NUMBER 32

## The Gay Philosopher

By J. W. S.

THE STATE GAME Commission has definitely decided to go ahead with plans to drill a water well at their Lake Cisco Fish Hatchery, Supt. Walton Baum tells us. And they're due to commence drilling in the near future. Mr. Baum is obtaining bids at this time from contractors on the well.

Mr. Baum, who was just about marooned out at the hatchery Friday by the snow on the Lake Cisco Park road, has talked with geologists and others, and they're pretty well convinced that the valley below the lake will yield water in substantial quantities.

Mayor G. C. Rosenthal tells us that City Water Department Superintendent John Rodden will work with the hatchery people and observe the progress of the project. The city is very interested in the well due to the low level of Lake Cisco.

MR. BAUM, WHO is worshipful master of the Cisco Masonic lodge, also tells us that the lodge's building committee has authorized Architect John B. Hanna of Dallas to make a drawing and estimate the costs for a new Masonic building here. The lodge is due to receive the report in ten days or so.

A. D. Anderson, Jr., son of Mr. and Mrs. A. D. Anderson of Cisco, is connected with the Hanna firm and he will work on the Cisco project, we understand. A. D., Jr., has been with the Dallas firm since his graduation several years ago from Texas Tech.

A DALLAS NEWSPAPER contained an interesting item about Ciscoan the other day. The headline was "Add Music First," and the story reads as follows: Zelda Sandler (Cisco), SMU's first music major in percussion instruments, will graduate in June. But first, she will give the first percussion recital for the University at McFarland Auditorium in February. One recital piece will be a premier of Jack Kilpatrick's "Toccata for Symphonies." That's a lot of firsts.

Miss Sandler is the daughter of Mr. and Mrs. Charles S. Sandler of Cisco.

A NEW BUSINESS in Cisco is the Western Laboratories, Inc., an oil well logging service. Officials of the new company are Sterling Brunwright of Cisco and Paul Sautman of Abilene, a former geologist for Pan-American Oil Company. The firm plans to engage in well logging operations through out West Texas.

We all wish for the new company a lot of success.

THE MAIL BRINGS us the information that this is "Take Tea and See Week" in this country. We don't know what you are supposed to "see" when you take tea," but the story points out that a awful lot of famous men in our country are tea drinkers.

General Eisenhower, who becomes our president on Tuesday, is a day-long tea drinker. So's General MacArthur. And Thomas Jefferson was a sipper of strong tea. The average pound of tea is supposed to brew up 200 cups, but Jefferson got only 126 to the pound.

ANOTHER PIECE of mail comes from the Gold Standard League, an organization that was formed when the nation went off the gold standard years ago. And has been seeking to bring about the re-adoption of a gold convertible dollar every since.

This particular issue of the Gold Standard News carries an editorial urging the new administration in Washington to go northward to Fort Knox, Ky., and count the buried gold there. The News notes that "no independent audit of the gold reserves has ever been furnished to congress."

Guess they ought to count their money once in a while, wouldn't you say?

ANOTHER LETTER urges us to read a magazine article about a man who once bought the whole state of Texas in the same fashion that people sometimes buy the Brooklyn Bridge in New York. And the man's grave stone has this epitaph: "Here lies Hiram Johnson who owned the State of Texas. No man ever had a better landlord."

**AIR MAIL SHUTTLE**—Crowds gathered at New York's LaGuardia Airport when the city's first air mail helicopter took off with a batch of "first-day covers" for Idlewild Airport. The new shuttle service between airfields was slated to include a hop to Newark, N. J., but a heavy fog over that area stayed the courier from the swift completion of that appointed round. The trip was postponed.

## LOBOES DROP CONFERENCE TILT TO FAST RANGER QUINTET, 33-51

The goal shooting of the Cisco High School Lobos was as cold as the weather in Ranger Friday night as they dropped their opening conference basketball game to the Ranger Bulldog quintet by a 33-51 score.

The Lobos played a good hard ball game but were unable to sink their shots. They made only two field goals in the first half and five in the second half.

## March of Dimes Containers Out For Fund Drive

Local March of Dimes committees in charge of distributing small iron lungs and individual banks in business houses have completed their work and it was believed that every business house in Cisco was covered, it was announced Saturday by Mrs. Lewis Starr, general chairman.

Mrs. Starr said that the committees had attempted to reach each firm and that she believed that they had, however, she asked anyone who was missed to call her at 380-W.

Mrs. Starr was to meet with the dance committee Saturday to make plans for the March of Dimes dance to be held later in the month.

She called on all Cisco to work with her and the committees in putting the drive over the top. She pointed out that the quota was large but that the need was greater. The quota calls for one dollar for each individual in Cisco.

Meanwhile, the Bulldogs were hot and were netting the ball from every angle. Carter and Mendoza were the big guns in the Ranger offense with 15 and 14 points respectively. Carter made as many field goals as all five of the Lobo players.

Coach Overall was high in his praise for the hustle and fight of the Lobos in their initial conference contest.

Jim Webb was high point man for the Cisco team. He made two field goals and six free throws for 10 points. Irvin Brunkenhoefer was in second place with seven points. Hinds of Ranger made 11 points to take third place behind his team mates, Carter and Mendoza.

Tuesday night the Lobos go to Stephenville for their second conference game. The Stephenville-Comanche game scheduled for Friday night, was postponed due to the weather.

## Minstrel Show Audience Due To Attend Political Meeting

The audience at the minstrel show, which the Cisco Volunteer Fire Department and the Cisco Booster's Club will present Monday night, Jan. 26, at the high school auditorium, will be looking in on a political convention.

It will be a belated convention of disgruntled people not satisfied with either the Democratic or the Republican candidates. The fact that the new president will already be in office will cut no ice with this convention.

Entitled "Convention Blues," the program will feature black-faced delegates at a convention. Entertainment features will be presented with Lewis Starr, as Colonel Footlight, in charge. A seven-gun man will be the colonel's bodyguard. The man with the firearms will be Randy Steffen, the artist.

Convention delegates will include Sutton Crofts, Texas; Jimmie Fitzgerald, Puerto Rico; Ralph Glenn, Tennessee; Carl Gorr, Alaska; J. L. Stafford, Maine; C. W. Henry, Illinois, and Coy Warren, delegate at large.

Noted personalities will find places in the convention picture, including: Estes Keepoffer, L. L. Vann; Margaret Truman, Paul Farrow; Harry Truman, Homer Ferguson; W. Lee O'Daniel, Fleming Waters; and Thomas E. Dewey, Bill Lee.

Entertainers will include Gyration Jones, Jack Chambliss;

Sugar Throat, Stanley Webb; Crosby Jones, Rev. Sidney Spain; Lightning, J. H. Latson; Sassafras, Bob Latson; the Big Bass, Ace Lucas, and Miranda, Mrs. Stanley Webb.

Radio and press representatives attending the convention will include Roy Huffmyer, Don Purdy and Ted Waters. Other characters will be portrayed by Bill Kendall, Gene Abbott, Joy Laws, Jack Farleigh and Elsworth Mayer.

Tickets are being sold by firemen and booster's club members. Proceeds will be used by firemen to equip their emergency car and a fire truck with radios.

Mr. and Mrs. Frank Richardson of Wichita Falls were expected Saturday for a weekend visit with Mr. and Mrs. W. Z. Latch and other relatives.

Mr. and Mrs. G. W. Wilcox, Jr., and son, Butchie, were recent visitors in the home of their daughter and husband, Mr. and Mrs. Bill Russ, in Fort Worth.

Mrs. Dora E. Kennedy has returned to her home in Abilene after a visit in the home of her daughter, Mrs. V. H. Bosworth and family.

Mrs. Lorraine Churchill of Dallas is visiting in the home of her daughter and family, Mr. and Mrs. Jeff Gregory.

Mr. and Mrs. Harry Alkire have moved to Lubbock to make their home.

Mr. and Mrs. Dowell Boggs of Denver, Colorado, spent the past week in the home of his parents, Mr. and Mrs. Brady Boggs.

## PLANS COMPLETED FOR MARCH OF MOTHERS AGAINST POLIO

By MRS. R. H. CUTTING  
Chairman of the Mothers March Committee

Mothers in Cisco are rallying to take part in the "Mothers March On Polio" to be staged throughout the community on the evening of January 29. Mrs. Lewis Starr, Cisco March of Dimes chairman, has designated the hours between 7 p. m. and 8 p. m. as the time for this final phase of the campaign against infantile paralysis.

The local Mothers March On Polio, Mrs. Starr said, is part of an identical nationwide movement in which hundreds of thousands of mothers will participate.

"Here's the way the mothers will work," Mrs. Starr said. "Between the hours designated every resident of Cisco will be asked to turn on his porch light — or burn a light in his window — if he wishes to contribute to the March of Dimes."

"Then the mothers will march, street by street, block by block, house by house, receiving contributions to this year's campaign against polio."

The basic organizational plan calls for the appointment of an area chairman, district captains, lieutenants who will lead sections of the community, block wardens who will assign eight to ten houses each to the mothers who will make direct contact with the contributors. It is hoped that every house in Cisco will be visited so that all may have the opportunity to give to the polio fund.

Mrs. R. H. Cutting and Mrs. Bethel Gallagher were appointed area chairmen and released the names Saturday of the district captains and section lieutenants who are busy recruiting block wardens and contacting mothers. Women who have volunteered to serve as section lieutenants are: District I, Mrs. Jeff Gregory, captain — Mrs. I. D. Reynolds, 1411 Bliss; Mrs. Don Choate, 401 Front Street; Mrs. J. W. Sitton, 1494 Ave. N and Mrs. Jack Pitzer, 1302 West 13th.

District II, Mrs. Richard Turkinett, captain — Mrs. E. L. Jackson, 408 West 19th; Mrs. Anton White, Rising Star Highway; Mrs. Douglas Hill, 1809 Ave. D, and Mrs. E. H. Cheeves, Humboldt.

District III, Mrs. Harry Schaeffer, Captain — Mrs. Earl Mayhew, 607 West 4th; Mrs. L. C. Burzenski, 406 West 6th; Mrs.

## Four Ciscoans To Get NTSC Degrees

DENTON, Jan. 17. — Four students from Cisco have applied for the bachelor's degree at North Texas State College.

These students are Donald Kent, son of Mr. L. Kent of Cisco; Jacky Milner, son of W. W. Milner and Mrs. C. R. Hill of Cisco; Elzie Lee Clay, son of Mr. and Mrs. W. B. Seabourn of Cisco; and Alice Joanne Bearman, daughter of Mr. and Mrs. R. A. Bearman, Cisco.

Degrees will be awarded at the winter commencement exercises at 3 p. m. Feb. 1 at NTSC.

The Rev. John G. Marvin, pastor of the Denton First Presbyterian Church, U. S. A., will be the principal speaker at commencement, when about 200 bachelor's degrees will be conferred.

Troy Stewart, 408 West 12th, and Mrs. Carrell Smith, 1204 Ave. G. District IV, Mrs. M. Slaughter, captain — Mrs. J. T. Richardson, 504 East 8th; Mrs. O. E. Qualls, 1207, East 14th; Mrs. Jesse Youngblood, 1210 East 14th, and Mrs. A. F. Miller, Hickory Street.

District V, Mrs. Zan Burroughs, captain — Mrs. Douglas N. Busby, College Heights; Mrs. Claude Ingram, 406 Jefferson; Mrs. Mary F. Jones, teacher of the Negro school, and Mrs. Harry Donica, Breckenridge Highway.

The organization is not complete, the area chairmen reported. "We must now secure that all-important corps of workers — the contact mothers, who, during that hour long drive will visit every house in Cisco so the occupants may join in the fight against polio."

"The contact mothers," they added, "form the mainspring of this event in the 1953 March of Dimes. The efforts of the mothers of Cisco will be essential to the success of the drive; consequently, in the interest of our local boys and girls, we urge every mother who can possibly spare that one hour the night of January 29, to join the Mothers March on Polio and give a helping hand to those who cannot help themselves."

Volunteers were asked to call Mrs. Cutting at 1130, Mrs. Gallagher at 1170-J or the lieutenant in the section in which they live.

## Shivers To Head Heart Campaign

Governor Allan Shivers will serve again as the honorary state chairman of the annual Heart Fund campaign, it has been announced by S. E. McCreless of San Antonio, state chairman, and Bruce Barton, national chairman for the 1953 Heart Fund.

Attorney General John Ben Shepperd and State Insurance Commissioner George B. Butler will serve with the governor as honorary co-chairmen. McCreless also announced that William Rawland, Cleburne publisher and president of the Texas Press Association, will be publicity chairman for the February campaign, and that Ben H. Wooten, president of the First National Bank in Dallas, will be state campaign treasurer.

"The continued interest and counsel of these outstanding men augurs well for the success of the 1953 Heart Fund," McCreless declared.

The state campaign chairman pointed out that "the Heart Fund supports skilled research investigators in their quest for new weapons against the diseases which constitute the nation's leading public health problem."

The research financed from contributions made during the 1953 Heart Fund will be designed to find new drugs, surgery and diagnostic aids which help in the prevention, care and treatment of heart ailments, McCreless explained.

"In addition to research," McCreless said, "the Heart Fund provides for extensive educational activities which are designed to eliminate unnecessary fear and to acquaint the public with the programs conducted to combat heart diseases."

Mr. and Mrs. Frank Richardson of Wichita Falls were expected Saturday for a weekend visit with Mr. and Mrs. W. Z. Latch and other relatives.

Mr. and Mrs. G. W. Wilcox, Jr., and son, Butchie, were recent visitors in the home of their daughter and husband, Mr. and Mrs. Bill Russ, in Fort Worth.

Mrs. Dora E. Kennedy has returned to her home in Abilene after a visit in the home of her daughter, Mrs. V. H. Bosworth and family.

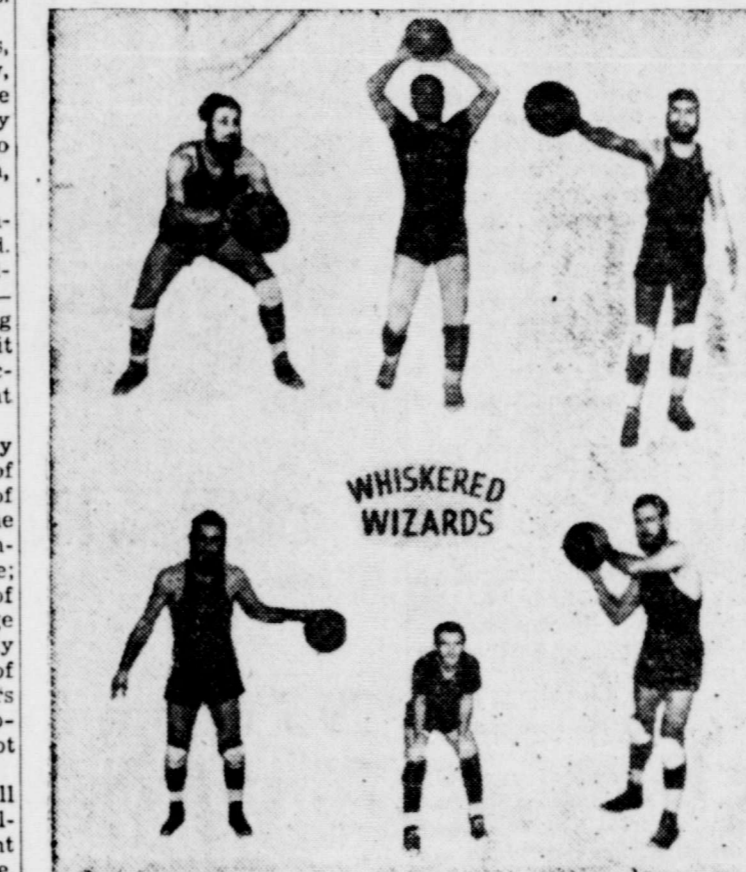

Mrs. Lorraine Churchill of Dallas is visiting in the home of her daughter and family, Mr. and Mrs. Jeff Gregory.

Mr. and Mrs. Harry Alkire have moved to Lubbock to make their home.

Mr. and Mrs. Dowell Boggs of Denver, Colorado, spent the past week in the home of his parents, Mr. and Mrs. Brady Boggs.

## Mid-Texas Presbytery Plans Winter Meeting Here Tuesday

### Whiskered Wizards Are Coming

The famous Whiskered Wizards will bring their basketball team to Cisco on Thursday night, Jan. 22, to play the Cisco All-Stars in a game at the Community Gym. Proceeds from the game will be used by the Cisco Booster's Club and the high school athletic fund.

The Wizards, shown in the picture above, have made an impressive record during several years of playing throughout the country. They have appeared in Cisco on several occasions. Members of

the team are (top row in the picture) Jim Keller, Gerry Peters, and J. T. Rakestraw and (bottom row) Red Roberts, Carl Medley and Johnny Stroud.

The players are former college stars and their games are always highlighted by entertainment features, including their famous hidden ball trick.

The Cisco All-Stars will include a group of former star players, assisted by the Cisco Junior College Wranglers.

## COLLEGES ARE EXPECTING BIG INCREASES IN STUDENT BODIES

AUSTIN, Jan. 17. — Texas colleges and universities, expecting their smallest crop of entering freshmen in many years in September of 1952, found themselves with an increase of 3.5 per cent and are now trying to estimate what the next few years may bring.

They are faced with increasingly larger high school graduating classes and a flood of returning veterans from the Korean conflict. Barring a major national catastrophe, such as all-out war, the number of Texas boys and girls seeking college entrance in the next few years should mount rapidly, according to a study just completed by the Council of College Presidents of State Supported Colleges and Universities.

The 1952 enrollment of entering freshmen had been expected to be low as a result of the changeover which Texas made a decade ago from eleven to twelve grades in its public school system. When the change was made some schools eliminated the second grade for that year while

others split the second into second and third grade classes.

In 1952 the group that formed the "splinter" second grades ten years ago were graduating from high school. For the first time in years the total number of high school graduates in Texas dropped sharply. The number of freshmen entering college the following fall was expected to drop in proportion. Instead, a much larger percentage of the June graduates enrolled in college in September than at any time in the past, and an increase of 3.5 per cent in entering freshmen was reported.

Records of the Texas Education Agency show the number of white high school graduates in Texas in 1951 as 43,663 and in 1952 as 39,091. In the face of this drop, a survey by the Council reveals, the 16 state-supported colleges and universities for whites in Texas enrolled 9,439 new freshmen in 1951 and 9,772 in 1952, an increase of 3.5 per cent.

Next year Texas returns to a

## MAYOR ASKS LEGISLATORS FOR SUPPORT OF CITIES' MEASURES

Legislation sponsored by the Texas League of Municipalities, which advocates allocation of part of the state gasoline tax to cities, was supported last week by Mayor G. C. Rosenthal of Cisco in letters to State Senator Wayne W. Wagoner and State Representative Omar Burkett.

In letters to the two legislators from this section, Mr. Rosenthal noted that Texas cities are facing ever increasing needs for more revenue.

"Most cities are operating in the most business like and economical manner possible," the mayor wrote, "but they are being 'squeezed' by added expenses that they have no power to control. Freight rates have increased. We must keep our fire equipment up to inspector's requirements or our citizens suffer increased rates. We are forced to increase water rates

because material costs have skyrocketed. Veteran city employees are underpaid, and this problem is general over the state.

"We believe that cities with the power to levy on property that is now escaping taxation, or taxes paid which the cities do not receive a share of would be of great help to us. The question has been raised that the cities should not share in the gasoline tax because it would establish a dangerous precedent. We do not wish to take any revenue away from any other governmental body, but we believe a precedent has already been established when the counties and schools are allocated a share of the gasoline tax. It is a well known fact that an automobile spends the greatest share of its usage on city streets.

"Your support of legislation sponsored by Texas cities will be greatly appreciated by the city commission and the citizens it represents."

## Education Group Will Meet Monday

Ministers and one elder from Presbyterian churches throughout this region are expected in Cisco on Tuesday for a regular meeting of the Mid-Texas Presbytery, the Rev. Grady James, local pastor, reported Saturday.

The Rev. W. C. Cooper, Coleman pastor, will address the meeting at 11 a. m. Tuesday. A communion service will follow. The Rev. Flynn V. Long, former Austin pastor, will be introduced as the new executive secretary of the presbytery at the meeting.

Rev. James said the visitors would discuss general church business at the winter meeting. The presbytery's committee on religious education will hold a meeting here all day Monday, Rev. James said. This 12-man group is headed by the Rev. James Garvin, Mineral Wells pastor, as chairman.

## Former Ciscoan Dies In Anson Saturday

Word was received in Cisco Saturday of the death of J. P. Booth, father of Mrs. Frank Walton of Cisco, who died in an Anson hospital at 7 a. m. Saturday. Mr. Booth, a retired railroad worker, formerly lived in Cisco. Funeral plans were incomplete Saturday afternoon, but it was announced that burial would be in Oakwood cemetery here at 2:30 p. m. Sunday.

## Booster's Club Will Hold Meeting Monday

President Bob Latson of the Cisco Booster's Club reminded members of the regular meeting to be held in the choir room at Cisco High School at 7 p. m. Monday, and urged all members to attend.

Latson said that important business matters would be discussed and current projects reviewed.

## WOODMEN WILL MEET

The Cisco Camp No. 500, Woodmen of the World, will meet Tuesday evening at 7:30 o'clock at the hall for a special business meeting. All members have been urged to be present.

## DAIRYMEN TO MEET

The Eastland County Dairy Association will hold a regular meeting at 7:30 p. m. Tuesday at the First National Bank's community conference room, Secretary Marshal Berry has announced. All members of the organization and others interested have been invited to attend.

## SERVICES ANNOUNCED

Installation services for the officers of the Order of Rainbow for Girls and of the advisory board will be held at the regular meeting Tuesday night at the Masonic Hall at 7:30 p. m. Mrs. Zan Burroughs will be installed as mother advisor and Lundy Ann Hooker as worthy advisor. All members were urged to attend.

Rev. and Mrs. F. C. Bradley, Jr., Mr. Henderson, Miss Ola Henderson, and Mesdames J. O. Warren, H. O. Mosley, B. F. Thomas, R. C. Smith, Pauline Taylor, A. L. Coats, Cecil Adams, V. H. Bosworth, Dora E. Kennedy, and Frank Wood were among those from Cisco attending the workers conference in Albany last Tuesday.

Mrs. Clarence Moon and Mrs. Frank Bond visited Mrs. Bond's mother in Graford Wednesday.

Mrs. Eldon Halbrook and children of Odessa were expected Saturday for a weekend visit with Mrs. Mabel Alkire.

**THESE THINGS WE KNOW**

The curtain which separates the present from the future does not contain any peepholes. It is solid and impenetrable. It is not given to us to know for sure what lies beyond it.

The best we can do in our efforts to prophesy the future course of human events is to base our predictions upon the experiences of the past, aided by the light of the present.

But even this is none too accurate, for no one can foresee what social, economical or political upheaval may radically and abruptly change the trend of present conditions.

But despite all of the uncertainties of life which the future may have in store for us, there are a few basic things about 1953 which we can predict . . . positively. We know, for example, that we shall experience many problems, for life and business is a constant succession of problems;

that people will continue to react favorably to kind, courteous and thoughtful treatment; that if we are to enjoy personal and business friends, we must earn and deserve their friendship;

that our friends, our neighbors and the public will continue to judge us individually — and as a railroad — by what we do from day to day rather than by what we say;

that we shall not be able to get out of life more than we put into it;

that the success of our railroad in 1953 will be measured — to great extent — by the interest and the efficiency by which we personally and collectively perform our respective duties;

that if we give much to the public in the way of efficient and courteous services, our business reward will be much;

that slight, imperceptible changes will continue to take place daily in our personal lives and in the operation of our railroad;

that as an individual and as a railroad, we shall move forward or backward — for we cannot stand still — and finally,

that one of the best and surest ways of winning personal and business friends — and of enriching our lives — is to practice daily the Golden Rule in our relationship with our fellow worker, our neighbor and the public.

All of these things we know definitely about the course of human events in 1953. The list could be expanded, but it is sufficient to guide us . . . to give us courage . . . and to give us hope as we face the New Year.

So guided and sustained, it is my conviction that we shall move forward in strength in 1953.

It is my sincere hope that the men and women of our railroad will be richly blessed with good health and happiness throughout the New Year. — By W. G. Vollmer, President, the Texas and Pacific Railway Company.

**BUILDING MATERIALS**

"...LOVERS OF PLEASURES MORE THAN LOVERS OF GOD..." II TIM. 3:4

**No Room for a Garden? Then Build a Window Box**

Here is a message for those who live in city apartments, but dream of the country, buy the garden magazines and read the garden section of the newspaper.

Your interest in gardening is deep seated, and you will be happier if it can be satisfied. Have you thought about the possibilities of a window box?

Here is the type of garden which everyone can grow, whether he lives in a suburb or a city. It will serve two purposes, first to decorate the house you live in, and what is even more important, it will satisfy to a surprising degree your desire to grow things. To get this satisfaction, you must give serious attention to selecting the plants to grow, preparing fertile, porous soil, and if possible growing your own plants. It will be an excellent beginning to make your own window box, which can easily be done from the diagram herewith.

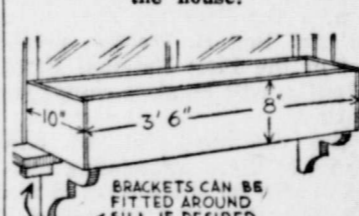

For a standard single window, a box 3 1/2 feet long, 8 inches deep and 10 inches wide is a good size. But measure your windows and make boxes to fit. Where larger, or multiple, windows demand greater length, the other dimensions must be larger in proportion, or single boxes may be provided for each window in a group. Think of the box as a decoration of the house; make it of a suitable size and a color to match the house color or trim. The flowers should be chosen to furnish a contrasting, yet harmonious color accent. There is a wealth of suitable varieties from which to choose.

Rich soil, of the type which florists call potting soil, must be used for window boxes. Because there is so little of it to feed the flowers, it should be well fertilized. A tablespoonful of chemical plant food for each square foot of soil should be used.

For the annual flowers, at least six hours of sun a day is necessary and this requires a south window. The best subjects are those of dwarf or trailing habit, the latter drooping festoons of bloom from the boxes. Petunias of the balcony type are excellent, as are the tall nasturtiums, the giant morning glories. Dwarf petunias, marigolds, ageratum, cal-

A window box should decorate the house.

Working drawing of Window Box

loppis, annual pinks, lobelia, dwarf morning glories, phlox, and zinnias can be grown. Boxes which spend most of the day in shade offer a special problem. If the shade is that of a building, perhaps only foliage plants can be grown, such as ferns, fancy leaved caladiums, crotons, rubber plants and other florists' subjects.

If there is some sun, begonias will probably do well. Impatiens, the Zanzibar balsam, bearing those of salmon or rose on bushy plants 18 inches tall, are excellent in semi-shaded places. Violas thrive in partial shade, and the list of flowers which will do well increases as the amount of sun is enlarged.

**Research To Conquer Polio Goes On**

The fight against polio goes on night and day in our great research laboratories. Tremendous strides toward eventual victory over this dread disease were announced recently, but years of costly work remain ahead before this goal can be realized. Virus scientists at Lederle Laboratories Division, American Cyanamid Company, Pearl River, N. Y., examine an experimental polio vaccine just as it comes from the centrifuge, a machine important in this type of research.

They are, left to right, Dr. Victor Cabasso, Dr. Herald Cox and Dr. Manuel Roca-Garcia. These three scientists figured prominently in the news recently when Lederle announced that a modified live virus vaccine, effective only in animal studies against one deadly type of polio, can be produced easily in chicken's eggs.

# SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

## Word Home Club Holds Meeting On Thursday

The Word Home Demonstration Club met Thursday, January 15, at the home of Mrs. J. E. Shirley for their regular meeting. The meeting was called to order by Mrs. Ernest Schaefer, vice president, and roll call was answered by giving their favorite vegetable. Minutes of the previous meeting were read and approved.

Mrs. M. O. Smith gave the council delegation report and Mrs. J. E. Shirley reported on the officers clinic held in Eastland last Monday. An announcement was made of the County Federations Clubs to meet in Rising Star Saturday. A donation was made by the club to the March of Dimes.

Miss Daniels, county agent, gave the lesson on Home Gardening and balanced diets after which refreshments were served to Mrs. F. J. Harrelson, Mrs. Lilly Fenley, Mrs. M. O. Smith, Mrs. Ernest Schaefer, Mrs. Jess Youngblood, Mrs. Dee Clements, Mrs. Dennington, Mrs. J. E. Shirley, Miss Willie Word, and two visitors, Miss Daniels and Shirley Ann Fowler.

## Education Agency Is Urged To Push Wildlife Studies

AUSTIN, Jan. 17. — Wildlife authorities in Texas are heartened by the action of the school administrators in embracing the idea of resource-use education for the schools and urging the Texas Education Agency to go forward with plans to implement the program.

The Director of Conservation Education and Departmental Publications for the Game and Fish Commission said the step "marks another important milestone in the march toward conservation education for the youth of Texas."

Heretofore, he said, the approach has been through teacher groups and through piecemeal contact with the classroom. The need is so great and teachers and students alike have responded so well that school authorities have realized that the subject deserves a definite place in the regular school program.

"This recognition from the school administrators," said the Director, "not only clinches the gains we have made through informal procedure, but it clears the way eventually to reach all the people of the State."

He added, "Since it is no longer debatable that the conservation of our natural resources is a matter of concern to us all, it seems logical that the boys and girls should be given an opportunity for first hand study of the subject of conservation."

He said, "The Game and Fish Commission has taken an enthusiastic interest in resource-use education since wildlife itself is so closely linked with the forests, the water, the soil and the other elements."

"After all," he went on, "the goal of conservation is naturally the general improvement of the level of living for all the people."

## First Baptist WMU Has Regular Meeting

"Baptist Women Around the World" was the theme of the program presented at the regular W.M.U. meeting of the First Baptist Church held Tuesday at the church with Circle Seven in charge.

The meeting opened with the song, "Send The Light," led by Mrs. J. B. Popalio. The scripture reading was read by Mrs. Fay Johnson. Those taking part on the program concerning history and progress of the Baptist World Alliance were Mesdames Ruby Latson, Helen Brashear, Loretta Reynolds, Fay Johnson, and Billie Barnby.

Approximately twenty members attended.

Edgar Pence has been ill at his home for the past few days but is reported as improved.

**HARD PRICE TO PAY**—As a little experiment, Danny Mele, two, placed a washer on his finger and pretended it was a ring. When Chicago fire lieutenant John Brennan, left, was called in to get the washer off, Danny was obviously afraid the finger might go with it. Fireman John Jariss lent moral support to the lad.

## Colleges Are — From page one

normal situation, with a high school graduating class that has not been subjected to division or elimination of one grade. The number of high school graduates can be expected to jump appreciably.

Until recently, probable enrollments of freshmen for a number of years ahead could be estimated with reasonable accuracy on the basis of the state's birthrate records of 17 and 18 years before. Since we are now graduating boys and girls born during the period when the Texas birthrate was climbing out of the depression lows the number of graduates from our high schools would normally increase each year. Now it is reasonably certain that the increase will be accelerated by the fact that a larger percentage of each year's high school graduating class goes on to college.

Add to this picture a new influx of veteran students from Korean service, and the certainty of increasing numbers of freshmen becomes formidable. Reports from Selective Service Headquarters in Texas show that of the 23,605 Texans inducted and enlisted during the months of September, October and November of 1950, 17,342, or 73.47 per cent were released within 24 months. From September 1950 through October 1952, 137,862 Texans entered the service. If the same percentage is released in 24 months, 115,901 will be released during the period from August 1952 through September 1954.

Of the 15,800,000 veterans of World War II, 2,500,000 or 15.82 per cent attended institutions of higher learning under the G. I. bill. If the same percentage of Korean veterans choose to attend college, 18,248 of them will be entering Texas colleges in the next two years.

## HEALTH TALKS

Prepared by the Texas Medical Association

Breathing is the first and last act of life. Because of it we can sing, laugh, and talk, yet usually we are unaware of our breathing, just as we are of many other functions of the body.

The rate of breathing can be influenced by the same things as the pulse rate: emotions, exercise, position, or disease. Even while reading this article, thinking about your breathing may speed up the rate of your respiration a little. It is because of this emotional factor that a nurse when counting the rate of breathing does it without attracting the patient's attention, if possible. She may have just finished taking the pulse and instead of removing her fingers from the patient's wrist, allow them to remain there while she watches the rise and fall of the chest. To be even less conspicuous, she may draw the patient's arm across his chest and feel its rise and fall with her fingers still in position for taking the pulse. Each rise of the chest is counted for a minute using a watch with a second hand to get the rate of respiration.

The breathing rate is directly related to the pulse rate, usually in the proportion of 1 to 4; that is, you would expect the corresponding rate of breathing to be about 20 if the pulse rate is 80. Respirations may be described as deep or shallow, depending on the amount of air taken in and forced out with each breath; as regular or irregular; noisy or quiet; sighing or yawning. Therefore, when counting the breaths, the nurse observes their rate, the position of the patient, and the move-

ments and expansion of the chest and possibly the abdomen. As with the pulse rate, the rate of breathing varies with age, a child breathing more rapidly than an adult. For instance, an infant breathes from 30 to 40 times per minute, a child from 20 to 25, and an adult from 14 to 18. The rate of breathing is a measure of how well the respiratory system, and other systems of the body as well, function.

**IT'S THE LAW**  
*in Texas*  
A public service feature  
of the State Bar of Texas

The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. Last week we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants. As a basis for our search of the law, it may be well to recall that the separate estate of a

**EVERY LITTLE BIT HELPS**—Mrs. L. E. Gore is working on a two-and-a-half-yard-long Australian flag which is being made by a factory in London that is turning out decorations for the Coronation next June. The firm has made decoration materials for British ceremonial occasions since 1805, and the next Coronation will be the seventh they've worked for.

husband or wife includes property owned by either before marriage, and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now let us get on with the problem. Here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property — cash, stocks, bonds, furniture, or other items not constituting real estate — is different. Here the surviving spouse gets full ownership of one-third, and the children and their descendants inherit the balance. Now, suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the

half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only one half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half. Where no parent survives, but there are brothers and sisters and descendants, the full one-half is divided among these survivors.

And, if there are no parents or brothers and sisters (and their descendants) surviving, then the surviving husband or wife inherits all of the real estate.

Mrs. G. W. Wilcox, Jr., was a business visitor in Brownwood last Monday.
