Him" was printed in gold on a white ribbon streamer, placed in the east. The Bible was placed on the secretary's desk, and was flanked by burning white candles. Committee members in charge of decorations were Mesdames Lura Brown, Edna Earl Moore, R. D. Newson, and Juanita Newsom.

Approximately 60 members were served punch and cake squares, iced in star-point colors, by the refreshment committee, Mesdames Dorine Criswell, Lillie McPherson, and Odessa Addison.

Officers installed were Mrs. McCracken, worthy matron; Mr. Adams, worthy patron; Mrs. Louise Lewis, associate matron; Bernarr Smith, associate patron; Mrs. Ione Turner, secretary; Mrs. Irma Smith, treasurer; Mrs. Ruth Steele, conductress; Mrs. Grace Buchanan, associate conductress; Mrs. Mary Ellen Brown, chaplain; Mrs. Louise Bynum, marshal; Mrs. Ailene Kersh, organist; Mrs. Elsie McMillan, Adah; Mrs. Moveida Wagner, Ruth; Mrs. Claudia Butler, Esther; Mrs. Pauline Adams, Martha; Mrs. Lena Bryant, Electa; Mrs. Darlene Turner, warder; and Mrs. Ida Bruton, sentinel.

Outgoing officers are Mrs. Simmonds, worthy matron; Mr. Nelson, worthy patron; Mrs. McCracken, associate matron; Mr. Adams, associate patron; Mrs. Ione Turner, secretary; Mrs. Viola Burrows, treasurer; Mrs. Lewis, conductress; Mrs. Steele, associate conductress; Mrs. Delta Lemley, chaplain; Mrs. Geneva Bryant, marshal; Mrs. Kersh, organist; Mrs. Moore, Adah; Mrs. Billie Aven, Ruth; Mrs. Elouise Bearden, Esther; Mrs. Smith, Martha; Mrs. Lura Brown, Electa; Mrs. Addison, warder; and Mrs. Buchanan, sentinel.

EASTERN STAR INSTALLATION OFFICERS of the Brownfield chapter No. 785 installed Mrs. Dora Lee McCracken, worthy matron, and Kyle Adams, worthy patron, at a meeting held recently at the Masonic Hall. Pictured above, left to right, are Mrs. Hazel Lackey, installing organist; Mrs. McCracken, worthy matron; Mrs. Jesse G. Randal, installing chaplain; Mrs. Mollie Goodpasture, grand examiner district 2; and Mrs. Florence Parker, installing marshal.

O E S BANQUET HELD FOR MRS. MCCRACKEN

Mrs. Dora Lee McCracken, worthy matron of the Brownfield chapter No. 785, Order of the Eastern Star, was crowned by Mrs. Hazel Portwood, toastmistress, at a banquet held at 6:30 p. m., Tuesday, June 2, at Nick's Cafe.

The bride is a former student at Boston Conservatory of Music, Texas Tech, and Oklahoma City University, and conducted a dancing school in Brownfield. Lieutenant Anderson, a former student at the University of Southern California, is serving in the United States Air Force, and is stationed at Hamilton Field, Calif.

After June 15, the couple will be at home at 1137 Sir Francis Drake Blvd., Kentfield, Calif.

Advertise in the Herald.

COURTESIES EXTENDED TO LEAH DALE PORTWOOD, BRIDE-ELECT OF DALE CARY

For the past few weeks Miss Leah Dale Portwood, daughter of Mr. and Mrs. John Portwood, has been very busy making preparations for her forthcoming marriage on June 12 to Dale Cary, son of Mr. and Mrs. Tracey Cary. A formal candlelight ceremony will be held at the First Methodist Church in Brownfield.

Miss Portwood attended Texas Technological College this last year, is a member of Delta Delta Delta sorority, and was chosen sweetheart of army ROTC group A. The prospective bridegroom also attended Tech this last year and was a member of the Silver Key Social Club.

Miss Portwood and Mr. Cary and graduates of Brownfield High School, and were prominent in social activities, the bride-elect having been a majorette for a number of years, and the prospective bridegroom, having been a star player on the football and basketball team.

Buffet Supper Given in Gillham Home

A buffet supper, honoring Miss Portwood and Mr. Cary, was given by Mr. and Mrs. Robert Lee Craig and Mr. and Mrs. J. O. Gillham at 7:30 p. m., June 3, at the Gillham home, 804 East Tate.

Hosts and hostesses presented a silver gravy bowl to the honorees, who are to be married June 12. Card games were enjoyed by the guests.

Pink carnations in a crystal bowl centered the buffet, and the meal was served buffet style, featuring ham, cookies, fudge squares, and

HUTSON-HEDDEN VOWS READ IN DOVER, N. J.

Mr. and Mrs. E. R. Hutson of Brownfield, have received notice of the engagement of their son, Coy Ralph Hutson, to Miss Ruth Eleanor Hedden of Dover, N. J. The engagement of an approaching marriage of the couple is being announced by Mrs. Bertha Hedden, mother of the bride-elect.

Miss Hedden is a senior student at Dover High School, and the bridegroom is a graduate of Brownfield High School. He is employed by Austen-Miercast Laboratories, after serving two years with the United States Signal Corps.

The couple plan to be married this month.

Herald Want Ads Get Results

hamper, was presented the honoree.

Cokes and ice box cookies were served to Mesdames Kay Billings, Joann Line, and Royce Kelly, and Misses Janella Lewis, Betty Jackson, Joann Shelton, Carolyn Griffith, Carlton Brady, Royds Dumas, Miss Portwood, and the hostesses.

Personal and Linen Shower in Shelton Home

Leah Dale Portwood, bride-elect of Dale Cary, was named honoree at a personal and linen shower from 5 to 7 p. m., Tuesday, June 2, in the home of the hostess, Miss Joann Shelton.

Miss Portwood, her mother, Mrs. John Portwood, and Miss Shelton greeted the guests: Gifts were displayed in the living room, and were shown by Miss Betty Jackson.

The color scheme, yellow and white, was carried throughout the decorations, and the theme, "toast to the bride," was printed in gold letters upon a yellow and white lace heart, placed in the center of the lace covered serving table.

In front of the heart was a champagne glass containing Miss Portwood's picture. Yellow candles flanked the heart, and yellow streamers branched out from the centerpiece. "It's a Date" was printed on one streamer, "June 12" on the other, printed in gold. Yellow roses completed the arrangement, and were also placed in the living room.

Lemonade, canapes, and mints were served by Lynne Cary, assisted by Miss Janelle Lewis, and Mrs. Joe Shelton, mother of Miss Shelton.

Mr. E. D. Jones is still in the Irving Sanatorium at Mineral Wells.

Mr. and Mrs. David Dunn and children of Seagraves spent Sunday in the home of her mother, Mrs. Major Howard and children.

Mr. and Mrs. Jack Brown and children visited relatives in Leveland Sunday.

Mrs. Homer Dunn will return Friday from Paducah, where she has been visiting relatives.

Mr. and Mrs. Tom Howard returned home after visiting their son in California for some time.

Mrs. Leroy Barrier and Vernon Aldridge are in Hot Springs, N. M., visiting Mr. and Mrs. Aldridge. Mr. and Mrs. Freddy Howard attended a picnic for the Meadow class of 1950 in Lubbock Sunday.

We were happy to have Mr. Roy Mornon for our Sunday morning church services.

Mr. and Mrs. Will Terry, Wanda and Sally Rutledge, returned last week from Alabama.

Pat Joplin is in Lubbock visiting her sister and family, Mr. and Mrs. Elmer Hartgraves.

Coy Terry attended the rodeo at Midland last Wednesday.

The Pool 4-H Club went on a hay ride Thursday night. They collected clothes for the Red Cross, and magazines for the veterans' hospital in Big Spring. After the ride all enjoyed a weiner roast.

The Pool Home Demonstration Club met in the home of Mrs. W. M. Joplin, Wednesday, June 3, with seven members present. The next meeting will be June 17, in the home of Mrs. Will Terry.

Mr. and Mrs. Kenneth Jones and children, Karen and Terry, from Silvertop, visited in the home of his mother, Mrs. O. L. Jones, 311 East Main, Monday and Tuesday. Kenneth is farming and has a few cattle.

WELLMAN GIRL TO VISIT 10 STATES AND CANADA

Betty Briscoe, junior at West Texas State College at Canyon, and daughter of Mr. and Mrs. Melton Briscoe of Route 2, Brownfield, will be among the 36 students going on an extended tour of the west in July.

The tour, conducted by the West Texas geography department, will be the first of its nature ever offered at the college. College credit will be given on the 25-day tour, and the students will visit Arizona, California, New Mexico, Nevada, Oregon, Washington, Wyoming, Montana, Idaho, Colorado, and parts of Canada.

Some of the places the students will see are the Grand Canyon, Las Vegas, Yosemite National Park, San Francisco, Redwood Forests, Portland, Yakima, Glacier National Park, Victoria, B. C., Seattle, Grand Coulee Dam, Lake Louise, Alberta, Yellowstone, and Jasper National Park.

Betty is a graduate of Wellman High School, has attended West Texas State College for 2½ years, and is majoring in history and geography.

ELECTION OF OFFICERS HELD BY AGRICULTURE COUNCIL JUNE 16

The meeting date of the Agriculture Workers Council has been changed from Tuesday, June 9 to Tuesday, June 16, at 7 a. m.

The meetings are usually held at Jesse D. Randal School, but this time it will be held at Nick's Cafe to elect officers. The meetings started ten months ago, as a project of the Brownfield Chamber of Commerce, and the purpose is to co-ordinate answers that agencies give to farmers, so that the farmer may get the same answers from all agencies.

GERON ANNOUNCES BUILDING PERMITS DOWN FOR MAY

During the month of May, nine building permits, totaling \$57,800, were issued in Brownfield, which represented a decrease in construction expenditures over April's total of \$77,520, according to Jake Geron, city secretary.

J. R. Adams, for a small frame and stucco house in the Bridges Addition, at an estimated cost of \$7,000.

S. Yandell, a frame and stucco residence on Block 4 in the East Addition, at an estimated cost of \$7,000.

P. R. Cates, three residences: a frame structure with attached garage, estimated cost, \$9,000; brick home, garage attached, estimated cost, \$10,000; and a brick veneer residence, garage attached, estimated cost, \$10,000.

Mrs. A. E. McBroom, a frame and wood siding residence in the Chisholm Addition, at an estimated cost of \$8,500.

Jimmy Holloway, a frame residence in the Longbrake Addition, at an estimated cost of \$2,000.

C. L. Aven, a frame residence and garage, at an estimated cost of \$8,000.

Paul Woods, a drive-in cafe, at an estimated cost of \$2,000.

Mrs. Dean Murphy Is Named Honoree At Bridal Shower

Mrs. Dean Murphy, the former Wynelle Webb, was honored at a bridal shower, given recently at the First Baptist Church Youth Center. The bride is the daughter of Mr. and Mrs. Robert E. Webb, 802 East Lake.

In the receiving line were Mrs. G. V. Ellis; the honoree; Mrs. Webb, the honoree's mother; and Mrs. Sam T. Murphy, mother of the bridegroom.

Miss Vada Beth Durham of Brownfield registered the guests, and hostesses for the occasion were Mesdames John Hill, Robert Noble, Howard Swan, Forrest Ellington, and Byron Cabiness, and Misses Joy Walser, Parilee Nelson, Vada Beth Durham, and Joyce Ellis. Miss Mary Alice Moore, the bride's cousin, assisted the hostesses, and Miss Walser poured.

A pink satin streamer with the words, "Wynelle and Dean, June 5," printed in gold, was placed above the door to the dining room. Centered on a white crocheted tablecloth over a pink cloth, was a bouquet of pink roses, surrounded with baby's breath.

Pink punch, cookies, and nuts were served.

The honoree attended Texas Tech the first semester of 1952-53 school year, and has been working for the First National Bank of Brownfield since January. Mr. Murphy attended Texas Christian University at Fort Worth this last year. The couple will make their home in Brownfield this summer, and return to Fort Worth this fall.

REV. H. L. SMITH NEW NAZARENE PASTOR

Rev. and Mrs. H. L. Smith and daughters, Retha Fay and Janie Lee, have recently moved here from Grassland, to have charge of the Nazarene Church, at the corner of Second and Tate. They received a hearty welcome in a friendly town. Rev. Smith has been preaching some 20 years, and among charges held were at Hamlin, Quannah, Tokio, and Meadowgrove in Bell county. He was ordained in 1941.

There will continue to be a full program at the church, and the preacher and family are anxious to meet every member of the church.

Rev. Ferguson, former pastor, has moved to Grassland, to have charge of the church there.

HOSPITAL NEWS

Patients in the Treadaway-Daniel Hospital during the past week are:

Medical: J. M. Thornton, W. J. Jowers, R. G. Sherry, Arnold Holloway, Mrs. Ola Wall, Marguerita Barron, Mrs. R. J. Montgomery, and Sue Travis.

Surgical: Mrs. Harold Jones, Mrs. J. H. Scott, Mary Gilley, Mrs. A. H. Zeigler, Laurette Penny, A. C. Oliver, Roy D. Edwards, Minnie Lou Carters, and Howard Charters.

General: Donis Brinson, and Connie Taylor. Accident: Jimmy Norris, W. J. Hollifield, and Mrs. John Billingsley.

620 East Main, are visiting Mr. and Mrs. W. I. Hester, this week, in Carlsbad, N. M.

Good pastures don't usually last unless they are given proper attention through a good management program.

TED ODOM ELECTED TOASTMASTER PREXY

Ted Odom was elected president of the newly organized Toastmasters Club at an organizational session held recently at the Esquire Restaurant.

Guests for the evening included Bob Rose, master of ceremonies, and 11 other members of the Hub Toastmasters Club of Lubbock. A program was presented by the Lubbock members and 18 Brownfield men attended.

Officers elected were Ted Odom, president; Herbert Chesshir, vice president; Kelton Miller, secretary; Grady Elder, treasurer; and J. Porter Giles, sergeant-at-arms. A deputy governor will be elected at the next meeting, if the membership quota is met.

Primary purpose of the club is learning the art of public speaking. The group is composed of representatives of all professions. The club was formed to build personality, to train for leadership and to bring greater service to the community through training, practice and development of the ability of speech.

Active members will not exceed 30 in number, and there will be 1 associate members to fill in for absentees among the regular membership. President Odom said new members may still join the group.

Next meeting will be Monday at 6:30 p. m., in Nick's Restaurant, and the club is making plans to meet once each week.

LAST MEETING OF THE MEADOW STUDY CLUB HELD AT BEASLEY'S

The Meadow Study Club closed the 1952-53 club year at a meeting held May 28, in the home of Mrs. Robert Beasley. Mrs. Carl Russell presided at the business session, in the absence of the president.

Mrs. Louise Peeler conducted the program, "Next Year," and introduced Mrs. C. E. Hicks, who discussed "Common Ailments of Women's Clubs."

Mrs. Beasley, next year's president, spoke on "Looking Forward," and the program was concluded by a round table discussion pertaining to next year's plans. Mrs. J. M. Burleson is chairman of the program committee for next year.

Committees were appointed by Mrs. Beasley: Program, Mrs. Burleson, Mrs. Homer Barnes; social, Mesdames Fonzie Sharp, Peeler, and Hicks; finance, Mesdames Guy Nowlin, Winifred Horton, and Carl Stephenson; courtesy, Mesdames Homer Barrow, Herman Pendergrass, and Charles Tyler; auditing, Mesdames F. A. Wilson, Earl Norman, and Russell. Officers appointed were Mrs. Dan Hulse, parliamentarian; and Mrs. Bill Marchbanks, reporter.

Attending the meeting were Mesdames Burleson, Nowlin, Hicks, Hulse, Norman, Peeler, Pendergrass, Russell, Wilson, and two new members, Mesdames Marchbanks, and Stephenson.

SUMMER IS TIME FOR WELLMAN TEACHERS TO WORK, STUDY AND PLAY

Wellman's teachers are spending the summer in various ways, some of them are taking "refresher" courses at colleges, while others are working at full time jobs to make up for the pay-raise the legislature forgot to see about.

L. T. Sewell has already completed a driver's education course at Texas University, and will spend the rest of his vacation working for the Honolulu Oil Company at Sundown.

B. H. Baldwin is doing electrical work at Wellman and surrounding territory. His work includes in-

TRISLER-NELSON VOWS ARE READ; COUPLE PLANS TO LIVE IN HOUSTON

Miss Garyl Jean Trisler, daughter of Mr. and Mrs. Thomas O. Trisler, of Houston, and Homer Irvin Nelson, of Houston, son of Mr. and Mrs. Homer W. Nelson, of Brownfield, were married Saturday at 7:30 p. m. in the Bethany Christian Church in Houston. The Rev. Elmer D. Henson performed a double ring ceremony.

Given in marriage by her father, the bride wore a gown of lace and satin, designed with a skirt and train of white baroness satin and an overskirt of nylon tulle.

The bodice featured scalloped French Alencon lace over satin, and was fashioned with a princess neckline and long, pointed sleeves. The deep peplum was of scalloped lace, and the slight train was overlaid with lace medallions. Her bridal veil of pure silk French illusion fell from a pearl queen's crown. The bridal bouquet was a white orchid, showered with lilies of the valley, and carried atop a white satin covered Bible.

Attendants to the bride were Mrs. E. R. Austin of Indianapolis, Ind., attended as matron of honor, and wore a pale pink, ankle-length frock of nylon tulle, trimmed with matching braid at the waistline. Bridesmaids were Misses Gail Henderson, Helen Russell and Mona Smith, who wore dresses of powder blue em-

brodered organza over ice blue satin. All of the bridal attendants carried orchid colored asters, and wore matching flower headbands.

L. E. Montague was best man, and groomsmen were Fred Tschirgi, Jr., Jerry Boyer and L. D. Hethcock. Graves Nelson, of Brownfield, brother of the bridegroom, was usher.

Immediately after the ceremony, a reception was held at the church honoring the couple.

Go To Mexico City

For a wedding trip to Mexico City, the bride chose a pure silk sheath dress with a wool cashmere bolero, black shoes, purse and hat, and white gloves. A white orchid complemented her ensemble.

The bride attended Harris Teachers College in St. Louis, Mo., and received an associate of arts degree there. She was graduated from the University of Houston Friday, the day before her wedding. At the university, she was a member of Sigma Phi Mu sorority, Pan-Hellenic Council, and the Student Assembly.

The bridegroom attended Baylor University, and is now attending the University of Houston, where he is a member of Tau Kappa Sigma fraternity.

The couple will be at home in Houston.

Cyclones Are About Rarest in History

Kansas, Oklahoma and Texas, usually have a number of cyclones each spring, but they have spread to other parts of the nation this year, that rarely ever have them. Nebraska, Ohio, Michigan and, this week, Massachusetts has had a joadertor, Massachusetts had a bad tornado or hurricane that blew in-

stalling television sets. Charlie Convoop and wife are attending the University of Colorado at Boulder.

T. W. George started working for the Honolulu Oil Company when the school term ended, but had to quit and go to the hospital for an operation. He is recuperating at Wellman.

Alton Maddux is really taking the summer easy—vacationing in Idaho.

And, of course, the superintendent, J. T. Bryant, is going the way of all superintendents—all work and no play. He's still on duty at the school, making plans for next year.

Mrs. Juanita Lyon and her husband are spending the summer on their farm near Wellman.

Mrs. Geneva Bryant is hard at work, going to summer school at Tech. She plans to go both semesters.

Mrs. Johnny Moore and Mrs. Jackson are attending the summer session at Howard Payne College at Brownwood.

Mrs. J. G. Valentine is living at the Amareta Oil Camp near Wellman.

WE HAVE A BUNCH OF TENNESSEE VISITORS

A young man, closely followed by a lady who proved to be his mother, came bouncing into this emporium last week, and announced he wanted to give out an interview. Not knowing him right off, we referred him to a reporter at a desk nearby. No, he wanted us to have the interview, as the report came direct from Daniel Rogers of Middleton, Tenn.

It was then we began to catch on. Not all the party came in, so, after a bit of conversation, we learned they were Mrs. Carl Hudson, whom we had met back there, and she was through here a few years ago, after visiting over in New Mexico, and called on us. With her, was her son, Bob, and wife, a daughter, Miss Carlene, and a nephew, young Simpson, who lives near Littlefield, whose given name we failed to get.

By the way, Bob works with Daniel at the Tennessee Gas Transmission Co., just south of Middleton some two miles, in a department Daniel has charge of. After somewhat of a tongue lashing among us in the office, the crowd wanted to run out to Phillip Rogers, to visit him and family a short time, and the Old He agreed to show them the way. The Rogers family was at home, and there was another old time Tennessee tongue and jaw slashing, with the word "cousin," used not a few times.

The Tennessee bunch were to go over to Carlsbad caverns Wednesday, and, after a few days, are to take off for Laredo, and Brownsville, and across the river to Matamoros there.

By the way, we understood the Hudsons have some land of their own near Whiteface, with some oil wells thereon, that are paying off nicely in royalty.

TEXAS CHRISTIAN ADVOCATE CELEBRATES CENTENNIAL

Dallas—The Texas Christian Advocate, Methodist Church weekly paper, is celebrating its centennial this week.

Originating as the Texas Christian Advocate and Brenham Advertiser in 1847, it was published that year at Brenham by Robert B. Wells. In 1884, it was moved to Houston, and published as a private enterprise by Oreneth Fisher. That fall it was adopted by the Methodist conference as the official publication, and the name was changed to the Texas Wesleyan Banner.

There were some lapses during the Civil War, and after two other changes in name, the original title was restored in 1952.

The present circulation of over 50,000 is the largest ever achieved. The joint board of publication, with J. H. Crawford, Lamesa, as chairman; Monroe Vivion, Beaumont, vice chairman-treasurer; and Gerald P. McCollum, Dallas, secretary, has set a circulation goal of 100,000.

J. Fisher Simpson, member of the Southwest Texas Conference, is the present editor.

The United States is abandoning efforts to negotiate a settlement of the Anglo-Iran oil mess.

A Japanese firm has placed its first vessel since the war on a South American route.

These year farmers are planting about 77 million acres to wheat in the nation. Next year, the government may allow only 60 million acres. Farmers are likely to plant 26 million acres of cotton. Next year, the government may allow only 19 million acres. In order that Terry county may receive their share of the national and state allotment, it is necessary that they cooperate by turning in at the PMA office the acres seeded to these crops.

Cards and letters have been mailed to all producers in Terry county, requesting this information. Many farmers have made their reports already, but those of you who have not are urged to do this at once.

The final decision regarding acreage allotments and marketing quotas on 1954 wheat and cotton has not been made. For wheat, the decision and proclamation must be made not later than July 1 for marketing quotas, and July 15 for acreage allotments. For cotton, the decision and proclamation on both marketing quotas and acreage allotments must be made not later than Oct. 15. Final decisions by Secretary of Agriculture, Benson regarding controls will be made after production of 1953 crops of wheat and cotton can be determined.

Farmers on land on which no wheat was seeded for any of these years—1951, 1952, and 1953—may apply for a 1954 wheat acreage allotment. To be considered for an allotment on a farm which had no wheat acreage seeded for any of these years, the farmer must apply in writing to his PMA county committee, or at the PMA office by June 30, 1953. Time for reporting wheat acreage during the above years passed on June 12.

Blank applications are available at the county PMA office.

The following price support rates have been announced for Terry county for 1953: Grain sorghum, \$2.38; barley, \$3.19; oats, 87c. The interim rate for wheat has been established at \$2.21. The final rate will be announced later.

The Terry county PMA committee, together with the county committee and representatives of the other agricultural agencies in the county, met recently to make their recommendations regarding the 1954 ACP program, and the special practice for the county to the state committee.

Approved practices for 1954 will be announced at a later date.

Personnel of the Terry county PMA committee is: Riley D. Jones, chairman; R. J. Purcell, vice chairman; and Carl Golden, secretary. The committee meets the first Wednesday in each month.

State PMA committee consists of B. F. Vance, chairman; Howard T. Kingsbury, vice-chairman; Victor Cade, member; J. R. Adams, member; and Gary B. Sanford, member. District field officer is Dale Carter.

Stricklinly Speaking

By OLD HE

Sorry to report that our old friend, Samuel Kirschaer, who with his good wife, opened the Bargain Center here many moons ago, has recently undergone major surgery at Mayo's, Rochester, Minn. He is now at home in Lubbock, 2424 Auburn St. Drop him a card of cheer.

We've just about reached the

point that we pay little attention to the many and sundry reports of this and that, supposed to be happening up at Washington. To hear one "expert" tell it, the Russians can come over and destroy half the United States and not half try. That the Bolshees have three times as many planes as we; a whole ocean of submarines, and a standing army of a gillion or so men.

Then, next day, or perhaps in the same paper, another "expert" will come out with an article, saying the USA could send over

a bunch of airplanes to Russia, loaded with huge A and H-bombs, that would wipe that country off the map from Poland to Siberia.

We have just about as many garbled and varying reports of what is happening at Washington. Some of them think Ike is doing a jamb up job, and everything is moving according to Hoyle, and still another columnist or radio commentator will tell you that everything is in a worse mess than it was under Truman.

We understand that at least one Denver paper has formed the habit of checking and double checking everything that is written or broadcast as the truth and nothing but the truth, and that a lot of it is edited, or entirely eliminated. Most of these C&C boys will hear something, imagine a lot more, and when they have finished an article, it no more resembles the truth than one of Hitler's or Stalin's stories. They guess at a lot, and imagine the rest.

We have just about reached the point that we read little of the big ideas of the columnists, and listen to none. Even some of the news stories are a bit garbled. For instance, recently, they had Taft and the President almost at sword's point, and the next few days, Taft was out of the hospital and back at Washington. Called on the President immediately.

And here we go with the weather again. And we have long since reached the point that we are like old Mark Twain, "everybody talks about the weather, but no one does anything about it." Some say it has always rained here—when it gets good and ready—we guess. Then one weatherman states that we are in a dry cycle. Wonder how he arrived at that?

But we'll agree that it can rain in old Terry when it gets the right notion. One of these days we are going to haul off and run a picture that was made over in north Brownfield, at that sunken place, sometimes referred to as a lake. It was a lake in May, 1941. This scene shows some boats running on the lake, and one night we are told 13 or 14 motorboats were counted in the lake.

There also comes to us a new

publication, being Vol. 1, No. 1, and named, Progress in Research, put out by the University of Denver, Colorado. Haven't had time to go over the magazine as yet, but we are sorter attracted to the front page article, headed, "What's the Weather Like 40 Miles Up?" That may interest some people, but frankly we are not the least interested.

What we are most interested in right now is some clouds, say from one to three miles up in the air, with plenty water in them, and not stingy with the water. Let 'er our! Down at Laredo, it is reported that the Rio Grande has quit running. Nothing left in the bed of the river except sand. No "wetbacks" now. They'll be "dry-backs."

Well, today is the day of all days to go western in Brownfield. So, we shall put on our flaming red shirt, tie and old bandana, and take off up to the corner when the pi-r-a-ade goes by. We'll watch all the floats with the pretty gals in them, the shetlands with the proud lads astride, with full frontier regalia and a brace of real Tom Mix sixpistols. We shall stand about as erect as a crooked sapling as the flag goes by, and feel somewhat like cutting the pigpen-wing as the bands toot 'em up—if it isn't too hot.

Yes, sir, today is the day of the rodeo, and a lot of the men folks will have a full three weeks' growth of beard, and look as if they are just fresh off the set of a western thriller. We shall view the many Sheriff's Poses, as they parade by, on their duds, sorrels, greys and palominos. In fact, along with thousands of others, we shall gaze, rubber and squint at the whole procession. It will be a great day in Brownfield—rain or shine.

Went over to the Jr.'s. Friday night to see Grady Elder, manager of the Chamber of Commerce, come on TV at Lubbock for an interview. And we must say that Grady made a mighty good interviewee. He left no stones unturned to tell all and sundry why he thought Brownfield was the greatest town in the world. And there were few Ah's and Eh's, coughs

Herald Has Visitors From Up In Ohio

Mr. and Mrs. Victor H. Logan, of Kinsman, Ohio, and Mr. and Mrs. Jesse Bascom, of Youngstown, Ohio, were here last week. The ladies were pleasant callers at the Herald office. They were looking after their land, that joins the Geo. Alexander land in north-west Terry, where much oil is being found of late. Mrs. Logan became a regular reader of the Herald.

The Logans and Bascoms inherited their land from ancestors, who in turn came in possession of the land 'way back in the 1880ties, when it was given railroad com-

and no sneezes.

Frankly, we think that Grady did a real good job of it.

South-East Blevins was in the past week to settle a little account he owed, and by some hook or crook, we found that boy was not a regular subscriber to the Herald. But by heck he is now.

By the way, did we ever tell you that you could cut your grass easier and with less cuss words, if you will just carry your old mover up to S. E. Blevins? He knows how to put the cutting edge on 'em. Yes, there will be a small fee, but look at the time saved with a real cutting mower.

Gene Walker of the Kermit News was in to see us Saturday, as he was here visiting his mother, and also his wife's mother, Mrs. Bill Benton, who is carrying the mail in place of her husband, who recently passed on with a heart stroke. We learned Gene the printer's trade, and he worked for us several years before the war, and then a good stretch after his hitch in the service.

We are always glad for any of the old boys to call on us. Shows they still like us a bit, even if they are holding a better job, perhaps.

panies to build railroads in east Texas, and like a lot of other people back in that section, they have held on to the land since, until now some of it is rather valuable.

Mrs. Logan stated that her son was a captain in the army, and that a son of Mr. and Mrs. E. O. Johnson of this city, was serving under him, and that the captain wanted his mother to look up the Johnsons and get acquainted with them, while here.

These people from Ohio think the Alexanders are just about it, they were so nice to them. In fact, they stated that everyone here was friendly and nice to them.

Mrs. Leonard Chesshir, 707 E. Buckley, was among the 75 women golfers who attended the monthly meeting of the Women's Golf Association, held recently at the Plainview Country Club.

Black or dark skin acts as a trap for the sun's rays, catching the incoming heat at the surface, thus preventing its penetration to deeper body tissues where it might cause damage.

It is time to get the home cooling equipment in top operating condition for summer has arrived in Texas, at least, the temperatures point that way.

Summer Schedule For American Legion Baseball Announced

The summer schedule for American Legion baseball teams on the south Plains has been announced recently. Southern division teams are Brownfield, Plains, Whitharral and two Lubbock teams. In the northern division are Plainview, Ralls, Petersburg, Abernathy, and Olton.

June 10 will be opening day, with the south's five teams scheduled as: Brownfield at Plains; Lubbock A at Lubbock B; Whitharral, bye. South (four teams) is

PRIMM DRUG AND FRANK DANIEL ELEC. IN STATE LEAGUE

Primm Drug and Frank Daniel Electric teams of Brownfield are among the six softball teams entered in the Texas Softball League, which will get underway at 8 p. m., Saturday night, with three double-headers scheduled. Other teams entered are Weaver Medlin Tire Company of Stamford, Humble and Standard Companies of Snyder, and the Lorenzo Lions.

The top four teams will meet in a playoff, and the winner will qualify for the state softball meet, which will be held in Brownfield sometime in July.

Plains at Lubbock; Whitharral at Brownfield.

The remainder of the schedule for the south half is:

South Half (Five Teams)

June 12—Lubbock A at Whitharral, Lubbock B at Plains.

June 15—Lubbock B at Brownfield; Plains at Whitharral.

June 17—Plains at Lubbock A; Whitharral at Brownfield.

June 19—Whitharral at Lubbock B; Brownfield at Lubbock A.

June 22—Plains at Brownfield, Lubbock A at Lubbock B.

June 24—Whitharral at Lubbock A, Plains at Lubbock B.

June 26—Brownfield at Lubbock B, Whitharral at Plains.

June 29—Lubbock A at Plains, Brownfield at Whitharral.

July 1—Lubbock B at Whitharral, Lubbock A at Brownfield.

South Half (Four Teams)

June 12—Plains at Whitharral, Lubbock at Brownfield.

June 15—Lubbock at Whitharral, Brownfield at Plains.

June 17—Lubbock at Plains, Brownfield at Whitharral.

June 19—Whitharral at Plains, Brownfield at Lubbock.

June 22—Plains at Brownfield, Whitharral at Lubbock.

June 24—Plains at Lubbock, Whitharral at Brownfield.

June 26—Plains at Whitharral, Lubbock at Brownfield.

June 29—Lubbock at Whitharral, Brownfield at Plains.

July 1—Open dates.

Saturday night, Humble is at Lorenzo, Stamford is at Frank Daniel in Brownfield, and Primm plays Standard.

The rest of the schedule: June 13—Frank Daniel at Humble, Lorenzo at Primm Drug, and Standard at Stamford.

June 20—Humble at Standard, Stamford at Primm, and Frank Daniel at Lorenzo.

June 27—Primm Drug at Frank Daniel, Lorenzo at Standard, and Humble at Stamford.

July 11—Lorenzo at Humble, Frank Daniel at Stamford, and Standard at Primm.

July 18—Humble at Frank Daniel, Primm at Lorenzo, and Stamford at Standard.

July 25—Standard at Humble, Primm at Stamford, and Lorenzo at Frank Daniel.

Aug. 1—Frank Daniel at Primm, Standard at Lorenzo, and Stamford at Humble.

Aug. 8—Humble at Primm, Frank Daniel at Standard, and Lorenzo at Stamford.

City Officials Attend Caprock Hotel Lunch

Mayor Pro Tem Herman Chesshir, City Secretary Jake Geron, and City Attorney Bill McGowan, attended a Canadian river project meeting and luncheon, Monday, June 8, at the Caprock Hotel in Lubbock. The meeting lasted until 2:30 p. m. A review of the project was summarized by A. Bryce Huguenin, attorney who is retained by the project, who discussed the bill as it was finally passed and signed by the governor. Other speakers discussed instructions concerning the next step that the member cities should take in selecting directions.

The Canadian River project proposed a dam on the Canadian River, north of Amarillo. A bill has been passed setting up a water district composed of these 12 cities: Borger, Pampa, Amarillo, Plainview, Lubbock, Slaton, O'Donnell, Lamesa, Brownfield, Tahoka, Levelland, and Littlefield.

More people drive
FORD V-8's than all other
V-8's combined

AND IT'S STILL THE ONLY V-8 IN THE

LOW-PRICE FIELD! No other engine in the world has enjoyed so much popularity as Ford's power-packed high-compression V-8. Today, 4 out of every 5 V-8's are Ford V-8's. And while other makers are scrambling to catch up, Ford and Ford alone offers a V-8 in the low-price field... and for hundreds less than most sixes.

Fifty Years Forward on the American Road

FORD'S V-8 IS THE SAME TYPE OF ENGINE

AMERICA'S COSTLIEST CARS ARE SWINGING TO!

Six more makers in the last five years alone have switched to V-8 power in their most expensive models. Yet Ford's been offering this same type of V-8 power for over 20 years! What's more, Ford gives you your choice of Fordomatic, Overdrive or Conventional Drive—the widest choice of drives in the low-price field!

FORD'S V-8 GIVES MORE "GO" PER GALLON!

Whether you choose Ford's 110-h.p. V-8 or the 101-h.p. Mileage Maker Six, your engine lives on a lean diet. For both offer the gas savings of Ford's exclusive Automatic Power Pilot which squeezes the last drop of power out of every drop of gas... "regular" at that! See and Value Check Ford's "Worth Mores." You'll agree Ford's worth more when you buy it, worth more when you sell it.

ALPHA OMEGA STUDY CLUB held an installation coffee, recently, at the Seleta Jane club house. The outgoing president, Mrs. W. T. McKinney, installed the new officers; Mrs. Jake Geron, first vice president; Mrs. George O'Neal, second vice president; Mrs. Truett Flache, recording secretary; and Mrs. D. L. Pemberton, treasurer. Pictured above at right, is Mrs. C. R. Lackey, a past president, who installed her daughter, Mrs. M. J. Craig, Jr., left, as president for next year. This was the first time in the history of the club that a mother has installed a daughter as president. (Staff Photo)

JUNE 20 DATE FOR FIRST INSPECTION OF SOAP BOX RACERS

Approximately 250 south Plains youngsters have entered Lubbock's sixth annual Soap Box Derby, and the time is near for the first inspection of the boys' racers. On June 20, only two weeks away, each boy should have his racer as nearly completed as possible, for on that date the inspectors here in Brownfield can check on the various details of construction, and whether the cars conform to the various measurements set by the official rules.

On Saturday, June 27, the final inspection of the racers will be made. On that date, every boy is required to have his racer complete and ready to race.

A week later comes the big event, winner of which will receive an all-expense trip to Akron, Ohio, where he will compete on Aug. 9 against the champions from 150 other cities of the United States, Canada, Alaska, and the occupied zone of Germany for \$15,000 in college scholarship prizes.

Winner of the Akron Soap Box Derby race will receive a \$5,000 four-year college scholarship to any school of his choice; second place winner, a \$4,000 scholarship; third place, \$3,000 scholarship; fourth place, \$2,000 scholarship; and fifth place, a \$1,000 scholarship.

In addition to the Akron trip, other prizes, including a paint pony with saddle and all the trimmings, will be awarded in the Lubbock derby. Detailed announcement of these prizes will be made at a later date.

The youngsters will compete in two different classes, Class A and class B, with the older boys from 13 to 15 years of age racing in class A, and the younger boys, 11 and 12 years old in class B. Champions of the two divisions will compete against each other in the final race for the championship.

Entrants who are building racers were warned again Saturday to check every detail of construction with their rule books as they build the cars. Each car must not be over 80 inches in length, 42 inches wide, 28 inches high, with a wheelbase of not less than 40 inches, and wheel tread of not less than 30 or more than 36 inches.

Each racer and driver must not weigh in excess of 250 pounds, and materials used to build the car must not cost more than \$10, exclusive of the cost of wheel and axle sets.

Weight may be built INTO a racer so that it approaches the maximum of 250 pounds, but it must be done in such a way that no loose material of any kind is in the car.

Built-in weight must be anchored safely in the car. This rule will be rigidly enforced by inspectors, and the weight rule provides that inspectors have the right to remove any material from the car, which in their judgment, is unsafe.

Boys were asked to check carefully on the safety factors of their racers, especially in the construction of the steering gear and brakes. They should be as rigid as

Might Be Sensational But Also Disgusting

The daily papers, especially the Lubbock and Fort Worth, did the murder trial at Levelland up in a stink ball last week. Of course, the dailies branded the trial as "the most sensational thing ever to take place in Hockley county." Maybe, all of us can agree on that point. But after reading the evidence as reported in the dailies, our opinion is that the trial was one of the most disgusting things we have read in a long, long time.

We will go further and make the statement that it was a disgrace not only to Hockley county, but to this entire section. It was not fit for young people to read, but no doubt many read it. It therefore left a bad opinion in their minds of people who are not only parents, but moral and educational instructors of the youth of the land.

What appears strange to us, is that folks who are not reporters and photographers, or have no connection via the court to be present, were even in hearing distance of the Hockley county courthouse, much less crowding in and in some instances standing, to hear this dirty story told and retold.

Perhaps after all, one who has no control over his sexual passions is better to be gone and forgotten as soon as possible. And we believe if we were among the living of that episode, we'd move just as far from the scene

Youth Revival At First Baptist Church

A youth revival will open Sunday at the First Baptist Church, and continue through June 21, according to Rev. Jones Weathers, minister of the church.

Four young people have been selected by the Baptist student department in Dallas to come to Brownfield and assist with the revival. They are: Hoyt A. Mulkey, director of singing; Bill Cook and Browning Ware, who will assist with the preaching; and Miss Virginia Moon, who is to direct fellowship and visitation activities. The four young people are students at Southwestern Baptist Seminary in Fort Worth.

Local young people will be in charge of arrangements for the youth meeting. Committee appointments include: Beth White, publicity chairman, assisted by Betty DuBose, and Wendell Drennon; Byron Wise, prayer chairman, assisted by Joyce Ellis and Jo Beth Dumas; Parilee Nelson, chairman of musical arrangements, assisted by Barbara Eaves;

Patsy K. Rogers, fellowship chairman, working with Jamie Turner; Max Black, chairman of ushers, assisted by Adrian Hinson and Ellis Cox; Max Black, steering committee chairman, assisted by Byron Wise; Royda Dumas, entertainment chairman, working with Marilyn Willis, Norma Butler, and Jimmie Shevmake; Jeanette Johnson, visitation chairman, assisted by Bob Dumas, Alta Merritt and Ronnie Grant.

Mr. and Mrs. M. G. Sarpley and Mr. and Mrs. Jack Bailey have returned from Evergreen Valley, N. M., where they vacationed a few days.

possible, so that there will not be any possibility of a failure, which may contribute to an accident.

TEACHERS GET DRIVERS COURSES AT U. OF T.

Austin—Thirty-five Texas teachers have completed a driver-education short course at the University of Texas.

They have been certified by the Texas Education Agency to teach driving in Texas schools. They have been certified also by the American Automobile Association to obtain dual-control autos and other services.

The course is offered annually by the university's college of education and division of extension. Cooperating organizations are the AAA, TEA, State Department of Public Safety, Texas Automotive Dealers Association, Texas Congress of Parents and Teachers, Texas Highway Department, and Texas Safety Association.

Those who completed the course include: Leon Truman Sewell, Wellman.

School Census Higher Than Last Year

Terry county scholastic census, taken this past April, revealed that there are 3,540 children between the ages of 6 to 18 in this county. Children reaching the age of 18 before Sept. 1 were not counted. This is an increase over last year's census report of 3,360.

The census was sent to the census division, Texas education agency, at Austin, by E. G. Brownlee, county superintendent, who made a combined roll. When the state takes off the duplications, the report will probably be 100 less.

Census takers were J. T. Bryant at Wellman, Myrl Gary of Union, Homer Barron at Meadow, and J. B. Curtis and William Conlee of Brownfield.

WE CONGRATULATE:

Mr. and Mrs. Roy Earnest Adams, Route 5, Brownfield, on the birth of a daughter, Rita Davena, weighing 7 pounds 2 1/2 ounces, May 25. The father is a farmer.

Mr. and Mrs. Wesley Bevalyn Nance, 806 East Cardwell, on the birth of a son, Thomas Michael, weighing 6 pounds 8 ounces, May 28. The father is a salesman.

Mr. and Mrs. Richard Robert Horton, 1107 North First Street, on the birth of a son, Richard Dwight, weighing 8 pounds 3 ounces, May 29. The father works with a seismograph crew.

Mr. and Mrs. Henry Thomas Riley, 1219 West Powell, on the birth of a daughter, Thelma Thresa, weighing 9 pounds 7 1/2

ounces, May 30. The father is a section hand.

Mr. and Mrs. Douglas Gene Foust, 1121 North Second Street, on the birth of a daughter, Vicki Lynn, weighing 6 pounds 8 1/2 ounces, May 30. The father is a television technician.

Mr. and Mrs. Martin Lawson Stucker, Box 804, on the birth of a daughter, Judy Lynn, weighing 6 pounds 5 1/2 ounces, June 2. The father is a mechanic.

One of the world's worst volcano tragedies was the eruption of Mt. Pelee in Martinique in 1902, in which 28,000 were killed.

Mr. and Mrs. Leo Allen will leave this weekend for a vacation at Ruidoso.

**GET READY FOR SUMMER HEAT**

College Station—Temperatures over much of the state during the past few days are a pretty good indication that summer weather is here to stay. And, according to W. S. Allen, agricultural engineer for the Texas extension service, it means getting things in shape around the farm for the hot weather season.

First, the equipment used during the winter should be cleaned, oiled and made ready for the inactive period. This would include checking the filter in the furnace and oiling the fan and motor bearings. Other heating equipment should be cleaned and stored for the summer.

Buildings should be checked inside and out for damage from winter weather. Window frames, condition of the putty, paint finish, weather stripping and inside and out boards should be checked for rot or other damage. Porches, stairs and siding should get special attention, says Allen. Blistered paint and stained walls are usually good evidence that repairs are needed now. Hot weather, points out the specialist, may make the faulty conditions worse, and more difficult to repair.

Now is the time, says the engineer, to get the cooling equipment in top shape. Electric motors should be cleaned and oiled, and all wiring checked. New filter pads may be needed on the evaporative coolers, and water lines and valves should also be checked. If a cooling system is to be installed, better get the job done now, in order to beat the heat.

Mr. and Mrs. Terry C. Redford, and children, have moved to Ropesville, from El Paso, and will teach in the Ropesville schools next year. Both are former teachers of Brownfield, Meadow, El Paso, and Ropesville. Mr. Redford was in the Herald office last Friday, and stated that he and his wife, Imogene, were glad to be back among friendly people, and also to be near their parents. Mrs. Redford's mother is Mrs. Ola Walls, and Mr. Redford's mother is Mrs. E. L. Redford; both ladies are of Brownfield.

Advertise in the Herald.

June Is Dairy Month In Texas Industry

College Station—The dairy industry in Texas is a mighty important contributor to the overall agricultural income of the state, to say nothing of what it means to the health and welfare of the state's population. The value of all milk produced in the state last year amounted to about \$200 million, says R. E. Burleson, dairy husbandman for the Texas agricultural extension service. Total milk production reached almost 4 billion pounds.

During the present month, Burleson says, the dairy industry will be in the spotlight, for June is dairy month. At this time the industry, he explains, is having its troubles, just as are other parts of the great agricultural industry. This is the season of greatest milk production and surpluses are creating producer problems. They disappear, says the specialist, if consumers would step up their purchases of milk and other dairy products.

Stepped up purchase of milk is of the utmost importance, because the fluid milk market is the largest single outlet for the state's dairy producers. Surpluses are being used in large quantities for the making of ice cream, cheese, butter and evaporated, condensed and powdered milk. Dairy products in any form, say Burleson, are among our best food, and are needed by young and old alike for providing essential nutrients.

The specialist says that milk production in the nation for the first four months of this year is about seven percent higher than for the same period in 1952, but is expected to slacken for the remainder of the year.

ALUMINUM FOIL GETS LONE STAR 'BRAND'

Texas fifths, Texas Fords, and now—Texas foil! Reynolds Metals Company, realizing that Texans would just natcherly rather buy a product home-grown in the greatest state of the 48, has put a Texas "brand" on every carton of its aluminum foil now on sale in the state's stores.

It began when aluminum emerged as America's newest, important metal, and Reynolds began producing aluminum at its San

Livestock, Poultry Parasites Cut Profits

College Station—The battle between man and the insect kingdom goes on continuously. Whenever sanitation and control programs become ineffective, the bugs take advantage of the situation, and rapidly increase in numbers, with a corresponding increase in damages done. The annual toll taken by external parasites from the producers in Texas of livestock and poultry amounts to millions of dollars. Right now, the extra dollars are needed to help keep production on the black side of the ledger.

The entomologists of the Texas A&M College system have released a publication, C-324, "A Guide for Controlling External Parasites of Livestock and Poultry in Texas," and it is available at the office of all agricultural agents.

The entomologists point out that external parasites are present the year round, and that lower production of meat, milk and eggs result when the bugs are not controlled. In addition, diseases are spread, and infested livestock and poultry go down in condition, because of the loss in energy and from annoyance. Organic insecticides, they say, will control the major external parasites, and there is little excuse for allowing them to exist.

Included in the guide are formulas, mixing instructions and methods of application for a great number of insecticides, along with an even longer list of the parasites that do the most damage. The information is given in a condensed form, and is based on experiments conducted by the Texas agricultural experiment station, the bureau of entomology and plant quarantine and animal husbandry of the United States Department of Agriculture.

The Low Down From Hickory Grove

The matter for discussion during this study period is, "are we growing wiser with time, or are we becoming more simple?" I say, to open the seminar, that I lean toward the "getting more simple" side.

I go now into "money" and what is free money—Govt. gift money. The thought of the land seems to overlook how come Sambo has this big dinero in his jeans. It is there, so the gent at the lunch club says, let's get ours, boys, before some other town or county grabs it. And the club votes unanimously to get the "gift" dinero. And it is a smart enough looking bunch, too, nibbling there on the smorgasbord, or whatever it is that is being nibbled. All of 'em pay taxes. They vote as though they knew not that it was their very own cash money that they handed the tax man the day before that is the foundation for the "gift" offered today.

Anybody caring to take the "yes" side on the "growing wise" claim, he will please stand up and show cause for doubting my claim that grandpa—150 years ago—would not have been a sucker for any fool talk that there is such

Patricio plant near Corpus Christi. A Lone Star brand was put on ton after ton of shining aluminum "pigs" produced there.

And now, Reynolds Wrap, household foil with 1,001 uses, pioneers in the fast-growing aluminum foil market, bearing a sticker proclaiming to all Texas that here's another home-state product.

Call Draft Dodgers Out, Too Say Vets

Odessa—Continually citing the shortcomings of veterans while draft dodgers are ignored, resulted in the following resolution being passed by the 165th district convention at its spring convention here, May 3:

Whereas, veterans of the wars of the United States are only human beings and are not all bad; and

Whereas, in reading the newspapers or listening to radio newscasts, it seems that every time a former member of our armed forces does some act that brings him into contact with the legal authorities, he is branded as a "veteran" (which he is); and

Whereas, in these same newspapers and radio newscasts, those who used their political influence to get in war industry for the sole purpose of evading the draft are not branded by the news agencies as draft dodgers, or otherwise; now

Therefore, be it resolved by the membership of the 16th district, the American Legion, Department of Texas, in meeting this third day of May, 1953, that said membership call on our local newscasters to eliminate this smear of all veterans; and

Be it further resolved, that a copy of this resolution be presented at the department American Legion convention, 1953, for action, to be then passed to the national convention for final action.

MAURY H. ALBERTS,
Commander 16th District.

TMA FILMS ARE SHOWN IN CLASS ROOMS NOW

Houston—Motion pictures appear to be taking a more prominent position in classroom studies.

This was indicated by the demand for films from the Texas Manufacturers Association's film library, which reached a new high during the 1952-53 school year.

More than 157,565 viewed the TMA industrial films during the period, representing an increase of almost 60,000 over the 1951-52 school year.

These statistics were reported by J. Bob Roberts of Fort Worth, chairman of TMA's statewide public information committee.

Mr. Roberts added that some 258,000 students have viewed the films since the library was initiated on a minor scale in the fall of 1950. The more than 100 films now in the library were loaned TMA by companies from throughout the United States.

They cover a wide range of industrial subjects, and are furnished Texas schools and other non-profit institutions at no cost, except for transportation charges.

TEXAS CHIROPRACTORS TO MEET IN BEAUMONT

A large delegation of south Plains and west Texas chiropractors are planning to attend the 38th annual convention of the Texas State Chiropractic Association in Beaumont, June 11-14, it has been announced here.

Dr. T. C. Tinkham, representing the south Plains area on the association board of directors, will attend board meetings, scheduled for Wednesday afternoon, June 10, and Saturday afternoon, June 14. Dr. T. H. McElroy from Brownfield is expected to attend.

an animal as "free Govt. dinero." Grandpa was no green pea.

Yours with the low down,
JO SERRA

Brownfield Guard In Training at Ft. Hood

North Fort Hood—The problem facing 58 members of Howitzer Company, Second Battalion of the 112th Armored Cavalry Regiment, in camp this summer, is that of bettering last year's near perfect record.

The famed cavalry regiment compiled one of the most impressive records in National Guard history here just a year ago.

The company from Brownfield pulled into camp Sunday morning, put things in order, and spent Monday morning orienting themselves. Monday afternoon they started training, with some units firing on the ranges, others attending lectures, and recruits who are in camp for the first time started an intensified recruit training schedule.

Training will be much the same this year as last, according to Col. Frederick Weston, regimental commander. Emphasis during the first week is on training each man as an individual, qualifying him with his individual weapon, and in his particular assignment.

Highlight of the annual camp will come Saturday, with the regimental review, a visit from Gov. Allan Shivers, and awarding of the Lt. Jack Knight trophy to the regimental honor company. This will be the first presentation of this trophy in honor of the Congressional Medal of Honor winner who was killed in Burma during WW II with the 124th, which is now an integral part of the 112th. Lieutenant Knight's parents, from Mineral Wells, will make the award.

PRIVATE NICHOLS SEES FIRING OF ATOMIC SHELL IN NEVADA

Desert Rock, Nev.—Pvt. Robert E. Nichols, whose wife, Joyce, and parents, Mr. and Mrs. Lloyd B. Nichols, live in Seagraves, witnessed the first test-firing of an atomic shell from the army's giant cannon at Camp Desert Rock, Nev., this week.

He was one of nearly 3,000 officers and enlisted men, most of them artillerymen, who crouched behind rivetments 4,500 yards from ground zero as scientists fired the huge 280 mm. artillery piece by electrical control, from a tower ten miles away.

Before the actual firing of the atomic shell, the group was thoroughly indoctrinated in atomic warfare technique, and took part in experimental firing of conventional, non-atomic projectiles from the mammoth weapon.

Private Nichols is a cannoneer in Battery C of the 367th Field Artillery Battalion at Fort Sill, Okla. A former employee of the Columbia Carbon Co. in Seagraves, he entered the army in May, 1952.

BROWN WAS IN THE MEDITERRANEAN CRUISE

Norfolk, Va. (FHTNC)—The USS Pittsburgh returned May 26 to the United States, after a six months' cruise in the Mediterranean and the Indian Ocean.

Serving aboard the heavy cruiser is Roger A. Brown, fireman, USN, son of Mr. and Mrs. Grady Brown, of Brownfield.

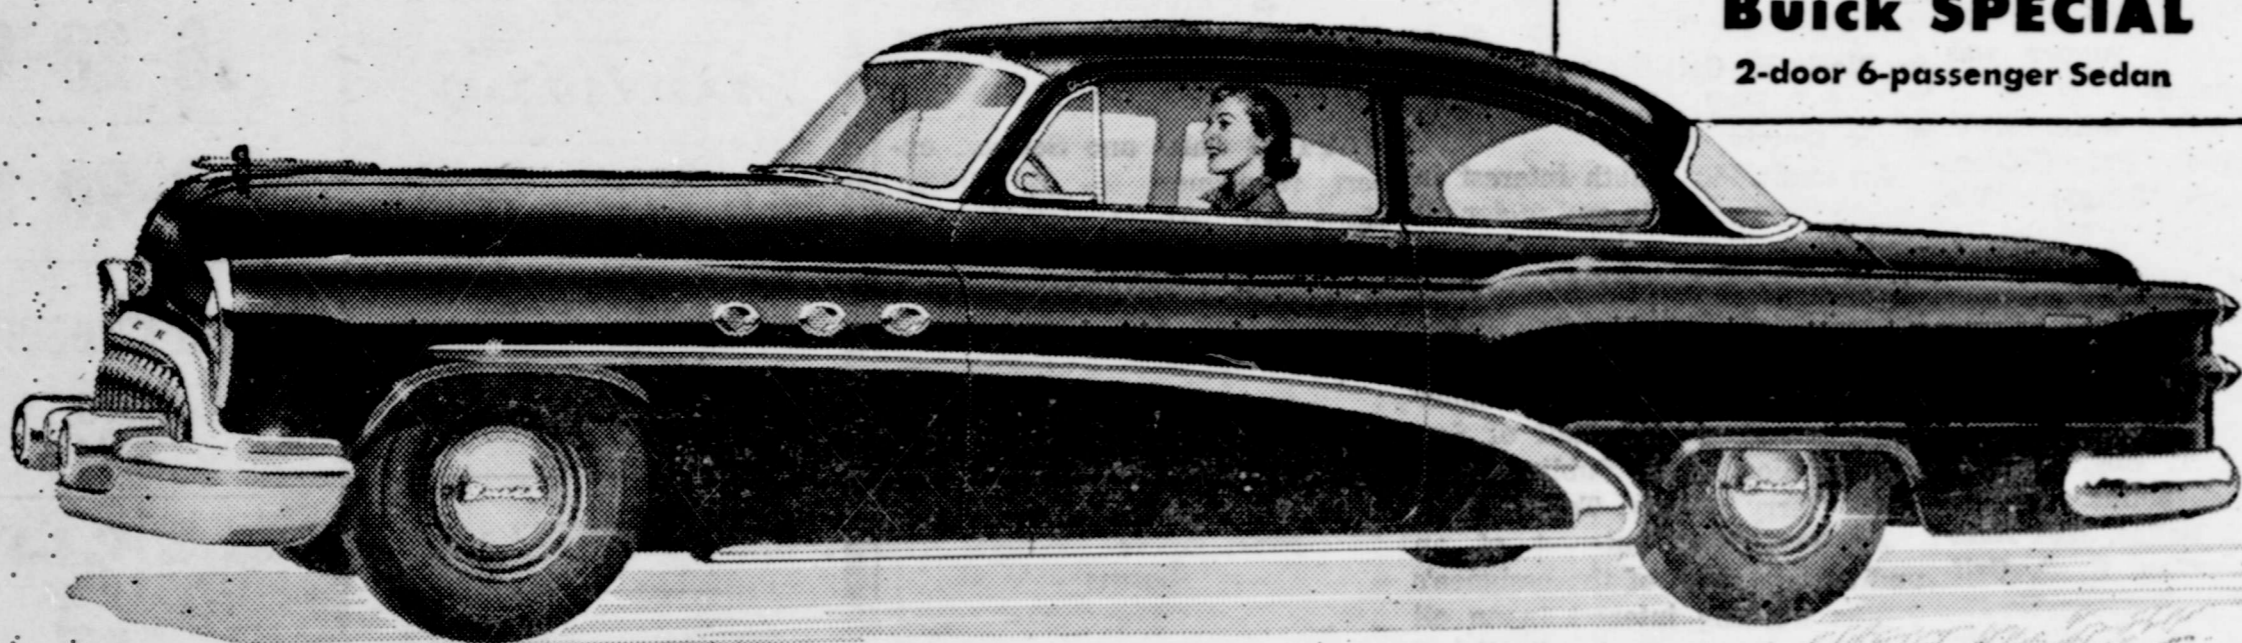

As a member of the U. S. Sixth Fleet, the Pittsburgh participated in "operation rendezvous" and other maneuvers.

Even if the earth did not rotate at all on its own axis, the sun would rise and set once during the year, because of the earth's journey around it.

this bargain

Come in and ask us about
the low delivered price on this
1953
Buick SPECIAL
2-door 6-passenger Sedan

WE make that statement for a mighty good reason.

A lot of people have no idea that this big, roomy, sweet-riding 1953 Buick SPECIAL costs just a little more than the so-called "low-priced" three.

Maybe you're one of them—and we'd like to clear the picture for you.

We'd like you to know that you can buy the most beautiful, the most comfortable, the highest-powered SPECIAL in Buick history for a lot less than you may think.

But there's more to this great

automobile than just more room and power and thrill per dollar—more than just the solidness of Buick structure, the pride of Buick styling, the steadiness of Buick riding.

There's walloping big value above all this.

For here you get as standard equipment a host of other things that most other cars of similar price charge as extras—things like twin sunshades, lighter, automatic glove-box light, direction signals, dual map lights, trip-mileage indicator, oil-bath air

THE GREATEST
BUICK
IN 50 GREAT YEARS

cleaner, full flow oil filter, bumper guards front and rear.

The key—and the thrills—are waiting for you.

Why not drop in on us this very week and try the most exciting Buick SPECIAL ever built? We know you'll find it a buy too good to pass up.

188215 NEW PLYMOUTH CLUB COUPE Delivered at M. J. CRAIG MOTOR CO.

CHRYSLER — PLYMOUTH
719 W. Bdwy. Brownfield, Texas

JOHNNY WINSTON AND JIMMY MILNER are pictured above before their departure on a Braniff Airlines plane en route to New Orleans, La., at 7:30 a. m. Saturday morning, June 6, at the Lubbock municipal airport. Johnny is the son of Mrs. Homer Winston, 601 East Keppro, and Jimmy is the son of Mr. and Mrs. John Milner, 420 South Third. From New Orleans, the boys will go to a naval base in Cuba for a two weeks' naval reserve cruise. Also making the cruise will be Sidney Jones, son of Mr. and Mrs. Garland Jones of Brownfield, who left earlier Friday, and met the group at New Orleans. The boys are members of the naval reserve unit at Lubbock. Accompanying Johnny to Lubbock was his mother and his sister, Mrs. Glenna Stevenson, and her son, Rodney. Jimmy was taken to Lubbock by his wife, the former Wynona McCoy. The group will return June 21.

WELLMAN BOARD HIRES TEACHERS, EVALUATES DISTRICT VOTES PLANT

At a recent meeting of the school board of the Wellman Independent School District, the following teachers and workers were hired: High school principal, B. H. Baldwin; English, Mrs. Grady Baker; math and basketball coach, L. T. Sewell; history and girls' basketball coach, Grady C. Baker; commercial teacher, and football coach, Mr. Charlie Conwood; vocational agriculture instructor, Horner E. Jones; and home and family life, Willie Mae Hines; and elementary school principal, Thomas W. George; teachers in elementary school are Alton Maddux, Juanita Lyon, Mrs. Stevens, Mrs. Stevens, Mrs. Geneva Bryant, Mrs. Johnnie Moore, Mrs. J. G. Vantine, and Mrs. Lorena Jackson.

The superintendent of schools, J. T. Bryant, was re-elected; along with the tax assessor and business manager, Chas. H. Jackson; bus foreman, Garland Parker, and cafeteria manager, Dorothy Christopher.

A budget hearing was held on May 12, and a proposed budget was tentatively adopted by interested tax payers. The approximate valuation of the school district for the year is \$10,000,000. The tax rate is \$1.50, and the valuation is set at 25 percent of normal value.

A tax equalization board was appointed, and composed of the following members: Mont. Hamm, Charlie Rowland, Sam Oliver, G. L. Sims, and Alfred Tittle. This board will meet on July 15 to equalize and set values on oil and corporation properties, and meet on July 16 to discuss local and farm properties. The board has set

9 a. m. as the convening time on both days.

Consideration of a \$300 teacher pay raise has been discussed, and also plans for a bond issue for a new high school plant have been given much study recently. It is realized that something must be done soon, for the heavy enrollments in the elementary school will be moving into the high school; that they owe it to their children to give them a better chance at a well rounded education than can be given in the present plant. No science or music can be taught with the present facilities, and the new high school plant, besides having necessary class rooms, would have a gymnasium, auditorium, and a cafeteria.

The increased valuation that the oil companies has given the district will make it relatively easy to provide the necessary plant and equipment. It is believed that the plans for the new plant can be carried out, and not involve the district in over 4 percent bonded indebtedness, including the present debt. It was only four years ago that the district was carrying a 7 percent bonded debt, and used 50 cents of each tax dollar to pay off bonds. At present, 5 cents of each tax dollar goes to pay off Wellman's bonded indebtedness. This is about as low as any district in the state.

Members of the school board are Carl Golden, president; Alton Loe, secretary; G. M. Bradley, Elmo Adair, Robert Hamm, John McKenzie, and D. B. Oliver.

MRS. LOUISE BREEDING NEW WELFARE WORKER IN TERRY COUNTY

Terry county has a new state welfare worker, Mrs. Louise Breeding, who has been transferred from the state department of public welfare at San Marcos.

Mrs. Breeding worked there seven years, and will contact the welfare departments in Gaines and Yoakum counties, as well as Terry. She is located in the basement of the courthouse.

Grady Elder

(Continued from page 1)

have a carbon black plant that produces 4 million pounds per month. Oil production in Terry exceeds 500,000 barrels per month, with over 250 producing wells.

"Brownfield is in the middle of a diversified farming area," Eldon continued. "We have produced as much as 6 million bushels of wheat and we average from 45 to 60 thousand bales of cotton annually. No other area has as stable and balanced economy as we do.

"We have 500 irrigation wells, that irrigate 50,000 acres of land, which is twice as much land irrigated per well than any other county with tighter soils, because we have sprinkler systems that distribute the moisture more evenly, and our soil will absorb the moisture faster, thereby giving the plant a better opportunity to get more benefit from the moisture that we do get. We do depend on our average 18.96 inches of rainfall, but we can produce more on 18 inches than some other counties can on 25 inches. We have our .96 now we are waiting for the 18 inches.

"We rank highest for our size town, with our \$17 million in bank deposits, and our \$17 million in sales annually is among the top. "I will challenge any town in the south plain," Elder concluded the talk with, stating, "to present me with figures that will compete with these. We have 28 of our 52 blocks of city roads paved. We have a city tax rate of 95 cents per \$100 valuation. \$1.50 is the cheapest in our section of the county.

"Schools, churches, civic organizations, will also rank among the best. In conclusion, I challenge any town on the south plains that can produce evidence of a town taking a cross section of the town, that is better than Brownfield."

Farmers attending were: J. T. Bryant, Elmo Adair, Pete Golden, S. C. Adair, A. A. Slaughter, Vic Franklin, John K. McKenzie, D. B. Oliver, Alton Loe, Carl Cabe, Alfred Tittle, Bob Burnett, Cletus Chambers, Lee Lyons, Tommy Hawkins, and Homer Jones.

Businessmen attending were: Grady Elder, J. T. Hoy, Leonard Lang, Harry Cornelius, Charlie Kersh, James H. Dallas, Jack Hamilton, Curtis Sterling, C. G. Griffith, Slick Collins, Harmon Howze, Buddy Gillham, Dennis Q. Lilly, Lynn Nelson, Alvin Davis, and Dube Pyatt.

Legal Notice

THE STATE OF TEXAS COUNTY OF TERRY NOTICE OF EXECUTION SALE By virtue of an execution issued out of the District Court of Hockley County, Texas, on a judgment rendered in said court on the 5th day of May, 1953, in favor of T. I. Robinson and against the said Richard C. (Dick) Graves in the case of T. I. Robinson against Richard C. (Dick) Graves, No. 2706.

BUSINESSMEN FETE FARMERS AT BANQUET

Terry county farmers and business men of Brownfield had an evening of fun and entertainment (the latter being at some of the guests' own expense) at a supper held at the school cafeteria in Wellman last Thursday night at 8 p. m. The evening featured good food and lots of laughs.

Grady Elder, Homer Jones, and J. T. Hoy greeted the guests, along with James Harley Dallas, who acted as master of ceremonies.

The evening's entertainment consisted of a number of contests and drawing prizes.

Contests were under the supervision of Mr. Dallas, and consisted of a sack and bubble gum contest, the object of which was that the contestants wear gloves and had to open a sack tied with a string remove a piece of bubble gum with its paper, and get the gum chewed first. Jack Hamilton won a box of bubble gum as the winner.

Second contest involved five sets of partners feeding each other a banana. Winner received more marshmallows on strings. Winner was the first to draw up the string into his mouth and spit the string out. C. C. Griffith won and received more marshmallows.

Fourth contest consisted of men representing a chair, windows, and a table. A member of the audience washed the window, sat in the chair, and left a pitcher of water on the table (Harmon Howze's back).

Fifth contest involved 16 men, eight on each team, object was to pass an orange under the chin to the next man's chin. Jaycees had lots of trouble with their "overgrown beards." Winning team received more oranges. Contestants were matched fat and slim, and tall and short, to present difficulty in winning.

Names of farmers were drawn from a box by a small boy, and then the identified farmer drew for a prize number. Elmo Adair drew a \$5 merchandise certificate from Collins; Pete Golden, a \$5 certificate from Cobb's; S. C. Adair, a rat trap; A. A. Slaughter, a rolling pin; Vic Franklin, a minnow bucket from J. B. Knight; John K. McKenzie, a raincoat; Alton Loe, a gallon of paint from Humble Oil Co. and George O'Neil; and Cletus Chambers won a water dipper. Other prizes won were a carton of bubble gum donated by Furr Food; fruit used in the contest and as prizes contributed by Stell's Grocery; and a wash rag donated by Griffiths' Variety Store.

A complete ham supper was served to the guests.

Farmers attending were: J. T. Bryant, Elmo Adair, Pete Golden, S. C. Adair, A. A. Slaughter, Vic Franklin, John K. McKenzie, D. B. Oliver, Alton Loe, Carl Cabe, Alfred Tittle, Bob Burnett, Cletus Chambers, Lee Lyons, Tommy Hawkins, and Homer Jones.

Businessmen attending were: Grady Elder, J. T. Hoy, Leonard Lang, Harry Cornelius, Charlie Kersh, James H. Dallas, Jack Hamilton, Curtis Sterling, C. G. Griffith, Slick Collins, Harmon Howze, Buddy Gillham, Dennis Q. Lilly, Lynn Nelson, Alvin Davis, and Dube Pyatt.

THE STATE OF TEXAS COUNTY OF TERRY NOTICE OF EXECUTION SALE By virtue of an execution issued out of the District Court of Hockley County, Texas, on a judgment rendered in said court on the 5th day of May, 1953, in favor of T. I. Robinson and against the said Richard C. (Dick) Graves in the case of T. I. Robinson against Richard C. (Dick) Graves, No. 2706.

A final appeal for donations to the first annual mental health fund campaign was made today by R. L. Wheelock of Corsicana, state chairman. Contributions can be made by addressing to Mental Health, c/o Postmaster in any city. Mr. Wheelock expressed thanks to the thousands who have donated, and thanked Texas newspapers for their generous support of the campaign.

OBSERVE WATER SAFETY RULES AND AVERT TRAGEDY

Summer weather means more and more families will be going to lakes and streams for outings and picnics. Favorite forms of recreation are boating and swimming, and both can be very dangerous if the rules of water safety are not observed at all times. Don't, says the state Farm and Ranch safety committee, become a statistic by being careless while around, in or on the water.

Mrs. Roy Wingerd and sister, Mrs. Jack Shirley, have returned from Temple, where Mrs. Wingerd went through a clinic.

Tourists soon can ride right up to the crater of Mount Vesuvius, famous landmark of Naples, Italy.

In such court, I did on the 3rd day of June, 1953, at 11:40 o'clock, a. m., levy upon the following described tracts and parcels of land situated in the County of Terry, State of Texas, as the property of said Richard C. (Dick) Graves, to-wit:

An undivided 15/64ths interest in and to the royalty in and under Section 46, Block T, D & W Ry. Company Survey, Terry County, Texas.

An undivided 1/4th interest in and to all of the oil, gas and other minerals in and under and that may be produced from the following described land situated in Terry County, State of Texas, to-wit: The South One-Half of Section No. 40, Block T, Terry County, Texas.

An undivided 1/4th interest in and to the royalty in and under the West One-Half of the East One-Half of Section 22, Block T, Terry County, Texas.

An overriding interest of 1/16th of the 7/8ths working interest of an oil and gas lease on the Northwest One-Fourth of Section 64, Block T, D & W Ry. Company Survey, Terry County, Texas.

An undivided 10/64ths interest in and to the royalty in and under all of Section 5, Block 4-X, E. L. & R. R. Ry. Company Survey, Terry County, Texas.

An undivided 1/8th interest in and to the royalty in and under the West One-Half of Section 5, in Block Y, Certificate No. 1319, E. L. & R. R. Ry. Company Survey, Terry County, Texas.

An undivided 1/16th interest in and to the royalty in and under all of the Northwest One-Fourth of Section 4, Block C-38, Public School Land, Terry County, Texas.

An overriding interest of an undivided 1/16th of the assignee's 7/8ths working interest in an oil and gas lease on the Southeast One-Fourth of Section 36, Block T, Terry County, Texas, and on the 7th day of July, 1953, being the first Tuesday of said month between the hours of 10:00 a. m. and 4:00 p. m. on said date at the courthouse door of said county I will offer for sale and sell at public auction for cash all the rights, title and interest of the said Richard C. (Dick) Graves in and to the said property.

Dated at Brownfield, Terry County, Texas, this 3rd day of June, A. D. 1953.

W. L. LEE Sheriff of Terry County, Texas.

20 CASES FILED IN COURT FOR LIQUOR LAW VIOLATIONS

Eight persons were charged Wednesday, June 3, with offenses in connection with a recent series of "buys" from suspected bootleggers by state agents.

Seven persons were charged with violation of the state liquor law, and one was charged with violation of the alcohol tax stamp act. All cases were filed in county court by Vernon A. Townes, county attorney.

Charged with violating the stamp act was Agnes Flores, and charged with illegal sale of intoxicants were Agnes Flores, Silas Taylor, J. L. Carroll, James Fenimore, J. P. Smith, and Pete Hernandez. Janie Florez was charged with illegal possession of intoxicants.
