#### **Cotton Harvest Makes Progress**

Harvest of Texas cotton and sorghums in the northwest made good progress during the past week in cool open weather, and in south Texas supplies of commercial vegetables were increasing. Corn, sweet potato, peanut and rice harvest was practically completed in all areas. At the end of the week, light rains and drizzle again temporarily eased the droughty conditions over most of the State.

Except in a few widely scattered eastern and northern areas, nowever, soaking rains were still urgently needed to replenish soil moisture and bring on small grains, winter legumes and winter grass. Cool temperatures and dry soil in the northwest were slowing development of wheat. Very little grazing has been afforded to date.

Movement of commercial vegetables, although still comparatively light, started showing a gradual increase.

Dry range and pasture feed was very short and being consumed steadily in all areas. In the northwest, wheat was supplying a little green feed, but cool temperatures and dry soil was retarding development. A large tonnage of bundle feed was being trucked out of southern High Plains counties into the Edwards Plateau where dry ranges were practically bare. Supplemental feeding continued to increase. Lack of green feed for an extended period was causing vitamin deficiencies to show up among cattle depending upon Coach Scat Russell of Cisco dry range feed, especially in some central counties.

The Thanksgiving Youth Revival which was conducted over the past weekend at East Cisco the drills began. Bobby John Baptist Church resulted in eleven Huffmyer, All Texas Junior Col- additions, six for baptism, three lege Conference team member surrenders to special service, last season was the only veteran decisions, according to Paul

> charge of the nightly youth fellowship meetings.

The pastor described the Youth Revival as a success in every way and praised the work of the Christmas season, it's time again of credit customers. #### Two New Projects Slated For Area

Considerable interest was being shown today in prospective oil production and development in the area some seven miles north of Cisco. Two new projects were reported for that area and an offset to new Caddo production was being contemplated near Pueblo, 10 miles north of

Midway Oil Company of Lubbook has made location for their No. 1 W. H. Groves, one-fourth of a mile northeast of Lake sand production, seven miles north of Cisco. The Texaco Company recently completed a Lake sand well in that area.

Location for the Midway's 3,600-foot test is 330 feet from the south and 1.657 feet from the west lines of the northwest quarter of Section 473, SP Survey, Eastland County.

According to reports, the Cooper and Hemphill Company of Cisco is staking location in the same general area for a Lake sand test. Details of the project were not immidately avail-

McElroy Ranch Company was reported to be readying plans to drill an offset to their No. 1-B E. W. McCollum in Section 3199, TE&L Survey, Callahan County. a Caddo lime producer of some

135 barrels per day. The J. K. Wadley & Hilton et al No. 1 Mrs. Bernice McGough was reported as a failure, having been plugged at 3,450 feet, north of production in the Bankline-Owens field, northeast of Cisco. Location is in Section 42, Block

, H&TC Survey. Bankline Oil Company had a new producer in the field northeast of town. Their No. 3 C. E. Reynolds has been completed as a producer with a potential estimated at between 100 and 150

parrels per day.
Fred Pool Drilling Company was due to move in Thursday to drill the E. K. Carey No. 1 Masonic Lodge in south Cisco. Location will be on the old sales rn site just off Avenue D

Several other wells are ex pected to be sunk in the south Cisco townsite and the area improjects have been announced. including Jack Hailey's No. 1 Buying on credit is the easiest type of installment account. In Thelma H. Richardson and a well to be drilled by Wampler

Six miles southwest of Cisco. It was also announced that of the Merchants Credit Associaet al No. 1 T. T. Horn was drilling at about 3,000 feet. Located "Credit regulations have been 1,728 feet west of the company's new Strawn producer, on the "Because of the fact that open last year," Mrs. Huffmyer point- Leveridge Estate land, the Horn accounts aren't under any gov- ed out, "and many families who well was reported to have missed

> On the Hittson Ranch, north of Cisco, the Cities Service Oil Companys was reported to have set "You'll find that stores want appliance dealers. Maybe he can pipe over the past weekend in help you work out a trade-in a Lake sand prospect. It was which supplants your cash understood that the hole was carried to the Ellenberger lime. "Speaking for the members of but pipe was set to the Lake sand the Merchants Credit Associa- where observers predicted a good tion, I know I can say that we well would be completed.

#### a very Merry Christmas," Mrs. City Commission to make this possible. For years past people have been enjoying Has Regular Meet

Members of the city commission voted Tuesday night to raise the water rates of schools, churches, and other organizations to the "break even" point at a regular semi-monthly meeting at the city

Under the new plan, the schools churches and other groups will pay a straight 15 cents per thousand gallons - twice their former rate, Mayor G. C. Rosenthal reported. He said that figures show that it costs the city between 14 and 15 cents per thousand gal-

lons to deliver water in town The application of the City Cab Company to raise its basic rates day evening, Nov. 26, at St. Paul's from 35c to 40 cents for two people to ride was approved by ters came up for consideration.

#### When it comes to SERVICE

# PLYMOUTH IS THE CAR WITH MORE DEALERS, MORE TRAINED SERVICE-MEN, THAN ANY OTHER MAKE!

Professor "Tech," film character familiar to Plymouth servicemen, points out the newest and best service procedure. The latest educational aids, along with manuals, demonstrations, and practical "laboratory work" in the shop, are combined in a continuing "postgraduate" course. This unique, specialized training is one of the big reasons why forward-looking servicemen prefer to work for Plymouth dealers.

To many people, the kind of service that's behind a car is important.

Before buying, they wisely ask: "Where can I get service if I need it?"

#### Plymouth Dealers Are Everywhere

It makes no difference where you live, there's an expertly trained Plymouth serviceman near you. With over 10,500 Plymouth dealers

-far more than for any other make of car-you'll find a Plymouth dealer in or near every community in the nation.

#### 70,000 Master Technicians

Plymouth owners have available not only the most, but the best, service. Nearly 70,000 Plymouth servicemen are members of the Master Technicians Service Conference, the largest program of its kind in the world. In operation for more than 4 years, this is a continuing "postgraduate" course in the most accurate, surest ways of diagnosing mechanical difficulties . . . the newest, best service methods.

#### The Right Service at the Right Time

Plymouth Master Technicians are the kind of servicemen who can diagnose the complaint right offwithout costly, time-wasting guesswork and experimenting. Then they work to factory-approved standards, with factory-engineered parts. Result: The job is done properly. The Plymouth car is built to last

-to give you fine and dependable transportation at low cost. But when your Plymouth does need a checkup, minor adjustment, or repair, it's good to know that this fine service is always near you. It's part of the satisfaction, the sense of extra value, that you get when you buy a Plymouth.

Sublett, a person of un Association and its affiliates, sound mind, in 136-34 acres of providing for health education land in Eastland County, Texas and information programs, case described as follows: finding, research and other acivities to meet health needs in east part of Section No. 4, G. C

Ninety-four cents out of every lollar contributed in Texas is nvested in TB control activities within the State. Six cents is orwarded to the National Tuberculosis Association which operates exclusively on this proportion of the Seal Sale dollars contributed annually throughout the country. Medical research, statistical data, preparation and production of books, pamplets, posters, motion pictures, radio transcriptions, etc. — all promotand control of TB - are among the many services furnished by the NTA to its 3,000 affiliated organizations in all 48 states, the District of Columbia, Alaska, the Canal Zone, Guam, Hawaii and

#### **Texas Youth Wins** 4-H Club Honors

As a fitting reward for his excellent and constructive work in il saving 14-year-old Jerry C. McDaniel has been named the Texas winer of sectional honors in the 1951 National Soil and Water Conservation contest. As a winner in Cooke County, Jerry has already won a gold-filled medal of honor and he will be awarded a gold watch for his state honor. As one of sixteen winners, he was awarded an allexpense trip to the National 4-H Club Congress. The awards are given by The Firestone Tire & Rubber Company.

Jerry and his younger brother o all of the work on their fathr's 82-acre farm since the father employed in town. Their father has helped and encourged the boys whenever possible. The soil on the farm was being vashed away from lack of care. The first project was to terrace the entire farm. Six acres were set aside as permanent pasture and was furrowed on the contour to increase the water holdng capacity. Phosphate was aded at the rate of 100 pounds per acre. Lime was added later and the land was planted to

espedeza. Another six acres of pool land vas terraced, and lime, manure nd fertilizer added. The land vas then contoured and put to rip-cropping and crop rotation. is now a good producer.

Each year the orchard trees re pruned and the brush is tacked as game refuge. All ushes and vines that produce erries are left to feed wildlife During his four years of 4-H Club work, Jerry has been president of his club for two years and completed 32 projects including swine, poultry, dairy rops, garden and field crops.
