THEY DO IT THEMSELVES—These exasperated citizens in St. Louis, Mo., finally got tired of waiting for the highway department to fix the street in front of their homes. When the mailman threatened to stop deliveries down the neglected street, this pick and shovel brigade went to work. For four evenings they worked three hours each, and everyone contributed \$5 to buy repair materials.

Wranglers To Open Season Against San Angelo Junior College Thursday

Mercury Drops To 54; 1.2 Inches Rain Falls Here

The earliest fall cold spell in more than 30 years struck the area early Tuesday morning and tumbled the temperatures from a high of 97 Monday to a high of 66 Tuesday. Early Wednesday morning the mercury stood at 54 degrees to register the lowest mark since March.

Cool air moving in from Canada met warm air from the Gulf of Mexico and caused general rains over the area. In Cisco, the gauges showed that 1.2 inches of rain fell Tuesday night and Wednesday morning and the weatherman promised additional showers for Wednesday night and Thursday.

A gradual warming up of the entire state was forecast for the remainder of the week but observers felt that hot weather was over for the year and predicted an early winter.

The rain was beneficial to peats and fall grains as well as late gardens. Cotton growers reported that the rain fell so slowly that little damage to open bolls was evident. The harvest was underway in most sections. Only a few inches of water was caught in Lake Cisco due to the dry condition of the watershed.

FOUR ROYAL GENERATIONS—While spending his vacation at his summer residence on Oeland Island, in Sweden, King Gustav received a surprise visit from his great-grandchildren. Here he poses with Carl Gustaf, 3, second in succession to the throne after his grandfather, the Crown Prince.

Coach Stormy Davis of the Cisco Junior College Wranglers planned to give his squad a stiff workout on a muddy practice field today in preparation for the opening game with the San Angelo Junior College Rams at San Angelo Thursday night.

Davis has spent the week in perfecting plays to be used in the game and in stressing defense against the portly first year men.

The line will be sparked by Don Price and J. M. Moore. Price, a 215 pound tackle, hails from Brownfield while Moore, all conference guard in 1948, comes from Olden.

In the backfield, Lonnie Crosby will handle the quarterback post in the Davis version of the split T-formation. Paul Varner, backfield star from Baird, will bear the brunt of the running chores from his right halfback post. Olen Lewis and Harold Sides from Whiteface will handle the ball in the other halfback and fullback positions.

Doug Garner, member of last year's team from Olden, will be held in reserve and will probably go in at halfback on defense and will come in for a part of the running game. Also in reserve in the backfield will be Kenneth Mayes of Anson at quarterback, Don Whitaker of Cisco at left half and Willis Black of Brownfield at fullback.

Starting linemen, in addition to Moore and Price, will be George Owens of Anson at right end, Alton Kite of Hamlin at left tackle, Foye Flood of Anson at left guard, Gene Millsap of Phillips at center, and Goryn Lee of Paducah at right end.

Substitute linemen are Top Rylee of Cisco at left end, Bill Jeter of Floydada, right tackle, Arkansas Allen of Breckenridge at right guard, Charles Spicer of Anson at center, Virgil Clark of Rising Star at right guard, Harold Hill of Cisco at right tackle and Leonard Grigsby of Floydada at right end.

Coach Davis and his traveling squad composed of some 30 men, along with the team managers, will leave the college at 1:30 p. m. Thursday by bus and plan to reach San Angelo at 5 p. m. for a light meal and a short rest period before game time.

TSCW Loan Fund Aids Students

DENTON, Sept. 13 — A student loan fund now totaling \$25,000 is available to students who attend Texas State College for Women, according to Jack Hester, Loan Fund Chairman.

Existence of the fund, now larger than ever before in its history, has enabled thousands of girls to complete their education and enter communities as college-trained women.

During the more than 40 years in which the loan fund has operated, girls who have borrowed from it have made a remarkable record of repayment, Hester stated.

Built up through contributions of individuals, women's clubs and student and ex-student organizations, the Student Loan Fund has been in operation almost from the time the college opened when need of assisting girls financially was first evident.

In 1936 Will C. Hogg of Houston, famed for his philanthropies, contributed \$50,000 toward enlargement of the fund.

Any girl who has graduated from high school in the upper half of her class, or any TSCW student or girl transferring from another college with a C average or better is eligible for a student loan.

Loans, extending over a two-year period with privilege of renewal, draw three per cent interest. Payment does not have to be made until the student completes her courses at the college and is ready to accept a position. Applications for loans should be made to the TSCW Loan Fund Committee.

Harwell and Sawyer May Be On Bench During Big Spring Game Friday

Listed as doubtful starters in the Lobo lineup against the Big Spring Steers at Chesley Field Friday night were Hub Harwell, quarterback, and Buz Sawyer, end. Harwell received an ankle injury that will possibly keep him on the sidelines during the entire game. Sawyer rehurt a leg in the game against Nocona and will see little if any action.

If Harwell shows sufficient recovery it is possible he will be in the starting lineup but it is doubtful if he remains in the

game for more than two quarters.

Coaches Everett and Overall were working hard on passes, both on offense and defense, this week and were stressing line blocking and end play. They were expected to shorten the practice session today due to the rain.

If Harwell and Sawyer are in condition to start Friday night Coach Everett will have eight seniors on the field for the opening game. The other three members of the starting eleven will be sophomores.

Seniors in the starting lineup are Porter and Sawyer, ends; Waddell and Boggs, tackles; Suggs and McMurtry, guards; Harwell and Callerman, backs; Sophomore members of the team are Evans at center, Johnson at are Evans at center, Johnson at

She then told of the organization of the City Federation and of the time when the building was purchased. The club house is shared by six clubs of the city which were each represented in the receiving line. Approximately 150 members may enjoy the meetings at the Club house.

The sum of about \$1000.00 was used for the remodeling program. Most of the rooms have been enlarged, the floors have had sandings, new coats of paint and paper and new fixtures have been added. In addition a "Powder Room" was added which will be equipped with the latest in furniture. Mem-

GROWTH OF POLIO CARE TEAM

Medical care for polio patients is costing the National Foundation for Infantile Paralysis more money than ever before—because better treatment is available today than formerly, as the accompanying chart reveals. Until 1938 when the National Foundation was formed, a physician and a nurse usually comprised the best available care. Today, modern polio treatment may include 13 specialized services, provided by an entire TEAM of professional workers. This expanded care has cost National Foundation Chapters millions in March of Dimes funds. More money is needed immediately to continue these services. Support today's polio patients. Send your contribution now to POLIO, care of your local Post Office.

G. I. SERVICE—The baby checking corner of a USO service center in Fayetteville, N.C., does a good business these days. Little Roger Westerling and 11-month-old Kenneth Stiner, children of service parents, have themselves a time while their mamas and papas do the family shopping or see a movie.

"WHEN OTHERS CAN'T — WE CAN"

Speaking on the Subject of Quality —

... It is always an appreciative compliment when so many of our customers tell us they like our abstracts. They must for many of them have been doing business with us for more than a quarter of a century, and still are. There is no secret attached to this expression of confidence. A quality product produces confidence. And we are proud that we have both — the confidence of a host of customers and a quality product to sell them.
