CISCO, TEXAS, WEDNESDAY, JULY 27, 1949

NUMBER 180

The Gay Philosopher

By J. W. S.

THE FOGGING machine that is doing such a splendid job of keeping the mosquitoes away these days and nights may have to shut down, at least to a part-time operation, Mayor G. C. Rosenthal advises us.

You can see, then, what a drain this is on the city's treasury. The high cost, however, appears somewhat insignificant when you consider the vast good that results.

Let's all drop by Mayor Rosenthal's office at the city hall and leave a check to help keep the good work going the balance of the summer.

THE COUNTRY Club members will gather for another picnic Thursday evening. President Charlie Burke suggests that all members and their families attend and make it a kind of "good bye" party for Mrs. Charles J. Kleiner and children, who are leaving next week for Colorado.

READING ABOUT strikes and labor troubles, you would suppose that cooperation between labor and management is a revolutionary idea.

Caution Urged On Rural Roads

AUSTIN, July 27. - Hundreds of Texans are likely to be killed or injured because of the farm to market road program in Texas.

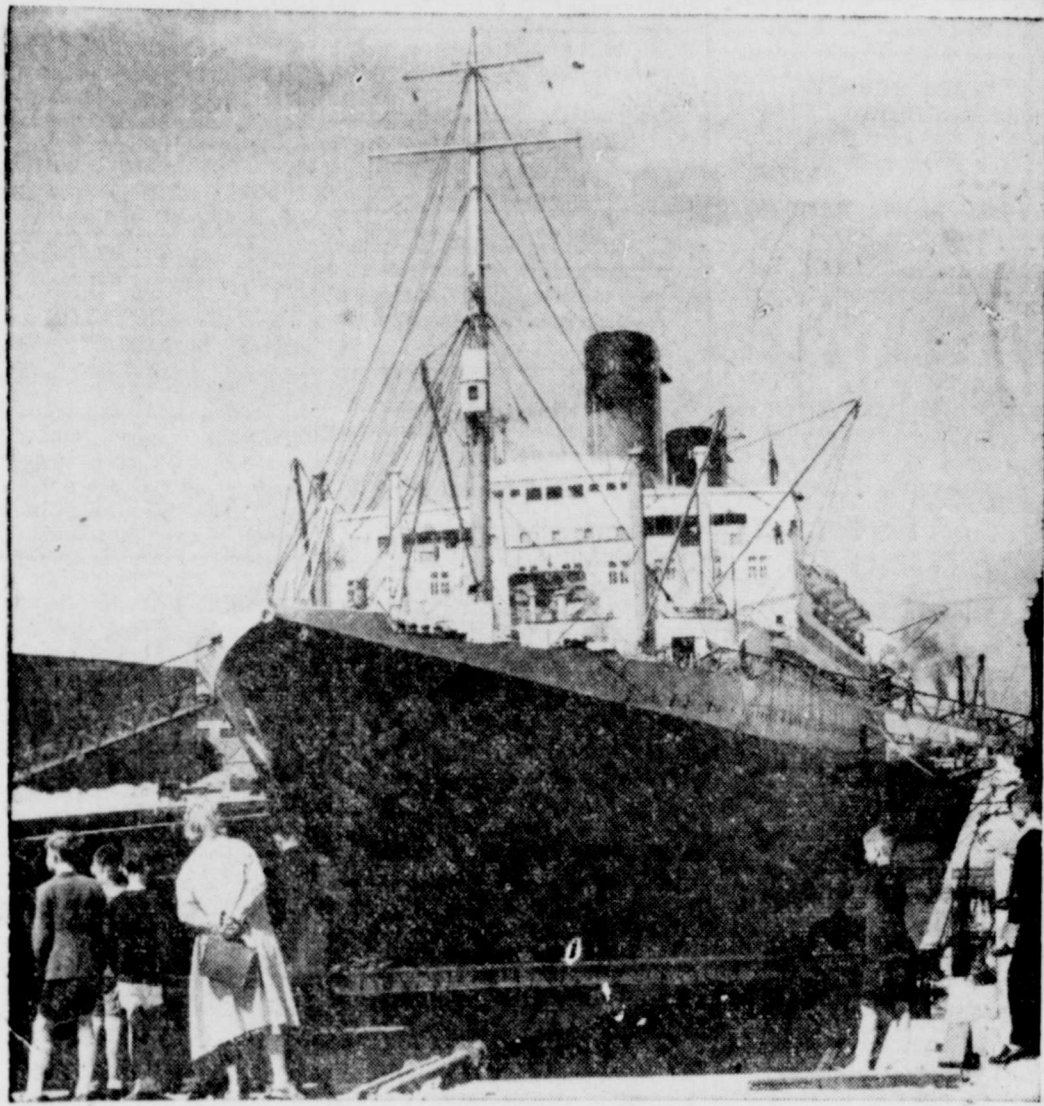

This will happen, the Texas Safety Association and the Texas Highway Patrol said today in a joint statement.

Last year 221 persons were killed in county road accidents in Texas. For the first half of this year, only 77 were killed, a 37 per cent reduction in the death rate.

W. J. Elliott, chief of the Highway Patrol, said his force has more than it can do to patrol 31,000 miles of principal highways and can not possibly patrol additional miles of farm roads.

"We're praying that all people won't start making behemoths out of plowhorses on these roads," Elliott said. "Our hope is that the people will be their own safety patrol. Unless they do, enough blood will be spilled on these roads to paint a red stripe down the center of them for more than the other."

RENT - Duplex apartment. Permanent tenant. Adults preferred. 307 West 8th Street.

ILE DE FRANCE SAILS AGAIN—Luxury liner Ile de France lies at anchor in Le Havre, France, before sailing for New York on her first post-war voyage.

Water Minimum Increased From 5,000 To 10,000 Gallons For Next 2 Months

The city commission, at its regular meeting Tuesday night, approved the allowing of an additional 5,000 gallons of water per month for residential use during August and September.

The increased allowance was approved because the commission believed that sufficient water had been caught in the lake during the spring and summer months to assure the city of sufficient water for at least two years.

It marks the first time in recent years that summer rates have been approved.

It was pointed out that the increase would not be reflected on the water bills received on August 1 since the water now being used will not be billed until September 1.

National Guardsmen From Breckenridge Attend Picnic Here

Thirty-two Breckenridge National Guardsmen and their friends attended a picnic Sunday afternoon at Lake Cisco Park. The group enjoyed swimming, miniature golf and skating and the picnic feast during the afternoon.

Swimming Classes To Be Held Thursday

Two swimming classes of the ABC Club will be held at the pool Thursday, and the usual Monday meeting will be postponed, Jack Everett announced today.

Since coaches Buck Overall, Stormy Davis and Everett are to attend the annual coaching school at Beaumont, no recreational activities will be held at the gymnasium Saturday. However, activities will be carried on Monday at the field, but no swimming classes will be conducted, Everett said.

Election To Set School Tax Rate Is Scheduled Thursday

City Faces Curtailment In Use Of Fogging Machine

The City Health Department faced the curtailment of the use of the fogging machine purchased recently unless Ciscoans come to the aid of the department financially, it was announced by city commissioners at the conclusion of the regular meeting Tuesday night.

The cost of operation has reached \$36 per day and places a strain on the city which officials feel they will be unable to meet without assistance from citizens.

If the town fails to assist in the purchasing of the more than 100 gallons of material being used each day the city will be forced to limit operations to two days a week, and the health of the town might suffer, an official pointed out.

Those wishing to assist the city in keeping the machine on a daily schedule were asked to bring their contributions to the office of the city secretary or to phone in and ask it to be added to their water bill.

Contributions have been received from M. L. Keasler, \$30 (in materials); R. B. Weddington \$5; Jake Honea, \$2.50; Edgar Johnson, \$2; Roy Camfield, \$2; S. G. Tomlinson, \$1; D. L. Kiser, \$2.50; a Cisco Booster, \$5; A Satisfied Citizen, \$5.

Eastland Man Dies Tuesday From Gunshot Wounds

C. N. Nicols, about 60, retired Eastland cable operator, died Tuesday in a Ranger hospital after gunshot wounds.

Nicols was taken to Ranger Hospital after his wife found him wounded about 11 a. m. Tuesday. He was found in a shed behind the Club Cafe which he operated for 20 years before selling it about five years ago and retiring.

The Nicols were to leave Tuesday morning for Fort Worth where Mr. Nicols was to undergo medical treatment.

Justice of the Peace E. E. Woods said he was not notified of the shooting until after Nicols' death and that he hoped to return a verdict sometime today.

Funeral arrangements are pending. Hamner Funeral Home in Eastland is in charge of the body.

DAUGHTER IS BORN

Mr. and Mrs. W. E. (Bill) Andrews have announced the birth of a daughter on July 24 in Ranger General Hospital. Mrs. Andrews and the baby girl, named Sandra Lue, were reported as doing nicely at the home of her parents, Mr. and Mrs. W. D. Hunt, 701 East 12th.

Face Lifting Program Underway To Improve Country Club Golf Course

Cisco's 42-acre golf course is undergoing a reconditioning program that country club officials believe will rate it as one of the finest in West Texas.

Already attendants are putting into use a new tri-gang mower which the club purchased Saturday at a cost of \$600.00. The mower, which replaces a similar model, will be used in fairway cutting over the par-36 course.

Besides the fairway mower, which goes to insure golfers of

a well groomed lawn at all times, the club has spent close to \$200.00 on small but needed equipment which includes a new "froghair mower" and tools. Then, too, expensive repairs have been made on older equipment.

Attendants at the course, Burke said, are planning a new landscaping campaign, in addition to reworking the fairways, greens and terraces. Furthermore, Burke wants it known that the course will be "no cinch" for experts and professionals alike after the attendants have reconditioned the 16 sand traps and two water traps.

The 2,903 yard course, which is bisected by the Cisco-Albany highway, holds the distinction of being the foremost golfing layout in this section of the state. At the present, club officials are rejoicing over the prospects for the coming years.

Although attendance at the course is increasing, with higher receipts on weekends, the club is endeavoring to encourage more local and out-of-town golfers to patronize the course, Burke said. In the near future, the club will erect a new sign over the rock gate entrance, calling motorists' attention to the course.

The biggest problem now facing the grounds attendant is the spreading of "crab" grass, which endangers the surface of the greens if permitted to grow. However, the attendants are to eliminate the growing menace. At the present, the course's nine greens are undergoing a sand topping.

In addition to the lake-side course, the country club operates a 9-hole putting course, located adjacent to the club house.

The grounds attendant is Erwin Prange, former Ciscoan, whom the group hired on a permanent basis July 1. His assistant is Bobby Travis.

Parking Meters To Be Placed In Operation Here Monday

The installation of parking meters in the downtown areas of the city was almost complete Wednesday and they will be placed in operation at 8 a. m. Monday, August 1, it was announced by Mayor G. C. Rosenthal at the close of the meeting of the city commissioners Tuesday night at the city hall.

The meters were installed by city workmen under the supervision of an engineer representing the successful bidder. They will be maintained by the city police department, and a man will be assigned to the area to check for parking violations and make collections from meter boxes.

The type meters installed will allow parking from 12 minutes to two hours. They were designed to allow 12 minute parking for one cent, 24 minute parking for two cents, one hour for five cents and two hours for 10 cents. The meter was especially designed for smaller towns and have been found successful in most places.

The meters have been contracted for on a 12 month basis and if they prove to be unsatisfactory they can be removed at no cost to the city.

An ordinance passed by the

city commission on June 28 provides a \$1.00 penalty for violators of the parking regulations.

At the meeting Tuesday night the commission set up regulations with respect to loading zones and set a charge of \$15 per year as a fee for designating the meters were installed for an annual fee of \$12.00 for the first car and \$6.00 for each additional delivery car.

The permits are to be made to firms making front door deliveries and allows deliverymen to park in metered spaces without the insertion of coins.

Applications for permits and designations of zones should be made to the city commission, Rosenthal said.

Mayor Rosenthal stated that such zones. Also approved the protection of citizens and for their convenience and urged everyone to abide by the regulations.

ENROLLED IN ACC ABILENE, July 27. - Katherine Kelly of Cisco has enrolled in the second semester of summer school at Abilene Christian College.

MORAN SCORES SHUTOUT VICTORY OVER HUMBLE; SEASON WILL END

Cisco's Humble Oilers dropped their fourth straight game last night at ABC Park as slinging Jerry Caudle pitched the Moran Red Shirts to a 14-0 shutout.

The city's second year of softball will come to a close with games Thursday night, which includes a clash between the Cisco Night Schoolers and the West Texas Utilities. Both clubs are tied for second place with three wins and one loss. The Scranton Plowboys, with four wins and one loss, are at the head of the league.

Directors of the ABC Club voted Tuesday to wind up the league with a Shaughnessy play-off in order to determine a winner. Teams making up the play-off line-up will include the three top teams of the Commercial League and the champions of the Church League.

As it now stands, the Night Schoolers, Scranton and the Kilowatts will be the teams most likely to participate in the play-off, with the First Baptists coming in from the Church League.

The play-off, President M.

F. Underwood, said, will take up the entire week, beginning August 1. The following week has been set for the second annual Cisco Invitational Softball Tournament. Twelve teams will be asked to enter.

Directors, in a past meeting, authorized Secretary Glen Boyd to purchase two trophies for the winning teams of the Church League and the play-off. The Daily Press All-Star teams for this year will also be released at the night of the presentation.

Subbing for Earl Cumba to the hill, Don Johnson punched the Red Shirts for eight strikeouts, giving up five hits and walking four. Winning pitcher was Caudle who exerted exceptional form at the pitching duties. The Oilers nipped him for four scattered hits in the seven inning fray. He had fine backing.

The Red Shirts scored in the second and seventh innings. The final scoring spurge saw the winners explode with an eleven run rally. Errors proved costly to the Oilers.

Make A Date With The "88" Oldsmobile's "New Thrill" Osborne Motor Company, Eastland

SCHOOL LEADERS URGE LARGE TURNOUT IN DISTRICT WIDE POLL; TWO ISSUES

If the people of the Cisco Independent School District want their schools to open next September they had better get out and vote Thursday, was the warning issued today by the school officials. A tax rate will be set at Thursday's election at polls throughout the district.

"There are some forces who are actively at work stirring up opposition to a uniform tax rate and spreading the bonded debt over all of the new district, either because of personal reasons or because they don't want to pay taxes to support the schools," they said. Unless the people go to the polls in large numbers Thursday this opposition may force the schools into unnecessary trouble and even to a higher tax rate, if the schools run at all.

School officials said they were anxious to avoid the situation that developed last April when the election to consolidate the common school districts with the Cisco district was held. In that election, and in spite of the fact that the question was explained through the press and otherwise, a great deal of misinformation was carried about, with the result that a part of the districts was lost, they pointed out.

"If Cisco people will just come out and vote tomorrow, we won't have that thing happening again," they said. "We certainly believe that our people do not want to destroy their schools."

The current program of consolidation and equalization of tax rates and bond support is being carried out under the terms of sweeping schools reorganization legislation enacted by the recent session of the Texas Legislature, it was explained. Under this legislation, certain requirements must be met if the schools are able to receive state aid and operate at all.

One requirement is that there shall be no "dormant" school districts, or those in which no school is conducted. All such districts must be attached to and make a part of an active district. This is done by the county board and, under certain conditions, by elections, which, if they fail to carry, are superseded by the arbitrary action of the county board. This was demonstrated in the election last April when, after the vote to consolidate with the Cisco district failed to carry, most of the districts were attached to the Cisco district by board order. The result is that the Cisco district includes most of the common districts hitherto served by contract, but only after extended trouble.

Another requirement is that tax rates and bond support must be uniform over each of the new enlarged districts. This is an obvious requirement, and, as school officials pointed out, it will be carried out all over the state, wherever districts have been consolidated.

"Every citizen who has real estate or personal property that has been rendered for taxation is eligible to vote, provided he meets the other requirements of residence and poll tax qualification. We urge all such citizens to vote."

LARGE CROWDS ATTEND REUNIONS AT LAKE CISCO PARK LAST WEEK-END

Approximately 1,000 people from all over the nation were at Lake Cisco Friday, Saturday and Sunday attending family reunions.

The facilities of the Presbyterian Encampment and the Lake Cisco Tourist Courts were taxed to care for the visitors. It was reported. One family group met at the encampment grounds and two families were in rented cabins at the courts.

The annual Burnam-Allen gathering was held Saturday and Sunday and the time was spent in visiting, swimming, golfing and eating. This reunion brings together descendants of two of the oldest families in Eastland and Callahan Counties. The group meets at the lake each year.

At the Presbyterian Encampment the Pinnell family met for their annual gathering. They

There is the further requirement of the law that no such tax rate can be any lower, for a period of two years, than the tax rate of the district to which the dormant districts were joined. In other words, the old Cisco independent district having had a rate of \$1.30, the rate of the new and enlarged district cannot be set at any lower figure, under the law.

It can, however, be fixed at a higher rate.

As the question now stands, the Cisco district is voting for a lower rate than any of the other consolidated districts around it. Ranger is voting for \$1.50 exclusive of its Junior College tax; Eastland is voting on \$1.50 and Breckenridge on \$1.50, it was explained.

Here is the nub of the matter, as the school officials explained it:

If the election carries, Cisco will have the lowest school tax rate of any district in the area.

If it does not carry, then another election must be held and a higher rate voted on. Neither a lower rate, nor the same rate, can be voted upon again.

Without a uniform tax rate and uniform bond assumption, no funds can be received from the state and consequently the schools cannot operate. The law gives the state ample authority to step in, on behalf of the children, and correct any such situation. If it should come to that, there would probably be more unhappy results, and Cisco might even lose a large part of its present new district. Sections thus lost would not escape higher taxes. There are no districts to which they can be attached that have a lower, or even as low a rate as Cisco.

Thus it was explained, those who vote against the \$1.30 rate Thursday will be voting to impose an ultimately higher rate on their property and not a lower rate. By voting for the \$1.30 rate, they will be voting for the lowest rate it is possible to have under the new laws.

The Cisco Junior College tax of 20 cents is NOT being voted on.

"As simply as we can explain it, this is the issue that faces the voters of the Cisco Independent School District tomorrow. If they come out and vote there will be no difficulty and our schools, which are now being placed upon the strongest foundation in many years, will be able to operate efficiently and we can retain all of our large district."

"We urge all such citizens to vote."

Also at the lake for a week-end family reunion was the Parish-Adele family of California. The reunion is usually held in the West but this year they gathered at Lake Cisco. Relatives from all over the nation attended the reunion as did many from Eastland and surrounding counties.

Each year the lake draws more and more family reunions and reservations have been made for next year. Many more will come before the season ends this year. The members of the families were all high in their praise for the facilities of the park.

THE TIMES CALL FOR WORK

If we aren't careful, we may over-emphasize the normal and perhaps desirable readjustments now under way and talk ourselves into hard times. The likelihood of a depression is common talk...

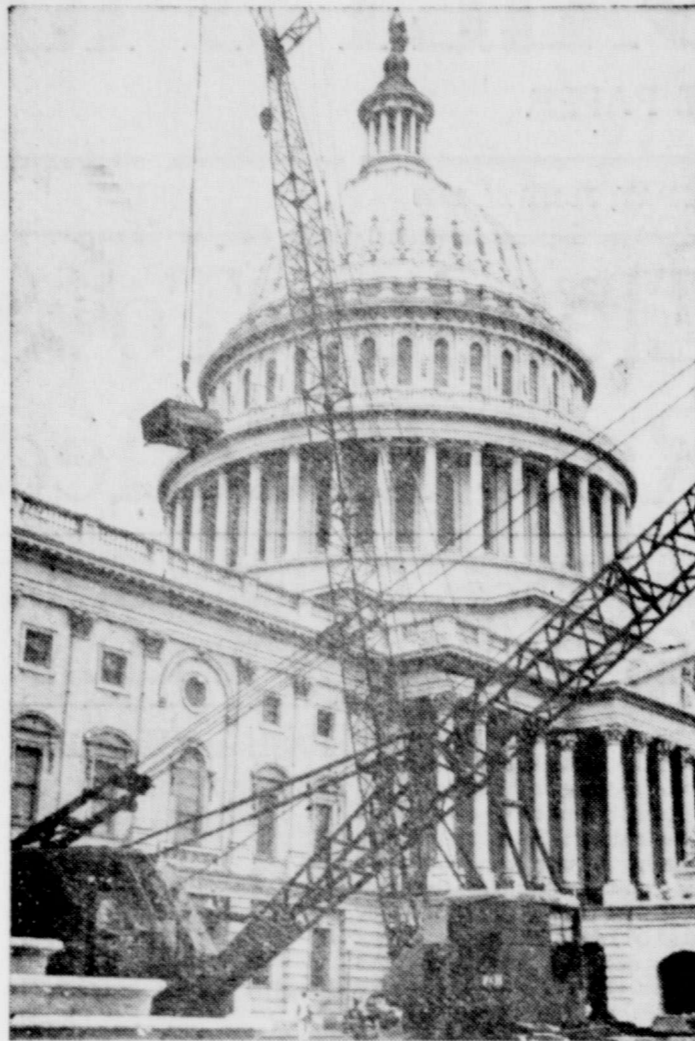

Psychologists as an experiment, once put a healthy bank clerk in the hospital in three days by suggestion. When the clerk was first told that he "looked bad, that he needed a rest," he boomed out, "Never felt better in my life!"

The nation is a composite individual. Just as you can talk a man into bed if he is organically sound.

The dictionary definition of "depression" is gloom, dejection, discouragement. Note that all of these are mental qualities. Economists point out that there are 150 million exchanges of goods and services in the United States daily.

Americans have shown an ability to use a tool which has and will overcome a depressed state of mind. It is "salesmanship," a force we discovered and developed to a point where it

more — a contribution to the national well-being. — W. ALTON JONES, President, Cities Service Company.

GETS NEW LOOK—While the Capitol chambers are being remodeled, in Washington, D.C., Congress has moved into temporary quarters elsewhere. The cranes are being used in the renovation, conforming the physical growth of the Capitol to that of the nation's government.

FOR THE ATOMIC AGE—Mailman Samuel Gordon and New York's Postmaster, Albert Goldman, try out a new mailbox in that city. It is designed to conform with the new streamlined aluminum electric light pole approved by city's art commission.

Bees Make Money

While it is absolutely correct to say that bees make honey, it is a definitely proven fact that honey has a monetary value and so it can be said that bees make money.

The keeping of bees is an industry almost as old as the history of man himself. It is successfully practiced by persons of all ages.

Perhaps you have a bit of spare time which you would like to spend wisely. Beekeeping will provide that opportunity.

The art of keeping bees is not difficult and booklets on how to succeed with beekeeping are carried in stock by Cisco Lumber & Supply who locally distributes the famous Lewis-Dadant line of equipment and supplies.

See him today and he will help get you started in keeping bees for making money.

# MORAN NEWS

Charlene Allen of Lubbock spent the weekend in Moran visiting her parents, Mr. and Mrs. Chester Allen. They all attended the reunion of the late Mr. and Mrs. J. D. Allen at Lake Cisco Saturday and Sunday. There was a large attendance with plenty of good eats, and enjoyable time was had by

Construction is now underway on Jack Dennis' new home, 5 rooms and bath. Progress is being made with all the plans up the first week. He expects to move in some time during August.

Rev. and Mrs. W. H. Gaston and children left early Monday for Carlsbad Caverns where he will meet his brother and fam-

ily and go through together. He will visit another brother in New Mexico before returning home.

Mr. and Mrs. Oscar Wise visited Sunday with Mr. and Mrs. Carol Anderson in Abilene.

Mr. and Mrs. Albert Grace, Sr., spent the past Sunday visiting their children in Fort Worth.

Clarence Gay returned home Sunday from a 10 day stay in St. Louis. He said it rained 8 days out of the 10. The old Missouri River was on a rampage. Mrs. Gay remained with her sister-in-law, Reva Gay, who had undergone major surgery and is recovering satisfactorily.

Mrs. Maud Bankston had as guests last week Mrs. William Gay and children, William Gay,

her son, has been promoted to assistant supervisor in the Consolidated Air Plant at Fort Worth. He has been employed there the past six years.

### HOLDS MORAN MEETING

Harry B. Hembree of the First Christian Church, Wichita Falls, is conducting a meeting at the Moran Christian Church. The meeting will close Sunday evening. The crowds continue to grow at each service. Visitors from Albany, Cisco and Wichita Falls have attended. Evening services are at 8 o'clock. Everyone was invited to attend the services.

Mrs. J. D. Fite returned home from a trip she took July 4th to Missouri and many points in Arkansas. She reports a grand trip.

Mrs. Frances Haynes and little son, Bob, of Eunice, New

Mexico, arrived last week to visit her parents, Mr. and Mrs. J. G. Terry. Little Miss Terre Lee Dennis is also a guest from Austin to spend four weeks with her grandparents in Moran.

I. W. McCrum and Dorris were in Ranger last Wednesday night for the rodeo.

Mr. and Mrs. Marvin Banks of Fort Worth and children, Linda Christine and Michiel, spent last weekend with their aunt, Mrs. Nettie Mae Terry, and uncles, L. B. Dossier, and William Dossier, in Moran.

Mrs. Eya Harber and daughter spent 10 days visiting her sister, Mrs. Florence Collinsworth Nelson, who lives at Rockport. Mr. Nelson and Mrs. Harber went deep sea fishing and caught 80 speckled trout and silver bass. They also hooked some baby sharks three feet long, but never could land one. Mrs. Harber proved herself a good sport and a good fisherman. She treated many of her friends at home to a fish fry. The fish were frozen and arrived here in good shape. While there they enjoyed many fine trips by ferry to islands and other sight seeing trips near Corpus Christi.

There is now more calls for houses than at any time. The oil business is now being felt in the hunt for houses in which to live. The oil activity will draw many people looking for locations.

Mr. and Mrs. E. C. Evans, who have resided in Sedwick for six years, moved to their town house recently. They bought the Mary Townsend

### Beginners Dept. Has Watermelon Feast

Officers and teachers of the Beginners of the First Baptist Church Bible school met at Lake Cisco Park Monday night for a watermelon feast. After eating the watermelons the group played various games.

Those attending were Mr. and Mrs. Earl Mayhew and family, Mr. and Mrs. J. T. Richardson, Jr. and family, Mr. and Mrs. M. M. Tabor and family, Mr. and Mrs. F. E. Shepard and Cathryn, Mr. and Mrs. C. L. Webb and family, Mrs. Margaret and son Gary, Mr. and Mrs. L. G. Ball, Mr. and Mrs. Underwood and Mrs. Leon McPherson.

### Gas Has Got It

### KITCHEN MEMO

Growing children need vitamin-packed food for between-meal snacks. Old-fashioned Oatmeal Cookies contain molasses rich in iron and the oatmeal is loaded with Vitamin B. Cream 1/2 cup shortening and 1 cup sugar together. Add 2 sps. vanilla and 2 eggs, one at a time beating well after each addition. Add 1 tsp. molasses and 2 sps. soda which has been dissolved in 1 tsp. water. Sift 1 cup flour, 1 sp. cinnamon, 1 tsp. salt and add o mixture. Stir in 2 cups oatmeal, 1 cup raisins, 1/2 cup chopped walnuts. Drop from a teaspoon on ungreased aluminum cookie sheet. Bake in preheated gas oven at 75° F. Yields 4 doz. cookies.

There's much more fatigue in drying than washing clothes because if the 45 lbs. of wet wash to be carried out to the line, hung to dry, later taken in and sprinkled for ironing. A gas dryer automatically eliminates all this back-breaking drudgery!

Children's treat: Skewer bananas on wooden sticks, dip in melted semi-sweet or milk chocolate. Freeze in cube compartment of your gas refrigerator.

There are 5,000,000 working wives who have families to cook for. Many of them prepare oven meals ahead of time, set the clock control on their gas ranges so they'll be free to do other household tasks while the meal cooks without watching.

A pastry brush is a handy kitchen accessory. For example, when making a gelatin dish, brush the mold with salad oil so that when set, the gelatin slips out easily.

THE WATER'S NOT THAT FINE—Caught napping with his feet in the water, Brother Hugh Robbins, a member of the Congregation of St. Viator, wards off a dunking by school boys at McHenry, Ill. Brother Hugh is a member of the staff of the Catholic Charities' Camp Villa Marie on Pistakee Bay where children from the orphanages spend a two week vacation each summer.

LAST OF WAR-CRIMES TRIALS—Otto Abetz, Nazi ambassador to Paris during the occupation, listens to the opening of his trial in that city. It will be the last war-crimes trial scheduled in France. (Aeme Photo by Staff Correspondent Max Winter.)

property and have remodeled the house and it's a beautiful home. Moran is proud to welcome them as citizens. Mr. and Mrs. Evans have a family of four children, two boys and two girls — a daughter in Temple, and three children at home. Moran is proud to welcome them as citizens. Mr. and Mrs. Evans have a family of four children, two boys and making it an ideal home.

This office received a card from Moran, Wyoming. It was from Mrs. W. C. Alexander. She just wanted to let us know that there was another Moran. They were on a vacation trip, touring Salt Lake and swimming in the lake. They went through Yellowstone Park and in the Grand Tetons on the way back home to Albuquerque. Mr. and Mrs. Alexander were in business in Moran and sold out to Mr. Baton. They moved to Albuquerque some three years ago.

## Approaching Rites Of Miss Greta Kay

The engagement and approaching marriage of Miss Greta Kay to J. C. Tramel, son of Mr. and Mrs. J. H. Tramel of Eads, Colorado, was announced today by her parents, Mr. and Mrs. Ben Kay, of Cisco.

The wedding will be held in the First Baptist Church in Cisco on August 20. Rev. Otis Strickland, pastor, will officiate.

Miss Kay graduated from the Cisco High School with the class of 1949. Mr. Tramel is a graduate of Hillsboro High School and completed a year in Hillsboro Junior College and in Cisco Junior College before moving to Colorado.

Miss Deloris Johnson will be Miss Kay's bridesmaid and Donna Byrd will be the ring bearer. Jack Tramel will be best man. The couple will make their

home in Eads where Mr. Tramel will be employed with the Tramel Contracting Company.

Mr. and Mrs. Cecil Childree of Mt. Calm are expected to arrive here this week-end to visit her sisters, Mrs. A. W. Dawson, Mrs. J. W. Stephens, Miss Mattie Lou Simmons, and other relatives.

Mr. and Mrs. Buck Harrison of 209 West 11th Street, were in Breckenridge Sunday visiting and relatives.

Mr. and Mrs. M. P. Farnsworth of Fort Worth, former residents here, spent Sunday in the home of their parents, Mr. and Mrs. M. P. Farnsworth, Sr., and Mr. and Mrs. Gene Watson

Guests in the home of Mr. and Mrs. R. N. Bates for Sunday were their grand daughter,

**FUR CAPE**—Actress Rosalind Russell, in Hollywood, wears this fur cape in a new picture. Made of beaver, the lining matches the costume.

Mrs. Charles Mason and baby from Alton, Ill. While here, they visited in the home of Mr. and Mrs. M. P. Farnsworth, Sr. and family.

Mr. and Mrs. J. A. High returned to their home in Borger Tuesday afternoon after a two day visit here in the home of Mr. and Mrs. B. E. Wagley.

Visiting in the home of Mr. and Mrs. E. G. Darnon this week are Mr. and Mrs. O. B. Hardy and daughter, Peggy, of El Centro, Calif., and Mrs. F. J. Erimmer and daughter, Pauline, and grand daughter, Mickey, of Lawton, Okla.

Miss Elova Moad, daughter of Mrs. Emory Moad, was expected to leave here Sunday for

## HEALTH NOTES

Has your vacation played heck with your skin? If so, you probably over-indulged in food, drink, sun and play.

If the body is in good condition generally, the skin is good. If the body is in poor condition, it will be reflected in the skin. That is why, beyond good general health, nearly all that can be done for the skin is to keep it clean.

The skin, an active organ of the body, is composed of living tissue and is affected by all the agents which effect other parts of the body, such as nutrition, exposure, chemicals, infection, heat, cold and irradiation. It has specific functions such as to contain the other organs and the fluids of the body, to

Knox City, where she will visit in the home of Mr. and Mrs. Eugene Bradberry.

Mr. and Mrs. C. R. Hightower had as guests in their home on Sunday her brother and family, Mr. and Mrs. S. S. Pillans of Austin.

Mrs. W. W. Fewell, 1206 Ave. L, attended the Sunday evening services of the Mitchell Baptist Church near here and participated in the program.

carry the nerves, to help regulate temperature, to protect the body against infection and to mirror disease within the body. The skin is nourished, repaired and maintained in normal condition by materials brought to the only agent delivering such it by the blood. The blood is materials to the skin, so the skin is "fed" from the inside, not from the outside.

There are three layers of the skin, the cuticle or outer skin, the second layer or true skin, and the third deep layer in which lie the blood and lymph vessels. Dead cells are constantly scaling off this outer skin and being replaced with new materials from beneath; this scaling off is the peeling that follows sunburn on a large scale basis.

Cleaning the skin means removing these dry, dead cells, whether by soap and water, cleansing cream, or shaving, the male equivalent of cleansing cream.

Allergy symptoms often appear in the skin as well as other medical conditions which cause sallowness, drabness, redness, pallor, and rashes. Irregularities of the skin should be treated only by a physician; medical literature shows that wrong treatment by unskilled operators can do serious harm.

Personal hygiene embracing proper diet, sufficient exercise,

adequate rest and personal cleanliness are a team of beauty aids for the skin that have no competition.
