Loboes Trim Buckaroos In Fast Game At Breckenridge Tuesday Night; Porter Scores 14 Points In 40-25 Win

With an arm load of bustling power gathered for the hardest, CHS's Loboes went to town in the final half and completely crushed the Breckenridge Buckaroos, 40-25, Tuesday night at Breckenridge.

A last minute splurge to the blackboards in a preliminary game enabled the cow pokes to walk away with a 38-35 triumph over the Lobo pups. Hub Harrell of Cisco sped along the trail with high point honors, gathering in 14.

It was sandy haired James Porter at guard Tuesday night who nabbed high point honors in the varsity mix-up with 14. Forward Smith, the number one player of the district, was held to a net of 10 throughout the game. That was 11 points under conference average.

Edging away with a 3-0 lead, the war pack soon encountered pressing defensive measures by

Harry Grantz, mid-term graduate of Hardin-Simmons University at Abilene, has been admitted to the Cisco High School teaching staff, effective February 1, as physics department head, Superintendent Arlin Bint announced Monday.

Harry Grantz, who was reared in Cisco, was graduated from the local high school in 1944. He was a member of the famed Lobo Band for four years, playing first chair cornet.

After completing high school studies, Grantz enlisted in the U. S. Navy in March of 1945. He completed basic training at the San Diego Naval Base six weeks later and saw 18 months of service in the South Pacific as a storekeeper on LST's (landing ships) and small auxiliary crafts. He was discharged in May of the following year.

Several months later, he enrolled in Hardin Simmons University and after attending school both winter and summer semesters, he graduated with honors in the January mid-term exercises.

Before his enlistment in the service, Grantz was active in Scouting and other local youth movements in the city. He is an active member of the First Baptist Church.

During his study at the Abilene school, he conducted youth revivals throughout West Texas, and participated in numerous religious activities.

Grantz, who is married to the former Margie Reynolds, also of Cisco, will teach biology and chemistry as well as physics, it was stated.

Mr. and Mrs. Grantz are making their home at 606 West Ninth Street.

Press Story Leads Local Family To Uncover Early American Silver Spoon

A story carried in the Cisco Daily Press and other papers over the nation on Jan. 21, caused one local man to dig deep in the old family trunk in search of an early American silverplate spoon that was given to him by his grandmother many years ago.

The whole thing started when International Silver Company paid a tribute to the three Rogers brothers for founding the American silverplate industry in 1847. Pictures of the first four patterns were sent out in the stories and people all over the nation began searching for the patterns shown.

Willard P. Knight, who lives at 1309 Bullard read the article and remembered the old spoon that was given to him and searched the trunk finding the century old spoon to be one that Rogers Brothers made in 1847. It had been thrown around for years before it was placed in the trunk to get it out of the way.

His grandmother, Mrs. Isabell Fowler Porter who lived most of her life in Maine gave him the spoon before she died in 1924. She was born 10 years before the three Rogers brothers started the industry.

Judge Frost Is Speaker At Lions Club Luncheon

Judge Cyrus B. Frost, Eastland attorney, addressed the Cisco Lions Club on the subject of "Government" as the feature of the regular weekly luncheon meeting at noon today at the College Cafeteria.

Pointing out that there are four forms of government—monarchy, aristocracy, democracy and dictatorship—in the world today, Judge Frost discussed the relative merits of each. He dealt principally with democracies, as exemplified by the United States, and the dictatorships. "Russia, where 13 men hold 200,000,000 people in virtual slavery, is an outstanding example of the dictatorships," Judge Frost said. He complimented Congressman Omar Burleson of this district for his recent move to obtain the views of the people of his district on questions of the day.

Judge Frost warned that the greatest threat to democracy in the United States is the ever-increasing cost of government. He predicted that the gains of communism would not be halted unless governmental expenses are controlled. Lion Clyde Karkalyts was in charge of the program. The club voted to invite members of the Rotary Club to attend their luncheon next Wednesday when Dick West, Cisco native who now is an editorial writer for the Dallas News, will be the guest speaker. Lion Burford Jordan was initiated as a new member. The club will hold a ladies night dinner Monday night at the Victor Hotel Coffee Shop.

Boy Scout Court Of Honor Is Well Attended Tuesday Night; 34 Merit Badges And 7 Awards Presented

Already headlong in the observance of Boy Scout Week in Cisco, approximately 60 persons attended the First Presbyterian Church Troop Court of Honor held in the basement of the church Tuesday night.

Steve Potts, Scout executive from Brownwood, Comanche Trail Council headquarters, presided over the candle light ceremony, and presented scout badges to seven scouts, which included four tenderfoot, one star and two first class ranks.

A number of merit badges, believed the largest at one time to be passed out to scouts, were divided between four scouts. They were Freddy Smith, 6; Vandell Weathers, 11; Skip Porter, 9; and Bill Mitchum with 6, making a total of 34 merit badges.

Scouts receiving badges for higher degrees in Scouting were Freddy Hayes, Jimmie Kleiner, Blair Paul and Buddy Wright, tenderfoot; Fred Smith and Vandell Weathers, first class; and Skip Porter, star.

Immediately following the services, Earnest Titson, former Scoutmaster of Troop 101 and now committeeman, spoke briefly before the audience of parents and scouts. Rev. Stuart McRohre, pastor of the First Presbyterian Church who has been instrumental for the progress of the boy scout movement in the city, expressed appreciation for the impressive work the scouts and leaders accomplished and concluded his talk with an appeal for Ciscoans to accept Scouting.

Boy Scout Week

Did you know that citizenship-training can be an adventure? Take time out during Boy Scout Week, which marks the 39th Birthday of the Boy Scouts of America, to observe in action the theme, "Adventure—that's Scouting!" and see its far-reaching effects. Community service projects, emergency service training, safety education, and con-

ing, safety education, and conservation, safety education, and these challenging activities are undertaken by the Boy Scouts of America.

Institutions which sponsor Boy Scout Troops have found many advantages in giving their boys Scouting opportunities. It enables them to add a program of

youth-centered character and citizenship activities, under the general auspices and atmosphere of the institution. This tends to strengthen the loyalties of youth toward the institution, because Scouting has been willing to lose itself in the institution, and thus become part of the institution. All this brings benefits for the whole community, and stimulating satisfaction for our boys.

"Adventure—that's Scouting" is a phrase—with meaning—for all of us!

Dooryard Garden Accents Charm of Small Home

Simple Beds and Borders following the lines of the paths and building are best for front yard flowers.

Small houses, like small gardens, possess charm, a quality which seems to evade larger and more pretentious creations. And nothing will enhance the charm of a small modern home so much as a dooryard garden, gay with flowers.

While all flowers are beautiful, and any combination of nature's colors will be harmonious, really stunning effects can be developed by planting colors which harmonize with the house and its trim. For a house of buff or cream color, for example, blue and white flowers will provide a delightful foreground.

In the illustration white and blue flowers are grown as borders to the path and along the foundation line of the house. No shrubs are used except small evergreens flanking the door, and these should be kept

small by annual shearing. Of the flowers suggested, petunias should be started in a seed box, in the house, or in a hot-bed or cold frame, since ninety to one hundred days are required to produce flowering plants.

Cynoglossum, the Chinese forget-me-not, and single asters will also bloom earlier, if given a start under protection before it is safe to move them to the garden. They can be sown outdoors, however, and will flower in sixty days. Sweet alyssum is easily grown from seed sown direct in the garden. A compact, dwarf variety should be used, and the plants will do better if thinned out to stand at least six inches apart. When plants begin to grow "leggy" and flowers to be fewer, they can be sheared like a hedge.

Ruby May Harbin, teacher of first grade in Moran School, spent the weekend in Eastland.

26 Years of Continuous Service —

... is a long-time record for any business or profession to achieve. Some do it, but many others do not. Common with the experiences of our contemporaries we have witnessed good years mingled with the bad. Some booms and more busts. And always the inevitable failures and consolidations. But we are still here with a fully equipped abstract plant of state-wide reputation, a force of trained employees, and a long record of successful operation in this county.
