THE THREE GREAT FACTORS

The American way of life rests upon three fundamental factors, three aspects of spiritual, political and economic life that are distinctly our own. These three American fundamentals are responsible for our freedom, our economic well-being, and our peace of mind. Of all the blessings which these three factors give the American people, however, personal freedom is the most priceless. Freedom has been the ambition of mankind throughout human history. We have the greatest degree of freedom that any people ever enjoyed.

The three great pillars in our American way of life are: (1) faith in God, (2) constitutional government; and (3) a private enterprise economy. Let's take them one by one and briefly examine how they fit into the fabric and the strength of our nation and way of life.

Factor No. 1

1. Faith in God. During all my years of educational crusading on the basic American principles, I have been restating this fundamental as the basis on which freedom is built. I've had perhaps a half-dozen letters from atheists protesting that faith in God is not a fundamental in the structure of American freedom. I have always said, in reply: men cannot really be free unless they are controlled from within, and the Christian religion is the most effective means of controlling people from within.

When our founding fathers came to America the desire for religious freedom was their great driving force. They were godly people. The first buildings erected as the Pilgrims worked their way gradually westward from Plymouth and Jamestown were crudely constructed church buildings. The people prayed to God for guidance and they placed their faith in God. Basic principles growing out of this great faith were written into every governmental document which went into the formation of our United States of America. The political structure gave people the right to be atheists, if they chose, but the structure itself was built on faith in God and upon Christian principles.

Factor No. 2

2. Constitutional government. This is the second great fundamental factor in the American way of life. Our founding fathers did not use one time the word "democracy" in either the Constitution or the Bill of Rights. They were building something far better, a Constitutional Republic. The Constitution guarantees certain rights for all people, minorities or majorities. They all have the same rights in America.

Under a democracy the majority decides each issue and the minorities may find themselves terribly neglected, ignored or steam-rollered. When the guillotine was taking heads off hundreds and hundreds of people in Europe, many innocent people were victims. Why? There was no constitutional safeguard, no constitution giving a lone citizen the right to challenge his government. The majority was in control. When someone in the majority said, "Off with his head," off it came. In our country one man standing on his constitutional rights can challenge his government, even sue it. Minority protection is not a principle of "democracy" but a constitutional Republic.

Factor No. 3

3. Private enterprise economy. There are two distinct types of economic systems which people may have. One is a government-owned economy, and the other is an economy owned by private individuals. There might be a combination of the two for a short time but a combination could not last long. Ultimately the government must own the property, the factories, the farms, the businesses, and the homes; or the private citizens must own these things.

As a result of our private ownership economy we have competition in a free market, we have dreamers who invent and develop, we have producers who astonish the world; and we have the greatest outpouring of material wealth the world has ever seen — and most important, its distribution throughout the whole population is the most equitable yet attained in any country.

In a world of chaos, Americans must strengthen these great factors in our way of life through understanding, dedication and hard work.

MEET YOUR MINISTER AND FAMILY—John H. McCoy, minister of the Crescent Hill Church of Christ, moved here with his wife and daughter, Joyce Elaine, 2, on April 1, 1954, from Nocona, where he had been minister for two and a half years. Bro. McCoy attended Victoria Junior College one year; served two years in the Navy in the Pacific theatre; graduated from Abilene Christian College in 1948, with Bible as his major; and received his master's degree in 1951, from North Texas State Teachers College. Mrs. McCoy is a Sweetwater High School graduate and attended ACC for a year and a half, where the couple met. Bro. McCoy conducted a meeting at the Meadow Church of Christ last month; and is shown above with his wife and daughter. (Staff Photo.)

JULY RAINFALL WAS VERY SHY

One of the shyest rain measurements for a summer month on record here, was .08 inch for July. One of .05 fell and another measurable amount of .03. Two or three unmeasurable showers fell. The rainfall for August has already exceeded that of July, and nothing to brag about for August.

The rainfall over the weekend was 22 inch.

G. I. QUESTIONS and ANSWERS

Q. I recently was discharged from the WAVES. If I take a school course under the Korean GI Bill, could I count my husband as a dependent for GI allowance purposes?

A. You could count your husband as a dependent only if he were in fact dependent upon you. Q. My child was born a couple of months after my husband's death. I now am getting a VA pension for myself. What must I do to receive an additional amount for the child?

A. Within one year after your husband's death, you must notify VA of the birth of your child. VA then will ask you for official proof of birth. This must be submitted within one year from date of VA's request. The additional pension payments may be made effective as of date of the child's birth.

Q. Would I be allowed to enroll in two schools at the same time under the Korean GI Bill?

A. You would be allowed to enroll at two schools only if one school does not offer a complete training program that will lead you to your objective, or if it would be impossible for you to complete your program in time at one school.

Q. If a veteran dies without naming a beneficiary for his GI insurance, what happens to the proceeds?

A. The proceeds will be paid to his estate in a lump sum.

APPOINT FARM CENSUS SUPT. FOR AMARILLO

Appointment of Charles L. Joyner of Canyon, Texas, as the supervisor of the 1954 Census of Agriculture field office to be established at Amarillo, was announced today by Director Robert W. Burgess of the Bureau of the Census, Department of Commerce. Mr. Joyner will direct a force of 24 crew leaders and 322 enumerators in 68 Texas counties from the Amarillo office. The counties to be covered include Dawson, Gaines, Garza, Hockley, Lynn, Terry and Yoakum.

Mr. Joyner reported on August 9 to the permanent Census Bureau district office at Dallas for a week of training. The training covers administrative procedures, office routine, map work, practice in filling out farm census report forms and other duties and responsibilities connected with the job.

YET NO PROTECTION

"Why are you standing there throwing stones at that poor little boy?"
"Because I darent 'go any closer, miss. He's got whooping cough."

MORE TROUBLESOME

"Every dog has its day," a novelist reminds us. This doesn't trouble us nearly so much as the fact that cats insist on having the nights.

AIN'T IT SO?

"Office holdin' has got to be so worrisome," said Uncle Eben, "dat it looks like a man was doin' us populace a real favor, even to try to hold a Government job."

We Learn Something From Kersh's Mag.

We get several magazines which are official organs of some company or other, on our desk, among them being The Furrow, put out by John Deere Implement Co., and sent us complimentary by Charlie Kersh, local John Deere dealer. We not only enjoy the jokes and quips, but many of the articles.

And some of them are real revealing on matters. One article in the last issue of The Furrow, stated that a South Dakota man harvested his alfalfa from midnight to dawn, as dew dampened the alfalfa and the seed shattered less as a result.

Which brings to mind that farmers as a class are reading and practicing more modern and newer ideas of getting the job of farming done, than ever in the history of our country. That is the reason, that while our nation has grown to more than 160 million, farmers have kept well ahead of feeding the nation, as well as producing the stuff for much of their clothing.

And at the same time, they have provided for their own families. Way back 100 years ago, it took some 25 farmers to provide their own needs and those of a family of town people. Now one farmer or farm takes care of several families of town people.

Not too many years ago, if one had broached a subject like soil conservation, terracing or cover crops to the average farmer, he would have very likely given you a vacant stare. But today he can discuss all these with his county agent or an agriculture college professor right off the reel.

O'DONNELL BANK HAS NEW PRES.

E. J. Smith, of Hollis, Okla., is the new president of the First National Bank of O'Donnell, Ben Moore informs The News.

He was selected to the position recently, following the purchase of a large block of stock in the institution from the Shoemaker estate.

The late J. L. Shoemaker owned controlling interest in the bank until a few months ago when he passed away. Since then, Warren "Rusty" Waldrip, son-in-law of Mr. and Mrs. Shoemaker, has been in charge.

Mr. Smith has spent 35 years in the banking business, and was reared at Paducah, Tex.—Tahoka News.

"Casey" Jones In To Chat Awhile Friday Afternoon

We had a visitor Friday afternoon, that we don't get to see very often. He was Russell "Casey" Jones, of Plains. He was on his way to visit his brother, Frank, at Lamesa, and dropped in to get one of the 50th Anniversary editions for himself, and to carry one to Frank. Both men lived here with their parents, the late Mr. and Mrs. J. O. Jones, who ranched in southwest Terry, early in the century.

But about 1910, Russell got a job as bookkeeper at the Brownfield State Bank, which he held many years, and of course he told us many incidences that happened that was funny to us at the time. One was that one of the railroad "promoters" from Midland to Hereford through Brownfield, had arrived here late one afternoon, and Dock Powell of the Mercantile had cashed a check for one of them for two or three hundred dollars, that bounced. Bouncing checks were quite unusual here in those days.

The late W. A. Bell was out of town, when the check was returned marked no funds or "inf," and both the late Luther French and Jones hated to mail the check back to the Mercantile, as they knew Dock would go up in the air. Instead of mailing it, they carried it over to the Mercantile. Those two boys obtained a pole, four feet long, pinned the check to the pole, and marched up to Dock and held the check in front of his face. Most people then and there lost all confidence in railroad promoters. It was years later when the late M. V. Brownfield got the Santa Fe interested—people who could really build a railroad.

Many other incidences of an exciting nature was related. One in which Casey was helping hold an election in No. 2, with the late A. B. Bynum as the presiding officer. Some tough nuts came in about half shot, whose names had slipped Casey's memory, and tried to take in things at the election box. He stated that Mr. Bynum went home, and brought back his old shotgun, and told the boys the election would go on "according to law."

Casey wants us to get a lot of what is left of the early day pioneers together some of these days, or rather nights, and he'll come over and we'll have a great time together, with some refreshments. Will state that Jones owns ranches in Yoakum, Gaines and we believe Dawson, with some oil on his Gaines County holdings. He has a nice home on the high hill on the south outskirts of Plains. He had some very nice cantaloupe raised in Yoakum that he was carrying to Frank, but he whacked up with us.

When we have that old time reunion, he wants such people as Mesdames Randal, Tiernan, Mrs. Bell, if able, Mrs. Ann Hamilton Hunt, Sach Green, Dube Fyeatt and others we will think of by that time in the get-together.

ONE LESS WORRY

She: "What sort of house shall we move to?"

Husband: "Let's try a bungalow, dear; then you won't always be hearing burglars moving about downstairs."

WITH LIMITATIONS

Viola: Do you believe in free-speech?

Percy: That depends on whether I'm bigger than the other fellow.

PIP, PIP!

Teacher: "James, what is the opposite of misery?"

James: "Happiness."

"And what is the opposite of sadness?"

"Gladness."

"Fine. Now give the opposite of woe."

"Giddap."

William M. Hoge, US General, Commander in Chief of the US Army in Europe: "The United States would use the atomic weapon in a major war without waiting for the other side. We would do this because of our disparity in numbers."

What has become of the old-fashioned man who believed that great wisdom was to be found in the nation's capital?

C. Horton, and Mr. and Mrs. H. V. West visited in the Ed Peek home, Sunday afternoon.

Mr. and Mrs. Aubrey Castleberry, of Morton, spent the week end with his parents, Mr. and Mrs. Bob Castleberry.

PLAN NOW TO ENJOY LIFE

W. GRAHAM SMITH

Representing SOUTHWESTERN LIFE INSURANCE CO.

Buick's biggest hit brings you a 3-way bonus

1. You get the car that's in step with tomorrow

From stem to stern, Buick today is styled a year ahead—with long, low glamor lines, with the very look of tomorrow, and with that broad panoramic windshield that many other cars won't have till 1955. Equally important, you get in Buick advanced V8 power, big room, luxurious comfort, the famed Million Dollar Ride—and all for prices that start just a few dollars above those of the so-called "low-price three." Is it any wonder, then, that Buick today is outselling all other cars in America except two of these "low-price three"?

2. You get the car that's a sure high resale value

Buicks have always had a high trade-in value. But the 1954 Buick has an extra advantage in its year-ahead styling. That means your Buick will stay well up in the style parade for years to come—will stay fresh and new-looking well into the future. So you're bound to be way ahead in actual dollars when trade-in time comes.

Come see for yourself why—

3. You get a bigger allowance from our volume business

Every month's sales figures this year have firmed this fact: Buick sales are soaring; Buick is outselling all other cars in the nation, regardless of price range, except two of the "low-price three." So with this tremendous volume, we can—and do—offer higher trade-in allowances. Come in, see and drive a new Buick—then check for yourself that our volume business really does mean a far bigger allowance for you.
