Out Here In the Great Southwest —

. . visitors from other states sometimes marvel at the bigness of our way of doing things. And, too, it is a constant source of pride to our own people when they look about them and witness, among other things the magnitude of some of our business institutions and their capacity to render service. Here in Eastland County we are proud of our title plant and along with a host of others we think it's the best in the Southwest.

Posies to party-line telephone users

OUR THANKS to you and the thousands of others whose willingness to "share the line" has made it possible for so many of your friends and neighbors to enjoy the protection and convenience of a telephone.

Three of every four home telephones today are party lines.

Yes, party lines have "stretched" hardto-get telephone equipment in a time of shortages and a big demand for service.

Our goal, of course, is service for everyone-the kind he wants, when and where he wants it. For the time being, though, in many neighborhoods we must continue to say:

"We can offer only party-line service to new customers. It's the fair way for everybody while we're still working to get telephones to hundreds of people "ho are waiting."
